PASSED THE IE OVER IRISH "BARGAIN"

Wm. O'Brien and Lloyd-George Talk Heatedly of Codes of Honor and Regard for Confidences and Truth.

LONDON, April 18.—Wm. O'Brien, leader of the Independent Irish party, had it out with Chancellor Lloyd-George to-day over O'Brien's recent statement at Cork that the chancellor had offered him certain concessions in the way of modifications in the budget. In return for the support of the Nationalist party which Redmond had neglected to demand.

In the house to-night, when Lloyd-George replied to the interview, denying that he made such offers, and accusing O'Brien of breach of faith, O'Brien, white with rage, took the floor, gave a detailed story of the interview, and added:

"Lloyd-George has taken advantage of the fact that there were no witnesses to issue a denial. I do not know what the chancellor's code of honor may be, but I am certain it is not mine."

Lloyd-George in reply did not deny that he had the interview with O'Brien, but declared O'Brien's account of its purport was grossly inaccurate.

"O'Brien talks about honor," he said, "but admits publishing a confidential talk without permission."

Redmond denied that any bargain existed between the Irish and the Liberals, declaring the Irish supported the budget of their own accord.

In the commons, it is generally admitted that Lloyd-George's reply was quietly disposed of, so that the eagerly awaited incident closed.

O'Brien, however, made a clever attack on the Redmondites, where-with he is probably satisfied, charging them with losing great concessions to Ireland.

Premier Asquith was enabled to get a majority of 93 for his motion authorizing discussion on the practically unaltered budget. As its passage is now assured, the road is now clear for the great fight on lords' veto.

TRAIN SWEEPED OFF BY LANDSLIDE 25 KILLED

Laborers on Way to Clear Away a Small Slide on the N. T. R. in Quebec Overwhelmed.

QUEBEC, April 18.—(Special.)—Word was received here to-day to the effect that a landslide had taken place on the Transcontinental, on M. O'Brien's contract, carrying to death 20 Italians, three Englishmen and two French-Canadians.

It appears that a small slide had taken place at Corcochoche, about 200 miles from Three Rivers. This morning a train with 25 hands was sent out to the place of the reported slide, and came to a stand under a cliff, and looking down into a valley or ravine.

All advance the entire side of the cliff gave way, taking train and men to the valley below.

As there is no telegraph station, the news came by special train to the nearest station, hence the lack of details.

OBJECT LESSON IN INKY OPACITY OF CITY WATER

Near-Fluid Supplied By Toronto Mains Spoils Act at Shea's.

I love my soup, but on you city water! Three thousand people were given an opportunity yesterday afternoon and last night at Shea's Theatre of seeing just how bad Toronto's water supply can be. It would be untrue to say that they got a look in, for the fluid, drawn from the tap, was just about as opaque as the best writing ink.

In a tank 2-1/2 feet thru, two young ladies, the Finney Sisters, do a dainty swimming act, but the audience were able to see very little of it, as six inches from the front glass of the big tank the girls were invisible, although two arc lights were turned full on the tank, and the young women were black beneath the water and remained submerged for more than a minute, and yesterday when she sank below the surface she disappeared from view as completely as if the earth had swallowed her.

Manager Jerry Shea was at a loss to know how to show this attractive to his audience thru the mark of Toronto's water. Today he will filter the fluid used in the tank, and if this does not serve, he intends to purchase a sufficient quantity of distilled water in which to present the act.

VICE-PRESIDENT SUCCEMBS Yields to Temptation and Quits Ranks of Strikers.

Now there is a "corruption fund" to beat the Newsboys' Union No. 16 in their fight against The Star and Telegram.

Last week, according to President Lieberman, emissaries of The Star had been approaching some of the newsmen at the more prominent corners, offering substantial inducements to secede.

Mickey Tobin, at the Union Station, cornered 250, and others collected \$2 to \$3 a day bonus and a free supply of papers.

Then it was rumored that Paddy Weinstein, vice-president of the union, had been "approached," but at Sunday's meeting Paddy virtuously declared, "Boys, don't let that worry you. I am with you to the bitter end."

Isn't it funny what a difference just a few hours makes? Yesterday Paddy was cheery by thunderstruck news to join with him and sell Stars and Telegrams. Last night, at a special meeting of the union, he unblinking declared himself to be a quitter from the ranks, his button was taken from him, and he was shown the door.

To-day there promises to be lively times for Paddy at his "corner" at Queen and Yonge-streets.

It shows you what money will do in fighting us poor newsmen," said the president last night, "and it's the more a reason why the public should support us."

FISHER TO LEAD SENATE WILL HOLD PORTFOLIO

His Recent Utterances Construed as Vaedictory—Sir Richard Cartwright Feeble.

OTTAWA, April 18.—(Special.)—That Hon. Sydney Fisher is booked for the leadership of the senate, and will take with him the portfolio of agriculture, is the firm belief of those who are usually well informed as to doings in the inner government ring.

His three and a half hours' speech on Friday, in which he told of the glories of his administration of the department of agriculture, is generally regarded as his vaedictory, and his swan song covered every branch of the workings of the department from cow testing to experimental farming.

Mr. Fisher will be drafted into the upper house before next session, and will quietly take over the reins of leadership from the hands of Sir Richard Cartwright, whose disabilities of advancing age are growing apparent.

It is regarded as quite possible that the portfolio of trade and commerce, which is now held by Sir Richard Cartwright, will be transferred to the commons, and new life will be put into it in view of the growing importance of Canadian trade and commercial matters.

A general redistribution of cabinet positions before parliament meets next November is regarded as extremely probable, and henceforth will be retained as a special legal representative of the government in all international matters.

His increasing deafness has prevented his participation in the active work of the house for some time.

Hon. Charles Murphy or Mr. Pugsley is expected to step into the shoes of the minister of justice, and Hugh Gaultier is certain for a portfolio.

So far as Mr. Fisher's future is concerned, the reports of his retirement to the senate appear to be definite.

STATE'S CHIEF WITNESS DIES

Just as Trial of Dr. Hyde for Murder is Opened.

KANSAS CITY, Mo., April 18.—Scarcely had the state completed its opening statement to-day in the trial of Dr. C. M. Hyde for the murder of Col. Thomas Swope before Dr. G. T. Tryman, the prosecution's most important witness, died at a hospital of acute diverticulitis. Dr. Tryman was for years the Swope family physician.

Dr. Hyde sat calmly between his wife and his father in the crowded criminal court room to-day and heard himself described as a man whose greed for gold had made him a murderer.

The court decided to admit all circumstances which the state avers will tend to show that a riot existed to exterminate the entire Swope family.

The charge that Dr. Hyde poisoned Col. Thomas H. and Christman Swope by the use of cyanide of potassium, as well as strychnine, was the only new feature brought out in Mr. Reed's address.

USED ORPHAN CHILDREN FOR GRADE EXPERIMENTS

Philadelphia Physicians Had "Human Material," Who May Suffer Lifelong Injury.

NEW YORK, April 18.—The Herald to-day prints a Philadelphia despatch which says: As the result of investigations, it has been revealed that 150 children inmates of Blockley, the great Philadelphia Hospital, and of St. Vincent's Home for Orphans, mostly very young children and even babies less than a year old, have been used as human "material" for purposes of experimental research by physicians of the William Pepper Clinical Laboratory of the University of Pennsylvania.

After these experiments were concluded, it was announced by the physician in the Archives of Internal Medicine, published by the American Medical Association, that the results were such as to render part of the practices unjustifiable in medicine, it being admitted that on beginning the tests the experimenters had no knowledge of the serious results their use entailed.

It is admitted that permanent disturbance of vision was sure to follow in one of the experiments practised upon an orphan and that one test if pursued might lead even to the destruction of the eyesight.

The result of this campaign of experimentation on helpless, destitute and orphan babies was to bring about friction between the management of the hospital and the physicians in charge of the medical department, which resulted in the resignation of the entire board of physicians.

The home is under the management of the sisters of St. Vincent de Paul, while the physicians were all leading practitioners of this city, skin specialists and experts in eye and children's diseases from the William Pepper Clinical Laboratory of the University of Pennsylvania.

