Victory Over Germans In Extensive Raid

MANY OF ENEMY KILLED

Not a Canadian Missing—Americans
Get Through to Second
Line of Enemy in Dashing Raid
—Italians Block Austrian Plan
to Cross Piave

London, Mar. 10.—(Canadian Associated Press)—General Sir Arthur Currie writes to Sir Edward Keppel the following letter, dated March 6, and received on Saturday morning:

"The enemy attempted a very large raid against us, nearly 900 of his specially picked assaulting troops raided our trenches. He put on a tremendous artillery fire, stretching for many hundreds of yards on each side of his point of entry. No sooner had he entered our lines than he was immediately counter-attacked and driven off. Our chaps killed a great many Germans in the trenches and during the enemy's retirement. Many Boches are lying dead in No Man's Land and not a man of ours is missing.

FIGHTING ON BRITISH LINE

London, Mar. 11.—"A successful raid in which several of the enemy were killed or taken prisoners and two machine guns were captured was carried out by us last night south of St. Quentin," says the official statement from Field Marshal Haig today. "A party of the enemy which approached our lines near the LaBassee was driven off by artillery and machine gun fire. There was considerable artillery activity on both sides during this morning southeast of Arras."

This is the first report of any British activity on the line south of St. Quentin since the British took over the sector from the French several weeks ago. Previously the British front had extended only to St. Quentin.

ITALIAN FRONT

Rome, Mar. 11.—The announcement of the campaign from general headquarters yesterday reads:

"From Stevio to the Brenta the artillery were moderately engaged; scouting parties were noticeably active. In the region of the Piave river enemy groups were dispersed and at other points were put to flight. In the Col Posina our hostile advanced posts with rifle fire and compelled enemy patrols to retire. From the Brenca to the sea there has been intermittent, but not very intense fighting."

AMERICANS IN DASH

Paris, Mar. 11.—American troops have made a bold raid into the German lines in Lorraine. The war office so announced.

WITH THE AMERICAN ARMY IN FRANCE

Mar. 10.—(By the Associated Press)—American troops, co-operating with the French, have carried out three raids, opposite the American sector in Lorraine. Two of the raids were executed simultaneously last night. The Americans swept past the German first line and penetrated to the enemy's second line, 600 yards back.

ROME, MAR. 11.—Austrian troops which

apparently were making an attempt to cross the Piave river were prevented from doing so yesterday by the Italian batteries which sunk rafts and boats in the river opposite Fagere. The war office announced this today. Italian aircraft on raiding operations dropped seven tons of bombs upon areas occupied by the enemy.

ACTIVITY ON THE CANADIAN FRONT SLOWLY INCREASING

British Have Gained Acknowledged Superiority in Air

FINE SPRING WEATHER

Winter Record of Trench Raiding Shows Balance Strongly in Favor of Dominion Troops and Germans. Begin to Use More Gas

(By W. A. Willison, Canadian Press Correspondent in Flanders.)

Canadian Army Headquarters, Mar. 10.—Since the last big raid, as detailed in my last despatch, more prisoners have fallen into our hands. The history of doings at the front recently has been one of slowly increasing activity. With the advent of fine spring weather there has been constant fighting in the air which the British machines have gained an acknowledged superiority. No fewer than eighteen enemy planes have been brought down in one day. As the enemy is inferior in the air to the winter record of trench raiding finds the balance strongly in favor of Canada and our guns dominate the enemy.

A hostile party of six which attempted to raid one of our posts south of Lens yesterday morning was driven off with machine fire, leaving one wounded prisoner. While the enemy was falling in his raid a patrol of one officer and a score of other ranks of an eastern Ontario battalion was encountering a hostile scouting party. It drove it back in disorder towards the German lines and captured one prisoner.

Another patrol with double its number bombed its way back to our trenches inflicting losses on the Hun and sustaining no casualties itself.

With trench warfare so strikingly in our favor the enemy is resorting more persistently to the use of gas. Yesterday morning, leaving one wounded prisoner, gas was used against our lines west and south of Mericourt. In the bombardment which lasted two hours, it is estimated that he fired about 3,000 pounds of gas shells consisting of all sizes up to one with a percentage of strychnine also. At the same time he carried out a light gas bombardment on the French front which was again put down on our trenches in the same locality a harassing fire of gas shells.

BAD TIME FOR HUN AIRPLANES

British Destroy Three and Drive Down
Four Others Out of Control

London, Mar. 11.—British aviators of the naval air service yesterday made a raid over Belgium, dropping bombs on the airfield and ammunition dumps at Engel. Two fires were started. The enemy's three enemy planes were destroyed and four others driven down out of control. All the British planes returned safely.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

"SCANDAL"—BETTER THAN A SERMON

Imperial's Powerful Play Tonight Will Set Folks Thinking

Those who are normally minded enough to recognize and assimilate the unvarnished truth about present-day social conditions, will find in the Imperial picture play tonight and tomorrow much food for reflection. This play, "Scandal," which has also been published as a novel, exemplifies Cosmo Hamilton's feeling that as a novelist and dramatist it is his mission to make his work achieve something more than mere entertainment. Anyone who has talked with him must realize that it is his deep-rooted ambition to embody in his work that which shall awaken thinking people to some of the social and psychological weaknesses of the times. In particular, Mr. Hamilton is a passionate advocate of the teaching of the fundamental truths to the younger generation. Constant Talmae is surrounded by a strong cast in presenting this sermon-play.

THE GREAT WHITE TRAIL, LYRIC THEATRE, TONIGHT

RAMBLERS WIN

Capture Championship by One Pin in Match With Sweeps

One of the most interesting games played on Black's alley for some time took place on Saturday night when the Ramblers and Sweeps met in the second of a series of three to decide the championship of the first and second league series. The former team won by one pin and thereby clinched the championship as they had won the first match.

CONSERVATION OF LIFE

Hearty Support of a Movement Led by Hon. W. F. Roberts

(Maritime Baptist). "Is it lawful to save life or to destroy it." With burning indignation the Prophet of Galilee flung this question at the captious, fault-finding Pharisees. While professing great reverence for the law of God they were strangely blind to the revelation which He had given of the supreme value of human life. To their legalistic minds the sanctity of the Sabbath outweighed even considerations of human welfare, and Christ's teaching of the Sabbath was made for man and not man for the Sabbath since that revolutionary doctrine.

