## Captain of Steamer Mont Blanc and Halifax Pilot Arrested on Charges of Manslaughter

### Held Wholly Responsible for Violating Rules of Road by Drysdale Commission

### Pilotage Authorities and Commander Wyatt Also Censured

### Finding of Commission Which Inquired Into Causes of Halifax Disaster Rendered This Morning; Recommends That Pilot's License be Cancelled and Criminal Prosecution Instituted; Captain's Case Referred to French Authorities; Urges Greater Precautions

Halifax, Feb. 4.—That the collision between the French munitions ship Mont Blanc and the Norwegian-Belgian relief ship Imo, which took place in Halifax harbor on Dec. 6 last, resulting in the explosion of the Mont Blanc's cargo and the loss of 1,500 lives and great destruction to property in Halifax city and county, was caused by violation of the rules of navigation and that Pilot MacKey and Captain Lemedec of the Mont Blanc were wholly responsible, therefore, was the finding of the court of inquiry here this morning. The court recommends the dismissal of Pilot MacKey by the pilotage authorities and calls the attention of the law officers of the crown to the evidence with a view to criminal prosecution.

The court recommends to the French authorities consideration of this evidence with a view to cancelling Captain Lemedec's license and dealing with him according to the law of his country.

Immediately after the announcement of the findings of the court of inquiry, Chief of Police Hannahan took into custody Pilot Frank MacKey on a warrant issued from Stipendiary McLeod's office charging manslaughter in connection with the death of Pilot Wm. Hayes, who was killed on the Imo. A half hour later the chief arrested Captain Lemedec, master of the Mont Blanc, at the corner of Prince and Granville streets, in a similar charge.

The court finds the pilotage authorities deserving of censure for having permitted Pilot MacKey to pilot ships after the collision of Dec. 6.

With reference to Commander Wyatt, R. N., chief examination officer at the port of Halifax at the time of the collision, the court states that he has been guilty of neglect in performing his duty.

The court considers the evidence in fact so satisfactory that he ever took sufficient steps to bring to the notice of the captain superintendent of the dock, then Captain Martin, the pilots' neglect to report movements of vessels in the harbor. The court does not consider the alleged disobedience of the chief examination officer's orders by the pilots as the proximate cause of the collision.

With reference to naval traffic regulations here the court points out that these do not specifically deal with the handling of ships laden with explosives and recommends specific regulations for this.

The information on which the warrants for arrest were issued by Stipendiary McLeod was laid by the chief of police, at the instance of the attorney-general's department. The information sets forth that "Frank MacKey of Halifax, alofted pilot, and Aime Lemedec, present on the same place, sea captain, did at Halifax aforesaid on the 6th day of December A. D. nineteen hundred and seventeen, unlawfully kill and slay one William Hayes, at this defendant is informed and doth verily believe and hath good grounds for so believing."

This afternoon both MacKey and Lemedec were admitted to bail for their appearance tomorrow before Stipendiary McLeod, bail being granted to Captain Lemedec in \$10,000, furnished by French Consul Gaboury and Alfred Colwell of Robert Reford, Limited, and to Pilot MacKey in \$6,000, his bail being furnished by Sheriff Hall, chairman of the pilotage commission. H. Mellish, K. C., is acting on behalf of Captain Lemedec.

### COMMISSION ON FISHERIES PROBLEMS REACHES CITY TODAY

The members of the International Fisheries Commission will arrive in the city this afternoon. They include Hon. W. C. Redfield, secretary of commerce in the U. S. A.; government; Hon. E. C. Sweet, assistant secretary; Dr. Swift, commissioner of fisheries for the United States; Hon. J. D. Hazen, G. J. Desbarres, deputy minister of marine and fisheries; Mr. Robertson of the British embassy at Washington, and Mr. DeWight, secretary of the commission.

The party left Boston last night, according to advices received in the city, and will arrive here this afternoon about three-thirty o'clock. Tomorrow the commission will meet in the Equity Chambers and there hold a consultation with the leading fishermen of this district. It is understood that several of the most prominent fishing operators throughout the province will attend the meeting.

The trains were late in arriving in the city today. The delay was due to the heavy storm of last night. The Montreal was reported two hours and thirty minutes late, and the Boston, one hour and thirty minutes late.

### ALLIES SHOW SUPERIORITY IN TRENCH RAIDS

#### German Lines Visited With Satisfactory Results

#### ENEMY LOSSES HEAVY

#### U. S. Artillery Actively Engaged—Wrecked Enemy Positions—British Airmen Bring Down Five Hostile Machines

London, Feb. 4.—"Early last night a party of our troops raided the enemy's trenches east of Hargicourt," says today's official announcement. "The hostile artillery was active during the night in the neighborhood of Lens and north-east of Gavrelle."

Paris, Feb. 3.—The war office announcement issued tonight says:—"One of our detachments this morning carried out in the sector, northwest of Courtrai—in the region of Alliettes, an attack on a small German position, which it brought back in its entirety to our lines, taking thirty prisoners and capturing material."

"Supplementary reports show that the enemy attack repulsed by us last night north of Bures was carried out by a detachment of about 1,200 men. The enemy attack repulsed by us last night north of Bures was carried out by a detachment of about 1,200 men. The enemy losses were particularly heavy."

On Eastern Front.

"Eastern Theatre, Feb. 2.—There was reciprocal artillery activity in the region of Dobran and west of the Vardar. On the Serbian front there were several encounters with Bulgarian patrols."

#### Belgian Operations.

Paris, Feb. 4.—The Belgian official statement on military operations issued last night reads:—"During the last two days our artillery has silenced several enemy batteries, and has carried out fires of destruction and reprisal against enemy organizations and defenses in reply to artillery fire and bombing firing before Dixmude. An enemy aviator was brought down within our lines by British airmen."

On U. S. Lines.

With the American army in France, Feb. 3.—(By the Associated Press)—A German machine gunner was killed last night, one of the heaviest bombardments of many days along the American sector, the firing of the heaviest shells for shell as the firing of the heavy guns spread along several kilometres of front.

Two Americans were killed and nine wounded during the bombardment, and one suffered shell shock.

It was ascertained today that the American gunners wrecked several of the enemy dugouts and so badly damaged the first line positions that at one point the Germans were unable to occupy them Sunday.

#### Airmen Busy.

London, Feb. 3.—An official statement on British aerial operations tonight reports considerable activity on Saturday and the bombing of various enemy targets.

### GERMAN STRIKES APPEAR TO HAVE COME TO END

#### Secret Court Martial Dealing With Strikers

#### SPREADING IN AUSTRIA

#### Leaders of Central Powers To Confer On Economic Questions Affecting Their Common Interests—Munitions Depot Blown Up

London, Feb. 4.—With the exception of a new movement at Jena, reported by the Tagblatt, of Berlin, the German strikes appear virtually to have ended. The leaders of the strikers advised that work be resumed today. German newspapers record no disturbances in Berlin on Saturday.

The directors of the Krupp works report, the Cologne Gazette says, that only 400 out of 110,000 workmen went on strike, and that these were fined or dismissed.

