SIXTH THIRTEENTH YEAR
SUTTON WINS THE MATCH.

for falling to go out of ball. That was Sutton's early misadventure. Capron mis-cued five times and Sutton twice. The crowd all remained until the end and great were the cheers for victor and vanquished at the close. The principal controversy was at the close when Capron will endeavor to turn the tables in the straight game next week.

Sutton's opponent for the best billiard match was Capron's partner, who was defeated by the victor. The match was a close one, but Sutton's superior play was the deciding factor. The crowd was enthusiastic throughout, and the match was a real treat for the spectators.

The local man fought an uphill fight for the greater part of the contest and eventually walked home a winner beating his opponent by 41 points. May's 4500 steel cushion table was placed on the stage and the victorious applicant at opposite moment from the 200 men and one woman in the balcony and gallery, showed that they all could play suitable positions for seeing.

The contestants mutually agreed on their own John Burns for referee, and cleverly he performed his duties. The match was a real treat for the spectators, and the crowd was enthusiastic throughout. The match was a real treat for the spectators, and the crowd was enthusiastic throughout.

Both men made this a barrier. The match was a real treat for the spectators, and the crowd was enthusiastic throughout. The match was a real treat for the spectators, and the crowd was enthusiastic throughout.

Capron's draw to the cushion with his partner was the fifth for position. The match was a real treat for the spectators, and the crowd was enthusiastic throughout. The match was a real treat for the spectators, and the crowd was enthusiastic throughout.

Sutton's cushion first for position. The match was a real treat for the spectators, and the crowd was enthusiastic throughout. The match was a real treat for the spectators, and the crowd was enthusiastic throughout.

Capron's left-hand kiss shot. The match was a real treat for the spectators, and the crowd was enthusiastic throughout. The match was a real treat for the spectators, and the crowd was enthusiastic throughout.

Capron's left-hand kiss shot. The match was a real treat for the spectators, and the crowd was enthusiastic throughout. The match was a real treat for the spectators, and the crowd was enthusiastic throughout.

ARREST OF CORNELIUS HERZ
SUSPECTS ARE SHIFTERING IN THEIR SIZES

Everybody fears that the Worst Will Come Out—Herz Not a Spy For the Triple Alliance—He Had Tried to Detach Italy From Austria and Germany.

PARIS, Jan. 20.—The sole topic of conversation in the Chamber lobbies and cafes this afternoon has been the arrest of Cornelius Herz. The prospect of his return to France and the possibility that he will reveal evidence which he holds against conspicuous politicians and financiers has excited general apprehension. Outside of royalist and socialist circles the arrest is regarded with a feeling closely akin to panic.

The gravest fears exist on account of the Senate, whose members are believed to be threatened with exposure. The arrest through Herz's return. Everybody feels that the worst will come out as soon as Herz shall come before the examining magistrates.

In view of Herz's capture, the Liberte contains a statement as to relations between Herz and Baron Clemenceau. Documents seized upon the premises occupied by Herz when he lived under the name of Schirer were examined by the police. It was found that Herz had been the debtor and Herz the creditor, as was affirmed by Herz in his letter published in the Occident last evening.

Herz Not a Spy. At the Palais Bourbon this afternoon M. Andreux was the principal object of curiosity and at the very turn he was the centre of a little knot of deputies, who piled him with questions as to Herz's arrest. He reiterated his conviction that Herz was not a spy for the Triple Alliance.

After Deputy Germaine Reache had been the Parliamentary Commission of Inquiry that he would introduce in the Chamber a bill for the purpose of detaching Italy from Austria, Hungary and Germany.

Secret Service Money. When attacked by the Lancers in 1887, Rouvier had paid 100,000 francs to that name as the price of peace. He explained the matter to the Chamber, and explained the matter to the Chamber, and explained the matter to the Chamber.

Reverting to the Reache documents, M. Andreux said he had obtained the memoranda as to Herz's checks, etc., from Cornelius Herz, who had deposited them with Reache. Andreux did not know that Reache had shown the memoranda to the press, but he had seen them in Clemenceau's hands. Herz, after quarrelling with Reache, had sent to M. Constant, Herz's political adviser, documents showing that Reache had tried to bribe Herz.

Subsequently, however, Reache and Herz had been reconciled. As to checks mentioned in Artou's notebook, Herz could give the desired information. Artou was at present in confinement with several writers in Paris. Herz had paid their money for passage to the United States.

that Carnet received any benefit or favor from the Panama Canal Company. "He can be blamed for accepting dishonest men for his ministers. The zeal of M. Bourgeois in shifting the Panama affair is due to his ambition to become President. They all want to be President, 50 or more of them.

The Panama directors will receive severe sentences. Then five or six deputies and six members will be sacrificed and the rest will escape. The Count de Paris is too prudent to think of mounting the throne. Nor will the scandal affect the Russian alliance.

Prof. Ernest Albert Macdonald (again he holds the royal and patriotic name which his parents gave him) was not present on Wednesday, but a subpoena was put in his hands at Woodstock on Thursday, and he appeared before the commissioners yesterday.

