New York, July 19.—The corespondent of the Tribune cables respondent of the Tribune cables from London, under yesterday's date, as follows:

Rumania will cast her lot with the Allies in the very near future. That is the belief in London today.

The plight of Austria, the continued successes of the Russian armies, successes that have reached and passed the Rumanian border, and the impending Allied offensive from Saloniki, will lead, it is expected, to the important decision.

Information from Bucharest forecasts developments at almost any moment.

ALL-NIGHT BATTLE GIVES GERMANS DELVILLE WOODS AND PART OF LONGUEVAL

Enemy Throws Heavy Reinforcements at British, But Progresses at Two Points Only, Being Repulsed Elsewhere.

[Canadian Press.]
London, July 19.—2:26 p.m.—The
Germans have recaptured a portion of Delville Wood and obtained a footing in the northern out skirts of Longueval, the war office announced today.

The announcement follows:

'The enemy's attack last night, the beginning of which already has been reported, was directed against our new positions east of Bazen-tin village. Very large German reinforcements had been collected for this attack. After an intense artillery fire the first assault was delivered in dense masses at about 5:30 o'clock in the afternoon. fighting continued all night and was particularly violent in Delville

BOLD FRENCHMEN FORT AND 113 GERMANS: EPISODE OF THE SOMME

[Canadlan Press.] Paris, July 19 .-- One of the most striking episodes of the great ne offensive was the taking of the field fort at Riaches garrison of 113 men by nine French soldiers. The fort had resisted throughout the artillery bombardment and the infantry attacks had been checked by murderous machine gun fire.

A Lucky Find. By a lucky chance a French officer discovered the precious secret that the terrible bombardment had made the fort vulnerable at one point. Selecting a second lieutenant, two sergeants, a corporal and four men, he led them on hands and knees through the long grass to the spot where he knew there was a breach in the defences. They reached their objective point without the Germans learning of their approach.

All Surrendered. Abruptly three of the French of-ficers leaped into the work shouting in stentorian tones: "Forward with

the bayonet," and throwing bombs which exploded in the dugout. The other six daring Frenchmen remained behind ready to retreat if But the Germans, taken unawares, had no time to get their weapons, and surrendered almost without a show of fight. When one of their number fell, shot by a revolver fired point blank by the commanding French officer, the Germans, 113 in all, came out of their shelters and threw up their hands, the French assert.

The three French captors now began to feel nervous, as they saw no reason why the Germans should not fall upon and exterminate them. But at this moment the other six hurried in. Their resolute energy imposed upon the Germans, who believed that the new arrivals were followed by many others. The German officers in the fort then threw down their arms and the entire garrison was marched to the French rear, escorted by the nine captors, who had not lost a man.

BATTERY COMMANDER TOO OLD FOR ACTIVE SERVICE

Lieut.-Col. McCrae Back in Guelph-Recruited the 43rd.

[Special to The Advertiser.] David McCrae, who went overseas a commanding officer of the 43rd Battery, which he recruited here, in a re markably short time, arrived in Guelph shortly before noon today, and changed from his military clothes to mufti. The colonel intends to go west for a short visit to his wife, and to report to Ot tawa. Col. McCrae states that he had passed the age limit for men to be allowed to go to the front, as he is a man of 70 years or more. Some months ago he volunteered to raise a battery, and was successful in rallying around him a fine body of young men, including a large number of theologs from Knox College. His regret is keen at not going over with them. It is likely that in a short time he will be asked to recruit another battery in Guelph.

RULES OF HEALTH FOR DYSPEPTICS

DIETING UNNECESSARY

There are two ways by which people who suffer from indigestion, dyspepsia, sour stomach, flatulence, etc., can overcome the trouble. First, as practically all cases of the above are directly or indirectly traceable to acidity and fermentation, they can eliminate from their diet all foods which ferment and form acid, such as all starches and sugar and foods containing them, thus prohibiting bread, potatoes, fruits and most meats. About the only safe foods are gluten breads, spinach and small quantities of white meat of chicken or turkey. This diet is almost a starvation one, but it is sometimes quite effective. The second way, which appeals especially to those who like to eat hearty meals of good foods, is to eat whatever is reasonably digestable, neutralize the acid and stop fermentation by the use of a good antacid, such as bisurated magnesia, a teaspoonful of which in a little water immediately after eating or whenever pain is felt. instantly neutralizes the acid, stops the fermentation and permits the stomach to do its work without pain or hindrance. Owing to its simplicity, convenience and effectiveness, this latter plan is now being adopted, instead of the old-fashioned, expensive, weakening starvation process. In this connection it is interesting to note that since the widespread use of bisurated magnesia was established, many druggists have arranged to supply it in 5-grain tablets, two or three of which are gists have arranged to supply it in 5-grain tablets, two or three of which are equivalent to a teaspoonful of the powder form, and are much more convenient

Breava line is reported to be very severe. In hand-to-hand conflicts the Austrians are successfully holding the line eastward of the Bukowina border. As during the former occupation of Bukowina, the fighting along the Carpathian heights is taking on the nature of guerilla warfare. There are constant skirmishes between patrolling parties and other small forces.

