VOLUME V.

GODERICH, COUNTY OF HURON, (C. W.) THURSDAY, FEB. 5, 1852.

NUMBER II.

MINUTES

Of the Proceedings of the Municipal Council for the United Counties of Huron Perth and Bruce, holden at the Huron Hotel, Goderich on the 29th day of December 1851, pursuant to adjournment from the 2nd July, 1851.

ferred to a committee of the Whole. The Warden nominated Mr. Hill to the chair. On the Report being read No. 65, was adopted, also a By-Law to require Sub-Treasurers of School money, to render accounts of receipts and expenditures of such moneys.

The committee then rose and the Warden resumed the chair, when the Report and By-Law was again submitted in open Council, and approved and adopted.

The following accounts were referred to the Finance Committee.

78 Account from Rev. Mr. Logie, for stationary and postage.

79 Account from Mr. Nain for stationary.

80 Account from Mr. Parsons for stationary for late County Auditors.

81 Moved by Mr. Flanagan, seconded by Mr. Lamb, That the County Surveyor be instructed to inspect that part of the Big Sable on the Town Line between Stephen and McGillicuddy, and make out an estimate of the cost of a new Bridge, and make out as there is a large portion of the above two Townships suffering very much West of that River for want of a Bridge.

They pay their taxes, and it would be only justice that they receive some of the benefit—carried.

82 Moved by Dr. Cole, seconded by Mr. Bell, That the Surveyor be directed to examine where the most eligible site for the erection of a Bridge across the Maitland River in place of the one just carried away may be, and to report thereon, at the next sitting of Council.

83 It was moved in amendment by Mr. Wallace, and seconded by Mr. Girvin, That the Surveyor be instructed to prepare Plans and Specifications for the erection of a new Bridge at the site of the old Maitland Bridge, and to have the same ready by the next meeting of Council. On the yeas and nays being taken on the above, the amendment was carried by a majority of one.

The Council then adjourned until tomorrow at noon.

WILLIAM CHALK, Warden
Huron Perth and Bruce.

COUNCIL ROOM, GODERICH,
Thursday, 1st January, 1852.

PRESENT:—The Warden in the Chair.

Messrs. HAYS, GILVIN,
KATH, COLE,
HAMILTON, HILL,
SMITH, BELL,
FLANAGAN, WALLACE,
GODERICH, HOLMES,
LAMB, GUEST,
DONKIN, PRYFOGLE,
ANNAND.

The minutes of yesterday were read over and approved of, when the following accounts were received, and referred to the Finance Committee.

84 Account of Mr. Benjamin Miller for work and lumber supplied to New Maitland Bridge.

85 Account of Thomas Dancy for work done at do.

86 Account of David Muoro, Iron and Blacksmith work done on New Maitland Bridge.

87 Letter from John McDonald, Esq. (Sheriff) was received and read, and ordered to be filed, and the Clerk instructed to intimate to Mr. McDonald the resolution of Council connected with the same.

88 The report of the Finance committee was received and referred to a committee of the Whole. The Warden nominated Mr. Flanagan to the Chair. On the report being read No. 65, was adopted, also a By-Law to require Sub-Treasurers of School money, to render accounts of receipts and expenditures of such moneys.

The committee then rose and the Warden resumed the chair, when the Report and By-Law was again submitted in open Council, and approved and adopted.

The following accounts were referred to the Finance Committee.

89 Account from Rev. Mr. Logie, for stationary and postage.

90 Account from Mr. Nain for stationary.

91 Account from Mr. Parsons for stationary for late County Auditors.

92 Moved by Mr. Flanagan, seconded by Mr. Lamb, That the County Surveyor be instructed to inspect that part of the Big Sable on the Town Line between Stephen and McGillicuddy, and make out an estimate of the cost of a new Bridge, and make out as there is a large portion of the above two Townships suffering very much West of that River for want of a Bridge.

WILLIAM CHALK, Warden
Huron Perth and Bruce.

Goulay, That after the words Township Reeve the words "and Deputy Reeve," be inserted. On the yeas and nays being taken on the last, it was lost by a majority of seven.

97 Moved by Mr. Smith, seconded by Mr. Hill, That the documents connected with the contract of the building of the Bridge across the River Thames at St. Marys in Blanshard be furnished to this Council at next sitting, in order that this Council may have them as data to guide them in any grant which may then be made towards the erection of said Bridge—carried.

