"STAND, AS AN ANVIL, WHEN IT IS BEATEN DOWN."

ST. IGNATIUS TO ST. POLYCARP-BOTH MARTYRS.

"Stand, like an anvil," when the stroke Of stalwart men falls fierce and fast, Storms but more deeply root the Oak, Whose brawny arms embrace the blast.

"Stand, like an anvil," when the sparks Fly far and wide, a fiery shower: Virtue and truth must still be marks, Where malice proves its want of power.

"Stand, like an anvil," when the bar Lies, red and glowing on its breast: Duty shall be life's leading star, And conscious innocence its rest.

"Stand, like an anvil," when the sound Of pondrous hammers pains the ear: Thine, but the still stern rebound Of the great heart, that cannot fear.

"Stand, like an anvil." Noise and heat Are born with earth, and die with time; The soul, like God, its source and seat, Is soleum, still, serene, sublime. Riverside, St. Barnabas's Day, 1849.

A MARTYR'S VICTORY.

BY REV. JAMES GILBORNE LYONS, LL.D. When ALARIC, the Goth, was defeated at Pollentia and Ver time from Italy, the Romans celebrated that event with great rejoicing to spend a whole pound weight of precious peace. nce. A triumphal procession and a conflict of wild beasts at once dazzled and gratified the multitude. The shows of gladiators were then for ever brought to an end by Telemachus, an

an edict forbidding all such exhibitions for the future. The streets are thronged in mighty Rome And left his ruthless Gothic powers All crush'd beneath Verona's towers.

Those who once quailed at that dire name,
May now deride their foe,
And boast as if they shar'd the fate
Of glorious Stilicho,—
Of him who felt no craven fears
Rise at the flash of northern spears,
And struck no feeble blow,
But match'd with trophies green and high,
The monuments of days gone by.

But when the clear Italian sun
Pours down its moontide fire,
The trumpet speaks the game begun
Which idle crowds admire;
And soon, from barr'd and gloomy caves,
Driven howling out by troops of slaves,
In criv and sullen In grim and sullen ire, easts, the wild brood of many a land, Pace with loud rage the level sand

Gætulia's lion, freshly brought
From scorch'd and desert plains,
And ravening tigers newly sought
On Parthia's waste domains;
Bears from the frozen Oder's mouth,
And panthers from the burning south,
Bred in old Nubian fanes,
Make there a stern and ghastly fray
For tribes more savage far than they.

But hark! the trumpet's warning peal
Is sounding as before,
And bondsmen clear, with staff and steel,
The red arena's floor;
The fainting brutes are swept away,
This saved to bleed another day,—
That weltering in his gore,
And Mes, of martial frame and race,
Take with slow star the weens there Take with slow step the vacant place.

Two, chosen from the warlike throng,
Begin a deadly strife;
One, a gray swordsman, scarr'd and strong,
One in the bloom of life;
This nurs'd where snows on Hæmus shine,
That torn from hills beside the Rhine,
From children, home and wife;
And high-born matrons held their breath,
All bent to see the work of death,

Their toll was nerce out snot; and now, Flung bleeding in the dust, The Thracian waits with pale, cold brow, The last and mortal thrust; When rushing forth, till then unseen, A swarthy pilerim leaps between, Strong in a Christian's trust, And drench'd with blood, yet undismay'd, Stays with fix'd grasp the uplifted blade.

A light smooth cross of cedar wood, A light smooth cross of cedar wood,
The gentle stranger bore,
Long worn in holy solitude
On Syria's palmy shore;
'Romans,' said he, "for Him whose birth
Gave hopes divine of peace on earth,
Arise, and evermore,
Servants of God in act and name,
Cast off these works of guilt and shame."

He ceas'd: a scowl like noon's eclipse Spread fast from seat to seat.
And four score thousand hostile lips
Loud words of wrath repeat:
They rave and roar, as groves of pine
Wave on the Etrurian Appenine,
When stores the tall graps, heat. When storms the tall crags beat, Till, heav'd and froubled furiously, Breaks in one surge that living sea.

The German leaves his task undone, The Thracian creeps aside, The swordsmen flee like flocks that shun The swordsmen fee like nocks that s Vex'd Arno's foamling tide; But, as a pharos meets the shock Of waves on some unsheltered rock Where seas are deep and wide, Telemachus look'd up and trod That path of danger true to God.

And when the stony tempest burst On his defenceless head, He stood unshrinking as at first, As free from doubt or dread: As free from doubt or dread:
With aspect full of peace and love,
As if he came from worlds above,
And hands in prayer outspread,
He laid him down, nor breath'd again,
Whelm'd by that host of vengeful men.

