Lunenburg Skipper Says He
was Outside Limit

Captain of the Gardner Held
in Bail After Seizure With
Liquor on Board—Declares
He was on Lawful Business.

(Canadian Press.)
New York, Sept. 15.—Captain Betts, skipper of the 100-ton Lunenburg, N. S., schooner M. M. Gardner, was being held by federal authorities today on \$5,000 bail, following the seizure of his boat and cargo on last Wednesday night by the U. S. "prohibition navy" vessel Taylor. Betts, who is only twenty-nine years of age and who claims Lunenburg as his home, appeared before U. S. Commissioner Stanton in Hoboken. He and members of the crew were charged with conspiracy, illegal landing and violation of the dry laws. Seaman Hines, Rockell, Bushler and Merritt were held in \$500 bail each. Supercargo H. Butler, from whom federal agents took \$14,789 United States currency, was held on similar charges and later released on \$5,000 bail.

Federal authorities are holding 100 cases of liquor taken from the schooner, and, in addition to the currency found in Butler's pockets, have \$36,886 found in a sealed wooden chest in the captain's cabin.

It developed before Commissioner Stanton that the M. M. Gardner had been captured after a chase of five miles, during which attempts were made to ram the U. S. craft. Captain Betts admitted the attempted ramming, but says that it was beyond the three-mile limit and that he took the prohibition boat for a pirate craft. Officers of the Taylor say the schooner surrendered only after a one-hour gun battle had been trained on her at close range.

The Gardner is a fleet Grand Banks fishing schooner and once made a record run from Nova Scotia to Portugal with dried fish.

Capt. Betts declared he was seized at least thirteen miles beyond the legal limit. He denies the charges of rum-running and says he was engaged in the lawful carrying of liquor between St. Pierre de Miquelon and Nassau, Bahamas Islands. The clearance papers show that the Gardner left Nassau for St. Pierre de Miquelon with 8,000 packages of liquor, including champagne.

AGREE TO LEAVE "OBEY" OUT OF THE MARRIAGE SERVICE

House of Bishops Accept a
Change in Divorce Canon
of Episcopal Church in the
U. S.

Portland, Ore., Sept. 15.—The House of Bishops of the Protestant Episcopal church in the U. S. late yesterday accepted a change in the divorce canon of the church proposed by Bishop G. H. Brent of Western New York, which makes the church law explicit in forbidding members marrying any divorced persons, except, as has been the rule, where a divorce has been granted on grounds of infidelity.

The House of Deputies concurred in the action of the House of Bishops in eliminating from the marriage ceremony of the Episcopal church the words "obey" said by the bride and the words "with all my worldly goods I thee endow," said by the bridegroom. There was a debate over the elimination of the word "obey," but no discussion by the deputies on the bridegroom's clause as to property.

Attempts to Capture Capital.

(Canadian Press Cable.)
London, Sept. 15.—A U. S. destroyer which has arrived at Piraeus, Greece, reports that the Turks entered the British consulate at Smyrna and murdered an official who was assembling the archives, says a Reuter despatch from Athens today. Postmaster Wilkinson is also said to have been murdered, as well as other British nationals. Sir Harry Lamb, the consul general, is believed to have escaped on board a warship.

BRITISH THREATEN BOMBARDMENT.
London, Sept. 15.—The admiral commanding the British squadron at Smyrna has warned the Turkish authorities in the city that if the massacres are continued the Turkish quarters will be bombarded, says an Exchange Telegraph despatch from Athens.

**REV. S. GATES OF
THE U. S. SLAIN.**
Bombay, Sept. 15.—A member of one of the American missions, L. S. Gates, aged seventy-seven, formerly of Hartford, Conn., was murdered on September 6 at Bijapur, formerly the capital of the Mohammedan kingdom of Bijapur, but now almost in ruins. The police have placed a Mohammedan under arrest.

**THEY'RE NERVOUS
IN CONSTANTINOPLE.**
Constantinople, Sept. 15.—The Turkish Nationalist army is now within thirty-five miles of Constantinople. The population is in a state of nervous tension, and the entire city is rife with rumors about Mustafa Kemal Pasha's designs upon the capital.

One story is that the Nationalist commander has sent an ultimatum to the Allied powers demanding the evacuation of the forces from the city so as to permit the entrance of the Turkish Nationalist army. Another is that Nationalist troops have crossed over the Gallipoli peninsula from Chanak, planning to march into Thrace with the object of taking Adrianople.

Ten thousand Armenian refugees have arrived in the Bosphorus on sea vessels, and will be given shelter in the Armenian churches of the city.

**BRITISH NOW
TO KEMAL PASHA.**
London, Sept. 15.—The British cabinet has been summoned for this afternoon with the principal object of discussing the Near Eastern tangle.

Prime Minister Lloyd George came to London this morning from the country for preliminary discussions with his colleagues, all of whom, except the Earl of Balfour and H. A. L. Fisher, who are in Geneva, are expected to attend the important council.

It is believed the meeting will have before it definite statements from the French and Italian governments indicating their respective attitudes toward the problem, the solution of which continues to be a subject of eager and anxious speculation.

Opinions here are much divided regarding the Turkish claims. One view, which is strongly supported by the press, is about Great Britain's only interests lie in the freedom of the Straits of Dardanelles, and that if this is ensured she need not worry over the future position of Thrace and Constantinople.

Others are less easily satisfied and regard the restoration of Thrace and Constantinople to their former owners with the greatest disfavor, while a third faction is apparently won over by the restoration but only on condition that Roumania and Jugo-Slavia agree.

The London newspapers again today urge the necessity of an agreement among the Allies, and declare it should be brought about quickly, before the situation becomes further complicated, especially before an outbreak of fresh fighting which might again set Europe aflame.

London, Sept. 15.—One of the possible immediate results of this afternoon's British cabinet conferences it is believed, is that Mustafa Kemal Pasha will be informed that he will be met not only by British troops and British ships, but by a Jugo-Slavia army if he attempts to occupy Constantinople and cross the Straits of the Dardanelles.

It is an established impression in military circles that the Turkish Nationalist army is large enough to take the Turkish capital if Kemal so desires; also that he has sufficient guns to drive the fleet out of the Bosphorus. It is considered unlikely, however, that he would take such desperate measures unless he was persuaded that in no other manner could he obtain the capital or Thrace.

KEMAL PLANS POSSESSION OF CONSTANTINOPLE

March on City Unless Powers
Hand it Over to Turks

Victorious Leader Announces
Demands — Surrender of
Greek Fleet Part of Terms
—Freedom of the Dardanelles—General Townshend
Writes of Him.

(Canadian Press Cable.)
London, Sept. 15.—Mustapha Kemal Pasha, has resolved to march his army on Constantinople unless the powers hand over the city to the Turks, according to a statement he made to the Daily Mail correspondent at Smyrna. He also reiterated that his peace terms were based on the national pact.

"Our demands remain the same after our recent victory as they were before," he said. "The frontiers we claim exclude Syria and Mesopotamia, but embrace all the areas principally populated by the Turkish race. We ask for Asia Minor and Thrace as far as the river Maritza, and Constantinople."

"We are prepared to give every security for free passage of the Dardanelles, which we will undertake not to fortify. But it is only right that the powers agree to our creating such defensive works on the shores or the Sea of Marmora as will protect Constantinople from a surprise attack."

The correspondent suggested that the Powers might refuse to deliver over Constantinople to which Kemal responded: "We must have our capital and in that case I should be obliged to march my army on Constantinople, which would be an affair of only a few days. I much prefer to obtain possession by negotiation but naturally cannot wait indefinitely."

"We would require as part of the peace settlement abolition of the capitulations and surrender of the Greek fleet, which otherwise might hamper the coast not permit him to march from the Greeks for the destruction they wrought in their retreat."

Kemal said he was ready to participate in a peace conference anywhere, but unless it was held on Turkish territory he would be unable to attend personally as the national assembly of Ankara would not permit him to do so.

**TOWNSHEND WRITES
OF TURKISH LEADER.**
London, Sept. 15.—Piercing blue eyes, fair hair, a diminutive close-cropped moustache—these are the salient features of Mustafa Kemal Pasha, the hero of the Turkish push, writes Major Gen. Sir Charles Townshend, the British hero of Kut-El-Amara in the great war, in a descriptive article in The Times on the Turkish push, which he writes of as the leader of the Turks. He writes of Kemal Pasha as he met the Turkish general at Konia recently. Continuing the description of the Turkish leader, he writes: "Kemal Pasha is of middle height, and at the time of our meeting he wore plain-clothes—the knickerbocker breeches were well cut and rather in the English style—sporting stockings and on his head the universal kalpak of Astrachan, in a larger size than usual. The distinctive feature of this 'kalpak' is that it may be worn with either uniform or plain clothes. In appearance it closely resembles the fur caps of the Russian Cossacks."

"Kemal, as far as I have been able to judge, is adored by the army and the populace, and it is in vain that the propaganda agents strive to represent that there are divisions in the Kemal ranks. In Constantinople actually ninety per cent are for Kemal, and the Turks in Anatolia support him to a man. His orders are obeyed implicitly, his rule is an iron one beneath the velvet glove, and under him the government of national Turkey works smoothly and well. His will is law."

"Kemal Pasha speaks little, unless it is on a subject which vitally interests him. He is eloquent. He is a close student of military history. Laborious and indefatigable to the point of excess, Kemal is always at work, and possesses a wonderful grasp of European politics and affairs. This is all the more remarkable as his education was purely a military one, received at the Ecole de Guerre in Constantinople. He was in the Tripoli campaign and later served in several theatres of the war."