And it must be acknowledged that our so-called Christian civilization has largely failed to notice the significance of the Sabbath's teaching. Though theoretically placing high value upon human life, practically it has been regarded as a commodity, plentiful and cheap, the care and preservation of which has been but of little concern to economists and legislators. It is true that of late years many humanitarian laws have been enacted for the purpose of protecting the rights of workers against the greed and rapacity of modern industry. Such legislation marks progress toward that conception of human life and its value which is so evident in the teaching of Jesus.

Yet there is still much to be desired. A careful study of modern conditions brings to mind another of the Saviour's trenchant questions, and one might well ask something of bitter irony, "Is not much then a man better than a sheep? Much thought is being devoted to the improvement of domestic animals and the eradication of disease. Experts are employed to investigate conditions. All the resources of government are generously laid under tribute in order to provide for the farmer and stock raiser a better view than that of mere cost. But only occasionally do we see manifested an equal anxiety in regard to human life and the conditions of healthfulness and otherwise which prevail throughout the nation or community. We hear much concerning the need of conserving our forests and other natural resources, but a very little of the conservation of human life, though our disregard of this fundamental principle has led to a serious economic loss, to say nothing of the suffering and sorrow involved.

It is most encouraging, however, to note the increasing interest that is being taken in matters of public health and welfare. We have received a report of a sanitary survey of the province of New Brunswick which we have read with the utmost interest. The proposal to establish in this province a department of health with a responsible minister at its head is one which should meet with unqualified approval of all right-thinking people. The conditions revealed by the survey call for immediate and drastic action. It ought to be evident to the most prejudiced that prevention is better than cure, if from no other point of view than that of mere cost. We trust that all our readers in this province will give their hearty support to this movement and to its leader, Hon. W. F. Roberts, M. D., who since his election has labored unceasingly to bring to pass the establishment of such a ministry of health as is now proposed.

Let it not be forgotten that the end in view is simply the conservation of life. By wise preventive measures and by the dissemination of hygienic knowledge among all classes it should be possible to reduce materially the death rate and to reduce as well the loss of economic efficiency due to the prevalence of disease. Such work is always needed but surely the need of the utmost conservation of life was never greater than at the present time.

THE WHALE AND THE LENTEN REGULATIONS

(Ottawa Journal Press.) "Is whale fish and can it be eaten on Wednesday or Friday by Catholics?"

Not being an authority on church matters, the fish dealer to whom this question was addressed simply scratched his head and murmured: "Search me." Any meat for sale and didn't expect any for a while at least, although he had been asked for several times. As to the status, fish or fowl, he suggested that the easiest way to find out would be to ask The Journal-Press.

The query was then passed along to several of the Catholic clergy of the city and finally to the archbishop's palace. In the minds of several of the clergy the main thing was to get the whale "first catch your whale," quoted one of them, adding that if he had the whale steak on hand, he did not think he would hesitate long about serving it on Wednesday or Friday.

At the archbishop's palace it was said that while the whale is proclaimed a mammal, it is an animal living in the water, and the question in regard to fish or fowl is also to be eaten on Wednesday or Friday because they are live on the land.

To draw another fine point, this would mean that while frog legs may be eaten because the frog spends the greater part of his life in water, if toads were edible they would not be eaten on Wednesday or Friday because they are live on the land.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If Tongue is Coated Give "California Syrup of Figs"

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without gripping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative" and in a few hours all the foul, un-digested food passes out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Syrup of Figs" handy, they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle.

SOME CASES UNDER M. S. A.

Decision of Central Appeal Judge in Matter of Students at Petit Seminaire

Following is the report of a case under the military service act decided by the central appeal judge, Mr. Justice Duff, Ottawa:

Re Joseph Fleury, student, etc. A student of the Petit Seminaire of Quebec is not, as such, exempted from military service.

A student who had worked on his father's farm when not attending college is not for that reason exempted.

An intention to study for the priesthood, when the case was called, and provision having been made for the taking of notes of evidence of stenography, was not a sufficient reason for exemption.

The deposition of Mgr. Francois Pelletier, Prelat Domestique de Sa Saintete Benoit XV, superior of the Seminary of Quebec and rector of Laval University, explained that the Petit Seminaire course, which extended over eight years, consisted of two parts: 1st, rhetoric or letters during six years, at the end of which an examination was held, and 2nd, sciences or philosophy, which took the remaining two years, at the end of which an examination was held.

It was explained that the seminary was first founded with the intention of providing for the education of candidates for the priesthood. At the end of the course in the Petit Seminaire, they were sent to the Grand Seminaire, which is a theological institution.

It was further explained that now, since the University has been founded, and facilities exist for the liberal professions, only about half of the students of the Petit Seminaire enter the Grand Seminaire with the intention of completing the theological course and entering the priesthood.

At the present time sixty-five of the students of the Petit Seminaire have been summoned under the Military Service Act, 1917. Some of them, of course, are exempted owing to classification by the medical board as below category A.

Mgr. Pelletier said that he is strongly of the opinion that if a student's course is interrupted by absence from the seminary, he will have a very difficult time to make up the years of study owing, of course, to defects of memory, etc.

Mgr. Pelletier and the other seminary professors explained that when any of their students were sons of farmers, who had been in the habit of living on their father's farm, they were permitted to leave the seminary before the end of the session in the spring, to assist in the farm work.

This evidence is corroborated by the evidence of Rev. Alexandre Vacon, professor of chemistry, and of Rev. Oscar Genest, director of the Petit Seminaire.

Upon the above facts, I beg to submit the following questions: 1st. Is the student Joseph Fleury, entitled to exemption upon the fact that he is a student of the Petit Seminaire of Quebec? It is in the national interest that he should be permitted to complete his course of studies without interruption, instead of being required to report under the Military Service Act, 1917?

2nd. Is he also entitled to exemption from service under the act because all his life he has lived and worked on his father's farm, except when he has been attending his studies at the Petit Seminaire?

Joseph Fleury testified that he has not set up his mind to a profession or profession he will take up after completing his studies at the Petit Seminaire.

3rd. Alexandre Morin, an eighth year student at the Petit Seminaire, testified that when he entered the seminary he intended studying for the priesthood, passing through the Petit Seminaire to the Grand Seminaire, and he still has that intention.

Should this fact be taken into consideration when deliberating upon his claim for exemption from military service?

