

GAMES BEGUN

LONDON, July 13.—When the city of London awoke this morning it seemed as though the English climate, which was so kind to the sportsmen earlier in the year, was trying to show the 2000 athletes assembled for the Olympic games how disagreeable it could be.

The past fortnight of unsettled weather, which has been a terror to the visitors who have been trying to get in the best of form for the great physical exertions to be made during the next two weeks, was followed this morning by a downpour of rain which threatened to postpone the opening of the stadium at Shepherd's Bush.

Shortly after 3 p. m. the royal box began to fill up the early arrivals in the stadium each receiving applause and the coronation of the Olympic games was carried out according to program.

The first three heats of the three-mile team race were interesting, the United States, Austria, and Italy, Ireland and Germany in the first and in the second the Americans met teams representing Sweden and France.

Great Britain had a walkover in the first heat, four members of her team keeping together throughout, running their opponents off their legs and continuing the race to the finish.

The first heat of the 1500-meter run was won by J. P. Sullivan, Ireland, second, C. D. Lighthorn, Chicago A. A., was second, and Meadows, of Canada was third.

The second heat of the 1500-meter run was won by Melvin W. Sheppard, of the Irish-American A. C., J. F. Halloway, of California, was second; Sheppard's time was 4:05, 2-5 of a second inside the Olympic record made by Lighthorn at St. Louis in 1904.

The third heat of the 1500-meter run was won by N. F. Hallows, of England; Lighthorn, of California, was second, time 4:03.48. Halloway ran a great race in this heat, cutting a clean two seconds off the record. He is an Oxford blue, three-mile runner.

the fourth heat, but he was unable to keep up with E. V. Loney, of England.

LONDON, July 14.—Great Britain and America captured most of the laurels today in the first real business day of the Olympic sports. Twice the Stars and Stripes fluttered to the top of the staff in the centre of the arena.

The honors were nearly even for the four events finished. The United States took two gold medals, Great Britain, however, won three silver medals while America got only one. Canada, Australia, Great Britain and Belgium each obtained a bronze medal.

The Yankees had the hammer throw to themselves, and the performance of J. Flanagan, of the Irish-American Athletic club, in breaking the Olympic record with the hammer and the almost equally good record made by M. J. McGrath, of the New York Athletic club, were eye-openers to the foreigners.

The British pedestrians had their own way in the 3500-meter walk. The 20-kilometer cycle race was the most cosmopolitan event of the day.

The first heat of the 1500-meter run was won by J. P. Sullivan, Ireland, second, C. D. Lighthorn, Chicago A. A., was second, and Meadows, of Canada was third.

The second heat of the 1500-meter run was won by Melvin W. Sheppard, of the Irish-American A. C., J. F. Halloway, of California, was second; Sheppard's time was 4:05, 2-5 of a second inside the Olympic record made by Lighthorn at St. Louis in 1904.

The third heat of the 1500-meter run was won by N. F. Hallows, of England; Lighthorn, of California, was second, time 4:03.48. Halloway ran a great race in this heat, cutting a clean two seconds off the record. He is an Oxford blue, three-mile runner.

The fourth heat of the 1500-meter run was won by Loney of England; time 4:08.35. H. L. Coe, of the University of Michigan, finished second.

ing in the breeze, added a further touch to the excitement of the scene, while among the competitors, the improved climatic conditions, had a good effect, lightening their spirits and increasing their enthusiasm.

The spectators, however, were occasionally some good sport was witnessed. There were three finals assigned to the day and of these England won the 400 metre cycling race and the 300 metre team race, thus bringing the number of gold medals accredited to Great Britain to date up to four, as compared with two standing to the credit of the United States.

Sweden won her first gold medal today in the javelin throw. E. V. Lemming, breaking his own record. The Scandinavians made an astonishing showing in the preliminaries of the five mile run in which England was thought to have a walk over.

Only the men who make the three best throws in the sections will compete in the final. In the second section of the hammer throw, Nicholson, England, made the best throw, followed by the American, second, 154 feet 1.4 inch; Fyfe, England, third, 152 feet 6.4 inches.

In the third section of the hammer throw, McGrath, American, threw 187 feet 3.4 inches; Herr, American, second, 154 feet 1.4 inch; Fyfe, England, third, 152 feet 6.4 inches.

