# Marks' Patent Artificial Arms and Legs.

To A. A. MARKS, New York.

DEAR SIR: I was a professional tight-rope walker and aeronaut before I lost my leg, and I do not allow the loss of a leg to compel me to seek another occupation. With your patent artificial leg I can walk 1 tight rope nearly as well as I ever could. I feel safe and sure on my rubber foot, no matter where I place it. I consider your invention of the rubber foot the most valuable and important to persons who have lost their natural limbs. Respectfully,

PROF. F. E. JACOBY,
Waterbury, Conn.

NOTE.—The above cut was made from a photograph of Professor Jacoby while performing on a tight rope. He is balancing entirely on his artificial leg, his natural foot is off the rope and is in the act of passing forward to take the next step.

**WITH IMPROVED RUBBER HANDS AND FEET.**

**Natural in Action, Noiseless in Motion, and the Most Durable in Construction.**

Over 17,000 in use, scattered in all parts of the world. Eminent surgeons and competent judges commend the Rubber Foot and Hand for their many advantages.

**Received the Highest Award at the World's Columbian Exposition.**

Endorsed and purchased by the U. S. Government and many foreign governments.

A treatise, containing 430 pages, with 300 illustrations, sent FREE; also a formula for taking measurements, by which limbs can be made and sent to all parts of the world with fit guaranteed. Address

# PREFACE.

IN PRESENTING this edition of the New Brunswick Directory, we feel confident that we have given to the public a Directory as complete as one can be made. We have spared no time nor expense to meet the approval of our patrons. The matter contained in this work has been arranged in such a systematic form as to render it very easy for those who peruse it. For any shortcoming, the publishers must appeal to their readers. They have experienced great difficulty in getting the names spelled properly, especially is that the case in some counties. Errors of course will be found (as they are in all works of this kind) but the strict and very careful manner in which this work has been compiled has made the errors that have been committed unavoidable.

The publishers here acknowledge their indebtedness to all who have forwarded this work.

The publishers also express their thanks to one and all of the advertisers and subscribers who responded to make this Directory a success, so much so that we find when this very large edition is supplied to the advertisers and subscribers very few will be left.

## Descriptive Sketch.

NEW BRUNSWICK, a Province of the Dominion of Canada, bounded on the north-west by the Province of Quebec, from which it is separated by the River Restigouche; north by Baie Chaleurs; east by the Gulf of St. Lawrence and Northumberland Strait, the latter separating it from Prince Edward Island; south by the Bay of Fundy and part of Nova Scotia, and on the west the State of Maine, from which it is separated by the St. Croix and St. John Rivers; extending from lat. 45° 5 to 48° 45 N., lon. 63° 50° to 68 W.; greatest length from north to south 230 miles, breadth 190 miles, area 27,322 square miles, equal to 17,393,410 acres. Its coast line is about 500 miles in length, interrupted only at the point of junction with Nova Scotia, where an isthmus of not more than eleven miles in breadth connects the two territories and separates the waters of Northumberland Strait from those of the Bay of Fundy, and which is united by means of a canal called the Baie Verte Canal.

New Brunswick was first settled by the French in 1639. It continued to form part, with Nova Scotia, of Acadia, or New France, till it fell into the hands of the British, after the conquest of Quebec. The first British settlers in the province emigrated from Scotland to Miramichi in 1764, and in 1784 New Brunswick was separated from Nova Scotia and erected into a separate province. In 1825 the standing timber in the district around Miamichi Bay took fire and enveloped an area of 6,000 square miles in flames, consuming two thriving towns, many large vessels lying in Miramichi River, and destroying 500 human lives.

In 1867 this province united with Ontario, Quebec and Nova Scotia in forming the Canadian Confederation, and is the fourth largest province, as regards population, in the Dominion. Population in 1871, 285,594; population in 1891, 321,294

In preparing a descriptive sketch of New Brunswick the publishers of the Directory could hardly tell how to place it before the public, there being so many sketches now in circulation. They, therefore, consider it best to describe each county separately in a condensed form, commencing in alphabetical order.

