

TRUE BILL RETURNED IN MURDER CASE; NONE FOUND AGAINST RABINOVITCH

Simon and Beckwith, Grand Jury Decides, Must Face Trial.

True bills were returned in three out of four cases which were presented to the grand jury by Chief Justice H. A. McKewen in the Circuit Court this morning. The indictments in which the true bills were found were against the following:—

Stewart Godwin, charged with the murder of Mrs. Clara Whiteside. Charles Simon, charged with shooting with intent to do grievous bodily harm in the Stryker Hall. John Beckwith, charged with assault with intent to commit robbery of John H. Hamilton.

The jury, however, returned no bill in the case against Harry Rabinovitch, who was indicted on two counts.

On the return of the grand jury in the last case, they were discharged and the petit jury panel was ordered to report in court tomorrow morning at 10:30 when the case against Beckwith will be commenced. An additional panel of 15 petit jurors was ordered summoned.

W. M. Ryan appeared for the Crown in all the cases. He was represented by C. R. Mesereau; Rabinovitch by Dr. J. B. M. Baxter, K. C.; Simon by D. Mullin, K. C., and E. J. Hennessey, and Beckwith by S. A. M. Skinner.

Beckwith Case. The first case taken up by the Grand Jury was that of John Beckwith, charged with assault with intent to rob J. H. Hamilton on the night of January 6 in Spring street. His Honor reviewed the evidence of the preliminary hearing. The witnesses before the Grand Jury were Mr. Hamilton, Harry Blake, J. H. Barber and Levi Graham. A true bill was returned.

Charles Simon Case. The judge then charged in the case against Charles Simon, charged with shooting Louis Corey and Stephen with intent to do grievous bodily harm. He reviewed the events which led up to the incident in the Stryker Hall on New Year's Day. Witnesses present were George Corey, Michael Mitchell, Raymond Tobias, Dr. F. P. Fleming, Dr. J. A. McLouis Corey, Sergeant Detective Court and Thomas Stephen. The jury returned a true bill.

Rabinovitch Case. The judge reviewed the evidence on the indictment in the case against Harry Rabinovitch, charged on two counts:—

First, with receiving \$80,000, being a part of some \$79,000, stolen by Benjamin Freedman, knowing it to have been stolen; and

Second—Acting together with Benjamin Freedman and stealing \$50,000. He told of the evidence given regarding the charge of conspiracy against the accused on which he was acquitted, but warned the jury that the verdict in the last hearing did not necessarily mean that the prisoner should be acquitted on the present charge. He pointed out, however, that if the jury thought the criminal counts were being used to obtain civil redress on the part of the complainants in the case, the grand jury would be within its province in finding no bill.

Witnesses called included Cecil M. Spence, Leon Chechik, Ernest Mann and Henry Ross.

The grand jury found no bill on either count and on motion of the crown officer, W. M. Ryan, Rabinovitch was ordered discharged from custody.

Mrs. Whiteside Murder. The judge then proceeded to charge the jury on the indictment against Stewart Godwin, charged with the murder of Mrs. Clara Whiteside. He said that, according to the evidence, Mrs. Whiteside was last seen on December 17 by two persons, Miss Magee and Mrs. Baxter. Fred Cairns, her brother, went to visit her on December 20 and found the door open but the inside door locked and on looking in the windows saw some disorder but

not sufficient to excite alarm. On Christmas Day, however, her two brothers, Fred and DeWitt Cairns, found their way into the house and found her dead. There was no doubt that she was murdered.

Two witnesses saw the accused near the Whiteside home, Mr. Baker and Mr. Dunbar. The latter saw the accused on the steps leading to the house on December 22. Mr. Baker said he saw the prisoner on Christmas Day running from the house towards the road.

The judge also alluded to statements made by the accused to the police after his being brought to the police station. The evidence, he said, showed that the prisoner was 16 years old and had practically no schooling. He said that while the statements made by the accused might not be admitted in evidence at the trial, it was the grand jury's duty to consider them fully. He urged the jury to find a true bill so that the public should be fully satisfied that the course of justice was being followed without any obstruction.

Witnesses called were Fred Cairns, DeWitt Cairns, Agnes Baxter, Edith Magee, Frank Dunham, Dr. H. L. Armstrong, Wm. Frittle, D. L. Hutchinson, Sergeant Detective Power, Detectives Bidsonbe, Saunders and Kilpatrick, Christina Christie and Alvin Bates.

The Grand Jury was as follows:—A. C. L. Tapley, foreman; Frederick W. Fowler, Thomas H. Somerville, William J. Quinn, J. Mortimer Robinson, Willford L. Belyea, J. Alexander Kindred, W. Gordon Sancton, James Kennedy (absent), J. Gordon Likely, Harry Golding, Roy L. Thompson.

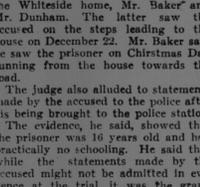

MARRIED IN BOSTON. On Wednesday morning, January 30, at the Gate of Heaven Church, South Boston, Mass., the wedding of John J. Calnan, formerly of Fairville, and Miss Elizabeth H. Esler, formerly of South Bay, was solemnized. Rev. Father Burns officiated at the ceremony and at nuptial mass.

The bride was becomingly attired in a gown of blue satin and carried with silver trimmings, and wore a hat to match. Miss Margaret M. Esler of Dorchester, a cousin of the bride, was bridesmaid and wore blue velvet with satin trimmings, and black hat. David J. Redmond acted as best man. Immediately following the mass, a nuptial breakfast was given at 153 1/2 street, South Boston, where, after a short trip, Mr. and Mrs. Calnan will renew acquaintances formed during their past visits to this district.

