## ARCHAEOLOGICAL

### Lecture Tonight Promises to Be One of Interest

In the Natural History Society this evening Professor William Kelly Prentice, will lecture on "Syrian Life in Town and Country, Five Centuries after Christ." This promises to be a very interesting address as the following summary will show: Between the coast ranges of Syria and the Syrian desert lies a succession of low mountains, which the early centuries of the Christian era were occupied by many progressive communities. Those communities were situated in the seventh century and later by a series of wars, earthquakes and other calamities; many of their cities have never since been inhabited. Yet many of their buildings remain almost wholly above ground, the walls of some completely up to the cornice. They have been visited by few travellers, because they lay a little outside of those regions to which heretofore archaeological interest has been directed.

## ISSUE DIRECTORY OF PROVINCE

The Times has received from the New Brunswick Telephone Co., a very attractive and useful leather-bound volume of its official telephone directory for the province. The company this year has adopted the idea of dividing the telephone service in the province into three divisions, the first comprising: St. John, St. John's, St. Stephen, Caraquet, and the second—Moncton, Albert, Baie-Victor, Beauséjour, Campbellton, Carleton Place, Dalhousie, Dorchester, Hillsboro, Jacques River, Newcastle, Peticodiac, Port Elgin, Richibucto, Sackville, Salisbury and Shediac; and the third—Fredericton, Andover, Doaktown, Edmundston, Florenceville, Glasville, Grand Falls, Harland, Kenwick, Lower Southampton, Medford, Plaster Rock, Stanley, St. Leonard and Woodville.

These three divisions, which are in separate volumes, have all been put together inside one cover, making a very handy volume. With the aid of this comprehensive directory, it is possible to ascertain at a glance what people in the province have telephones, and to get in immediate communication with them from any telephone in the city.

#### Powerful Mirror of Great Telescope, Across Billions of Miles, Shows Universes in the Making

(Special to Times)  
Los Angeles, Cal., Feb. 3.—Reaching across billions of miles of space, the powerful reflecting mirror of the Mount Wilson sixty-inch telescope has revealed universes in the making. It has found and photographed a chaotic swirling mass of gas and fiery liquids, a gigantic whirl of celestial protoplasm five hundred billion miles in diameter in the act of throwing off a world.

The photograph portrays a spiral nebula. It apparently contains the nebular by-products of the French astronomer Leavitt and it does substantiate the more recent nebular hypothesis of Professor Chamberlain of Chicago University.

### NEW WONDERS OF WORLD OF SPACE ARE REVEALED

Powerful Mirror of Great Telescope, Across Billions of Miles, Shows Universes in the Making

(Special to Times)  
Los Angeles, Cal., Feb. 3.—Reaching across billions of miles of space, the powerful reflecting mirror of the Mount Wilson sixty-inch telescope has revealed universes in the making. It has found and photographed a chaotic swirling mass of gas and fiery liquids, a gigantic whirl of celestial protoplasm five hundred billion miles in diameter in the act of throwing off a world.

The photograph portrays a spiral nebula. It apparently contains the nebular by-products of the French astronomer Leavitt and it does substantiate the more recent nebular hypothesis of Professor Chamberlain of Chicago University.

Ottawa, Feb. 3.—"Absolutely no foundation for the story," was the statement given out by the Naval Department this morning regarding the Prince Rupert rumor that the Canadian cruiser Rainbow had been wrecked south of that harbor. "The Rainbow is today in Esquimaut harbor, and has had no accident of any kind that would give rise to such a report. We are at a loss to know how it originated."

### ON SUSPENDED SENTENCE

Man Who Made Trouble in S. J. Aide's Store Goes Free

The case of the King vs John Woodrow came up for hearing before Judge Robie this morning, the defendant electing to be tried under the "Speedy Trial Act." This was the case in which Woodrow went into S. J. Aide's store on January 13 and threatened to hit him bodily harm. Mr. and Mrs. Aide, Policemen Clarke and Lee gave evidence. The prisoner claimed to have no recollection of doing what he was charged with. His Honor found the defendant guilty but allowed him to go under suspended sentence, the prisoner taking the pledge for one year. C. H. Ferguson appeared for the prosecution.

