The Honourable
The Speaker of the Senate.

After some time the House was resumed.

His Excellency the Right Honourable Sir Frederick Arthur Stanley, Baron Stanley of Preston, in the County of Lancaster, in the Peerage of the United Kingdom, Knight Grand Cross of the Most Honourable Order of the Bath, Governor-General of Canada, being seated in the Chair on the Throne.

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House,—“It is His Excellency's pleasure they attend him immediately in this House.”

Who being come with their Speaker,

His Excellency the Governor General was then pleased to open the Session by a gracious speech to both Houses.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

In meeting you at the commencement of another session of Parliament, it affords me pleasure to congratulate you on the continued progress which the history of the past year unfolds with regard to Canada.

The increase in trade, as illustrated by the exports and imports during the period for which the official returns have been prepared, has been most gratifying, and that increase has continued down to the present time, with promise that the volume of trade during the current year will exceed that of any year in the history of the Dominion.

The revenues of the country have likewise provided for all the services for which Parliament has made appropriation, and the operation of the Government railways has been less burdensome, as regards the difference between income and expenditure, than has been the case for a long term of years previously.

In Manitoba and the North-west Territories the increase in immigration has been decidedly encouraging, both as regards the number of persons who have come from other countries and as regards the number of homestead entries made by settlers of all nationalities.

Measures have been taken to carry into effect the agreements arrived at with the United States on the subjects of the boundary of Alaska, the boundary line in Passamaquoddy Bay, and the prevention of destructive methods of fishing and the preservation and increase of fish life. With regard to reciprocity in wrecking and towing, a correspondence has taken place which indicates that privileges are demanded for United States vessels in Canadian canals, which were not anticipated, but it is not impossible that a satisfactory conclusion of the discussion may yet be reached.

During the recess a friendly conference took place between delegates from my Government and from the Government of Newfoundland on the questions which were pending between the two countries. It is hoped and expected that the interchange of views which then took place will be productive of beneficial results and lead to an amicable adjustment of those questions.

The Statutes of 1887 relative to a Department of Trade and Commerce and to the office of Solicitor-General having been brought into force, the appointments were made which were contemplated by these Acts.

It is to be regretted that the Government of the United States were unable to accept the suggestions made by my Government on the subject of canal tolls, and that the President should have thought it necessary to impose exceptional tolls on Canadians using the Sault Sainte Marie Canal, which has so long been free to the people of both countries. My Government, while ready to consider in a friendly spirit any proposals which may be made by the Government of the United States, have caused efforts to be made to hasten the completion of the Canadian canal works, which will soon afford to the commerce of the Dominion a highway within our own country.

Measures will be laid before you for the improvement of the Franchise Act, for the amendment of the laws relating to the Civil Service, and the superannuation of civil servants, for regulating the admission of evidence in causes and matters under the control of the Parliament of Canada, for extending the system of voting by ballot to the North-west Territories, and for simplifying the laws relating to lands and land transfers in the Territories.

Gentlemen of the House of Commons :

The Public Accounts of the past year and the Estimates for the ensuing year will be laid before you without delay, and I trust it will be seen that ample provision may be made for the public service without increasing taxation.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I have every confidence that all these matters will receive your best attention and that your deliberations will keep in view, above all other considerations, the welfare and stability of the country.

His Excellency the Governor-General was pleased to retire, and the House of Commons withdrew.

The Honourable Mr. Bowell, Minister of Trade and Commerce, presented to the House, a Bill intituled: "An Act relating to Railways."

The said Bill was read for the first time.

The Honourable the Speaker reported His Excellency's Speech from the Throne, and the same was then read by the Clerk.

On motion of the Honourable Mr. Bowell, seconded by the Honourable Mr. Angers, it was

Ordered, That the House do take into consideration the Speech of His Excellency the Governor-General, on Monday next.

On motion of the Honourable Mr. Bowell, seconded by the Honourable Mr. Angers, it was

Ordered, That all the Members present during this Session be appointed a Committee to consider the Orders and Customs of this House and Privileges of Parliament, and that the said Committee have leave to meet in this House, when and as often as they please.

The Honourable Mr. Bowell moved, seconded by the Honourable Mr. Angers, That when the House adjourns this day it do stand adjourned until Monday next, at three o'clock in the afternoon.

The question of concurrence being put thereon, the same was resolved in the affirmative, and

Ordered, accordingly.

Then, on motion of the Honourable Mr. Bowell, seconded by the Honourable Mr. Angers,

The House adjourned until Monday next, at three o'clock in the afternoon.

The same was then read by the Clerk, as follows :—

TO THE HONOURABLE THE SPEAKER OF THE SENATE.

