ST. JOHN, N. B., SATURDAY, SEPTEMBER 7, 1918

TWELVE PAGES—ONE CENT

FRENCH BUT THREE MILES FROM LA FERÉ

Have Captured The Town Of Terganier—Advance All Along Line

British Take More Towns and Are Into Havrincourt Wood; French Three Miles Beyond Ham—Haig's Troops Pushing on Toward Messines—Ready For Bigger Things on The Aisne

London, Sept. 7.—(1 p.m.)—Terganier, three miles west of La Feré, has been captured by French troops.

Three more towns
London, Sept. 7.—British troops advancing last night on the southeast and northeast of Peronne captured the towns of Hancourt, Sorel-Le-Grand and Metz-en-Couture, says today's war office announcement.

Fighting their way towards the left flank of the German positions along the Canal du Nord from Havrincourt northward, the British penetrated the western part of Havrincourt Wood, taking prisoners as they progressed.

In Flanders the British are pushing toward Messines, near the southern end of the Messines Ridge, and advanced their lines last night a short distance in the direction of the town.

North of La Bassée Canal on the Flanders front, their patrols made headway in the enemy positions in the vicinity of Canteleux and Violaines.

Three miles beyond Ham
Paris, Sept. 7.—On the front between the Somme and the Oise the French continued to press forward last night, overcoming the resistance of the German rear guard.

Pushing east of Ham, French troops have occupied the towns of Dury and Olinry, more than three miles beyond Ham.

HEAVIER IN WOEVRE REGION
With the American Troops in France, Sept. 6.—(By the Associated Press)—The fighting in the Woëvre region was heavier today than it had been for two weeks. In the Vooges, however, the fighting activity decreased.

Enemy aircraft flying in large formations on the German side of the line were active at times, especially in the Canche region. Twenty-three hostile machines were destroyed in air fighting and fourteen others were driven down to the ground.

Thirteen of our airplanes are missing. During the day twenty-one tons of bombs were dropped by us on various targets. No flying was possible at night.

PUTS DOWN 231 POUNDS
OF JAM IN FOUR DAYS
Niagara Camp, Sept. 7.—The first four days' operations of the canning kitchen by the Girls' Service Battalion in this town has resulted in 231 pounds of jam being put up by the young ladies.

Mrs. J. F. Rigg, O. C. of the Girls' Service Battalion, is delighted with the success of the patriotic enterprise, and with the generosity of the farmers in donating fruit and vegetables to be prepared for the use of the soldiers overseas and the military hospitals.

MAY VISIT ST. JOHN.
F. A. McKenzie, famous journalist and author, an associate of Lord Northcliffe, and at present editor of the Overseas Magazine, may be heard in St. John this fall. He is to visit Newfoundland and cross Canada, and an effort is being made by the Women's Canadian Club to have him visit St. John.

Mr. McKenzie was through the Russo-Japanese war. At the opening of the present war he went to Belgium. He has been correspondent for a syndicate of Canadian newspapers and is writing books on the war, with special reference to the work of the Canadians.

TWENTY-FOUR DEATHS
Twenty-four deaths were reported to the Board of Health this week, as follows: Cholera infantum, five; pulmonary tuberculosis, three; nephritis, two; endocarditis, pneumonia, malnutrition, diabetes, meningitis, myocarditis, hydrocephalus, premature birth, Bright's disease, splenic leucemia, cerebro spinal meningitis, carcinoma of rectum, fracture of base of skull and renal hemorrhage each one.

CITY HALL NOTES.
The asphalt paving in Main street will be completed today. The granite blocks will be completed by Tuesday.

The new concrete floor in No. 1 H. & L. station is ready for use. That in No. 7, West End, also has been completed.

Work has been started on the reconstruction of the Ashburn Lake road bridge.

Commissioner Fisher says that a statement by Commissioner Hillyard that a public works employe had shovelled refuse into a catch basin is incorrect.

In spite of the action of the commissioner's public safety in striking the magistrate's name from the city pay roll, it was learned at city hall today that the magistrate's pay is ready for him when he calls.

BRITISH PEOPLE IN RUSSIA ARE IN GRAVE SITUATION

London Anxious; Entire Colony In Petrograd Reported Arrested

STILL WORSE IN MOSCOW

Frenzied Hostility to British and French Shows There—An Allied Victory Near Archangel— Levine Reported Dead

London, Sept. 7.—News of the grave situation of British residents in Russia reached London on Friday and has caused great anxiety.

The Daily Express says the entire British colony in Petrograd is under arrest, including General Woodhouse.

Matters at Moscow are still more alarming, according to the newspaper, which says the Bolsheviks there have acted in frenzied hostility toward the British and French residents. It adds that full details have not been received, but that enough is known to cause the worst fears.

The government lacks news concerning the fate of certain officials.

London, Sept. 6.—A British official communication dealing with the operations of the Allied forces in the region around Archangel, Russia, says: "After further severe hand-to-hand fighting with the enemy, the British and French troops, the Allied troops have occupied Obozerskaya. Prisoners to the number of 149 were captured and heavy losses were inflicted on the enemy. The Allied casualties were slight."

Levine Dead?
Stockholm, Sept. 6.—Contrary to reports received from official Bolshevik sources, travelers who have arrived at Haparanda, Sweden, assert that Premier Levine is dead.

Amsterdam, Sept. 6.—Insurgent peasants have captured Nishni-Novgorod, according to a Moscow despatch to an English newspaper.

The Russian and German representatives, according to an official despatch from Berlin.

"EVERYTHING IS GOING SPLENDIDLY."
—Philosophic Record.

CANADIAN TROOPS HAVE WON BACK 56 SQUARE MILES

Large Number of Guns Taken and More Than Twenty Thousand Germans Are Made Prisoners

With the Canadian Forces, Sept. 6.—(By J. F. B. Livesey, Canadian Press Correspondent)—Yesterday our infantry cleared up the area included in the present show, the latter including the Canadian corps, but since Monday morning we have captured thirty-four field guns, thirteen five point nine inch guns, ten four point one inch guns, two four point one inch anti-tank guns, six anti-tank guns and several hundred trench mortars and machine guns.

The capture of enemy artillery has not been on the same scale as in the southern sector, because here the enemy attacked the enemy in his defensive positions, while there we caught him preparing for a grand offensive with all his guns out in front.

These figures do not include several thousand of enemy dead left on the field and take no account of the damage done to his thirty-one divisions encountered, and therefore our casualties are small as compared with the loss both moral and material inflicted.

HUN GENERAL STAFF
HAS GONE FROM SPA
Geneva, Sept. 7.—The German general staff, which had been installed at Spa, Belgium for more than a year and occupied six of the principal buildings of the city, was removed on Monday.

Several hundred officers and employes superintended the removal of all the military archives, including the correspondence and orders of General Ludendorff, Crown Prince Wilhelm and Crown Prince Rupprecht of Bavaria.

Two special trains were required to bear away the huge volume of documents, which were heavily guarded. The destination of the train is unknown.

A despatch from Amsterdam on Tuesday said that the German main headquarters had been transferred to Verdun, fourteen miles east of Liege, while on Wednesday the correspondent of the Associated Press with the American forces in France telegraphed that partial confirmation had been given to a report that the headquarters had been removed to Bonn, Germany.

ONLY ONE OF THE 150
U-BOAT COMMANDERS
MADE HIS ESCAPE
London, Sept. 7.—The admiralty publication of the names of the commanding officers of 150 German submarines was welcomed by the British press.

The newspapers point out that of the 150 German officers only one made his escape. This was Waldemar Bender, who escaped when his submarine was sunk, and is believed to have made his way back to Germany. Of the remaining 149 officers, 116 are dead, twenty-seven are prisoners of war, and six are interned in neutral countries.

German People Nearly In Panic

Nervous Anxiety Bordering on Demoralization; Army Despondent, Desertions by Thousands; Mutiny Breaks Out as Allied Success Continues

London, Sept. 7.—Public interest today is quite equally divided between the unbroken advance of the Allied armies and the apparent signs that the German people are in state of nervous anxiety bordering on demoralization.

The belief that something like a panic has seized the German populace is not based upon stories from neutral sources, which have raised false hopes in the past, but upon the utterances of the leaders in the German nation and the reports of German newspapers to the public to keep its head, while they themselves admit the seriousness of the military situation.

ARMY SERTHING
WITH THE SPIRIT
OF REBELLION
London, Sept. 7.—General demoralization of the German populace and widespread and growing disaffection in the German army, accompanied by mutiny and desertions are described in a despatch to the Daily Telegraph from its Rotterdam correspondent under date of Thursday.

The correspondent says that information reaching him is so sensational as to inspire scepticism, but declares that he has received corroboration from authoritative sources which establishes the authenticity of the information beyond a doubt.

He asserts that the German army is filled with despondency and seething with mutinous spirits, and that alarming outbreaks have occurred in several units, principally Bavarian and Silesian. One incident on the Aisne front terminated in a whole Bavarian division being disbanded and transported to Bavaria, where it was placed in a prison camp, and the mutiny of one of the Silesian regiments resulted in nearly 100 of its men being executed.

A huge number of desertions are occurring, the correspondent says, and it is estimated that there are more than 20,000 deserters in Berlin alone. Large numbers are deserting throughout the front, and the authorities are having the greatest difficulty in trailing deserters, owing to the compromise of the military police.

Nevertheless, hundreds have been arrested and generally sentenced to fifteen years imprisonment. A great number of imprisoned deserters, broken by solitary confinement, have been released and sent back to the ranks.

Disobedience and defiance of officers is common at the front, according to the correspondent's information, and a similar spirit is shown in the munition factories, where the workers deliberately are slowing up, with the result that the output has been seriously decreased.

In August of 1917, Lieutenant Teed was gassed in France, but on his recovery returned to his battery. He was awarded the military cross in the king's birthday honors in last June in recognition of consistent good work during his two years at the front.

His brother, Lieutenant Hugh Teed, who returned to France as bombing officer with an infantry battalion after being invalided home suffering from the effects of gas, was killed in action in January, 1917.

Besides his parents, Lieutenant Teed is survived by two brothers, J. F. H. of the firm of Teed & Co., and a younger brother, Gerald. There are also four sisters, Emily, wife of Lieut. Philip E. Palmer, overseas with a railway construction corps, and Misses Margaret, Dorothy and Constance at home.

Mr. and Mrs. John H. Tonge, of 189 British street, has received a cablegram from their nephew, informing them that their son, Pte. Frank Tonge, had been slightly wounded while in action.