Referring to this case, Mr. Aide informs the Times that, while in his place, Woodrow showed no signs of intoxication, but moved with great agility and when seen outside a little later, Woodrow was able to run like a deer. Mr. Aide therefore contends that the man's assertion that he had no recollection of what he was doing is ridiculous.

SURPRISE PARTY  
The moment you put the cover from a box of Woodrow's surprise party (28c.), the surprise is revealed. Each bite of the delicious chocolate is a separate surprise. Sold only at King Street Store, 100 King street.

ROBIN'S EVASION

Premier Roblin of Manitoba has never been suspected of being a humorist, but he has perpetrated a joke upon the Ottawa correspondent of the St. John Standard. Being asked for his views concerning reciprocity, Mr. Roblin appears to have assumed an aspect of profound gravity, placed his hand upon his heart, and said: "I am a United Empire Loyalist. In 1777 my ancestors homesteaded at Troy, N. Y. They were driven from their homes by the rebels. Their land was taken from them. They came to Canada to live under the British flag. My people have lived under the Union Jack ever since. We love Canada. We love the British Empire. I shall oppose anything and everything which has the slightest suspicion in it of impairing our connection with the British Empire."

TORONTO CITY COUNCIL

The following paragraph from the Toronto World gives an illustration of the working of the city council system:—"An excellent example of how business is done under the present council system with its wide-pulling committees is to be found in the handling of the Sunnyside railway crossing construction. After months of consideration the works committee is still considering. We are all aware of the danger of haste and precipitation, but this is certainly not an instance when the committee will fall into error for want of deliberation. There is hope, it is said, of arriving at a decision before February 6. Business men on a civic government commission with business reputations to lose, would have had this problem settled in the most satisfactory way long ago. The council will settle it, since it has no business reputation to lose, in the least satisfactory way, probably at the greatest expense, and after the longest delay."

BIBLE EXHIBITION IN BRITISH MUSEUM

It Will Illustrate Progress of Bible From the Earliest Days. London, Feb. 3.—Further particulars of the Bible exhibition to be held at the British Museum in connection with the tercentenary of the authorized version have now been published. The printed books section of the exhibition will be a copy of Tyndale's New Testament, which was produced in 1526. After this will be shown all other printed editions down to the first edition of the authorized version, and some especially interesting editions since then.

THE DOCTOR'S QUESTION

Much Sickness Due to Bowel Disorders. A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 68 per cent. of illness is attended with inactive bowels and that 70 per cent. of this condition must be removed generally and thoroughly before health can be restored. He knows that a regular and healthy bowels is the basis of all health and that a bowels that is not regular and healthy is the cause of all disease. He knows that a bowels that is not regular and healthy is the cause of all disease. He knows that a bowels that is not regular and healthy is the cause of all disease.

JUST ONE DOSE OF

DIAPEPSIN MAKES DYSPEPSIA VANISH

Misery from Indigestion, Heartburn, Gas and Headache Goes Before You Realize it. If you had some Diapepsin handy and would take a little now your stomach distress or indigestion would vanish in five minutes and you would feel fine. This harmless preparation immediately soothes and soothes you, and overcomes a sour, out-of-order stomach before you realize it. If your meal doesn't tempt you, or what little you do eat, is left in your stomach like a lump of lead, or you are sick, or you have heartburn, that is a sign of indigestion.

Ask your doctor for a recent cure. Diapepsin is a little just as soon as you can. There will be no souring, no burning, no gas, no heartburn, no fullness, no bloating in the stomach, no nausea, no vomiting, no headache. This will all go, and, besides, there will be no undigested food left over in the stomach to poison your breath with noxious odors. Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery is at any drug store waiting for you. These large 25-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disturbance.

