WHOLE No. 4

CANADA HOUSE,

CHATHAM, N. B.—NEW BRUNSWICK.

WM. JOHNSTON, - Proprietor.

CONSIDERABLE outlay has been made on this house to make it a first class Hotel, and travellers will find it a desirable temporary residence both as regards location and comfort. It is situated within two minutes walk of steamboat landing. The proprietor returns thanks to the public for the encouragement given him in the past, and will endeavor by courtesy and attention to merit the same in the future.

Good Stabling on the Premises.

TOOTHACHE

AND

Editorial Correspondence.

DEAR ADVOCATE.

During my journey thus far across the coast I have jotted down a few notes which will doubtless be persuasive with interest.

Farm operations between this and Newcastle have been crowned with more than ordinary success, the grain and root crops turning out finely, which is a cause for deep gratification to all-wise Providence. Is it not passing strange that so many of our farmers in the North neglect the farms to pursue other avocations where more risk is involved, only to resume their agricultural pursuits deeply involved in debt, after many attempts to propitiate Dame Fortune? One great error into which too many of our agriculturalists fall is that of engaging in lumbering to the neglect of their farms, and the fatal mistake repeated again and again, notwithstanding the many failures that have attended the efforts of others, who stand forth as beacon lights to warn them from the path of danger. I know of no pursuit so thoroughly independent as that of tillage the soil, and it is a pleasing task to note the gratifying success which has attended the efforts of those who have given their special attention to agriculture.

There are many splendid farms in the North, which evidence the great care taken in their general management, and whose owners can tread the soil with minds undisturbed by visions of mortgages or any such encumbrances that bind men with bonds almost as galling as the fetters of Newgate; while on the other hand how many of our farmers, in their greed to reach a position of affluence, have, in part at least abandoned the soil, in reality a mine of wealth, and throw their energies into lumbering pursuits, only to awake in a few years to the realization that they had carelessly cast away the substance to grasp the shadow. May we not hope that the lessons of the past shall have a beneficial influence in moulding our opinions on the agricultural question, and be an incentive to our farmers to give their undivided attention to a industry which does not associate with it that risk which is connected with many other pursuits. But I am digressing.

One of the curiosities at Oak Point (though which place I passed on Wednesday) is Mr. Alex. McKinnon's garden, in which are several apple trees of various varieties, so richly laden that the boughs are breaking under the burden. I have never seen, even in those countries where fruit ripens

Another curiosity seen in the same section is a xwin-egg, the product of a prolific hen. It consists of two well-formed eggs, united at the smaller end by a soft round substance resembling a pipe stem. Had the owner of this strange freak of Nature not been so anxious to preserve the specimens for spirits, a pair of twin chickens might now have been on exhibition by Dr. Dancello or some other enterprising showman, perhaps even by the great Barnum himself.

The terrific storm on Sunday night and Monday morning was attended with unfortunate results in this locality. Some four or five weeks ago

large quantity of lumber, 14 rafts left the Tabusintac Boom for Bagnibogwe, where it was to have been delivered to the owners or parties who had been furnishing supplies. The principal portion of this lumber was owned by Mr. John McKenzie, Tabusintac, an industrious and honest man, and was the result of two seasons' operations. Mr. Angus Russell, Point aux Car, and Mr. John Gilliland, Napan, had also an interest in the portion of the lumber. The rafts left for the Boom in charge of Mr. A. J. W. McKenzie (a son of the principal owner) by six or seven teams of horses, and after a tedious trip, arrived at Oak Point beach on Saturday evening, 25th Sept., where arrangements were made for remaining until Monday.

The prevailing wind on Sunday was from the S.W., changing to S.E. in the afternoon. The men in charge, consisting of Kenzie, Russell, Gillis, and several others, were afraid that the raft, which were very close to the beach, would be driven ashore if the wind increased. To prevent this, the men secured the raft by means of pickets, which is considered sufficient in ordinary weather. About 6 o'clock, on Monday morning, in the midst of an Egyptian darkness a terrible storm arose. An unexpected blowing almost directly from the north. The men rapidly secured a stout line to a tree on shore, but before other lines could be secured, the strong ropes snapped like a pipe stem, and the raft was driven ashore. The men, having considered the possibility of reaching the shore, losing the camp equipment, cooking utensils, at

a lumber wagon, all of which were carried away. The rafts were broken up and scattered about the islands for the month of the year. The efforts may be made to recover some of the lumber, the work will cost great expense and be attended with much risk. Roughly estimated at \$1.00 per thousand feet, the scattered lumber would be worth about \$100,000 thousand dollars. The loss will be heavily on all concerned, but more especially on those parties who have been supplying the operators. I have heard the name of an enterprising man who has been operating much closer to the extent of about \$300,000. Your correspondent sincerely hopes that his loss may not be as heavy as reported.

