DEVOTED TO THE INTERESTS OF WOLFVILLE AND EASTERN KINGS

Vol. XLII. No. 16.

## THE CHURCH AND EDUCATION

Able Address Given by Dr. McDonald on Sunday Evening

The Church's contribution to Education was the subject discussed at the Baptist Church on Sunday evening last by the pastor, Rev. J. H. MacDonald.

The Church, he said, was always the friend of education. Indeed, the very genius of Christianity makes for education. It not only imparts moral cleansing, it gives intellectual quickening. It gives to all who receive it a new appreciation of their own individual worth and destiny and, therefore, inspires them to make the best of all their faculties. The history of modern education is the history of Christianity. The missionary to non-Christian lands has founded institutions of learning, from the kindergarten to the university. The first schools of higher learning on this continent were invariably linked up with the Churches. One of our own poets shows the interest the pioneers of Nova Scotia took in the training of their sons and daughters:

"Our sires—brave hearts that crossed the estranging seas,

And broke the hush of primal wood,

Who lit their candles in the solitude,

And met the saffron morn upon their knees—

What though their homes were void of luxuries.

Learning ne'er begged, no; altars smokeless stood.

It is to these I bear my head! They made This place a garden of the mind, and we Cradled in comfort, now bid memory hold,

The fragrance of their lives in jars of gold."

### Church and State

The speaker proceeded to inquire if the Church is not losing its grip upon education. The number of state-controlled institutions of learning would seem to indicate that it was. But the fact is the Church has been gradually educating the state to its duty with regard to education by first setting the example and then handing over to society the task of education. Christian nations have now come to see that education is a national duty. "Make your education laws strict," said Ruskin, "and your criminal laws may be light." More and more the church is throwing off the peculiar forms in which its benevolent services have been embodied. These interests can safely be committed to society because society has become permeated with the Christian ideal—the love of truth and the desire to serve mankind. In this respect the church today is doing more for education than in the days of direct control.

### Sience and Religion

Is there not an antagonism between religion and education? Some few people in the churches have always feared education. They fear that with every advance of knowledge the throne of God may be undermined. There are also a few people in the scientific world who are antagonistic to religion. They refuse to accept anything as true that will not yield to the laboratory test. These two classes, happily growing less, love to have a fling at each other, the one boasting of the intensity of his faith and the other of his championship of science. They are both bigots and are representative neither of science nor of religion. The greatest scientists have been always the most reverent Christians, and the noblest Christians have always declared that truth can never be opposed to truth. Science is God's truth revealed in His world and religion is God's truth revealed in His dealings with men and summed up in His blessed Son. Religion and science are two sisters. They occupy separate apartments of the Father's house, and live at peace. Scientific learning has a message of good news. It makes the world bear richer fruits, but knows nothing of the tree of life. It can trace our human relationship to this world, but it cannot say, "Now are ye the sons of God". It has no salvation for sinful souls. The Christian church moves like a mighty army against ignorance. It declares that ignorance is out of harmony with the will of God because it is subversive to the well-being of humanity.

### Dangers to be Averted

The speaker pointed out the church's supreme opportunity in directing education along pure and wholesome lines. It must be ever watchful to see that education is not made materialistic. We must not forget the lesson of German "kultur". Education must be sought for unselfish ends. "We are coming more and more to realise the stewardship of wealth, but we have not yet fully realised that education is also a trust. The Dives of culture is just as worthy of condemnation as the Dives of wealth, if he allows himself to gorge over his rosewood library table while the unlettered Lazarus lies at his gate, a prey to the vicious dogs which invariably follow those unblissed with knowledge.

## WINDSOR WINS CHAMPIONSHIP

By Defeating Wolfville at Windsor Monday Night—Score 4 to 3

The deciding game in the eastern section of the Valley Hockey League was played at Windsor on Monday night when the Wolfville boys went down to defeat before the Windsor team in a hard-fought game. The local team was considerably weakened by the loss of Hirtle who was unable to play on account of illness, but nevertheless they put up a splendid game and gave Windsor a run for their money.

Neil Wilkie, of Halifax, who handled the game and gave a fine exhibition of how to referee a hockey match, set the players in motion at 10:30 p.m. Wolfville having arrived late owing to their special train being stalled over two hours at Grand Pre. From the outset play was very fast and even. Poole opened the scoring after ten minutes, when he went down his wing and beat Eagles with a fine shot. A few minutes later Sam McDonald uncorked one of his famous rushes and slapped the rubber behind Eagles for the second tally. This was all in the first session, although both goals were in danger a number of times.

Period two saw the Wolfville team turn the tables on their opponents. With a two goal lead staring them in the face they went back to the ice and within the space of five minutes from the whistle had put themselves back on even terms. W. Kennedy rapped in their opening counter soon after the start on a nice rush, and Morrison made it "even stephen" a few minutes later. The teams battled through the rest of the second session without further scoring and left the ice with the score 2-2.

G. Kennedy gave the Wolfville contingent a chance to cheer soon after the opening of the last frame when he came in close and evaded the Windsor defense for the third and last goal scored by his team. The Wolfville lead, however, was short lived, for Poole evened things up three minutes later, and at the half-mark Mosher placed Windsor ahead with the last score of the game. The Wolfvilleites tried hard to get back on even terms again, but the strong defensive play of Windsor prevented further scoring. Towards the end of the game things roughened up, but Referee Wilkie chased the offenders and kept it pretty clean.

An unfortunate "accident" occurred in the last period when a large section of the "boards" with the spectators leaning against them fell on the ice and on Morrison who happened to be in the vicinity. The latter was badly injured and had to retire from the game. This is the second time this season that such a thing has happened in the Windsor rink and will not tend to make it popular with visiting teams.

The teams were as follows:

**Windsor**.—Goal, Smith; defense, McCann, S. McDonald; forwards, J. McDonald, Poole, Mosher; subs, Clarke, Cochrane, Hughes.

**Wolfville**.—Goal, Eagles; defense, Clarke, Scriven; forwards, W. Kennedy, G. Kennedy, Woodman; subs, Harvey, Morrison, Rand.

Premier Taschereau stated at a public meeting held recently that Quebec was now spending \$2,000,000 yearly for education. The government's greatest undertaking was, however, its good road policy since the inauguration of which \$40,000,000 had been spent and over 4,000 miles of road had been built. In addition iron bridges to the cost of \$6,000,000 had been constructed.

People who know the least are apt to assume the most.

### MAY GOVERN RUHR

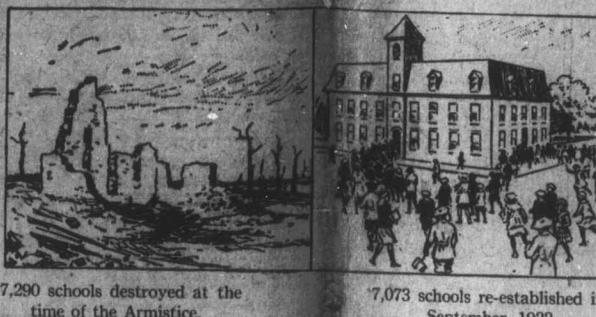

General Weygand, Marshall Foch's Chief of Staff, who may be appointed High Commissioner for the occupied Ruhr district.

WOLFVILLE, NOVA SCOTIA FRIDAY, February 2, 1923

\$2.00, payable in advance

## FIVE YEARS PEACE IN FRANCE

7,290 schools destroyed at the time of the Armistice.  
7,073 schools re-established in September, 1922.

The recuperative powers of France have been demonstrated once more in her recovery from the effects of the great war. The chart shows that 7,290 schools were destroyed or damaged at the time of the armistice. At the end of five years France has re-established 7,073 of these schools. Three per cent are permanently reconstructed.

## ANNUAL MEETING

Willow Bank Cemetery Corporation Held Last Week

The annual meeting of the Willow Bank Cemetery Corporation was held at the Council Chamber on Monday afternoon of last week. Those who have been striving to create an interest in the beautifying of the cemetery during recent years must have been very much discouraged by the small number in attendance, as it was considerably past the hour announced before a quorum could be secured, and in all there were present only two persons besides the directors.

After the reading of the minutes of the last annual meeting the president, Mr. W. H. Chase, read the report of the directors as follows:

Your Directors in reviewing the work done at Willow Bank Cemetery during the past year would report to the shareholders that the scheme of bringing the whole cemetery to a condition where it may be lawned, has with a few exceptions, been carried out. Work of levelling on the west side of driveway was continued, and a good portion of this part of Cemetery was levelled and small paths filled similar to work done the previous season.

On the east side of driveway, a new section has been laid off and made available for the sale of lots.

A second road running north and south has been started but not gravelled, and one side of the new section has been levelled.

A number of trees and stumps were removed and a large stone drain was laid along the driveway which was opened.

This drain took care of all the stones which have been accumulating for the past year or two.

Also near the South entrance on North side driveway a triangular lot of land was laid out in lots following the original lay-out.

This portion will add some twenty to thirty lots in a very desirable part of the Cemetery, and in laying this out it was found that the road should be carried a bit further to the north in order that the original lay-out might be followed.

Your Directors, after consultation,

decided that this work if ever done should be attended to now, and here, as ever, the Managing Director came to the front and said he would undertake to see it through. Right here, your Directors would like to express their appreciation of the services of the Managing Director who has given so much of his time and energy to the work done during the whole season, and to whose efforts so much work has been accomplished at a minimum cost.

We would also call the attention of the shareholders to the fact that we are under a debt of gratitude to our Secretary Mr. Patruin who undertook the beautifying of the circular plot of ground in the south-west part of Cemetery, by procuring shrubs and planting same, thus greatly improving the appearance of this portion of the Cemetery. Further improvement might be made by planting certain flowering plants so that there might be blooms as late in the season as possible.

There is considerable work yet to be done either this coming season or some time in the near future, which when completed should bring the Cemetery to a condition where it will not be necessary to carry on new constructive work, and the attention of the Directors could be turned to the beautifying of this spot, which while one of the most sacred is also capable of being made one of the most beautiful in the vicinity.

We cannot close this report without referring to what seems to some an unpleasant episode. As possibly you all know action was taken against your Directors for causing to have cut down a natural wild tree, said to have been located on a certain lot. The case was carried to supreme court and jury decided that the Appellant should receive one hundred dollars from the corporation for the cutting down of said tree. The case simply rests there.

Your Directors wish to make it clear to Shareholders that the ordering of this

tree to be cut down was simply in conformity with all trees in the Cemetery it being considered desirable that all growing trees should be along driveways and not scattered promiscuously in lots. Your Directors will submit for your consideration some additional by-laws which they hope will define more clearly their powers.

Mr. R. E. Harris, the managing director and treasurer, presented his report which showed that the receipts during the past year including the balance from last year amounted to \$1320.26 with expenditures \$856.45, leaving a balance of \$463.81. The amount received from the sale of lots during the year amounted to \$457.

