REGULAR MEETING OF TOWN COUNCIL

Short Meeting of Council Held on
 Tuesday Evening—Small
 Attendance

A meeting of the Town Council was
 held on Tuesday evening in the Council
 chambers, His Worship Mayor And-
 drew presiding. Present, Councillors
 Estenson, Quinn, Ellsworth, Miller
 and Evans.

The minutes of the previous meet-
 ing were read and confirmed, during
 the reading of which Councillor Alexander
 entered the meeting.

A petition from H. P. Doiron was
 presented, praying for a license to be
 granted for the conduct of a confection-
 ery business on Gerrard Street.
 Referred to Police and License com-
 mittee.

A communication was read from Mr.
 H. G. V. Farrar, manager of the Elec-
 tric Light station, with regard to re-
 quision for painting, and asking ar-
 rangements to be made regarding
 holidays for the men and a new sched-
 ule of hours, also other matter relat-
 ing to coal, etc. After discussion the
 letter was referred to the Electric
 Light committee.

The following reports recommend-
 ing payment of accounts were then re-
 ceived and on motion adopted.

Public Property and Streets	\$164.54
Police and License	22.45
Electric Light	49.81

Councillor Ellsworth from the As-
 sessment and Appeals Committee pre-
 sented report recommending that the
 application of Mr. George Sargent
 for reduction of assessment be not
 granted. Report received and adopted.

The Town Clerk stated that applica-
 tion had been made to rent one of the
 stores in the town building for a tin-
 smith's shop, and after discussion it
 was resolved not to rent the store for
 this purpose.

In answer to Councillor Alexander,
 Councillor Evans stated that he had
 been informed by the Chief that the
 new ventilating system was working
 satisfactorily.

Councillor Alexander was instructed
 to look into the matter of the Crowley
 application with regard to Water and
 Sewerage.

Councillor Patterson brought to the
 notice of the Council a requisition for
 two bodies for box carts for the Street
 Commissioner. The probable value of
 these would be \$18 each. The commit-
 tee on motion, were authorized to pur-
 chase.

Council then adjourned.

CAMPBELLTON VOLUNTEER
 In the official casualty list published
 at Ottawa, is found the name of Pte.
 James Meahan, killed in action on
 March 20th. Pte. Meahan was one of
 the first batch of volunteers recruited
 by Capt. A. T. LeBlanc on August
 22th. His mother resides in Colum-
 bus, O., and he was in Campbellton
 only a short time before enlisting. As
 a member of the first contingent he
 was transferred from the 12th Batt.
 to the Princess Patricia's from Salis-
 bury.

A Montreal man has been arrested
 for trading with the enemy and is in
 custody in Liverpool. The man who
 trades with the enemy is a patriot
 compared to the chap who aids the
 enemy by swindling his country in
 army contracts.

With the disappearance of the snow
 and ice, there is usually left exposed
 an accumulation of refuse, which, even
 though it may not cause unhealthy
 conditions, at least has a very untidy
 appearance. Householders should
 have sufficient personal and civic pride
 to see that this refuse is properly dis-
 posed of.

YOUNG MENS CLUB ORGANIZED IN TOWN

Give Banquet on Monday Even-
 ing to Two Members Who Left
 for the Front

The young men of this town organ-
 ized a club named "Victoria" on Novem-
 ber 1st, 1914, and have their rooms
 in the J. R. McKennis building, corner
 Subway and Water Streets. The idea
 of the organization of this club was
 that the young men would have a place
 where they could spend the long win-
 ter evenings. A piano was installed
 in the rooms, numerous games and the
 library is of a choice selection. Several
 of the members are accomplished
 pianists and have kept the young men
 of the club in touch with the latest and
 most popular music of the day. This
 club has been successfully carried on
 in a respectable manner, as the rules
 strictly prohibit gambling and drink-
 ing. There are thirty-five members
 now enrolled.

The officers of the club are: Presi-
 dent, John W. Stevens; Vice-President,
 George Matthews; Secretary, Geo.
 Thomas; Treasurer, George LaPalk.
 Several of the members have enlisted
 for the war, among them being Messrs.
 Ross and Boswell Malcolm, in whose
 honor the members of the club gave
 an elaborate supper at Mr. W. H.
 Gray's Restaurant on Monday night.
 The toasts given at the supper were
 with cold water, which speaks well for
 the reputation of the young men.

