

INDEPENDENCE OF POLAND PROCLAIMED BY TEUTON RULERS

United States Now on the Eve of a Very Close Presidential Election

KINGDOM OF POLAND RE-ESTABLISHED BY KAISER AND EMPEROR OF AUSTRIA

Rulers of Central Powers Confer Freedom Upon That State, in Order to Win Support of Polish Army For Their Fast Failing Cause--General Enthusiasm Among People

Warsaw, Sunday, Nov. 5, via Berlin and London, Nov. 6.—The manifesto of Emperor William and Emperor Francis Joseph, again calling into existence the ancient Kingdom of Poland, was read at noon to-day to the assembled Polish representation in the royal palace by Governor-General Von Beseler. Outside in the great square before the castle and in the spacious court yard of the venerable fourteenth century pile, inhabitants of the old Polish capital gathered by the thousands to attend the ceremony of what it designated as the re-birth of the Polish nation.

The academic youth of the country, students of the University of Warsaw, the Polytechnic School and other higher institutions of learning, attended the ceremony in corporate units, bearing banners and wearing the gay student ribbons. This afternoon they are leading parades and demonstrations through streets bright with red flags. There are volunteers by the hundreds for the Polish army, which the manifesto announced, would be called into existence.

The ceremony was short and simple. Precisely at noon General Von Beseler, wearing the decorations granted for the reduction of Antwerp and the Polish fortresses, mounted the dais in the gala ball room of the old Jagiellonian castle and in the name of Germany's sovereign read the imperial manifesto. When he ceased the Polish Count Hutten-Czapicki, the palace commandant, read from a leather-bound pamphlet to the Polish nobles a translation of the manifesto in their own language. Then came cheers from the hitherto silent crowd, cheers for Poland, Emperor William, Emperor Francis Joseph, the Kaiser and the Germans. President Brudziński of the recently elected city council, who is rector of the University of Warsaw, advanced before the dais and in the Polish tongue gave thanks for the imperial decree. He asserted the determination of the Poles would be found worthy of the liberties conferred and asked that, as the first step toward the formation of the government, a regent be appointed for the kingdom, since the time was not ripe for the nomination of the hereditary sovereign promised in the manifesto.

TEUTONS ARE FORCED TO RETIRE

Driven Back by Roumanian Troops in the Province of Dobruja.

London, 2.11 p.m.—The war office announces that Roumanian forces in Dobruja have compelled the retirement of Teutonic troops which in their retreat set fire to several villages. The villages burned were Daeni, Garlic, Iosman and Galdar. Daeni and Garlic are towns on the Danube, 12 miles north of Hirsova. Galdar is 18 miles northeast of Hirsova. All the places mentioned are situated about 40 miles north of Constantza. Tchernavoda railroad line.

GERMAN ATTACK AGAIN FAILED

Assaults Upon Saily-Sail-Hisel Positions Repulsed With Heavy Losses

Paris, Nov. 6.—Noon.—A violent attack by German troops was made last night on the positions eastward by the French between Saily-Sail-Hisel and the St. Pierre-Tassin wood. The office announced to-day that this attack was repulsed with heavy loss to the Germans. Some ground was gained by the Germans in the wood and in the village of Saily-Hisel. On the Verdun front there has been active canoodling in the Damoupy region, but no infantry engagements occurred. Elsewhere along the front the night was calm.

Emanuel Edwards' barn, in the township of Moore, was destroyed by fire. A loud explosion was heard shortly before the flames burst out. Lampton County sugar beet growers have organized themselves into an association now to grow sugar beets in 1917 unless they receive \$7 per ton. The American tanker, Col. E. L. Drake, arrived at Vancouver the other day with 38,000 barrels of oil for the G.T.P. and the sugar refinery.

INTEREST OF AMERICA IS CENTRED ON ELECTION FOR THE PRESIDENCY

ENTENTE POWERS MAKE BIG LOAN

Sum of 5,000,000 Francs Is Advanced to Venizelist Movement

London, Nov. 5.—The Entente powers have loaned the sum of 5,000,000 francs to the provisional government at Saloniki, according to an Athens despatch to the Exchange Telegraph Company. The despatch says that the Athens and Ionian Bank has received an order to advance a preliminary sum of this amount to the Venizelist officials and charge it to the account of the entente powers.

Both Wilson and Hughes Express Thorough Confidence—Odds of 10 to 7 are Placed Upon the Latter—How Contest is Viewed in Various States of the Republic

New York, Nov. 6.—With the campaign over to all intents and purposes and with nothing left but to await the verdict of the voters, the day before election finds the Presidential candidates resting after the wearying efforts, each expressing himself as confident of victory. President Wilson at Shadow Lawn received no callers. Reports from Democratic leaders throughout the country made him feel sure of victory. Vance McCormick, Democratic national chairman, issued a statement saying Mr. Wilson was certain to be elected and went into considerable detail to prove the accuracy of the Democratic canvass. Charles E. Hughes remained quietly at the Hotel Astor. He is supremely confident that by to-morrow night he will know he is the president-elect.

