LAW RESPECTING NEWSPAPERS

Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.
If Subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrearages are paid.
If Subscribers neglect or refuse to take their papers from the office to which they are directed they are held responsible till they have settled their Bill, and ordered their papers to be discontinued.
If Subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, they are held responsible.

LOOKING FOR A FAULT.

About three years ago I resided in a small village in Connecticut. At that time I had a fine gold watch, which used to keep remarkably good time; in fact, it might be considered the "town clock" of the village, for not a day would pass that I would not have persons coming to have their watches set by my time.

Among those who were in the habit of coming, was a man named Jerry Snipes; who, while in New York, about three weeks previous, was induced to purchase at a "mock auction," what he supposed to be a gold watch, but which, in reality, was nothing more or less than brass.

Jerry was a very simple and honest fellow, and knew as much about a watch, as a watch knew about him. Well, one morning Jerry paid me one of his usual visits, and in the smile which played round his mouth, I judged he was in good humour, and was at a loss to know the cause; I was not long in suspense, however, for he began to tell me how he discovered a way to make his watch keep correct time, and how he intended to hang her up in his room for the future; and he wound up his story by asking me to lend him any watch for two or three days, "to enable him," as he said himself, "to compare it with his own daily."

Knowing him to be strictly honest, I gave him any watch, cautioning him at the same time to be very careful of her, and on no account whatever to open her; to all of which Jerry readily assented.

Three days having passed, and Jerry not being "up to time," I concluded to go for the watch myself; so next morning I bent my way to his habitation. On arriving there I was told by his wife that he was in his room all the morning, and what she considered very strange, he forbade any person entering the room while he was there. Doubts of Jerry's honesty began to flit through my mind; so, regardless of his injunction, I bolted into his room, and there I saw, to my mortification, Jerry, sitting at the table, on which lay my watch, all in pieces! Jerry having been trying all the morning (as he said himself) to find out where the fault lay in his own! I picked up the fragments of my watch, and left the house, firmly resolved never to lend it again.

THE ADVANTAGES OF ADVERTISING.—There are several mineral waters to be found near the banks of the Ottawa, in the townships of Caledonia and Plantagenet, of which the chief are the Caledonia Waters, the Georgian Plantagenet Waters, and the Plantagenet Waters Proper. Without any dispute and beyond all cavil, the best of these waters is the Caledonia, and of the three kinds, the Plantagenet Proper is perhaps the very worst. Now the only proprietor who advertises his waters properly and pays his printer, is Monsieur Larocque, of the Plantagenet Proper, and the consequence is, that his is the only water that now is sold. Go where you will, open what paper you please, and there you are sure to read long testimonials, with good names attached, of the extraordinary virtues of the Plantagenet Waters. Even the cover of the new Montreal Medical Journal is half covered with Monsieur Larocque's puff. Well, mineral waters of all kinds are great humbugs; but the way Monsieur Larocque has walked into the affections of the people of Canada is decidedly no humbug—that's a stern reality.—British Whig.

It is related of a New Englander, who emigrated to the West, that he wrote home to his father to come on there, and he would stand a good chance to get into office, for, said he, "they put almighty mean men into office here."

A gentleman presenting a lace collar to the object of his adoration, and in a peculiar way said—"Do not let any one else rumple it!"—"No, dear," said the lady, "I will take it off."

"Now, Sam, if you don't stop licking that molasses, I'll tell the man."

"By chinks, you tell the man and I'll lick you and the lasses too."

A thief, surprised in the act of robbing a bank, is asked what he is about, and answers, "only taking notes."

BURNS AND FERGUSON.—That Burns erected a monument over the grave of Ferguson, the poet, is well known—not so, hitherto, a little circumstance of interest connected with this honorable tribute to a brother poet. It now appears that two years elapsed before Burns was able to pay for the monument—as witness a letter to Hill, dated in 1793—"I send you by the bearer, Mr. Clarke, a friend of mine, six pounds and a shilling, which you will dispose of as follows:—Five pounds ten shillings per account I owe to Mr. K. Burn, architect, for erecting the stone over the grave of poor Ferguson. He was two years in erecting it, after I had commissioned him for it, and I have been two years paying him, after he sent me his account;

so he and I are quits. He had the hardiess to ask me interest on the sum; but considering the money was due by one poet for putting a tombstone over another, he may, with graceful surprise, thank heaven that he ever saw a farthing of it."—[Cockburn's Life of Jeffrey.

AMERICAN ITEMS.

THE LARGEST CLIPPER IN THE WORLD.—Mr. Donald McKay has now on the stocks, at East Boston, a magnificent clipper ship, which will register about 2300 tons. "She is not only the largest merchant ship, but the sharpest and longest known at the present day, either building or afloat. She is 240 feet long on the keel, and 265 over all, her extreme breadth of beam is 434 feet, and depth 23 feet 3 inches, including 8 feet height between decks. She has been named the ENEMY TRAIN, a methodic compliment to one of our most enterprising merchants—a gentleman who has done much for the shipping interests of Boston.—Boston Atlas.

The Halibut Fishery.—Notwithstanding the great sacrifice of life and property attending the halibut fishery on "George's Banks," our Gloucester fishermen still prosecute this branch of their business every Spring, with renewed vigor. There are now some seventy-five sail of vessels out of Gloucester, alone engaged in this fishery. These are chiefly schooners, 75 to 100 tons burthen, many of them clipper built, and are manned with crews numbering some twelve hands each.—Boston Trav.

There are in Boston 232 persons, copartnerships, and corporations, who pay taxes of \$100,000 and upwards. The American minister at the British court, Mr. Abbott Lawrence, pays a tax of \$7,553, on property, real and personal, of \$1,170,000. Mr. Lawrence is the richest of the Bostonians.

THE MICHIGAN CENTRAL RAIL ROAD, extended through Indiana on the southern shore of Lake Michigan to Chicago, is completed to the latter city, and the first train, conveying 600 first class passengers, and 300 emigrants, arrived there from Detroit on Saturday.

Peter Faneuil, who built the celebrated hall in Boston that bears his name, was a French Huguenot, who was banished from France by an edict against civil and religious liberty.

MAHMOOT TRAIN.—A correspondent of the N. Y. Journal of Commerce, writing from Port Jervis, states that yesterday thirty-four cars, containing 2737 head of cattle, hogs and sheep, arrived on their way to Portmont, from Dunkirk. Of these 237 were cattle, 996 sheep, and 1514 hogs.—Whole amount of freight, \$3118 30. Length of train more than a quarter of a mile.