WE HAD THE TIME. If I had the time to find a place And sit me down full face to face With my better self, that stands no show In my daily life that rushes so It might be then I would see my soul Was stumbling still towards the shining goal. I might be served by the thought sublime, If I had the time!

IN LIGHTER VEIN. If I had the time to let my heart Speak out and take in my life a part To look about and stretch a hand To a comrade quartered on no-back land. Ah, God! If I might but just sit still, And hear the note of the whippoorwill, I think that my wish with God would rhyme, If I had the time!

GOING TO LOOK AT IT. "Going to the auto show?" "Sure thing. I want to look at the thing for which I'm going to mortgage my house when I get it paid for."

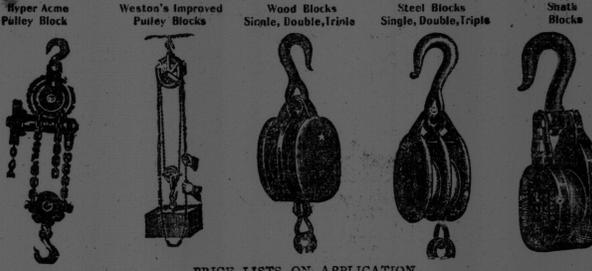

NOT AT ALL. "Did that young man just say you last night?" "asked the stern parent. "Well, now, do you suppose he came all that way to hear me roar?" retorted the foxy daughter.

A STRONG INDUCEMENT. "What induced him to adopt literature as a profession?" "He read somewhere that it was possible to start on a capital of 29 cents." —Birmingham Age-Herald.

RECOVERY EXPECTED. "Elder," said the doctor, how did you make out with that crazy patient of yours?" "Doctor—" "Ob, we're both on the road to recovery. He's able to be about, and I am suing for my bill." —Boston Transcript.

NEW BRUNSWICK'S GREATEST SHOE HOUSE

A Word of Explanation

With weather that has been anything but pleasant for shopping we have a most phenomenal business this week. At times our Stores have been crowded and an amazing quantity of goods were sold.

Time was when a merchant at the end of the business year on finding that he had an accumulation of odd lots, broken sizes, and unsold lines would quietly keep them and hope that during the new year they would gradually weed out at the regular prices.

The Up-to-Date Merchant acts on the principle that their room is worth more than their company, hence the reason for

The Evening Chit-Chat

By RUTH GAMERON

A WOMAN to whom I wrote the other day informed me very tartly in her response that I should have addressed her as Mrs. instead of Miss.

And another young woman objected even more vigorously because I sent her a letter addressed to Mr. E. R. Crane.

Perhaps you think they both had some pretty good grounds for complaint. Wait a bit until the case for the plaintiff is heard.

The first letter was signed Margaret L. Brown. The second bore the even less illuminating signature of E. R. Crane.

In the first case I had absolutely no clue to the married or unmarried state of the writer.

In the second case my only clue to the sex was the handwriting which I wrongly as—diagnosed as masculine.

It is really astonishing, I am told by business men, how many women indulge in these particular brands of epistolary cardsharpness.

It may be that all the offenders are people who "know their own minds" but in case there are others who err through ignorance, let me plainly set forth the very simple rules which should be followed by women writing to other than personal acquaintances.

If the woman is single, she should sign her name with the prefix "Miss" in parenthesis before it, as: (Miss) Lucy A. Doe.

If she is married, she should sign her own name with her husband's in parenthesis behind it, as: (Mrs.) Philip Doe.

To signify the married state by signing Mrs. Lucy A. Doe or Mrs. Philip Doe is incorrect.

In endorsing and signing checks, and conducting business of any sort, a married woman should use her own name—that is, whatever part of her maiden name she has elected to keep, linked to her husband's surname.

