

## BOYS AND GIRLS BETWEEN AGES OF FOURTEEN AND SIXTEEN AT WORK ON SEPTEMBER FIRST WILL NOT HAVE OBLIGATED SCHOOL

Those Who Are Pursuing Studies at Present Time, However, Must Continue Education—Part Time Courses of Instruction in Operation September, 1922.

Official announcement that section three of the adolescent school attendance act will become effective September 1 has been given to local education officials by the department of education. This provides for the attendance at school of adolescents between fourteen and sixteen years of age unless employed on the authority of a home permit or an employment certificate, as provided for by the act, but that it is not his intention to instruct attendance officers to make the act retroactive by endeavoring to compel young persons between fourteen and sixteen years of age who have been engaged in regular employment to return to school.

School authorities, accordingly, in the beginning will be charged with providing only for the continued instruction of those who are at present at school and not for the numbers who might be forced to return to school by the strict interpretation of the act.

## LIBERALS PLAN LINE OF ATTACK; CAUCUS HELD THIS MORNING

Hon. W. L. Mackenzie King to Announce Party's Stand This Afternoon. TWO COURSES OPEN Demand for Immediate Election or Motion of Lack of Confidence.

[Special to The Advertiser.] Ottawa, Feb. 15.—Liberal members from both Houses gathered in caucus this morning. The affair opened with a sort of doxology for the victory at Westport, and the cheering which greeted the entrance of Mackenzie King was loud and long. The main business of the caucus was the discussion of the chief and most immediate question being the course to be pursued in connection with the debate on the address, which commences this afternoon. Mr. King will follow the mover and seconder of the address, and will move that the government be censured. The decision upon, as he did last session. Whether the amendment would be a straight demand for confidence, or a simple motion of lack of confidence in the government, has not yet been decided. The nature of the tactics are not being divulged.

Gov. Caucus Not Set. No date for a Government caucus has yet been set. The members of the Government are in some perturbation of mind, and any break-up before the thirty days required for the sitting down of the House would be disastrous not only to them, but to the government. Many malaises have stricken the Government ranks, and there are many absentees and any break-up of the Government would be disastrous. Talk of reconstruction of the cabinet has been going on for some time. Little enthusiastic response among the rank and file of the Government has been heard. The members of the Government are in some perturbation of mind, and any break-up before the thirty days required for the sitting down of the House would be disastrous not only to them, but to the government. ## PRESBYTERIANS AT PORT STANLEY ARE SELF-SUPPORTING

For the First Time in Twenty Years, Says Report.

VANNECK-IVAN CHARGE

Rev. N. A. Campbell Will Continue in Rural Work.

At this morning's meeting of the Port Stanley Presbyterian Church the secretary reported that the Port Stanley Presbyterian Church had announced that for the first time in twenty years the church had become self-sustaining. The presbytery requested the clerk to send a letter of congratulation to the congregation.

On notice of motion from the last meeting, the secretary, Rev. W. M. Martin, was given an increase of salary, now receiving \$200. The presbytery paid a tribute to the splendid services rendered by Mr. Martin during his term of office. Rev. Mr. Galbraith and Rev. D. C. MacGregor moved and seconded the motion that the increase be granted.

A deposition was heard from Vannack and Ivan, who were charged with the murder of Rev. N. A. Campbell. The deposition was heard from Vannack and Ivan, who were charged with the murder of Rev. N. A. Campbell.

## IN HOT PURSUIT

## WESTMINSTER TOWNSHIP WILL FIGHT HIGHER RATES FOR THE SOUTHERN NATURAL GAS CO.

Rev. A. E. Hunter of Lambeth States Officials Told Him He Must Sign Document for Increased Rates or Have the Supply Cut Off—No Threat Intended, Says Company Official.

"We'll abide by the present franchise until such time as an act is passed by the Legislature," Rev. W. E. Grieve of Westminster Township plainly told officials of the Southern Ontario Gas Company, which was seeking an increase in the price of gas. An amendment to the franchise was suggested as the means. The gas officials present at this meeting of the Westminster Township council in the county council chambers were H. S. Rowley and G. N. Gale.

## KING GEORGE WARNS IRISH AGAINST USE OF VIOLENCE

Criminal Methods Will Never Solve Problem.

TOUCHES UNEMPLOYMENT

British Monarch Outlines Important Legislation at the Reopening of Parliament.

London, Feb. 15.—Violence will not solve the Irish problem, King George declared today in his speech from the throne at the reopening of Parliament in formally opening the session. In one of the outstanding sections of his address referring to Ireland, the King said: "The situation in Ireland still causes me distress. A misguided section of the Irish people persists in resorting to methods of criminal violence with the object of establishing an important republic."

Neither Irish unity nor Irish self-government can be attained by this means. The King's speech was brief, but it touched on numerous vital questions confronting the government. At the opening of the session, the King said: "I earnestly trust," said his majesty, "that by this means further progress may be made in giving effect to treaties of peace in re-establishing concord in Europe and restoring tranquillity in the Near East."

King George expressed himself as favorably disposed toward a commercial treaty with Soviet Russia, saying: "It is my hope that negotiations for a treaty with Soviet Russia will be successful."

Colleague of the Lloyd George regime was not foreseen, as it foresees he probably would be able to control enough of the House of Commons to carry out his ministry's plans, but it was probable that the premier would be called upon to fight in his most vigorous manner if he was to come unscathed from the House of Commons.

## LOYD GEORGE GOVERNMENT FACING OPPOSITION FROM ALL QUARTERS; POLICIES ARE STRONGLY CRITICIZED

Legislation of Vital Importance Is Forecasted—Questions of Unemployment, Higher Taxes and the Irish Situation Up for Early Consideration—Pre-War Splendor and Pomp Mark Reassembling of British House of Commons—Thousands Throng Line of March to Cheer King, Queen and Prince of Wales.

London, Feb. 15.—New political alignments and the proposal of legislative and governmental issues of tremendous importance to the people of Great Britain were foreshadowed when parliament reassembled here today after a recess of seven weeks. Opposition to the Lloyd George ministry, and discontent with many of the policies it has pursued in the recent past, seemed to have reached a climax, and it appeared the stability of the cabinet would be given its crucial test before the final adjournment of the session.

Attacks on the government seemed certain to centre about Ireland and the plans of the premier for the future government of the Irish people. Several former supporters of the coalition government were among those who were most bitter in their comments on the Irish situation, centring about conditions of unemployment and high taxes. ## NO. 2 COMMITTEE HAS LONG ROUTINE LIST

Many Matters To Be Disposed of at Tonight's Meeting.