APPLES.—We never saw the apple trees in this region, more fully in blossom, than they are at this time. The indications for an abundance of fruit are unusually good. The peach trees, however, should be excepted, the late hard winter having quite or nearly killed a good portion of them.—Hartford Times.

A company, composed of three individuals, is about to erect flour mills in Portland, Maine, of sufficient capacity to manufacture 400,000 brls. of flour per annum. The funeral of Mrs. Adams, widow of the late John Quincy Adams, took place at Washington a few days ago, and was one of the most numerous attended funerals ever witnessed in that city. The President, and the Members of both Houses of Congress attended.

RIOT IN CORK WORKHOUSE.—A desperate riot broke out in the Cork workhouse on Sunday. It originated in the discovery of an inmate possessing a bottle of whisky, which he refused to give up and force being resorted to, resistance was made, and the master struck by two men in the dining hall. The police being sent for to arrest them, a rescue was made, and a fearful Irish row was commenced by the inmates, speedily aided by a mob 700 to 1,000 from without the walls, and headed by desperate women of the lowest class. Divisions of police were ineffectual and temporary order only restored by the 7th Dragoons galloping to the scene with drawn swords, and most materially aided by the Rev. Mr. McNamara, the Roman Catholic priest. Every tangible article in the buildings was destroyed; stones, of which there was unfortunately an abundant supply in the yard, flew about in all directions, seriously wounding many parties; and at one time it was reported that the master, three policemen and eleven inmates had been killed. This, however, was not correct; but the rioters, though mastered, are only kept down by main force; twice have they renewed the struggle, and at noon, on Monday, the aid of military was again sought, and, according to the last accounts, the rioters are only kept in check by an imposing force of cavalry, infantry, and constabulary.

It is now stated that Louis Napoleon is about to marry a daughter of Don Pedro by his second marriage.

Just before the arrival of the Emperor of Russia at Warsaw a fire broke out in the city

which destroyed several manufactories, granaries, and depots of merchandise. Five men of the fire brigade were killed; the royal bank was at one time threatened with destruction, but escaped with only slight damage.

Kossuth's NEXT VISIT TO ENGLAND.—The Prussian Gazette of the 8th inst., from Vienna, under date of the 6th, that the British ambassador in that capital has presented a note from his government to the Austrian cabinet, in which the most satisfactory assurance are given that, if Kossuth should return to England, he will not be allowed to abuse the hospitality afforded to him by making himself the centre of political agitation.

EXPLOSION OF POWDER MAGAZINE.—In the afternoon of the 3d inst., the powder magazine in the fortress of Konigsberg was blown up with an explosion that shook the house of the town, broke the glass of the windows and damaged the roof of many. The magazine itself was completely levelled with the earth, and most of the buildings of the fortress are more or less injured. Three persons were killed—a clerk of the works, the sentinel on duty, and a labourer, of their bodies only fragments have been found; four others are dangerously wounded. One account states that the explosion was wilfully caused by the clerk of the works, a pistol having been found in a position from which it appeared he must have fired it into a cask of gunpowder. No one outside the works has been injured.

MATRIMONIAL MODE OF PROVING INNOCENCE.—The other day Mrs. Sniffkins finding herself unwell, sent for a doctor and declared her belief that she was "poisoned," and that he (Sniffkins) "had done it!" "I didn't do it!" shouted Sniffkins. "It's all gossamer, she isn't poisoned. Prove it doctor open her upon the spot—I'm willing."

The venerable Pickle Pickleby says:—"Read your Bible, Jabes, study the laws of Moses, and don't repeat any of 'em; mind the ten commandments, and the seventh likewise, and don't sell the birthright of the Yankee nation for a mess of potash, and the day may come when you will be a minister to a penitentiary, or a secretary of negation."—Reviville.

The Crystal Palace at New York.—The stock for the erection of this building, \$200,000, has been all subscribed for, and the palace will be opened in May 1853. The late census shows 10,103 deaf and dumb persons in the United States, 9702 blind 15,765 insane, and 15,706 idiotic.

Two of THEM.—In the Eastern part of Delaware county, in New York, there resides a man named B—, now a Justice of the Peace, and a very sensible man, but by common consent, the ugliest looking individual in the whole county; being long-gaited, sallow, and awry, with a gait like a kangaroo. One day, he was out hunting, and on one of the mountain roads, he met a man on foot and alone, who was longer-gaited, uglier, by all odds, than himself. He could give the "Square" fifty, and beat him. Without saying a word, B—, raised his gun and deliberately levelled it at the stranger. "For God's sake, don't shoot!" shouted the man in great alarm. "Stranger, replied B—, "I swore ten years ago, that if ever I met a man uglier than I was, I'd shoot him; and you are the first one I've seen." The stranger after taking a careful survey of his rival, replied; "Wal, captain, if I look any worse than you do shute. I don't want to live any longer!"—Knickerbocker.

European Intelligence.

The Royal Mail steamer Asia has arrived at New York, bringing Liverpool, dates to the 22d May, three days later than by the Arctic.

Cotton had declined 1 per lb. Corn dull, and not much wanted. Flour was firm, and rather dear.

The Disabilities Bill passed the Commons on the 21st.

The oath of allegiance to Louis Napoleon had been refused by great numbers in France.

The whole Italian Cabinet had resigned in a body.

VERY LATE FROM THE WEST INDIES.—The steamer Merlin, Capt. Cope, arrived at New York from St. Thomas on Saturday last. She left the former port of the 20th, and the latter on the 25th. The crop of sugar this year at Barbadoes is likely to be the largest ever made in that island. The difference between the governor and the house of assembly of Dominica resulted in a dissolution of the house. The drought continues very severe at St. Lucia. The Panama, the new steamer of the S. R. N. W. L. packet Co. had arrived at St. Thomas from England in a very quick passage, and had left again on her return.

TIMBER, BERTHS

ST. CROIX RIVER, &c.

CROWN LAND OFFICE, May 13, 1852.

THE right of Licence to cut and carry away Timber and Lumber until the first day of May 1853, from Crown Lands, in the following situations, which were last year under Licence to the undermentioned persons, will be offered for sale by Public Auction, at this Office, at eleven o'clock in the forenoon of Wednesday the twenty third day of June next. Upset price twenty shillings per square mile. (Surveyed lots of land heretofore applied for, and improved to the value of ten pounds are excepted.)

Note.—All inquiries at this Office for information regarding the above, ought to be made before the 21st day of June next.

ROBT. D. WILMOT, Sur. Gen.

European Intelligence.

From papers by the Asia.