98 Moved by Mr. Smith, seconded by Mr. Annand, That the Clerk write to the Township Collectors, intimating to them that their Rolls require to be audited by the County Auditors, and requesting the Rolls to be forwarded for that purpose by the first day of May next, in order that they may then be laid before the Council if required—carried.

99 Moved by Mr. Smith, seconded by Mr. Goulay, That the Surveyor be instructed to prepare plans and specifications for the building of the Bridge over the Black-Creek, and to have the contracts for the same let as soon as possible. On the above motion being put,

100 It was moved in amendment by Mr. Wallace, seconded by Mr. Lamb, That the Surveyor be directed to commence with the Plans and Specifications for the New Maitland Bridge, to have them ready by next meeting of Council as already passed, and at the same time report on the best kind of Bridge. On the motion and amendment being put, the motion was carried by one.

101 Moved by Mr. Wallace, seconded by Mr. Bell, That the duties of the County Clerk being much more than was anticipated, his present salary being inadequate to his services, that the sum of fifteen pounds be added to his salary.

102 Moved by Mr. Hays, seconded by Mr. Bell, That the Warden be authorized to sign a Deed in favor of James Gentes for the sum of £2 currency for the use of his rings, candles, fire, &c., &c., at the present sitting of Council—carried.

103 Moved by Mr. Holmes, seconded by Mr. Wallace, That the wreck of the Maitland Bridge that has been removed from the old site be sold to-morrow the 2nd inst., at such time as the County Surveyor shall appoint, at 12 months credit on approved security—carried.

The Warden addressed the meeting, and dissolved the Council.

REPORT

Of the Select Committee on Finance.

MEMBERS OF COMMITTEE:—Messrs. Holmes, Smith, Doukin, Holmes and Hays.

John Holmes, Esq. in the Chair.

Your Committee having taken under consideration the several documents submitted to them, beg leave to report.

8 The letter of the Clerk of the Peace with accompanying documents.

9 Your Committee beg leave to say that similar documents were before your body in the month of June last, and that we see no reason why we should deviate from the Report of the Finance Committee of that Session marked No. 74 which was confirmed by the Council.

10 Letter of the Warden on the same subject to be filed.

11 Account of H. C. Beecher we recommend to be paid, but we cannot refrain from saying that we consider it to be a very exorbitant charge for the services rendered by him.

12 Letter of the Provincial Secretary to the Warden relative to the Provincial Statutes, we recommend to be filed, and would beg leave to say that it would be very desirable if the Warden could ascertain where these Statutes are delayed and have them forwarded as soon as possible.

13 Letter from the County Treasurer we recommend to be filed. On the contents of which we beg leave to say, that under the circumstances mentioned, we consider the abstract furnished to be quite sufficient at the present time, we also approve of the Treasurer's not disposing of our Debentures at too great a sacrifice and do consider him entitled to the confidence of the Council for the satisfactory manner in which he has conducted the financial affairs of these Counties. We also approve of the course he has pursued relative to the Gravel Road scheme, and hope it will terminate satisfactory. On the subject of arrears of taxes, we beg leave to say that we regret that so many mistakes have been made, but are fully aware that the time for making up the schedules was so short to have the same done correctly.

As regards the statement of the Treasurer that the amount required to defray the expenses connected with the new Jury Law for 1850 and 1851 will be about £750 in addition to the amount paid for 1850 by the Act 13 and 14 Vic. Chap. 53.

Your Committee beg leave to say that we never anticipated that such an exorbitant expense would be entailed on these Counties, consequently no provision or appropriation was made for that purpose, that therefore, the Treasurer is unable to pay appropriations at present without depriving those parties for whom which we consider, has a priority of claim against the Council, and we recommend that the Warden do petition the Legislature in the name of the Council, shewing that the expenses connected with the Jury amended Act cannot be borne by the people of these United Counties, and that the benefits derived are by no means adequate to the expenses incurred in carrying the same into effect, and praying that the Legislature be pleased to reduce the fees at least to what they were under the Act 13 and 14 Vic. chap. 53, and that in said petition he will endeavor to contrast the fees under the Jury Law, and amended Jury Law.

As regards the last clause in said letter, your Committee would recommend that £20 be added to the Treasurers Salary for extra services performed by him, not anticipated at the time of fixing the same, and in consideration of travelling expenses.