"Kemal was inspector general of the Turkish army in Asia Minor after the armistice in 1918, and his patriotism came into prominence after the occupation of Constantinople by the allies when the Nationalists ran to arms. Kemal is a patriot. He is out for liberty and independence—Turkey for the Turks and he desires peace, but an honorable peace."

Major Gen. Sir Chas. Townshend, will be recalled, was obliged to capitulate to the Turks in the great war a few months after his signal victory at Kut-El-Amara, in 1915. He remained a prisoner near Constantinople until October, 1918, when he acted as intermediary between the Porte and the Allies in arranging the armistice.

RAIN KILLS RACES AT BORDER; LIKELY BALL GAME ALSO

(Special to Times)
St. Stephen, N. B., Sept. 15.—Rain starting at nine o'clock this morning put a damper on the last day of the St. Stephen Exhibition. The races have been declared off. If the sun would come out for a few minutes before three o'clock the ball game will be played, but at time of writing it looks very doubtful.

TURKISH CHIEF SAYS HE MUST HAVE IT

This is Constantinople, upon which city Mustapha Kemal Pasha has set envious eyes. The victorious Turkish leader not only says he wants it, but will send his armies to capture it if there cannot be peaceful negotiation. Christian lives there naturally are in danger.

European Section Of Smyrna Burned; Flames Spreading

Turks Taking Revenge—Terrible Stories of Wholesale
Slaughter in Smyrna—Quays Littered with
Corpses—Girls Carried Off From College.

Smyrna, Sept. 15.—Fire which started in the Armenian quarters of Smyrna early yesterday afternoon had spread early this morning to the Turkish sections of the city and was making headway. The entire European section is in ashes, and thousands are homeless. There were hundreds of casualties among persons who were caught in the sections where the flames spread with greatest rapidity.

A U. S. destroyer sailed for Saloniki with 600 refugees, and another later cleared for Tripolis with 400 persons. The Turkish troops are making strenuous efforts to prevent wholesale looting by bands of irregulars.

General Noureddin Pasha, commander of the Kemalist forces here, yesterday urged the officials of the American committee on relief in the Near East to arrange for the evacuation of as many of the Greeks as possible, as he feared their return to the interior would mean certain death in reprisal for the alleged malicious destruction of Anatolian villages by the Greek troops.

The Turkish commanders fear outbreaks among their own troops, who are without food. Several regiments posted on the outskirts of the city have subsisted on uncooked barley for the last five days.

**TURKS TAKING
SAVAGE REVENGE.**
An Exchange Telegraph despatch from Athens says: "The Turkish population in Smyrna continues to be master of the situation. Some Turkish officials accused of having aided the Greeks, were executed in front of the government buildings."

"Refugees arriving in Athens from Smyrna recount terrible stories regarding the state of the city, owing to the ferocity of the Turks. Immediately on their arrival the Kemalists troops gave themselves over to massacre and robbery according to other passengers, prominent members of the British colony in Smyrna were similarly murdered."

London, Sept. 15.—Semi-official Greek message from Athens says it is alleged the Turkish Nationalists carried off all the girls from the American girls' college in Smyrna.

The statement says that the city's foreign trade suffered enormously from the fire, especially the branches or agencies of the big American tobacco houses, such as the Cary Tobacco Company and the Standard Commercial Trading Company of New York, nearly all of whose stocks were destroyed.

The total property loss is estimated at 1,000,000,000 francs.

GEORGE A. WHITE OF SHEDIAC DEAD

Shediac, N. B., Sept. 15.—George A. White, one of Shediac's prominent citizens, died this morning after a few weeks' illness. Mr. White was manager of the Bank of Montreal in Shediac for some two years ago. He was then appointed police magistrate for the town, also magistrate for the county of Westmorland, holding these positions until his death.

Mr. White was manager of the Bank of Montreal at Woodstock for about twenty-five years before coming to Shediac. He is survived by his wife and one son, G. A. White, of Shediac. A brother also survives, residing in Nova Scotia. Funeral arrangements have been made for Sunday in Shediac.

SALE OF DEBENTURES.
Kitchener, Oct. 15.—City treasurer Huber last night sold a block of \$300,000 Kitchener debentures to Gairdner, Clark and Co., of Toronto, for \$31,995, or at the rate of 107.7. The price obtained means a yield of 5.44.

CHAMPIONSHIP TO WHIRLWIND

Johnny Buff Uncrowned by
Speedy Filipino

Villa Now Plans Match With
Jimmy Wilde of England
for the World's Flyweight
Honors—Late News in the
Sport World.

(Canadian Press.)
New York, Sept. 15.—Pancho Villa, sensational Filipino boxer, won the U. S. flyweight championship last night by scoring a technical knockout over Johnny Buff of Jersey City, in the eleventh round of a fifteen round match at Ebbett's Field. He will now seek a match with Jimmy Wilde of England for the world's title.

Buff's seconds threw a towel into the ring when Johnny, battered to grogginess, stood helpless before the Filipino's attack. In the tenth round Villa scored two knockdowns. He began by punning Buff with both hands, rushing him to the ropes and then crashing him across the ring. Buff was bleeding from the head a few seconds later, Johnny lay on the floor until five was counted and the bell saved him. He was picked up and placed in his chair.

It was Villa's fight from the first. He was always active, always punching for an opening instead of waiting for a chance as Buff did. His terrific body blows with both hands, and the American champion's strength in the early rounds and his crashing left hooks and jabs to the head in the latter rounds brought him the victory. Villa was able to open an attack. He tried to edge in blows after the third round but Villa met every attack with another of his hands, punishing relentlessly.

Philadelphia, Sept. 15.—William M. Johnston of San Francisco faced Vincent Richards of Yonkers, N. Y., and Win. Tilden 2nd., of Philadelphia, was matched against Gerald L. Patterson of Australia today in the semi-finals of the national lawn tennis singles championship on the courts of the Germantown Cricket Club.

Oyster Bay, N. Y., Sept. 15.—Leading British rivals by seventeen points in the international series for the British-American cup, U. S. six metre yacht were ready today for the fifth and possibly decisive test. The point score for the four races sailed off here to date is: U. S. 80; Great Britain, 63. Today's race will be called twice over a six mile windward and leeward course.

U. S. craft won the first and third team contests over a similar course while the British were victorious in the second and fourth races over a six mile triangular course.

All Depends on Weather.
Syracuse, N. Y., Sept. 15.—If today breaks clear, with either sunshine or wind to dry the three inches of mud on the fair grounds, there will be a record Grand Circuit card of eight races here, starting promptly at noon. If such weather should continue throughout the day there will be four special exhibitions late this afternoon against time, with Peter Manning, world's champion trotter, in the headline affair attempting to break his world's trot mark, without wind-aid, of 1:57.3. If today breaks rainy or any rain falls before noon there will be no further harness racing at the fair this year. Late this afternoon the Grand Circuit will entrain for Columbus, Ohio, where a big two weeks' meeting will open on Monday.

BIG PULP AND PAPER PLANT FOR VANCOUVER

Victoria, B. C., Sept. 15.—Vancouver is to get the big pulp and paper plant which the Seaman Paper Mills Company, of Chicago, plan to build in British Columbia, according to developments yesterday in the negotiations which are being carried on with Premier John Oliver, and President Seaman and his associates, who are here. The mills will get their power from Bridge River, near Seaton Lake, 100 miles up the Pacific Great Eastern Railway.

ARTICLE 10 Canadian Position at Meeting of Assembly of League of Nations.

Geneva, Sept. 15.—The Canadian government's views on the part of an amendment to Article 10 which guarantees the territorial inviolability of states was submitted by Hon. Ernest Lapointe, Canadian minister of marine and fisheries, during a very important debate in the assembly of the League of Nations yesterday.

Mr. Lapointe asserted that the government of Canada would not press its demand for the deletion of the whole of Article 10, but wished the assembly to appoint a special committee to draft an amendment or a resolution interpreting Article 10 in the sense that when a decision of the league had been applied in the case of an act of aggression against a state, consideration should be given to the geographical and political situation of each country; also that the eventual intervention of a state, in accordance with Article 10, in order to ensure the execution of the council of the league's decision, should be possible only after the preliminary approval of the country concerned.

Mr. Lapointe asked that the special committee submit its report at the next meeting of the assembly of the league.

A French representative in the assembly, M. Barthelmy, seconded the Canadian proposition, but urged that Article 10, which was important in principle and in practice, especially for newly formed states, should be maintained. M. Barthelmy, representing Switzerland, moved that the Canadian proposal be referred to the assembly and the decision on the question of the appointment of a committee or commission be deferred to the next sitting.

BOMBS IN OLD CAP IN LONDON STREET

London, Sept. 15.—Disaster was averted by the timely discovery of four live bombs wrapped in an old cap on a footway in London, yesterday afternoon. Many children were playing in the vicinity at the time. The police had been unable to find any explanation for the presence of the bombs where they were found.

ST. STEPHEN ACCIDENTS.

More than 19,000 people attended the races in St. Stephen yesterday. A regrettable feature of the day was the number of accidents which occurred in the course of the horse racing. Consequence Kate, a horse driven by Jordan, made a break and fell. Uscita, owned by L. R. Acker of Halifax, coming up behind, plunged into the upset, both horse and driver going down. No serious damage was done. In another case a sulky struck something on the course, and the driver, Mr. Eiter of Amherst, was thrown, but escaped unhurt. Another

A Message

To women who like dainty undergarments.

