LIBERALS TRY TO SAVE MR. CARON'S POSITION

RAILWAY ESTIMATES DISCUSSED IN HOUSE

Minister of Railways Explains that Dissolution of I. C. R. Board of Management Left Mr. Caron Without Office.

Special to The Standard. Ottawa, May 26.—With the abolition of the board of management of the Intercolonial Railway, J. T. B. Caron, the legal member of the board was deprived of his position. Mr. Caron sat for two sessions in the Commons.

Intercolonial railway estimates were under consideration in the house this afternoon and several of the Liberal members took advantage of the occasion to urge the retention of their former colleague in the service of the Intercolonial in a legal capacity.

The principal arguments they used were Mr. Caron's experience on the I. C. R., his record for fairness, and his claim to consideration as a former member of the house. It was intimated that a certain amount of support exists among members of the Commons whereby an M.P., once appointed to office, is seldom disturbed in his position by the opposition party. In fact this feeling, it was claimed, has prevailed to the extent that a needy ex-M.P. has been provided for by a government to which he was opposed while in parliament.

Rodolphe Lemeux opened the subject by observing that there had been no charge against Mr. Caron. Mr. Caron had not been dismissed; but the commission of which he was a member had been dissolved.

"Then," continued Mr. Lemeux, "I appeal to the minister's sense of fairness." He went on to say that Mr. Caron had been a member of the house for a couple of sessions and had given up his practice as a lawyer in Ottawa to take a position on the I. C. R. board. Now, after three years service, he had been dismissed. "The minister might as well have appointed Mr. Caron legal agent as to put in a new man, as the minister evidently intended to do."

Mr. Caron had lost his practice through being obliged to renounce his American citizenship. He had been a member of the house for many years in the service and had retired with a pension. "The minister is throwing on the street," added Mr. Lemeux, "it is the member for H'lelet (Dr. Paquet) who has chopped his head off, not the Minister of Railways."

"That is not true," interrupted Mr. Caron. Dr. Paquet also denied that he had had Mr. Caron dismissed. "He did not do it, but he wanted to have it done," suggested Mr. MacDonald.

"No, he didn't want to have it done," said Mr. Cochrane, emphatically. Dr. Paquet declared that he had had nothing to do with the matter. E. M. MacDonald said he did not believe that ever a member who had sat in the House had been dismissed without consideration. There had always been a certain free masonry which had stood ex-members of parliament in office in good stead. Then he went on to blame Dr. Paquet for Mr. Caron's loss of office.

Mr. Boulton, of Rimouski, being appealed to for his opinion of the management of the Intercolonial, said his criticism had been confined to the conduct of Mr. Brady, who lacked judgment, and who had not given fair play to French Canadians.

Mr. Macdonald complained that Mr. Boulton had spoken only in French, and it looked as if he did not have the pluck to say in the language which all members understood, what he thought of the I. C. R. management.

Mr. Boulton's reply was that he had made all the criticisms necessary of the former management of the road, and as for the new regime he was disposed to give it a fair trial. He spoke favorably of the deputy minister.

Mr. Turgeon asked in a word for the re-employment of Mr. Caron. As the speaker was leaving the chair at 6 o'clock, Sir Wilfrid Laurier rose, with a file in his hand and read an Ottawa despatch to a conservative paper, to the effect that he had threatened to resign the party leadership, if the Senate failed to reject the Naval Bill. Sir Wilfrid said that the statement was without foundation.

In connection with the vote for the Musquodobiit Railway, F. B. Carvell charged that the classification had been changed.

"No," declared Mr. Cochrane. "I know what he is talking about," insisted Mr. Carvell. There was, he

SUGAR AND COTTON OBJECTIVE POINTS.

President Declares Lobbyists are So Thick One "Couldn't Throw a Brick Without Hitting One."

Washington, D. C., May 26.—President Wilson stirred congress circles today with an emphatic statement denouncing the "industrious" and "insidious" lobby in Washington, attempting to create public sentiment against the tariff bill. This was accepted at the capitol as referring to the unusual efforts being made against free raw wool, and free sugar.

While the president was declaring his opinion, that the public should be relieved "from the intolerable burden" senators and representatives were viewing on every hand the evidences of the lobbyists to beat them, and significance was attached to the statement made by Senator Simons, Chairman of the Finance committee, which had now the tariff bill in hand that, in his opinion, the lobbyists were not to be trusted.

The president's declaration that the lobbyists were "so thick that one couldn't throw a brick without hitting one" revived interest in two bills recently introduced in the house and Senate to regulate lobbying in pending legislation.

Senator Kenion, of Iowa, and representative C. B. Smith, of New York, have declared that their intention to press for early consideration bills they have introduced which would restrict the work of lobbyists required their registration and that they be licensed to appear before any committee or to carry on a campaign for or against proposed legislation. Heavy penalties would be imposed for violation of the regulations. Democratic leaders were almost unanimous in support of the President's statement, maintaining that they are well able to handle the important pending legislation, and that sugar and wool will be thoroughly considered and discussed both in the finance committee and Democratic caucus before the bill is reported to the Senate.

FREES PELKY OF BLAME FOR MCCARTY'S DEATH

Calgary, Alb., May 26.—A coroner's jury tonight acquitted a prize fighter, whose blow killed Luther McCartney, in the prize ring here, Saturday.

NEW COMPANY GETS LETTERS PATENT.

Ottawa, May 26.—Letters patent have been granted to the McKee Fuel Company, Limited, with a capital of \$100,000 and head office in St. John. The incorporators are, J. T. McKee, of Union Point, Fairville; T. E. Powers, J. S. Tait, J. M. True, G. H. V. Belyea and W. A. Connor, of St. John.

The company is to acquire the Canadian rights to the McKee Fuel Saver patent.

Mr. Cochrane said there had been a change in the classification last May, and the contractors were losing money.

Mr. Cochrane said there had been a question of hard pan, but that it could be seen with the naked eye. If the contractors had not known of it, it was because they had gone into the contracts blindfold. As a matter of fact, the original contractors, Messrs. Davis, T. E. Powers, J. S. Tait, J. M. True, G. H. V. Belyea and W. A. Connor, of St. John.

The minister told E. M. MacDonald that he expected the Prince Edward Island car ferry would be in operation by August 1, 1914. It was not intended to widen the P.E.I. railway this year, nor to make any arrangements as to connection with the car ferry on this side of the Straits. That would be considered as part of the branch line policy of the government. It had not been considered whether the car ferry would be used as part of the Intercolonial or by the Department of Marine, as was the present winter service.

Mr. Cochrane also declined to commit himself to a prediction as to whether the car ferry would be a success in winter.

ENGLAND IS OPTIMISTIC OVER RESULT OF POLO MATCH

CAPTAIN J. ST. C. CHEAPE. MR. E. W. PALMER. CAPTAIN F. D. BARRETT.

CAPTAIN HARNESS LLOYD. MR. N. EDWARDS.

A large crowd of patriotic Britisners gathered in London on May 7 to bid goodby to the English polo team, which left for America that day in order to be in plenty of time to practise before the international match in June. Great hopes are held out by the English of wresting the trophy from the American team this year.

The English players are all from the army, and among those who will play are the following:—Captain R. G. Risson, position three, who is in charge of the team; Captain Leslie St. George Cheape, position one; Captain A. Noel Edwards, position two, and Captain Vivian Lockett, back. Captain F. W. Freece is among the number as a sub.

BLAST KILLS ANTIGONISH MAN AND TWO COMRADES

Premature Explosion During Construction Work Near Belleville, Ontario, Takes Toll of Life and Limb.

Belleville, Ont., May 26.—Three men were blown to pieces today and three injured, two possibly fatally, from a premature blast, about five miles east of this city.

The dead are: John H. McLean, foreman; A. Holland, V. Morelli. The injured: M. Andrew, Thomas McKinnon and Henry Wake.

Andrew is badly cut about the head and neck, while McKinnon is suffering from shock. The possibility of their recovery is slight.

A man named John Gray had been charging holes with powder in a cut and it is stated that he complained to the foreman, McLean, that the

charging was going on too rapidly. He refused to continue, saying that one hole was what is called "hot hole" meaning that friction of the drill had caused the rock to heat.

The foreman is said to have replied: "If you don't like your gait, then quit." He did, considering himself discharged, and climbed out of the excavation. He had just got out of range when a terrific explosion occurred.

McLean hailed from Antigonish, N. S. He was badly disfigured, but not mutilated, as were his companions, Holland and the Italian, who were literally blown to pieces.

Eighty thousand troops are massed near Sofia, and other troops are being hurried forward in Macedonia.

London, May 27.—A correspondent of the Chronicle is informed on high authority that Bulgaria will have the support of Great Britain, but at the present moment it is uncertain what course France and Russia will take. Russia objects to the breaking up of the Balkan league, but unless asked to do so by both Serbia and Bulgaria, will not likely act as mediator.

HURRIED CAUCUSES NO WBEING CALLED.

Ontario Liberal Senators Do Not See Eye to Eye With Quebec Men But Will Probably Come Around.

Special to The Standard. Ottawa, May 26.—The Senate Liberals today were holding distress signals. Word has been sent out for a caucus, to take place tomorrow morning. In order to have a full attendance at this gathering, the Liberals obtained a change in the hour for the meeting of the Senate. There will be no morning sitting. The Senate will not meet till three o'clock, when Sir George Ross will deliver his speech and announce the course which the majority will take in regard to the Naval Bill.

There was a meeting this morning of a Liberal committee, having in charge the drafting of an amendment to the Naval Bill. This committee is expected to report to the caucus tomorrow, in favor of a straight amendment, calling for a reference of the question to the people before the bill goes into effect. The Liberal senators voted against this proposal when it was submitted in regard to the Laurier Naval Bill.

There are more indications tonight of difficulties encountered by the Laurier lobby. The Ontario Liberal senators are still worrying. They have not yet got accustomed to obeying the nationalistic whip. The caucus tomorrow, will see a final and determined effort made to get these men safely into line. The effort will likely succeed.

WILL APPEAL MILLER CASE

Counsel for Government Prisoner Will Ask Supreme Court to Decide Question of that \$41,000 Accounting.

Montreal, May 26.—Definite steps were taken today to secure an appeal on behalf of R. C. Miller, the government prisoner in Carleton county jail, on the judgment of the court of appeal, ordering Miller to account to the directors of the Diamond Light and Heating Company for the \$41,000 which he is alleged to have spent to secure contracts from the late Liberal government.

Alfred E. Harvey, K. C., Miller's attorney, deposited the necessary money today to ensure an appeal to the Supreme Court.

The appeal from the judgment of the court of appeals last week will be on the ground that Miller had already accounted to his directors for the \$41,000, and that it is particularly difficult to account for it now, as the period for which Miller is called upon to give an account extends over four years.

FOUR NEW SENATORS APPOINTED

Ottawa, May 26.—The four Ontario vacancies in the Senate were filled today. The new men are: Col. James Mason, of Toronto, president of the Home Bank; E. D. Smith, of Winona, former member for Westwarp; J. J. Donnelly, the sitting member for South Bruce; Alex. McCall, of Simcoe, former member for Norfolk.

Aviator and Passenger Make Meteoric Descent To Ground in Safety

DRIVER'S COURAGE SAVED THEIR LIVES

Carburetor Took Fire While Aviators were Making Test Flight—Marvelous Escape for Occupants of Machine.

