BRITISH SMASH FOE FRONT IN YPRES REGION

Haig's Men Also Win Local Success on Somme River.

ATTACKS IN VOSGES Allies Take Over Twenty-One Hundred Prisoners in Flanders.

London, Aug. 19.—The official report from British headquarters in France tonight reads: "By a successful minor operation early Sunday morning in the neighborhood of the Ypres-Poelcapelle road our line advanced to a depth of five hundred yards on a mile front and all our objectives, including a series of strongly fortified farms, were captured at very slight loss to us. The enemy's losses were considerable. We took several prisoners. "The German prisoners captured by the allies during the fighting Thursday northeast of Ypres are now ascertained to number 2,114, including 50 officers. "Strong westerly winds prevailed yesterday. The activity of our air-planes continued, bombing raids and artillery and photographic work were carried out successfully throughout the day. Three German airships were brought down in the fighting; four others were driven down by our control. Eight of ours are missing. "Storm Hun trenches. "British troops this morning stormed the German trenches in the neighborhood of Gillemont Farm, in the neighborhood of Lempre and Berry, on the Somme front in France. On this same front British raiding parties last night entered German positions southwest of Havrincourt. Field Marshal Haig reports that heavy casualties were inflicted on the German garrisons. "The text of the statement given out by the war office today reads: "We carried out a successful local operation early this morning south-east of Epehy, in which we captured the German trenches in the neighborhood of Gillemont Farm and took several prisoners. Last night our raiding parties entered the enemy's positions in the following manner: "In his lengthy and careful explanation of the measure to the house a week ago the minister failed to develop or explain section three of the bill, which, as drafted, is one of the curiosities of political literature. The Liberals are just beginning to realize what it means and to see that it can be so used as to make their success in the next election entirely out of the question. If the government forces the bill thru the house with this section unchanged a good many members of the opposition will regret having voted against the extension of the parliamentary term. Section three, after providing that the vote of the soldier shall be counted as cast in the riding where he was domiciled at the outbreak of the war, goes on to say: "If he cannot, because of non-residence or otherwise, so state or specify, he shall be deemed an elector of, and his vote shall be applied to such electoral district as he may indicate. It, therefore, would be quite possible to so mobilize and distribute the overseas vote so as to make every doubtful riding safe for the government and it is to be presumed that the great bulk of the soldiers overseas will be anxious to do all they can to uphold the government's policy of compulsory military service. RUSSIAN COMMANDER REMAINS CONFIDENT Gen. Korniloff Telegraphs Sir Douglas Haig Saying His Armies Will Do Better Work.

London, Aug. 19.—(Via Reuters' Ottawa Agency)—Reuters' correspondent at British headquarters in France telegraphs: "General Korniloff has telegraphed Sir Douglas Haig as follows: 'I have the honor to inform you that I have taken over the command of the Russian armies. I am convinced that the re-establishment of strict discipline the Russian armies will devote all their powers at an early date to assist the efforts of the allies towards the attainment of the common objects which unite us. "General Haig replied, assuring Gen. Korniloff of the best wishes of himself and the British armies to complete success of Gen. Korniloff's great task as well as unshaken confidence in the Russian allies under Gen. Korniloff and the victory of the allied cause."

BATTLE ROYAL IS EXPECTED OVER NEW FRANCHISE BILL

Liberals Will Offer Sharp and Determined Opposition to Clause Giving Soldiers Right to Say Where Their Votes Shall Be Applied.

Ottawa, Ont., Aug. 19.—Indications tonight point to a battle royal in the house of commons upon the subject of the federal franchise. It is reported that a bill establishing the federal franchise through Canada will be introduced on Tuesday and it is a fair surmise that the bill will provoke sharp and determined opposition. The provisions of the bill are not made public and all surmises concerning them are the merest guess work. The Liberals, however, are thoroughly alarmed, especially in view of what they consider the dangerous joker contained in Judge Doherty's bill entitled "The military voters' act 1917. "In his lengthy and careful explanation of the measure to the house a week ago the minister failed to develop or explain section three of the bill, which, as drafted, is one of the curiosities of political literature. CANADIANS TRIUMPH IN WORST FIGHTING SINCE START OF WAR

Enemy Accepts Defeat, Giving Canadians Time to Explore Hidden Strength of Positions and Count Number of Germans Killed.

By Stewart Lyon. Canadian Headquarters in France, via London, August 18.—Sunday afternoon.—The enemy has accepted defeat, temporarily at least. Since the virtual destruction of the storming columns which sought to penetrate our new positions at dawn yesterday there have been no organized counter-attacks. The German artillery is still active, and our gun positions have been subjected to bombardment with gas shells. The regulation gas mask affords complete protection, however, and so far it is not so easy to serve the guns when the gas is worn our gunners are still able to find their targets. "The Germans are resting and enjoying bright sunshine and a cooling breeze. Their condition is vastly better than after Vimy Ridge. The whole of the Fourth Prussian Guard division has been used for most counter-attacks, and the losses suffered make it, of its value as an élite force, a doubtful proposition. Four or five hundred bodies were counted along a single brigade front. The bodies were scattered in all directions. Machine gun posts were everywhere. In the chalk pits alone a body of less than 200 men had over 20 machine guns. Our attack was so sudden there that some of these guns never were in action. The Germans information as to our intention to attack was very accurate. Two regimental orders were captured, dated Thursday, one of which said "an attack is expected tomorrow. The other more specific and states that "an attack is expected tomorrow morning. Look out for barrage signals. "It was an alert and well-prepared foe who was driven from Hill 70. The three days' total of prisoners is now over 1,100. "Now that our men have had time to explore Hill 70, its hidden strength is being disclosed, and there are many deep dugouts forty feet or more down in the chalk where nothing short of an earthquake could disturb the occupants. Ghent and Selzaete Are Bombed by Airmen. Terrific Explosions Heard Eighteen Miles Away, Where Some German Shrapnel Fell.

Sas Van Ghent, Holland, Aug. 19.—Terrific explosions of bombs dropped by entente allied airplanes in a raid shortly before midnight on Selzaete, a Belgian town on the Dutch frontier, 18 miles north of Ghent, awakened all the inhabitants of this town. German anti-aircraft batteries were very active, some of their shrapnel bursting over Sas Van Ghent. "Ghent which in normal times has a population of 170,000, also was raided by the entente allied aviators.