SOME CASES UNDER M. S. A.

Decision of Central Appeal Judge in Matter of Students at Petit Seminaire

Following is the report of a case under the military service act decided by the central appeal judge, Mr. Justice Duff, Ottawa:

Re Joseph Fleury, student, etc. A student of the Petit Seminaire of Quebec is not, as such, exempted from military service.

A student who had worked on his father's farm when not attending college is not for that reason exempted.

An intention to study for the priesthood, when the case was called, and provision having been made for the taking of notes of evidence of stenography, was not a sufficient reason for exemption.

The deposition of Mgr. Francois Pelletier, Prelat Domestique de Sa Saintete Benoit XV, superior of the Seminary of Quebec and rector of Laval University, explained that the Petit Seminaire course, which extended over eight years, consisted of two parts: 1st, rhetoric or letters during six years, at the end of which an examination was held, and 2nd, sciences or philosophy, which took the remaining two years, at the end of which an examination was held.

It was explained that the seminary was first founded with the intention of providing for the education of candidates for the priesthood. At the end of the course in the Petit Seminaire, they were sent to the Grand Seminaire, which is a theological institution.

It was further explained that now, since the University has been founded, and facilities exist for the liberal professions, only about half of the students of the Petit Seminaire enter the Grand Seminaire with the intention of completing the theological course and entering the priesthood.

At the present time sixty-five of the students of the Petit Seminaire have been summoned under the Military Service Act, 1917. Some of them, of course, are exempted owing to classification by the medical board as below category A.

Mgr. Pelletier said that he is strongly of the opinion that if a student's course is interrupted by absence from the seminary, he will have a very difficult time to make up the years of study owing, of course, to defects of memory, etc.

Mgr. Pelletier and the other seminary professors explained that when any of their students were sons of farmers, who had been in the habit of living on their father's farm, they were permitted to leave the seminary before the end of the session in the spring, to assist in the farm work.

This evidence is corroborated by the evidence of Rev. Alexandre Vacon, professor of chemistry, and of Rev. Oscar Genest, director of the Petit Seminaire.

Upon the above facts, I beg to submit the following questions: 1st. Is the student Joseph Fleury, entitled to exemption upon the fact that he is a student of the Petit Seminaire of Quebec? It is in the national interest that he should be permitted to complete his course of studies without interruption, instead of being required to report under the Military Service Act, 1917?

2nd. Is he also entitled to exemption from service under the act because all his life he has lived and worked on his father's farm, except when he has been attending his studies at the Petit Seminaire?

Joseph Fleury testified that he has not set up his mind to a profession or profession he will take up after completing his studies at the Petit Seminaire.

ANNUAL HAY AND PASTURE CROPS

(Experimental Farms Note.) Taking Canada as a whole, annual hay and pasture crops are generally used as supplementary crops to the main crop of wheat or corn.

It is our opinion that, at present, we cannot afford to take any gambling chances with crops that are not sure to prove successful. And really, there is no necessity for doing it, as there are a large number of annual crops that are known to be excellent for pasture in Canada.

THE WOMAN'S GAME

(London Pictorial.) Was there ever a game we did not share, Brother of mine? Or a day when I did not play you fair, Brother of mine?

As good as a boy, you used to be, And I was as eager for the fray, And as loath to cheat or to run away, Brother of mine!

You are playing the game that is straight and true, Brother of mine. And I'd give my soul to stand next to you, Brother of mine.

The spirit, indeed, is still the same; I should not shrink from the battle's flame, Yet here I stay—at the woman's game, Brother of mine!

If the last price must needs be paid, Brother of mine, You will go forward, unafraid, Brother of mine.

Death can so small a part destroy, You will have known the fuller joy— Ah! would that I had been born a boy, Brother of mine!

RECENT DEATHS

Private Pearl Conrade. Private Pearl Conrade, of Lunenburg (N. S.), and a member of the local depot battalion, died in the military hospital, Pitt street, on Saturday night, from measles. Private Conrade was about twenty-four years of age. It is understood the body will be taken to his native town for burial. Private William L. Fowler. Late William Leslie Fowler, aged twenty-two years, passed away at the local armory hospital on Saturday. Private Fowler had been ill with pneumonia which finally resulted in his death. He belongs to Amherst (N. S.) and the body will be taken there today at noon. The funeral will be held at Powers' Undertaking parlors in Grand street. John W. Godard. At an early hour this morning John W. Godard, the well known commission merchant, died at his home, 20 Douglas avenue, following an illness of a month's duration. His death will prove a great shock to his great host of friends for they had not regarded his illness of a critical nature. To his family most sincere sympathy will be extended. In the death of Mr. Godard the community suffers a distinct loss. Born in this city sixty-three years ago, Mr. Godard lived here all his life and he had a most successful business career. He leaves to mourn, his wife, one son—A. J. Godard, of this city, and four daughters—Mrs. L. W. Sanford, of Waldpole (N. B.); Mrs. L. A. Acheson, and Misses Vera and Frances at home. Three sisters—Mrs. S. D. Hunter, Mrs. S. T. Vaughan, of this city, and Mrs. R. D. Taylor, of Fredericton, also survive. The death of Mrs. Emma E. Jennings took place at her home in Fredericton on Saturday evening, aged sixty-seven years. Mrs. Thomas Wandless passed away at her home in Fredericton after a brief illness on Saturday last.

BABIES THRIVE ON IT

WOULD BAR FEEBLE MINDED NEWCOMERS

Social Reformer at Montreal Women's Club Advocated More Restrictions. Improved Social Order—Thoughtful Gain Would Come Out of Present Time of Stress and Agony.

"Every great social reform has had its beginning in time of desperate stress and struggle and conflict and agony like this," said Alexander Johnson, secretary of the commission on provision for the feeble-minded of the United States, in an address given before the Montreal Women's Club on "The Weakest Children of the Great Mother State." Out of our time of stress and agony and struggle here in this dominion, in the United States, England, Scotland, Ireland, Wales, France—and, please God, even in Germany—will come a wonderful gain, a wonderful improvement, a newer and better social order than we have ever seen before. (Hear, hear.) The speaker said that in 1910 there had been only forty-one cases of typhoid in the whole British army, as against seven men who died of typhoid in the United States was against Spain for one that died of wounds or in battle. In the few years between those campaigns typhoid had been practically eliminated as a soldier's disease. There seemed no reason why civilians should continue to suffer from a disease from which soldiers could be so adequately protected. Cholera and tetanus had also been practically eliminated as soldiers' diseases, and they were no longer greater enemies than the Hun. In the armies in the field today, in spite of all the hardship and suffering the morbidity rate, i.e., the number of cases of sickness in each thousand individuals, was lower than among the same number of men of military age in civilian life anywhere else. That much had been gained, and it would be seen to that hereafter men who were not soldiers, and women and children, would get the same care and protection. Many Feeble-Minded.

