DISTRICT AND GENERAL

The Florence Quill has ceased publication.

The death occurred recently at Longwood of Melissa, eldest daughter of Mrs. Mary Barber, aged 41 years.

John Ford, a well-known resident of Dunwich township, died at his home on Borton last week, aged 61 years. Mrs. Dykes of Wardsville is a sister.

It is probable that the Ontario referendum on importation of liquor will be held in October, as has already been decided in the case of three other provinces.

A correspondent in Metcalfe township writes:—"There is only one hired man in this neighborhood, and he gets \$30 a month, with house, wood, garden and milk."

The dollar buys only about 45 cents worth of stuff just now, but the Cleveland Plain Dealer points out that when it is saved and invested it draws interest on 100 cents.

The wife of Rev. J. H. Stewart, a former pastor of Tait's Corners and a Presbyterian congregation, died recently at Maxville, Glengarry county, after a prolonged illness.

The St. Thomas Times declares that rural mail delivery entails the daily travel of 1,400,000 miles by 60,000 men, and argues that this constitutes one more reason for building good roads.

Mr. Purdy, a resident of Thorndale, died a few days ago from the effects of being hit on the head by a ball while watching a game being played in Thamesford. He was advanced in years.

Hensall is establishing a Community Laundry to do away with this drudgery in the homes and thus enable the mothers to give more attention to the training of their children. Hensall has said something.

An entire family of five was killed near Little when a pitchfork with which the father was digging in a garden struck a 30-millimeter shell, a grim remnant of the Great War, that had lain embedded beneath the soil.

The four lady teachers on the staff of the Ridgeway High School have resigned. The resignation states that the reason for the step is that their position has been rendered intolerable by constant friction with the principal.

Among those who escape the new luxury taxes are the woman who buys the goods for an expensive dress and has it made by a dressmaker, and the man who buys cloth for a suit at one establishment and has it made up at another.

A boy's skull, supposed to be that of a child, was found in the seven-year-old son of Charles Barnhart, drowned at Delaware a year ago last March. It was found a few days ago in the River Thames near Mount Brydges and was buried by the father in the local cemetery.

Over 100 representatives of Provincial High Schools waited on the Ontario Government, urging that municipalities outside those in which the High School or Collegiate is situated should pay 100 per cent. of pupils attending instead of 65 per cent. as at present.

The cancellation of orders in textile mills, and comparative dullness in retail trade in many lines, show that luxury business is declining. It is only when people get back to spending less than they earn that our business future will be assured. The wave of extravagance is slowly passing.

John Robinson, one of two aged bachelor brothers residing on a farm about three miles from Oil Springs, was instantly killed on Tuesday. With his brother, Robert, he was riding on a manure spreader when the horse ran away. Both men were thrown out, John being instantly killed.

Let the young man about town out of a job try a year on the farm. Plowing will give him a new constitution, take the kinks out of his head, the frog out of his throat, the gas off his stomach, the weariness out of his legs, the corns off his toes, and give him a good appetite and an honest living.

A break of from 10 to 20 per cent. occurred in the price of wool at Boston a few days ago at an auction sale conducted under the auspices of the British Government. Only 30 per cent. of the wool offered for sale was disposed of. Buyers were agreed that the peak of high prices for wool had passed.

It is said that stock in the Island Oil and Gas Company, which is operating on the Boothroyd farm, near Thamesville, has increased from 10 cents to \$3 a share. Last week the operators were pumping from 75 to 80 barrels a day, which averaged about \$1,650. For the past few days they have ceased operations to sink their pipes deeper.

Mr. Underwood, of the United States Senate, takes the stand that if Canada will not allow unlimited export of pulpwood to the United States paper mills the States should cut off the export of coal to this country. All right, Mr. Underwood; if we all freeze to death over here, your newspapers will not be able to tell about it.

On May 23rd the congregation of Knox church, Dutton, worshipped in the old building for the last time and henceforth the edifice that has been the home of Presbyterianism in Dutton for thirty-six years will exist only in memory. In a few days the unpretentious building will be razed to the ground and on its site will be erected a handsome church to cost \$25,000.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

WOMAN BURNED TO DEATH

Clothing Catches Fire at Stove—Dies at Doorstep

Rushing out of her house with her clothing wrapped in flames, mindful for the safety of her sleeping year-old babe, which she knew would perish if the house caught fire, Mrs. Wm. G. Loosmore, of the seventh concession Brooke township, fell a few feet from the doorstep and perished of burns. Hours later her husband came in from the field and found her body there, but the house was intact and the baby was still wrapped in contented slumber.

Back in the field, during the day, Mr. Loosmore had looked toward the house occasionally, and once he saw a few wisps of smoke. He believed Mrs. Loosmore was probably burning a few chips in the yard. Her charred remains told him the true story when he came in to lunch.

It is believed Mrs. Loosmore, who was alone in the house except for the infant, had her clothing ignited when she tried to use oil in lighting a kitchen fire.

Later in the afternoon a seven-year-old daughter came home from school and learned of the terrible thing that had happened to her mother. The little girl and her baby sister are now in the kind care of neighbors.

Mrs. Loosmore, whose maiden name was Sarah J. Loche, was 42 years of age.

VAN ALSTYNE-WATTERWORTH

A very pretty wedding took place at the home of Mr. and Mrs. Elijah Watterworth, Glencoe, on Tuesday afternoon at 4:30 o'clock, when their oldest daughter, Ethel Mae, was united in marriage to R. Van Alstyne of Windsor. The ceremony was performed by Rev. R. J. Garbutt, pastor of the Methodist church, in the presence of only the immediate relatives.

The bride was charming in a gown of white and carrying a sheaf of roses. Little Dorothy and Fay Watterworth, nieces of the bride, carried a basket of carnations in which the ring was concealed.

After a dainty wedding breakfast, Mr. and Mrs. Van Alstyne left on a honeymoon trip for Toronto and Buffalo, and upon their return will reside in Windsor.

GRAND UNION GARDEN PARTY

A grand garden party under the auspices of the U. F. O. of the district will be held at Walker's school house on Friday evening, June 11. An splendid program of music, song and dance will be given by the following talent: Mr. and Mrs. Wilbert McLeish and Mr. and Mrs. Lawrence Grogan of Parkhill, in solos, duets and quartettes; Mrs. J. F. Dickinson of Arkona, soprano soloist; the Turner family of London, pipers and dancers; Miss Olive Black and Master Edwards of Appin, young entertainers in songs and duets. Music by the Strathroy brass band. J. C. Brown, M. P. P., chairman. Sporting events: Basketball, No. 17 school vs. Alvinston at 5 o'clock; baseball—Newbury vs. Walkers at 6 o'clock; football—Glencoe vs. Kilmartin at 7 o'clock. Lunch and refreshment booths on the grounds. Admission—adults, 35c; children, 25c.

TALENT TEA

The ladies of St. John's church will hold a Talent Tea next Saturday afternoon, June 12th, in the school room. Homemade cooking on sale. Cup of tea and cake, 10c. All welcome.

"BEATING THE NEW TAXES"

(Ottawa Journal)

Those who talk, as some are now talking, about "beating the new taxes" display a curious kink in their moral conception of citizenship. To pay taxes under the new duties which one owes to one's country. To seek to evade this duty at any time is to play the quitter in respect of one of the most important of responsibilities to the state. But in these times, when heavier taxation is in reality the "mopping up" process of the war, the tax evader plays a game not far removed from that of the man who faked in the course of the fight.

Let there be no mistake about that. The taxes imposed are to wind up the part we took in the late war. To help pay them, therefore, is as much a duty upon Canadian citizens as was the obligation to contribute one's best between 1914 and 1918. And the man who, either through meanness, or a "smart Alec" idea of things, or a wrong conception of public duty, tries to evade them, is in a degree as much of a slacker as the man who could not be found when the call was to go "over there."

APPLETON'S ROAD GUIDE

The Musson Book Company Limited has issued Appleton's Road Guides for the Province of Ontario. Section 1 contains maps and information about the country west of Toronto, and section 2 is devoted to east of Toronto. Every highway, concession, county boundary, township boundary, railway, electric line, city, town and village is indicated. Both sections are full of valuable information in convenient form for motorists, cyclists and travellers generally.

The most obstinate corns and warts fail to resist Holloway's Corn Cure. Try it.

Men who stocked their cellars with booze a few weeks ago now wish they had put in coal instead.

Old papers for sale at The Transcript office.

GLENCOE COUNCIL

At a special meeting of the Glencoe council held in the council chamber on Tuesday, May 11, on motion of P. E. Lumley and J. A. McCracken, the treasurer was authorized to accept the offer tendered for the \$18,000 hydro-electric debentures at \$85 and accrued interest on the \$100.

The court of revision for the assessment roll of the village of Glencoe was held in the town hall, Glencoe, on Friday, May 28. The following officers were present:—Allan McPherson, P. E. Lumley, J. A. McCracken, C. E. Davidson and George Parrott.

The following appeals were dealt with as follows:—Isaac McCracken, assessed too high. On motion of Lumley and Davidson no change in assessment was made.

James A. Wilson, assessed too high. On motion of Parrott and McCracken no change was made.

S. Irwin, assessed too high. On motion of Davidson and Lumley no change was made.

W. A. Ross, assessed too high. On motion of McCracken and Parrott no change was made.

C. J. Mills, assessed too high. On motion of McCracken and Lumley no change was made.

Mary D. McAlpine, one building sold and moved away since assessment was made.—On motion of Lumley and Parrott the assessment was reduced \$100.

Russell Haghighi, dog killed May 1. On motion of Parrott and McCracken the appeal was allowed and the dog struck off the assessment.

A court of revision to decide appeals against the assessment on the Main Street Drain was held in the town hall on Monday, May 31, with all the members of the court present. After taking the statutory oath the members dealt with the following appeals:—Ben. Towers, assessment too high, while the streets were assessed too low. S. Hart, same appeal. William Gilbert, same appeal.

On motion of Messrs. Lumley and McCracken it was decided to reduce the assessment as follows:—Ben. Towers, \$19.80; S. Hart, \$16.50; Kate Blackwell, \$6.60; Wm. Gilbert, \$8.00. Mr. McCracken, to assess this amount against McKellar street and Symes street.

On motion of Messrs. Parrott and Davidson the clerk was instructed to make these changes in the by-law, and the by-law was finally passed.

The regular meeting of the Glencoe council was held in the town hall on Monday, May 31. All members present.

On motion of Messrs. Parrott and Davidson the following accounts were ordered paid:—

S. Thompson, salary for May, \$40; one night care of hall, 50c; Mrs. Quick, two half days scraping streets, one team, \$8; Wm. Muirhead, ditching, \$12; J. Weaver, salary for April and May, \$10; McPherson & Clarke, lumber and boxes for drain, \$27.80; A. E. Sutherland, printing, \$75.85; Don H. Love, repairs, \$3.45; Hydro Electric Power Com., material and labor, April 1 to April 22, \$335.39.

By-law No. 267, regulating the lighting, parking and turning of cars on the streets of the village, received its three readings and was finally passed. Charles George, Clerk.

THE WESTERN FAIR

September 11th to 18th

The management of the Western Fair, London, Ont., are sending out their Prize Lists, hangers and other advertising matter in good time this year. All who wish to announce the fact that this popular Exhibition will be better than ever this year.

At a very heavy expense which has been borne entirely by the Association, they have purchased a whole block of land on the west side of Queens Park. The Board hope in the near future to have erected a large live Stock Arena which will be a credit to the Exhibition and to London; in the meantime it will relieve the congestion of last year and afford more room for judging live stock.

All information regarding the Exhibition will be promptly given on application to A. M. Hunt, Secretary, Western Fair Office, London, Ont.

Don't Submit to Asthma.—If you suffer without hope of breaking the chains which bind you, do not put off another day the purchase of Dr. J. D. Kellogg's Asthma Remedy. A trial will drive away all doubt as to its efficacy. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Runs News Stand Without Hands. There is a boy running a news stand in Union square, New York city, who has no hands. He opens and closes his stand, opens and folds his papers and passes them out to customers without delay or difficulty, and makes change like an expert.

Lou Young is his name. He lost both hands in an explosion when thirteen years old, but that handicap did not hinder him from going into business and making a success of it.

"The cripple who has spunk is as good as anyone else," he says.

Six men were fined at Windsor \$600 each for failing to send in income tax returns.

Address communications to Agronomist, 73 Adelaide St. West, Toronto

Shearing the Farm Flock.

Too many farmers neglect the shearing of their sheep until late in the summer. The result is that the wool begins to fall out and becomes matted and tangled and full of dirt, and its market value is lowered. As to the sheep themselves, the ewes are carrying their heavy winter coats which make them uncomfortable. They become thin in flesh, and consequently the milk flow is lessened, resulting in a stunting in the growth of the lambs. Thus we encounter a twofold loss by shearing late in the summer.

Either the old-fashioned hand shears or the power shears may be used. The power machine which requires an extra man or boy to turn the handle is fast coming into wide use. The advantage of this machine over hand shears is a smoother job with a more attractive sheep after it is shorn. This machine also clips the wool closer to the body, giving more length of staple, which adds to its value. There is also less danger of making "second cuts" with this machine. "Second cuts" are greatly discounted on the market, as these small short fibres are practically worthless.

Select a clean, dry place to do the shearing. Be sure there is no chaff or hay overhead which will fall into the fleece. The sheep should not be allowed to get wet before shearing, as wet wool will mold when packed. In discussing the method of shearing I shall refer to a smooth-bodied mutton sheep free from wrinkles. The work requires a boy to turn the crank of the machine and one man to hold the sheep and do the shearing, unless the machine is hitched up to the gasoline engine.

The first thing is to set the sheep on its rump in front of the machine. Start shearing at the brisket and breast; shear down over the breast and over the belly, from the right side to the left side, opening the fleece to the right hind flank as you proceed downwards. (Be careful that you do not cut the small testis, especially if it is a yearling ewe.) You are then ready to trim out the inside of the hind legs and around the vulva.

The next step is for the operator to place his right foot between the two hind legs of the sheep as it is still on its rump. The left knee of the operator is held against the shoulders of the sheep, holding it in position. Grasp the muzzle of the sheep with the left hand and hold the ewe's head back over the knee. Shear the fleece from the neck down along the side and clearing up the throat. The fleece is divided up the middle of the neck.

