ONLY FIRE CAN CLEAR SERBIA OF TYPHUS, SAYS SIR THOMAS LIPTON

Declares Conditions in Little Country, Fighting for Its Existence, Are Desperate—Houses Must Be Burned—Situation Entirely Beyond Control of Present Force of Doctors

London, March 23, 12.15 a. m.—"Just as it took fire to stop the great plague in London, so fires are needed to clear Serbia of typhus. Infected houses and the clothing of the people must be burned, as the disease is carried by vermin, which is omnipresent," said Sir Thomas Lipton tonight in a statement to the Associated Press, in which he recounted the appalling conditions in Serbia, where he spent a considerable time in personal investigations.

"I met on the country roads the sick, too weak to crawl to a hospital; bullock carts were gathering them up. Often a woman and children were leading bullocks, the husband and father in the cart, raging with fever. Scarcely enough people remain unstricken to dig graves for the dead, which lie exposed in the cemeteries.

ROYAL COMMISSIONER CHANDLER OPENS COURT

Messrs, Carter and Veniot Present Matters to Be Investigated, and Sessions Are Likely to Be Held in Fredericton Bathurst and Buctouche-Berry to Be Subpoenaed-Attorney General Announces That the Probing Should Be Thorough.

Fredericton, N. B., March 18-When W. B. Chandler, Royal Com investigating the government departments, opened his court this morning there were present Attorney-General Baxter and Hon, John Morrissy and Messes. B. were present Attorney-General Baxter and Hon, John Morrissy and Messes. E. S. Carter and P. J. Veniot who laid certain information before him. Mr. Carter touching the payment of \$2,903 by the Dalhousie Lumber Company as stumpage in 1913 which was not accounted for in the receipts of the province and Mr. Veniot respecting reported irregularities upon certain roads and bridges in the making up of the accounts and also concerning the purchase of certain farms by the Farm Settlement Board in Gloucester county.

The attitude of the commissioner and the attorney-general was that the government wanted a thorough investigation and the request of Hon. Mr. Morrissy to have this done was published some time ago. The commissioner decided to summon some witnesses by letter and to issue a subpoens for W. H. Berry, to inquire into the complaint of E. S. Carter and hear the evidence on next Thursday morning, March 25.

day morning, March 25.

Mr. Carter said that he had no idea that any witnesses would refuse to attend with the exception of Willard H. Berry. "That is just what occurred to me," replied the attorney-general amid laughter.

Commissioner Chandler, speaking with regard to the information concerning the work of the Farm Settlement Board in Gloucester county said that he doubted if the matter came within the scope of his commission. The board

Mr. Veniot said that last year the Farm Settlement Board had been placed under the supervision of the minister of agriculture and must be regarded as a portion of that department.

nev-General Baxter: "If there is anything wrong we want it made

right. If there is anything rotten we want it cleaned out."

Mr. Veniot said that he had suggested to Commissioner Chandler that, on account of the large number of witnesses who would be called in connection with the matters affecting Gloucester county, the hearing could be better had

at Bathurst or Caraquet.

In accordance with the suggestion sessions will be held at Bathurst in connection with the charges connected with public works in Gloucester county and probably at Buctouche on charges caonneced with public works in Kent county. The services of interpreters areto be procured on account of many of the witnesses being French.
Attorney-General Baxter repeatedly made the statement that the

ment was desirous of unearthing any wrong doing and made particular reference to certain people who, he said, had been going through the country making charges of wrong doing against certain departments. Those were the people whom he meant to have before the commissioner to show if they were speaking

The commissioner waived the formal reading of the charges preferred by Mr. Venoit in connection with public works in Gloucester and Kent counties and read a list of witnesses required by Mr. Carter in connection with the information in relation to the Dalhousie Lumber Company.

The attorney-general inquired concerning the nature of the information on Shippegan Island barren toward Lameque road, saying that all government departments continually had to hold up accounts for unauthorized cost. If such accounts had been sent in and held up the department had done what it ought a three floors.

Mr. Veniot: "My information leads me to believe that the accounts sent is

Mr. Veniot: "My information leads me to believe that the accounts sent in to this department are padded accounts. If the minister of public works will state that they will not be paid until fully investigated by his department, I am willing to drop the matter." . . .

The attorney-general said that the government did not wish any of the information to be withdrawn. He could see, however, no reason why a department should be blamed if certain people attempted to defraud it and were pre-

Mr. Veniot said that the men who were said to have made the attempt in regard to the roads were also acting as foremen on bridges.

Attorney-General Baxter asked if there would be any further information against any departments. We did not want an investigation in connection with one completed only to find that another was required in some other department. Mr. Carter replied that the business of investigation was no more pleasant to him than to any one else. He had no intention of bringing forward information that he did not believe to be authentic and hoped there would be no necessity of asking further time taken.

The attorney-general then made hisremarks concerning those who had been

"There are certain gentlemen, said he "who from time to time have indulged in a good deal of talk. I think that if they don't come out and make their charges that the commissioner should summon them and find out if they are speaking facts or merely hearsay. If there is something wrong we propose to put it right or stop the mouths of those who have been going about the country slandering people."

BRITAIN LOSES THE OCEAN AND IRRESISTIBLE; FRENCH SUFFER LOSS OF THE BOUVE

London, March 19, 11.10 p. m .- The British battlehips Irresistible and Ocean and the French batleship Bouvet were blown up by floating mines, while engaged with the remainder of the Allied fleet in king the forts in the narrows of the Dardanelles Thursday.

The crews of the two British ships were virtually all saved, having been transferred to other ships der a hot fire, but an internal explosion took place on board the Bouvet after she had fouled the mine, and most of her crew were lost. The Bouvet sank within three minutes of the time that she hit the mine.

The waters in which the ships were lost had been swept of mines, but the British Admiralty as-Serts that the Turks and the Germans set floating containers of explosives adrift and these were carried of about 40,000 barrels of potatoes said D. tore down the British ensign and threw it on the deck and trampled it under foot in a frenzy of rage. He then held some of the pieces of the flag in front of the men like an old time pirate to insult them and irritate them. One of the men suggested that he might not be able to do that three months from that date, and Herr Lieutenant whipped out a revolver and said that if the seaman repeated the statement he would be shot. However all got into their boats and left the ship, which was then torpedoed by the German submarine and sunk. Later they were picked up and taken to Scot-