In Parliament on the 21st, Lord Derby said the Government did not intend any change in the Maynooth endowment.

At a meeting of London capitalists on the 21st, a committee was appointed to make arrangements for starting a line of packets between Dublin and Kingston, Jamaica, which will give renewed impetus to the Galway route.

The security of ships for taking emigrants to Australia continues.

DEATH OF THE EARL CORNWALLIS.—The demise of the above venerable nobleman, whose title is now extinct, took place on the 21st, at his seat, Linton Place, Kent, in his 74th year.

THE LIBERAL PARTY.—It is rumored that in any future arrangement of a Liberal Ministry, it is possible Lord John Russell might feel inclined to give the Upper House, to take the lead there in place of Lord Lansdowne, leaving the onerous post of chief in the Commons to some other reformer, in whom the crown, the country, and the house might have confidence. —Daily News.

The London Times has the following comments on the militia bill:—

Unfortunately for its own popularity and peace, government last night carried by a division of 127 to 110, in the House of Commons, the obnoxious principle of conscription for the militia. A triumph of this doubtful character, combined with a vast amount of uttering out of doors, and with the possibility of actual resistance to the ballot, should it ever be put in force, can only be regarded as worse than a defeat; for a defeat would at least have removed the bone of contention. No legislation is so injurious as that which aims at a power which the State does not actually possess, and can never acquire; but that is the fault which, as it seems to us, has been deliberately and obstinately committed in this instance.

TELEGRAMS.—The arrival of vessels at Liverpool from America, and at London from all parts of the world, is now communicated to all the principal ports and places on the continent of Europe, by means of the submarine telegraph, within two hours of their appearance in port. On Thursday communications were effected for the first time between London and Boulogne. —The wires are shortly submerged between Dover and Ostend, opening communication with the whole of Belgium. A message may be sent to Lemberg, in the centre of Russia, and an answer had the same day, and communication is ordinarily made between Dover and Paris in about a minute and a half.

A dreadful Colliery explosion had occurred at Wigan, and 32 lives were lost.

Accounts from the Australian Gold diggings continue favourable, and immense quantities of Bullion are arriving in England.

IRELAND.—THE EXODUS FROM ULSTER.

A letter in the Western Star calls attention to the vast extent of emigration from the province of Ulster. —From Personal observation (says the writer) I have arrived at the conclusion that the emigration of the Presbyterian population of Ulster since the commencement of this year has exceeded in numbers that of any of the other provinces—the favorite destination appearing to be Australia whence such glowing accounts have reached of gold finding as have had the effect of making many who had previously determined on seeking a home in the United States to change their destination in the direction of the "diggings."

AGRICULTURAL PROSPECTS IN IRELAND.—The longest stretch of memory fails to recollect a season when there was such an utter absence of "grumbling" as has distinguished the spring of 1852. Crops of all kinds are flourishing, and the potato, especially, is reported to hold out a promise of its old abundance.

TURKEY.

CONSTANTINOPLE, May 1.—The question which occupies the attention, not only of Turkey, but of the public, relates to the difficulties existing between the French charge and the Porte regarding the visit of the Charlemagne to Constantinople. The latter has formally refused to deliver the firm for the passage of the man of war through the Dardanelles. The finger of Russia is more than apparent, and they may make no secret of it. The affair with the French Government may ultimately become serious. The facts as explained in my last note, that the Sultan personally expressed to Admiral Romain Desosses his desire to see the Charlemagne, screw man of war, of 90 guns; Louis Napoleon, to whom application was made, at once acquiesced, and gave the orders necessary for her expedition to the Levant. The Porte now refused to deliver the firm, and the Charlemagne, in consequence is delayed at the Dardanelles, and the Porte placed in the sorry alternative of deciding whether it has less to fear from the ire of the President of the French Republic or the menaces of the Emperor of all the Russias.

Alarming reports are afloat concerning the island of Crete. Great agitation prevails there. Several ships of war have been ordered thither.

INDIA.

The British expedition under Bajah Brooke, of Borneo, and other officers, against the Sulu pirates, had been ineffective. The British found nothing but cane brakes to fight, from which, however, dropping shots killed some of their men.

They replied, that if the English were prepared for war, so were they; and as to what had been said regarding consequences, it was

notorious throughout all Asia, that the English were the greatest braggarts in the world. They have since sent word to Colonel Hogle, that if he does not attack them on the 1st of April (the day at which the period for negotiation expired), they would cross the river and attack him. The Governor of Rangoon also has sent a message to Commodore Lambert, entreating that he will come up with his force to Rangoon and fight it out, without any more delay, as they were quite tired of seeing his ships lying at anchor outside doing nothing.

The next mail will without doubt take home tidings of the fall of Rangoon and Martaban, but there is much difference of opinion as to what further progress can be made before the setting in of the monsoon at the beginning of May.

The present war may be more or less protracted, but the result is certain; we shall compel the Burmese to sue for peace, and we shall then demand the expenses of the war; they will be unable to pay us in money, and we shall pay ourselves by annexing the delta of the Irrawaddy, with more or less of the back country, according to circumstances.

LATER FROM CALIFORNIA.

The steamer Northern Light, with 300 passengers, and a small amount of specie, arrived at New York on Wednesday evening, and the steamer United States, with 300 passengers and \$70,000 in gold dust, arrived on Thursday last. The Winfield Scott had arrived at San Francisco on the 6th of May. The mail steamer Columbia left San Francisco on the 5th May, with \$1,826,000 in gold dust, and the mails.

The San Francisco papers contain but a few items of interest. The California legislature has passed a bill appropriating \$500,000 for the payment of the Indians war claims. The celebrated anniversary of the great fire at San Francisco had passed quietly away, though so great was the fear of the inhabitants that a similar calamity would visit them at that time that all the engines of the city were ranged in the streets with ropes stretched, &c.

Intelligence from Shasta reports the killing of 150 Indians by the whites, who were infuriated at the murder by the former of a Mr. Anderson.

A memorial signed by many of the most substantial citizens of San Francisco, and deprecating hasty legislation in the matter of Chinese emigration, has been presented to the legislature. In the meantime intelligence from Sacramento announces that great excitement with regard to the Chinese gold-diggers exists along the banks of the American river, and their forcible expulsion from the diggings is taking place daily. On one morning a body of two hundred were driven off from one locality. There is but one opinion among the American miners in regard to the importation of Chinese into the mines. They are fully determined to submit to no longer.

The population of San Francisco had increased nearly six thousand during the month of April. Of this amount nearly one half came from China.