The experimental work for which 150 orphans and dependent children were used, consisted of inoculating or "in-stilling" into the babies Koch's tuberculin, in order to observe whether they would result a "reaction" which, according to one of the latest theories, would determine whether the patient was suffering from tuberculosis.

These tests were applied in four ways. Tuberculin was instilled into the eyes, was rubbed on the flesh of the child in the form of ointment, injected subcutaneously, and in the fourth, or scarification test, both bovine and human tuberculin were used.

C.P.R. BUYS COAL PROPERTY

Secure an Option on the Western Fuel Company.

VICTORIA, B.C., April 18.—(Special.)—The Western Fuel Co., operating coal mines at Nanaimo, has given an option to the Canadian Pacific Railway Co. for the purchase of its property for \$2,500,000, according to a report here to-day.

It is reported here that this is the answer of the C. P. R. to the purchase of the Dunsmuir coal mines by the Canadian Northern Railway. The C. P. R. has a contract with the Wellington Colliery Co. the assets of which have been sold to the Canadian Northern, which has still several years to run.

NEARING A CRISIS IN TRACTION TANGLE

Civic Railway Committee Divided on Advisability of Laying Tracks on Bay Street—What Company Offers.

When the civic works committee meets in special session this afternoon it will be brought face to face with the most important questions of street railway policy which have confronted the city in years. Manager Fleming's letter of yesterday being in effect a throwing down of the gauntlet.

The special committee appointed to deal with the city's traction affairs considered the company's latest move yesterday afternoon, but, being desirous of avoiding a possible clash with the larger body, agreed to defer committing itself to the plan for new lines prepared by City Engineer Hunt.

It was patent, however, that leaving out Bay-street, which promises to be fiercely debatable ground, as of old, Mr. Hunt's recommendations were strongly favored.

Manager Fleming, while he emphasizes the fact that the railway is ready to build 25 miles of new tracks and put 100 new cars in operation by the end of the year, allows it to be definitely understood that the company considers itself in a position to dictate terms, and says it is the company's intention to proceed immediately with construction. He contends that the company has an indisputable right to make use of those downtown streets granted by the Ontario Railway Board in 1908 and subsequently by the judicial committee of the privy council, but at the same time seems anxious to have the city fall into line, declaring also that the other lines mentioned will not be built unless the downtown streets are secured.

"I hope the city council will at this date see its way clear to stand out of the way and allow the company to improve the service," wrote the G. M. His Legal Advice.

Mr. Fleming's legal right that the railway is adding the advice of its solicitor, who says that there is no need of making a fresh application to the railway board, City Solicitor Johnston, however, at a conference with the board of control yesterday afternoon, stated that the company will have to get permission a second time under the Whitney Act.

Mayor Geary's reply, sent in the afternoon, was brief and to the point, stating that the railway's apparent intention that the railway will proceed to construct the lines approved without further ado, his words being that he presumed it was the intention of the railway to apply to the railway board for an order to lay down the routes named, and that the city would be pleased to facilitate the application for the order.

Lines Company Wants. The streets which the company assumes it has a clear right to use are Bay-street, from Front to Queen-st.

BEST NOT TO BE ARRESTED.

Detroit Police Have Verified Most of His Statements.

DETROIT, Mich., April 18.—The police will not rearrest Arthur J. Best, the young Comber diamond thief, whose wife's body was found yesterday in the lower Detroit River, and identified to-day.

Captain of Detectives McDonnell said to-day: "I don't believe that there is any prospect of Best's re-arrest. Since we had Best under arrest and questioned him, our investigation seems to have weakened the case against him. Many of the statements he made to us have been found to be true."

Mrs. Best's body will be taken to Comber for burial. It had been thought at first that Best might have thrown her in the river, following a quarrel, the marriage having been a secret one.

"NEWS" HAS NOT BEEN SOLD.

"Absolutely untrue, and without foundation" is the way J. S. Williams, editor-in-chief of The News, last night characterized a rumor that that paper had been sold. The story, which emanated from the Ontario Club, had it that the paper was to become, by purchase, a convert to the Liberal fold.

The tax rate will be well and truly struck next Thursday. Mayor Gray having issued the call for a special meeting of the city council.  
It isn't expected that all will be smooth sailing. A number of the aldermen are nursing their indignation over the cutting out of certain pet projects, and something will be heard on the subject on Thursday. It is even said that an attempt will be made to raise the tax rate from 17.2 mills to 18 mills, but that action was unlikely. Last year the rate was struck on March 28, so that the civic administrators of 1910 are nearly four weeks behind time. The controllers lay the responsibility on the frequent trips to Ottawa to battle with the radius.

**HAMILTON BUSINESS DIRECTORY**  
LICENSE BOARD HEAR REQUEST FOR REDUCTION  
Also, Are Told of Alleged Violations of the Law—Doing the Best They Can.

HAMILTON, April 18.—(Special.)—You are all business men enough and have been in public life long enough to know about politics, wire pulling and influence. We are only human, and we are doing the best we can under the circumstances. was the statement made by J. Ord Callaghan, one of the license commissioners, to a delegation from the Hamilton Temperance Federation, when it waited on the board at its annual meeting this afternoon.  
The delegation asked that the number of liquor licenses be reduced. It did not ask for any special number, but requested that those who did not live up to the law be cut off, and that as each is cut off, the number of licenses then in force be fixed as the minimum permitted. The meeting was interesting and decidedly amusing in spots. At the commencement, Miss O'Brien, East Street, asked the commissioners to cut off the license of E. Duffy, hotel-keeper. The hotel man appears to be a nightmare with her, although the commissioners have not been able to find any real justification for it. She owns a part of the hotel property, and she said the commissioners and Inspector Sturdy were conspiring to keep Duffy in business, because he had influence. She was not opposed until the commissioners promised to hear her complaint in private.  
Ald. Morris is cautious.  
Ald. Morris charged that there were hotels doing business to-day that had been convicted three times within the last three years. He said he had the names of them in his pocket, but he did not feel safe in making them public. He also accused Inspector Sturdy of being too mild, and a dead end in making a license inspector sitting around an hour after a violation of law had taken place. He also spoke of a particular hotel that was doing business on Sunday, and promised to give the name of it to the inspector.  
William Armstrong made the statement of a particular hotel that was doing business on Sunday, and promised to give the name of it to the inspector.  
Chairman Fanning said the police magistrate's practice of fining men who hang around hotels 12 or 15 days was a farce. Their wives generally paid the fine and the man went on to his job. Ald. Morris brought up the subject of these hang-around men, and said that he had seen many who were free with their money, and often robbed them.  
Can't Go to Church.  
Mr. Fanning's charge of intemperance and church people of not using the hotel men properly. He said the Catholic and the Anglican churches were the only ones that admitted men into their congregations. Ald. Morris said they had nothing against the hotel-keepers, but against the salaried keepers, to whom the police magistrate's practice of fining men who hang around hotels 12 or 15 days was a farce. Their wives generally paid the fine and the man went on to his job. Ald. Morris brought up the subject of these hang-around men, and said that he had seen many who were free with their money, and often robbed them.

Will Become Corporation Counsel at Salary of \$10,000.  
H. L. Drayton, K.C., former county crown attorney, has accepted the board of control's nomination for the office of corporation counsel, and will be appointed at the meeting of the city council next Monday.  
Mr. Drayton, who resigned from Atlantic City yesterday, was seen by the board and the result was that he will be recommended by the board at a salary of \$10,000 a year. The office has been vacant since the resignation of James Fullerton, K.C., nearly ten months ago.

WOMAN'S LONG SLEEP  
For 18 Months She Has Slumbered—Strangest Case Since 1777.  
NEW YORK, April 18.—Mrs. Elizabeth Hodes of No. 914 Blake-avenue, Brooklyn, who has been the victim of a baffling sleeping sickness for eighteen months, is reported to be in a state of collapse yesterday, after she had been awake for 50 hours. The woman lapsed into unconsciousness at a time when her husband and her two sons were making every effort to keep her awake. After sleep of 18 months she could not be aroused by the most skillful physicians. The case was reported to Dr. John D. Quackenbush, who made a careful research of similar cases and found that the disease which has afflicted Mrs. Hodes is not new, but has a history of medical science since 1777, when the illness of the Lady of Nimes was first reported. The symptoms of the two cases appear almost exactly alike. The symptoms show a danger of approaching apoplexy, which would end in death.