Albert County is bounded westerly by Kings and St. John counties, northerly and easterly by Westmorland County and the Petitcodiac River, and southerly by the Bay of Fundy, Hopewell Cape being the shire town. The county is well watered, having about eighty miles of ship navigation. The soil is generally fertile, having large quantities of alluvial manures and good facilities for bringing them in use. There are about 5,000 acres of marsh land; the

minerals are coal, gypsum, limestone, grindstone, copper ore and manganese. There is a large export of lumber and building stone. Large quantities of hay are produced from the marsh and intervale lands. A railway runs through a portion of the county. It contains 670 square miles, 433,560 acres, pop. in 1891, 10,971.

Carleton County is bounded southerly by York County, northerly by Victoria County and westerly by the State of Maine. It lies on the River St. John, Woodstock being the shire town, and is well watered by numerous streams running into the St. John, where several mills and factories are at work. This county is intersected for its entire length by the C. P. Railway and its branches to St. Stephen, St. Andrews, St. John and Fredericton. Large deposits of iron ore abound, several railroads traverse different parts of the county. The roads are very good for travelling. It is an agricultural county, the soil being very fertile. Large quantities of lumber are annually shipped, several mines of minerals are being worked successfully. It contains 788,200 acres, pop. in 1891, 22,523.

Charlotte County, on the south-westerly part of the province, is bounded southerly by the Bay of Fundy, westerly by the State of Maine, northerly by York and Sunbury counties, and easterly by Queens, Kings and St. John counties, St. Andrews being the shire town. This county was among the first inhabited after the discovery of the province. It is not very fertile as an agricultural district, but its waters abound in fish, and large quanties are shipped annually. The principal fishing stations are the Islands of Grand Manan, Deer and Campobello, and parts of St. George and Pennfield. The red granite quarries at St. George give employment to a large number of men. Lumber is also shipped in large quantities. It lies on the borders of the United States, but the inhabltants of each country agree together very peacefully. There are several railways running through it. It contains 1,323 square miles, 822,500 acres, pop. in 1891, 23,751.

Gloucester County is bounded easterly and southerly by Northumberland County, westerly by Restigouche County and northerly by the Bay Chaleurs, Bathurst being the shire town. It is largely inhabited by French. There are extensive mills, which produce large quanties of lumber. Several rivers run through this county, and it is well watered. There are large quantities of fish shipped and it is noted for its salmon fisheries The minerals are copper ore, manganese. Parts of the county are well adapted for agriculture, but the county principally lies on a bed of sandstone. The roads are very good. The Intercolonial Railway runs through it. It contains 1,199,000 acres; pop. in 1891, 24,901.

Kent County is bounded by the Gulf of St. Lawrence, the Bay Chaleurs and Northumberland County, Richibucto being the shire town. The soil is generally light, but suits very well for agriculture. It is well watered by several fine streams. The population is about equally divided between the French and the English. It formerly abounded with large quantities of timber, and still a great quantity of lumber is being shipped yearly. There are large quantities of marine deposits, which have proven to be of great service to the agricultural development of parts of the county. The Intercolonial Railway traverses it. Large quantities of fish are also shipped. It contains 1,149,000 acres; pop. in 1891, 23,858.

Kings County is bounded northeasterly by Westmorland County, southwesterly by Charlotte County, Hampton being its shire town. The Kennebecasis and St. John rivers run through the western portion of it. Geographically

it is favorably situated, and is without doubt the best county for agricultural purposes in the province. The mineral resources are iron, lead, gypsum, limestone and manganese, the latter being found in Sussex. There are several factories at different localities, also several mills, and large quantities of lumber are shipped. The salt springs in Sussex produce a fine quality of salt. The I. C. Railway runs through this county. It contains 877,200 acres; pop. in 1891, 23,094.