The weather had been favorable for mining, and the accounts from the diggings were generally satisfactory.

MEAGHER'S ESCAPE CONFIRMED.—His arrival in New-York. —Thomas F. Meagher has arrived in New York. He was serenaed in Brooklyn on Friday night, at his temporary residence. He made a few brief remarks. The Courier and Enquirer gives the following account of his escape:—

"In common with the associates in exile, he enjoyed what is termed a 'parol of honor,' or in other words, he was permitted to move at will within a given circle, by promising not to go beyond it. For some time previous to February last, arrangements were in progress by which, if successful, the exiles, nine in number, were to be taken from Van Diemen's Land and brought to our shores. In January the arrangements were completed, when it was found that in consequence of their residing so far apart (some ten miles) it would be impracticable to get them all off at one time, and their friends, though reluctantly, were obliged to confine their operations to effecting the escape of Mr. Meagher, as his position gave the surest prospects of success. Every thing being in readiness, a 'parol of honor' to the magistrate, with the promise that he would consider himself bound by it for two hours after its delivery, and no longer. On receiving it, the magistrate gave immediate orders to the constable in Bothwell (where Mr. Meagher resided) to arrest him without delay. This the constable refused to do, stating that he was himself an Irishman, and would do nothing to hinder Meagher's escape. This placed the magistrate in a position somewhat unpleasant, as there was not another officer within twenty-four miles. He however mounted horse and proceeded to the nearest point for the purpose of bringing back an officer to take charge of Meagher, who waited for his return until the time promised had expired, after which he took horse and proceeded in an opposite direction, in which course he has said to have travelled as fast as his horse would carry him, for over one hundred miles, or to the point where his friends had another conveyance in waiting. After reaching Pernambuco, he is said to have been taken on board the brig Acorn on the 23d of April, and by her brought to this port."

MUNICIPAL INSTITUTIONS.—We learn by a telegraph despatch received from Northumberland, that a meeting was held on Wednesday last, for the purpose of taking in

to consideration the propriety of incorporating that County, which was unanimously attended. A good deal of discussion took place on the subject, and after a sharp contest, the opponents of the measure succeeded in defeating the motion to accept the Charter. The people of Northumberland must not, however despair; ere long the people will become more fully convinced of the necessity of such institutions, and then their success throughout the entire length and breadth of the land will be most triumphant. —New Bk'r.

THE STANDARD.

WEDNESDAY, JUNE 9, 1852.

RAILROAD FESTIVAL!

Turning of the "First Sod," under the Contract for the first section of the ST. ANDREWS & QUEBEC RAILROAD.

Friday last, the 4th June, will be a day long to be remembered by the inhabitants of St. Andrews and the County of Charlotte generally. The sun shone out in regal splendor, and at an early hour the busy hum of people, dressed in holiday attire, passed along our streets, and the rattling of carriages, and other vehicles, sounded the note of preparation, and gave evidence of a general turn out to do honor to the day. At 9 o'clock, according to previous instructions, the carriages, wagons, &c., with the Directors, Shareholders and Guests, drew up into line at the Court House Square, and at half-past 9, the amidships procession advanced, headed by the

carriages of the Directors, in the leading one of which was displayed the Royal Standard, and passed through Frederick, Water, Elizabeth, Queen, and Harriet streets to the St. John road, thence via Chamcook to the Frye road, and after a pleasant drive through the woods the procession arrived at Bartlett's farm, ten miles from St. Andrews, the place selected for turning the sod. The ground was tastefully decorated with flags, and a large number of people from St. Stephen, and the neighboring State of Maine, assembled to witness the interesting ceremony. At 12 o'clock precisely, Col. Murray, the Administrator of the Government of the Province, accompanied by Mrs. Murray, arrived upon the ground, in his carriage, and was received by the Directors and officers of the Company, under a salute of 13 guns. His Honor and Mrs. Murray were then escorted to the spot selected for turning the first sod, when the Rev. Dr. Alley offered up a most appropriate prayer for the success of the great undertaking.

The Contractor, Mr. Brookfield, was then formally introduced to Col. and Mrs. Murray, and had the honor of presenting to Mrs. Murray the spade and barrow to inaugurate the work. Mrs. Murray then gracefully raised the first sod, deposited it in the barrow, and tipped it at the end of the plank prepared for that purpose, as emblematical of the commencement of the stupendous work. A salute of 19 guns was then fired in honor of the occasion. In the absence of the President, who was unavoidably prevented from attending, the Hon. Col. Hatch proceeded on behalf of the Company to cut and turn a sod, and was followed by Alex. Light, Esq., the Engineer, and John Brookfield, Esq., the Contractor, in the same operation, typical of the Agency by which the work will be carried to completion. At the conclusion of this part of the ceremony, Col. Hatch addressed the Meeting with the following remarks:—

He said, that in turning the sod, he was of opinion, that the many and trying difficulties which the Company had met with during the incipient stages of the work, were about to pass away, and all things now would go on smoothly until its full completion. That though only two out of six persons, the original promoters of the design were living, four of them had gone to that bourne "from whence no traveller returns," yet he hoped and trusted that the remainder might be spared to realize the advantages that must necessarily accrue from the connection of the great Atlantic by Railroad with the great Saint Lawrence and those inland seas stretching to the far West. It was a noble and magnificent scheme to bring the products around the shores of this great sea to a point being the nearest to the waters of the inner Passamaquoddy—at Saint Andrews to Quebec, and to exchange them with those brought from so populous and fertile a country as Canada. —(Cheers.) It would turn the howling wilderness into the abode of civilization, and no person present could count upon the numerous advantages accruing to humanity from the undertaking. —(Great cheering.) At the time in which this project was commenced, in the infancy of Railroads, the conception of the idea was of an ordinary kind, but its completion would far outrun all present calculation in the good to be derived from it—in the immense trade in linking the hearts of the inhabitants of the Lower and Upper Provinces, together—producing internal strength, union, and respect abroad, and above all to insure to them the continuance of the blessings of the British constitution, which secured to all civil and religious liber-

ty. —(Cheers.) He tendered his thanks, in the name of the Directors of the Company, to His Honor the Administrator of the Province for his presence here this day, and also to his Lady for the very interesting part her Ladyship had taken in the ceremony. These kind acts will long remain in the hearts of the people of St. Andrews. He asked, on all sides, unanimity in future proceedings, and by a strong pull—by a long pull, (at which he should expect Mr. Brookfield, one of the Contractors now present, would take the lead,) and by a pull altogether, in which the Ladies would be no mean auxiliaries, that this great, this patriotic work would be successfully carried out, and amply realized, and though some of us present may not be permitted to see its entire completion, yet they would leave it as a legacy to their children, and future generations, showing the indomitable perseverance and unwearied zeal of a few persons, under circumstances the most discouraging, in the certain prospect of a railroad from this nearest point to Quebec, teaching them, that in a good cause, with integrity of purpose, they should never despair. —(The Hon. Gentlemen concluded amidst tremendous cheering.)