YORK TOWNSHIP WILL ASK FOR RELEASE FROM COSTS  
City and Township Join in Census—Council Stand By Mr. Ramsden—N. Toronto Gets Land.  
The meeting of the York Township Council, held on Monday afternoon and presided over by Reeve Henry, with Messrs. Watson, Barber, Syme and Griffiths present, while outwardly calm, was inwardly characterized by a good deal of warmth, and this condition of affairs was brought about wholly by the action of the board of control of the City of Toronto.  
A recital of the events leading up to the present strained relationship would entail the recital of ancient history, but it is enough to say that the trouble arises over the cost of providing watchmen at the Bathurst-street and Dufferin-street railway crossings. While at one time York Township "each of these is now in the city."  
Some time ago the Township of York made application to the Ontario Railway Board for release from the triple agreement entered into at one time between the city and the railway, and in which the township was involved for the cost of watchmen at these points. It was an arrangement, however, made by York Township, as the gates were erected by the city without ever consulting the smaller municipality.  
But not satisfied with the Township of York bearing a share of the cost of a separate municipality, the city now objects to the township being a separate municipality in the southern part of the rural municipality is north of St. Clair-avenue, or nearly a mile to the north, and wholly disassociated from the crossing in dispute. It is charged by the city that the traffic at these two crossings is from the country, and a census taken in January was accordingly appointed by the township, will be stationed some of these fine days at the Bathurst-street and Dufferin-street crossings to determine the position. If York Township travelers are held up temporarily some of these days and asked to designate their exact abode, they will know the city is wrong. It is not so much the matter of cost as the principle involved, said Assessment Commissioner W. H. Clarke of York Township to the World last night.  
"The City of Toronto ought to have outgrown small measures by this time. Evidently they have not."  
Apart from the railway matter, two or three other outstanding questions came before the council, one of these being a readjustment of the existing school boundaries to the north and west of the city, where annexation has been made and the city is said to have taken school section No. 13 has entered into some sort of a provisional arrangement whereby provision will be made by the city for the annexation, and other arrangements are said to be completed for the pupils of school section No. 25. The whole matter will be further discussed at the meeting of the council, two weeks hence.  
A rearrangement of the polling sub-divisions was also discussed, and the several districts involved has been prepared. The absorption of a portion of the municipality by the city renders this necessary.  
The question of the proposed "parallel roads" thru Mount Pleasant Cemetery was discussed. At a joint meeting between the City of Toronto and the township representatives will shortly be held. The Trust and Guarantee Company, which has been objected to the closing of Jane-street, in West Toronto, unless reimbursed by the railway company.  
One of the keenest school trustee elections in the history of the Runnymede district was that of Saturday when P. Jackson was elected over N. Shunk by a vote of 114 to 99. Nearly every vote was counted.

**"Churchill Tilt"**  
Hats off to "The Churchill Tilt!"  
A really new stunt in Derby styles. Visiting Englishmen and home-coming Americans and Canadians introduced the fad of wearing Derbys tilted back on the head.  
This tilt has become the smart thing. But to get the effect of the tilt and still be comfortable, men have been buying hats too big for them, and pulling them down by the ears.  
The smartness of the tilt was spoiled by the bigness of the hat.  
No more!  
We have imported a Derby which most ingeniously solves the problem. It's "The Churchill Tilt."  
It accomplishes the smart English backward tilt effect in a hat which is worn just as you usually wear a hat, and in your proper size.  
It's really an optical delusion. It is not a freak.  
It simply enables a self-respecting gentleman to conform to the prevailing tendencies without sacrificing his comfort or his dignity by seeming to wear his big brother's hat.  
"The Churchill Tilt" can be had in Toronto only in our store.

**COUNCIL STAND BY ACTION.**  
County Representatives Make No Recommendation to Department.  
Major Collins is authority for the statement that Magistrate John H. Ramsden, who is absent, was unanimously endorsed by the York County Council for the office of police magistrate for the county, has no ghost of a chance of obtaining the position.  
"All the justices of the peace in the county are opposed to it," said Major Collins last night, "and when he is asked Premier Whitney a few days ago regarding the matter, he stated that the appointment of a police magistrate would be a reflection on the other magistrates in the county." He further stated, said Major Collins, "that no recommendation had been received from either T. H. Lennox, M.L.A. or Alex. McCowan, M.L.A., concerning the matter, tho a letter from North Toronto was on file re his appointment as magistrate for that town."  
In the meantime the York County Council, the majority of whom are strongly Conservative in their political views, warmly support Mr. Ramsden, who is and has always been a Liberal.  
"It's not a question of politics," said a strong man in county matters, yesterday. "We believe John Ramsden is the best man for the position, and we believe a police magistrate is an urgent necessity."  
EARLS COURT.  
EARLS COURT, April 18.—(Special.)—The management committee of the Toronto Board of Education yesterday visited the Earls Court public school and looked over the grounds and buildings.  
As soon as plans are prepared, building operations will be commenced with a view to erecting eight additional rooms. The daily attendance of scholars averages 800, and the present space is inadequate to accommodate the needs of the rapidly growing district.

## Can't Announce the Fish Dinner Till the "Barrel" Arrives

If you're at all familiar with our daily menu card, you've no doubt noticed on the right-hand side announcement of a "Special Fish Dinner," 30c. It's an innovation, and one that seems to have struck the popular fancy at the right time. A genuine fresh fish dinner—what a delicacy!—a change from the day-after-day menu. What a treat for the housewife who can dispense with the worry of getting a "meal" to meet her husband at the Lunch Room and enjoy a delicious, inexpensive repast—a complete and delightful change for the jaded appetite.

We used to order certain kinds of fish for each day—they arrived in a barrel—in the ice packing we found strange "live" things we didn't expect—fish we hadn't ordered, and sometimes specials, almost strangers to us. Upon enquiry we learned we could get any kind of fish from most any part of the world, absolutely fresh—that's because in the fishing boats are large tanks of water, into which the fish are put as soon as caught, and from which they are taken and shipped to us. What possibilities were here offered!

Now, we simply buy a "barrel" of salt water fish—no telling till the "barrel" gets here what kind of fish there'll be—but, you can depend on it 'twill be some unusual delicacy that comes, and as a treat to us here in Toronto. And we serve this fish at a price that anyone may enjoy it. Down in New York the same dishes cost you many times 30c—you may get more elaborate service, but you won't get fresher fish or more tastily cooked. Try a fish dinner—you'll enjoy and relish it.

CLARKE'S LIPS SEALED BY SUIT FOR DAMAGES

Doesn't Want to Give Evidence That Might Assist in Toronto Man's Claim Against Him.

EDMONTON, Alta., April 18.—It is now almost certain, it is stated on good authority, that President Wm. Clarke of the Great Waterways Company stayed away from the Edmonton investigation in order to escape the writ issued by Hawes of Toronto, which claims \$250,000 from him and in order to avoid giving evidence in public which might give Hawes lawyers here opportunities for a stronger case against him.

This is all alleged by friends of Clarke's, who state that he would be willing to give evidence in Winnipeg behind closed doors, where Hawes' lawyers could not get at him for his evidence.

W. L. Walsh to-day produced letters between J. K. Cornwallis and Messrs. Minty and Biggar, written at various times, which showed that he gave up hope of securing a subsidy or guarantee. Mr. Biggar had written Mr. Minty that the provincial government did not want to guarantee a northern line between the two cities.

Mr. Cornwallis told R. S. Bennett that he never owned any land or mineral claim on the route of this railway.

On the afternoon session was occupied with the examination of J. A. J. Waddell, engineer of the Great Waterways Railway, but it did not reveal much. Cross-examined by Bennett, he admitted he was to get a salary of \$25,000, but stated his income had been between \$25,000 and \$30,000 for years.