### ESTIMATES FOR YEAR

Will Be Plunged Into Before City Fathers Finally Yawn for Closing Time.

Several gallons of midnight oil will be burned tonight by No. 2 committee of the city council. There is a long list of routine matters for them to deal with, and when they get through with those they will plunge into the estimates for the year.

Although City Engineer Brazier only returned Monday, his department has much of the work ready for consideration by the council. It is expected, however, that tonight's figures will deal chiefly with supplies for the department and general maintenance. The question of wages will not be touched on, nor is it likely that paving plans will be considered.

## PARIS JUDGE SPOILS GIRL'S WAR ROMANCE

Hotel Cashier Arrested For Theft Just Before Boarding Ship To Go To U.S.

Paris, Feb. 14.—A war romance between 19-year-old Suzanne Bailly and an American officer, who was shattered today, when a Paris judge sentenced Suzanne to the girls' reformatory for theft.

Some time ago a wealthy American woman, whose name the police decline to give, was robbed of two capes in a Paris hotel. One was black velvet with a fur collar, and the other was white. Their combined value was \$1,600.

Employees of the hotel were questioned, but without avail. It was only a week ago that Suzanne, an assistant cashier, was arrested on the day before she was to board a liner for New York.

The girl confessed the theft. She said she became acquainted to an American lieutenant more than a year ago. He sent her money to go to the United States, but after reading American and English fashion magazines she concluded her clothes were not good enough. She hoarded her savings for several weeks, but became sick and was forced to spend her money for medical care. Then she stole the two capes. When the police searched her rooms they found she had made the capes into two skirts and a jacket.

## GOOD NEWS FOR "LIZZIE" OWNERS

A decline of two cents per gallon in gasoline and of one cent per gallon in coal oil is announced in the wholesale price in Ontario, the present rates being 38 cents per gallon for gasoline, delivered in 500-gallon quantities, and 17 cents for coal oil.

This drop, The Advertiser is informed by T. J. Colgan, manager of the British American Oil Company in this city, has been brought about by a fall in the price of American crude oil.

This announcement will have its due effect on garages and owners of cars generally, because a decline in wholesale rates will automatically influence retail prices.

This ought to be good news to those who experienced the rapid rise due to the war, and may help prices may not revert to normal all at once, further reductions may follow at no distant date.

## PETER OF SERBIA, NOW 79 YEARS OLD, IS GROWING FEEBLE

Now Totally Deaf and Spends Time in Bed or Chair.

Paris, Feb. 14.—King Peter of Serbia, now 79 years old, is very feeble, according to reports reaching Paris from Belgrade. He is totally deaf and spends all his time in bed or in an invalid's wheel chair. Only the Crown Prince and Princess and Princess Helena, his daughter, whose husband was killed by the Bolsheviks, are permitted to see him.

While the paralysis that has affected the old monarch's right side for the last two years has improved somewhat, he is unable to walk. He has lost steadily in weight and energy since coming from his retreat in Phaleron, Greece, a year ago, and has ceased to participate in the affairs of state.

He is living in a little stone house outside the city of Belgrade. His only companions are his physician and a personal servant.

After the liberation of Serbia from the Austrians in October, 1918, King Peter returned to Belgrade with his army and entered actively into the reorganization and reconstruction of his shattered country. Failing health, however, compelled him soon after to seek retirement to private life. The affairs of state and court were turned over to his son, Prince Alexander, who became Prince Regent of the new state of Yugoslavia.

Early in 1919, the king was removed to a quiet retreat near Athens, Greece, where he lived for a year or more in a small six-room house overlooking the Bay of Phaleron.

To meet his long-cherished wish that he might die on his native soil, the Serbian authorities, late last year, brought the invalid king back to his beloved Belgrade. He avoided society and kept aloof from all court and public functions.

WHAT HON. "BOB" THINKS. Outspokenly, Hon. Robert Rogers, in an interview here, the West Peterboro election result was in "tone louder than thunder," demanding immediate return to party government, the disclosure of the "black" of political obstructions, real political surgery, and demanding a major operation that will save Canada from the menace of the noxious growth of manipulators, of war profiteers and their solicitors.

## GAS PRESSURE TO BE INCREASED

Probe Into Elgin Complaints Is Opened at Dutton.

ST. THOMAS, Feb. 14.—The gas situation at Rodney, Westerra, Dutton and the adjoining townships of Aldborough, Dunwich and Southwell was considered by Provincial Commissioner Estlin, Chatham, at Dutton today with representatives from the several municipalities and a delegation from Brantford, Woodstock and Ingersoll.

The investigation of the general complaints from the local municipalities was not concluded at the close of the hearing, and a definite decision will not reach the consumers until the taking of the evidence is finished, which is expected on February 22.

H. R. Davis, general manager of the Southern Ontario Gas Company, was present, and W. K. Cameron and St. Clair Leitch represented the complainants.

Made Agreement. It appears an agreement was signed in 1914 for a 20-year supply of gas at 35 cents, and an endeavor was made by the company to have the rate increased to an additional rate of 15 cents, but the customers rebelled against the increase of the figure to 50 cents with a lowering pressure of gas.

Mr. Davis, superintendent of distribution, was the chief witness for the company, and he acknowledged that he had placed a competent and experienced man on the regulators at Rodney, Westerra, Dutton, and Southwell. These contrivances had greatly reduced the pressure of the gas, and the pressure was from 2 1/2 pounds maximum to 9 ounces of fluctuation.

Mr. Davis denied that the reduction of pressure had been made because the consumers had refused to pay an increased rate of 15 cents per 1,000.

He admitted that the company's agents had canvassed several of the consumers asking them to sign orders for the increase to 50 cents per 1,000. Mr. Gale did not deny that such orders might have been made to shut off the entire supply if the consumers did not pay the advanced rate.

Considerable testimony was taken and heard, and the matter will be brought before the board of referees on February 22. Mr. Gale promised to increase the pressure as much as possible. Mr. Leitch demanding that a uniform pressure of 15 pounds be maintained.

Ald. Sutherland, Ingersoll; Stedman, Brantford, representing the municipalities, protesting against any action on the part of the commission, that would tend to diminish the supply of gas and requested that a competent investigator be appointed by the Government to thoroughly examine into the gas condition, and if found that a 35 cent rate is too low, as the municipalities are, a cancellation of agreements, as they considered, should be forced to pay eighty cents 1,000 for the same gas as that which municipalities are complaining at 50 cents, and have an insufficient supply. Robert Clutton of Vienna also claimed a grievance which had been submitted to the commission, and Mr. Clutton asked for its removal.

A resident of Southwell asked for the removal of the continued raise in the rates. He was quoted in press advice as saying, "I was asked to pay \$2.40 in January, 1921, it was \$2.40, and in January, 1921, it was \$2.40, with a small increase in consumption."

