

MAYOR MET ROOSEVELT  
WHAT WILL HARVEST BE?

Here's Hoping That His Worship  
May Have Brought Back a  
"Big Stick" Program.

Mayor Coatsworth and Property  
Commissioner Harris, having yester-  
day returned from a jaunt that includ-  
ed Washington, Philadelphia and Atlan-  
tic City, are giving out some impres-  
sions of their visit.

Park Commissioner Chambers, having  
successfully bearded President Roose-  
velt in his den, the mayor and Mr.  
Harris also called upon the president  
on Tuesday last, and had a pleasant  
chat, in which Mr. Roosevelt showed  
the utmost cordiality. Mayor Weaver  
of Philadelphia was also very attentive.

The market buildings were inspected,  
but so his worship asserts, without  
finding any as well set up as St. Law-  
rence Market. None of the markets  
had radials converging upon them.

Commissioner Harris declares that  
Toronto's market facilities are super-  
ior to those at Philadelphia, Washington  
and Reading, altho those at the two  
last-named cities are larger. In Phila-  
delphia, the system of street markets  
is passing away, making room for  
stores. The Reading market, run by

"HOLY ANN" PRESTON DEAD  
KNEW BIBLE BY DIVINE AID

Remarkable Powers Which Were  
Possessed by Well-Known  
East End Resident.

The passing of "Holy Ann" Preston  
at her home, the residence of Mrs.  
Pedlow, 211 Ontario-street, last night,  
at 6 o'clock, removes from the com-  
munity a remarkable character. Born  
in 1810 in Mayo County, Ireland, Ann  
Preston came to this country with the  
late Dr. John Reed of Thornhill in  
the capacity of domestic.

When in her teens she joined the  
Methodist Church, and since that time  
has been known through the denom-  
ination for her unswerving faith in  
God. Altho ignorant of the alphabet  
she knew her Bible and had led prayer  
meetings during the past year.

Doctor R. L. Robinson, who for  
years has been her physician, when  
asked by The World "What do you  
think of Holy Ann?" said:

"For nine years that I have known  
her intimately she has been the most  
exultant reveller in the word of God  
that I have ever known. While read-  
ing she would frequently raise her  
lips and kiss it with such devo-  
tous reverence as to command for the  
book of books the most profound ad-  
miration. It is due to her marvellous-  
ly retentive memory that she could so  
readily quote whole verses, but to  
the fact that her father God thru the  
holy spirit brought to her recollection  
whatsoever God had said unto her.  
She was frequently heard to say,  
"Father dear what is it?" and when  
the passage would come to her mar-  
vellous father would always be her  
grateful response.

"The keenest regret at parting with  
this wonderful woman that I share  
personally feel lies in the sad con-  
sciousness that I shall never have the  
privilege again of hearing her read  
and around the word of God. It was  
a pleasure never to be forgotten—and  
one that at our early service in Berke-  
ley-street Methodist Church of late  
we so much enjoyed. After reading the  
xxvii Psalm, "I will bless the Lord  
at all times; his praise shall continually  
be in my mouth, etc." His worship  
the mayor, who was present, said to  
me, "Do you really think Ann read that  
Psalm?" I said yes—for I sat behind  
her on the platform close to her chair  
and when she would raise her eyes to  
look into the faces of those present I  
could hear her say, "Father, where was  
I, and I could hear her spell some  
words when she came to them—proving  
she knew the alphabet as found in  
the Bible.

"One convincing incident occurred at  
Mrs. Pedlow's in the presence of her  
niece, Mrs. Harris, when one day some  
time ago she picked up a newspaper  
and asked her father if he would  
place her finger on the word Lord or  
God if either of these words was in  
the paper. Presently Mrs. Harris  
heard her call out, "Behold, the word  
is here." "What's that?" "The word  
said, "Why that's Lord Roberts you  
have here." "I knew it was not my  
Lord for my heart never burns at the  
name of a man."

"Last Sunday evening the pastor of  
the church, Rev. M. L. Pearson, to  
was very warmly complimented by her  
on his preaching. "But you did not go  
deep enough," she laughingly added,  
but I always enjoyed listening to you.  
In the evening Mr. Pearson said there  
is a great future in store for Berkeley-  
street church, and said how, at the  
early service from 7 to 8, he had never  
heard the 14th of St. John read and  
expounded and emphasized by Holy  
Ann. As a church and community we  
shall greatly miss her."

The funeral will take place on Sat-  
urday at 3 o'clock from the Berkeley-  
street Methodist Church to Mount  
Pleasant Cemetery.

the railway, has its own cold storage  
plant, and accommodates hundreds of  
provision dealers and farmers. At  
Washington the chief market is con-  
trolled by a company, and the city runs  
three smaller markets, where stalls are  
rented. Farmers bringing produce are  
given no shelter.

Mr. Harris estimates that half the  
manufacturers in Philadelphia use soft  
coal. The law is strict as to the use  
of smoke consumers. Washington has  
few factories, but a bylaw as to smoke-  
consuming has been in force since 1899.  
Toronto, he thinks, shows up well in  
comparison with either city in this  
score.

Check on Street Vendors.  
Peanut and banana vendors will be  
excluded from carrying on business be-  
tween Jarvis and York-streets on King-  
street, Bond to Chestnut-street on  
Queen-street, and from the Esplanade  
to Wilton-avenue. If the board of con-  
trol's recommendation carries, Chief  
of Police Grassie yesterday reported to  
favor of these restrictions, but threw  
out the proposition that street vendors  
be not allowed within 100 feet of  
churches.

'Tis the Old Fort.  
Once again was plea made for the  
preservation of the old fort, when a  
deputation from the U. E. Loyalists  
Association and the Women's Histori-  
cal and Ontario Historical societies  
met on the board of control yester-  
day.

Barlow Cumberland, Frank Yeigh, J.  
M. Godfrey and others spoke in pro-  
tection against laying down railway  
tracks thru the property. Mayor Coats-  
worth replied that the filthy condition  
of the grounds was a disgrace to the  
city, and that the spot was not an  
attractive one to visit. The tracks  
would not injure the property, he  
declared, altho Mr. Godfrey saw probable  
harm to the ramparts. The  
visitors were told their argu-  
ments would be weighed.

AGED 70, IS A THIEF.

Many Kingston Citizens Victims of  
His Depredations—Confesses.

Kingston, June 21.—(Special).—A dar-  
ling morning at the residence of George  
Grier, Queen-street. The owner is wine  
clerk at the Hotel Randolph and also  
conducts his house as a sort of annex  
to the hotel, renting rooms. There  
were several roomers in Grier's on Wed-  
nesday night, and when all the guests  
had gone in the morning \$18 in bills,  
some silver, a white vest and gold

For some time citizens have been  
missing articles from their porches. Till  
today no clue to the guilty party could  
be had, but in an arrest this morning  
the thief was caught. His name is  
William Wallace. He is about 70 years  
of age, and when brought before the  
magistrate he confessed his guilt, say-  
ing: "I done it all right, I guess, your  
honor."