They were the recipients of many beautiful gifts and the well wishes of their relatives and friends in Boston, and each delivery of the mail brought aided good wishes and congratulations from their relatives and friends in St. John, where both were well known.

COLLISION IS TO BE PROBED TODAY. Diver Fails to Locate Either Bodies or Boat Where Schooner Sank.

L. A. Demers of Ottawa, Dominion Wreck Commissioner, arrived in the city at noon today and announced that he would start his enquiry into the cause of the collision between the S. S. Perene and the schooner Maid of Scotland this afternoon at 2:30 o'clock in the Board of Trade rooms. He will have associated with him Captain A. J. Mulcahy and Captain Wilkie. The former is port warden and agent for Lloyd's, and the latter is master of the schooner Cutty Sark.

It was announced this morning that no attempt would be made this afternoon by divers to reach the sunken schooner, but that an attempt might be made tomorrow.

Diver Frank Smith of the St. John Dry Dock & Shipbuilding Company, made a descent yesterday to the wreck of the sunken schooner Maid of Scotland in an effort to locate any of the bodies of the unfortunate men, who had lost their lives as a result of the collision with the S. S. Perene, but owing to the darkness and the muddy condition of the water he was unable to see and had to depend on the sense of touch. As a result his effort was unavailing, although he did ascertain how badly damaged the hull of the schooner was. He did not see the scene by the tug Ballinloch.

Diver Smith was accompanied on the tug by F. M. Ross, manager of the St. John Dry Dock and Shipbuilding Company, and a number of the firm's employees. The lighter with diver's equipment was towed to the scene by the tug Ballinloch.

Diver Fred Doyle and his son Harold also went to the scene intending to make an investigation and endeavor to locate some of the bodies, but on their arrival they found that Diver Smith was already on the scene of the sunken schooner by the tug Watson, which had on board C. A. McDonald of Halifax, one of the owners of the schooner; Charles E. Kerrison of the firm of Nagle and Wigmore, local agents for the schooner, and the third officer of the S. S. Perene.

OTTAWA COMPLETES JUVENILE COURT

J. G. Carmichael of Toronto, who was superintendent of the Ottawa Boys' Camp at Christie Lake last summer, has been given the appointment of assistant probation officer of the Ottawa Juvenile Court, by Judge J. F. McKinley, at a salary of \$1,600 a year. For some time, says the Citizens, it has been apparent to those connected with the Juvenile Court that there was great need of another probation officer in order to cope with the great amount of work that has had to be done.

Mr. Carmichael will be an assistant to Rev. A. G. Cameron as probation officer, and will have as his special duty preventive work among the underprivileged boys of the city. He will also have the care and superintendence of the camp during the summer.

Hard Working Staff. Mr. Cameron, who will enter upon his fifth year as chief probation officer in a few days, has won the esteem and admiration of the citizens of Ottawa in the splendid work he has been doing, both under the late Judge Archibald and the present Juvenile Court judge, J. F. McKinley. He has been assisted by two efficient lay probation officers who have not only had the care of the delinquents who have come before the court, but in many cases have done considerable social service work that has not been included in their duties. One of them, Miss D. Clough, was a nurse overseas and served during the war. The other, Miss Albertine Beardon, has had charge of the Catholic delinquents, and her work has been of very efficient and faithful kind. She also is a trained nurse. The staff of the Juvenile Court will now be complete and compares favorably with that of any of the big cities.

North End Man Reports Finding Method of Soldering Aluminum.

On top of his recent notable discoveries, processes of hardening copper and aluminum, Arthur Ross of 40 Main street, said last night that he had found a method of soldering aluminum. This success in his research work was attained on last Saturday. His method under several tests, it was said, showed a perfect joint and solid material. Mr. Ross said that he is daily continuing his experiments with aluminum and has attained surprising results. He says he has already received offers from some of the largest smelting firms for his secret formula for hardening aluminum, but so far has not accepted any.

He is now formulating plans for starting a plant for the manufacture of his new solder and expects to make a definite announcement in the near future.

**Recommends Vicks  
For Pleurisy**

Quebec Mother Thankful She Can Now Get Vicks in Canada.

Mrs. J. A. Leblond of 114 Rue Galt, Sherbrooke, Quebec, writes: "Vicks VapoRab is not a new remedy for us, because we have used it in our family for four or five years. We got it from the United States. This shows you how much we think of it. We are glad to get it here now, for there is nothing better for pleurisy, chest colds, etc."

Here is the last word in treating cold troubles—rub Vicks well in over throat and chest, get into bed and have the coverings loose about the neck. All night long you breathe in the healing vapors of Camphor, Menthol, Eucalyptus, Turpentine, etc. The application also acts like a heating liniment or plaster. Usually colds go in one night and croup is commonly relieved in 15 minutes.

Vicks is the ideal treatment for children's cold troubles; it avoids so much internal dosing.

Last evening about 8:30 o'clock William Knox, the 14-year-old son of William H. Knox, 122 Sheriff street, received a fracture of the left arm. While coasting down Harrison street the little fellow collided with a pole.

He was attended by Dr. F. D. Weldon, Main street. The ambulance was called and the injured boy was conveyed to the General Public Hospital, but on his arrival at the institution it was learned that he could not be admitted owing to the lack of space and he was returned to his home in the ambulance. Fred McAuley, of 11 Summer street, was admitted to the hospital yesterday suffering from a fractured leg.