After Col. Hatch had concluded his remarks his Honor the Administrator of the Government, expressed the great pleasure which it afforded him to be present, and to have assisted at so interesting a ceremony. He entirely coincided with the observations which had fallen from Col. Hatch, as to the importance of effecting the opening of Railways through out the Province would create; and he stated that he experienced much gratification in noticing a singular coincidence, that his & Mrs. Murray's visit to St. Andrews should have so opportunely occurred at this time, for it was surely worthy of remark, and might be considered a favorable omen, that Mrs. Murray is niece to Earl Fitzwilliam, the chairman of the Company in England, and who he (Col. Murray) knew, took the liveliest interest in the progress of the undertaking and the general welfare of the Province. —(Cheers.)

Before retiring to the Bower, which was most usefully prepared for the occasion, Mr. Light and Mr. Brookfield both addressed the assemblage. We regret our space will not allow us to publish their speeches in full, but we cannot refrain from stating, that Mr. Light observed that he had carefully examined and made surveys throughout the whole extent of the Line, and had no hesitation in saying, that the grades and curves were all particularly favorable, and that the general facilities for construction were all that could be desired.

Success to the Undertaking was then drank in champagne, amidst deafening cheers. —The health of her Majesty was drank, and God save the Queen, was sung with a depth of tone and feeling which was perfectly electrifying.

A general move was then made towards the Bower, where a cold collation had been prepared, and which had been got up with great taste and elegance.

A few ample justice had been done to the viands, so hospitably provided.

Col. Hatch rose to propose the health of his Honor and Mrs. Murray, and in doing so remarked:—

That he was glad to see that day—it was one of great joy to him, and he was happy he had lived to see it. That 17 years had elapsed, since he and some of his friends now no more, had first conceived the idea of projecting a Railway from St. Andrews to Quebec, and after years of unceasing perseverance amidst varying scenes of adversity and prosperous fortune, his fondest expectations were about to be realized. —(Cheers.) He had no fears now, as far as human foresight could penetrate, there was no occasion for dark forebodings, all was cheering in the highest degree (great applause). He had resolved the subjects over and over in his mind, and the benefit to be derived by the Province was incalculable; they, the people of St. Andrews, had set an example of energy and enterprise, which he hoped would be imitated. The immense resources of the County were at present locked up for want of access to them—the wood of the country, if he might be allowed the expression, had receded, into the interior, and we must bring ourselves in close proximity with it or our people must move away to foreign lands. A Railroad would place us side by side again, with the Pine and Spruce groves, the wealth of the land.

Our limits will not allow us to follow Col. Hatch through his observations, he closed his speech amidst great cheering.

Col. Murray responded in a neat and apposite speech, stating that it gave him very great pleasure to be present on this interesting occasion—that the Undertaking was a magnificent one, and fraught with great benefit to this County, and indeed to the Province at large; and that his projectors and promoters were justly entitled to the thanks of the people. He eloquently expressed his acknowledgments for the compliment paid him and Mrs. Murray by Col. Hatch, in proposing their health; and concluded by giving the health of the gallant Colonel in return, and for which he briefly returned thanks.

John Brookfield, Esq., in an exceedingly happy speech, proposed the health of Earl Fitzwilliam, prefacing his remarks with a well-merited eulogium on that Nobleman's virtues, and alluding to the deep interest he has taken in the railroad—a work which he (Mr. Brookfield) and his partners were resolved to complete to Woodstock—but he observed, he did not suppose it would stop there, it would in due time be carried through to Quebec. The toast was then drank, and followed by a round of applause, that made the welkin ring.

J. W. Chandler, Esq. then rose, and after

reviewing the rise and progress of the Company, observed that his friend Col. Hatch was one of the pioneers of this gigantic enterprise, and to whose perseverance the greatest credit was due. There had been others who had afforded able assistance in the infancy of the concern, some of whom were no longer among us, but who would have rejoiced to have seen this day. He dwelt at length upon the practical effects of the undertaking, and said that this work would lay open a fertile inland country capable of maintaining three hundred thousand inhabitants, through the midst of which the road would pass, giving them immediate access to the sea; that it would also open immense virgin forests covered with ship timber, which would thereby be brought into profitable use; that the water power waiting for employment in this country is, practically speaking, unlimited; and that, while the railroad would materially aid in the development of their valuable resources, the owners of the work may confidently look for perpetually increasing dividends. He concluded by offering as a toast, the health of Mr. Thompson, the Manager of the Company, to whom he thought the happy consummation of all their ardent hopes, and which they were then assembled to celebrate, must in a great measure be attributed; and with it he would couple the health of Mrs. Thompson. —(Cheers.)

Mr. Thompson replied in his usual happy manner, observing that as far as his humble abilities permitted, he would still exert himself in pushing forward the work—and that if any credit were due to him, he felt more than repaid for any exertion on his own part, by so happy an issue to all the delays and obstacles which had so long attended the prosecution of the work, and which he now considered would go forward without any impediment, and that he sincerely appreciated the honor which was done him and Mrs. Thompson in proposing and drinking their health in the very handsome and enthusiastic manner they had done, and thanked them most cordially.

Several other speeches were then delivered, and the company reformed in line, and a salute of 13 guns was again fired on the departure of his Honor.

Several distinguished strangers were present at the celebration, among whom we noticed Capt. Ford, R. A.; W. H. Drake, A. C. G.; Lieut. Kellogg, U. S. A.; Mr. Sherwood, H. R. M. Consul; Rev. Mr. Donald, of St. John.

Great credit is due to Julius Thompson, Esq., for the admirable manner in which the arrangements were carried out; his active mind and body were constantly in requisition. The people of St. Andrews will remember with feelings of pleasure, the 4th June, 1852, and we heartily join in wishing abundant success to the Railroad.

The foregoing is but an imperfect sketch of the celebration and speeches, for which we crave the indulgence of our readers.

The weather for the last six weeks has been dry, and fears were beginning to be entertained seriously for the safety of the Crops, but since yesterday afternoon refreshing showers have come, and dispelled all doubts.

