TWENTY PAGES—ONE CENT

THE RAIN CAUSES DAMAGE TO ROADS

Will Mean \$75,000, Says the Hon. Mr. Veniot

Hundred Yards Washout Between Hartland and Woodstock—The River Lumber—Fredericton Tax Rate is Reduced.

(Special to Times.) Fredericton, N. B., June 22.—The rise in the river here is almost checked. The St. John River Log Driving Company today sent out a drift drive to catch lumber that went through the Mitchell boom on Tuesday night. The side of the boom gave way.

Hon. P. J. Veniot, minister of public works, has been notified from Hartland that the highway between Hartland and Woodstock has suffered heavy damage from storms. One hundred yards of road has been washed out and has fallen down on the line of the C. P. R. The road was not of recent construction. The rains have been extraordinarily heavy everywhere.

It is estimated that the roads of the province will suffer damage to the amount of \$75,000, said Hon. Mr. Veniot. Bridge contracts will be awarded during the present visit of the minister to Fredericton. He will leave Friday night.

Chief Assessor A. A. Sterling has announced that the assessment rate for Fredericton for this year will be \$2.20, a decrease of twelve cents compared with 1921. There is an increase of \$81,060 in valuation, however, with personal property showing the greatest increase. The assessment is \$8,000 lower than in 1921, totalling \$240,000.

Fredericton, N. B., June 22.—About noon today the public works department received word of a second washout of highway between Woodstock. It is a gully fourteen feet wide. This is in work which was done not long ago.

PASTOR IS TO LEAVE NEXT WEEK

Rev. Mr. Appelman Going to States—Presentation Last Evening.

After a four years pastorate at the Cotuit street Christian church, Rev. F. M. Appelman is to leave on next Wednesday. He and his family will go to Brooklyn to visit, and Mr. Appelman will take a vacation. He is not certain where he will locate.

ARE ANXIOUS ABOUT H. G. MARR

Henry G. Marr of the Marr Millinery Company has been missing from his home, 248 Germain street, since early this morning. He left home between 8 and 10 o'clock and at the time of leaving was wearing a hat and a light-colored suit. No trace of him has been found since that time and no one has been located who saw him, either leaving the house or in the street. It was said at Mr. Marr's home today that he had not been very well the week before. A great deal of anxiety is felt by the family and friends which will be their search.

INVALIDATE CORK ELECTION

Cork, June 22.—The north and west Cork elections will be invalidated. It was announced today, because when counting of the votes began this morning it was seen that they had been tampered with.

GETS SAD NEWS

Miss J. F. Johnson, principal of the Standard Business College this morning received news of the sudden death of her father, W. A. Johnson, at his home in Truro, N. S. Miss Johnson and Miss Hamilton left on the two o'clock train for Truro. Many friends in the city will be sorry to hear of Mr. Johnson's death and will sympathize heartily with Miss Johnson in her bereavement.

HONOR SOLDIER DEAD

London, June 22.—Several thousand school children today placed Canadian maple leaves and flowers upon the graves of Canadian soldiers in Shorncliffe cemetery. The floral tributes included a massive wreath from the girls students of Talbot, Lord Roberts and Ryan schools of London, Ontario.

CHICAGO GRAIN MARKET

Chicago, June 22.—Opening: Wheat—July, 1.15 1/4; September, 1.15 1/4. Corn—July, 62 1/2; Sept., 61 1/2. Oats—July, 85 1/2; Sept., 85 1/2.

Field Marshal Sir H. H. Wilson Slain in London

Shot Near His Home in Eton Place, Policeman Wounded; Two Assassants Reported Caught—Victim Was Ulster Government Adviser; Had Fine Record in War.

(Canadian Press Cable.) London, June 22.—Field Marshal Sir Henry Hughes Wilson was shot and killed outside his home in Eton Place, London, this afternoon. Two assailants of the field marshal were arrested. The Central News account of the tragedy says Field Marshal Wilson was stepping from his auto a few minutes after three o'clock this afternoon when two men suddenly appeared and opened fire upon him with revolvers. He was struck by three shots, the account adds, and died almost immediately.

The field marshal delivered a speech at the Liverpool street station in the city this morning in connection with the unveiling of a war memorial. Apparently he had just returned home when the tragedy occurred.

A policeman who was near him at the time of the shooting was wounded. London, June 22.—The death of Field Marshal Wilson was announced in the House of Commons by Austen Chamberlain, the government leader, who moved the adjournment of the house as a mark of mourning.

Field Marshal Wilson had been under police protection for some time as the authorities had reason to suspect an attempt on his life. Policemen were actually at the door of his residence when the assassin approached and opened fire. London, June 22.—The names of the two men arrested were given as Connolly and McElhinney.

Field Marshal Sir Henry Wilson was formerly chief of the imperial general staff of the British army. He retired from this post early in the present year and stood for the imperial parliament as Unionist candidate for North Down, Ireland. He was elected member of the latter district on Feb. 21 and soon afterwards was appointed by Premier Craig to Ulster's prime agent for the restoration of order.

The field marshal went to Belfast for England early in March with plans for restoring order, which he submitted to the premier.

While the choice of Field Marshal Wilson as organizer of pacification measures was generally approved in Ulster, a contrary reception in Southern Ireland. The former British chief of staff was regarded there with more or less the same feeling as Sir Edward Carson, former Ulster leader, and predictions were freely voiced in the south that he would be strongly in sympathy with the Orange side of the feud between the two factions.

Field Marshal Wilson's career in the great war was one of high distinction. He went out with the expeditionary force to France in 1914, and was the backbone of the British staff during the long retreat from Mons. In 1916 he was sent on a mission to Russia, returning to France as special representative of the British general headquarters and later was appointed to the eastern command at home.

In 1917, however, his most important work began. In December of that year he was appointed British member on the military committee of the allied war council for the western front. He thus became one of the best known figures in inter-allied army circles, for while Gen. Sir Douglas Haig was the British commander in the field, General Wilson was the British voice which spoke in the council at Versailles, which carried out the joint operations of the allies.

At Versailles General Wilson was associated with General Foch up to the time Foch took command of the joint operations of the allies. He also went to Italy after the Italian debacle at Caporetto and shaped the plans for holding back the Austro-German onslaught into Italy. Later General Cadorna became his associate at Versailles as the Italian representative of the joint military council.

CYCLONE IN WEST ONE IN ALL THAT IS WORTH WHILE

Barns Wrecked, Equipment Junked and Cow is Killed in Saskatchewan.

Regina, June 22.—According to a despatch to the Morning Leader, four barns are known to have been wrecked and telephone poles are blown down by a cyclone northwest of Mossbank last night. The total area damaged is not known.

With the family taking refuge in the cellar, John Ireland's barn was tossed into kindling wood, and the garage, granary, automobile, wagon, machinery and outbuildings twisted into junk. The granaries and barns on the farms of Peter Horn, Herbert Payne and J. Ireland were also destroyed. A cow was tossed into the air and killed. One mile from Mossbank, which was directly in the path of the storm, the cyclone divided. Some rain and hail fell during the storm.

MONTREAL STOCK EXCHANGE

Montreal, June 22.—(10:30)—Trading was dull during the first half hour this morning and only a few of the leaders came in an appearance. National Breweries was the most active issue, registering a three-quarter point decline to 81. Of the paper stocks, Abitibi appeared stronger by a quarter at 61.14 and Laurentine at 61.14. Brazilian was fractionally stronger at 47.18. British Empire Steel was unchanged at 18.14.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbush, "I see in today's papers that one western farmer with his family withdrew to the cellar while a tornado cut his firewood for him. It converted his house into a kindling wood, and provided him with beef to roast by tossing up to the ceiling. The western farmers have some great advantages."

"They do," said Hiram. "That beats even hydro—don't it? Well, they ain't got no electricity, but what the air is goin' to do for us. Then western fellers seems to be ahead of us down-stairs in settlin' it. We don't have no tornadoes out to the Settlement—but we get enough to help us. I ain't lookin' for excitement. I ain't got no right here in old No Bruns'ick—By Hen!"

YANKEES GO UP ANOTHER STEP

White Sox Climbed Into Tie With Cleveland by Ninth Inning Hitting.

New York, June 22.—Because of Shewkey's effective hurling, Huggins' awakened Yankees yesterday defeated the Indians, 7 to 3, and by virtue of the defeat of the league-leading Browns by the Athletics, advanced a full game to lead the top of the ladder. They were upped for eleven runs and five runs. One and a half games behind the leaders today, Ronnell held the Browns to four hits, while Wright and Danforth were checked for eleven runs and five runs. Geo. Slaughter escaped with another stolen base, his twenty-fifth of the season.

The Boston Sox employed a ninth inning punch to win from the Senators 5 to 4, and went into fourth place, with the Indians.

Brooklyn, in a game of many hits, errors, runs and pitchers, engaged in the contest with the Pirates, beat them 15 to 14 and tumbled them from the third position in the National League. The Pirates outdid the Dodgers twenty-five to nineteen, but they made six errors, the majority of which contributed to their opponent's run column.

CONDENSED NEWS

Fred Hagan, a young quartermaster, was dragged three unarmies a mile by a team of runaway horses near Travers, Alberta, on Tuesday and fatally injured.

The hearing to establish the mental status of Adolphe Delorme did not continue this morning on account of Judge Monette's indisposition.

The assistance and co-operation of all Canadian organizations, such as labor organizations, women's societies and so forth, in the League of Nations Society in Canada is urged in a statement issued by the executive of the society yesterday.

The king and queen of Italy were warmly welcomed in Copenhagen yesterday.

Captain Jack Palmer and Harry H. Fitzsimmons, war veterans and commercial fliers, left Lethbridge, Alberta, yesterday afternoon for the first leg of their flight to Ottawa, carrying the first east-bound aerial mail.

N. B. MEMBER SPEAKS AT ONT. POLITICAL MEETING

Sittellville, Ont., June 22.—The seven Progressive members from Ontario, who voted for the Liberal budget are Liberals in spirit, said B. B. Hanson, M. P. for York-Sunbury, N. B., who was one of the speakers at the annual convention of the Carleton County Conservative Association here yesterday.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries. F. S. Stewart, director of meteorological services.

Synopsis.—The low area which was off the New England coast yesterday is now over the State of Maine as an important disturbance. The movement had been attended by rain in Quebec and scattered showers in eastern Ontario and the maritime provinces. Elsewhere in Canada the weather has been mostly fair, showery.

Maritime—Strong winds or moderate gales, from southwest and south, showed today and Friday.

Gulf and North Shore—Strong winds, moderate gales, easterly with rain today and Friday.

Government Is Defeated in Both Commons and Lords

Double Blow Not Regarded as Fatal to Administration

House Defeat on Financial Amendment to Health Insurance Bill—In Lords Adverse Vote Followed a Speech by Balfour on Eastern Matters.

(Canadian Press Cable.) London, June 22.—The government was defeated on a financial amendment to the national health insurance bill in committee of the House of Commons today. The committee immediately adjourned in order that the government might consider its position.

The amendment was carried against the government by a vote of 20 to 14. The defeat is considered in political quarters as of no greater importance than that which occurred in the House of Lords yesterday and as unlikely to lead to modification of the government's policy.

In the Lords, too. London, June 22.—In the House of Lords yesterday, the Earl of Balfour enjoyed a once triumphant and mortification. There was a full muster of peers to hear the distinguished recruit to their ranks.

As usual he spoke with only a few notes jotted on the back of an envelope and was as much at his ease and as much a master of debate in the House of Lords as he was in the House of Commons. Despite his years his voice is still full and resonant and he delighted the peers with his oratory.

A striking feature of his speech was a long passage dealing with the tribulations of the Jewish race and their contribution to the arts, philosophy, science and religion of the world and suggesting that Christendom was not oblivious of the wrongs done them and should cancel the charges of giving the Jews a local habitation where, in peace and quietness, they might develop their culture and traditions.

The peers, however, seemed more concerned with the position of the Arabs under the Palestine mandate and, although the house cheered the Earl of Balfour with unusual warmth, it carried a motion against the government requesting postponement of the modification of the mandate.

The government whips had not expected a division and this presumably explains the small ministerial muster. The defeat in the Lords involves no domestic political consequences but its effect on the Palestine mandate cannot be judged until after today's debate in the House of Commons on practically the same subject.

Today Jayson Hicks will raise the question of the Rittenburg concession, and Winston Churchill will make an important statement.

THE FUTURE OF RAILWAY RATES

Likely to Go to Commission for Adjustment—Losses of Railways Figure in Proposed Reductions.

(Canadian Press.) Ottawa, June 22.—It is taking time to put the report of the special house committee on railway costs into effect. The decision of the committee to recommend further suspension of the Crow's Nest agreement, as already intimated, is understood to remain in force until the session of the committee last night was devoted to putting into final form the recommendations of the committee on this point and also in regard to the incorporation of the offers of reductions of rates by the railways.

The new list of reductions in freight rates, which is to take the place of the Crow's Nest agreement, is not expected to be incorporated in the statute. It is understood that, while the list of reductions is not yet ready, the railway companies will be included in the report to the house in a general way, at least, they will not be enacted as part of the act, continuing the suspension of the agreement.

The whole question, it is said, will be referred to the railway commission for adjustment, and the reductions in rates offered by the railways will then come up for consideration. The board is expected to follow the lines of the railway offers, though it will have power to change the list and the rates at its discretion. The suspension of the agreement will be for one year, with authority to the government to continue the suspension for a second year, if considered desirable.

The new proposals of the railways in regard to rate reductions would mean, according to the evidence of their representatives, a loss of approximately \$16,300,000 in revenue.

The largest estimate of loss came from the C. P. R., and was for \$8,338,000, which the biggest contribution was made by the new reduction on grain. The Canadian National estimate of loss was \$6,971,000. The losses estimated by the Grand Trunk aggregate \$1,028,000. In addition to the loss of the railways in estimates of the revenue they will lose as a result of the recent ten per cent. reduction by the government, the railway companies are expected to lose \$2,275,000. The Canadian National rates at \$1,250,000, and the Canadian Pacific at \$2,220,000.

KING'S DAUGHTERS

Vancouver, B. C., June 22.—The tenth triennial dominion convention of the King's Daughters opened here yesterday. Miss Annie M. Brown of Toronto, president, delivered an address. The financial statement showed receipts of \$896,720 and expenses of \$503,82.

WOMAN'S VIEW OF TAXATION PROBLEM

Report by Mrs. Murray, of Halifax, at National Council

Exemption of Improvements on Dwellings Under \$4,000—List of Big Questions for Work of Members During Winter Months.

(Canadian Press.) Port Arthur, Ont., June 22.—At yesterday's sessions of the convention of the National Council of Women, the expected discussions on the reports of the afternoon's business was despatched on schedule time.