Corp. H. T. Ward
Corporal Henry Thomas Ward has been officially reported admitted to No. 7 Canadian General Hospital, Lestrepot, France, on Aug. 29, suffering from gunshot wounds in the left leg. Corporal Ward, who is twenty-one years of age, is a son of Mr. and Mrs. Henry Ward of 149 St. James street. Before enlisting he had been employed with Cheyne & Co., grocers. He went overseas with the 149th battalion and afterwards was transferred to the machine gun section of a battalion at the front and has been on the firing line for almost two years.

In a letter received from him a few days ago he tells of taking part in the big advance and of entering the German lines. The dugouts which they captured he describes as almost palatial in their appointments.

Gr. Wm. T. Robertson
Mrs. Agnes Robertson, 161 Germain street, was advised this morning from Ottawa that her brother, Gunner William Turner Robertson, had been admitted to a hospital in France, suffering from gunshot wounds in the right arm. Gunner Robertson went overseas as a member of a draft from a battery. In England he was transferred to another battery. Prior to going overseas he was employed in a bank in Ottawa.

Pte. J. E. Dureen
Pte. James Dureen, 128 Hawthorne avenue, was notified this morning from Ottawa that her husband, Private James Edward Dureen had been admitted to the 8th Canadian Hospital in France on August 29, suffering from gunshot wounds. Private Dureen was wounded for the first time about two years ago. Prior to going overseas he was employed with the Imperial Oil Company.

Ottawa List
Ottawa, Sept. 7.—Following are the names of today's casualty list:
Wounded.
C. Fleet, St. John; S. R. Kierstead. (Continued on page 2, fifth column.)

ACTING CAPTAIN D. L. TEED GIVES LIFE IN WAR

Second Son of Mr. and Mrs. M. G. Teed to Make Supreme Sacrifice

The sad news that Acting-Captain Daniel Lionel Teed has been killed in action in France on Sept. 1, was received in an official telegram from Ottawa today.

His parents, M. G. Teed, K. C., and Mrs. Teed already had given one son in the empire's cause, and in their second bereavement the family will have the sincere sympathy of the entire community and of many friends throughout the province.

Lieutenant Teed, after leaving the St. John High School, graduated from the Rethsay Collegiate School and then entered upon the study of arts in the University. When war was declared, he proceeded to the Royal Military College in Kingston to qualify for overseas work, but in order to get to the front more quickly, made another change and took a qualifying course in field artillery.

In September, 1916, he joined a battery, commanded by Major Crowe, in Sydney and spent the winter with the unit in Fredericton, crossing with them in the following spring. From the time the battery organized he held the rank of acting-captain, but this rank had not been confirmed.

In August of 1917, Lieutenant Teed was gassed in France, but on his recovery returned to his battery. He was awarded the military cross in the king's birthday honors in last June in recognition of consistent good work during his two years at the front.

His brother, Lieutenant Hugh Teed, who returned to France as bombing officer with an infantry battalion after being invalided home suffering from the effects of gas, was killed in action in January, 1917.

Besides his parents, Lieutenant Teed is survived by two brothers, J. F. H. of the firm of Teed & Co., and a younger brother, Gerald. There are also four sisters, Emily, wife of Lieut. Philip E. Palmer, overseas with a railway construction corps, and Misses Margaret, Dorothy and Constance at home.

HENDRIX AND MAYS TODAY

Third Game of The World Series —Not Raining, But It Was Threatening

Chicago, Sept. 7.—The curtain was to be lowered on baseball in Chicago for the duration of the war with the third game of the series between the Boston Red Sox and the Chicago Cubs, who faced each other on even terms today.

Tonight the teams will entrain for Boston for the remaining games of the series. Manager Fred Mitchell said he probably would send Hendrix in to face the Red Sox. Manager Barrow planned to assign Mays to the task of turning the tide against the Cubs.

The great pitching of Tyler in yesterday's game, the sharp fielding of his teammates and their attack on "Bullet Joe" Bush's offerings when his counted, made the Cubs favorites on the baseball radio today. Saturday's half-holiday was expected greatly to increase the attendance.

Manager Barrow expects to keep Thonias, who is on a furlough from the Great Lakes Naval Training Station, at third base throughout the series. The probable batting order follows:

Boston—Hooper, rf; Shean, 2b; Strunk, cf; Whitman, lf; Melnis, 1b; Scott, ss; Thomas, 3b; Agnew, c; Mays, p.
Chicago—Flack, rf; Hollicker, ss; Mann, lf; Paskert, cf; Merkle, 1b; Pick, 2b; Deal, 3b; Killifer, c; Hendrix, p.

Despite yesterday's prediction of fair weather today the sky was overcast in a threatening manner this morning, although no rain had fallen.

"Today's game was a tough one to lose, especially as we nearly broke it up in the ninth inning," said Manager Barrow of Boston last night. "The Cubs had the better of the breaks, I think, who pitched great ball, and deserved to win. I expect to start Mays tomorrow and hope to make it two and one."

"The task of the Cubs is now easier," said Manager Mitchell of the Chicago club. "We are on even terms with Boston. The Cubs certainly recovered their batting eye and they are confident of retaining it. Tyler pitched a wonderful game and never was in danger except in the ninth, when he grooved them over for Strunk and Whitman. Those two triples saved Boston from a shutout. I expect to send Hendrix against the Red Sox tomorrow."

FUNERALS.
The funeral of George Fox will take place this afternoon from the residence of his brother, in Frederic street. Services will be conducted by Rev. R. Taylor McKim and interment will be made in Fernhill.

The body of Frank E. Belyea, who died at his residence, 72 Prince street, West St. John, was taken this morning to St. Stephen, where the funeral will be held tomorrow.

PLEASED WITH WHAT SHIPYARDS IN OLD LAND ARE DOING

Baron Pirrie, Controller, Gives Interview After Tour of Iyne District

London, Sept. 7.—Baron Pirrie, controller of merchant shipping, in the course of an interview, gave the impressions he had gained in his recent tour of the shipyards on the Clyde and generally reviewed the situation with regard to the merchant shipbuilding programme. He said he had been much gratified with the general position as he had found it, and continued:

"Considerable progress has been made with construction of private yards and extensions as well as with the installation of necessary plants and gear saving devices. New shipbuilding berths now are being brought into use on the Clyde and other yards, but another six or eight months must necessarily elapse before completed vessels can be delivered."

"The latest figure issued of the tonnage of steamships of 500 tons and over entered and cleared from United Kingdom ports should satisfy the public that all the departments concerned were fully alive to the necessity of the situation. The combined results of new merchant construction, merchant ship repairs and the official operation of shipping by the government have improved service to and from this country by twenty-two per cent since last January. And these results were achieved notwithstanding the deficit of \$9,418 gross tons during the six months to June 30 as between the tonnage of British merchant ships produced and British merchant ship losses."

Speaking of recent criticisms on the August output of merchant ships, Baron Pirrie said:—"If the output of merchant ships for the six months from September 1, 1917, to February 28, 1918—631,877 gross tons, is compared with the output for the six months from March 1 to August 31, 1918—871,263 gross tons, it will be seen that we produced thirty-six per cent more tonnage during the second period."

C. N. R. AFFAIRS
IN NEW HANDS
Toronto, Sept. 7.—Hon. J. D. Reid, minister of railways and canals, was here yesterday in connection with C. N. R. matters. He said that at the meeting of directors all the old board members had been transferred to the new board of D. B. Hanna, A. J. Mitchell and C. A. Bell, who remain to form a quorum pending reorganization.

The resignations of Sir William Mackenzie, Sir Donald Mann, Z. A. Lash, W. K. George, W. J. Christie, R. J. MacKenzie, E. H. Wood and R. M. Horne Payne were accepted. Mr. Hanna is in charge of operations until further reorganization takes place.

OCEAN LIMITED WRECKED; ONE MAN KILLED

Quebec, Sept. 7.—An I. C. R. train, the Ocean Limited, westbound, jumped the track near Ste. Helene, Kamouraska, early today. Six coaches fell off a bridge from a considerable height. There is at least one death and several are injured. Rescue trains have been rushed from Lévis and Moncton, while ambulances, supplies and doctors have been hurried to the scene.

The locomotive turned turtle in the front, and the train was derailed. The number of injured is five. None of the passengers was hurt. The engineer, T. Berube, of Fraserville, was injured, while the other victims are mostly mail clerks, slightly hurt.

Hun Officer Wept When Captured

Canadian Attack Interfered With His Plan to Visit Sick Wife

London, Sept. 7.—Sir George Perley, who has returned to London from the front, spent the night immediately preceding the present great Canadian operations with the corps commander, also with a certain divisional commander occupying a dugout which, prior to Aug. 8, was a German officer's apartment. Sir George Perley heard a singular story concerning a captured officer.

This man was weeping. His servant, who was captured with him, hastened to explain to the Canadians that his officer was weeping because the previous day he had heard of his wife's dangerous illness and had secured leave to go home, but chose to remain for the big attack which was known to be imminent. His capture naturally made it impossible for him to go to his wife. Sir George Perley spent several days with the Forestry Corps. "The confidence of all our troops is simply overwhelming," he remarks.

ANOTHER HOSPITAL BOMBED BY HUN

With the American Army in France, Sept. 6.—(By the Associated Press)—German aviators scored two direct hits on Wednesday night on the large Red Cross branch hospital southwest of Soissons. There were no casualties, as the patients were removed to nearby caves when the bombing began, soon after dark.

BISHOP PROMOTED, IS LIEUTENANT-COLONEL

London, Sept. 7.—(Canadian Associated Press)—Major W. A. Bishop, a noted Canadian aviator, has been gazetted a lieutenant-colonel.

Good Things Coming to Theatres of St. John

M'LISS IS A GREAT PICKFORD PICTURE

"Miss" Mary Pickford's latest picture, based upon the immortal story by Bret Harte, is the fifth photoplay featuring "America's Sweetheart" which was directed by Marshall Neilan.

MARY PICKFORD in "M'Liss"

The picture, it is fully up to the high standard set by Mr. Neilan's former production. Practically every photoplay directed by Marshall Neilan, with Mary Pickford as the star, has afforded the screen a new and delightful characterization.

BIG NEW BILL WITH JEWEL CARMEN AT GEM

A new photoplay of peculiar interest is announced for the Gem today, Monday and Tuesday. It is called "The Girl with the Champagne Eyes," and has as its star the beautiful Jewel Carmen.

The play deals with the life of a person of such beauty that it stands in the way of her making a living as other women are permitted to do. She chooses to become a thief, to keep herself from falling lower.

SATURDAY HALF HOLIDAY

To the Editor of The Times: Sir—While everyone is talking up home gardening so strongly and people are trying their utmost to help by having their own little garden, it seems to me that the employees in the dry goods stores cannot have the Saturday half holiday through the month of September to keep up the good work in gardening as they have through the last summer months.