We sell underwear at the mere cost of materials

If you are interested in beautiful lingerie and wish to see what a combination of a factory and a retail organization can accomplish towards producing and selling exquisite under-garments at unheard of prices, just read a few of the examples given here and then if you believe what we say, come in and see our display of fall Lingerie. See the garments themselves at first hand, observe the great pains taken to make each fit as it should—examine the quality of the materials—the workmanship—the careful tailoring—that smart appearance that no home can give and then we believe you will be convinced that it no longer pays to make your own undies.

You cannot make Lingerie as cheaply as this!

Below are four examples, our selling price and what it would cost you to buy the materials and make them. See what you save.

Why are we able to sell at such prices?

Because we import our own materials direct from their source of manufacture at prices much below what the retail merchant pays, then we make everything in our own workrooms and sell them in our own stores. No middleman takes a profit—we save money everywhere.

Be sure and see our display of New Fall Lingerie. You will be amazed at the low prices.

THE COAL SITUATION.

The United States government has assured the authorities at Ottawa that Canada will receive this winter its percentage of the production of American anthracite, and this information has been passed on to the provincial fuel controller.

The amount of anthracite available should be sufficient to cover actual necessities, if the system of control is carefully supervised, and there is no reason in the world why an additional burden of abnormally high prices should be placed on the consumer.

TURKEY AND THE ALLIES.

An interesting contribution to the discussion of the problems which have arisen as a result of the victory of the Turkish Nationalist forces in Asia Minor is furnished by Mr. Henry Morgenthau, formerly United States Ambassador to Turkey, in an article in the London Sunday Times, extracts from which have been received by cable.

After an analysis of the situation, in which he credits Mustafa Kemal Pasha with having succeeded in dividing the Allies, he refers to the rumors of assistance given that leader by France, and continues as follows:

"It will be well to remind France that her recent relations with the Turks will estrange millions of Americans who have with a profound sympathy not fully appreciated in Europe, assisted generations of Christians, Americans and Greeks, in Asia Minor. The church people of America have practically acted as religious protector to these Christian people. France needs all the friends she can secure to help her in her struggle with Germany, and the friends of France, of whom I count myself one, may be deprived of one of the strongest arguments that the Treaty of Versailles should be carried out. They cannot disregard the Treaty of Sevres while unyielding and insisting on the Treaty of Versailles. If the blame for Turkey repossessing herself of Constantinople may be placed upon France's shoulders, it will do her irreparable damage in the opinion of all right-thinking people, and may even turn the currents of sympathy away from her."

EVANGELINE BOOTH

Evangeline Booth is to be retired as commander of the Salvation Army in the United States. This devoted woman has given years of strenuous service in the work which her renowned father began and which has been so earnestly continued. Miss Booth was for some years in command of the Salvation Army forces in Canada, and she has visited St. John on several occasions. Her personality and her eloquence won many friends for the Army here. The cause of her retirement is not stated in the despatches, but it is known that she had sacrificed her health to her work and it may be that this is the reason why she is to give over the reins to another.

A noted leader will have passed into retirement when Miss Booth leaves New York headquarters. That she will have peaceful days of rest will be the wish of many.

The work of organizing the St. John health centre is progressing well. It should prove a valuable asset in the humanitarian work in which it is designed to assist.

An interesting visitor to Canada is Hon. Neville Chamberlain, British M. P. and son of a famous father.

GERMAN CONSUMERS FIGHT DOLLAR BASIS

Protest to Government That Practice Undermines Confidence in the Mark.

Berlin, Sept. 15.—Dollar exchange was the subject of a concerted attack by German consumers who protested against using the dollar as a basis for fixing domestic prices.

The initiative in the fight was taken by the Federation of Christian Workers, who presented a memorial to the government which stated that confidence in the German mark was undermined when prices were fixed on a dollar basis. The memorial pointed out that foreign countries could hardly be expected to have faith in the mark's value when this was so underestimated at home.

Many buyers are stocking up on dollars in advance, owing to the uncertain market in other moneys. Retail prices have risen more rapidly than the rate of exchange, because the storekeepers have fixed their quotations on what they expect the new stocks to cost.

On the basis of these observations the Federation of Christian Workers demands the prompt issue of a decree forbidding the practice. The prohibition would apply not only to goods made from domestic products for domestic consumption, but also to commodities imported from Germany.

The board's decision has been endorsed by the Women's Association of Household Shoppers. Herr Schmidt holds that prices should be based on the actual cost of supplies and expenses of operating, including costs of production officially recognized as permissible and justifiable.

CLERGYMAN IS SWINDLED, BUT GETS MONEY BACK

London, Sept. 15.—How a clergyman who said he had never in his life made a bet on a horse race was inveigled into giving an unknown turf agent a check for £100 without receiving anything in return and how Scotland Yard was shown to have been a poor prophet in the case came out in a story told by Rev. Ralph Doyle of Rayway, at a trial before the magistrate at the Marylebone Police Court recently of John Hawtin, sixty-one years of age, on a charge of theft of £100 from Rev. Mr. Doyle.

When the clergyman realized he had been victimized he reported the matter to Scotland Yard, and was told that his chance of seeing the man again was a "million to one."

This looked like a pretty good guess. Rev. Mr. Doyle, however, had occasion to pay a visit to Southampton a few days later, and there by chance he came across the accused and had him arrested. At the police court, Rev. Mr. Doyle said that Hawtin introduced himself to him in a Pullman car on the way from Brighton to London as the trainer of the Prince of Wales' stud of horses in Alberta, Canada, and obtained the clergyman's address. Later Hawtin called on him and said he had backed four horses for Mr. Doyle and had won more than £400. Mr. Doyle was to receive the £400, less £100 representing the amount Hawtin had staked. He gave his new-found friend a check for £100.

Together the two went to a club in Covent Garden, where Hawtin was to collect the winnings. Not being a member of the club the clergyman was left outside and Hawtin went in alone. He came out in a few minutes and said the secretary of the club was not in, and Mr. Doyle would have to return the next day. Mr. Doyle did so. Then he made the useful discovery that his check had been cashed and his betting acquaintance was nowhere to be found.

In cross-examination the clergyman said he had never made a bet in his life, and when told the money was staked for him he had won he was greatly surprised. He had many good causes to use the money for, he said. The prisoner was ordered to hand back the £100 found on him when he was arrested, and was sentenced to six months imprisonment with hard labor.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis

Lesson No. 105.

POINTS TO REMEMBER

Remember that: A fixed condenser of small capacity shunted across the telephone terminals of crystal receivers improves quality of the signals materially, and if the set is not already fitted with this device one may be readily made from several small sheets of paper about 1/2 inch square.

The adjustment of a re-generative receiver which gives zero beat is the most sensitive setting for reception purposes. Under those conditions the locally generated radio frequency current is in phase with the incoming signal. This adjustment is obtained when the primary and secondary circuits are individually set so that an increase or decrease in wavelength will result in a beat note of audible frequency.

The purest water obtainable should be added to the solution in a storage battery to replace losses by evaporation. Water containing mineral salts or other foreign matter in excess may set up what is known as "local action" in the cell. Local action is caused by small particles of foreign matter coming in contact with the plates of the battery and setting up a local primary cell action which gives out no useful energy but merely shortens the useful life of the battery.

Persons who charge their own storage batteries at home should be careful when adding water before charging not to add too much, the solution rises during the charge and some of the electrolyte may bubble over the solution is too high at the start. The solution should be to 1 1/4" to 3/4" over the tops of the plates.

A variation of 80 points in the hydrometer readings from full charge to condition for re-charge is recommended by some battery makers. This is a safe limit with a reserve for emergency. The leads from the storage battery to the filaments of the vacuum tubes should be made as short as possible, especially where several tubes are lighted simultaneously. There is a loss in voltage in any conductor carrying current which can be reduced by increasing the size of the conductor or reducing its length.

The plates of a storage battery in good condition will show a chocolate color on the positive plate and a gray lead color on the negative plate. Sulphation occurs as a result of over-charge or allowing the battery to stand in a discharged condition.

Irish wit rarely fails his possessor in an emergency. Private McGuire had been misbehaving and was up before his commanding officer charged with drunkenness.

"Eight days in the guardhouse," said the latter sternly. But in writing the "8" on Pat's defaulter sheet a pen slipped. Pat noticed this and leaned forward.

Only With the Mind's Eye, Sit. A humorous correspondent writes that we've ever seen what the world is like. A man bowing to the inevitable.

Anyone sitting in the lap of luxury. A contingency in the act of looting. An otis resting on anyone. A public speaker weighing his words.

A hack on its way back. A man answering the wick in when it rings. Anyone capping a climax. A man bearing a sign with his own set-up.

Not So Awful.

Tit-Bits has a story of a deaf bridegroom who upon being repeatedly asked the conventional question, "Do you take this man for your lawful wife?" finally got angry and said, "Oh, I don't know. She ain't so awful. I've seen worse women than that didn't have as much money."

AIR MAIL ACROSS THE CONTINENT

New York, Sept. 15.—An air mail service of twenty-eight hours between New York and San Francisco within a space of four days was inaugurated today by a luncheon given in the Automobile Club of America by the Aeronautical Chamber of Commerce.