Lived 94 Years in Toronto.  
The funeral of the late Mrs. Eli-  
zabeth Taylor, wife of the late  
John Taylor, and mother of Nathaniel  
Whitehead, was held yesterday at St.  
James' Cemetery from the residence  
of her son-in-law, George Cham-  
bers, on Sydenham-street, and  
was fully attended. The deceased  
was very highly respected in Toronto  
and was 94 years old and had resided  
in Toronto for thirty years. Rev.  
Dr. O'Seara, principal of Wycliffe Col-  
lege, officiated at the house and grave.

Among the large number present were:  
The Mayor, Hon. Charles Stewart,  
Treasurer R. T. Coady, T. R. White-  
sides, George and Alfred Stage, John  
Stewart, James Greer, James Dale,  
James Alkern, N. and Arthur White-  
sides, Charles, Hugh and George Cham-  
bers. There was a large turn-out of  
the old residents of East Toronto.

Whose Auto Was It?  
In the county court yesterday, George  
H. Gooderham appeared before Magis-  
trate Ellis to answer to the charge of  
stealing a motor car, the driver of the  
Kingston-road on May 23. A number  
of witnesses summoned to court by  
Constable Adams could not be present  
in their minds. Gooderham denied  
being on the Kingston-road at all in  
the week mentioned, nor was his car.  
Clendenning, a passenger on a scou-  
lor car, which the motor passed, took  
note of the number (1211), correspond-  
ing with that of Mr. Gooderham's. The  
conductor and motorman testified that  
the motor passed them while ascending  
a hill east of the Half-Way House, but  
the speed of the car would not exceed  
ten miles an hour. In the absence of  
two or three important witnesses the  
case was adjourned for one week.

A Presentation.  
Mr. William Dunlop, Crawford-street,  
who has been employed with the Lang-  
muir Manufacturing Company for the  
last thirty-three years, resigned his  
position last Friday and has retired  
from business.

Mr. Frank Prest, on behalf of the em-  
ployees of the company, presented Mr.  
Dunlop with a magnificent grand-  
father's clock. Mr. Prest, on making  
the presentation, stated that they had  
heard with great regret of Mr. Dun-  
lop's intention of severing his connec-  
tion with them, but he left with the  
best wishes of all the men of the  
company. Mr. Dunlop, in reply, thanked them  
for their great kindness, and said that  
his dealings with employers and em-  
ployees had been of the most pleasant  
nature, and thanked them for the kind-  
ly words which accompanied the gift.

Injunction Continued.  
Before Chief Justice Meredith yester-  
day, the St. Catharines Pulp and  
Lumber Company moved for the con-  
tinuance of an injunction granted at  
North Bay, restraining William Mead-  
ows from selling 462 cords of pulp-  
wood to Stronach and Rogers, who  
is charged by the St. Catharines Com-  
pany that Meadows agreed to sell them  
the wood for \$118, and later sold to  
another firm for \$1400. At present  
prices the wood is estimated to be  
worth \$2000.

The chief justice continued the in-  
junction conditionally on the plaintiffs  
depositing \$1400 pending the result of  
the trial.

Litigation in Cobalt.  
A writ was yesterday issued at Os-  
goode Hall by Robert Philip Richardson  
of New Liskeard to compel the Sov-  
ereign Cobalt Mining Company to de-  
liver to him 25,000 shares, the purchase  
price of the north-western half of  
the north half of lot 8, Hudson Township,  
Nipissing.

PREPARE FOR TARIFF WAR. German Industry Not Yet Ready to Retaliate on U. S.

Berlin, June 21.—At a meeting of the Central Association of German Manufacturers, embracing most of the great manufacturers' organizations of the country, held at Nuremberg yesterday, the general secretary, Herr Bueck, referring to the trade arrangement with the United States, said the association supported the temporary extension of the treaty duties to the United States, because German industry at this moment was not sufficiently prepared for a tariff war with the United States.

The general secretary felt it necessary, therefore, to warn German industry to prepare in good time for a tariff war, which would be unavoidable if the United States thinks it can continue treating German goods unfairly.

BRITAIN TAKES THE BULK.

U. S. Exports of Meats for 11 Months Over \$180,000,000.

Washington, June 21.—Exports of meats and meat products from the United States in the 11 months of the fiscal year 1906, ended with May, aggregated over \$180,000,000 in value.

The increase occurs in all the principal products, but is especially noticeable in lard, oil, salted pork, fresh beef and fresh pork.

Great Britain is by far the largest purchaser of American meat products. Of the \$75,000,000 worth of bacon, ham, fresh beef and canned beef exported in 1905, the United Kingdom took \$66,000,000 worth, or practically 90 per cent. of the total exports of meats, valued at \$100,000,000, it took \$80,000,000 worth, while of the \$40,000,000 worth of cattle exported in the same year, it took \$36,750,000 worth.

Also exports go chiefly to the butter-making countries, the largest part to the Netherlands, which took \$6,500,000 worth out of the \$11,500,000 worth exported in 1905.

CHINA GIVES INDEMNITY.

Pays Heavily for Killing of French Jesuit Missionaries.

Paris, June 21.—The foreign office has been advised that China yesterday signed a treaty according to complete satisfaction to France for the massacre of six French Jesuit missionaries at Nanchang, Kiangsi Province, in February last. China pays \$200,000 indemnity to the missions and \$400,000 indemnity to the deceased missionaries' families, builds a memorial hospital and publishes the ring-leaders of the rioting. In addition, posthumous honors, which the people of Nanchang demanded, will not be granted to the Chinese magistrate whose suicide was the signal for the outbreak.

WHAT HAS TORONTO DONE TO SECURE INDUSTRIES?

Francis A. Hilton Writes Open Letter to City Council Urging Active Policy.

Francis A. Hilton of Buffalo, whose name was suggested by Controller Jones in connection with the proposed appointment of a commissioner of industries, has written the following open letter to the city council, pointing out where Toronto has failed to take advantage of the opportunity of locating some of the new manufacturing concerns which have recently been established in Canada.

Toronto, the occupying a splendid natural situation with her beautiful crescent harbor on the lakes, and having excellent shipping advantages and convenient facilities for wharves and docks, is in a peculiar industrial position in relation to her competing sister cities, Hamilton and Montreal; each of which has been able to secure the location of plants and factories, that might otherwise have been established in Toronto, by reason only of their better equipment with the weapons of modern commercial warfare. I can best emphasize this statement, by the following facts and questions:

(1) According to the Canadian Manufacturer, \$100,000,000 of United States capital has been invested in Canada in the last five years. How much of that immense amount of money has been invested in Toronto? Why has not Toronto received at least her share of this great manufacturing boom?

(2) In the next five years, impelled by the wonderful expansion of Dominion trade, the population of the great west, the growing demands of a prosperous and multiplying people and the opportunities afforded for more favorable foreign trade, \$200,000,000 more will be invested in United States manufacturing in Canada. This is a conservative estimate, not a wild hazard. How much of this greater sum will be invested in Toronto? Is it at all probable that a policy of comparative or seeming indifference that conveys to a stranger, especially if he be a hustling American, the impression that he and his plant and his employees and his money are not wanted, or that Toronto, as has been said by a rival, is merely a town of homes for retired farmers, will prevail against the warm invitations of Hamilton, presented and supported by the personal energy, tact, courtesy and skill of its special industrial representative, or against the more artful arguments of the Montreal jobber and the carefully prepared representations of the Montreal commissioner for the manufacturing association in the east is demanding the appointment of an industrial commissioner in that city.