Notice of Births, Marriages and Deaths, 50c.

BIRTHS

HUNTER—Born to Mr. and Mrs. W. J. Hunter, 285 Prince street west, a son.

DEATHS

HURLEY—At Ormston, on 6th inst., Mary, widow of Thomas Hurley, Funeral from the residence of her son, David Hurley, 108 Brussels street, Sunday at 2:30 o'clock. Friends invited to attend.

CARD OF THANKS

Mrs. John Ryan and daughter of Nauwigauk wish to thank the Sisters and nurses of the St. John Infirmary, also Doctors White and Kelly for their kindly care during Mr. Ryan's illness, and their sympathy expressed at his death.

ROUMANIA IS IN GRIP OF TYPHUS

German Doctors Let People Die of it or of Starvation

A Heroic American—Dr. Breckinridge Byrne Only One Who Had The Courage to Treat It

Paris, Sept. 7.—Typhus has again broken out in Roumania, particularly in the part occupied by the Germans, and there has been a large number of deaths. The victims are mostly poor Roumanian peasants, and little effort is made by the German medical authorities to combat the disease.

According to Mr. Mayer, an American physician, Dr. Breckinridge Byrne, of Washington, D. C., who was in Bucharest for nearly two years during the German occupation and who is now on his way to the United States, was the only one who had the courage to go into the affected areas to treat and fight the disease.

Barbed Wire Along Beach Near Venice

Lido Bathers Dipport Themselves Under Watchful Eye of Soldiers—Fear Enemy Landing

Venice, Sept. 7.—That part of the population that fled is gradually drifting back to Venice since the victory on the Piave, in spite of a slight resumption of activity by Austrian planes after a lapse of seven months.

PERSONALS

Miss Nellie Arthurs of Silver Falls, who is expected to visit her brother, Mr. and Mrs. Thomas Arthurs, of St. John, N. B., on Monday.

WELL DONE ROTHSAY

The official list of prizes by the Strathcona Trust is not quite ready, but it is understood that Rothsays College Cadet Corps obtained highest average in the province.

BELGIUM LOOKING FOR HOLSTEINS

Two representatives of the Belgian Department of Agriculture, Dr. G. Van derheyden and Dr. H. Holtermans, are now touring Canada looking for Holstein-Friesian cattle and Belgian horses.

A WESTERN LAND DEAL

The Fairview Farm Co., Limited, have disposed of 2,800 acres of land crop ten miles north of Osgo, Sask., at \$45 an acre.

FINE BILL IS NEW ONE FOR THE WEEK AT OPERA HOUSE

One of the Best Programmes of Vaudeville Offered There For Some Time

The entertainment in the Opera House for tonight and the coming week is one of the best brought here for some time. Every one of the five acts is a feature and the show is certainly well worth seeing. There is a variety of good clean vaudeville which is bound to please the large number of patrons.

After a thrilling episode of "The Lion's Claws," Glen Echo regaled the audience with catchy patriotic songs in addition to a reading. All apparently appealed to the audience for she was given hearty applause.

Renzo Wagner appeared in novelty dances which are exceptionally good. Their act is different from the usual Renzo and was greatly appreciated. They are clever dancers and their performance in toytand is well worth seeing.

Chas. Schoneberg was seen passing across the stage and that was all that was necessary to assure the audience that something unusually good was about to be presented for their approval.

It was a better musical novelty than was ever presented on a local stage and his playing and antics evoked rounds of applause. As a musician he is par excellence and as a comedian he is in a class by himself.

The last act on the programme was that of Shindo and Yasui, two Japanese acrobats. Their performance is well worth the price of admission alone.

Members of St. Monica's Society are requested to attend a meeting Monday, Sept. 9, K. of C. building, 8:30 p. m. Important business.

MORNING NEWS OVER THE WIRES

Three carloads of Stanfield's underwear, 25,000 pairs in all, have been taken on a railway siding at Truro, N. S., Sept. 6.

Notice is given that Rodolphe Bourgeois, Toronto, will apply next session for a divorce from Ross Adeline Bourgeois, Montreal.

The United States army transport Mount Vernon, formerly the North German Lloyd liner Kron Prinzessin Cecilie, was torpedoed by an enemy submarine yesterday 200 miles from the coast of France while homeward bound, but was able to return to port.

The Natural History Society juniors returned to the city yesterday afternoon from a most enjoyable canoeing trip down the River St. John.

SERGEANT GAMBLIN INJURED. Mrs. Herbert Hickson, Fredericton, has received word that her father, Sgt. Harold Gamblin, has been wounded. He was killed in the 4th Siege Battery, C. G. A. Gamblin of the wounded man.

ON VACATION. Dr. W. S. Carter, chief superintendent of education, who attended the board of education meeting at St. John this week, will now go on his annual vacation.

Bedford-Hubbard. Mr. and Mrs. J. E. Bedford, Moncton, announced the marriage of their son, Sgt. Frank R. Bedford, to Miss Winnie Hubbard, 805 Moray road, Tollefontaine Park, St. John, N. B., on Sept. 5.

ACTING CHAPLAIN D. L. TEED GIVES LIFE. (Continued from page 1.)

Glence, N. B.; J. A. Bertram, East Bathurst; L. Broderick, Campbellton; L. Quarmann, Springhill; J. McLean, James River, N. S.; A. J. Donnelly, New castle; C. Barnett, St. John; J. A. Bell, Fielding, N. B.; F. Johnston, Amherst; B. W. Hildes, Devon; S. Fleming, St. Stephen; C. A. MacNeil, Halifax; W. F. McCann, St. John; J. S. Burnett, Amherst.

WOMAN'S EXCHANGE LIBRARY. Some of our new books—"Love Eternal" (G. S. Porter); "Pretty Lady" (A. Bennett); "Holding Beasts" (E. A. Bennett); "Devil's Cradle" (Sedgewick); "Rough Road" (Locke); "Happiest Times of Their Lives" (A. D. Miller), etc. Rent them for a small fee.

THE BEST QUALITY AT A REASONABLE PRICE. GLASSES MAKE LIFE BRIGHTER. Good light makes one more cheerful—and properly fitted glasses bring good sight. Work and printing are seen sharply. Things farther away stand out clearly. The eye-strain which causes tired, itching, smarting eyes, headache, nervousness and other distress is better placed to live in.

Sharp's is a splendid place to secure glasses. An expert professional optician tests your eyes, and the glasses are made under his personal supervision. There is no guesswork.

RECENT DEATHS

Mrs. Anna Belle Hodges. Word was received in the city, yesterday, of the death of Mrs. Anna Belle Hodges, which occurred at an early hour yesterday morning at Bloomfield. Mrs. Hodges was ninety-three years of age and while death was not unexpected she will be greatly missed from her circle of relatives and friends.

Mrs. J. O. Calkin. Sackville, N. B., Sept. 6.—(Special)—Death of Mrs. J. O. Calkin, of Sackville, occurred tonight after an illness of about six weeks. Besides her husband she leaves one son, Lieut. James, overseas, and two daughters, Sybil and Georgie, at home.

Richibucto, Sept. 4.—Many friends will hear with regret of the death of Miss Alice Johnston, which occurred at her home Tuesday evening. The deceased, who was seventeen years of age, is the second daughter of Mr. and Mrs. Basil E. Johnston. Besides her parents, she leaves one sister, Rita, and three brothers, Alonzo, serving overseas, Ernest and Louis, home. Much sympathy is being extended the family by the community. The sorrow is particularly sad as her father is also serving in France.

Mrs. Sarah Puddington received word this week of the death of her brother, C. Campbell, of Ashland (Me.), who died at the age of seventy-five years.

On Thursday at the residence of her uncle, George Bunker, Traceyville, Miss Stella Woods died, aged twenty-two years. She is survived by her father, one sister and one brother.

Mrs. Cella McAllister, wife of Samuel McAllister of Sackville, died on Monday, aged fifty-four years. She leaves three daughters and two sons. The daughters are Misses Nellie, Jessie and Mary. The sons are Charles and Randall Babcock. She is also survived by two sisters, Mr. Albert Carr, Dorchester, and Mrs. John Smith, Fairview.

PLEASANT CANOE TRIP

The Natural History Society juniors returned to the city yesterday afternoon from a most enjoyable canoeing trip down the River St. John.

SERGEANT GAMBLIN INJURED. Mrs. Herbert Hickson, Fredericton, has received word that her father, Sgt. Harold Gamblin, has been wounded. He was killed in the 4th Siege Battery, C. G. A. Gamblin of the wounded man.

ON VACATION. Dr. W. S. Carter, chief superintendent of education, who attended the board of education meeting at St. John this week, will now go on his annual vacation.

Bedford-Hubbard. Mr. and Mrs. J. E. Bedford, Moncton, announced the marriage of their son, Sgt. Frank R. Bedford, to Miss Winnie Hubbard, 805 Moray road, Tollefontaine Park, St. John, N. B., on Sept. 5.

REV. PRINCIPAL FRASER HERE

Rev. Principal Daniel J. Fraser, who is visiting in the city and will take both services in Knox Church tomorrow, last month attended a conference of theological schools held at Harvard University for the discussion of problems of theological education arising out of the war. Fifty-eight divinity schools and fifteen denominations were represented. A very significant feature of the gathering was the administering of Holy Communion to all members of the conference by Bishop Lawrence of Boston, successor of Philip Brooks. A continuation committee was appointed, of which Principal Fraser is a member, to see that the conference of theological colleges on this continent becomes a permanent institution.

PTE MOTT WOUNDED

Alex. Mott of Husiagonis, has received word from Ottawa that his son, Pte. Kenneth A. Mott, has been admitted to General Hospital, Letchford, suffering from gunshot wound in his left hand. Pte. Mott went overseas with the 104th Battalion, later being transferred to the 26th.

F. C. MacNeil has purchased John E. Sayre's cottage at Rothsays for a summer residence.

BACK TO THE BORDER.
The view is now expressed that the Germans will be compelled to continue their retreat in northern France until they reach the Belgian frontier, if indeed they are not also driven out of a large part of Belgium. It would of course take considerable time to accomplish this, but the Allies are giving Ludendorff no time to rearrange his forces and he may have no choice but to continue his hasty retreat, offering only such opposition as may enable him to withdraw his main armies and as much material as possible toward the German border. Last night's cables tell of further important gains by British and French, and we may anticipate new thrusts by the group of armies which Marshal Foch is moving into action with clock-like precision along a front of a hundred and fifty miles.