Herz Arrested. Ernest Albert paid his respects to the commissioners. Mr. Davis unfolded the parchment, and began to read. So were the lawyers, Messrs. Nesbitt, G.C., and Bouliere.

The court sat in the Inland Revenue office and was conducted with becoming dignity. Cosgrove's agents present. The intention is to get, if possible, unity of action so that in the event of a cholera or other epidemic next summer the duties of the Dominion and Provincial Government may be clearly defined and there may be no clashing of authority, as there came very near being last year.

Dairy Products Exported. Prof. Robertson, Dairy Commissioner, has prepared an excellent report on his recent visit to England, in which he deals with Canadian butter, cheese and other products in the English market. He says that he sold all the samples he took over belonging to the Government at good prices, and the profit will go long way towards paying the expense of his trip. He found Canadian cheese, butter, bacon and eggs growing in factor, but complains of the unfairness of retail dealers, who sell one-third of their Canadian cheese as "best English." He says that scarcely a butcher ever buys a pound of Canadian or American beef, most of it being palmed off as English.

Other evidence was given that seemed to satisfy the court that Cosgrove had signed the document, and that it was straight and correct. The issue practically is between Cosgrove and E. A., the former asking the court to believe that he and his friend, John L. Play, were the most loyal subjects of Her Majesty Queen Victoria, and that they were walking on the Queen's highway and were seized upon by the designing extortionist, Mr. Robertson touches on an important point when he says:

"I hope our Department of Agriculture, our merchants, our hotel, working in harmony as in the past, may be equal to the devising and operating of some means of distributing our products to the ultimate consumers whereby the unreasonable profits of the retailers may no longer interfere a barrier to the more general consumption of our products, and our Canadian cheese, beef, bacon, eggs, poultry, etc. The difference between the prices charged by the retailers for our best products and the prices realized by the producers on the Canadian side is out of all reasonable proportion to the cost of the services rendered in the distribution. I heard of one retail butcher who had made a million of dollars in a few years out of selling prime Canadian beef as 'best English.' Doubtless the customers who purchased from him got good value, but a much larger share of the profit should have come to the pockets of our Canadian farmers. That is only one instance out of a large number.

The Mammoth Cheese. The mammoth cheese, which Prof. Robertson had made for the Chicago Exhibition, is likely to prove a success in every way and to fully justify the Professor's course in having made this "mammoth cheese." Here is what he says about the offer he received in England.

"I received from the largest retail dealer in the provinces in the world an offer for the center of the dairy pyramid of the World's Columbian Exposition at Chicago. He has no less than 90 large shops in different parts of London, and shops in nearly every large city in Great Britain and Ireland. The price offered is one that will recoup the department for all the expense of manufacturing the mammoth cheese, besides the offer, who is no other than the great Lipton, whose retail sales of his cheese are estimated to be worth a million of dollars a year. He undertakes to exhibit the cheese free of expense to the Department and without charge to the public in every large city of commercial importance in Great Britain and Ireland. He will also spend \$15,000 in advertising it as the largest cheese in the world. All this will call attention to the magnitude of the Canadian trade in cheese, and make its excellence better known to the great masses of consumers.

COUGROVE AFFAIR. DAIRY PRODUCTS EXPORTED. RITING IN AMSTERDAM.

They then returned to the street and attempted to take the place by storm. The police were on alert, however, for anything of this sort and a number of them were quickly on the scene and prevented the looting of the shops. The leader of the mob allowed two of the men to enter the bakery to ask for bread. These men demanded food from the proprietor and met with a prompt and decided refusal.

THEY ARE NOT FAIRLY HANDLED IN ENGLAND.

Canada's Exhibit of a Mammoth Cheese at the World's Fair to be a Standing Advertisement Abroad—Prof. Robertson's Interesting Report—A National Quarantine Conference Called.

Ottawa, Jan. 20.—Invitations have been issued by the Minister of Agriculture to all the Provincial Governments to send representatives to a conference to be held here on the 31st inst. on the subject of quarantine and public health, or as the invitation puts it, "maritime and provincial sanitation."

The intention is to get, if possible, unity of action so that in the event of a cholera or other epidemic next summer the duties of the Dominion and Provincial Government may be clearly defined and there may be no clashing of authority, as there came very near being last year.

A Mob of Unemployed on the March Stopped by Gardemans From Looting Baker Shops.

AMSTERDAM, Jan. 20.—Today the unemployed workmen formed a procession and passed through a number of the principal streets, growing more noisy and more demonstrative as it was formed. The police did not interfere.

They then returned to the street and attempted to take the place by storm. The police were on alert, however, for anything of this sort and a number of them were quickly on the scene and prevented the looting of the shops. A BROKEN RAIL WAS STRUCK.
THE ENTIRE TRAIN WENT THROUGH A HIGH BRIDGE.

And the Train Took Fire and Was Consumed—Only One Person Killed—Fourteen Passengers Seriously Injured—The Engine Hangs on an Abutment—A Heroic Baggageman.