German Counter-Attacks on Hill 70 and St. Laurent Are Exhausted in Frantic and Futile Efforts to Regain Lost Ground.

By Stewart Lyon. Canadian Headquarters in France, via London, Aug. 18.—The most fierce engagement on the Canadian front since the beginning of the war is gradually coming to a triumphant end by the exhaustion of the enemy. Since the capture of Hill 70 and St. Laurent on Wednesday morning, the machine guns defending these newly won positions have been compelled to stand by almost without cessation to meet the counter-attacks. The leader of the German troops are utterly regardless of the lives of their men, and as soon as one division has been driven in a frantic and futile effort to recover the lost ground, another is sent forward to the sacrifice. The Fourth Canadian division has been engaged in a series of counter-attacks and during the night a new division, the Two Hundred and Twenty-fifth, was brought up. Passing thru their own lines without stopping, these fresh troops attacked at 4.30 this (Saturday) morning on their "left flank" sector, north of Hill 70. The attack was a complete success. Our watchful artillery rained upon the Germans an immense barrage, which caused heavy losses, but they continued to advance with the utmost determination. At a distance of only 70 yards from our lines, the machine guns were turned upon the attacking groups and they broke and ran for cover. "Eleven Hundred Prisoners. "Better luck initially, but greater eventual success attended their effort to break thru south of St. Laurent. Their effort penetrated our first line trench, but were driven out again as the result of a counter-attack at once organized. In these desperate struggles the Germans are using gas, the rifle, bayonet and bomb. The losses mount up, but all the competent authorities give the assurance that those of the German line are greater than ours. The prisoners now number over eleven hundred. "One of the most heroic deeds put on record in the Canadian corps since the war began is that of a runner of Col. Ormender's Alberta Battalion. The company to which he belonged was attached was not only engaged near the chalk pits, and he was given a message to take back to the battalion headquarters. He was in the line when shells were falling continuously. He had not gone far when he was seen to fall, and another runner was at once ordered to take the message. The second messenger was killed midway on his journey, but two hours afterwards his first one arrived at the battalion headquarters with the left arm blown off near the shoulder. His terrible wound had been roughly dressed in the field and the messenger, far spent from loss of blood, had been staggered on to do his duty. He was removed in a dying condition, but he carried his message. "A fine example of bravery and resourcefulness was given by a Russian private in the same battalion. As the platoon to which he belonged approached the chalk pits they came under machine gun fire. The Russian, going forward, found the muzzles of two machine guns sticking out of the entrance to a dugout. One of them was in action, sweeping the line of advance. To get in front of it, the only way of tackling the crew concealed in the entrance, meant instant death. A piece of plank lay nearby. To the Russian it was a heaven-sent weapon. With it he struck the protruding gun barrels so hard a blow that they and their crews went clattering down to the bottom of the dugout, whence cries of "Kamerad, Kamerad." At that moment a rifle bullet struck the elbow of the Russian, depriving him of the use of one arm. Holding his rifle, with its fixed bayonet, at the charge, in one hand he ordered the German to come up. They came, an officer and five men, who were duly turned in with their machine guns.

RUMANIAN RESISTANCE CHECKS FOE'S ADVANCE

Russians Also Solidly Defend Line in Region of Vlna--Turks Are Smashed on Road to Kharput.

London, Aug. 19.—There has been a considerable stiffening in the front in Rumania and also in Russia in the region of Vlna. South of Grozschti, southern Moldavia, the Russians have made a stand against attacks of the Teutonic allies and repulsed them, and in the Sianic sector also have beaten off attempts by the invaders to take further ground. In the Lake Narocz district of the Vlna front the Germans endeavored to win Russian trenches, but their attack broke down under the Russian barrage fire. "German troops yesterday attacked the Russian positions near the village of Stakhovey, on the Vlna front, but, according to the Petrograd war office, the attack broke down under the Russian fire. "On the Rumanian front Austro-German general timon assaulted the Russo-Rumanian lines south of Grozschti, in southwestern Moldavia, but were repulsed. The battle in the Sianic region lasted all day, and ended in the evening with the Teutons being repulsed. "Reputed by Barrage. "The text of the statement follows: "Western (Russian) front: South-west of Lake Narocz about two companies of Germans, supported by artillery fire, attacked our trenches in the region of the village of Stakhovey, but were repulsed by our barrage fire. On the rest of this front there were fusillades and scouting reconnaissances. "Rumanian front: In the direction of Oena the enemy last night launched several attacks south of Grozschti, but was repulsed. Yesterday in the region of Sianic there were battles with variable success until evening, when all the attacking forces were heaped up. On the rest of this front there were fusillades. "Caucasian front: In the direction of Kharput unimportant Turkish attacks were repulsed. On the remainder of the front there were fusillades. "In the region of Oena, Moldavia, heavy fighting continues, but only artillery firing is reported from the Fokshani area. The Russian official statement reads: "Western (Russia) front: There were fusillades and scouting encounters. "Stalemate in Rumania. "Rumanian front: In the direction of Oena yesterday battles raged in the regions of Sianic, Grozschti and at the factory of Taklerie. By evening all attacks were repulsed. The enemy succeeded only in occupying a few of our trenches south of the river at Sianic. In the direction of Fokshani there has been artillery fighting. On the rest of the front there were fusillades and scouting engagements. "Caucasian front: In the region north of the Sviast road our scouts made a successful reconnaissance and captured ten prisoners.

ITALIANS OPEN ATTACK WITH TRIESTE AS GOAL

Struggle Begins on Thirty-Seven Mile Front From Tolmino to Adriatic Sea--Battle Rages Bitterly.