15 The correspondence respecting the loan for gravelling roads, we recommend to be filed.

16 Treasurers Abstract, same deliverance as above.

18 Account of John Strachan, Esquire, for defending suit in Division Court, £2 10 0

Travelling expenses on do 0 15 0

Suit in Common Pleas 13 days absence from home, at £2 10s, 32 10 0

Travelling expenses on do 15 0 0

Other expenses on this case, 30 19 0

81 7 4

25 0 0

Cash received, 56 7 4

The first item in this account, namely, £2 10s for defending suit in Division Court, and 15s travelling expenses we consider to be exorbitant, the original claim amounting only to £2, and as we have been credibly informed, that the customary charge of agents in the Division Court for sums of that amount is 15s, we recommend that that sum be paid Mr. Strachan, in addition to the costs allowed by the Court from Plaintiff, the remainder of the account relating to the suit in Common Pleas, we recommend to be taxed by the proper authorities, and to be paid in accordance with de-

Poetry.

O, YES! I TAKE THE PAPERS.

BY G. H. WALLIS.

O, yes, I take the papers—
The trifling cost is never missed,
Though I've stood for forty years
Upon the point is list!

Talk not of swiftness—'twas released
Earth from the terror of her kings—
He twined his stick, and darkness ceased
And morning streamed along the East
On freedom's burnished wings.

O, yes, I read the papers,
And sons and daughters tell and sing;
For they have been their flock and this,
The pasture of our all.

'Twas only evil, that should a star
Be struck from the dome of night,
A shining planet, if stationed there,
Would fill the vacuum to a hair,
And shed a broader light.

The man who takes no papers,
On asking, pays not when they're read,
Would sell his soul to buy a 'horn',
And live on borrowed bread.

'Twas only evil, that should a star
Be struck from the dome of night,
A shining planet, if stationed there,
Would fill the vacuum to a hair,
And shed a broader light.

The man who takes no papers,
On asking, pays not when they're read,
Would sell his soul to buy a 'horn',
And live on borrowed bread.

life. The Irishman struggled and bit the spoon severely, but the watchler plunged it still deeper in his throat, saying, as he did so, "Oh, but you must take it—the landlord says you must!"

The nasty dose went down, but when Patrick received his breath, and began to pour forth his obligations in his own peculiar rhetoric, the watchler discovered that he had committed an egregious blunder, and, seizing his light, fled from the room.

The astonished and enraged traveller sprang from his bed, and was soon heard rushing about in search of the landlord, swearing vengeance against him and all connected with

ary, that the glorious destiny of America be fulfilled, that when it was an asylum for the oppressed, it became a generating Europe, the pillar of manhood's liberty.

Oh, it is a more capricious change of fate, that the exiled Governor of that land whose name, four years ago, was scarcely known to your glorious shores, and which now (oh let me have the blessings of this faith!) is not a mere chance that Hungary's exiled chief thanks the Senators of Maryland for the high honor of a public vote in this very Hall where the first Continental Congress met where your great Republic's glorious Constitution was framed, where the treaty of acknowledgment of independence was ratified, and where you, Senators, guard with steady hand, the sovereign State rights of your own State united to thirty others, not to make you less free, but to make you more mighty, to make you a power on earth.

I believe there is the hand of God in history. You assigned a place in this hall of freedom to the memory of Chatham, for having been just to America, for opposing the stamp Act, which awoke your nation to resistance.

Now the people of England think as once put the elder thought, and honor with deep reverence the memory of your Washington.

But suppose the England of Lord Chatham's time had thought as Chatham did; and his burning words had moved the English aristocracy to the same point of view, then those four men (pointing to the portraits) had not signed your country's independence: Washington was perhaps a name unknown, unhonored and unused; and this proud constellation of your glorious stars had perhaps not risen on mankind's sky—instead of being now about to become the sun of freedom. (Applause.)

It is thus Providence acts. Let me hope, Sir, that Hungary's unnumbered fate was necessary in order that your stars should become such a sun. Sir, I stand upon the very spot where your Washington stood, a second Cincinnati, commemorating the greatest act of his life. The walls, which now listen to my humble words listened once to the words of his republican virtue, immortal by their modesty. Let me upon this sacred spot express my confident belief that if he stood here now, he would tell you that his prophecy is fulfilled; that you are mighty enough to defy any power on earth in a just cause, and he would tell you that the world will never be a cause more just than that of Hungary, being, as it is, the cause of oppressed humanity.