The seed bed should not, however, be compact and firm at the surface, for then surface evaporation would be excessively high and the danger from cracking and backing too great. The surface two inches should be mulched and loose. It will then dry out, and will decrease the surface evaporation, for water from the lower area will not rise beyond the mulch, and hence will not be so rapidly lost. The ideal mulch is granular in structure, and is not a dust mulch. It should also be ridged and rough, so as to absorb rainfall readily without puddling or without an excessive run-off, and also to hinder soil blowing. You can prepare this ideal seed bed if you only use the right implements at the right time.

Now that we know the essentials of a good seed bed we can consider how to go about to get it. It means not only the right distribution of organic matter and fertilizers, good plowing, the right kind of harrowing and disk-ing, but also the right kind of pulverizing and packing. The farmer who follows the one-crop system of farming, and thus depletes the amount of organic matter in his soil, making it a hard one to handle, the man who will insist in plowing his ground when it is too wet, the man who does not have power enough, and so is afraid to set the disks of his harrow at a sharp angle, and the man who says that a combination pulverizer and packer is not essential are all making mistakes.

The perfect seed bed will come only from doing the right thing at the right time, all the time. In other words, follow a good system of farming, rotate your crops, make economical use of farm manure, make use of the right type of moldboard plow, the right harrow, and then the pulverizer or corrugated roller. No one implement will do the job. The writer has prepared many a seed bed, and has used a large variety of implements in this work, ranging from an old brush or stone drag to the tractor plows and pulverizers. He has seen a great development in the art of making seed beds, and has become firmly convinced that the right combination is at first the plow, second the disk harrow, and third the pulverizer.

If you are a power farmer you can make this perfect seed bed in two operations, pulling first the plow and second the disk harrow, followed by the pulverizer.

If you are a horse farmer you can do just as good a job, but you will have to go over your ground three times to get a perfect seed bed.

The person who said that the upbringing of children demands more study than the raising of poultry probably didn't like poultry any less, but children more.

My experience as a farmer and as a county representative working with other farmers has impressed me with the importance of the right kind of a seed bed. I am convinced that many crop failures are due to the neglect of this very important item, and also that the average yield of crops in this country could be very greatly increased if every farmer understood and practiced correct seed-bed preparation.

COME! to the Second Annual Soil Fertility Conference

at GUELPH, June 16-17-18

All interested in Soil Fertility are invited to this three-day Soil Fertility School at the Ontario Agricultural College, Guelph. Farmers and their sons, Truck Gardeners, Tobacco Growers, Teachers of Agriculture, Fertilizer Agents, Seedsmen, Horticulturists, etc., should be especially interested.

POULTRY

Get rid of mites by rubbing on the roosts and in the nest-boxes the residue found in the kettle after making home-made soap.

A layer requires about three or four ounces of feed a day, including mash. However, the quantity of grain fed should depend on the condition of the birds and their activity.

Marketing is the big secret of success. The more I know of the poultry business the more sure I am of that fact. I believe we ought to spend more time and work more faithfully to find good, reliable buyers.

The best thing I ever did in the poultry line was to drive six miles for a setting of eggs from well-bred hens. They were the first we ever had, and it created an appetite for still better things that laid the foundation of success.

Concrete floors in hen houses have proved to be very satisfactory. They not only keep out rats, but they are more readily cleaned of filth. About two inches of dirt thrown upon the concrete floor, and then scratching litter over that makes it all the better.

Males from hens which have laid more than 200 eggs in one year are of special value in transmitting the high-producing character to the pullets. Since the male furnishes half of the blood for the flock, much care should be used in choosing him. Farm poultry

A Study in Farm Efficiency

"Well, Jack, I see you bringing home a two-horse cultivator yesterday. Have you changed your mind about their being more useful than the old style?"

"I'm not going to spite my face any longer by pulling my nose. That Brown kid took care of nearly twice as much corn as I did last summer just because he had a two-horse cultivator. You cannot convince me but what I have been a fool for not buying one sooner."

And it is by comparison that we learn the best methods of doing things and the best way to live. A recent study of the practices of six hundred farms brings out many very practical lessons, and telling them here will at least suggest some of the places where we might look for leads in the cost of producing farm products.

Just read these facts: These farmers find that the use of a corn binder increases the efficiency of man labor fifty per cent. over that achieved when cutting and shocking by hand.

Eighty bushels was an average day's work on these farms for one man when husking corn from the standing stock by hand. The use of a hay-loader reduces by about twenty-five per cent. the time required to put on a load of hay. The amount of labor required for unloading into the mow is only a little more than half as great when a hay-fork is used as when the work is done by hand.

The men in this territory who use manure spreaders haul and spread a given amount of manure in less than half the time required by men who haul in wagons and spread by hand. A large majority of the men reporting, broadcast their small grain, using endgate seeders attached to the box of an ordinary wagon. Only about twenty-five per cent. of the farmers reporting own grain drills.

The bulletin analyzes each field operation from the standpoint of man-labor requirements, horse-labor requirements, size of machine, etc. The manner in which the data on plowing have been summarized is typical of the way in which several subjects are treated. About eighty per cent. of the farmers reported the use of sulky plows, about eighty per cent. stated that they use horse-drawn gang plows, and fourteen per cent. reported the use of tractors for plowing.

Sixteen-Inch Sulky Plows Popular. A large majority of the farmers use sixteen-inch sulky plows, nearly all of them with three horses in the spring. Three acres is an average day's work for this outfit.

For the comparatively few farmers using fourteen-inch sulky plows with three horses in spring, plowing about three acres is an average day's work. While theoretically the sixteen-inch plow should cover

keepers can afford to pay a good price for a vigorous male from a heavy-laying strain.

Flat-bing chicks without hen or incubator may be doubted. But last spring, after I was through setting hens and had cleaned my incubator and put it away for the summer, my last hen that was sitting was just ready to hatch when she died. Having no other hen to put the eggs under, I brought them into the house and fixed a box with a cloth on the bottom. I then filled a half-gallon jar with hot water and placed the eggs around it, and covered the box with an old piece of blanket. I had eleven eggs and hatched every one of them. I used the same box for a brooder, always being careful that the water in the jar was hot.

HOSES

A cement feeding floor is worth its weight in gold for feeding hogs. In muddy times there is no throwing of feed into the mire—a practice that is accompanied by much waste, to say nothing of the likelihood of hogs acquiring disease from eating so much filth. Besides, a cement floor is easy to clean. It is but a few moments' task to scoop up the cobs and droppings. If water is handy, the floor may be washed off from time to time. This gives the hogs a refreshingly clean place to eat.

The cement floors should be on the south side of the hog-house. The surface should be perfectly smooth; otherwise water and dirt collect in the pockets and are hard to remove. The floor should slant a trifle away from the hog-house in order that rains may not flow towards the house. In this way the rains assist in keeping the floor clean.

Every hog feeder not provided with a good cement feeding floor should provide one without delay. The saving in feed and the gain in weight will pay the cost many times over.

Grow Your Own Cows.

The system which prevails of killing nearly all the calves and filling up the herd with cows picked up here and there is an expensive one. By raising the heifer calves from the best cows and using bulls from milking strains of pure-bred cattle, the quality of our herds can be greatly improved and profit may be found where now there is none in the dairy business. The idea that it does not pay to raise your own cows meets with the most favor among those farmers who permit a half-dozen scrub cows to absorb all the profits from their other half-dozen good ones.

Ten Reasons for Soybeans.

1. Many farmers are having success with them.

2. Soybeans are just a common crop for common people. It is not necessary to have a soil free from acid for good yields.

3. The best annual legume for medium to light soil is the soybean. It yields on light soils where other legumes fail to catch.

4. It is an annual plant—sureness of crop is a certainty.

5. The soybean is used as a green manure, silage, hay, seed and pasture crop.

6. In feeding trials soybean hay is equal to alfalfa.

7. Soybeans take no more moisture

when planted with corn than do weeds, and the leaves make rich silage.

8. Properly cured, the crop is relished by all stock.

9. Soybeans are easy to grow, as they are not attacked by any serious diseases.

10. Being a legume, the soybean builds up soil by adding nitrogen.

When in the mire my wagon's stuck, I do not idly stand about.

An' start to rave and curse my luck; I go to work to dig it out.

An' when I've wanted weather fair, But skies are grey instead o' blue,

I change my plans right then and there

And find some other work to do.

THE DWARF AND THE GIANT BOY

Once upon a time there was a family of Giants who lived in the land of Let's Pretend, and they had a young son who was not afraid of anything.

He was so strong that he could play marbles with boulders, and he was so plucky that he did not mind the least when the other people laughed at him because he had a dwarf for his very best friend.

No one could understand why the giant-boy loved the dwarf who lived in the woods, for he was rather a grapping, disagreeable little fellow. But the giant-boy used to look for the dwarf almost every day, creeping carefully through the woods on his hands and knees, hunting for him.

When he found the dwarf, the giant-boy would set him on the tip of his little finger and run with him over the hills and back again. It was like the steeple-chase for the dwarf. Or the giant-boy would put him on a leaf and blow him way up in the air, catching him safely when he drifted down. It was like a ride in an airship for the dwarf.

When the giant-boy was ten years old, it was the time, according to the custom of the country, for him to go out and test his courage, and if he came home as brave as he started, his giant-father would give him a beautiful wooded mountain to be his inheritance. His giant-mother gave him several bushels of apples and five hundred sandwiches and a barrel of milk to carry with him, and she told him that when these were gone, the giants along the way would be glad to give him food and shelter.

So the giant-boy started out with his heart full of courage, but he had gone only a little way when he met a storm. It was a terrific black storm that came rumbling down from the sky and crashing over the hills. It brought fire and thunderbolts with it and it seemed to shake the whole earth. Going into such a storm was like marching alone into an advancing army, but the giant-boy did it and he was soon safely through the storm, just by facing it.

He met bravely all kinds of things, the dark, strangers and larger giants and unknown places and new kinds of hard work. He grew older and nearer to being a giant-man before he turned toward home again. When he was almost there, he entered the forest and whom should he see but his old friend, the dwarf, digging beside a stream.

"Here I am! Are you not glad to see me?" the young giant cried, as he stepped across the stream with one stride.

"Let me alone, I am busy," the dwarf replied. Then, without looking up, he threw a pebble at the giant. It hit his heart and he heard a loud crack.

"Now I have lost my inheritance," he said to himself. "My heart is cracked."

"How did that happen?" his giant-father asked when the boy reached home.

"I met and conquered storms and all kinds of dangers," the giant-boy answered, "but my friend, the dwarf, threw a pebble at me and it cracked my heart."

"Oh, I should have told you about that before you started out," his giant-father said, taking down a big book of rules that could be used by any land as well as the land of Let's Pretend. He read from it: "The misdeeds of others can do us no permanent harm." "So the dwarf's meanness doesn't count against you," he said, "it only counts against the dwarf."

So the giant-boy was given a beautiful wooded mountain for his inheritance, and the crack in his heart soon grew together. As for the dwarf, he was always a little lonely dwarf and never grew up to be anything else.

Cultivate Corn Early.

In the average corn-field, corn, weeds and grass come up together. There is not room for all three, neither for any two of the combination. If a good crop is the end in view the weeds and grass must be kept under. To do this best cultivation must start almost as soon as the corn appears above the ground.

To delay means that the weeds and grass establish themselves in and close around the corn hills where it is almost impossible to root them out without injuring the tender roots of the corn. Very early cultivation enables the farmer to get ahead and keep ahead of these robbers. It is usually merely a matter of planning the work ahead.

An examination of the underground growth of corn enables one to see why cultivation should begin very early. The roots of corn grow very fast. Close cultivation after the plants are ten days or two weeks old, provided there has been good growing weather, disturbs the growing roots. Also, the roots of the corn and those of weeds and grass become so intertwined that the removal of the latter is certain to injure the roots of the corn, thus interfering with rapid growth. The only safe way, is to get the weeds and grass out before the corn roots have made much of a start. Early cultivation does this.

He who increases the fertility of his acres enriches not himself alone but those who come after him.

Produce and conserve.

You always know the right road with APPLETON'S ROAD GUIDES

Wherever there are roads these new guides will unerringly show you every mile of the way. It is impossible to make a wrong turn, because unlike other maps, THEY SHOW EVERY ROAD; with all main motor roads indicated in color.

Every railway, electric line, city, town, village, lake and river is accurately indicated. Each guide includes through route maps of all principal cities, license regulations, international regulations and a complete index.

The Guides are published in four separate volumes, one for each section of the country, including three for Ontario and one for Quebec. Each section covers an area of over 40,000 square miles.

Cord or Fabric.

Good company on a journey makes the way seem shorter.

Dependable Partridge Tires should be your companions on all your motor trips. They shorten the journey by allowing you to travel in comfort—free from the annoyances, delays and expenses, caused by tire troubles.

Partridge Tires, like loyal servants, serve you faithfully always.

PARTRIDGE TIRES

Game as Their Name

Seal in all the Flavor

IMPERIAL Parowax—seals in all the natural flavors of fresh fruit into your preserves. The safe and sanitary way to preserve fruits, jams, pickles or vegetables. Saves time, labor and money.

The Parowax way is the easy way. Just pour the melted wax over your cooled preserves and it solidifies into a clean, air-tight seal—dirt-proof and moisture-proof.

IMPERIAL Parowax
—a pure refined white wax, odorless, tasteless, colorless, absolutely sanitary—no chemicals or acids.

Placed in your wash-bowl, Imperial Parowax loosens the dirt, bleaches the clothes and removes the greasy spots that otherwise require so much rubbing. Rubbed over your iron, and mixed with your starch, it gives that finished lustre to ironing that is so much desired. Imperial Parowax, a household necessity.

For sale by good dealers everywhere.

FOREST FIRES RAGING IN THE MARITIME PROVINCE

Thousand Persons Homeless in St. Quentin, N.B.; Monetary Loss Near \$1,000,000—Londonderry Mines Partly Destroyed by Fire Started in Chimney.

St. John, N.B., May 30.—The little village of St. Quentin, in Restigouche county, N.B., on the line of the Canadian National Railway, about forty miles from St. Leonard's, was almost entirely wiped out Friday as the result of forest fires, which have been raging in the Crown lands in Restigouche during the past ten days.

St. Quentin was a thriving village of about 2,000 population, and was a centre for the lumber and pulp operations.

The fire, which resulted in a monetary loss variously estimated from \$750,000 to \$1,000,000, started in the mill yard of J. E. Michaud, catching from burning embers carried by the winds from the forest blaze. Before it had spent its course 65 dwellings, three mills, two hotels, the Canadian National Railway station, the Provincial Bank and many business places were wiped out. About 1,000 people, or half the population, were rendered homeless, and saved none of their personal property, except what they had on their backs. Relief trains were sent out from St. Leonard's and Campbellton Saturday to convey the homeless to large centres where they could be cared for. No lives were lost.