Mrs. E. M. Murray, of Halifax, convener of the committee on taxation, presented a report laying the blame for the post war conditions upon governments "tinkering with the tariffs" and obstacles thrown in the way of exchange problems as a result. She maintained that is nations engaged in the war had agreed to pay off their debts by unlimited exchange of products, idleness and unrest would have been avoided.

She blamed the United States for the stranglehold of industry, high prices, unemployment and intensified hardship, naming the emergency tariff as prohibiting importation from debtor nations, that would normally have paid off their debts in this way. Private ownership of land in western Canada, she said, prevented the settlement of the more attractive areas, and thus delayed the expansion of the Dominion's population and the consequent solution of the taxation problems. She advocated a reduction in unearned increment or increased land value as a remedy.

She also advocated exemption on improvements on dwellings under \$4,000 and quoted Toronto, which has had a fifty per cent. increase in dwelling construction since new regulations regarding exemptions have been in force.

A resolution asking that the government consider the taxation of unearned increment, or increased value of land as a means of augmenting the national revenue, so that it will not be reflected in higher cost of commodities, was passed.

Mrs. E. E. Clement, of Brandon, reported on the progress of interest in the League of Nations in Canada, the council spreading its propaganda in at least ten Canadian cities.

MUTINY AND MASSACRE IN KIANGSI, CHINA

Shanghai, June 22.—Between 10,000 and 15,000 northern forces sent against Sun Yat Sen's army, in Kiangsi province, mutinied at Kianfu, burned portions of that place and nearby cities and killed thousands of the residents, according to unconfirmed but apparently authentic reports. The troops were under command of General Tiao Chen Hsun, military commander of Peking.

Tientsin, June 22.—Representatives of Chang Tso Lin, defeated war lord of Manchuria, and Wu Pei Fu, his conqueror, signed an armistice yesterday. The negotiations were begun last week aboard a British warship at Chingwang-tao.

Peking, June 22.—Dr. Sun Yat Sen, formerly president of the South China Republic, has been taken prisoner by the united China forces and is being held captive on the Chinese Hach cruiser, in the West River, near Canton, according to advices to the foreign legations from Canton.

BRITISH GOLF CHAMPIONSHIP

Sandwich, Eng., June 22.—Play for the British open golf championship began early today over the Royal St. George's course. There was a large gathering in the morning. Alexander Herd and George Duncan were the first pair. They were followed at six-minute intervals by the others. The weather is favorable.

Some of the morning scores were: Geo. Duncan, 76; R. G. Wilson, Chohanam, 78; A. J. Miles, Merion Park, 75; Aubrey Boomer, 75; J. Gaston, Chantilly, 76; Alex. Herd, 76; R. Wethered, 76; G. Gadd, Rowlandton, 76; Abe Mitchell, 79. Joe Kirkwood, Australian champion, started out below his usual form, missing several short putts.

WOULD HAVE 16 HOURS OF SERVICE THE MAXIMUM

Ottawa, June 22.—W. I. Best, representing the Brotherhood of Locomotive Firemen and Enginemen, today made application to the railway commission for a maximum continuous period of sixteen hours on duty similar to the regulation in force in the U. S.

He reported cases where men were continuously on duty as long as thirty hours, while the average of the excessive hours worked was around eighteen hours. These were not special cases. Judgment was finally reserved.

CUSTOMS INSPECTION.

F. S. Dobby, chief inspector of customs and excise, Ottawa; A. L. Hoyt, inspector for New Brunswick, and C. B. Lockhart, collector for the port of St. John, returned last night from Fredericton. Yesterday an inspection of the Fredericton branch was carried out. Today Mr. Bishop is inspecting the local office. He Mitchell, 79. Joe Kirkwood, Australian champion, started out below his usual form, missing several short putts.

FINDS NEW VITAMIN IS BONE PROTECTOR

Johns Hopkins Biochemist Announces Discovery in Searching for Cause of Rickets

Baltimore, Md., June 22—After three years of patient research, Dr. E. V. McCollum, famous biochemist of the School of Hygiene and Public Health of Johns Hopkins University, assisted by Miss Nina Simmonds and Dr. F. G. Shipley, has made another discovery of great importance to the comparatively new science of dietetics. The investigators have "captured" a hitherto unknown vitamin, which has been labeled vitamin D, the scientific purpose of which is the protection of bone growth and the prevention of the disease known as rickets. Dr. McCollum referred to this discovery in an address at the convention of the Holstein-Friesian Association recently held in Kansas City. In discussing the matter since, he said that during the last twelve years investigators had come to an agreement on the point that there were at least three vitamins, which had become known as vitamins A, B, and C. "These," he continued, "when lacking from the diet, cause the development of a type of eye disease known as ophthalmia. A type of paralysis and 'scurvy' respectively. By this we mean that one vitamin is concerned with one of the specific deficiency diseases. Recently my assistants and I have demonstrated the existence of a fourth vitamin, which is concerned with bone growth. The discovery was made in the course of an investigation of the cause of faulty bone growth. This investigation has been in progress for about three years. Approximately 4,000 animals—rats—have been used as experimental subjects in this work. It was found that the primary cause of rickets is a disturbance of the metabolism of calcium and of phosphorus, the principal elements concerned in the formation of the skeleton. When there is a disposition between these two elements, the calcium supply being inadequate and the phosphorus abundant, or the phosphorus supply inadequate and the calcium abundant or excessive, the disease is likely to develop. Under these conditions the animals become deformed in much the same manner as do children who suffer from this disease. Physicians have long believed that

cod liver oil has a therapeutic value in the treatment of rickets, and in the studies referred to this oil was found to exert a decided protective action in preventing the onset of rickets when the dietary conditions were favorable for its occurrence. This fact was also noted by an English investigator named Mellanby. Mellanby's certain that the protective action of certain fats in rickets was probably due to the presence in them of the vitamin A, which, as has been stated, is concerned with the causation of ophthalmia, an eye disease of dietary origin. We have destroyed the vitamin A by oxidation, and have made cod liver oil incapable of preventing the eye disease, but without diminishing in a noticeable degree its value for the prevention or cure of rickets, and have thus shown that certain fats contain two vitamins, one related to the functioning of the nutritional processes of the eyes, the other concerned primarily with the regulation of calcium and phosphorus metabolism, as it affects the bones. "By selectively destroying one of these properties and retaining the other, it is proved that two dietary principles are operating in cod liver oil, rather than one such substance which has two regulatory functions in the body."

ARE WORRIED

A Weevil Has Put in an Appearance and Crops May be Smaller Than Expected.

(Sackville Post.) Strawberry growers in this neighborhood report that a small flea or weevil has attacked the vines, and as a consequence the crop that a week or two ago promised to be above the average may be materially reduced. When spoken to yesterday Mr. Fawcett, the largest grower in Sackville said it was quite true, the insect had made its appearance all right, and seemed very busy. The growers had brought two scientists down from Ottawa, hoping they might be able to suggest some method of effectively dealing with this latest pest, but about all they could suggest was the use of sulphur. But to sprinkle sulphur over twenty acres of berries, the size of Mr. Fawcett's field would be some job, and even then the remedy is not a sure one. The weevil cuts off the blossoms or partly formed

BERRY GROWERS ARE WORRIED

A Weevil Has Put in an Appearance and Crops May be Smaller Than Expected.

(Sackville Post.) Strawberry growers in this neighborhood report that a small flea or weevil has attacked the vines, and as a consequence the crop that a week or two ago promised to be above the average may be materially reduced. When spoken to yesterday Mr. Fawcett, the largest grower in Sackville said it was quite true, the insect had made its appearance all right, and seemed very busy. The growers had brought two scientists down from Ottawa, hoping they might be able to suggest some method of effectively dealing with this latest pest, but about all they could suggest was the use of sulphur. But to sprinkle sulphur over twenty acres of berries, the size of Mr. Fawcett's field would be some job, and even then the remedy is not a sure one. The weevil cuts off the blossoms or partly formed

Native strawberries are beginning to arrive in the city in quantities. The river steamer brought down about 8,000 boxes yesterday. The price at the boats by the crate varied from 90 to 95 cents.

BETTER THAN HARD COAL

Soft coal so free from soot that it does not make whisks on stove covers or pipe and does not put or cake when burning. Is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

A Practical Prescription For Sour, Acid Stomachs

Nine-tenths of all cases of stomach trouble nowadays are caused by too much acid. In the beginning the stomach acid is not in excess, but as the condition is allowed to continue, the acid is very likely to eat into the stomach walls and produce gastric ulcers. This is really a dangerous condition and should be treated seriously. The excess acid or stomach hyperacidity can easily be neutralized by Bisurated Magnesia taken in teaspoonful doses in a glass of water after each meal. Larger quantities may be used if necessary as it is absolutely harmless. Be sure to ask your druggist for the pure Bisurated Magnesia especially prepared for this purpose.

To Wear Thin Waists or Sleeveless Dresses

(Beauty Topik) With the aid of a detone paste, it is an easy matter for any woman to remove every trace of hair or fuzz from face, neck and arms. Enough of the powdered detone and water is mixed into a thick paste and spread on the hairy surface for about 2 minutes, then rubbed off and the skin washed. This completely removes the hair, but to avoid disappointment, get the detone in an original package and mix fresh.

The Audit Bureau of Circulation audits the circulation of The Evening Times.

THE PRINCE OF WALES.

The demonstration in London yesterday in honor of the Prince of Wales was another notable illustration of the remarkable popularity of the royal family. The Prince had returned from his tour, having been away from England some eight months. Wherever he had gone it was with a wonderful warmth of welcome, but the climax came when he returned to the Imperial capital. The Prince of Wales wears well. He is a young man of rare personal charm, of good ability and sound judgment. There is a democratic air about him which, while it does not detract from his dignity, makes him beloved of the people. He is their prince, and they delight to honor him. The Londoner dearly loves a pageant, and the return of the Prince of Wales afforded an opportunity for a display and a welcome which must have warmed the heart of the Imperial wanderer, hurred though he may be to public demonstrations. The Prince has been accumulating knowledge of the Empire which will be of incalculable value in the years to come. With a full sense of his responsibilities he is keen student, and when the time comes for him to take a more active part in Imperial affairs he will have a well-learned mind, as well as a matured judgment and an appreciation of the view-point of every portion of the Empire. Canadians have come to regard him with affection, and rejoice with the people of England in his safe return.

IN IRELAND.

Edmond De Valera would like to be the president of an Irish republic. It is therefore quite natural that he is interested by the result of the elections in Southern Ireland. He does not add to his reputation, however, by picturing the Irish electors as victims of "outrage, murder and massacre." The real fear in the elections was that De Valera's friends would be threatened and force prevented the people from giving a free expression to their views. That expression has been given, however, to a sufficient extent to prove that they want the Irish Free State and not a republic which would be under the thumb of De Valera and his group of swash-bucklers. The future of Ireland as an autonomous member of the Imperial group of nations would be assured in prosperity and happiness. Any other condition would be fraught with danger and disturbance. If now the people of Ireland will themselves compose their differences, live down the harshness of religious bigotry, and direct their efforts to the tasks of pacification and harmonious action, the future will be very bright with promise. It is not an easy task, but every friend of Ireland will hope that it may be undertaken and carried to a successful issue. Any other outcome would but fasten upon the country a strife that would sap the very foundations of progress and alleviate the sympathy of those who now look hopefully to a happy release for the country from the evils from which it has so long suffered.

Toronto Globe—"The people of Canada desire that the gallant man who volunteered for service without counting the cost, and who by their valor brought great glory to the Dominion, shall be treated not only justly but with generosity by the Pension Board and the Department of Soldiers' Civil Re-establishment. If the redress of the grievances of the men who believe they have been unjustly dealt with adds one, two, or even three million dollars a year to the expenditure on pensions, the additional burden will be borne cheerfully, in the knowledge that nothing we may do now for them by way of financial sacrifice will be considered beside the sufferings they endured for us in the field of war."

The announcement that Dr. Sun Yat Sen, late president of South China, has been taken prisoner by forces supporting the central government of China, following as it does the defeat of the usurper in North China, gives rise to the hope that a real unification of China under one central administration may be brought nearer than had been deemed possible a few months ago. The process of unification, however, is surrounded by great difficulties because of the vast area of the country and the fact that one section has no particular interest in and very little knowledge of the other.

Southern Ireland may do what it pleases, but the people of Belfast continue with apparent great relief their pastime of gunning for each other and keeping up with the death rate.

The Lloyd George government met with a reverse yesterday in both the lords and commons. It is a very interesting political situation.

St. John is deeply interested in the matter of providing a more satisfactory steamer service between maritime province ports and the West Indies.

AN IMPORTANT PROGRAMME.

The committee on citizenship of the National Council of Women has recommended lines of effort for winter work that should have a notable influence in every community. It suggests civic clubs to study municipal affairs, efforts to get a course in civics in schools, to get homes for feeble-minded, to have mentally defective children registered and adults supervised, to agitate for vocational schools, to advocate medical inspection in all schools, to get women appointed as magistrates to deal with women and children's cases, to have domestic relations courts established, and to promote several other courses of peculiar interest to women. The branches of the Council of Women in the various cities have a great opportunity, and they are doing a splendid work. The programme now suggested is full of promise of effective work during the next year. The possession of the franchise has brought to the women of Canada a new sense of responsibility, and they are accepting their duties and performing them with an intelligent enthusiasm which must have a strong influence upon the manhood of the country as well.

It is expected the Manitoba general elections will be held on July 21. The result will be awaited with very keen interest because there is a feeling that the farmers may complete this time the revolution they began in the previous elections. Canadian Finance of Winnipeg, has declared that the next government will be a farmer government. Premier Norris, after taking some soundings has asserted that the sentiment in favor of the farmers is not as strong as has been represented. This, of course, is what the premier would be expected to say. The Conservatives will figure in the campaign as a poor third. The real fight will be between the farmers and the Liberals, and it will be waged with spirit.

In a recent pamphlet Lord Northcliffe, in a complimentary reference to Lord Beaverbrook said: "It is a fact, as I have pointed out before, that whereas the United States is exporting wheat to Canada, Canada is exporting heads of great businesses to the United States. It is a happy accident of fortune that Lord Beaverbrook should have come to England. I look forward to the day when the young Australians and New Zealanders, who are I am sorry to say also going to the United States, will come here, to the Motherland, where there is plenty of opportunity for their activities."

Referring to the controversy over amateur sport in the maritime provinces the Moncton Transcript says:—"A. W. Covey appears to have been vindicated. Many of those who were most busy knocking him a few weeks ago have discovered that he has a lot of good points. The temper in the temper probably did not add to the reputation of the marliners for sportsmanship, but it is to be hoped that bygones will be bygones, and that maritime sport will now fill the stage with a better feeling."