An interesting part of Mr. Harris' report was the statement that during the year there had been 21 burials, the average age being 66 years and 9 months.

This is the highest yearly average on record and speaks well for the healthful conditions of our town.

Rev. Dr. Cohoon reported for the trustees that during the year \$725 had been received for perpetual care of lots,

making the total now \$2,225. The income from this fund amounted to \$76.06.

The following resolution was passed:

Resolved that the secretary be authorized

to apply to such amendment to the

act of incorporation as may be necessary

to give the Board of Directors the full

power to deal with the ornamentation

of the Cemetery.

The directors for last year were re-elected as follows: W. H. Chase, R. E. Harris, C. A. Peck, D. W. Manning, C. A. Patruin, Ross Fraser.

## ACADIA DEFEATED MIDDLETON

At Middleton Last Friday Night Score 8 to 6

MIDDLETON, Jan. 26.—Getting a one-goal lead in the first period of their game here tonight with Middleton, the visiting Acadia College hockey team managed to keep out in front all through the second session, and after the locals had evened things the visitors went ahead again, and the period ended with the count 2-1 against Middleton. The second period saw both teams play to an even break. Middleton got two and the collegians did likewise. In the last frame the teams again had their sights on the target and some pretty shooting resulted in Acadia getting four more counters while the locals ran in three. Morrison scored three goals for Acadia. Hirtle three, and Clarke two. Fraser got two for Middleton, and Reagh, Shaw, Cox, and Fisher each one. The teams:

**Middleton**.—Goal, Cleveland; defense, Fraser, C. Fisher; forwards, Reagh, Andrews, F. Fisher; subs, Moore, Shaw, Cox, Thompson.

**Acadia**.—Goal, Wright; defense, Clarke, Murray; forwards, Morrison, Barreaux, Hirtle; subs, Kitchen, McLeod.

Lester Andrews handled the whistle to the satisfaction of both teams.

## GRAND PRE NOTES

Several from here attended the hockey game between Wolfville and Windsor, in Windsor Monday evening.

Mrs. F. H. Crane is on the sick list,

and her friends hope she has a speedy recovery.

Mr. and Mrs. Fred Harvey, of Kennedy, Sask., are visiting the former parents.

Mr. and Mrs. George Harvey.

Mr. Irving F. Boates is spending a few days with Mr. S. W. Rodger.

Mr. and Mrs. R. H. Eaton spent the week end with Mrs. W. P. Eaton. Mrs. Eaton will spend a few weeks here.

Mrs. P. W. Shaw, Falmouth, spent the week end here, guest of her sister Mrs. F. H. Crane.

Good assortment of Valentines just arrived at THE ACADIAN STORE.

## BOARD OF TRADE

Holds Enthusiastic Annual Meeting Officers Appointed

The annual meeting of the Wolfville Board of Trade, which was held at the Council Chamber on Wednesday evening, was favored by a large attendance of the members and was one of the most successful and interesting gatherings of the kind held for a long time.

President Graham was in the chair and after the reading and confirming of the minutes of the Board and Council presented an interesting resume of the activities of the Board during the past year, and outlined work that might be profitably taken up during the year incoming.

Such matters as the proposed three counties exhibition, the securing of a camping ground for tourists travelling by car, and the better advertising of the town as a summer resort were discussed and referred to the Council for action.

It was decided to suggest to the Town

Council the desirability of inviting the N. S. Fruit Growers' Association to hold its next annual meeting at Wolfville.

A resolution was passed to the effect that in the opinion of the Wolfville Board of Trade the rule of the road should be changed in Nova Scotia and the Council was instructed to send a resolution to the provincial government asking them to bring such legislation into force.

The following officers were elected for the ensuing year:

**President**—Edson Graham.

**Vice-President**—W. D. Withrow.

**Sec-Treas**—H. P. Davidson.

**Council**—H. E. Calkin, Dr. Coit, Dr. Grant, A. G. Guest, J. E. Hales, J. D. Harris, E. H. Johnson, G. C. Nowlan.

Mr. H. W. Phinney made a stirring address urging that every effort be put forth to increase the membership of the Board and make it the powerful agency for community welfare that it might become.

Several new members were elected and the future of the organization seems to be most promising.

## THE TENNIS "BRIDGE"

The commodious home of Dr. and Mrs. Avery deWitt was the scene of a very pleasant gathering last Friday evening, the occasion being the "auction bridge" party in aid of the funds of the Tennis Club. In spite of the inclemency of the weather there was a large number present and a most enjoyable time was had.

There were eighteen tables in all and these were divided into two groups—the unmarried and the more dignified.

At the close of the very pleasantly spent evening bountiful refreshments were served by the ladies and Dr. deWitt thanked the gathering for their presence and patron

## THE ACADIAN

(Established 1883)

Published at Wolfville, N. S., every Friday by  
DAVIDSON BROS., Printers and Publishers

Members of the Canadian Weekly Newspaper Association.

Subscription Rates—In British Empire, in advance, \$2.00 per year. To U. S. A. and other countries \$2.50 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day after.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

## PUBLIC MEETING SHOULD BE HELD

Now, with the financial statement of the town before the citizens, would be a good time for the holding of a public meeting and a free discussion of public affairs. The operations of the past year might be reviewed with profit and plans made for the operations of the coming year. There should be some opportunity given the rate-payers to express their views with regard to town matters and a well attended gathering of citizens with a candid expression of opinion on the part of those who provide civic funds regarding the under-takings of the coming year would be of assistance to those who are to control the town government. Citizens all need to manifest more interest, both in the Council and outside, if town business is ever to be conducted along those economical and business-like lines which its importance deserves.

## LOCAL DEALERS SLIGHTED

Tenders are asked for supplies of various kinds required for the use of the poor at the County Home at Waterville. These must be in the hands of the clerk, P. E. Sweet (whose address is not given, but is probably at Billtown), not later than Wednesday noon, Feb. 7th. A list of the requirements may be obtained by applying to any overseer or the clerk, Mr. W. E. Anderson, of Gaspereau, is the overseer representing Horton. We give this information for the benefit of dealers in this vicinity who may be in a position to bid for this business and who ought to have the privilege of so doing. When THE ACADIAN asked to be allowed to publish the adv. relating to these tenders we were informed that it had been decided that it should be inserted only in the two Kentville paper. Just why the people of the shiretown and vicinity should be especially favored for this business we are unable to say, but it has always been thus. Probably it is one of the results of the present system of taxation without representation in the county council which prevails at least so far as this town is concerned.

## LIMITATION OF SPEECHES

A wise provision which might well be followed by all our legislative bodies has recently been inaugurated by the Quebec Board of Trade. This limits all speeches to three minutes and is bound to accomplish a wonderful saving in time. If our parliamentarians could be induced to take similar action the country would be saved a large amount of expense each year in the reporting of utterances that are usually of very little value or interest. Economy in the matter of speech is at times a virtue that ought to receive encouragement.

## RURAL CANADA WILL DO IT

Law enforcement is more generally practiced and respected in rural districts and small towns than in the larger cities.

All the great cities were, by a large majority, opposed to the elimination of the saloon. And yet it was the saloon in the large cities that did the most of the soul and body-destroying business.

Bad in any place the saloon was at its worst in the big towns. Yet the majority favored its retention and today register protest against prohibition. On the other hand, by a large majority, the small towns and the rural districts favor the laws of decency.

For this reason the smaller towns do not today experience, as do the larger cities, that which has been termed the crime wave.

Our big cities are so busy with what they regard as the pressing business of the hour, that they are less likely to weigh the moral worth of an issue than are the smaller towns and rural districts. Therefore, the moral support of a righteous redress against a wrong social tendency comes from the less populated places.

The big town men too often think they are the big idea builders. That is their big mistake. It is the small towns that both make and save the big towns.

It is the small towns and the farmers of the land who put across the big ideas.

## PRINTERS' PROBLEMS IN WINTER WEATHER

(Annapolis Royal Spectator.)

Many people do not understand how cold weather interferes with the printing business, but it is sometimes a serious matter. It is always a problem to get printing ink that will work well in a cold, damp climate, for which reason printers in Nova Scotia have found that the ink manufactured for use in Boston is far better adapted for this climate than the upper Canadian inks. Not only is ink affected by the climate however, but paper with any proportion of wood in it, if exposed to severe frost even in transit becomes brittle, apt to crack and tear and hard to feed to a press. The press rollers are likewise a special care in cold weather, being affected very readily by dampness and apt to swell and become uneven. It is indeed an old maxim that a press room should be kept at a constant even temperature.

## Refreshes Watery Eyes

When Your Eyes feel Dull and Heavy, use Mitchell's  
Watery Eyes Liniment. It  
is quickly absorbed, clean, and  
leaves the eyes clear, bright and  
refreshed. Non-greasy, cold and  
recommended by All Doctors.**MURINE**  
for your EYES

of about 70 degrees in order to secure good work and satisfactory running of machines an almost impossible thing in a place like this. Small wonder then that one finds such items in contemporaries as the following from the Yarmouth Times of Dec. 20:

The sudden cold snap has affected the mechanical end of newspaper production. The Times is obliged to leave out several important items owing to loss of time due indirectly to the cold. Our sympathies are with the Herald, the publication of which last night was delayed until 9 o'clock.

## NAME NOW CANADIAN

The name of the American Bank Note Company at Ottawa was reorganized on Jan. 1, and under a Dominion charter with a paid-up capital of \$2,500,000 will be known as Canadian Bank Note Company, Limited. The Canadian manufacturing branch of the American Bank Note Company was established in Ottawa over 25 years ago. At the present time it is probably the largest manufacturer of steel engraved bank notes in the British Empire, employing upwards of 600 skilled people.

Lord Northcliffe amassed a fortune of \$27,000,000. We violate no confidence in saying that this is more than the average newspaper man accumulates.

Make your home a dwelling place of light.  
—Mr. Electro-Serve.

You will enjoy the real comforts that folks should know after we wire your home. Electricity was made to serve man and woman and you should have your share of its wonderful blessing. How many rooms? We'll tell you the cost.