Besides the destruction to homes and business places, much manufactured lumber, thousands of cords of pulpwood and thousands of railroad ties at nearby sidings awaiting shipment were burned. Seven carloads of lumber on the track were also consumed.

Halifax, N.S., May 30.—Forest fires which are raging in various parts of Nova Scotia assumed a serious aspect in some districts to-day. The situation in the vicinity of Maitland, Hants county, is alarming. Residents of that

place say that only a sudden change of the wind saved Maitland from whole or partial destruction Saturday. The timber lands near Lutter Brook, seven miles from Maitland, are now ablaze, and the flames are making rapid progress.

Londonderry Mines, 16 miles from Truro, was partly destroyed by fire to-day. Four churches, a schoolhouse, and hall, and about a dozen dwellings already have been burned. There was no loss of life.

Yesterday a fierce forest fire was burning at Hardwood Hill, a short distance from Londonderry Mines, and this was at first supposed to have been the origin of to-day's destructive blaze, which began at about 9 o'clock. It was found, however, that the fire was started by sparks from the chimney of a house owned by Archie Lewis, and fanned by the high wind it spread rapidly. The fire swept a district three-quarters of a mile in length and half a mile wide.

The flames swept the main street of the village, consuming in a short time the Anglican Church, the Presbyterian Church, the Roman Catholic Church, and Glebe House, St. Bridget's Hall, a school building and a number of houses. It crossed the stream which runs through the village, and destroyed the Baptist Church there and several buildings. Forty-seven buildings in all were destroyed. Some of them were old unoccupied houses, and several others barns and outbuildings. Very little household property was saved.

The forty odd families rendered homeless are being sheltered by their more fortunate neighbors. The loss is estimated to be between two and three hundred thousand dollars, with only small insurance.

FATAL CLOUDBURST IN LINCOLNSHIRE

Fifty Lose Lives When River Lud Overflows.

Louth, Lincolnshire, Eng., May 30.—Fifty deaths have resulted here so far from the sudden overflow of the small river Lud, running through this town, which is attributed to a cloudburst in the woods nearby on Saturday night. The water spread so rapidly that houses in the low-lying part of the town were immediately engulfed in a rush which carried away bridges, fences, trees and other obstacles.

One terrace, containing 15 houses, was entirely swept away, there being only one survivor.

Most of the people were in their homes taking shelter from the thunderstorm when there came a rush of water three feet deep through the town. In many cases the weight of the water prevented the opening of doors, or otherwise many persons could have reached a place of safety. Within a short time the entire ground floors of houses were engulfed by the torrent, which was 200 yards wide.

The water swept on its crest portions of demolished cottages, automobiles, wagons, furniture, uprooted trees and the bodies of drowned animals. Bridges crumbled before the rushing flood. So sudden was the approach of the waters that a majority of the deaths occurred during the first moments of the flood when the lower rooms of houses were swamped. This was particularly true in the lower parts of the town. In the higher parts of the town many persons escaped, but only after wading waist-deep through the water.

Hundreds of persons are homeless and many households have lost most of their belongings.

Ex-Kaiser's Yacht Goes Into Trade

A despatch from Allahabad says: William Liehensollern's schooner yacht Hamburg, one of the fastest schooners at the Coves and other regattas, has been brought out of internment and sold to a mercantile firm who will use her for trading between India and the Straits.

TURKISH THRACE OCCUPIED BY GREEKS

A Few Casualties in Skirmish With Bulgarian Troops.

Constantinople, May 30.—Greek troops began the occupation of Turkish Thrace on Friday and the first trainload has arrived at a point opposite Adrianople.

M. Canellopoulos, the Greek High Commissioner at Constantinople, says the occupation so far has been without incident. He added that Bulgarians had made representations to the French that they had suffered indignities at the hands of the Greeks, but that the French commandant declared the complaints were unfounded.

M. Canellopoulos stated that he did not know whether a complete occupation of Turkish Thrace would be carried out at once. Surprise was expressed by Turkish officials that the occupation had begun prior to formal action on the peace treaty with Turkey.

Greek troops have occupied Dedagatz and Gümüshina, according to official communiques issued to-day. The communiques add: "A considerable force of covering troops has been sent toward the Bulgarian frontier. Troops proceeding to Azerbaijan encountered Comitat-jis and Bulgarian regulars. One Bulgarian soldier was taken prisoner and another slightly wounded. A subaltern was also slightly wounded."

Queen Alexandra's Sight Impaired

A despatch from London says: The Queen Mother Alexandra, according to an official report, has been suffering from a severe bronchial attack, which is now subsiding. "During a violent attack of coughing a small blood vessel burst in one of the queen's eyes, causing troublesome impairment of the vision," says the statement. "It is hoped that with care and rest this inconvenience will pass, but her majesty's engagements must to some extent be dependent upon the progress made."

Chinese Pioneer Gun Fighters. The Chinese were fighting with guns at a time when Europeans used bows and arrows.

EMPIRE DAY IN TORONTO
Every year Toronto's schools decorate the various monuments about the city with wreaths of flowers. Photo shows that presented by Brock Avenue School.

CANADA'S WAR REPARATION CLAIM TOTALS \$1,871,000,000

British Dominions Will Share the Indemnity Received by the Empire in Proportion Which Their Expenditures Bear to Total Expenditures of the Empire.

A despatch from London says:—Signposts bearing the inscriptions "Hell-Fire Corner," "Piccadilly" and "Haig Avenue," erected by British troops just behind the front lines in France, are among the more than 10,000 exhibits being assembled at Crystal Palace, London, to form the Imperial War Museum. It will be opened by the King in June and will continue for four years.

Exhibits have been gathered from every land where the war left its trail, to show the common effort of the empire during the great conflict. Shortly after the signing of the armistice the signposts mentioned were found in a pile of discarded lumber. In addition to those bearing street names there was found the sign of Verdun, "No Throughfare." They are now to be preserved as relics for posterity.

There will be on display the gun that fired the first British shot in the war—from the decks of the destroyer Lance at the minelayer Koenig Louise; the E battery gun that opened the military hostilities; the anti-aircraft pom-pom which, mounted at Gresham College, fired the first shot ever directed at a foreign foe from London since the days of the Romans—the occasion

being the Zeppelin raid in September, 1915—and scores of other entries which have equally vivid associations. The larger pieces of ordnance, some of which weigh fourteen tons, are being arranged on the floor of the spacious hall. But the galleries will hold displays of equal, if not greater interest. These include war paintings and trench implements, realistic scenic models and protective devices and curios that throw an illuminating light on conditions which existed in the German army. Some of these are amusing, some tragic.

There is a cycle with a dynamo attachment for lighting an officer's dug-out, upon which two of the worst offenders of the ranks had to sit in shifts and pedal in order that they within might have illumination. Far less amusing is a specimen of the enemy's "bear trap." A soldier exploring No Man's Land might step into its ugly spikes, concealed in the grass, and escape from their grip was virtually hopeless.

The lifeboats of the Lusitania, the shattered funnel of the Vindictive, the portion of the Zebrugge mole and the formidable mines that bestrewn the Dardanelles will recall many chapters of a great epic.

Splendid Growth Of Western Wheat

19 Western Grain Elevators Change Hands

Saskatoon, Sask., May 30.—Wheat seeding has been completed in all districts of this province served by the Canadian National Railway, according to reports received here Saturday by Supt. Chappell.

Several places in Saskatoon vicinity report five to seven inches of blade growth. Generally speaking, little damage has been caused by recent

high winds, and moisture has been generally sufficient to cause optimism.

WALKING ROUND THE WORLD
Mr. Orr, an Australian, started off on January 1st, 1910, to win a wager for £6,000 by walking round the world, starting from Sydney. Recently he reached Plymouth, England, after traversing Africa, India, United States, Newfoundland, Canada, British Isles, France, Morocco, Turkey, Balkan States and Russia, in all covering 32,000 miles. Photo shows Orr ready to leave Plymouth, England.

MURDER AND INCENDIARISM CONTINUE THROUGHOUT IRELAND

Army of 50,000 Men Now in Occupation With More Under Orders—Further Outrages in Rural Districts.

London, May 30.—The British Government is completing plans to deal with the transport situation in Ireland in a drastic fashion.

A question connected with the despatch of troops has also arisen. It is calculated there are now about 50,000 troops in Ireland, and several more battalions are under orders.

The National News says: "The position in Ireland, we understand, is so grave that a number of warships are now being fitted out in Sheerness for despatch to Irish ports. The situation is more serious than would appear from published telegrams, and startling developments are expected in the next few days."

In the present temper of the Sinn Feiners it is not unlikely they will make a last effort against the forces of law and order.

The usual Sunday reign of secret destruction caused great havoc in widely-separated parts of Ireland to-day. The customs house at Castle-town, County Cork, was levelled by incendiary fire.

In Lynch, County Mayo, Michael Toole, a laborer, was clubbed to death because he did not heed a warning by strikers that if he did not quit work he would die for it. He was found by his wife in the roadway, clubbed and mauled beyond recognition.

The populace throughout County Limerick is reported to be exceedingly restive, especially since the patrol system for the prevention of street assemblies has been put into force. The railwaymen of County Cork decided to-day to refuse to work on troop trains.

Early Sunday a party of armed raiders in automobile visited Cullyhakey, County Antrim, and started to burn the police barracks. The raiders fled, however, when the villagers turned out in a body to oppose them.

Opposition to the Sunday newspapers continues. A dozen armed men at Dundalk to-day seized all newspaper parcels from Dublin and burned them. A policeman attempted to intervene, but was disarmed.

A mail train from Bantry to Cork was held up at Durrus Road station near Skibbeen by armed men to-day. The men took the mail bags and decamped in an automobile.

Rails have been torn up at Kilmallock, Charleville and other places, seriously disrupting train services between Limerick and points on the Great Southwestern Railway lines. South of Limerick Junction railway traffic has been completely disorganized.

The Cameron Highlanders, recently ordered for service in Ireland, disembarked at Queenstown to-day and paraded through the streets to their huts. Guns and ammunition were transferred from the steamer to an Admiralty trawler, which, with a number of troops, proceeded for Cork. The Berehaven customs office was destroyed by fire this morning. An adjoining steamship office had a narrow escape from a like fate.

The Irish Trade Congress has promised its full support to the Dublin railway strikers. This may lead to a repetition of the deadlock which occurred over the hunger strikers.

Markets of the World

Wholesale Grain.

Toronto, June 1.—Manitoba wheat—No. 1 Northern, \$3.15; No. 2 Northern, \$3.12; No. 3 Northern, \$3.08, in store Port William.

Manitoba oats—No. 2 CW, \$1.29; No. 3 CW, \$1.27; No. 4 CW, \$1.25; No. 1 feed, \$1.26; No. 2 feed, \$1.24; No. 3 feed, \$1.21.

Manitoba barley—No. 3 CW, \$1.85; No. 4 CW, \$1.83; No. 5 CW, \$1.81; No. 1 feed, \$1.60, in store Port William.

American corn—No. 3 yellow, \$2.40; nominal, track, Toronto, prompt shipment.

Ontario oats—No. 3 white, \$1.10, according to freight outside.

Ontario wheat—No. 1 Winter, per car lot, \$2 to \$2.01; No. 2 do, \$1.98 to \$2.01; No. 3 do, \$1.92 to \$1.98, f.o.b. shipping point to freight.

Ontario wheat—No. 1 Spring, per car lot, \$2.02 to \$2.08; No. 2 do, \$1.98 to \$2.01; No. 3 do, \$1.95 to \$2.01, f.o.b. shipping points, according to freight.

Peas, No. 2, \$3.00.

Barley—Malt, \$1.87 to \$1.89, according to freight outside.

Buckwheat—No. 2, nominal.

Rye—No. 8, \$2.20 to \$2.25, according to freight outside.

Manitoba flour—Government standard, \$14.80, Toronto.

Ontario flour—Government standard, nominal.

Millfeed—Car lots, delivered, Montreal freights, bags included: Bran, per ton \$5.4; shorts, per ton, \$6.1; good feed flour, \$3.75 to \$4.00.

Hay—No. 1, per ton, \$30 to \$31; mixed, per ton, \$25, track.

Straw—Car lots, per ton, \$16 to \$17, track, Toronto.

Country Produce—Wholesale.

Eggs, new-laid, 52 to 54c; butter, creamery prints, 58 to 60c; do, solids, 56 to 58c; choice dairy prints, 52 to 53c; ordinary dairy prints, 45 to 47c; bakers', 35 to 40c; oleomargarine (best grade), 31 to 37c; cheese, new, large, 32½ to 35c; twins, 32 to 33½c; old, large, 33½ to 34c; twins, 34 to 34½c.

Maple syrup, 1 gal. tin, \$3.50; 5 gal. tin, per gal., \$3.35; maple sugar, lb., 54c.

Provisions—Wholesale.

Smoked meats—Rolls, 31 to 32c; ham, med., 42 to 43c; heavy, 45 to 47c; cooked hams, 53 to 61c; backs, plain, 51 to 53c; backs, boneless, 54 to 57c; breakfast bacon, 48 to 49c; cottage rolls, 33 to 36c.

Barrelled meats—Picked pork, \$48; mess pork, \$48.

Green meats—Out of pickle, 1c less than smoked.

Dry salted meats—Long clears, in tons, 32c; in cases, 28 to 29c; clear bellies, 27 to 28½c; fat backs, 28½ to 30c.

Lard—Tiers, 28 to 28½c; tubs,

28½ to 29c; pails, 28½ to 29½c; prints, 30 to 30½c. Compound lard tiers, 27 to 27½c.

Montreal Markets.

Montreal, June 1.—Oats—Canadian western, No. 2, \$1.34; do, No. 3, \$1.32.

Flour—Manitoba new standard, \$14.85 to \$15.05. Rolled oats—Bag, 90 lbs., \$5.50 to \$5.60. Bran, \$5.42.

Shorts, \$61.25. Hay—No. 2, per ton, car lots, \$31 to \$32. Cheese, finest eastern, 28 5-32c. Butter, choicest, creamery, 53½ to 54c. Eggs, fresh, 55c. Potatoes, per bag, car lots, \$5.75 to \$6.25.

Live Stock Markets.