Vienna, Aug. 19.—Via London, Aug. 20.—The Italians have begun another big offensive against the Austrians in the Isonzo region of the Austro-Italian theatre, where fighting is in progress over a thirty-seven mile front, running from the region of Tolmino to near the head of the Adriatic Sea, on the Carso Plateau. This information is contained in the war office communication issued today, the text of which follows: "Eastern theatre.—There is nothing of importance to report. "Italian theatre.—The Italians have attacked the coastal territory on the Isonzo, which has belonged to Austria for centuries past. After the strongest of artillery preparation, lasting a day and a half, which was followed yesterday afternoon by reconnoitering raids, the enemy infantry early Sunday morning attacked between Mrzilvrh and the sea. "The struggle is raging with the greatest bitterness on almost all the sectors of this sixty kilometre front, near Tolmino, northeast of Canale, between Desola and Monte San Gabriele, south of Gorizia, and on the Carso Plain. The reports received up to this time are entirely favorable. "In the Balkans the situation is unchanged."

REVOLTS IN FINLAND PUT DOWN BY TROOPS

London, Aug. 19.—Great revolts have taken place in the leading towns of Finland, according to advices received at Copenhagen thru channels opened by the raising of the Russian news embargo on the frontier of Sweden and wired by the correspondent of the Exchange Telegraph Company. "Foodstuffs were seized by the Finnish populace and the authorities seized whatever supplies remained. Public order is now being restored in Finland by the arrival of fresh troops.

GEN. PURGASOFF KILLED BY MUTINOUS TROOPS

Petrograd, Aug. 19.—A report has been received by Premier Kerensky, according to The Novoe Hermye, of the killing of General Purgasoff by soldiers. A certain company of soldiers, the paper states, refused to recognize a newly-appointed commander whereupon General Purgasoff ordered the company disbanded and the leaders of the mutiny arrested. The mutineers then surrounded Gen. Purgasoff and beat him to death with the butts of their rifles before help arrived.

### ONE MAN KILLED WALKS TO DEATH IN RIGAUD PLANT THRU GANGWAY

Six More or Less Seriously Hurt in Powder Explosion.

### BUILDINGS DESTROYED HUGE CROWD ABOARD

Hysterical Workmen at First Said Two Hundred Were Killed. Police Are Investigating the Case and Some Arrests May Follow.

Montreal, Aug. 19.—One man dead and six more or less seriously injured were the known human toll taken in a terrific explosion, or series of fifty-two explosions, Saturday morning at the powder plant of Curtis & Harvey Company, Limited, at Rigaud, Quebec, that literally smashed most of the houses in the vicinity and broke windows and shook houses miles away. This estimate is given by T. H. Curtis, vice-president and managing director of the Curtis & Harvey Company, but there are fears that more may have been killed or injured, as it has been practically impossible to ascertain definitely the full extent of the loss owing to the condition of the destroyed buildings and the fact that the employees got as far away as possible from the scene of the disaster and have been difficult to locate. Two hundred and fifty men were in the plant when the first explosion occurred. Some of those escaping were hysterical from the shock and expressed the belief that more than two hundred must have perished. The dead man was Gordon Shorttred, an Englishman, an expert who was employed as foreman at the plant.

Two of the injured are in the Royal Victoria Hospital, this city, suffering from compound fractures of arms or legs. Richard Lyle, 23 years old, Montreal, and Ernest Sullivan, others known to be injured are: Evarista Hernandez of Rigaud, right arm; J. Leclair, Rigaud, two ribs broken; Augustin Barras, a Belgian, electrician, slightly wounded in the head by flying bricks as he was seeking safety. Others had narrow escapes from hot, jagged masses of iron that went hurtling thru the air amidst the explosion, which started at about 8.50 a.m.

Loss is Two Million. The monetary loss is placed at \$2,000,000 by Mr. Curtis. It was an accident pure and simple according to Mr. Curtis, due to a chemical reaction in the flaring section of the plant and was not due to neglect or any defect. "The thing which happened," he said, "might happen at any plant at any time."

In view of the fact that the Village of Dragon, in the vicinity of the plant was almost wiped out by fire and that tons of metal were distributed around the country for three-quarters of a mile, the ground being dotted with twisted fragments of iron pipe, boiler plates, etc., a portion of a boiler lying over a ton flying half a mile away, it is marvelous that there was not a heavy loss of life. The first explosion occurred at 8.50 a.m. The first explosion occurred at 8.50 a.m.

There will be an inquest.

### WAR SUMMARY THE DAY'S EVENTS REVIEWED

THE British, in a successful minor operation in the region of the Ypres-Poelcapelle road, in Belgium, yesterday captured a series of fortified enemy. They took some prisoners and inflicted considerable losses on the recent big advance. The total number of prisoners captured last Thursday had reached 2114. The British, on the front between Lemper and Berny, on the Somme, also carried a nest of German trenches about Gillemont Farm, southeast of Epehy. These two successes materially improve their position for the next advance, or for further attrition tactics.

The Canadians before Lens have beaten the enemy to a standstill, so he has had to desist from his counter-attacks. The German troops had orders from high quarters to retake Hill 70 at all costs, but these all costs have not sufficed to recover it. The foe attacked the Canadians with gas shells, flammenwerfer, rifle grenades, bombs, waves of massed infantry and a backing of intense artillery barrages. The Canadians resisted with boiling oil drums, gas shells, hand grenades, machine guns and the bayonet. The recent fighting before Lens is declared to be the most furious hand-to-hand fighting that the Canadians ever experienced. The battle involved more fighting with the bayonet than previous actions on the western front.

Under the withering, devastating power of British artillery fire, the Germans have had to adopt new plans of defence in the place of the heavy, barbed wire trench zones, so familiar to every student of the front. The enemy is resorting to the same conditions of defence as he had to adopt in the last phases of the battles of the Somme in 1916. The Germans, when they are in their massive trenches, well-like dugouts and concrete emplacements, now take to shell holes, converted into fortified nests with connecting dugouts, spread thru a deep zone. This scheme, however, does not work very well in Flanders, where when they scratch the surface of the ground static warfare is over. He means that the equilibrium which has existed between the rival armies in the past thirty months is upset, and this of course means that a war of manoeuvre is impending.

A message of General Koenig to Sir Douglas Haig expresses the conviction that on the restoration of discipline the Russian armies will devote all their powers, at an early date, to the assistance of the allies' efforts to achieve the objects fought for. This despatch virtually promises originally intended, to subject the enemy to converging pressure from all points, instead of only from the western and Italian fronts, as the disorganization of Russia has limited them in the past campaigning season.