### THE CIVIL SERVICE

In his second article in MacLean's Magazine on the subject of waste at Ottawa, Mr. Grattan O'Leary deals with the over-manned Civil Service. We quote one specimen paragraph:—  
"Canada has a permanent militia force of 2,500 men. She has no Air Force worthy of the name. And she has a three trawler fleet. Yet, according to the return supplied to Mr. Cresser in the House last session (a return which quite clearly erred on the side of conservatism), it took 283 permanent Ottawa officials to look after these 2,500 soldiers and to administer that three trawler fleet; and for their services the country paid them (apart altogether from the expenditure on rentals and fuel and all other overhead) no less than \$493,854. In other words, there was one official or civil servant for every ten soldiers, and the salaries of these officials averaged about \$1,900 a year. Twenty years ago, when we were just as much prepared for war as we are today, the Department of Defence contained but thirty-six officials and cost the country but \$45,000 a year. In 1914 it contained but 139 officials and cost \$147,000. Today, despite the fact that this is one of the departments that is supposed to have been reorganized, and notwithstanding the further fact that it is very doubtful whether our military organization is any greater or more efficient than in 1914, there are twice the number of officials and the cost is about three times as great."

What is the effect of such criticism as this in Ottawa itself? The parliamentary writer of the Ottawa Citizen declares that the Civil Service is not as bad as it is painted, but adds:—  
"The criticisms which are made are justified in some regards. The civil service should have no complaint in regard to its hours or its holidays, while there is the possibility of serious trouble in the business of granting sick leave. Fault may also be found with the lack of centralization and the tendency for the heads of some branches to build up little dynasties of their own, with separate staffs of stenographers and messengers and quarters all over town removed from general departmental blocks. Outside rentals, now in process of reduction, have been undoubtedly an expensive and overdue factor. Buildings erected by private interests have been paid for in ten years on the basis of generous rentals paid by governments to their owners. Both parties, in this regard, have offended in some places probably there is over-staffing."

An Ottawa paper would not be expected to be harsh in criticism of Civil Service employees, for a reason set forth in the following paragraph:—  
"In Ottawa there are probably fifteen thousand government employees and when that number is multiplied by five, the average dependents, it will be seen that almost half of the city's population derives its sustenance from the public service. If there is to be any cutting and slashing such as is ruthlessly suggested in some quarters, a lot of people hereabouts will suffer, and a lot of homes will experience the pinch that comes from dislocation or lack of employment. Inevitably this would be reflected in commerce and also in the morale of the community."

Editorially the Citizen strongly protests against an assault upon the ordinary workers, but sees too many higher officials. Thus:—  
"Public opinion will be very much averse to the practising of economy at the expense of the low salaried workers, while superfluous officials with high sounding titles dig themselves in. Last year the Minister of Labor dismissed the editor of the Labor Gazette to make a vacancy for another civil servant with a higher salary. There are other instances of this form of favoritism. Nor are they all attributable to political patronage. The department of Soldiers' Civil Re-establishment is notoriously overstaffed at the top, but the responsible minister is apparently unable to cope with the departmental heads who were appointed by the last government. When the permanent heads get together to agree on a policy of administration, they seem to be able to treat the political head of the department as a minus quantity. Indeed, during the last session of parliament, officials of the D.S.C.R. were actually reported to be lobbying in the Senate against an act of parliament which their minister had introduced and the House of Commons had passed. A strong minister, really in earnest about economy, would manage to get along without so many deputy heads and directors of ceremonies."

In response to the rising clamor against existing conditions in the Civil Service, Premier King has promised a full inquiry into conditions in the inside and outside service, to be conducted by the Board of Audit—the body created at the last session of parliament and headed by the new auditor general. We are told further:—  
"A complete census of the service is to be taken to ascertain the name and salary of every person in the Government's employ. This has never been done, heretofore. Consolidation of staffs is forecast, with the idea of avoiding duplication both in the personnel and also in certain activities of the departments. Greater centralization of offices is another reform proposed. A new superannuation act is to be introduced. It will facilitate the process of reorganization. The inquiry into the service is to start at once and the report will be ready during the forthcoming session of parliament. The new auditor general is to have the status of financial controller of the Government. Such economies as the board finds possible will be given effect to by parliament."  
And there, for the present, the case stands.

### ONTARIO LEGISLATURE

The Ontario Legislature meets tomorrow, with a Conservative Government in the saddle. The standing of parties at the present time, South Waterloo being vacant by the unseating of K. K. Homuth, is as follows: Conservative, 77; Liberal, 14; U. F. O., 17; Labor, 2; vacant, 1—total, 111. Premier Ferguson will likely recognize the Liberals, with only 14 members, as the official opposition, rather than the U. F. O., which has 17 members. This will doubtless be the subject of a sharp debate. Hon. Manning Doherty who is the leader of the U. F. O. has, however, declared it to be the intention of his party to support the Government in all measures it deems to be in the public interest. It is expected the Government will diligently apply the axe to expenditures, as a huge deficit is said to be a certainty. The revenue from forests and lands in the last year declined \$1,000,000, and other departments are also said to make a poor showing. It is expected the proposed two-cent tax per gallon on gasoline for pleasure cars will provoke a lively debate, and it is said there is certain to be a debate on the Ontario Temperance Act, the Government's declaration of policy regarding which is awaited with keen interest both by "wets" and "drys." A long session is not anticipated.

If the Maritime Provinces were asked to vote on the question of an increased tariff, while they are shut out of the markets of the rest of Canada by high freight rates, they would not declare in favor of an increase. The Western Provinces are not only opposed to a higher tariff, but demand a lower one. In the face of these facts the manufacturers of the Central Provinces continue an agitation in favor of more protection. While the different parts of the country hold diverse views on this subject there will be political dissatisfaction and unrest. The country needs a fiscal policy that will not divide the country geographically as at present, but such a policy has not yet been discovered.