## GERMANS WANT PEACE WITH U. S.

Reports From Berlin Reveal Desire to Set Aside Treaty of Versailles.

Washington, Feb. 14.—There is reason to believe that Germany will address the United States Government with a subject of peace immediately after the inauguration of President Harding.

Conversations which German authorities have had with Ella Loring Dorel, American commissioner in Berlin, reveal the desire of the German Government for an understanding with the United States, and it was recalled today that early in December, Minister of State Clegg was quoted in press advice from Berlin as saying:

"Wilson must keep his promises, though the United States guaranteed them, and it's our right to approach the American Government after he is out of office and demand that it transform his promises into deeds. While the task is difficult, we must appeal to the conscience of the whole world. It is obvious that the Versailles treaty must be set aside."

The state department has never given question with German officials, but from the German side, it is known that the German Government is anxious to learn the German official view. The desire of Berlin, according to intelligence received here, appears to be to persuade the Government that the treaty of Versailles is impracticable, especially the provisions relating to indemnities, or reparations.

It was indicated in official quarters here today that unless this Government enforces the reparations bill, it might not have anything like its face value, and because of the necessity of Europe looking to this country for financial aid through the hypothecation of German Government bonds to be given on the reparations account, it is expected that the Allied governments will be no less eager than Germany to obtain the ear of the new Washington Administration.

## HOSPITAL HAS AN \$18,000 OVERDRAFT

GUELPH, Feb. 14.—According to the financial statement, presented at the annual meeting of the Guelph General Hospital tonight, the institution suffered an overdraft of \$18,000 during the past year, due to the exorbitant price of fuel and provisions. Part of the deficit was also incurred owing to necessary alterations which were made at the hospital.

The following directors were appointed: Mr. Rosseter, who is the manager of the hospital, and the master of six languages. But he doesn't regret the step he has taken, for he says that the elegance of his cab is getting him the very finest trade in London, which is a whole lot better than trying to live on six languages.

## LIBERAL LEADER MAY DEMAND AN ELECTION NOW

Tariff Revision Is Most Important Item in Govt. Program.

OTTAWA, Feb. 14.—(By Canadian Press.)—Parliament met today for the first session of the Meighen Administration. The scene was strikingly brilliant. There was all the old traditional ceremony, all the pageantry of days before the war. A mounted squadron escorted his excellency, the Governor-General, to the throne. His excellency was accompanied by a brilliant staff of aides, while judges of the supreme court in their scarlet and ermine, and handsomely gowned ladies in the galleries lent added color to the scene.

The proceedings in both Houses lasted scarcely more than an hour. Members of the Commons gathered at the bar of the House to read the reading of the speech from the throne. Then, on their return to the House, the prime minister, Mr. Meighen, presented the prime ministerial statement of the government program for the session, as indicated in the speech from the throne. It was not a heavy one. Its main provisions are:  
1. Revision of the tariff program for the session, as indicated in the speech from the throne.  
2. Approval of the West Indies trade agreement, repeal of the conservation commission amendments of the Dominion elections act, bills relating to copyright and simplification of procedure of the income tax act, 1917.

Four members were presented and took their seats. They were: Hon. F. B. McDonald, elected in Colchester, N. S.; Hon. Rupert Wilmore, re-elected in St. John, N. B.; S. S. Macdonald, the successful progressive candidate in East Elgin and J. A. Macdonald, who carried Fale, B. C., in the Government interest. There was a curious incident in Mr. Macdonald's presentation. A new member is always accompanied by two other members who present him by name. One of Dr. Macdonald's sponsors was Hon. Dr. Toimie, minister of agriculture, but at the critical moment, Dr. Toimie evidently could not remember Mr. Macdonald's Christian name. Dr. Toimie hesitated; the House laughed. Mr. Macdonald hurriedly whispered to Dr. Toimie, smiling, made the presentation in the usual form.

As the members took their places in the House, many greetings were exchanged, and there was much shaking of hands. It was noted that L. J. Campbell, Liberal member for St. Hyacinthe (whose name has been mentioned as a cabinet possibility), moved down the House, was seated between the Liberals and the National Progressives.

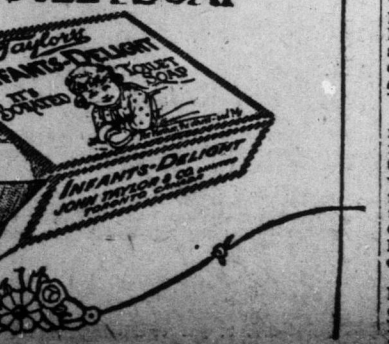

## SHE DARKENED HER GREY HAIR

Tells How She Did It With a Home-Made Remedy.

Mrs. E. H. Boots, a well-known resident of Buchanan County, Ia., who darkened her grey hair, made the following statement:  
"Any lady or gentleman can darken their grey or faded hair, and make it soft and glossy with this simple remedy, which they can mix at home. To half a pint of water add 1 ounce of bay rum, one small box of Oris Compound and 1/4 ounce of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the grey hair is darkened sufficiently. It does not color the scalp; is not greasy and does not rub off. It will make a grey-haired person look 20 years younger."—Adv.

Infants-Delight—an altogether delightful Toilet Soap, mild, fragrant, refreshing—made with the careful attention that has earned confidence in the name "Taylor's" through the past fifty years.

## Not Worrying Over High Cost of Living.

JOHN D. ROCKEFELLER, the oil king, who is stated to have had an income of \$20,000,000 in 1918. The income tax amounted to \$13,000,000.

When the House opened this afternoon, Hon. Newton Wesley Rowell, former president of the privy council in the Borden Government, occupied his old seat on the Government benches. To the Canadian Press, Mr. Rowell stated that he intended to occupy his present seat as long as he remained in the House. How long that would be the former minister did not state.

## ATTORNEY-GENERAL IS NOT TAKING UP CASE OF C. J. FOY

Lively Tilt in House Over Recent Kingston Speech.