The Berlin Vorwarts says that the building in which the court martial is sitting is closed to the public and guarded by troops. Heinrich Schultz, the first prisoner to be tried, was sentenced to imprisonment for six months for having distributed leaflets urging workers to strike.

#### Munitions Exploded.

London, Feb. 4.—The explosion of a munitions depot near Prague, capital of Bohemia, involving the loss of many lives, is reported in despatches from that city to Zurich, as forwarded by the Exchange Telegraph Company. According to some accounts the depot was blown up intentionally.

#### Resume Work.

Amsterdam, Feb. 3.—A Trieste despatch received by way of Berlin reports that a general strike, including the shipyard workers, was declared there. A deputation of the strikers interviewed the governor, demanding peace and food.

After hearing the governor's reply, which dwelt especially on the recent speech of Count Czernin, the Austro-Hungarian foreign minister, the strikers held a further meeting and decided to resume work. This they have already done.

#### A New Movement.

Amsterdam, Feb. 4.—A new strike movement, the Berliner Tagblatt, of Saturday evening announces, began at Jena on Saturday, about one-third of the workmen striking.

#### To Hold Conference.

Amsterdam, Feb. 4.—Dr. Von Kuehlmann, German foreign minister; Count Czernin, the Austro-Hungarian foreign minister, and General Von Ludendorff, the German chief quartermaster general, a semi-official announcement from Berlin says, will arrive in Berlin Monday to participate in deliberations on political economic questions affecting the common interests and territories of Germany and Austria-Hungary. Count Borha Von Wedel, the German ambassador to Vienna, is also expected to attend.

#### Join Government Party.

Amsterdam, Feb. 4.—The Hungarian constitutional party, headed by Count Andrássy, and the United Independence party, the leader of which is Count Abovics, have decided to join the new

### FRIENDS OF KERENSKY TO HOLD CONVENTION

#### Delegates From All Parts Of United States Will Gather In New York To Move In Opposition To Bolshevik

New York, Feb. 3.—Consternation spread among the Bolshevik delegates to the self-styled Russian colonial congress in this city when news was disseminated today that another Russian convention is to be held here Feb. 3 to 11 by the followers of Alexander F. Kerensky, deposed Russian premier. The new convention, it was said, will be national in scope and will have delegates from all the principal cities in the United States. It could not be learned who is at the head of the movement in opposition to the Bolsheviks, but Alexander Kerensky, who has arrived here, is reported in calling today's session of Stokhlyt in calling today's session of the congress to order, said that vain efforts had been made to "get this wing of the Russian colony in line with the conference."

Although the Bolsheviks are in control of the present assemblage, a persistent minority has created so much confusion that virtually nothing of a constructive character has been accomplished since the opening session Friday.

Copenhagen, Feb. 3.—The new Bolshevik representative, who has arrived here, said that the former dowager empress of Russia, Maria Feodorovna, who was a Danish princess, is coming to reside in Denmark.

Amsterdam, Feb. 4.—Emperor Charles is appointed officially in Vienna, has appointed Generals Von Boehm-Ermolli and Borevics to be field marshals.

### TO DISCUSS REVISION OF THE COMMISSION CHARTER

#### Council Will Devote Thursday Session to Consideration of Amendments; Other Legislation Suggested; Commissioner Fisher Talks of Street Paving Plans

At a meeting of the Common Council this morning Commissioner Fisher said that he thought the members should take up legislation matters as there was not much time left to advertise, etc.

Mayor Hayes said that he was in favor of an immediate start and as the other commissioners favored this, a discussion took place regarding matters which will be brought up at the next session of the legislature.

Commissioner Fisher had a list with a number of suggestions, as follows:

1.—To improve the commission government act.

2.—To prevent the flow of water from alleys, yards, etc., across the public sidewalks.

3.—To enable the city to assess locally for one half of the cost of cement sidewalks and granite curbing together or separately on residential streets in cases where property owners representing seventy per cent of the frontage would petition for the work to be done.

4.—Assessment act, interest rate on bonds, patriotic taxation and snow removal.

Commissioner McLellan said that there was one important matter to be taken up, namely, to provide for the city getting part of liquor fines under the prohibition act. He said that boot-leggers were going to give up their business, and that after next May there probably would be more fines than at present, as they would undoubtedly fight to a finish.

Commissioner Fisher spoke about getting the authority to have scrutineers representing candidates allowed in polling booths, but said that he realized that the city would not be able to do this without sufficient to allow any more in than at present allowed.

Commissioner McLellan said that he felt that candidates were being looked after pretty well. If they had representatives, years ago they might get a little too much looking after. He said that if there were to be any amendments to the commission charter that a day should be set aside when a general discussion would be taken up which might lead to the betterment of the commission form of government.

Commissioner Wignone said in his advocacy of the commission form of government as he ever was, but felt that after several years experience changes might be made which would be beneficial.

Commissioner Fisher suggested that the charter be taken up section by section and was in favor of having a day set aside for a discussion. Mayor Hayes or died of wounds, officers, 21; men, 1, 825.

#### Wounded or missing—Officers, 128; men, 4,305.

The low mark for many months past is reached by last week's census sheet. They compare with 8,588, the previous week, with 17,048 the week immediately preceding and with 9,201 for the week ended December 31, the previous low figure for any week in recent months.

#### AUSTRALIAN COAST SWEEP BY TORNADO

London, Feb. 4.—(via Reuter's Ottawa Agency)—A despatch from Melbourne states that Melbourne's seaside suburbs have been devastated by a destructive tornado. Several persons were killed and a number injured. The damage is estimated at \$100,000.

#### GREEK SOLDIERS MUTINY

Athens, Feb. 4.—A mutiny which involved a large portion of the Greek army infantry regiments stationed at Lamia, about ninety miles northwest of Athens, and a few artillerymen in the town occurred last Friday evening. It was promptly suppressed.

An official statement attributes the mutiny to a desire to hamper mobilization. No officers took part. Most of the rebellious soldiers, says the statement, returned to their barracks and laid down their arms.

Troops sent to Lamia from Athens and Larissa, pursued the remainder of the mutineers and arrested them. A court martial was convened to try the delinquents.

#### FURLOUGH IN IRELAND

### KAISER HONORS SUBMARINE CREWS

#### Special Recognition of Anniversary By Ruthless Warfare—A Reply To Sir Eric Geddes

Amsterdam, Feb. 4.—Emperor William created a special decoration for U-boat crews on the anniversary of the inauguration of ruthless submarine warfare as "recognition for meritorious work during the war."

The Vossische Zeitung says the decoration is available for officers and crews after three voyages.

The emperor also has conferred the Order of Pour Le Merite on Admiral Von Holtzendorff, head of the naval general staff, and Admiral Scher, commander of the German battle fleet.

Amsterdam, Feb. 4.—A despatch received here today from Berlin gives the German reply to the statement last week of Sir Eric Geddes, first lord of the admiralty, who is reviewing the first year of unrestricted submarine warfare, said the submarine menace was being held back, the sinking of merchantmen was decreasing, and the destruction of U-boats increasing, and that the morale of the submarine crews was deteriorating on account of the British policy of secrecy in regard to the fate of the men on submarines which failed to return to their bases.