The hard-boiled portion of the British aristocracy will be horrified to learn that under the Labor Government a man who once worked as a half-timer in a plate mill for four-pence a day, and later maintained his family on fifty shillings a week while he went through college, is the Treasurer of the King's Household; while the Comptroller was a half-timer in the coal pits at ten years of age and a full fledged miner at twelve. We are told the court duties of these officials will be largely nominal, but what a shock to precedent their mere appointment involves. They are learning things in Britain in this year of grace, and the knowledge does not appear to be doing any harm at all.

The release of Gandhi, the nationalist agitator in India, may have an important bearing on the situation in that country, although at present his health is apparently such that he cannot take an active part in public affairs. The Nationalist movement has gained great headway, and the demand for home rule in India grows more insistent. It presents a serious problem to the new Government in London.

Because of the spring floods and the Valley Railway, New Brunswick had a large deficit last year. Ontario, however, will show a very large deficit, and Manitoba closed its fiscal year on August 31, with a deficit of \$901,069, according to the public accounts tabled in the Provincial Legislature last week.

Three convicts who shot a guard and escaped from the Missouri penitentiary were in turn shot to death by other guards in pursuit. It was swift and deserved retribution, but such an ending of four lives is a strange commentary on our boasted Christian civilization.

Nova Scotia business men told the Railway Commission yesterday that not only should express rates not be increased but in most cases they should be lowered. Specific instances of hardship were cited to strengthen their contention.

The burial of Woodrow Wilson will be marked by the simplicity he himself desired, but the country will in due time rear a monument worthy of his great services to his country.

Lord Bledisloe, a noted agriculturist, has decided to support the Labor Government, declaring its policy promises a brighter future for the country.

### Press Comment

**LABOR'S APPEAL TO REASON**  
(Ottawa Citizen.)  
Premier Ramsay MacDonald is going to try common sense in foreign politics. He has written to Premier Poincare expressing the hope that conciliation may be allowed to operate in the adjustment of differences between Great Britain and France. The French premier has replied, it is reported, in an equally friendly tone. Everybody will wish well of this appeal to reason, which has been initiated by the Labor premier. It will depend very largely upon whether the powers behind foreign policy are willing to allow reason to take the place of commercial rivalry.

At present, throughout the world, foreign policy is not based on reason. It is based on the belief that nations must compete for foreign markets.

**ONE WESTERN VIEW.**  
(Saskatoon Star.)  
A forthright adoption of a free trade policy would undoubtedly cause a serious dislocation of the financial and commercial structure of the country. The Liberal party now in power at Ottawa is pledged to a definite policy of tariff reduction, which is understood to mean the gradual elimination of protection. The net effect of this situation is that the Government becomes more and more unpopular, not only with those interests which feel themselves injured by such reductions as are made, but also with a great section of public opinion which feels that the reductions are not being made fast enough.

As the process continues, side issues are brought in, and before long the country whose majority is undoubtedly in favor of free trade turns to the Conservative politicians and puts them into power in spite of their advocacy of high protection.

This indecisive see-sawing has now been going on for several decades, and is undoubtedly the most curious phenomenon in Canadian history. The clear-sighted onlooker, and perhaps the historian of a century hence, will look upon this period of dicker and tinker with the tariff as a most amazing example of the human irrationality.

The hard-boiled portion of the British aristocracy will be horrified to learn that under the Labor Government a man who once worked as a half-timer in a plate mill for four-pence a day, and later maintained his family on fifty shillings a week while he went through college, is the Treasurer of the King's Household; while the Comptroller was a half-timer in the coal pits at ten years of age and a full fledged miner at twelve. ### A CHILD POET.

Helen Douglas Adam, a twelve-year-old English girl, however, judging by her book, "The Fifth Pedlar and Tales Told by Pixie Pool," has talent of the kind that should take her far. She is a born poet. At the age of six she made her first attempt at writing. Now, at twelve, she has to her credit a collection of compositions.

Before she was six she had written the "Dustman," which begins:—  
The dustman is coming a-down the street,  
He is bringing his dreamy things;  
I hear the tread of his noiseless feet;  
Now isn't it funny, my baby sweet?  
But mothers can hear strange things.

The most remarkable lines in the book are those entitled "War," written by the girl before she was twelve years of age:—  
The world to war was wed,  
The world to war was wed,  
And half the nations welded arms,  
And all the rest were dead;  
And half the earth was strewn with gold,  
And half the kingdoms down,  
And half the monarchs bowed their heads,  
And yielded up their crown.  
There was no sound in heaven and earth  
Which felt themselves injured by such  
And the beacon lights tossed up their fires,  
Till the night was bright with flames.

From time immemorial, Britons have gone forth and pioneered the remote corners of the earth.

In the face of seemingly insuperable difficulties they have built up a world-wide trade—trade that grew and flourished in spite of the limitations of those primitive burden-bearers, the native carriers, the mule train and the camel caravan.

Ford carries the burdens of Empire trade on the hill-trails of India, on the African veldt, on the sheep-stations of Australia and New Zealand, on the plantations of Ceylon and Burma, on the rubber estates of Malaya and on the jungle-paths of Borneo.

Universal usage under all these conditions has stamped the Ford as dependable transportation.

The annual meeting of the Victorian Order of Nurses is being held this afternoon in the Bible Rooms, Germain street. Hon. J. G. He congratulated the organization on the fact that it was entering upon its twenty-fifth year of activity under such favorable circumstances.