"Yes, that was for building bridges, not railroads," commented Bennett.

Waddell had previously confessed he had but little experience on railroad construction, although he is one of the foremost bridge experts in America.

He said Clarke had three Albertian railway projects, but only the Port McMurray route proved feasible.

He knew that Clarke had no intention of investing his own money to build the road, but thought he expected to interest capital thru his bank, which is an old established one.

NORTH TORONTO CONSERVATIVES WILL STAND BY FOSTER

Only One Dissenting Voice in Motion of Confidence—Officers Elected.

Only one dissenting voice was heard when the North Toronto Conservative Association proposed, at their annual meeting last night, sending a telegram to Hon. George E. Foster.

The resolution was: "We, officers and members of the North Toronto Liberal-Conservative Association in annual meeting assembled, place on record our continued confidence in our member Hon. George E. Foster. We have followed his course as our representative and beg to assure him that we recognize the distinguished ability, energy, industry and integrity which he has brought to bear on all public questions and his devoted loyalty to the Conservative party and the country at large. We trust that he will be long spared to represent our riding."

A copy of the resolution was telegraphed to Mr. Foster. Mr. Chisholm rose and objected to their covering up the "black spots," but he was told he would be given a chance to speak late in the evening. The chance did not come later.

Mayor Geary spoke, saying that Mr. Foster had been the object of the most bitter sayings and attacks of recent politics. "To-day nobody stands higher in the opinion of this riding than Mr. Foster," he said. Speaking of the proposed redistribution of seats, Mr. Geary said he believed the City of Toronto would return as many members to the federal house as ever.

"To hear The Globe talk, one would think that Mr. Foster was the only one concerned in the insurance investigation," said Controller Church. "There are men now occupying positions in the front benches of the Liberal party who are as guilty as Mr. Foster," he said.

E. W. Ellis characterized Mr. Foster as being "politically without reproach." He had made merely an error of judgment in his private affairs. "I want to thank God that there is a man in Ottawa like Hon. George E. Foster," he declared vehemently. "When he comes before us again we want to see that he is placed at the head of the polls." The one hundred present applauded.

Three Conservative Association, said that The Globe was very, very mean to "stab and jab" at Foster. He thought the members of the Conservative party should be paid by the Conservative party and not in the pay of the enemy.

The meeting carried a resolution asking the shareholders of the company to change the name of the association to "Toronto Conservatives, Limited." The reason for this is that a project is on foot to build a club building at a cost of about \$200,000 and make it the Conservative headquarters.

Officers were elected as follows: Mr. Rawlinson, president; W. H. Hall, secretary; W. P. Goddard, treasurer; A. D. Ellis, chairman; George Stevenson and John Harris, vice-presidents; executive, W. L. Beale, F. L. Cleland, W. H. Cooper, Dr. H. O. Crane, H. L. Fawcett, Thomas Davies, W. D. Emergey, Robert Edgar, P. W. Ellis, Samuel Fitzgerald, B. Fletcher, A. Foy, Dr. B. Haslett, Jos. Hickson, George A. Kingston, George H. D. Leach, J. C. Macmurchy, John Pearl, E. P. Pearson, George K. Quarrington, Dr. J. Sterling Bryson, E. G. Smythe and George H. Sweetman.

Regarding the Shackleton lecture in Ottawa a few nights ago, the newspapers of that city spoke in terms of praise and enthusiasm. The Citizen, Free Press and Journal referred to the lecture as a masterpiece of the kind which penetrates the mysteries of the Antarctic, as no man before his time has done, as a modest, unassuming but absolutely convincing paper with a thrilling story to tell, and a direct and winning way of presenting it.

The motion views and still views of Antarctica are great aids to the lecturer. Toronto is now having an opportunity of hearing Lieut. Sir Ernest H. Shackleton in Massey Hall, Wednesday, April 27. Seats go on sale Thursday.

DEAF PEOPLE Can Be Made To Hear

Many people are deaf because the middle ear is inflamed by Catarrh, and its nervous mechanism is injured. The ear, like the nasal passages and throat, is liable to catarrhal infection. This plays sad mischief with the power of hearing.

Deafness, a marvelous disease, is caused by Catarrh of the middle ear, and is carried to the ear in little drops by air through a Catarrhal Inhaler. This vapor is deposited into the air passages. Its curative influence reaches every inflamed surface, the outcome is removal of the congestion that closes the ear so that it can hear again, and the restoration of natural condition of the nerve supply upon which hearing depends. No person suffering from Catarrhal deafness should neglect a remedy that offers so many advantages.

Improving their hearing, Catarrh in throat, nose or bronchial tubes is removed by Catarrh-ezone. Complete cure sufficient for three months' use. Price \$1.00; smaller size, 50c. All dealers or The Catarrh-ezone Co., Buffalo, N.Y., and Kingston, Ont.

4 TIMES A YEAR WE REGULATE AND INSPECT ALL GAS RANGES

BOUGHT FROM US FREE OF CHARGE TO YOU DO YOU KNOW WHAT THAT MEANS?

Well! It means money in your pocket. It means perfectly adjusted stoves that will continue to give you the greatest heat value on the minimum of gas. Why blame the meter when the appliances are cheaply constructed or clogged up with dust and dirt. Our men, with their adjustments which regulate the air supply are not properly regulated. Try this test: Place a quart of water in your range; time it; see how long it takes to boil; then wait one year. Do the same thing again, and see how much longer it takes to boil. Reason? Well, come in and we will explain. Gas Ranges on our list at less than cash prices.

THE GAS COMPANY'S SERVICE IS GOOD SERVICE PEDLARS WANT JUSTICE

intend to Make Test Case in Regard to \$10 Fee for Helper. Because they do not feel that they are receiving justice at the hands of the city council and that the bylaws affecting their line of business are exacting, another meeting of the pedlars was held last night at Occidental Hall, when the Pedlars' Protective Association was organized. Justice is what they want most particularly, according to the various interruptions made when some members endeavored to explain the virtues of a protective association.

The chief grievance is the tax placed on helpers as a result of the most recent bylaw. Previous to this year a fee of \$1 was demanded for a helper, but now it is necessary for him to take out a regular license, which amounts to \$10 a year.

It is the intention to make a test case and to carry it to the highest court. Other cases will also be appealed where fines have been imposed in the police court.

The officers elected were: President, John Banford; secretary, Thomas McGee; treasurer, Charles Allen; inside guard, J. Galloway; outside guard, J. McGee. There have been 26 members enrolled, and meetings will be held every two weeks.

BRITAIN HAS LESSONS FOR LIFE IN CANADA

Economic Problems Lie at Root of England's Trouble, Says Dr. Macdonald.

Dr. Macdonald, as Chairman, Lee introduced him to the Canadian Club yesterday, is easily the most effective speaker in Toronto, and he fully justified his reputation by his address on "Some Lessons From Britain for Life in Canada." He shrewdly took the edge off the chairman's introductory flattery by remarking: "I responded to the invitation to speak to-day because four men failed. It was just what the audience appreciated, and there was a round of applause. Indeed his reception on entering, and the applause that met him at the close, was equal to that accorded the most distinguished foreigners.

He begged to be pardoned for any remarks in his speech that might have been misunderstood. He had heard from Hamar Greenwood at the banquet to Premier Asquith. Greenwood had said that the British people were not meeting by a professional who had been fortified in the accustomed way. A sympathizer in the audience finally called out to Greenwood: "Don't mind 'em. 'E's no good, 'E let 'is wife go to the work 'us today." The speaker then said: "The speaker's remark was equal to the occasion."

"Don't you blame me, gov'nor, till you see the misaw." Because the people could no longer pay the rents in the farms, and industrial congestion was the result. In the States the people were now in industrial occupations, 36 per cent. lived on the land; in Germany, 33 per cent. in France, 44 per cent.; but in England, only 19 per cent. Was it any wonder that England had no home market for her manufactures? When her business values were destroyed, Degeneracy followed from this congestion in the cities. Unemployment, in the States, is now a serious ailment anywhere in two generations.