When the Gale broke out, the steamer *W. G. Zerk* was within 20 miles of Point and Black Brook, between the several rafts which she was taking

from Magnate Messrs. Guy, Stewart & Co.'s mill at Plack Brook. The value decreased heretofore by about 800 lives, furnishing about 250,000 and valued at say eight or nine hundred dollars. These logs are, it is supposed, scattered along Portage land, and can be recovered at less expense than those which have found resting places further down river. With regard to the first mention of loss, the general opinion is expressed that the tow was entirely too large for this season of the year. The risk incurred was too great in bringing it to Bathright in so primitive a manner.

ner, when our river seems to be almost alive with steam tugs. However the loss is to be deplored, and the disappointment of the boatmen interested in the fact that had the weather continued favorable, the logs would all have been safely secured by noon of Monday.

The contract for building a new bridge over the Tabusintac River, on the old foundation, has been awarded to Mr. Horatio Lee, the lumber being on the ground and furnished by Government. The tenders for this work numbered in all 21. The bridge is 1853 feet long, and is on the post road. Work will be commenced at once, and the contract stipulates that it shall be completed by March, 1876. Until the close of navigation a ferry will be run regularly for the convenience of travellers.

Mr. James Carter, of Chatham, is just completing a very comfortable residence for the keeper of the light house on Portage Island, to take the place of the one destroyed by fire last winter.

At Burnt Church, this season, Messrs. Anderson & Leggie's fishing operations, though somewhat extensive, have yet not been up to the average owing to the extremely low prices that have prevailed. At one time this season, our exporters could only realize six cents per pound for fresh salmon in Boston, while at the same time it was bringing eight and ten cents in Miramichi. Our old friend Mr. Miller Salter is in charge here.

Mr. Donald Morrison, of Newcastle, has erected a fishing establishment a short distance from that of the firm just mentioned, and has carried on quite a business under the direction of Mr. W. J. Miller. A huge freezer has been erected, the same in design as the one recently exhibited by Messrs. Tozer & Southwood in Newcastle, the right of the same having been purchased from the enterprising inventors. In this freezer I saw, neatly stowed away, about 1000 salmon, and perhaps as many bass, all waiting for a rise in the market. The monster in the freezer being considerably below freezing point, I was glad to make my way out into a more congenial atmosphere, where I parted from friend Miller, and shall now do the same with the rest of the Advocate until my next letter.

J. J. A.

Ordination and Induction.

The Presbytery of Miramichi met at Kouchibouguac on Wednesday, September 29th, for the ordination and induction of Mr. Jas. P. Bryant. Rev. Wm. M. Wilson preached from John V. 29th, "This is the work of God, that ye believe on him whom he hath sent." The usual questions were then put to Mr. Bryant by Rev. James Fowler, the Moderator of Presbytery, and these being satisfactorily answered, he was by prayer and the laying on of the hands of the Presbytery, ordained to the work of the Christian ministry, and inducted with the pastoral charge of the congregation at Kouchibouguac. The Rev. Mr. Fowler then addressed the minister, and Rev. J. M. Allan the people. At the close of the services Mr. Bryant was heartily welcomed by the large congregation as they retired from the Temperance Hall, in which the services were held, there being at present no church, a want which the congregation will no doubt speedily remedy. The singing of the choir under the leadership of Mr. Grierson, was excellent.

After the transaction of other important business, the Presbytery adjourned to meet again at Tabusintac, on Wednesday, the 27th inst. There will be a Presbyterial visitation of the congregation, the Rev. Mr. Fowler to preach, and addresses on the different schemes of the church to be delivered by various members of the Presbytery.

Arrival of the Provincial Stock.