TORONTO, Feb. 14.—Hon. W. E. Raney, K.C., attorney-general for Ontario, before the orders of the day were called in the Legislature this afternoon spoke to a question of privilege on an inquiry made in the House last week by Dr. Godfrey, Conservative member for West York, as to whether steps would be taken to cancel the king's counsel patent of C. J. Foy, the Perth lawyer, who was reported to have given utterance to anti-British sentiment at a gathering in Kingston recently, when Amand Lavergne of Quebec was the chief speaker.  
Mr. Foy is not a king's counsel. He is an attorney-general. Perhaps the K. C. stands for Knights of Columbus.  
Dr. Godfrey suggested that the attorney-general was "side-stepping and pussyfooting."  
Hon. Mr. Raney remarked that this was not parliamentary, and the Speaker upheld him in this view.  
Dr. Godfrey asked if the sentiments attributed to Mr. Foy were the sentiments of the attorney-general, and if not, was he going to bring the matter before the Bar Association?  
Dr. Godfrey urged Mr. Raney to speak up so he could be heard.  
Hon. Mr. Raney retorted that it was not his habit to answer impertinent questions. Dr. Godfrey had no right to interrogate a member who had taken the oath of allegiance as to his loyalty, he said. Mr. Raney added that he did not intend to draw the Bar Association's attention to the Foy matter.

## CUBA NEWS MAKES SUGAR MART FIRM

Rumor Says Minimum Price of Five Cents Has Been Set.

NEW YORK, Feb. 14.—Reports from Cuba that President Menocal has appointed a committee to handle the marketing of the present sugar crop, with rumors that a minimum price of 5c per pound was to be fixed, had a bullish effect in the sugar market today, and the market was strong in all departments.  
In raws late last week there were sales of Cubas at 4 1/2c cost and freight, while today other sugars sold at equal to 5c for Cubas, although at the close it was difficult to name any price as there appeared to be nothing offered.  
Refined sugar conditions were perhaps more chaotic than in any other branch, as refiners were at a loss as to what price to make, owing to the steadily rising cost of raws. Earlier in the day there was an advance of 15c to the 37 basis by two of the refiners, but they withdrew from the market later, and in the afternoon another refiner entered the market quoting 37 1/2c for granulated, an advance of 1/2c per pound above the previous list price, and announced that this price was for pound shipments, subject to confirmation and in futures there was active covering by shorts, and considerable trade buying which caused advance of 12 to 15 points.

## DR. A. T. RICE DIES AFTER OPERATION

Former Woodstock Physician Passes Away in Winnipeg Hospital.

WOODSTOCK, Feb. 14.—Word reached the city today of the death in Winnipeg hospital of Dr. A. T. Rice, a former well-known physician. Death followed a second operation. Dr. Rice was born in East Oxford, where he lived until he established his practice here. He was well known in lodge and sporting circles. About three years ago he moved to Selkirk, Man. He is survived by his widow and one son, Walter.  
The Y. W. C. A. is completing arrangements for a big girls' conference to be held here March 4, 5 and 6. It is expected about 500 delegates will be present. The object of the conference is the organization of a leaders' training course for Woodstock and Oxford. This conference will be followed on March 6 and 7 by a convention of the religious education council.  
The death took place in the local hospital of David Virley, aged 27, son of the late Mr. and Mrs. George Virley. He was born in Kent County. Two sisters and three brothers survive.

## CAPT. M'KENZIE IS KILLED IN GAS EXPLOSION

Tiverton Man Meets Instant Death When Acetylene Tank Bursts.

[Special To The Advertiser.]  
KINCARDINE, Feb. 14.—Captain Kenneth McKenzie, a well-known lake captain, met instant death at his home in Tiverton at noon today, when an acetylene tank he was cleaning burst. His skull was fractured and his face terribly buried from the effects of the explosion. It is supposed that while doing the cleaning he struck a match to see if the tank was clean and ignited the gas. The acetylene plant was used to light his residence.  
Captain McKenzie was 52 years old. Besides his wife he leaves two sons and one daughter. Captain Angus McKenzie and Duncan McKenzie of Tiverton are brothers, and Mrs. Grant of Winnipeg, a sister. The dead man was a native of Kincardine, but resided in Tiverton for several years.

FATALLY INJURED.  
OWEN SOUND, Feb. 14.—Solomon Meyer, aged 84, is dead from the effects of an accident. While crossing the street near his home he was knocked down by a horse, whose driver was speeding down the street. A shaft struck him in the chest, breaking his collar bone and two ribs, one of which pierced his lung. Though the street was well lighted so that the driver could not have missed seeing him, and though he called for help, the man responsible for his injuries did not stop, and Mr. Meyer lay where he fell until a passer-by found him and helped him to his home.  
Mr. Meyer was born in Zurich, Switzerland, and came to Canada 55 years ago. He had been a resident of Grey County for over 50 years. He leaves two daughters and three sons.

NOT OPPOSING COUNCIL.  
BRANTFORD, Feb. 14.—The Brantford branch of the G. W. Y. A. has not discussed the matter of carnival since the city council dealt with the question, and has no intention of bringing a carnival to Brantford in opposition to its wishes," declared Secretary Hutchison today. The veterans are ready to take up any other proposition from which they can derive the revenue lost through the prohibiting of carnivals here.

HAD FIVE APPLICATIONS.  
SARNIA, Feb. 14.—The local mothers' pensions commission at a meeting received and considered five applications for allowances and will forward same to the provincial commission with recommendations. The local board was also advised that one of the first applications received here had been passed by the provincial governing body. John Wilkinson presided.

WANT CROSSING PROTECTED.  
CHATHAM, Feb. 14.—A special meeting of the Dominion Railway Board was held here today, when several important matters were submitted, among them being the advisability of installing more adequate protection at the M. C. R. crossing at Charing Cross. Recommendations were made urging that action be taken as soon as possible. For the present "wig-wag" warning signals will be installed on both sides of the railway crossing. Evidence was heard regarding the construction of a spur from the C. P. R. to the plant of the Gray-Dort Motors, who require more loading room.

BURIAL AT BLENNHEIM.  
BLENNHEIM, Feb. 14.—The funeral of Mrs. Joseph Scarf, aged 84, held yesterday afternoon from the Methodist Church. Rev. A. E. Jones conducted the service. She had been ill for some time. She leaves one son, Clark, and one daughter, Mrs. W. J. Sterling, both living in town.

## IF BACK HURTS BEGIN ON SALTS

Flush your kidneys occasionally if you eat meat regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores, so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in urine, so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

## 'DRY' FORCES ARE ORGANIZING FOR THE REFERENDUM

Meeting At Essex Passes Resolution Condemning Race Track Gambling.

WINDSOR, Feb. 14.—Resolutions condemning race-track gambling and urging the co-operation of Methodists in making Ontario dry at the election in April, were brought before the 3rd annual meeting of pastors and members of Methodist Church of Essex County in Essex. The meeting, which was attended by 50 laymen active in Methodist Church, strongly urged that every effort be made by the church as an organization to stop the shipment of liquor into Ontario. The county organization will co-operate with the provincial and Dominion organizations of the church to stop such shipment, the meeting decided.