The coast-to-coast service would be made possible by an all-night flight between Chicago and Cheyenne, Wyo., a distance of a little more than 1,000 miles, and by a flight from Cheyenne to San Francisco, a distance of 1,800 miles, and ready for the carrier, for example, would leave New York early one morning and be delivered to the Pacific coast the next day, Mr. Henderson explained. He also told his hearers that contracts had been let for the illumination of the air mail field at Chicago. If satisfactory arrangements would be made between Chicago and Detroit early next month.

Mr. Henderson also announced that he would be in operation. He said that the Post Office Department now expended \$185,000 a year for inland Alaska service, dog teams being chiefly used in transporting the mail. Two investigators were now in Alaska, mapping out air routes, he added, and he believed the airplane would be cheaper than the present modes of transportation in Alaska.

Mr. Henderson's subject was "Night Flying." He said the Postal Air Mail had been at work on this phase for several months, in co-operation with illuminating research corporations. A system of lighting had been devised which assured a safe night way from coast to coast, with the pilot at no time out of sight of powerful beaconing beams of forty miles in length, he said. The illumination of the Chicago field will follow as nearly as possible "daylight perspective." The buildings will be flood lighted and the field will be outlined with light, red lights making the landing spots.

Mr. Henderson said that 2,000,000 miles had been flown without a fatality, and for the eight weeks ended Sept. 9 100 per cent. efficiency had been maintained. Last year, when 1,800,000 miles were flown, the efficiency was ninety-four per cent. He credited the record of safety and performance to the skill of the pilots and the ground organization.

Does Not Look for British Elections This Fall—Cosgrave, New Irish Leader, a Strong Man—Passengers on the S.S. Empress of Scotland.

Quebec, Que., Sept. 15.—The Canadian Pacific 26,000 tons S.S. Empress of Scotland, Captain G. Gillies, C. B. E., arrived here from Hamburg, Chelmsford and Southampton at 11:05 o'clock yesterday afternoon. She brought 1,221 passengers, including 428 sailors, 429 second cabin, and 428 third class. Among these were 247 Americans who had been over to see with their experience abroad, and their trip on the Scotland.

One of the features of their surprise, was the superb organization of the Canadian Pacific steamships, and also its accommodations. The inspection of the baggage was proceeded with by the customs officers on the way up the river, and the immigration inspection also completed in like manner, while the C. P. passenger agent and staff of officials and checkers at the quay, when it reached Father Point, and carried out their work, while the ship sailed up the river, with the result that when the Empress reached Quebec all the passengers had done to disembark and board special trains awaiting them.

The first of the one hour and twenty minutes after the ship's arrival in this train were five vestibule Pullman sleepers direct to Chicago and due to arrive at the coast on Friday evening, also a special car destined for St. Louis, Missouri, with twenty shoe manufacturers of that city, who had been over to Europe investigating trade conditions and due to arrive in St. Louis at seven o'clock Saturday morning, and two Pullman cars going direct to Detroit with a party of prominent people of that city.

Among the prominent passengers in the saloon, were Hon. Neville Chamberlain, M. P., former one of the British divisions, accompanied by his wife; Right Hon. Justice Duff, P. C., judge of the Supreme Court of Canada; Dr. York Trotter and party of Montreal; Mrs. D. I. McGillivray and Mrs. Duncan McIntyre, Montreal; Miss A. Fiest, daughter of the deputy minister of militia; Judge Cameron, of Winnipeg.

Hon. Mr. Chamberlain, M. P., who is the son of the renowned Hon. Joseph Chamberlain, will touch much of Canada, with his wife and then go to Boston to visit U. S. relatives.

"Although my time is short," he said, "I expect to learn a great deal about Canada, and in particular to obtain first hand information about the prospects of British trade and British immigration to the dominion. Such information cannot fail to be of the greatest value to any member of parliament and naturally the subject is of overwhelming interest to my father's son."

Speaking of conditions in England he said the commercial and industrial trades were being very much encouraged. As regards the political situation he did not expect to see the dissolution of the House of Commons this fall, and naturally no general election. He said Lloyd George was the only man under present circumstances to fill the office as prime minister of Great Britain. He held the confidence of the British public.

Speaking of the Irish situation, Mr. Chamberlain said he was always optimistic as regards Ireland, and he was confident that the revolution in that country would soon be settled, that Mr. Cosgrave was a strong man, and he had taken the right stand and there was not the least doubt that he would have the backing of the people in Ireland. He did not care to discuss De Valera or Eirike Childers, but would say that De Valera was an impossible man to deal with, as regards negotiations because he was always up in the clouds, and would

LIKES COLLEGE PLAYERS

Ty Cobb Says Their Presence in Pro. Baseball is Helpful.

New York, Sept. 15.—Ty Cobb, manager of the Detroit American League club, is an enthusiastic backer of the college baseball player who joins the big league clubs and plans to make a profession out of the American sport. His partiality for the college star can well be seen in the make-up of his own team. Arthur Olsen, the pitcher, is from Cornell University; George Cutshaw, second baseman, and coach of the Michigan League. The general policy of the Detroit club before Cobb was made manager was to depend almost entirely on the minor leagues for its material. Ty, however, was quick to see the possibilities of the college man. He gave his views on the subject the other day as follows:

"There are many reasons why the college man should have a chance to break into the big league baseball. In the first place, as a rule he has four seasons of preparation. Then also when a boy goes to college he has some objective. Primarily he wants to get an education. As a rule he preserves and is intelligent. He learns how to use his brains. It naturally follows that he can use his intelligence in baseball if he has the ability to play the game. In addition college athletes bring to the big leagues that ancient desire to win. They played only for the glory of their college nine and, of course, became good team players because they were ever ready to put themselves in the back-ground."

The many friends of Police Officer Allan A. McInnis, one of the most popular and efficient officers on the force, will be glad to hear that he is one of the claimants to a large estate in Scotland, valued at upwards of £2,000,000 sterling. Officer McInnis had yesterday that his great-grandfather had been the principal heir to the Jane Innis estate at Stow, Scotland, and that since then his father had become one of the heirs, and that in turn he and his brother, who is living at Cape Breton, have been heirs, along with other persons. Officer McInnis said that as far as he understood there were seven heirs altogether, and that they were all living in Canada or the United States. He said he had been informed that there was upwards of £2,000,000 sterling in the banks, besides a large amount of property.

New York, Sept. 15.—Dr. James Rosedale Wadd Ward, ninety-six years old, received final naturalization papers from Judge Martin T. Manton in the Federal District Court.

Dr. Ward, who is a retired physician to change his naturalization at such a late period in life was predicted on a belief that the United States was the only country in the world where genuine liberty of thought and education obtained.

Dr. Ward lived at 346 West Seventy-first street. He was born in Jerusalem in August, 1826, where his father, Weldon Charles Wadd Ward, was then British Consul.

He attributed his longevity to the fact that he always minded his own business and never worried about anything.

250 MILLIONS IN AUTOMOBILES IN ONTARIO

(Ottawa Journal.) The contest for 1923 number plates for automobiles has been awarded at a price of twenty-three cents per pair. In view of the unsatisfactory results from the plates now in use, it was felt by the department that the item of cost alone should not be the controlling factor in the selection of plates. The plates for 1923 have white numbers on a black ground. The background is dull finish and the enamel is of the most durable kind. The plate is made of heavy twenty-four gauge steel, and is strengthened by a new design of double edging along the top and bottom. By this improvement the slots also are strengthened so that the markers may be more securely fastened to the car and are thus less liable to be lost.

Plates for the current year have cost 14 1/2 cents per pair, but a large number have rusted, become illegible, and have had to be replaced by reason of inferior materials and method of manufacture. The new design differs from all previous years, so that it will indicate clearly the year of issue, thereby assisting in the collection of revenue. The legibility of the marker is particularly effective and will be of assistance in securing the enforcement of the motor vehicle laws respecting speed, reckless driving, finding of stolen cars, etc. In all respects—durability, strength, legibility, appearance and distinctive design—the markers show superiority to those of any previous year, and will undoubtedly be appreciated by the motorists of Ontario. The total investment in motor vehicles in the province now amounts to more than \$280,000,000. Effective number plates assist in the protection of this large investment; and, by assisting in the enforcement of the motor vehicle laws, are an aid to public safety.

OIL BURNER MAKES RECORD.

Shipping Board Vessel Completes Two Full Voyages Around World.

Washington, Sept. 14.—Rear Admiral Benson, who is the naval member of the United States Shipping Board, has called attention to what he called the remarkable performance of the oil burning Shipping Board steamer William Penn, which has completed two voyages around the world in the year that has elapsed since she sailed from New York on Aug. 7, 1921. She traveled 44,781 miles. In a letter received by Admiral Benson from Captain R. H. Wright, master of the steamship, the skipper said: "Her total distance traveled in nautical miles for the year ended midnight, Aug. 7, 1922, is 44,781 knots. During the whole of this period she has never made an involuntary stop, she has suffered no breakdown of any sort and her repair bill for actual repairs of all sorts is less than \$100 United States currency. "Her average speed for the period is 11.16 knots per hour, her approximate fuel consumption thirteen tons per day, whilst her average consumption per diem in part has approximated sixty-four gallons."

The William Penn is a twin screw motorship of 17,000 tons displacement, with Burmeister and Wain type Diesel engines installed by William Cramp & Sons of Philadelphia.

SHRINERS' HOSPITALS.