Toronto, June 1.—Choice heavy steers, \$15 to \$15.75; good heavy steers, \$14.50 to \$14.75; butchers' cattle, choice, \$13.75 to \$14; do, good, \$13.25 to \$13.50; do, med., \$12 to \$12.50; do, com., \$11 to \$11.50; bulls, choice, \$12 to \$13; do, good, \$10.50 to \$11.25; do, rough, \$8 to \$8.50; butchers' cows, choice, \$12 to \$13; do, good, \$10.75 to \$11.25; do, com., \$7.50 to \$8; stockers, \$9.25 to \$11; feeders, \$11 to \$12.50; canners and cutters, \$1.50 to \$1.65; do, com. and med., \$1.05 to \$1.15; milkers, good to choice, \$1.00 to \$1.10; do, com. and med., \$1.05 to \$1.15; springers, \$90 to \$105; lambs, yearlings, \$15 to \$17; do, spring, each, \$12 to \$16; calves, good to choice, \$13 to \$16; sheep, \$9 to \$13; hogs, fed and watered, \$20; do, weighed off cars, \$20.25; do, f.o.b., \$19; do, do, country points, \$18.75.

LIVING COSTS ABOUT SAME AS ENGLAND

Sugar, Bread, Jam and Coal Higher in Canada.

Ottawa, May 30.—A remarkable similarity in the cost of groceries in England and in Canada is revealed in a comparison of a budget of household staples in the two countries made within the last three weeks. The figures are given out by a Canadian official. Pricing a score of staples, ranging from bread to custard powder, the whole supply costs about a dollar more in Ottawa than in London, England.

Bread is 4 cents higher in Canada, sugar is 10 cents per pound higher, and jam and marmalade range from 10 cents to 18 cents higher here. But in England bacon; eggs, lard, milk, sausages, Worcester sauce, rice, oranges and dried fruits are all higher in price. Eggs were \$1 a dozen, and butter about \$1.10 a pound for good grade. Both these prices are due to sharp decrease in London, however.

Vegetables are still much cheaper in England than in Canada, and butcher meats average from 30 to 40 cents a pound. Coal is about \$1.25 per ton cheaper in England.

PRESIDENT VETOES PEACE RESOLUTION

Its Acceptance Would Put An Ineffaceable Stain on Nation's Honor.

A despatch from Washington says:—President Wilson vetoed the peace resolution on Thursday, and informed Congress he could not become a party to the peace programme framed by Republican leaders of the Senate and House because he considered it would put "ineffaceable stain" on the nation's honor.

To establish technical peace by such a method, the President said in his veto message, would be to effect "a complete surrender of the rights of the United States so far as Germany is concerned," and to relinquish all the high purposes which were embodied in the rejected Treaty of Versailles.

The President's act apparently brought to another and final deadlock the efforts of the present Administration and Congress to agree on a peace settlement. Republican leaders conceded they had no chance to pass the resolution over the executive's veto, and on both sides it was predicted that the issues of the treaty controversy would have to be fought out in the political campaign with Democrats and Republicans blaming each other for the failure to consummate a state of peace.

In his message the President did not indicate whether he might again submit the treaty to the Senate for ratification, but he said the resolution raised again the question of whether the United States dared to draw apart from the rest of the world or to join with other nations in attaining the ends to which the treaty was framed.

The veto had been expected by the Republican leaders, and they made plans to close the incident promptly by a record vote on re-passage of the resolution. The message went first to the House, where its reading was greeted with cheers by Democrats and derision by Republicans.

MINERS ACCEPT PRESIDENT'S OFFER

U.S. Wage Dispute Will be Arbitrated.

A despatch from Wilkes-Barre, Pa., says:—The offer of President Wilson to appoint a commission to arbitrate the anthracite wage dispute was accepted here Thursday by an overwhelming vote of the tri-district convention of hard coal miners. The mine workers, however, ask the privilege of selecting a "practical miner" to represent them on the commission.

The convention adopted a resolution declaring that the miners were forced to accept the commission, as "industrial class legislation makes it almost humanly impossible to wage a successful strike."

In accepting the President's offer, the miners agreed to continue at work under the retroactive understanding reached by operators and miners, and reiterated by the President, which will protect the mine workers in wage increases as from April 1.

H.R.H. is Visiting Australia.

A despatch from Melbourne says:—The Prince of Wales, who sailed from New Zealand on the battle cruiser Renown, May 21, arrived in Melbourne on Wednesday.

The Prince was warmly acclaimed. A fleet met the Renown, while airplanes circled over the harbor. Three thousand pigeons were released in the midst of cheering crowds, as the Prince disembarked and drove through the thronged streets.

The railway and transport strikes, which it had been threatened would be called during the visit of the Prince, were averted through a compromise.

Germany Hands Over 5,000 Locomotives

A despatch from Berlin says:—The Ministry of Transport announced that the delivery of five thousand locomotives to the Entente in accordance with the Peace Treaty, had been completed. The former Prussian-Hessian Railway system now possess 23,000 locomotives, which is 1,400 more than it had before the war; but has only 13,000 locomotives which are capable of being used. Compared with the pre-war period, the percentage of unserviceable engines had increased from 19 to 24.

Jamaica Preference to British Goods

A despatch from Kingston, Jamaica, says:—The Government decided in the Legislative Council on Thursday to grant a preference of 50 per cent. on cotton piece goods made in the United Kingdom, and of 80 per cent. on goods made from cotton grown in the British Empire.

Saskatchewan Rejoices In Big Crop Prospects

A despatch from Prince Albert, Sask., says:—Local showers continue throughout Saskatchewan and Northern Saskatchewan and phenomenal growth of the crop is reported from every district. There has been no damage from blowing in any district north of Saskatoon, and farmers are overjoyed with the prospects of the crop.

KEEP COOL!

Citify Your Farm Home

FOR SALE BY J. T. WING & CO., LIMITED
Windsor - Ontario

Every boy wants a Jersey. It's a real boy's garment—easy to slip on, will stand any amount of hard wear, and stops all fussing about "having your clothes." Mothers like the Ballantyne Boys' Jerseys, too—they keep the boy always looking neat; they cannot pull out of shape, and they are the most economical garments made for boys. We are showing the Ballantyne Boys' Jerseys, pullover, and fasten-on-shoulder styles, in a variety of colors.

Piles of Oxford Now so Popular.
In Vici Kid, Patent and White Canvas—\$2.75 to \$3. 38c to 75c underpriced. Make closest comparison and see.

Our May sales were another record-breaker. We aim to make June sales go well ahead by giving "value" and "service."

The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—In Canada, \$1.50 per year; in the United States, \$2.00 per year—payable in advance.

Advertising.—The Transcript has a large and constantly growing circulation. A limited amount of advertising will be accepted, at moderate rates. Prices on application.

Job Printing.—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.

A. E. Sutherland, Publisher.

THURSDAY, JUNE 3, 1929

FARM VS. FACTORY

Many people in the country are under the impression that a more or less well-directed propaganda is being conducted in certain papers to induce hired men to leave the farm and seek work in factories. This is said to be done in order that the employers of labor can secure surplus help and thereby force down the wages of their employees.

We are not in a position to vouch for the truth of the charge but take this opportunity of pointing out to the hired men and the country youths who are turning their eyes toward that life in a big city is not all sunshine. There is an old saying "far-off fields look green." We are all very apt to think that the other fellow has the soft snap while we have a job that is mostly drudgery.

It is undoubtedly true that the city man today has shorter hours and gets more pay than the man in the country, but those of us who believe in the ultimate triumph of justice are of the opinion that conditions will change in the not too far distant future.

To the young man who intends to go to the city nothing that we can say will stop him. Sometimes, however, it pays to take a second look and to thoroughly investigate before leaving the farm for the factory. Working in a stuffy, smoky, overheated factory is not the most desirable job in the world. The breathing of smoke, soot and the dust of factory or city streets does not compare with the fresh air and sunshine of the open spaces in the country. The young man who comes to the city and drives a truck or a delivery wagon or a street car, or sells neckties over a counter does not have the free and easy time that he may imagine. All the nasty jobs are not on the farm. Many city jobs painted as being little short of paradise also have their drawbacks.—Farmer's Sun.

ABOUT ROSE INSECTS

There Are Many, but Only Three Are Common.

Leaf Hopper, Aphids and Slugs Are the Chief Enemies—How to Deal With the Pests—Miscellaneous Hints.

(Contributed by Ontario Department of Agriculture, Toronto.)

ANY insects attack the rose, but only three are very common, and as a rule of much importance. These are Leaf Hoppers, Aphids and Slugs. The Leaf Hoppers are little, yellowish-white insects, a little less than a quarter of an inch long when full grown, and tapering to a point at the tail end. When disturbed they fly quickly away to another part of the bush. This probably is the explanation of the name "Hopper." Both young and adults injure the plants by feeding on the under surface of the leaves and causing these to become mottled with numerous white dots. Later on the leaves get a sickly, pale, whitish or brownish color, very different from that of a healthy green leaf. The leaves are attacked by the young insects soon after they open. These little Hoppers are whitish in color, sluggish, have no wings and may be seen on the under surface of the leaf, chiefly near the midrib, in the month of May. They become full grown in June.

The method of control is to spray thoroughly the under surface of the leaves with tobacco extract such as Black Leaf 40 or nicotine sulphate 40 per cent. (the strength recommended on the cans for Aphids will be satisfactory) before these little Hoppers become full grown. They cannot be killed when they get their wings, hence the spraying must be done towards the end of May. Examine the leaves about the middle of May to see if they are present, and if there are many of them spray at once. One thorough application at that time of the year is worth a dozen later.

Aphids are the green plant lice that are often seen in clusters on the flower buds and leaves. They are sucking insects, and when abundant extract so much juice out of the plants that the bloom is greatly injured or destroyed, and the leaves turn sickly and die, especially on the upper parts of the plants.

The best method of control is to use tobacco extract as mentioned above. It is in the month of May to add one ounce of soap to each gallon of the diluted tobacco extract, the soap being first dissolved in rain water. These little insects are killed which are hit by the spray.

Sometimes a strong spray from a garden hose can be used to knock off either the sucking Leaf Hoppers or Aphids. The nozzle must be held close to the plants and the spraying repeated two or three times at intervals of a day or two. In the United States, where it is practicable, control the Red Spiders, that is the tiny, reddish and whitish mites which are sometimes quite abundant on the under surface of the leaves.

Slugs are greenish, somewhat slender worms, about half an inch long when full grown. They are the larvae of little black four-winged flies. There are two or three different kinds of them, but they may all be considered together. The slugs feed on the green tissues of the upper surface of the leaves, often completely removing it, and leaving only the fine network of veins. Leaves thus injured soon turn brown and die. It is not at all uncommon to see almost every leaf on a bush killed in this way. This, of course, prevents bloom and weakens the plants greatly for next year. When the slugs are full grown they enter the ground to transform to their other stages and later appear as adults. The winter is passed in the ground.

The method of control is simple and consists of spraying the foliage thoroughly with about one ounce of arsenate of lead paste or half an ounce of the powder form to one gallon of water. Spray as soon as the insects are seen to be present on the leaves. Occasionally in the latter part of the season a second application may be necessary.

The most important matter in the controlling of rose insects is to combat them early, before they have done any appreciable damage. None of the above insects are hard to control. The methods given are not the only ones, but are the most satisfactory.

—L. Caesar, O. A. College, Guelph.

Dairy Hints.

Cooling milk and cream is very important during this month and next month. Have plenty of cold water so that the milk and cream may be rapidly cooled to 50 degrees F., at which temperature there is very little danger of sour milk.

Fly-time is here. Protect the milk cows by using a home or commercial mixture, as a fly-repellent. Try one-half gallon fish oil, one-half pint kerosene and about four tablespoonfuls of carbolic acid, or cresol, etc. Be careful not to get this on the teats, or hands before milking as it will taint the milk.

Grading Up a Flock.

In grading up a laying dock purebred eggs should be purchased. From the chicks good female breeding stock may be secured. The male may be secured in very many cases in Ontario, from eggs secured by children taking part in school fairs. Watch the school fair winners this year.

Watch for Noxious Grass.

In looking for quack grass it would be well to watch also for other noxious weeds, making sure that none go to seed and that the root stalks of perennials are prevented from spreading as much as possible.

MORE AND BETTER TEACHERS

The leaders of education in the Province of Ontario, both in the Legislature and out of it, are studying ways and means of improving the public school. Among the various suggestions for stand out prominently, namely, more extensive training for teachers, consolidated schools, township or county boards, and higher salaries.

The first calls forth little discussion, but the consolidated school and the township board have had their share of criticism in the public press. Evidently neither is very popular in rural districts.

As to teachers' salaries, a vexed question for years, at the present meagre remuneration nothing short of conscription will supply recruits in sufficient numbers to fill up the ranks of the profession. Realizing this, the Central Committee no longer leave the salary question to the individual teacher, but send out the following "marching orders" as the 1929 scale: "Rural school teachers and assistants in urban schools, first year, at least \$800; second, \$900; third, \$1,000; fourth, \$1,100; fifth, \$1,200. Principals in schools of from two to four rooms should receive, first year, at least \$1,200; second, \$1,300; third, \$1,400; fourth, \$1,500. In schools of more than four rooms the scale should be, first year, at least \$1,600; second, \$1,700; third, \$1,800; fourth, \$1,900; fifth, \$2,000. These are minimum figures, counties being at liberty to adopt a higher scale if considered advisable. Trustees and ratepayers, look to your school? Is it a live school? or is it dead and ready for resurrection in consolidated form five or six miles away? If your one-roomed school is going to live, get interested in it.—E.S.

TO A SLEEPING CHILD

Sleep, pretty maiden, sleep.
With dimpled hand beneath thy cheek.
Thy gold-brown curls the breezes stir
Like fluffy down off thistle burr.
Thy hammock swings 'neath an apple tree.
Perfumed blossom lightly fall on thee.
May fairy elves sway thee to and fro,
And Morpheus enfold thee an hour or so.

Through the lilac blooms there's a flutter of white;
Tis thy mother coming to thee, my sprite.
With a fatherly kiss on thy brow so fair,
I'll gladly resign thee to her tender care.
—Mrs. L. McKinnon, Appin.