The first heat of the 20-kilometer cycle race was won by Meredith, England, in 33 minutes 21 seconds. C. B. Kingsbury, England, was second, 34 minutes 33.4 seconds. United States, third, 35 minutes 39 seconds.

The second heat of the 20-kilometer cycle race was won by Hanson, Sweden; time 34 minutes, 53.4 seconds. United States, second, 35 minutes 39 seconds. United States, third, 36 minutes 14.4 seconds.

The third heat of the 20-kilometer cycle race was won by Jones, England, in 33 minutes 34 seconds. Cameron, United States, was second, 34 minutes 56 seconds.

The fourth heat of the 20-kilometer cycle race was won by Jones, England, in 33 minutes 34 seconds. Cameron, United States, was second, 34 minutes 56 seconds.

be occupied, but the great crowd that has been expected to arrive, only the cheaper stands contained spectators in any number. The program, it is true, was not the most interesting from the viewpoint of the sportsman, outside of the cycling events, but the quality of the sport was witnessed.

There were three finals assigned to the day and of these England won the 400 metre cycling race and the 300 metre team race, thus bringing the number of gold medals accredited to Great Britain to date up to four, as compared with two standing to the credit of the United States.

Sweden won her first gold medal today in the javelin throw. E. V. Lemming, breaking his own record. The Scandinavians made an astonishing showing in the preliminaries of the five mile run in which England was thought to have a walk over.

Only the men who make the three best throws in the sections will compete in the final. In the second section of the hammer throw, Nicholson, England, made the best throw, followed by the American, second, 154 feet 1.4 inch; Fyfe, England, third, 152 feet 6.4 inches.

In the third section of the hammer throw, McGrath, American, threw 187 feet 3.4 inches; Herr, American, second, 154 feet 1.4 inch; Fyfe, England, third, 152 feet 6.4 inches.

The first heat of the 20-kilometer cycle race was won by Meredith, England, in 33 minutes 21 seconds. C. B. Kingsbury, England, was second, 34 minutes 33.4 seconds. United States, third, 35 minutes 39 seconds.

The third heat of the 20-kilometer cycle race was won by Jones, England, in 33 minutes 34 seconds. Cameron, United States, was second, 34 minutes 56 seconds.

The fourth heat of the 20-kilometer cycle race was won by Jones, England, in 33 minutes 34 seconds. Cameron, United States, was second, 34 minutes 56 seconds.

of France was second; Nigamer of Germany, third; Johnson's time was 51.13 seconds.

NEW YORK, July 15.—After Melvin W. Sheppard had defeated the fleetest runner in the world in the Olympic games at London yesterday, it was learned that a few weeks ago his application for a position on the New York police force was rejected because of physical disability. The police surgeon, who examined him reported that he found him to be suffering from enlargement of the heart and hardening of the arteries. The case has been taken up by the civil service commissioners whose examination he has passed and another effort will be made to have him accepted as a wearer of the policeman's blue.

LONDON, July 15.—The United Kingdom and the United States are running a neck and neck race for supremacy at the Olympic games. The United Kingdom started today with four first places to the Americans' two, but the latter picked up in the earlier events and won all three prizes in the discus throwing and first and third prizes in the weight throwing. Morgan of the United Kingdom took second place in the latter event. This nearly evened the score of the two countries but England got another lead when Taylor made his sensational win in the 400 metre swimming contest.

The rain of the morning continued throughout the afternoon and everybody kept away spectators and the attendance was meagre. London's comparative apathy towards the games is the theme of much newspaper comment this morning. The great stadium holds over 70,000 persons, but never yet has there been more than 15,000 people present.

The final was reached in the 100 metre cycle race, but this proved such a fiasco through the attempts of France and Japan, that the athletes of the other countries, throwing the discus, free style, owing to the withdrawal of a number of men, sections one and two were grouped and Burrows, who with Adams represented the United States, out-threw France with a throw of 122 feet 9.2 inches. This did not long stand the best throw, however. Debnor, who had thrown 120 feet 1.2 inches, placing the discus 126 feet 6.1 inches from the circle, all the other competitors in his section being closely behind. Griffin carried off the honors in the fourth section with a throw of 123 feet 1.2 inches. Garrels did not qualify. Hort was third with 123 feet 5 inches. No throw in the sixth section counted as all were below the standard. The three best in all section qualify for the finals. Section 7 and 8 were Norway, Germany, Greece, United States and Sweden. Sweden won carrying 133 feet 1.2 inches.