No nation could be strong which had no strength in its rural parts, and the first and second in Great Britain meant the decay and death of the estates which were only saved from that fate by the constant supply of good health and morals from the country. Gustaf Smith Dorrien had told him that without the lands of Devon and York, the States would produce their own children as they did 400 years ago," he said. They had 140 children attending the schools of the great universities of England and Scotland. One year when two of the men came back to the States, they had no thought of going to Cambridge. No, no; advised the professor. One was a low level and the vein came in the bridge. They went, and one was first at Balliol College at Oxford, and the other was first at Trinity College, Cambridge.

"The only thing we have to export is educated people," was what the hotelkeeper told Dr. Macdonald. The hotelkeeper was a plant composed of two 60-h. boilers and an 8-drill compressor, which is expected to be in operation within a week. Last summer some good surface showings were exposed; but no striking was done. The Morrison claim at Miller Lake, owned by Col. Morrison, editor of The Ottawa Citizen, and others, is one of the best-looking properties in the camp. They have a spectacular showing somewhat like the Lawson vein at Miller Lake. It has been struck for over 1000 feet and in places is 6 to 12 inches of solid metal rich in silver. This property was recently optioned to an English syndicate for one million dollars, on condition that \$100,000 is to be spent during the coming summer. As yet no information has been put in and no information can be got as to when active operations are likely to commence.

Large Quantities of Freight Now Awaiting Entrance to Montreal River Camps.

GOWGANDA, April 18.—It is expected that the Montreal River route to Elk City and Gowganda will open on Monday. The river for the most part has been free from ice for some time; but Portage Bay is always the last place to break up. The expanse of water runs northeast and southwest and is sheltered from the rays of the sun most of the day. Any ice that there is can be easily crushed and broken up by any time. There is a good deal of freight waiting to be brought up by the first boats.

There will be considerable activity in the mines this coming summer. Many of them are held by close corporations and will be conservatively developed. The mines dependent upon the development of the Transcontinental are in somewhat of a lethargic state and it may be some little time before they become shippers or dividend earners.

Among the non-shippers may be mentioned Silvers Limited on the west side of Gowganda Lake, which is in charge of Mr. Kennedy. They have a surface showing of native silver and have one shaft 50 feet in depth. This shaft is being sunk to a depth of 100 feet. The surface showing is of silver, gold and copper. The surface showing is of silver, gold and copper. The surface showing is of silver, gold and copper.

The Transcontinental Silver Mine is also on the west side of the lake and is owned by J. F. Johnston. This mine is located mile further north on the same ridge as the Boyd Gordon and Mann properties. The Transcontinental is a very expensive management and looks promising, but not likely to pay big dividends on a capitalization of five millions. The property warrants active development of the conservative basis, and, as reorganized, should make good.

The Hustler Mining Co. have properties south of Hamilton Lake and south of the Bartlett. They have a vein 12 feet in width carrying low values in silver, gold and copper on the surface. No work has been done on it. They have a 3-inch vein shot with native silver running 6000 ounces, which has been stripped to the surface, which was about 100 feet in length, which turned to calcite. The pit is about 12 feet in depth and shows silver on the wall rock. There are no silver veins in the vicinity of Miller Lake. The Leroy Syndicate of Halleybury have installed machinery and are getting ready to start work. The syndicate has had put in machinery lately, but the shippers, have been very successful up to date. The Ottawa-Gowganda under J. P. Wilson comes under this class.

The Calotte Lake Mining Co. under S. J. Macdonald were the last to get started at present. They have been drilling the boilers across the ice before it broke up. The Rawhide Mining Co. has also put in machinery and will start work in the near future. The Bonnell, or the O'Brien-Sifton property at Miller Lake, west of the Miller, have again engaged F. P. Alexander, as superintendent. His work last summer was much interrupted and the property has had little opportunity of proving itself up. Mr. Alexander is enthusiastic over the prospects. Most of the work done has been done in the past few months. Not till drifting has been done will the real values be proved. The Morrison claim at Miller Lake, owned by Col. Boils and Pimples.

Whenever your complexion is unnatural, your skin in an unhealthy condition, your face covered with blotches and pimples, when boils and festering sores abound then your blood is bad. You can best cleanse it with that purely vegetable compound, Burdock Blood Bitters, which safely and promptly renews the blood and invigorates the entire system.

Mr. C. A. Mussen, Bawlin, Ala., writes: "I was afflicted with Boils and Pimples for several years. I tried many remedies, but they did not cure me. I then tried Burdock Blood Bitters and after taking two bottles I have not had a boil or even a pimple."

Mr. J. Morhouse, Zenith, N.Y., writes: "My face and neck were covered with pimples, and I tried all kinds of remedies, but they did not cure me. I then tried Burdock Blood Bitters and I must say it is a wonderful remedy for the cure of pimples. For sale by all dealers. Manufactured by The T. Milburn Co., Limited, Toronto, Ont."

values at 155 feet and has a considerable quantity of ore on hand ready for shipment. The Bartlett has a very expensive management and looks promising, but not likely to pay big dividends on a capitalization of five millions. The property warrants active development of the conservative basis, and, as reorganized, should make good.

The Hustler Mining Co. have properties south of Hamilton Lake and south of the Bartlett. They have a vein 12 feet in width carrying low values in silver, gold and copper on the surface. No work has been done on it. They have a 3-inch vein shot with native silver running 6000 ounces, which has been stripped to the surface, which was about 100 feet in length, which turned to calcite. The pit is about 12 feet in depth and shows silver on the wall rock. There are no silver veins in the vicinity of Miller Lake. The Leroy Syndicate of Halleybury have installed machinery and are getting ready to start work. The syndicate has had put in machinery lately, but the shippers, have been very successful up to date. The Ottawa-Gowganda under J. P. Wilson comes under this class.

The Calotte Lake Mining Co. under S. J. Macdonald were the last to get started at present. They have been drilling the boilers across the ice before it broke up. The Rawhide Mining Co. has also put in machinery and will start work in the near future. The Bonnell, or the O'Brien-Sifton property at Miller Lake, west of the Miller, have again engaged F. P. Alexander, as superintendent. His work last summer was much interrupted and the property has had little opportunity of proving itself up. Mr. Alexander is enthusiastic over the prospects. Most of the work done has been done in the past few months. Not till drifting has been done will the real values be proved. The Morrison claim at Miller Lake, owned by Col. Morrison, editor of The Ottawa Citizen, and others, is one of the best-looking properties in the camp. They have a spectacular showing somewhat like the Lawson vein at Miller Lake. It has been struck for over 1000 feet and in places is 6 to 12 inches of solid metal rich in silver. This property was recently optioned to an English syndicate for one million dollars, on condition that \$100,000 is to be spent during the coming summer. As yet no information has been put in and no information can be got as to when active operations are likely to commence.

The Bartlett is reported to have had

rents, and seemed to have no friends, but lived on sufferance with some relatives, picking up a precarious meal where and how she could. Before handing over the present (a dress) she chanced to say to the little one, quite at random: "New Madge, is the gift I promised you, but tell me first what you would like best." The little one looked wistfully at her for a moment and developed at last, and in a very shy: "I would like to sit on your knee for a minute and pretend that I was your little girl." And there are practically 60,000 Madges in the world to-day, waiting in much the same plight, with the same pathetic wistfulness and eagerness, for men and women they do not know, and who are not developed at last, and to a day's sympathy and respite. I do, therefore, beg your readers to help the Fresh Air Fund and to help the little ones who are so very much in need of a mother's love and care.

A Blue-Rose Developed at Last.

The long-sought-for novelty, the blue rose has been developed at last, and in the intense interest of the gardeners and flower lovers who visited the spring flower show of the Pennsylvania Horticultural Society, Philadelphia, Pa., on April 15, 1910, a new variety of blue rose was developed. The address of the horticultural secretary of the Fresh Air Fund is 33 St. Bridge-street, London, E.C.