In Rumania the allies continue to hold the Germans in check in the all-important Fokshani region. They have also repulsed attacks in the pulse of the attacking German forces. The Russian forces in the Caucasus struck the Turks a severe blow when they captured a series of fortified villages in the direction of Kharput, south of Pelmar. As the Turks have undertaken an offensive in the direction of Mosul, forcing the Russians there back a little, it is not known whether the Russians launched their attacks as a counter-measure to relieve pressure in this direction or whether the Turks launched their attacks to divert the Russian efforts from Kharput.

The Italians have thrown out signals of an impending advance by beginning to shell intensely the Austrian lines between Monte Nero and the sea, comprising the front of the Isonzo and the Carso Plateau. They have also gained an aerial ascendancy and they are making use of it by dash in these encounters, with an ability to push forward as fast as conditions of ground permit. The country in which the campaign is proceeding presents great difficulty for the advancing soldiers to consolidate their new positions.

### MY WONDERFUL TOY

By ROBERT PARTRIDGE  
Speak to them, pride of my heart,  
Let your burning breath bring  
To that jumbled grey cloud a part  
Of the Anthem you sing  
Defiance, with justice, you wonderful toy,  
Whose loud roaring voice speaks our pride and our joy.  
Eagerly see how I feed that wide gaping maw;  
While your metal thrills throbs in response to my pleading.  
Fashioned by masters, never a blench or flaw,  
To mar thy intent as thy spirit is leading  
Us on to avenge the wrongs of Nations, bleeding  
With Anarchy, "Kult," and Oppression. Oh Boy,  
I KNOW you can do it..... My wonderful toy.  
Lives there a lover so ardent, true or devout?  
Sounds the voice so persistent in thy devotion?  
So long as I nurse you with care, aye; you will rout  
Those sin begrim'd swine whose reward is their potion  
Or lead..... white hot LEAD..... Thine own pain killing lotion,  
Thy hand with justice, you wonderful toy,  
To conquer a world, tho its people will bleed.  
Tell them our answer, my pet  
With thy metal thrills throbs in response to my pleading.  
In a tone they'll never forget,  
And so make us rejoice  
In thy power superhuman, so to destroy  
Arrogance, cruelty and lust..... You wonderful toy.....

### HAMILTON NEWS

Hamilton, Aug. 19.—Carelessness in the handling of a motor boat on the bay Saturday afternoon almost cost the lives of a father and his son. Herbert Soper, 56 Locke street, and a companion were fishing with their boat in which they were fishing was cut in two. The fishermen were near the bay side of the south pier when they observed the power boat rushing toward them. They "hallooed," but before they could rush out of the danger zone their boat was saved by a slinging to a piece of wreckage, and his companion caught the painter of the motor boat and was pulled aboard. Soper was taken aboard later. The boat was in charge of some youths, who were accompanied by a number of young girls. Plans for winter training of the 15th Royal Regt. have been completed and they will commence at opening of drill Sept. 1. Two field days will be held, the first on Sept. 15 and the second on Sept. 22. Instructions in musketry work, bayonet fighting, and other exercises on the syllabus of training for the militia, will be indulged in and instructors from Camp Borden will be in charge.

### EX-CZAR TO RESIDE IN SIBERIAN TOWN

### CENTRE FOR EXILES

New Dwelling Place of Deposed Emperor Once Served for Political Ostracizing.

Petrograd, Aug. 18.—It was officially announced today for the first time that the new residence of the deposed Russian emperor, Nicholas, is at Tobolsk, a western Siberian town which recently achieved a certain dubious publicity in revolutionary Russia as the birthplace of Gregory Zaslavsky, a western Siberian, who wielded a remarkable influence over the ex-emperor's family up to the time of the priest's assassination in Petrograd, December, 1916. The official announcement says: "Owing to reasons of state, the government decided to transfer to a new residence the ex-emperor and ex-empress, who are detained under guard. The place selected was Tobolsk, where they were taken after requisite measures to insure their safety. With them went of their own free will their children and certain of their entourage."

According to some newspapers the ex-imperial family will reside permanently in the former governor's palace at Tobolsk, which is a large house without any improvements, built in the eighteenth century for a local speculator. Nicholas spent one night there in 1891 when returning from his visit to the far east. Other newspapers say the ex-emperor and empress will stay at the ex-emperor's palace one week and then will be sent to the Apastak monastery in a forest 20 miles outside the town.

Tobolsk years ago was the administrative centre for exiles banished to Siberia. It is on the eastern side of the Ural Mountains and about 1,500 miles from Petrograd.

In addition, six enemy machines were forced to land within their lines, seriously damaged in the night of Aug. 17-18 and in the day of Aug. 18 aeroplanes bombarded the railway stations at Cortemarck, Thourout, Lichtervelde, Ostend and Combrail; encampments in the forest of Houthulst, the railway station at Dun sur Meuse and ammunition depots at Bantouville. A fire broke out in the Cambrai station and establishments."

After violently bombarding the French positions German troops last night made consecutive attacks on the French trenches in the Friest Wood, west of the Muerthe and Moselle River and in the Vosges Mountains east of Badonvillers north of Celles sur Plaine. The French official report issued today says all the German assaults were repulsed and that the Teutons suffered heavy casualties. German surprise attacks on the Aisne front, it is announced, also failed. The text of the statement follows:

"There were artillery actions on the Aisne front, notably in the sector northwest and east of Rheims. Enemy airplanes were brought down and

## Poor Tubes Cost More Than You Pay

You must add to the cost price of a poor tube about half the value of the casing it ruins.

For poor tubes do ruin casings. Poor tubes allow slow leakage of air. Slow leaks cause imperceptible, and so most dangerous, under-inflation. Under-inflation is the greatest of all tire enemies.

These are the reasons we advise motorists to look carefully to their tubes. These are the reasons we put thousands of dollars into extra cost every year to build Goodyear Tubes by the lamination process.

This is the right way to build tubes—to take highest quality rubber and roll it out tissue-thin for rigid inspection. Then to build up the flawless sheets, layer on layer, into a perfect tube, extra thick, extra-well fitted for its duties.

And because greater mileages from Goodyear Tires will make friends for us, we advise the use of Goodyear Tubes.