(3) According to the Dominion statistician, the centre of manufacturing is now at Smith's Falls. Is there any reason why an energetic, impelling, liberal policy by Toronto should not result in enabling her citizens to proudly boast that the manufacturing centre had changed and was, where it rightfully belongs, in the banner city of Canada?

(4) I know of a hundred leading manufacturers in Ohio, Pennsylvania, New York, and New England, who have not yet built Canadian plants, but who are considering the advisability of doing so, many of whom are even now being interviewed by and reading reports from those whose duty and interest require them to advocate Hamilton or Montreal as the best location. In association with the industrial agent at Niagara Falls, N. Y., Mr. E. H. Taylor, whose methods have been singularly successful, I have personally conversed with many of these men on the subject and know whereof I write. On Wednesday of this week the proprietor of a large manufacturing concern in Ohio, who has been rather influenced in favor of Montreal by the easily-exploited cheaper labor argument, was in Toronto. Who saw him? Who showed him the advantages of your city? How many of these hundred or more manufacturers who will have Canadian plants in the next year or two years, will be induced to locate in Toronto under its present policy? A few will undoubtedly investigate thoroughly for themselves and make a wise selection, but the others will be influenced, as men are influenced the world over, by the best argument from the best man presented at the best time and in the best way.

(5) What efforts were made by Toronto to secure the following United States branch plants? The Carter Lead Company of Omaha, located at Montreal; the Steel Car Works, located at Montreal; the Singer Manufacturing Company, located at Three Rivers; the tin plant located at Morrisburg, although the sheet steel required in the manufacture of tin is obtained at Collingwood and the Sault Ste. Marie, Ontario than Morrisburg. A chief official of this tin company has stated he visited Toronto before locating at Morrisburg; what efforts were made to keep him in Toronto? Did any official know he was there? He probably formed an opinion of the manufacturing advantages of Toronto from the ride on the belt line.

Why Not? Why are the International Harvester Works and the Otis Elevator Company at Hamilton and not Toronto? Why are the Wire Works at Hamilton and not at Toronto? The value of a wire plant is not to be despised. The works at Worcester, Mass., have gathered together a large group of plants making the varied wire utensils for which there is an ever-increasing demand. I might go on indefinitely, but enough has been said to show that Toronto cannot afford to despise the policy of her rivals in the fight for location.

Urban municipalities are like large business houses; they cannot stand still and ignore the modern and more strenuous methods of younger and less wealthy competitors. If they do, stagnation and retrogression will be inevitable.

Must Wake Up. Is it not manifest then, in order to advance in the van of her country's progress, to retain her position as the leading city of the Dominion, and to secure a full and overflowing measure of the general prosperity that Canada is enjoying, that it is the duty of Toronto's representatives in council to see to it that her industrial opportunities are not neglected, that she is not outwitted by her rivals, and that an active aggressive policy be inaugurated in conjunction with the board of trade, who are willing and anxious to heartily co-operate, for her more rapid industrial development and advancement.

stretch the horses could be seen but dimly. There was a delay, owing to the fact that the host to the bad behavior of Proper and Colonial Girl.

Cederstrom and Astronomer rushed away into the lead, with Dandelion third, Miller placing the horse nicely. Around the paddock turn and into the back stretch, Cederstrom, at 40 to 1, opened up a gap of three lengths on the field.

Cederstrom had replaced Astronomer in second position, the latter falling back to third. Dandelion, at 6 to 1, was a compact bunch of four or seven horses, with Go-Between in their midst.

ITALIANS ON A RAMPAGE ARMED GANG TERRORIZES

Trouble Over Wages Leads 150 on to Disorderly Strike—Soon Quelled.

Ferry Sound, June 21.—On Monday last a disturbance arose amongst a party of Italian workmen located thirty miles north and employed by Ross, Harris & Co. contractors for the C.P.R.

Without any parleying they went right into the camp. After calling upon the men to give up their guns they made a search thru all the tents for firearms.

On promises to return to work, all who were being adjusted, the constables returned, bringing a prisoner, guns and ammunition.

TORONTO RACE PATRONS AT THE HAMILTON MEET

Objection to Railway Excursion Rate Noted—Tricks and Form Reversals.

The sum of \$1750 is just about what Toronto racegoers paid to the Grand Trunk for the privilege of riding to the recent Hamilton races and back. The Toronto contingent averaged 400 the nine week days and 850 on Saturdays, the fare being \$1.00 and \$1.50.

Whether the Toronto kickers intend to supply themselves with a new plant, rent the Woodbine or run an outfit meeting at Dufferin Park has not been ascertained, but unless they can attend the little meet at Hamilton for less than Saratoga prices it's stay at home for them, they say.

While the Hamilton meeting was well regulated in some respects, it was scarcely all that could be desired. There were glaring cases of in-and-out running with no action taken from the stand. It has been charged that the ring was syndicated, the prices might have been worse.

It is said that the Hamilton Jockey Club realized \$15,000 straight for the betting privileges from a Chicago firm that probably made a handsome profit, and that none of the books is said to have quit a loser the railroad fare is a small item indeed in Toronto's total contribution to betting operations never begin in the betting ring until the arrival of the Toronto train.

John Ryan of the Montreal Racing Association writes: I wish you would contradict that story which the syndicate sent out about work on the Montreal track having been stopped. No work was ever pushed ahead more rapidly than Montreal, and your correspondent there can verify the statement that the race was held and that teams are working as hard as they can.

The referee's lot is not a happy one, said a well-known lacrosse official last night. "Any one in strong command has to be a bit of a disciplinarian, and the referee has to be a bit of a disciplinarian, and the referee has to be a bit of a disciplinarian."

WIFE SAYS HE'S BIGAMIST. Woodstock Man is Arrested in a Detroit Hospital.

Detroit, June 21.—George A. McMichael, 40 years old, wanted in Woodstock, Ont., for bigamy, was arrested at Grace Hospital to-day and taken to Woodstock.

Mrs. McMichael in Woodstock declares her husband was married to her in Detroit several months ago, and has been living here ever since.

At the hospital where the arrest was made, the authorities say that McMichael was treated for an abscess of the brain. When examined the physician could find nothing the matter with him, but he had been there ever since.

SEPARATE SCHOOL GAMES NEW RECORDS MADE

And Old Records Broken—Rain Interferes With Completion of Long Program.

The annual games of the De la Salle Institute were run off yesterday, with the exception of four events, which were hindered on account of the rainstorm, which blew up suddenly about 5 o'clock. The program will be concluded at the school to-day.