Cleveland's Experience With Somers' System—Home Owners Save \$2,500,000 in Taxes; Unit System of Valuation

(By Frederic C. Howe, Member of the Board of Assessors of Real Property for the City of Cleveland.)

The total taxes collected in this county as assessors to Mr. Somers. The first try (United States)—national, state and municipal—amount to \$18,000,000.

Of this sum from seven to eight hundred million are raised by local authorities from real estate. The proper appraisal of real property for local taxes, affects, therefore, from 30 to 40 per cent. of our entire revenues.

The problem of securing equality as between individuals, and the full valuation of property as between the property owner and the state has been looked upon as more or less insoluble.

Up to 1910, in Ohio, assessments were made every ten years. The majority of states assess every two years or every county records, by the sales of property and from the testimony of real estate men.

Under the Somers' system all the valuations are made on the basis of a unit system. The unit is a square foot of land, and the value is determined by the cost of the land and the value of the improvements thereon.

Not One Woman In Twenty Has a Stong Back.

The kidneys are to blame nine times out of ten.

Mrs. A. H. Hutton, Jr., McCroskey, Man., writes: "Two years ago last spring I had a very bad case of kidney trouble. My back ached, and I would have to get up three or four times during the night to urinate."

Don's Kidney Pills are 50 cents per box or \$1.25, at all dealers or mailed direct on receipt of the money to T. Milburn Co., Limited, Toronto, Ont.

When the blood is properly filtered the poisons that ought to be carried off by the kidneys are sent back through the system, and it is hardly to be wondered that backaches and lame backs come to make life miserable.

Don's Kidney Pills are a specific for all kidney troubles. They begin by expelling all the poisonous matter from the kidneys, and then heal the delicate membranes and make their action regular and natural.

**CITY GOVERNMENT**

Editor Times:  
Sir—A determined attempt is being made to change the form of civic government in this city. As there is a glorious absence of detail at present, the only thing that can be considered, is the bare outlines. Will a change in the form be beneficial?

There is not the slightest doubt that a Republic form of government, is in theory, much more democratic than the monarchial. Yet if we take two nations one monarchial (Russia) the other republican (Mexico), do we find the Mexican government better than the Russian.

The mass of the people of both countries are steeped in ignorance and we naturally find that both peoples are compelled to suffer in the most atrocious manner, by their respective governments.

Thus we see, that no matter what form of government, so long as the people are ignorant they will suffer from bad government.

The same rule applies to indifference. The people of the United States are governed by a better system (republican) than are the people of England (monarchial) yet the people of England have much better government. The reason being simply that the mass of the people in the states are indifferent, whilst the majority of the people in England take some interest in politics. The lawlessness of the trusts in the States would not be tolerated a week in England.

It thus means that good government is not a matter of form, but rather one of intelligence and interest. A widespread intelligent people will mould any form of government into that most suited to its own interests. English cities are governed almost by the same system that we have at present in St. John, yet English cities are the best governed in the world, whilst St. John—

If the people of St. John are just as intelligent as the people of Britain, which I think they are, the fault, must lay in indifference. It is therefore certain that no matter whether we have government by commission or government as at present, makes no difference. The only way in which we in St. John can get better civic government is by awakening the people, and getting them to take an interest in the welfare of their own city, and if this commission agitation will only do good, it will do a million times more good, than could the mere establishment of the commission form of civic government.

Yours sincerely,  
J. W. EASTWOOD,  
The universal testimony from cities where the commission plan has been adopted is that one of its most beneficial effects is the awakening of intelligent public interest in civic affairs.

**COBAN COMES IN ENGAGED IN A CRYSTAL COATING**

**Coal Steamer Ice-Covered in Voyage From Louisburg—Was Two Days Overdue**

More heavily laden than any of the storm stayed liners that have yet arrived was the Dominion Coal company's steamer Coban, Captain McPhail, which arrived in port this morning two days over due from Louisburg.