The German reply, in the form of a semi-official statement, follows:

"What Sir Eric Geddes said is not new. It is merely repetition of familiar assertions which are disproved by the facts, and apply periodically in the speeches of talkative war pullers in England. If that brave optimist Geddes expects by such means to lower the morale and the power of resistance of our U-boat crews he will have as little success as has been met with in the attempts to bluff the German people, who long ago realized that English secrecy was nothing but an expression of consciousness of weakness."

### BRITISH CASUALTIES LOWER THAN IN MONTHS

London, Feb. 4.—British casualties reported during the week ended today totalled 6,884, divided as follows—Killed or died of wounds, officers, 21; men, 1, 825.

Wounded or missing—Officers, 128; men, 4,305.

The low mark for many months past is reached by last week's census sheet. They compare with 8,588, the previous week, with 17,048 the week immediately preceding and with 9,201 for the week ended December 31, the previous low figure for any week in recent months.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

"Damaged Goods" To Be Shown Here Next Thursday

First Three Days for Men Only—Testimonial From Mr. A. E. McGinley

(Advertisement) The following letter from A. E. McGinley, editor of The Standard is self-explanatory:

Dear Mr. Spencer:—I was much interested to learn a day or two ago that the people of St. John are to have the opportunity of viewing the picture "Damaged Goods," and I venture to write you this note to convey my impressions of that picture when, as a member of the New Brunswick Board of Censors, a year or so ago, I had the privilege of viewing it. It is not a pleasant picture; it is not the intention to make it pleasant, but it does present in unforgettable fashion, a story which, if we are to believe the statements of medical men and social workers, is but too often enacted in the life of the present day.

A few months ago the columns of the daily press would not be thrown open to a discussion of the terrible results of social vice, but today we find in such same Canadian publications as the Toronto Mail and Empire and Toronto Globe, thousands of words warning to the unenlightened and unwary as to the dangers which haunt the street life of the city. In such cases plain words are used, facts are revealed which have ordinarily remained hidden on the mistaken ground that it was not "good form" to discuss such things but which are now forced in order that the attention of the public in view that the public may benefit.

If the columns of our newspapers, read by men, women, and children alike, can be used with approval for the publication of such information, and if the course of these newspapers is approved by men and women of the highest standing, why should the motion picture screen not be similarly employed?

I have no hesitations in saying that those who witness "Damaged Goods" will remember it. They may gape at its frankness, but they must be benefited by its lesson. To my mind, it is a wonderful educator in a subject concerning which there is a fearful lack of knowledge.

May I take this opportunity to congratulate the Board of Motion Picture Censors upon their wisdom in removing the prohibition against the picture? I cannot but feel that exhibited as you propose to exhibit it, not to mixed audiences or children, it will have a most beneficial influence upon all who see it. You are at liberty to use this letter in any manner you may deem advisable.

Yours very sincerely, ALFRED E. MCGINLEY.

This will be followed by many others from prominent men and women, recommending all to see "Damaged Goods." The engagement begins Thursday of this week and continues for six days, the first three being for men only, and the last three, Monday, Tuesday and Wednesday, February 11, 12 and 13, for women. Children under fifteen will not be admitted either at the afternoon or evening performances, unless accompanied by their parents.

MRS. TEMPLE'S TELEGRAM WILL BE A BIG SUCCESS

A rehearsal of "Mrs. Temple's Telegram" was held in the Imperial theatre yesterday afternoon, and from the select few who were allowed to witness the performance, it was pronounced a grand success. There is yet left a full week and a half to "touch up" a few very few of the weak spots in the course of the play. Latest reports from various centres wherein tickets are being sold are that there is a brisk demand, and indications are that there will be a last minute rush and many will thus leave themselves open to disappointment, unless they secure their reservations now.

The Y.M.C.A. are exerting every effort to make the play a huge success. The proceeds are for a worthy cause and should be made as large as possible. Feb. 12 is the date, and there is only one presentation.

BIG PROGRAMME AT THE PALMACE

The Palmace Theatre is offering a seven reel programme that looks like a winner. First there is the twelve episode of "Red Ace" serial in two reels of genuine thrills in which the desperate chase for the precious platinum comes to a whirlwind finish when the German agents are overthrown after putting up a butterfly feature in five acts entitled "Man and Beast." An African jungle story with all the thrills of the wild you could wish for. All for usual prices. Send the children to the special matinee Tuesday afternoon at 3:30 p. m.

ALMA TAYLOR AT THE STAR TONIGHT

There will be seen at the Star Theatre tonight, none other than the noted English actress, Alma Taylor, in Sir Arthur W. Pinero's great stage success, "The Sign of the Cross." This feature is a British-made production, and the cast includes nothing but English actors and actresses. The fifth chapter of "The Seven Years" will also be shown tonight.

THE SUBMARINE EYE AT LYRIC TODAY

A spectacle unique in every sense of the word is the Williamson Bros' production of "The Submarine Eye," to be shown at Lyric today, Tuesday and Wednesday. Most of the action takes place beneath the sea. You have never seen anything like it before.

MARY MILES MINTER AT UNIQUE TODAY

The Unique is offering a big special feature the first three days of this week in presenting the dainty dream of the screen, Mary Miles Minter, in a play of the sea and society, "The Mate of the Moll Ann." Mary at her best. Other features.

Mrs. Herbert Lobb wishes to thank her many friends and relatives for kindness and sympathy during her recent sad bereavement.

CANADA MUST PRODUCE MORE

Policy of The New Food Controller

RAIIONS NOT COMING

Conservation, Not Price-Fixing, His Aim — Co-operation Between Dominion and Provincial Authorities

Ottawa, Feb. 4.—What policy does the new Food Controller, H. H. Thomson, intend to pursue? That is the question that Ottawa is asking today. Mr. Thomson is not inclined to be very communicative at any time and is somewhat less so than usual with regard to his intentions in the matter of food control. He is but too often enacted in the life of the present day.

A few months ago the columns of the daily press would not be thrown open to a discussion of the terrible results of social vice, but today we find in such same Canadian publications as the Toronto Mail and Empire and Toronto Globe, thousands of words warning to the unenlightened and unwary as to the dangers which haunt the street life of the city. EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspepsia.

Pure blood is required by every organ of the body for the proper performance of its functions.

Hood's Sarsaparilla makes pure blood, and this is why it is so successful in the treatment of so many diseases and ailments. It acts directly on the blood, ridding it of scrofulous and other humors. It is a peculiar combination of blood-purifying, nerve-toning, strengthening substances. Get it today.

Increased production campaign on a large scale will be inaugurated. The Quebec government has already launched forth on a campaign for the increased growth of wheat, peas, beans, etc. Where that province formerly grew about two million bushels of wheat per year, it expects to grow twelve next year. Similar increases are expected in all the other eastern provinces, while in the western provinces increased production appears to be limited only to the amount of help which can be obtained on the farms.