The Joint Librarians of Parliament have the honour to report as follows for the year 1892.

During the recess the Department of Public Works, acting on the recommendation of the Library Committee, introduced the electric light into the Library. It

is hoped that this will be found to be an improvement, giving better light, less heat, and rendering the upper galleries more accessible during the evenings.

The shelves in the Canadian section having become overcrowded, the Librarians have resolved to give that section more room by removing the French Belles Lettres to other quarters in the Library.

A considerable number of old Canadian newspapers and works out of print, have been added to the Library since the last Session.

The Librarians have taken advantage of the large number of valuable books published during the Columbian Centennial period, to secure the best works on the discovery and early history of America.

Efforts were made during the year to extend the exchange list of the Library with British Colonies and the States of the American Union, and the department of Colonial and State documents, though not without gaps, is in a condition of practical usefulness.

The department devoted to trade statistics, trade publications, and reports of Chambers of Commerce, has received its usual additions, and will be found serviceable to members.

A copy of the rules adopted by the Library Committee at its last meeting, has been sent to each member, and a placard containing them has been placed in each alcove. These rules, if followed, will have the effect of rendering the Library more useful to Parliament.

The list of donations to the Library during the year is attached hereto.

Among the noticeable items is the valuable medal presented by the City of London, in commemoration of the visit of His Imperial Majesty the Emperor of Germany.

A list of copyrights is appended hereto.

All of which is respectfully submitted.

Pursuant to the Order of the Day, the House resumed the adjourned Debate on the Honourable Mr. Ferguson's motion, viz. :—

That the following Address be presented to His Excellency the Governor-General, to offer the respectful thanks of this House to His Excellency for the gracious Speech he has been pleased to make to both Houses of Parliament, namely :—

To HIS EXCELLENCY the Right Honourable Sir FREDERICK ARTHUR STANLEY, Baron Stanley of Preston, in the County of Lancaster, in the Peerage of the United Kingdom, Knight Grand Cross of the Most Honourable Order of the Bath, Governor-General of Canada.

MAY IT PLEASE YOUR EXCELLENCY :—

We, Her Majesty's dutifull and loyal subjects, the Senate of Canada in Parliament assembled, humbly thank Your Excellency for your gracious speech at the opening of this Session.

We rejoice that Your Excellency, in meeting us at the commencement of another Session of Parliament, has the pleasure of congratulating us on the continued progress which the history of the past year unfolds with regard to Canada.

We are glad to learn from Your Excellency that the increase in trade, as illustrated by the exports and imports during the period for which the official returns have been prepared, has been most gratifying, and has continued down to the present time, with promise that the volume of trade during the current year will exceed that of any year in the history of the Dominion.

It affords us much pleasure to hear that the revenues of the country have likewise provided for all the services for which Parliament has made appropriation, and that the operation of the Government railways has been less burdensome, as regards the difference between income and expenditure, than has been the case for a long term of years previously.

We are also gratified to hear that in Manitoba and the North-west Territories the increase in immigration has been decidedly encouraging, both as regards the number of persons who have come from other countries and as regards the number of homestead entries made by settlers of all nationalities.

We thank Your Excellency for informing us that measures have been taken to carry into effect the agreements arrived at with the United States on the subjects of the boundary of Alaska, the boundary line in Passamaquoddy Bay, and the prevention of destructive methods of fishing and the preservation and increase of fish life. We are glad to be informed further, with regard to reciprocity in wrecking and towing, that though a correspondence has taken place which indicates that privileges are demanded for United States vessels in Canadian canals, which were not anticipated, it is not impossible that a satisfactory conclusion of the discussion may yet be reached.

We hear with great interest the announcement that during the recess a friendly conference took place between delegates from Your Excellency's Government and from the Government of Newfoundland, on the questions which were pending between the two countries, and that it is hoped and expected that the interchange of views which then took place will be productive of beneficial results and lead to an amicable adjustment of those questions.

We thank Your Excellency for the information that the Statutes of 1887 relative to a Department of Trade and Commerce and to the office of Solicitor-General having been brought into force, the appointments were made which were contemplated by these Acts.

We respectfully concur in Your Excellency's regret that the Government of the United States were unable to accept the suggestions made by your Government on the subject of canal tolls, and that the President should have thought it necessary to impose exceptional tolls on Canadians using the Sault Sainte-Marie Canal, which has so long been free to the people of both countries. We hear with satisfaction that Your Excellency's Government, while ready to consider in a friendly spirit any proposals which may be made by the Government of the United States, have caused efforts to be made to hasten the completion of the Canadian canal works, which will soon afford to the commerce of the Dominion a highway within our own country.