Sir, I thank the Senate of Maryland in my country's name for the honor of your generous welcome. Sir, I entreat the Senate kindly to remember my down-trodden Ireland.

I bid you farewell, feeling heart and soul purified, and the resolution of my life strengthened by the very air of this ancient City of Providence. (Applause.)

On motion, the Senate adjourned.

The Committee, on the part of the House of Delegates, met at the chamber of the Speaker, and presented him to the Speaker, who said:

Gov. Kossuth: The House of Delegates of Maryland, desiring to manifest their admiration for you as the champion of the oppressed of all nations to stand erect in the image of their God, and to say to the crowned and haughty despot, as an obscure Northman said on one occasion, when leaving his frail car upon the banks of the Nile, and brandishing his staff in the face of a supercilious Roman, "I too, as a man have resolved to do all that the brief hours of your arrival would enable them, to extend to you a cordial welcome to the capital, where your great prototype, the immortal Washington, closed that military career which resulted in the political regeneration of this country, and his own immortality.

And I am sure that I speak the sentiments of my fellow representatives, here, when I express the hope that you, too, may be an instrument in the hands of God in securing for your countrymen that political liberty which we enjoy.

I, now, in the name, of the people of the State of Maryland, through their representatives, welcome you to this Hall, and invite you to a seat amongst us.

Kossuth replied: Sir, I most heartily thank the House of Delegates of Maryland for the honor of this public reception. If to be an invited and welcomed guest of his Excellency, the noble-minded and warm-hearted Governor of this State, was already source of high gratification to my heart, and a valuable benefit to the cause which I represent, the generous welcome of the Legislature has raised the benefit to the level of a principle.

I cannot forbear to believe that in this concurrence of the Legislature with the Executive Government of this sovereign State in bestowing upon my humble self the high honor of a solemn welcome, there is more than kindness so congenial to true American hearts, and in itself so dear to me there is a political revelation of the public opinion of the people from whom both the Legislature and the Executive derive the authority of their high position.

And whenever a people, by its elect, pronounces in such a solemn way, there is in that pronouncement, more than civility to a stranger, more than generous hospitality to a homeless wanderer, more than compassion for misfortune, even though the connected with a noble and just cause—there is a principle in it. Public opinion can never be moved to a great extent but by a principle. May it be a whim of mysterious destiny, or, as I believe, something providential, it is no more than that my arrival in the United States became an opportunity for the manifestation of a principle existing in the heart of your people, which besides the glory of being mighty, intelligent and free possesses also that of being a sovereign people, great Republic in such a brief and rapid show.

And that existing principle, that the people of the United States are now of having to take the high position of power on earth with all the importance of this position, that scope, where the great interests of the world are weighed.

Sir, the rays of generous sympathy with which the people of the United States brighten my sad brow, came upon me only because the light of your country's fundamental principles is reflected from the mire of your country's position. (Applause.)

Sir, I (pointing toward a full-length portrait of La Fayette,) that very person is a principle; if Washington's likeness teaches the world that

"Who will be free, themselves must strike the blow."

La Fayette's presence there tells the world what Europe's oppressed nations expect from the gallant sons of Republica America.

And, besides this glorious personification of patriotic duty and private generosity, there is the great idea that picture there, that if America was not too far from Europe to see, as La Fayette said in Annapolis, "French and American standards united in the cause of mankind," when your country was in need, Europe should not be considered too far to see the powerful Republic of the United States, when Europe is in need of seeing protected the laws of nations, which every nation is interested just as every citizen is in the laws of his country.

America received from Europe private generosity and public assistance. Europe expects from America only private generosity and the assurance of "fair play." Sir, let us hope that in the Hall, where history thus speaks, principles will rule.

Upon this appeal rest my hopes; and let it be with the consultations of hope, that I beg you, Sir, and the House of Delegates of the State of Maryland, to accept the sincere acknowledgments and distinction they have pleased to honor me with, and the assurance of my own and my country's sincere gratitude.—Y. From the North American. THE NEW DEPARTMENT OF AGRICULTURE.