Madawaska County contains 810,500 acres, of which about 750,000 acres are granted. The acreage returned as under crop in 1881 was 33,010 acres. This has been largely increased since, but the proportion of the cultivated to the granted land is small, for the reason the C. P. Railway Company holds a large portion of the area of the county. Of the ungranted portion of Madawaska very little is unfit for cultivation, the greater part of the soil being of the same class as that of Carleton and Victoria. The River St John forms the southwestern boundary of Madawaska, the river front of the county being about 75 miles. This is settled continuously and very thickly, the settlements extending back from the river in some places for a distance of twelve miles. The opposite shore of the St. John is in the State of Maine, and it is also thickly settled. The great majority of the people are descendants of the Acadian French, who found their way here after the "expulsion of the Canadians" from the region around the Bay of Fundy, or of settlers from the Province of Quebec. French is the language in universal use, but very many of the people speak English fluently and most of them sufficiently well to enable them to understand strangers and to make themselves understood. They devote their attention almost exclusively to agriculture, but lumbering is extensively prosecuted in the county and many of the French people find employment in the lumber woods.

Edmundston is the shire town of the county. The C. P. Railway runs through this county.

Northumberland County is bounned northerly by Restigouche and Gloucester Counties, easterly by the Gulf of St. Lawrence, southerly by Kent, Queens and Sunbury Counties, westerly by Carleton County, Newcastle being its shire town. The Miramichi River, only second in importance in the province, runs through it and empties in the Miramichi Harbor. This is a very fine river. The county is well watered. Large quantities of lumber are shipped yearly, produced from several mills, but in 1825 the great fire terminated in destroying the largest portion of the timber. The Miramichi River is noted for its fisheries in salmon. There are large quantities shipped to the United States. There are numerous other streams, which abound with trout. The I. C. Railway crosses this county. It contains 2,756,000 acres, population in 1891, 25,715.

Queens County is bounded northerly by Sunbury County, easterly by Kent and Westmorland Counties, southerly by Kings County and westerly by Charlotte County, Gagetown being the shire town. The St. John River divides one part of it, and the Washademoak and Grand Lake the other part. It was settled among the first—if not the first—in the Province. There is a large quantity of timber sawed and lumber shipped. The St. John River is the largest and finest in the Province. It abounds with fish, navigable for a hundred miles, and at a still greater distance for small craft. The C. P. R. traverses part of it. Coal is found. It contains 924,000 acres; population in 1891, 12,152.

Restigouche County is bounded southeasterly by Gloucester County, south-

1891, 30,979

westerly by wilderness, northerly by Bay Chaleurs and Restigouche County. It is the boundary between Quebec Province and New Brunswick. Dalhousie is the shire town. It is well watered by several streams, the largest being the Restigouche River. It is a fine agricultural district, the upland being superior to any in the Province. There are large quantities of lumber shipped. Fish is abundant, more especially salmon; trout is found plentifully on the rivers and streams. The I. C. Railway runs through it. The public roads are in good condition. It contains 2,072,710 acres; population in 1891, 8,311.

Sunbury County is bounded southeasterly by Queens County, northwesterly by York County, Oromocto being the shire town. The St. John River has its course through this county. The commission for holding a Court of om-mon Pleas is dated in 1770, but after the arrival of the Loyalists in 1783 the court was removed to St. John, and finally to Fredericton. It is a fine agri-cultural county. Several streams empty into the St. John River, which runs through it. Large quantities of timber and lumber are shipped from the county. The C. P. Railway runs through this county. It contains 656,000 acres; population in 1891, 5,763.

St. John County is bounded northerly by Kings County, westerly by Char-lotte County, southerly by the Bay of Fundy, and easterly by Albert County. It is not adapted to agriculture. There is an abundance of limestone. There are several mills and factories of different kinds, but its proximity to the City of St. John causes the largest proportion of these industries to be located within the City of St. John. It contains 386,400 acres; population in 1891, 25,390. Population of City of St. John about 45,000.