After Doctors Failed

Dr. Williams' Pink Pills Cured a Severe Case of Anemia and Weakness. Anemia—poor watery blood—is the cause of most of the misery which afflicts mankind. The housewife usually has not a word of sympathy for it. The long hours and close confinement necessary in performing her household duties sap her strength. She becomes run-down and often suffers extreme misery. Dr. Williams' Pink Pills are the housewife's friend. They make new blood—lots of it—and pure blood banishes all women's ailments. Mrs. E. St. Germain, wife of a well-known farmer of St. John des Chateaux, Que., found new strength through Dr. Williams' Pink Pills. She says: "A year ago I was extremely weak. I could not attend to my work. I suffered from dizzy spells; my head ached; my blood was poor; I had a bad cough and the doctors feared I was going into consumption. I followed their treatment for some time but without relief. I grew discouraged and finally gave it up in despair. I was strongly advised to try Dr. Williams' Pink Pills so procured six boxes. Before they were all gone I felt relief. The headaches and dizziness became less frequent and I felt a little stronger. I continued the pills for a couple of months, at the end of which time I had gained in weight; the pains had left me; my appetite was good and I felt as strong and well as ever before. I cannot say too much in favor of Dr. Williams' Pink Pills for I certainly owe my good health to them."

The pleasure in the house, the man in the office, the boy or girl in the school will always find a friend in Dr. Williams' Pink Pills. These pills actually make new, rich red blood and good blood banishes rheumatism, general debility, kidney troubles and those aches and pains caused by overwork, or, conversely, good blood builds up the tired unstrung nerve and makes pale thin cheeks rosy and healthy. The pills are sold at 25 cents a box or six boxes for \$1.50 by all medicine dealers or by mail from The Dr. Williams Medicine Co., Brockville, Ont.

CLARKE'S LIPS SEALED BY SUIT FOR DAMAGES

Doesn't Want to Give Evidence That Might Assist in Toronto Man's Claim Against Him.

EDMONTON, Alta., April 18.—It is now almost certain, it is stated on good authority, that President Wm. Clarke of the Great Waterways Company stayed away from the Edmonton investigation in order to escape the writ issued by Hawes of Toronto, which claims \$250,000 from him and in order to avoid giving evidence in public which might give Hawes lawyers here opportunities for a stronger case against him.

DEAF PEOPLE Can Be Made To Hear

Many people are deaf because the middle ear is inflamed by Catarrh, and its nervous mechanism is injured. The ear, like the nasal passages and throat, is liable to catarrhal infection. This plays sad mischief with the power of hearing.

Deafness, a marvelous disease, is caused by Catarrh of the middle ear, and is carried to the ear in little drops by air through a Catarrhal Inhaler. This vapor is deposited into the air passages. Its curative influence reaches every inflamed surface, the outcome is removal of the congestion that closes the ear so that it can hear again, and the restoration of natural condition of the nerve

ANOTHER JACK THE RIPPER

London Lawyer Says He Was an Irishman, Who Died in Prison.

LONDON, April 18.—George Kibbell, a lawyer, denies Sir Robert Anderson's statement that Jack the Ripper was a Jew. He says the Ripper was an Irishman, educated to be a physician, who had been discarded by his relatives. He was a fireman on a cattle boat and was suspected of the Ripper crimes. The police watched him and arrested him in the act of mutilating a victim. Mr. Kibbell says he recognized the prisoner at his preliminary hearing. The prisoner was not represented by counsel at his trial at the Old Bailey, where he was sentenced. He died in prison.

The True Secret of Beautiful Hair

(Amy Lester in World Magazine.) A famous French actress well known in America—recently stated in an interview: "Nearly every woman knows the excellent results that follow dry shampooing, but too many depend upon orris root alone to keep the hair and scalp in good condition. Orris root will not grow hair. The best dry shampoo I know is made by mixing 4 ounces of powdered orris root and 4 ounces of orris root. Sprinkle a little of this mixture upon the head and brush it thoroughly through the hair. The true secret of a successful dry shampoo is to distribute the orris root and therox through the hair evenly; use a sifter-top can if you have it. Then don't spare the brush. This treatment keeps the hair light, fluffy and lustrous, while too much moisture on the hair and the alkali in most soaps tend to make the hair coarse, dry, brittle and dull in color."

Nervous Headache AND MUSCULAR RHEUMATISM DISAPPEARED WHEN THE NERVES WERE RESTORED BY

Dr. Chase's Nerve Food

Broken Sleep and Bad Dreams Cured by a Simple Remedy.

"My sickness had so many curious symptoms that I think I shan't try and describe them," writes Mrs. A. Maury. "Muscular fatigue seemed to follow even slight exertion. I would soon feel the weakness of the muscles of the back, limbs and arms. Even the position of light sewing would be sufficient to bring on tiredness. In a little while, if I picked up a book, the letters would look blurred, and if I didn't drop it, headache would result. My thoughts would not flow freely. I was irritable, irrational, and innumerable seemed at last to be settling down upon me. Finally I saw 'I had to give up trying to do things, and began taking raw eggs and milk, whether I had appetite or not. I also took Ferruzone. I am glad now I did this perfectly from the load of worries and sickness that made my life so miserable. I urge every ailing, weak or worried woman to use Ferruzone, one or two tablets with meals."

AT THE THEATRES

Royal Alexandra

Charles Richman in "One of the Family"
At the Royal Alexandra last night a play was given which, without any pretence to skillful stagecraft, yet held the close attention of the audience.

Princess

"A Gentleman From Mississippi"
Burr McIntosh had a rousing reception at the Princess last night. So vociferous indeed was the applause at the close of the third act that Mr. McIntosh, or rather Senator Langdon, was compelled to make a speech, which he did in character, and complied with a house with the aid of his secretary, whose characterization by Will Deming rivaled that of the senator in the affections of the big audience.

Grand

"The Newlyweds"
It is safe to say that nine out of every ten people who read that Geo. McManus' "Newlyweds and Their Baby" was coming to the city would derided how on earth even a fair musical comedy could be written around a baby whose total vocabulary was "da-da." But it has been done and the result is a screamingly funny production.

OH, GIRLS, THINK OF IT TOO BUSY TO BE MARRIED

Hon. Sydney Fisher's Confession to the House—Alberta Ranchers Want Cold Storage Aid.

OTTAWA, April 18.—(Special).—Hon. Sydney Fisher, a staid bachelor, had some gibes thrown at him in the commons to-day by resentful beneficiaries. It began in this way. W. D. Staples, a Manitoba Conservative, who is a farmer and has views of his own regarding Mr. Fisher's administration...

On an item of \$7,000 for cold storage. Mr. White of Victoria said that the ranchers of Alberta would have to go out of business if something was not done to encourage the right kind of delivery...

Mr. Rust made a half suggestion that the city build lines in the newer territory and seek to lease running rights over them to the street railway. In view of the failure to make terms for the North Toronto extension...

Only 4 Days More to Visitors' Day, Saturday, April 23rd Tuxedo Park At Oakville

RESIDENCE AT TUXEDO PARK, ON BELVEA AVENUE.

This choosing a home is of the utmost importance.

For your own sake—there's a lot of satisfaction in living where the best live. For your children's sake—there are their future companions and friends to be considered.

You know—Oakville has all these. And—Tuxedo Park, its choicest subdivision, has all the advantages with the extra one thrown in of being only 5 minutes from the R.R. station.

There are only about 100 lots to be sold. The number being limited your only sure way of securing a holding is to ask us to reserve what you may want—on approval—subject to your approbation when you see the property on April 23rd.

COBALT---Brokers Are Enthusiastic After Visit to the Camp--- COBALT

Lower Priced Stocks Are Firm Despite the Break in La Rose

La Rose Liquidation Does Not Prevent Substantial Purchases of the Cheaper Shares.

