The copy filmed here has been reproduced thanks to the generosity of:

Medical Library
McGill University
Montreal

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

To the Medical Electors of the Bathurst and Rideau Division:

GENTLEMEN,

I have complied with the request of a large number of the registered medical practitioners of Ottawa and herewith offer myself as a candidate at the approaching election of the Bathurst and Rideau Division, to be held on the last Tuesday in March, 1890.

If elected as a member for this Division I shall endeavour to further the interests of the medical profession in every way possible, and there are certain changes which I shall advocate--the most important of which is in respect to the standard of preliminary education. At the meeting of the Association held in Carleton Place in 1888, I moved, and it was carried unanimously, that the Council should require every candidate for the license to have received the degree of B.A., and to have studied medicine four full years, and obtained the degree of M.D., after graduating in arts. A copy of this resolution was sent to every Territorial Division in Ontario. I claim by requiring every student to take the degree of Bachelor of Arts the Council will arrest the tremendous over-crowding of the profession, and it will be in the true interest alike of the candidate to practise, the public, and the profession of medicine. If elected I shall try to bring about this reform.

I likewise consider the Council should make greater effort to stop the practise of medicine on the part of druggists, as this evil is both a disgrace to the Council and a menace to the well being of the community, and it has also become a serious injury to the medical practitioners.

I believe, also, the Territorial Representatives on the Council should, as far as possible, consult with their constituents on every matter of importance coming before the Council, and for this purpose, if elected, it shall be my endeavour to bring together, at least once in each year, all the members of the Division.

I am very sensible of the honour the members of the medical profession in this city have conferred on me in electing me to the position of President of the Ottawa Medico-Chirurgical Society. and I think I can safely leave my record in that office, and the record of other work done in the interest of the profession, as an earnest of what I shall do if elected to the more important place of member for the Bathurst and Rideau Division.

In asking you for your support in this election I do so not for the sake of the honour of being a member of the Council, although I shall appreciate thoroughly the distinction and your good will if elected, but, for the purpose of being placed in a position to advocate and effect, if possible, the reform before mentioned in regard to the standard of preliminary education, and thereby promote the dignity and progress of the medical profession in this Province.

I remain, yours very respectfully,

A. F. ROGERS, M.D.

Ottawa, December 20th, 1889.