In the final of the discus throwing Sheridan made 134 feet 3 inches and Griffin 123 feet 6.1 inches. In the final of the weight contests Section 1 and 2 were grouped. W. W. Coe, Jr., Boston A.A.C., was first with 42 feet 1.2 inch; Sawlike, Finland, was second with 38 feet 1.2 inches; and Lee J. Talbot, Irish-American A. C., was third with 38 feet 2 inches.

Sections 3 and 4 also were grouped. J. C. Garrels, of the United States, was first with 43 feet 3 inches; M. F. Hogan, Irish-American A. C., was second with 42 feet 1 inch.

In the final contest Ralph Rose, Olympic club, San Francisco, was first; Hogan, United Kingdom, second, and J. C. Garrels, Chicago A.A., was third. Rose's distance was 133 feet 1.2 inches. This does not equal the Olympic record for this event, 48 feet 7 inches, made by Rose in St. Louis in 1904.

In the final of the 400-metre swimming race, Taylor, United Kingdom, won; Baureclair, Australia, was second, and Sekoff, Austria, third. Taylor's time was 5 minutes 15.5 seconds.

the British Olympic association, protesting against the award of the pole vaulting contests and referring to other matters in connection with the games.

In his reply Lord Desborough takes up the complaints of Americans regarding the conduct of the sports. He stated that the pole vault was referred to the Amateur Athletic association which decided not to allow the Americans to dig a hole for the pole, but acceded to the request to have pits filled with sand for landing on. With regard to the question of heat drawings, Lord Desborough points out in his letter that the drawings had already been made in the various events and could not be altered. In addition to the discus throwing, the weight throwing, the 400 metre swim and the 1000 metre cycle race, a number of preliminaries in other events were pulled off today. These include the second heat of the 100 kilometre cycling; two heats of the ten mile walk; two heats in the second round of the 300 metre breast stroke swim; the fifth heat in the fancy diving; and seven heats of the 100 metre back stroke swimming.

It was miserably wet and cold all day, the rain falling heavily from early morning until after the last event had been decided. The competitors and the officials who had to be in the field were dripping with water all day and on the whole the scene was about as cheerless as could be imagined. The stands and course were deserted and in the afternoon the running track was like a canal. Fortunately there were no running races on the program. All the gymnastic displays, which were the feature of the previous day, had to be put off and even the band did not make its appearance to help dispel the gloom.

There was some heavy work for the parties participating this morning. The program scheduled for the morning was a 100 kilometre bicycle race, bicycle race which brought out a field of 32 starters of which Weitz was the only American, while Canada had three entries, Morton, Young and Andrews. France and Germany starting five men each, Italy three, the United Kingdom six and Belgium, South Africa and Sweden one each.

The ten mile walk was started with just as cosmopolitan an entry list, except that the United States was not represented. Bonham, who entered, withdrawing. The athletes were busy all morning, throwing the discus, free style, owing to the withdrawal of a number of men, sections one and two were grouped and Burrows, who with Adams represented the United States, out-threw France with a throw of 122 feet 9.2 inches. This did not long stand the best throw, however. Debnor, who had thrown 120 feet 1.2 inches, placing the discus 126 feet 6.1 inches from the circle, all the other competitors in his section being closely behind. Griffin carried off the honors in the fourth section with a throw of 123 feet 1.2 inches. Garrels did not qualify. Hort was third with 123 feet 5 inches. No throw in the sixth section counted as all were below the standard. The three best in all section qualify for the finals. Section 7 and 8 were Norway, Germany, Greece, United States and Sweden. Sweden won carrying 133 feet 1.2 inches.