The Problem of Labor. The question of securing sufficient labor is still under consideration. Representatives of organized labor will meet in Ottawa this week and agricultural representatives have, it is stated, already laid before the government tentative proposals. These, it is understood, are pretty well along the lines advocated at the conference held in Regina some time past, and partly in accordance with the resolutions of the Manitoba Grain Growers at Brandon a fortnight ago. Mobilization of men, women and boys power is advocated, it is believed, though whether this involves a degree of conscription is not known. On this question there appears to be a wide divergence of opinion among the agricultural and laboring classes. The latter are entirely opposed to any compulsion of labor for work. The system of labor exchange is expected, and toward the mobilization of labor on a voluntary basis.

Remove Tariff on Machinery. The Manitoba Grain Growers advocated the removal of the tariff from certain labor-saving farm machinery (as a war measure). Many of those who saw him give an exhibition marveled at his wonderful physique. His lung power was phenomenal, and while here he performed a feat which is said to be unrivaled. He took two tumblers and placed them together, and on the outer edge of one placed a coin he then drew a deep breath and blew the coin right over one into the other. He was remarkably active on his feet and was undoubtedly one of the greatest fighters of all times. His temper, however, often proved a handicap and it is this which is said to have been responsible partly for his defeat.

SPORT'S GREAT PART IN RESTORING MEN

Boxing Enthusiasm Remarkable Among Men Who Have Been Wounded

Leat. E. E. Booth, a New Zealand full back of the famous Rugby team of Britain in 1905, has been engaged for some time past in special Y. M. C. A. training. Football matches, both Rugby and soccer, are almost of daily occurrence.

Boxing, too, plays a prominent part, and for the last monthly contest just held there were nearly 800 contestants, including one of the most famous of French seafaring sportsmen, and it was there organizing sport, and it took Peter Fleming the Australian lecturer, who gave a series of patriotic addresses on the war.

A thousands of men are in these camps, where they recuperate, get fit, and return to the line again. Sport plays a most important part in the daily routine, taking the place of drill. All the officers help directly and encourage games. Amongst so many things are done on a very large scale. Recently for a cross-country run of three and a half miles the number to start was over 1,000, of which 458 ran the full distance. This is good training. Football matches, both Rugby and soccer, are almost of daily occurrence.

RESEARCH HELP TO THE GERMANS

Kept Enemy in the War, Says Dean Adams of McGill University

Toronto, Feb. 4.—If it had not been for scientific research the Germans would have been without explosives and the war would have ended long ago, according to Dean Adams of McGill University, Montreal, who addressed the University School on Saturday evening and urged the necessity of greater scientific and industrial research in Canada. The speaker is the Dean of the Faculty of Applied Science at the McGill University.

Co-operation vs. Competition. Co-operation must replace competition after the war, that the highest efficiency of production can be secured, so that keener competition between the various providing nations may be faced and the great national debt met through increased production and the securing of new markets. In Canada two things must be done to meet these conditions: first, there must be more attention paid to the conservation of our national resources, and, secondly, we must learn to develop and market them in a more efficient manner.

All the great national resources, such as lands, forests, water-powers and fisheries, can be made much more productive and yet handed on to the future generations unimpaired. Increased efficiency in using and marketing the products of the national resources is also necessary and may be secured in various ways.

Kept Germany in War. Germany, when the supply of nitrates necessary for the manufacture of explosives were cut off by the British, succeeded in manufacturing it by burning the nitrates in the air. They also succeeded in making substitutes for gun cotton.

Impressed by these results the British government appointed a Research Council and placed at its disposal a sum of over one million pounds sterling to be used for the encouragement and development of research in England for

the purpose of developing British industries. Much research work is being carried out in the United States.

THE WAR SITUATION.

The supreme war council of the Allies at Versailles last week declared against the unalterable determination of all the members to carry on the war to a successful conclusion. It could find nothing in the recent speeches of the German Chancellor or Austro-Hungarian foreign minister that indicated a willingness to accept conditions such as those which would be necessary to ensure a permanent peace.

MAKE IT THOROUGH.

ADJUTANT HURD OPENS CAMPAIGN

Salvation Army Officer Who Was Through Halifax Disaster and Has Been Engaged in Relief Work

Adjutant H. A. Hurd, financial representative for the Salvation Army properties for the maritime provinces, arrived in the city on Saturday evening from Halifax, and conducted the opening services of the young people's campaign.

The campaign opened on Saturday evening with meetings in the open air and in the city. On Sunday afternoon there was a special service for the young people, and in the evening the adjutant spoke again, on the responsibilities of youth.

Adjutant Hurd was a member of the organization which was appointed to the food committee and later to the coal committee and has been in charge of this work in the North End.

Other officers of the Salvation Army also have been engaged in relief work and several are leaving as members of the various committees.

Commissioner W. J. Richards, head of the Salvation Army for Canada East who rushed to the stricken city and did all he possibly could on the spot himself, also relieved thirty-five officers from their different corps and offices to devote all their time to the relief work at Halifax.

Ask That Sir Percy Girouard Be Made Military Governor of British East Africa

Nairobi, British East Africa, Feb. 3.—(via Reuter's Ottawa Agency)—A mass meeting of the residents enthusiastically and unanimously passed a resolution requesting the imperial government to appoint former Governor Sir Percy Girouard, military governor of British East Africa, and to proceed with the war with powers to organize the colonies' efforts in the direction of utilizing such a portion of its population as is unavailable for military service to develop its immense potential energies and resources in the immediate production of commodities which are urgently required.

E. S. Grogan, Lord Delmore and others emphasized the urgent necessity of organizing the entire resources of the protectorate in order to provide for the immediate requirements in Mesopotamia and Palestine, thereby saving shipping and subsequently contributing food and other necessities. It was said there were millions of acres of the finest land in the world available in East Africa for the empire's war worn soldiers.

Sir Percy Girouard is a son of the late Hon. Desires Girouard, justice of the supreme court of Canada.

VODKA AND THE RUSSIANS.

To the Editor of the Times-Star.—Sir—The liquor men these days are wont to point to Russia as a frightful example of what prohibition does to a nation. It does not require hard thinking on the part of any one who reads the daily press to discover the foolishness of connecting the outbreak of anarchy in Russia with the prohibition of vodka as a drink.

If it had not been that a large number of Russians, who were not addicted to liquor and talk—went back to their own country, the sober Russians at home would have done very well.

It is a good thing that we have something more than long distance inference to offset this foolish talk. The "Survey" published in a recent issue an interview with Count Tolstoy, son of the famous Russian novelist. He was only two days on land when he said:

"It is utterly absurd to say that the present troubles in Russia have anything to do with prohibition. Prohibition has been the greatest possible help. I am very much in favor of our present prohibition. Nothing will be done to disturb it. Of course, there are still small quantities of drugs and sometimes small and utterly negligible when compared with the great harm frequently done by alcohol. But from our present troubles having anything to do with the shutting down of beer, wine and distilled liquors, there would have been a great deal worse if the people had been able to get at these forms of alcoholic beverages."

Prohibition is a blessing. In no way has it set back the progress of Russia.