Menu.
 Oysters on Half Shell.
 Queen Olives.
 Puree of Tomato.
 Roast Young Turkey, Cranberry Sauce
 Mashed Potatoes, Mashed Turnips.
 Apple Pie, Mince Pie.
 Vanilla Ice Cream.
 Tea, Coffee, Nuts, Raisins.

After the supper was served, the
 members of the club and a number of
 invited guests marched to the music
 of a coronet to the reception rooms in
 connection with the club, where an
 entertainment was in order as follows:
 Piano Solo by Mr. R. L. Ferguson of
 Montreal, Vocal Solo by George La-
 Palk, entitled "How Can you tell the
 time when the hands are off the
 Clock," illustrated with "Big Ben,"
 Imitation of "Grand Opera" by George
 Underhill. A short lecture on England
 and Camping Life on Salisbury Plain
 by Fred Alexander, Patriotic Speech
 by Austin Murray, The Introduction
 of the Pavlova Gavotte by Messrs.
 Fred Watson and Lyman Gilker.

These were some of the interesting
 features of the entertainment, after
 which Mr. Boswell Malcolm presented
 the President with a beautiful pair of
 field glasses, to which Mr. Stevens
 made a suitable response. The entire
 group then joined in singing "The
 Maple Leaf Forever," "O Canada,"
 "Rule Britannia," "It's a Long, Long
 Way to Tipperary," "We'll Never let
 the Old Flag Fall" and "God Save the
 King", after which they proceeded to
 the station just in time to allow every
 one the privilege of wishing the Mal-
 colm brothers a safe journey to Eng-
 land and that they might be success-
 ful in capturing the Kaiser's skull,
 and a safe return.

DOLLAR DAY PLANS NOW BEING MADE

Change in Date to Allow All to
 Take Advantage of Market
 Day Tickets

Thursday, April 22nd, will be Camp-
 bellton's Dollar Bargain Day, and ex-
 tensive plans are being made to make
 the day a success. —
 The committee in charge endeavor-
 ed to arrange special excursion rates
 to Campbellton for that day, but the
 I. C. R. authorities at Moncton would
 not grant any special rates.

It was then decided to take advan-
 tage of the Market Day excursion rates
 on the I. C. R. and International.
 These are good on both roads on
 Thursday, so Dollar Day was announ-
 ced for Thursday, April 22nd. Market
 tickets are issued from Jacquet River
 and all intermediate stations, includ-
 ing Dalhousie to Campbellton, and
 from Routhierville and intermediate
 stations to Campbellton.

Merchants are already planning to
 offer special inducements in the way
 of bargains for shoppers on that day.
 Chatham held Dollar Day on Tues-
 day, and the following are a few ex-
 tracts from a Chatham paper's report
 of same.—Dollar Day proved a great
 success, according to the report of the
 merchants. One large grocery firm
 were unable to get their parcels ready
 for delivery before closing and were
 still working at them at noon to-day.
 The dry goods firms express them-
 selves greatly pleased with the business
 done, and a manager said they had
 never realized the advantages of ad-
 vertising so freely before.

It is expected that their Christ-
 mas eve trade had never brought them
 as much cash in all the years they
 have been in business and now for her-
 eafter would surely be arranged.

USID ALSO HAS HONOR ROLL

That the County of Restigouche is
 awake to the needs of the Empire is
 shown by the high place she is taking

 publish the list of volunteers from

SUBMARINES ARE STILL ON WARPAT

Two British Steamers Sunk Yes-
 terday Making Total of Five
 Since Saturday

London, April 1.—Two German sub-
 marines, the U-28 and another which
 have been operating off the West coast
 of England during the past few days,
 have added two more British steamers,
 the Flaminia and Crown of Castle to
 their list of victims, totalling five since
 Saturday evening. There was no loss
 of life. The crews of each vessel be-
 ing given barely time in which to get
 into their boats. In the case of the
 latter vessel, however, the submarine
 fired before the crew left the steamer
 and the shells passed along the bridge
 on which the captain and an apprentice
 were standing. The Crown of
 Castle was sunk by shell fire, but this
 did not prove sufficient to send Flam-
 inia to bottom, and a torpedo had to
 be used. As an offset to this, a
 French destroyer rammed, and it is
 believed sunk a German submarine off
 Dieppe. The steamer Crown of Castle,
 Captain Fyfe arrived at St. John
 March 13, from Barry and docked at
 No. 15 berth. She loaded a cargo of
 hay and oats for Admiralty and left
 March 15th. She was formerly in the
 West Indies trade and was requisitioned
 by the Admiralty on the day that
 war was declared. After carrying a
 supply ship in the North Atlantic on
 Feb. 15, she was released to the
 trade. Her dimensions were 300 ft. by
 384 feet, beam 50 feet, depth 25 feet,
 gross tonnage was 4,105 and her net,
 2,828. The vessel was built at Glas-
 gow in 1905. The Flaminia captured the
 U-28 at 1.15 a.m. March 31st, in a
 room. The crew of the submarine
 lowered their net and shot the U-28
 to the bottom. The Flaminia was
 damaged by the submarine's gunfire,
 however, and was towed to the
 wharf by tugboats. The Flaminia
 is expected to arrive at St. John
 on Monday.