Salisbury, England, May 26.—Volanting from a height of twelve hundred feet, on a biplane, the British aviator Colwyn Pizey, and a passenger H. Fellows, reached the ground in safety this evening, and stepped from the machine just as an explosion of the gasoline tank completely wrecked it. The aviator was in easy flight over the outskirts of the town, when suddenly the carburetor took fire. Breaking the inlet valve, the aviator shut off the gasoline and started a steep volplane. The rush of air fanned the flames, and to those who witnessed the incident, it seemed as though the men in the machine had but a slender chance for their lives. Tongues of flames swept under the passenger seat, and Fellows drew himself up and clung to the stays while the aeroplane dove down in swift descent.

Pizey held the wheel in firm grip although the flames scorched his hands, and he succeeded in making a splendid landing.

Notwithstanding that he shut off the gasoline almost instantly the frame of the biplane took fire. Pizey pointed the nose of the plane almost straight towards the earth, while his passenger, Fellows, sprang up, awaying dangerously.

The flaming aeroplane, diving at terrific speed towards the earth in the early dusk provided a wonderful spectacle for the small crowd who had gathered to watch the flight.

The machine was burned to ashes a few minutes after it struck the ground. The spectators, who rushed to the spot, found the aviators without the slightest injury.

WEDDING OF POPULAR ST. STEPHEN YOUNG LADY

Miss Julia Hill Becomes Bride of Prominent Montreal Businessman—Victoria Day Observed Yesterday.

St. Stephen, May 26.—The residence of Henry E. Hill on King street was the scene of an interesting event this afternoon in which the principals were his eldest daughter, Miss Julia Hill, and Jacob Dewitt, a prominent young barrister of Montreal. The ceremony was performed in the presence of immediate relatives of the bride and groom and a few intimate friends of the young couple. Rev. Geo. F. Dawson, pastor of the Methodist church, was the officiating clergyman and Miss H. W. Grimmer played the wedding march.

The house decorations were of apple blossoms, the dining room being adorned with pink carnations and daffodils. There were no attendants. The bride wore a gown of white charmeuse over satin, trimmed with carmelita-cross lace and veil of Brussels net. She carried a bouquet of bridal roses. The bride's travelling suit was of blue serge and the happy couple left by auto for Ayres Junction to catch the Maine Central for a trip to the White Mountains.

Very many beautiful and valuable presents testified to the esteem in which both are held. The groom's gift to his bride was a pearl necklace. Colville friends of the groom sent a chest of silver and his brother-in-law a chest of silver with pearl handles.

Victoria Day was observed here today by the general cessation of business, all going to Milltown to participate in a series of street and sports which were unfortunately hampered by a drizzling rain that prevailed most all day. The horse race, the principal event, was won by Milltown, N. B., with Milltown, Me., second and St. Stephen third. A ball game in the morning between local material and the St. Croix of the "Big League" was an easy victory for the latter, 12 to 1.

The barn of John Eagan at Milltown was damaged by fire this forenoon to the extent of about \$300, the loss being covered by insurance.

OPERA HOUSE HAS AN EXCEPTIONAL SHOW

Pictures of Wild Animal Hunt in African Jungles a Marvelous Production — Yesterday's Crowds Delighted.

For the attraction this week the management of the Opera House is offering a decidedly interesting showing of moving pictures which are bound to prove popular when patrons become cognizant of the fact that an exceptional opportunity is being afforded them.

The first showing of the pictures was given yesterday afternoon and drew a fair sized audience. Last evening, however, a good attendance enjoyed the pictures.

The pictures are exceptional. The subject is unusual; the excellence of the pictures is unusual. Depleted with the most perfect degree of accuracy is the story of the hunt of wild animals in the African jungles.

To obtain the picture an expedition of 200 men was sent to the interior of the jungle, under the direction of Paul J. Rainey, a Cleveland millionaire sportsman.

The dangers to which the party was exposed are graphically described in the pictures themselves.

Scientifically the pictures have done more for natural history, according to a professor in one of the leading universities, than has been otherwise accomplished in the past ten years.

The pictures are, to say the least, marvellous. They show primarily the nature of the country; they show the variety of the denseness of the jungle and they show the habits and characteristics of the animals.

The pictures which the expedition courted in obtaining them are graphically shown in the pictures. But in spite of the peril undergone the perfection obtained is marvellous.

HUGE MASS MEETINGS TO PROTEST STRIKE LEADERS' INDICTMENT

WILLIAM HAYWOOD, ELIZABETH G. FLYNN, PATRICK QUINLAN. I.W.W. LEADERS ADDRESSING PATERSON STRIKERS.

The keynote to a widespread extension of the silk strike by calling out transportation and electric employees and thereby "plunge the city of Paterson in darkness and force the residents to work" was sounded at a mass meeting of 5,000 strikers held in Paterson, N. J., recently.

The threat was made by Adolph Lessig, local organizer for the Industrial Workers of the World, and himself awaiting trial on an indictment charging him with unlawful assembly. Despite the presence of a score of policemen and detectives, Lessig's speech was described as a command to the strikers to do all in their power to harass the electric and transportation companies in retaliation for the conviction of Patrick Quinlan, the first of the five leaders to be placed on trial, who faces a prison sentence of from three to five years and \$2,000 fine for inciting riot.

AN AFTERNOON GOLFERS' CHAMPIONSHIP SESSION HELD IN THE COURT

St. Andrews, Scotland, May 26.—The first round of the golf tournament for the amateur championship of the world was played here today under clear skies, and other conditions favorable to excellent contests.

The only American who succeeded in winning his match was W. H. Smith, a student at the Polytechnic Institute. He managed to arrive here for the games only by taking his final examinations a month before his class mates.

There was quite a lengthy session in the police court yesterday afternoon and from evidence given by two defendants in one case it is more than likely that Policeman Gardner will be asked for an explanation of remarks he is alleged to have made. The case in question was where John Chamberlain and Leonard Breen were charged by Officer Gardner with having been two of a disorderly crowd on the corner of George and North streets between nine and ten o'clock on the night of the 13th inst.

The case had been up in the court a few days ago and was adjourned until yesterday afternoon. Officer Gardner was taking tickets at the Gem Theatre and saw Chamberlain and his wife entering the theatre about 8:45 o'clock and leaving the theatre at 9:45 o'clock. Thomas Saunders gave evidence that he had been in company with Breen all evening and did not leave him until after ten o'clock. They had not been on the corner of North and Chamberlain took the stand in his own behalf and after telling about being at the theatre with his wife said he had not been with her until he was. The day after he had been reported he called on Policeman Gardner to find out why he had been reported and Gardner said: "You give a d— for these buttons and I don't care for the job."

The magistrate said he thought there was an apology due to the defendants and dismissed the case. Sarah Jane Moran, an old offender, was found guilty of being drunk and was remanded, along with Lena Adams for the same offence. They were told that they would probably be given a term in prison under the Dominion Act, which provides for nine months.

Three ordinary drunks were fined the usual amount and Thomas Gallagher, one of the number, informed the court that he had been taken to Burpee Avenue by a couple of young men who were strangers to him and that he had been relieved of his watch and chain.

William Lillian, the sailor who was charged with cutting the proprietor of the sailors' boarding house on the South Wharf, was remanded and the case will be a preliminary hearing.

John McLaughlin pleaded guilty to assaulting his wife and was remanded to jail. His wife informed the court that her husband while drinking picked up a chair and threatened to knock her brains out and that he had been neglecting his family for the last five months.

Mary Robinson, charged with threatening language, was remanded to jail. John Steale, who left deposits amounting to nearly \$70, failed to put in an appearance and the deposits were forfeited.

John Steale for being drunk on Sheriff Street was fined eight dollars. Louis Train, charged with abusing

his wife and making his children go out of the house during the early winter mornings, pleaded not guilty, but Mrs. Alice Mullan, who resides in the house, gave evidence that the charges were true and that she had seen Train strike his wife and blacken her eye.

The magistrate remarked that he should be hoggewhopped. To the Militant Suffragettes. O woman, lovely woman, Why will you play the fool? There never was a day or hour When the women didn't rule!

SECRET SOCIETY STUNTS PERFORMED AT NICKEL

Talking Pictures Give Hilarious Skit — Helen Gardner in Kipling Production.

Many a sly wink and nudge were exchanged in the Nickel last night when "The Five Jolly Bachelors" in Thos. A. Edison's talking pictures gave out a few of the initiation secrets of the Moose, Knights of Pythias and other fraternal organizations mixed with songs and things. It was an uproarious skit and every body seemed to enjoy it. The next picture was "The Vampire" going to the popular Edmund Brees—a familiar summer visitor here—and his company in a thrilling offering from "The Maeter Mind."

The big dramatic excerpt from the Nickel's bill yesterday and it is to be concluded today, was "Vampire's" two reel version of Rudyard Kipling's "The Vampire" in which Helen Gardner played the title role, that of a half wild maiden of enthralling charm. This piece is old, different and holds the watcher spellbound from title to finish. The full length of Kipling's weird poem-tale seems to have been grasped by the people picturing it. The other pictures are: In Central Park, New York, and a Kalem comedy, "Paying His Board Bill."

Miss Blaisdel is singing "The Song of the Soul" from The Climax, and she sings it well indeed. Mr. Ritzius is crooning the negro lullaby "Doan You Cry Ma Honey," and his unique treatment of this familiar bit made a hit. Tomorrow the Nickel's silent picture programme will be entirely changed.

PRINCE LOUIS OF BATTENBURG. His Serene Highness Prince Louis Alexander of Battenburg, First Sea Lord of the British Admiralty has just passed his sixtieth year. The distinguished admiral, who is related by blood and marriage with nearly every important reigning family of Europe. He was born at Gratz, Austria, May 24, 1854, the eldest son of Prince Alexander of Hesse, and married his cousin, Princess Victoria, daughter of Louis IV, Grand Duke of Hesse, by whom he has had two sons and two daughters. Prince Louis was naturalized as a British subject and entered the Royal Navy as a cadet at the age of fourteen.

The First Sea Lord has often been described as "the most popular commander in the Royal Navy." Although of exalted rank, Prince Louis has worked his way up on his own merits, for "pull" is unknown in the British navy. He has the reputation of being the best tactician in the service. He saw active service as a lieutenant on the Inconstant during the Egyptian war.

The Prince's hobbies are printing and collecting. His collection of coins is a fine one, and what he doesn't know about the typographical art is scarcely worth knowing. The First Sea Lord has had several visits to Canada, and is also well known in New York.

One of Prince Louis's brothers, Prince Alexander, renounced his rank as a prince of Bulgaria to wed an actress. Another brother, Prince Henry, married the youngest daughter of

Queen Victoria, and became the father of Queen Victoria of Spain. The youngest of the brothers, Francis Joseph, is a son-in-law of the King of Montenegro. Prince Louis is also a brother-in-law of the Czarina of Russia and of Princess Henry of Prussia.

STEAMER SENLAC WILL CONDUCT FRENCH MAIL SERVICE

Schooner Floated — Fire Extinguished — Steamer and Barge Collide — Dangers to Navigation.

SCHOONER FLOATED. Philadelphia, May 24.—Schr William C May, from Sagua for Morgan City, which stranded 10 miles E of Ship Shoal, La, March 10, floated yesterday and proceeded for Morgan City.

FIRE EXTINGUISHED. London, May 23.—The fire on board stmr Sierzeh Castle, at Havre from Tampa, etc., before reported, has been practically extinguished; all cotton in No. 3 hold very badly damaged.

TACKLE AND EQUIPMENT SEIZED. Mobile, Ala., May 24.—The tackle and all equipment from the wrecked schr Millville, that went ashore in a fog Feb. 15 east of Fort Morgan, was seized today by J. S. Marshall on a libel filed by Hans Peters and other seamen for wages. Captain E Smith her owner, sold the vessel after she was abandoned to W. S. Hedden for \$900.