In the final of the discus throwing Sheridan made 134 feet 3 inches and Griffin 123 feet 6.1 inches. In the final of the weight contests Section 1 and 2 were grouped. W. W. Coe, Jr., Boston A.A.C., was first with 42 feet 1.2 inch; Sawlike, Finland, was second with 38 feet 1.2 inches; and Lee J. Talbot, Irish-American A. C., was third with 38 feet 2 inches.

Sections 3 and 4 also were grouped. J. C. Garrels, of the United States, was first with 43 feet 3 inches; M. F. Hogan, Irish-American A. C., was second with 42 feet 1 inch.

In the final contest Ralph Rose, Olympic club, San Francisco, was first; Hogan, United Kingdom, second, and J. C. Garrels, Chicago A.A., was third. Rose's distance was 133 feet 1.2 inches. This does not equal the Olympic record for this event, 48 feet 7 inches, made by Rose in St. Louis in 1904.

In the final of the 400-metre swimming race, Taylor, United Kingdom, won; Baureclair, Australia, was second, and Sekoff, Austria, third. Taylor's time was 5 minutes 15.5 seconds.

IN GOOD TRIM

There has been a good increase in the shipments from the Boundary and in the likelihood of a yet larger tonnage being put out in the near future. General speaking there have been many mining deals in the air, some of which have not as yet gone so far as to permits of other properties which are being leased, bonded or sold at the present time although arrangements in most cases have not been consummated, such as the publication of the news that the deal is actually through.

The Blue Bell mine has made some good shipments of late and may be expected to prove a yet larger shipper, when everything has been so adjusted in the fitting of the machinery to the ore in the milling of the product of the mine. Also during the week a good strike was made on the Rambler Cariboo and the Hewitt mine at Silverton the ore has been come upon at a part of the vein hitherto unexplored, and at a depth of 820 feet below the surface.

The Ymir mine is apparently entering upon a new lease of life and some \$200,000 will be spent between this and the end of the year in fitting up the mine and developing the newly discovered ore shoots.

The mill ordered for the treatment of the product of the Ymir mine in Sheep creek valley, was purchased lately in Victoria by A. H. Gracey, and is now on the way from the coast. As soon as it is received it will be installed and operations will be begun. It is one of four stamps, and has for about ten years been the property of the bank of Montreal. It was operated for a short time prior to that at the Albert Consolidated mines. The machinery is in excellent shape.

Following are the shipments from the various mines for the past week and year to date:

ALBANY

(Special to The Daily Freeman, July 14.—) This morning the premier bill to relieve railway employees from the double liability of the Criminal Code was Act.

The Aylesworth election then taken up. Edmund Bristol, Toronto, stated that the provisions relating to the railway were not wise or prudent with the premier's criticism which was not Quebec, Bristol argued that Quebec without any severely alone, while lists not yet, two months after with characteristic slant in the face for Ontario.

Dr. Reed took up the recess, and Blain declared emergency on the basis of the Ontario simply as a benefit. He predicted that would be shown in the cities affected.

Mr. Foster said as introduced was an inviolable right. After six weeks in the province, the premier had decided to ask the Ontario to give up the Manitoba railway, to complete his reputation, by leaving Ontario alone. He had not extended the asking for the Ontario to dress any existing grievances.

Hon. Wm. Paterson could stand the reason of so much of the Ontario to give up the Manitoba railway, to complete his reputation, by leaving Ontario alone. He had not extended the asking for the Ontario to dress any existing grievances.

R. L. Borden, replying, that the Ontario lists were passed by the judges. James Connors, attorney, and said there was on the section to provide for paper shall be spoiled.

Mr. Borden's suggestion did not meet the views of Mr. Borden, he proposed an additional placing the onus of proof of returning officer that the places on the ballot were a motion of David Hendon out clause 17, was voted do.

In the senate today Hon. George Foster, in a speech regarding the depletion of ment gold reserves last December, with the object, being the banks but showing that the government was in a statement compiled from ment returns showing that two months five millions in not the gold was not the purpose, were immediate for redemption, thus deprec and circulation. It was clear that the gold was not and that somebody better premiums, as well as by the investment of the proceeds at abnormally higher prices.

Hon. senator Scott denied the government had no objection to the bill, but its occurrence in New York, sold and took her profit, altogether an independent. The government had no objection to the bill, but its occurrence in New York, sold and took her profit, altogether an independent.