The live stock purchased by the committee appointed by the Government arrived at Fredericton on the 2nd inst, in excellent condition. The stock comprises—4 Percheron Horses; 27 Arabians; 26 Short Horses; 6 Jerseys; 1 Holstein; 1 Herford; 2 Pigs and 2 Sheep.

The Hon. Messrs. Leveson and Perley, and Mr. Jones, Secretary for Agriculture, are here, and it is rumored that they have altered the arrangement for the sale of the stock here in the Fredericton Agricultural grounds.

Shipping Intelligence.

SUNDAY, OCTOBER 10th.

St. James'.—Afternoon at 3 p. m., Rev. Mr. Allan; Sabbath School at 11 a. m.

Wesleyan.—Morning and evening. St. Andrew's, Chatham.—Morning at 11 o'clock, Rev. R. T. Crisp.

The lathing of the lower flat of the new Masonic Hall is now completed. The lathing with the arching over the windows, as well as the arch at the rear end was contracted for by Messrs. J. B. Williams and S. J. Loggie, and they have performed their contract to the satisfaction of the Inspector, John Malby, Esq. Some 22,000 laths were used on this flat. Mr. Williams is now going on with the plastering, and expects soon to have the hall ready for use. Mr. Russell contracted for the whole job, and sublet the lathing to the parties mentioned. This fine hall will supply a want much felt, and we hope to see it constantly occupied during the coming winter.

Subscribers to the Advocate who are arrears, the most of whom have been notified of the amount of their indebtedness, and who have not yet forwarded the amount due, are notified that unless they remit within the present month their papers will be discontinued and their accounts handed to a magistrate for collection. As we now have to prepay all postage we cannot afford to continue sending the Advocate to those who are so negligent about their bills in paying up their arrears.

Mr. B. B. Call, Esq., has received from W. M. Buck, Esq., 10 miles of divided title of the survey of the Miramichi Valley Railway from our county line towards the capital of York. Mr. Buck is making good progress in the survey considering the very unfavorable state of the weather, and hopes to reach St. Mary's, opposite Fredericton, in about ten days.

The Stockholders of the stmr. City of St. John were glad to see her again on the route, as they have labored under the impression that the amount of their stock was a dead loss, and are glad to find out that they were mistaken.

The City of St. John is under the command of Capt. Wm. Simpson, who is known to our people as having brought round the Andover from Fredericton.

Rev. Mr. McGuire, of the Reformed Episcopal Church, held Divine Service in the Hall of the Sons of Temperance, Chatham, on Sunday, 3rd inst. The Rev. gentleman took for his text the passage "Looking unto Jesus the author and finisher of your faith," and delivered an extemporaneous sermon which evinced great ability as an orator as well as a full and thorough appreciation of the subject of his discourse.

Mr. McGuire is very highly spoken of by all who had the pleasure of hearing him, and as he is permanently engaged by the newly formed congregation at Chatham, he will probably have a large number of hearers.

Divine Service will be held (D. V.) on Sunday next, morning at 11 o'clock afternoon at 3 o'clock, and probably in the evening.

DEVON STOCK.—Mr. Robert N. Doherty, of Welford, Kent, in another column advertises 5 Devon cattle for sale. The Cow and the oldest Bull were bred in Canada and the United States, and were imported by the Kingston Agricultural Society, and sold to Mr. Doherty. These animals are considered by Judges to be a very fine lot of Devon cattle, and thus an excellent opportunity is afforded some of our stock raisers of improving their breed of cattle by crossing with some of these Devon stock.

The Northern Herald reports the following fires in Chatham:—A fire broke out on the Shipyard Hill on Tuesday, 29th ult., and destroyed a two-story house owned by Mr. Martin, and occupied by two tenants—Ryan and Smith. The wind was blowing strongly at the time, but the two town engines being got working promptly prevented the fire from spreading. It is supposed that the fire originated from sparks from Mr. Snowball's Mill. The house was not insured.

A barn owned by Mr. Snowball and which formed part of the same property on the Shipyard Hill, was burned down on Saturday. The fire is supposed to have caught from sparks from the fire where the refuse from Mr. S's mill is burned.