Launched from the Ship Yard of Messrs. J. & R. Townsend, at Chamcook, on the 3rd inst., a ship named the St. Helena of 565 tons net measurement. The frame of this vessel is principally composed of hewn and pitch pine, in the selection of which no expense or trouble has been spared.

His Honor the Administrator of the Government, Lieut. Colonel Murray, and Mrs. Murray, left this on Monday, for the Seat of Government.

H. M. Sloop Cutter Netley arrived at St. John from Halifax, to be stationed in the Bay off Fundy during the present season for the protection of the Fisheries. The Netley is one of the tenders to the Flag-Ship Cumberland, and is under the command of Capt. Augustus F. Kynaston, who was in the Bay last year in command of H. M. S. Persian. Captain Kynaston distinguished himself last season by his close attention to the interests of the fisherman, and by his exertions for the formation of Fishery Societies at Campo Bello, West Isles and Grand Manan.

MARRIED.

On the 15th of May, by the Rev. Mr. Usher, Walter Boswell Ridgidge, Esq., Barrister &c., and youngest son of Capt. Ridgidge, Royal Navy, to Henrietta, youngest daughter of Dr. Marten. —[Canada Pap.]

At Musquash, 27th ult. by Rev. T. W. Robertson, Mr. James T. Clarke, of Saint John, to Miss Sarah Marshall, of the former City.

ST. JOHN NURSERY.
J. HARRIS has just received from Lon-
don, via Boston, a good collection of
GARDEN SEEDS.
Farmers and Gardeners would do well to have
these Seeds, as they are excellent samples, and
many of the kinds are of new and improved qual-
ity. At this Nursery the variety of TREES,
PLANTS, SHRUBS, ROOTS, SEEDS, &c.
are extensive, particularly the DAHLIA, of
these J. H. has about 20 new kinds of a novel
character, blended with perfection—a desider-
tum gained after 35 years' incessant perseverance.
Every thing suitable for the Kitchen, Fruit,
and Flower Garden, will be sent to order.
Chipman's Hill, St. John, April 2, 1852.—1*

ROYAL MAIL STAGE.
Between St. Andrews and St. John.
THE Subscriber, having Contracted with the
Post Office Department to carry the MAIL,
has commenced running a STAGE, from St. An-
drews to St. John, according to the following ar-
rangement, viz:—
Leaving Saint Andrews, every day at 12 noon
(Sundays excepted); and Saint John every day,
at 10 o'clock, A. M. (Sundays excepted).
The well known disposition of the Subscriber
who, for many years, was upon this Mail route,—
to give every attention to the Comfort and Con-
venience of Passengers, will, he trusts, secure
him a full share of Public patronage.
The Stage Books will remain open at Mr. Brad-
ford's Temperance Hotel, St. Andrews and at the
St. John Hotel, St. John.
GEORGE CHRISTIE.
St. Andrews, Feb. 2, 1852.

Notice to the Public.
A CHANGE having been made at Robinson's
in the arrival and departure of the United
States Mails, in consequence of which the Mails
from this Office do not reach St. Andrews in time
for direct transmission to the United States;—the
following change, commencing on Friday the
23rd instant, will be made in the Mail Arrangements
between this City and St. Andrews: viz:
Mails for St. Andrews, &c., will close at this Of-
fice at 4 P. M., daily, Sundays excepted;
and the Mails from St. Andrews, &c., will leave
that Office daily, Sundays excepted, at about
noon, or as soon as possible after the arrival of
the Mails from the United States.

TO LET.
IN consequence of the Admiralty
having ordered the remaining Stores
to be sold off, the Government Prop-
erty at Welchpool, Campbell's, WILL
BE LET for a term as may be agreed upon.
The property consists of Provision Stores, Beer
House, Coal House, and Sail Loft; is well sit-
uated, the stores spacious, and admirably adapted
for doing an extensive business in dry, pickled
and smoked fish. Any quantity of salt, iron,
paint, paint oil, and of British staple and Fancy
Goods, can be disposed of to advantage by whole-
sale or retail, owing to its proximity to the United
States.
Campbell's, August 19, 1851.

For sale or to Let,
FOR A TERM OF YEARS, AND
Possession given 1st May next.
THE House in St. George, owned
and occupied by the Subscriber.—
It contains nineteen rooms, and a very
large and perfectly frost proof cellar.
The building is well known as a Public House,
and is by far the best stand in the Village. The
lot on which it stands, is sufficiently large for
several other buildings.

Reynolds, of in, and to, all the following lots, pieces, tracts, or parcels of land, situate, lying and being on the Lepraux river, in the Parish of Pennfield and County of Charlotte; together with the mills, houses, barns, and other accoutrements and improvements thereon, or in any-wise appertaining to the same—Viz:
Lots Nos. 1, 2 and 3, containing 330 acres, purchased from Augustus W. Whipple.

Lot No. 40, containing about 40 acres. Also, 4 tracts purchased from James H. Bartlett, containing, respectively, 40, 60, 70, and 30 acres each; and also, 4 acres conveyed by Stephen C. Foster to Robert Bartlett, and by him assigned to the said Reynolds.
The same having been seized and taken to satisfy an execution at the suit of David Cannon, John Mc M. Cannon, John Alexander Black, and John House Barry; endorsed to levy £113 10 5, besides Sheriff's fees, &c.

JUDSON'S
CHEMICAL EXTRACT OF
CHERRY AND LUNGWORT,
FOR THE CURE OF
Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and
CONSUMPTION.
DO NOT NEGLECT IT.
CONSUMPTION
Can be and has been cured in thousands of cases by this only certain remedy.
JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, and no remedy has ever before been discovered that will certainly
CURE CONSUMPTION.
The most strongly marked and developed cases of Pulmonary Consumption where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy, and are now as well and hearty as ever.
It is a compound of medicaments which are peculiarly adapted to and essentially necessary for the cure of
COUGHS AND CONSUMPTION.
Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system all diseased matter by excretion, producing a most delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men and the inventions of kind-sorrowing friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.
THOUSANDS OF CONSUMPTIVE persons have been deceived in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only a palliative but a cure for ulcerated lungs. It contains no deleterious drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of Blood, Coughs, pains in the side and chest, night sweats, &c. &c.
About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this medicine, but the publication of them took too much like Quackery, [it will show them to any person calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is tried.
Caution.—This medicine is put up in a large bottle and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9, John St., New York.