The New Brunswick Hydro Electric Commission has taken an important step in securing the services of an expert in hydro, who has been on the staff of Sir Adam Beck in Ontario, and has had to do with the introduction of hydro in a number of Ontario cities. His experience and advice will be of the greatest value to the commission in connection with the hydro-electric policy of the Foster government and with the successful distribution of the current from the initial development at Musquash.

THE WANDERLUST.

Take me out to the timbered hills,
Far from the haunted of human ills,
Out where the stary splendor fills
Out where the fields are fresh and green,
Out where the feet of the few have been,
Let me bask in a sylvan scene,
Far from the halls of doze.

Take me out where the mountains sleep,
Wrapt in the gold that the great gods keep,
Far from the filth that the misers reap,
Far from their sordid trade,
Out where the golden eagle flies
Deep in the wealth of the morning skies,
Out where the great blue heron cries,
Far from the fogs of parade.

—Harvey McKenzie.

AT SAND POINT.

This beautiful resort on the river, which is becoming more popular each year, can now boast of an up-to-date store, which has been opened on the main road, a few yards from the wharf, by Charles Dunbrack.

Rev. J. A. MacKegan, formerly pastor of St. David's church here, has been formally inducted into the pastoral charge of St. Andrew's church in Moosehead. Rev. Dr. Angus A. Graham, principal of Moosejaw College, presided. Rev. Dr. George Byrne delivered the charge to the minister and Rev. J. S. Davidson, of South Hill, addressed the congregation. On the day of induction messages of congratulation were exchanged between the session and congregation of St. David's and St. Andrew's, Moosejaw.

Use the Want Ad. Way

BEAUTY IS DEATHLESS.

They say that beauty dies; as roses fade
And are no more; as summer, once so bright,
Must lose its glow with September's blight;
As autumn song must by the winds be stayed,
But they speak falsely. Beauty lives,
And shall live ever. Only she eludes
The sure decay of time. When autumn broods
Funereal, she mourns the leaves, but gives
No hint of beauty's death. For she has passed
Into the great world's life. A million hearts
Possess her now. Supreme, above all arts,
She reigns. As first, she also shall be last.
The roses fall, but beauty liveth on
The sunset falls, preparing for the dawn.
—Thomas Curtis Clark in The Living Church.

SONG OF THE CAREFUL CAMPER.

A camper's life is the life for me,
For by the margin of a northern lake;
Sinking to sleep 'neath a windy tree
(I trust that bears in the tent don't break).

Splendid to rise when the carmine east
Places a key to the night's black lock
Flooding my eyes with the sunrise feast
(I'll have to bring my alarm clock).

Then to the shore where the stream in
vibes,
Whose flow is fed by the crystal
springs;
Swift to entrancing cool delights
(Hope I remember my water wings).

Of to the woods where the morning air
Carry the fragrance of leafy trees
This is the life for the man who dares
(Rubbers will keep me from catching cold).

I'll thrill when the brushwood breeze I
see,
While the leaning stars shine coldly
clear;
A camper's life is the life for me
(I hope there's a movie somewhere near).

—Thomas J. Murray in New York Herald.

CANADA HAS RECLAIMED ANOTHER OF HER SONS.

Canada has reclaimed another of her sons from the halls of learning in the United States by the appointment of Dr. E. S. Moore, Dean of the School of Mines of the Pennsylvania State College as professor of economic geology in the University of Toronto. Dr. Moore has had a distinguished career in the United States, and is recognized as one of the foremost geologists on this continent. He was in Toronto last Christmas with the American Association for the Advancement of Science, which met from December 27 to 31 for its seventy-fourth annual convention, being Secretary of Section E (geology and geography).

Dr. Moore, who was born at Clarkburg, Ontario, graduated from the University of Toronto in 1904, taking his M. A. in 1907, and a Ph.D. degree at the University of Chicago in 1909. He was professor of geology and mineralogy at the Pennsylvania State College from 1910 to 1917, and has been dean of the School of Mines there since 1917.

Besides teaching, Dr. Moore has been engaged in considerable practical work, having been geologist with the Ontario Bureau of Mines from 1904 to 1910; geologist on the Canadian Geological Survey 1912; on the Sir William Mackenzie expedition to Hudson Bay in 1914; for the Texas Oil Company in Cuba, 1917; on the Pennsylvania State Survey, and on the United States Geological Survey. He attended the British Association for the Advancement of Science which met in Australia in 1914.

SPINAL CURVATURE.

Curvature of the spine to one side (scoliosis) has been cured with a novel and ingenious method, by Dr. E. B. Frey, who reports on his success to the Deutsche Zeitschrift fuer Chirurgie (Leipzig). After experimenting on animals Dr. Frey applied his method to a girl of eighteen. He tied the ribs on the convex side together with stout silk and wire, thus forcing the spine into its normal position, and fixed it with a plaster cast.

This operation is suitable to younger persons, but when the curvature is of long standing a more radical operation is necessary. In such cases he cuts the ribs on the convex side close to the spine and those on the concave side in a distance from it and puts the body in a plaster cast which will hold the spine straight. The ribs grow together again very readily, and the two men on whom they operated the operation was stabilized, apparently permanently.

EATING TOO MUCH SALT.

The increase in the death rate from diseases of the heart and kidneys in the last two decades, which has been much greater in the United States than in England, is caused, according to H. L. Harris, by the large quantity of salt that most Americans eat. Writing in Good Health (Battle Creek, Mich.), he says that Britons eat hams and bacon preserved with borax and either fresh butter preserved with boric acid, while salt is used almost universally in preserving American food.

The quantity of salt needed for nutrition is only from fifteen to thirty grains a day, which is amply supplied in cooking. Any more than this is injurious. It is difficult to say how much salt the average American eats in a day, but it is certainly at least ten times as much as this.

THE FIRE CHIEFS.

At the Maritime Fire Chiefs' convention in St. Bonaville, N.S., twenty-three towns were represented. Chief R. A. Lushy of Amherst was elected president for the ensuing year. The convention will meet next year in New Glasgow on June 20 and 21. Papers were read yesterday by Fire Marshal Rudland of Nova Scotia and Fire Marshal McLellan of New Brunswick. Last evening the chiefs were entertained at a banquet and concert in the armory. They left for their homes today.

The girls of the Loyalty Club of the Y. W. C. A. held an enjoyable picnic at MacLaren's Beach last evening. Mrs. J. D. Hunter was in charge. They spread their feast in A. C. Ritchie's grounds and Mr. Ritchie served hot coffee and provided shelter at time of the showers.

EQUAL TREATMENT FOR WIVES IN LAW.

London, June 21.—(Associated Press by mail)—Another step has been taken in the direction of securing for wives equal treatment with husbands in law as regards the law of maintenance. The House of Commons has given a second reading to the "Separation and Maintenance Order Bill," to give it its cumbersome official title. It is designed to straighten some matrimonial tangles and remove various matrimonial infelicities which are largely attributed to the fact that in many ways the law does not treat the sexes alike.

As the law stands, according to the sponsor for the bill, Sir Robert Newman, a wife who wishes to prove cruelty against her husband has to leave home first, and she is torn between fear of him and fear of abandoning her children in his charge.

Under the provisions of the bill a wife, while still living with her husband and not yet to take him to the police court for a maintenance order, produce a letter from his employer, stating his earnings, obtain a ruling from the magistrate laying down the proportion of the wages to which she is entitled, and then take the husband home again.

STREET RAILWAY STRIKE CONTINUES.

Mexico City, June 22.—The striking street car men, after a stormy meeting, have decided to withdraw their offer of concessions and announced that they would not only continue their strike but would invite other unions to join in their movement, among them the electricians and railroad men.

It is understood that F. W. L. Teale, manager of the tramway company, is maintaining his stand in accordance with strict instructions from the company's home office in Toronto. The British, French, Italian and United States chambers of commerce have adopted resolutions favoring the stand taken by the Mexico City Tramway Company and the refusal to give in to the demands made by the workmen and the unjust demands made by them.

LIGHTNING SCATTERS BATHERS; ONE KILLED.

Two Take Shelter in Hut as It Is Struck—Thousands on Staten Island Flee.

New York, June 22.—Bathers and loungers fled in all directions for shelter from Oakwood Beach, Staten Island, here after flash of lightning struck the earth and ocean on all sides of them. A thunderbolt struck a small hut but 150 feet back of the beach and the two men had entered it for safety. The roof broke into flames. The two men did not reappear.

Bathers and others who had seen the two men take refuge there, ran to warn them that the roof was ablaze. When they reached the open door the two men were lying on the floor inside. Their clothes were burned. Neither answered a word.

The face and body of one man was blackened, and it was clear, before a doctor could be reached, that he was dead. The other man was stunned and scorched, but revived after treatment by Dr. Howard of Staten Island hospital, and refused to go to the hospital.

The dead man was William Miller, forty-four, a carpenter, who had been working on Staten Island and living at 189 Crosson avenue. The injured man was John Stanley, of 28 Bay street, Clifton.

Stanley said he and Miller got inside the house safely, but the bolt of lightning came through the open doorway, striking Miller on the head and face. Stanley was stunned, as the lightning seemed to glance off Miller.

None of those who remained in the open was hurt by the lightning. Some of the bathers, however, said that the bolts came close enough to sting them.

Thousands of bathers at Midland Beach and South Beach were hurried to the public at nearly the same time by an electrical storm which is said to have been the worst on Staten Island for years. Bathers crowded under boardwalks and in bathhouses and other buildings. Promoters ran in all directions to enter buildings. Lightning hit the water and beaches and played among the bathers at close quarters, but injured none at either of the beaches here.

The thunderstorm and heavy rain invaded Manhattan and other parts of New York for a few minutes late in the afternoon, but did little damage.

1,200 LEPROS ARE AT LARGE.

Federal Expert Urges Need of Isolation to Prevent Spread of Disease.

Washington, June 22.—A recent survey by the United States Public Health Service shows that there were 1,200 lepers at large in twenty-five states. Dr. C. H. Lawinder, assistant surgeon-general, announced in a statement today. There is only one means of preventing further increase in the number of cases, Dr. Lawinder said, and that is by providing isolation facilities large enough to take care of the present cases.

The leprosy program maintained by the federal government, located at Carville, La., is limited to 200 patients and is now filled to capacity. Dr. Lawinder said that the isolation facilities are not large enough to take care of the present cases.

He added that the impracticability of states or cities having their own institutions results in hundreds of lepers being at large in the country, with the risk of communicating the disease to others with whom they come in daily contact.

CLOSE ROYAL LAUNDRY.

London, June 21.—(A. P. by mail)—Like many other well-to-do people, the king is doing his best to cut down expenses in these days and he is not too proud to let his faithful and loyal subjects know it. He considers that there-by he is setting them a good example.

In order to effect economies he has decided to close the royal laundry at Richmond, which was opened in the days of Queen Victoria. It is here all the washing has since been done for the royal household. The work is henceforth to be given to a laundry company which will take over the whole of the employees of the royal laundry, numbering twenty-four, so that they may not lose anything by the change. It is said this also is by the king's direction.

Sing Sing Drug Users Increase.

Oswego, June 22.—Figures made public by Dr. Amos C. Squire, head physician of Sing Sing, show a large increase in the number of drug addicts admitted to the prison in the fiscal year ending June 30, 1921. In the year ended June 30, 1920, there were thirty-three drug-users received at Sing Sing. This number was increased to ninety-three in the year ended June 30, 1921, and to 122 in the year now nearly closed.

A search of prison records for years back discloses that the number of addicts admitted this year is the largest in the history of the institution.

MIRRA Piston Pins

The Out-of-the-Ordinary Pins at the Ordinary Price.

Only the man who has seen and handled Mirra Piston Pins can appreciate their superior finish, precise parallelism and extreme dimensional accuracy.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, JUNE 22, 1922

RECENT WEDDINGS

Akerley-Fowler. Cambridge, Queens county, June 21.—An interesting event took place on Tuesday morning at 8 o'clock on June 20 at the home of Mrs. Almada Fowler, Narrows, Queens county, N. B., when her daughter, Miss Ruby E., was united in marriage to Mr. Walter S. Akerley of Big Cove, Queens county (N.B.) by Pastor D. Patterson. Only the immediate relatives were present, the event being quiet on account of the recent death of the groom's mother, Mrs. B. W. Akerley. The happy pair entered the parlor to the strains of the wedding march played by the bride's sister, Mrs. Harold Scribner. The bride wore a blue silk Canton crepe dress with beana trimmings. After the ceremony a buffet luncheon was served and Mr. and Mrs. Akerley left at nine o'clock by auto for a trip through northern N. B. and Maine. The bride traveled in a tailored suit of navy tricotines with a small black French hat. The groom's gift to the bride was a substantial check.

Johnson-Keithlin. At the home of the bride's parents, in Glenwood, yesterday a pretty wedding was solemnized, when Miss Isabel Keithlin, daughter of Mr. and Mrs. Frederick Keithlin, was united in marriage to Harold Edward Johnson, son of Mr. and Mrs. Cade Johnson, of Johnsoncroft. The ceremony was performed by Rev. Robert Smart in the presence of relatives and friends. The bride was charmingly gowned in white silk tulle and wore a bridal veil trimmed with white anemone. She was attended by two little flower girls, Miss Lorna Belyea and Miss Beatrice Keithlin, and her sister, Miss Myrtle Keithlin, was bridesmaid. The bride's attendants each received a gold brooch as the gift of the groom and each was prettily attired in white. A large array of costly and beautiful gifts testified to the popularity of the bride and groom, who were showered with good wishes for their future happiness. After the ceremony they left for Woodstock, where they will spend their honeymoon. On their return they will take up their residence at Brown's flats.

Kilpatrick-Grant. A quiet wedding was solemnized at the Fairville Baptist parsonage yesterday afternoon, June 21, when Rev. C. T. Clark united in marriage Herbert J. Kilpatrick and Miss Stella M. Grant, both of St. John. Mr. Kilpatrick is a popular member of the police force, while the bride has been employed with the N. B. Telephone Co. Mr. and Mrs. Kilpatrick will reside in St. John.

Maxwell-Pike. Leonard John Maxwell, son of John A. Maxwell, Champlain street, and Miss Vera G. F. Pike, daughter of Mr. and Mrs. J. Wesley Pike, Queen street, were united in marriage yesterday afternoon in St. John's church by Rev. J. B. A. Holmes, rector. Clifford Maxwell, brother of the groom, was best man, and Gladys McKee was bridesmaid. The bride was given away by her brother, Harry W. Pike. The bride wore white satin with veil and carried a bouquet of red carnations; the bridesmaid wore peach organdy with black lace hat and corsage bouquet of sweet peas. The choir sang "The Voice That Breathed Over Eden" and "Oh, Perfect Love." Miss Isabelle Stevens was organist.