During the year, the report stated, they employed eight nurses, who devote a portion of each day to child welfare work and cheerfully have made 16,667 visits to these homes including 4,423 child welfare visits, and held 146 well baby clinics, through which more than 2,000 babies passed. **Cocoon Oil Makes A Splendid Shampoo**

Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulified cocoon oil shampoo, for it is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces. You can get Mulified at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls of Mulified is all that is required. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your drug list gives you Mulified. Beware of imitations. Look for the name Watkins on the package.

A SWEEP-DAY RIDDLE.

Get out of my way, get out of my way.

"Mother Goose," said the Riddle Lady, "I suppose you are all tired waiting: 'Get out of my way, get out of my way, Doesn't everyone know that it's sweep-day? I rush and I run and I spread out my skirt. And shoe from my feet every wee scrap of dirt. 'I lived in the corner beside the back door. I never sit down. I just stand on the floor. When I spy muddy footprints, or bread-crumbs, or dust, Then out I go rushing, it just seems I must. 'I'm very old-fashioned—I've simply no style. And I'm quite a home body—but once in a while They take me and dress me in old ragged clothes And leave me outside just to scare away crows. 'Sometimes in the winter when snow's lying deep I clear away paths, and I sweep and I sweep, And the boys make a snow man, then shrieking with fun, They seize me and give me to him for a gun. 'Old Mother Goose rides me up to the sky, And when we come back in the sweet by and bye, The first thing I do is to have sweeping day. It's dreadful how dirt gathers when one's away. 'But I don't like it outdoors, I much prefer in, To all the places that I've ever been, To sweep is my hobby, I love a clean floor, Then slip to my corner beside the back door.' 'It's a broom," said Nancy quickly. She had to be quick, for nearly all of the Riddle Land people had guessed it, too, and shouted it out at the top of their lungs. 'Right!" said the Riddle Lady. "And the prize is a ride with Mother Goose on her magic broom. You may start at once and take Nick with you. But be sure to be back by tomorrow." (To Be Continued.)

Milk three times a day, any way they like it. Its building qualities are strong, and bone and muscle are things to be sought in childhood. The cereals are body building foods and any normal child prefers them if properly offered and temptingly served. Meats are much better for early body building if carefully served in connection with nutritious vegetables. There are many tempting dishes of such mixtures that children prefer rather than highly seasoned foods or over-indulgence in sweets. As the twig is bent so is the tree inclined. If babyhood days have been wisely spent in storing up energy and strength, and one has been fortunate enough to have escaped wasting disease, the baby will come into a childhood legacy of a healthy, properly nourished body. At the age of six or seven, when the boy or girl begins school life, the regimen of diet is a real problem for the mother to consider in a wise and skillful manner. It is not only the diet itself which should be proper and fitting but the additional health problem is in getting the child to take what is necessary and best for school age strength and body building. Eggs offer a wholesome food for children as early as the fourth year. While it is true, according to the best dieticians, that the albuminous elements are rather hard for the youngsters, if the diet is wisely selected, the normal child can safely assimilate an egg every other day, from four or five, until the age of eight or nine years. Soft boiled or poached eggs are preferable. Fried eggs are easiest to cook but not as good for children's digestive powers. Avoid them and fried potatoes, also. At the age of nine, an egg a day is just as essential as an apple a day in good body building elements. You'll All Enjoy This new way of teeth cleaning

If you only knew what this test meant you would not delay it longer. It has brought to millions whiter, cleaner, safer teeth—a new era in teeth cleaning. Almost at once you see and feel the results. Bring them to your home—now. That viscous film That viscous film you feel on teeth is their chief enemy. Under old methods, much of it clings and stays. Soon it becomes discolored, then forms dingy coats. Then pearly teeth look cloudy. Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Not one in fifty escapes such troubles under old ways of teeth cleaning. Modern science has found two ways to effectively fight film. One disintegrates the film at all stages of formation. One removes it without harmful scouring. Tests proved those methods amazingly effective. A new-type tooth paste has been created to apply them daily. The name is Pepsodent. Leading dentists the world over began to advise it. Now careful people of some 50 nations employ this new-day method. No one can doubt that Pepsodent means a new era in teeth cleaning. The results are quick and apparent. It does more than fight film. It gives multiplied power to the tooth protecting agents of the mouth. To that factor, in saliva which digests starch deposits on teeth. To that factor which is there to neutralize mouth acids. Let this test show what these combined results mean to you and yours.

Protect the Enamel Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit. Some of the results obtained by users of Carnol are almost beyond belief. Carnol, if taken according to directions, will relieve almost any disease develops slowly, it takes time to eradicate it. No wonder Mrs. DesRoche recommends Carnol after what it did for her:

"An attack of flu in the fall of 1918 left me in such a weakened condition that I could not walk across the kitchen. For nearly two months I spit blood and my neighbors, as well as myself, thought I was in the first stage of consumption. My weight, when I took sick, was 120 pounds, and I shrunk from that to 98 pounds. On the recommendation of my druggist, I began to take Carnol. Before finishing the first bottle I felt a marked improvement. I then took four bottles and my improvement was so marvellous that at the end of six months I weighed 130 pounds—the most I ever weighed in my life. I can safely recommend Carnol to anyone in a weakened and run down condition, as being the best as well as the most palatable tonic on the market today. My little girl aged eight years took a cold in the head and chest. She was so bad she could scarcely breathe. I gave her Carnol in hot water and the next morning she was able to get out of bed for the first time in several days."

Carnol is sold by all good druggists everywhere.