The total cost of the world war in lives has reached the appalling figure of 35,380,000, according to final estimates of the Copenhagen Society for the Study of Consequences of the War, made public last week. These figures were reached after an exhaustive study of the decrease in the birth rates of the countries involved, as well as increase in deaths from causes directly attributed to the war. Actual military deaths in killed totaled 9,829,000 according to the report. Each European nation involved lost the equivalent of 8.8 per cent. of its population from all causes. Each nation's actual killed equalled 2.5 per cent. of its population. Serbia was the heaviest sufferer of all the belligerents. She lost 35 per cent. of her total population, while her actual killed equalled 14.8 per cent.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

DIFFERENT RENDITIONS

Mary had a little lamb
With which she used to tussle;
She pulled the wool from off its back
And put it on her bustle.
Mary had a little skirt.
Tied tightly in a bow,
And everywhere that Mary went
She simply couldn't go.
Mary had a swarm of bees
And they, to save their lives,
Must go wherever Mary went,
'Cause Mary had the hives.
Mary had a little lamb.
She bought it good and cheap;
She kept it till the thing grew up.
Then sold it for a sheep.
Mary had a little lamb.
Likewise a lobster stew.
And ere the sunlit morning dawned
She had the nightmare, too.
Mary had a little lamb—
She tried to sell her pet;
But Mary didn't advertise—
She's got her lambkin yet.

A waitress in a Kansas City restaurant fell and injured her spine while fleeing from a cook who held a mouse by the tail. She sues for \$1,500.

Triplex Springs

Take the Jolts Out of Canada's Rough Roads

To appreciate fully what an improvement Triplex Springs are, you must ride in the Overland and see what they do.

To light weight and economy of 100-inch wheelbase they add the steadiness and road flexibility of 130-inch Springbase.

It is a new sensation to ride in a light weight car with the com-

fort formerly confined to the heavy car of long wheelbase.

—To be relieved from nerve-racking jolts and to go confidently ahead over rough roads at a good roads' speed.

The made-in-Canada Overland is a striking example of the new strides being made by Canadian industry.

Neil McKellar & Son
AGENTS FOR MASSEY-HARRIS CO.
GLENCOE

Notwithstanding that Thursday of this week is the King's Birthday and a legal holiday, most of Glencoe's business men have decided to keep their shops open as usual. Through a little misunderstanding The Transcript was led to state otherwise in its last issue.

Crawford Allan had one of his legs severely bruised on Thursday when his team started to run away while passing through a gate at the farm. In order to stop the horses he caught one of them by the bridle and was swung off his feet, a wheel of the wagon passing over him.

Dan William Munroe of Mosa recently invested in a new business outfit and has just tested it out on the farm of D. C. McTavish with excellent results. A flowing stream of crystal clear water was obtained at depth of 52 feet capable of supplying the cattle of a thousand acres of pasture.

Considerable interest was taken in a case before Police Magistrate McKenzie one evening last week in which Wm. McCallum was charged with exceeding the speed limit for motorists. After hearing a number of witnesses the magistrate reserved his decision, finally dismissing the case.

A concert given by the pupils of the Glencoe public school in the opera house on Tuesday evening under the direction of Howard Goring was a very enjoyable success. The house was well filled, and all thoroughly appreciated the solos, duets, choruses and instrumental selections given by the children.

The county council of Middlesex will meet for the regular summer session on Monday, June 7, in the county buildings, London. Probably the most important business to be discussed at this session will be the proposed grant to Western University, which has been under consideration of a special committee of the council.

Monday evening some 25 or 30 of the Glencoe friends of Miss Ethel Waterworth gathered at her home and tendered her a shower of miscellaneous useful articles, including a cut-glass water set, in view of her approaching marriage. Miss Waterworth made suitable acknowledgment. An enjoyable social evening was spent, at the close of which lunch was served.

PERSONAL AND SOCIAL

—D. L. Cameron of St. Catharines is on a visit to relatives here.

—Mrs. J. H. Holman of Ayr is visiting friends in Glencoe and vicinity.

—Mrs. Gordon Dickson will receive on Wednesday, June 9th, from 3 to 6 p.m.

—Mr. and Mrs. W. E. Currie of Detroit spent the week-end with relatives here.

—J. H. McFarlane of Detroit was here for a few days visiting old friends.

—Mr. and Mrs. Ross Waterworth of St. Thomas were visiting Glencoe friends for a few days.

—Mrs. D. N. Panabaker and son Wilber of Hespeler spent the week-end at J. M. Anderson's.

—Mr. and Mrs. Hugh McCutcheon attended the funeral of the late Mrs. Joseph Reycraft at Highgate last week.

—Mrs. W. J. Mawhinney of London has arrived at Delisle, Sask., where she expects to spend a year with friends.

—Mrs. J. Watson Young and little daughter of Hespeler, who are visiting at Mrs. Young's former home at Stratford.

—Mrs. Jack Holman of Ayr and Mr. and Mrs. R. A. Eddie of Glencoe motored to Bad Axe, Mich., and spent a week with friends.

—Mrs. Clarence Ripley and son Stanley of Flint, Mich., spent the week-end with her daughter, Mrs. Gordon Waterworth.

—Miss Ruth Owen, the Rectory, Tyrconnell, left Monday for Annapolis Royal, Nova Scotia, where she will spend the four summer months.

—Miss Madeline Theodis, Miss Lotie Thompson and Dr. D. D. Ferguson, of the Byron Sanitarium staff, were Sunday visitors at Chas. Kelley's.

—Murray Robertson, youngest son of James Robertson, C. E. formerly of Glencoe, was married at Toronto last week to a young lady of that city.

—Mrs. Chas. Stinson has returned to her home in St. Thomas after spending a couple of weeks here with her daughter, Mrs. D. K. McKee, Jr.

—P. D. and Gordon Ferguson, Miss Pearl and Edie Ferguson and Miss Sarah McKellar motored from Detroit and spent a few days with relatives in Mosa.

—Mr. and Mrs. John R. Summers and A. D. accompanied by Mr. and Mrs. Alex Summers, motored to Mosa and spent Sunday with Margaret McArthur.

—The engagement is announced of Sarah Margaret, only daughter of Dan W. Leitch of Ekfrid, to Thurman R. Gough of Metcalfe, the marriage to take place on the 9th of June.

—The marriage took place at Spokane, Wash., on Wednesday, May 19, of Leslie Maurice Nagle of the First State Bank, formerly of Glencoe, to Miss Lydia M. Cedar of Spokane.

—Mrs. Charles Scott of Adelaide township announced the engagement of her daughter, Minnie Belle Moore, to James R. Hawkins of Appin, the marriage to take place about the middle of June.

—Mr. and Mrs. William Nethercott of Wardville announce the engagement of their second youngest daughter, Agnes Jean, to William Lloyd Hill, youngest son of James Hill of London, the marriage to take place in June.

Notice

Having opened our garage for service on all makes of cars, with Wm. Kirkwood of Simcoe in charge, he having a long and successful experience in carburetors and electrical systems, we would invite a share of your automobile repairing.

A lawn social under the auspices of the Women's Institute of No. 9, Mosa, will be held on the school grounds June 18. Whole program given by Brunswick Trio. Lunch and refreshment on grounds. Admission, 35c and 15c.

The Y. P. G. of Tait's Corners will hold their annual garden party on Friday evening, June 4th. An excellent program will be given by the following talent:—Imperial Male Quartette, London; Ladies' Elite Quartette, London; Miss Mary J. Westland, elocutionist, London; Miss Dora C. Bradley, violinist, London; Fisher Orchestra, Stratford.

Internally and Externally it is Good.—The crowning property of Dr. Thompson's Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pain in the chest, colds, many many ailments it cures with a few applications. It is unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

The Pennsylvania Railroad at Philadelphia was fined \$100 for permitting a switchman to work 21 continuous hours.

A little ad. will sell it.

BY-LAW No. 267

A BY-LAW TO REGULATE THE PARKING, LIGHTING AND TURNING OF CARS ON THE STREETS IN THE VILLAGE OF GLENCOE.

Whereas it is deemed necessary to regulate the parking, lighting and turning of cars on the streets of the Village of Glencoe, the municipal council of the Village of Glencoe enacts as follows:—

First—That all parties parking cars on the streets of Glencoe shall park the same on the right hand side of the streets. They shall park them inclining the front towards the sidewalk at an angle to allow a car to be parked by its side, running the right front wheel to touch the curb.

Second—No party shall park a car within 25 feet of a street crossing.

Third—All cars parked on the street at night shall have front and rear lights lit.

Fourth—No car shall be parked behind another car.

Fifth—Parties wishing to turn their car must go to the street crossing to do so. No turning in the middle of the block will be allowed.

Sixth—Any party or parties violating any clause of this by-law shall be liable upon summary conviction to a fine of not more than \$5 or a justice of the peace to a penalty not exceeding twenty-five dollars.

This by-law received its third reading and was finally passed in council this 21st day of May, 1920.

Clerk Reeve

EARLY AND LATE FROSTS

How We May Foretell and Protect Against Them.

The Weather Bureau Will Advise You—Fires or Smudges Can Be of Benefit—Treating Inflammation of the Udder.

(Contributed by Ontario Department of Agriculture, Toronto.)

FROST in this particular connection refers to what is commonly known as late spring and early autumn frosts. Such rather unseasonable occurrences are not unknown in the majority of the farming sections of this country, and on account of their heavy damage now and again to tender plants and fruits in the spring, and to unseasonable ones in the autumn, the farming classes, particularly the fruit and vegetable growers, greatly dread their attacks. And in this scientific and practical age they naturally want to know if it is possible to foretell frost and guard against it. The answer is yes, to a limited extent.

As to the question of foretelling frost, I would like to emphasize in the first place that the weather experts at the Weather Bureau, Toronto, do advise gratuitously any farmer who calls on in regard to the probabilities of frost. Since rural telephones are now so general and so well connected up with trunk lines, the farmers are in a position to make better use of this advice. They often would find that it pays to do so. A keen observer of the weather, however, can foretell frost quite accurately although he is not an expert. A few weather instruments would be a great assistance to him, but excepting a reliable Fahrenheit thermometer he can get along very nicely without them if he follows these suggestions for forecasting. The favorable weather conditions for frost are clear sky, no appearance of clouds or fog on the distant horizon, and a dry, calm atmosphere, and temperature falling rapidly towards evening. If these conditions obtain late in the evening and the air temperature registers no more than about 10 degrees above the freezing point he can be pretty sure of frost that night.

To predict is good, but to prevent its injury is better. What are the means of prevention? Those that have been tried out are applicable only to small and rather limited areas, such as gardens, vineyards and orchards. Space will not permit more than a mention of the various methods. They are: Fires or smudges made of wood, straw, sawdust, etc., preferably moist for the threatened areas, orchard heaters so-called which burn some sort of crude oil, spraying vegetation with water in the evening and again in morning before sunrise if frost occurred, and for very small areas, shelters or screens of various kinds are used. The success with any of these methods depends largely upon the amount of system and care exercised in their application. If for example the appliances and materials are always on hand and ready for use on short notice, and can be applied and operated with the minimum of labor and time, the users will get satisfaction and profit.—R. R. Graham, O. A. College, Guelph.

Treating Inflammation of the Udder.

Mammitis or inflammation of the udder is a common disease in cows. It is often noticed in a somewhat slight degree at and following parturition, in which cases it is due to the lacteal apparatus taking on infection.

Causes.—Inflammation of the udder, other than that from above mentioned, is caused by irregular milking, exposure to cold and dampness, wounds, bruises, rough or careless handling during milking, etc., and in many cases appears without well marked cause.

Symptoms.—One or more quarters of the udder become swollen, hard and tender. The patient becomes dull, appetite lessened and temperature increased. In well marked cases the patient progresses with a straddling gait behind, in endeavor to prevent pressure on the udder by the legs. The quality of the milk is more or less altered. In most cases curdled milk and a thin fluid resembling whey appears when the teats are drawn. In some cases a portion of curdled milk becomes lodged in the milk duct and is somewhat hard to remove. In some cases clotted blood also appears. The general health of the patient is more or less interfered with, according to the severity of the attack.

Constitutional treatment consists in keeping the patient as comfortable as possible, preferably in a roomy, well-bedded box stall. A brisk purgative of one to two lbs. epsom salt, one-half to one dram of gamboge and one to two ounces of ginger (according to the size of patient) dissolved in a quart of warm water should be given, and followed up with four to six drams of nitrate of potassium twice daily for three days. The patient should be fed food not particularly inclined to cause milk production until the inflammation is allayed.

Local treatment consists in applying heat to the udder, either by keeping hot poultices to it or by long continued and frequently repeated bathing with hot water. Poultices can be applied by using an inch of cloth or canvas, with holes cut for the protrusion of the teats and fastening it by strings or straps over the hips and loins. The fluid should be drawn from each quarter four or five times daily and after each milking the udder should be well massaged and rubbed with camphorated oil. Where this oil cannot be readily obtained its substitution by goose grease gives good results.—J. Hugo Reed, O. A. College, Guelph.

SPRINGTIME NECESSITIES

For Gardening—Spades, Spading Forks, Rakes, Hoes, Cultivators, etc.

NEW PERFECTION and FLORENCE AUTOMATIC OIL COOK STOVES have proven to be the best under all conditions. Also a full line of Ovens.

Don't wait till the flies are here to SCREEN. DO IT NOW. We have a large stock of Screen Doors on hand, including the famous KASEMENT DOOR. See them. Prices \$2.25 to \$5.

If You Are A Skilled Workman

you will appreciate the C.C.M. Bicycle.

Your trained eye can see the skilled workmanship.

Your trained ear can tell that the C. C. M. is

mechanically perfect. It runs with velvety smoothness. Not a sound of friction.

There is no "give" to the frame when you drive hard—proof positive that the C. C. M. Bicycle has quality, strength, stamina built into every part.

There are 1,761 parts in the C. C. M. Bicycle. Many of them are made to closer limits than the time fuses on shells. With such precision in manufacturing is it any wonder that C. C. M. Bicycles run so easily and quietly?

Every C. C. M. has the long, strong "Fish-mouth" reinforcement at the joints. It is brilliantly enamelled over a coat of anti-rust. The bright parts are nickelled over rust-proof copper. The whole idea in making the C. C. M. is QUALITY first, last and all the time.

Canadian workmen who take pride in and know the value of skilled Canadian workmanship have every reason to purchase C. C. M. Bicycles.

Remember the new **Hercules Positive Drive Brake**—the Coaster Brake without a side arm—is included without extra charge.

Tonics In Foods.