We respectfully thank Your Excellency for informing us that measures will be laid before us for the improvement of the Franchise Act, for the amendment of the laws relating to the Civil Service and the superannuation of civil servants, for regulating the admission of evidence in causes and matters under the control of the Parliament of Canada, for extending the system of voting by ballot to the North-west Territories, and for simplifying the laws relating to lands and land transfers in the Territories.

Your Excellency may have every confidence that all these matters will receive our best attention and that our deliberations will keep in view, above all other considerations, the welfare and stability of the country.

After Debate.

It being Six o'clock, His Honour the Speaker left the Chair to resume the same at half-past Seven o'clock.

7.30 P.M.

The House, according to Order, resumed the adjourned Debate on the aforesaid motion of the Honourable Mr. Ferguson for an Address in answer to the Speech from the Throne of His Excellency the Governor-General.

After further Debate.

The question of concurrence being put thereon, it was unanimously resolved in the affirmative.

Then, on motion of the Honourable Mr. Bowell, seconded by the Honourable Mr. Angers,

The Honourable Mr. Tassé moved, seconded by the Honourable Mr. Montplaisir,—That an humble Address be presented to His Excellency the Governor-General; praying that His Excellency will cause to be laid before this House, informatiou, accompanied with full explanatory remarks, from the officer in charge of the direction and superintendence of the last Canadian Census of 1891, on the following points :—

1. Was the enumeration of the French element of the population, in the taking of the Census of 1891, intended and carried on to convey the same information as was furnished by the previous Census of 1851 and 1861 of the former Province of Canada, and of the Canadian Census of 1871 and 1881?

2. What was the meaning intended and the interpretation given, in the taking of the Census of 1891, to the words *French-Canadian* and *Canadian-French* as heading of one of the columns of Census Schedule No. 1?

3. What is the precise meaning and what is to be understood by the various words made use of in the Census Bulletin No. 11, signed George Johnson, Statistician, namely, the words *Nationalities*, *Nationalités*, French-speaking, English-speaking, *Canadiens-Anglais*, as part of the new nomenclature adopted?

4. Were there people of French nationality, real Frenchmen, excluded from the registration of the French element of the population on account of being born outside of Canada, and were there French people included among the English-speaking on account of being able to speak the English language? Is there any connection between such cases and the nomenclature of Bulletin No. 11, and if not, why is it that the simple word French, formerly used as meaning the French element, was abandoned, to be variously replaced by the words French-speaking, French-Canadians, and so forth?

5. What were, in addition to the printed instructions, the practical explanations and directions given to the Officers, Commissioners and Enumerators, as regards the registration of the French element of the population, or persons of French origin or nationality?

6. Was the actual enumeration of the French, in 1891, uniformly carried on throughout, in the various Census Districts, Sub-Districts and Divisions?

7. Are there reasons to apprehend, from direct investigation, personal knowledge, or statistical criticism, that the figures given as representing the number of French people, are notably deficient in some or many returns of the enumeration of 1891?

8. Were the returns delivered by the Enumerators examined by the Commissioners, the Officers, and at the Central Office under the supervision, the responsibility of the Superintendent, in view to test their accuracy and to correct apparent errors?

9. Was it noticed by some of the officers or the Superintendent, that very serious discrepancies existed in the return of the French between the Census of 1891 and the statistical series of previous censuses, and was thereby trouble taken to investigate the serious question raised by the very striking want of concordance?

10. Is there any rational explanation of the returns of 1891 by which the French appear to have met abnormous losses in their number, especially in Nova Scotia, Ontario and the Territories?

11. Are there local or accidental causes capable of explaining the vast differences in the multiplication of the French which would have taken place, if the figures of the Census of 1891 were correct, between Prince Edward Island, New Brunswick and Nova Scotia, for instance?

12. Was there, at any time, steps taken to ascertain the cause and extent of such extraordinary returns; if not, what was the cause of that omission; if so, what were the proceedings adopted, and what the results?

13. Has the Superintendent of the Census of 1891 taken notice of the very determined objection to accept the extraordinary figures of 1891, as representing

the actual number of the French in Canada, and has any serious investigation of this important question been undertaken by him; if so, what are the conclusions arrived at, including the statistical criticism involved?

14. And that the said information include all the instructions given to the enumerators in the several years, 1881 and 1891, be brought down with the return.

The question of concurrence being put thereon, the same was resolved in the affirmative, and it was

Ordered, That the said Address be presented to His Excellency the Governor-General by such Members of this House as are Members of the Privy Council.