CARLTON'S FOUNDER OINTMENT.
For the cure of Founder, Split Hoof, Hoof bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the flesh Galled Backs, Cracked Heels, Scratches Cuts, Kicks, &c., on horses.
CARLTON'S KING BONE CURE.
For the cure of King Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.
CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.
The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at those changes that require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Bots, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appears, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood are speedily cured by them. Remember

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES.
and for the cure of all diseases of man or beast that require external application, and for contracted cords and muscles, strengthen weak limbs, and is also used for sprains, bruises, saddle galls, scalded legs, sores of all kinds on horses.
CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, livery men, stage proprietors and others, with the most marked and decided success.
CAUTION.—None can be genuine unless you find the name of J. Carlton Comstock on the wrapper of each article.
COMSTOCK'S VERMIFUGE.
This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both adults and children. It cannot harm the most delicate infant or strongest adult, and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cts. per bottle, puts it within the reach of all, and all parents who are without state-worming exposing the lives of their children to those evil destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the wrapper of each bottle.
RHEUMATISM.
Comstock's Nerve and Bone Liniment, is warranted to cure any case of Rheumatism, Gout, Contracted Cords, Muscles, or stiff joints, given, these Weak Limbs, and all complaints which are crippled to all again. Comstock & Brother, Proprietors, New York and none genuine without their name on the wrapper.
TOOTHACHE.
Dr. Kline's Drops, for the cure of the Toothache. It is with confidence that we can recommend it as an infallible cure in all cases, without any injury to the teeth or gums. Price 25 cts. CARLTON'S LINIMENT FOR THE EYES &c.
It is now used in the principal hospitals, and in the private practice in our country by an immense number of individuals and families, first and most certainly for the cure of EYE AFFECTIONS, and also extensively and efficaciously as a powerful remedy in all cases where the eye is inflamed, whether the inflammation be acute or chronic, giving immediate ease. Sold by Comstock & Brother, No. 9, John Street, New York, and by all Druggists.
Its operation upon adults and children in reducing chronic inflammation, and loosening coughs and tightness of the chest by relaxation of the parts, has been surprising beyond conception.
CAUTION.—All the above named articles are sold only by New York by Comstock & Brother, No. 9, John Street, and by all Druggists from New York.

JOHN B. BALSON,
Respectfully announces to the inhabitants of St. Andrews, and vicinity, that he has opened the store next Phelan's Hotel where he has received a large supply of Groceries and Provisions, suitable for this market—consisting of—
SUPERFINE FLOUR in bags and Barrels; Fancy Biscuit, Meal Tea, Coffee, Brown and Crushed Sugar, Molasses, Mould and Dip Candles, Brown and Fancy Soap, Fine and coarse Salt, BARLEY, Mustard, Pepper, Ginger, Allspice, Salsaparilla, Nutmegs, London Pickles, Pepper Sauce, Lemon Syrup, CONFECTIONERY, Dates, Tobacco, Cigars, Snuff, Pipes, Starch, Button Blue, Blacking, Baking and Washing Soda, Boots and Shoes, Pails, Brooms, &c.
Which, together with a great variety of other articles, will be sold at the lowest prices for cash.
ALSO, in Store, Coils of CORDAGE, a lot of Grind Stones &c. &c.
St. Andrews, June 17, 1851.

FRUIT TREES.
THE NURSERY and Orchard of the Subscriber, consisting of nearly Forty Thousand Trees, are now offered for the inspection of the Public and for sale. Persons planting these Trees may be assured of success, as every possible precaution has been used in the selection of varieties; all that have not proved hardy, have been at once discarded, and those which have not yet fruited here have been propagated with the advice of the most distinguished cultivators of New England and Canada.
The Subscriber flatters himself that his assortment is unrivalled for this climate, as it contains nearly all the varieties of Apples and Plums which have proved valuable in cold and extreme climates, with many new and splendid sorts lately brought from Russia, England, Germany, Canada, and the Northern States.
Free of Grafted Apple Trees, assorted, one shilling each—Any person or number of persons ordering 1000 or upwards in one lot may, if desired, have a credit of two or three years for half the amount, and receive the trees free of freight at any place within the Province.
FRANCIS P. SHARP.
Woodstock, Oct 22, 1851.

HEALTH where his SOUGHT.
CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.
Extract of a Letter from Mr. Matthew Harvey, of Chapel Hill, Scotland, dated the 10th of January, 1851.
SIR—Your valuable Pills have been the means, with God's blessing, of restoring me to a state of perfect health, and at a time when I thought I was on the brink of the grave. I had consulted several eminent doctors, who after doing what they could for me, stated that they considered my case as hopeless. I was a last resource, got a box of your Pills, which soon gave relief and by persevering in their use for some weeks, together with taking night and morning your Ointment over my chest and stomach, and night ride, I have by the means alone got completely cured, and to the astonishment of myself and every body who knows me.
[Signed] MATTHEW HARVEY.
CURE OF A CASE OF WILKES AND DILLITY, OF LIVER NEURALGIA, STANDING Extract of a Letter from Mr. Smith of St. Andrews, dated Dec. 15th, 1851.
To Professor Holloway—
SIR—I beg to inform you that I was a day or two last week what I was to have a day's health suffering from extreme weakness and dizziness with constant nervous headache and dizziness, and sickness of the stomach together with a great depression of spirits, I had to thank that nothing could be done for me. One day being unusually ill and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more from curiosity than with any hope of being cured; however, I soon found myself better by taking them, and so I went on persevering in their use for six months, when I am happy to say they effected a perfect cure.
[Signed] W. H. I. SMITH.
(frequently called EDWARD.)
CURE OF ASTHMA, OF TWENTY YEARS STANDING.
Extract of a Letter from Mr. J. K. Heydon, 78 King Street, Sydney, dated 10th of November 1851.
To Professor Holloway—
SIR—I have the pleasure to inform you that many extraordinary cures of Asthma have been effected here by means of your Pills. One is that of a Lady residing near the "Blackback," who after having for twenty years been unable to make the slightest exertion suffering very fearfully from shortness of breath, coughing, and spitting, but is now, to use her own words, "able to run up to the top of that mountain." Another case is that of Mr. Calvin Tai, of Hutchinson's Buildings, Clarence Street, who was so dreadfully bad that he was confined entirely to his bed-room for several months, prior to his coming here with your Pills, and attended regularly by his medical man, who pronounced him to be in a dying state, yet he, likewise, to my knowledge, has been restored to perfect health by the use of your Pills, and rubbing your Ointment night and morning into his chest.
[Signed] J. K. HEYDON.
ASTONISHING CURE OF THE EARL OF ALDBOROUGH.
By this Miraculous Medicine after every other means had failed!!!
A Copy of a Letter from the Earl of Aldborough dated Villa Medice, Leghorn, 21st Feb. 1851.
To Professor Holloway—
SIR—Various circumstances prevented the possibility of my thinking you before this time for your politeness in sending me four Pills as you did. I now take the opportunity of sending you an order for the amount, and at the same time, to add that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent had not been able to effect, may not even the waters of Carlsbad and Marienbad. I wish to have another Box and a Pot of Ointment in case any of my family should ever require either.
I remain, with much respect,
Your most obliged and obedient servant,
[Signed] ALDBOROUGH.
TIME should not be lost in taking this Remedy for any of the following disorders—
Ague Consumption Fire Rheumatism
Temper Asthma Debility Gout
Retention of Urine Ulcers Bilious Complaints
Dropsy Head-aches Sore Throats
Venereal Affections Eruptions on the skin
Dysentery Indigestion Scrophulous or King's Evil
Worms of all kinds Erysipelas Inflammation
Howel Complaints Female Irregularities
Jaundice Stone and Gravel Colic
Liver Complaints and Secondary Symptoms
Weakness from whatever cause Lumbago
Constipation of Bowels Fevers of all kinds
Piles The Douleurux &c. &c.
These Medicines in England are sold at 1s. 1/2 2/6, 4s 6d, 11s, 25s, and 50s, each Box and Pot. There is a considerable saving by taking the large sizes.
Sold by all Vendors of Medicines throughout New Brunswick, and by A. H. Thompson, St. Stephen; Billings & Dyer, Eastport, and
ODELL & TURNER, St. Andrews.