Radishes are among the popular early vegetables. They are usually served direct from the garden after they have been washed and trimmed but they are delicious when cooked. Serve with parsley sauce, or mash and season with salt, pepper and butter. Radishes belong to the turnip family and should not be allowed to grow pithy in the garden when they can be used in such a variety of ways. Sliced thin, either cooked or uncooked, they furnish a tang to many salads that would otherwise be flat.

Spring onions may also be cooked if one hesitates to serve the uncooked vegetable. They are, I think, the most delicious vegetable we can offer, served on toast or in patty shells. In combination with spring mushrooms, with tiny spring carrots or beets, they cannot but please the most critical palate.

Our grandmothers and the grandmothers who preceded them gave sulphur and molasses as a spring tonic. The mother of to-day gives her children rhubarb. No fruit is more valuable than this. Rhubarb contains health promoting and regulating vitamins. It may be used in place of orange juice in the months when the latter is difficult to obtain. On the warm days of early summer it must be regarded as a most important food. It too can be used in several ways:

1. Serve as sauce.
2. Cook with rich baking powder biscuit as short cake.
3. Cook as sauce, thicken with gelatin and whip until very light and spongy and serve ice cold.
4. Use in combination with strawberries, raspberries, blueberries or cherries in sauce, pies, or shortcakes.
5. Take one pint of sweetened rhubarb sauce, heat to boiling, add the yolks of two eggs, remove from fire and turn into pudding dish. Whip the egg whites with two level tablespoons of sugar; spread this meringue over the rhubarb custard and bake to a delicate brown in a slow oven.

Looking Your Best.

Looking your best depends more upon yourself than upon dress. Make the most of your good points and the least of your bad ones—then dress becomingly and you will be at your best.

Consider well your hair. The hair really sets off your face. Your whole expression depends upon it. If it is dull and lifeless, that's the way you look. If it is fluffy and vibrant with life—again, that's the way you look. If it doesn't harmonize with your dress, then your whole appearance is discordant. Know your own hair, and then care that it accords properly. If it is oily, there are many things to do to remove the oiliness and get it in a healthy condition. It needs washing, airing, tonic rubs, and the scalp needs massaging.

Here are some little hints worth remembering: oiled hair. Shampoo it, but not too often. Once every three weeks is sufficient. For a little luxury, try in between times the dry shampoo, which is perfumed with violets. But be sure you brush out all the powder. Don't forget that oily hair needs a sun bath every now and then, and it needs an airing too. Take it down and let the wind blow through it when you can.

A good antiseptic soap is excellent for the shampoo, but be sure to rinse the hair so every particle of soap will be removed. A little lemon juice in the last rinsing water will help to accomplish this. Do not brush oily hair too often or too vigorously. It's the dry hair that needs the brushing. For the oily scalp there are tonics specially prepared which will not overstimulate the oil glands, and which contain sufficient quinine to act as a stimulant. And there are other tonics having astringent qualities which help to bring the oil glands back to normal.

Perhaps your hair is dry and brittle and not oily at all. If this is so, start in at once to feed and nourish it with a good tonic that has an oil base. Crude oil warmed and rubbed thoroughly into the scalp will work wonders in nourishing starved hair. And there are tonics nowadays that will produce the same result. They have petroleum as their base, but it is greatly refined, and the tonic is just sufficiently perfumed to make it agreeable to use. Use a medicine dropper in applying the tonic, and be careful to get it on the scalp and not on the hair. Once a month is sufficient to shampoo dry hair. Soap shav-

ings cooked in a little water until they are dissolved into a soft jelly make a good shampoo. It's just miraculous the part wavy hair plays in looking your best. It seems to soften the entire outline of the face. It really helps to make your clothes more becoming. Now that hair wavers come so covered that they are soft and pliable and do not break the hair, there is no reason why they cannot be used every night. And you won't have to use them so often if you first dampen your hair with a new fluid before winding it about the waver. This fluid does not harm the hair in any way, and helps to make the wave more lasting.

Don't let me forget to remind you to select a style of coiffure that is suitable to your face and figure. It's not only the care you give your hair, but also the way you wear it, that helps you to look your best.

A Plan To Follow.

"Margaret," said the young girl as she tapped lightly on the guest room door, "I am going uptown, and I thought perhaps there was something I could do for you. Can you think of anything that you want?"

"Thank you, Helen," her cousin replied, "I don't believe there is anything this afternoon; unless," she added, seeing the books in Helen's arms, "you would take my book back to the library and get me another one. You know your father lets me use his card while I am here. But perhaps you are not going near the library."

"Yes, I am going right to the library. I've got some things to look up on Japanese rule in Korea for our Current Events Club to-morrow afternoon. This is the book you've just read, isn't it? What shall I get for you? Another one by the same author?"

"Not if you please!" emphatically returned Cousin Margaret. "I never want to read another one of that man's books! Get me one of Stevenson's books, please; any one but Treasure Island. I've just read that, and I like it so well that I want to re-read some of his other stories. Can you wait just a moment, dear, while I record this book?"

"Yes, indeed; but what do you mean by recording the book, Cousin Margaret?"

"Why, you see," said her cousin, taking out a large, well-bound notebook from her trunk, "I write in this book the name of every book I read, the date when I read it, the author's name and how I liked the book."

"Why do you do that? I should think it would be a lot of bother." "It was something of a bother, as you say," replied her cousin, "when I first began it, fifteen years ago; but my father had given me a set of Dickens for my graduating present and had asked me to keep a record of my reading. I've got so now that I rather enjoy keeping my record. It has been a great help to me, too, for often merely reading the list has brought back to me books that I thought I had forgotten all about. Then, too, by writing down the author's name I have fixed the book and its author in my mind."

"I should be ashamed to write down some of the books I have read since I graduated last spring. They are so trashy!" "I was ashamed at first to record some that I read; but father insisted that I keep an accurate account of all my books, and I had to put down the trashy as well as the standard ones."

"Did Uncle Ned look over your list?" "No, he just wanted me to keep the record for my own benefit. And it did benefit me, too, for it wasn't long before unconsciously I began to want to improve my reading."

"I believe I'll begin a book record myself," said Helen. "I have just finished Charles Kingsley's *Westward Ho!* Why, here it is, recorded on this page! Had you never read it before?" "Yes, indeed. Don't you see the figure (3) after it? That means that this is the third time I have read the book."

"Why, here are lots of books you have marked (2), (3) and even (4)!" exclaimed the girl as she turned the leaves of her cousin's book.

"You never tire of a favorite book," said Cousin Margaret; "and the more you read some books the more you want to read them."

Keep Minard's Liniment in the house.

College and Cookin'

By HAZEL B. STEVENS.

PART II.

That was all. Just a curt unexplained announcement; after which he turned over and was soon snoring peacefully.

Mrs. Alton lay wondering and wide-eyed in the dark. What had happened? She crept out of bed, went to Polly's room and there were two people who did not sleep much that night, and one of them, not at all as Polly watched till the gray dawn broke the voices of the barnyard.

It was not the grayness of dawn, however, but the roars of sunrise that had reflected in Polly's face next morning, as she dozed off porridge and slipped fried eggs on to extended plates. Even when her shy thanks to her father were rather shivered back at her, no cloud dimmed her radiant face. She began to understand a little, perhaps, this hard, gruff father!

Jack Halliday received her warm, frank handshake.

"Oh, bully!" he said and forgot his work for fifteen minutes of college enthusiasm. He sent for a College catalogue and they spent a fascinating evening over it—telling her what to "take" and what not to "take," what pitfalls of boredom to avoid—what to "go in for" in the way of sports and social diversions—how to get the very most out of this wonderful experience.

At the first vacation, there came back a fly-away, giggly, chatterbox of a superficially changed Polly. There was not much mention of work in her silly, slangy talk. Her father frowned over her but said nothing. Her mother reproved her quietly on occasions. A summer's hard housework, however, calmed her down to almost normal. She was pathetically eager to get away.

The next summer she posed a good deal, dressed her hair with exaggerated smartness, patronized her young-er sisters. She said she was much bored with the farm but worked hard and well, seemed very happy and contented her boredom fairly well. When it came time for her to leave again, she was a little ashamed of her radiant face. She kissed her mother with a tenderness unusual to her and at her formal good-bye to her father tried again to express appreciation, saying, "You don't know, Dad, what all this means to me."

He cut her off abruptly but softened the rebuff by patting the hand she had given him in farewell. Polly looked after him as he strode off to work and tears came to her eyes. "I've found the work I love," wrote Polly soon after this, to Jack Halliday. They were regular correspondents.

"I'm going to specialize in Social Service and Home Economics," she wrote me not to specialize too early and I haven't. But these last two years I'm going in for this line with all my might."

Something of the same she wrote home, in a more matter of fact way. In June, when Polly wrote, almost frantically apologetic, for permission to spend her vacation doing child-rescue work in the slums of Toronto, her father sent back promptly, by way of her mother, both the desired permission and the necessary funds.

"It's hard on you, Mumsie," wrote Polly, "my shirking the summer like this, but I'll make it up to you. See if I don't!"

It was the week after Polly's graduation. There was a stir of expectation about the Alton back doorstep, expressed verbally by "the twins" who sat in clean white aprons and shirtings—respectively—and with well-washed countenances, intoning in the singsong way of happy childhood, "Polly's coming home today-ay-ay! Polly's coming home today-ay-ay!" over and over.

Mrs. Alton had a pink spot in each smooth cheek and a look of mild excitement in her first eyes, as she buttoned a struggling four-year-old into a fresh gingham.

Ted, the next boy to the twins, had driven the car over to meet Polly, and the two girls between him and Polly in age, went along, bouncing gaily in the back seat.

"Here I am, Mumsie!" Above the chatter of Polly's sassy escort, came her clear voice, as the car drew up in Ted's best manner before the side gate. A tall, stylishly dressed, wonderful Polly sprang out and in a twinkling had gathered her mother, clinging four-year-old and all, into her strong arms, for a good hug.

The twins stormed her with stinging arms and kisses and after a little while of everybody talking at once and nobody listening to anyone—Polly said, "Will Ted take me to where Father's working this morning? I must see him. And afterward," she nodded wisely and said no more.

They came across Mr. Alton in the farthest field, directing the best thing.

"I've got to kiss you on the bald spot, Dad, whether you like it or not!" was Polly's flippant greeting to him and she nipped at him with her tongue.

But he did like it so exceedingly well that, much encouraged, she planted another kiss square upon his mouth. They talked far and long, Polly asking about the success of some of Mr. Alton's new drainage experiments. In answer to her father's unspoken surprise at her interest and understanding of these things, Polly explained that Jack Halliday ran over to my graduation last week and he talked a lot about some brand new schemes for draining swamp land. He is thinking of going in for that on a big scale."

After extracting a promise from her father that he would take her all over the place in the first possible spare time, Polly hopped into the roadster

with Ted, and was whisked back to the house.

"And now, Mother!" said this radiant daughter, whirling mother into a rocker. "You've earned a vacation from housework, and from this moment I—take—entire—charge. See?"

"But, Polly, the first day—" protested the surprised mother.

"The first day, of course," nodded Polly briskly. "Haven't I been playing around and having the time of my life for four years—and isn't it your turn to play? If you'll just tell me what you do and when, during all the hours of your awfully busy day—and help me get started—" she whipped out a business-like notebook, and pencil, from her hand-satchel, and dropping to the floor at her mother's feet, asked questions and made notes galore.

From a distance the two would have looked more like school-girls plotting mischief than like mother and daughter planning anything so staid as how to run the home-end of a farm most efficiently.

Together they inspected kitchen, pantry, supply closets, cellars, laundry, dairies, chicken runs. Mrs. Alton explained, described, deprecated, and Polly listened with her characteristic slightly frowning intensity, and was forever taking notes.

They had just completed the circle and come again to the table under the big maple tree by the back door. "You're to be chief advisor and Board of Appeals, you know, but you're to keep your hands out of the dishwasher and the dough. You're to do a lot of week-end visiting and social stuff, too. I am going to work as I never worked before. And we're both going to have the time of our lives, aren't we! If you'll come and sit with me in the kitchen and see me through supper this first time, I'm going to get right into the harness."

When the hired hands came trooping in for supper at half-past five they heard a lot of soft feminine talk and laughter, not all of it Polly's, floating from the kitchen. As soon as Mr. Alton arrived, Polly, in all-over blue gingham, appeared at the kitchen door to wave to him with an "All ready, Dad!" before she pounded vigorously on the dinner gong.

Mrs. Alton came out then, and took her place at one end of the table—an unheard of procedure. The younger girls followed promptly with hot plates and other dishes, but Mrs. Alton, with a difference, for something about their flushed cheeks and happy eyes made this meal seem like a game, not a hard task to be gone through with and resented.

The same something in the air subdued the loud voices of the hired "help," and the chatter of careless knives and forks and made the simple meal seem more or less like a feast. Mr. Alton, feeling the "something," glanced puzzled at his wife, in her unaccustomed place opposite him. Her eyes told no new tale when they met his, and she seemed quite unconscious that he was studying her a bit furtively from beneath his shaggy brows. He did not fail to note the apple-blossom pink in her cheeks, or the new shine in her eyes; she was evidently "playing the game." His glance became a little quizzical. But he liked

to see her there, opposite him. It did not seem to be a bad game take it all in all.

"Our little girl is managing things, eh?" he said gruffly, as the men filed out.

"Why, yes," jauntily answered Polly herself. "And why not? Didn't I tell you I majored in Home Economics and Domestic Science?"

"Well, well! So that's it—I don't suppose though that an 'expert' like you will want to be stayin' long just here around home?"

"I love it, Dad! Of course I'm going to stay here around home, if you'll let me. Mother and I have beautiful plans; and if you won't mind a few experiments at this end as well as on that water-logged pasture—why, I am going to be wonderfully happy."

"Until somebody else with water-logged land offers bigger inducements, eh?"

There was affectionate laughter under the usual gruffness.

Polly's face showed that he had made a "hit."

"H'm!" he went on. "Domestic Science and Home Economics—Why I guess that's just cookin'—and keepin' house! And they teach it at College!"

"Jane!" he turned to his second daughter and tweaked a braid. "When are you goin' to be ready for 'higher education'?"

THE BATTLEFIELDS.

Birth Rate Decline Represents Thirty-Eight Per Cent. of Normal.

Forty million persons are dead today who would have been alive had there been no World War, says a London despatch. That is the announcement of the Society for the Study of the Social Consequences of the War, a Copenhagen organization, which has just issued a report on the human war losses.