EXPECTED TO FLOAT. Yokohama, May 13.—Survivors report discharge is continuing satisfactorily on stmr Ikalas, before reported ashore near Muroran. If favorable weather continues in four days expected to be floated. Will proceed to Muroran for temporary repairs.

WILL BE TOTAL LOSS. Puerto Padre, May 16.—Schr Blanche, before reported ashore, will probably be a total loss; cargo still on vessel, but may be washed away at any moment, as sea is breaking heavily.

STEAMER AND BARGE COLLIDE. Newport, R. I., May 23.—Stmr Mohagan, of the New England Navigation Co. from Fall River for New York, collided with barge No. 742, of the Lehigh Valley line, in a dense fog here this morning at the entrance to Narragansett Bay. The barge, which was being towed by tug Perih Amboy from Vineyard, Me., to New York, had upper rigging on port side carried away; damage to hull was slight. The tug put in here and the steamer proceeded to New York.

WEST INDIA STEAMER. The steamer Rhodanese left St. Kitts on Saturday, May 24th, for this port.

RECENT CHARTERS. Steamer Maanhaveen, 1659 tons, St. Lawrence to W. C. Britain of E. C. Ireland, deals, 576, 6d, prompt; schr Irma Bentley, 392 tons, Appalachicola to St. John, June, 48.75.

AT NEWFOUNDLAND. The steamer Marina is at Balwood, Nfld., loading pulp and paper for London. The big tug, passenger and mail, discharging over 600 puncheons of molasses at St. John's, Nfld., will load fish for Brazil and will sail on the 31st inst.

THE GERALD TURNBULL. The stmr Gerald Turnbull remains hard and fast on Gannett dry ledge and is to all intents and purposes a total wreck. Cann's wrecking crew have been at work since Wednesday morning removing all the fittings, furniture and other articles, and portions of her machinery and outfit. The steamer Bridgewater is at the wreck, engaged in saving the machinery, and other articles, and portions of her machinery and outfit. The steamer Bridgewater is at the wreck, engaged in saving the machinery, and other articles, and portions of her machinery and outfit.

SENLAC FOR ST. PIERRE ROUTE. While early last week rumors were launched that would shortly be a radical change in the St. Pierre, Miquelon mail, passenger and mail service to Halifax, the charter parties were not completed for several days later. The new arrangement, which commencing June 15th, the steamer Senlac, which has been for the past eighteen months at anchor in the Dartmouth Cove awaiting a purchaser, will enter on a twelve months' charter to conduct the French mail service with a subsidy granted by the French government. She is replacing the Sagona and the Pogota, which have singly kept a schedule since last summer, when the steamer St. Pierre Miquelon went off charter and sailed for St. Malo. The mail contract has been held by a Mr. Miller, of St. Pierre, but he sublets it to the Newfoundland Produce Company, to which concern belong the Sagona and Pogota. The deal just put through cancels their further employment in this regard, the work being done in future by Mr. Miller himself. It may possibly develop that the Senlac will be bought outright from Havelock Hart, with whose interests in the craft are associated those of George C. Cook. The Senlac was originally purchased as a speculation, when her first owners went into bankruptcy. J. A. Farquhar and Company have been appointed agents of the new St. Pierre service.

DANGERS TO NAVIGATION. New York, May 24.—Stmr Bayamo (Br), reports May 8, lat 38 N, lon 74 27 W, passed a black cat buoy marked "No. 35" on one side; May 11, lat 24 15, lon 81 13, saw a quantity of wreckage, apparently a cradle for loading lumber or part of a deck.

SOUTHERNER TO SPEAK AT GETTYSBURG, PA.

For the first time since the dedication of the Soldiers' National Cemetery, in 1863, the Memorial Day address at Gettysburg this year is to be delivered by a Southerner, a Colonel Shelby Post announced that he had invited Representative James Thomas Hefflin, of Alabama, to make the oration, and that he had accepted the invitation.

The action of the post is regarded as especially significant in view of the near approach of the fiftieth anniversary of the battle of Gettysburg, and it is understood that the selection of a Southerner is to assure all Confederate veterans of their welcome there in July.

PUTS AN END TO BACKACHE MAKES WEAK KIDNEYS STRONG

A Few Doses Give Relief, Helps Lifeless Organs Regain Health, Strength and Activity.

It is useless, dangerous, and unnecessary to be tortured with the digging, twisting pains of backache and rheumatism, or suffer with disagreeable kidney and bladder disorders any longer.

The new discovery, Croxone, provides a remedy which every sufferer can now depend upon to promptly and surely relieve all such misery.

Croxone relieves these troubles because it quickly overcomes the cause of the disease. It soaks right into the stopped up, inactive kidneys, through the membranes and linings; cleans out the little filtering glands; neutralizes and dissolves the poisonous uric acid and makes the kidneys filter and sift from the blood all the waste and poisonous matter that clog the system and cause such troubles.

It does not matter whether you have but slight symptoms or the most chronic, aggravated case of kidney, bladder trouble, or rheumatism that is possible to imagine, for the very principle of Croxone is such that it is practically impossible to take it into the human system without results.

An original package of Croxone costs but a trifle, and all druggists are authorized to return the purchase price if it fails to give the desired results—the very first time you use it.

TORTURED WITH TERRIBLE ECZEMA Had to Wear Rubber Gloves Until 'Fruit-a-tives' Cured Her.

Grande Lodge, Que., Jan. 2nd, 1910. "My wife was troubled for three years with Eczema on the hands, which made her hands almost unusable. The doctor gave her several ointments to use, none of which had any effect. He also advised her to wear rubber gloves (she wore out three pairs). I persuaded her, as a last resort, to try 'Fruit-a-tives'. The effect was marvellous. Her hands are now cured. We both attribute our present good health to 'Fruit-a-tives'.

ITCHING STOPS WHEN POSLAM IS APPLIED

Do not endure that awful itching one day longer. Immediate relief comes with first application of Poslam, the perfect skin remedy.

Aggravated skin is soothed and comforted; restful sleep may be enjoyed. The complete eradication of the disease follows. The progress of the cure is rapid and improvement noted daily.

Worst cases of eczema—that manifested malady—acne, psoriasis, tetter, barbers' itch, scaly scalp, piles, etc., yield rapidly to Poslam after treatment by all other means has failed.

"POSLAM SOAP makes the skin velvety; beautifies complexions; purifies the scalp; brings health to hair. All druggists sell Poslam and Poslam Soap. For free samples write to the Emergency Laboratories, 32 West 25th Street, New York City.

Health and Beauty Aids

BY MRS. MAE MARTYN.

Bessie: I have constantly advised against the use of hairbrushes and dyes.

Clara: I think you are foolish to worry about a few pounds of extra flesh, but if you fear that your waist line will disappear, entirely, go to your druggist and get 4 ounces of Parnolia, take it home and dissolve it in 1 1/2 pints of hot water. Take one tablespoonful 3 times a day, before meals. Parnolia makes superfluous fat disappear.

Christina: If your hair is falling out and your scalp scaly with dandruff, apply this home-made quinine hair-tonic once or twice a week and your hair will grow in long and abundant. Dissolve in 1/2 pint of alcohol 1 ounce of quinine and add 1/2 pint of cold water. Rub well until absorbed by the scalp and hair.

Miss Wood: Plenty of good lather is an essential to the success of any shampoo. Some soaps that lather well make the hair brittle and hard. It is better to use plain castor oil for shampooing purposes. Simply dissolve a teaspoonful of castor oil in a cupful of hot water and stir well until it is all dissolved; then take your shampoo by pouring the mixture on the hair and rubbing in well. It will cleanse the scalp thoroughly, make the head feel good and keep your hair soft and fluffy.

Margie: Indeed, I am always glad to repeat a recipe, the wrinkle-remover formula which your friend says she read in these columns and found absolute in its action is easily and cheaply made at home by mixing one ounce of alcohol with one-half pint of cold water and adding two teaspoonfuls glycerine. Stir and let stand for one day. To remove or prevent wrinkles apply this vegetable cream-jelly thickly and leave over night, then wash off and with more of the cream massage thoroughly. I have never found anything to equal alcohol jelly-formula to remove wrinkles and keep them away. It contains no oil or fatty substances which might promote the growth of hair. You will also notice by its use not only your wrinkles disappearing but the large pores of the entire face getting much smaller and the skin very soft and velvety.

Mrs. L. E.: No doubt glasses spoil your looks. Probably you would have no need to wear glasses if you would use a good eye-tonic. Get an ounce of crystals from your druggist and dissolve it in a pint of water. Drop one or two drops in each eye once or twice a day. This is wonderfully strengthening to the eyes and will not smart or burn, but makes dull-looking eyes clear. It is just the thing for dull, tired, inflamed or weak eyes and for granulated eyelids.

Dora H.: Buy a small, original package of pyroxin and with forefinger put some on eyebrows occasionally. It makes them grow thick and silky. Stubby, straight eyelashes will come in long and curl if pyroxin be applied at lash-roots with thumb and forefinger. Use it so as not to get any where no hair is wanted.

Youngwife: Don't be discouraged. A delicate paste will dissolve those hairs and leave the skin smooth and clear. Just get a small original package of delatone from your druggist and make sufficient paste with the powder and water to cover the hairs. Apply and after 2 or 3 minutes remove and wash the skin. This is an unfailing remedy.

Florence E.: To prepare a complexion-banisher that will make the skin soft, white and smooth, put 2 teaspoonfuls of glycerine and 4 ounces of pure alcohol in a bottle and mix. Apply to the hands, forearms and face with the palm of the hand and continue rubbing the skin where applied until dry. Unlike powder, when on it seems part of the skin and does not rub off. See that all of your friends have told me that this sparrow wash is particularly effective for sallow, dark and oily skins. It is much less expensive than ready-manufactured face-washes.

Naomi: Don't worry about your condition. Nearly every person needs a blood-tonic and liver-invigorator in the spring. Prompt treatment will enable you to rid yourself of those yellow blotches and pimples. Get from your druggist 1 ounce of karden and 1/2 pint of alcohol. To these add 1/2 pint of sugar and put into 1 1/2 pints of boiling water. This makes an excellent system-tonic that purifies the blood and arouses the liver to healthy action. Take 1 tablespoonful 5 minutes before each meal and before retiring.

Margie: Indeed, I am always glad to repeat a recipe, the wrinkle-remover formula which your friend says she read in these columns and found absolute in its action is easily and cheaply made at home by mixing one ounce of alcohol with one-half pint of cold water and adding two teaspoonfuls glycerine. Stir and let stand for one day. To remove or prevent wrinkles apply this vegetable cream-jelly thickly and leave over night, then wash off and with more of the cream massage thoroughly. I have never found anything to equal alcohol jelly-formula to remove wrinkles and keep them away. It contains no oil or fatty substances which might promote the growth of hair. You will also notice by its use not only your wrinkles disappearing but the large pores of the entire face getting much smaller and the skin very soft and velvety.

Mrs. L. E.: No doubt glasses spoil your looks. Probably you would have no need to wear glasses if you would use a good eye-tonic. Get an ounce of crystals from your druggist and dissolve it in a pint of water. Drop one or two drops in each eye once or twice a day. This is wonderfully strengthening to the eyes and will not smart or burn, but makes dull-looking eyes clear. It is just the thing for dull, tired, inflamed or weak eyes and for granulated eyelids.

Dora H.: Buy a small, original package of pyroxin and with forefinger put some on eyebrows occasionally. It makes them grow thick and silky. Stubby, straight eyelashes will come in long and curl if pyroxin be applied at lash-roots with thumb and forefinger. Use it so as not to get any where no hair is wanted.

Youngwife: Don't be discouraged. A delicate paste will dissolve those hairs and leave the skin smooth and clear. Just get a small original package of delatone from your druggist and make sufficient paste with the powder and water to cover the hairs. Apply and after 2 or 3 minutes remove and wash the skin. This is an unfailing remedy.