AN ILLUMINATING ADDRESS.
Mr. G. T. Milne, the British trade commissioner, who addressed a group of St. John business men in the board of trade yesterday, made it perfectly clear that the war has effected a revolution in British industry and commerce, and that preparations are now being made with admirable forethought and intelligent purpose to find markets for exports and keep both industry and commerce in a flourishing state. The manufacturers are getting together, the traders are getting together, scientific research is being connected with industrial development, better banking facilities are being provided, and the government through trade commissioners and an improved consular service will lead very valuable assistance. Some things that Germany did before the war to expand her foreign trade will be done by Britain after the war, and Mr. Milne is confident that in the friendly though keen competition with her Allies for world trade old England will not suffer eclipse.

Mr. Milne frankly acknowledges that Canada will find it very convenient to get from her neighbor to the source of many lines of manufactured goods which she does not herself produce, but believes there will also be many lines in which Britain can compete successfully. He also foresees that British manufacturers may follow the American example and erect plants in Canada to cater for Canadian and other trade. There are to be three and probably four British trade commissioners in Canada, and Mr. Milne anticipates that they will be of very material assistance in bringing the Canadian importer and British manufacturer together. The Canadian Club of St. John was greatly interested some time ago to hear the American commissioner of commerce, Hon. William C. Redfield, tell how his country since the war began had developed the manufacture of dyes and optical glasses and some other lines which Germany when she broke out had a practical monopoly. Mr. Milne says that Britain has done the same, and will practically be able to supply her own dyes, optical glasses and other lines whose production has been made possible by linking up scientific research with manufacturing, as Germany had done before the war, but with this difference that Germany took the scientific discoveries of other nations and applied them in practical industrial development.

LIGHTER VEIN

"Rhubarb is versatile. It is both a food plant and a drug."
It has nothing on cabbage. You can eat it or smoke it.—Kansas City Journal.
Disappointed Wife.
"Whatever the matter, girlie? Disappointed in your poet already?"
"I married him to be his inspiration. Now he seems to expect me to be his cook."—Kansas City Journal.

ARE CHARGED WITH OPENING MAIL BAGS
Two youths, Hervi Ledord and Rene Lantais, claiming to be French-Canadian belonging to Montreal, are now occupying cells in the local jail on suspicion of cutting open a mail bag. The mail bag, for Sutton, with others, went out on the suburban train yesterday morning, and was as usual dropped off at Pandemic. The post mistress found the bag, but also discovered that it was ripped open.

TELLS OF WORK OF TRADE DEPT.
C. T. Milne, British Trade Commissioner, Addresses Business Men of City
At a meeting held at the board of trade offices yesterday afternoon, G. T. Milne, British Trade Commissioner in Canada and Newfoundland, who recently arrived from Australia, where he has been serving as British Trade Commissioner during the last five years, outlined the organization of the recently created Imperial Department of Overseas Trade (Development and Intelligence).

Facts for Health Seekers to Ponder Over
Nearly every disease can be traced to clogged or inactive stomachs. Indigestion, biliousness, headaches and insomnia all emanate from this cause. Keep these organs working and you'll have continuous good health. No case was ever treated with Dr. Hamilton's Pills, but their record is one of marvelous success. Dr. Hamilton's Pills are very mild, yet they cleanse the system and true health is established. You'll eat plenty, digest well, sleep soundly, feel like you get the genuine Dr. Hamilton's Pills in a yellow box always.

CANADA FOOD BOARD LICENSE NO. 14-330.

DISAPPROVES OF TAX EXEMPTION

up to the bill when the assessor comes round and you are exempt because your money is invested in "Victory bonds". It will lead to trouble and class feeling and—well, perhaps we can call it Socialism.

"I understand as well as anyone that Sir Thomas White must raise the money with which to finance Canada's part in the war, but notwithstanding that necessity I feel confident that he is making a grave error in exempting the Victory bonds," he concluded.

PASS \$17,000 MARK.

It was announced last evening that \$17,088.96 was the total which the Navy League fund in the city had reached. J. M. Christie, of the Canadian Bank of Commerce, where the counting of the money received with done, said that it was not at all unlikely that the fund might be increased by about \$1,000 more, as there were several promised subscriptions which had still to be collected, and these were, some of them, for sums varying from \$10 to \$25 and upwards to \$50.

The King's Daughters met as usual yesterday and reports were read by the different committees which showed that all were carrying on their work in an entirely satisfactory manner. Further plans were made for the annual miscellaneous sale which will be held in October. There was not a very large attendance as many of the members are still at their summer homes. The president, Mrs. A. P. Crockett, presided.

ABCOCK'S famous origination, Corylopsis, the delicate, gentle fragrance which so daintily suggests the magic charm of the East, combined with talc powder of mazy lightness, gratifying to the skin as soft-wave silk.

The order provides that no person shall tamper with any telegraphic apparatus or telephone connection or any device visual or otherwise for the purpose of signaling, nor shall they be permitted to have in their possession any apparatus for the tapping of messages sent by wireless telegraphy or otherwise.

The order goes fully into the matter of the displaying of lights outside of dwellings and gives the military and naval authorities the power to order people to remain within their dwellings between certain hours, inasmuch as military necessity demand such action.

Economy Hints For Housewives

Meatless Meats and Iceless Icebox Demonstrated in Calvin Hall Yesterday

This week's Friday demonstration in the Calvin hall under the auspices of the Housewives' League was greatly appreciated by an unusually large number of interested members and friends and the talks which were also given were particularly appropriate. Miss Hazel Winter, former superintendent of Women's Institutes for the province showed how to make meatless supper or dinner dishes and explained the best ways of using good food that was often discarded. One of the new pyrex dishes was used and proved very satisfactory. Mrs. Richard Hooper, convener of the demonstrations, had on exhibition a very simple form of iceless refrigerator which she had been asked to show. The catalogue of the combined exhibition of the war gas association and the St. John Housewives' League were distributed and members were specially urged to compete in the exhibition in the canned goods and war bread classes.

Not Ahead of St. John.

Mrs. Hooper, in opening the meeting, drew the attention of the members to the fact that Montreal was making special arrangements to have demonstrations by a French chef of the best ways of using good food that was often discarded. Among his chief dishes was the cod's head chowder which Mrs. Raymond so ably demonstrated at one of the previous meetings. Mrs. Raymond was very highly commended on the most excellent work which she has done for the league.

In connection with the exhibition of canned goods and breads Mrs. Hooper asked that every member make a special effort to send in at least a tin of condensed milk. Announcement was made by her that the next league meeting would be held on Monday evening and would be presided over by Mrs. Lawlor, its chief subject for consideration would be the sending out of the voluntary rationing schemes.

Miss Winter is a most capable demonstrator and her method of showing how to make vegetable loaf and mock Hamburg steak was followed with much attention and interest. She added greatly to the value of her demonstration by giving recipes for the dishes made for other of a similar vegetarian nature.

While the dishes were being cooked, the vegetable loaf and mock Hamburg were passed round and the demonstrators agreed to be very tempting and purchasers were not hard to find.

Iceless Refrigerator.

Mrs. Hooper's iceless refrigerator proved to be as simple as a tin can. It consisted of a box with a lid and a handle. The box was filled with water and a small amount of salt. The refrigerator was placed in a pan of water and the lid was closed. The refrigerator was used to keep the food cool and fresh.

MR. MILNE HONORED

A luncheon was given at the Union Club last evening, to G. T. Milne, British trade commissioner, by Hon. Walter E. Foster. There were present, besides the host and guest of honor, Mayor R. T. Hayes, Senator Thorne, E. L. Hising, A. H. Wetmore, R. W. Wiggins, M. F. W. E. Anderson, T. E. G. Armstrong, members of the executive committee of the provincial government, F. W. Sumner and George McAvity.

CLASS THREE NOT LIKELY CALLED UNDER THE M. S. A.

Ottawa, Sept. 6.—Reports that class three under the military service act is to be called out, are generally discredited here. The question, the Canadian Press, Limited, is informed, has not even been discussed. Any further call-out of the act would depend on the war situation and the supply of reinforcements.

THINGS THAT MUST NOT BE DONE

In order that the general public may be better acquainted with the desired rules of the military and naval authorities in conducting their activities so as to better conserve the safety of the ports in Canada's recent order-in-council has been passed at Ottawa outlining the whole matter in a most lucid manner. The new order-in-council is a digest of the War Measures' act and answers all questions which might hitherto be somewhat of a puzzle to the public.

The first section of the new order-in-council provides that no person shall without lawful authority publish or communicate any information with respect to the movement or disposition of any of the forces, ships, or war materials of his majesty or of any of his majesty's allies, or with respect to the plans of any naval or military operations by any such forces or ships, or with respect to any works or measures undertaken for or connected with the fortifications or defence of any place, the information is such as is calculated to be or might be directly or indirectly useful to the enemy.

The bug infecting the amateur photographer is dealt a stiff blow when the second section of the order points out that no person, without sufficient permission, may take any photograph, sketch, plan, or other representation of any naval or military work or of any dock or harbor work or in or in connection with a defended harbor, and no person in the vicinity of any such work, shall without permission have in his possession any photographic or other apparatus or other material or thing suitable for use in making any such representation.

The order provides that no person shall tamper with any telegraphic apparatus or telephone connection or any device visual or otherwise for the purpose of signaling, nor shall they be permitted to have in their possession any apparatus for the tapping of messages sent by wireless telegraphy or otherwise.

The order goes fully into the matter of the displaying of lights outside of dwellings and gives the military and naval authorities the power to order people to remain within their dwellings between certain hours, inasmuch as military necessity demand such action.

F. C. ROBINSON IS APPOINTED

Third Member of Compensation Act Board—Government Completes Sitings

The Workmen's Compensation Act board was completed last night by the appointment of F. C. Robinson, of Moncton, as the third member. The board is now complete and will begin its work on Monday.

Are You Deceived?

Have you been led to believe that the knife is the only cure for piles?

If so, it is unfortunate, for many thousands are being misled by the use of Dr. Chase's Ointment. Sometimes after operations have failed and often when doctors have said that an operation was the only hope.

It won't cost you much to try this treatment in your own home. It is sure to relieve and usually effects complete cure.

Lemon Juice For Freckles

Girlie Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of cream, white, shake well, and you have a quantity of the best freckle and tan lotion, and complexion beautifier, at very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of cream white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clean, soft and white the skin becomes. Yes! It is harmless.

An Appalling Condition

Invariably results when you use a cheap corn salve. Be judicious, use "Putnam's" for fifty years it has cured corns and warts that nothing else can touch. Ask for Putnam's Painless Corn Extractor only, 25c. at all dealers.