HORSE NOTES

(From the Gloucester Northern Light)

The advertised and expected ice races that were to have taken place some time ago, and were postponed on account of the condition of the track, have not yet been brought on, as the track has been spoiled by drifting snow and adverse weather conditions. Local horsemen have not yet given up hope of having the races before the ice breaks up, so have been keeping

their speedy ones in condition.

Northern Jack, under E. R. Shirley's management, is in the pink of condition. O'Flanagan, owned by Azade Landry, and holding a mark of 2.18 1/2 is in splendid shape. This is a new arrival in these parts, having been imported from Maine last February.

Hal. L. 2.11 1/2 is being kept in proper order for the ice track and may take a turn when conditions are favorable.

EXPANSION OF THE GOVERNMENT SYSTEM

Notice of Legislation Regarding Branch Lines Given in House of Commons

Ottawa, Mar. 25—Notice of important legislation affecting the expansion of the system of Government Railways has been given by the Hon. Frank Cochrane, Minister of Railways, in all three resolutions, the first providing that the Minister of Railways, subject to the authority of the Government in Council, may construct, purchase or otherwise acquire in whole or in part, any railway, railway bridge, railway station, terminal, ferry or other railway work in the provinces of Quebec, New Brunswick, Nova Scotia, and Prince Edward Island. It is provided that a copy of every such lease or contract must be laid before Parliament, and no railway of more than 200 miles in length is to be acquired, and no railway may connect directly with the Government Railways System. No railway of more than twenty-five miles is to be constructed until after a sum of money for the purchase is appropriated by Parliament. All lines so constructed, or acquired, are to become part of the Government Railways System.

Another resolution is destined for the ratification of an agreement dated March 18 last, for the sale to the Government of the New Brunswick and Prince Edward Island Railway, including the main line of thirty-six miles from Sackville to C. Tornentine. The purchase price is \$270,000, and until it is paid the government is to pay interest at four per cent. from August 1st last.

The third resolution confirms an agreement of August 1st, 1914, between the International Railway, of New Brunswick and Thomas Malcolm, contractor, and the King, for the sale to the Government of the whole of the company's undertaking, the line extending from Campbellton to St. Leonard's, 112 miles, for \$2,700,000. It is provided that the money may be paid any time within five years and that the line may be leased to the Government in the meantime at \$90,000 per annum, payable half yearly.

WAR STAMPS.

Re one cent war tax on letters and post cards mailed in Canada for delivery in Canada, United States or Mexico, and on letters mailed in Canada for delivery in the United Kingdom and British possessions generally and wherever the two cent rate applies.

A war tax of one cent has been imposed on each letter and postcard mailed in Canada, delivery in Canada, the United States or Mexico, and on each letter mailed in Canada for delivery in the United Kingdom and British Possessions generally, and wherever the two cent rate applies, to become effective on and from the 15th April 1915.

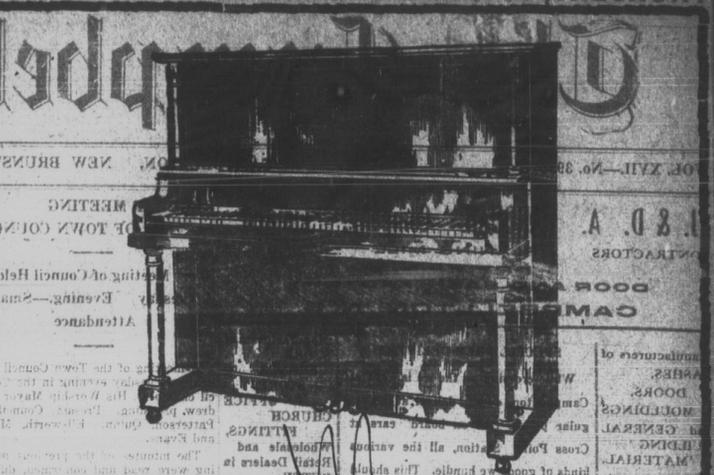

This War Tax is to be prepaid by the senders by means of a War Stamp for sale by Postmasters and other postage stamp vendors.