STOCKS ON MOVE  
UPWARD TODAY

The Oils Assumed Leadership in Wall Street This Morning.

New York, Feb. 5.—Stock prices resumed their upward movement at the opening of today's stock market with the oils assuming the leadership. Yesterday moved up a point and a dozen other issues in that group opened fractionally higher.

New York, Feb. 5.—Operators on the long side of the market had to contend with substantial amounts of profit taking during the morning, particularly among some of the recently strong to success, dividend paying rails and specialties. In the market however, the list tended upward, with increasing attention being paid to the steel abstract.

United States Steel common touched another new high at 108 1/2. S. H. Kress & Company selling at 50 1/2 as against the previous sale of 100. Liggett and Myers, Tidewater Oil and American Oil and Levee Oil each gained three points and American Can, Standard Oil of California, and Producers and Refiners sold two or more points above yesterday's closing prices.

Montreal Market.  
Montreal, Feb. 5.—The activity and strength of the Spanish River issues featured the half hour's trading on the local stock market this morning.

WEAK, RUN DOWN AND AILING  
Lydia E. Pinkham's Vegetable Compound Brought Relief When Other Medicines Failed

Port Mann, B. C.—"I took Lydia E. Pinkham's Vegetable Compound because I was tired and run down. I had headaches and no appetite and was troubled for two years with sleeplessness. I tried many medicines, but nothing did me any real good. While I was living in Washington I was recommended to take Lydia E. Pinkham's Vegetable Compound. I am stronger and feel fine since then and am able to do my housework. I am willing for you to use these facts as a testimonial."—Mrs. I. C. GREAVES, Port Mann, B. C.

Feels New Life and Strength  
Keena, N. H.—"I was weak and run down and had backache and all sorts of troubles which women have. I found great relief when taking Lydia E. Pinkham's Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am able to do my work and feel new life and strength from the Vegetable Compound. I am doing all I can to advertise it."—Mrs. A. F. HAMMOND, 22 Carpenter Street, Keena, N. H.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound.

Washington, Feb. 5.—(By Canadian Press).—Disensions continue in the U. S. Tariff Commission. Some months ago much was said as to the wide division of opinion in the commission on the question of how to apply the flexible tariff. Vice-Chairman William S. Culbertson and some of the other commissioners took the view that it was the intention of Congress, in providing a flexible tariff law, to have it flexible, to do something other than a mere gesture. In opposition to this view, Chairman Thomas O. Marvin and the rest of the high tariff men on the commission sought to make the flexible tariff law practically non-flexible.

The Cause of Heart Trouble

Faulty digestion causes the generation of gases in the stomach which inflate and press on the heart and interfere with its regular action, causing faintness and pain. 15 to 30 drops of Mother Seigel's Curative Syrup after meals sets digestion right, which allows the heart to beat full and regular. At drug-gists.

Ocean Freight Rates and Canadian Taxation Subjects for June.

The executive council of the Canadian Manufacturers' Association has authorized the holding of this year's annual general meeting of the organization in Montreal. The convention will last for the three days, June 3, 4 and 5. A protest against the proposed increase in ocean rates between Atlantic ports and the United Kingdom will be made. If the increase proposed takes effect on March 1, they say, it will mean an additional 25 to 60-80 per cent. over the present rates on certain important commodities, while general cargo rates will go up 35-45 per cent. on the measurement basis and 25 per cent. on the weight basis.

For any kind of a cough, but especially for the stubborn one that persists and keeps you awake nights this home made cough mixture will quickly loosen the phlegm, allay the inflammation and stop the cough.

You can make it yourself at home in two minutes by following these instructions:

Get from any druggist one ounce of Paracetin (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it, and children like it.

Like a soothing, healing poultice one costly substance in this home made mixture spreads freely, completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

It's a mighty fine remedy for chest colds and acute nasal catarrh, and remember that any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and ear-itching deafness.

Get Paracetin and get better.

SKIPPER SPEAKS OF FIRPO'S PLANS

Heavyweight Will Return to America Early in April.

New York, Feb. 5.—Luis Angel Firpo plans a re-entry into this country on April 2 or 3 for his 1924 pugilistic campaign during which he hopes to lick Wills and Dempsey, Capt. Thomas W. Sheridan, skipper of the "American Legion," which arrived from Buenos Aires, said that what was the boxer told him just before sailing.

"When Firpo came down to the ship at Buenos Aires," he said, about five thousand fans trailed him. "We had to keep him inside as the stevedores stopped work when he walked out on deck. I fed him a plank steak, American style, and he told me that is what he intends to train on here. He was in training that day—he ate only about three pounds."

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

MARY PICKFORD MAY NOT BE ANY BUSINESS WOMAN, BUT SHE'S CLEVER

Commercial Intrusions, She Says, Cause Her Distress.

(By Jack Jungmeyer.) Hollywood, Feb. 5.—Mary Pickford is not a business woman.

Those who debate that dispute Mary, for she herself pricks the myth of commercial production which interviewers and character analysts have insisted upon inscribing to the queen of the screen.

"The fact is," she said, "I have a positive repugnance toward all business dealing. I have never considered myself a good business woman."

"Commercial intrusions distress me. I find no compensatory delight in the worries involved in the marketing and presentation of pictures. These elements of production are of course inevitable, and I deal with them from self-protective experience in the industry rather than from the pleasurable impulse that moves the genuine business mind."

"My longings are to create. And there is a fundamental difference between natures stimulated to create and those that enjoy purveying what others produce."