Following the ceremony, dinner was served at the home of the bride's parents and later the young pair left for Montreal on their honeymoon. On their return they will make their home in Champlain street. Among the presents received were gifts from the staff of W. P. Hetherway & Co. Ltd., for whom the groom is a traveler; from the Empress Theatre, where the bride was employed, and from St. George's baseball team, of which the groom is manager. The gift from the baseball team, a handsome rocker, was presented at the game in Queen square on Tuesday, in an address by A. W. Covey, president of the M. P. B. A. U. of C.

Mitton-Boyd. A quiet wedding was solemnized yesterday afternoon at 4 o'clock by Rev. R. Moorhead Legate, when he united in marriage Miss Margaret Boyd, daughter of Mrs. Annie Boyd and the late John Boyd, of this city, and Spurgeon Mitton, of Moncton. The bride wore a very pretty in a suit of navy blue organdy with hat to match. Immediately after the ceremony, Mr. and Mrs. Mitton left on the Valley train for a \$1,000 ball for violation of the Sullivan law in having a pistol in his possession without a permit.

Patricque-Humphries. In the main street Baptist church yesterday afternoon a quiet and pretty wedding was solemnized by pastor of the church, Rev. Dr. David Hutchison, when Walter Clarence Patricque, son of Mrs. Mary E. Patricque of this city, was united in marriage to Miss Jean Humphries, daughter of Mr. and Mrs. Scott Estey, of this city. The bride, who was given in marriage by her father, wore a navy blue tricotines suit with hat to match and an ermine which was the gift of the groom. They received many useful gifts, including a beautiful set of dishes from their fellow employees of the T. S. Simms Company, Limited. After the ceremony Mr. and Mrs. Patricque left on the Valley train for a short honeymoon trip, and on their return they will reside in the city. Many friends extend hearty good wishes.

Farris-Estey. The marriage of Miss Ada Estey, daughter of Mr. and Mrs. Scott Estey, to Wendell Farris, son of Mr. and Mrs. Bertram Farris, was solemnized last night at the residence of the bride's parents, 49 Main street, by Rev. G. D. Hudson. The bride wore a handsome dress of white duchess satin with bridal veil, and carried a beautiful bouquet of roses. The numerous gifts received by the bride and groom testified to the high regard of a wide circle of friends. Among the gifts was a dining room suite, which was the present of the groom's parents. Mr. and Mrs. Farris left on the evening train for a wedding trip to Halifax. Best wishes for their future happiness were extended to them.

RECENT DEATHS

William H. Ralph. Boston, Mass., June 21.—William H. Ralph, who has died at his home, 32 Bartlett street, Winter Hill, was for many years grand marshal of the Grand Lodge of Odd Fellows of Massachusetts. He was born at Kingston, Ont., June 12, 1849, and went at an early age to Cambridge, where he was educated. For forty-seven years he had been a resident of Somerville. Mr. Ralph was for years a member of the firm of J. W. Smith & Company, produce dealers, at Faneuil Hall Market.

Mrs. Catherine Harrison. Mrs. Catherine Harrison, widow of William Harrison, and one of the most highly esteemed and respected residents of the parish of Hampstead, Queens county, died at her home in New Jerusalem, on June 17, at the advanced age of eighty-nine years. She was a woman of sterling character and one who gave her life to her family and neighbors, spending her time in a dutiful and careful way for the sick and afflicted. She is survived by one son, A. T. Harrison, of New Jerusalem; one daughter, Mrs. T. W. Smith, of Taunton (Mass.); four grandchildren and three great-grandchildren. Two sisters, Mrs. M. M. Ingh, of Oak Point, Kings county, and Mrs. T. W. Machum, of New Jerusalem, also survive.

CO-ED ACCIDENTALLY SHOT. Doctor in Exhibiting Automatic, Wounds Girl Law Student. Miss Rose Geiss, nineteen years old, a student at New York University Law School, was accidentally shot at her home, 415 East 187th street, the Bronx, Dr. Stephen Spitzer of 1850 Grand Concourse, who was arrested after the shooting, explained that he had been showing an automatic pistol to the girl and that the weapon had been discharged accidentally. This explanation was corroborated by relatives of Miss Geiss. Magistrate John T. McGeehan, in Morrisania Court, held Dr. Spitzer in \$1,000 bail for violation of the Sullivan law in having a pistol in his possession without a permit.

SAYS HIS WIFE BEAT HIM. Chicago, Ex-Banker Seeks Divorce, Alleges Cruelty. Chicago, June 22.—Raymond L. Redington, vice-president of the Second Security Bank and more recently

SEES END OF DIPHTHERIA.

Disease Can Be Wiped Out, Says State Health Commissioner by Radio.

In a five-minute health talk by Dr. Hermann M. Briggs, Commissioner of the New York State Department of Health, which was broadcasted by radio, he asserted that diphtheria could be wiped out.

"This statement may sound strange to those of you who recall that years ago this disease was the most dreaded and fatal of all the children's diseases," said Dr. Briggs. Before antitoxin was discovered five out of every ten who caught diphtheria died. Today with the general use of the antitoxin, out of every ten children sick with the disease at least

DR. A. B. BAIRD, D. D.,

Who was elected grand master of the Manitoba grand Lodge, Ancient Free and Accepted Masons, at the concluding session of the forty-seventh annual communication.

bed with the disease, for the latter are kept isolated while the carriers move. "Parents should, therefore, bear in mind that if their child is suffering with sore throat of any kind it may be diphtheria or membranous croup, which are one and the same disease; the only way to tell definitely is to call a physician and have a throat culture taken. The public health laboratory about which we talked last week, will examine the culture and tell the doctor definitely whether or not the germs of diphtheria are present in the culture. But all this can be avoided by having children protected against the possibility of taking diphtheria through the use of toxin-antitoxin."

CANADIAN DAIRY FARMS.

Manitoba Products Brought \$12,589,431 in 1921.

Farmers of Manitoba received \$12,589,431 for their dairy products in 1921. The annual report of L. A. Gibson, Dairy Commissioner, says production will be even greater this year, for blooded herds are being enlarged and hundreds of new silos dot the mixed farming region along the transcontinental lines of the Canadian National Railways. The new silos, the report says, mean more economical production of milk and cream. More than a hundred cars of creamery

MISS ROSIE REEVE.

out of the province. England was a big buyer. Production of creamery butter showed an increase of 883,908 pounds over that in 1920. Value of the creamery butter is placed at \$3,165,838; dairy butter, \$2,274,263; cheese, \$61,209; milk, \$5,934,828; ice cream, \$694,440; butter fat for domestic purposes, \$1,416,650.

Saskatchewan's dairy products reached a value of \$18,774,445, says a preliminary report, which points out that many new settlers turned to dairying last year because of the certain returns. The number of new milch cows in the province is 60,000.

When reports are available from Alberta it is believed that the province will show an increase of thirty per cent. in the production for 1921.

Shackle For Prisoners.

When it is necessary to take criminals on long journeys by train constant vigilance is required to prevent attempts to escape. Now, however, Popular Mechanics describes a shackle which should discourage this quite effectively. It consists of a fifty-pound steel ring which fits loosely around the ankle and a separate steel housing that goes under the foot and supports the weight of the ring when the wearer is sitting or standing still.

nine get well. Even with this improvement, over 27,000 people in New York State took the disease during 1921 and 1,700 died from it, most of them children under five years of age.

"Every one of these cases and deaths could have been prevented. How? By the use of toxin-antitoxin. This mixture is different from antitoxin used to cure diphtheria which only protects the child for about three weeks. Toxin-antitoxin protects for years and probably for life. Toxin-antitoxin protection is obtained by the injection of a small amount of sterile serum into the arm once a week for three weeks. This makes the child as safe from diphtheria as vaccination does from small pox. If every child between six months and five years of age could have this treatment diphtheria could be eventually wiped out. Is that not worth while? If you want further information about this method of protection, talk it over with your family physician.

"Until such protection is given to all children over six months of age—diphtheria will constantly be present in most communities. Sometimes persons who do not become sick with the disease get the germs of diphtheria in their throats and the germs multiply there. These persons, though carrying the germs, stay well, but they are capable of giving the disease to others. Such persons are known as carriers, and are more dangerous than those who are sick in

F. A. DYKEMAN & CO.

CANADA'S REPRESENTATIVE AT GENEVA LABOR CONFERENCE

Col. David Carnegie of London, England, will represent Canada at the meeting of the governing body of the International Labor Conference, on July 23. He is a recognized authority on industrial and economic conditions.

BANKER NEARING 100 MARK.

(New York Times.)
When some one remarked to John D. Rockefeller recently that it was remarkable that at his age he continued to take an active interest in business, Mr. Rockefeller said:

"Why, there is a banker down in Wall street who will be 100 years old this summer and who goes to work every day—as a matter of course."

John A. Stewart, to whom Mr. Rockefeller referred, will reach his centenary on August 22. He is chairman of the Board of Trustees of the United States Trust Company, 48 Wall street, the organizer and only surviving member of the first board.

Mr. Stewart went to his desk daily until two months ago. Increasing deafness finally induced him to leave the routine to younger hands, and his officials have persuaded him to spend the late spring and summer at his summer home in Morristown, N. J.

On his ninety-ninth anniversary Mr. Stewart appeared at his desk as usual, although it was one of the hottest days of the year. He arranged his mail and signed many letters with care and dispatch. There was no suggestion of his years in the way he went about his work. Calmness and self-possession have been his characteristics throughout a busy life.

"He was the only calm man in the office the day of the Wall street explosion," said one member of the staff.

YOU OUTA ZEE MORE OF JACKIE COOGAN HE TAKEZ A BATH IN 'MY BOY' IF HE EVER TAKEZ ANOTHER HE'Z GOIN TO USE 'LIFEBUOY' JACKIE COOGAN

Mr. Stewart has one desire. It is to live until his one hundredth birthday. His heart, all his strength of will are focused on this, his last goal. This centenary also has the distinction of being the oldest living graduate of Columbia University, having completed his studies in 1840. For two years after that he worked in an engineering construction corps, then became clerk of the Board of Education from 1842 to 1850. He was made an actuary for the United States Life Insurance Company, becoming its secretary.

The original Board of Trustees included John Jacob Astor, Jacob Lawrence, John E. Phelps, John J. Cisco, William E. Dodge, Royal Phelps and William H. Macy. Mr. Stewart is the only one of these leaders of the last generation who is living today.

As president of the company, 1865-1902, he saw generation after generation come and go and during his term as

stating the finances of the government after the war. In President Cleveland's book, "Presidential Problems," he says of Mr. Stewart:

A NEW WESTERN TOWN.

(Edmonton Journal.)
New towns are not being opened up as frequently as they used to be. But when they are, the people still follow the old procedure and organize a local board of trade, which issues literature pointing out the attractions of the district to settlers. This has been done at Whitecourt, northwest of Edmonton, at the junction of the McLeod and Athabasca, to which the C. N. R. was recently extended, and it is an unusually strong claim upon the attention of those looking for land that is made. Not only is

there plenty of first class land available, but the lumbering industry in the vicinity has been developed to such an extent as to give a good local market. Two mills are at present operating, which it is expected will employ at least 600 men when building becomes active. The facilities for outdoor sport that exist in the vicinity are also laid stress upon. The rivers are alive with pike, pickerel and other fish, and the creeks the haunts of brook trout and grayling, while bear, moose and deer and the smaller game are to be had within easy reaching distance.

FINE'S SHOE STORE

In Quality There is Economy
---But Why Pay More Than Is Necessary To Get Quality?

When a merchant puts his selling price on a pair of shoes he considers three things—cost, overhead and profit.

If he has bought right, as we do, his cost is what it should be.

If he is sincere and conscientious his profit is reasonable.

But that "overhead" he must add it to the price the customer pays.

That is why there is such a difference in shoe prices.

And that is why we undersell stores in high rent locations with their heavy selling costs. We have much less overhead expense, so we can afford to mark our shoes at a lower selling price.

JOINS HOME BANK BOARD.

J. F. M. Stewart, who has been one of the prominent men in the Canadian Manufacturers' Association ever since its inception, has been elected to the board of directors of the Home Bank of Canada.

HAWAII'S PINEAPPLE CROP

Industry Gains More Than 1,000 Per Cent. in a Decade.

The pineapple industry now ranks second only to sugar production in the Hawaiian Islands, according to a survey by the United States Department of Agriculture, which attributes part of this development at least to the work of the experiment station established at Honolulu in 1901. Due to various causes, among them the lack of facilities for the shipment of fresh fruit, most of the pineapple crop is canned. The shipments of canned fruit in 1920 were 5,500,000 cases, valued at \$29,000,000. This is a large increase over the shipment of 5,000 cases in 1909. Comparative data of acreage and production are not available but the census of 1920 showed an increase of

THE secret of getting well is finding the right medicine. The fact that Dr. Caldwell's Laxative Syrup Pepsin has the largest sale in the world would seem to prove that several million people find it THEIR right medicine. Miss Evelyn A. Craig of Sherbrooke, Que., once a semi-invalid, says Dr. Caldwell's Laxative Syrup turned her sickness into health.

DR. CALDWELL'S LAXATIVE SYRUP PEPSIN FOR CONSTIPATION

Use Dr. Caldwell's Laxative Syrup Pepsin for constipation, biliousness, headache, nervousness, and to head off a cold. Unlike physics and cathartics, it acts gently and does not grip. The formula is on the package, and a dose costs less than a cent.

HALF-OUNCE BOTTLE FREE

—After acute constipation, as soon as you do not require a laxative this treatment is most successful. —L. H. C. —

more than 1,000 per cent. in the farm value of the crop between 1909 and 1919. "In pursuance of its policy to promote diversification of agriculture in the islands so that they will become more nearly self-sustaining, the experiment station took up and gave particular attention to some of the problems of the pineapple growers," say the department. "Fertilizer" experiments made by the station have shown how the fertility of the soil can be maintained for successful pineapple culture. On the black soil lying at elevations between 1,000 and 1,500 feet pineapple plants turn yellow and become unprofitable.

"These lands lie above the areas devoted to sugar cane and they are usually very productive. It was soon found that the trouble was due to the presence of excessive amounts of manganese and that spraying with appropriate iron sulphate would restore the green color and promote normal growth. As a result of this discovery pineapple yellows can be controlled in Hawaii at a cost of less than \$2 an acre and commercial crops produced on lands where otherwise there is total failure. This has made possible the replanting of more than 10,000 acres that had been abandoned for pineapple culture on account of this disease.

"Some other features of the station's work are more closely associated with canning problems. A study was made of the effect of the degree of ripeness on the sugar content of the Smooth Cayenne pineapple, the variety commonly grown in Hawaii. It was found that the pineapple, unlike many other

kinds of fruit, does not materially increase in sugar after it is cut, although the fruit may become well colored and the flesh soften and become edible. Green fruit was found to contain an average of 6.01 per cent. of total sugars; one-fourth ripe, 7.16 per cent.; half ripe, 9.70 per cent., and field ripe, 12.96 per cent.