(Ottawa Journal.) The Shriners have set their hands to the erection of a chain of hospitals for the treatment of crippled children of this continent. Seven are to be erected at once, one of them in Canada, in Montreal. The Shriners, who are an offshoot of the Masonic order, are a rich and influential body and whatever they have undertaken has been thoroughly carried out. As the Shriners were originally organized as a sort of "playground" to the Masonic order, and as it would naturally be supposed that their operations would be necessarily more or less selfish, it is very pleasing to find that this great institution has set its hand to such an excellent work. A philanthropic work of this sort will give the order a greater justification for its existence than anything else could. The treatment of crippled children does not unfortunately form a serious part of the work of regular hospitals. The hospital for Crippled Children in Toronto is doing a splendid work. Its work however can be very acceptably supplemented, and the effort the Shriners are undertaking in Montreal will be welcome.

The committee on administration for the new health centre paid a visit to the building yesterday morning and made a thorough inspection with a view to apportioning the accommodation to the different organizations which will be housed there. The committee consists of Dr. W. E. Rowley, Dr. J. A. McCarthy, Dr. William Warwick, Dr. James Magee, Miss D. Coates and Miss H. T. Meiklejohn. No final decision in the matter of apportioning the rooms was arrived at, but the committee became well acquainted with the situation as regards the needs of the various organizations and the accommodation which is available.

Gold-Seal Congoleum Week

In order that those housewives who are not yet familiar with Gold-Seal Congoleum Art-Rugs may see for themselves the wonderful beauty and the many practical advantages of Canada's most popular floor-covering, the coming week—beginning tomorrow, Sept. 16th, and continuing until next Saturday, Sept. 23rd—will be Gold-Seal Congoleum Week at all the leading Departmental and House-furnishing Stores of the city and vicinity.

Large stocks of fresh new goods, just received from the factory, will be on display—all the latest patterns—in all the popular rug sizes, and all genuine guaranteed Gold-Seal Congoleum.

A Timely Buying Opportunity

You are now settling your home for the Winter. Why not take advantage of the big displays during Congoleum Week to select beautiful, sanitary, easy-to-clean Gold-Seal Art-Rugs to replace any worn-out rugs and carpets you may have about the house. You will be surprised how little these Art-Rugs will cost you, and how much they will add to the attractiveness of your home.

Gold-Seal Congoleum Art-Rugs are unquestionably the most remarkable floor-covering ever made in Canada. And they solve one of the housewife's biggest problems, for they provide, at very low cost, a handsome, durable, easy-to-clean covering for every floor in the house.

Many Beautiful Patterns

The rich harmonious patterns are strikingly beautiful, being the creations of prominent European and American rug designers. And there is a wide range of patterns and sizes to choose from—simple tile and wood-block patterns for kitchen, pantry and bathroom; dainty flowered designs and rich Oriental motifs for bedrooms, dining rooms and parlor.

Gold Seal CONGOLEUM ART-RUGS

Easier Housework

Gold-Seal Congoleum Art-Rugs are so practical, sanitary, and easy to clean that they make housework ever so much easier. They never require sweeping. An occasional light mopping with a damp cloth keeps them spotlessly fresh and clean.

No Tacks to Drive

No fastening of any kind is needed to keep a Congoleum Art-Rug securely in place. It literally "hugs" the floor, and never "kicks up" or curls at edges or corners. There are no unsightly tack-holes, if you want to change the rug from one room to another.

Waterproof and Germ-proof

Gold-Seal Art-Rugs are the most sanitary floor coverings it is possible to buy. They are absolutely waterproof, germ-proof and dust-proof top, bottom and all the way through.

Durable and Economical

The color surface on Gold-Seal Art-Rugs is exceptionally heavy and tough. Their exceptionally long wear, combined with their low cost, make them the most economical floor-covering on the market.

LOCAL NEWS

DIED IN AUSTRALIA. Word has been received in the city of the death, at Sydney, Australia, of Mrs. Hatheway, widow of Frederick James Hatheway, formerly of St. John.

PIE SOCIAL. A successful pie social was held in the Agricultural Hall at Loch Lomond last evening for Rev. H. L. Coughlan's church building fund.

CITY PAY DAY. The fortnightly payment of city employees was carried out this morning. The following amounts were disbursed: Water and sewerage, \$4,110.15; public works, \$7,078.86; harbors, \$2,068.26; ferry, \$888.

BALL PLAYER IN HOSPITAL. Jimmie Sullivan, formerly centre fielder for the South Boston and Boston Travelers baseball teams, and more recently with the Grand Falls, N. B., club, is in the General Public Hospital here. It was said at the hospital today that he arrived there early in the week and it was expected that he would be discharged soon. His many friends will be pleased to know that his illness is not serious.

PEDRO GOES EAST. William Maggs, was before the court this morning charged with being a common vagrant. He was sent below pending some inquiries about him. Pedro, knight of the wanderlust, this morning took up his winter quarters in the municipal home, much to the relief of the guardians of the law. Mr. Meysel will be greatly missed among a large circle of acquaintance.

IN THE MARKET. A time clock system has been installed in the city market and was put into operation for the first time last night. There are six stationary keys, four in the market proper and two upstairs in the market building. The night watchman hereafter will make a tour of the entire building every hour. A market of flowers is remarked, a well known citizen as he passed through the city market this morning. Within the last two years flowers have been making their appearance with increasing abundance until today they are as eagerly sought after and as much a ready seller as the more substantial things of life.

LEAVING THIS MONTH. N. R. DesBrisay, until recently district passenger agent of the C. P. R., is expected to leave within ten days to assume his duties as assistant general passenger agent at Winnipeg. Mr. DesBrisay is at present busily engaged winding up details of his office in this district. He said today that he regretted leaving St. John but hoped to make new friends and business acquaintances in his new field in the west. Mr. DesBrisay has been a very efficient head of the C. P. R. in New Brunswick district and has been very popular. Needless to say he will be missed from the east but the best wishes of many friends will go with him in his recent well merited promotion.

PAYS \$20. Ernest G. Brown was charged with speeding in Douglas avenue on September 2 and again on September 4. Policeman McBrien said he had been going twenty-five miles an hour on the first occasion and twenty on the second. The defendant said he had been driving automobiles for fifteen years and thought he was a pretty good judge of speed. He had not been engaged at an excessive rate, but as he had no witnesses it would be difficult to establish that. He was fined \$20, which he paid with the remark that he would take the necessary precautions next time. Harold Wilson was fined \$10 for speeding in Douglas avenue. Policeman McBrien said he had been going twenty-two miles an hour.

AFTER THE MEETING. W. A. Cunningham of Montreal, general freight agent of the Canadian Government Merchant Marine, returned home today on the noon train. He was here for the conference in regard to the proposed new port facilities for potato shipping. R. E. Armstrong, secretary of the local board of trade, chairman of the meeting which was held last night, sent out copies of the two resolutions passed at the meeting to the minister of railways, the minister of marine and fisheries, the minister of public works and the secretary of state. These two resolutions ask for a reduction in railway freight rates on the potatoes and hay through the maritime provinces and for the erection of a frost-proof warehouse at St. John for the protection of exporters.

HOME AFTER CONVENTION. C. W. Romans, who was a delegate to the annual convention of Canadian Clubs in Hamilton, Ont., returned to the city this morning. The convention, he says, was a very interesting one. Many fine addresses were made by the principal speakers being Bishop de Penicier, Hon. Newton W. Rowell, K. C., and Hon. Dr. H. J. Cody. The convention in 1923 will be held in Victoria, B. C. Nicholas of Victoria, was elected president for the ensuing year and Mrs. Hyndman of Victoria, is the new vice-president. H. A. Porter of St. John, was elected vice-president for New Brunswick. Luncheons were tendered the delegates by the city of Hamilton, the Canadian Club and the Women's Canadian Club of that city. On Wednesday those attending the convention motored to Niagara Falls where they were guests of the Niagara Falls Canadian Club at luncheon.

A TRAFFIC CASE. C. B. Williams was before the police magistrate this morning charged with failing to stop at the Mill street crossing when ordered to do so by Policeman McNamee, traffic officer at that point, on September 11. The policeman said that the gates were broken and that a flag man was on duty when the accused arrived in his car. He (the policeman) had signalled with his hand for the accused to stop and had also called out to him but he was unheeded. The flagman had to jump out of the way. There had been no previous trouble with the accused. Mr. Williams said that the policeman had signalled him to go on. He had seen a man at the crossing with a green flag and had asked him what he was doing with that as he had thought a red flag would be used in such cases. The man had said he would report him. George Lincoln corroborated the evidence given by Mr. Williams. Policeman McNamee asked for a postponement until Monday at ten o'clock to get the gate man to court as a witness.

EXTRA! EXTRA! COURT CASE OVER MRS. JORDAN'S WILL

Argument on the Question of Amount of the Succession Duties.

Fredericton, N. B., Sept. 15.—Argument was heard this morning by the court of appeal in the case of Provincial Secretary-Treasurer vs. Hon. C. W. Robinson, executor of the estate of Jeanette A. Jordan, a stated case. E. Allison Mackay argued for the plaintiff, I. C. Rand of Moncton for the defendant. The court considers.

This is a case involving the succession duties from the estate of the late Jeanette A. Jordan, who died in San Francisco on Oct. 17, 1920, leaving an estate of \$899,832.46. The major portion of the estate, valued at \$888,293.78, is situated in California; the value of the New Brunswick portion is stated at \$11,548.84.