It is of value to you that Goodyear Tubes give additional value in long service and satisfaction. Remember the name Goodyear when you buy tubes.

### The Goodyear Tire & Rubber Co. of Canada Limited

Goodyear Tubes, along with Goodyear Tires and Tire-Saver Accessories, are easy to get from Goodyear Service Station Dealers everywhere.

### ROBERT HALL RE-ELECTED.

Regina, Sask., Aug. 18.—Robert Hall, broker, of Prince Albert, who represented Cumberland constituency in the last provincial legislature, has been re-elected by acclamation.

### SCORE'S HIGH-CLASS HABER-DASHERY.

Men are finding out every day that it costs no more to make choice from the Score's assortments of distinctive and exclusive haberdashery than assortments from the commonplace. Just now many of the late summer and early autumn lines are being offered at attractive discounts. The prediction of a long, warm autumn seems to be reasonable one, and for that reason it is timely to make mention of such things— and summer shirts, collars, neckwear, underwear, hosiery and other wear for men who discriminate. R. Score & Son, Limited, 77 King street west.

### THREE CARS COLLIDE.

Hamilton, Monday, Aug. 20.—H. H. Sherman, garage, collided with their motor car at the corner of King and Park streets Saturday night. There were a number of women in the cars, but not one was injured.

### GERMAN WORKERS WANT ENOUGH POTATOES

Men in Essen and Other Points Threaten to Strike.

London, Aug. 19.—A strike of workers in the Essen and Dusseldorf districts is threatened, according to despatches from Amsterdam to the Exchange Telegraph Company. The workers demand ten pounds of potatoes weekly. At a meeting arranged between labor delegates and the war food department, it was declared that it was impossible to give the workers more than eight pounds of potatoes during the next 20 weeks. To make up for the shortage in potatoes, a slight increase in the bread and meat rations might be granted, the labor delegates were informed. The reply of the workers has not yet been received.

Conscripting Wealth.

When the new war income tax was first announced and the statement made that the war business tax assessed this year and payable next year would lapse with the end of the year, we supposed that it went without saying that the business tax would be renewable under further legislation.

Only One Ton in Three.

There are 246,000 tons of coal in the city according to the latest estimates. Toronto needs 500,000 tons more to complete the winter supply.

Aeroplanes.

Aeroplanes are the doves of peace as well as the falcons of war, according to the military experts—always excepting the Canadian official decision, still on record.

Street Railway Wages Agreement.

It has been stated that the only thing that remains for the conciliation board to do, acting between the street railway and the men in settlement of the recent strike, is to arrange the wage schedule for the next three years.

Reasonable Agitation.

There is much outcry from a small section of society as to the alleged necessity for freedom of speech, and freedom being intended to cover every form of traitorous, treasonable utterance that a pro-German, an anti-Britisher, or any other form of unpatriotic citizenship can evolve.

Five Men Charged With THEFT OF MOTOR CARS

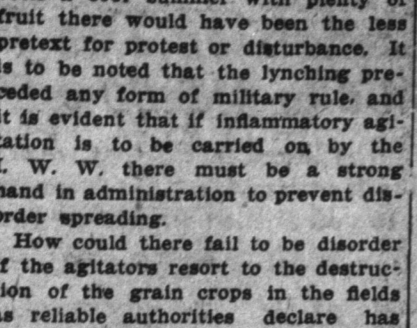

Remanded on Bail When They Appear Before Col. Denison. Five men were charged before Magistrate Denison in police court Saturday morning with the theft of motor cars and were remanded until the 23rd for trial.

WILLIAM RICHARDS DEAD.

William Richards, aged 70, 259 Davenport road, who was struck by a Dundas car at Dundas and Davenport road Friday night, died in Western Hospital Saturday night.

The Real Reason Why Your Hands or Feet Become Numb

By DR. LEONARD KEENE HIRSHBERG, A.B., M.A., M.D. (Johns Hopkins University)

There is hardly a person who has not, at some time, awakened at night with numb thumbs or fingers. Some persons have numbness somewhere some of the time, while some have it all of the time, while everybody has it somewhere, some time or other.

COOKING ECONOMIES

INEXPENSIVE FRUIT DRINKS FOR HOT SUMMER DAYS

Like the obtuse person who in trying to repeat the formula of household economy, "Eat what you can and eat what you can't," and succeed in twisting it into "Eat what you can't and eat what you can," we want to suggest that during the hot season "Eat what you can and bottle what you can't."

AUSTRIAN BOMBS HIT BIG WONDER OF WORLD... Famous School of St. Mark at Venice Sustains Damage.

Rome, Aug. 19.—Austrian airplanes which bombarded Venice last Tuesday dropped explosives on the civil hospital which forms a part of the famous school of St. Mark. This school, with its neighboring statue of General Bartolomeo Colonna and related church of saints John and Paul, containing monumental tombs of the Doges, is considered one of the greatest wonders of the world.

The chief wound in St. Mark's school, which was inflicted by the falling bomb, was struck by a bomb. One-third of the ceiling was destroyed, the falling fragments causing victims among the patients underneath. Fortunately no artistic damage was done either in the hall below or to the facade. The latter is decorated with unreplaceable sculptures and has relics. All the fragments of the ceiling were carefully assembled, and will be preserved for reconstruction later.

Maintain Strict Reserve Concerning Pope's Note... Rome, Aug. 19.—Reports received from Holland maintain the strictest reserve concerning the Pope's peace note. It is supposed that hopes are entertained in Holland that both groups of belligerents will eventually ask the Queen of the Netherlands to act as intermediary, thus making it advisable to remain aloof from any attempt to bring about peace which is destined to fail if undesired by both sides.

RADICAL CHANGES MADE BY GERMANS

Methods of Defence Have Been Altered to Save the Men.

FIGHT IN SHELL HOLES Advance Forces Are Being Scattered Over a Great Depth.

British Front in France and Belgium, Aug. 19.—(By the Associated Press.)—The beginning of the fourth year of the war has seen the Germans rapidly making a radical change in their methods of defence along the British battle-front in northern France and Belgium.