"In the canning of pineapples there is a large amount of waste juice for which no satisfactory use has been found. The station chemist has discovered that this juice can be turned into a very satisfactory vinegar by sterilizing it and then introducing proper bacteria. There does not appear to any reason why the method may not be adopted on a commercial scale.

"With the development of the pineapple industry a number of strong companies have undertaken scientific studies similar to those inaugurated by the experiment station. As a consequence, the station is now able to turn its attention to other crops which it hopes to assist in developing to importance in the islands."

RELIGIOUS GOOD FEELING.

(Halifax Recorder)

The present week has been a remarkable one in showing the general good feeling prevailing between religious denominations in Halifax. In the reports of the meeting of the Loyal True Blue Lodge we read of the presence of Mayor Murphy, Mayor Mosher, of Dartmouth, and President Moulton, of the British Alliance, while at the Catholic Orphan age campaign meetings, speeches were made on the same evening by Rev. Monsignor Underwood and Rev. Harold T. Roe, Methodist. As W. J. O'Hearn,

K. C., well said in his address at meeting: "If this campaign has demonstrated nothing else it has demonstrated that the good old Blue-rose City of Halifax has fully sustained its reputation for being one of the most tolerant communities perhaps in this country. In our ranks and in the ranks of our Protestant friends occasionally there appears an individual who sounds a discordant note and causes at the time some embarrassment, but thank Heaven, on either side of the house they are not to be found in large numbers."

Rev. Harold T. Roe, in his address at Dartmouth, also spoke of the good feeling, and it is hoped that in the future the few people who attempt to create discord will consider their narrow-mindedness and think of what has happened in Halifax during the past week.

WAITING FOR CALIMITY?

(New York Evening Post)

Simultaneously the hard coal operators and miners break off their long negotiations, and the soft-operators of Illinois announce their unalterable op-

position to the rumored calling of an interstate conference. The strike has gone on for forty-five days, and no prospect of its end appears. Everybody will commend the statement of the White House this week that the Administration wants no Government action that will not be helpful to both parties. But when will Congress awake to the fact that such helpful action can be taken? The White House calls attention to the fact that President Roosevelt did not interfere in the hard coal strike until, after more than twenty weeks, it had become "a menace to public health and tranquility." Quite so, but why wait until warfare involving a national necessity does become a "menace"? There is a chance that it will not. If Congress would pass legislation for a permanent fact-finding agency in the industry it would go far toward laying a foundation for wise intervention if Government intervention become necessary; and if there is no such necessity it would make a contribution to the stabilization and improvement of the industry anyway.

A GLOWING TRIBUTE.

(Halifax Chronicle)

Canada at this difficult time needs Hon. W. S. Fielding's qualities, more than anything else, needs his caution, his efficiency, his integrity, his hard determination, his zeal for economy, his

basic Liberalism. There are many contending forces at Ottawa today swirling like a tide-rip around Beauchamp and we need this grey silent figure, standing there uncommunicative and unswerving, with his backbones of granite and his feet firm on the solid foundation of his honor and public service.

WEST INDIES RATES.
The latest bulletin issued by the Canadian Manufacturers' Association advises that the R. M. S. P. company have reduced passenger rates from Canada to the West Indies for the summer season. They will remain in effect until the sailing of the Chignecto from Halifax on October 27. The company have also agreed to carry bona fide travellers samples free, whether they are accompanied by the owners or not. The limitations as to such cases will exceed fifteen cubic feet of space or weight more than 112 pounds.

OUTING AT FAIR VALE.
A very happy time was spent at the home of Miss Bertha Dunlop, at Fair Vale, on Saturday afternoon, when young ladies of the Mission Circle of Coburg street, Christian church, and members of the young men's class of the church congregated for a day in the country. Games and refreshments were enjoyed and the party returned to the city on the late train. Through an error it was stated yesterday that an outing conducted by the Tens Society of the Coburg street Christian church was held by the Douglas avenue church.

P. McKEON GETS TRACE OF SISTER

Notice in Times Has Brought Early Results.

Word Through Mrs. T. Callaghan of East St. John, and Quest will be Continued—How St. John Strikes Him After 45 Years.

Peter McKeon of Boston, Mass., who is in town in quest of a long-lost sister, as outlined in the Times yesterday, had not met his missing relative up to the lunch hour today, but expected to find her this afternoon in company with Mrs. Timothy Callaghan of East St. John, who upon reading of the lost sister in the Times, last evening, very kindly interested herself in effecting a reunion.

It was planned to set out this afternoon on a motor trip to the home of Mrs. Callaghan, where the whereabouts of Margaret J. McKeon could be learned. Mrs. Callaghan had no doubt that her quest would be successful. Miss McKeon is a frequent visitor at the Callaghan home and also at the home of Mrs. Callaghan's mother in Norton, Kings county, at which place it is possible she may be staying at the present time. In any case there is every probability that the ex-St. John man's search will have the desired ending.

To a Times reporter this forenoon Peter McKeon said he could resist no longer the yearning to find his sister, from whom he had not heard in forty-five years. The circumstances of their parting were so dramatic—the day of the great St. John fire catastrophe—that his repeated efforts to locate the girl of those days only made him the keener to solve the mystery. So, in the midst of a busy workday life and household responsibilities he has made the effort and is back in the old home city, with every prospect of fulfilling his cherished wish of many years.

The day of the big fire the American passenger steamer New York was taken from her moorings at Reed's Point and anchored outside Partridge Island, where many refugees and homeless families were fed and bedded over night. Young McKeon was a kitchen hand on the Yankee craft, having learned the baking trade with Bryden Brothers and T. Rankine & Sons, and he had to stick to the job in the stressful circumstances. Then the New York sailed away and after that trip he left her and went into the southern shipping trade. From that on he meandered all over the watery map, but never came east again. His letters about his sister were never answered.

It was interesting to hear the former resident refer to the changes he sees in St. John and its surroundings. East St. John, in which section of town he was interviewed, was a revelation to him; the new harbor preparations, the municipal group of buildings in that vicinity, the spreading out of the citizenship into business houses. This was much like his American experiences when he first went to the states, the period when downcasters flocked to New England and became such an important bloc in its population.

He thinks young people are freelier nowadays to leave contented homes and conditions of peace and plenty in the maritime provinces for the rush and grab of American centres, where foreign tongues and foreign sectionalisms make it much harder to get along happily as English-speaking people like to do. Canada is a nation now herself and is really the place for young people to progress, same as the United States was fifty years ago. Big development may be expected of this side of the border for the next half century.

Mr. McKeon says when he finds his sister he will spend a week or so in St. John renewing old acquaintances as he can locate them. He is appreciating more than he can express the co-operation being given him by practical strangers in finding his lost relative and praises the spirit that has characterized St. John people from his earliest memory, a worth-while neighborhood, in a fifteen-round bout here last night.

MONTREAL TRAIN ON WAY HERE RUNS INTO BIG BOULDER

Partly Wrecked and Fireman Albert Lockhart Killed

Disaster Early This Morning in Rock Cutting in Maine—Engineer Rogers Scalded—Boston Train for St. John Also is Held Up.

A serious derailment occurred on the C. P. R. line near Lakewille, ten miles east of Brownville at 5:20 o'clock this morning, when No. 16 en route from Montreal to this city crashed into a large boulder. Fireman Albert Lockhart of Brownville was instantly killed and Engineer Rogers quite badly scalded. The engine was completely derailed as well as the express car and part of the mail car, while a section of the rail was torn up.

When the passenger train was proceeding through a rock cut it crashed into a large boulder, which was fourteen feet long, ten feet wide and six feet thick. The terrific impact tore the trucks off the engine and express cars and hurled both clear off the rails. With the exception of the fireman and engineer no other passengers or members of the train crew were injured, although all got a severe shaking up. It is thought that the boulder was dislodged sometime during the night as a result of a heavy rain fall.

Auxiliary crews were rushed to the scene from Brownville and McAdam and the body of the unfortunate fireman and Engineer Rogers were taken back to Brownville. The passengers also returned to Brownville where they will be cared for until the line is clear. It is estimated that the train will be many hours late arriving in this city, although it was impossible this morning to estimate how quickly new equipment could be secured and repairs to the rails and road bed made.

Fireman Lockhart is a married man and is said to have eight or nine children, the oldest about fifteen, surviving.

A local train was made up and sent from McAdam to this city to care for passengers along the line. It arrived at

The train from Boston, 104, was reported held up on the Maine Central near Enfield, Me., on account of a derailment of a freight train, which is said to have been caused by a wash out. She is not expected here until late tonight.

For a Time Back to The Days That Were

Scientists say the world may eventually return to the primitive; that our civilization will reach a mountain peak and then toboggan down the other side.

Last evening on one of our prettiest drives was a bare-headed high-wheeled bicycle; you know the kind you sometimes see in photographs of the St. John B. and A. Club hanging in the sentiment-rooms of the new crop of grandfathers.

Yes, sir, this citizen was in glorious glee as he braved the drizzle and the slippery pavement from the dizzy height of the high wheel. He cared little for the guffaws of the noisy youth, the chattering of amazed youngsters or the historical remarks of his elderly friends. He was evidently renewing his youth, perhaps imagining himself once again on the good old Marsh road with his wheeling pals en route to Hampton or Sussex, with a cooling sherry egg-nogg in prospect at Billy Newcombe's.

Exquisite Silk Lingerie For The June Bride

The "Something Silk" as Well as "Something New" She May Choose From the Lingerie Display

OAK HALL - SCOVIL BROS., Ltd. King Street.

BAND CONCERT TONIGHT.

The programme for the band concert this evening in Victoria Square, North End, by the St. John Fusiliers' Band, under the leadership of Milton Perkins, will be as follows:

O Canada!
March, The Gladiators' Farewell... Blankenburg
Overture, LeSermant... Auber
Waltz, Blue Danube... Strauss
Euphonium solo, selected... Croft
Fox Trot, Lead Me With a Smile.
Koehler
Grand selection from Faust—Gounod
Popular number, Ain't We Got Fun?
R. A. Whitting
March, Second to None... J. Ord Hume
National Anthem.

NORTH END W. C. T. U.

The North End Branch of the W. C. T. U. met at the summer home of their president, Mrs. Wright, at Ketteres, on Wednesday afternoon. The union decided to close during July and August, as so many of their members would be out of the city. They thanked the McEachern brothers and all who took part in a concert held in Union Hall in May. A substantial sum of money was raised and handed to Mrs. Eagles, treasurer. The sum of \$25 was voted to the N. B. Temperance Federation. Money was given to a poor woman to help her support her six small children. A letter was read from Mrs. Myles thanking the union for a beautiful bunch of roses sent her during her stay in Massachusetts General Hospital. Refreshments were served by the hostess.

DEATH OF N. G. FOWLER

Harry F. Black, 171 Main street, has received a telegram telling of the death of his uncle, Newton G. Fowler, at his home in Everett, Mass., on June 21. Mr. Fowler was formerly a resident of Fairville. He is survived by his wife, formerly Mrs. Ada Akerley of the Narrows, Queens county; two sons, Willard B. of Gardner, Mass., and Fred, of Foxborough, Mass.; and two daughters, Margaret and Mary, both at home. The funeral will be held in Everett on Friday. Many in St. John will be sorry to learn of his death.

BANK CLEARINGS

St. John bank clearings this week were \$3,013,282; last year, \$2,858,042; in 1920, \$4,186,782. The Halifax clearings this week were \$2,869,635. The Moncton figures were \$2,285,277.

BILL TATE LOSES.

New Orleans, June 22—Jack Thompson, Philadelphia negro, won a decision over Bill Tate, claimant of the negro heavyweight championship, in a fifteen-round bout here last night.

D. MAGEE'S SONS, Limited Since 1859 St. John, N. B.

Speaking of Fine Hats

Once a man takes to following Magee style and quality he's spoiled for other hats.

Prices—\$2.50, \$3, \$3.50

CRAVATS
Brand new this week and—you'll like them especially well for \$1 and \$1.50.

DISCUSS THE OPERA HOUSE

Matter Brought Up at City Hall Meeting.

A Bread Matter Taken Up—Paving and the N. B. Power Company—Question of Work by Tender or by the Department.

The major portion of the committee meeting at city hall this morning was taken up by G. A. Stanley Hopkins, who appeared to set forth complaints against the Opera House.

In answer to Commissioner Frink as to whether or not he had any personal interest in the property adjoining, he said he had.

Mayor McLellan said that he wished to say that when the Opera House was re-opened a license had been issued by ex-Mayor Hayes over his head.

In answer to Commissioner Thornton, Mr. Hopkins said that when he first took the curb in Leinster street and decided that the city had no legal right to grant the permit for this or any other obstacle.

Mr. Regan said that he had not tried to sell adjoining property to the Opera House, he had looked into the application of F. W. Kelly to install a gasoline pump on the curb in Leinster street and decided that the city had no legal right to grant the permit for this or any other obstacle.

Mr. Regan said that he had not tried to sell adjoining property to the Opera House, he had looked into the application of F. W. Kelly to install a gasoline pump on the curb in Leinster street and decided that the city had no legal right to grant the permit for this or any other obstacle.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

LESSON NO. 33. Rectification by the Crystal Detector. The crystal detector in the circuit of the radio receiver performs the important function of converting the energy of the radio-frequency oscillations, intercepted by the antenna, into uni-directional pulsating currents which may be rendered audible by the receiving telephones.

Short wave lengths involve very high frequency of oscillation. For example, the oscillation frequency, of a wavelength of 200 metres, is 1,500,000 cycles per second, a wavelength of 400 metres has a frequency of 750,000 cycles per second, these frequencies being far in excess of vibrations to which the delicate mechanism of the human ear will respond.

The limiting frequency of vibration to which the ear will respond is approximately 16,000 cycles per second, and under normal conditions a frequency in the vicinity of 10,000 cycles per second marks the boundary line between audibility and inaudibility.

The range of frequencies in which the sensitive diaphragm of the telephone vibrates satisfactorily is much lower, between 500 and 1,000 cycles per second. The crystal detector, therefore, through its property of rectification, transforms the high frequency oscillations into direct current pulses, which are rendered audible in the receiving telephones.

The manner in which the incoming oscillations are modified may be best understood by reference to the following diagram. The upper set of curves (A) shows a series of damped radio-frequency oscillations intercepted by the antenna and impressed upon the detector. The set of curves (B) shows the rectified property of the crystal in allowing only the positive or negative currents to pass through the crystal with the result that half of each cycle is wiped out and the incoming oscillations are rectified into a series of uni-directional pulsations. These pulsations are a radio-frequency current, but the resultant effect is shown in curves (C) which shows the average effect of each rectified group in impinging the diaphragm of the receiving telephones.