BIG PLANS FOR THE BEERSVILLE MINES

The Telegraph learned last night that in connection with the development of the mining areas at Beersville, Kent county, some of the most outstanding industrial men of the province of Nova Scotia are identified with the movement. The company has been capitalized at \$100,000, and among its directors are Colonel D. H. McDougall,

An offer of New Health to all who are Weak, Anemic, Nervous, Run-down

ONLY those whose life is darkened by ill-health—only those who are Weak, Anemic, or Nervous or Run-down—can realize what an office of health with vitality is the health you need.

Wincarnis possesses a four-fold power to promote new health. Because Wincarnis is a Tonic, a Restorative, a Blood-maker, and a Nerve-builder—all combined in one powerful, health-giving preparation. Therefore it promotes new strength, makes new blood, builds new nerve force and new vitality. That is why so many Doctors have recommended it. And the health that Wincarnis promotes is lasting health—not a temporary patching up, but real, new, vigorous health that you need.

Wincarnis contains the very elements of which our bodies are composed, and it has these wonderful properties in their most assimilable form. Every ingredient of Wincarnis is endorsed and recommended in the daily practice of the members of the medical profession the world over. Don't suffer needlessly! Accept the new health Wincarnis offers you. Will you try just one bottle?

LETTER CARRIERS IN CONVENTION
Hamilton, Ont., Sept. 6—At today's session of the convention of the Federated Letter Carriers of Canada considerable discussion was aroused by the reading of a communication from the driving service employees, asking the support of the meeting in the case of Judge Morrison, who claimed exemption from income tax on the ground of being a government employee. Various speakers thought they should not try to evade the question, but pay like all other working people. No action was taken.

President MacDonald scored the action of the clerks whom he claimed had gone behind the backs of the carriers and attempted to cut their throats. It should not be necessary for the carriers to beg the clerks to come in.

Pierre Minard, of Montreal, was also opposed to going to the clerk. A similar feeling was said to exist in Toronto.

The vote to adopt the executive report re affiliation carried 84 to 17 on divisions.

The convention approved the amendment that temporary carriers be placed in the same class as permanent men on annual increments and holidays.

The government, among other things, will be asked to abolish, in respect of cover, mackintosh leggings, and provide sweaters hats, longer coats than at present, and also longer fitting collars, waterproof overalls, all of which would give better protection to the mail and be more comfortable. On request of the porters of Toronto, an annual issue of boots and overalls was added to the report.

HOME SHIPS IN HOME WATERS
(Woodstock Sentinel-Review.)
The fleet of warships that Canada might have had but for the exigencies of party warfare a few years ago would be very welcome and very serviceable, now that the Germans are actually destroying our fishing vessels off the coast of Nova Scotia.

NEW BRUNSWICK POWER COMPANY
Interim Order of Commission Appointed Under Provisions of "An Act to Appoint a Commission in the Matter of the New Brunswick Power Company."

It appearing to the commission, in the course of its investigation and inquiry, to be justifiable and necessary for the financial temporary relief of the company to adjust and allow rates of fare, transportation and to fix the maximum price to be charged for gas and the maximum rate for electric current, the commission makes the following interim order, as of August 27, 1915:

1. That as of the first day of October, 1915, and thereafter until the further order of the commission, the maximum lighting rates shall be as follows:

First 500 kw. per month	15c
Next 100 kw. per month	12c
Next 200 kw. per month	10c
Next 300 kw. per month	8c
Over 900 kw. per month	7c

Discounts for prompt payment and provisions for minimum bills to remain unchanged in the existing schedule without change.

2. That as of the said date, and thereafter until the further order of the commission, the maximum power rates shall be as follows:

First 200 kw. per month	12c
Next 300 kw. per month	8c
Next 400 kw. per month	6c
Next 1,000 kw. per month	4 1/2c
Next 2,000 kw. per month	3 1/2c
Over 3,000 kw. per month	2 1/2c

Discounts for prompt payment and provisions for minimum bills to remain unchanged in the existing schedule without change.

3. That as of the said date, and thereafter until the further order of the commission, the maximum rate for gas, both fuel and lighting, shall be 22¢ per 1,000 feet.

Any provision in existing schedules for discounts or minimum bills to remain unchanged.

4. That as of the said date, and thereafter until the further order of the commission, the street railway fare shall be 6 cents. The Company shall not be required to issue tickets. Transfer privileges shall remain in force without change. Outstanding tickets shall not be valid for fares after said date but shall be redeemable in cash on demand at Company's office.

The Commission has caused the accounts of the street railway to be examined by Messrs. Lybrand, Ross Bros. & Montgomery, a firm of certified public accountants familiar with public utility accounting. It appears from their report that the operating expenses, to say nothing of any return on its investment, the net operating income has entirely disappeared. The recent increase in operating expenses, which our accounts report to us to be at the rate of \$177,041 per annum in the two items of coal and labor alone.

Counsel for the City is carrying on.

NOTICE
NOTICE IS HEREBY GIVEN that under and by virtue of the power and authority contained in a certain Indenture of Leasehold Mortgage dated the thirtieth day of August A. D. 1909, and made between Charles E. Colwell, of the City of Saint John, in the Province of New Brunswick, Book-keeper, of the first part, and John Colwell, of the said City of Saint John, in the Province of New Brunswick, Book-keeper, of the second part, and duly recorded in the office of the Registrar of Deeds in and for the City and County of Saint John, in Book 106, pages 168 to 171, No. 82867, default having been made in the payment of the said principal sum as well as the interest thereon, there will be sold at public auction, at Chubb's Corner, in the City of Saint John, in the Province of New Brunswick, on Saturday, the fourth day of September, at two o'clock noon, the leasehold lands and premises particularly mentioned and described in said Indenture of Mortgage as follows:—All that lot of land, situate, lying and being in the City of Saint John aforesaid, bounded as follows: Beginning on the eastern side of Adelaide Road at a point distant sixty-five feet eight inches southerly from the southern end of the railing of the Adelaide Road Bridge running thence southerly to the westerly and parallel to first bounds to the Adelaide Road; thence northerly along the same fifty-seven feet more or less to the place of beginning. Being the lot of land demised by Count Robert Visart de Bury and Lucy Gertrude, his wife to one Thomas Brown, by Indenture of Lease bearing date the seventh day of November, 1913, and duly recorded in the Office of the Registrar of Deeds in and for the City and County of Saint John in Book 85, page 87. Together with all the buildings and improvements thereon, for the purpose of realizing the principal money and interest secured by the said Leasehold Mortgage.

Dated this sixth day of August A. D. 1915.

JOHN COLWELL,
Mortgagee.

J. STAR TAIT,
Solicitor.

TENDERS will be received by the Board of Commissioners of the General Hospital in Saint John for re-wiring and providing an electric annunciator system according to plans and specifications to be seen in the office of the Secretary of the Board at the Hospital up to noon on the 16th day of September, 1915. Tenders to be sealed and addressed to the Secretary of the Board. A certified check for 50 per cent of the tender price must accompany each tender which will be forfeited to the Board in case tenderer refuses to go on with the work if tender is accepted. Lowest or any tender not necessarily accepted. Separate tenders will be received for each section of the work.

LADIES WILL AID K. OF C. HUT DRIVE
Two very enthusiastic meetings of Catholic ladies were held during the week for the purpose of planning the K. of C. Army hut campaign, which will take place from September 15 to 22. The first meeting was held on Wednesday evening and arrangements were made for holding a tag day in the campaign week, and the second meeting was held last evening to plan for an evening garden party and fair to take place on the K. of C. grounds, Friday and Saturday of the week on the K. of C. grounds. Both meetings were held in the K. of C. building on Colburn street.

On Wednesday evening representatives, either the president or secretary, of all the Catholic ladies' organizations in the city were present and the date selected for the tag day was Wednesday, September 16. Mrs. D. F. Chisholm was elected convener of the executive in charge, and Miss Amelia J. Haley was appointed secretary. Convener for the wards were chosen from the representatives of the various societies, and were asked to secure the requisite number of workers for each ward and to meet to form further arrangements for their undertaking on Tuesday evening in the K. of C. building.

At the meeting last evening Dr. W. P. Broderick, former grand knight, addressed the meeting in a very forceful manner and set forth the great need of huts not only at the front but in the training camps in Canada and England. The slogan of the campaign, he said, was that "Everybody is Welcome in the huts." Charles Owens, organizing chairman, and Edward Hennebery also addressed the meeting, and Mrs. Richard O'Brien, on behalf of the ladies present, promised their untiring and energetic efforts to make the fair one of the most successful events that the city had witnessed.

The executive which was appointed to take charge of the fair was as follows: Mrs. B. P. McCafferty, secretary; convener of home cooking, Miss M. Travers; refreshments, Mrs. W. E. Scully; apron booth, Mrs. Henry Hegan flower booth, Mrs. C. D. Wilson; grocery booth, Mrs. P. J. Fitzpatrick. Further details of the evening garden party and fair will be completed at a meeting to take place early next week.

TRADE ITEMS.
On account of the light pack of sockeye salmon on the Fraser River the price of canned salmon will be higher than last year. It is stated that most of the packing houses operating on the Fraser River have lost heavily this year.

During 1917 the amount of Portland cement shipped from mills in the United States amounted to 90,708,474 barrels.

OUR LENSES ARE CAREFULLY GROUND
The grinding of a lens is a matter of the greatest importance; the work must be absolutely accurate. Couple this careful grinding with the searching examination given you by our expert optometrists, and with our uniformly low prices, you must be convinced that it is to your best interest to let us take care of your eyeglass needs.

10,000 PEOPLE HEAR DR. BELAND

Wonderful Reception Accorded Him at Exhibition Open-air Address

Four Forces of Strength — Duty of All to Keep These Up to High Degree of Efficiency

(Toronto Globe.)
Toronto citizens and out-of-town exhibition visitors gave a magnificent welcome to Hon. Dr. Henri Beland, M. P., yesterday afternoon at the Canadian National Exhibition. Between 8,000 and 10,000 people gathered in front of the main band stand, and the reception accorded the distinguished French-Canadian visitor was tremendously enthusiastic. The heroic, self-sacrificing services rendered by Dr. Beland at the outbreak of the war to the betrayed Belgian people, his submerging of personal welfare in remaining on duty when he might have escaped from the cruel Hun, and his sufferings in Berlin prisons for three years, are fresh in the minds of the people of this province. Yesterday they took advantage of the opportunity of his presence to manifest their appreciation and to hear the stirring patriotic message which he brought back to Canada from across the seas.