J. H. HAZLEWOOD, Social Service Department.

At a union service of the Presbyterian, Methodist and Baptist congregations in the Fairbairn Baptist church last night, Rev. W. D. Wilson, chief liquor license inspector, was the chief speaker. He spoke on the success of prohibition to the government to stop the sale of essence and certain patent medicines. On the platform were Rev. Thomas Marshall, Rev. W. McN. Townsend, Rev. P. R. Hayward and Rev. W. D. Wilson. The collection taken at the service is to be given to the New Brunswick Temperance Alliance.

RATIONING SUCCESSFUL IN THE LONDON HOTELS

London, Feb. 4.—Rationing of meat, flour and sugar has been an unqualified success in British hotels and restaurants, according to a report from the ministry of food. The reports received from the proprietors show that eating places have been 30 to 35 per cent under their ration of bread and flour. The best report on sugar showed a total amount used of only two-thirds of the official allowance.

Under the present regulations, hotels and restaurants are allowed to use two ounces of meat for breakfast and five ounces for lunch and dinner. The other allowances are eight ounces of bread, two of flour and one ounce of sugar daily.

BURIED ON SUNDAY The funeral of Edward Gillis took place from his late home, 155 Main street, Fairville, at 2:30 o'clock yesterday afternoon and was very largely attended. The remains were conveyed to St. Rose's church where the services were conducted by Rev. Father Collins. Interment was in Holy Cross cemetery and relatives of the deceased acted as pallbearers.

WOLVES IN NOVA SCOTIA Halifax, Feb. 3.—Wolves are reported in Nova Scotia after many years absence. John Myers, of Porter's Lake, has reported to Chief Game Commissioner Knight that wolves last week had been killing deer in his district. Residents of Porter's Lake some days ago came across the carcass of a deer which bore the marks of killing by wolves. When they heard the animals howling they set out on a wolf hunt, but had no opportunity to shoot. Twenty-two years ago Mr. Myers shot the only wolf then known in Nova Scotia.

AT ST. DAVID'S A large number of soldiers and sailors attended the song service at St. David's church last evening. A very pleasant hour was spent and before the conclusion of the service refreshments were served by the young ladies of the church. In answer to the appeal that has been made throughout the Sunday schools, St. David's Sunday school, yesterday afternoon, made an offering of \$48.92 for the Armenian relief fund.

TO BE MARRIED Fredericton, Feb. 3.—Captain Theodore H. McNally left Saturday evening for Toronto where on Wednesday next he will be married to Miss Gladys McLean, daughter of Mr. and Mrs. Hugh McLean.

SEALED TENDERS will be received by the undersigned until noon, March 18, 1918, for Heating and Ventilating Equipment required in the reconstruction of the above building. All tenders to be based on the execution, erection and completion, together with the furnishing of all materials, tools, appliances, scaffolding, apparatus and labour required for the installation of the Heating and Ventilating Equipment as called for in the plans and specifications. All information can be obtained at the office of the General Contractor, P. Lyall & Sons Construction Company, Limited, Ottawa. A set of plans and specifications may be had by depositing an accepted bank cheque for twenty-five (\$25.00) dollars made payable to the Honourable the Minister of Public Works, which will be returned if the intending bidder submits a regular bid. Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, for a sum not less than five per cent (5 p. c.) of the amount of the tender, which will be forfeited if the parties tendering decline to enter into a contract when called upon to do so. If the tender is not accepted the cheque will be returned. If the tender is accepted an additional cheque for a sum equivalent to five per cent (5 p. c.) of the amount of the tender must be deposited before the contract is signed. The total security will be forfeited if the contractor fails to complete the work contracted for. Payments will be made monthly and will not exceed in the aggregate ninety (90 p. c.) per cent of the value of the labour and materials furnished and set in place. The lowest and any tender not necessarily accepted. Envelopes containing tenders to be marked "Tenders for Heating and Ventilating Equipment," and addressed to the undersigned. JOHN A. Social Service Commission to Bring Matter Before Provincial Authorities

(Toronto Star.) Mothers' pensions and revision of the statutes detailing a father's responsibility for illegitimate children are to be presented before the Ontario legislature at its next sitting by the Social Service Commission, which today lays its 1017 report before the city council.

Statistical information furnished by the society shows that poverty has increased during the year, although it is not nearly as prevalent as in pre-war times.

Juvenile crime has required a great deal of attention by the commission and they suggest a conference between officials of the various institutions dealing with the work with the view of deciding what factors mainly are responsible for delinquency in children.

Theft is the predominant crime of which children have been convicted.

Cases of illegitimate children showed a decided increase during the year, 888 as against 270 in 1916. To remedy this the commission suggest complete registration of all dependent illegitimate children; more adequate legislation to compel the father to assume responsibility; more careful inquiry into the history of the mother and her relatives; careful placing in homes of all such children who must be so placed; and systematic follow up work in connection with the children and their mothers.

FOOD SITUATION IN SWEDEN GROWS WORSE

Exports of Foodstuffs Almost Stopped—Slaughtering Cattle Because of Lack of Fodder

Stockholm, Feb. 4.—The food situation in Sweden is rapidly growing worse. Pork cards will be introduced and the extra bread cards which were previously provided for foreign diplomats have been withdrawn, except one for each head of a family.

The export of foodstuffs has almost entirely stopped, with the exception of meat, owing to the necessity of slaughtering stock because of the lack of fodder. Even meats show a large decrease. In November last 21.2 tons of pork were exported against 1,017 tons in November, 1916, and 151 tons of all other meat against 972.

The statistics of Swedish imports for the first eleven months of the past year, which are now available, demonstrate upon what short rations the kingdom has been put. The total imports of all cereals and flour were 148,819 tons, against 81,187 for the first eleven months of 1916. Coffee imports were 8,194 tons against 27,418, tea 39 tons against 489, all kinds of animal fodder, chiefly oil-seeds, 88,992 tons against 77,272 and hard coal 11,900,000 tons against 34,260,000 tons in the first eleven months of 1916.

FOOD SUBSTITUTES PROVING DEADLY

German Scientist Says They Will Kill One-Third of Population and Enslave the Remainder

Amsterdam, Jan. 20.—(Correspondence of the Associated Press)—The almost complete lack of nourishment in many of the food "substitutes" now being sold in Germany is arousing a storm of warning from German scientists, who declare that government supervision of the whole substitute food traffic is an immediate necessity. Professor Juckneck of the University of Berlin, writing in the Vossische Zeitung, says:

"It is useless any longer to hide the truth. Unless the government intervenes to put some control over the flood of substitute foods with which we are overwhelmed, the end of the war will also see the end of a third of Germany's population. Moreover, the remaining two-thirds will be so enfeebled from malnutrition that they will be unable to perform the immense tasks of recuperation and restoration."

"The devil alone knows what are the ingredients of thousands of these wretched substitutes that already do duty for butter and eggs, milk and milk, flour and spirits, meat and broth, coffee and sugar, tobacco and tea, fish and sausage, cheese and caviar, and so on without end."