In the case of the spark discharge, therefore, for every group of radio-frequency oscillations radiated by the transmitter, a similar group is developed in the receiver and rectified by the detector and for each group the diaphragm of the receiving telephones receives an impulse.

In the case of the spark discharge, therefore, for every group of radio-frequency oscillations radiated by the transmitter, a similar group is developed in the receiver and rectified by the detector and for each group the diaphragm of the receiving telephones receives an impulse.

IRISH AFFAIRS

Dublin, June 22—Cork county is the only district from which the election returns have not been announced, and in many parts of the county Michael Collins heads the poll with about three to one against the Nationalists. He is expected to win two seats, displacing treaty opponents.

Belfast, June 22—A little before curfew last night a young man was lying in a pool of blood. He has not been identified. The shooting of Wm. Miller, aged 35, in the Willow Field district of East Belfast, last night, was particularly atrocious. Hearing a murmur at the door, he opened it, whereupon four men rushed in. Suspecting their murderous intentions, Miller fled to the back yard of his home, but was pursued and riddled with bullets.

Orange Manifesto. Belfast, June 21—The Grand Orange Lodge in a manifesto declares it is fully alive to the prevalence of conditions in many parts of the province which tend to make existence intolerable. "The very corner stones of ordered society have been unceremoniously removed," and in many areas men seem to have lost the sense of value of human life. Those who are ready and willing to work together for the welfare and peace of Ireland should themselves be unwaveringly loyal to the crown and constitution, and should also be ready to safeguard life and property and to extend liberty of conscience to all.

Subject to these conditions, the grand lodge is ready to contribute its share in restoring and perpetuating happier conditions.

COMMERCIAL CLUB Col. Norman McLeod, addressed the Commercial Club at luncheon today. His subject was the income tax, and he gave a very clear explanation of the provisions of the act, its requirements, penalties and administration. Ronald A. McAvity presided. A suggestion by the chairman that three days be held in July was not acted upon.

Put one on--the pain is gone!

HEAR REPORTS FROM DIVISIONS

Montreal Says Business is Gradually Being Stabilized.

L. W. Simms, for Maritime Division, Says Much Benefit Derived from the Year's Work—The Freight Rates—West Indies Trade.

(Special to Times.) St. Andrews, N. B., June 22—Divisional reports were taken up in private session at the annual meeting of the Canadian Manufacturers' Association today, including reports from the Maritime, Quebec, Ontario, Prairie and British Columbia divisions. These were followed by discussion of the report of the West Indies trip and an address on this subject by T. Geddes Grant, of Trinidad, B.W.I. J. R. Shaw, first vice-president, was in the chair for the private session.

F. W. Stewart, of Montreal, in the Quebec divisional report, said that the experience with labor during the year was on the whole satisfactory. Business, he said, was gradually being stabilized. He believed that some method should be adopted to acquaint consumers of conditions with which manufacturers were contending, as he thought in the minds of some people there was an idea that the manufacturers and retailers were taking advantage of the present conditions. He thought the people of this country were getting the wrong idea of their money than in any country in the world. He referred to the good work performed by the secretary, R. C. Gould, a former St. John newspaper man.

The report of the maritime division was presented by L. W. Simms, of St. John. There was a net loss of nineteen in membership. The work of the association in the maritime provinces was reported to be satisfactory. The work of the head office in the campaign to endow re-establish the freight rates was greatly appreciated. The work of the delegates planned spending time in the lower provinces was at first intricate. J. S. McLurg, seconding the report, expressed appreciation of the assistance given the maritime branch of H. R. Thompson, secretary of the branch, referring to the manner in which the present freight rates affected business in the maritime provinces. He said the rate on flour from Chatham, Ont., to St. John and Halifax, was 26 1/2 cents, while to Montreal it was 24 1/4, a difference of only two cents.

J. E. Walsh, general manager, in reply to a query, said the question of stammer service between Atlantic and Pacific ports was a live one and the C. G. M. M. was ready to put on steamers as soon as business was available.

West Indies Trade. At the convention, yesterday, a resolution was introduced by Col. Thomas Cantley of New Glasgow, on behalf of the maritime division of the association, asking the minister of railways to set twenty-nine of the freight steamers of the Canadian Government to Montreal, of tonnage varying from 3,800 to 5,500 tons, and to acquire four vessels which would be capable of handling freight and passenger traffic through St. John and Halifax to the West Indies. The resolution was presented by Colonel Cantley on a question of privilege, and on suggestion of J. R. Shaw, first vice-president, the matter was referred to the resolutions committee.

Recent arrivals at the convention include W. L. Caldwell and Watson J. Hill of St. John.

PERSONAL Mrs. Tonge and Miss Margaret McLachlan, of Belleisle, sister and niece of the late Mrs. William R. Marks, were in the city yesterday to attend the funeral.

S. B. Bustin, of the city, is in Kingsport (Ont.), attending the Grand Lodge, L. O. A., sessions, and also a meeting of the joint legislative committee.

Mr. and Mrs. George H. Watson, after their wedding trip to-day, after visiting in Toronto and Detroit.

Moving to St. John. Fredericton, N. B., June 22—Edward Duffy, who has been in the grocery business here, is removing to St. John, where he formerly resided. The Carlton property in Newham street, where his store was located, has been sold to Lorne Bennett, who will continue the business.

LOCAL NEWS

A world-wide proclamation—Millions now living will never die. Imperial Theatre June 25, 8 p.m. 6-34

THE NEW DISTRICT ARCHITECT. W. W. Allingham, who succeeds D. H. Waterbury as district architect for the federal public works department, in addition to being a practical mechanic with large experience as superintendent of construction work, is a graduate in the architectural course of the International Correspondence Schools.

SHIPPING

ALMANAC FOR ST. JOHN, JUNE 22. A.M. High Tide... 10:35 Low Tide... 4:34 (Time used is daylight saving).

PORT OF ST. JOHN. Sailed. Str. Karmoy, 1440, Orpetverk, for Brow Head, (Eng.) for orders.

Arrived Today. Str. Wataka, 1023, Ritcey, from Sydney. Cleared Today. Str. Wataka, 1023, Ritcey, for Sydney. Str. Harry A. McLennan, 644, MacLean, for New York.

Str. Danesborg, 1384, for the United Kingdom. Countess—Str. Empress, 612, MacDonald, for Digby; gas schr. Ethel, 22, Derry, for Musquash. Sailed Today. Str. Sicilian, 642, Henderson, for Liverpool. Str. Bratland, 1472, Lindstol, for Norfolk.

MARINE NOTES. The collier Wataka arrived in port this morning from Sydney with 2033 tons of coal for R. P. & W. F. Starr.

The Sicilian sailed for Liverpool in ballast this morning. The schooner Harry A. McLennan cleared today for New York with 800,000 feet of lumber. She will sail as soon as the weather clears.

The schooner Emily F. Northam cleared today for New York with pling loaded at Gagetown. S. S. Andors finished discharging her cargo of salt this morning and shifted to Long Wharf where she will load deals for the United Kingdom.

The schooner Danesborg is expected to finish loading lumber tonight and she will sail at once for the United Kingdom. The Bradland sailed at 5:30 o'clock this morning for Norfolk in ballast. The Manchester Exchange is due here from Manchester, but there was no report from her this morning.

The Canadian Trapper was reported off Cape Race at noon on June 19. She en route to Chatham to load a second cargo of lumber. The Herbert Siemsen is en route from Middleborough to Halifax, where she has been chartered to load lumber. The Chignecto shifted to the refinery this morning to discharge her cargo of sugar from the West Indies.

The Canadian Harvester sailed from Montreal for the British West Indies yesterday. The Canadian Carrier sailed from Montreal for Swansea yesterday. The Dorothy arrived at Halifax from New York yesterday.

The Holbrook arrived at Montreal from London yesterday. The Western Plains arrived at Montreal from Hamburg yesterday. The schooner Frances Parsons is en route from Parrabro to Boston with a cargo of lumber. The Norwegian barkentine Moast arrived at Campbellton on June 19 to load for European ports.

WRECKED FROM 'FLAPPERITIS' Physician Blames Parents for Its Effects on Health of Youth. Chicago, June 22—"Flapperitis" is bringing about insufficient sleep and under-nourishment and making physical wrecks among the young and the modern city, according to Dr. Clarence Martlett, president of the Pennsylvania State Homeopathic Society. In an address which he delivered before the American Institute of Homeopathy Convention, not only were the habits of the flappers of the Volstead act were characterized as "officious good mad."

IN WALL STREET. New York, June 22—(10:30)—Prices were irregular, but mainly higher, at the active opening of today's stock market. The lower discount rate of the local federal reserve bank caused more urgent covering of short contracts. There were a few striking exceptions, however, the most conspicuous of which was the Petroleum, which soon registered a loss of 2 3/4 points. On the other hand, California Petroleum rose 1 3/4 points, General Asphalt 1 1/4, and the Maryland one point. Studenbaker, which was one of yesterday's most unstable issues, also gained two points. United States Steel, Balwin and some of the secondary rails were fractionally lower.

EXCHANGE TODAY. New York, June 22—Sterling exchange: Great Britain, 4 1/2-1/2 Canadian dollars 1 per cent discount.

REVISE WHOLE IMMIGRATION ACT

View of Special Committee of Ottawa House

Woodsworth Amendment is Defeated Without Division—Practically Whole Returned Soldier Problem to be Investigated.

(Canadian Press.) Ottawa, June 22—Yesterday in the commons report of a special committee dealing with the Woodsworth bill to amend the immigration act was concurred in. Jos Archambault, Liberal member for Chambly-Verchere, who acted as chairman of the committee, said that the committee had come to the conclusion that the whole immigration act should be revised. The Woodsworth bill should not be proceeded with at the present session.

J. S. Woodsworth, Labor member for Winnipeg Centre, who brought in the amendment, objected to the report, saying that it would side track his bill. He moved, seconded by Wm. Irvine, Labor member for Calgary, the report be not concurred in, but that it be referred back to the committee with instructions to bring in an amendment "that no persons shall be deported for any political offence committed in Canada without being granted a trial by jury." The amendment was defeated and the report concurred in without division.

Mr. Marter, Liberal member for St. George, chairman of the special committee on pensions, insurance and re-establishment of returned soldiers, moved and carried in the final report of that committee. He said the commission will investigate practically the whole returned soldier problem.

The senate discussed amendments to the criminal code and to the Opium and Narcotic Drugs Act.

USE THE PAPERS IN DOING WORK OF THE CHURCH

(The Associated Press.) New York, June 21—Newspaper advertising to further the spread of the gospel is strongly advocated by the publicity department of the Episcopal Church, which has brought out its recommendations, after a thorough study of the question of advertising, in a pamphlet entitled "A Handbook of Church Publicity," issued under the authorization of the national council of the church.

"No one can look at the newspapers and magazines and doubt that it pays to advertise," said Rev. Robert F. Gibson, executive secretary of the publicity department, and author of the text book. "Why should not this method of such proven efficiency be used for the propagation of the Gospel? Advertising is not necessarily sensational. It merely seems to be so because we are not accustomed to it for church purposes."

One of the striking features of the book is Mr. Gibson's strong advocacy of the fullest use by the churches of the advertising columns of the daily press not only for mere church notices, but for spreading the Gospel among the masses.

"We have thought of publicity in the newspaper merely a method of giving public notice of a service or a meeting, or of making public the account of something that has taken place," says Mr. Gibson. "We have thought too much of building up the attendance at a service or of exploiting persons or organizations. We are only beginning to think of church publicity in the public press as evangelistic in purpose. The newspapers themselves are really far ahead of the churches in their recognition of this evangelistic opportunity. Many editors are convinced that the problems of the world will never be solved rightly until Christian principles are applied and that therefore it is one of the functions of the public press to present and apply Christian principles."

"Advertising with an evangelistic purpose," says Mr. Gibson, "where the aim is to reach the unconverted, must be in the newspapers. It is a form of advertising merely a method of giving public notice of a service or a meeting, or of making public the account of something that has taken place."

"We have thought too much of building up the attendance at a service or of exploiting persons or organizations. We are only beginning to think of church publicity in the public press as evangelistic in purpose. The newspapers themselves are really far ahead of the churches in their recognition of this evangelistic opportunity. Many editors are convinced that the problems of the world will never be solved rightly until Christian principles are applied and that therefore it is one of the functions of the public press to present and apply Christian principles."

Mr. Gibson suggests a form of advertising to churches which will take the shape of a miniature sermon, "briefly interpreting some passage of scripture or briefly applying some Christian principle. Sermonettes, of a hundred words in length, with the name of the preacher and his church annexed are also recommended.

Mr. Gibson's conclusions and recommendations are the outcome of a resolution adopted by the national council at its Washington meeting last July. Church promotion by radio, moving pictures, posters, etc., is also considered in the handbook.

MARCONI'S YACHT IS WORLD'S FINEST RADIO LABORATORY

Famous Inventor, on Research Voyage, Arrives at New York.

Senator Guglielmo Marconi, inventor of the first method of wireless communication, steamed into New York harbor the other day on his yacht Elettra, a floating radio laboratory, in which he is groping for the crowning achievements of his life as an inventor and electrical engineer.

engineer on these long cruises across the seas. He has been working on a method for sending a message toward a given point-directional sending, he calls it—so that there will be no "backwash" of power toward a point where the message is not intended to be received.

Rapid transmission of wireless messages also claims the concentration of Marconi, and he hopes it will be possible soon to send and receive at the rate of 200 words a minute. During his three weeks' stay here he will put to sea with expert radio engineers of the Radio Corporation of America and attempt to receive messages from shore at the rate of 100 words a minute.

the Mediterranean several months ago certainly did not originate on the earth. He is unable to say whether that immense wave—five times the length of any wave used on earth—originated on the sun or some other planet. But he received it.

MONCTON PERSONALS.

(Moncton papers.) Miss Aileen Craghan of New York is visiting her parents, Mr. and Mrs. J. D. Craghan, Newcastle.

MURDERER AT LARGE; A MAN HUNT IS ON

Green Makes Daring Getaway from Sing Sing Prison in Daylight.

New York, June 22.—The whole countryside in the neighborhood of Ossining has been on a man hunt. For the first time in a year a convict has escaped from Sing Sing Prison. Many whose duty it was, others who coveted the \$50 reward the state pays for a returned prisoner, and some who felt their own homes insecure so long as a desperate man was at large, beat the woods, flashed their torches in every cove along the Hudson, and watched the roads.

Late at night, with many hours' start of the hunters who had not even picked up his trail, the man was still at large. There was reason to believe he was armed, if not with a deadly weapon, then with steel tools. And his whole record indicated that he would not surrender without a fight.

The fugitive is Charles Greer, murderer. He was committed from Port Chester, Westchester county, on May 20, 1920, for twenty years, for a second de-

Rolls Royce and Sunoco Oil

The makers of the Rolls Royce Motor Car are so proud of their product they will not let any mechanic touch it but their own.