Victoria County is bounded southerly by Carleton County, westerly by the State of Maine, northerly by the County of Madawaska. The St. John River forms the northern boundary established by the Ashburton treaty, Andover being the shire town. The County abounds in timber, and a large lumber trade is carried on. The C. P. R. and Tobique Valley Railway runs through it. It is well watered, the principal rivers being the Tobique and Salmon River. The land is fertile and excellent for agricultural purposes. It con-tains 1,243,000 acres; population in 1891, 18,218.

Westmorland County is bounded westerly by Kings and Queens Counties, northerly by Kent County, and easterly by the Straits of Northumberland, Dorchester being the shire town. It is well watered and contains the largest marsh in the Maritime Provinces, called the Tantamar Marsh, which supplies an immense quantity of hay. It is a fine agricultural county and contains some deposits of minerals. It is partly inhabited by French. Westmorland parish is one of the oldest in the province. There are some valuable stone quarries also in this county. The I. C. R. traverses this county. The Petitcodiac is the largest river. It contains 887,300 acres; population in 1891, 41,484.

York County is bounded southeasterly by Sunbury County, southwesterly by Charlotte County, northeasterly by Northumberland County, Fredericton being the shire town. The St John River passes through it. A large pro-portion of it is very hilly, still there are good districts well adapted for agricul-tural purposes. The Northern and Western and C. P. Railways run through this county. The shire town is a beautiful city and the seat of government for the Province There are several streams that empty into the St. John in this county. It contains 3,472 square miles, 2,278,000 acres; population in 1891, 30,979.

# THE IMPERIAL STOP COCK.

**CANADIAN PAT. No. 43,506--JULY, 1893.**
**UNITED STATES PAT. No. 509,628--NOV., 1893.**

THE IMPERIAL STOP COCK combines many valuable features heretofore much needed, but never introduced. Among which are the following:

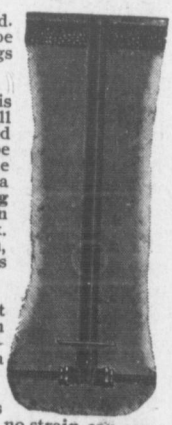

1st. A lock top, which effectually prevents tampering with the water supply, insuring corporations from being defrauded.

2nd. The operation of turning on or off being accomplished by the interchanging of a small brass plug, a perfect check can be kept on the man who is employed to do the work, by the number of plugs he brings back to the office being noted.

Sectional View
Showing Water Shut Off.

3rd. There are no heavy tools to be carried. The only one required being small enough to be easily carried in the coat pocket, along with the plugs for stopping or letting on the water.

4th. The only part that can get out of order is the leather bucket, or washer, which, from the small amount of work it has to do, should remain in good condition a long time. When, however, it has to be renewed, this can be done without digging up the stop cock; and herein the Imperial Stop Cock supplies a long felt want. **It can be repaired without being dug up.** Digging up or removing costs from $3 in a wooden sidewalk, to $13 in a permanent sidewalk. The Imperial Stop Cock saves all this expense, which, in large cities amounts to thousands of dollars annually.

5th. The Imperial Stop Cock can be taken apart and the internal parts removed to renew washer in a few moments time, by the aid of a specially constructed box-wrench, supplied to corporations at a nominal cost.

6th. From the way the Imperial Stop Cock is opened or closed, *i. e.*, from its piston motion, no strain can come on the lead pipe joints, thus avoiding the leakage, so common with all other styles of stop cocks, caused by "**TURNING**" on and off.

7th. The durability of this stop cock is guaranteed. No part can rust or corrode, the whole being made of brass and rustless iron.

# St. John Business College,

**ODDFELLOWS HALL, ST. JOHN, N. B.**

Established 1867.

THE well known successes of graduates of this College are attributable to the following facts:—

They are given the most thorough and practical courses of training obtainable in Canada.