Mr. Johnson said that it was estimated that there were 6,700 feeble-minded in Ontario and from 20,000 to 22,000 in the whole dominion. In the United States these were feeble-minded because their parents were feeble-minded. The history of many thousands of families had shown, in some of the life histories going back eight or nine generations. "How did feeble-mindedness begin in the first place?" was a question which Mr. Johnson had often been asked. It was an evidence of degeneracy, and what ever would produce degeneracy would produce feeble-mindedness. The two greatest causes of degeneracy were alcoholism and venereal diseases, the master evils threatening civilization, and which had to be conquered. "What can the dominion do?" asked the speaker. "It can say, 'We will not admit any feeble-minded immigrants.' (Applause.) A couple of years ago every immigrant was carefully examined and tested for feeble-mindedness for two months at Quebec. Such a large proportion of them proved to be feeble-minded that it was stated that if the same proportion had been coming into Canada for the previous three years, the country would have received 2,000 more than one-sixth of whom had been foreign born. At the Woodstock Institution for Epileptics, which has 2,000 children, more than one-sixth of them had been foreign born. Eczema Cured Five Years Ago

A Treatment Which Has Proven a Wonderful Healer of the Skin—Certified Evidence of Lasting Cure.

The old notion that eczema is a disease of the blood is refuted time and time again by the cures that are daily being effected by Dr. Chase's Ointment. It matters not what the cause may have been, if you apply Dr. Chase's Ointment regularly you will obtain relief and cure of eczema. Here is the proof. Mrs. Stephen G. Thwaites, Box 206, Jordan, Ont., writes: "My brother had a bad case of eczema on his legs. He was troubled nearly all one fall and winter with it, and could not work for days at a time. He tried different salves and ointments, but none cured him. One day he tried Dr. Chase's Ointment, and it gave almost instant relief. He continued its use, but had not quite finished the second box when he was cured. It is now about five years since then, and it has never returned. We certainly can recommend Dr. Chase's Ointment, and are very grateful for my brother's cure." (Rev. S. F. Coffman, Vineland, Ont., states: "This is to certify that I know Mrs. Thwaites and the party to whom she refers, and her statements are correct.") Mr. J. E. Jones, 228 University avenue, Kingston, Ont., writes: "I had eczema in my hand for about five years. I tried a great many remedies, but found that while some of them checked it, none cured it permanently. Finally I tried Dr. Chase's Ointment, and in six weeks my hand was completely better. I would not do without a box of Dr. Chase's Ointment in the house if it cost \$2 a box. I am giving my name to this firm so that it will get to those who suffer as I did." FIRST AID STUDENTS

The development of the work of the St. John Ambulance Association proceeds satisfactorily in St. John. A large First Aid class, instructed by Dr. W. F. Roberts, was lately examined by Major L. M. Curran, Dr. F. L. Kenney and Captain A. E. Logie. At this examination thirty-seven students presented themselves, and all succeeded in qualifying, many receiving high marks. This class was partly composed of members of the St. John Ambulance Brigade, Miss K. Sturges, Miss Jennie Munroe, Miss Lucy Robinson, Miss Katherine Bates, Miss Lucretia Hill, Miss Helen Church, Miss Doris deVere, Miss M. A. McLean, Miss Gilchrist. Miss Marjorie Stapin also passed creditably but as a full year had not passed since her last examination she will not receive the medal until a later examination. Members of the class who will receive certificates of proficiency from Ottawa, the names arranged according to examination number, are: Miss Harriet Smith, Miss Miriam Mahoney, Miss Dorothy Robson, Mrs. Raymond, Miss Helen McMurray, Miss Kathleen Custer, Miss Mabel Rowley, Miss Cora Bennett, Miss Minnie Miles, Miss Winifred Smith, Miss Austin, Miss Dorothy Blizard, Miss Sherwood, Mrs. S. LABOR'S CLAIM TO PARTNERSHIP

Harmony Depends on Labor Securing Voice in Control

An Economic Democracy

Working Class Interests Stronger After War, Says Prof. MacIver to Royal Canadian Institute

The present situation of Capital and Labor, which is a changing one, and due mainly to the new attitude on the part of labor, was discussed by Prof. R. M. MacIver, Associate Professor of Political Economy at the University of Toronto, before the Royal Canadian Institute, in Toronto on Saturday evening. The speaker, he claimed, was almost certain to be some form of economic democracy. Labor, when the war was over, would, in his opinion, be left in a position of strength unknown before, and labor-industrialism was being broken up by the war, as many had imagined it would. Labor is likely to be the offensive force and the industrial democracy, labor demands a share in property and a voice in the control of industry. It demands not only a greater return but also a greater power. The new claims of labor will have to be faced in the near future, and Prof. MacIver said that the system and not men that are on trial, and the demand has come from labor for what may be called industrial democracy. The present industrial system is essentially oligarchical in structure, he claimed. "The heart of the present issue, according to Prof. MacIver, is 'Is Labor to be a commodity, to be bought and sold like any other, subject to all the vicissitudes of a mere article of trade, or is Labor to be an effective partner of Capital, a citizen, and not merely a subject in the kingdom of industry?' The speaker did not think there was any third possibility. No mere schemes of arbitration and conciliation, no systems of profit-sharing, will heal this great and growing division. They have been tried and found wanting. In the present temper of Labor there is not the slightest hope of success attaching to any scheme for bringing Labor and Capital into harmony which does not admit Labor to the same council table with Capital, not merely when disputes have already arisen, but all the time.

Anderson, S. C.—"I got into an awful condition with what the doctors said was an organic displacement. I would have pains so badly that they would have to put hot clothes on me and give me morphine. The doctor said I would never have any children without it. A neighbor who knew what your medicine would do advised me to give Lydia E. Pinkham's Vegetable Compound a trial. I did so and it made me a well woman and the next September I gave birth to a healthy baby boy." —Mrs. SALLIE JAYNES, 27 Lyon St., Anderson, S. C.