## THE SNOW STORM OF EIGHTEEN YEARS AGO

Many will long remember the great snow storm we had eighteen years ago, when for weeks we were shut off from mails and train communication. As an example of the weather that year we give herewith memo's from the diary kept by Mr. A. A. Bligh, Brooklyn Corner, the family residing at that time at Waterville. The memo of the weather reads as follows:

January 15th, 1905, over one foot of snow on ground at that time on the level, cold, some snow.  
16th—Blistering.  
17th—Some snow, blustering.  
18th—Fine.  
19th—Snow blowing, rain at night.  
20th—Fine sharp wind.  
21st—Fine sharp wind.  
22nd—Some snow in afternoon.  
23rd—A little snow.  
24th—Fine.  
25th—Very cold in morning, 3 inches snow in afternoon.  
26th—Snow bound, no trains.  
27th—Snow bound, no trains.  
28th—Milder, snow, train.  
29th—Cloudy and mild.  
30th—Some snow squalls.  
31st—Squally, colder, high wind.  
Month of February, 1905.—Feb. 1st, fine sharp wind, no train.  
2nd—Fine.  
3rd—Snow drifted all day.  
4th—Fine and cold.  
5th—Very cold.  
6th—Very cold.  
7th—Milder, snow blowing.  
8th—Heavy wind, drifting, no train till evening.  
9th—Fine and calmer.  
10th—8 inches snow in afternoon.  
11th—High wind all day, trains delayed.  
12th—High wind, cold, snow at night.  
13th—Some rain, no train.  
14th—Very cold, no train.  
15th—Milder, no train.  
16th—About foot snow, some mail by way of St. John.  
17th—Snow blowing, no train.  
18th—More snow, very heavy wind, no train.  
19th—Heavy wind very cold, no train.  
20th—Roads broken out, milder, no

train.  
21st—Fine sunny day, no train.  
22nd—Colder, fine, train from Windsor.  
23rd—Heavy snow storm, about 1 ft.  
no train.  
24th—Big fall of snow, no train.  
25th—Snow and rain, no train.  
26th—High wind, no train.  
27th—Big snow storm, very high wind no train.  
28th—Fine, no train.  
No train means no mail trains.

Advertiser.

## A NEWSPAPER INCOME

Subscriptions and advertising are the two main sources of revenue a newspaper has, and often the subscriptions do not pay for the cost of white paper.

Newspaper advertising is the greatest business getter there is. This is acknowledged by men who have tried it and know; people read advertisements in newspapers. They have been educated to do it.

We asked one of our business men the other day, how his business was. "Very poor," he told us. "Give you a good stock?" we enquired. "I'll tell the world I have," he said. But he doesn't tell the people here in his home town. Consequently they read of the other fellow's goods and prices, and there they go and buy. The other tells the world—in the proper way.

You can't all be Wanamakers, but you can advertise in proportion to your business. And the results are sure if you advertise honestly and give service. A newspaper can bring people to your store.

What is being done in the big cities can be done right in this town, if you will show the pep, give the service and advertise. Make business good. You can do it by using printer's ink.

Minard's Liniment for Distemper.

## Telephone Your Snowed-up Friends!

The winter of the good old sort which we are having is not too tender in its treatment of certain portions of the Province.

In many places roads are snowed-up, and unbroken for miles.

"Digging out" is all but impossible, and it looks as if in the coming of Spring lies the only hope the hapless inhabitants of these sections have of getting in free contact with the world again.

Meantime, deprived of the mails, they pass a dreary time enough.

Happily, the Long Distance Telephone Lines escaped the Storm King's latest frenzy practically unscathed, and so, are available to carry messages to and from the isolated ones.

You have possibly friends in the snowed-up sections. Wouldn't it be a good idea—a thoughtful thing to do—to give them a nice, newsy talk over the Telephone?

How they would appreciate it!

Besides, you don't want your friends to think they are forgotten, and you don't want them to forget you just because an unusually unruly winter is cutting capers.

NAME.....

ADDRESS.....

**W. C. T. U. Notes**

Women's Christian Temperance Union first organized in 1874.

**AIM**—The protection of the home, the abolition of the liquor traffic and the triumph of Christ's Golden Rule in custom and in law.

**MOTTO**—For God and Home and Native Land.

**BADGE**—A knot of White Ribbon.

**WATCHWORD**—Agitate, educate, organize.

Let us judge one another any more, but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way. RM. 14: 81.

**OFFICERS OF WOLFEVILLE UNION:**

President—Mrs. J. G. Elderton.

1st Vice President—Mrs. W. O. Taylor

2d Vice President—Mrs. G. W. Miller

Recording Secy.—Mrs. Ernest Redden

Cor. Secy.—Mrs. Annie Murphy.

Treasurer—Mrs. H. Fineo.

**SUPERINTENDENTS**

Evangelistic—Mrs. William Chipman

Parlor Meetings—Mrs. Stanley Robinson.

Labrador Work—Mrs. J. W. Vaughn

Fishermen and Lumbermen—Mrs. W. E. Fielding.

Anti-Narcotic—Mrs. W. O. Taylor

Flowers, Fruit and Delicacies—Mrs. D. G. Whidden

Christian Citizenship—Mrs. B. O. Davidson.

Press—Mrs. M. P. Freeman

Willard Hall—Mrs. M. P. Freeman

Temperance in Sabbath Schools—Mr. C. A. Patriquin.

Supt. Tidings—Mrs. T. Hutchinson.

Business meeting of the W. C. T. U. the last Monday of every month.

**A BIT OF RIBBON THAT COST A FORTUNE**

Many years ago, a young man in a London omnibus noticed the blue ribbon total abstinence badge on a fellow-passenger's coat, and asked him in a bantering tone, "how much he got" for wearing it.

"That I cannot exactly say," replied the other, "but it costs me about twenty thousand pounds a year."

The wearer of the badge was Frederick Charrington, son of a rich brewer, and the intended successor of his father's business.

He had been convinced of the evil of the ale and beer trade and refused to continue in it, though it would have brought him an income of twenty thousand pounds a year.

But for that renunciation, a million pounds would have come into the pocket of Mr. Charrington, during the half century of his Christian life.

Though practically a poor man as the result of his renunciation, God sent him the money—many thousands of pounds—to build the Great Assembly Hall in East London, in which thousands of souls have been born again.—Forward.

**CANADA'S EXPORTS OF FLOUR**

Of the 1,119,425 barrels of flour ex-

ported from Canada during November to the United Kingdom, and countries other than the United States, 821,143 went out through Canadian ports and 298,182 through American. The United States took 188,087 barrels during the three months ending November, or 41,000 more than the same period last year. Total exports of flour for the quarter ending November were 2,767,073 barrels, or 890,990 more than for the same period in 1921.

**THE EXPERT**

Very Old General (to ex-service man who had applied for post of valet)—"You know I'm an awkward case to deal with. I've got a glass eye, a wooden leg and a glass arm that need looking after, in addition to false teeth and a wig."

Applicant—"Oh, that's all right, sir. Before I joined the army I was six years in the assembling department of a motor works."—Bystander.

**Town of Wolfville**

Office of Town Clerk and Treasurer.

Notice is hereby given that the assessment roll of the town of Wolfville upon which the rates will be levied in and for the said town for the year 1923 has been filed in the office of the undersigned, the town clerk, and that the said roll is open to the inspection of the ratepayers of the town.

And further, take notice that any person, firm, company, association or corporation assessed in such roll, who claims that he or it is over assessed on such roll may on or before the tenth day of February next, give notice to the undersigned, the town clerk, that he or it appeals from such assessment, in whole or in part, and shall in such notice state particularly the grounds of objections to such assessment.

And further take notice that if any person assessed in such roll claims that any person, firm, company, association or corporation has been omitted or wrongly inserted in such roll, he may, on or before the tenth day of February, give notice in writing to the undersigned, the town clerk, that he appeals in respect to the assessment or non-assessment of the said person, firm, company, association or corporation and shall in such notice state particularly the grounds of his objection.

Dated Wolfville, this 9th day of January, 1923.

R. W. FORD,  
Town Clerk

**FRUIT GROWER'S ASSOCIATION**

Hold Annual Session at Middleton  
Good Attendance and Instructional Addresses

The 57th annual session of the Nova Scotia Fruit Growers' Association was held at Middleton, Jan. 16, 17, 18. The opening meeting was held Tuesday afternoon in the assembly hall of MacDonald School. In spite of the unfavorable weather conditions there was a good attendance.

Prof. Shaw, of the Agricultural College, Truro, was first on the program with a paper on Standard Varieties of Apples to Grow. This was followed by discussion in which Prof. Blair, of Kentville, took prominent part. There was considerable difference of opinion expressed. There are however three factors of importance, adaptations to areas, markets and personal preference of growers.

B. Leslie Elmslie spoke on fertilizer legislation. The Fertilizer Act passed in 1909, revised in 1919, and again in 1922, was an important piece of legislation; this should be rigidly enforced and cooperation given by users. The guaranteed analysis stated is essential if the farmer is to be protected in buying fertilizer.

The evening public session opened with a prayer by Canon Morris followed by an address of welcome on behalf of the town of Middleton by Mayor Parsons. This was replied to by H. S. Shaw, of Berwick.

In his address Mr. Shaw stated that there was no need to be pessimistic in regards to apple-raising; there was to be success rather than failure in the future. The greatest problem to be solved was transportation.

President Vroom then gave his address.

A. L. Davidson, ex-M. P., was next on the program and spoke of conditions among the farmers today.

The prices of farm products today are nearly those of pre-war days while the prices of other commodities are far in advance. A large percentage of the people of Canada get their living from products of the soil. With the decrease in prices of other things, the conditions of the farmer will steadily improve and thus the financial conditions of the country will be bettered.

The farmer should not be discouraged, and every inducement should be made to the young men to keep them on the farm. Taking everything into consideration, the farmer's position is second to none in any phase of industry and has a satisfaction with it that no other occupation brings.

Prof. Cumming followed and stated that the conditions which prevail at present in the place Nova Scotia had won in the Imperial Fruit Exhibition this year. The two highest honors went to Nova Scotia and brought to the attention of the Old Country the fact that this province can produce the best colored, and at the same time the best flavored, fruit which can be grown.

The possibility of producing seed potatoes for market was also gone into.

The fine results of the use of the silo was stressed by Prof. Cumming, also the matter of pasture improvement.

**Footsore?**

Prof. Brittain, the next speaker, had as his subject, Five Years Spraying and Dusting Experiments.

He stated that nothing of permanent value in spraying could be allowed except by experiment carried out by large numbers over long periods. Certain conclusions have been reached through careful experimentation. In general, untreated trees producing 40 per cent to 50 per cent scab, best results are obtained by spraying with bordeaux in lime and sulphur. Conditions vary so much that it is impossible to recommend which treatment to use. These results have been found true. Treated orchards produce a much better result than untreated orchards. Where success has been attained by either dusting or spraying, it is not wise to change methods, best, however, is dusting, supplemented by spraying. Careful experimenting is being carried on and radical changes in spray mixture or dusting compounds may be expected.

A. E. McMahon, President of the United Fruit Companies, was then called to the platform. He spoke of the good done by the companies in bringing down the cost of fertilizer to the farmers. Forty-nine fruit companies are now in this organization which has been in operation only since 1911. The prices of flour and feed sold to the members of the fruit companies, with the saving thereto, is a tribute to the work of the United Fruit Company.

