Watchmaking in Switzerland.

From the Swiss Times of May 30.b.]

We have already drawn attention to the annual meeting of the Society of Arts hold on the 25rd current, under the presidentship of M. Th. de Saus ure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, ussed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Gene vese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom the award the paim of excellency unanimously decided in favor of Messra. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Sction, closed the meeting with a happy and humorous dissertation upon subjects connected with this department. [From the Swiss Times of May 30.h.]

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in obarge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs, J. M. Badollet & Co. Beneath his straw hat there peered an eye, And his empty stomacn grew flabby and dry. He whistled a tune with a vague unrest. And a tear coursed down his yellow-tailed ver He tsallied out on the open street, And he sought in vain for a man to treat. Some one came, but his pallid cheek Told the playful story he couldn't |repeat. He leaned his frame 'gainst a friendly porch, And his ¶cla: et-bin shone like a well-lit torch. Oft hath he stood 'neath the moon's bright glow, And watched the Policeman come and go, For of all sad words e'er writ in a book. The saddest are, "by a ***peeler took." His ballad grew faint and his breath got shorter When he halted in front of a pestle and morter And his lips turned white, and he shivered with chills.

As he modestly asked for a couple of pills.

He looked as wild as an egg hard boiled, And he thought of his garments seedy soiled. Then he threw his pipe and his cup away, And † "went on a keg" for a year and a day The sun shot down in a golden beam.

Cherry Pectoral, r Diseases of the Throat and Lungs such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Cherry Pectoral will and does relieve and cure the affilicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, Cherry Pectoral is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitist, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toli is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever eff Butter.

TENDERS will be received at this Depart ment, at Ottawa, up to noon of MONDAY the 37th September next, for the construction of Light Houses at the undermentioned places, viz.—