The letters which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.

REAL ESTATE

Snap Prices, Good Values in House Properties

TWO-FAMILY HOUSE—Fine large freehold property on Water-look street, near Richmond street; modern and exceptional value at \$5,500.

TWO-FAMILY HOUSE—(City leasehold), ground rent, \$2 a year, old lease; better than freehold, in good condition and repair, situated Princess street. A good buy at Price, \$4,300.

TWO-FAMILY HOUSE—(Leasehold and freehold), situated on Pitt street, between King street and Leinster street, in perfect condition. Price \$5,000.

Also two one-family houses adjoining. A splendid opportunity to have your own home all to yourself in a desirable section, the bargain figure of \$2,500 each.

TWO FLATS AND STORE—(Freehold property), Brussels street near Richmond. This property is in good shape and a splendid investment at the price, \$2,600.

THREE-FAMILY HOUSE—(Freehold), situated on Rockland Road, near Moser street. Well and shows good investment, at \$2,200.

We have opportunities to place desirable two or three-family houses, some of the cheaper class, of \$1,500 to \$3,000, and also of the better and more modern properties in good localities. We have these enquiries daily, and it would be to the owner's advantage to drop us a line to call, or else phone us, or come into our office.

Summer Homes

INGLESIDE—Beautiful summer home, situated in one of the choicest locations, with beautiful lawn and orchard, consisting of two and a half acres. Large number of plum trees and other fruit trees. Great quantities of rose bushes and shrubs. House completely furnished, and a bargain at the price, \$3,500.

RENFORTH—Fine modern house with bath, etc., on large lot of about one acre, with large number of shade trees and a decidedly pretty location. Good value at the price, \$3,000.

We have many enquiries from intending purchasers for summer homes on both the C. P. R. and I. C. R.; also those desiring to rent on either line for the summer months. Owners of properties, please communicate with us which would be to their advantage.

Bakery Business For Sale

We have had placed with us for immediate sale one of the best established bread and cake businesses in the city, together with the good will and equipment, consisting of dough mixer, bake pans, proving cupboards, showcases, cash register, safe, etc.

Some idea can be obtained of the extent of the business from the fact that from thirty to sixty barrels of flour per week are used. A business opportunity seldom offered to one with moderate capital, as the owner is making a great sacrifice for quick disposal. A well established business in one of the principal thoroughfares, and with a local connection in that line unequalled. The books are open for inspection to bona-fide purchasers. Reason for selling, ill-health.

IRON, STEEL, METAL AND MACHINERY MARKETS

In its summary of the iron, steel, metal and machinery markets for the week ended March 5, Canadian Machinery and Manufacturing News, Toronto, makes the following observations:

It is not unlikely that further orders for machinery will be placed with Canadian manufacturers by the American government which, in conjunction with the heavy bombardment of the British position, will result in considerable activity and the expenditure of large amounts of money.

It is probable this year for it is the intention of the Dominion government to build ships to the full available capacity of the ship yards. As this indicates great activity in the steel and metal working industries, it is probable that the present year will result in a steady increase during the coming weeks with the result that normal conditions should soon prevail.

There is yet considerable freight congestion on the railways which will not be entirely eliminated for some time owing to the car shortage, but with a continuance of favorable weather, traffic conditions should improve and the steel plants begin accordingly.

Merchants report business as being fair but are handicapped by low deliveries and delays in having to obtain permits before material can be shipped.

Prices are holding firm and are unchanged. In the United States conditions in the iron and steel trade are improving and production is increasing. An effort is being made by the prominent steel manufacturers to have prices increased when the schedule comes up for revision. The stable metal market continues quiet with little business passing.

Consumers are still under the impression that the administrative recommendation, backed by the example of Allied countries, is a sharp advance in the due to the great scarcity and unfavorable outlook. The copper market is quiet but it is possible that the price will be raised to meet the demand for increased production costs. Prices of machine shop supplies are holding firm and business continues in good volume. Solders have advanced because of the high cost of tin. Some styles of wrought pipe are higher than the standard lines are unchanged. The machine tool trade is fairly active, the demand being principally for single tools for low malleable plants and for shipbuilding.

CANADA TO SAVE DAYLIGHT

(Toronto Globe) Announcement by Sir George Foster that the union administration proposes to submit to parliament, when it meets, a 'daylight saving' bill to operate during the coming summer will be greeted by general approval. Canada joins Britain, France and the United States in its determination to conserve natural light and permit of greater effectiveness in human endeavor.

The legislation which the exigencies of war have eventually brought about is not new. Pioneers have blazed an educational trail. His Honor Judge Lewis Huron county, when a member of the Canadian Parliament, first introduced "An Act Respecting the Saving of Daylight" December 21, 1907, more than seven years ago. The sentiment of the House at that time was dubious concerning the innovation, and Mr. Lewis contented himself with the submission of considerable educational propaganda. He eventually followed up, however, with a session after session, while he remained in the House. Last session Sir George Foster submitted a measure of a government bill, but discussion on its second reading revealed the fact that parliament was still unconvinced and the measure was still unconverted and the measure was still unconverted and the measure was still unconverted.

It will be presented to the House at the coming session with the full force of the administrative recommendation, backed by the example of Allied countries, and a realization of its material contribution to effective productive and war enterprise. Under these circumstances it will undoubtedly commend itself to parliament and be brought into operation by statute.

Pass Summer Time. (From the Regina Leader.) A brief telegraphic dispatch from Ottawa states there is no official authority for the statements made that the government will introduce a Daylight Saving Bill at the coming session of parliament. It is intimated, however, that the government is likely to be guided in the matter by public sentiment. If the government is so guided there is but little doubt but that such a bill will be introduced and passed. Within recent weeks scores of the leading papers in Canada from the maritime provinces to the pacific coast have endorsed the inauguration of daylight saving in Canada this summer as a war measure for the conservation of coal, as a matter of economy, and as an aid to greater production of vegetables in our city and town backyards and vacant lots. On the other hand we have failed to find one paper opposing the change. Daylight saving has been proven to be an advantage in the case of the United States and has been favorably reported by a committee of the House of Representatives. Union government is pledged to the enforcement of all war-winning measures whether public sentiment is decidedly in favor of them or not. As a matter of fact the sentiment of this country strongly supports any and all measures that will make victory more assured and bring the war to the earliest possible termination. Daylight saving, while possibly only a minor matter, will assist in the attainment of these objects.