The field officers are to be congratulated on the splendid organization, and rapidly with which the long program was put thru, and the institute, on possessing so many promising young athletes. In addition to the valuable prizes for each separate event three special trophies were offered as follows: Individual championship trophy, which was won by J. H. Heenan, who was appointed General Manager before the last annual meeting of Shareholders, was confirmed by the Directors in the position of General Manager.

The various branches of the Bank have been inspected. The Board have decided upon the Policy of paying quarterly dividends, beginning with the current financial year. All of which is respectfully submitted.

THE ANNUAL REPORT. The President submitted the following report of the Directors: The Directors beg to present to the Shareholders the Annual Statement of the Bank's business as at 31st May last.

It will be observed that the earnings have improved somewhat over the previous year, due to the better trade conditions and the better opportunities offering for the employment of capital. The Directors have thus been able again to add \$200,000 to the Ret. Account, and, in addition, have been enabled to write \$100,000 off Bank Premises, and to make the usual contribution to the Officers' Pension Fund.

The Statement of the result of the business of the Bank for the year shows: The net profits for the year, after payment of charges, rebate on discounts, interest on deposits, and making full provision for bad and doubtful debts, have amounted to \$740,894.99. E. F. HEDDEN, General Manager.

THE DISCUSSION. The President stated that he would be pleased to answer any question any shareholder might desire to ask, and in the meantime he moved, seconded by Mr. Jonathan Hodgson, the vice-president: "That the report of the Directors as submitted be, and the same is hereby adopted and ordered to be printed for distribution among the shareholders."

Mr. John Morrison enquired if the General Manager had no remarks to make, and the latter replied that he hoped the statement which had just been read would speak for itself. There was really nothing to say to business men like the Shareholders present, who, no doubt, studied the general situation for themselves, as it applied to their own important interests.

Mr. John Morrison referred to the financial statement and spoke of the excellent position which the Bank occupied, after which Mr. D. A. Lewis asked if the large increase in the deposits was general throughout the year, or had some large amounts been paid in which were likely to be drawn out?

The President—There were one or two large amounts paid in, but the increase has been pretty general all over. There may be withdrawals—it is impossible to say—but, I think, the tendency is to increase all the time. The motion for the adoption of the report was then carried unanimously.

The President—Now, gentlemen, I have rather a delicate matter to bring before you, from the fact that it is for the benefit of the Directors. We have hitherto had \$100,000 annually for our remuneration, but the Bank has grown very largely, as you know, and work has increased also, so we ask you to increase our remuneration from \$100,000 to \$150,000, for the President and the Board generally.

It was moved by Mr. John Morrison: "That By-law No. 6 be amended by striking out the word 'ten,' and replacing the same by inserting the word 'fifteen.'"

This was seconded by Mr. F. O. Lewis, and was unanimously concurred in, after which it was moved by the President: "That Messrs. John Morrison and F. Orr Lewis be appointed scrutineers for the election of Directors, about to take place; that they proceed to take the votes immediately; that the ballot shall close at 3 o'clock p.m., but if an interval of ten minutes elapse without a vote being tendered, the ballot shall thereupon be closed immediately."

This was adopted. A vote of thanks was tendered the President for his conduct of the business of the meeting, and shortly afterwards the scrutineers reported that the following gentlemen had been elected as Directors: SIR MONTAGU ALLAN, MR. JONATHAN HODGSON, MR. J. P. DAWES, MR. THOMAS LANG, MR. C. R. HOSMER, MR. F. SMITH, MR. HUGH A. ALLAN, MR. M. H. BARNET, MR. ALEX. BARNET.

The meeting then adjourned. The new Board of Directors met in the afternoon, and Sir H. Montagu Allan was re-elected President, and Mr. Jonathan Hodgson, Vice-President.

Nothing Doing. Ottawa, June 21.—(Special)—In the Senate to-day, in answer to Senator Laugel, Hon. Mr. Scott said that British Ambassador Durand at Washington, would make no arrangements for the settlement of fishery and other disputes as between Canada and the United States without the consent of Canada. Nothing had been done on that trip thru the Thousand Islands.

THE MERCHANTS' BANK OF CANADA

The forty-second annual meeting of the Shareholders of the Merchants Bank of Canada was held in the Board Room of that institution on Wednesday last, when there were present: Sir H. Montagu Allan, Messrs Jonathan Hodgson, J. P. Dawes, C. R. Hosmer, A. Lang, B. Barnett (Renfrew), E. F. Hedden, John Morrison, Michael Burke, Orr Lewis, D. A. Lewis, Allan Brown, George Smith, Edward Fluke (Joliette).

The President submitted the following report of the Directors: The Directors beg to present to the Shareholders the Annual Statement of the Bank's business as at 31st May last.

It will be observed that the earnings have improved somewhat over the previous year, due to the better trade conditions and the better opportunities offering for the employment of capital. E. F. HEDDEN, General Manager.

THE DISCUSSION. The President stated that he would be pleased to answer any question any shareholder might desire to ask, and in the meantime he moved, seconded by Mr. Jonathan Hodgson, the vice-president: "That the report of the Directors as submitted be, and the same is hereby adopted and ordered to be printed for distribution among the shareholders."

Mr. John Morrison enquired if the General Manager had no remarks to make, and the latter replied that he hoped the statement which had just been read would speak for itself. There was really nothing to say to business men like the Shareholders present, who, no doubt, studied the general situation for themselves, as it applied to their own important interests.

Mr. John Morrison referred to the financial statement and spoke of the excellent position which the Bank occupied, after which Mr. D. A. Lewis asked if the large increase in the deposits was general throughout the year, or had some large amounts been paid in which were likely to be drawn out?

The President—There were one or two large amounts paid in, but the increase has been pretty general all over. There may be withdrawals—it is impossible to say—but, I think, the tendency is to increase all the time. The motion for the adoption of the report was then carried unanimously.

The President—Now, gentlemen, I have rather a delicate matter to bring before you, from the fact that it is for the benefit of the Directors. We have hitherto had \$100,000 annually for our remuneration, but the Bank has grown very largely, as you know, and work has increased also, so we ask you to increase our remuneration from \$100,000 to \$150,000, for the President and the Board generally.

It was moved by Mr. John Morrison: "That By-law No. 6 be amended by striking out the word 'ten,' and replacing the same by inserting the word 'fifteen.'"

This was seconded by Mr. F. O. Lewis, and was unanimously concurred in, after which it was moved by the President: "That Messrs. John Morrison and F. Orr Lewis be appointed scrutineers for the election of Directors, about to take place; that they proceed to take the votes immediately; that the ballot shall close at 3 o'clock p.m., but if an interval of ten minutes elapse without a vote being tendered, the ballot shall thereupon be closed immediately."

This was adopted. A vote of thanks was tendered the President for his conduct of the business of the meeting, and shortly afterwards the scrutineers reported that the following gentlemen had been elected as Directors: SIR MONTAGU ALLAN, MR. JONATHAN HODGSON, MR. J. P. DAWES, MR. THOMAS LANG, MR. C. R. HOSMER, MR. F. SMITH, MR. HUGH A. ALLAN, MR. M. H. BARNET, MR. ALEX. BARNET.