Wherever possible, stamps on which the word "War Tax" have been printed should be used for prepayment of the War Tax, but should ordinary postage stamps be used for this purpose, they will be accepted.

This War Stamp or additional Stamp for war purposes should be affixed to the upper right hand portion of the address side of the envelope or post card, close to the regular postage so that it may be readily cancelled at the same time as the postage.

In the event of failure on the part of the sender through oversight or negligence to prepay the war tax on each letter or postcard above specified, such a letter or postcard will be sent immediately to the nearest Branch Dead Letter Office.

It is essential that postage on all classes of mail matter should be prepaid by means of ordinary postage stamps. The War Tax stamp will not be accepted in any case for the prepayment of postage.

AFRAID SHE WAS DYING

Suffered Terribly Until She Took "Fruit-a-tives"

MR. JEAN DE MATHEA, JAN. 27th, 1914.

"After suffering for a long time with dyspepsia, I have been cured by 'Fruit-a-tives'. I suffered so much that I would not dare eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-tives'. I did not wish to try them for I had little confidence in them but, seeing my husband's anxiety, I decided to do so and at once I felt relief. Then I sent for three boxes and I kept improving until I was cured. While sick, I lost several pounds, but after taking 'Fruit-a-tives' I quickly regained what I had lost. Now I eat, sleep and digest well—in a word, I am completely cured, thanks to 'Fruit-a-tives'."

WHERE ARE THE LOYAL ORDERS?

There is a maggot eating at the heart of Canadian national life; and independent citizens of this country are standing by in silence, witnessing the work of the greedy maggot without a murmur. Materialism has burrowed into the body politic so deep that even things most dear to the honor of a nation do not escape it. Young men, young soldiers, are voluntarily giving their all, their lives, in defence of British freedom, British honor and British tradition; and the political maggot is eating into the health of the citizen army through the soles of its rotten boots.

Having eaten into the health of the soldiers who were strong and well, the maggot is now fattening on the sick and wounded, broken in the Empire's war. Field dressings, even the saline and balm and bandages, for the poor broken limbs and shattered bodies of Canada's wounded men and boys, have been made a medium for the cursed maggot to ply its loathsome business. Where are the upholders of British tradition, the loyal orders, the sons of England and the sons of honor in Canada? Must they remain forever silent while such damnable maggoty is being laid bare?

Here it has been demonstrated and confessed before a committee of members of parliament that a junior clerk in the Carleton Drug Company—of which William F. Garland, M. P. for Carleton, is principal owner—has made a profit of \$9,000 on an order for forty thousand dollars worth of field dressing and other necessities intended for the brave men at the firing line. The drug clerk, a mere inexperienced youth, paid about \$15 a week, is introduced to the militia department under the scoundrelly political patronage system tolerated by the pinchbeck political practise of this country.

It is pretended that the junior clerk of the Carleton Drug Company is allowed to appropriate this patronage—begeton \$9,000 of public money without hint or interference regarding its disposal by his political masters. Taking the pack of patronage middlemen at their political word, and assuming that the \$9,000 of profit on the field dressings and necessities for wounded men is to be disposed as pretended, is it not enough to bring tears of shame and indignation to the eyes of every lover of Canada and British honor?

The Red Cross fund is having to appeal for more help; and many good people are giving of their scant earnings to do what little they can for the tender nursing of the Empire's poor broken men. For the sum of \$9,000 eighteen trained nurses could have been sent from Canada and maintained at the saving line for a whole year—perhaps till the end of the war—to wash the wounds and soothe the pain-racked bodies of Canada's injured soldiers. One hundred and eighty Red Cross beds could have been sent to the saving line to lay weary, shivering and shattered men upon, in cleanliness and comfort, so far as comfort is possible. But the \$9,000—just one instance of the work of the maggot eating at the heart of Canada—is now deposited to the account of a junior clerk of the firm of the Carleton Drug Company, of which William F. Garland, M. P., is principal owner.