The report is based on exact material obtained from the Central Powers, France, Italy and Great Britain, whose populations represented 60 per cent. of those engaged in the struggle. It was impossible to secure complete data from the smaller states, and especially from Russia, and the report is therefore in small part based on computations deduced from the results obtained for other countries. But in these cases the calculations were so cautiously made as to represent a safe minimum.

The period covered by the report, which was concluded at the end of last October, stretches from the beginning of the war to the middle of 1919. It is based on detailed inquiries into the changes of the populations of the six great powers (excluding the United States) and of the four small belligerents, Belgium, Bulgaria, Roumania and Serbia. The report gives not only the actual war casualties, but the decline of the birth rate and the rise in the death rate as well. The report thus gives the real loss the war has brought to the population of the countries engaged.

Report on War Casualties.

Statistics of war casualties and changes in birth and death rates follow:

Decline in births, 29,250,000; rise in deaths, 15,130,000; war casualties, 9,229,000; total losses, 35,359,000.

Percentages: Decline in births, 5.9; rise in death, 2.5; war casualties, 2.5; total losses, 5.8.

Birth-rate 33 Per Cent. of Normal.

The decline in the birth-rate represents 33 per cent. of the normal. If the losses of Turkey, Greece, Portugal, Montenegro, the United States, the British dominions and the other non-European belligerents and colonies are included, then the total loss to the world must be put down at forty million lives, the report says. Of these, twelve million have been lost on the battlefields.

And, in addition to these direct war casualties, there are daily further deaths in the fighting still raging all around the borders of Russia. Furthermore, as a result of the social upheaval, the war has caused a daily toll of lives in Russia, Germany and Hungary. In addition, there are appalling losses in communities in central and eastern Europe and in Serbia, which are slowly falling prey to hunger, cold and disease.

One of the most graphic results of the war is the remarkable numerical change in the relative of the sexes. In the ten countries mentioned in the statistics the surplus female population has risen from about five million to about fifteen million.

Ancient Cornerstones.

The custom of laying the cornerstone of a public building with ceremonies was practiced by the ancients. At the laying of the cornerstone when the capital of Rome was rebuilt a procession of vestal virgins, robed in white, surrounded the stone and consecrated it with libations of living water. A prayer to the gods followed, and then the magistrates, priests, senators and knights laid hold of the ropes and moved the mighty stone to its proper position. In a hollow cut in the stone were placed ingots of gold, silver and other metals which had not been melted in any furnace.

With the Jews the cornerstone was considered an emblem of power, and they also performed ceremonies at its laying. In medieval times the rite was taken up by the Order of Free Masons and has by them been brought down to modern days, the Masonic ceremony of laying a cornerstone being symbolic.

The "Half-Bagani"

Among the Filipinos, apparently, it is the custom to have your position in society on the number of men you have killed. If you have slain five or more, you become a "Half-Bagani" and are entitled to wear a fancy dress costume every day in the week. If you reach the magnificent record of ten killed, you are a full Bagani and may wear a still fancier dress costume. Since the American occupation, however, the number of candidates for Bagani distinctions has very rapidly decreased, and it is only in the remote interior places, nowadays, that one ever catches a glimpse of the honorable scarier.

Whale's Teeth as Money.
Whales' teeth pass as currency in the Fiji Islands. They are painted white and red, the red teeth being worth about twenty times as much as the white.

Models for the Home Dressmaker.

9504—Ladies' Two-Piece Skirt; Price, 25 cents. In 6 sizes, 24 to 34 ins. waist. Size 26 requires 2 1/2 yds. 36 ins. wide, or 2 3/4 yds. 48 ins. wide. Width, 1 1/2 yds.

9533—Ladies' Three-Piece Skirt (7 or 33-inch length from waistline). Price, 25 cents. In 6 sizes, 24 to 34 ins. waist. Size 26 requires 3 3/4 yds. 36 ins. wide, or 2 3/4 yds. 54 ins. wide. Width, 1 1/2 yds.

These patterns may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond St., Toronto, Ont.

Waiting.

Serene, I fold my hands and wait,
Nor care for wind, or tide, or sea;
I have no more 'gainst time or fate,
For, lo! my own shall come to me.

I stay my haste, I make delays,
For what awaits this eager pace?
I stand amid the eternal ways,
And what is mine shall know my face.

Asleep, awake, by night or day,
The friends I seek are seeking me;
No wind can drive my bark astray,
Nor change the tide of destiny.

What matter if I stand alone?
I wait with joy the coming years;
My heart shall reap where it has sown,
And garner up its fruit of tears.

The waters know their own and draw
The brook that springs in yonder height;
So flows the good with equal law
Unto the soul of pure delight.

The stars come nightly to the sky,
The tidal wave unto the sea;
Nor time, nor space, nor deep, nor high
Can keep my own away from me.

Greasy frying pans or saucepans
Should be well rubbed with plenty of
soft paper while still hot. The paper
will absorb every particle of grease,
and will be useful for lighting the fire
next morning.

"English Spoken Here"

Acquiring a working knowledge of the German language presents a thorny problem to the thousands of British soldiers who fortune—or misfortune—picked for duty in the occupied area of Germany. One of them, signing himself "Tab," writes to "The London Daily Mail":

"There are two approved methods of grappling with the Teuton tongue. The official method is to attend the classes held by the Rhine Army Educational College. The unofficial method is to put one's self in the hands of a private tutor.

"A conversational knowledge of German is very useful, and leads to promotion, staff billets and other pleasant things. For ordinary intercourse with civilians it is also advantageous, as even in the biggest shops in Cologne it is the exception to find any one speaking English. Certainly several of them display the legend, 'Here English Spoken!' but this has to be taken on trust.

Love.
God scatters love on every side,
Freely among his children all.
And always hearts are lying open wide
Wherein some grains may fall.

NEURALGIA AND SCIATICA

Caused by Starved Nerves Due
to Weak, Watery Blood.

People generally think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve of the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease is the same. The cause is the same, and the remedy, to be effective, must be the same. The pain of neuralgia, whether it takes the form of sciatica, or whether it affects the face and head, is caused by starved nerves. The blood, which normally carries nourishment to the nerves, for some reason or another does so and the excruciating pain you feel is the cry of the starved nerves for food. The reason why the blood fails to properly nourish the nerves is usually because the blood itself is weak and thin.

When you build up the thin blood with Dr. Williams' Pink Pills, you are attacking neuralgia, sciatica and kindred diseases at the root. As proof of the value of these pills in cases of this kind we give the statement of Mrs. Thomas McGuire, North Malden, Ont., who says: "I have been a severe sufferer from sciatica, which attacked the sciatic nerve in the left leg. At times the pain was most excruciating and as a result of the trouble there was a distinct shrivelling of the leg. I could only hobble about by using a cane, and if I attempted to walk to the fields I would have to sit down every little while to ease the agony I felt. I was under medical treatment, but as there was no improvement shown, I was getting very despondent, as the trouble was affecting my general health. Finally a friend advised me to try Dr. Williams' Pink Pills and I decided to do so. I took the pills faithfully for several months, finding a gradual and increasing improvement in my case, until finally every vestige of the trouble had gone, and I was again enjoying the blessing of good health and freedom from pain. What Dr. Williams' Pink Pills did for me seems almost a miracle and I hope that my experience may benefit some other sufferer."

If you are suffering from any ailment due to weak blood avail yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 by writing "The Dr. Williams' Medicine Co., Brockville, Ont."

An Island of Sulphur.

There is an island in New Zealand nearly three miles in circumference that is almost entirely composed of sulphur, mixed with gypsum and a few other minerals.

A piece of old velvet is an excellent substitute for chamois leather for all polishing purposes, and is much cheaper.

A Health Saving Reminder.

Don't Wait
until you get the Spanish Influenza. Use
Minard's Liniment

At the first sign of it. Its Healing Qualities are amazing. THE OLD RELIABLE.

MINARD'S LINIMENT CO., Limited,
Yarmouth, N.S.

Nothing Lost.
"My darling," said a fond mother, who believed in appealing to children's tender feelings instead of punishing them, "if you are so naughty you will grieve mamma so that she will get ill and have to lie in bed in a dark room and may die and have to be taken to the cemetery and be buried, and you—"

The child had become more solemn, but an angelic smile overspread his face at his mother's last words, and, throwing his arms about her neck, he exclaimed: "Oh, mamma, and may I sit beside the driver?"

France Repairing War's Ravages.
What labor can accomplish if inspired by the patriotic desire to reconstruct its wrecked homeland supported by an efficient system is shown by the figures issued by the French Government in connection with the work done on the railroads in the north of France since the armistice. On armistice day more than 1,900 miles of railroads, including every bridge, tunnel, station and workshop were completely destroyed, but to-day communication over all these lines has been re-established.

The Germans wrecked more than 600 railway bridges, of which 475 have been reconstructed, while 80 more will be completed this month. Five great viaducts, from 50 to 75 feet high and 300 yards long, destroyed by explosives, have been repaired, as well as the tunnels of Vauxhallon, Lafere and Quize, which were blown up by the departing enemy.

Mexico has had fifty-nine revolutions within sixty-one years.

BITS OF HUMOR
FROM HERE & THERE

There Was Hope.
Aged Aunt, despondently—"Well, I shan't be a nuisance to you much longer."

Nephew, reassuringly—"Oh, don't talk like that, Auntie, I'm sure you will."

Lesson in Business.

"Pop!"
"Yes, my son."
"What is a gardener?"
"A gardener is a man who raises a few things, my boy."

"And what is a farmer?"
"A man who raises a lot of things."
"Well, what is a middleman, Pop?"
"Why, he's a fellow who raises everything."

A Pertinent Question.
A young minister away from home went for a shave. The barber was talkative, and showed a friendly interest in the stranger, who was not dressed in clerical attire. "Stranger here, ain't you?" "Yes." "Travelling man?" said the barber. "No," said the parson. "Don't live here, do you?" "No."

"Where are you staying?" "Over at K—." "What do you do over there?" "I'm supplying the pulpit," said the parson. "Supplying the pulpit?" asked the barber, who had never heard this phrase before. "What with?"

When Baby is Sick—when he is cross and peevish; cries a great deal and is a constant worry to the mother—he needs Baby's Own Tablets. The Tablets are an ideal medicine for little ones. They are gentle but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation and indigestion, break up colds and simple fevers, and make teething easy. Concerning them, Mrs. Philippe Payen, St. Flavien, Que., writes: "Baby's Own Tablets have been a wonderful help to me in the case of my baby and I can strongly recommend them to other mothers."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WHEN BABY IS SICK

A Good Excuse.
The excuses offered by schoolboys are often laughable, perhaps none more so than those of two pupils of a country school, for being late. Asked why he didn't come when he heard the bell one boy said, "Please, sir, I was dreaming I was going to California, and I thought the school bell was the steamboat I was going on."

"You did, eh?" said the teacher. "And now sir, (turning to the second boy), 'what have you to say for yourself'?"

"Please, sir, I—I was just waiting to see Tom off," stammered the other.

Blinded Soldiers Publish Magazine.

A magazine for the blind which may possibly become one of the foremost Braille periodicals of the world, is being printed once every two weeks by a group of blinded and badly disabled soldiers in the Phare de France (Lighthouse of France), according to the annual report of the committee which has just been made public. The output of the plant for the last year was 3,365 books in Braille, 200 copies of English magazines and 8,400 of La Lumiere (The Light), the magazine for the blind.

Miss Winifred Holt, who founded the committee and has been directing the reeducation work among blinded soldiers in France for the last five years, describes the workings of the printing plant in the annual report. The staff includes a proofreader who, aside from being blind, is deaf, has only one leg and all but the index finger of one hand been amputated. Another proofreader suffered head wounds in battle which physicians declare will never heal. The book-binder is deaf and one legged.

Minard's Liniment for sale everywhere

In France, as in other countries, city-bred politicians are prone to contrast home agriculture with German, to the detriment of the home industry. A French agricultural society, irritated by such statements, and skeptical on the subject, has been making investigations, with the result that the German statistics as to yields are said to have been grossly exaggerated to satisfy German pride!

"SYRUP OF FIGS"
CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California Syrup of Figs" only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."

THE name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer!" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-acetic acid ester of salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Lift off Corns!

Doesn't hurt a bit and Freezons costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

"All true friendliness begins with fire and food and drink and the recognition of rain or frost."—G. K. Chesterton.

Tokio, the capital of Japan, is to have an underground railway.

FACE DISFIGURED WITH PIMPLES
Itched and Burned. Scarcely Slept. Cuticura Heals.

"Pimples affected my face. They were large and always itched, and they were scattered all over my face. They afterwards turned into scales and when they fell off they left big marks until my face was disfigured. They itched and burned so that I scarcely slept at all."

"I had been bothered for nearly two months before I started using Cuticura, and after I had used three boxes of Cuticura Ointment with the Cuticura Soap I was completely healed." (Signed) Miss L. Burns, St. Basile, Que., June 6, 1918.

Use Cuticura Soap, Ointment and Cuticura for all toilet purposes.

See 25c Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Empire, Limited, St. Paul St., Montreal.

Cuticura Soap shares without measure.

The Transcript.

THURSDAY, JUNE 3, 1920

NEWBURY

Ed. Gosden spent a day in London last week with his wife at the Ontario Hospital.

Shirley Hall, a Newbury boy who is now conducting a large summer hotel at Lake of Bays, was calling on friends in town on Friday, being the guest of D. J. Batsner.

A. P. Campbell of Peace River, Alberta, was in town on Monday on his return West from a trip to Ottawa.

Mr. Lawler of the hydro commission was in town on Monday. The necessary by-laws are being prepared for publication and things are going along finely.

There have been some little differences over the hydro business in the village but we trust no one will be aggrieved and all will stand together.

A village divided against itself is sure to fall. Let us each think before we speak, and take for our motto "Our village interests first."

Court of revision was held on Monday night. A few minor changes were made and court adjourned till Monday, June 7th.

W. H. Grant of Windsor spent the week-end here after returning from Duluth where he had been called by the serious illness of his mother-in-law, Mrs. E. Fenby. Mrs. Fenby's friends will be pleased to know she is improving nicely.

Miss Pearl Robinson was home from London for two weeks.

Mrs. Hammett spent the week-end in Elmwood with Mr. Hammett.

The once fine Masonic Hall, later known as the Mitchell building, is now nothing but a memory. W. H. Parnall bought it and has taken it down. The frame was made of big, old fashioned timbers.

Dr. A. P. Owens was in Toronto last week attending the Ontario Medical Association.

Miss Myrtle Prangley has taken a position in R. J. Petch's office.