World Office, Monday Evening, April 18. Extreme weakness in higher priced Cobalt stocks had a profound influence on the whole Cobalt market today and such has been the case on several previous occasions. Toronto on Monday morning, the demand for La Rose was the weak feature in today's market, selling down as it did to \$3.77. The break in this security is explainable, however, because of an attack on the stock by the New York brokers (who were endeavoring to boom copper stocks and advise liquidation of Cobalt) has brought about a liquidation which would otherwise not have occurred. The lower priced securities were steady to firm to-day, this being especially the case with Little Nipissing, Beaver, Cobalt Lake, Rochester and Timiskaming. Most of the day's business was readily taken by new buyers, who were entering the market and who believe that prices are now down to such a level as will leave a good opening for a later advance. Many of the brokers are strongly advising clients to pick up most of the listed securities at current prices, and that the flow of liquidation will be stemmed and a rally ensue in a very short while. The movements in the market are more sentimental than otherwise, but naturally, unless there is more confidence shown in the situation, the market appears, favorable turn in the market can scarcely be looked for.

BROKERS ARE ENTHUSIASTIC

After Recent Visit to Several of the Cobalt Mines.

The party of Standard Stock Exchange brokers which left Toronto on Friday night, returned yesterday morning. Discussing Cobalt and the outlook for the camp, each of the visitors was extremely optimistic. During their two days' stay at Cobalt, they visited many of the properties, among which were Timiskaming, Little Nipissing, Rochester, Beaver and New Scotland. In the estimation of the visiting brokers, the camp shows more actual life than has appeared to them on previous occasions, and the various properties visited appeared to them as showing solid and substantial development. The consensus of opinion among the brokers was that prices of the lower priced stocks have reached the level at which the most conservative of investors can afford to investigate and make purchases.

LA ROSE LIQUIDATED

Stock Thrown on Market Reduces Prices to a New Low Level.

Following the break in Crown Reserve last week La Rose was cast into the active arena yesterday and was disposed of at record low prices. The selling was difficult to trace, but as prices in New York held company, it was by firmer than they did in Toronto. It was argued that liquidation was keener in the Toronto market than it was elsewhere. The larger exchange, however, was dissatisfied with the showing of the Lawson property has interrupted confidence among the La Rose shareholders, and unless some action be done to change the attitude of the present holders of these shares, no improvement in the price of the stock is possible. A weak spot in connection with the La Rose holdings is the knowledge that considerable stock is being carried on margin, and it is the possibility that some of this stock on the market at any time that has created distrust in the immediate outlook in the price of these shares.

SURPLUS INCREASED

NEW YORK, April 18.—McKinley-Derrah Cobalt Mines report for year ending Dec. 31 last, an increase of \$120,687, increase of \$74,000.

SILVER MARKET SURPUS

Samuel Montagu & Co.'s circular of April says: The tone of the market continues sound. The Indian Bazaar has been a substantial buyer, and the amount that will be paid by the settlement steamer is likely to exceed \$400,000. So large a shipment is far from an unhealthy sign, for in view of the comparative small stocks in India, it implies that the absorption of substantial amounts is anticipated in that country. Prices would certainly have risen had it not been for a revival of Chinese import trade and the great rise in the price of Indian opium, which necessitates occasional sales of silver on China account; these sales, the limited in amount, had to be reckoned with in the aggregate, and, besides, the mere apprehension of freer sales from China.

ONTARIO'S RAILWAY WILL OPEN UP QUEBEC

Big Mineral Wealth in Quebec Likely to Attract Prospectors From Other Fields.

Constructed for the purpose of giving ready access to the fertile farming lands of New Ontario, the Timiskaming and Northern Ontario Railway disclosed mineral wealth that caused agricultural exploration to become a secondary interest, and now it appears that this railway will be a tremendous agent in the growth of the mining industry in Quebec's newly arriving northlands. At its farthest point but 60 miles, and at some places less than 10 miles, from the interprovincial boundary line, and with many steamboat, canoe and winter routes making almost every section adjacent to the line easy of approach from Ontario, it can readily be seen what an important bearing the T. and N. O. will have on the mineral development of Quebec. And another factor which will assist in the Ontario unfolding of the concealed mineral wealth of the next door province is the great army of prospectors who, accustomed to the conditions obtaining in Ontario, are but waiting the call of expected rewards to rush to any promising fields. In the far-reaching Province of Quebec their Ontario training will stand them in good stead. In Quebec they will find, to all intents, the same rock formations, the same compositions and lodgments of mineral that their Ontario experience will lead them to expect. The country is, of course, identical with this province in forestation and traveling methods. As to mineral, silver and gold mines have been worked for years in Quebec. The existence of these precious metals in many other places has been acknowledged for years, but their remoteness from transportation conveniences along with undesirable mining laws has not led the owners of valuable property to ascertain the extent of their enrichment. The enforcement of new mining laws will be a great stimulus to development activity in Quebec, the new laws being very favorable to all concerned in the making of a mine; particularly are they favorable to the prospector. And then the promise of railway facilities has caused an awakening of interest in many localities. Along the route of the G.T.P. old finds as well as many others are rapidly coming into prominence. It is not hard to predict that in the event of big mining camps rising up in New Quebec, with the consequent call for railroad facilities, the C.P.R. will extend their Mattawa line northward to meet the demand.

DIRECTOR OF KERR LAKE

Says Mine is Showing Excellent Values in Depth.

S. S. Rosenstamm, a director of the Kerr Lake, speaking on conditions at the Kerr Lake, yesterday, said: At vein No. 7, on bottom level, 190-foot, the mine has shown a superior quality of ore, and during this month the vein at this section of the mine has averaged twenty inches in width and runs 4500 cubic feet. The mine has been started, and the vein has held both in size and values to the present depth of nine feet. An evidence of the wonderful showing of ore at this depth is the production during this week from this main drift of fifty thousand cubic feet of silver. While we have had bonanza ore at various places in the mine, our manager, Mr. Hoakes, says no showing has been better than what we have at present on the bottom level of this pit. Another interesting development at Kerr Lake since my last visit is the increase in size and values of No. 1 vein, drift east 150-foot level. This heading, until recently, has shown the vein averaging an width two inches, and is now eight to ten inches, well defined and producing good ore daily. This section of the mine looks so promising with anything else in the mine, that we are installing a new piece of equipment at shaft No. 9 to provide proper ventilation and to handle an increased product from this part of the mine. Mr. Hoakes, who was asked The World to correct the statement in Monday's paper regarding the dividend which should have read 25c for the quarter on each share together with a bonus of 25c on each share.

BUY ROCHESTER

Why? (1) An exposed silver surface vein assaying over 5000 oz. to the ton, 5 1/2 inches wide. See it! (2) Same vein open for inspection on the 45-foot level. (3) Shaft is being sunk to 100-foot level; now 85 feet. (4) Compare Rochester values with anything else in the camp, is why I say, buy Rochester.

THE CENTRE OF THE NEW GOLD FIELDS IS PORCUPINE CITY

The Porcupine District will, as soon as navigation opens, be a busy GOLD MINING CAMP. We are now prepared to sell PORCUPINE CITY TOWNSITE LOTS at prices that will give a big return in a few months. The location is the favored spot in the new GOLD CAMP. Plan of survey, showing lots and location of site, will be published in a few days.

Prices From \$40 to \$250 ENGLISH'S, LIMITED 52 VICTORIA STREET Phone Main 3428.

COBALT STOCKS Public interest in Cobalts shows signs of revival, and in our opinion, will increase from now on. A reduction in mining costs, owing to cheap power from the different power companies, is a very important factor, not only to the larger companies, but also to the smaller ones who could not afford a plant of their own. We would especially call your attention to TEMISKAMING, BEAVER, LITTLE NIPISSING, CITY OF COBALT, ROCHESTER, which are all, in our opinion, being intelligently developed and are showing up well. TEMISKAMING, now their mill is running, should be free of debt in about two months, and will no doubt be able to resume dividends some time this year.

## A Woman of Modest Means Handicapped as to Her Taste in Dress?

THE answer to the question is found in the amount of style and good form to be procured here in our Cloak Department at moderate prices. We instance suits at \$15.00. Money might add quality to the materials, but could give you little if any more quiet lady-like distinction.

Two styles. One is of fine French serge, in grey, green, navy, wisteria or black. Coat is the fashionable length, and fastens in front with single button; new style collar, trimmed with fancy braid; full pleated skirts.

### WOMEN'S BLACK SILK COATS, \$14.75.

A coat for any occasion. Splendid quality black taffeta silk, made 53 inches in length, 3/4 fitted back, with two box pleats, and inverted pleat at centre of back; neatly tailored collar, \$14.75.