Then, on motion of the Honourable Mr. Bowell, seconded by the Honourable Mr. Angers,

Of the Legislative Assembly of the Province of Manitoba; praying for the passing of a law prohibiting the importation, manufacture and sale of intoxicating liquor, as a beverage, into or in the Province of Manitoba.

The Honourable Mr. McKay, from the Select Committee appointed to examine and report upon the Contingent Accounts of the Senate, presented their Second Report.

Ordered, That it be received, and

The same was then read by the Clerk, and it is as follows:—

COMMITTEE ROOM No. 2,

MONDAY, 27th March, 1893.

The Select Committee appointed to examine and report upon the Contingent Accounts of the Senate for the present Session beg leave to make their Second Report, as follows:—

1. Your Committee have examined the accounts of the Clerk of the Senate for the fiscal year ended 30th June, 1892, and find them correct.

2. The amounts received by him during the year are shown by the accounts, as follows:—

Letters of Credit and Bills of Exchange	\$218,498 23
Cash from all sources.....	2,016 74

Total..... \$220,514 97

The Clerk has accounted for the above to the satisfaction of Your Committee, as follows:—

Amount of cheques issued (after deducting amount of cheques returned and cancelled)	\$209,167 95
Amount of Bills of Exchange remitted	191 10
Amount of cash deposited to the credit of the Receiver-General.....	1,762 19
Amount of cash remitted to Provincial Gazettes on account of the House of Commons.	254 55
Balance in Bank cancelled by the Auditor-General at the close of the year.....	9,139 18
	\$220,514 97

The vote for stationery for the year 1892-93 was \$5,988, out of which \$4,897 have been expended up to this date, leaving a balance unexpended of \$1,091, which will on the 30th June next lapse and be returned to the Consolidated Revenue Fund.

As the Session has been comparatively short, the quantity of stationery used has been less than in ordinary years. There is on hand at the present time stationery to the value of about \$2,000, a portion of which, however, is old stock, acquired many years ago, and only gradually being used.

The Committee do not recommend any material change in the quality and varieties to be purchased for next year, as these seem to have met with the approval of Senators generally.

A list of the articles, with their prices, to be ordered for the coming year's supply has been approved by Your Committee and deposited with the Stationery Clerk. Your Committee recommend that this stationery be ordered according to the said list and that the distribution be made in a way similar to that of the present year.

Your Committee recommend that when requisitions are sent in to the Clerk for additional stationery the amounts be entered in a book kept for that purpose, and charged against the Senator making the requisition, the book to be open at all times to the inspection of Senators.

Your Committee also recommend that the estimate for next year's supply be fixed at \$5,988, that being the amount of the estimate for the last two years.

3. Your Committee recommend that Room No. 28 be placed again temporarily in charge of the Clerk of the Stationery Branch, to be used while vacant, for the purposes of that branch.

4. It having been brought to the notice of Your Committee that the rules with respect to the use of the reading-room are not strictly observed, they recommend that these rules should in future be enforced.

5. Your Committee recommend that, as in past years, the sum of \$100 be placed at the disposal of the Select Committee appointed to assist His Honour the Speaker in the management of the restaurant, in order to pay for necessary assistance and supervision of the restaurant.

6. Your Committee recommend that the Sessional Messengers be paid the sum of \$250 for their services during the present Session.

All which is respectfully submitted.

THOS. McKAY,
Chairman.

The Honourable Mr. Angers, Minister of Agriculture, presented to the House,— A Return to an Address of the Senate, dated 6th February, 1893, for information, accompanied with full explanatory remarks, from the officer in charge of the direction and superintendence of the last Canadian Census of 1891, on the following points:—

1. Was the enumeration of the French element of the population, in the taking of the Census of 1891, intended and carried on to convey the same information as was furnished by the previous Census of 1851 and 1861 of the former Province of Canada, and the Canadian Census of 1871 and 1881?

2. What was the meaning intended and the interpretation given, in the taking of the Census of 1891, to the words *French-Canadian* and *Canadian-French* as heading of one of the columns of Census Schedule No. 1?

3. What is the precise meaning and what is to be understood by the various words made use of in the Census Bulletin No. 11, signed George Johnson, Statistician, namely, the words *Nationalities*, *Nationalités*, French-speaking, English-speaking, *Canadiens-Anglais*, as part of the new nomenclature adopted?

4. Were there people of French nationality, real Frenchmen, excluded from the registration of the French element of the population on account of being born outside of Canada, and were there French people included among the English-speaking on account of being able to speak the English language? Is there any connection between such cases and the nomenclature of Bulletin No. 11, and if not, why is it that the simple word French, formerly used as meaning the French element, was abandoned, to be variously replaced by the words French-speaking, French-Canadians, and so forth?