The will, which was dated Sept. 21, 1920, appointed Hon. C. W. Robinson, of Moncton, as executor of the New Brunswick portion of the estate, and Frank P. Deering as executor of the California portion of the estate. The stated case is being argued to fix the succession duties and to determine whether these shall be based on the full value of the estate or from the assets located within the province or otherwise. Among the bequest is the Jordan Memorial Sanatorium near Moncton.

INCREASE INCOME TAX EXEMPTION

Paris, Sept. 15.—Finance Minister Delasteyre plans to introduce a bill, as soon as parliament reassembles, increasing the amount of income exempt from taxation by 2,000 francs. This will make the incomes of Parisians exempt up to 8,000 francs, the minimum upon which the government demands it possible to live in the capital at the present prices.

IN WALL STREET.

New York, Sept. 15.—Irregular price movements took place at the opening of today's market session, but the market closed with a gain. Public utilities rose substantially on the execution of a heavy accumulation of buying orders, new bids for the year being established by North American and People's Gas, while Consolidated Gas shot up nearly four points and Laclede Gas 1 1/2.

Orient, Texas and Mexico climbing 1/2 to a new peak price, while most of the standard issues improved fractionally. Wilson Company responded to the reports of a packing house merger by climbing two points and Iron Products moved up 2 1/2 to a new top price. Profit taking caused some recessions, but domestic oils, notably in Cosden and Houston, while Mexican Petroleum, after an early display of strength, slipped back two points. National Biscuit, Iron Products and Peabody forced it down more than two points.

NOON REPORT.

New York, Sept. 15.—(noon)—The market steadied and then moved forward in response to the large volume of buying orders which came into the market during the morning. Public utilities, oils and merchandising shares led the advance, gains of the leaders ranging from two to nearly five points. There was repeated evidence of profit taking but all the offerings were easily absorbed. Consolidated Gas extended its gain to 4 1/2 points and gains of three points or more were made by People's Gas, Laclede Gas, General Electric, Wilson Company, May Department Stores, National Cloak and Suit, United States Rubber first preferred and New Orleans Texas and Mexico. Other strong spots were Texas Gulf Sulphur, Phillips Petroleum, National Biscuit, Iron Products, American Writing Papers Pfd. and Toledo, St. Louis and Western Pfd.

The papers affected are La Presse and La Patrie, evening papers and \$40 for a forty-five hour week for the morning papers.

THE HARVEST MOON

"Come out, 'tis now September—the Hunter's moon begun."

The poet advises us, and he is accordingly annually responsible for a perplexing problem. Is this the Harvest moon or is it the Hunter's moon?

The Harvest moon is the one which is full the nearest to the autumnal equinox, which occurs on or about September 23. The confusion arises from the fact that two moons sometimes give the edges of the same moon.

Harvest moon may have waxed and waned but with a lovely rich golden color while the summer cottages are still open; and later, when the people return to the city they may behold the baby Hunter's moon setting in a thin, skin-milky sky. No two moons are alike and they should not be confused.

Meetings of the union representatives with the management of the Star and Gazette were continuing today with the union and day to day pronounced by the union shop labor.

THE LONDON ADVERTISER HAS BEEN SOLD

Toronto, Sept. 15.—The Mail and Empire publishes the following from London:

"The London Advertiser, local Liberal organ, publishing morning and evening editions, has been sold by T. H. Pearson, K. C., to La F. Hermy, of Windsor, proprietor of the Border Cities Star, the Regina Post and the Saskatchewan Star."

Mr. Hermy will enter into possession on Oct. 1, as sole owner of the newspaper and has taken a ten year lease on the Advertiser building. The purchase price was not announced and Mr. Hermy is unprepared as yet to make a statement concerning his plans."

ANGRY FARMERS MAKE CAPTURE

Chatham, Ont., Sept. 15.—Albert Casey, colored, and Harry Wilson, were captured yesterday by a general posse of enraged farmers who say that Casey and Wilson had during the last week carried out the most daring thievery and plundering ever attempted in the history of Kent county.

The capture was effected by a posse of more than 200 residents of the county, many of whom were armed with shot-guns and other weapons.

TWO SAFES IN WEST ROBBED

Saskatoon, Sask., Sept. 15.—Apparently the work of expert "snoop" men, the post office safe in Abram's general store at Mennon, 25 miles northwest of here, was blown open and \$3,000 in cash taken and the safe in the Quaker Oats elevator in the same place was cracked and \$800 lifted some time during Wednesday night.

BENNIE SWIM

Woodstock, N. B., Sept. 15.—Bennie Swim today exhibits the calm demeanor that surprises all who see him. In spite of the news of the reprieve being generally known about town, crowds kept near the jail until near morning, although the arrangements prevent a view of the scaffold from any point.

BIG GAME SEASON.

Fredericton, N. B., Sept. 15.—The game season opened today under the special license system. Non-residents must pay \$75 and residents \$1. The open season for ducks, geese, brant, coots, gallinules, rails, woodcock, Wilson or jacksnipe, also opened today.

THREE HOUR FIGHT IN DUBLIN TODAY

Irregulars Attempt to Seize Strategic Points—Batting in Dundalk Also.

Belfast, Sept. 15.—Forces of irregulars this morning attempted to seize various strategic points in the southern section of Dublin, according to despatches received here. The places attacked included the Wellington and Portobello barracks, the telephone exchange and the Kingsbridge station of the Great Southern and Western Railway. The firing was particularly heavy and continued for three hours, coming mainly from snipers stationed on roofs.

The guard at the telephone exchange was smoked out and then assailed by men with bombs and revolvers. The despatches made no mention of the number of casualties.

Belfast, Sept. 15.—Heavy firing continued during the greater part of the night in Dundalk. Several attacks were repulsed by the Free Staters. The Dundalk races enabled the Republicans to collect in the town. They attempted the destruction of several bridges, but all were without success.

A party of Republicans entered an electric power station, cutting off the electric supply for the town of Lough. The infantry at that place, which has a large number of patients, was plunged in darkness. The Republicans held the station until seven o'clock this morning. A Free State private named McBrean was killed by a hand grenade.

MANY CAR DRIVERS FLIRT WITH DEATH

Carelessness at Rail Crossings Takes Wide Range.

Flirting with death is still a much-favored sport of some motorists at railroad crossings. Instances are cited in a formal statement issued by the Pennsylvania Railroad which says that its inspectors have completed a check of automobile drivers at selected highway crossings in Pennsylvania, New York, Delaware, Maryland and Virginia to determine the extent and character of carelessness displayed in driving motor cars over railroad tracks. The facts in 831 specific cases of gross negligence have been compiled and analyzed. The statement says, and the following forms of careless driving were noted:

Failing to look in either direction for trains.

Driving under crossing signals in front of trains while gates were being lowered.

Running on crossings before stopping, not having car under control.

Stalling on the tracks.

Stopping cars on crossings and turning around on the tracks.

Paying no attention to the locomotive warning whistle.

Racing automobiles across the tracks to beat trains.

"At one crossing in seventeen hours," the statement continues, "seventy-three cars, bearing license tags from five states, averaged thirty-seven miles an hour when running across the railroad tracks and in two instances they were making almost a mile a minute."

"At one crossing nineteen new and inexperienced drivers were observed; five cars had defective brakes, and one car was driven twenty-five miles an hour in the dark without lights."

"It was not possible to tell how many cars had defective brakes, but four recent accidents at crossings on the Pennsylvania system were ascertained to be due to this cause."

The Pennsylvania Railroad is co-operating with the American Railway Association to reduce accidents at grade crossings, which last year cost 7,000 lives. The "Careful Crossing Campaign" will be continued until September 30.

Auto Accident Fatal

Montreal, Sept. 15.—As a result of injuries sustained in an auto accident on Tuesday, John J. Mullin, 68, of Bedford, Que., died yesterday at St. Joseph's Hospital, Fairbairn. Mullin was held from the auto and landed on his head.

AMAZING FEATS OF INDIAN JUGGLERS

(Toronto Mail and Empire.)
We have noticed in some American newspapers lately a series of articles which aim to explain the famous tricks of India jugglers. Many of them are shown to be nothing but skilful jugglery, with prepared apparatus such as one may see often on the vaudeville stage. When these explanations do not suffice, as, for instance, in the often-

witnessed feat of a juggler throwing a rope into the air, up which a small boy climbs until he disappears in the sky, the hypothesis of hypnotism is introduced. In May, 1921, C. L. Hardcastle contributed an article to Chamber's Journal, in which he described some half-dozen amazing tricks performed at his bungalow by a first-class Indian juggler, and which he could not account for, except on the theory that he had been hypnotized. Another witness of the disappearing-boy trick said that he discovered by accident that the others of the

spectators who would be prepared to swear that they saw the boy vanish in thin air were hypnotized. Instead of fixing his gaze on the juggler, as everyone else naturally did, he kept his eyes on the ground, and only raised them when the exclamations of the others indicated that they were witnessing a marvel. Then he looked and saw his companions staring into the air, but himself saw neither rope nor boy. **Suspended Animation.**
In another article in the current issue

of Chambers, Mr. Hardcastle says that the Indian jugglers are to be divided into two classes—those whose work is nothing but clever sleight-of-hand, and those who either have the gift of mass hypnotism or perform some other wonders unknown to the Caucasian. The same issue contains a contribution from M. E. McGregor, who has lived in India for thirty years and tells of some tricks, which, as he says, take one into the mysterious ground of the fourth dimension. A short time ago an elderly British