The enemy is adopting the system of scattering his advance forces over a great depth. Cunningly constructed strongholds among the myriad of shell holes along the front now conceal innumerable small and more or less isolated garrisons of men who formerly fought shoulder to shoulder along great stretches of picture-postcard ditches, through which communication was not broken for miles.

This alteration has been brought about by the ever-growing preponderance of British artillery, which has buried the German front-line trenches under an avalanche of shells and has left the defences nothing but hooped furrows of earth and has rendered the famous dugouts mantraps, in which countless thousands have lost their lives without a chance of fighting back.

The continuous deluge of breaking steel made repair work on the trenches impossible, and as the Germans were gradually pushed back, they of necessity were forced to invent another method of stemming the ever-advancing tide.

So it has come to be a matter of defence upon which the German depends in many places rather than the strength of his first-line trenches. The recent allied offensive east and north of Ypres, disclosed many examples of this new scheme of fighting which bids fair to alter the tactics of the last three years.

Shell Hole Nests. Wherever the German front-line trenches have been made untenable, or where a British attack is expected, one finds the new order of things. The first German lines now often consist of strong outposts concealed in shell craters or copses, and with a considerable distance apart. Back of these outposts are chains of shell hole nests, each nest consisting of two or three chambers connected by underground passages that often penetrate dugouts. As the entire territory is pitted with holes, this is easy of accomplishment, and it may be presumed that the German will be very hard for the allied observers to pick out the defended shell holes from the thousands of others scattered about.

Where necessary, the German has made elaborate care. Each nest is heavily protected by barb wire, and the chambers beneath are reinforced with timber and concrete. In these the infantry lurk with machine guns and rifles, ready to rush out and begin firing if an attack is launched against them.

Have Rear Exits. Many of the shell hole nests have rear exits underground which lead back to what is called the first fire line. A few yards behind the shell hole nests and situated half way between them are machine gun emplacements, which command the opening into the nests. Thus, if the attacking troops enter the shell hole nests they are met by a deluge of machine gun bullets. Still further to the rear is the first fire line, which may be some sort of trench, and merely a chain of shell holes connected by a more or less solid front. Even reserves are often sheltered in the shell holes.

The villages which present an easy mark to the British artillery are being avoided by the Germans. An illustration of this was to be seen at Langemark, where the British troops were most complete, but when once the British had battered their way into Langemark they found troops defying it.

Back to fall this deep front the Germans undoubtedly have continued to employ the old system of trenches, but should the advance of the allies continue, as, in turn, will undoubtedly give way the shell hole system. The Germans have also taken advantage of every farm house in the construction of strong concrete redoubts for many miles.

In case they have constructed steel and concrete forts, small but almost impervious to artillery fire. Numbers of these strongholds are built entirely underground, the only exit being through a steel trap door, by means of which the Germans come out to set up machine guns. A large number of these redoubts have been found to the east and north of Ypres, and the territory over which the French fought to the left was mainly defended in this way. In innumerable cases it happens that the advancing allies swept beyond the Germans concealed in shell holes or in concrete dugouts. Invariably the British have to put up with sniping from the rear, but ultimately they are forced for every German who is remained behind.

The defences within Lens and suburbs are striking examples of the German tendency to depend more and more upon large numbers of semi-isolated garrisons, rather than mass their men in trenches, but that this would be at the mercy of British artillery. Lens is a city of concrete, and the ground beneath is honeycombed with tunnels. Almost every street has been destroyed by the Germans and the ruins have been fortified with machine gun emplacements.

Military Incidents. So long as the Germans remain on the defensive, it is improbable that they will return to the methods of warfare inaugurated when they swept forward and were pushing the allies hard. The fighting among these new German defences has given rise to many thrilling incidents. In the battle about Langemark on the opening of the latest offensive, a young officer

NEW CHANCELLOR SPEAKS TUESDAY

Dr. Michaelis Will Make Reference to Papal Peace Note.

REITERATE WAR AIMS Socialists Will Ask Reichstag to Make a Definite Statement.

Berlin, Aug. 19, via London.—In connection with the meeting of the main committee of the reichstag on August 21, there is the prospect of a social democratic interpellation calling on the government to reiterate its war aims.

The Norddeutsche Allgemeine Zeitung announces that Dr. Michaelis, the imperial chancellor, will take the floor at Tuesday's meeting for the purpose of pointing out to the general discussion and he also will make reference to the papal peace note.

Dr. von Kuehnemann, the new foreign secretary, has postponed his visit to Munich, Bavaria, to be present at the committee meeting, at which it is expected that the newly appointed government heads not only will make their debut but will have ample opportunity to rub elbows with the reichstag deputies who make up the committee.

The reichstag's main committee has all the functions of a parliamentary body and it is likely that some of the loose threads which were left hanging when the chamber crisis set in will be picked up again.

While the political atmosphere shows much indications of being changed with the customary amount of unconfirmed rumors, it is believed the forthcoming session will resolve these into a frank discussion of standing political, military and economic questions.

## DUKE IS HOPING TO MEET VETERANS

### His Excellency Wishes That Many Attend Exhibition Opening.

### TO PRESENT CROSS Will Hand Decoration to the Father of Late Sergeant Sifton.

His Excellency the Duke of Devonshire has expressed the wish that as many as possible of the veterans of the great war be on hand on opening day at the exhibition to take part in the presentation of the Victoria Cross of Mr. J. Sifton of Wallaceown, father of the late Sgt. Sifton. A large number of the men are at work in munition plants and other industrial establishments about the city, but a number of employers are already enthusiastically co-operating and have shown a willingness to allow the men sufficient time off to take part in the event.

Officials of the association have the matter in charge, and expect a large attendance. A meeting of the executive of the veterans' association will be held on Thursday afternoon, when final arrangements will be made for the demonstration.

The veterans of other wars are also showing a keen interest, and a large turnout of these is expected, together with a representative gathering of the school cadets under Col. Thomson. Arrangements will be made to comfortably care for the convalescents from the various local hospitals who have expressed a desire to be present in full force.

Mr. Lew Ross, director of music for the public schools, expects upwards of 2,000 children to take part in the opening chorus arranged in honor of his excellency.