I was a last resource, got a box of your Pills, which soon gave relief and by persevering in their use for some weeks, together with taking night and morning your Ointment over my chest and stomach, and night ride, I have by the means alone got completely cured, and to the astonishment of myself and every body who knows me.
[Signed] MATTHEW HARVEY.
CURE OF A CASE OF WILKES AND DILLITY, OF LIVER NEURALGIA, STANDING Extract of a Letter from Mr. Smith of St. Andrews, dated Dec. 15th, 1851.
To Professor Holloway—
SIR—I beg to inform you that I was a day or two last week what I was to have a day's health suffering from extreme weakness and dizziness with constant nervous headache and dizziness, and sickness of the stomach together with a great depression of spirits, I had to thank that nothing could be done for me. One day being unusually ill and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more from curiosity than with any hope of being cured; however, I soon found myself better by taking them, and so I went on persevering in their use for six months, when I am happy to say they effected a perfect cure.
[Signed] W. H. I. SMITH.
(frequently called EDWARD.)
CURE OF ASTHMA, OF TWENTY YEARS STANDING.
Extract of a Letter from Mr. J. K. Heydon, 78 King Street, Sydney, dated 10th of November 1851.
To Professor Holloway—
SIR—I have the pleasure to inform you that many extraordinary cures of Asthma have been effected here by means of your Pills. One is that of a Lady residing near the "Blackback," who after having for twenty years been unable to make the slightest exertion suffering very fearfully from shortness of breath, coughing, and spitting, but is now, to use her own words, "able to run up to the top of that mountain." Another case is that of Mr. Calvin Tai, of Hutchinson's Buildings, Clarence Street, who was so dreadfully bad that he was confined entirely to his bed-room for several months, prior to his coming here with your Pills, and attended regularly by his medical man, who pronounced him to be in a dying state, yet he, likewise, to my knowledge, has been restored to perfect health by the use of your Pills, and rubbing your Ointment night and morning into his chest.
[Signed] J. K. HEYDON.
ASTONISHING CURE OF THE EARL OF ALDBOROUGH.
By this Miraculous Medicine after every other means had failed!!!
A Copy of a Letter from the Earl of Aldborough dated Villa Medice, Leghorn, 21st Feb. 1851.
To Professor Holloway—
SIR—Various circumstances prevented the possibility of my thinking you before this time for your politeness in sending me four Pills as you did. I now take the opportunity of sending you an order for the amount, and at the same time, to add that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent had not been able to effect, may not even the waters of Carlsbad and Marienbad. I wish to have another Box and a Pot of Ointment in case any of my family should ever require either.
I remain, with much respect,
Your most obliged and obedient servant,
[Signed] ALDBOROUGH.
TIME should not be lost in taking this Remedy for any of the following disorders—
Ague Consumption Fire Rheumatism
Temper Asthma Debility Gout
Retention of Urine Ulcers Bilious Complaints
Dropsy Head-aches Sore Throats
Venereal Affections Eruptions on the skin

SURROGATE COURT.
COUNTY OF CHARLOTTE.
In the matter of the Estate of Daniel Cunningham late of the Parish of Saint David in the County of Charlotte, deceased.
WHEREAS Lachlan Doon administrator of the said Estate, and executor of the will of the said Daniel Cunningham deceased, at the time of his death, both this day filed his Account with the said Estate, and hath prayed that the Creditors and next of Kin of the deceased, and all persons interested in the said Estate, may appear and interpose the passing and allowance of the said account.
NOTICE is therefore hereby given, to all the Creditors and next of Kin of the said deceased, and to all persons interested in the said Estate, and to all persons interested in the said Estate, to appear before me at a Court of Probate to be held at the Office of the Registrar of Probates in Saint Andrews, in the said County of Charlotte, on Saturday the Tenth day of APRIL, next, at the hour of one o'clock in the afternoon, to interpose the passing and allowance of the Account of the said Administrator.
Given under my hand and the Seal of the said Court, this tenth day of December A. D. 1851.
(Signed) H. HATCH, Surrogate Judge.
Geo. D. Street, Registrar of Probates.

HOUSE OF ASSEMBLY.
The following were adopted as Standing Rules in the Session of 1851—
37th.—That no Bill of a private nature or petition for money or relief, shall be received by the House after the fourth day from the opening of the Session, both inclusive; and that the Clerk of this House do, one month previous to the meeting of the Legislature, cause fifty printed copies of this Rule to be sent to each of the Clerks of the Peace in the several Counties for distribution, and cause the same to be inserted in the Royal Gazette, and two Newspapers in this County where Newspapers are published.
38th.—That this House will sustain no application for allowances to Teachers of Common or Parish Schools, unless it shall be certified by at least two Trustees of Schools for the Parish where such School has been taught, showing the time actually taught by the Teacher to be licensed—the cause why such Teacher was not certified to the Sessions in the ordinary way—and that such Teacher was not compelled to discontinue his or her School on account of any improper conduct.
Dec 24. CHAS. P. VETMORE, Clerk.