Dr. Beland's address of twenty-five minutes was an eloquent one. As he stood on the bandstand and told of the causes leading up to the war, the desire of the enemy for world domination, and the barbarism of the Hun, the audience listened intently. When he reached the platform he was greeted by three resounding cheers for "the gallant doctor." Again when he rose to speak he was loudly applauded, and at the conclusion of his impassioned address the audience clapped their hands and cheered heartily. T. A. Russell, the president, in introducing Dr. Beland, paid him a warm tribute as a Canadian citizen.

Thanked People For Reception.
When he rose to speak, Dr. Beland thanked the audience for their kind reception, but he said he accepted it as a recognition of the noble service rendered by the sons of Canada across the sea, and not only as a recognition but as a support, an encouragement for the heavy task which is lying before them. More than twenty countries were fighting the enemy for honor, for justice and for liberty, he said.

"But which are the countries that have decided to trample upon those principles of honor, of justice and liberty?" he asked. "I am here to speak to you, I am here to tell you the truth. The countries amongst all and before all, which is responsible for this stupendous conflict which has been launched upon the world is our common enemy, Germany." (Applause.)
Germany had lost not a moment since her last war of preparation for this one. Dr. Beland then told of the circumstances leading up to the outbreak of the war, the invading, conquering and oppression of Belgium. Germany had disregarded the fundamental rules of war, and had committed the perpetration of horrors. Prisons had reached Germany from all quarters, but they have been of no avail, said the speaker. And then he paid a moving

tribute to the United States, which he said entered the war because it got tired of being shocked, and so it took up the fight with the Allies for right, justice and honor.

Desires Part of America.
"The coming into this war of the United States of America will, I am convinced, play an important, a decisive part," continued Dr. Beland. "The United States, united with the Allied nations, will prove in this war not only invincible, but irresistible. (Applause.) We are fighting against a very powerful foe." He said that he was now convinced the war had changed, but he told the audience the German people believed they were fighting a defensive war. However, he believed the official and military castes felt that the war was caused by their own ambition.

"We think now, with the help of God, the sacred cause of the Allied nations will be victorious," Dr. Beland said. "Canada has taken her share in this world conflict. Canada has played a noble part in it, and coming from Germany I may say that I have heard of the share of Canada between the walls of my cell. The showing of the Canadian troops is the cause of gratification to every one of us. Every part of this country has shared in it."

Four Forces at Work.
There were four different forces at work in all countries in this conflict, the speaker said. They were the financial, the moral, the economic and the military. All of these forces had each to be kept up to a high degree of efficiency. It was the duty not only of the government but of the governed to see that this was done. The financial force had played a splendid part in this country. The economic force had done its share. The men at the front had to be sustained, not only in men, but in food, munitions and equipment. The military force had done splendidly. The moral force of a country he described as united people, united in the secret of their forces in the United States that all elements have, for the moment at least, ignored their differences in creed and in race in order to serve a common purpose. (Applause.) Let us do the same in this country. Tolerance—I cannot repeat it too often—is the first and the greatest of public virtues. What is tolerance? Tolerance is the sacrifice of one part of your extreme opinion to the common good. It is the sacrifice of one part of your extreme opinion to the common good. That is tolerance, and if you are ready to do it we can all, in this country, work and achieve a great success and a great victory, not only in the field of battle, but in an economic sense as a nation. (Applause.)

A Message From Canada.
Dr. Beland said he had addressed French-Canadian and English-speaking Canadians in England, and he had given them a message from Canada. And then he painted a beautiful word-picture of Canada at home standing behind the men overseas and waiting for their return. "I have told them," he said, "that Canada would enshrine their memory, and that our gratitude would continue to descend upon the land of the Saskatchewan and the St. Lawrence rivers had rolled by their deserted homes on its way to the sea; that their memory would be kept as long as the placid bosom of beautiful Lake Ontario will reflect the beauties of a Canadian night." (Applause.) I have told them to go ahead and work, because their work is the noblest that ever existed; that Canada will emerge from this war a united land, a land in which all men from all parts will share in the development; a land that will be, when its various old duties, one of the most contented, one of the most prosperous, and the best and in the civilized nations of the world." (Prolonged applause.)

SURGICAL WORK IN WAR

London, July 30.—(A. P. correspondence.)—A Canadian officer, wounded early in the war, came to St. Katherine's Lodge, one of the American Red Cross orthopedic hospitals in London, to have his left arm made use of. The arm had been shattered. The officer was given a choice of having a weak, movable elbow, or a strong stiff one. Without hesitation, the Canadian chose the stiff elbow, and astonished the surgeons by asking that the arm be made perfectly straight so he could use a hunting knife and a billiard cue.
Another Canadian officer insisted on having his smashed leg rebuilt that he could continue to ride a horse. It required months of orthopedic treatment, but when the patient finally left the hospital to return to his ranch in Western Canada, he was ready for the saddle.
These cases illustrate not only the special work of an orthopedic hospital, but how closely the surgeons consult the wishes of their patients.

FREE TO ASTHMA SUFFERERS

A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time.
We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as Hay Fever or chronic Asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with asthma, our method should relieve you promptly.
We especially want to send it to those apparently hopeless cases, whose all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our own expense, that this new method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.
This free offer is too important to neglect a single day. Write today and begin the method at once. Send no money. Simply mail coupon below. Do it today.

FREE ASTHMA COUPON

FRONTIER ASTHMA CO., Room 305, 307 Niagara and Hudson Sts., Buffalo, N. Y.

GERMANS IN DREAD OF ECONOMIC WAR

No Peace Without Supply of Raw Materials, Says Writer in Berlin Paper

Sees Another Conflict—Talks of "Heavy New Armaments"—Wants Enemy States to Furnish Necessary Articles

Writing in the Vossische Zeitung, a few weeks ago, when the military outlook for Germany on the western front was considerably brighter than at present, a political and economic theorist, Dr. Emden, demanded that no peace be concluded which did not guarantee the supplying of Germany with raw materials which it would need to rebuild its economic structure. Furthermore, he demanded that the "heavy new armaments" which will be necessary after the war, this admitting that he regarded peace at present as merely an armistice.

"COUNTER-CAMOUFLAGE" REGULAR COURSE NOW

Allied Airmen All Taught Tricks of Enemy Camoufleurs

(Canadian Press Correspondence.)
Behind the British Lines in France, Aug. 15.—Every British and American aviator nowadays undergoes a special course of training in "counter-camouflage." It is the secret of their tactics of the German camoufleur artist to deceive the Entente aviators, and his eye is carefully trained to penetrate all the devices of the enemy.

It is diamond cut diamond all the time in the contest between the German camoufleur expert and the allied observer. Troops may be moving on roads camouflaged as canyons, but there is camouflage also even in the air. He is told all the tricks of the German camoufleur artist to deceive the Entente aviators, and his eye is carefully trained to penetrate all the devices of the enemy.

FREQUENT HEADACHES

People with thin blood are much more subject to headaches than full-blooded persons, and the form of anaemia that affects growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.
Whenever you have constant or recurring headaches and palpitations, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich, red blood made by these pills will remove the headache.
More disturbances to the health are caused by thin blood than most people have any idea of. When your blood is impoverished, the nervous system is troubled with insomnia, neuritis, neuralgia or osteoarthritis. Muscles become weak, under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin the patient finally left the hospital to return to his ranch in Western Canada, he was ready for the saddle.

GLAD TO BE PRISONERS.

One Sunday night the German 18th Reserve Division, which had been holding the line opposite the Australians near Merris, was relieved by the 4th German Division, which had been relieved by the 1st Australian Division. The operation cost the South Australians only two men, and six boxes of supplies. Only two Australians are reported killed.
The clearing of Merris village was carried out by a specially formed platoon consisting of personnel from the headquarters of the South Australian battalion, which planned and carried out the attack. While the fighting troops were establishing a new line between the town the special platoon moved through the burning village.
The first live object that met them was a cat. Presently they almost stumbled on several Germans sitting below a wall. These jumped up and put up their hands instead.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum, rashes, diarrhoea or thousands of little ones every summer. In most cases because they are not given the best medicine at hand to give promptly. Baby's Own Tablets cure these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely pure and free from any harmful substances. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

EMPLOYERS ABOLISH TIPS FOR BARBERS.

New York Bosses Vote to Make the Men Partners in Business and to Forbid Gratuities.

There is to be no more tipping in New York barber shops, according to a resolution adopted by the Master Barbers' Institute. It was announced by M. C. Cleary, chief attorney for the institute, and Joseph B. Schusser, its president, that this action had been taken in connection with a strike, at a meeting held at their headquarters, in the Hotel Belmont. The resolution reads: "That the custom or practice of giving and accepting tips as gratuities, heretofore and now prevailing, shall be abolished. Mr. Schusser said the master barbers at a meeting held three weeks ago had agreed by resolution to pay the journeymen \$10 a week and to allow barbers employed in street shops 50 per cent of the receipts above \$25 a week. Barbers in hotel shops were to receive 80 per cent on the receipts and 800. The journeymen, on their part, were to agree to the abolition of tips, and the master barbers suggested that signs an-

ATTENTION! Sick Women

To do your duty during these trying times your health should be your first consideration. These two women tell how they found health.

Hellam, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles and a displacement. It all ran down and was very weak. I had been treated by a physician without results, so decided to give Lydia E. Pinkham's Vegetable Compound a trial, and felt better right away. I am keeping house since last April and doing all my housework, when before I was unable to do any work. Lydia E. Pinkham's Vegetable Compound is certainly the best medicine a woman can take when in this condition. I give you permission to publish this letter."—Mrs. E. B. Ostrander, R. No. 1, Hellam, Pa.

Lowell, Mich.—"I suffered from cramps and dragging down pains, was irregular and had female weakness and displacement. I began to take Lydia E. Pinkham's Vegetable Compound which gave me relief at once and restored my health. I should like to recommend Lydia E. Pinkham's remedies to all suffering women who are troubled in a similar way."—Mrs. ELIZABETH HAZEN, R. No. 6, Box 88, Lowell, Mich.

An Army of 3,000,000 Back of Nuxated Iron

General Gordon, Hero of the Battle of Gettysburg Leads the Way; United States Judge Atkinson, Former Governor of West Va. Tells Benefits He Derived From Its Use; Former United States Senator Chas. A. Towne Commends Nuxated Iron to All Who Feel The Need of Renewed Energy.

General Gordon, Hero of the Battle of Gettysburg Leads the Way; United States Judge Atkinson, Former Governor of West Va. Tells Benefits He Derived From Its Use; Former United States Senator Chas. A. Towne Commends Nuxated Iron to All Who Feel The Need of Renewed Energy.