Rev. H. A. Graham, pastor of the Lincoln Road Methodist Church, Walkerville, presided at the meeting. Reports for the year showed that \$50,000 has been raised in the county for missionary purposes.

## FIRE DEPARTMENT BIG INCREASE IN SALARIES

Attempt To Railroad Motion Through Council Fails At Windsor.

WINDSOR, Feb. 14.—The city council had its first heated session of the year tonight, when an attempt by labor aldermen to railroad through a measure granting members of the fire department an increase in salary of 25 per cent was defeated and referred back to the finance committee.

At the action of the labor member of the council followed a strongly worded request from the fire department asking that wages in that branch of municipal service be increased to the same level as that of the police department. At present firemen are receiving \$1,600 yearly and fire chief \$2,200.

Alderman Howell, who led the opposition to the movement, declared the fire-fighters were attempting to dictate to the council.

The council, which was served on the council tonight by a legal firm of St. Catharines, Ont., of the application now pending at Ottawa for the incorporation of the Canadian Transit Company, capitalized at \$25,000,000, to erect and maintaining an elevated single-span bridge over the Detroit River connecting Windsor and Detroit. The bridge, the notification declared, would provide for pedestrian, vehicular and rail traffic.

The structure, which will be five years in building, will be erected at such a possible following the granting of a charter at Ottawa. The balance of the capital required is covered by a similar affiliated organization now under way in the United States.

The report that a man was prowling around the Colby premises came shortly before midnight. Chief James Smith and Constable Le Prieux went to the house and found that a basement window had been broken. Other patrolmen were called, the house searched, and Spencer ordered to come out. A revolver was found in one of the upper bedrooms, together with loot which had been taken from the house. The entire house, and which amounted to more than \$2,000 in value. Spencer was remanded for eight days until an investigation of his record can be made.

Police early today were called to the home of A. Colby, manager of the Canadian Bridge Company, 117 Devonshire road, and after surrounding the dwelling, arrested Leo Spencer, who was looting the residence.

THE STREET RAILWAY REPORT.

There is a preface to the report  
from the Ontario Railway and Mu-  
nicipal Board operating the Lon-  
don Street Railway. Its operation  
can only be temporary. It says:

"In the very nature of things, in  
view of the statutory limitations  
on the powers of the board, and its  
inability to properly finance such  
an undertaking, the board is un-  
able to provide adequately for the  
inevitable wear and tear and depre-  
ciation of the plant, much less is it  
able to meet the probable demands  
for the improved service and ex-  
tensions certain to arise in a grow-  
ing community like the city of Lon-  
don. The board feels that it need  
not further emphasize these fea-  
tures of the situation, which are  
plain and obvious, and merely re-  
peat them merely to remind the council  
of the urgent need for prompt ac-  
tion looking to some workable  
solution of your transportation dif-  
ficulties, which will meet the present  
and future requirements of the  
city."

These remarks are quite in point.  
The Ontario Railway Board con-  
sider it time that something should  
be done.

The secretary, Mr. Leonard Tait,  
has issued a report to the Ontario  
Railway Board, showing that the  
net deficit for 1920 was \$702,50.

Mr. Tait's report clearly states  
the position of the railway, and it  
is clear that the city should either  
take over the railway and run it or  
else allow the railway to give the  
city service at cost. Municipal  
ownership is not so popular as it  
was, and, therefore, service at cost  
by the Street Railway Company  
should be adopted.

The present situation is neither  
sensible nor just to either the com-  
pany nor to the public. The war is  
over, and anything that can be  
done to make life tolerable should  
be done. The public requirements  
cannot be met because of circum-  
stances over which the company  
has no control and is in no way to  
blame. Common sense should rule.  
Mr. Tait points out that there  
were two strikes, which cost the  
company \$2,717, and the employees  
\$12,370.

New capital is absolutely neces-  
sary to continue the improvement  
to the property, both as to paving  
and equipment. Paving produces  
no revenue. Cars are needed for  
adequate service. New capital can-  
not be obtained by the company,  
because since 1917 it paid no di-  
vidends.

Where is the money to come  
from? This is the most important  
question in the solution of the  
street railway problem. Delay will  
make the situation worse. Whether  
the city or the company operate the  
road, new capital will be needed.  
Both street railways and steam  
railways since 1916 have been in a  
critical position.

The fault did not rest with the  
railways.

"Conditions have tended to break  
down the credit and stability of  
the electric railway industry. Un-  
less the confidence of investors in  
the securities of public utilities is  
restored, the public must, in some  
way, assume the responsibility and  
provide funds for the carrying on  
of an essential public service.  
Lack of confidence in public util-  
ities investments, at the present  
time, is very serious, embarrassing  
the companies, and depriving the  
public of adequate or satisfactory  
service."

Clearly, it is up to the public to  
decide whether the railway shall be  
operated by the municipality or by  
the company on a cost basis. The  
public should get proper service  
now and provision made for better  
service where the growth of the  
city which is clearly in sight re-  
quires it.

The Ontario Railway Board states  
the case clearly. The secretary's  
report gives the particulars which  
justify it, and points out what is  
needed, capital and service. Ser-  
vice at cost would meet the diffi-  
culty best, and at the least risk to

the municipality. If the municipali-  
ty wants the road, take it over as  
soon as possible and do not let the  
complications and difficulties in-  
crease, and the public be longer in-  
convenienced than is necessary. Let  
provision be made, too, for the cer-  
tain growth of the city.

## QUEBEC'S MARRIAGE DECISION.

The Privy Council's decision on  
Quebec's marriage laws clears up  
the long-disputed point as to  
whether or not the marriage in Que-  
bec is a civil contract that can be  
cancelled only through civil law.  
The decision is that marriage is a  
civil ceremony. The judgment has  
no bearing whatever on the attitude  
of the church of any creed towards  
those who break its marriage laws.  
Such persons can be punished as the  
church sees fit, but if that chas-  
tisement should be annulled the  
annulment does not hold outside the  
jurisdiction of the church. Any mar-  
riage ceremony legally performed  
stands good in the eyes of the civil  
law. Edicts of the church can have  
no effect on it. If he wishes the  
individual can accept an ecclesiasti-  
cal annulment of marriage, but he  
cannot recognize such a decision  
where civil affairs are concerned.  
Under the French law of Quebec  
a Protestant minister could not  
marry a Catholic and a Protestant,  
while a Roman Catholic priest could.  
By the Privy Council's ruling the  
religious beliefs of the parties to a  
marriage contract has nothing to  
do with the contract's civil validity.