Chicago, July 19.—Lower cable quotations led to a decline today in the wheat market here. The foreign weak-ness was said to be largely owing to prevailing views at Liverpool that North American supplies were large and were likely to increase in the near future. The possibility of peace being declared seemed also to have become a factor in European estimates of values. Market Continues Narrow and Is Devoid of Striking Features.

[Reported by Thomson & McKinnon.]

It was a narrow market that lacked striking features. The Giles report was bullish but the map as a whole looked better and therefore this report was practically ignored. Yet it showed a decrease in the average condition of the belt since June 25 of 2.6 per cent while at the same time it is .2 of 1 per cent better than last year. In other words, it is 78 against 80.6 on June 25, 80.7 a month ago, 77.8 last year, and 78.8 in 1914. Since June 25 the condition has declined according to this report 11 per cent, and that in Georgia and Mississippi 6 per cent due to rains, floods and increasing damage by boll weevil. Over most of the belt it says the fruitage is not equal to the size of the fruitage is not equal to the size of the weed, and that the plant itself av-erages small for its age. It adds that full extent of the damage in Georgia, Alabama and Mississippi cannot be estimated for two or three weeks. stand a spell of hot, dry weather, trouble east of the Mississippi has terly been rains, grass, weeds weevil. MUCH LOSS, NOW HUNGER, BY NEW YORK STRIKE

Garment Workers and Employees Still at Odds After Three Months.

[Canadian Press.] New York, July 19.—The breaking off of conferences between the Cloak, Suit Skirt Manufacturers' Protective Association and the International Garment Workers' Union, left the Garment Workers' strike today to all intents where it was when it started three months ago. Statements issued by both sides each accused the other of breach

The strike affects some 40,000 employees and about 500 manufacturers. It is estimated that orders for women's lothes worth \$60,000,000 have been left water onfilled. Strike payments of \$65,000 a week have been made by the union. The citizens' committee, which has been aiding the workers, issued a statement today, saying as the results of the strike more than 200,000 persons are facing hunger. The committee plans to raise \$35,000 a week for the benefit of he garment workers as long as the strike lasts.

[Canadian Press.] Berlin, July 19 .- Via Wireless to Sayille.-A warm commendation of the work done in Russian Poland by the fermans during the period of occupation was given by Dr. Karl Helfferich, the secretary of the interior and imperial vice chancellor, today on his re-

rn from a visit to that country.

Dr. Helfferich, who recounted the mpressions of his visit to a member of the Overseas News Agency staff. contrasted the condition of the country under Russian rule with the state of the search. affairs there today. In the time of peace, before the outbreak of !the present war, the Russians had neglected the country, said Dr. Helfferich. Then came the period of hostilities which had devastated the land. Under any aid. these conditions the Germans took up their work, which the vice-chancellor insisted has been accomplished with a success which could find few parallels

The retreating Russians, Dr. Helfferich pointed out, had burned villages and towns and destroyed the harvests. The Germans first built roads through the devastated territory and supplied cattle and seeds to the inhabitants. with the result that now one frequently could see herds of a hundred or more cattle, while fields of standing grain were on all sides. He cited an instance of aid given the inhabitants by the peing left the horses of two regiments for field work on orders given by

Pumping Starts Tomorrow. Pumping at the Macgregor wells, which may be purchased as a further supply for the city, will be commenced on Thursday. An electric line will be run to the wells, which are already drilled and cased, and an electric pump installed. The water will pumped direct to a nearby creek, and after several days' pumping, ir order to get rid of all surface water, etc., an analysis of the water for its purity will be made. If it analyzes pure and fit for consumption, a temporary main will likely be built to the end of the present city service at the Impe corner of Wreay street and Wharn- and 9.2-inch shells. cliffe road, 2,000 yards away, where it will be turned into the city mains. Every gallon of water from the Macgregor wells is to metered in order that the commission may have accurate information as to the supply, etc. The wells, when tested years ago, were claimed to have maintained for 24 hours the level reached after two hours' pumping that eliminated the surface water. Once that was removed, it was impossible, according to the claims of those who conducted the tests, to reduce the level any further.

It is said by some that the Macgregor wells are merely the Kilworth springs tapped in another spot. The some proportions is suspected by ex-