In discussing Nuxated Iron at a dinner in a fashionable hotel in New York, a well-known man of affairs said: "I have known it for thirty years ago by the inventive genius in England who proposed that all places of public entertainment, including play-houses, operas, theatres, grandstands, racetracks, and the like, should be taxed. Another proposal was that the very states in the Union which were the most backward in the progress of the grog, and the temples of those days were thick-set with statues of heathen gods and goddesses—should have a price put upon their heads."
Dined was when taxes were put on the watches attached to the seals that dangled from the fobs of the beaux or hung on the girdles that encircled the waists of the belles. Those who owned clocks were also regarded as fit subjects for special taxation.
The "quince-pie" tax—the tax a householder had to pay for every person in his household who wore a pigtail and covered his hair with powder—made its day and passed away. So, too, had a tax on soap—the impost that gave Lord North his nickname of "Old Soap-suds"—and a tax on salt. Old-fashioned mittens were once taxed, and so were scores of other articles and the shops in which they were sold.

General John L. Clem, U. S. A. Retired, the Drummer Boy of Shiloh who Entered the U. S. Army at the Age of 13 Years. He Was Promoted to Sergeant for Gallantry at the Battle of Chickamauga when Only 12 Years Old. The Story of His Life is the One of the Most Inspiring and Heroic of the War.

supply the iron deficiency in your blood by using some form of organic iron—Nuxated Iron—just as you would use salt. It is surprising how many people suffer from iron deficiency and do not know it. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two or three tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have regained their endurance in two weeks' time while taking iron in the proper form. Many an athlete and prizefighter has won the day simply because he knew the secret of great strength and endurance which is so greatly aided by having plenty of iron in the blood, while many another has gone down to ignominious defeat simply for the lack of iron.

Manufacturer's Note: Nuxated Iron, which is prescribed and recommended above by physicians, is not a secret remedy but one which is well known to druggists everywhere. Unlike the old-fashioned iron pills, it is not a harsh, irritating, or purgative. The manufacturers guarantee successful results to every purchaser or they will refund your money. It is dispensed in this city by the Watson's Drug Store, and all other druggists.

WOMEN! Stop Corn Pain! Few Drops and Corns Lift Out

Don't hurt a bit! Cincinnati man discovers drug that works miracles—No discoloring!

Your high heels have put corns on your feet, but why care now? This tiny bottle holds an almost magical fluid. A Cincinnati chemist discovered this free compound and named it Freestone. Small bottles of Freestone like here shown can be had at any drug store for a few cents, but get a bottle of Freestone and apply a few drops on your tender, aching corn or callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you can lift it off with the fingers. Just think! You get rid of a hard corn, soft corn or a corn between the toes, as well as hardened calluses without suffering one particle. Freestone is magic! Keep it on dresser.

nouncing the abolition be placed in conspicuous places in the shops. He also said that the meeting on Wednesday night was attended by 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

LONGER CASUALTY LIST SHOWS PRICE PAID FOR RECENT GAINS

Acting Major Harold Gladstone Wood, son of Mrs. J. Hamblet Wood, Prince William street, and one of the few original officers of the famous 20th regiment in the field, has been slightly wounded in France. He had only returned to the front on August 5, after being in hospital. However, it is gratifying to know that Major Wood's wound is only slight and he has been able to remain in the line.

MAJOR HAROLD WOOD, M. C., slightly wounded.

Major Wood has made a splendid record with the 20th battalion. He enlisted four years ago and crossed as a lieutenant with the New Brunswick regiment, and has promotion by merit having been adjutant as well as acting in command of his regiment. He was awarded the British military cross and Belgian war cross in January last, and is a well liked and soldierly officer. He is reported as being wounded on the same day on which the late Lieut.-Col. A. E. G. McKenzie met his death.

St. George Hears of Wounded. St. George, Sept. 4.—The casualty list for the past few weeks has brought sad news to many homes in St. George and vicinity. Lieut. Woodbury and Sergt. Holmes have been killed, and Lieut. Grafton, Frank Connelly, Lieut. Oliver Spinney seriously wounded, with Lieut. Elmer McLaughlin also wounded.

Mrs. Richard N. Dean, 72 St. James street, was advised yesterday that her son, Private James Irvine Earle, had died of wounds on August 27. Private Earle was about thirty-seven years old and was a veteran of the South African war. He served three years at Fort Dupont on the Delaware and had come from the Philippines to Vancouver to enlist with the 100th Infantry Battalion. Besides his mother, he leaves one sister, Mrs. Howard H. Bell, of this city.

Mrs. William Avery of Chatham, received word yesterday that her son, Private Frank Neil Avery, had died as the result of wounds. He was twenty-three years old. Besides his mother, he leaves three brothers, George, William and James, all in the United States, and four sisters, Mrs. Harry Green, Mrs. Stanley Gouchy and Mrs. Joseph McCarthy, Chatham, and Mrs. Alexander Gouchy of this city.

Wounded. John Duffy, Mill street, Fairville, has been notified that his son, Corporal C. J. Duffy, had been wounded on August 17.

Private George W. Frost, an original member of the 20th Battalion, has been wounded on August 28. The information was received yesterday by his mother, Mrs. C. W. Taylor, St. Andrews street.

Mrs. L. M. Keating, Fairville, has received word that her son, Pte. Stanley N. Keating, was wounded in the leg on August 28.

Lt. Moore Killed. Fred H. Moore, general locomotive inspector of the C. G. R., at Moncton, received word that his son, Lieutenant Clifford L. Moore, had been killed in action on August 20th. Lieutenant Moore was twenty-three years old and was 70.

CLEAN—yes and disinfected too! Everyone likes bed-linen, blankets, etc., to be super-clean—immaculately fresh. The best of all soaps to use is Lifebuoy—it actually disinfects as it cleanses. LIFEBOUY HEALTH SOAP. The carbolic odor in Lifebuoy is the result of its protective qualities—vanishes after washing.

Horlick's Malted Milk for Infants. A safe milk diet, better than cow's milk alone. Contains rich milk and wheat grain extract. Canada Food Board License No. 14-385.

CANADA TO MAKE LINEN THREADS

War Trade Board Arranging For the New Industry — Supplies Are Now Scarce

Ottawa, Sept. 7.—Steps are being taken by the government through the Canadian War Trade Board to secure the establishment in Canada of an industry for the manufacture of linen threads and yarns. At the present time a variety of commodities are produced from flax grown in the Dominion. Hitherto, however, linen thread and yarns have not been manufactured. Canada has depended for them upon Great Britain and the United States. Of late it has been difficult to secure supplies. Only small and irregular shipments have been received from Britain and exportation from the United States has been stopped. Hence it becomes necessary that a thread and yarn spinning industry be encouraged in order to meet the demand for thread for the boot and shoe manufacturing industry, for the making of harness and other leather goods and equipment, for the wearing of the Canadian War Trade Board for many other purposes. This problem has been engaging the attention of the government and has been the subject of a number of conferences. It has been decided that encouragement should be given to firms in Canada to engage in the industry. An order-in-council has been passed, it is understood, empowering the Canadian War Trade Board to carry on the negotiations and make the necessary arrangements. The new industry will supply the needs of many manufacturers in Canada and will afford a new use for flax grown on farms in the Dominion.

Crops Better Than People Expected

Mixed Grain in Norfolk, Ont., Up To 65 Bushels An Acre

(Toronto Globe.) Actual thrashing returns show even heavier grain yields in Ontario than were at first estimated, according to this week's report of the Ontario department of agriculture. Mixed grain in Norfolk has gone as high as 65 bushels an acre. The surprise is in corn. It looked like a failure in this crop early in the season, but it now promises a fair general crop after all, especially for the silo. With ordinary fall weather corn from the new southern seed used this year is likely to mature. Durham county, however, reports that the crop there has a tendency to run to stalk rather than ear.

Clover fields have been much improved by recent rains, which were much needed. Alfalfa and alfalfa are doing relatively better than clover for seed. Late potatoes have suffered from drought, and will not be equal to those planted earlier. Apart from the number of small potatoes, the general quality of the crop is good.

Roots also were greatly checked during the hot, dry spell, but the soaking rains of the past week will help them along.

So Fine and So Shapely. The finest of cashmere, cottons, mercerized lises and pure silks—beautifully soft and luxuriously finished. Mercury Hosiery. is in many ways superior to those fine lines of hosiery imported from abroad before the war. It is knitted on wonderful new machines in a big, new, bright and airy daylight factory, where the welfare of the employees is given every consideration. Consequently the better class of help is attracted and the most skillful workmanship put into Mercury Hosiery. Ask your dealer to show you this new, shapely, full-fashioned, seamless hosiery. Black, white and all fashionable colors. No other hosiery knitted or fashioned the same. Mercury Mills, Limited. Hamilton, Canada. Makers of high grade hosiery for men and women. Also underwear for men, women, children.

At Home and Overseas. Keep your shoes neat and preserve the leather. THE F.F. DALLEY CORPORATION, LIMITED, HAMILTON, ONT.

French Tribute To The Canadians

(By J. F. B. LIVESAY, Canadian Press Correspondent.) With the Canadian Forces, Sept. 5, noon, via London, Sept. 6.—"Vive Les Canadiens, Vive Les Canadiens!" With these words did the lorry loads of repatriated French citizens greet a Canadian officer. These forty-six persons for four years held in slavery by the Hun in their village of Ezeux St. Quentin have been freed by the Canadian Corps. Their village so far behind the boche lines, had escaped the ravages of war. In spite of the fact he is now leveling it to the ground by long range bombardment, exactly as he still directs his fire upon Arras. They were delivered at last but it was with saddened hearts that they drove through the desolation of N. Man's Land where they had been wont to visit the fairs and fast days of neighboring smiling villages. They pass beyond into virgin France and in passing they send a message of gratitude to the Canadian nation. Their deliverance was actually effected by a Canadian artillery officer. A young girl, a slender brunette, embraced him, kissing him on either cheek. "In me," she cried, "the French people salute our saviours."

UNITED STATES LEADS WORLD IN SHIP PRODUCTION

Washington, Sept. 6.—America now is leading the world in ship production. Comparison of figures on deliveries announced by the Shipping Board with official figures on the output of yards in the United Kingdom show that plants in this country have delivered 1,636,403 deadweight tons since January 1, while British yards have turned out 1,545,826 tons.