## GERMAN FILMS.

The movement to bar German  
made films from Canada because  
Germany boasts that it will utilize  
the screen for world-wide propa-  
ganda, is not based on common  
sense. If Germany proposes to tell  
the world all about herself, her  
ideals, hopes and plans through the  
medium of the screen, by all means  
let her films be exhibited every-  
where. That will be an excellent  
way to discover if she is up to any  
further mischief-making. The Ger-  
man, no doubt, will continue to  
imagine that he is too subtle and  
clever for the rest of us, but we  
know now that he couldn't put  
"anything over" on the inmates of  
an imbecile asylum. Any new devel-  
opment Germany may hope to in-  
troduce through films would be as  
easily discerned as the bloom on a  
flapper's cheeks.

## EVERYTHING

### FRIENDSHIP.

[Anna Durla.]

Friendship is gathered on the hills of  
life.

At morn when tender Youth and  
Beauty meet.

And Hope, full-winged, of gaily trip-  
ping feet.

And uplift born, with clarion music  
rife.

Cries, "Follow, follow through the  
whirling strife,

Nor fear the winding path, the  
windy blast.

Of myriad airs, warm with the tropic's  
heat,

And clear as pippins of Pan's weedy  
field."

And all adown the shining way they  
trippled.

Through meadows greened by rivu-  
lets and rills.

Youth was the first to fall, with ban-  
ner dipped.

In blood, and Beauty met the foe  
that kills:

But Hope, with broken horn and  
plumage clipped,

Lived, fed with friendship gathered  
on the hills."

### INQUISITIVE TOMMY.

"Papa," said Tommy Trudway.

"Now, Tommy," replied Mr. Trud-  
way, "I shall only answer one more  
question today. So be careful what  
you ask."

"Yes, pop."

"Why don't they bury the Dead Sea?"

### THE BLACK HORSE.

[Anne Peacock.]

A Black Horse stands outside my door,  
And he will wait for me—  
Full well I know he will not go,  
Impatient though he be.

No one can see him but myself  
Or hear him paw the dust.  
The Black Horse waits outside my  
gate.

And ride him soon I must.

I have no fear of my Black Horse—  
His mistress I am known.  
Some midnight grim I'll go to him  
And ride him forth, alone.

He knows the road that we must  
seek—  
Powerful he is, and fleet,  
Noneless as wind our goal we'll find—  
Noneless his hurrying feet.

But there is one whom I have loved  
Will feel an icy breath,  
And, shivering, say, as we pass that  
way:

"Some soul rides forth to Death."

### A MECHANIC CAME ALONG.

[New York Times.]

On a hot day last summer an express  
train between Philadelphia and New  
York came to a jolting halt, says the  
current issue of Nation's Business.  
The passengers first joked, then grum-  
bled, then grew impatient. A big man, white-  
haired, but youthful in motion, climbed  
down from a chair car and marched up to  
the engine, which was the centre of a  
ring of passengers.

"What's wrong?" he asked.

In effect, the engineer said that the  
engine had quit and he didn't know what  
the several things was the matter with it.

"The big man peeled off his coat and  
waistcoat and rolled up his shirt sleeves,  
said: 'She's all right now,' put coat and  
waistcoat over his arm and walked back  
to his chair car, wiping his hands on a  
handful of waste he'd picked up in the  
cab."

She was all right, and the man who  
made her all right was Samuel Matthews  
Vaughan, president of the Baldwin Loco-  
motive Works, and a real boss of their  
20,000 workmen.

## OTHERS' VIEWS

### THE HANNA ORDER.

[Victoria Times.]

This country therefore cannot afford  
to take part in an undertaking  
so tremendously important, even to  
satisfy the political aspirations of its  
employees. Finally, it ought to be  
quite obvious that no railroad execu-  
tive worth his salt would care to re-  
tain his position in the circumstances  
favored by the report of the majority  
members of the board of conciliation,  
and that without the most competent  
management it would not take long for  
the Canadian National Railways to  
lapse into chaos at a ruinous cost to  
the people of Canada.

### NAVAL ARMAMENTS.

[Toronto Mail.]

In the report of the United States  
Senate naval committee it is proposed  
that the United States should "main-  
tain a navy at least equal to that of  
any other power." This is of the  
Daniels-Jingolems, so entirely against  
the tenets of thought today. But the  
Senate committee goes somewhat fur-  
ther, and declares that "the lessons of  
naval history teach us the importance of  
exposed to attack while another is  
preparing all the engines of war would  
be not only folly, but the greatest  
danger to the peace of the world that  
could be imagined." The New York  
Post points out that, alone among the  
nations, the United States is now in  
"preparing all the engines of war,"  
and that Britain would be justified by  
the committee's advice in immediately  
resuming armament competition. But  
as ex-President Taft says, United  
States opinion is against continuance  
of armament competition, and only the  
campaign of a clique of navy won-  
derers stands in the way of carry-  
ing it into effect. The president-elect  
is known to be in favor of moderate  
naval policies, and to welcome discus-  
sions on disarmament, and the Sen-  
ate's action on the committee's report  
will be influenced by the attitude of the  
Republican Administration soon to take office.

### ARROGANT LABOR LEADERS.

[Montreal Gazette.]

Mr. Lloyd George yesterday told rep-  
resentatives of the locomotive engineers  
and firemen's unions that the threat of  
a general strike would not influence the  
Government in dealing with the incident  
at Malvern, where, in one of the Irish  
disturbances, some railway workers suf-  
fered. It was that for something, and  
this to be said. There are Labor leaders  
in England who act as if they were the  
Government, and able to do anything  
of their own mind, to compel whatever  
action they desired, legislative or ad-  
ministrative. This rebuff they have  
received may be a part of the process  
of teaching them that all the people are  
greater than any part.

### ONE THING AFTER ANOTHER.

[London Daily Express.]

It is many years since man was to be  
cured of all his ills by the removal of  
a largely superfluous appendix. When  
the magic of that operation began to  
pall, pyorrhea became the chief dental  
trouble, and the substitution of dentures  
for the unruly teeth of nature the elixir  
of life. But man's health was still in-  
differently, and the discovery of the "dead  
tooth" in all its pretensions a path-  
way to centenarian vigor. Passed by  
monkey glands, we now come to the  
nerve centres of the spine as the seat  
of all trouble, and a delicate combina-  
tion of osteopathy and massage is the  
infallible recipe for perfect health.

### QUEBEC ON A PINNACLE.

[Victoria Colonist.]