The charge has been made that Chicago packers planned to put members on the U. S. food committee, Hoover's staff, and so get inside tips.

GERMANS BEATEN

WITH HEAVY LOSS

British Drive Them From Posts They'd Won

FIGHTING IS SEVERE

Two Attacks on Haig's Line Learned of in Time to Prevent German Success—A Freak of War—Spring Flowers in Bloom

With the British Army in France and Belgium, Sunday, Mar. 10—(By the Associated Press)—Heavy artillery fire was proceeding at various points along the front as the British and German battle lines today, but there has been no infantry action of importance since yesterday morning when the British, in a violent counter-attack, hurled the Germans from the posts they succeeded in capturing in the region of Polderhoek ridge on Friday evening.

The British defences here and south of the Houtholst Forest, where the Germans also seized six posts on Friday morning, have been re-established completely after severe fighting in which the Germans lost heavily.

One of the feints of the war occurred for what the Germans had planned originally. They had intended to make a pretence of an assault on the northern sector south of the Houtholst Forest on February 20, to pinch off the British salient in the region of the Houtholst ridge, and gain some important positions. This became known to the British, however, through a deserter and they hurried the Houtholst front under such an avalanche of shells that the enemy was forced to abandon his position.

On Thursday the British gunners put Friday morning, which gained them six posts temporarily. The final result was that they were driven out with severe losses and also forced to abandon some of their own forward positions.

A strong attack had also been planned for February 28, against important high ground held by the British in the region of Polderhoek and southwest of that place. A prisoner taken by the British is said to have divulged the German plan to the British artillery effectively prevented the carrying out of this programme and later German prisoners said their regiments had been paroled and informed that the attack had been postponed because the British had learned of it. The same prisoners said the attack had been put off until the morning of March 8.

On Thursday the British gunners put Friday morning, which gained them six posts temporarily. The final result was that they were driven out with severe losses and also forced to abandon some of their own forward positions.

Indoor Sports

There will be a set of gymnastic sports held in the Y. M. C. I. on Friday evening at 8 o'clock. J. J. McNamara, physical instructor, has arranged the events and has cordially invited everybody to come and see what he has to offer. There is no admission fee and the public generally are invited to be in attendance. Mr. McNamara has worked up keen competition in holding sets of sports in various lines. The members of the class are becoming greatly interested and there is a fine list of entries for Friday evening's programme.

BASEBALL

Yankees Get Bodie

New York, Mar. 8.—The New York American league baseball club completed a triangular deal yesterday which added Frank "Ping" Bodie to the team as an outfielder. Bodie was secured from the Philadelphia Athletics in exchange for George Burns, whom the local club pur-

chased for cash in order to put the deal through.

Predicts Good Fight in National

"Weak pitching will pull the Giants away back this year," is the statement credited to Fred Mitchell, manager of the Cubs. Mitchell believes the weakness of the Giants in the pitcher's box will make it a free-for-all fight in the National League. The reader of the National League. The reader of the National League. Perritt Off to Hot Springs

Pol. Perritt, the demon holdout of the Giants, is back in the fold. McGraw has dispatched his star right-hander to Hot Springs and he will join the other New York pitchers this week.

"Cyclone" Taylor Gets Trophy

Vancouver, B. C., Mar. 8.—"Cyclone" Taylor of Vancouver has carried off all round championship of the Pacific Coast Hockey Association, according to announcement last night from President Frank Patrick following receipt of the ratings of the three official scorers. Taylor was the unanimous choice of the scorers as being the most valuable man on the Coast League circuit this season. This honor fell to Frank Foyston of Seattle last season.

1915; to Frank Farmer of Tacoma, Wash., in December, 1914, and the third to "Lightning" McKay of Winnipeg in 1914. He tips the scales at 175 pounds ring-side and is open to meet all comers.

the championship trophy offered annually by the association to the player who proves most valuable during the season. Clean playing, scoring ability, combination play, popularity with teammates are some of the qualifications which a player must possess in the all-round championship competition. Taylor led over all rivals in all respects.

Rival of Jim Thorpe

Georgia Tech claims to have developed in Joe Guyon one of those wonders of sport which look up now and then and are known as all-round athletes. The phrase is a very broad one, and in its best sense there are few athletes who may ever be so classed.

Jim Thorpe was perhaps the greatest all-round athlete in any American college. He was one of the greatest football players who ever kicked the pigskin; his college baseball was phenomenal on the track and in the field he was almost invincible.

On the track Guyon has been clocked in 10 seconds for the century and has negotiated the high hurdles in 13-5-5 and the 220 yard hurdles in 24-5-5-5-5-5, having cleared 23 feet in the broad jump and cleared the bar at six feet in the high jump. He is also a shotputter and javelin hurler of merit.

In addition Guyon is something of a boxer and wrestler. Guyon is 22 years old, stands two inches over six feet, and weighs about 200 pounds. His athletic career began at Carleton in 1912.

WRESTLING

Lewis to Meet Zbyszko

Final arrangements for a wrestling match between Ed Strang and Lewis and Wladek Zbyszko were completed Saturday at a meeting of the respective managers of both groups. The men will meet at Madison Square Garden, New York, March 19. The announcement was made by Jack Carley, manager of Zbyszko, who will promote the bout.

Lewis recently charged that the other top-notch grapplers were dodging the issue, in refusing to agree to a bout in which the southerner would be permitted to employ his favorite style. This hold caused the defeat of Zbyszko in the first local meeting between the two wrestlers, but in their second match, in which Lewis agreed to dispense with his head lock, Zbyszko was victorious.

NEWS OF THE SOLDIERS

Many soldiers and sailors were entertained last evening in several of the city churches, following the evening service. In Gernain street Baptist there were about fifty present. In Knox Presbyterian a good number was in attendance and usual large number was present in St. David's.

H. H. Hatch, Garden street, has been advised that Sgt. Douglas Lywood Martin is improving in Brimshott Hospital, where he is ill with pneumonia.

John P. Nuttall of the 10th battalion, overseas, has been promoted to regimental sergeant-major. He is at present in England enjoying a rest, visiting relatives.