THE BETTING. It is expected that all records for Wall Street election betting will be broken on the Curb to-day. Brokers were reported Saturday to be holding nearly \$1,000,000 to be placed on Hughes. The prevailing odds for the last five days have been 10 to 7 on Hughes to beat Wilson. While newspaper polls published yesterday were favorable to the President, Wilson money has been plentiful on the Curb than Hughes money. It is possible that if the Republican backers wish to place their \$1,000,000 to-day they will have to give the Wilson backers at least as good a price as prevailed last week. The odds on the Curb have been all along a shade less favorable to Wilson than in other betting. This has led to the charge by Democrats that the market has been "rigged," but no proof has been offered. The Republican and Democratic candidates for the governorship of New York were making final appeals to the voters to-day, although victory is claimed for each of them by the respective chairmen of their parties. Both selected this city as the scene of their last campaign. Governor Whitman had in his program four noonday speeches in the lower business section of the city and five to-night. Samuel S. Seabury, following talks in Rockland county, returns to-night for an automobile street corner tour of the west side. The betting odds are expected to continue to-day at 3 to 1 on Whitman to beat Seabury. The betting in the gubernatorial has at no time been near even money.

WILSON CONFIDENT. Long Branch, N.J., Nov. 6.—President Wilson has completed his campaign activities and will rest to-day awaiting the outcome of the election to-morrow. Regardless of the result it was said by officials here, he will soon begin to map out a program for the session of congress beginning next month. This program includes railroad legislation, a bill to allow American exporters to form common selling agencies abroad. The President showed deep interest to-day in newspaper accounts of the closing of the campaign and read a number of polls collected for him at the executive offices. It was said he was pleased with the outlook. Messages giving final estimates in various states were received from Democratic leaders in virtually every section of the country. With few exceptions, officials said, the reports were favorable and indicated a Democratic victory. Similar reports were received at the executive offices from Democratic headquarters in New York and Chicago. As a result Private Secretary Tumulty, speaking for the President, predicted that Mr. Wilson would be re-elected overwhelmingly. (Continued on page two.)

SUB CAMPAIGN ROUSES FEELING

Demand Made in England for Prompt Action Against Underseas War.

London, Nov. 5.—British reports on the German Channel raid and the havoc wrought on shipping by the new submarine campaign have excited a tremendous amount of dissatisfaction in and out of Parliament. Sir Henry Dalziel has asked for a special time in the House of Commons for discussion of the British Admiralty administration.

Attacks on the Right Honorable Arthur Balfour, First Lord of the Admiralty, appeared in several of yesterday's publications. "The Nation" contains an especially bitter criticism, which says: "No incident of the war could be more wounding to the national pride, even though others may have been judged to touch more intimately the issues of war and the fortunes of the power on which they hang. But there are graver considerations than those of injured pride." "Now that the long-hidden results of the second German submarine campaign are being revealed the country asks why the Admiralty has failed to repeat Lord Fisher's brilliant repulse of the first campaign. Why, indeed? The navy is practically on the defensive. Yet the primary purpose of defence is unfulfilled. "No one blames our sailors and their able and accomplished Admiral in Chief. They are magnificent. But did anyone knowing Balfour's character, intellect, temperament and methods of work imagine for a moment that he was the man to play the part of director to a machine that wants above everything else, prompt, ingenious, practical and forethinking intelligence?"

The marine insurance correspondent of The Telegraph, commenting on the submarine campaign, says: "The days do not improve as they pass by, each one brings a tale of woe too serious to be contemplated without a certain amount of anxiety." He says it is to be feared that "two fine British steamers have been sunk, but the news is not yet officially confirmed."

WELSH WILL FIGHT

Toledo, O., Nov. 6.—Freddie Welsh will accept a boxing bout with Johnny Kilbane only on his own terms according to a message received last night by local promoters from Welsh's manager. The communication was in response to an offer made by the club for a 12-round no-decision bout between the champions. The lightweight champion accepted the offer of \$10,000, but his demand is that the weight shall be 135 pounds at 2 o'clock the afternoon of the bout. Kilbane is said to insist on articles of agreement calling for 133 pounds ringside, the legitimate lightweight limit.

Nanamo is indignant that a license should have been granted from New Westminster permitting certain Asturias to fish from Cowichan to above Nanose. Work is progressing rapidly with the permanent grading of Hastings-Barnet road and it is expected to be ready for rocking in the course of a few days.