There is a fervent activity at the grounds. Representatives of James T. Clyde of Chicago, the "Upright" Midway man, who had changed a year ago and will again have the privilege this year, have arrived and have started the work of staking out the locations for the various shows. The World at Home shows are coming direct from the big summer circuit in western Canada, where they made a tremendous successful attack on the loose change of the people of Calgary and other places, and promise to repeat their successes here. The shows under Mr. Clyde's direction made a record attendance and revenue at the Exhibition a year ago.

### GIRLS SWIM TO WARD'S IN LESS THAN AN HOUR

### Cover Distance From Foot of Bay Street to the Island in Splendid Time.

In 57 minutes Miss Margaret Pickard, 490 Dovercourt road, yesterday morning swam across the bay from the foot of the Bay street docks to the wharf at Ward's Island. Three other girls also completed this difficult one-mile and a quarter swim, two of whom, Miss Olive Bettle, 997 Dundas street, and Miss Evelyn Wilton, Wilton Crescent, did the trip in 59 minutes. Three minutes later the last of the four, Miss Margaret Boutwell of Ward's Island, reached the wharf.

With the weather clear and the water warm the day was ideal for the four swimmers, who crossed the bay with little difficulty and without exertion. They were each accompanied by a rowboat, while the four of them were watched by Captain Chapman and his life-saving crew.

Also it was 10 o'clock when the four girls entered the water, a good crowd was on hand to see them cross the bay, when they reached Ward's Island the islanders were out in large numbers to cheer them.

Miss Pickard is the swimming instructor at the McGill Street Y. W. C. A.

## PLAYS, PICTURES AND MUSIC

### "A DAUGHTER OF THE GODS."

In "A Daughter of the Gods," the million dollar picture beautiful produced by William Fox and which will be presented at the Grand Opera House during Fair week, commencing Saturday August 25, will be found to be the very "pageant of enchanted song and beauty" as the poet, John Ernest Warren, recently expressed it. Indeed, the impressive grandeur and mystery of the sea have never before been so vividly and enduringly fixed upon the screen. The sea-maidens form the most fascinating and adventurous division of an army of 31,215 men, women and children, which figure in this master production. During the engagement a matinee will be given every day.

### LOEW'S THEATRE.

Featured on the screen this week at Loew's Yonge Street Theatre and Winter Garden is a decidedly novel play, "The Family Hour," a powerful drama with Robert Warwick and June Elvidge in the principal roles. An attractive vaudeville program is headed by "Zealand," a musical extravaganza at the piano, with The MacKlaren, the celebrated Scotch singers, dancers and bagpipers, as the added attraction. The program will include Willard Hutchinson & Co. in the playlet, "A Leap Year Leap"; Mumford and Thompson; "Cy" Jenkins and Virginia Allen; the "Three Jennetts," and Orben and Dixie, southern singers and dancers.

### EXPLOSION PICTURE AT LOEW'S

There will be shown on the screen today and for the remainder of the week in conjunction with the regular vaudeville performance and other film features at Loew's Yonge Street Theatre and Winter Garden, remarkable pictures of the terrible explosion which occurred at the Currier & Ives' studio on Saturday, July 19, 1917. The pictures reached the scene shortly after the first explosion, and secured excellent pictures, showing subsequent explosions and scenes of the miraculous escape of several thousand employees who were in the danger zone for several hours. They will be shown constantly at Loew's.

### THE HIPPODROME

Commencing with a matinee this afternoon the Hippodrome management will present as the headline attraction for this week's bill, William S. Hart in "Wolf Lawry," a thrilling story of the west of the olden days. The picture, which will be shown at 1.35, 4.15 and 8.15 p.m., contains numerous thrilling scenes, including a dramatic rescue of a young girl from the hands of a desperado. The picture is presented by a capable company, will present something new in ventriloquism. The Guy Barton Trio of singers and dancers have a bright and pleasing offering; while Miller and Green, a dainty variety orchestra, will present a series of unique and "chatter" offerings. Green, Miller and Green, a dainty variety orchestra, will present a series of unique and "chatter" offerings.

### THIS WEEK AT SHEA'S

Heading an all-star cast for the reopening of the vaudeville season at Shea's are Elizabeth Byles and Charles King, the popular musical comedy stars so well known here. Commencing with a matinee this afternoon, the program will include a melange of mirth, melody and music, with the dainty Japanese, Haruko Onuki, in "A Bit of Musical Comedy in a Dainty Japanese Way." Haruko Onuki, in "A Bit of Musical Comedy in a Dainty Japanese Way," has a repertoire of song selections, Joseph E. Bernard, in "Who is She?" causes merriment. Browning and Denny, newcomers to Shea's, have an original offering. Phina and Pinks, in a show of mirth, melody and music, come particularly recommended; while Val and Ernie Stanton, the droll, daffy duo, provoke many laughs. Sully, Rogers and Sully, trampoline bar experts have a most interesting offering with the Bullwinkle and his life-saving crew. The offering and Feature Film comedies, complete an all-star bill for opening week.

### GAVETY.

Extravagant claims are hardly extravagant if they are based upon truth and that is why the producers of the great "Star and Gavety" show have no hesitancy in announcing that the production offered this season, which will be presented all the week at the Gavety Theatre, is the greatest, really the biggest and the most magnificent offering ever made in this city. It is a good fortune that secured the best comedy in the history of this aggregation, known as "Fox Art's Sake" and "Hingie Dingle" and as the name implies is an uproarious series of events baffling the entire company.

### STAR.

"Laugh and Grow Fat" is an adage borne by the Military Mads Company. This season's performance is no exception, in fact, the show is a

### Miss Emma Pense of Kingston Receives Order of Red Cross

Miss Emma Pense of Kingston, one of the first Canadian nurses to go to the front, has been invested by the King with the order of the Royal Red Cross, she being the second Canadian to receive this honor. The investiture took place in the presence of Her Majesty Queen Mary, the Queen Mother, Alexandra and the Duke of Connaught.

### WOMEN'S COLLEGE HOSPITAL

The Women's College Hospital reports that during two weeks of July their entire accommodation of 24 beds were occupied and 14 babies cared for. The maintenance account was \$216.18 and expenditure \$231.92. The cornerstone of the new building, on which work is now in progress, will be laid in about a month.