And the political colleagues of the honorable member for Carleton gloss

over the work of the maggot by asking smooth questions. Field dressings and first aid necessities for the wounded are made to yield up a profit of 28 per cent—\$9,000 of public money—to a politically appointed agent; and Mr. Bin of Peel glibly asks, "Is that regarded as high in your business?" And Mr. Frupp of Ottawa says to the Carleton Drug Company's junior clerk, "You do not have to account to anyone for the amount?" The clerk answers, "No." Says Mr. Frupp, honorable member for this Capital and royal city, "You are going through college and this will help you?" And the obedient clerk answers, "Yes." And the loyal citizens of Canada are quiet calm and unmoved about it!

Within a few weeks the political packs will have scattered across the country, and if the ring-leaders have their way Canada will be plunged into the swirl and swirl of a general election. Such patriot pentry as the head of the Carleton Drug Company, and the sophist members of the committee investigating the profits over the bodies of wounded soldiers, will be expounding themselves upon political platitudes and appealing for the support of the loyal orders and believers in British tradition and honor! They will vow themselves to be the saviors of the Empire. What will the loyal orders and independent citizens say? Britain would surely abhor and repudiate such professed aid. Will it seem well in the sight of the Great Architect of the Universe?—Ottawa Evening Citizen. (Ind-Cons.)

INTERNATIONAL UNDER DISCUSSION

Lack of Proper Service on This Road Brought to the Attention of the Department

(From Hansard)

Mr. MICHAUD: I understand that the Department of Railways and Canals is operating the International railway, a railway in the province of New Brunswick, between Campbellton and St. Leonard's. Before this Government took hold of this line, the road had a very nice service. There was a nice little express running which gave satisfaction to the public, and also a freight service. The freight traffic offering is practically the same as before, and as to the passenger traffic, I am informed that it has not decreased as much as on other lines of railway, for instance the Canadian Pacific railway or the Temiscouata. But since the Government took hold of the railway they have changed the timetable and have cancelled the express entirely and have given us what they call a mixed freight. I hope the Minister of Railways has travelled on mixed freights in his younger days.

Mr. COCHRANE: Lots of them, and glad of the chance.

Mr. MICHAUD: I am sorry he has forgotten what the kind of travelling means. I have here the time-table that was formerly in operation, and also the time-table since the Government took hold. Formerly there were two trains a day leaving St. Leonard's. One of these left at 5 p. m. for Campbellton, connecting with the Bangor and Aristook and Canadian Pacific railway. Then there was a mixed train leaving at 8:30 a. m., and connecting with the Transcontinental at Edmundston. This would give the best possible accommodation to people travelling from St. Leonard's to Campbellton or from points north on the New Brunswick railway. The express would leave Campbellton at 8:30 a. m., connecting with the Canadian Pacific railway at St. Leonard's, while the mixed train would leave at 8:00 a. m. and would connect with the Canadian Pacific railway. Now, what about the new time-table? One result of this time-table is that it takes two days to go from Edmundston to Campbellton, a distance of 145 miles. Under the present arrangement the people from any part of the St. John valley wish-

"Safety First" What should it mean to the motorist?

"Safety First" should mean that his car is as strong as the best materials can make it.

French government laboratory tests, comparing the vital parts of a high-priced French car, proved the Ford to be thirty per cent stronger than the best built French car. The Ford Motor Company holds the French Government's certificate attesting this fact.

More than a half million Fords in world-wide service have proved the French tests to be correct. The Ford is strongest—and therefore safest.

"Safety First" should mean that his car is as light as is compatible with utmost strength.

Ford Vanadium steel—by laboratory test and by actual service test—is not only strongest, but is also lightest.

The lighter the car the easier it is to control. And ease of control means "Safety First".

A light car can go with perfect safety where a heavy car might be in serious danger.

The Ford is the lightest—and therefore safest. "Safety First" should mean that his car is simplest to drive. The Ford planetary transmission keeps the motor always "hitched" to the car.

There is no shifting of gears to "hook up", the car with the motor—no bother—some levers to manipulate in a crisis. Simply a touch of the foot to the pedal and the Ford is off.

The powerful Ford foot-brake—to save nothing of the emergency brake—will stop the car almost instantly from any speed.

The Ford "picks up", backs up and "gets every" faster than any other car—a big advantage in an emergency.

The Ford ease of control makes it the safest car for congested streets of the city, as well as for uncertain country roads.

The Ford is easiest to control—and therefore safest. These are some of the "Safety First" reasons why Ford cars are so popular and advantageous to purchase. The Ford is the "Safety First" car. Phone 10.

JAMESTOWN'S DRINK BILL.