Wednesday's sessions opened with Professor Blair's address on the more careful handling of apples at every stage. He warned against dropping into the basket instead of placing, the necessity of felt-lined baskets and suggested swinging handles. A spring wagon should be used to transport to fruit houses. Apples were better stored un-headed in open buildings than left headed or in the orchard.

He then from an exhibit of thirty-five varieties of apples, pointed out their merits and defects and indicated when each apple matured from its coloring, thus showing when proper time had arrived to pick the fruit. Numerous questions elicited much valuable information regarding varieties best suited to Nova Scotia conditions. It was a very practical address containing many useful hints to the apple growers.

Mr. P. J. Cerey, fruit packing demonstrator from Ontario, followed and through his wide experience as a fruit inspector, judge at fruit exhibitions, etc., he was able to give his hearers many points he had learned from judging fruit. Last year he acted as one of the judges at the Crystal Palace, London.

He first congratulated the Morse family of Berwick on the honor they had brought to themselves and also to Nova Scotia in winning the two best prizes at this exhibition. This exhibit was of much value to Nova Scotia, inasmuch as it gave her much publicity. If such an

exhibit was held next year it was very essential that Nova Scotia be represented. Manchester was such an important market centre for fruit, and it was there the exhibit would be held. In many varieties Nova Scotia could excel Great Britain. He advised the growers to specialize on these varieties for exhibits.

The afternoon meeting opened with the president in the chair, who called upon Fred Bishop, of Paradise, to speak in reference to reports of slack packing of apples during the past season. Mr. Bishop was appointed to go to Halifax to investigate complaints received. He stated that the reports of the inspectors at Halifax were verified by the reports from England. He also stated that lately there had been a great improvement in this respect.

Prof. Arthur Kelsall, of the entomological laboratory at Annapolis, was the next speaker, and dealt with control of orchard pests which is of vital interest to the fruit growers. The work done by the Dominion laboratory, at Annapolis, was two-fold: First, dealing with problems of insecticides and investigation; and second, publicity of fungicides, as well as insecticides.

A good deal of the work was in the test of chemicals. Often we were questioned as to the merits of dusting and spraying. With biting insects, dust was superior, and ordinary scale was successfully treated in this way. A man dusting covers a larger area than by spraying. Prof. Kelsall summed up by saying that it was not advisable to make

(Continued on Page 6.)

FIRST TRIP TO OTTAWA AS FARMERS' CHIEF

Robert Forke, M. P., of Pipestone, Manitoba occupied his new position in the Dominion House when it opened this week, as head of the Progressive party. With Mr. Forke in the picture is seen Mrs. Forke, and below, their farm home at Pipestone, Manitoba.

## HANTSOPORT NEWS

## Pearson—Cooper

An interesting event took place at 187 Warren St., Roxbury, Mass., Wednesday evening, Jan. 24th, when Kathleen Mae Pearson, youngest daughter of Mr. A. Pearson, formerly of Hantsport, was united in marriage to George Henry Cooper, only son of Mrs. Hopkins, of Roxbury. Rev. J. E. Coons, D. D., of the M. E. Church, Malden, performed the ceremony, the spacious rooms being artistically decorated for the occasion, the colour scheme being pink and white. The bride looked the picture of girlish loveliness, gowned in cream satin, with pearl trimmings, looped with lillies of the valley and carrying a shower bouquet of white roses. She was attended by her friend Mrs. Sacks, who was charming in a dress of white georgette, carrying pink roses. Mr. Sacks supported the groom. Miss Woodlene Davison rendered Mendelsohn's Wedding March. After the ceremony about fifty guests partook of a delicious chicken dinner served by caterers. Mr. and Mrs. Cooper left amid showers of confetti and good wishes for a trip west. Many beautiful gifts testify to the esteem in which the contracting parties are held. Mrs. Cooper is a sister of Mrs. Walter Comstock of this town.

## Capt. George

The demise took place on Saturday morning, Jan. 27th, of Capt. George, aged 46 years. Capt. George had been ill about two months suffering from abscesses in the head causing his death. The deceased with his family removed from Parrsboro to Hantsport last summer, and by his genial and cheerful disposition won many friends. He was, until his death, in the employ of the J. B. King Co. N.Y., having been master of the "Ontario" for a number of years. His mortal remains were conveyed to Parrsboro on Monday for interment. He leaves to mourn their loss a widow and one daughter who accompanied the remains to Parrsboro.

The citizens of Hantsport and vicinity were deeply saddened to learn on Saturday of the passing away, at the home of her son, Capt. Chas. Hunter, Dartmouth of Mrs. (Capt.) J. Hunter, of Mount Denson, at the age of 80 years. The funeral services which were largely attended were conducted by Rev. A. B. Higgins, of Hantsport, on Sunday. The deceased was a most estimable lady and had many friends in town.

The funeral services of the late Mrs. Agnes Bailey, of Merideth, N. H., took place in the Baptist Church, on Sunday afternoon, conducted by the Rev. Mr. Mellick.

The Rev. W. Bullock spent several days in Halifax last week.

Miss Hunt, of Annapolis, is the guest of Dr. and Mrs. Shankel.

The Rev. Mr. Mellick has been engaged as pastor of the Baptist Church for the remainder of the winter.

On Thursday evening, Court Rand, I. O. F., and companion Court Cavell, paid a fraternal visit to Court Halliburton, I. O. F., Windsor. A most enjoyable evening was spent.

Several hockey matches are scheduled to take place on the local rink this week.

Miss Evelyn Wall was the hostess at a very enjoyable dinner party on Wednesday evening, Jan. 29th.

Mr. Bailey, of Boston, came to Hantsport last week to be present at the funeral services of his mother, the late Mrs. A. Bailey.

Miss Helen Lawson, of "Acadia", spent the week end with her friend Miss Mary Beckwith.

Mrs. Davis, who resides with her daughter, Mrs. Brownell, "Willow Cottage" had the misfortune to fall last week, badly fracturing her arm.

Mr. Chas. Dunbar, representing the National Manufacturing Co., Montreal, was home for the week end.

Miss Thelma Conrad returned to Truro recently, where she will resume her studies at the Normal College.

Mrs. A. L. O. Phillips spent the week end in New Glasgow.

Messrs. Budd and Ralph Riley, of Sydney, arrived in Hantsport on Thursday and will spend several weeks with their families here.

Miss Ethel Rockefeller spent several days in Halifax recently.

Mrs. Morris, of Halifax, who has been the guest of her friend, Mrs. Geo. Kenley, returned home last week.

Messrs. Ernest and Percy Prizelle, of Windsor, are spending a vacation at the home of their parents, Mr. and Mrs. W. Prizelle.

A number of hockey fans went to Windsor in the hockey special on Monday evening to witness the game between Wolfville and Windsor.

Mr. B. Richmond spent last week in Wolfville in the home of his friend Mrs. Archibald.

Capt. Chas. Trefry, of Sommerville, Hants Co., was a recent visitor to Hantsport.

Mrs. Chas. and little daughter, of Union Square, Kings Co., is visiting Mr. and Mrs. F. W. Porter.

Mr. Lorne Coyle, I. O. F. organizer, returned last week from a business trip to Sydney.

Misses Reba and Beulah Coyle spent Wednesday in the city.

While engaged in hockey practice a few days ago, Mr. Manning Gertridge

## Personal and Social

Mr. Frank Lordly spent a few days in Halifax this week on business.

Mr. F. C. Churchill left recently for California to spend the balance of the winter.

Mr. E. W. Robinson, M. P. for Kings, left last week for Ottawa to attend the session of parliament.

Miss Mildred Schurman left on Wednesday for Boston where she will teach this winter.

Mr. Spinney, of Wolfville, will give a sacred concert in the Baptist Church Gaspareau Sunday evening next, Feb. 4th.

Miss Bentgson, superintendent of Westwood Hospital, spent a few days at Windsor this week visiting friends.

Mr. and Mrs. Geo. H. Barnes left on Monday on a trip to points in the southern and western States and western Canada.

Miss Edith N. White, Dean of the college women, recently returned from Hillsboro, N. B., where she delivered a lecture on "Community Organization".

Miss Ruth MacDonald, who has been spending some weeks with her parents, Dr. and Mrs. J. H. MacDonald, left on Wednesday to return to New York to resume her studies in advanced musical work.

## DEATH'S HARVEST

The death of Mrs. Harriet Amelia Martin, relict of the late Albert Martin, occurred at the home of her daughter, Mrs. Lila Stevens, Melanson, on Jan. 18th. The deceased was a daughter of the late Moody Allen and a brother, Mr. William Allen, resides at Melanson. Two sisters, Mrs. Westcott, of California, and Mrs. Stevens, of Massachusetts, also survive. Mrs. Martin was 85 years of age and was held in high esteem by the community generally. For many years she had been completely blind but was ever cheery and helpful. During the war in spite of her affliction she was active in doing her utmost for the comfort of the boys overseas and actually provided over thirty socks as the work of her own hands. Her death was sudden and unexpected like the falling asleep of a tired child. The funeral, which was held on Jan. 20th, was largely attended by neighbors and friends. The interment was in the old Simpson burying-ground at Melanson, the service being conducted by Rev. Dr. Bennett, of Gaspareau.

News has been received of the death at Los Angeles, California, on Jan. 22nd, of Frances E. Shaw, widow of the late John M. Shaw, of Wolfville. The deceased, who was sixty-six years of age, was formerly a Miss Burbidge, of Cornwallis. During her long residence in this town she made many friends who will hear with sincere sorrow of her death. Her husband, who was a well-known citizen of this place, predeceased her some years ago, and she has since resided mostly in the West. She is survived by two daughters, Mrs. Melville Simpson, of Pasadena, Cal. (formerly of Calgary, Alta.), and Mrs. Chas. Harper, of Los Angeles, and two sons, Percy and Dean, in Nova Scotia. Burial took place in Los Angeles.

**PAY YOUR SUBSCRIPTION TO-DAY**

suffered a broken nose.

Miss Evelyn Shaw, of Avondale, spent the week end at the home of her uncle, Mr. Geo. Morris.

Miss Pauline Puisifer returned to Halifax on Saturday after spending a short holiday at her home here.

Mrs. (Capt) Chas. Barkhouse, of Windsor, spent Monday in Hantsport.

Mr. Chas. Dunbar, representing the National Manufacturing Co., Montreal, was home for the week end.

Miss Thelma Conrad returned to Truro recently, where she will resume her studies at the Normal College.

Mrs. A. L. O. Phillips spent the week end in New Glasgow.

Messrs. Budd and Ralph Riley, of Sydney, arrived in Hantsport on Thursday and will spend several weeks with their families here.

Miss Ethel Rockefeller spent several days in Halifax recently.