War Summary

New York, Sept. 6.—The Associated Press tonight issued the following: "The Germans continue to give ground before the Allied armies over the 150 mile battlefront from Ypres to Rheims. Particularly heavy defeats have been inflicted on them by the French in the old Noyon salient and by the French and Americans in the region between the Ysle and Aisne rivers east of Soissons. To the north Field Marshal Haig's men have pushed their lines eastward at numerous points into enemy-held territory for goodly gains and daily increasing resounding successes against the entire German line facing them. In the old Noyon salient the French have captured the important junction towns of Ham and Chateau, with their railroads and high roads leading respectively to the German lines at Laifere, across the Canal Du Nord, they have penetrated at various points to a depth exceeding six miles. The little forest of Concy at the western portion of the great salient has been captured and has stood the barrier to a direct advance eastward, has been entirely taken and across the Aisne the General Manly's forces have re-occupied additional points which have brought them abreast the old German defensive line, outflanking the present German line in this region and that north of the Aisne which is being pushed eastward toward the Chemin-Des-Dames. The latest French official communication records the fact that the French troops on the north bank of the Aisne have re-occupied all their old trenches and says also that eastward the Americans have made further progress in the region of the Aisne—Progress and Reckless which brings their front appreciably nearer the Aisne and also shows the German line which dominates the territory southeastward toward Rheims. Much probably will depend on this dominating position in the east which the French to the east may bring, in starting a crossing of the Rhine sector. All in all, with the old Noyon salient now virtually bottled out—with all its roads and strategic points in the hands of the French—and with the pressure to the north seriously menacing by the British and the Germans in retreat from the Ysle to the Aisne, it seems apparent that the Germans soon must hurriedly re-establish their entire battlefront in the west. East of Rheims, the British are advancing over a front of approximately seven miles toward St. Quentin, having captured numerous additional towns. Where the enemy has attempted resistance it has quickly been overcome. In the north further progress has been made in the direction of Cambrai and on the Lys salient Field Marshal Haig's men are still engaged in successful operations in the remains of the old salient."

CATHOLIC ARMY HUTS

Extensions of Organization's Work Taking Place in Various Parts of England (Canadian Associated Cable.) London, Sept. 2.—Extensions of the Catholic army huts are taking shape in various parts of England. Contracts have been let for recreation huts to be built at Seaford Camp, at the Canadian Convalescent Hospital, Cooden Beach, and for a chapel and reading room at the Canadian Discharge Depot, Buxton. Recently Major (Rev.) J. J. O'Gorman opened at Bezzell a new hut for Canadian cadets and at Willey there is a substantial chapel and recreation hut under construction. The Catholic Army Hut Association is a counterpart of the Y. M. C. A. and the two organizations work in the most cordial sympathy.

Wife's War Talk

"Does your wife show any interest in the war?" "Yes, indeed. She talks about it." "What does she say?" "Why, she says she wishes I could go."—Pearson's.

PLAYGROUNDS EXECUTIVE

A meeting of the playgrounds executive was held in the Y. M. C. A. last evening with A. M. Belding in the chair. Reports from the various supervised playgrounds submitted showed that success had attended the efforts put forth this year in playground work in St. John. Samples of recent work such as knitting, basketry, etc., were shown at the meeting last night and compared and it was decided to offer prizes for the best pieces of work. It was pointed out that tremendous good had been accomplished this year especially in the arrangement of baseball games in the north, south and west sections of the city so much so that it was proposed next year to have a supervisor in the person of a young man to look after the playground work in these places so that the pressure of attendance in the supervised playgrounds could be relieved which is more for smaller children. The hope was expressed that something tangible would be done in the coming year for a playground in the east end. This is the only part of the city which lacks what the other three sections of the city have. A committee was appointed to co-operate with the Rotary Club on their "field day" to have an exhibition of playground work. Those appointed were Mrs. A. J. Mulcahy, Mrs. R. S. Ritchie was elected a member of the playground executive. Mr. Ritchie has been very active throughout the year just closed in the Aberdeen playground.

A well made cup of BAKER'S COCOA is a large part of a good meal. It is delicious, is practically all nutrition, the protein matter being appropriated by the system almost to its full extent, and its use saves other more expensive and wasteful foods. Trade-mark on every package. Canada Food Board License 21-690. WALTER BAKER & Co. Limited. Established 1780. DORCHESTER MASS. MONTREAL CAN. MADE IN CANADA.

GOOD THRESHING REPORTS COMING FROM ONTARIO

Yields Are Showing Heavy Grain and Plenty of It.

Western Situation - Good Conditions Continue, But Crop Now Late - Outlook Greatly Improved in the Last Month.

(By F. M. Chapman, Editor Farmers' Magazine.)

Threshing reports from Ontario continue to increase the optimism prevailing over eastern crops. The grain stood up well, had a good filling period, and was harvested in good shape. The yields therefore are showing heavy grain and plenty of it. Peas are the best recorded in over ten years. Spring wheat will easily surpass the ten-year average by from three to five bushels per acre and its acreage must be somewhere near 500,000 in Ontario. This good crop goes a long way towards redeeming the fall wheat loss in the same province. In oats the yields are large and the immense crops of this cereal in Canada will amply protect man and beast against food shortages for 1919, especially since the United States has such a favorable harvest in wheat, corn and coarse grains. In the maritimes, equally bright conditions prevail. Potatoes, oats, hay and stock returns are unusually good.

Western conditions remain as satisfactory as at last report. W. R. Wood, M. P. for Beautiful Plains, who is secretary for the Manitoba grain growers, is on a trip east and informs the Financial Post that Manitoba will have a nearly normal harvest. In some places the wheat returns are magnificent, while recent rains have helped out on pastures. There is so much mixed farming being carried on in Manitoba that setbacks cannot affect the financial situation of farmers as formerly.

Varied Reports From Saskatchewan.

Miss Cora Hind of the Winnipeg Free Press who is touring the prairie writes the Financial Post from Weyburn, after traveling through the heart of the drought stricken districts. Since my last report to your paper have cross-cut Saskatchewan from north to extreme south, coming east along the Weyburn-Lebridge line of the C. P. R. to Assiniboia and northeast from there to Moose Jaw and thence south to Weyburn on the Soo line.

In this trip have covered what is undoubtedly the section of that province that has suffered most seriously from drought and drifting in the earlier portion of the year and have seen many fields that will yield absolutely nothing. At the same time I have seen large sections of crop that are as fine as anything that province has ever produced, and also much light crop that will yield very heavily in proportion to straw as

Drastic Regulations in U. S. For Last Half of Year

Next Year Dark - Manufacturers Have no Other Intimation Than That They Must Be on a 100 Per Cent War Basis by January 1

(Financial Post.)

Manufacturers of passenger autos, both Canadian and American, while hoping for the best, are preparing for the worst. The American manufacturers both of passenger cars and repair parts have come to an agreement with the War Industries Board to limit production during the last six months of 1918 to twenty-five per cent of the total production of 1917. A letter to this effect has just been sent to the National Automobile Chamber of Commerce by the War Industries Board. The board gave notice that in order to permit this production it will extend preferential treatment for the obtaining of materials necessary to "match up" the stock on hand.

This development in the automobile situation leaves manufacturers as much in the dark as before. It was stated to the Financial Post by several firms that it is impossible to tell just where they stand. They have the letter recently sent out by the war board stating that it would be advisable for them to put their plants on a 100 per cent war basis by January 1, 1919. No order to this effect has as yet been issued. Now comes the order limiting the production of passenger cars for the remainder of this year. All this, of course, has a direct effect on Canadian auto manufacturers, who are dependent on American firms for parts and supplies. What It Means.

Just what this latest order to cut the production of passenger cars to 25 per cent of the total production for 1917 means may be understood better when it is learned that in 1917 approximately 1,800,000 automobiles of all kinds were manufactured in the United States. Of this number about 200,000 were motor trucks. On the basis of the first three months' production, Geo. M. Graham, chairman of the national motor truck committee of the National Automobile Chamber of Commerce estimates that in 1918 there will be turned out 276,000 motor trucks. Of these at least 60,000 will go into war service overseas. There is an urgent need for more trucks and it is to meet this and at the same time conserve supplies of steel needed for other war purposes. As a war measure the manufacturers admit that the step planned by the war board is logically sound. Winning the war is the big thing and putting the huge auto manufacturing facilities of the United States on a 100 per cent war basis will not only hasten victory but will help in preparing the auto industry for the important part it has to play once victory has been attained.

The American auto manufacturers will not suffer financial loss. They have already accepted war orders that total over \$600,000,000. At the present time the war requirements of steel and rubber exceed the supply but the war board is making every effort to keep the out-

majority when both houses vote as one, as they will in the event of difference. The central executive will still be the viceroy's council, in which the native element will be represented, though in a minority. In purely local affairs there will be full self-government both for rural and urban districts. This system, which is federal in structure, is characteristically British in its disregard of rigid logic and fine-spun theory. It is eminently practical, and leaves much to the development which will be shaped by circumstances and experience. It begins by giving the Indian people absolute control over the things with which they are most familiar, or which the educated natives are most adapted to manage. If they prove their capacity in the restricted sphere, then the area of self-government will be enlarged from time to time until it is as wide as that enjoyed by the self-governing dominions. The scheme provides for periodical revisions of the constitution with this object in view. It is possible that within a generation India will have the same status as Canada or Australia. The measure involves necessarily the surrender of large powers by the imperial government and the Indian executive. This is the process of decentralization by which the empire has been evolved. It has been justified in Canada, in Australia, in New Zealand, in Newfoundland, and, later still, in South Africa. A self-governing India, bound by India's history and gratitude to the United Kingdom, if not by the bonds of race, would be a unique and glorious monument to British statesmanship and British ideals of liberty.

HOME RULE FOR INDIA

(Toronto Globe.)

The report on constitutional reform for India, which is compared by the London Nation to Lord Dufferin's famous report on Canada, will rank among the great documents of history. It outlines a plan which insures "the progressive realization of responsible government" for 800,000,000 people. Its favorable reception in all circles, official and unofficial, in both Great Britain and India, is in itself a remarkable achievement, full of promise for the success of another of those experiments in freedom which have been the glory and strength of the British Empire.

The report is chiefly the work of the secretary of state for India, Mr. Montagu, who journeyed to India to analyze its problems, to confer with its rulers, and to study native opinion. Indian home rule, or the measure of it embodied in the present scheme, is not a sudden conception or concession. For many years the basis of political power has been broadening and certain classes of natives have been admitted by degrees to a voice and share in government. But the present project carries India much farther on the road to complete autonomy than any previous stage of the journey. For the first time the executive will be linked with a legislative power resting upon a comprehensive franchise. There will be provincial assemblies composed mainly of elected members having control over education, local self-government, provincial taxation, excise, minor public works, and other subjects and services. The central government will be less democratic, but there, too, the door will be left open for further advance. The legislative body will consist of two chambers, the lower one mainly elective, the upper one mainly nominative, but the elected members will have a substantial