This city spends enough money for "booze" in a single year to buy one battleship for our American navy, fully equipped. That is just what it is costing our citizens to support the saloons. Battleships cost about \$4,000,000. Annual license.....\$1,000 Rent, heat, taxes, help, fines, etc. 1,500 Net profits for family support, necessities, luxuries.....1,500 Total.....\$4,000

This is gross profits, not gross sales. The saloon must make fifty percent on the dollar to "make ends meet"—double every dollar invested. Our saloon-keepers must take in \$8,000 each year in order to make a success of their business. At a low estimate each saloon is costing our city \$8,000 each. The fact is that many cost three times this amount; but let's be fair with them.

If one saloon costs \$8,000 each year, sixty-five saloons are costing us about \$520,000. Last year our city court collected \$75,000 in fines, either from common drunks or houses of ill-fame, where liquor was the direct influence for crime committed. As a result of liquor, 1,208 young men were brought into court; 305 young women were made criminals; 208 families were divorced; 3 men appeared in county court answering the charge of murder; 2 houses were set on fire by men intoxicated; no woman was nearly killed by

Probably they will again meet at a later date. The Never-Slips were the first to open the scoring and the manner in which they scored, made them look like sure winners, but the Dreadnoughts made a good combined rush which resulted in the puck being neatly netted. Now they were equal, both teams did their very best to win, and at last fortune favored the Dreadnoughts, as they managed to score their second goal just before half-time was called. Soon after the second half had begun, the Never-Slips made the scores level again; however it fell to the Dreadnoughts team to score two successive goals, which made the scores 4-2 in their favor. The Never-Slips again surprised everybody by rallying and making a neat goal; they had now, just ten minutes in which to equalise and they managed to do it, after great exertions on both sides, and when the gong sounded the score was:—

Never-Slips 4
Dreadnoughts 2

Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. (our approximate population of young men) were made "less men"; which does not appear on this city record, were blighted—made unhappy places; 809 known children (they were many others yet unknown by the authorities) were obliged to leave school and go into the factory because their fathers or mothers, or both, drank thousands of accounts at our merchants' establishments are yet unpaid because they drink less wages away from their families. (They were many thousands of accounts at our merchants' establishments are yet unpaid because they drink less wages away from their families.)

The maintenance of our police force amounts to \$16,000 in salaries alone; the cost of the city jail, all things considered, is \$12,000; it costs our municipality \$250 to transport men to the county jail, to say nothing of the time of the officers in this task. Approximately 1,000 houses have not been built for our people because they have given their money to the saloon. There are 20,000 empty seats in our churches because men and women have got the clothes, money, or both, of the 7,000 children, are not attending our Sunday-schools because of "being boozy". Our factories are obliged to employ help brain-fagged because of liquor; the efficiency of our schools is lowered, because children are obliged to work at home instead of study, because of liquor.

These are a few facts for every voter, taxpayer, and progressive citizen to drink in. They are figures of what we are paying for the sinful saloon each year; and not all the cost has been included. There are the broken hearts, the accumulation of blasted faces and lost manhood yet to be considered.

But there are sixty-five saloons in Jamestown! They cost this fair city at a fair proportionate consideration, \$5,200,000. This grand sum of money is passing "over the bars" of the Jamestown saloons each year.

We have twenty-four Protestant churches, each equipped with a Young People's Society and Sunday-school. These institutions cost the citizens of the city approximately \$200,000. We have two grammar schools, one high school, and ten branch schools. These, all things considered, cost the city not over \$300,000 per year, interest on investment included. These few institutions cost the city about \$600,000 per year. We contributed \$2,000 to city charity last year; \$5,000 to the Old People's Home; \$6,000 to the orphanages.

Mrs. Doucette Tells of her Dressing Symptoms During Change of Life and How She Found Relief

Ballville, Nova Scotia, Can.—"Three years ago I was suffering with what the doctor called Change of Life. I was so bad that I had to go to bed. Some friends told me to take Lydia E. Pinkham's Vegetable Compound and it helped me from the first. It is the only medicine I took that did help me and I recommend it. Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, and fainting, are promptly headed by intelligent women when woman's great change may be expected.

There was an official burning of boots supplied the Canadian soldiers in Toronto, before the footwear could be examined. Those responsible were not, however, fired by the same spirit which animated the famous leader who ordered his bridges burned behind him.

IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Milderable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sour and ferments like garbage in a swill barrel. That's the first step to unfold misery—indigestion, foul gases, bad breath, yellow skin, mental depression, everything that is horrible and disgusting. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.