Yet deem thou not the martyr died
Warring for right in vain;
HIS WAS THE PRIZE FOR WHICH HE SIGH'D, AND HIS THE ETERNAL GAIN: AND HIS THE ETERNAL CAIN.
Fierce Alaric shall yet return,
And Rome's fair dwellings blaze and burn,
Fill'd with red heaps of slain;
But scenes where man must bleed for mirth,
Shall blast no more the ransom'd earth.

Honorius was thus re- all necessary points of religion, in so complete a body minded of his duty as a Christian Emperor, and soon after put forth of divinity, as all hearts may rest in: these we read, these we write under, as professing not their truth only, but their sufficiency also. The voice of God our Father, in his Scriptures, and (out of these) the voice of the Church our mother in her Articles, is that, which must both guide and settle our resolutions: whatsoever is besides these, is but either private, or unnecessary and uncertain. Oh that while we sweat and bleed for the maintenance of the oracular truths, we could be persuaded to remit of our heat in the pursuit of opinions: These, these are they that distract the Church, violate our peace, scandalise the weak, advantage our enemies. Fire upon the hearth warms the body, but if it be misplaced, burns the house: my brethren, let us be zealous for our God; every hearty Christian will pour oil, and not water upon this holy flame: but, let us take heed lest a blind self-love, stiff prejudice, and factious partiality impose upon us, instead of the causes of God; let us be suspicious of all new verities, and careless of all unprofitable; and let us hate to think ourselves either wiser than the Church, or better than our superiors: and if auy man think that he sees further than his fellows, in these theological prospects, let his tongue keep the counsel of his eyes; lest, while he affects the fame of deeper learning he embroil the Church, and raise his glory upon the public ruins.

And ye worthy Christians whose souls God hath entrusted with our spiritual guardianship, be ye alike minded with your teachers; the motion of their tongues lies much in your ears; your modest desires of receiving needful, and wholesome truths shall avoid their labour after frivolous, and quarrelsome curiosities .-God hath blessed you with the reputation of a wise and knowing people; in these divine matters, let a meek sobriety set bounds to your inquiries. Take up your time and hearts with Christ, and Him crucified, with those essential truths which are necessary to salvation, leave all curious disquisitions to the schools, and say of those problems, as the philosopher did of the Athenian shops: how many things are here that we have no need of! Take the nearest cut ye can, ye shall fled it a side way to neaven, ye need not lengthen it with undue circuitions. A true body may be full of mortal diseases: so is the Roman Church of this day; whom we have long pitied, and laboured to cure in vain; if she will not be healed by us, let us not be infected by her: let us be no less jealous of her contagion, than she is of our remedies. Hold fast that precious truth, which hath been long taught you by faithful pastors, confirmed by clear evidences of Scriptures, evinced by sound reasons, sealed up by the blood of our blessed martyrs; so while no man takes away the crown of your constancy, ye shall be our crown and rejoicing in the day of our Lord Jesus; to whose all-sufficient grace I commend you all; and vow myself your common servant in Him whom we all Jos. TIME\_TABLE OF A SEPTUAGENARY. (From the Protestant Churchman.)

I will begin with the years which, from the requirements of our common nature, or from my habitual waste of time, may be considered, so far as regards any serviceable purpose, to have been absolutely lost; including the somnolent period of infancy and childhood, and making allowance for the sluggish habits of my whole after-life.-I calculate that I have slept, and dozed, and dreamed away nine or ten hours in every twentyfour, which, for seventy years, absorbs about 32

At school, with tutors, at college, I spent about twenty years, and having forgotten in two or three all the Latin and Greek, and nearly everything else that I had learnt, except my collegiate vices and expensive habits, I cannot put down for actual loss of time less than . 131

Holyrood is, of course, one of the most attractive curiosities of the city of Edinburgh, and is visited by thousands of persons annually. Mrs. Sigourney thus apostrophises it.

THE MANUFACTURING SYSTEM. From Markland's Remarks on English Churches, &c.