Florence E.: To prepare a complexion-banisher that will make the skin soft, white and smooth, put 2 teaspoonfuls of glycerine and 4 ounces of pure alcohol in a bottle and mix. Apply to the hands, forearms and face with the palm of the hand and continue rubbing the skin where applied until dry. Unlike powder, when on it seems part of the skin and does not rub off. See that all of your friends have told me that this sparrow wash is particularly effective for sallow, dark and oily skins. It is much less expensive than ready-manufactured face-washes.

Naomi: Don't worry about your condition. Nearly every person needs a blood-tonic and liver-invigorator in the spring. Prompt treatment will enable you to rid yourself of those yellow blotches and pimples. Get from your druggist 1 ounce of karden and 1/2 pint of alcohol. To these add 1/2 pint of sugar and put into 1 1/2 pints of boiling water. This makes an excellent system-tonic that purifies the blood and arouses the liver to healthy action. Take 1 tablespoonful 5 minutes before each meal and before retiring.

ITCHING STOPS WHEN POSLAM IS APPLIED

Do not endure that awful itching one day longer. Immediate relief comes with first application of Poslam, the perfect skin remedy.

Aggravated skin is soothed and comforted; restful sleep may be enjoyed. The complete eradication of the disease follows. The progress of the cure is rapid and improvement noted daily.

Worst cases of eczema—that manifested malady—acne, psoriasis, tetter, barbers' itch, scaly scalp, piles, etc., yield rapidly to Poslam after treatment by all other means has failed.

"POSLAM SOAP makes the skin velvety; beautifies complexions; purifies the scalp; brings health to hair. All druggists sell Poslam and Poslam Soap. For free samples write to the Emergency Laboratories, 32 West 25th Street, New York City.

Health and Beauty Aids

BY MRS. MAE MARTYN.

Bessie: I have constantly advised against the use of hairbrushes and dyes.

Clara: I think you are foolish to worry about a few pounds of extra flesh, but if you fear that your waist line will disappear, entirely, go to your druggist and get 4 ounces of Parnolia, take it home and dissolve it in 1 1/2 pints of hot water. Take one tablespoonful 3 times a day, before meals. Parnolia makes superfluous fat disappear.

Christina: If your hair is falling out and your scalp scaly with dandruff, apply this home-made quinine hair-tonic once or twice a week and your hair will grow in long and abundant. Dissolve in 1/2 pint of alcohol 1 ounce of quinine and add 1/2 pint of cold water. Rub well until absorbed by the scalp and hair.

Miss Wood: Plenty of good lather is an essential to the success of any shampoo. Some soaps that lather well make the hair brittle and hard. It is better to use plain castor oil for shampooing purposes. Simply dissolve a teaspoonful of castor oil in a cupful of hot water and stir well until it is all dissolved; then take your shampoo by pouring the mixture on the hair and rubbing in well. It will cleanse the scalp thoroughly, make the head feel good and keep your hair soft and fluffy.

UNION AND THE CHURCHES.

In Toronto, on Friday of last week, a body of representative Anglicans assembled in the Church of the Redeemer and organized under Anglican auspices a Church Unity League. Time will reveal the true importance of this, but for the present, newspaper reports indicate that enthusiasm rose to a high pitch and that the organization is confident of its ability to uphold the constitution which has been adopted. This is "to promote by all constitutional means the cause of Christian Unity and to examine and set forth by meetings, sermons and literature the grounds upon which our divisions rest and discover the lines of demarcation towards those things that are always and everywhere essential and those which are expedient." Membership in this league is open to all Anglicans over twenty-one years of age. An annual meeting is to be held, and such additional meetings as may be required, in the interest of the cause represented. It is the duty of an executive to encourage and aid in the formation of branch societies wherever possible.

World forces of the 20th century are breathing an atmosphere that is more or less impatient of sectionalism. The slogan of progress is "get together." In world-politics, in commercial enterprises, and along other lines, old time individualism is falling into disrepute. The Balkan Allies, with the accent on the Allies, have shown the world the strength of union. Any economic history of the present day would necessarily be compelled to devote a considerable portion of its space to mergers, combinations, alliances, associations, and other groupings dealing with the activities and undertakings of people who in various ways have dropped their opposing policies and are encouraging co-operation. Banks combine, steamship companies form a pool, merchants organize departmental stores and this same plan may be noted in practically every department of the life of action.

Doubtless this spirit, which has been manifest in certain of the Christian Churches, has to some extent been accountable for the recent meeting in Toronto. For several years people have been hearing of the proposed coming-together of various Christian denominations. The union of Methodists, Congregationalists and Presbyterians has occupied the serious thought of both clergy and laity. This matter has been thrashed out by the superior courts of these churches as well as among the membership, and the results warrant the average man in thinking that while the day of union is not yet, it draws nearer.

A most unexpected and almost sensational indication of progress in the direction of mutual confidence and co-operation between churches long divided was presented last winter in Montreal by the various theological colleges grouping about McGill University. Diocesan, Methodist, Congregationalist and Presbyterian heartily united their forces so that students in training for the ministry of these separate communions, side by side received their tuition from the professors of the various college staffs. This plan enabled the professor to specialize. It gathered the students together in larger classes and it provoked an academic emulation and esprit-de-corps hitherto unknown. At the conclusion of what has been termed the best theological course ever accomplished under the shades of old McGill, professors and students without exception were enthusiastic in their commendation of the new venture. This phase, at least, of Christian unity appears to have passed the experimental stage and to have been declared a success by those most interested. Nor are indications lacking that in theological education, at least, this form of co-operation may be duplicated in other places.

Whether these Christian communions will be more closely united than at the present time is a question on which there is yet some difference of opinion, although it must be noted that opposition to the project which has been apparent for some time is rapidly decreasing. Should the union of the three bodies now considering the matter, and those of others not yet equally interested, be brought about, it will succeed not by each church asking how little must it concede in order to effect such a concentration of forces, but rather how much it is possible for it to give towards this end.

THE MONEY MARKET.

In Canadian financial circles the present outlook seems to be for a continuation of the stringency so noticeable during the past twelve months. Not very long ago the opinion was expressed in certain quarters that the cessation of hostilities in the Balkans and the elimination of doubt as to the possibility of a more general European conflict would relieve the situation to a

marked degree. These conditions have now been met. Terms of settlement between the belligerent states are being adjusted with no more than the ordinary bickerings and delay; the greater European powers have, largely through the influence of Britain, safely passed that crisis which for a time threatened serious complications.

But in financial circles the relief which some anticipated has not appeared. Instead, the impression has been general that considerable time will elapse before the money market returns to that buoyant condition now looked upon as normal. As the development of the disease spread over some years, so must the recovery be gradual. But assurance is given that there need be no fear of anything in the nature of a panic; that matters will right themselves in due course; and that all will eventually feel better for having passed through a period of rest and recuperation from the strain and struggle of the past decade.

The consumption of gold in the Balkan war, together with the hoarding of money by European governments and the peasantry of France and Germany has been set down as one of the two prime causes that have led to the present situation. This has had an international effect. The other cause, applicable only so far as Canada is concerned, has been the notable development of the country, especially in the western provinces, and the spread of the speculative instinct. Too many people have been looking for easy money; too many municipal and commercial corporations have endeavored to discount the future. While no one desires that any obstacles be placed in the way of legitimate progress, yet it is perhaps better that the brakes be applied now rather than at a later date when the effects might be much more serious.

This country depends almost wholly on Britain for its outside capital. For the past ten or a dozen years English investors have kept a steady stream of gold flowing toward the west. Lately, however, many of the more important borrowing undertakings launched on the Old Country have failed to receive the customary reception. This has not indicated an unwillingness, but rather an actual inability on the part of the British capitalist to respond to the appeals. It has not meant a loss of faith in Canada, nor is it any indication of depreciation in the value of Canadian securities. It is merely one result of the very general scarcity of hard cash, and will bring about its own remedy in time.

Just now, Canadian banks are conserving their resources. They take the stand that one of the most important factors in the prosperity of the country is the efficient handling of Western crops. In order that this movement may properly be carried on very large sums of money must be immediately available when required. Consequently, bankers are putting their funds, not in the ordinary commercial enterprises, nor as market loans in Canada, but as call loans in the United States. There, when the need arises, they can secure what may be required, in order that the general current of trade. This, it is held, could not readily be done in the smaller Canadian money market where the recall of even a comparatively small sum of money might have a somewhat serious effect. What the immediate result of this loaning to Wall Street may be is a point upon which opinions differ. The business man who wants cash for legitimate purposes is inclined to criticize, claiming that the prosperity of this country is being retarded. The banks on the other hand are very definite in their assertions that no legitimate enterprises have been, or will be, allowed to suffer, while at the same time the country is being protected from more serious stringency later on. It is further contended that the prevailing tightness will serve as a wholesome check to the alleged extravagance toward which Canada was heading, and that it will eventually place the business of the country on a sounder basis than if the recent rate of expenditure had been permitted to continue, and that it will render more permanent the large measure of prosperity which the Dominion has of late years enjoyed.

MARINE INSPECTION REFORMS.
The announcement has been made that Hon. J. D. Hazen, Minister of Marine, has completely reorganized the Steamboat Inspection Board. This will be received with gratification throughout Canada. The Canadian Government has appointed two new members to the Board, men of wide experience, whose presence will do much to strengthen public confidence in the safety of large steamships. The old rules have been revised and amended, and it is understood that within a few days, these regulations will be promulgated. Hereafter

the rules of inspection in Canada will be practically identical with those of the British Board of Trade, Great Britain, with the value of many years of experience, has always displayed particular care in framing such regulations, and the uniformity now existing between British rules and those of Canada will be looked upon with satisfaction. This important reform, together with the fact that Canada, through the Department of Marine and Fisheries, recently joined with the United States Government in sending scout steamers to patrol the Atlantic for icebergs, indicates that the Minister of Marine is alive to the needs of this country's shipping. Hon. Mr. Hazen has accomplished more in the way of practical reform since he took office than can be shown in the fifteen years of Liberal rule.

A YOUTHFUL BRIDEGROOM.
Sir John Swinerton Dyer, who recently played the role of bridegroom in a fashionable wedding at the Guard Chapel in London, is a very youthful husband, today being his twenty-second birthday. Sir John is the twelfth baronet of his line, the first having been created in 1678. He is an officer of one of the crack regiments of the British army, and his wedding was a military affair.

DIARY OF EVENTS

TODAY IN DOMINION HISTORY.

There was joy in Halifax 165 years ago today for on that date the ship Dublin with General Amherst on board was sighted off the iron-bound coast of Acadia. The arrival of Amherst put an end to the period of inactivity imposed on Wolfe and his men, who for seventeen days had been awaiting in Halifax the coming of the General, and fretting and chafing at the delay in the plans for attacking the strong French fortress at Louisbourg, "the Dunking of America," the key of Canada. The British fleet assembled at Halifax consisted of forty sail, including line-of-battle ships, frigates and transports. Many of the vessels did not register over 200 tons. The voyage from Portsmouth to Halifax had occupied nearly three months. On this trip Wolfe was the senior officer on board, and remained in command until the arrival of Amherst. On the day following the sighting of the Dublin the entire armament left Halifax harbor and sailed away along the coast for Louisbourg, the straits of Cape Breton. There the French were entrenched behind massive fortifications a mile and a half in circumference. Over 2,000 men were engaged in making Louisbourg the strongest fortress in America, and a few days later, people had grown up under the protection of the great guns. They stood out for nearly two months, when the "impregnable" fortress capitulated.

