THURSDAY, JULY 4, 1850.

The American journals give us fuller details of the intelligence by the Steamship Pacific, but there is nothing of importance more than what we already know by Telegraph. By the arrival of the Europe at Halifax, we learn that the Ministers had not resigned at the dute of her sailing. that Lord Palmerston's policy on the Greek que therefore the adverse vote in the Lords will go for nothing, and Ministers will not resign; still less is it likely that they will permit Lord Palmerston to go out, for they have all along assumed a conjoint responsibility with him in this matter, so that they are bound in histor not to permit his individual setiment.

Moreover the British Ministry are somewhat

in the same position with the little Brummagem D'Israeli Cabinet us pretty nearly as great an impossibility us a Papinesu-McNab one. Besides this, the practise of resigning on small deteats, particularly when the adverse vote is in the Lords only, has been pretty much reliquished of late years and it is certain that in the country Lord Palmerston is, and always was, a highly popular Fereign Minister, and the Government backed up in the Commons and out of doors can well afford to despise what really looks like a very contemptible, party and personal plot.

The most curious part of all this Greek b is a statement to the effect that the misunder standing between France and England has arisen from the Times paper. We give the story as a appears in the Delly Ness:

"Among the many ways by which the Ministry has provided its own signal defeat in the Lords, and echaequently in Burepe, there is no one more manifest and more worthy of remark, than the position hald by the Cabinet toward the Trass newspaper. A few additional letters relative to the Greek question, distributed yesterday, prove beyond a delut that one of the great, if not the only cause of the resentment shown by the French government in the recall of its Ambassador, is to be traced to a statement made from Athens in the Trans. which was totally without Athens in the Times, which was totally without foundation. The Times correspondent amounced from Athens, that Baron Gros had communicated Athens in the Times, which was totary without foundation. The Times correspondent amounced from Athens, that Baron Gros had communicated to Mr. Wyse his having received intelligence ment, but that an unofficial copy had reached him, from his government of the convention of London being, if not signed, at least in a fair way of signature. Mr. Wyse now most positively denies that Baron Gros, attempts he wrote three notes the solution of London had been an official copy of the instructions of his Government of the follies and inconsistencies of Statesment, but that an unofficial copy had reached him, transmitted by telegraph to Mobile, and copied in one of the journals of that town, on which he had demanded the release of the prisoners captured at Contoy, a neutral territory, but was that Baron fore, amount as the arrival of the Vauban, ever communicated the fact of a convention being in a fair way of nignature in London, until after the whole affair in deem concluded. And yet the correspondent of the Times in Athens. And yet the correspondent of the Times in Athens, when questioned, asserts that he got the communication which he sent to London, direct from Baron Gros. With Baron Gros, therefore, and the Times, rest the honor and the responsibility of setting the Governments of France and Engage Land at variance.

oney his rival's guilt .- Paris Correspondent The Despatch.—A correspondent, writing to us from Toronto, has handled Earl Grey's Despatch ries, with such ukill and severity that we feel it innecessary to add any thing to his remarks, except just to remind the Leaguers, if there be any such bodies left, who, we believe, were the first to propose pretection to our native products, if usees sary, that Earl Grey has now definitely shown us to have no power whatever over our own commercial effairs, for that is the real gist of the Despatch.

The the Editor of The Mostrael Coverns:

Sin,—Downing Street mandates are proverbingly very queer things. The one last exhibited to the public gaze does not present anything new in this respect. It is a very funny document. Just hold it up to the light for a moment. But first a ultitle explanation. It is pretty notorious that the Canadian Legislature increased the rate of import duties on many articles, in 1849. The Fishermen of the District of Gaspe complained of the augmentation on the particular articles of Salt, Molasses, Cordage, Pitch, Tar, Turpentine, Leather, Fisherman's Clothing, Hosiery, Fishing Craft, Utensils, Sc. Under data June 28, 1849, "Frederick Tanorin and John Hardley, representing the Utensis, &c. Under date June 25, 10-35, "Frederick Tanorin and John Hardley, representing the firm of Charles Robin and Co., and others interested therein" memorialized the Lords of the Privy Council for Trade, representing that the increased duty on Salt and other articles was a "grievance peror's private vauits.

That dreadful scourge, the Cholera, has recommenced its ravages in Europe. In Bohemia it has made great progress. On the 26th ult., 27 persons died of it in Prague. of a most serious nature," threatening with ruin a population of 22,000 souls, whose means of sub-sistance was derived from the fisheries in question, and soliciting the interference of the Home Govemusoriching me mierierence of the frome Government to procure an exemption from duty of the articles requisite for the use of the Fisheries.