Master Glen McCreedy is making a splendid recovery from his recent operation.

The Junior room in the school was closed last week owing to the illness of Miss Mamie Fennell, the teacher.

Ed. Crimm and family of Sarnia and Mrs. Wedge and daughter Alice and Miss Bertha Crimm and Mrs. Murray of Detroit visited their mother, Mrs. Crimm, over the week-end.

Among week-end visitors in town were Misses Annie E. Mabel and Ann J. Connelly and Winnie Archer from Detroit.

Noble Hurdle has his new garage about completed. One coat of paint is on. It is quite a creditable building, 60 x 120 feet, on the corner of Hagerty and Dundas streets.

Miss Frances Vanduzer of Toronto Hospital is home for a two weeks' vacation.

Mr. and Mrs. Ed. Hoxie of Detroit spent the week-end at her father's, B. F. Jeffery's.

Miss Anna Fennell of Harper Hospital, Detroit, spent Monday with her parents here.

The Church of England held a meeting Monday evening at which it was decided to hold their annual garden party Friday, June 25. Ads and posters will give details of attractions.

CASHMERE

Mr. and Mrs. Arthur Davis and son and daughter of Detroit, formerly of Cashmere, spent Sunday with relatives here.

Mr. and Mrs. Edwin Hoxie of Detroit spent Sunday with the latter's sister, Mrs. Calvin Sittler.

Mr. and Mrs. Leslie Sullivan and family of Palmera spent a few days of last week with Mrs. Sullivan's parents, Mr. and Mrs. Jonathan Saylor.

The Willing Workers met at the home of the president, Mrs. Calvin Sittler, on Saturday, May 29. They have decided to hold a lawn social on Thursday, June 24. Particulars will be given at some future date.

An accident occurred on Saturday evening when a car ran into a buggy driven and owned by Angus Taylor. Three wheels were taken off the buggy and Mr. Taylor got quite a shaking up, while one of the ladies in the car was thrown out and hurt, perhaps seriously, it is not yet known.

Owing to Dr. Husser, the pastor, going to Conference next week, Henry Brinston of Wardsville will take the services here on Sunday.

League as usual on Wednesday at 8 p. m. The topic will be on special prohibition literature.

Mrs. Calvin Sittler spent Monday at her home in Newbury.

NORTH EKFRID

Anniversary services will be held here on Sunday, June 13, at 2.30 and 8 o'clock, and the following Monday evening there will be a garden party.

We are sorry to hear that Mrs. Hiram Carman has been very ill. She is now recovering.

A Roemmele and family motored to London Sunday, May 23, and called on old acquaintances.

The Swastika Mission Band will hold their monthly meeting on June 2 at the home of Miss Lizzie Down.

Mrs. Robert Pierce, Mrs. Ori Pierce and Mrs. Ben Patterson went to London from Longwood Friday morning, got on the wrong train coming home and landed at Strathroy in the evening.

A miscellaneous shower will be held at the home of Wm. Chisholm Tuesday evening in honor of his daughter, Violet, prior to her marriage.

George Chisholm and family motored to St. Thomas and spent Sunday with Mr. and Mrs. A. I. Howe.

Henry Howe is driving a new Gray-Dort special.

Roy Brothers of Detroit is spending the week-end with Miss Ella Mills.

Mr. and Mrs. Oney Ramey of Melbourne made a brief visit to North Ekfrid Saturday evening.

Miss Ila Roemmele spent the week-end with her parents.

We are sorry to learn that George Pettit is home suffering with boils and is under the doctor's care.

Charles Kettlewell and family of Strathroy spent Sunday with Mr. and Mrs. John Kettlewell of Metcalfe.

The sacrament of the Lord's Supper was dispensed in the Presbyterian church on Sunday, with a large attendance.

Charles Roemmele and family motored to London Sunday.

NEWBURY CASH STORE

Plaid Dress Gingham, 55c.

Brown and White Cottons and White Cambric at reasonable prices.

Men's Summer Underwear

W. H. PARNALL

NEWBURY

WARDSVILLE

Miss Maggie McVicar of Detroit spent the week-end with her sisters here.

Mrs. Henderson and family of Detroit spent a couple of days with Mrs. C. Minna this week.

Mr. and Mrs. Hill of St. Petersburg, Florida, are visiting the latter's sister, Miss Aitchison.

Will Minna of Windsor is at home for a few days.

Miss Cassie Faulds is visiting friends in Windsor.

A large number from here attended council in Glencoe on Saturday.

Mr. and Mrs. R. L. McAlpine visited one day last week at A. B. McLachlin.

Miss Turner of Brooke spent the week-end with her uncle, John F. McTavish.

Mrs. Morrison and Miss Kathleen Morrison, Brooke, were at D. C. McTavish's recently.

Mr. and Mrs. Angus Campbell have moved to their new home in Brooke.

Mrs. Ethel Livingstone and daughter, Mrs. Joe McTaggart, Alvinston, spent some time at the bedside of the former's sister, Mrs. Nancy Ferguson, who we are glad to say is now a little better.

WALKERS

The president of the Red Cross Society of Walkers has received the following letter from a French officer:

Troyes, Feb. 22, 1920.

Madame.—While in Hospital 34 at Troyes (an old Canadian hospital), I received two pyjamas. When putting on one of these garments I perceived the noise of a rustling of paper. My curiosity was awakened and I tore open the inside pocket whence this rustling came and I found in it the accompanying note.

Replying to the request which is made in the note, I take the liberty in consequence to address the following letter to you.

First of all, I shall satisfy your legitimate request by telling you that the pyjamas in question (doubtless finished by your care) please me greatly.

The material in them is warm and of a becoming colour; as for the fit, it is perfect and gives the desired effect. Therefore, my thanks are owed you.

Since this occasion provides me the pleasure of writing you, permit me, madam, to express here the admiration of a French officer for your fine country and the gratitude that he has for it, for the precise concourse given to France during the war. Words are not strong enough to express this admiration and gratitude.

Being a health officer, I shall speak more particularly of the Canadian corps of health service sent to France, for I have had the occasion to appreciate more especially this service.

However, it would be painful to me to pass over in silence the fighting Canadian army which was to us so precious in the difficult moments and which has clothed itself in an undying honor on our battlefields.

For this elect corps my respect and my remembrance ever remain, and I salute respectfully those of your soldiers who have gloriously fallen defending our Fatherland against the invader.

My salute also goes to the Canadian Expeditionary Force of orderlies, of nurses and of doctors, which has shown during the whole duration of hostilities so much devotion and heroism, be it on the line of battle or in the dressing stations of the interior. Service organized in a perfect way, devotion, time on the part of all men and women to our beloved wounded and sick, where the most outstanding care was lavished upon them. Being present in the Canadian Hospital 34 at Troyes during the great offensives which filled this important establishment with wounded, I myself have been able to take account of the accuracy, expended and of the devotion which never departed for a single moment. He who like myself has been able to see can not forget, and that is why today I address to your noble country the expression of my deep gratitude. To mine is joined that of all Frenchmen.

One word more of thanks to you, particularly madame, and to those who, like you, have thought of us during the war by sending us to us clothes which were so useful to us. I am glad, madame, to have discovered your note, which gave me the occasion to express to you my sincere feelings for your country. Believe, madame, in the assurance of my deep respect.

DUBUS.

P. S.—I remain at your entire disposal for what you might need in France.

(Dubus, Henri—Officer of the Administration of the Service of Health, Manager of the Special Corps of Reform at Troyes, on the Don.)

SHIELDS SIDING

Mr. and Mrs. McElride made a business trip to London one day last week.

Miss Isabelle McAlpine and friend of Brooke spent the week-end at Miss McAlpine's home here.

John Dewar of Aldboro, Miss. Kate McDougal of Brown City, Mich., and Miss Maggie McDougal of Iowa spent last week at A. J. Parnall's.

Mr. and Mrs. A. D. Ferguson spent Sunday at the home of her parents, Mr. and Mrs. Howie, Brooke.

A large number from here attended council in Glencoe on Saturday.

Mr. and Mrs. R. L. McAlpine visited one day last week at A. B. McLachlin.

Miss Turner of Brooke spent the week-end with her uncle, John F. McTavish.

Mrs. Morrison and Miss Kathleen Morrison, Brooke, were at D. C. McTavish's recently.

Mr. and Mrs. Angus Campbell have moved to their new home in Brooke.

Mrs. Ethel Livingstone and daughter, Mrs. Joe McTaggart, Alvinston, spent some time at the bedside of the former's sister, Mrs. Nancy Ferguson, who we are glad to say is now a little better.

CAIRO

A public meeting was held in the town hall on Monday evening last to present medals to the following returned soldiers:—V. K. Annett, Wayne Elliott, Roy Elliott and Duncan McGillivray—three boys who were unable to attend the presentation a year ago.

The ladies of the Red Cross Society furnished an excellent repast, after which a lengthy program was arranged of addresses, recitations, vocal and instrumental music, and finally the presentation of medals. A very pleasant evening was enjoyed by all.

Donald Mitchell of Glencoe visited his cousin, D. M. Smith, during the week.

Mr. and Mrs. R. S. Longley returned on Thursday after spending a few days with friends in Arkona.

On Wednesday a Sunday school convention was held in the Presbyterian church. Two sessions were held, one in the afternoon and one in the evening. Among those who gave addresses were Revs. Streeter and Bernard of Florence, Rev. A. E. Waghorne of Bojwell, Miss Taggart of Toronto, C. Atkins of Bothwell and the president, B. W. Fansher. A most interesting time was enjoyed.

Mr. and Mrs. Mac. Smith of Detroit are visitors at the home of their son-in-law, John Temple, on Sunday.

Mr. and Mrs. Stuart Smith, little daughter of Detroit are spending a few days among friends here at present.

William Curran of Chatham spent Sunday at the home of his brother John.

MELBOURNE

A number of the Oddfellows from this lodge attended services in Kerwood last Sunday, and motored over to Strathroy to attend a special meeting there on Wednesday evening.

A number of our citizens attended a barn raising a few days ago on Mr. Noek's farm, 1 1/2 miles north of the village. The framer was Dougald Black of Appin. The barn is on a concrete foundation 38 x 84. About 125 men were present, some returning the following day to complete the work, which was delayed the first day by a shower of rain.

Mr. and Mrs. Ernest Cawthorpe of Strathroy called on friends here recently.

Mrs. Thompson of Strathroy was the guest of relatives here a few days ago.

Miss Emily Clarke has returned to her home in Strathroy after a short visit with friends in this village.

Mac. Wellman of London spent a few days in town recently.

Miss B. C. Buchanan has been appointed to attend the Rebekah assembly which will be held in London June 10.

Mrs. Graham of Detroit has returned home after a visit with her sister, Mrs. John T. McLean, Ekfrid.

John Lee of London called on friends here recently.

The members of Anna Rebekah Lodge of this village entertained the sisters from Stella Lodge of Mount Brydges on Friday evening, May 21st, about forty being present. The visiting sisters conferred the degree work in a very creditable manner. At the close refreshments were served by the members of Anna Lodge.

Although the closing hour was late everyone felt that the gathering was well worth while.

We are pleased to report that Mrs. George Richards, who has been ill for a few weeks, is now improving.

Mrs. Wilson Richards, who has been ill for some time, although somewhat improved, is not improving as rapidly as her many friends would wish.

J. J. Morrison of Toronto and Harold Currie addressed a large gathering here on Friday evening in the interest of the U. P. O.

Edward Nicholls of Toronto is spending a few days here the guest of George Bees.

MOSA

The ride club of No. 9, Mosa, met at Peter McNeill's, Metcalfe, on Saturday last.

W. Bayne and family spent the 24th at Jas. Douglas's.

Roy Bailey spent Sunday with friends in this vicinity.

Dr. D. F. McLachlin of Windsor visited his father here last week.

Mr. and Mrs. William Moore and the little daughter Cora and Mrs. Whalen motored from Detroit and called on friends in this vicinity on Sunday last.

Hugh R. McAlpine and sister Drina of Shields visited at A. B. McLachlin's on Saturday last.

Miss Helen Douglas has returned home after spending some weeks with her brother at Windsor.

EKFRID STATION

Mr. and Mrs. W. P. Cornell and family, P. P. Cornell, Miss Letitia Cornell and Miss Frances Wynn spent Sunday with friends in Duart.

Jim and Duncan Black motored up and spent Sunday at their home here.

Mr. and Mrs. Cavalier are visiting with Mr. and Mrs. Alfred Skinner.

Alex. McDonald is installing electric lights in his home.

KILMARTIN

Mr. and Mrs. John H. McFarlane of Detroit, who spent two weeks with friends here, returned to their home on Saturday last.

Peter Ferguson, Detroit, called at Donald McViegor's while on a visit to friends in this place.

A Gaelic service will be held in Burns' church, Mosa, next Sabbath at 11 a. m., conducted by Rev. Mr. McKillop of Tait's Corners, who will also conduct the usual service at 7.30 p. m.

The Motorist's Best Friend

ANYONE can say "the best." It means nothing unless you know who says it. In this case it is the Oldest Service to Automobile Owners in America, and when they say the Prest-O-Lite Storage Battery is "best by test" it means just that.

—"best" because it has more "pep" and power, more endurance for the daily grind.

—"best" because it is backed by the kind of service that keeps troubles away—service that satisfies.

But whether you carry "the best" battery or not, we will keep your battery in better condition if you will let us inspect it from time to time. No charge for this service.

We have competent battery men ready to recharge or repair all makes of batteries.

This is the best place in town at which to unload your battery troubles. Given a chance, we'll prove it to you.

OFFICIAL PREST-O-LITE SERVICE STATION

W. B. Mulligan

Auto, Tire and Battery Service Garage, Glencoe

Mrs. Mary McLarty, Bothwell, is the guest of Mrs. John Secord.

Mrs. Duncan Dewar of St. Thomas, Misses Margaret and Edith Dewar of Detroit and Mr. and Mrs. Donald Mitchell and family of Brooke, spent the week-end at Alex. Dewar's.

APPIN

The May meeting of the Women's Institute was held at Mrs. Peter McArthur's with a good attendance. Arrangements were made to entertain the Middlemiss Institute on the afternoon of June 14th, which is the date of the summer meeting. The speaker for this occasion will be Mrs. Charles Macoun of Campbellford and the Institute will hold its meeting at Mrs. Dan McColl's, Ekfrid. A short program will be given and lunch will be served by the members of the Appin Women's Institute. All members please remember the date—June 14th, at 2.30 p. m.
