The Candidates.  
 There are two candidates in the field for the representation of this city in Parliament. Mr. DeVeber is the Liberal candidate, pledged to support the "Grit" or "Reform" Ministry, and Mr. Skinner is the Conservative candidate, pledged to take an independent position in the House. Mr. DeVeber has the hearty support of the Anti-Confederate papers, and Mr. Skinner has the support of the Freeman. Mr. DeVeber has the support of the Liberator. Mr. Skinner was brought out by Mr. Tilley's old friends, and is supported by the party that followed Mr. Tilley for so long a time. Mr. DeVeber will give the Government, call it Grit or Reform, or what you like, a liberal support, and Mr. Skinner will support only those of its measures that appear to him to be calculated to benefit the country. Mr. DeVeber is to be elected to support a certain Cabinet. Mr. Skinner is to be elected to support the good measures of the Government, and to oppose the bad.

St. John. The manner in which labor on the roads has been done ever since a crying "ill," and every well disposed and right thinking person has favored an entire abolition of the great force of state labor. Last year a bill was reported to the Session, by the Bill Committee, and it passed almost without a dissenting voice. At the meeting it was met by petitions in opposition. These petitions were going by interested parties, and forwarded to the members for the County. The members, consequently, said they could not support the Bill without there were petitions in its favor.

It was shown that on one of these petitions there were the names of no less than thirty-six office holders. The enlarged committee have, this last few weeks, been at work preparing a bill, amended slightly from last year's, which will entirely change the system of repairing the highways, and prevent the abuse of arrears that is now a disgrace to the County. There are of course in the various parishes who have made no returns for years, and others who make returns but keep the money collected. The whole system is probably the rottenest of any in Civil, County or Provincial affairs, and requires the strictest attention of the Legislature. Some of the best working members of the Board of Magistrates have worked to get such a bill passed for the last few years. The opposition of their brother justices has been gradually overcome, and we hope to see the House of Assembly this year pass the bill. After this bill has been passed by the Sessions the bill will be circulated in its favor throughout the County.

After several days' silence an intimation appears in one of the Government papers—the Freeman—that the statement made in 'The Tribune' in reference to the Victoria Hotel meeting are privately denied. The Freeman suggests that Mr. DeVeber had nothing to do with bringing Mr. DeVeber out; that Mr. DeVeber had nothing to do with the meeting, and that the intimation was a mistake. Mr. DeVeber has nothing to say in reply to this denial. He is a representative of whom the constituency will have no reason to be ashamed.

This is the anniversary of the birthday of St. Cecilia, the patron saint of music, who is said to have been the inventor of the organ. She was born of noble parents in Rome, near the base of the second hill of the city. In the fifth century a church was erected in Rome to her memory, and in 821 her bones were removed to the church and deposited there. This anniversary is always celebrated in Rome with great pomp. A grand celebration is to take place to-morrow evening at Tanmanay Hall, New York. It will be the only occasion in which the greatest singers in the city will take part.

Why Mr. Burpee Was Not Opposed.  
 To the Editor of the Tribune.

At the Victoria Hotel meeting of the Liberal Committee one of Mr. Burpee's friends distinctly stated that Isaac Burpee told him that he had nothing to do with bringing out DeVeber, and that he did not intend to support him, or have anything to do with his election. Another said that he had seen Mr. Isaac Burpee, and he said the same to him. Another repeated this. The issue then is between the gentleman and Mr. Burpee. By these representations the Liberal Committee refrained from nominating a candidate to oppose Mr. Burpee. If Mr. Burpee was deceiving the gentleman, as he deceived electors at the last contest—promising to support Mr. Tilley, when he was secretly in league with his enemies—then surely there is a gentleman to be found to oppose Mr. Burpee that in politics is in other things "honesty is the best policy." You state that of what took place at the meeting I strictly trust, and you ought to detail it.

Nothing will set some women up in the world like having somebody foolish enough to promise to marry them and afterwards refuse to do so. In the case of Miss Patterson, Freeport, Me., she was promised a good home and a good man to marry. She was deceived. We are afraid that nothing but a discovery of rich deposits of gold will ever take settlers back to Alaska. Somebody, evidently interested in the subject, has started a report that the gold mines in Canada are being worked out. We shall wait till the gold has been returned before settling out for that. We are, however, very much interested in the claims of the pioneers, to do the same.