"The latest products of the ingenious substitute-mongers are really too terrible to be tolerated. A preparation of crude kerosene is now being largely sold as frying oil, and 800 cases of serious illness together with nine deaths have been traced to its use in Berlin alone. A preparation called 'goose dripping' is prepared from dog's fat, egg substitute, corn, a mixture of chalk and baking powder; caviar from fish scales, and 'road from straw. What people, no matter how patriotic, can hold out on such fare?"

VOCATIONAL WORK WAS APPROVED

Endorsed by Business Men—Shoe Repairing Commended as Solution of High Price Problem

Additional machinery is being added by the Military Hospitals Commission to the equipment in the Calgary Institute of Technology and Art for the purpose of increasing by the addition of re-educating more returned men the opportunity to take up electrical and mechanical engineering.

The constantly increasing number of men returning from the front makes it imperative for the vocational training centres to be ready to receive them and grant them at once the training necessary to fit them to return to civil life.

In British Columbia, the vocational training facilities at the Shaughnessy Convalescent Hospital in Vancouver are being increased by the addition of re-educating extra class rooms, while at Fairmont the equipment is to be supplemented by the addition of a big machine shop and drafting room. Accommodation will also be made for a large shoe repairing department.

Re-educational Centres. Provision for a centre of vocational re-education in Fredericton, N. B., is also being made in the fine vocational building now under way at that city.

In carrying out its vocational re-education powers the Military Hospitals Commission has provided as wide a variety of courses as possible at all centres. The policy has been adopted, however, of developing centres of re-education with special equipment at important points as follows: Halifax, Montreal, Toronto, Guelph, Winnipeg, Calgary and Saskatoon.

Centres of re-education for agriculture are being developed at Guelph, Winnipeg, Saskatoon and at Olds, Alta., where the provincial department of agriculture placed one of its agricultural high schools at the disposal of the commission.

TURKISH OFFICERS DETEST GERMANS

Story of Ottoman Captured in Palestine

Bleeding the Natives—Officers and Civilians Vex With Each Other in Extortions

(By Capt. H. B. C. Pollard.) London, Jan. 19.—Among the recent captures by the British on the Gaza front was a Turkish officer who had served in the Ottoman army throughout the war. He was at the Dardanelles, through the Roumanian campaign, and lastly in Palestine. In his opinion his capture by the British was the most fortunate thing that could have befallen him; for, under the rule of the young Turk Committee of Union and Progress, nothing but calamities and disasters have been the fate of the Turkish people.

Turk Morale Bad. He stated that the morale of the Turkish army is now extremely bad, that desertion from the ranks is so rife that a regiment will often lose thirty per cent of its effectives during the journey from Constantinople to Palestine, and that bands of armed deserters are wandering all over Ottoman territory.

The morale of the C. U. P. is largely to blame for this, but general condition of chaos is greatly augmented by the attitude of the Germans towards the Turks.

In the old days of the Hanidian regime the condition of the Turkish army was bad, but now it is indubitably worse. Even in Syria the annual salaries were made in money during the year, now salaries are paid every month, but in depreciated Turkish paper worth only

fifteen to twenty per cent, of its face value.

Incompetence and Corruption. The whole military and administrative organization of the Ottoman Empire, he described as given over to an orgy of incompetence and corruption which puts to shame the worst excesses of Haunidi's reign. In addition the Turkish government is surcharged with the intolerable burden of a vast public debt.

From this German profanation and degradation nothing remains sacred. Every department of the government has been invaded and Turkey is merely exploited to benefit Germany.

Any kind of German or good citizen of subject to Turkish officers who have been consorted with the Germans have been long exposed to insult, offence and persecution.

German Profiteers. The commercial acumen of the German is always to the fore, even when he is an officer in the army. They have made a special practice of profiting by the depreciation in Turkish money, buying it privately at 80 per cent discount, then paying their official account with it at face value. Their unscrupulous practice goes even further, for the officers in charge of the motor-lorry service in Palestine, Syria and Asia Minor are making large incomes out of the system which they have initiated of carrying passengers at very high fares.

This system of bleeding the natives is now a regular practice throughout the German transport service in the East.

The German officers and soldiers are not alone in their extortions. They are even surpassed by the activities of the German civilian "experts," such as the engineers who sink wells for the armies, geologists who discover mineral wealth for Germany) and contractors who pretend to improve the cities. All these obtain huge contracts, or else get control of the public funds, and most of the money vanishes without anything to show for it. What little is expended upon public work is subject to every form of commission, corruption and exploitation.

Attitude Contemptuous. The German attitude to the Turks in general is contemptuous, intolerant and insulting. They treat them, not as allies, but as a conquered people, and in truth the Turks feel that this is precisely what they are. The corrupt Turkish politicians and the Germans work hand in hand, regardless of the sufferings of the Turkish people. Thus the C. U. P. imported sugar from Austria at five piastres the kilo, but retailed it to the famine-stricken populace at 200 piastres the kilo, pocketing the balance. In Constantinople last winter the daily death roll from starvation was 200, and there was no bread to be had. The Germans exploited the situation in their own peculiarly beastly way, using their stores of bread as a method of debauching the starving Turkish women. The Goeben and the Breslau were literally meeting places for Turkish ladies of good social standing, who were forced to yield their honor in order to save their children from absolute starvation.

Wherever the German soldiers have been stationed, they have proclaimed their acceptance of the Muslim faith and have then married Muslim women. Later they have cast these off, divorcing them "in the name of Allah" according to the formula, and have returned to their homes single, leaving the wives destitute.

For Personal Profit Alone. The war has been waged simply for the personal profit of the Turkish gov-

Wanted Ads Are Money Makers

Remembered His Arithmetic. A thing that will puzzle the United States soldiers is English money. One time an American who was the worse for drink was traveling in a railway carriage when the guard asked for his ticket. "Got none! Lemme lorne!" mandered the Yank. The guard took out his ticket schedule. "Five and six, please," he said, tersely. "Whazat?" queried the tipsy one. "Five and six, please," repeated the guard. "Eleven" said the Yank. "Now move along to ax next boy."

HERE'S A RECORD.  
Mother of Seventeen Children Works in  
Shingle Mill.  
(American Lumberman.)

A news item in the Tacoma corre-  
spondence of the American Lumberman  
this week tells of a Mrs. Margaret W.  
Cleveland, 45 years of age and the mother  
of seventeen children, eight of whom are  
living, who has returned to work in a  
shingle mill at Aberdeen, Wash., after an  
absence of two months due to an in-  
jury received last fall. It appears that  
her working costume—overall—caught  
in a belt while she was piling blocks in  
the mill. She applied to the State In-  
dustrial Insurance Commission for com-  
pensation under the state law, and re-  
ceived the maximum for the two months  
of enforced idleness. According to her  
report to the commission her husband  
works in the same mill.

Back of this unvarnished relation of  
facts there is ample scope for the play  
of imagination. Whatever the causes  
that made it necessary for the mother  
of seventeen children to engage in manual  
labor, there is something of heroism in  
it. If anyone could fairly claim to have  
paid in full her debt to society and to  
be entitled to a valid claim to excep-  
tion from the battle of industry, surely  
it is this woman. Yet she waived  
exception, entered the war, and received  
honorable wounds.