E. Hargraves, until recently their traveling expert, now of the Engineering Garage, 227 City Road, St. John, says about Sunoco Motor Oil:

"When you use the proper grade of Sunoco you get increase of power, quieter action, and lasting lubrication."

The Engineering Garage is the official service station for Haynes, Willys-Knight, Overland cars, and Clydesdale Trucks. They know lubrication. Follow their lead and insist on Sunoco!

and had changed or whether he continued on in the unstriped dark prison gray, no one knew.

The first hurried search was along the waterfront, but the guard at the dock had seen no one, though it still was daylight when Greer got out.

Mobilizing every available keeper, Warden Leaves started at the head of one of a number of search parties in automobiles. The warden hunted until nearly midnight when he returned to inspect the prison before setting out once more. Other parties of guards under command of Principal Keeper Thomas McAnerney remained out all night.

While the Warden was on the road, his secretary, Nicholas Schatzel, flashed the alarm to the police of Ossining and to those of every town and city from New York to Poughkeepsie. In New York the alarm was relayed to every precinct station house, sent out to the signal boxes, and read to new men as they went on tour.

Appeal also was made to the state police and Captain Warner in command at White Plains immediately put six details of four men each on the search, taking active command himself.

Liberals Reorganize in Glen Falls

At a strongly enthusiastic meeting last evening, the reorganization of the Liberal party for the newly-created Glen Falls polling district was accomplished and representatives were elected.

The delegates are: Glen Falls, George Watson, W. V. Brophy, R. Pearson; Brookville, Robert Earle and Stanford Mercer; Golden Grove, Andrew Stevens, Felix Riley and John McNamee.

Speeches were made by the chairman and vice-chairman and others and all expressed pleasure concerning the result of the recent county by-election. Another meeting will be held July 5.

FINDS 334,000 CARS ARE IN "BAD ORER"

Former Federal Official Deplores Condition of Freight Rolling Stock—Sees Work for 800,000.

Atlantic City, N. J., June 22.—There are 334,000 "bad order" freight cars and 18,128 locomotives in similar condition on the railroads of the country, declared Frank McManamy of Washington, who is manager of the department of equipment of the United States railway administration. Reconditioning of this rolling stock, he said, would afford employment for between 300,000 and 400,000 men.

Mr. McManamy, who is here for the American Railway convention, declared that a sudden increase in railroad business, such as would come with settlement of the coal strike, would find the roads unprepared, because of the great amount of equipment in need of repair. Referring to the recent statements of railroad officials that many additional men would be employed following the cut in wages, he said he thought it entirely possible that the numbers employed would be much increased because of the necessity of getting freight cars and locomotives in working order again. The general railroad situation, he said, had improved greatly.

The Car Builders' convention has brought here men prominent in railroad affairs and in close touch with conditions. They agree in deploring as unfair the severe attacks which have been made on the Railway Labor Board by the leaders of the Railway Employers' Union, including B. M. Jewell, head of the Railroad Workers belonging to the American Federation of Labor.

Elisha Lee, vice-president of the Pennsylvania Railroad, is to talk before the purchase and stores section of the American Railway Association, which opens its meetings tomorrow. Sessions will be held until Wednesday.

PUT SULTAN IN CLOSED AUTOMOBILE, WHEN HE GOES TO MOSQUE TO PRAY

Constantinople, June 21.—(Associated Press by Mail)—Anxiety for the safety of the Sultan of Turkey has prompted the local authorities to consider the substitution of a closed American automobile for the time-honored open barouche in which the head of Islam every Friday is borne to prayer from the Yıldız Palace to his private mosque. This public "going-to-prayer" ceremony has existed from the time of Mohammed and is one of the few remaining royal spectacles to be witnessed in Europe today.

Every Friday at high noon thousands

All The Clothes Out By 9 a.m.

Monday morning just started and your washing all done! You think it sounds impossible, but just use Rinso and see. Really, the clothes soak themselves clean in the Rinso suds and the dirt runs away freely in the rinsing. Why? Because Rinso is the new modern method for the family wash and it is absolutely different from every other soap or washing powder you ever used.

Do not pour the Rinso granules direct from the package into the wash. Use it this way as it guarantees the best results: Dissolve half a package of Rinso in just enough cool water to make it like thick cream. Add two quarts of boiling water and stir. When the froth subsides you will have a clear, amber coloured liquid—the famous, scientific, Rinso solution. Pour it into your tub of cool or lukewarm water, then put in the clothes and let them soak one hour, two hours, overnight or as long as convenient. Then give them a thorough rinsing and they are clean without any hard rubbing—without boiling.

If You Use a Washing Machine: Soak your clothes for the usual time, then add more Rinso solution and work the machine. Rinse and dry—you will have a clean, sweet, snow-white wash.

Certainly Not a Washing Powder: The fine granules of Rinso may look like a washing powder but just make this test. Dissolve a heaping teaspoonful of Rinso in a little hot water. In another cup dissolve a heaping teaspoonful of washing powder in boiling water. When they cool, see what happens:

Rinso

MEN OF TRANSYLVANIA WILL NOT GIVE UP SKIRTS

Predal, Transylvania, June 1.—(A. P. by mail.)—Since Roumania wrested Transylvania from the Austrians, efforts have been made to get the men to discard their skirts and wear modern masculine attire, but they have resisted all attempts to deprive them of their hand-embroidered shirtwaists and lacrimated petticoats. The declare that trousers and coats are unsightly as well as unsanitary and unbecoming, and they have given notice to the Roumanian authorities that they will brook no invasion of their traditional habits of dress.

In this part of the Balkans the salient of the women is no less novel than that of the men. The well-to-do natives wear garments made of solid gold coins over rich lace embroidery. The coins are handed down to them as heirlooms from generation to generation, the number and weight of the gold pieces being a sure token to the outside world of the degree of opulence of the wearer and an ever-present incentive to the neighboring swains to marry them.

Use the Want Ad. Way

These artistic, low-priced rugs add charm to summer homes—

Gold-Seal Congoleum Rugs are the ideal summer floor-covering. Rain or sun—dust or tracked-in mud—will not harm them.

Just mop them over—no dusty sweeping or beating—they are spotlessly clean in a moment.

They hug the floor without any kind of fastening—not even a stiff wind can ruffle their edges. They are perfect rugs for the summer porch.

Inside the house, whether it's the year-round home, lake shore cottage, bungalow, or mountain camp—the easily cleaned surface and cool, refreshing patterns of Gold-Seal Congoleum Rugs make any room more pleasant.

Their cost is low enough to make them practical for use in summer only, but don't forget that they are for year-round use as well.

Look for the Gold Seal

All genuine Gold-Seal Congoleum bears this positive pledge of satisfaction or your money back.

**N. B. HYDRO
EXPERT TELLS OF
POSSIBILITIES**

Gordon Kribs, B.Sc., Chief Engineer for Civic Commission, Declares St John Should Benefit as Have Many Ontario Towns.

Gordon Kribs, B. Sc., the hydro electric expert who has been engaged by the N. B. Electric power commission as chief electrical engineer, arrived in the city yesterday. Mr. Kribs, who has had a wide experience in the hydro electric development in Ontario, and has been in charge of the eastern division of that great work, comes here strongly recommended by Sir Adam Beck. He lost no time in getting down to work, and during the afternoon had a conference with the commission and started in to acquaint himself with the local situation.

To a Telegraph reporter he said that he would prefer not to make any detailed statement until after he had looked fully into matters here, which he will do immediately. He did say, however, that he was confident St. John would benefit tremendously by hydro. He spoke of numerous cities in Ontario which showed little sign of progress until they linked up with the hydro development but which have gone ahead rapidly since then. He referred particularly to the city of Brockville, which was in no sense a manufacturing town but which soon became the centre for many large industries after it began to get electric power at cost. And it is to be remembered that the towns he referred to are not in the Niagara power area but are benefiting from power developed as New Brunswick is developing the Musquash and other water powers.

Mr. Kribs is confident that St. John will experience results at least comparable to those which have brought so much growth and prosperity to cities in Ontario.

No Place Like Home.

"Aye," exclaimed Sandy to his bored London acquaintances, "Scotland's the finest place on earth."

"Then what made you leave it," asked a disgusted voice, "since you like it so much?"

Sandy chuckled.

"Aweel, it was like this. In Scotland everybody was as clever as mazel, and I couldn't mak' muckle progress. But here"—he chuckled again—"here I'm getting on vera weel!"

**HOME FOUND FOR
THE FREE CLINIC**

The free clinic of the St. John society for the prevention of tuberculosis is to remain in the government rooms, Prince William street, until August 1 and will then be removed to the Victorian Order Home in Carleton street, where it will occupy two rooms. A committee, consisting of E. L. Rising, J. A. Likely, and Dr. A. F. McAvaney, was appointed by the society to secure new quarters for the clinic as those which are occupied at present are only available by special courtesy. The committee completed arrangements yesterday for the transfer on August 1, and was assured by the government that the clinic might remain in its present quarters until that date.

The present dining room and kitchen of the Victorian Order home will be used for the tuberculosis clinic and it is probable that three nurses will be employed by the society when the work is thoroughly organized in the new premises. The kitchen for the V. O. N. home will be moved upstairs, so as to give accommodation for the clinic, and as the other two large rooms on the ground floor of the home are now used for the well-baby clinic, practically the whole of the ground floor will be used for clinics after August 1.

The tuberculosis society has now about 400 cases under observation in the city, as the result of the recent case-finding campaign, and it is doing a splendid work in arresting and curing many of the cases which were detected in the early stages.

B. A. Keith, of Anagance, Kings county, has assigned under the bankruptcy act to the Canadian Credit Men's Trust Association, Ltd. The creditors will meet in St. John.

**No Electricity
To Operate the Vacuette
And Rugs and Carpets Clean As New**

**LIABILITY OF THE
MUNICIPALITIES**

Dr. H. A. Farris, of East St. John county hospital, returned last night from Woodstock where he appeared before the municipal council in connection with the claims of the St. John hospital for payment for the care of Carleton county patients. Asked as to the success of his mission, Dr. Farris said that he was much pleased with the reception accorded him by the Carleton council.

The warden and county secretary had arranged that he should be heard immediately after the reading of the minutes and he had been given unlimited time in which to speak. The councillors had been under a misapprehension concerning the matter and when it was explained they were entirely sympathetic. The actual facts of the case Dr. Farris said were that any municipal council must be notified within ten days if the St. John hospital is caring for a patient at the expense of that municipality. Since the charge for patients is made at the rate of \$3 a day, the most that a county could be called upon to pay without its knowledge would be \$30.

The councillors had been of the opinion that the St. John hospital might take in any patient for an unlimited time and call upon the municipal council of the district from which the patient came, to make payment for the care given. On the contrary, it was explained by Dr. Farris there was no law to enable the county hospital to hold patients. The county to which they belonged had full authority to take them at any moment and remove them from the hospital if it saw fit, arranging for their care in any way that it might be able to.

A committee had been appointed by the Carleton county council to act in the matter of the payment of the county hospital claims and Dr. Farris said he was assured of the full sympathy of the members of the council. He felt the matter had been cleared up most satisfactorily.

The amount of the claim made by the hospital authorities was \$1,085 for two patients who had been entered as private patients and had remained after their funds were exhausted.

The replenishing of the emergency and relief supplies of the Red Cross has been a matter of serious concern to the New Brunswick division, as, in the years following the war, supplies have been sent out in far greater amounts than they have been received, and the stocks of garments for soldier patients and for emergency and relief work have come to a low ebb.

**Burns One Hour For
Less Than One Cent**

Safe—economical—convenient—a good cooker—a good baker—McClary's Florence Oil Cook Stove fills the need of many housewives.

It is an oil range equal to, or closely approaching a gas range—easy to use—does not require constant watching. You get just the right degree of heat at the turn of a lever for boiling, frying, baking or simmering.

A McClary's Florence Oil Stove has no wicks to trim—no smoke or smell—no valves to wear out or leak. The heat is controlled by a simple lever device.

When lighted and once set the burners need no more attention. The flame will remain the same until the lever is turned or the oil all consumed.

Safety, economy, cleanliness, convenience and intense heat are yours with a Florence Oil Stove.

Strength
Built of heavy steel throughout.

Heat
Is concentrated close to the cooking.

Power of Burners
Large powerful burners supply a great volume of clean heat but are always under control of the lever.

Safety
No danger, even if a lighted burner is forgotten. It will burn itself out without explosion or damage to the stove.

Oven
The "Success" glass door oven is asbestos lined with dead air space, so that heat is all retained—an oven that bakes economically.

Renting Vacant

Rooms Is a Public Duty

Adquate shelter is one of the first necessities for man, woman, girl and boy. The shortage of houses makes the question of shelter a matter for urgent public consideration.

Many well-to-do people are renting rooms to young men and women because they realize that by doing so they render an important service to the community.

Renting vacant rooms is highly profitable, but it is a duty as well.

An advertisement in the newspaper will find you tenants of good character. Bring your advertisement to the office today.

Write fully, stating previous experience, to Box B 54, Telegraph. 3993-6-23

METHODIST CHURCH PROPERTY IN MANITOBA PLACED IN JOBPARDY Winnipeg, June 22.—Thousands of dollars worth of property owned by the Methodist church in Manitoba is placed in jeopardy by the creation of independent union churches throughout the province, it developed at the Methodist conference here yesterday, following submission of the church property reports. It was declared that not only land but parsonage furniture, church pews and sacred vessels have been sold and passed out of the jurisdiction of the church. A definite check will be kept in future, although it was said that it was not the intention of the conference to antagonize these union churches, but to see that property that belonged to the Methodist church was preserved until organic union with the Presbyterian body was consummated.

TURF

Fredericton Races. Fredericton, N. B., June 22.—Entries for the Dominion Day harness races at Fredericton closed with Secretary D. David Griffith yesterday.

Northumberland Plate. London, July 21.—(Canadian Press Cable.)—The Northumberland Plate, a two-mile handicap run at Gosforth Park, Newcastle, this afternoon, resulted in a very close finish, with the winner, G. E. D. Langley's four-year-old Double Hackle, by Bachelor's Double Sweet Hackney, winning by a neck from W. M. G. Singer's four-year-old colt Juniper.

Racing at Woodstock. Harness racing took a prominent part in the big Oddfellows' picnic held at Woodstock yesterday. The summary follows:—

Named trot, won by Grace D, straight heats, best time 2:33.

2:28 trot, won by Native Worthy, straight-heats, best time, 2:37 1/2.

Free-for-all, won by College Swift, straight heats, best time 2:18.

2:21 pace, won by Lady Ashbrook, two out of three, best time 2:21.

2:30 pace, won by Vanco, two out of three, best time 2:31 1/2.