CENTENARY OF THE BATTLE OF FORT GEORGE.

One of the historic conflicts of the last war between the United States and Great Britain was fought a century ago today, May 27, 1813, at Fort George, on the mouth of the Niagara River, on the Ontario side. Just a month before the American invaders had captured York, now Toronto, and the victors turned their attention to Fort George, the most important of the British works along the Niagara. This fort was in command of General Vincent, who had about 400 men, although less than half of them were at Fort George. General Scott led the advance, accompanied by Commodore Perry, who had charge of the boats. He and Scott leaped into the water at the head of the first division of men. In the meantime the defenders of Fort George had not been idle. Outnumbered as they were, they made a gallant resistance, and turned a gallant fire on the landing party. The engagement was fought out on the plain, and was a time-worn, furious, and general Vincent, realizing that Fort George was untenable, ordered the garrison to destroy the ammunition and spike the guns. After this had been accomplished the British force took up a position at Beaver Dams, in the hills about eighteen miles from the Niagara River, where Vincent's headquarters were. In the following June a party of American troops near Port George were the victims of a clever coup carried out by Lieut. Fitzgibbon, who, with sixty-six Canadians and 250 Indians, forced the surrender of 550 American soldiers under Col. Boerstler.

ARNOLD BENNETT, 46 TODAY.

Few living authors have as large and devoted a following on both sides of the Atlantic as Arnold Bennett, and his recent American visit has added greatly to his popularity in the United States and Canada. Mr. Bennett has kept a careful record of his literary output, and in the last eighteen years has written over seven million words—and his numerous admirers will assert that there is not a dull word among them. Enoch Arnold Bennett was born in North Staffordshire, England, May 27, 1867, and will celebrate his forty-sixth birthday today. After leaving school he decided to become a barrister, and was admitted to the bar, but as a lawyer he was an excellent writer. Twenty years ago, he definitely abandoned the legal profession and became an assistant editor of a woman's publication, called Woman. After three years he succeeded to the editorial chair of that publication, where he remained four years. For the last dozen years he has devoted himself entirely to literature. His virile, entertaining style and originality of thought and expression quickly made him popular in England, and his fame soon spread to America, until now his works are often numbered among the "best sellers."

THE MILITANT SUFFRAGETTE.
You can talk of life on the ocean wave Or sing of the roaring gale, But give me the life of the suffragette, With powder and torch and fuse, And I'll guarantee, as I wander free, To cut a swath in the news.

Final Word.
"Does your wife always have the last word?" "Um, no. I most always say: 'Yes, dear,' or 'Very true, dear.'"

What Changed Him.
Judge—Crawford—Do you like home cooking?
Crabshaw—I did before I got married.

A Point Neglected.
"Be good to her," the mother said
"To James, the bridegroom, tall and slim.
But no one warned the pretty bride
About the way of treating him."

Now what can you do to me?"
If you send me to jail I'll hunger-strike.
And when I get out once more I'll join in the fray in the same old way.
But worse than I did before,
Oh, the life of a suffragette for me,
In the last eighteen years has written
And the thing I like when I war and strike—
The gentlemen can't hit back.
—Percy Shaw.

Inquisitive.
"They say that Cupid strikes the match that sets the world aglow. But where does Cupid strike the match?"
"That's what I'd like to know."

Fortunately Pa is Rich.
"So you think your daughter has exceptional talent?"
"There's no doubt of it," replied the fond mother, "although we can't exactly locate it. The music teacher says it's for painting and the art teacher says it's for music."

LITTLE VICTIMS OF ST. VITUS DANCE

It is the Most Common Among Children of the School Age.

If your child—whether boy or girl—is fidgety, emotional and awkward, you should watch it carefully as it may develop St. Vitus dance. Frequent and constant, keep still, they move with strange actions, their limbs jerk and their features twitch nervously. Speech is confused and the whole muscular system not under control. These are among the symptoms of St. Vitus dance, a trouble that afflicts growing girls and boys, most frequently during the school age. Dr. Williams' Pink Pills are such a splendid nerve tonic that they have cured the worst cases of St. Vitus dance. They do this because the new, rich blood they make feeds and strengthens the starved nerves, thus throwing off the disease. Here is an example. Mrs. L. L. Gifford, Westover, Ont., says: "For over two years my little girl, Constance, was a sufferer from St. Vitus dance. She was frightened badly by a dog, which seemed to bring on the trouble, and notwithstanding all we did for her it seemed to be growing worse. She grew so bad that she could not feed herself and her speech was so badly affected that we could scarcely understand her. The twitching and jerking of her limbs was pitiable. At this juncture we began giving her Dr. Williams' Pink Pills, and to our great joy they have completely cured her, and she is now as healthy a child as you can find."

Can You Count?

\$1,250 IN GOLD SEVENTY PRIZES

THE ST. JOHN STANDARD'S

BIG PUZZLE CONTEST

No Trick or Chance Involved. Only Accuracy and Patience Required. Old and New Subscribers Can Enter. Note Carefully the Plan of Dividend Prizes.

HOW TO ENTER

This contest is restricted to people residing in the Provinces of New Brunswick and Nova Scotia.

A payment on subscription to The St. John Standard of from \$1.00 to \$5.00 entitles the contestant to submit a solution of the puzzle. The amount of money paid in will cover the subscription price for the paper according to the regular rate, whether the rate be for city delivery or by mail.

AS MANY DIFFERENT SOLUTIONS MAY BE SUBMITTED AS THE CONTESTANT DESIRES UPON MAKING AN ADDITIONAL PAYMENT WITH EACH ONE, BUT NOT MORE THAN \$5.00 CAN BE PAID WITH ANY ONE SOLUTION.

It is not necessary to pay the same amount with each solution if more than one be submitted.

As the main prizes have an added value according to what is paid in on subscription with the winning solution, contestants should familiarize themselves with the DIVIDEND schedule before sending in their subscription and solutions.

Remit by check, money order, registered letter or in 1 or 2-cent stamps. Whatever is paid, whether on one or a number of solutions, will apply on a continuous subscription to The Standard.

Solutions unaccompanied by cash subscription will not be registered. This contest is open to both old and new subscribers within the territory designated.

DECIDING TIES

In case there are ties, as many prizes will be reserved as there are contestants tied before any prizes are awarded for less correct solutions. For instance, if ten people tie on the correct solution, they would receive the first ten prizes, and those having the next nearest correct answers would receive the remaining prizes.

If there should be more ties than there are prizes offered a second puzzle will be presented. No money will have to accompany the solution of the second puzzle. The second puzzle will be practicable and solvable.

In the event of a tie on the second puzzle, a third will be presented to those that have tied. The second and third puzzles will be used only in case of ties. Their purpose will be merely to decide ties, so that in the event there is a tie, the prizes can be awarded without having to divide them or without resorting to chance.

However, only three puzzles will be presented, and in the seemingly impossible event of still another tie, the prizes will be equally divided. If there are no ties, there will be only one puzzle.

AS TO DIVIDEND PRIZES. Same will be divided between those who have the correct or nearest correct answers. ALL DIVIDEND prizes will be divided pro rata according to the amount paid in by the winner.

For example, if there are two contestants who tie having the correct or nearest correct answer, they will divide the first and second prizes of \$100.00 and \$75.00, giving them \$87.50 each, and will also be entitled to DIVIDEND prizes, which is forty times the amount paid in, or \$40.00 for the first prize and twenty times the amount paid in on the second prize, the two tying will then be entitled to divide sixty times the amount they have paid in, making thirty times the amount paid in on their subscription.

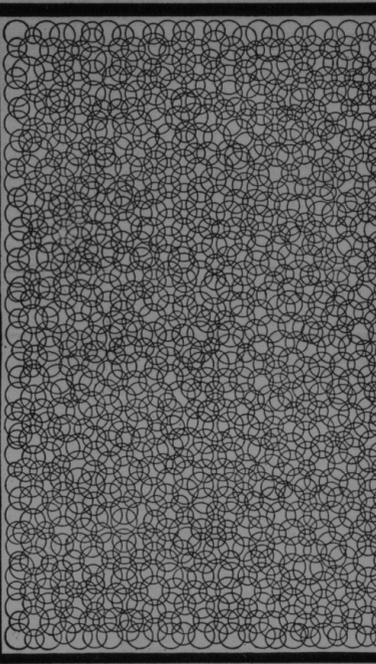

Now, if one paid \$2.00 and the other paid in \$5.00, the one paying in \$2.00 would receive thirty times the amount paid in or \$60.00 as his DIVIDEND prize, while the one paying in \$5.00 would also receive thirty times the amount paid in, or \$150.00 as a DIVIDEND prize.

This same rule and example will be followed throughout in the awarding of prizes in case of ties.

THE PRIZE LIST

FIRST PRIZE.

\$100.00 in gold, to which will be added 40 times the amount paid by the subscriber with the winning solution. This prize may be worth \$300.00.

The following table shows what the first prize will be worth, including dividends according to amounts paid in on subscription:

Table showing prize amounts based on subscription amounts: \$1.00 wins \$140.00, 2.00 wins \$180.00, 3.00 wins \$220.00, 4.00 wins \$260.00, 5.00 wins \$300.00.

SECOND PRIZE.

\$75.00 in gold, to which will be added 20 times the amount paid by the subscriber with the winning solution. Value of this prize may be \$175.00.

THIRD PRIZE.

\$50.00 in gold, to which will be added 15 times the amount paid with the winning solution. Value of this prize may be \$125.00.

FOURTH PRIZE.

\$30.00 in gold, to which will be added 10 times the amount paid with the winning solution. Value of this prize may be \$90.00.

FIFTH PRIZE.

\$25.00 in gold, to which will be added 5 times the amount paid with the winning solution. Value of this prize may be \$50.00.

TEN PRIZES.

\$10.00 in gold, plus 3 times the amount paid with the winning solution. Each of these prizes may be worth \$25.00.

FIFTY PRIZES.

\$5.00 in gold, plus twice the amount paid with the winning solution. Value of each of these prizes may be \$15.00.

SEVENTY PRIZES.

\$2.00 in gold, plus the amount paid with the winning solution. These prizes may each be worth \$7.00.

THE PROBLEM

The problem is to count the circles. Every circle is complete and intersects or touches one or more other circles. There are no parts of circles or shams or deceptions of any sort in the puzzle. In the event that no one counts the exact number the prizes will be awarded for the nearest correct solutions. Accuracy and patience are the main requisites for arriving at the correct or nearest correct count. Those who display these qualifications to the best advantage will solve the puzzle best.

SPECIAL ATTENTION

While the winning of the prizes does not in any measure depend upon the time the solution is sent in, it is best to begin counting at once and send in your solution as soon as you have finished. There is no limit to the number of different solutions you may send in. After a solution has been submitted, it cannot be changed.

All those entering the contest will be required to abide by the ruling of the Contest Manager. In the event of any questions arising the Contest Manager, if he deems wise, can appoint a committee to assist him in deciding them, and those who enter the contest do so with the understanding that such decision will be final.

Form for entering the contest, including fields for name, address, and subscription details.

KIDNEYS WERE SO SORE

DIDN'T KNOW WHAT TO DO

Gravel and Small Stones Passed Through the Urine

One of the most painful forms of kidney disease is Gravel or Stone in the Bladder, and is caused by the acid and lime in the blood uniting and forming a gritty substance which lodges in the inner surfaces of the kidneys or bladder, and sets up a painful irritation.

To relieve these terrible pains it is necessary to keep the kidneys healthy for healthy kidneys secrete fluids that dissolve the gravel and stones, and they pass out through the urine harmlessly and without pain.