Hats of value, Cleveland, soldier of  
industry! America has ten million other  
women with the same indomitable spirit.  
Bertha papers please copy.

WHAT SURPRISES  
FRENCH SOLDIERS ON  
LEAVE IN PARIS.  
Paris, Feb. 4.—One of the French  
newspapers has been asking sol-  
diers returning from leave what aston-  
ished them most in Paris. Here are a  
few typical replies:

To see people sitting down to their  
meals.  
To see unoccupied cellars.  
To find there are women who are not  
grocers.  
To find people who want to go to the  
country.  
To see funerals.  
To be asked to sit down when getting  
one's hair cut.  
To hear civilians complaining about  
their handshakes.

ernor McDonald of P. E. Island, passed

CLOSER CO-ORDINATION OF  
ALL ALLIED WAR ACTIVITIES

Immediate Task of Supreme Council is Prose-  
cution of War With Utmost Vigor; Utter-  
ances of Teuton Leaders Give no Indication  
of Readiness to Meet Allies' Terms; Func-  
tions of Council Enlarged

London, Feb. 4.—The text of the official statement on the Versailles con-  
ference follows:—  
"Meetings of the third session of the supreme war council held at Versail-  
les, January 30 and 31, February 1 and 2.

"In addition to the members of the supreme war council, namely, Moun-  
sier, Clemenceau and Pichon, for France; Mr. Lloyd George and Lord Milner,  
for Great Britain; Prof. Orlando and Baron Sonnino for Italy, and the military  
representatives of the supreme war council, Generals Weygand, Wilson, Cadorna  
and Bliss, there were also present, for the greater part of the purely military  
discussions, the French and British chiefs of general staffs, Generals Foch and  
Robertson; the Italian minister of war, General Alfiere; and the commanders in  
chief on the western front, Petassie, Haig and Pershing. A. H. Fraser, first  
secretary of the United States embassy at Paris, was present during the political  
discussions.

"The decisions taken by the supreme war council in pursuance of this en-  
gaging embrace not only a general military policy to be carried out by the  
Allies in all the principal theatres of the war, but more particularly, a closer  
and more effective co-ordination under the council of all the efforts of the  
powers engaged in the struggle against the Central Empires.

"The functions of the council itself were enlarged, and the principles of unity  
of policy and action initiated at Rapallo in November last, received still further  
concrete and practical development. On all these questions a complete agree-  
ment was arrived at, after the fullest discussion, with regard both to the policy  
to be pursued and to the measures for its execution.

"Under the circumstances the supreme war council decided that the only  
immediate task before them lay in the prosecution of the war with the utmost  
vigour and the closest and most effective co-operation of the military effort of  
the Allies until such time as the pressure of that effort shall have brought  
about in the enemy governments and peoples a change of temper which would  
justify the hope of the conclusion of peace on terms which would not involve  
the abandonment, in the face of an aggressive and unrepentant militarism, of  
all the principles of freedom, justice and respect for the law of nations which the  
Allies are resolved to vindicate.

ENEMY NOT READY  
TO TALK REASON.  
"The supreme war council gave the  
most careful consideration to the recent  
utterances of the German chancellor and  
the Austro-Hungarian minister of for-  
eign affairs, but was unable to find in  
them any real approximation to the  
conditions laid down by all the  
allied governments. This conviction was

only deepened by the impression made  
by the contrast between the professed  
idealistic aims with which the Central  
Powers entered upon the present negotia-  
tions at Brest-Litovsk and their now  
openly disclosed plans of conquest and  
spoliation.

"The Allies are united in heart and  
will, not by any hidden designs, but by  
their open resolve to defend civilization  
and the principles of freedom, justice and  
respect for the law of nations which the  
Allies are resolved to vindicate.

"The council commits itself to the  
judgment that the necessary change in  
the temper of the German people can be  
effected by the pressure of military ef-  
fort. This is completely at variance with  
the expressed views of President Wilson,  
and will move completely at variance  
with the views of democracy in Great  
Britain. The council may declare there  
is no hope but in the sword; it is for the  
people to find a better way.

"The Daily Chronicle appears to be  
of the opinion that the council is assuming  
executive functions and it expects enlighten-  
ment through parliament.

"The Times calls the Versailles state-  
ment eminently satisfactory, and says it  
tends to dispel the deceptive fog of  
peace which has been gathering and has  
been artificially thickened in many allied  
capitals during the dreary months of  
the winter.

"The Morning Post says: "We find it  
reassuring to have this unaltered con-  
viction that the only way to peace is  
through an unflinching prosecution of the  
war to victory. The surest way, to peace  
is to dismiss thoughts of it."

The match tonight will be between the N. B. Power Company and the Smith Brokering Company.
BASEBALL. Pratt's Fine Record. Derrill Pratt, the Yankee's new second baseman, missed but one game played by the St. Louis Browns over a stretch of more than five years, during which the team took part in 729 con-secutive games. During the first half of a double-header in Boston on Sept. 2, 1914, Pratt was batted by Umpire Dineen, and under the rule he was kept out of the second game. Pratt's enforced absence therefore deprived him of a record of 729 consecutive battles, between July 23, 1912, and April 30, 1917, when he was forced to stop work because of a broken wrist.
THE RING. Will Honor Great Champion. Australian boxing fans believe in honoring their heroes of the prize ring in substantial ways. When the body of the late Les Darcy arrived in Australia it was placed in one of the public buildings, where it was viewed by vast throngs, among the men standing in line