Miss Pickford brought up the topic delicately during comment on her forthcoming "Dorothy Vernon of Haddon Hall," and as is often the case in talking with Mary, the grace notes of conversation soon dominated the original theme of the interview.

As sheer conjecture I hazard the opinion that Mary Pickford is liked by reiterated stress on her "shrewd business ability" because she believes it is creating an erroneous impression of her essential character; that it implies a task, calculating nature behind the gracious screen self known to millions.

As true she is. Intuitively keen. Her judgments are usually as sound as they are speedily arrived at. She reacts rapidly. Her mind does not follow a ready track. It radiates, and is not easily baffled. Persons seeking to take advantage of Mary Pickford find more than a match. But cold or designing she emphatically is not.

MARY PICKFORD

To advantage myself, I feel at home. I wish I needn't bother about a picture once it is filmed.

"My needs and my pleasures are simple. I have no desire to own homes here, there and everywhere. And I can eat only one egg for breakfast."

Her husband Doug breezed in excited about a novel plan for presenting his "Thief of Baghdad" in New York. Almost instantly Mary vetoed it, and a later consensus of opinions sustained her judgment.

Centrifugal she is by temperament, giving out, having something of the solitariness of the artist, it is true, without, however, being self-centered. But let no one discount in Mary Pickford the practical perspicacity which she herself minimizes.

Probably never in her brilliant career has the talented Norma Talmadge better displayed her beauty and talents than she does here as Yolande. And as Rupert, Conway Tearle plays his part in a manner so to almost share honors with the star herself.

The photograph is notably beautiful. Nothing was left undone to make "Ashes of Vengeance" a masterpiece. It continues at the Imperial today and Wednesday.

IMPERIAL PICTURE IS GREAT ART WORK

"Ashes of Vengeance" Tells a Romantic Story of the 16th Century.

"Ashes of Vengeance" opened at the Imperial Theatre yesterday to larger crowds than saw the premiere of "A Royal Divorce" last week. The picture is a romance of the 16th century, a production which for gorgeousness of costume, massive settings, story interest and splendid portrayal stands in a class of its own, an example of artistry seldom, if ever before, displayed on a screen.

The massive settings and gorgeous costume are but background for a thrilling, tensely interesting love story which is never for a moment overshadowed by the spectacular elements of the picture, and which is never for a moment dull.

The story opens at a court ball held on St. Bartholomew's Eve, held by Catherine de Medicis. She manages that evening to secure the signature of her weak son, Charles IX., to a proclamation decreeing the massacre of the Huguenots. Rupert de Vreac (Conway Tearle) and his hereditary enemy engage in a duel in which de Vreac is victorious, but places La Roche (Courtney Foote) under obligation by sparing his life. The massacre of the Huguenots takes place that night, and La Roche saves both de Vreac and his fiancée on condition that the young nobleman becomes his servant for five years. At the castle of La Roche, de Vreac is subjected to much humiliation at the hands of La Roche and his beautiful sister, Yolande de Breux (Norma Talmadge) but finally, after a desperate encounter with a wolf, saves the life of the invalid sister of his tormentors.

Later Yolande, guarded by de Vreac, goes to visit her cousin, and there meets the despicable Duc de Tours (Wallace Beery), who seeks to win her. De Vreac saves her after a desperate battle in which de Tours is killed. Later, at the request of Yolande, de Vreac is released from his oath of servitude, and the avowal of love between the young couple brings to an end the feud between the two families.

Probably never in her brilliant career has the talented Norma Talmadge better displayed her beauty and talents than she does here as Yolande. And as Rupert, Conway Tearle plays his part in a manner so to almost share honors with the star herself.

Chewing Gum King Visits Movie Site

William Wrigley, Jr., chewing gum, baseball and real estate magnate, and Will H. Hays, czar of film, were visitors to the Frank Lloyd location near Santa Catalina Island recently during the filming of early scenes for "The Sea Hawk," a forthcoming Lloyd-First National picture. Both gentlemen expressed themselves as fascinated by the size and magnificence of the four sixteenth century ships Mr. Lloyd has constructed for use in the picture, and the many brilliant costumes worn by the cast which numbers, in all, nearly 1,000 men and three women.

DOKEY MINSTRELS DELIGHT AUDIENCE

St. Mary's Band Adds to Success of the Entertainment

The Dokey Minstrels presented a programme last evening at the Queen Square Theatre that was a success from start to finish, with pep in every note of the minstrel selections. The music of St. Mary's band was sweet and well balanced with a special musical number in which Harold H. Williams, bandmaster, played skillfully on the saxophone, many variations of "Tramp, tramp, the boys are marching." The band sustained him with wonderful harmony, and an encore was demanded by the audience.

The tableau at the end was well put on. After Bayard Stillwell had sung "Sons of the Motherland," the curtain lifted to show the St. Mary's band in khaki, with a replica of a machine gun in the background, over which the Union Jack rose as the National Anthem was played following the playing of "O Canada," by the band. The audience joined with the Dokeys in singing "God Save the King." Charles Cromwell did some excellent juggling and his trapeze work brought continued applause. The "Rube" sketch by Thomas Stack was realistically carried out and well sung. Messrs. Boyer and Till sang the duet, "Tango, F. J. Irving, 'Snow-drops,' W. E. Demings, 'Bones,' H. Hamn, 'Mose' and W. J. Clarke, 'Mosses, Ernest Till, Lane, downe Belyea, Charles A. Munro and Rastus, Bones, Izzy and Snowdrop were the soloists, besides Mr. Stillwell, W. Brownfield, who was musical director at the regular picture show, as all the seats for last night and this evening were sold out.