To this Earl Grey replies October 11, 1849, in a Despatch to Lord Elgin as follows—

"Although I find from information, which has been communicated to see by the Ins. General of Canada, that the interests of the Fashermen of Gaspe were not overlooked when this Act was un-der the consideration of the House of Assembly, I

Gaspe were not overloosed when the New and der the consideration of the House of Assembly, I fear, nevertheless, that the statement made by the Memorialists that the tax levied upon salt occasions serious injury to their trade, is not destitute of fundation. Entertaining this impression, I have to instruct your Lordship to recommend the Legislature, at its next Session, to remit the duty on this article, unless there should be any reason, with which I am uncaquainted, which should render it inexpedient, in your Lordship's judgment, to take that course.

I have further to observe, on the subject of the Act in question, that while Her Majesty's Confidential Servants have not thought it expedient to advise that Her Majesty's anction should be withheld from it, they regret that it should have been found necessive by the Legislature of Canada to impose such high rates of duty upon many of the articles to which this Act applies: though these duties appear to have been in all crass imposed with a view merely to revenue, and not for the surpose of artificially encouraging the production of particular articles within the Province which can be more chemply obtained by importation, (to which I need handle out that Her Majesty's Conservant shared. The Cuban Affair.

It is stated in the United States papers, that the indications from Cuba are not satisfactory, and that they threaten more embarrassment than was expected. It appears that the Consul of the United States, resident at Havana, had not received an official copy of the instructions of his Government which can be more cheerly obtained by importation, (to which I need herely obtained by importation of such high duties will have a tendency of such high duties wi

the American Government will not wait for this; but that, if the next arrival 'from Cuba does not to that, if the next arrival 'from Cuba does not to that, if the next arrival 'from Cuba does not to that, if the next arrival 'from Cuba does not to the point—that the "duties appear in all ocases to have been imposed with a view merely to revenue." Yet at the request of the Memorialists his Lordship instructs Lord Eigin to recommend the remission of this duty, with a sorry clause of the temission of this duty, with a sorry clause that these Contoy prisoners, whatever their original intention was, had committed no act against the Cuban Government which could give that Government a right to punish them. It is not the custom to hang men for their intentions, but for their acts, and these men have committed no act all was not have been imposed with a view under the desired that the Government of Congress, and hostilities will probably follow. It is perfectly clear that these Contoy prisoners, whatever their original intention was, had committed no act against the Cuban Government of their intentions, but for their acts, and these men have committed no act all was not have been imposed with a view unrely to revenue." Yet at the request of the Memorialists this Lordship instructs Lord Eigin to recommend the remission of the duty on Salt, as a bounty to the femiliation of the duty on Salt, as a bounty to the fishermen, at the expense of the duty on Salt, as a bounty to the fishermen, at the expense of the curve of the duty on Salt, as a bounty to the fishermen, at the expense of the curve of the duty on Salt, as a bounty to the fishermen, at the expense of the curve of the duty on Salt, as a bounty to the fishermen, at the expense of the duty on Salt, as a bounty to the fishermen, at the expense of the duty on Salt, as a bounty to the fishermen, at the expense of the duty on Salt, as a bounty to the fishermen, at the expense of the fishermen, at the expense of the duty on Salt, as a bounty to the fishermen, at the expen

TEN YEARS STANDING!

New York, Jan. 9, 1848.

Dr. Halbey—Dear Sir:—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and, having adhered cl. selly to the directions which accompany the Medicines, i have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an airriming degree. Some of my firends spoke despiringly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundrels who are dissuaded from taking your excellent Medicines, in consequence of the deception and inefficiency of many savertised remedies put forth by unprincipled men, in flaming advertised ments. But, what a pily it is that the deception and inefficiency of many savertised remedies, his many taboring under diseases, from making trial and being cared by your excellent remedies. Humanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in six weeks from the time I purchased the Medicines, to the great surprise of all my friends, I was entirely cur, d, and had increased fileen pounds in weight, having taken one box of the Pills and two bottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies?

Dr. David Marvin, celebrated Practitioner of New York, declared publicly, that one bottle of June 15, 1850.

—"From what they have heard and seen of Haissy's Forest Wine, it is an excellent and good Medicine, and will undoubtedly, become the lead-Aiedicine, and will, undoubtedly, become the leading Medicine of the day."