Word has been received by Mrs. Jessie M. Mahoney of St. Patrick street that her son, Private Wilbert, has been wounded in the head with shrapnel.

CHINESE BANDITS CAPTURE

AND R.B. TWO AMERICANS

Pekin, Friday, March 11.—Two American engineers, Nyl and Purcell, have been robbed and captured by bandits near Yehsien, in the province of Honan. A Chinese assistant also was taken prisoner.

The party was on its way to inspect and survey the site of a proposed railway between Chow Kailow and Akiang Yangfu. They were carrying a large sum of money with which to pay survey parties. An escort of twenty soldiers accompanied the bandits until their ammunition was exhausted, when the party surrendered. Two of the Chinese escaped, and reported the outrage.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sneezing, blowing, headache, dryness. No straggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Eli's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

PECK JOINS RANKS OF SIGNED YANKEES

Captain and Star Shortstop Comes to Terms After Chat With Huggins

New York, Mar. 6.—Life looks brighter every day for Miller Huggins, the mid-level manager of the Yankees. Two weeks ago he wore a tired, forlorn look because none of his players had signed.

Yesterday his face was wreathed in smiles, for Roger Peckinpaugh, captain and shortstop, came on from Cleveland, and a chat with Huggins, and signed his contract for the coming season. Elmer Adler, the outfielder, and Herb Thormahlen, one of the most promising of the young pitchers, also have fallen into line.

Huggins has had enough of his regular players signed to insure him of having a good team, and he expects that the contracts of the other players will all be signed before the week is over.

The conversion of Peckinpaugh takes a big load off Huggins' mind, and sets the Yankee fans at rest, because without the fleet shortstop the Yankee team would not look the same. Peckinpaugh is rated as the best shortstop in the American League, and he was one of the few players during the last couple of seasons who could slip out a timely hit when runners were perched on the bases.

At one period of the 1917 season Peckinpaugh started an epidemic of two-base hits to left field and for half a dozen days he cracked two-suggers out at shortstop. He is a player of great versatility and showed the Yankees into the delights of victory when defeat was hovering around the home bench.

Huggins had a talk with Peck in Cleveland last week, and yesterday the shortstop came to town, and all differences over the salary question were quickly adjusted. Peck put his John Hancock on the parchment with elegant flourishes. Huggins had a tougher time handling Herb Thormahlen than he did Peck. Thormahlen pitched one or two games at the Polo Grounds after he joined the Yankees last year at the close of the International League season, and looked like a comer. He did great work with Baltimore last season, winning twenty-five games and losing twelve.

Thormahlen will fill out the Yankee pitching staff this season in fine shape. When Huggins goes south he will have eight pitchers on his staff and probably all will be retained. Although the club has lost four pitchers, Huggins is far better off for twirling material than most of the clubs. Ray Fisher is in the army and the draft took Smallwood, the Newark catcher who was taken over by the Yankees last season. Cidlop and Shoemaker went to St. Louis in the Pratt trade. Huggins will not be overworked with pitchers as Manager Bill Donovan

SUFFERED WITH NERVES

COULD NOT KEEP QUIET

Diseases of the nervous system are very common. All the organs of the body may be affected, and sooner or later find themselves pining their nerves shattered, and the smart action weakened.

On the first sign of any weakness of either the heart or nerves, flagging energy, or physical breakdown, do not wait until your case becomes hopeless. Milburn's Heart and Nerve Pills will at once quieten the shaking nerves, strengthen the weak heart and build up the entire system.

Mrs. F. Bailey, 221 East street, Kingston, Ont., writes: "I was suffering very much with my nerves, so much so that I could not keep myself quiet at all. I read your case becomes hopeless. Milburn's Heart and Nerve Pills so I bought three boxes, and I must say I have derived much benefit from them, so much so that my friends have all noticed the change in me."

Milburn's Heart and Nerve Pills are 50c per box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CHINA IS JOINING HANDS WITH JAPAN

Will Co-operate in Protection of Allied Interests in Far East

Pekin, Mar. 11.—(By the Associated Press)—China, in reference to an inquiry from Tokio, has signalled her intention to co-operate with Japan in the protection of Allied interests in the Far East.

The Chinese war bureau has been requested to arrange for the sending of two divisions to Northern Manchuria. Japan will bear the expense pending the completion of a proposed American loan to China.

Interesting Games in Several League Series Among the Bowlers

The first round in connection with the McAvity League is over and shows the King Street Store in first place. All the games are evenly matched. This league has brought out many bowlers who were practically unknown. No. 1 team has several young bowlers who before this season is over will have made quite a name for themselves. No. 2 team, under the able management of Mr. Treat, who is quite a bowler, also has many good young bowlers. Foshay's team consists of two "dark horses" in Luck and Kelly. Ernie Wood's team are practically all new men, but with a little practice and experience will make the best of them. The King Street Office team, although occupying the elder position, are a strong formidable team and will no doubt show up better in the league progresses.

Table with columns: Team, Won, Lost, P.C. Water Street Store 4 1 1000, Water Street Office 3 1 750, Vulcan Foundry 3 1 750, 12 in. Shell Plant 3 1 750, Water St. Finishing 1 3 250, Water St. Foundry 1 3 250, 12 in. Shell Plant 1 3 250, King St. Office 0 4 000

Notes of the Game. The newly organized "McAvity League" does nothing else, it will have provided an evening home for Pat Kitchin.

been opposed. The patriotism of the workmen was flouted by the motto "No Beer, no Boats," carried by a number of shipwrights who did not speak even for their own trade. They were aptly reminded by the prime minister that organized labor in British Columbia, where shipbuilding is a large industry, voted down a resolution asking the government to permit an increase in the alcoholic content of beer, a proposal identical with the one submitted to the Ontario government at Saturday's demonstration. Not in Ontario alone, but in every province of the dominion, the mass of the people have declared unmistakably for the suppression of the liquor traffic. The federal government has interpreted public opinion rightly in deciding to close up the loopholes left by the constitutional limitations of the provincial legislatures, and to prohibit the manufacture and importation of liquor and its transportation across provincial boundaries. The U. S. government is looking to a daylight saving measure to speed up war production.