**CAPTAIN OF STEAMER**  
**MONT BLANC AND**  
**HALIFAX PILOT ARRESTED**  
**ON CHARGES OF**  
**MANSLAUGHTER**

(Continued from page 1)  
The following is the text of the judg-  
ment in the Imo-Mont Blanc inquiry:  
Sir, Having been directed by the hono-  
rable the minister of marine to hold a  
formal inquiry into the cause of the ex-  
plosion on the steamship Mont Blanc on  
Dec. 6, 1917, I have to report as follows:  
That, as directed, I had associated with  
me as nautical assessors, Captain De-  
mott of Ottawa, dominion wreck com-  
missioner, and Captain Walter Rose, R.  
C. N., of the city of Halifax. I began  
the inquiry on the 15th day of Decem-  
ber A. D. 1917, and having heard all the  
witnesses that could throw any light on  
the situation, and having conferred with  
the nautical assessors, I have reached the  
following conclusions and desire to re-  
port as follows:  
1.—The explosion on the S. S. Mont  
Blanc on Dec. 6 was undoubtedly the  
result of a collision in the harbor of  
Halifax between the S. S. Mont Blanc  
and the S. S. Imo.  
2.—Such collision was caused by vio-  
lation of the rules of navigation.  
3.—That the pilot and master of the  
S. S. Mont Blanc were wholly responsible  
for violating the rules of the road.  
4.—That Pilot Mackey, by reason of  
his gross negligence, should be dis-  
missed by the pilotage authorities and  
his license cancelled.  
5.—In view of the gross neglect of the  
rules of navigation by Pilot Mackey the  
attention of the law officers of the crown  
should be called to the evidence taken on  
this investigation with a view to a crimi-  
nal prosecution of such pilots.  
6.—We recommend to the French au-  
thorities such evidence with a view to  
having Captain Lemeche's license can-  
celled and such captain dealt with ac-  
cording to the law of his country.  
7.—That it appearing that the pilotage  
authorities in Halifax have been permit-  
ting Pilot Mackey to pilot ships since  
the investigation commenced and since  
the collision above referred to, we think  
the authorities, i.e., pilotage authorities,  
deserving of censure. In our opinion the  
authorities should have promptly sus-  
pended such pilot.  
8.—The master and pilot of the Mont  
Blanc are guilty of neglect of the public  
safety in not taking proper steps to warn  
the inhabitants of the city of a probable  
explosion.  
9.—Commander Wyatt is guilty of neg-  
lect in performing his duty as chief ex-  
amination officer in not taking proper  
steps to ensure the regulations being car-  
ried out and especially in not keeping  
himself fully acquainted with the move-  
ments and intended movements of ves-  
sels in the harbor.  
10.—In dealing with the chief exami-  
nation officers' negligence in not ensur-  
ing the efficient carrying out of traffic  
regulations by the pilots we have to re-  
port that the evidence is far from satis-  
factory that he ever took any efficient  
steps to bring to the notice of the cap-  
tain superintendent neglect on the part  
of the pilots.  
11.—In view of the allegations of dis-  
obedience of the chief examination offi-  
cer's orders by pilots we do not consider  
such disobedience was the proximate  
cause of the collision.  
12.—It would seem that the pilots of  
Halifax attempt to vary the well known  
rules of the road and in this connection  
we think Pilot Remor in charge of an  
American tramp steamer on the morn-  
ing of the collision deserving of censure.  
13.—That the regulations governing the  
traffic in Halifax harbor in force since  
the war were prepared by the competent  
naval authorities; that such traffic regu-  
lations do not specifically deal with the  
handling of ships laden with explosives,  
and we recommend that such competent  
authority forthwith take up and make  
specific regulations dealing with such  
subject; we further strongly recommend  
that such regulations be made under  
present conditions explosives must move, but in view of what  
has happened we strongly recommend  
that the subject be dealt with specifically  
by the proper authorities.  
Given under my hand at the city of  
Halifax this fourth day of February A.  
D. 1918.

### ALLIANCE APPROVES GOVERNMENT PLANS FOR HEALTH DEPT.

**City Clergyman Hear Address**  
**by Hon. Dr. W. F. Roberts**  
**on Provincial Plans To Improve**  
**Public Health**

The Evangelical Alliance met at the  
Y. M. C. A. this morning. Rev. W. H.  
Sampson in the chair. There were also  
present Revs. Neil MacLaughlin, P. E.  
Bothwell, R. T. McKim, Geo. Dawson,  
H. A. Goodwin, R. H. W. Pinkett, Geo.  
Steele, S. S. Poole, F. H. Westwood, D.  
J. McPherson, John H. Jenner, D. Hutch-  
inson, F. S. Dowling, E. A. Westmore-  
land and J. C. B. Appel.  
Rev. A. T. Vale, missionary of north-  
ern Canada, was introduced and made a  
splendid address.

A vote of thanks and appreciation was  
passed to the session of St. Andrew's  
Presbyterian church for the use of their  
building for meetings of the alliance.  
Secretary-treasurer Appel reported  
having received \$176.77, collection for  
the week of prayer services.  
Hon. Dr. Roberts gave an address upon  
state or preventative medicine, in  
which he outlined the plans for a health  
department of the provincial government.  
The alliance passed a vote of thanks  
and went on record as endorsing the plan  
and being ready to help in every way  
in their promotion.  
The alliance also appointed a commit-  
tee consisting of the four Protestant  
clergy to appear before the board of  
commissioners of the General Public  
Hospital to discuss matters dealt with  
in Dr. Roberts' address.

### FORTY-FOUR PER CENT. OF ALCOHOL FOUND IN LEMON EXTRACT

**Chief Inspector, After Hearing**  
**Evidence, Says He Will Move**  
**For Regulation of Sales**

That lemon extract contained the high  
percentage of forty-four per cent abso-  
lute alcohol was the statement made by  
the provincial analyst, M. V. Paddock, at  
the police court this morning in connec-  
tion with the liquor charges against Ar-  
thur Peterson and Bedford Mason. The  
rest of the bottle, stated the analyst, was  
water. Lemon oil was also discov-  
ered in the alcohol. He also stated  
that with less alcohol the odor of lemon  
could not be held in solution. His Honor  
told the prisoners that they were liable  
to \$200 or six months and remanded  
them for the present.  
Rev. W. D. Wilson, chief liquor in-  
spector for the province, was present at  
the court and in conversation with a  
Times reporter afterwards stated that  
steps would be immediately taken to  
prevent the sale of lemon oil and other  
extracts as an intoxicant. The extracts,  
having been in common use for so long,  
said, would be considered as being of  
more good than harm, and so steps to  
prevent the manufacture of it would be  
directed. He thought that if legisla-  
tion were promulgated as regards the care-  
ful regulation of the sale of this com-  
modity, the evil would be practically put  
down. "While men can get this sort of  
stuff to get drunk on without the slight-  
est trouble," he said, "the prohibition  
law is not very effective. Something  
must be done and done soon."

### FORMER ST. JOHN MAN JOINS U. S. AIR CORPS

James Rainford McCafferty, son of  
Mr. and Mrs. D. J. McCafferty of 701  
Becker street, Schenectady, N. Y., left  
Saturday evening for San Antonio, Texas.  
Mr. McCafferty enlisted as a pattern-  
maker in the Aviation Signal Corps and  
was immediately sent to the above named  
training camp. He served his apprenticeship  
at the local General Electric plant,  
finishing in May, 1914, and at the time  
of his enlistment was a valued employe  
of the American Locomotive Company at  
Dunkirk, N. Y.  
The father of the young man is Daniel  
J. McCafferty, formerly of this city, and  
his friends here will be pleased to learn  
that his son has joined the many brave  
lads who have gone forth to fulfil their  
duty in the service of their country.

ONE SECTION BLOCKED  
Seven snow-plows and sweepers, work-  
ing continuously all night, succeeded in  
keeping almost the entire street railway  
line clear in spite of the heavy snow-  
fall last night. This morning the en-  
tire line was in operation, with the ex-  
ception of a section of the Glen Falls  
line beyond the Three Mile House, and  
the officials expected to have this clear  
this afternoon. Other outlying sections  
were kept clear, although in West St.  
John and certain other sections the ser-  
vice last night was not as regular as un-  
der normal conditions.

### HOME IS A PLACE TO LIVE IN

and any reasonable expenditure that is made to ren-  
der it more attractive is certainly justified.  
Furniture, Floor Covering, Pictures, etc., need  
occasional attention, just as much as your clothing,  
and it is our business to supply you with what you  
want to brighten up the home. You will be glad  
that you called upon us.