The members of the circle who wore Dokey caps were C. A. Munro, D. Allen John Hopkins, E. Hammond, H. L. Yeomans, J. M. Jenkins, J. Pritchard, A. Weatherhead, G. Higgins, E. A. G. Brown, J. F. The managing committee were H. Youngclaus, H. Williams, Fred Doig and W. E. Demings. A. P. Till was secretary. R. L. Harding was stage manager and Roscoe O. Bond, pianist.

The proceeds are to be divided between the Protestant Orphans, Home St. Mary's Band and Adia Temple, Knights of Pythias.

Richard Walton Tully, probably America's greatest playwright-producer, is already engaged upon the scenario for his film version of his sensational international stage success, "The Bird of Paradise." He expects to take his company to Hawaii to get the proper atmosphere for "The Bird of Paradise," leaving Los Angeles early in the Spring.

GRAPHIC STORY HAS STIRRING CLIMAX

"Bright Lights of Broadway" at Unique Pleases Large Crowds.

The patrons of the Unique Theatre were very enthusiastic yesterday in the reception they accorded "Bright Lights of Broadway," which began a three days' engagement at this popular temple of the silent drama.

"Bright Lights of Broadway" graphically and vividly tells the story of a country girl's experiences in her struggle to reach the top of the ladder on New York's Great White Way, and it has everything that goes to make up a successful picture. The director, Webster Campbell, has unfolded his tale with consummate skill and an even tempo. Starting off with a quiet, simple situation, the narrative builds and builds until, finally, it culminates in a climax of dynamic intensity, and the large audience which was present at the opening performance gave marked evidence of its pep.

The cast, which is uniform in its excellence, is headed by the popular favorites, Lowell Sherman, pretty and appealing, Doris Kenyon and Harrison Ford. Others who are especially entitled to "honorable mention" are Edmund Breese, Tyrone Power and Effe Shannon. Miss Kenyon does what is without question the greatest work of her brilliant career, winning and holding throughout, the sympathy of the spectator and, in the closing scenes, sealing the uttermost heights of dramatic emotion.

But it wasn't. And thereby hangs a tale, for the picture made more money for the company than any production of the year.

Harry still believes that an audience would rather laugh than cry and that a picture no matter how tense or dramatic will be improved by a laugh injected judiciously here and there.

He is now preparing to direct "The Woman on the Jury" for First National. This is a slight emotion, a sentimentalization of Bernard K. Burns sensational stage play but there is going to be more than "emoting" in this picture, according to Hoyt, who promises good hearty laughs interspersing the more tragic features of the picture.

He threatened to put a comedy touch in a melo-dramatic picture. Harry O. Hoyt can really be considered the father of motion picture comedy relief.

It was back in the old days of the one reeler. Harry was scenario editor for Kalem. In those days a picture was either an out-and-out comedy or else a knock-em-down and drag-em-out melodrama.

PUT COMEDY TOUCH INTO MELO-DRAMA

Single Reeler was Shelved But Proved Big Success Later.

It was back in the old days of the one reeler. Harry was scenario editor for Kalem. In those days a picture was either an out-and-out comedy or else a knock-em-down and drag-em-out melodrama.

Harry still believes that an audience would rather laugh than cry and that a picture no matter how tense or dramatic will be improved by a laugh injected judiciously here and there.

He is now preparing to direct "The Woman on the Jury" for First National. This is a slight emotion, a sentimentalization of Bernard K. Burns sensational stage play but there is going to be more than "emoting" in this picture, according to Hoyt, who promises good hearty laughs interspersing the more tragic features of the picture.

Internal cleanliness protects against disease

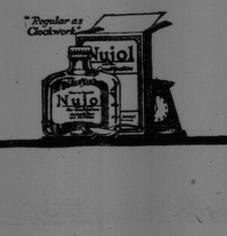

It is but a step from those immediate results of constipation—headache, heaviness, loss of appetite—to serious disease. Such minor ailments are a warning that poisons from food waste are flooding your body. Keep clean internally.

Laxatives Aggravate Constipation. Laxatives and cathartics do not overcome constipation, says a noted authority, but by their continued use tend only to aggravate the condition and often lead to permanent injury.

Not a Medicine. Nujol is used in leading hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative and cannot gripe. Like pure water it is harmless.

Get rid of constipation and avoid disease by adopting the habit of internal cleanliness. Take Nujol as regularly as you brush your teeth or wash your face. For sale by all druggists.

**BIG TREES YET IN ST. JOHN COUNTY**

Winter Cut Will Run Over 10,000,000 Feet—Sixteen Inch Deals.

If the average person were asked if there was any lumber left in St. John county the reply would probably be that pulpwood and small stuff for the mill was all that was found. This answer would be wrong, as there is one operation at Black River where trees are being cut that give four logs and one of them will cut a sixteen inch deal, which is almost as good as ever was cut from spruce in the province. The cut this year in St. John county will run over 10,000,000 feet of lumber, and is furnishing employment to a large number of men.

In the Black River operation the total cut will run to about 6,000,000 of which about 4,000,000 will be sawed into lumber this winter and the remaining 2,000,000 sawed next summer. At the present time two mills are operating there with three mill crews, one of the mills being operated on a twenty hour schedule, with day and night crews. Over 250 men are employed altogether here. Logs not being sawed are being piled on the banks of Emerson Creek and will be driven in the spring to the Bay Shore and sawed there.

The lumber which is being sawed is brought to the city on scows and loaded on cars for shipment to the American market, where there is a good demand at present and the price is fairly good. The scow of lumber which was being towed by the G. K. King when she sank off Black Point was from this operation.