The weather for the last two or three weeks has been very unfavorable for farm work, and there is yet a large quantity of oats not harvested. On Friday and Saturday mornings, Oct. 1st and 2nd there were heavy frosts, and the foliage of the woods has put on its autumnal tints. Yesterday afternoon a shower of snow fell, the first of the season.

NELSON DIVISION, No. 99 Sons of Temperance.—The following are the Officers elect for current term: Bro. John Betts, W. P.; Thomas C. Newman, W. A.; George Harit, R. S.; Richard Wilson, A. R. S.; Sister Ada Harit, F. S.; Bro. Wm. Crocker, T.; Daniel Harrigan, Chap.; David Betts, Conductor; Geo. Henderson, A. Conductor; Osburne Allison, L. Sentinel; Thomas Basdon, O. Sentinel; James N. Watton, P. W. P.

There was to be seen on the public wharf, Newcastle, one day last week, a large bull. Upon enquiry we found it belonged to the Episcopal Church, Bay du Vin, and was on its way to England, in the Cort Adair to be recast.

Steamer Plamborough sailed from Montreal for this port on Monday last. May look for her to-morrow.

Married.

Sept. 30.—By the Rev. Samuel Russell, JEREMIAH McILAN, to Miss EDITH McILAN, both of Newcastle.

Sept. 30.—At Newcastle, by the Rev. Samuel Russell, DONALD FRASER, to Miss REBECCA INGRAM, both of Newcastle.

Oct. 2nd.—By Rev. Samuel Russell, Wm. T. Lewis, to Miss ELIZABETH THAVIS, both of Little South West, Northbrook.

At St. Mary's Church, Dalhousie, by the Rev. F. B. Crozier, Rector, Mr. NATHANIEL PERRETT, Jr., to Miss SARAH J. GOOD, of Dalhousie.

Died.

At Derby, on the 28th ult., WILLIAM ARTHUR, aged 6 months, youngest child of William and Josephine Cliff.

At Chatham Head on Sunday morning Sept. 16th, JOHN HARLEY, Esq., aged 80 years.

A British officer, writing from Teheran, Persia, to the "London Times," remarks:—"A Cathartic Pill, manufactured by 'an American Chemist' (Dr. J. C. Ayer, of Lowell, Mass.), has cured the Shah of a Liver Complaint that threatened his life. This simple fact, as might be expected, renders the Americans immensely popular here, while we English are overlooked. Doubtless our own scholars made the discovery which he employs, and thus it is in everything; we do the labor, then the moaning Americans put their names upon it and take the reward. Dr. Ayer is dolled by the Court and its retainers here, which will doubtless be reflected to him on a gold snuff-box, or a diamond-encrusted ring, while not the name even of Davy, Christian or Brodie—the great lights by which he shines—is known."—(New York Sunday Paper.)

SPECIAL NOTICES.

Effectual Aid.—It is a source of highest satisfaction that an easy and expeditious remedy has been found to conquer and check the constantly recurring disorder, termed pulmonary. The property of dissolving the nervous and mucous membrane of the stomach by sickening and nauseating mixtures was long ago questioned, before Dr. Wilson was able to place the power of relieving the overcharged lungs by means of his Pulmonary Cherry Balsam. This Balsam gives the utmost security and comfort in influenza, acute and chronic bronchitis, pleurisy, and other similar and dangerous Diseases.

Each quarter of the year tests the constitution and discovers its weakest part. By our variable temperature, the human system is severely tried. Bilious complaints, with disordered liver, are generally more or less frequent. This will save both pain and hazard by the use of Dr. Wilson's Family Anti-bilious Pills.

A stocker from King's County writes, "Clark's Derby Condition Powders are giving perfect satisfaction to all who have bought them. One of our lumber merchants who had but little faith in any such powder, gave them to a span of horses that had been overworked with oats, with immense benefit. There are several other cases in our neighborhood which I could name where the powders are used with the most excellent results. Please send me more immediately."

Neuralgia and Rheumatic disorders will prevail more or less in this changeable season. All aches and pains in the nerves, muscles and bones, which often compels the man of business to neglect his duties, or occasions may be speedily subdued by Dr. Dow's Sturgeon Oil Liniment.

That Dwelling House and Outbuildings, owned and lately occupied by Dr. J. S. Benson, opposite the residence of F. E. Winslow, Esq. This Property is in excellent condition, and a most desirable residence.