PERU, Ind., Jan. 20.—One of the most disastrous wrecks ever recorded in the history of the Lake Erie and Western Railway occurred early this morning at the Washway River bridge, south of this city. Train No. 16, the fast north-bound express struck a broken rail at the southern part of the bridge, derailing the cars. The engine reached the abutment of the second span when the wheels ran back signalling the entire train down into the bed of the frozen river 30 feet below.

The train was running 40 miles an hour when the rail was struck. The engine was derailed and the train immediately took fire and was consumed. Only one person was killed, George C. Dorland of Laporte, whose back was broken. There were 14 passengers and not one of them escaped serious injury. The loss to the company is \$25,000.

SIGN THEIR DEATH WARRANT.

Markets and License Committee... Talk About Licenses.

The Committee on Markets and Licenses was both inaugurated and extinguished at yesterday afternoon's session.

Ald. Stewart was in the chair and there were also present, Ald. Frankland, Hill, J. E. Verral, George Verral, Maloney and the Mayor.

This was the resolution, moved by Ald. J. E. Verral that gave the committee its quietus.

That in the opinion of this committee it is advisable in the general interests of the city that the number of standing committees shall be reduced, and with this end in view this committee recommends the council to amalgamate the Markets and License Committee with the Property Committee and that the chairman be requested to introduce the necessary by-law.

The motion was carried unanimously: A lengthy discussion ensued regarding the division of the work of the various branches of the department.

Ald. Maloney introduced the subject by suggesting that the inspection of wheat and fruit devolve upon the Medical Health Department and the issuing of licenses upon the City Commissioner's Department.

The Chairman: You can make up your mind that the work will not be done any cheaper under the police. They will not tell you how much money they expend.

The City Commissioner has a couple of men in his department that could be used for this work and his department could run the thing much cheaper.

Inspector A. W. E. in reply to a question, explained that the outside inspection of the cellars, condition of the cabs, rate of fares, and all regulations are issued by his department. "The licenses are issued by my department and the money is paid to the treasurer."

Ald. Frankland: Mr. A. W. E. would not care to be seen in a billiard room. [Laughter.] It is necessary that the police should inspect those places. The worthy alderman branched into an attack upon the by-law regarding the weight of potatoes, etc.

"It is diabolical and damnable," he indignantly remarked. He told a pathetic story of a farmer who had come into the city with a load of potatoes.

"All he had on was a flannel shirt to cover his bare bosom, but along came an inspector and seized his potatoes because they were a pound or so light in weight. He was thus deprived of the means of taking home necessary to his family."

"He held that the City Commissioner should look after the weighing business, that licenses should be issued by the police and that the inspection of food should be looked after by the Medical Health Officer."

The matter was eventually allowed to drop, and the final settlement will devolve upon the Property Committee.

It was decided to ask the council for an interim appropriation of \$40,000.

It was ordered that the agreement made with the railways regarding the construction of a sewer for the new cattle market be drawn up and completed at once.

THE CIVIL ASSIZES. An Action Against the City Takes Up the Entire Day.

The case of Conacher v. The City of Toronto occupied the attention of the Assize Court throughout the entire day Friday.

Action for \$2500 is being brought by Mr. James Conacher against the city for alleged damages sustained by him on account of the sewage deposit from the mouth of Brock-street sewer, propagating germs of disease which caused the death of three of his children and the serious illness of other members of the family.

Mr. Conacher is being handled by the City Solicitor, while Mr. B. B. Oser takes the case for the city. Messrs. Kerr, Bull & Duggan are handling the case of Mr. Conacher, while Mr. B. B. Oser takes the case for the city.

The city denies its liability, and advances the argument that it cannot be held responsible for the lowering of the water in the bay to a point below the mouth of the sewer, which was the cause of the deposit from the pipe lying exposed on the beach instead of being carried off by the water.

It has been agreed between counsel that the damages if awarded shall not exceed \$1400.

BUSINESS EMBARRASMENTS. The W. T. Hurst Estate to Be Wound Up.

Other Failures. A meeting of the creditors of W. T. Hurst, broker and shoe dealer, Collingwood, was held at that place on Thursday.

The assignee's statement showed assets of \$705, against liabilities of \$2088. This poor showing is accounted for by the fact that the insolvent had been pressed from all sides for some time and was unable to buy any stock. The principal creditors are William Griffith of Hamilton and Green, McLarn & Co. of this city, whose claims are \$450 and \$250 respectively.

"August Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been affected with Neuralgia of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head dull, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became sharp and I had such queer, tumbling, palpitating sensations around the heart. I ached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could not get sleep at all. I tried everywhere, and got no relief before using August Flower. Then the change came. It has done me a wonderful deal of good during the time I have taken it and is working a complete cure."

G. G. GREEN, Sole Man'fr, Woodbury, N.J.

OLD CHUM CUT PLUG.

No other brand of Tobacco has ever enjoyed such an immense sale and popularity in the same period as this of brand Cut Plug and Plug Tobacco.

Oldest Cut Tobacco Manufacturers in Canada.

D. Ritchie & Co., MONTREAL.