The meeting then adjourned. The new Board of Directors met in the afternoon, and Sir H. Montagu Allan was re-elected President, and Mr. Jonathan Hodgson, Vice-President.

Nothing Doing. Ottawa, June 21.—(Special)—In the Senate to-day, in answer to Senator Laugel, Hon. Mr. Scott said that British Ambassador Durand at Washington, would make no arrangements for the settlement of fishery and other disputes as between Canada and the United States without the consent of Canada. Nothing had been done on that trip thru the Thousand Islands.

No Guesswork in This Treatment

There is always more or less doubt about the result of internal treatment as a cure for diseases of the skin. This is required for the medicine to take effect, and no matter how beneficial it may prove, local treatment is usually necessary in order to effect a thorough cure.

There is no guesswork about Dr. Chase's Ointment. It is applied directly to the diseased parts and you can see exactly what it does. By its cleansing, soothing, healing action it always inflammation and irritation, seals the raw, sore flesh and leaves the skin soft and natural. Most people are astonished with the remarkable change this ointment brings about in a few hours.

As a cure for eczema, salt rheum and the many forms of itching skin disease which torture the human kind, Dr. Chase's Ointment is prompt and thorough. It is of inestimable value in the home, where it can be used in a score of ways to relieve suffering and beautify the skin by curing unsightly pimples and sores. 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

"CROWN" UNDER SCRUTINY A DISCREPANCY OF \$9000

Difference Between Returns to Government and to Commission - Meagre Information.

For several weeks after hearing some of the leading lights on insurance, managers of Toronto companies, the royal commission struck a snag yesterday when Chas. H. Hughes, general manager of the Crown Life Company, took the stand. Mr. Hughes all through his evidence, which concluded the examination of the Crown Life, indicated that he knew little about the Crown Life and other methods of doing business. He could account for nothing. His assistant, Secretary Marks, knew very little more.

During the course of the examination Mr. Tilley asked Mr. Hughes in reference to the "loss and gain" statement, which he had handed in to the commission, and pointed out that it did not agree with the government return. The return showed a loss of \$22,000, while Mr. Hughes' statement showed only a loss of \$9,000.

"Where did the rest go?" asked Mr. Tilley. "I don't know," said the manager of the Crown Life. The counsel for the Dominion government did not seem the least perturbed by the alarming ignorance of his witness; in fact, he seemed to skim over the investigation in order to be finished by the, as Mr. Hughes wanted to go away to-day.

**SHIRTS LONGER, COTTON UP**

**Length of the Garment an Issue in the Kansas Campaign.**

Topeka, June 21.—Altho both the Republican and Democratic state committees have frowned upon it, the length of the shirt is to be an issue in the Kansas campaign this year. A farm paper is leading a movement to organize farmers into unions. The argument advanced is that if every shirt were made one inch longer the added cloth would consume the entire surplus of cotton. Farmers are urged to organize and stand for this demand.

Ryan and Cramer, chairmen, respectively, of the Democratic and Republican state committees, declared to-day that if this remedy was reversed to equalize matters in case of extreme shortage in the cotton crop it might become very embarrassing.

**PROVINCE WILL GO ON.**

**Quebec to Sell Water Powers Despite Federal Claims.**

Quebec, June 21.—Hon. Adelard Turgeon is authority for the statement that the sale of the water powers ordered by the Dominion will go right ahead.

He claims that the courts have already decided that the province controls the water power rights, and he will disregard Hon. Charles Hyman's note and go ahead with the sales.

**MONUMENT FOR MONTREAL OF STRATHCONA HORSEMAN**

(Canadian Associated Press Cable)

London, June 21.—The following French-Canadian artists are exhibiting at the Paris salon: Suzanne, Clarence Gagnier, Miss Pilmoull, Alfred Laliberté, Henri Hebert; the two latter have sculpture exhibits.

H. Ingram, in an article in "Canada," tells of a visit to the Paris studio of George Hill, who is at present engaged upon Lord Strathcona and a soldiers' monument to be placed in Dominion Square, Montreal. The monument shows a Strathcona scout just dismounted examining the trail of the Boers; while doing so a shell from a hidden battery comes his way. The statue shows the horse rearing in fright, and the young Canadian quickly checking it, at the same time gazing steadily in the direction whence the shot came.

**BIG BUILDINGS IN WINNIPEG FOR OSLER & HAMMOND**

Winnipeg, June 21.—The announcement is made that Osler and Hammond and Nanton will erect a \$200,000 corner building at Winnipeg's busiest office, where Fortage-avenue and Main-street intersect. It will be five stories high, and of stone.

The opposite corner, which is occupied by the Canada Life Assurance Company, has been secured by outside capitalists for a ten-story skyscraper.

**Postal Reforms.**

Beginning on New Year's Day, 1907, letters weighing an ounce will be carried through the British Empire for two cents, which will be double the weight now allowed, half an ounce. This increase in weight also applies to all foreign countries, the rate for which is three cents.

Another postal reform which was adopted on motion of the British delegates is the introduction of a reply coupon, a little postal order which is exchangeable in any country for a union postage stamp.

**Conservatives Censure Government**

Brookville, June 21.—At the meeting of the County Council of Leeds and Grenville last night the committee on education in a report which was adopted strongly condemned the action of the Whitney government for abolishing model schools.

A majority of the council are Conservatives.

**The Paths of Glory.**

Quebec, June 21.—The Plains of Abraham, acquired by the Quebec municipal government some three years ago, are in a deplorable condition.

The city promised to convert the old historic grounds into a public park, but with the exception of spending a few hundred dollars and depositing heaps of stone, nothing else was done, and now the place is a disgrace.

**WHOLE ARMY MUTINIOUS IF SIGNS SPEAK TRULY**

Various Exhibitions of General Discontent and Sympathy With Revolutionary Movement.

St. Petersburg, June 21.—A serious mutiny, which for a time threatened to place the fortress of Sevastopol in possession of the mutineers, was suppressed yesterday, according to a special despatch to The Novoe Vremya. The mutiny was started by a battalion of fortress artillery, which demanded to be taken to the front. The men were promptly disarmed. Two other battalions then mutinied and took possession of the guns in the north shore batteries, but on the appearance of several loyal regiments of infantry the mutineers abandoned the idea of fighting and returned to their barracks.

General Nepleuf, commander of the fortress of Sevastopol, is represented to be greatly concerned about the behavior of the soldiers as well as the soldiers of the fortress.

That the morale of the whole army is being shaken by the revolutionary propaganda is proved by the continual extension of the rebellious outbreaks among the troops. It appears to be confirmed that the Dolzoff Regiments, which have been sent to the front, are being disarmed and burned the army. Another report says the soldiers deliberately attacked the officers' club at Sevastopol, and wounding two others. A panic prevails in the town.

Four companies of the Viborg Regiment, stationed in St. Petersburg, have presented demands which were acceded to and they have now returned to duty. The soldiers of the notorious Sevastopol Battalion, whose names became synonymous with repression owing to the deeds committed by these troops at Moscow, have decided that they cannot any longer endure the public opprobrium and must wipe out the stain of the regiment.