min walked up to the verandah of a friend's house in Lucknow and asked if he might perform a few tricks, as he was collecting funds for the temple to which he was attached. Being given permission, he asked what the sahibs would like him to do. Should he suspend his animation and sit where he was for two days?
Were They Hypnotized?
They said that fifteen minutes would be long enough, whereupon he immediately closed his eyes and relaxed his muscles. A mirror was produced and held to his lips. It remained unclouded. The white man tried to feel the beating of a pulse in any artery. There was no sign of it, nor any other sign of life. At the end of fifteen minutes Mr. McGregor spoke to him, and he awoke as from a sleep. When told that what he did was wonderful, in an apathetic manner: "I was not here. It is quite easy." Then he asked for a heavy iron chain to be produced, and one was brought that was used as a trace on an ox-cart. He put it across his chest, under his arms, and had it tied behind him. Then he merely expanded his thin chest and the chain snapped like a bit of cotton—a clean break just over his chest. He then asked for something that no human being could digest and, with apparently no discomfort, swallowed a lot of broken glass, two packets of darning needles and some mercury.
The Fourth Dimension.
He asked that a walking cane be produced. It was brought, and a jeweled ring, that the white men could recognize, was slipped on it, and dangled in the middle. Mr. McGregor held the cane firmly on each side, a few inches away from the ring. The priest then stretched out his finger and pulled the ring off through the cane, not with a quick jerk, but just a casual pull! The dumb-founded spectators asked him to repeat the trick, but he said: "Why repeat what you have seen? Let one of our servant girls give me one of her metal anklets; one without a join and very heavy." One was produced, and this juggler pushed up his arm until it stuck and could go no farther. Then, as if he were measuring a span, he put his thumb on one side of it and his little finger on the other, and lightly pulled it through his arm and handed it back. Of course, the appropriate comment is that he didn't pull it through his arm, but if he didn't it is obvious that Mr. McGregor and the other white spectators were hypnotized.
Walking on Fire.
The writer tells further of having many times witnessed the walking-on-fire trick, which no one can explain. Not only do the fakirs walk on blazing charcoal, but they can make white men do it without feeling any pain. It is plain that, while the jugglers might have some secret method of hardening their feet, the white spectators would not, and that they either walked on fire or that a hundred of them at one time could be hypnotized into the notion that they were witnessing the feat, while another half dozen were hypnotized into the belief that they were doing it. Mr. McGregor says that at Hardwan he saw a man hanging head downward from the branch of a tree, and was told that he lived always in that position. Certainly, he was always there at any hour of the day or night that Mr. McGregor passed, and he did this several times in the three days his camp was in the neighborhood. The very fact that it is impossible to lure these adepts of the occult to visit Europe or America to demonstrate their powers, is in itself an indication that they have discovered some secret which makes them indifferent to what the rest of us accept as the great truths and objects of life.

Drive constipation out of your system with Kellogg's Bran!

Get away from the dangers that confront you and every member of your family if you are neglecting constipation or constipation conditions! Eat Kellogg's Bran, cooked and krumbled, every day, and you will be astonished at the improvement in your health and spirit!

all illness can be traced to constipation! It is responsible for most cases of diabetes, Bright's disease, rheumatism and hardening of the arteries. It dulls the brain, makes the sufferer sluggish and causes headaches, bad breath, pimply complexion and only aggravates dangerous conditions!

Bran's value as a constipation corrective is wonderful. It is heartily endorsed by physicians because Bran is the natural means of relieving constipation with the food you eat! We guarantee that Kellogg's Bran, eaten regularly—at least two tablespoonfuls daily; in severe cases with each meal—will permanently relieve the most stubborn constipation! It does wonderful health work for children, making them strong and robust.
You realize what constipation means when authorities state that 90% of

Kellogg's Bran, as nature's corrective food, sweeps, cleans and purifies. It regulates the bowels naturally and does not cause irritation or discomfort like pills and cathartics, which cannot afford permanent relief and only aggravate dangerous conditions! You will like Kellogg's Bran, cooked and krumbled. Its nut-like flavor is delicious. Eat it as a cereal, sprinkle it over your favorite cereal, or use it in countless delightful ways in baking, such as in pancakes, gems, raisin bread, muffins, etc. Buy Kellogg's Bran at all corners. It's wrapped "WAXTITE" at all corners.

TO AID FISHING INDUSTRY

William Duff, M. P., chairman of a commission investigating conditions in British Columbia's fishing industry. He is of the opinion that the industry in Canada could be more competently handled if the Fisheries Department at Ottawa was split into two branches, one looking after the Pacific and the other after the inland waters and Atlantic fisheries.

ained for him as a sweeper in the plant of the Wickwire-Spencer Steel Corporation. He followed this occupation until stricken with paralysis last week and taken to City Hospital, where he died Sunday night.
The officers of the corporation located his lodging in the rear of a small fruit store, where they found a few books which showed the unknown had high lit-

erary tastes. Papers were also found to indicate he had owned large sugar refineries in the Middle West, but there was nothing among the papers to show anything more tangible concerning his family.
McCarthy's connections with Princeton became known through stories he told fellow workers.

The Business Situation as I See It

M. C. ROBINSON

During the past four years prices have been undergoing a downward revision which, while necessary, have shattered everybody's confidence in the stability of prices or values.

The bottom has now been reached. Conditions in the business world are as near normal as they will be for years. Business men who visualize the future can again see far ahead.

I have "dared" before—and have always gained my point. I "dared" introduce snappy styles into this country. Before my time everything was "conservative" in men's clothes.

Perhaps that is why I have built up the largest clothing business in Canada. As a result I have built a business where customers buy clothes, rather than where salesmen sell clothes.

Now, without waiting for others to start something, I am going to "dare" to put my business back to the fundamental principle that was its very foundation, believing that in so doing, I will help re-establish standards—the standards that built this business.

After four years of fluctuating market conditions, I have "dared" to put out a line of suits and overcoats good enough for any man in Canada—Whether he be judge, lawyer, doctor, dentist, banker, broker, merchant, or any man, regardless of his station in life, and charge him but \$25

They are genuine \$35 values, every one of them. The difference in price is the difference in the method of merchandising, not in the merchandise. Literally thousands of good suits and overcoats to show you at \$25.

They are going out of my factories and into my stores now. Handsome, well styled, well tailored garments, every one of them: every one bearing my name, and worthy of the name in every way. Every one carrying my personal guarantee in the pocket, and able to live up to it.

PROHIBIT THE REVOLVER.

Kitchener Record.—If disarmament is good for nations, why is it not good for the individuals? We believe it would be. If getting rid of armies and navies and munitions will lessen the likelihood of war, it is just as true that if men are deprived of revolvers and concealed weapons, they are not so apt to get into trouble.

THE EUROPEAN PROBLEM.

Victoria Times.—Nobody will be deluded into the belief that Europe's economic problem has been solved consequent Belgium's concessions in respect of her priority claim upon the debtor nation. None the less if the whole question of reparations shall be tackled from other angles, and in an atmosphere a good deal cooler than that which has been generated of late, a settlement should not be impossible.

REV. DR. G. CAMPBELL MORGAN IN HALIFAX

Halifax, N. S., Sept. 15.—Rev. Dr. G. Campbell Morgan, English evangelist, opened a week's programme of lectures here last evening, when he spoke to a congregation that filled St. Paul's church. He afterwards gave a ten-minute talk before the Presbyterian synod. He will conduct services in St. Matthew's Presbyterian and St. Paul's churches daily for a week.

(Canadian Press Dispatch.)

New York, Sept. 14—Evangeline Booth, commander of the Salvation Army in America, today received a radio message from Bramwell Booth, commander-in-chief of the organization, notifying her that her retirement as commander had been definitely decided upon, to take effect at a date to be announced later.

MRS. TAPLEY WINS.

It is announced that Mrs. F. Tapley, of 134 Pitt street, made the successful guess in the contest carried on during the exhibition by the Schofield Paper Co., Ltd. A large five gallon glass bottle was filled with matches and was kept revolving on the counter of the exhibit, where anyone wishing to do so might guess the quantity of matches contained in the bottle. The number of matches was 11,182. Mrs. Tapley's guess was 11,187, being within fifteen matches of the correct number. The total number of guesses passed in was 1,348.

American League Rivals to
Meet Tomorrow

Ruth Gets 32nd Homer—The
Giants Use Five Pitchers
and Nose Out Victory—
Stock Gets Five Hits in
Five Tries.

(Canadian Press)
New York, Sept. 14—Victories by all of the leading pennant contenders—New York and Pittsburgh, in the National League, and New York and St. Louis, in the American League—left the relative standings of the rivals unchanged today, but improved the mathematical chances of the leading New York teams.

By capturing thirteen of their remaining eighteen games, the Giants can win even if the Pirates take all of their remaining sixteen contests. Such an eventuality would give the Giants a margin of one game. In the American, the Browns, to win, must take twelve of the thirteen remaining games if the Yankees win ten of fourteen. The American League rivals will start a series at St. Louis tomorrow that probably will decide the race.

Joe Bush's brilliant pitching and Babe Ruth's 32nd homer were high lights in the Yankees' second straight triumph over Chicago, 4 to 1, while the Browns staged a belated rally to down Boston, 5 to 3. The Giants, out hit 15 to 7, called on five hurlers before nosing out Chicago, 7 to 6, while the Pirates crushed Boston again, 8 to 0, with Babe Adams in rare form.