Quebec, the French province of Can-  
ada, despoiled to a considerable extent  
by people of other provinces for no par-  
ticular reason except that the ways of  
French-Canadians are not our ways and  
their belief different from many respects  
from our beliefs. Quebec is the most  
conspicuous province in Canada today.  
It is set upon a hill, and the eyes of  
all Canadians, if not of all the world,  
are fixed upon it as the Government of  
the Province of Quebec has a surplus  
in hand after transacting the  
last year's business of about a million  
dollars. If there is any other admini-  
stration in the world that can "point  
with pride" to such a feat, we have not  
noticed anything about it in the press.  
It is a matter for congratulation. The  
phenomenon had appeared anywhere  
within the area of the telegraph wires it  
would have been announced with a blare  
of trumpets. The war evidently was not  
considered an excuse by the Quebec  
Government for multiplying expenditure  
manifold. That Government, true to the  
inherent conservatism of its disposition,  
just went upon its way doing business as  
usual, and it has a large surplus which  
it proposes devoting to educational and  
other justifiable purposes.

### INDIAN UNREST.

[London Morning Post.]

At the present moment the anti-  
British feeling throughout Northern  
India has notoriously risen to a point  
never known before. Nothing but the  
consciousness of the physical force still  
in the hand of the Government keeps  
this animosity from breaking out into  
outrageous manifestations. We are  
actually reduced to such a position that  
it is a matter for congratulation that the  
plan of self-government is not returned  
upon our hands, rejected simply because  
it comes from us. That we owe simply  
to the fact that there are a sufficient  
number of Indians in the country edu-  
cated enough to see where their own  
interests lie. Good will does not enter  
into the matter.

### SAVING THE PETTICOAT.

[Ottawa Journal.]

Experts who are preparing for the  
forthcoming Fashion Show in Chicago  
have decided that the minimum sum  
required to supply a woman with a  
complete outfit is \$32.75. That  
75 cents should be convincing although  
it does not turn up in the following  
details:

Unlaid suits, \$7 to \$10; corsets, \$1  
to \$1.50; and up; silk hose, \$4 and up;  
shoes, \$10 and up; chemise or  
bedgown, \$2.75 and up; undergarments,  
petticoat, \$2 and up; camisole, \$2  
and up; all-day frock (chaperon),  
\$18 to \$20; street suit, \$20 to \$30;  
hat, \$12 and up; evening gown, \$75  
to \$100; and up; \$110 to \$1,000;  
nightgown, \$5 and up; Panama neg-  
lige, \$18 to \$30.

While the "up" holds large place in  
the foregoing scale, it will be observed  
that it does not include gloves, veils,  
rubbers, handkerchiefs, and a number  
of other articles which are ordinarily  
regarded as essentials. Not a farthing  
is allowed for powder, which is now  
worn with all kinds of garments. To  
young women the calculation is clearly  
unsound. No woman would dare fare  
forth without it lest she be considered  
eccentric.

The official statement declares that  
"the popularity of bloomers is not crowd-  
ing the petticoat out of the market." That  
is consoling. It gives a fillip to the  
hope down in every masculine  
breast that there will be survival for  
at least some of the things most com-  
monly used to wear. The petticoat is almost  
the only link which now ties us to a  
picturesque past, and there will be a  
sign of relief throughout the land that  
the dear old thing is not about to be  
"crowded out of the market." If it should  
there will be sad hearts among those  
who have not been infected by the  
bacillus of modern fashion, and here  
and there will be militant spirits, pre-  
pared to fight if the bloomer forces  
carry the "crowding" idea any farther.

The petticoat must be saved at all haz-  
ards. In a long and eventful history  
it has had troubles enough without  
losing its precious place on the market.  
even though it has few friends now  
in its old age.

## OBJECTS TO CONTROL OF APPLE PRICES ON ENGLISH MARKET

Agent-General of British Columbia Writes To London Times.

London, Feb. 14.—Canadian Associat-  
ed Press.—Writing to the Times in re-  
ference to the control of apples, which  
the food controller has announced will  
be lifted on March 31, Hon. F. C. Wade,  
agent-general for British Columbia,  
says:

"If the apple control is to cease, why  
is it necessary to postpone its obse-  
quies till March 31? On October 11 the  
official information was that no price  
of all had been fixed for the sale of apples  
by the importer after November 14. In  
September large stocks of first-class  
British fruit were offered to specu-  
lators, but refused in some cases on the  
ground that in the absence of an order  
fixing the controlled price at which the  
importer could sell it was impossible  
to purchase. This had the effect of  
closing the market to overseas apples  
for the time being, except to specu-  
lators, and more or less demoralized  
dealing in fruit prices has had two re-  
sults: It has enabled the retail dealer  
to dispose of rubbish at the maximum  
retail price, making in some cases a  
profit of 50 per cent, while the best  
quality apples from Canada, which  
were selling freely in Covent Garden  
market at 55s a case have been arbi-  
trarily raised to 30s a case. The  
British Columbia apple has to travel  
6,000 miles to reach London, the ship-  
pers naturally object to being shut  
out of a willing market and arbitrarily  
deprived of business which would be  
theirs under natural conditions.

"What is the object of retaining the  
control at the present time? If it is  
protection to home markets, surely it  
is protection to the consumer. The con-  
sumer is the one who is to be protected  
apple crop this year was, I understand,  
about 65-75 per cent a failure, and  
there is no British fruit left to pro-  
tect. In the object to protect the con-  
sumer? Evidently not, because at the  
present date fixed, March 31, the first  
cargoes of Australian fruit are bound  
to arrive, and at the same moment con-  
trol ceases. Australia is to be congratu-  
lated, but what on their mettle to give  
Canada for continuing the control to  
the very end of her season for export?  
It is had enough to discourage trade  
within the Empire and shut out one  
of the dominions, but a preference in  
effect one over another, however un-  
intentional, only adds to the injustice  
and confusion."

## GERMAN DYE STUFFS POUR INTO G. T. BRITAIN

Thousands of Tons Arrive Before New Law Is Effective.

LONDON, Feb. 14.—Many thousands  
of tons of German dyestuffs were pour-  
ing into the United Kingdom in anti-  
cipation of the coming into force on  
January 15 of the dyestuffs act, which  
placed a strict embargo upon the im-  
portation of foreign dyes, except under  
a strict licensing system. This German  
dumping will now be stopped.

The embargo does not apply in the  
case of dyes entering this country for  
re-exportation or in transit.

The importation of single consign-  
ments may be authorized by the board  
of trade, which issues a special license  
for this purpose in each case subject  
to the approval of a committee of  
eleven, consisting of three dyestuff  
manufacturers, five consumers and  
three persons not connected with the  
dye industry.

Shipments of German dyes under the  
repatriation act will not be affected by  
the new law and the prescribed re-  
patriation will continue to be made for  
distribution to the home market.

The productive capacity of British  
dye manufacturers already exceeds  
25,000 tons a year, compared with only  
1,000 tons in 1913.