**Items Of Local Interest**

Get your Valentines at THE ACADIAN Store. Good quality and reasonable in price.

The Graham Studio has something of particular interest to Kodakers this week. 15-21.

The Bank of Montreal would be pleased to have the Public make use of their Waiting Room. The room is provided with writing materials and desk.

Were you at the Board of Trade meeting Wednesday evening? The Board needs your help and as a patriotic citizen you cannot afford to withhold it.

By defeating the Bridgetown team by the score of 9 to 2 last week, the Digny hockey team won the championship of the western section of the Valley League.

A typographical error was made in the Financial Statement of the town in last week's paper. The expenditure on Streets should have read \$4,895.43 instead of \$48,954.43.

Would the gentlemen who so kindly left a parcel of clothes at THE ACADIAN office for the Children's Aid Society please send his name in to H. Stain, agent for the Children's Aid Society, Wolfville, N. S.

People everywhere like MORSE'S SELECTED ORANGE PEKOE TEA; they like it because it has a richness of flavor that is peculiarly its own. Without exaggeration it can be said that it is the finest flavored tea sold in America.

On Friday evening of last week the home of Dr. and Mrs. W. L. Archibald was invaded by a goodly company of neighbors and friends come to offer their congratulations to the former on the occasion of his birthday. The evening was most pleasantly spent and dainty refreshments, which included a beautiful "birthday cake", were served and enjoyed.

**GASPEREAU NOTES**

Mr. Clarence Spinney, of Wolfville, will give a Phonograph Sacred Concert on Sunday evening, Feb. 4, at the Baptist church here.

We are glad to see Mr. Wm. Millett able to be out after his recent illness.

A number of the people here have been sick with the "bad colds".

We are very sorry to report Mrs. James Eye on the sick list but her many friends wish her a speedy recovery.

Fire broke out in Mr. Fred McInnis' new house early Friday morning last. People were notified and rushed to the assistance but it was too late and the house was burned to the ground.

**KINGS COUNTY POULTRY SHOW**

The seventh annual Poultry Show of the Kings County Poultry Association was held at Kentville last week, and was the best show ever put on by the Association. Over three hundred birds were exhibited.

Following are the winners of the special cups given by Sir Robert Borden, the late Sir F. W. Borden, T. P. Calkin, J. R. Webster, Geo. E. Graham and J. E. Hales and Co., Wolfville. Best display Mediterranean, won by A. L. Webster, Port Williams. Best display White Wyandottes, J. W. Williams, Wolfville. Best display B. P. Rocks, E. T. Jordan, Kentville. Best display in utility class, Lauri Kinman, La'ville. Best display of Leghorns, A. L. Webster, Port Williams. Best display Rhode Island Reds, E. C. Griffin, Port Williams. The largest winners of the other ninety prizes awarded were Mrs. F. N. Hayes, Kentville; Arthur Clark, Woodville; E. C. Griffin, E. T. Tobin, A. L. Webster and E. J. Sim.

Valentine's Day is less than two weeks away. Get your Valentines at THE ACADIAN Store while the assortment is good.

**Coming Events**

Notices under this heading are inserted at 10 cents a line. Each repeat, 5 cent a line; minimum charge, 30 cents. Contract rates on application:

For the next two weeks all trimmed hats at Miss Saxton's will be sold regardless of cost.

This evening there will be a meeting of the "Cubs" and Scouts as usual: basketball between patrols 2 and 4 and 1 and 5.

Don't miss the tea to be given by the ladies of St. John's church on Wednesday afternoon at the Parish Hall, from 4 to 6, under the auspices of the Almond Society.

The annual meeting of the I. O. D. E. will be held on Tuesday, February 6, at 3:30 p.m. in Parish Hall, preceded by a meeting of the councillors and officers at 3 o'clock.

The first game of the girls interclass basketball league will be played between the S. S. S. class of St. John's Sunday-school and the "Robins" of the Baptist Sunday-school on Tuesday, Feb. 6th, at the Scout Gymnasium.

**ACADIA LOSES TO KENTVILLE**

**KENTVILLE.** January 28.—Kentville defeated Acadia College by a score of nine to two in an exhibition game of hockey at the Kentville Arena Saturday evening. The home team was strengthened, somewhat, by the Kennedy brothers, who played a star game, scoring most of the goals. Little was the star of the Acadia team. The first goal was scored by Acadia within a very few minutes of the opening play. Kentville scored four goals in this period, the play being mostly in Acadia territory. As also in the second period, when Kentville drove four more in the net. In the last period the play tightened up somewhat, Acadia and Kentville, each scoring one. Very few penalties were handed out, the game being clean throughout. Ves. Laing referred.

The line-up:  
Acadia—Goal, Elderkin; Defence, Murray, Clark; Centre, Hirtle, Forwards, Conard, Morrison; Subs, Blenkiron.

Kentville—Goal, Barnaby; Defence, Leslie, Corbin; Centre, W. Kennedy; Forwards, Beazanson, G. Kennedy; Subs, Simmons, Neary, Bishop, Leitch.

**FAMOUS CASTLE SCREENED**

**Beautiful Baronial Home in Italy**

**Seen in "The Man From Home"**

**Those who are interested in the exquiste architecture which is to be found in the baronial castles of Italy should be delighted with the Paramount picturization of Booth Tarkington's famous novel, "The Man From Home", which comes to the Opera House Monday and Tuesday.**

Filmed in Italy so that the fullest justice might be done to the work of the popular author, this picture was screened in the exact settings of which the book tells. Readers will recall that many of these settings were the magnificent castles which comprised the last and mortgaged asset of an impoverished nobility. But despite this state of affairs, pride seemed to linger about the occupants and permission to film the buildings and grounds was often hard to secure. But there being no will like that of the location-hunter, this permission was eventually gained and now millions of picture-goers, unprivileged by circumstance to travel, will be enabled to enjoy the beauties of this Old World architecture.

Rev. H. R. Grant, D. D., Secretary Social Service Council of Nova Scotia, promises to be in Kings County from Feb. 14th to the 21st, reporting and advocating Social Service work.

## FRUIT GROWERS' ASSOCIATION

(Continued from Page 3.)  
changes in sprays if satisfaction is being obtained, but-prices of chemicals for sprays should decrease.

Dr. H. H. Roberts, of the State University of Madison, Wis., who is recognized as one of the foremost authorities in America on fruit culture, was the next speaker; and by means of blackboard questions and lecture discussed fruitfulness. He defined fruitfulness as that condition that causes a tree to form blossoms. The function of a blossom is not to reproduce itself, but to produce fruit. It is how the tree grows, and it uses air, light, heat, water. Large growth, however, does not necessarily mean fruitfulness. Better growth in moderation, as too little or too much growth prevents fruitfulness. The best crops are obtained where trees are 12 to 15 years old, because then there is most of the best wood. After that the tree begins to deteriorate.

Questioned as to the relation of blossoming to bearing, Dr. Roberts gave this as a guide: With 90 per cent. of blossoms you get 30 per cent. of fruit, with 30 per cent. of blossoms you get 80 per cent. of fruit.

Dr. Roberts also dealt with the problem of bringing about proper blossoming. As he closed his address, from all parts of the hall were cries of "Go on, go on."

The evening session opened with an address by L. J. Burrows, of Ottawa, on organization and work done by the Canadian council.

At first returns from fruit were unsatisfactory, as there were no regulations to standardization of packing nor grading. All changes in the Fruit Marks Act were at the request of the growers themselves. The Act covers grading, marking and all branches of the marketing of fruit. First inspection service dealt only with apples for export, but now covers every phase of the fruit industry, from picking to placing the fruit into the hands of the consumer. The main idea of the Canadian Horticulture Council is to promote the interests of horticulture and allied industries in every way, and to bring about a closer co-operation between the growers and consumers. This council is composed of representatives from all the provinces of Canada, and is in a position to do much for the fruit industry of the country.

Prof. A. B. Balcom, of Acadia University, next spoke on the trend of market conditions. The apple industry is a development of the last 40 years in the Annapolis Valley. This is part of a world movement in the division of industry. The whole world is tied together in an industrial knot. Every large business firm is a complex organization, having to deal with vast problems of supply and demand. With intensive study, it is possible by statistics to closely estimate the exact number of barrels of fruit that can be marketed, say, in Great Britain, with profit. Also the number of barrels which can be produced profitably by the growers can be determined. The present trend of market conditions is a live subject today. What is to come is what we want to know. Periods of expansion and depression in business are normal, they having followed one another regularly ever since the factory system of labor came into effect in England 150 years ago. During the last two months there has been a marked trend in the improvement of economic conditions. If these were normal times it would be easy to predict what would be forthcoming, but these are not settled times. At any time there may come an interruption in steady, normal improvement, either in the political or financial world. It is possible that the storm may blow over and under these conditions we will see a steady upward trend of improvement till at least 1930.

Prof. George Sanders was then called to the platform, and spoke of new methods of preparation of dust, which was to decrease the cost materially, although furnishing an equally good production as that already in use.

The next speaker was Dr. H. H. Roberts who had as his subject the relation of cultural practices to fruitfulness. The problem of cultivation was first dealt with. There is a definite relation between the way you cultivate your orchard and fruitfulness. The way in which trees grow is the essential thing and on this depends the amount of fruit. What does cultivation do? It furnishes nitrogen to the tree. This is usually very marked during the second year by growth. In many cases soil culture is more advisable than cultivation. The treatment varies with the soil moisture. Watch your tree and give the kind of cultivation and fertilizer that gives the best wood growth. Dr. Roberts passed on to the subject of pruning. The effect of pruning is local; it rejuvenates the old wood and if carried on properly gives uniformity in shape of the tree and in the size and color of fruit.

Slides were shown to illustrate some of the points brought out in the talk on pruning. The outside appearance of the tree is a good indication of the fruitfulness of the tree. Trees don't grow alike, although given the same treatment, due to the way trees get started. Individual trees respond best to individual treatment, rather than to any set rules.

Throughout the talk and pictures opportunity was given to ask questions in regard to any phase of tree and fruit improvement. This was freely taken advantage of, and many questions were

asked by the growers present and much useful information gained. Dr. Roberts concluded by emphasizing that where there was unfruitfulness, it was caused by either too little or too much wood.

The final session was held on Thursday morning when the officers for 1923 were elected. A motion was made by Fred Johnson and seconded by J. A. MacDonald, M. P. P., that Vice-President J. Elliott Smith, of Wolfville, be elected president for the ensuing year. The motion was passed unanimously. Other officers were elected as follows:

Vice-President—A. Fitzrandolph,  
Secretary—F. W. Foster.  
Assistant Secretary—F. A. Chipman.  
Treasurer—Prof. Blair.