Mrs. Elmire Baldwin, Windsor, Ont., writes: "I was so weak I could not do my own work. I tried many doctors, and every one of them told me to go to some institution. Reading of Doan's Kidney Pills, I tried them, and am now well, and can recommend them to all. My kidneys were so sore I did not know what to do, but after using the Doan's Kidney Pills, you would be surprised at all the gravel and small stones that passed through my urine. Now I am well and able to do my own work."

Doan's Kidney Pills are 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. When ordering direct, specify Doan's.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. McCURDY & CO.)
 Montreal, May 26.—Bears rallied C. P. R. on Wall St. this morning and as a result there was considerable selling of the stock here today, the price being carried down from 227 at the opening to 223 at the close of the afternoon. The rest of the market was firm, although trading was light. The annual meeting of the Dominion Textile Co. for the year ending March 31st was held this morning and the statement showed profits for the year to be \$1,831,130 an increase of \$4,122 over last year. The publication of the report had no effect on the stock, transactions occurring at 25 1/2 for the common and 101 for the preferred.

Spanish River Common which on Friday sold down as low as 53 1/2, strengthened today advancing from 55 at the opening to 57 1/2 at the close of the afternoon. Two small lots of Brazilian were sold ex. rights at 94 1/2. Brazilian rights are apparently not worth anything and it is thought likely that the stock will under the circumstances hold a little heavy for the near future. Montreal Power opened stronger at 223 selling down to 22 1/2 in the afternoon. The publication of a favorable annual statement and the belief that the company will shortly increase its dividend to 10 per cent. should make better prices for this stock.

The feature in the unlisted department was the continued activity in Montreal Tramway and Power and there seemed to be evidences of support being given to the stock at the low level. It was thought on the floor that the buying was in the nature of support from insiders after the continued decline the stock has been having. There was some inquiry for Bell Telephone Stock, prices being around 145 1/2; Dominion Cement was stronger at 73 1/2 and Canada Cement was steady around 22 1/2.

Little real activity is looked for however on the local market until there is a material improvement in money conditions. Private advices received here state that there is little money to be had in the West at the present time at a low rate even as 9 per cent. and the money market between 10 and 12 per cent. is the prevailing rate with very little offering even at the advanced price. Developments over the weakened how have been distinctly encouraging. The Montreal Power statement is even more favorable than was looked for and the Dominion Textile statement was very satisfactory. Besides the Ottawa Power favorable developments have not been discounted as yet. There seems to be quite a considerable difference of opinion among local bankers as to the outlook for the coming year, some contending that there will be not any easy money before next January while others contend that there should be a little money offering from time to time right through the summer months.

F. B. McCURDY & CO.

CLOSING LETTER FROM RANDOLPH

(F. B. McCURDY & CO.)
 New York, May 26.—This afternoon's market has been generally heavy. After the announcement that the S. P. and U. P. had arrived at a plan for dissolution, Union Pacific became active and heavy. Canadian Pacific was another weak feature. On the announcement that the B. R. T. dividend would be increased from 5 per cent. to 6 per cent. there was a considerable supply of stock seeking the market. The Supreme Court of the United States adjourned until 2:30 without rendering any decision in the Minnesota rate case. At three o'clock they are handing down decisions, but nothing has been received on this important case. Whether it is to come later in the afternoon is a question. It is to be hoped that it will be favorable or unfavorable to the way. The close was steady, close to the low level of the day.

Total sales stocks, 252,000; bonds, \$2,870,000.

E. & C. RANDOLPH

No Minnesota rate case decision.

NEWS SUMMARY AFFECTING MARKET

(F. B. McCURDY & CO.)
 New York, May 26.—The speculative and investment business abroad remains at the lowest possible ebb. Peace terms as the Balkans are still in the hands of the Supreme Court and will adjourn until June 9th. The Interstate Commerce Commission will hold its last May meeting today and may take up the increased freight rate case.

The government will tomorrow reopen the cotton pool case. The tariff bill is now expected to reach the floor of the Senate for debate June 10th.

The Supreme Court expects to adjourn for the summer about June 16th. The cases under advisement number more than 150.

The Iron and Steel markets show signs of expansion.

The vice-president of the National City Bank wants business on straining of credit. Information channels favor a waiting attitude.

Improving tendencies with aggressive buying on the realization of favorable news on strong rumors of developments which may be seen today.

Union Pacific, Southern Pacific, A. C. P. and U. S. Steel may be taken. Gnu, N. P. and St. are decidedly concerned with the Minnesota rate decision. Atchison, Mop, and R. I. are well bought. R. G. Pa., N. Y. Central, N. P. B. O., Erie and L. V. are taken on eastern rate advance proposition. Chino, Ray and Nevada are bought on dividend prospects. Brit. is taken on talk of an increased dividend. Y. C. is thought to have discounted an adverse element. Good absorption is claimed in Anc. Ar., V. X., Kan., Agt. Proment. New York reports a heavy borrowing demand for Reading, U. P. and some other leading stocks. A representative of leading Boston Copper interest states that Chino is now a proven enterprise, with the second largest proven ore body on the continent, and is our fifth largest producer, with cost of production about the lowest of any. A reduction of the idle car surplus hereafter until a shorter appears later in the year is understood to be regarded as probable by conservative sources. A well informed institution gives Rock Island interests to the effect that the Rock Island and Erie stocks should move independently as the companies have been absolutely separated for years.

CHICAGO, GRAIN AND PRODUCE PRICES

(F. B. McCURDY & CO.)
 Chicago, May 26.—Wheat—Market opened lower on the cables and rats in the middle west. The local crowd who bought Saturday are putting it out again today, and their wheat is going into strong hands on the dips. The reaction is natural as the advance has reduced the short interest and also induced profit-taking. Canadian news still bullish as news from the northwest, and it is claimed that Minneapolis Mills are said for enough ahead on flour to consume Minneapolis stocks and those in country districts.

Corn—Strong with offerings light and May shorts rather anxious buyers, commission houses have been doing a fair business on both sides, but the bulk of the buying was done by locals.

Oats—Eased on the rains in this state. There has been some realigning by smaller long. The new feature out west is bullish and there are grave fears of chinch bug in both Oklahoma and Kansas.

Provisions—Higher with hogs. Moderate trade. Market steady and quiet.

CLOSING COTTON LETTER.

(J. C. MACKINTOSH & CO.)
 New York, May 26.—While local sentiment this morning led to the view that the contract market was technically oversold, the weight of the favorable crop news appeared to overbalance such considerations. At any rate there were large blocks of contracts for sale early today and while strong resistance to the decline developed, prices nevertheless declined 8 to 11 points and retained the greater part of this loss to the end. Favorable weather and bearish private advices, such as the reports of Habersham King and the Journal of Commerce hereafter until a shorter appears later in the year is understood to be regarded as probable by conservative sources. A well informed institution gives Rock Island interests to the effect that the Rock Island and Erie stocks should move independently as the companies have been absolutely separated for years.

Feet So Sore Couldn't Walk Down Stairs

TIZ Cured Her Quick

Send at Once for Free Trial Package.

If you have sore feet, tired feet, sweaty feet, lame feet, tender feet, smelly feet, corns, calluses or bunions, read what happened to Mrs. Crockett of Jeffersonville. TIZ did it. Mr. Crockett says: "After the second treatment she walked downstairs one foot at a time. She had not been able to walk downstairs before in past five years, except by stepping down on each step with one foot at a time. This is remarkable. Send five more boxes."

No matter what ails your feet or what under heaven you have used without getting relief, just use TIZ. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely clog up the pores. TIZ cleans them out and keeps them clean. You will feel better the first time it is used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. If anyone offers you an imitation that is claimed to be "as good as TIZ," ask why, if it is just as good, they don't dare to come out and advertise it. Don't you be a victim—get the genuine TIZ is for sale at all drug stores, 25c. per box or direct if you wish. Money back if TIZ doesn't do all we say. Free letter will be opened, read and answered by a woman and held in strict confidence.

MRS. WILKES' BLESSING

Her Dearest Hopes Realized—Health, Happiness and Baby.

Plattsburg, Miss.—"Lydia E. Pinkham's Vegetable Compound has proved very beneficial to me, for now I am well and have a sweet, healthy baby, and our home is happy."

"I was an invalid from nervous prostration, indigestion and female troubles."

"I think I suffered every pain a woman could before I began taking Lydia E. Pinkham's Vegetable Compound, and I think it saved this baby's life, as I lost my first one."

"My health has been very good ever since, and I praise your medicine to all my friends."—Mrs. Verna Wilkes, R. F. D. No. 1, Plattsburg, Miss.

"The darkest days of husband and wife are when they come to look forward to a childless and lonely old age."

Many a wife has found herself incapable of motherhood owing to some derangement of the feminine system, often curable by the proper remedies.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and happy.

If you want special advice write to Lydia E. Pinkham Medicine Co. (contidential) Lynn, Mass. Free letter will be opened, read and answered by a woman and held in strict confidence.

FIRST ENGLISH HISTORIAN.

The first English historian, the venerable Bede, died at the time in the year 735. The most learned writer and most eminent Englishman of his age was born in 673. He wrote on astronomy, mathematics, grammar and music, but his chief claim to immortality is as "the father of English history." His title won by his authorship of the "Ecclesiastical History of the English Nation," an invaluable record of early English history. In his conclusion to this work, he wrote: "This much of the Ecclesiastical history of Britain, and more especially of the English nation, as far as I could learn either from the writings of the ancients, or the traditions of our ancestors, or of my own knowledge, has, with the help of God, been digested by me, Bede, the servant of God, and priest of the monastery of the blessed apostles Peter and Paul, which is at Wearmouth and Jarrow."

HER PREDICAMENT.

Sarah Bernhardt was narrating reminiscences of the stage to a group of friends.

"Maah notes," you call them, "n'est-ce pas?" she said, laughing. "Well, I received a very funny mash note once in a small town of your Far West."

"You are adorable," my mash note ran, "and I'd have preferred to send you orchids, but in this one-horse town, I am reduced to molasses candy, of which I am forwarding a two-pound bag? Will you take supper with me tonight? If you consent, blow your nose on the stage, and I will understand."

Mme. Bernhardt laughed again. "And the worst of it was," she said, "I had a bad cold at the time and was afraid to blow my nose all the evening."—London Opinion.

PROSPECTUS OF PROPOSED Weeks Silver Black Fox Company, Ltd.

Head Office at North Tryon, P. E. I.

Capital Stock

The Company will be Capitalized at \$100,000.00, divided into 1,000 shares of \$100.00 each.

The Foxes

There have been secured five pairs of 1913 pups guaranteed choicest selection of the Dalton-Tuplin strain. This stock needs no further comment as they are the world's best.

Terms of the Company

The promoters of the Weeks Silver Black Fox Company have so much faith in the future of the Fox industry and in the stock they have purchased, that they guarantee ten pups from the five pair during the breeding season of 1914, and for every pup short of this number they will forfeit \$5,000.00. This practically means a guarantee of upwards of 50 (fifty) per cent. for the first year. Taking into consideration the present price of 1913 pups and the fact that the five pairs are placed on the market at but \$20,000.00 a pair, it will readily be seen that this company offers the most lucrative investment made this year in the fox industry.

An-Up-to-Date Ranch

Mr. Hedley B. Weeks has purchased the beautiful farm property of Mr. George H. Callbeck, North Tryon, where the most approved ranch will be erected which is now under construction. This property is favored with the handsomest hardwood grove in Prince County and is most suitably adapted for a Fox farm. All modern burglar-proof alarms will be installed and a day and night watchman, with the protection of tested man-trailing blood hounds, will always guard the ranch.

Estimated Financial Returns

From the five pairs there should be fifteen pups. At present prices this would mean a net profit of about \$80,000.00 to the investors after deducting all ranching expenses.