Mr. Henry Clint, a merchant and ship-owner of Liverpool, was passing through the banking court, married in 1868, and before marriage made a settlement on his intended wife, which included the title to the estate of his father. He conveyed to her "all future real and personal estate which he should acquire by any means during the intended marriage." Under this deed Mr. Clint could never become possessed of money or real estate, but he could not be forced to carry on business in his own name, to all appearance a man of wealth, and a man of great credit. He was a man of great credit, and a man of great credit. He was a man of great credit, and a man of great credit.

 Mr. JAMES I. FELLOWS.  
 GREAT SIBERIA. I am very happy to acknowledge the benefit I have received from the use of your Compound Syrup of Hippocampus. I suffered most acutely from a severe cough, and a most violent asthma, for which I had tried every thing I could hear of. I at last commenced the use of your Syrup, and after taking one bottle was able to attend to my avocations. I continued according to directions till I had used nine bottles, which effected a permanent cure. With much gratitude, truly,  
 M. SCULLY, Teacher.

London, Nov. 21.  
 Despatches from the Coast Castle report that Col. Festing, with 400 men, surprised an Ashantee camp of savages who, at first took to the bush; subsequently they attacked the troops, but after an engagement of three hours were driven off. Their loss in killed and wounded is believed to be large. Five English officers and fifty-two native auxiliaries were wounded. It is claimed that the Ashantees were in full retreat after the fight.  
 Don Alphonso, brother of Don Carlos, has been appointed Generalissimo of the Carlist forces.  
 A band of 400 Republicans, in the province of Almeria, were killed or captured by the Carlists.  
 The weather in England is fair.  
 It is expected that the rate of discount of Bank of England will be lowered before next Thursday.  
 QUEBEC, Nov. 21.  
 The steamer Proteon, from Montreal for Plymouth, England, went ashore at Saint Denis Point, and is a total loss. Crew saved.  
 A few of the ice-bound schooners will attempt to get out, but most of them have decided to lie up. A number of barges in low success in reaching the city from Montreal. The sudden accumulation of ice in the river has almost closed navigation, and will entail serious losses. All sea-going vessels have left Montreal. The weather is very cold.

NEW YORK, Nov. 21.  
 The streets here were filled with all sorts of rumors concerning Spanish complications, and speculators in gold advance prices to 110; exchange weak at 107 1/2.  
 There is considerable excitement in all circles here, and a general sentiment seems to prevail that war is inevitable. There have been demonstrations against Minister Siles at Madrid. A mob collected in front of the American Legation, but were promptly dispersed by the police. It is believed that the authorities at Madrid are fully capable of preventing any outbreak.  
 Later reports state that an attempt has been made to assassinate Siles.  
 A MOTHER AND HER BOY DROWNED.  
 SACKVILLE, Nov. 22.  
 At Morriss Lake, this morning, a boy named Hunter, broke through the ice, and was drowned. His mother, hastening to his assistance, also broke through, and was supported some time by a plank thrown her. She died from exhaustion on being brought on shore.

LONDON, Nov. 21.  
 Took place in a colliery at Wigton today. Twenty-five miners were killed and injured.  
 PARLIAMENT  
 WILL BE ON THE 5th OF FEBRUARY.  
 MALDEN, Nov. 21.  
 THE U. S. MINISTER TO SPAIN.  
 The political newspapers say that in consequence of steps taken by Layard, the British Minister, Gen. Siles has suspended the preparations he had been making for departure from Madrid.  
 THE SPANISH IRON CLAD.  
 It is rumored that the Insurgents of Cartagena intend to surrender. This would release the vessels now in their possession, and render the whole iron clad fleet available in case of trouble with the United States.

NEW YORK, Nov. 22.  
 The Cuban question remains substantially unchanged, the highly sensational reports current yesterday proving to be groundless. It is asserted that these reports are manufactured deliberately by interested persons for the purpose of producing, if possible, a war fever among the people, and through his pressure upon Congress to secure the making of a formal declaration of war against Spain.  
 The stories of the assassination of Siles appear to have arisen from the fact that on Wednesday night a mob made a riotous demonstration in front of the Legation at Madrid, but was at once dispersed by the Spanish troops.  
 MARINE DISASTERS.  
 Several vessels are reported ashore below Quebec. Among them is the Red Island lightship, the crew of which were 24 hours in the rigging, and were badly frost bitten.