RING

Kilbane and Wilson. Toronto, June 22.—The Ontario Athletic Commission has wired the New York state commission as follows: "Statement that Canada backs action of New York state commission in depriving Wilson and Kilbane of their championship is not correct. Ontario commission quite satisfied that some such action should be taken, but is of opinion that it should be done, not by one state commission, but through national association representing many states."

Wilson and Greb.

New York, June 21.—If a match is made between Johnny Wilson and Harry Greb without much more delay, the New York Boxing Commission may be "lent" with Wilson, whose title as world's middleweight champion was declared forfeited in New York state yesterday.

Moran to Challenge.

New York, June 21.—Pal Moran, New Orleans boxer, upon his arrival here today announced that he would immediately ask the New York State Boxing Commission to accept a challenge with a \$2,500 forfeit that he will issue to Johnny Dundee of New York for the junior lightweight championship. Moran knocked out Phal Salvatore in New Orleans last week.

Dempsey and Willis.

Chicago, June 22.—Jack Kearns, manager of Jack Dempsey, here on his way to New York, declared the champion heavy weight pugilist had not drawn the color line and that if the public wanted Dempsey to fight Harry Willis, negro heavy weight, and the financial induc-

ments were sufficient, such a fight could be staged. Kearns made the statement as he went into conference with Floyd Fitzsimmons, Michigan promoter, in connection with the proposed fight for Dempsey at Michigan City, Ind., Labor Day. Jess Willard and Bill Brennan have been mentioned as the most likely fighters to be considered for the Labor Day match. A fight with Willis might take place prior to the Labor Day, it was gathered, but it probably would be held in the East. Kearns expects to meet Tex Rickard, New York promoter, within a few days and the Willis matter likely will be considered then.

Jack Ryan Willing.

Jack Ryan, an old time boxer, has announced his intention of accepting the challenge of Ira Putnam, of Fort Fairfield, to meet any middle-weight in the maritime provinces, if other local boxers do not take up the challenge.

ROYALS WIN AGAIN IN SOUTH END LEAGUE SERIES

The Royals won their third straight victory last evening by taking the Indians into camp on the South End grounds to the tune of 7 to 1. Until the fifth inning the brand of ball displayed by both teams was the best seen this season in the South End. In the fifth two hits, two errors and a hit batsman resulted in the Royals pushing four runs across the plate. The Indians are displaying much better form than at the first of the season. Middleton twisted his ankle while batting in the fourth inning and Brandy replaced him.

The box scores.

Table with columns: A, B, R, H, P, O, A, E. Rows for Royals and Indians.

TRACK MEET ENTRIES.

The Y. M. C. A., annual track meet next Saturday also has forty-six entries for the various events, which comprise junior and senior contests, including the 100, 200, 400 and 800 metres, the mile run and the mile walk, running broad and high jumps, pole vault, and shot put. Arrangements have been made to have photographs of the young athletes taken.

In perfect harmony—SHIRTS. HAVE "Double-Wear" cuffs that can easily be turned. They really double the life of a Shirt. CLURTT, PEABODY & CO. OF CANADA, LTD.

SAYS ENGLAND NEEDS BASEBALL

Sir Conan Doyle May Introduce It There for the Sake of the Youth.

Atlantic City, N. J., June 22.—Expressing the opinion that England would become a nation of baseball fans, once the great game was properly introduced in that country, Sir Arthur Conan Doyle said that he would make an attempt to bring baseball to the notice of sportsmen in the kingdom.

PUBLIC UTILITIES.

A meeting of the Public Utilities will be held in this city next Wednesday, when reports from all of the different utilities as to their gross income, expenses, etc., in connection with the year's operations, will be dealt with.

PASSION PLAY HOPES FAIR.

Berna, June 22.—The hoped-for invasion of Americans for the passion play at Oberammergau did not materialize, according to the statistics of the Swiss Tourist Bureau.

THE AMERICAN ANGEL.

Podgoritz, Montenegro, June 1.—A. P., by mail.—Miss Margaret N. Robins, an American girl, has been made an "angel" by the Turkish population of this city.

IMPERIAL THEATRE'S SERIAL STORY

INDIAN ROMANCE "WHITE EAGLE"

Adapted by Herbert Crooker from the Pathe Photoplay Serial, "White Eagle," Starring Ruth Roland—Original Story by Val Cleveland

See This Chapter in Pictures at the Imperial Friday-Saturday (Copyright by Pathe Exchange, Inc.)

OPENING CHAPTER—"THE SIGN OF THE TRIDENT"

It happened that a young rancher from San Mario, Phil Stanton by name, was just about leaving the Hotel Caldonia in search of adventure. It was his first visit to San Francisco in some months and he decided to make the most of it. As he reached the corner he heard a woman scream, then a motor-car shot by him, almost knocking him over. Phil came to his senses quickly and dashed across the square, hoping to cut off the distance between himself and the machine. After a short sprint he leaped for the running board and in another moment crashed through the glass of the door. One of the girl's assailants leaped from the car, but the other one bounded out from the impact of Stanton's fall. The chauffeur also leaped from the car, and Phil swung himself to the front seat, stopping it as it was about to climb the curb.

"To whom do I owe this wonderful rescue?" asked the girl as soon as she had recovered. "To Phillip Stanton—from San Mario," he grinned. "Again let me thank you," smiled the girl. "I hope we may meet again," Phil stammered, but the girl and the car made a dash for the door, but the girl's hand was caught by the door. She looked back at him and he saw her eyes were fixed on him. "You!" exclaimed a cheery voice, and the girl studied the face of the young man before her. What she saw seemed to satisfy her, for she gave him her hand, consenting to undertake the commission.

Ruth's arrival in San Mario spelled the beginning of a tremendous drama. Little did the girl realize the intrigue and turmoil which was to ensue following her coming, nor was Phil Stanton aware of the events which would also throw him into a leading role in the drama.

The two young people left the station at San Mario and proceeded to the Loomis ranch on horses which Loomis had supplied. As they laughed and chatted gaily, a clattering of hoofs behind them caused them to turn in surprise. Ruth gasped with surprise. A horseman, clothed all in white, riding a white horse, was bearing down upon them. A white head-dress hiding his features, and leaving only his eyes unobscured, streamed behind him. He dashed up to the girl, thrust a note into her hand, and disappeared in a cloud of dust before either of the young people could say a word.

"Beware the trident," Ruth read. Both were puzzled over the note and the sudden disappearance of the rider. They decided, however, to say nothing to anyone about the incident, and retraced their way back to the road leading to the Loomis ranch. When they arrived at the porch of the ranch house, Phil introduced Ruth to Julia Wells and Jim Loomis. Jim, after the first preliminaries, informed her that the next day he was going to take her to Chief Gray Wolf, as he was most anxious to have this Indian immortalized in bronze. As Ruth was weary from her long trip, Miss Wells took her to her room, where she prepared to retire for the night.

About midnight the girl was awakened by a noise in her room. Raising herself on her elbow, she opened her eyes in time to see a man, clothed entirely in white, make his escape from her window. With a cry of alarm she sprang from her bed, ran to the window and looked out—but the mysterious intruder had vanished. Julia and Phil, also aroused by the disturbance, rushed into the girl's room. As the three looked out of the window, Loomis entered. Seeing a note lying on the floor, he picked it up and retraced the chauffeur to take her home.

The car suddenly jerked and started swiftly down the street, throwing her into the back seat. She found herself in the vise-like grip of two men whose features she could not distinguish.

ter they had departed, Ruth, disquieted and wondering, tried in vain to sleep.

At the Wigwam, the next morning, all was bustle and excitement. Only Gray Wolf knew that an important event was to take place—his tribesman doing his bidding and remaining in ignorance. The Wigwam was a modern apartment house—sculptured ladders serving as elevators, and ventilation which was electric. But to the cliff-dwelling tribes it was their home, and as a fortification it was unapproachable.

To Ruth the strange structure was a marvelous edifice of Indian architecture. Phil Stanton had been left behind, much to the girl's distress, but as white men were not allowed in the Wigwam there was nothing either of them could do. Brought into the presence of Gray Wolf, the girl was greeted with impressive solemnity and asked to show her left hand. Gray Wolf examined it closely, and then held up his arm for all to see.

"Buffaloes and Blue Hawks" he cried. "Behold White Eagle, your chief's name!" Ruth was bewildered—panic stricken—by this strange turn of events. Still made a dash for the door, but the Indians blocked her way and would not permit her flight. As she struggled to free herself, a pretty Indian girl, Moonlight, approached her and whispered: "Pretend to yield—I will help you later."

Ruth stopped struggling and listened to Gray Wolf, who told her that no harm would come to her as long as she remained there peacefully. He ordered Moonlight to take the girl to her chambers, after which Ruth was to meet the medicine men in council.

"What is this all about?" she asked Moonlight, as soon as they had left the trident, explained the Indian girl. "When you were four years of age your father married the Princess Blue Wing, chief's daughter of these tribes of Canyon Indians—the Buffaloes and Blue Wing were very happy but one day he had to go back to his people. He never returned, and Blue Wing died of a broken heart. Now, while you are in no way a blood relation of Blue Wing, Gray Wolf believes you are the rightful ruler of the tribes, the Buffaloes or Blue Hawks, should come into possession of the Golden Pool."

As Ruth was about to question Moonlight and gain more information about the Golden Pool, an Indian entered. "Gray Wolf requests Princess White Eagle to appear," he said.

Before Ruth left Moonlight she managed to whisper, "Get word to Phil Stanton at the ranch that I am a prisoner."

Ruth waited for some time at the door of the council chamber before she was admitted. Gray Wolf had been forming the two tribes of the real significance of the girl's presence. She, on the other hand, hoped the delay would continue, as she knew Phil would hurry to her aid as soon as he learned the true facts. She decided to spar for time before the unsuspecting chief.

"Now that our white chiefness is found," Gray Wolf spoke, after she had again been presented, "she will soon in her wisdom decide to whom the Golden Pool belongs. Tomorrow we will make ready to return to the hidden canyon to bring to our people our long sought chiefness." As he spoke on, Ruth was much relieved to see Moonlight signaling her from the door. She understood that help was at hand and it would only be a matter of a few moments.

But suddenly the noise of battle and much shouting reached the councilors in their chamber. Gray Wolf and his chiefs rushed from their places to find the source of the outbreak. Ruth saw that her moment had arrived, and unscathed she slipped from the room with Moonlight.

Meanwhile Phil was climbing one of the scaling ladders to Ruth's room, but just as he got to the top, four Indians sprang on him. He managed to elude them by pushing the ladder over, and before they realized their footing was in the room with the girl. Sliding down a vine, she reached the ground in safety, and ran across the short space to the outer wall with the Indians hot after them. Phil knew that both could not escape, so he turned suddenly and faced his pursuers while Ruth reached the top of the wall and watched her champion's struggle.

Phil was outnumbered, the girl saw this. She was about to go to his aid when from the outer side of the wall a figure in white on a white horse dashed madly up, swooped down her, and lifting her to his saddle, dashed away with her.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, JUNE 22, 1922

Our First Mid-Summer Sale!

SLASHING PRICE REDUCTIONS IN CLEARANCE OF MEN'S CLOTHING AND FURNISHINGS

Sale Starts Friday, June 23rd

AND CONTINUES ALL NEXT WEEK.

FRIDAY will be one of the big red letter days for the man who's interested in Summer Toggery. To make space for incoming shipments and to clear our shelves of summer goods we have arranged this sweeping clearance sale. No attention has been paid to original prices. All have been reduced to figures so low as to ensure the immediate disposal of our present stock. It is a clearance which we believe represents the biggest value-giving of the year.

SUITS

\$20.00 Suits now..	\$16.00
25.00 Suits now..	20.00
30.00 Suits now..	24.00
35.00 Suits now..	28.00
40.00 Suits now..	32.00
45.00 Suits now..	36.00

They're Great Values.
In the consideration of your clothes, quality is as important as the price you pay. But when you get both you receive double satisfaction.

Here, that certainly is assured you, for our present scope of quality apparel offers everything needed at the right price.

Sport Suits, four-button models, conservative styles. Yes, all of them—in all the desired fabrics. Plain finished or unfinished worsteds, tweeds, cassimeres, etc.

HATS AND CAPS

Straw Hats clearing at \$1.75. We've a complete selection of straw hats in the season's best styles. Get your cool straw at once.

A complete line of Caps in all makes, styles and cloths. Reduced to clear at exceptionally low prices.

All Felt Hats selling at reduced prices.

NECKWEAR

50c, 85c, \$1.00, \$1.25

They come in a variety of attractive patterns and colors, and are unusually good looking and smart. Come in and look them over. We've a wonderful selection.

OVERCOATS

One lot of Spring Top Coats to clear, at **\$15.00**

Genuine English Aquatic Gabardines at 20 per cent off regular price. Exceptional values.

RAINCOATS

Fifty Raincoats ranging from \$12.50 to \$15.00, to clear at **\$8.50**

CUSTOM TAILORING

\$65.00 Suits now	\$55.00	This includes our blue and	
60.00 Suits now	50.00	grey serges. We have also a	
55.00 Suits now	48.00	large assortment of pure Scotch	
50.00 Suits now	45.00	Tweeds at	\$38.50

SHIRTS

98c

Fine Madras. Fine count percales. Regular retail price \$1.50 to \$2.00.

Color harmonies—Shirts showing stripes have the colors of the palette superbly blended.

\$1.25

Shirts for go-to-business dress sport wear. Every shirt made full according to standard size specifications.

\$1.65

Regular \$2.00 and \$2.50. No odd lots, no skimmed shirts, no style-stale shirts. Everything you hope to find at a "real" shirt sale. All in size range—that is, you are sure to find your neckband and sleeve length.

We have also on sale a large assortment of Silk Broadcloths, fancy silk crepes and white jerseys and many other lines too numerous to mention.

Special Notice!

To Window Shoppers

They all look good in the windows, but don't buy clothes on show-window evidence alone. Window displays show styles and prices, but they can't tell you very much about quality. That's something that can only be ascertained by a closer inspection than the window permits.

We like to have you look in our windows, but we like better to have you come in and examine our goods and compare them with what you can get elsewhere at the price.

Before you exchange your good money for our good clothes, you ought to have something more than mere window evidence in proof of our claim to greater value-giving.

EXTRA TROUSERS

At An Extra Low Price **\$3.38 to \$5.85**

Particularly in the good old summer time is a pair of extra trousers a necessity, and in this special selling, we're able to offer you greater values than it's been your good fortune to find in several years.

UNDERWEAR

From the Best Makers **\$1.25 to \$2.00**

A complete stock of summer underwear at very low prices. They've been carefully selected from the best manufacturers, insuring comfort and satisfaction. Underwear looks pretty much all alike in the stores, but you'll appreciate the difference when you wear ours.

BATHROBES