The tenderness with which the military authorities are treating these and recurring exhibitions of the mutinous spirits among the soldiers, furnishes evidence that they fear the entire army is infected.

**Terror at Sebastopol.**

Moscow, June 21.—The Videmost to-day printed a special despatch from Sevastopol describing the mutiny there, according to which a company of the fortress artillery, which had been sent to the front, refused to do so and later were disarmed by the 2nd Regiment. Yesterday a battalion of the same artillery, acting in sympathy with their comrades, took possession of the north side batteries, broke open the magazines, loaded the guns and trained them upon the city. Last night the 2nd Regiment, reinforced by a regiment of engineers, surrounded the mutineers, and after a day without a fight, the population of Sebastopol was terror-stricken, fearing that the mutineers would open fire on the city.

**FERTILIZERS TOO CLOSE.**

Inspector Says Should Be Apart From Packing Plants.

The reports of the provincial factory inspectors and the published statements of the department of agriculture. One of the inspectors reports on visits made to packing plants, and makes the recommendation that all plants be separated from the packing houses.

In some of the packing houses he said the fumes being pumped into the workmen were manufacturing sausage, bologna, meat puddings and canned meats. The fumes were awful, he said, as fertilizer is made from the final waste product of the slaughtered animals.

**To Boom British Trade.**

Ottawa, June 21.—A despatch received from Lord Elgin, as secretary of state for the colonies, states that Richard Greig of the Middleborough chamber of commerce is being sent to Canada, by the imperial board of trade to select suitable persons in the chief Canadian business centres to act as local correspondents of the British board of trade and to report from time to time such opportunities for British trade as may occur. He is due to arrive in Canada on July 3.

**Charter is Approved.**

Albany, N. Y., June 21.—State Superintendent of Insurance Kelsey to-day approved the new Equitable charter embodying the mutualization plan after Attorney-General Mayer had examined the papers and reported them all right. In to-day's mail Superintendent Kelsey received a protest against the charter from Franklin B. Lord, declaring that it does not protect the interests of the stockholders of the company.

UP MONTREAL RIVER BY CANOE. NEW COUNTRY IS OPENING UP

Some Prospectors Who Have Been Fortunate in Locating Ore—Perils of Shooting Rapids—Sensations of the Week at Cobalt Include Several Strikes and the First Circus to Visit the North.

Latchford, June 21.—(Staff Special).—In a country famous for its waterways one might not expect anything novel in a trip by canoe. In going up the Montreal River, however, there is not an uninteresting moment and one continually finds new points of interest.

There are as yet no steamboats on the river and it is not likely there ever will be at this point, but there are several gasoline launches and it was on one of the boats of the Latchford portage, owned by Messrs. Charles Argue and Fred McLaughlin, that we took our first trip on these famous waterways.

The boats on the Latchford Line and of the Montreal River Navigation Co. (Capt. Ed Clark) meet at T. & N. O. and carry freight up the river as well as passengers. This may be seen here widens out to from half to three-quarters of a mile and for the greater part of the six miles to Port Rapids is called Bay Lake and at the extreme end of the lake there is an arm or extension which is called Portage Bay. On one side is the famous Township of Coleman and on the other the Temiskaming reserve.

Prospectors and explorers are going on up the river from Port Rapids to the Red Pine Point, Mattawa, Lake Umbagog, Indian Lake, Mountain Lake and Rapids, Elk and Indian Lakes, Indian Chute, Flat Rapids and on to Port Maitland and further north.

It is known that in several places there exists in Coleman township, found as far as the north end of the Portage Bay, this is as far as the first boat goes. A portage is made here and above the portage the Montreal River Co. has a second boat which enables tourists to go on up the river for several miles.

It is the reluctance of the canoeist to leave the water and make the portage that causes so many of the drowning accidents. He attempts to go too far before landing, or else attempts to pole the rapids. This year many are going up who are absolutely inexperienced, and it is frequently these foolhardy ones who attempt the most dangerous rapids, and it is a wonder that many more have not been drowned than already have.

The scenery along this part of the river is extremely pretty. On both sides the river are the high rocky banks, the occasionally some sloping banks. Prospectors' tents almost line the banks. Occasionally a cluster of them is found and at one place a bunch of men are using some unoccupied space left from an old lumber camp. They work out in the woods at their different claims during the day and return at night and enjoy each other's company, instead of leading the lonely life of the isolated prospector.

Two Toronto boys occupy the first camp about a mile north of Latchford. While Evans and Red Dicks. It is said that their claim is panning out all right. At Fiddler's Point there is a copper proposition and Messrs. Middle and Giroux are working on it. They show a fine showing. At the portage into Lake Attama-Nipissing is the fire-rangers' camp. It is one of their duties to ask to see the license and the name of the fire-ranger who carries. Above the fire-rangers' place is the Gray-Kay property, where, despite the force of the files and mosquitoes, one of the partners with a gang of men is hard at work sinking a shaft.

Steady work is going on at all the properties. Good cobalt with silver values has been found but it is the consensus of opinion that development will have to take place to a much greater depth. Mr. Coleman before striking rich returns are got. All, however, are confident that the ultimate results here will be as satisfactory as anywhere else in the camp.

Copper-Gold Vein. In Portage Bay many good finds are said to have been made. Up on the Mattawabika River, one-quarter of a mile above the falls, Klock of Orillia has a quartz vein, said to be eleven inches wide with a good copper-gold showing. He has eight men at work. Dr. Dakin of Galt also has a good copper prospect, 25 miles up the Montreal River. Three veins are reported to have been located and a large body of copper-silver-nickel ore.

While none of these propositions have attained the dignity of mines, they are promising prospects, and their owners already feel amply rewarded for their efforts and of all sorts, surely none is harder than the prospector's. Fly Time. At this time of the year the life in the bush is almost unbearable. Men continually come in nearly crazed with the bites of the mosquitoes and sand-flies. The attacks of the latter can only be justly described as devilish. No matter how carefully one dresses, these insects will get in and they hang around in great masses. It is impossible to use more than one hand, either at work or at meal time. The other is invariably engaged in fighting flies. A man came into Latchford hospital the other day, nearly blind from the effects of fly-bites. For the next two weeks there will be few men in the bush, but after the second week in July the old-timers say we will be comparatively rid of all the fly annoyances.

The new find by the Glen Lake Mining Company, who have made a good silver discovery. R. A. Bailey is in charge of the work and has not been very discursive in his revelations. The argentite find is a very valuable one, and it is said that this is the first large argentite which has been discovered. Argentite practically carries 90 per cent. of silver, as apply put in the circulars issued by Norton & Co. of Cobalt, who have prepared and are sending to their customers one of the best designed descriptive pamphlets of Cobalt camp that have issued.

Messrs. Ross and Reid of Ottawa have returned from a lengthy trip up north, and are very enthusiastic about the agricultural possibilities of the country north of the Height of Land. On June 10, at the Hudson Bay post at Abitibi Mr. Ross saw large and fragrant pansies and violets growing, and brought some pressed samples with him. They were told by the Hudson Bay Company that the plants which showed a desire to reach the Abitibi seized men last spring.