We have waited with some curiosity to hear the views of the opposition press of all shades, upon the creation of the new Department. The Patriot has not expressed any opinion that we have seen on the subject. The Colonist has spoken of it as a "job," though he has not pointed out in what respect. The Globe, as was to have been expected, launches forth a torrent of invective and low wit. The Spectator also joins in the cry that it is a "job," &c., and even the Journal of Education, for instance, pretends to think the Department "useless," and not according to his ideas of "retrenchment."

Now, it is easy to call names, but it is not always so easy to prove that they are deserved. Let us examine the charge of "jobbing." As we have always understood it, it describes some act of office, undertaken for the benefit of private interests, at the public expense. We contend that a Department of Agriculture is highly necessary to promote the best interests of Canada. We have long been of this opinion. Some of the writers who have undertaken to condemn the new Department, exhibit the possibility of their ignorance, or the factiousness of their opposition, by assuming that the Department of Agriculture will be confined to matters of a scientific or practical character, relating directly to the business of farming! And that as we have a Board of Agriculture, a Professorship of Agriculture in the University, and agricultural societies all over the country, there is nothing for a Minister of agriculture to do. But has emigration for instance, relating to the agricultural advancement of the country? At present we have no system, no efficient agency either at home or abroad for promoting a sound, healthy, desirable emigration to our shores. The best class of emigrants from the British Isles, as well as from foreign countries, find their way to the Western States. The small farmers, men of small fortunes and industrious habits, whose labor and capital would add more to the material wealth of the country than five times their number of the poorer emigrants we now receive, shun Canada as if it were really what the London Illustrated News lately described it, a "Frozen Region," and as a natural inference, too inhospitable for the patient labors of the husbandman. Why is this? Why so much ignorance and misconception of the real advantages which Canada offers to emigrants of the agricultural class? Inattention and mismanagement on our part. We have taken no pains to furnish correct information even to our fellow subjects of Great Britain. No reliable agricultural statistics have been collected or officially promulgated. Our public lands have been notoriously mismanaged. The price is not uniform, and has been frequently varied; while lands equally good, and offering equal advantages to immediate settlers, could be had in the Western States for the low price of one dollar and a quarter per acre. The higher price, the changes in terms, the uncertainty, the total want of system, and the absence of all reliable information to guide the intending emigrant, has generally resulted in the determination on his part to ship for the United States, though his natural predilections strongly led him to prefer Canada. The sweeping of the overgrown estates of the large land owners, and of the poor houses, have been shipped to Quebec—the able bodies finding the way over the lines, while the sick and the infirm scatter themselves over the settled townships to receive their emaciated bodies from the donations of the charitable. Can such a state be frequently repeated in Canada? Certainly not. To collect and arrange information that could be relied upon for the intending emigrant; to take suitable means for placing it within his reach; to build up and improve one land-granting system—the facilities for the transportation of immigrants and systematic emigration department from Quebec to Hamilton, all this requires to be done and there is at present no Head of a Department who has the leisure or the fitness to undertake it. Any modification of price, or of the plan of disposing of the public lands would of course claim the attention of the Crown Lands Commissioner. But for the accomplishment of the other objects we have mentioned, he has no time to spare. The Inspector General, the Receiver General, the Attorney General, the Commissioner of Public Works, the Secretary, have each enough to do to

discharge the peculiar duties of their own departments, in addition to the general business of Government. The great, the immense disadvantages under which the country now suffers, have long been felt and deplored, but previous Governments never did much to remove them. Two or three spasmodic and fruitless efforts comprise the sum and substance of our efforts as yet toward a healthy emigration. We encourage to engage largely in the construction of Railroads. The demand for labor will go up, and unless something is done—some well-devised and promptly executed system established—to turn a portion of the mighty stream of emigration to our shores which is now setting in so strongly to the United States, and Australia, the price of labor will rise so high, that it will bring ruin on our farmers. We let us say nothing in this place of the benefits a Minister of Agriculture might confer upon the Province by aiding directly in the promotion of the farmer's interests. We could point out many ways in which his aid could be made available: But we ask if the emigration branch of such a department does not open up of itself an ample field for the employment of one man's best energies? Suppose that the country derived no advantage from the presence of such a Minister at the Council Board to advise in the affairs of the Province generally, would it not be a wise economy to pay a man fit for such a post, £2000 a year to discharge its duties? But what must be thought of the honesty or the intelligence of those grumblers who cry out a "Job," when it is proposed to add these important duties to a Department already established, and without any increased or additional salary? If the usual cabinet offices were filled, and a new one created to bring in Mr. Cameron, and a new salary appropriated to it, then indeed there might be some propriety in characterizing it as a Job. It lacks the ingredients which is the essence of all jobs—viz., an extra slice from the public loaf for which there is no quid pro quo.