TERMS.—One third down; one third in one year; and balance in two years, with interest.

Also, three valuable BUILDING LOTS, on opposite side of Street from said Property. TERMS.—One half down; balance first June next, on approved joint notes.

Good Titles will be given when Terms of Sale are complied with. For further information apply to Dr. J. S. Benson, Chatham, or to CHAS. MARSHALL, Auctioneer.

INSOLVENT ACT OF 1869.—In the Northumberland County Court. In the matter of the Nelson Strang, an Insolvent. On the eighth day of October next, the undersigned will apply to the Judge of the said Court, at his Chambers in Newcastle, for a discharge under the said Act.

Dated this 4th day of October, A.D., 1875.

NELSON STRANG, By MICHAEL ADAMS, His Attorney ad litem.

INSOLVENT ACT OF 1869.—In the matter of John S. Phinney, an Insolvent. The undersigned Henry W. Lawlor, of Newcastle, in the County of Northumberland, has been appointed Assignee in this matter. Creditors are requested to file their claims before me within one month.

Dated at Newcastle, this 4th day of Oct., A.D., 1875.

JOHN LAWLOR, Assignee.

Pain in the Back, and all diseases of the Kidney and Bladder.

The disease commonly called back-ache, SAPHIRILLAX ELIXIR is particularly applicable, is found to exist in the aged and infirm, the laborious and sedentary, is caused by obstruction or chronic inflammation of the kidney, ureter, bladder, &c., and is known by a deep seated pain in the small of the back, sometimes extending round the torso to the abdomen, or a dull, heavy, or numbing pain, extending from the back down to the lower extremity of the right abdomen, to the inner part of the thigh. Great difficulty is experienced in voiding the urine, and many persons afflicted with this troublesome complaint are unable to endure violent exercise, many, when stooping, have difficulty in assuming an erect position. Persons suffering from these symptoms often mistake the disease for rheumatism, and apply the ordinary remedies, such as plasters, liniments, &c., without obtaining any relief. This Elixir strikes at the root of such diseases, and, by removing the inflammation, and stimulating the organs to a healthy action, the patient is relieved from all weakness and pain.

BLAKESLE & WHITEHEAD, oct. 6 22 Germain St., St. John, N.B.

Syrup Citro Phosphate of Iron and Potash.

NO pains having been spared by Mr. J. F. Chaloner to obtain pure chemicals for the manufacture of this Syrup, it is offered to the public with a Nerve Tonic that may be reliable and efficient without, at the same time, being dangerous. It contains some of the most valuable vegetable alkaloids, an excellent remedy in nervous debility arising from Cold, Overwork, Trouble, etc., where it has been tried. It should be a medicine in much demand, for the many impure condition of the blood.

J. CHALONER, Corner King and Germain Streets, St. John.

The Farmer's Corner.

Curing Meats.

In curing meat of any kind it is absolutely necessary to use salt enough to saturate the brine around the meat, or to substitute sugar in place of part of the salt, if the meats are to be used dried or smoked without much freshening. It is immaterial what kind of salt is used provided it is pure. Fine ground dairy salt is worth just as much per pound as the coarse or rock salt, from the same source. In an experience of twenty-five years, we have never had one package of meat injured, and it was salted with the coarse salt, recommended as the only reliable one. It is always necessary that the salt should be pure, and enough should be used to saturate the brine, or some equivalent titrated.

The chief thing that distinguishes the house of the farmer from that of the son living in a city or town is the absence of any walks around the house. Sometimes there is a firm of ordinary dirt is cut up by the wheels of wagons and the feet of till it is in the best possible form to form mud. After every piling out of the house means into mud and mire. Step on the house means taking with you as much clay, black mud, as can be taken. Of course, no feet can table, no house can be tidy, in circumstances. In cold we have no mud, but we do have uneven surface to travel on. Often snow to wade.

do consider how much in the way of comfort by the use of walks; it that so many farm pre- without them. There talk leading from the able, and still another carriage house, and or farm buildings, are dry feet, clean adding to general it. The saving in the matter of the, and floors, for making the made of brick, nearly level and, they are wide, so as to have without If the me- to se- south

Miscellaneous.

The Late Disastrous Cyclone.