It was decided that the county vice-presidents stand the same as they were last year. The auditors of last year, J. R. Webster and R. S. Eaton, were re-appointed, as was also last year's executive, Fred Johnson, F. A. Chipman, George Hutchinson and Ray Clarke.

Delegates to the Farmers' Association at Yarmouth, were nominated as follows: Manning K. Ells, of Port Williams, and B. W. Cleveland, of Kingston, with R. L. Palmer, of Berwick, as substitute. W. S. Rawding, of Waterville, was appointed representative of the Shippers' Association for the ensuing year.

Following the electing of officers, Mr. Smith took the chair and in a few words thanked the association for the honor conferred on him in election him to the office of president.

The financial statement was then called for and was read by Secretary Foster which showed a balance on hand of \$466.88.

A communication from the Dominion Horticulture Council to the Nova Scotia Fruit Growers Association was then read, asking that at their annual meeting they consider and if favorably received, recommend to the Minister of Finance the removal of the Sales Tax on spraying material and fertilizers. This resolution was passed.

Another letter from the Dominion Horticulture Council was read asking the consideration of the association of the removal of duty on fruit and vegetable grading machines, as these machines are not manufactured in Canada, and other farm machinery such as tractors and cream separators are admitted duty free.

It was moved and seconded that this recommendation be passed with the addition of repair parts to such machines.

Other communications concerned the Dumping Clause of the Customs Act.

A resolution drawn up by the Dominion Horticulture Council in Ottawa last June for the various Provincial Fruit Growers Associations was considered and passed.

At this stage Mr. Vroom asked for permission to bring a matter before the meeting regarding fruit packing of domestic grade apples. At present the act allows 20 per cent of so-called wormy apples. Mr. Vroom recommended that this percentage be dropped to ten per cent. The motion was carried and this recommendation will be made to the Dominion Fruit Commissioners.

The following resolutions were then passed as follows:

Whereas, a 4-5 quart box is a well established commercial package for strawberries; and

Whereas, we believe that any legislation that would make this a non-legal package will prove a hardship to strawberry growers in Nova Scotia;

Therefore resolved, that this Association do recommend the parliament of Canada not to pass any legislation that will make the 4-5 quart box a non-legal package.

Further resolved that a copy of this resolution be forwarded to Minister of Agriculture and to the Fruit Commissioner at Ottawa and to members of the Federal Parliament from Nova Scotia from counties in which strawberry growing and marketing is an established industry. Moved by Mr. Ells and seconded by H. S. Shaw.

In connection with this resolution, reports were received and adopted from J. Howe Cox, E. H. Johnson and W. C. Spurr, Nova Scotia delegates to the Dominion Fruit Growers Association.

The next resolution was:

Resolved, that we, the N. S. F. G. A., place ourselves on record as approving the action of the Dominion Horticulture Council in asking for the enactment of legislation to reform the Dumping Clause in reference to imported fruits.

Resolved, that this N. S. F. G. A., assembled in convention at Middleton, Jan. 15-18, 1923, approve the passing of the Dominion Fertilizers Act of 1922, believing that it provides for more than inspection and control, a reduction in the number of brands, and an elimination of the lower grades of manufactured fertilizers offered in the Canadian markets;

But, recommend that those clauses of the act having to do with basic slag be amended with a view to a further control of the fortification of slag with ground rock phosphate and to protect importers from the possibility of having fortified English and continental slags imposed on them, to be specific.

(a) That tags on fortified slag should give information as to the amount of ground rock with which any slag is fortified.

(b) That the tags at least on imported slag should give information as to the percentage of available phosphoric acid under the present recognized official

test.

(c) That the whole matter of permitting fortified slag be given further consideration.

Resolved, owing to the present low price of butter and butter fat and the difficulty in finding suitable markets for our surplus butter;

And whereas, oleomargarine comes into Canada free of duty from the United States and the ingredients used in oleomargarine manufactured in Canada has the most of the duty rebated to the manufacturer, thus putting the dairyman in unfair competition with the oleomargarine interests;

And whereas, the United States imposes a duty of eight cents per pound on Canadian butter our home market is therefore restricted by the amount of oleomargarine consumed in Canada;

Therefore resolved that we, the N. S. F. G. A. here convened, again go on record as saying that the interests of the dairy industry and public generally will be best served by not allowing any further extension by the Canadian Government of the importation or manufacture of oleomargarine into or in Canada after Sept. 1 next.

Further resolved that copies of this resolution be placed in the hands of the Nova Scotia federal members of parliament, The Minister of Finance and the Minister of Agriculture. Moved by J. W. Foster, seconded by H. S. Shaw.

Whereas experience has proved the value of ground limestone to maintain and improve soil fertilizer and,

Whereas, it is therefore highly important to promote its more general use and whereas the Government of New Brunswick has made liberal expenditures to aid in the production of ground limestone,

Resolved, that in the judgment of this association the Government of Nova Scotia should in some manner as they deem advisable, give such financial encouragement to the ground limestone industry as may lead to the more extensive use.

Further resolved that copies of this resolution be sent to the Premier, the Hon. George Murray and to the Secretary of Agriculture. Moved by A. E. McMahon and seconded by F. A. Chipman.

Whereas, legislation has been passed at Ottawa standardizing nearly all our farm products with heavy penalties attached for failure to comply with the Act, And whereas, any legislation affecting

manufactured goods, has not, or seldom has been enforced much to the detriment of the consumer.

And whereas, the present situation in the agriculture industry is not due so much to the low prices in farm products as to not having received full value in the purchase of manufactured products;

Therefore resolved that we, the Nova Scotia Fruit Growers Association, now in annual session, urge upon the government to give such attention to this matter as may better protect the consumer of manufactured products. Moved by F. H. Chipman and seconded by P. W. Bishop.

Whereas under the Canada Sales Tax Act farm produce is properly exempt from taxation and

Whereas, the tax upon apple and potato containers adds to the cost of the package by the manufacturer and

Whereas, the apple growers cannot pass along to the consumer the tax the price of his apples being fixed in England.

Therefore, the said tax upon apple barrels becomes in reality a tax upon the apples—a farm product.

Therefore, we, the fruit growers of Nova Scotia, in annual convention, petition the Federal Government to exempt apple and potato containers from the sales tax. Moved by N. A. Osborne and seconded by E. H. Johnson.

Resolved a vote of thanks be extended to those who so materially have rendered their services for our pleasure and comfort while attending the 57th meeting of our association, especially would we mention the members of the Board of Trade and the Maritime Telegraph and Telephone Company who so considerably placed a telephone for our use free of charge in the building in which we have been in session. Moved by Percy Foote and seconded by H. S. Shaw.

A suitable reply to this was made by the Mayor.

Fred Bishop, delegate to the Dominion Horticulture Council, also elected vice-president of that body, reported for the organization and stated that as this council was now organized it should be supported. On motion this association pledged its support.

In the appreciation of the services of Dr. H. H. Roberts, on motion he was made an honorary member of the association.

Admiral Gennaro Como

Admiral Como's ranch home at Shepherd, Alberta.

"SUNNY Alberta," which yields abundantly to man's efforts, is noted for its interesting farmers. It is the province that boasts of more titled and famous land-owners than any other part of our Dominion. Rear. Admiral Gennaro Como, titled Italian gentleman, who for 25 years "plowed" the seas, now "plows" the fields of the favored province on his farm at Shepherd, Alta., on the Canadian Pacific, just west of Calgary.

His interest in raising as many bushels of wheat to the acre as the land will yield is interspersed with translating Italian poetry into English free verse or writing opinions on world questions through the medium of the newspapers of America.

To meet Admiral Como is to enjoy the stimulating contrast of old world interests and new world activities—his pictures, his books, his decorations, his old-world treasures, conjure up a cultured past. As the son of the illustrious family from which Isak Como takes its name, his heritage of rich traditions date back to the year 1200.

Coming to Canada in 1880, he purchased large tracts of land in Alberta, and with a keen appreciation of our broad prairies, decided to adopt Canada as his home and at once set about to learn how to farm in the new West.

At the outbreak of war, he immediately offered his services and as senior naval officer of the Italian navy, he was assigned to the Mediterranean along Tripolitanian and Cyrenaica. The second war service was as delegate on anti-submarine warfare at Malta.

At his ranch house at Shepherd, Alberta, we came upon an array of colored boxes and counted fourteen honor medals, conferred for naval services.

Covered with honors, he returned to Canada with the intention of resuming farm operation to find his fortune dissipated. The war years had brought about very changed conditions and Admiral Como, like a good sport, determined to stay in Canada and work one of his few remaining properties, his ranch at Shepherd, to develop his fine horses. He delights in the primitive life. Saying when we visited his farm: "Yesterday I plowed all day; the horses beat me."

Admiral Gennaro Como, once one of Italy's warrior sailors, now a wheat grower in sunny Alberta.

"Oh, it is because they cannot talk back that you find them such satisfactory companions," quickly retorted one of our party, but Admiral Como was determined that it was their evident wisdom and appreciation that made them such companions.

True to the traditions of those who follow the sea, who answer to the call of the cultured heart and love the beauty and poetry of the silent places. Admiral Como has continued to develop his literary talent while working on the Alberta plains. His quaint and exquisite poems, his translations and adaptations from Trilussa, as well as the work of D'Annunzio, have been appearing from time to time. The Foreign Press service have become interested in the translation and will put a collection of his poems under permanent covers.

Thus he follows his star but takes the greatest pride in his accomplishments on the land, declaring that raising twenty-two bushels of wheat to the acre on poorly cultivated land is the best thing he ever did and he adds, "I shall raise thirty bushels next year." So, son, Canadian farms "carry the p'm," again.

The meeting then adjourned.

#### HIS HIDDEN IDENTITY

A Scottish tradesman stepped into a barber's shop the other day, and whilst he was being shaved, the barber was wondering if this was a new customer. "Have you ever been here for a shave before?" asked the barber.

"Yes, once," was the reply.

"But I don't remember your face."

"Wheel, I dare say ye don't," said the customer. "ye see, it's healed up now." —Tit-Bits.

"There is a little matter that some of our subscribers have seemingly forgotten entirely. Some of them have made us many promises, but have not kept them. To us it is a very important matter—it's necessary in our business. We are very modest and don't like to speak about such remissness."

## WINDSOR WON FROM KENTVILLE

The Score Was Five to One, and 800 Persons Witnessed the Game

Kentville, Jan. 25—Windsor defeated Kentville in a Valley League game here tonight by a score of 5 goals to 1 in one of the fastest and best games seen here this season. About 800 people turned out for the contest and were treated to a fine game. Windsor opened the scoring in the first period after ten minutes of play when J. McDonald foisted Walsh with a fast shot. Two minutes later Cochrane ran in another one for Windsor and the first session closed with the score 2—0 for the visitors.