5. What were, in addition to the printed instructions, the practical explanations and directions given to the Officers, Commissioners and Enumerators, as regards the registration of the French element of the population, or persons of French origin or nationality?

6. Was the actual enumeration of the French, in 1891, uniformly carried on throughout, in the various Census Districts, Sub-Districts and Divisions?

7. Are there reasons to apprehend, from direct investigation, personal knowledge, or statistical criticism, that the figures given as representing the number of French people, are notably deficient in some or many returns of the enumeration of 1891?

8. Were the returns delivered by the Enumerators examined by the Commissioners, the Officers, and at the Central Office under the supervision, the responsibility of the Superintendent, in view to test their accuracy and to correct apparent errors?

9. Was it noticed by some of the Officers or the Superintendent, that very serious discrepancies existed in the return of the French between the Census of 1891 and the statistical series of previous censuses, and was thereby trouble taken to investigate the serious question raised by the very striking want of concordance?

10. Is there any rational explanation of the returns of 1891 by which the French appear to have met abnormal losses in their number, especially in Nova Scotia, Ontario and the Territories?

11. Are there local or accidental causes capable of explaining the vast differences in the multiplication of the French which would have taken place, if the figures of the Census of 1891 were correct, between Prince Edward Island, New Brunswick and Nova Scotia, for instance?

12. Was there, at any time, steps taken to ascertain the cause and extent of such extraordinary returns; if not, what was the cause of that omission; if so, what were the proceedings adopted, and what the results?

13. Has the Superintendent of the Census of 1891 taken notice of the very determined objection to accept the extraordinary figures of 1891, as representing the actual number of the French in Canada, and has any serious investigation of this important question been undertaken by him; if so, what are the conclusions arrived at, including the statistical criticism involved?

14. And that the said information include all instructions given to the Enumerators in the several years, 1881 and 1891, be brought down with the return.

Ordered, That the same do lie on the Table, and it is as follows:—

“An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1893, and the 30th June, 1894, and for other purposes relating to the Public Service,”—

To this Bill the Clerk of this House, by His Excellency’s command, did thereupon say:—

“In Her Majesty’s name, His Excellency the Governor-General thanks Her Loyal Subjects, accepts their benevolence, and assents to this Bill.”

His Excellency the Governor-General was then pleased to deliver the following Speech:—

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

In relieving you from attendance in Parliament for this year, I congratulate you upon the energy and promptitude with which you have disposed of the duties of the session just ended.

The assembly at Paris of the Behring Sea Arbitration Tribunal gives reason to hope that the differences which have existed between the Government of the United States and the Government of the Dominion are approaching a satisfactory adjustment, while the nomination of the Prime Minister of Canada as one of the arbitrators affords a guarantee that the interests of our sealers will be properly though not unduly safeguarded.

The treaty of commerce which was negotiated with France on behalf of Canada has been laid before you together with the correspondence which passed during the negotiations; but owing to the late period of the session at which the treaty was received, and the pendency of communications as to its bearing in respect of most-favoured-nation treatment and the interpretation of certain of its clauses, my Government has thought it advisable to postpone for the present its ratification by Parliament.

I thank you for the ample provisions you have made to protect the country from the possible introduction of cholera, and I trust that the precautions taken will result in guarding against any danger from that source.

The liberal provisions made for the proper representation of Canada at the World's Columbian Exposition will, I doubt not, enable this country to make a worthy exhibit of her resources and progress among the nations of the World.

The various Acts which you have placed upon the Statute-book will contribute to the maintenance of public security and the continued progress of the Country.

Gentlemen of the House of Commons :

I thank you for the liberal provisions you have made for the requirements of the public service.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I feel with deep regret that the period of my official connection with the Dominion is drawing towards its close and that in all probability I am taking leave of you for the last time. Lest this should be the case, I desire to avail myself of the present occasion to express my abiding interest in all that concerns the welfare of Canada, and my sincere affection to her people, who have never failed to testify their loyalty to the person and throne of our Sovereign, and to show kindness and consideration to her representative. It will ever be my sincere desire to be of service to the Dominion and I shall continue to cherish feelings of the warmest solicitude for the welfare and prosperity of those amongst whom I have been placed during the past five years.

I pray that the blessing of Almighty God may at all times attend you.

THE SPEAKER of the Senate then said :

Honourable Gentlemen of the Senate, and Gentlemen of the House of Commons :

It is HIS EXCELLENCY THE GOVERNOR-GENERAL'S will and pleasure, that this Parliament be prorogued until Thursday, the eleventh day of May next, to be here held, and this Parliament is accordingly prorogued until the eleventh day of May next.