During the next decade British chem-  
ists will be put on their mettle to give  
for Great Britain a complete indepen-  
dence for the present act is aimed to test  
them.

## WILL MOVE TO LONDON.

GODFREY, Feb. 14.—R. Harrison  
has disposed of his insurance and  
brokerage business to Captain E. H.  
Hill, and will move shortly to London,  
where he has bought another business.

## TELEPHONE RATES BONE OF CONTENTION IN GREAT BRITAIN

### Postmaster-General Has Announced Increase in Charges.

London, Feb. 15.—While several  
Canadian cities have been scenes of  
lively controversy over increases in  
street railway fares, Great Britain has  
its bone of dispute in an increase of  
telephone rates.

The business interests and general  
public have suffered an attack of  
what some call "telephonia" as a re-  
sult of an announcement by the post-  
master-general, that he would increase  
the telephone charges on April 1 to  
present subscribers and immediately  
to new subscribers.

These increases are based on a re-  
port of a select committee of the  
House of Commons, and call for an  
annual rental of £8 10s, against the  
old charge of £5. The present fee of  
3d (6 cents) at a public call box will  
remain for short distances but longer  
distances will be proportionately in-  
creased. These charges have to be  
made to meet an estimated charge of  
£10,000,000 sterling for this year, or an  
increase of 147 per cent over pre-war  
rates.

The volume of criticism which the  
first official statement called forth has  
since grown considerably, and not only  
have resolutions of protest been sent  
to the Government from every cham-  
ber of commerce in the country, but  
combined action is being taken by the  
various chambers with a view to some  
relief of what is called the "in-  
equitable" imposition of higher charges  
for service which is admittedly ineffi-  
cient.

Some are even advocating a boy-  
cott, but conservative opinion inclines  
to the belief that this would seriously  
injure the service in future.

A deputation, representing the press  
of Great Britain, protested to the

Johnston, Mrs. W. F. D. Jarvis, and the late Robert Jarvis have charge of the tea arrangements.

The "Meds" in the garden, which takes place in the Winter Garden on Thursday evening next, promises to be one of the most delightful of Western University functions. The committee in charge is exhorting every student to attend.

A success. It is being held under the patronage of Dr. and Mrs. Paul McKinnon, Dr. and Mrs. Sherwood Fox, Dr. and Mrs. Bowman, Dr. and Mrs. Wilson and Dr. and Mrs. Kent.

Uttar Hall was attractively decked for the occasion.

## PARIS POLICE CHIEF STAYS IN ROLE OF CINEMA AUTHOR

Uses Movies To Teach People Best Ways of Dodging Accidents in Crowded Streets and Uses Heirloom To Emphasize His Arguments For Carefulness.

Paris, Feb. 14.—The latest role of Prefect of Police Raoul is that of cinema author. In an effort to teach Parisians the best methods of crossing streets without getting mangled by automobiles, busses, taxicabs, military camions and other vehicles, he has prepared a scenario which will be made into a film and furnished free to hundreds of Paris motion picture theatres.

The plot is quite simple—simply, in fact, that the task of avoiding the dangers of the congested traffic. M. Raoul presents the interesting tale of a rich, manufacturer, whose charming daughter is uncertain about which of two suitors she should choose for a husband. The parent suggests that the man who is likely to be carried

## WHITE HOUSE FASHION MADE IN MRS. HARDING'S DRESS ROOM WHEN SHE BUYS 2 BLUE GOWNS

New York, Feb. 14.—The wife of the president-elect has been selecting contents of her White House wardrobe, but conducted a hotel suite campaign for clothes. Fifth avenue's modiste, tailors, furriers and jewellers followed one another into her rooms at the Ritz-Carlton, where she spent nearly eight hours inspecting their offerings.

Scores of fabrics, gowns, hats and a few models were taken up to her suite and down again, but the president-elect's wardrobe was not complete until she had selected a pair of blue gowns. She granted admittance only to a large group of photographers and reporters, and those who sought to have their goods chosen for the White House wardrobe.

Style dictators, pondering over impressions they received, predicted the laws of fashion will be blue after March 4. That is the favorite color of Mrs. Harding. She selected a tea

## ADOPTS 'TRIPLETS' CALLS THEM HER OWN

Atlanta Woman Also Confesses Getting 'Twins' From Maternity Hospital.

Atlanta, Feb. 14.—One of the lost mating stories of mother love that the world has known came to light in Atlanta this morning, when Mrs. P. E. A. South of 23 Weyman avenue confessed that the "triplets" supposedly "born" to her on New Year's Eve were not her own; that twin girls "born" to her four years ago were not her own, and that she had reared altogether eleven children when even her husband believed she bore, when in reality they were all adopted secretly because of her great desire for babies.

Mrs. South's husband, who is a clerk in a grocery store at 129 Decatur street, at first was angry, but when he learned of his wife's confession, he was not indignant, declaring it was an "infernal lie."

"It she made such a statement it was because some sinister influence was at work on her," he declared. "They all are my children, and my neighbors will testify to the fact."

While Mrs. South declared her husband deceived her children themselves, deceiving the newspapers and the public—in fact, deceived everybody but herself and the institutions from which she procured the babies, she has committed no wrong in the eyes of the law.

"I don't like movies, I don't like theatres, I don't like to go out—the greatest thing in my life is children," she declares. "That is why I did it—because I love children and because I wanted to give them the best raising I could, especially the little nameless waifs in the maternity hospitals who

## HAY PRICES TAKE JUMP

Timothy Hay Now Selling at \$24 per Ton—No Straw Offered.

Although Tuesday is generally a large market day, only about 10 loads of hay and a load of oats were offered. The demand for hay was active, and the top price jumped to \$24 per ton, but the minimum remained at \$22. Only one load of clover hay was sold, and it brought \$23 per ton.

No straw has been offered for about a week, and the demand has become so good that prices are expected to soar before the end of the week.

Although there was only one load of oats sold today, the demand was active and prices were unchanged. Market officials are of the opinion that oats are due to take a slump before the end of the week.

Chicago, Feb. 15.—Opening: Wheat—March, 1 1/2c; May, 1 1/2c. Corn—May, 15c; July, 15c. Oats—May, 15c; July, 15c.

Chicago, Feb. 15.—Weakness developed in the wheat market today, owing largely to a disposition on the part of buyers to hold off in the absence of any new factor of a bullish character. Some hedging sales of the March delivery were noted. Opening prices, which varied from unchanged figures to 1/4c lower, were followed by a slight rally, but then by down turns all around.

Export demand for corn remained lively. After opening unchanged to 1/4c lower, the market worked lower, and then degenerated a general sale.