In the second period the Kentville team gave their supporters a chance to shout when Wigmore and Bezanson went the length of the rink on a combination play and Wigmore placed the rubber behind Smith for the only Kentville tally. Windsor, however, scored two more before the end of the period, J. McDonald doing the damage. The end of the second period saw Windsor leading 4—1.

The last session was the best of the game, with both teams playing fast and heady hockey. There was no score until a few minutes before the final bell when the rubber bounced off a Kentville man into the local goal for the last score of the game. McCann of Windsor drew four penalties, J. McDonald one, Black one, and Wigmore of Kentville two. J. McDonald was the star for the visitors, and Bezanson, playing his first game for the locals, also starred. Wigmore and Walsh also were good. J. Smith of Windsor handled the whistle. The teams:

**Windsor**—Goal, Smith; defense, McCann, S. McDonald; forwards, J. McDonald, Mosher, Pool; subs, Cochrane, Clarke, Hughes.

**Kentville**—Goal, Walsh; defense, Porter, Corbin; forwards, Leach, Wigmore, Bezanson; subs, Leslie, Simmonds, Neary, Bishop.

The local paper is one thing by which strangers judge the size of a locality and the ability of its business men, hence the paper that does show the advertisement of every enterprising business is forced to misrepresent it. The paper is a mirror that should reflect a community's true picture and every business conducted therein.

**Minard's Liniment** Lumberman's Friend.

## THE MASSACRE AT GRAND PRE

Snow-banks ten feet deep, lying sociably near wherever we turn our gaze, and the stretching spaces out-doors filled with more of the same material, whirling rapidly, have been our landscape lately; and have thrown some of us upon our own resources for thoughts other than about the troublesome matter of weather and its accompanying ills.

Let us think back a bit to historical days when our ancestors were just beginning to open up Nova Scotia as a place of residence, back to the winter of 1746, three years before the founding of Halifax.

Annapolis was the capital of the province, Governor Maserene was in control. Louisburg, the last French stronghold, had lately fallen and the English had become possessors and had given the province its name.

The Acadians had been allowed to remain on the fertile lands they had occupied before the British conquest, under condition that they would not furnish aid to the French or Indians against the English. They were, however, proving nothing but a menace to English settlers, and in the winter of 1746 they became much bolder, for the French General, Razamay, with strong reinforcements of French soldiers and Indians was entrenched at Chegnecto, just beyond the English boundaries.

Governor Maserene, at Annapolis, was a brave and self-reliant officer, but the country was insufficiently garrisoned to withstand foes living both within and just beyond the borders. Aid was asked from the governor of Massachusetts.

The response came speedily, Colonel Noble, with 500 British soldiers set sail from Boston for Nova Scotia. Their destination was Grand Pre, where they were to stand guard and keep the peace of the country that winter.

Winter storms set in while these little ships were on their way, and Minas Basin filled with ice. Thus Colonel Noble was forced to land his men far down the Bay. With two weeks provisions on their backs they started on the long trail through deep snow and dense forests to Grand Pre.

Can you not picture those brave men, tramping through their own country, but a strange, unbroken country, down through the beautiful valleys and across the North Mountain, and along Cornwallis to Grand Pre. The view from the mountain top would not appeal to them as to travellers now-a-days. The present wonderful expanse of level orchards and farms and attractive houses was not there. Instead was a waste of snow and forest inhabited only by lurking foemen. They travelled at their peril, seeking no gain, "schooling in the ancient chivalry" of the British army.

At Grand Pre no quarters were awaiting them, and in the dead of winter there was no chance of preparing accommodations. The company was divided and billeted in ten of the Acadian houses. Thither, led by the treachery of the Acadians, came Razamay with more than 600 French and Indians. Under cover of a raging snow-storm they went forward to their cowardly attack. Killing the guards they rushed in on the British and massacre, not warfare, followed. Colonel

Noble and eighty of his men fell blindly fighting in the darkness of that wretched night of February 9th, 1747. The next day, when the carnage had ceased, these bodies were buried by their comrades in one grave.

The storms of one hundred and seventy winters have settled on the mound raised over it, and the rich verdure of our summers has clothed it. No token of respect has been laid upon that grave by human hands. It is treated as common dust. Yet these were men who, "nobly striving, nobly fell that we might live".

Last summer Roman Catholicism led by French priests began attractive demonstrations at Grand Pre. In this regard let us not forget certain facts.

The Acadians were bitter enemies when our ancestors were few in numbers and weak in resources. They were the friends of the government at Quebec, a government which perished of its own corruption. The grave of Colonel Noble and his eighty British Soldiers is the one historical spot at Grand Pre to which we owe respect and that is the spot we should visit in reverence.

## A WORD TO OUR SUBSCRIBERS

During the past few weeks we have been greatly pleased with the receipt of subscription monies and renewals for THE ACADIAN. We have many readers who look after the matter of subscription payments as exactly and conscientiously as they look after any of their business affairs. We know our readers will all acquit us of dunning for subscriptions through the columns of THE ACADIAN. We do not at all share the opinion sometimes expressed by publishers that subscribers who allow their accounts to run into arrears are endeavoring to evade payments and get their papers for nothing. Non payment of subscriptions is largely a result of carelessness and putting off. The delinquent receives a bill, his due date is on his label in any case. He says "I will pay that to-morrow, next week, or the next time I am in the office." Time drifts from days to weeks, from weeks to months, and months to years. It is only two dollars. That will not make much difference anyway." Get a few hundred people thinking the same thing and acting on it, and see whether it makes any difference or not to the publisher.

There are one or two things which we would like to bring to the attention of readers who either do not know or have grown forgetful.

Every newspaper publisher has to run his business on practically a cash basis. His staff has to be paid weekly, his newsprint and supplies generally thirty days from date of shipment. Many other incidentals, such as Insurance, and a dozen other things cannot wait.

This is a frank statement of things as they actually are, not designed primarily as a matter of complaint, but rather as an attempt to call to the attention of subscribers matters apt to be forgotten or overlooked. If this brief article puts on delinquent subscribers a "thinking cap" that leads to action, THE ACADIAN will feel repaid. We thank you.

Minard's Liniment for Falling Out of Hair.

## ONTARIO HOUSE PREPARES FOR ANOTHER SESSION

The Leaders of the various groups in the Ontario House of Parliament are marshalling their forces for another session. Premier Drury, leader of the Farmer-Leader group; G. Howard Ferguson, leader of the Conservatives, and Wellington Hay, leader of the Liberals. In the picture is seen also Lieut-Gov. Cockshutt, the popular representative of the Crown, and Sergeant-at-Arms Fred. J. Glackmeyer, who has officiated at every session of the Ontario House since Confederation.

## PORT WILLIAMS HAPPINGS

At the request of a number of his congregation Rev. O. N. Chipman repeated the main points of his sermons on the first and second commandments last Sunday evening. Next Sunday morning he will preach on the third commandment.

On Sunday evening the World Wide Guild will hold a public meeting. An address will be given by the president, Lloyd Jess, on "Pilgrim's Progress", and a missionary pageant, "Voices of Girls in Other Lands", will be given by the girls of the Guild.

The "Lily of the Valley" Division had a splendid meeting on Monday evening. There were about forty present and six new members were initiated. Next Monday evening, after the regular business, a banquet will be held. There will be a short program and Grand Deputy N. W. Eaton will be one of the speakers.

Miss Murdock, of the Western Union office, Wolfville, spent the week end the guest of Miss Lucy Cogswell.

Several young people from Wolfville enjoyed the skating at the open air rink here on Wednesday evening.

Mrs. G. A. Campbell has entirely recovered from her recent illness.

The Women's Institute meets on Feb. 8th in Citizen's Hall at 2.30 p.m. The program is in the hands of the Home and Social Committee. The roll call will be responded to by Valentine quotations.

On Monday evening some person broke into the school house, breaking a window and causing considerable havoc. The incident is creating quite a stir and steps are being taken to apprehend the culprit.

Earle Bauckman returned home from the United States on Monday.

Robie Thompson, who has been working at Middleton this winter has returned home.

Mrs. O. N. Chipman entered her Sunday School class, "The Little Builders" on Tuesday from 3 to 8.30 p.m.

Mr. and Mrs. Corkum, of White Rock, are spending the winter with their daughter, Mrs. Milledge Schofield, Belcher Street.

Dr. Zwicker spent two days in Halifax this week.

Mr. Bell, of Bell Fruit Co., of Montreal, has been staying at the Port Williams house for a few days buying apples. He has purchased four carloads. He is accompanied by Mr. Byers.

Snowshoeing is the order of the day. Some parties have tramped as far as Canning.

## 1,754,928 LBS. MORE "SALADA" SOLD

This tremendous increase in the sale of "SALADA" Tea is reported for 1922, over the year 1921. This increase alone in Tea is sufficient to supply the entire Dominion of Canada for nearly three weeks.

## HOCKEY MATCH AT WINDSOR N. S., WEDNESDAY, FEBRUARY 7, 1923, WINDSOR VS. CANNING

A Special Train will be operated in connection with the above event, leaving Kingsport at 6.15 p.m. on Wednesday, Feb. 7th for Windsor, stopping at intermediate stations to pick up hockey fans, arriving Windsor at 8.15 p.m. Returning, special train will leave Windsor after the game for Kingsport, stopping at all stations where there are passengers to set down. Special fares have been named for this event. For further particulars apply to Ticket Agent.

## CLINIC ITEMS

Tuberculosis Clinic postponed (on account of the weather) from Friday, Jan. 26, to Friday, Feb. 2, commencing 2 p.m. at Clinic Room, Weaver Block, Kentville. Specialist from N.S. Sanatorium in attendance. There will not be another clinic for two weeks.

"I take a deep breath in,  
I let a deep breath out,  
For good deep breathing all the time  
Brings health, without a doubt."

Have a clean handkerchief every day.  
Use it to cover a cough or sneeze,  
This will help to keep away,  
All the bad Goblins that cause disease.

— "From Red Cross Junior".

## NOMINATIONS FOR QUEBEC ELECTIONS

MONTREAL, Jan. 29—Grouped, the nominations for the Quebec Provincial general elections today show the following approximate figures:

Seats 85.

Elected by acclamation (Liberals and Government supporters) 4.

Liberal candidates, 81.

Independent Liberals, 12.

Conservative or Opposition, 80.

Independent and Labor, 7.

There will be no civic election at Kentville this year, the nominations on Tuesday being as follows: for Mayor, A. E. H. Chesley, elected; for Councillors, J. W. DeWolf, C. W. Fair, E. H. Munro,

## ANNUAL MEETING OF ST. JOHN'S CHURCH, CHURCH STREET, CORNWALLIS

The Annual Meeting of the parishioners of St. John's Church, Church St., took place in St. John's Parish Hall on Tuesday at 2.30 p.m., the Rector, Rev. G. C. Brown, presiding. After the financial report, which was read by the Senior Warden, C. G. Cox, was received and adopted, the Rector delivered an excellent address pointing out the various problems which confront the Church this present year and urging each and all to do their very best in order to crown the Church's labors with success.