The other is of self-striped English worsted, semi-fitted coat; collar edged with moire silk, and trimmed with buttons, semi-pleated skirt; comes in rose, green, navy or black; you can have choice of either of these styles. Wednesday \$15.00.

### WOMEN'S SEPARATE SKIRTS.

New style, just in from our factory yesterday. Material is a fine Bedford cord suiting, in stripe effect of grey, with indigo or grey with green tones. The new double flounce effect is given by narrow tucks of self. Pleated to bottom of skirt, with deep side pleats, \$6.50.

## Some Particularly Nice Waists For Wednesday

AND priced in your favor for departmental reasons.

First:—A collection of Fine Tailored Shirt Waists, all white linenette or splendid English print, in neat stripe effect, black and white or blue and white, deep Gibson pleat at shoulder or front of solid 1/2-inch tucking, shirt sleeve, link cuffs and linen collar. Sizes 22 to 42. Regularly \$1.50. Wednesday 95c.

Then:—300 Waists of fine mull and sheer lawn, made in pretty styles, entire front of Swiss embroidery, cluster tucking, or wide bands of heavy gimpure lace, new princess sleeves, tucked, and fine Val insertion trimmed. Wednesday \$1.39. And:—100 Waists, of fine Brussels net, with seven large white pearl buttons, three patch pockets, colors white, grey or navy; sizes 24 to 42 bust measure, a very smart style. Our special price \$3.00.

pretty shaped yoke, and collar of heavy gimpure lace, front is tucked, and has a panel of insertion to match yoke, finished with dainty crochet patterns, dainty puff sleeves, tucked cuffs and fine lace edging, lined with pure silk, ecru shade or white. Regularly \$5.00. Wednesday \$3.00.

Lastly:—75 Waists, of all-over lace, tucking back and front, side pleat in front, finished with a novelty pleating, and small crochet balls, sleeves has the new cap effect, tucked, and dainty lace cuffs and collar, white or ecru, silk lining. \$5.00 waist. Wednesday \$3.95.

## Stylish Sweater Coats for Ladies

## Famous Corsets Sold Only By Simpson's

MANY of the very best known makers of fine corsets confine the Toronto sale of their goods to this store only. Our reputation as the best place to obtain thorough satisfaction in corsetting has grown as wide as Canada itself. Corset makers with a name to sustain naturally come to us first as a matter of course, with their newest models, and if we desire the exclusive right of sale for our own city, we get it. "There's a reason" Up-to-date corset makers know the reason. The reason is: This store sells more fine corsets than any other store in Canada.

- These are some of the celebrated corsets Toronto women look to this store for, and this store only:—
- Modest Lace Front Corsets, \$8.50 to \$12.00 a pair.

No phone or mail orders filled. On sale Wednesday, Silk Department, 39c yard.

## MAKE A ROOM of your VERANDAH this Summer

EVERYBODY seems to have the open-air idea these days, and a good thing it is, too. But a woman's home-making instinct does not lie dormant simply because in warm weather the family live almost altogether out of doors. The modern house is furnished out doors as well as in. An open-air sleeping balcony is one of the essential dwelling-house features of to-day. And the old-time porch is now a full sized verandah, furnished, not as a doorway shelter, but as a ROOM.

In the first place, you want matting or a rug for the floor. So this coming summer make sure that your verandah is the LIVABLE place it should be, the place where the family gathers to read, rest, sew, chat, receive informal visitors, and, it may be, sometimes in hot weather to have al fresco meals.

Now let us tell you our idea of what the ideal verandah needs, giving you at the same time a little guide as to the cost.

THE CUSHIONS MUST NOT BE FORGOTTEN. You should have Cushions enough for the whole family, and a few to spare for summer guests. Young people sometimes try to get along with one cushion between two, but you must not take them seriously. You want Hammock Cushions, Chair Cushions, Floor Cushions, "Stoop" Cushions—plenty of Cushions.

Denim Cushions, filled Russian down, cost 75c up; filled with feather down, \$1.25 up. Then you want CHAIRS—Verandah Chairs, comfortable, capacious, easy-going chairs. Rattan and willow make ideal verandah chairs. Tables, too, nice, low, light, decorative tables—one or two little tables of taborette size, and a larger one for a work table or a writing and reading desk.

NOW, let us look around our ideal verandah and see what we have. It looks like a living room—only "more so." It seems as inviting to the passer-by as a shady nook in a grove looks to a traveller on a dusty highway. Think how we can help you with your verandah this season.

## The Men's Store Standard

TO put it in one word the Men's Store Stands for the BEST.

We don't simply make that claim as a Circus man makes claims—simply to attract attention. We have a meaning behind it. All the clothing manufacturers of Canada are represented in the range of goods from which we make choice. And you may rest assured we choose the BEST.

Best at the price—and we have all prices. To-day we want to call attention to a line of blue worsted suits at \$13.50

Fine West of England Worsted Suits, plain navy blue and black, in a fine, smooth twill finish. Warranted fast color, and not to gloss readily. Made in this season's latest single breasted sack style, three-buttoned, slightly conforming to the figure, with nicely moulded shoulders and lapels. Trousers semi-peg top style; beautifully tailored; splendid value. Sizes 34 to 42, at \$13.50.

## Do You Wear Pyjama Suits?

DO you still stick to the old night-gown? Most men of to-day favor pyjamas as sleeping garments—and they are fine to lounge in around the bedroom when you enjoy absolute negligence.

We want all men interested to see our display for spring and summer. "Better than you have ever shown," that is the verdict of those who have seen them. They come in cloths that look and are cool; colorings that will appeal to all men; styles that are right in every detail; and prices that range from \$1.50 to \$5.00 per suit. Let us show you on Wednesday.

SPECIAL PYJAMAS FOR WEDNESDAY. 100 suits of Men's English Pyjama Suits, which would sell in the usual way at \$2.00, will be cleared on Wednesday morning at 8 o'clock sharp. Price, per suit \$1.50.

300 Derbies at \$1 Any man with an ambition to own a new hat this spring—a very laudable ambition, too; by the way, and worthy of encouragement, in our opinion—will do well to drop in Wednesday at our Men's Store. We have 300 Hats to sell at \$1.00, and you can call them \$2.00 hats anywhere. 300 Men's Derby Hats, newest spring shapes for spring, 1910; fine grade English fur felt, extra fine silk bands and bindings, with calf leather sweatbands; colors black, brown and fawn. Your choice Wednesday \$1.00.

## Sample Trunks at Half Price

Look ahead for a month or two, and decide to get a Trunk for your trip now. The reason we suggest trunks at this time is that we happen to have secured:

"The Right Way" 50c An important new reprint copy-right. Original \$1.20. Now 50c. "The Right Way," by Sir Gilbert Parker. Printed from original plates and well bound in cloth. On sale Book Department.

46 "Sample" Tourist and Steamer Trunks, from a manufacturer, at "lump" prices, and can give you the biggest "snap" of 1910. These trunks were made to stand the hard usage experienced in long trips, especially the steamer trunks. Made of 17 different styles and sizes up to 48-inch. Iron and fibre bound, with all requirements found in good trunks. Regular prices from \$3.50 to \$18.00. Wednesday's prices from \$2.75 to \$14.00. 50 per cent. Discount. No phone or mail orders.

## China Store Reductions

IS your china supply showing signs of long service? Do you regret several unavoidable "smashes" during the winter?

Replenish from our basement stocks. Note these "special" prices to-morrow. Perhaps you have a wedding present to provide this spring. Let China offer a suggestion.

102-piece Dinner Set, Coronet open stock pattern, of French Limoges china; decoration is small clusters of pink roses and green-foilage, on pure white china, gold stippled handles, edges and border line. Regular \$36.00; for \$23.75.

500 pieces of Fancy China, including Salads, Comb and Brush Trays, Cake Plates, Cups and Saucers, Biscuit Jars, Marmalades, Celery Trays, Handled Bon Bon, Jelly Dishes, etc. Regular up to \$1.00.