The gigantic manufactories of our days are built to edness which reigns within them, should be provided; that churches and schools should be there invariable accompaniments; and that the knowledge of divine truth, by authorised teachers, should be sedulously inculcated on the minds of the rising generation? This imperative duty on the part of the master has, alas! been grossly neglected; and amidst the triumphs of war, and in an exclusive devotion to the arts of peace, the voice of warning and the performance of a solemn obligation have been, until very late days, unheeded. Let us awake to the conviction, "that the greatest plague-spot of the nation is in those very things which constitute its grandeur and its greatness." From these congregated and neglected masses it is that destruction to our civil state may arise; let us, therefore, by zealous exertions endeavour to guard against the fulfilment of the gloomy prophecy of Scotland's illustrious and far-sighted poet, who, in speaking of the stern sullen artificers (whom he had then lately met) "rendered outrageoas by distress," observes, "God's justice is requiting, and will yet further requite, those who have blown up this country into a state of unsubstantial opulence, at the

"I am very glad to meet the 96th again. We have both been a good deal about the world since we were last together, and I am very glad to hear such a good account of the regiment. Your colonel tells me that you are not only in good health, but that you are good in conduct—that you have very few men in hospital. Now, this is all right, and I hope you will continue to bear a good character. But let me give you a bit of advice—that is, don't drink. I know young men do not think much about advice from old men. They put their towns in this day and think the bound of the figure tongue in their cheek, and think they know a good deal better than the old cove that is giving them advice. But let me tell you, that you are come to a country where, if you drink, you're dead men. If you be soher and steady, you'll get on well, but if you drink you're done for; you will be either invalided or die. I know too regiments in this country—one drank, the other didn't drink. The one that didn't drink is one of the finest regiments, and has got on as well as any regiment in existence. The one that did drink has been all but destroyed. For any regiment for which I have a respect, and there is not one of the British regiments whom I don't respect, I should always try and persuade them to keep from drinking. I know there are some men who will drink but such men will soon be in hospital, and very few that go in, in this country, ever come out again. I wish the 96th Regiment every success, and I am very glad to see it in the state it is."

THE ST. It is of great importance that in its comfarence to the line to be adopted. There have been, at presen two routes proposed, one by Caughnawaga above the City of Montreal, the other by Longueuil below the City; and as usual in these cases, each route has its own partizans. We believe the great arguments in favour of the higher level to be adopted for the entrance of the Canal, arises from the small amount of lockage supposed to be necessary by that course. On the other hand it is urged that the line by Longueuil pre-Mr. Henry Mulvagh.

But besides this, we are told that the latter route would be most advantageous for the rafts from the Ottawa, which are amongst the most important objects for which the accommodation is proposed to be provided. But the ultimate decision depends of course, upon those who are to find money, which we believe will not come from among ourselves. Yours most truly,
A. N. McNab. (Signed) INSTRUCTIONS TO THE COMMISSIONERS UNDER THE REBELLION LOSSES BILL.

(Copy.) SECRETARY'S OFFICE,

Montreal, June 28th, 1349. Gentlemen,—By the Act of 12 Victoria, chap. 58, passed during the last session of the Provincial Parliament, provision has been made for the appointment of a Commission for making inquiries under Legislative authority, into the just losses sus tained by parties in Lower Canada, whose property was destroyed during the rebellion in 1837 and 1838, and you will see by the accompanying commission that his Excellency the Governor-General has been pleased to appoint you to be com-

missioners for that purpose. His Excellency being of opinion that it may be satisfactory to you in the discharge of your arduous duties, to be informed of the views in which the Act originated, and, according to ich it ought, in the opinion of his Excellency, to be carried into effect, has commanded me to say that the Bill having been originally framed upon the precedent of that for the payment f similar losses in Upper Cauada, and the proceedings taken y former Provincial Administrations under the Governments f Lord Metcalf and Lord Catheart, was regarded as little liable to misapprehension or misconstruction. And in acceding to the introduction of the Proviso contained in the Preamble, e government acted not from an impression of the necessity such an amendment, for the purpose of which it was prosed to be desired, but from an anxiety to meet the wishes of others, and if possible, of thus avoiding an occasion of cavil inding such, however, not to be the effect of their acquiescence in that proposition, it became necessary to proceed with

the measure as it now stands in the Statute Book. The Government designed by the introduction of the measure to eradicate all tendency to disloyalty and disaffection, by removing every remaining just cause of complaint in reference to the unfortunate events of 1837 and 1838, and establishing the institutions of the country in the hearts and affections of the people. The object of the Act, therefore, was not to counenance rebellion, or to compensate the losses of persons guilty of the heinous crime of treason. Its design, as conveyed in P. M. Vankoughnet, J. G. Bowes, and Donald Bethune.

Ir. Lewis Moffatt was chosen, but unable to attend, owing evere family indisposition. Mr. George Duggan, Junr, declined, owing to pressing private engagements.—Colonist.