### GIVEN OUTINGS BY MISSION.

Over 200 children and a number of tired mothers were given two weeks' rest and change at Lake Simcoe by the Downtown Mission. Also 63 hungry girls from the St. Patrick Club were given an outing and 50 little girls were last week included in the summer remembrances.

### George Beban at Madison

In "The Cook of Canyon Camp," the Morosco production which is to headline the bill at the Madison Theatre for the first half of this week, George Beban has the part of a French-Canadian chef of a lumber camp, whose chief ambition in life is to own a "flapjack" palace. The story was filmed in the California mountains, and the photography is marvelous.

### BAND AT HANLAN'S POINT.

The Imperial Concert Band, under the able direction of Walter M. Murdoch, gave two splendid concerts at the Island yesterday. During the afternoon and evening the band rendered different programs that were admirably chosen and arranged from the highest musical works. Large crowds were present at both concerts.

### HELD FOR THEFT.

John Smith, who gave his address as 27 Brookfield street and Mary Woods of 30 Mercer street were taken into custody Saturday night by Acting Detective McConnell on a charge of stealing \$50 from Lawrence Whalen of Cobalt, Ont. According to the police, Whalen and the woman involved in the theft of the Mercer street house and there robbed him of the money.

### THEFT IS CHARGED.

Beatrice Graham, 86 McCaul street, was arrested yesterday afternoon on a charge of theft by Acting Detective Thompson. The complainant is Mrs. Margaret Anderson of the same address, and the arrest was made following a search of the premises.

### REGENT'S BIG OFFERING.

A powerful story of the great outdoors, the machinations of an unscrupulous scoundrel to ruin a rival suitor, thrilling conflicts of brain and brawn, an adventurous romance that finds its own after a brief might be said to partly describe the picture, "Then I'll Come Back to You," which is presented by the Regent Theatre this week, starring Albee Brady, Victor Moore in a clever comedy, the Regent News Weekly and the Regent Symphony Orchestra complete a well-balanced bill.

### "HATER OF MEN" AT STRAND.

In "Hater of Men," the new Triangle feature to be presented at the Strand Theatre today and tomorrow, Bessie Barricade has the part of a pretty young newspaper woman who declares ruthless warfare on the members of the other sex. Bessie Barricade's part is one after her own heart, and she

## NORTH TORONTO'S SATURDAY MARKET

Buyers Came Early and Brought Small Change and Baskets.

### PRICES TOO VARIABLE

Farmers Should Remember Prices Must Be Lower Than Retailers.

There was an increased attendance at North Toronto market Saturday, and the market was very busy.

The high prices of eggs and butter were also noticeable. The farmers claim that this fact is due to a great scarcity of feed.

Market Prices. Potatoes were plentiful and of good quality. The prices varied from 30c a peck to 45c a peck.

White turnips were two bunches for 50c. Cabbages were 50, 10c, and 15c for extra large ones.

Vegetable marrow was 50 to 100c. Onions were three bunches of large ones for 10c or two bunches of small ones for 5c.

There was a nice display of honey selling at 35c a pint clear, or 45c a pint with comb.

The last of the raspberries were on sale for 20c a box and were good.

Flowers made a tempting display and one farmer reported that they were selling faster than the produce.

The hay has been mostly housed in fine order. Fall wheat is mostly cut and barley harvest has begun.

Crushed stone has been ordered to cover the unfinished part of the Milton-Palermo road.

The directors of Bolton fair met on Saturday evening and arranged the prize list for the coming fall fair.

For the last few weeks there has been an air of anticipation around the Harry Fisher farm.

The crop of the fier was composed of Lieutenant Dory, instructor at the training camp, and Frank James.

Walter Horsburgh's barn near Varney was struck by lightning and destroyed.

John Fulson threshed eleven bushels of clover seed four acres last week.

## WOODSTOCK COW'S SPLENDID RECORD

Department of Agriculture Again Emphasizes Value of Milk Test.

A grade cow, eight years old, near Woodstock, that freshened last November, has given in eight months 13,095 pounds of milk.

But is it not curious that many dairy men never bother to weigh, and so remain quite busy as to each individual's performance?

Milk record forms will be gladly supplied free of charge by the dairy division, Ottawa, to anyone curious enough and enterprising enough to find out what each cow does actually produce in return for all she eats.

The harvesting of what is said to be the best crop ever grown in Plois has commenced, and with fine weather nearly all the grain will be cut this month.

The yield promises to be very great. There is a crop of oats on a farm just south of the town that they say will go 70 bushels to the acre sure.

Business men and employers of labor in Brantford on Wednesday evening met District Representative J. W. Stark.

The following are the winners in the order named, the field crop competition in oats, in connection with the Richmond Hill Agricultural Society.

Crushed stone has been ordered to cover the unfinished part of the Milton-Palermo road.

## ANNUAL DISPLAY OF TRACTOR FARMING

An Interesting Demonstration Will Take Place at Toronto Industrial Farm.

### LARGE LIST ALREADY

Many Tractors and Other Farm Implements Will Be Seen.

The third annual tractor farming demonstration will be held September 18-21 on the Toronto Industrial Farm.

The demonstration will be conducted under the same management which had charge of the first tractor demonstration at Guelph in 1915.

The tractor industry has increased manifold since last year's demonstration. The chief cause of this is the activity of the Ontario Department of Agriculture in introducing and operating a large number of machines in Ontario this year.

A point to be emphasized in favor of such a tractor demonstration as this is that the farmer, contemplating the purchase of a tractor and tractor machinery, has an opportunity to draw comparisons among scores of different makes and styles operating in the same or adjoining fields.

Special arrangements are being made to make the many thousand visitors comfortable in every way.

The majority of farmers have finished haying and have started harvesting.

## STORE THE ROOTS SAVE EVERYTHING

"Let Nothing Waste" is Good Slogan for Every Farmer.

### ALLIES MUST BE FED

Our Duty is to Use Everything and Waste Nothing.

There is an immense crop of roots and vegetables in Ontario and it will be criminal if any part of it is lost.

Soil Must Be Drained. Beets, carrots and turnips may be stored for a long time in pits.

When the pit is full it is ready for the first covering. This can be either straw or sawdust.