They are trained to think for themselves, and to be strong and self-reliant.

The Teachers are Specialists, and know how to teach.

Business Forms, Methods and Laws are taught by actual BUSINESS TRANSACTIONS.

The College Diploma is accepted as a first-class recommendation.

The system of Shorthand taught is the Isaac Pitman, the best and fastest in existence.

The chief object kept in view is:—

***Practical Training for Business Life.***

***CATALOGUES*** mailed to any address.

# Mount Allison Wesleyan Academy,

## J. M. PALMER, M, A. Principal.

No Institution of Learning in the country has had a more successful history and none is more worthy of patronage for the future. Many of the most prominent men now in professional, commercial and political life in Canada, and in other lands, had their training at Mount Allison Academy. The arrangements for the future are such as will guarantee a continuation and extension of the efficiency of the Institution. A thorough English and Commercial Education is imparted, and students are prepared for College Matriculation and for Civil Service examinations. Instructions can be obtained in Shorthand and Typewriting, also in Music. both vocal and instrumental. If desireable. Students can take, in addition to their work in the Academy, one or more classes and lectures in College. Every care is given to the private interests of the boys, so as to insure their comfort and happiness.

The building is commodious, well heated throughout by the hot water system, and comfortably furnished.

**EXPENSES VERY MODERATE.**

**For Particulars Apply to the Head Master or to the President of the University.**

# St. John Business College,

**ODDFELLOWS HALL, ST. JOHN, N. B.**

Established 1867.

THE well known successes of graduates of this College are attributable to the following facte:

They are given the most thorough and practical courses of training obtainable in Canada.

They are trained to think for themselves, and to be strong and self-reliant.

The Teachers are Specialists, and know how to teach.

Business Forms, Methods and Laws are taught by ACTUAL BUSINESS TRANSACTIONS.

The College Diploma is accepted as a first-class recommendattion.

The system of Short-hand taught is the Isaac Pitman, the best and fastest in existence.

The chief object kept in view is:

***Practical Training for Business Life.***

***CATALOGUES*** mailed to any address.

# BOSTON DENTAL PARLORS.

## DR. J. D. MAHER, MANAGER, DENTIST.

### CITY BUILDING, 527 MAIN ST., NORTH END.

PARTIES requiring artifical Teeth, whether partial or full sets, can obtain them at our establishment, with assurance of perfect satisfaction. Years of experience with a phenomally increasing practice, enables us to carry out perfectly any ideas suggested to us by patients, and in all cases giving to the features their natural expression, restoring the means of mastication and correct pronounciation.

**THE TEETH** furnished are selected with judgment, so as to provide teeth suitable to the complexion and features of wearer, both in shape and colour. They can, at option, be set irregularly or filled with gold, making them perfect imitations of natural teeth.

Skilled graduates only are to be found at this office, no students at any branch of the business.

Sets, upper or lower, from $10.00. Teeth made on Gold, Platina, Celluloid, etc., etc., at the lowest possible prices compatible with good materials. No poisonous coloring matter enters our work.

**TEETH** without Plates, Bridge and Crown work, etc., in solid gold, embracing all patented and modern improvements for obtaining the best results. For professional people and public speakers they are far superior to Plates, when the teeth or remaining roots are in such condition as to permit them being affixed in a perfect manner. No charge for examination or advice.

**ALL** the latest devices in Mechanical and Operative Dentistry applied at prices proportionate. Teeth extracted painlessly with pure Compressed Nitrous Oxide Gas, Chloroform or Ether, or any anesthetic.

## PAINLESS DENTISTRY A SPECIALTY.

Painless filling or extracting without extra charge by the **FAMOUS HALE METHOD,** for which we are the Sole Agents in Canada. Everybody knows of the wonderful success we are meeting with with this wonderful method. Only 25 cents to have a tooth extracted without pain by this method. We have hundreds of testimonials, including the leading clergymen, aldermen, physicians and merchants of St, John. Enquire of any St. John newspaper.