New Orleans, Sept. 22.—A Galveston special reports the town of Vetsco, Texas, entirely swept away, but no lives lost. A letter from a S. S. railroad agent at Indianola reports 200 houses swept away, and the steamship and railroad wharf, which cost \$300,000, is almost a total wreck, and 150 to 200 lives lost.

The following is a special to the New York Times.—Capt. Peter, returned from the steamer Australian, reports that the vessel lies in five and a half feet of water. It will require much time and great expense to get her about. The body of Will Blount, who was lost with Dr. Peck, was found yesterday near the lights in the harbor. Six bodies were found at different points in the bay yesterday. Nearly all the bodies are being picked up by high ground at Edward's Point. The three-masted schooner Christina will prove a total loss. The storm or cyclone appears to have been in its course a belt of country forty miles in width, from the north of Galveston Island, extending to the north of Houston. The hurricane swept over this section of the coast to the west of Indianola into the Gulf. Galveston was south of the more severe part of the gale. The ship Harlan, before leaving Indianola, gave all her provisions which could be spared to the sufferers. Four persons were lost at Indianola in addition to those already reported. Mr. Soudow Burrows, father, son, and a teamster, name unknown. The entire list at Lynchburg, Morgan's Point, and Bay Haven, is as follows: Mr. West, Mr. Pierce and four children, Clara Gratton, Miss McKee, Mrs. August Grand, and son Dr. Alexander, ten all. Two dead bodies of negroes were picked up by the steamer Fowler. Information received from East Bernard County states that the entire section is under water from Brazoria. The town of Valasco, is entirely swept away. Not a house is left to indicate where it stood. Not a life however, was lost, and 173 persons were miraculously saved. The steam- Australian rescued all the inhabitants of the town of Bernard, except thirteen. Among those known to be lost are Mrs. Herndon, wife of Major Herndon, Mrs. Daneck, Mrs. Culpepper, Mrs. Winsted, and a daughter of Mr. Columbus.

Through sources which appear to be authentic come information that the town of Matagorda is almost totally destroyed, only four houses being left. The lower Brazos country is reported as almost totally destroyed, with sugar houses blown down and plantations wrecked.

Prince Edward Island Arbitration.

The settling of the Prince Edward Island Commission is interrupted for a time, to be resumed on the 11th of October next. Mr. Childers, the chairman, had engagements calling him to other parts of the Dominion, and could give no more time at present to the work. It is, however, allowed that he has made a good beginning, and left behind him a very excellent chart for the guidance of the Commission, that what remains still to be done will be accomplished without serious difficulty. His successor as chairman is Governor Wilmot, of New Brunswick, a clear-headed man, who will probably be able to finish with satisfaction what Mr. Childers has apparently so well begun.

The Charlottetown Herald gives in detail the names of the promoters, ten in number, whose lands are now adjudicated upon, the number acres held by each, and the awarded. Slightly varying temporary arrangement, we give names in the order of the money awarded, which we better than any other way at this distance an understanding of the merits and magnitude of the prize.

It was our desire to investigate the matter thoroughly, so as to satisfy the public mind on the issue of the girls, but I am afraid the testimony will not have the effect.

From the evidence and my personal knowledge of the witnesses, it is my opinion that the alleged charges of outrage and murder have been circulated throughout the country without sufficient evidence to sustain such reports.

I have the honor to be, Sir, Your obedient servant,

Hon. P. C. Hill, Provincial Secretary, Halifax, Nova Scotia.

CURIOUS COINCIDENCE.—In the recent death of Admiral Excellmans in France, a curious coincidence is noted. His father was Marshal Excellmans—a great cavalry soldier of the First Empire, and most famous for a wonderful charge of horse at Loqueu-en-Croix. He was in the saddle on the 19th of July 1852, was thrown in the road and killed. On the 23rd July, 1875, his son's mind ran strangely on that event. He talked about it all day. In the evening he rode out, was thrown and killed in the same manner.

The expenses incurred by Messrs. Moody and Sankin, in connection with their London Mission, appears to amount to the large sum of £28,396. The "General" expenses are set down at £2000; and £2836 for chairs, which were again sold, realising only 1270. £28,396 have been contributed by the public—leaving £158 wanted.

The Globe says that 44 assignments were made in this Province the last week the old Insolvency Act was in force.