No Organization Expenses

All the expenses incurred in the formation of this company, viz—the organization, including building of ranch, advertising; printing and all other incidentals will be paid by the promoters.

Applications for Stock

Applications for stock can be made to Hedley B. Weeks, Fredericton, P. E. I., or to any of the Directors. Payments: 10 p. c. of the subscribed amount must accompany application.

Ascertain Earnings of Issuing Company

The experienced investor does not stop with determining there is a large margin of safety in the security behind the bonds he considers purchasing. This carefully examines the earnings of the issuing company—since these earnings MUST pay the principal and interest of his investment.

Obviously, the bonds of a company with limited earning power are NOT a good investment, no matter how well secured they may be by surplus assets. Bonds may be sound, must be backed not only by ample security but by ample earning power.

A SOUND bond is the 6 per cent. issue of Brandram-Henderson Limited. Security is undoubtedly ample. Earnings are likewise. Net earnings for the fiscal year 1912 were almost sufficient to pay the bond interest FOUR times over. Reports for the first five months of the fiscal year 1913 show an increase in sales of 28 per cent. over the corresponding period of last year.

Enquiries for further information of this excellent bond are cordially welcomed. The yield is the high one of 6 1/4 per cent.

LIVE TOPICS OF SPORT AT HOME AND ABROAD

GREEKS AND FREDERICTON SPLIT EVEN AT CAPITAL YESTERDAY—TEN INNINGS TO DECIDE LAST GAME

MARATHONS, 9; FREDERICTON, 8. Special To The Standard. Fredericton, May 26.—Fredericton and St. John divided the honors here today in the opening games of the New Brunswick and Maine League season...

By innings: 1 2 3 4 5 6 7 8 9. St. John: 3 0 0 1 2 0 0 2—8. Fredericton: 1 0 0 0 0 1 6—8. Summary: Two base hits—Blen, O'Brien, Marcotte, Deamond. Three base hits—White, Flynn, Home run—Waterhouse. Sacrifice hits—Little, Mulligan (2). Stolen bases—O'Brien (2), Blen, Flynn, Gerard, Hits off Gerard, 9 in 6 innings; off Condon, 3 in 3 innings; off Walsh, 10 in 8 1/2 innings; off Shanley, 2 in 2 1/2 innings. Double play—Waterhouse to Mulligan. Bases on balls off Walsh, 1; off Gerard, 5. Strike outs by Walsh, 1; by Shanley 1; by Gerard 1; by Condon 4. Hit by pitcher by Gerard Mulligan, by Walsh Spring. Left on bases—St. John, 11; Fredericton, 5. Umpire, McCann. Game of 2 hours, 25 mins. Attendance—500.

FREDERICTON, 4; MARATHONS, 3. This afternoon Umpire Hanley arrived on the scene and he worked at the plate with McCann on the box. Hanley's troubles started early when he called a ball that was pitched and struck Bobby Black's bat in the first inning. Catcher Spring thought the umpire said ball and started to argue with him that it should have been called a strike. While this was going on two runners crossed the plate. Alcorn and Woodbury were the opposing pitchers this afternoon and both did some fine twirling. Only four hits were registered off Alcorn in the ten innings, while Woodbury held Fredericton to one hit up to the ninth inning. The game also abounded with fast fielding in which White, Marcotte and Spring of Fredericton and Waterhouse and O'Brien of the Greeks started.

Fredericton got back the two scores they hadded the Marathons in the first by taking advantage of the other fellows' mistakes in the second inning. White got a line when Waterhouse fumbled his grounder and went along to second when O'Callahan drew a base on balls and then went to third on Marcotte's well placed sacrifice. Both White and O'Callahan scored when Waterhouse let Alcorn's grounder go through him.

The score remained tied up until the tenth although Fredericton looked good for the game in the ninth. In that session Hank Callahan delivered with a fine triple to deep centerfield with one out, but remained anchored while White and O'Callahan went off. In the tenth the Marathons got out.

WATT FOR MARATHONS. As the result of a trade with Fredericton yesterday the Marathons have secured Catcher Watt who was a valued member of Biddolett's Houston team last year. In addition to being a classy catcher Watt is also a good first baseman. It is possible the Marathons will use him most on the initial bag. He is also a good stick artist, as

shown by his batting average of .309 for last season.

ELKS VICTORIOUS. In the intermediate league game last evening the Elks defeated the Athletics by a score of 1 to 0 in a five inning contest. The batteries were McGourty and O'Regan for the winners, Gorman and Doyle for the losers.

BOWLING ON BLACK'S YESTERDAY

In the two men competition on Black's alleys last night Belyea and Ferguson took the six points from Brown and Stubbs. Sullivan and Armstrong split even with Brown and Stubbs in the second game. The score follows:

WILL HOLD A REGATTA NEXT JULY

An executive meeting of the St. John Power Boat Club was held last evening at which 15 boats were enrolled. It was decided to appoint a committee to arrange for a regatta to be held on Indian Harbor Saturday, July 26. The programme will include canoe races, single scull, four oared, ratmen's race, fishermen's race, tender rowing race, and several freck races. It is expected that this regatta will eclipse anything attempted in the regatta line for some years past.

INFLAMMATORY RHEUMATISM

Completely Cured by GIN PILLS. Mr. W. G. Reid, of Hamilton, Ont., one of the best known and most highly respected commercial travelers in Canada, was a cripple from Rheumatism and suffered terribly. GIN PILLS cured him. Mr. Reid writes as follows: "I have been for the last two years a cripple with Muscular and Inflammatory Rheumatism. I tried almost everything known to medical science to relieve me of the intense pain and inflammation. I sought change of climate in Kentucky and other Southern points without relief. Your manager in this city recommended GIN PILLS and I have since taken eight boxes and am now cured. I consider GIN PILLS the conqueror of Rheumatism and Kidney Diseases."

THE JUBILEE CROSSING EXERCISES AT MOUNT A.

Senior Recital at Ladies' College a Decided Treat—Mount Allison Dramatic Club Scores in "She Stoops to Conquer"—Fine Work Shown at Owens Museum.

THE SENIOR RECITAL AT LADIES' COLLEGE

Sackville, N. B., May 26.—Despite the threatening aspect of the weather, Charles Fawcett Memorial Hall was filled this morning when the Ladies' College Senior Recital was presented.

The programme was as follows: Part I. Piano Solo, Concert in C Major, Weber—Miss Greta Moore, Amherst, N. S.

Songs: (a) At Dawning, Wadsworth, (b) At Parting, Rodgers—Miss Annie Ford, Sackville, N. B. Oratory, The County West of Job and Jostina, E. S. Phelps—Miss Nan Gass, Shubenacadie, N. S.

Violin, "Heavenly Violin," with organ accompaniment—Miss M. Armstrong, Newcastle, N. B. Piano Solo, "Scherzo C Sharp Minor," Chopin—Miss Marie Fullerton, Parrsboro, N. B.

Songs: (a) "O cessate di plangere," Scarlatti, (b) "Madrigal," Chaminade—Miss Jeanne Tr. p. n. e. l, St. John's, N. B. Oratory, Ann's Confession, cutting from Ann of Green Gables, L. M. Montgomery—Miss Helen Ford, Sackville, N. B.

Piano Solo, (a) La Filieuse, Raff, (b) Two Preludes—Miss Grace Farquhar, Germantown, N. S. Song, La Serenata, Braga, (violin obligato, Mr. B. Myers)—Miss Vega Groland, St. John, N. B.

Quintette, Symphony, Haydn—1st violin, B. Myers; 2nd, G. Allen; viola, C. Pickard; cello, Littlejohns; contra bass, E. Spicer. Oratory, Sceno from The Rivals, Sheridan—The Misses Raymond, New York, Gass, Francis, Halifax, and Filmore, Sackville.

Piano Solo, (a) Andante in F Major, Beethoven, (b) Moto Perpetuo, Weber—Miss Elsie Tait, St. John's, N. B. Song, Ave Maria, Schubert—Miss Nan Clarke, Bear River, N. S. Cello Solo "Berceuse," Godard—Mr. Littlejohns, Manchester, Ont.

Piano Solo, (a) The Maid of Ganges, Mendelssohn-Liszt, (b) Valse in A Flat, Chopin—Miss Elva Nicholson, St. Stephen, N. B. Overture, (Three plans) "If I Were a King," Adam—Misses Farquhar, Hewson, Moore, Nicholson, Spicer and Tait.

A piano solo by Miss Grace Farquhar, of Germantown, N. S., was quite a pleasing feature. The touch of the performer was very delicate and the shading effect fine. The ensemble work of the quartette was exceptionally good and received well merited applause.

The oratory department was represented by Misses Raymond, Gass, Francis and Filmore, who presented a scene from Sheridan's "Rivals." This was an interesting feature of the concert.

A piano solo, the Andante in F major, by Miss Elsie Tait of St. John's, N. B., was of a very high order. The selection was extremely difficult in the matter of interpretation but it received justice at the hands of the player.

The singer work was most noteworthy and was quite astonishing. The beautiful Ave Maria of Schubert received thoughtful treatment by Miss Nan Clark of Bear River, N. S. The solo work of Miss Clarke, who graduates this year, is good. F. Littlejohns, as usual, delighted the audience by his rendition of "Berceuse" by Godard.

Miss Alva Nicholson, of St. Stephen, N. B., who is one of the brilliant graduates of the college, presented a piano solo, "The Maid of Ganges," by Mendelssohn-Liszt, and "Valse in A Flat," by Chopin.

copper and wood working painting and sketches are among the courses pursued by the students. Prof. Hammond's studio is the most interesting spot in the building. A great number of canvases this year are being shown—marines, landscapes, mountains, marines and plaid work.

Prof. Hammond, this year has made comparisons with his previous exhibitions. The color this year is richer and warmer. A number of pearly and silver tones were noticed which were very beautiful, especially those dealing with marine subjects.

The closing selection was a fine overture (three plans) and six performers from the comic opera "If I Were a King," by Adam. It would surprise one to hear the great position and clever attack of the various parts of the composition.

The concert as a whole seemed to be thoroughly enjoyed by the audience and proved the excellent work and exceptionally high standard which prevails at Mount Allison. The programme was much more difficult than in previous years, but the technical difficulties seemed to be overcome in an easy manner.

Among the visitors in Sackville, N. B., were the following: Mr. and Mrs. J. S. Flaherty, Mr. and Mrs. J. S. Flaherty, Mr. and Mrs. J. S. Flaherty, Mr. and Mrs. J. S. Flaherty.

Other periods are also shown, including the work of the Mount Allison Dramatic Club. The work of these students is characterized by its strength and freedom, while at the same time it exhibits a richness of tone.

In the Arts and Crafts, special mention should be made of the work done by Miss Nellie Turner of Sackville. In this exhibit, is some very fine wood carving of the Renaissance period.

Other periods are also shown, including the work of the Mount Allison Dramatic Club. The work of these students is characterized by its strength and freedom, while at the same time it exhibits a richness of tone.

While it is necessary for the dyspeptic to abstain from rich, greasy, highly seasoned food, it is equally important to deprive the sufferer of a full supply of good nutritious food sufficient for the needs of the body.

Visiting His Native City.
 Frank Elkin, a former resident of North End, but now located in the west, is visiting his former home. Since going west he has been connected with the R. Johnston Shoe Company. Mr. Elkin says that the stringency of the money market in the west has had a depressing effect on business conditions.