We hear some speak of the new Department as unconstitutional. The constitutionality of such exalted matters must be very profound. We are not aware that any of the Departments, except the Public Works, exists by virtue of a direct enactment of the legislature. They are a matter of prerogative. The number may either be increased or diminished as the exigencies of state require. The salary of a new minister could not be paid without a vote of the Legislature, but that is no part of the present case. The Presidency of the Council is one of those offices which undoubtedly can either be filled or not as ministerial necessity may dictate. The exclusion of such a man as the Hon. M. Cameron from the Cabinet in order to save £2000 salary, might be a loss of thousands, and hundreds of thousands to the Province. What the country requires is a sufficient number of able, experienced, and honest men to conduct successfully the various departments of the public service. We have been, and are as warm advocates for retrenchment as any of our contemporaries, but we never thought of good minister to see dear at £2000. We believe it is contemplated for the management of Registration and Statistics in the hands of Mr. Cameron, as at present constituted, the Council is one of those offices which undoubtedly can either be filled or not as ministerial necessity may dictate. Doctr. LEAF YEAR ADDRESS OF THE LADIES.

You gathering youths, who say you prize our ruby lips, and sparkling eyes...

Since you've been enraptured by the eyes which thrill you, you've been enraptured by the eyes which thrill you...

The ruby lips you speak of now, will breathe the words of the marriage vow...

Old Bachelors! though cold and chill, we've had our share of love...

Ye Widowers!—but we need not call, we've had our share of love...

Then, gentlemen, if you be wise, come on and take a prize...

CHIPPAWA FOUNDRY, AND Steam Engine Manufactory.

THE Undersigned is now prepared to do all kinds of work in the best manner, and at short notice.

The Patterns of Steam Engines for Grist and Saw Mills, are all new and of the most approved kind.

Having devoted considerable time and expense to getting up the best description of Engines, with all the other necessary fixtures for Mule Saw Mills, is now ready to offer them with great confidence to those in want of such machinery.

Improved stationary Fire Engines constantly on hand, ready for delivery.

In connection with the above, there is now in course of erection the largest Steam Engine in the Province, the Moulding Floor of which will cover upwards of 10,000 square feet.

There will be constantly on hand a Stock of the most approved Patterns of English and American Cooking Ranges, Stoves, &c., fitted with Tin and Copper Ware complete, also, the handsome and newest styles of Hall and Parlour Stoves, a variety of Brass and Iron Castings, &c., all of which will be sold at lower prices than have ever before been offered to the public, and which, from the position of Chippawa, as regards water communication, is a very great advantage.

OLIVER T. MAKLEN, Chippawa, June 24, 1851. Spect.—23

FRUIT TREES! THE subscriber in returning thanks to the inhabitants of the County of Huron generally for the very liberal encouragement they have met with in the Sale of Fruit Trees, begs to announce to the Farmers of these United Counties that he is prepared to introduce this Fall, a large and well selected stock, comprising every variety of Nursery Trees, upon his usual liberal terms.

It would be superfluous to enlarge upon the superior merits of this Nursery, and the qualities of Fruit brought from it—but the large quantity of Trees that have been distributed over nearly all of Upper Canada, for the last 18 years has gained for this Nursery a superiority over most others.

The subscriber would beg to introduce to the notice of all those who wish to get good Winter Fruit, the celebrated Northern Spr Apple, its qualities are superior to all others of its kind, keeping until July, and preserving all its freshness and flavor, which is a great desideratum until that period. The subscriber would also intimate that his Dwarf Pear is in great demand as a Garden Fruit, bearing in two years after planting.

Every variety of Fruit Trees, Ornamental and Evergreen Trees and Shrubs, Hardy Herbaceous Flowering Plants, Dahlias, Bilbois Flowering Roots, &c., Catalogues can be had of any local or travelling agent, giving a full description. Terms, when 50 Trees are taken, \$25 hundred, or in 24 currency each, under 50 Trees. Is 60 c. two years credit, notes payable with interest. Orders will be received, and any information given by Mr. Horace Horton, Market Square, Goderich, and Mr. Peter Woods, Union Hotel, Stratford, local agents for the Nursery.