Pilletoe of Detroit turned back the Athletics, 2 to 2, and Stuffy McInnis poled out a homer that enabled Cleveland to down Washington, 4 to 3, in the other American League contest.

Milton Stock laced out five hits in as many times at bat and Rogers Hornsby hit safely in his twenty-ninth consecutive game while the St. Louis Cardinals made it three in a row from Philadelphia, 9 to 4. Grimmes was hit hard by Cincinnati while Couch was a puzzle to Brooklyn, the Reds winning, 7 to 3, in the other National League game.

**PROPOSES CHANGES
IN TRACK TIMING**

Dr. Allen Advocates Standardization of Watches and Uniform Plan of Time Notation.

New York, Sept. 14—Dr. F. C. Allen, director of athletics at the University of Kansas, is advocating two innovations in the management of big track and field meets—standardization of all watches to a measure of tenths instead of fifths of a second and a uniform system of time notation for followers of the sport. He intimates that he will endeavor to have both reforms put into

effect at the first annual relays next year.

The Kansas coach gives as one reason for the proposed change the possibility of discovering new records through increased accuracy in calculation of time. Another is the lessening of confusion alike for officials at meets and the reading public through a uniform method of recording time. By the universal adoption of the one-tenth of a second watch, which in some places is already being used, Dr. Allen declares new records could be caught and defined with greater accuracy. Instead of the extended fraction he would use a single decimal, indicating the fraction. If both 224-5 and 178-10 were to appear as times, he would have the figures written 22.45 and 17.8. In case of the use of minutes in addition to seconds he would have the figures read 4.162 instead of 4.16 1/2, each of which represents four minutes sixteen and one-fifth seconds. Expressed decimally as 4.162, Dr. Allen believes the time would be more easily and readily understood than stated fractionally in fifth of a second.

TURF.
St. Stephen Meet.

Bud Hal, the Acker owned horse, made it three straight heats in the free-for-all at St. Stephen yesterday. The best time was 2:10 1/4, each heat being run in the same time. Mr. Dell took a win out of the 2:21 mixed class after four heats, best time 2:17 1/4, while Little Peter made it three straight in the 2:15 mixed class, best time 2:14 1/4.

Woodstock Races.
It took twelve heats to decide three classes in the Woodstock races yesterday. In a field of six starters, Miss Minnie nosed out a winner in the 2:15 trot after four heats had been run. The best time was 2:17 1/2. Sachrose did the same trick in the 2:12 trot and pace, best time being 2:11 1/4. Chimes Tell, after dropping to fourth place in the first heat of the 2:16 trot, made it three straight after that, the best time being 2:15 1/2.

The Grand Circuit.
The fastest time on the grand Circuit yesterday in the ordinarily very fast time 2:08 pace. The heavy track due to rain caused the slowness. John Henry won this class, in three straight heats, purse \$2,500. Edna Worthy took the Chamber of Commerce \$2,500 purse, making it the best two out of three, best time being 2:10 1/2.

at this port, where the American race committee has its headquarters and which has several schooners in preparation for the elimination races. It was felt that as the Mayflower had participated regularly, winter and summer, in the fisheries out of Boston and this port and on the northern and southern fishing grounds for more than a year, any question about her eligibility had been answered. The fact that the letter of the trustees announcing the decision gave no reason for the action caused Gloucester men to leave discussion of further action to the committee. It was said a meeting of the committee soon would be called and further attitude on the question defined.

British Won Yesterday.
Oyster Bay, N. Y., Sept. 14.—British six metre yachts sailed to victory today in the fourth of the International series with the United States for the British-American Cup, but only because one of the Yankee sloops, Clytie, was disqualified for fouling. The team score was 19 to 16 in favor of the British, but the

**Greetings to the
Telescope Tweed**

Here she comes, men, just as you're giving your old straw a kick. The Telescope Tweed—a hat, a real hat, one with the crown turned down so its outline is like a straw. Only it wears in any weather, stuffs into a pocket and comes up smiling.

Cut from the new tailor cloths, browns, greys, heringbones, heather tones. Smartly brimmed and made by Wolfe, so its a bear—\$5.50.

Thinking of a felt? See our window full of Biltmores, the new turned up brims and all. Smooth felt \$5, hairy \$6.

Velours? Biltmores again only \$6.50 and \$10, where you saw 'em last at \$10 and \$15. The Brown family is going strong this fall with a whole flock of colorings with greys and greens pressing hard. Lookings free.

TOLL OF FIRES IS TREMENDOUS

3,000 Lives Lost and \$250,000,000 Damage in One Decade — Prevention Week Soon.

In an attempt to educate the public to the tremendous waste caused by preventable fires, the Federal government has designated the week commencing October 2 as Fire Prevention Week.

Circulars giving figures of the fire losses in Canada during the last decade, and suggestions for fire prevention, will be sent to all schools and distributed in all communities.

In the proclamation calling for the observation of Fire Prevention Week it is pointed out that during the past decade more than 3,000 lives have been

lost, and insurable property valued in excess of \$250,000,000 has been destroyed by fires.

The attention of school children will be drawn to dangerous conditions existing about their own homes by a questionnaire to be filled out by every scholar.

It is suggested that during Fire Prevention Week fire chiefs or other officials be asked to address the scholars in the schools, and demonstrations will be

FLY TO THE POLE FROM LONDON

London, Aug. 27—(Associated Press by Mail)—Modern airships of the German type could make the trip from London to the North Pole, a distance of 4,600 miles, within a week, says Major Richard Carr, aerial expert of the Shackleton Antarctic Expedition.

"I am fully convinced that we have left far behind the old-fashioned methods, and that in future polar exploration will be done by aircraft during the summer months," Major Carr continues.

Major Carr made important observations on flying conditions in the Antarctic. "During the seven weeks we were in the ice," he says, "the lowest temperature recorded was five degrees Fahrenheit and the average approximately twenty degrees."

FOOD DISPLAY VIES WITH GEMS

Moscow Crowds Divide Attention Between the Two Allurements.

Moscow, Aug. 16—(Associated Press by Mail)—Diamonds and food are the chief attractions in the great open air markets of Moscow, which are running full blast this summer after several years of inactivity.

Food of all kinds is to be had in abundance, there being many varieties of vegetables and fruit, as well as butter, eggs, meat, flour and canned goods.

Tons of potatoes, and fresh vegetables just from the fields, are dumped into the stalls in the morning. Women of the neighborhood fill their baskets and then hurry from the market place in an endless procession which continues until late in the afternoon.

The diamonds and jewelry section of the markets the dealers, chiefly women, sit in long rows displaying their wares on their fingers and about their necks.

The diamonds are not of the best, but it is here that the largest crowds assemble, even in greater numbers than before the food stall. Some are endeavoring to sell, others are haggling over the price of a stone, a watch, or some other piece of jewelry.

FIVE ARMED BANDITS ROB SECLUDED HOME

Residence of St. Thomas Alderman Looted in Search for Liquor.

St. Thomas, Sept. 15—Armed desperadoes, at least five in number, visited the residence of Alderman E. O. Boehmer, located in a secluded section of the city, and ransacked every room in the place after securing John Scott, Aid. Boehmer's aged gardener, with strips of cloth torn from a bed sheet.

Fortunately the liquor is kept in a vault-like compartment in the cellar and the robbers were unable to work the combination on the door.

JUMPED FROM WINDOWS TO ESCAPE INN FIRE

Ten Servants at May-November Farm in Hartsdale Routed by Early Morning Blaze.

White Plains, N. Y., Sept. 15—Fire of mysterious origin destroyed the May-November Farm, a big country road house owned by Thomas Healy, on a high hill just off Central avenue and overlooking Hartsdale, four miles from White Plains, causing loss of \$125,000.

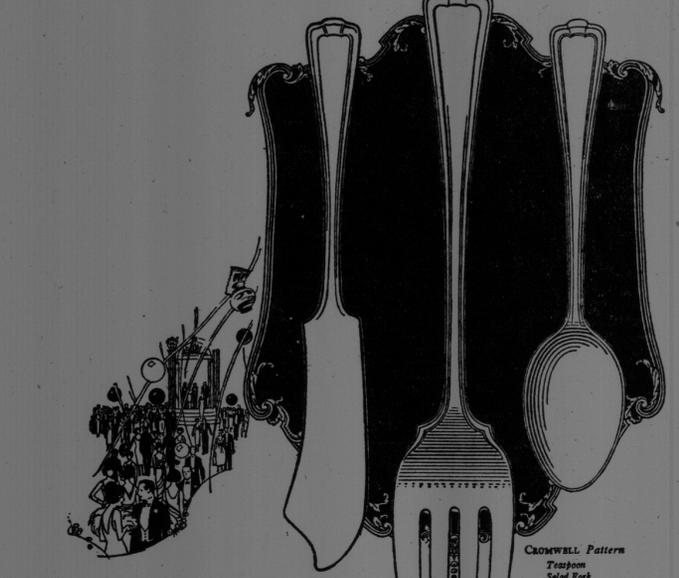

According to the servants the fire must have started in the kitchen. There were about ten employed by Nichols Pronouns, who was proprietor of the inn.

The kitchen, located on the first floor, where the fire is believed to have started, had been thoroughly cleaned before lights were put out for the night and employes had retired. The only fire that is known to have been left burning was in the kitchen range.