More Farms Secured.
 James Gilechrist, secretary of the Farm Settlement Board, who has been on a trip through Albert and Kings county, was in the city yesterday. He said the Farm Settlement Board had recently taken over two farms near Nixon, in Albert County, and two others in Kings County, one near Havelock and the other near Cornhill. A. W. Hay is at present on a trip to the North Shore, looking over some farms that the Board may decide to purchase and resell to natives of the Province. Two men arrived in the city yesterday from Scotland, and were referred to farmers in Kings County, who want help.

Factory Inspector on the North Shore.
 John Kenny, provincial factory inspector, has returned from a trip of inspection to the North Shore, and the Edmundston district. On the North Shore, said Mr. Kenny, "the lumber mills are very busy, but on the St. John river, a few of the mills are not working, owing to the inability to get out the drives. One thing I was much gratified about on this trip was that I found the mill owners and factory managers much more anxious to carry out the provisions of the factory act, and I did not have to order many changes. So far as I could judge business in the districts I passed through was very good, with nobody idle that wanted to work. There is no doubt that the Province industrially is advancing very rapidly."

PERSONAL.
 Fred Mahony, of Brock & Peterson's, who has been confined to his home in Main St. for about a month, with sickness, has recovered and is able to be out again.
 Miss Elizabeth Keith returned to the city yesterday after spending the holiday with her parents, Mr. and Mrs. J. M. Keith, Havelock.

CIVIC AUTHORITIES
INSPECTED WORK AT HAYMARKET SQUARE

Matters in Connection with Street Railway Extension to Kane's Corner also Received Attention Yesterday.

The mayor and city commissioners inspected the work in connection with the extension of the Street Railway tracks to Kane's Corner yesterday afternoon. Representations have been made to the commissioners that they ought to cut down the bill near the corner of Egbert road in order to provide a better grade for the street car tracks, but investigation showed that to lower the roadway at that place would involve a rock cutting, as well as bringing the surface of the road too close to some of the water mains. The commissioners felt that the best plan to improve the grade of the road would be to do some filling in near Cooper's Corner, and it is probable something will be done in this connection to provide a better grade for the street railway, as well as for general traffic.

The commissioners also inspected the work in progress at Haymarket square, where Commissioner Agar is making an effort to improve the appearance of that piece of public property, which has been somewhat neglected in the past. The plans for the improvement of the square provide for the raising of the grass plots and the flower beds, and the removal of the walks.

Mr. W. S. Brown.
 Newcastle, May 26.—The death of Mrs. W. S. Brown, an aged resident of Newcastle, occurred in Ambrose yesterday at the residence of her daughter, Mrs. H. W. Crocker, where she had been visiting for a short time. The remains will be brought home this afternoon and the funeral will be at St. James' cemetery tomorrow afternoon. Deceased leaves four children, L. S. Brown, assistant superintendent of the Campbellton-Moncton and Loggieville-Fredericton sections of the I. C. R.; Wm. Brown, of the L. C. R.; Campbellton; Mrs. Crocker, Amherst; and Mrs. Morrill, Boston.

ALBERTA ATTORNEY TELLS OF ISAACS' LAND DEALINGS

G. R. O. Fenwick, Assistant District Attorney of Alberta, Relates Circumstances Leading to Arrest of St. John Man in New York.

G. R. O. Fenwick, assistant provincial attorney of the Province of Alberta, arrived in the city yesterday from Edmonton with a view to presenting the case against Richard D. Isaacs, who is alleged to have uttered forged documents and obtained money under false pretences in the Province of Alberta. Mr. Fenwick is staying at the Royal Hotel, and will go to New York on Wednesday or Thursday where, through the British Consul, he will take an active part in bringing the extradition proceedings to an end. Isaacs, in his deals in Alberta, said Mr. Fenwick, used false land titles, purporting to be issued by the Edmonton land office of the signature of D. A. Smith, as deputy registrar. Andrew Myles and Albert McArthur, two St. John men were victimized in this manner, together with several others in different eastern cities.

When the deeds were sent in to the registrar of Alberta, it was found they were forgeries and the victims were notified. The resulting investigation brought to light the fact that the Edmonton land office had never existed, and that the signature of D. A. Smith as deputy registrar was equally unknown. The case was then placed in the hands of the Pinkerton Detective Agency at Montreal, under the supervision of Chief Detective W. J. McNamara, who, after several months work, secured the evidence on which Isaacs was arrested in New York.

The investigation showed that the frauds extended over a considerable period, and embraced large sums. In several cases the victims were induced to purchase lands which did not exist, while in others the land existed but was owned by different parties who were greatly surprised when the news of the sale reached them.

OPINION IS HELD UP

Commissioner McLellan's Statement Discussed Yesterday—Some Citizens Declare it Does Not Explain All

Com. McLellan's statement in regard to the options on the Municipal Home and farm caused a great deal of discussion among citizens yesterday, but there did not seem to be a very great disposition to accept the statement as an explanation.

Due to the length of the statement many citizens admitted that they had put off reading it till they had leisure, and some of those who read it all remarked that it did not seem to explain what they wanted to know. The general opinion seemed to be that the statement would have been made to the county council before the vote on the option was taken, thus placing the responsibility on all the councilors.

Mr. McLellan's statement that the option would be taken if it did not seem to be taken seriously by the people, the opinion being that in spite of the explanation, Warden Carson would adhere to his decision not to implement the resolution of the county council.

The councilors for the city who voted against granting the option declined to discuss the situation yesterday, but they seemed to think that the matter would remain in abeyance and that no option would be granted.

H. A. Powell, K. C., to take out an injunction against the granting of an option on the Municipal Home declined to express any opinion on the situation, but Mr. Powell, who has been to Newcastle, stated the other day that he would not sign an option of transfer of any sort, and that he felt satisfied the warden would not make any move in the matter without giving him a chance to apply for an injunction.

There has been some talk of calling a special meeting of the county council to reconsider the matter.

SOON BEGINS

Passage of Dominion Government's Agricultural Bill will Give Local Government Opportunity to Proceed at Once

Hon. J. A. Murray, of Sussex, was in the city yesterday. In conversation with a Standard reporter Mr. Murray said that matters in connection with the local government's proposition to establish an Agricultural School at Sussex had been held up pending the action of the Senate on the Agricultural Bill, but now that the Senate has passed the bill and thus assured the availability of the federal grant for agricultural purposes, the local government would be in a position to proceed at once with its plans for the new school at Sussex.

"A meeting of the local government will be held in a day or so," added Mr. Murray, "and I expect that after the meeting Dr. Landry, the Minister of Agriculture, will come to Sussex and look over the situation and make arrangements for having the work of building the school started as soon as possible.

Officials of the Department of Agriculture have been looking into the matter and they have decided that the best place for the agricultural school is on the grounds near the High School. Everybody is agreed that this would be the best site, as it would give students attending one school an opportunity to take advantage of the courses in the other. The new school building will be one hundred feet in length by fifty feet in breadth, with two stories and a basement. When the school is in operation it will prove of great benefit to the people of Kings county, and the surrounding counties."

Mr. Murray, in reply to a question, said business conditions in Sussex were very good, though there was no boom in progress. As for the farmers of Kings county, he said they were not particularly pleased at the backwardness of the season, but that the cold weather had so far done nothing worse than retard farming operations, and that with a favorable summer need not mean any loss to the farming community upon whom the prosperity of Kings county depended.

LOST CLOTHING AND BELONGINGS IN FIRE

Camping Party had Hard Luck—Camp Burned, Fishing Tackle and Sum of Money Lost.

The holiday on Saturday proved a very unpleasant one for Alphonse Kelly of the North End who with three companions left Friday evening to spend the day on a pleasant fishing trip.

Leaving Friday evening for Ononnet, a party of four men, Alphonse Kelly, Frank O'Brien, Tom Donovan and T. Lynch, slept the night in their camp and about nine o'clock in the morning while they were out the building caught fire and was completely destroyed. Besides the loss of the building and furniture, the fishing rods along with some other articles and the total loss is estimated at about \$1,600. While attempting to remove some of his belongings Kelly received a bad burn.

MARBLE COVE SEWER MATTER DISCUSSED

Preliminaries Arranged for Building Bridge to New Sub-division Known as Alexandra Heights—Other Business

At the meeting of the City Council yesterday the Marble Cove sewerage matter was advanced another stage and preliminary provision made for the building of a bridge to the new subdivision known as Alexandra Heights. A number of routine matters were dealt with.

Com. Agar made a report on the proposals of F. A. Dykeman, W. C. Cross and others regarding Alexandra Heights. He recommended that the city should apply to the Railway Commission for permission to erect a bridge over the railway track at the foot of Alexandra street, the cost of such application to be a charge on the property benefited, and that the city bear half the cost of constructing the bridge, such half-cost not to exceed \$1,500. He also recommended that the city lay water and sewer mains through Connaught street, on the understanding that the property owners guarantee 10 per cent. on the outlay. The property owners are to grade Connaught street and make and grade a street leading to it from Chesley street, and deed the same to the city along with their share of the bridge.

Com. Agar's recommendations were adopted and the recorder will draw up an agreement covering the various conditions.

The N. B. Telephone Company was granted permission to erect a pole at the corner of St. James and Pitt streets.

A Commendable Action.

Com. McLellan recommended that the wagon and accessories which were the personal property of the late chief of the fire department be purchased by the city for \$200, and also that in consideration of the long and efficient service of the late chief, extending over a period of more than 30 years, a gratuity of \$150 be allowed his widow. The recommendation was adopted.

The tender of the Granite Street Paving and Construction Co. to supply 2,200 feet of striated granite curbing for 67 cents per foot, and 200 feet of circular granite for 90 cents per foot, was accepted.

The Marble Cove Sewer.

Com. Wigmore brought up the matter of having the city recorder make arrangements for the expropriation of rights of way for the Marble Cove sewer, and also to report on the claim of Mrs. Mary Wilkins for damages arising from an alleged defective sewer.

His Worship stated that in 1908 the city had spent \$9,650 for dredging and other work in connection with the provision of an outlet for the Marble Cove sewerage district, and that it still remained a mystery as to what benefits resulted from the work.

The proposed new sewer would cost about \$10,000 and the acquisition of rights of way would mean an expenditure of several thousand more. Although the city is making an outlay of about \$25,000 on this sewerage district.

Com. Wigmore said that nobody knew how the expenditure in 1908 had been made. But for the present sewer it was important, as it would drain the North End from Douglas Avenue to Indiantown hill. A great many new closets were being put in and the sewer was becoming more necessary every day.

A motion to have the recorder look into the matter of expropriation of rights of way, and also into the claim of Mrs. Mary Wilkins was adopted.

Fred Long was granted a renewal lease of Lot 861, Guys Ward, for 7 years.

A letter was read from the Union of New Brunswick Municipalities calling attention to the convention in Moncton this summer and asking the council to pay the yearly dues of \$60.

A letter was also received from the Union of Canadian Municipalities, asking the council to send delegates to the convention at Saskatoon in July. Both letters were referred to the Mayor.

Council adjourned.

A Little Wanderer.

Yesterday afternoon the three year old son of Mrs. George McInnis was found by Policeman Gardner wandering about Smythe street and was taken to the police station for protection. The little fellow was called for later and taken to his home on Brunswick street.

Now that the housecleaning has been achieved you will note many of your window draperies which need renewing and certainly you would like the prettiest at the lowest possible price. This season F. A. Dykeman & Co. have made a special purchase in this line in curtains all ready for hanging and in certain muslins by the yard. They purchased their curtains direct from the manufacturer and are selling them to their patrons at practically the wholesale prices. They can afford to do this as they save the middleman's profit. The curtains range in price from 48 cents a pair upwards. An extra special lot curtain muslins with frilled edges. These come spotted and figured and make up very daintily for bedroom or dining-room windows. Price only 10 cents a yard. A fine assortment of serims and mullins at from 8 cents to 35 cents a yard.