Viastudies of Rating. From the present management to McDougall Club there are 42 portages, and the distance is 60 miles. Early in the spring a long prospector arrived at the club. He was a man nearly 70, and had walked in all the way, carrying his pack of 50 pounds and had fished all the breaks in the right of way cut out by the railway. He had no canoe nor boat available, so the old man built a raft. He had no spikes nor nails, but he used an auger and joined the timbers with glue. He fitted his raft with paddles and put a small stove on it, also his supplies, and started forth on the Black River, which runs north and joins the Abitibi. He went on down the Abitibi River to Iroquois Falls (there are three distinct falls, one 25 feet) made a portage of one-quarter of a mile and carried the raft the length of this portage, bit by bit and piece by piece, put it together again and continued on. He ran the Buck Deer Rapids, which are three-quarters of a mile long and very rapid and very dangerous, and how far below the rapids he went no man knows. He was gone two days, however, and brought back good samples and a birch-bark canoe. His reticence almost amounted to moroseness, and he had evidently been there before. Who the mysterious stranger was and what he brought out with him is still puzzling. He is in the club, but he is not in the club, with whom he stayed overnight.

Dr. Barlow of Ottawa has arrived in town. He goes over to the Quebec side where he has a geological survey, extending from the old fort at the Narrows to the River Quince. F.B.M.

Cobalt Syndicates Make Money. Besides many mining companies operating in the Cobalt district there are also numerous syndicates, in excess of the total capital subscribed, and of the companies. These syndicates are operated easily and at a minimum expense, being free from the many expenses peculiar to such companies and unhampered by red-tape. They usually consist of five or six members who put up a few hundred or few thousand dollars each as the case may be, such capital being used in actual development work and possibly in sending out prospecting parties. Such syndicates have been very active in the Cobalt district, some of them achieving wonderful results when their usually small capital is taken into consideration. For instance, the Soo Mining Syndicate, formed less than four months ago, has already declared dividends in excess of the total capital subscribed, and now hold a number of properties which are being rapidly developed. Other such syndicates started in quite a small way now possess properties ranking with the best in the field. These comparatively unknown but active syndicates are doing good work in developing the northern silver land, and many Toronto men are investing through them with good results.

Down the Rapids. Mrs. Austin Salmon of Latchford had a thrilling experience last week. She went down the rapids at Latchford, but it was against her will that she made the trip. That she made it successfully was due to good luck that was almost miraculous. Mrs. Salmon is the wife of the proprietor of the sawmill on the river bank opposite Latchford, and they frequently paddle across to the town. She frequently makes, or has been in the habit of making, the trip in the past. It is not likely she will in the future. On the day in question, when about half way across, she found the current was too swift, and she could not make it but fought desperately, keeping the boat nose towards the bank until about under the big bridge, when the canoe turned straight for the rapids. Fortunately she got caught in the current and not in one of the many eddies and she shot thru in safety. Had the boat struck one of the many huge boulders or rocks, she would certainly have been drowned. When she got safely thru, like many other good women, her nerve, which had never left her during the perilous ride, gave out and she had to be brought to shore by some of the horrified spectators who had expected to see her no more.

ment of the worker. Ralph Smith moved another amendment to provide that Sunday labor under two hours should not entitle the worker to a full 24-hour rest day.

**Sunday Labor.** In the afternoon Mr. Bourassa offered an amendment to section four. He proposed not to give 24 hours holiday for any Sunday labor, but only to guarantee the employe the same number of idle hours during the week as were given up to labor on the Sunday. To this a proviso was added on motion of Mr. Smith (Nassau) treating as negligible any work on Sunday amounting to less than two hours.

Mr. Pringle (Cornwall and Stormont) offered a substitute. He allowed 24 consecutive hours of rest, but they might commence or terminate on Sunday. The employe was to have 24 consecutive hours of rest during the seven days.

Mr. Foster (North Toronto) denounced the section as reported with considerable vigor. It was a denial of the right to every laboring man in Canada. It stigmatized him as being unfit to make a contract. Many men with families depend on him to make a little extra money by doing extra work on Sunday.

Mr. Aylesworth made a singular defence of the amendment. He said that the employer who required his employe to work on Sunday was compelled to give him a holiday during the week. But also the employer "in the year of the holiday, the employe was not compelled to 'take it.' There was no reason why any man could not work for another seven days in the year if he wished. It was up to the employe to say whether he wished to avail himself or not of the holiday that the law awarded him. Section four will stand for the present.

Section five, forbidding any parks to be open to the public where an admission fee is charged, and forbidding any game or contest for a prize or reward, aroused a double-barrelled opposition.

**The Park Question.** Mr. Rivet (Montreal) spoke of Bohmer Park. It was a beautiful and pleasant resort that contributed to the happiness of the people. He believed his effect was good. Every one in Montreal would oppose any interference with harmless places of amusement. The local authorities were best able to judge. He, therefore, moved an amendment permitting parks to be open "where authorized by provincial or municipal authority."

Mr. Taylor (Leeds) criticized the section as not strict enough. It only forbade games and sports, and the same were played for a prize or reward. He had been shocked by the statements made yesterday by Sir Wilfrid Laurier. The Premier had said that this law would not prevent baseball, cricket and golf. He moved an amendment forbidding any person to engage in any game on Sunday or to witness the same.

Mr. Verville, the labor representative from Montreal, hoped that poor people would be allowed to breathe on Sunday. He protested against closing the parks.

Mr. Gallier (Kootenay) favored the amendment permitting the people to visit the parks on Sunday.

Mr. Kennedy (New Westminster) called down Armand Lavergne. He read from a pastoral by Archbishop Bruchesi condemning the growing desecration of Sunday.

**Sir Wilfrid's Dilemma.** Sir Wilfrid Laurier refused both amendments. He could not yield everything demanded by the Protestants of Ontario or by the Catholics of Quebec. Last year he had been accused of being ridden by Sbarretti; this year he was accused of being ridden by Shearer.

Mr. Bourassa made an impassioned reply. Sir Wilfrid Laurier was destroying the great work of his life. The keystone of our national fabric is toleration, and Sir Wilfrid Laurier must respect the others. He favored the law, but each province should be at liberty to administer, regulate or suspend it. He said that religious views and social customs of the people.

Mr. Martin (Wellington) threatened to introduce an amendment prohibiting golf, but yielded to the general laughter on both sides of the house. The amendments were voted down, and the section passed as reported by the committee.

Mr. Conmee (Rainy River) opposed section six forbidding Sunday excursions.

Mr. Pringle said the bill as agreed upon by the committee only forbade "organized excursions." Why had this word been dropped in re-introducing the bill? He insisted that Mr. Shearer had no objection to the amendment. Mr. Aylesworth refused to accept it.