Artificial teeth of every description repaired, alterations made or sets re-made. Incorrect fitting teeth made over. Best advice in reference to irregularities and care of children's teeth.

**Two Offices in St. John and One in New York.**

**Observe the Address of our Head Office:**

## The Question of Price.

We don't want anyone to think of this store as a 'cheap' place. It is nothing of the kind. There isn't anything so thoroughly cheap as cheap jewelry. We can't afford to sell it. But there is such a thing as selling reliable jewelry at moderate prices. You'll find that method in operation here.

**Your Eyes** are worth taking care of, aren't they? Probably you are more careless with them than about anything else—injure them every day. Consult our optician, Mr. J. ALLAN SHARPE, B. A., Honor Graduate of Ontario Optical Institute, and of Optical Institute of Canada. Examinations free.

# Why

does every advertising agent counsel the advertiser to use

THE

# Daily and Weekly Telegraph?

# Because:

1 Future orders depend upon the returns derived from present orders.

2 No other advertising field in Canada may be so completely covered or so entirely missed in the using or missing of a daily and weekly newspaper.

## The Farmer's and Dairymen's Association
**OF NEW BRUNSWICK,**

## The Nova Scotia Farmers' Association.

PUBLISHED TWICE EACH MONTH AT

## SUSSEX, N. B.

**The Hon. D. Ferguson, of P. E. Island, one of the largest and best farmers in Eastern Canada says of it:**

"I am much pleased with the Co-operative Farmer and hope that it may obtain a very wide circulation among the farmers of the Maritime Provinces. I am glad to find that it has already secured a good foot-hold, an evidence of which I have in the result of my advertisment in its columns.

I am sincerely yours,

D. FERGUSON."

This Journal is the great medium of exchange between the Stock-breeders of the three provinces and from the nature of its constituency is one of the best mediums for general advertisers.

# HOTEL ✱ BRUNSWICK.

MONCTON, N. B.

*GEORGE McSWEENEY,* - - - *Proprietor.*

The above FIRST-CLASS HOTEL, situated a few minutes walk from the I. C. R. Depot, has been thoroughly renovated and furnished with all the modern conveniences, electric light and electric bells, hot and cold baths, everything in the way of comfort, spacious parlor, ladies' room, office, etc., and the table ranks second to none in the Lower Provinces.

Tourists are especially invited to stop over and see one of nature's most interesting sights, the passing of the BORE, or tidal wave, washing up the Petitcodiac. Moncton is a Railway centre, full of activity. Numerous enterprises in full working order are chief attractions to the traveller. It is the heart of the Intercolonial. From Moncton, the Tourist can go to any point of the celebrated bathing and fishing places, such as Shediac, Charlo, Dalhousie, and to the famed Prince Edward Island. A rest at Moncton would be quite a treat. The Hotel has accommodation for 150 guests, with or without adjoining rooms, or rooms *en Suite*.

This Hotel is famed throughout the Dominion and the United States, and every attention is given to the pleasure seeker. A first-class Livery is attached to the establishment, and the surroundings are well worth inspection.

IT IS A FACT

. . . THAT THE . . .

ST. JOHN GLOBE (Daily)

Is the Home newspaper of New Brunswick. No brighter, newsier, abler edited or more cleanly conducted newspaper in the country. Its circulation is the largest of any newspaper in the Province.

**Subscription: $5 a Year in Advance.**

THE WEEKLY GLOBE

Is the best Weekly newspaper published in the Maritime Provinces. It is issued in two parts on two different days—practically a semi-weekly paper. By this arrangement the very latest news is furnished to its readers twice each week, and several days in advance of any other weekly paper.

**Subscription $1 a Year in Advance.**

If it will pay you to advertise in New Brunswick, it will pay you best to advertise in the ST. JOHN GLOBE.