ignominious defeat on the opening night but this did not make the nifty leader of the Water Street Finishing team downhearted. McCaskey, the doughty captain of the 8.2 team had the rest of the league pretty well "bunflooded" before the opening, but now the first week is done, the lamb oyster has nothing on Mac. The league needs an official score and a judge of play to prevent the looting of balls by players. Eddie Tuck of the "Valentines" was distinctly on the job the opening night but he wants to look out in future matches. How about it, Eddie? Jimmy Lettner's Water Street Office team have their name already on the cup, according to all reports Andy Ramsay takes issue with him and says there's nothing to it but the King Street Store. The King Street Office are not discouraged with their bad start and say that when their aggregation of port side heavers get to working right, nothing will stop them. On Saturday afternoon two match games were played on these alleys, also one on Saturday night. J. M. Humphreys' team won from a picked team from McAvity's Water Street foundry, 1150 to 1071. In an interesting game between the Overseas Transport and the Import and Billing Department of the C. P. R. on Saturday afternoon, the former won. This game was to be decided by points. The C. P. R. won the first by 33 pins. Next string the overseas boys came back strong and won by 42, giving them a majority of nine pins. The C. P. R. took the next string by four pins, but lost the total, being defeated by five pins. As each team won two points, it was necessary to have a roll-off, which was won by the overseas staff by a score of 86 to 82. Considering all, it was a close game and caused much excitement among the "fans" present. Following is the result: Overseas Morrissey 79 88 78 240 17 McGovern 78 104 75 292 27 McGuire 28 64 62 184 11 Cunningham 85 75 82 242 17 Adams 55 78 81 208 14 350 399 378 1127 66 C. P. R. THE BEER QUESTION (Toronto Globe.) Sir William Hearst was complimented by the hoots and hisses which greeted his straight-tongued refusal to modify the Ontario Temperance Act in the interest of the brewing business and its allies. He faced a gathering which was designed to impress him by its own numbers and its claim to represent much greater numbers of the working classes. He might have averted a hostile demonstration by two or three smooth phrases. In similar

NINE ON BENCH IN LIQUOR CASES

Five on Charges of Being Drunk, One Charged With Supplying Liquor, Three With Having It

With the approach of April 1, on which date importation of liquor into the province becomes illegal, there seems to be a thriving business done in liquor, and this morning's police court was very much like a day before prohibition had been thought of. Five drunks and four others were before the magistrates. All pleaded guilty. The five prisoners charged with drunkenness were dealt with first and sent below all to be interrogated. The other charges were as follows: Charles Pattison, charged with supplying liquor; Lewis Fox, arrested for using obscene language and with having liquor in his possession on the ferry boats yesterday; Thomas Lake and Thomas Jenkins charged with having liquor in their possession. All pleaded guilty to the charges and were sent below.

STORM HARD ON STEAM RAILWAYS AND STREET CAR OPERATIONS

The incoming and outgoing trains were late today owing to the heavy snow storm of yesterday and last night. The depot yard is quite badly blocked, the snow in some places having drifted to a height of between three and four feet. Men are at work removing the snow and by this evening all tracks will be cleared. The McAdam train due to leave the city at 6.45 a. m., did not get away this morning until quite late, as the engine from the West St. John round house was unable to get around to the depot. The Montreal and Boston train are reported one hour late and the Mar. Line Express two hours late.

The street railway service was quite badly affected by the storm. The company had seven pieces at work. After six o'clock last evening the West St. John service was cut off, but was reopened again early this morning, the Fairville service was re-opened at noon today. The East St. John and Glen Falls service is at present snowed-up, but it is expected that it will be re-opened some time during this evening.

The regular Shore Line railway train for St. Stephen left West St. John this morning with a double header and snow plough. Officials were confident that it would reach its destination.

H. C. Groat, general superintendent of the C. P. R., New Brunswick division, speaking to a Times reporter this morning said that the blizzard yesterday caused a tie-up of freights, but the lines were all open today and everything is moving.

OLD LADIES HOME WANTS FREEHOLD OF FIVE LOTS

Offers to Purchase Land Now Under Lease — J. A. Gregory Asks for West Side Harbor Lots—Refund of Taxes to Quebec Bank

An application by J. A. Gregory for a lease of ten lots in a west side slip was heard by the common council in committee this morning but action was deferred. An application on behalf of the Home for Aged Females for the refund of taxes on the Quebec Bank Lots—Refund of Taxes to Quebec Bank

Mayor Hayes presided and Commissioners Fisher, McLellan and Russell and the Common Clerk were present. Commissioner Russell presented an application on behalf of J. A. Gregory for a lease of ten lots in a west side slip in Block E, lying between Nelson Slip and Wellington Slip on the west side of the harbor at a yearly rental of \$800, terminable on a month's notice.

Mr. Gregory was heard in support of his application. He explained that the lots form a pond which he wants as storage space for scows and other equipment. It was said that John E. Moore has the use of these lots at present and the commissioner of harbors promised a report on this.

Commissioner McLellan asked if the lots are now held under an arrangement with the harbor master, saying that the latter had no right to make any such arrangements. Action was deferred pending further reports.

Regarding the application of J. Lewis & Sons for a lot in British street, Commissioner McLellan said that the disposal of the old police lock-up had not been settled but he promised immediate action.

An application from J. Roy Campbell, on behalf of the Home for Aged Females, was presented by Commissioner Russell. It was for the purchase of lots 805 to 809 on the south side of Duke street, now held under lease by the institution, at \$25 a year. The sum of \$500 is offered for the freehold. The city engineer reported that one lot was vacant and that the others were occupied by dwelling houses valued at \$8,000. The application was favorably received but was referred back for further information.

E. M. Olive, chairman of the board of assessors, wrote asking instructions on an application of Y. C. Hasler for a refund of \$30 taxes for the Quebec Bank, on account of their having closed their business. The mayor's motion for a refund was carried.

Commissioner McLellan said that the \$200 increase in Wilson Dalton, assistant police clerk, included in the appropriation and to Beggs Stevens, chief clerk in his office, previously approved had not been added by the controller and he moved that the increase be made effective from January 1, Commissioner Russell seconding.

The mayor said that there were three men in the chamberlain's office receiving less than \$1,800, and he had been intending to recommend \$100 increases for each and would approve of \$100 for Mr. Stevens.

Commissioner McLellan said he would see that Mr. Stevens would get the \$200 in a perfectly legitimate way.

The matter was allowed to stand over until Thursday, when it is expected that all the commissioners will be present. The meeting adjourned.