W. M. Douglas, who with C. H. Eltche, K. C., is appearing for some of the brokers, said last night that he was not sure yet when they were charged with. They were to appear Monday morning. To him it seemed that there was no difference between the offices conducted by clients and those of Pellatt & Co., or Osler & Hammond, except that it was on a smaller scale. His clients all had wires, private and direct, either to New York or Cincinnati. He considered that the New York stock exchange was nothing more or less than a gambling place where stocks were bought and sold on margin. He was not sure of the code on these lines, but would announce the details later. T. C. Robinette, K. C., has been retained by the "handbooks."

**History of "Bucket Shops."** During a prosperous speculative period many years ago the majority of brokers on the Chicago Board of Trade agreed not to make contracts for small amounts of grain, except under restrictive conditions. Outside brokers then entered into grain speculation and made speculative contracts in small

amounts of grain. The board of trade members derisively termed such brokers as dealing in grain by the bucketful; hence the term "bucket shop," meaning primarily speculative transactions in very small amounts. This business, supposedly, was the gathering of small orders and the entering into contracts by the broker as himself the principal, and later placing his aggregate orders upon the board of trade, and to his best judgment. Thus arose the making of these aggregating units of speculation into a system of speculative wager, under which the alleged broker "buckets" or absorbs the orders of his customers and becomes himself the antagonist of the customer in as much as should the customer be on the right side of the market the broker would have to settle out of his own pocket. It is easily seen, therefore, that the customer is at the mercy of the broker's honesty and ability to pay, and that his transaction is not a matter in affecting the advance or decline in the commodity he has contracted for.

Marginal speculators in the market part novices, and their transactions usually result in loss, therefore a "broker" with capital commensurate with the business he received could afford to pay the profits to the small operator, provided he could gather in the losses, plus commissions. Seventy-five per cent of the speculative transactions are on the purchase side, and when a big break in prices comes the brokerage system is especially exposed. The bucket shop flourishes; but when the turn comes and the speculator follows the advancing values with success the responsibility of the "bucket shop" is often disproven.

**Hard to Draw the Line.** The bucket shops have all the faults of speculation, with none of its benefits. But proof that a brokerage office is a "bucket shop" is difficult. There is evidence of "bucketing" is seldom obtained. The "bucket shop" can deliver the stocks or grain on demand, just as quickly as a member of the exchange, and it is true that many deliveries are made. Just yesterday a broker, whose books were confiscated by the police, had in his possession a certificate for fifty shares of railroad stock which he had received for a client.

"This idea of associating my name with known gamblers," said he, "is detrimental to my business, which is legal and properly conducted, and I am not a member of any exchange." "Are you a 'bucket shop' keeper?" was asked. "I do not know what a 'bucket shop' is," was the reply.

"Here is a sample of the business transacted by this man," said R. Brunskill, as he held out a script certificate for a hundred shares of stock, which he had just received. "I welcome an investigation in that another, 'but hope it will extend to the 'regular houses,' so-called, as they never miss an opportunity to meet or profit by way of innuendo on the part of the broker who handles small lots, often referring to us as 'bucket shops,' whatever they are."

Transactions which are closed by payment in cash of the market differences are made by brokers with memberships on every exchange of the country, but these transactions are purely speculative, and as the speculative markets of a community are often of great value as opportunities for profitable investment and for affording insurance in the whole financial system, and when a man desires to trade in the market on a small scale, either as investment or protection against property held or for simple speculation, and finds that brokers who are members of the exchange are profitable from accepting his ten or twenty-share order, he naturally turns to the broker who will accept it and cares little whether he is a "bucket shop" or "hedger's

A MINE THAT'S A MINE.

Nipissing Mines Company Shows Great Profit of Development.

Did you ever hear of the Nipissing Mines Company and its eight claims in Cobalt? Well, it is a good story, and indicates the estimated wealth of Ontario's mineral resources.

It pays a 3 per cent. dividend quarterly right out of the mine—the treasurer of the company can show to-day \$700,000 cash on hand. From Jan. 1, 1905, to April 25, 1906, the net profit from the mine was \$1,024,628.10. Pretty good showing for fifteen months! A profit of 93 per cent. on the investment! One that averages \$6,000 a car soon tallies up into the millions.

The claims of the Nipissing Mines Company total 846 acres, twenty-two acres larger than the next largest claims. Of this acreage less than 10 per cent. has been prospectively. Thirty pay veins have been struck, and among other ores, outcroppings of copper have been found that promise good returns for development.

These are the facts vouched for by William Starr Bullock, who is the publicity expert of the company. A few minutes' talk with Mr. Bullock gives one a more comprehensive idea of Cobalt's potentialities than a day's reading of blue books. Mr. Bullock is prepared to prove his case with documentary evidence that bears all the hallmarks of authenticity.

The Nipissing Mines Company is owned by New York and Canadian capitalists and is capitalized at \$12,000,000, with only \$6,000,000 stock issued. Those interested in the mine are enthusiastic over its future and see in Cobalt properties the foundation of many fortunes.

It pays a 3 per cent. dividend quarterly right out of the mine—the treasurer of the company can show to-day \$700,000 cash on hand. From Jan. 1, 1905, to April 25, 1906, the net profit from the mine was \$1,024,628.10. Pretty good showing for fifteen months! A profit of 93 per cent. on the investment! One that averages \$6,000 a car soon tallies up into the millions.

The claims of the Nipissing Mines Company total 846 acres, twenty-two acres larger than the next largest claims. Of this acreage less than 10 per cent. has been prospectively. Thirty pay veins have been struck, and among other ores, outcroppings of copper have been found that promise good returns for development.

These are the facts vouched for by William Starr Bullock, who is the publicity expert of the company. A few minutes' talk with Mr. Bullock gives one a more comprehensive idea of Cobalt's potentialities than a day's reading of blue books. Mr. Bullock is prepared to prove his case with documentary evidence that bears all the hallmarks of authenticity.

The Nipissing Mines Company is owned by New York and Canadian capitalists and is capitalized at \$12,000,000, with only \$6,000,000 stock issued. Those interested in the mine are enthusiastic over its future and see in Cobalt properties the foundation of many fortunes.

Simpson's Housefurnishing Club. JUST want to ask one question, and you may answer it to yourself. Do you, or do you not, wish to do any housefurnishing this season, or within the whole present year? Decide that question definitely in your own minds first. Now, to those that do. This Housefurnishing Club of ours is open to your membership. Do you understand the plan? It is as simple as simplicity itself. If you agree to take \$25 worth of goods from our Carpet, Curtain, Furniture or Picture Departments between now and the 31st of July, you may have the privilege of a CHARGE ACCOUNT WITHOUT ONE CENT EXTRA TO PAY. That's all there is to it, but don't you think that's a whole lot? The best values in Canada are yours to choose from, whether you join the Club or not. It costs no more to be a member and you receive all that extra financial convenience. Of course this Club has some limitations. The membership is limited to 500, and closes July 31. But to-morrow, for you—there is no let or hindrance, absolutely. Just make up your mind now, see the Club Secretary in his office (Curtain Floor) to-morrow, arrange about your payments and have the goods delivered as soon as you like. We can't put the case more strongly, more simply or more frankly. If you know anyone who belongs to one of our former Housefurnishing Clubs, what we say of the present Club's advantages will be entirely corroborated.