Half the mortgage on the Parish Hall had been wiped out during the year and the missionary apportionment considerably overpaid for the first time in the history of the Church. Choir boys are to be introduced into the church choir and the whole choir vested for the first time on Easter Sunday.

The following officials were appointed for the year 1923:

Church Wardens: Messrs. J. T. Healy and Roland Sutton.

Vestry men: Messrs. C. G. Cox, D. D. Sutton, F. M. Vaughan, John Donaldson, David Sutton, Arthur Clark, Richard Hockin, Charles Woodworth, J. R. Starr, Carl Starr, William Seaboyer, and John Sutton.

Synod Representatives: Messrs. J. R. Starr, David Sutton.

Substitutes: Messrs. John Donaldson, Arthur Taylor.

Vestry Clerk: John Donaldson.

Auditor: John Donaldson.

Cemetery Committee: The Rector and the Churchwardens.

A pleasant feature of the meeting was the serving of afternoon tea to those present by two ladies of the congregation, Mrs. Agnes Robinson and Mrs. Durell Sutton.

## FROM CANNING

A special meeting of the W. C. T. U. listened to a powerful address by Mrs. H. P. Newcombe in Mrs. N. W. Eaton's parlor on Tuesday afternoon last.

Mrs. Noble Ellis passed away at her son's residence, Hillaton, last week.

John G. Loomer, of Sheffield Mills was buried on Saturday the twenty-seventh ult., his second wife surviving him, also his son Dr. Brett Loomer, of Stellaart, and daughters, Ethel and Stella, now in the North West, all the children from his first marriage.

Mrs. Rita Davison, second daughter of Mr. and Mrs. Dexter O. Davison, was united in marriage to Roland Ellis, of Hillaton, at the home of the bride's parents on Wednesday night, the 31st. A large party of immediate relatives were guests.

The Dress Carnival at the rink on Wednesday night was a pronounced success. No one outside of the judges were able to name prize winners.

A few attended the "Sing" on Sunday evening, at the home of Mr. and Mrs. T. Andrew Pearson.

Mrs. Lee Bishop and Mrs. Harris Forsythe spent the day in Windsor on

## GREENWICH NEWS

Our teacher, Miss Piper, and a few of her older pupils, attended the lecture on better English, given by Miss Archibald, at Opera House, Wolfville last Wednesday afternoon.

Mrs. A. K. Forsythe entertained a few friends at tea last Wednesday afternoon.

Miss Esther Pearson returned home last Thursday afternoon, from a visit of two weeks with her sister, Mrs. Brenton Merry, Bear River.

Misses Marion and Jessie Bishop, who are in the B and C classes of Wolfville High School, enjoyed the sleigh drive of the two classes on Friday evening, going to Kentville.

Mr. and Mrs. Frederick Baker, who have been in Halifax for several weeks, arrived on Friday evening to visit at the home of Mr. and Mrs. George Bishop. Mr. Baker left Monday morning for Yarmouth, Mrs. Baker—Isabelle Hawley—remaining with Mrs. Bishop this week. Mrs. Baker made many friends here before marriage and will be welcomed on this her first visit with her "new name".

Last week two "Bug men", or entomologists, were examining a number of the orchards in this community.

Mr. and Mrs. Will Pudsey and family have returned to Greenwich, after spending the last three months over in New Brunswick. Their friends here were very sorry to learn of the loss of the barn, by fire, on Mr. Pudsey's farm at Forest Home, near Kentville.

Mr. and Mrs. John Fenwick, of Habitant, spent one day last week at the home of the former's parents, Mr. and Mrs. A. Fenwick.

Miss Elsie Piper went to Kentville on Friday evening to spend the weekend with friends, returning on 8.30 train Monday morning.

As usual, the President's lecture at "Community League" last Friday evening was enjoyed and a very good audience, although a rough night. This week it is hoped the Radio concert will be enjoyed. "The Dramatic Committee" will supply a good programme for first part of evening. A crowded hall is hoped for, to enjoy the programme and concert.

Mr. and Mrs. G. I. Fraser returned home last Saturday from a three weeks visit with their daughter, Mrs. Ray Fraser, of Stellaart, and daughters, Ethel and Stella, now in the North West, all the children from his first marriage.

The many friends of Mrs. A. R. Forsythe were pleased to see her again on Sunday.

The service was held at the church here again on Sunday afternoon, none the two Sundays previous. A good audience and a good sermon by Rev. D. B. Hemmings, of Wolfville.

A few attended the "Sing" on Sunday evening, at the home of Mr. and Mrs. T. Andrew Pearson.

Mrs. Lee Bishop and Mrs. Harris Forsythe spent the day in Windsor on

## INTERESTING CANADIAN WOMEN

MRS. ADAM SHORT

One of the pioneer medical women of Canada, Mrs. Short graduated from the Royal Medical College of Queen's University in 1884 and was later instrumental in the establishment of the Women's Medical College there. She was one of the primary movers in the effort to secure Mothers' Pensions in Canada and is a member of the Mothers' Pensions Board. A home for elderly women, in Ottawa, has been named for Mrs. Short, The Elizabeth Home, and its existence is largely due to her personal efforts on behalf of aged women. She was for several years a lecturer in the Women's Medical College, and also practiced medicine in Hamilton for a few years. She is the wife of Professor Adam Shortt, who is in charge of the Historical Publications of Public Archives at Ottawa.

## Paper Towels in rolls for sale at THE ACADEMIC STORE.

Monday.

Mr. and Mrs. Hazen Bishop went to Windsor Monday afternoon returning home after the hockey game, on the special train that night.

A good many from this place went to Windsor on Monday evening on special train to enjoy the hockey match between Wolfville and Windsor.

## SHRINKAGE IN STORED HAY

Almost every buyer of baled hay has felt either annoyed or elated at finding the actual weight of the bale that he has purchased either more or less than the tagged weight. Of course the popular opinion is that the actual weight of the bale is more often less than it is more than the tagged weight. There is some measure of truth in this contention but often no injustice is being done the person who buys a bale of hay which actually weighs a very few pounds less than the tagged weight that has been paid for.

Let us consider just what shrinkage consists of and when the greatest amount of it occurs. The making of hay from the freshly cut forage plants consists chiefly in the reduction of the moisture content from approximately 65% - 75% to from 12 - 15%. When the newly cured hay is stored in the barn or stack it goes through a process that is generally termed "sweating" during which process still further moisture is lost. Of course we have other changes going on as well but the thing I wish to bring out is that shrinkage in weight during the whole process of curing hay consists almost entirely in the loss of water and not in food constituents. If only properly cured hay has been baled no alarm or annoyance should be felt at a small variation from the original tagged weight. This variation is water and not food material and the bale has just as high feeding value as when first put up and weighed.

By properly cured hay is meant hay that has been properly handled previous to being put in the barn and has subsequently gone through the sweating process which is normally ended in about a month after storage.

There are cases however, where hay is baled before going through the entire curing process. In such instances the original bale does not contain all of the food constituents that it should because of the excess moisture it carries. The shrinkage in such hay does represent a loss that the buyer has a legitimate right to complain of. The looseness of the binding wires often indicates hay baled before being properly cured and where this occurs the buyer is well advised to check up all tag weights and if possible buy only by actual weight at time of delivery.

Where hay, either loose or in bales, is

bought according to weight at time of delivery the last cent in value can be obtained by purchasing after a long dry period. To the seller of hay the reverse would hold, the greatest weight of a given quantity of cured hay being after a prolonged period of damp weather. As both the buyer and seller cannot be accommodated at the same time in this matter the fairest thing to do is for the producer to see that only thoroughly cured hay is baled and for the consumer to accept the tag weight of such hay knowing that he is getting the food value he is paying for.

## ADVANTAGES OF STARTING NOW

Last week two of Chicago's biggest business men stepped out of commercial life and were succeeded by young men trained in their own organizations: John G. Shedd, whom Marshall Field called "the world's greatest merchant", retired from the presidency of Marshall Field and Co. where he had started as a \$10 a week clerk. He was succeeded by James Simpson, who began his career as an office boy. The man who took Simpson's place as vice-president also started as an office boy.

J. Ogden Armour also resigned a presidency last week. The new president of the gigantic Armour packing interests is F. Edison White. White began his career at the age of seventeen in the blood and slime of the packing house. He worked on the killing floor for a year. Within ten years of that time he was assistant to one of the company's vice-presidents.

In the careers of Shedd, Simpson and White there is inspiration for any young man. Every one of them started at the bottom. Every one has reached the top. Not one of them has any particular advantages as to education—merely determination, and common sense and a recognition of the duty of big companies in serving the public well.—Financial Post.

Doctor (to patient)—"Well, how are you feeling this morning?"

Patient—"Very much better, thank you, doctor. The only thing that troubles me is my breathing."

Doctor—"Um—yes, we must see if we can't get something to stop that."

## Deloro Brown Copper Arsenic Dust

### "Made at the mouth of the Mine"

Deloro Arsenate of Lime which is used in the compounding of this dust, has been proved by actual tests on glass to be more adhesive than either Lead Arsenate or Calcium Arsenate. It has also been proven five times as stable as the best grades of Calcium Arsenate. In addition it contains less soluble arsenic than ordinary Lead Arsenate.

The Copper Sulphate in the new dust is in the combined form and not in the free state, as in the mixed dusts heretofore used, thus making it absolutely safe on foliage under all conditions.

Growers who have a knowledge of chemistry will therefore realize that Deloro Brown Dust is a better sticker than the old dust could possibly be, even when mixed with lead arsenate.

Experiments at Cornell in 1922 with Copper Dust made by Deloro process showed it to be a better floating dust than any other dust heretofore produced.

Remember this dust is made by a chemical plant today controlling one fifth of the world's supply of arsenic and manufactured under the supervision of chemists with the analysis stamped and guaranteed on every bag leaving the plant.

Use Brown Copper Arsenic Dust for all but the calyx or after blossom application on apples, when Sulphur Lead Arsenate Dust should be used, in order to avoid fruit russetting.

The results obtained by growers and not the opinion of scientists or competitors made Blue Copper Arsenic Dust, a success in Nova Scotia in 1919. The results obtained by growers did the same in New York State in 1922. We expect the results by growers and not the opinions of our competitors to put Deloro Brown Copper Arsenic Dust over in 1923.

A full line of 90-10 Sulphur Lead Arsenate, Nicotine Dust, Lead Arsenate, Arsenate of Lime, Green Potash Dust, Wettable Sulphur, Nicotine Sulphur, etc.