Even as the steamer docked, a crew of men were engaged cutting off solid masses of ice that froze lines and gear so that it was a heavy task to remove it. Low in the water with her coal cargo, the huge seas that made havoc of the Nova Scotia during the storm, began to beat her and again swept over her. Her decks were covered to a great thickness and her hull glistened like steel in the sun as she came up to the coal pockets at North Wharf. There was hardly an inch showing through the frozen casings.

The Coban left Louisburg on Monday just as the storm was coming up and she was not long out before she began to feel the fury of it. As the storm increased in force the steamer plunged heavily in the swell. Monster waves swept over her, sweeping her decks from bow to stern. So rapidly did the ice up that it was necessary to slow down and cut the ice off. This had to be done again and again. In spite of these efforts, however, ice made so fast and it was found impossible to keep her clear. She looked very pretty as she came up the harbor.

**ALD. HOLDER ILL**

**Is Taken to Hospital—Timber Investigation Meeting is Postponed**

Owing to the illness of Alderman Holder, who was taken to the hospital last evening, suffering from an internal trouble, the special committee appointed to investigate the charges made by the alderman at the board of works last Tuesday concerning the use of piles of pine timber in the McLeod warehouse, instead of a cheaper grade, will probably not have a report ready for council on Monday. A meeting had been called for this morning at 11 o'clock and the engineer and Foreman Macaulay were present, but it was decided that it would be better to wait until Ald. Holder was able to attend, as he had made the charges and should have an opportunity of questioning those interested. The members of the committee, in discussing the matter informally, said that the newspapers had given the impression that charges were made against Ald. Libby, which was not so. The charges made were that the engineer or foreman was to blame for pitch pine having been sold for instead of spruce or hemlock. The fact that J. A. Lively & Sons had supplied the timber did not, in their mind, enter into the question at all.

**ST. PATRICK'S DAY**

**Catholic Societies' Committees to Meet Tonight to Discuss Parade**

An important meeting of representatives of the Catholic societies of the city is to take place this evening in the rooms of the O. H. Union street, when the matter of making arrangements for the church parade to be held on St. Patrick's Day will be taken up. From present indications it would seem as though the parade this year would be much longer than last year, as the members of the societies are determined to have their respective bodies make a good showing. The names of those who will attend as delegates to confer with the A. O. H., are as follows: G. M. B. A., Ernest Clark, and C. P. O'Neill; St. Peter's, A. P. Delaney and J. V. Shea; St. Joseph's, E. J. Moran, and W. J. Magee; F. M. A., H. McHugh and J. B. Devere; I. L. B., John O'Regan, R. J. Cronin and James Lee. The committee from the A. O. H. will be as follows: J. G. McDermott, Fred L. Barrett, J. J. Donovan, Thomas Pope and W. H. Coates.

**SNOW CASES IN COURT**

Only Few Appear to Answer Complaint Made by the Police

Although reports had been made against almost fifty citizens or companies by the police, respecting the clearing of snow from in front of their premises, only a few appeared in court this morning to answer the complaints. Many of the reports were made early in the week, and in the meantime some of the people reported had the snow shovelled from the sidewalks, and either said so this morning in court, or telephoned that such had been done.

John Walker, of King street east, said that the front of his premises had been cleared, but he had not cleared the walk in Wentworth street, because for twenty years the city had done it.

The St. John Fencing Company, through Mr. Horne, reported that they had nothing to do with clearing snow from in front of buildings other than in Prince William street. Others who either admitted or denied the matter were Wm. Wobler, St. James street, St. John Ice Co., through Mr. Thomas, secretary; Geo. Kinkaid, Mecklenburg street, and Mary Martin, St. Patrick street.

Complaint was made that the snow plough of the St. John Railway Company does clear the snow back on to the sidewalk, and this after considerable time had been spent by householders in clearing the snow away. His Honor said that he thought the company should see to it that this was not done. Citizens are required only to clean the sidewalks and not the gutters. Those present were told to call the police concerning the matter.