Six Killed in Battle of Strikers and Authorities

250 Members of Labor Union Attempted to Land From Steamship, and Were Opposed by Sheriff and Possa.

Seattle, Wash., Nov. 6.—Six men are dead and fifty are suffering from two gunshot wounds in the leg, a battle yesterday at Everett, Washington, thirty miles north of Seattle, when 250 members of the Industrial Workers of the World attempted to land in that city from the Steamer Verona, which had carried them from Seattle. The boat was met by Sheriff Donald McRae, of Snohomish county, who with a posse forbade the men to land. A shot fired from the Verona, according to the boat's officers, was followed immediately by firing from both sides. The steamer hastened back to Seattle with the dead and wounded. The Seattle police took the dead to the morgue, the wounded to the City Hospital and the unwounded to the city jail. One member of the Everett citizens' posse, C. O. Curtis, formerly second lieutenant in the Washington National Guard, was killed and nineteen others wounded. Including the wounded, there are 294 men and three women under arrest here. Forty one men were taken from a second steamer which failed to reach Everett. The women were taken from a motor bus which had conveyed them from the northern boundary of Seattle, where they had disembarked from an Everett inter-urban car. The fight was a result of a long contest between the Everett Workmen, and the citizens of Everett over the right to hold street meetings. The National Guard and naval militia at Everett and in Seattle are under orders to-day to meet any emergency. Sheriff McRae, who is suffering from two gunshot wounds in the leg, asserted that the first shot was fired by a man in front of the pilot house of the Steamer Verona. Eye-witnesses asserted that several men jumped into the water from the boat and that some were drowned, but searchers to-day were unable to find any bodies and it was believed that this report was incorrect. Four wounded members of the citizens' posse are in a critical condition to-day.

RECEIVES PROMOTION. By Courier Leased Wire. Rome, via Paris, Nov. 6.—Gabriele d'Annunzio, the poet, has been promoted to captain for bravery in an attack on October 10-11. The poet was also recommended a second time for the silver medal for valor. d'Annunzio was an aerial lieutenant at the outbreak of the war. He made three flights over Trieste, dropping poetic messages instead of bombs. He was seriously injured in the right eye in an aeroplane accident last February and was decorated the following month for his services as an airplane observer.

MAJORITY LESSENS. By Courier Leased Wire. Melbourne, Nov. 6.—(10.30 a.m.)—A record number of votes was polled on the conscription referendum but the figures are still incomplete. Out of a total of 2,087,000 votes counted, the majority against conscription is 75,000.

EIGHT THOUSAND DOLLARS ARE GIVEN FOR BRITISH RED CROSS

This is \$4,000 Short of the Sum to Gain City Grant—Further Steps to be Taken and an Appeal Issued

British Red Cross Day on Saturday resulted in a generous response, but not as large as needed in order to earn the \$7,500 prize as the City Council. To this end \$10,000 is still required. Total receipts were about \$8,000. Of this sum the women at their headquarters (the press) formerly occupied by the Tea Pot Inn) secured the splendid total of \$4,114. The serving of refreshments, selling of home-made cooking, etc., alone totaled over \$600. Mrs. S. Alfred Jones was at the head of the luncheon committee, Mrs. Herbert Yates of the tea committee and Mrs. Philip Buck Hollinrake, Carlisle and Raymond, handled the finances. Of thirty-six factories, it was stated that five had thus far reported. The executive committee met in the Free Library this morning and freely discussed the situation. It was felt that if the citizens were acquainted with the circumstances the balance would be readily forthcoming. Steps to this end were taken and it was decided to keep the headquarters (Tea Pot Inn) open for a few days for further donations. Mrs. Livingston undertook to have ladies in attendance for the purpose. Those who have not yet given, will also be waited on. An Appeal. It was unanimously decided to issue the following statement to the public: "Last year in answer to the appeal on behalf of the British Red Cross, the people of Brantford gave, over and above the amount voted by the Council, the sum of \$11,000. This year in response to the same appeal and with a larger objective, they gave \$8,000. On neither occasion was there an organized canvass of the whole city, but all were invited to send in their contributions, each according to his ability, even if not personally solicited. The objective now sought is \$20,000. To this total the Council have voted \$7,500 on condition that the public contribute \$12,500, which means a giving of about fifty cents each for every resident of the city. The shortage up to the present is over \$4,000. Your committee, after considering the condition of the fund, have decided that they must carry the matter back again to the people. Brantford cannot rest satisfied till the objective is fully reached. The British Red Cross ministers to the sick and wounded soldiers of the King, drawn from all the widely scattered Dominions which own his sovereignty. The appeal is Imperial and almost the only one of this nature, made for money, outside of the United Kingdom itself, which is pouring out its blood and treasure with an unselfish abandonment which commands the admiration of all the Dominions. We should make our contribution a worthy one for two reasons. To insure the care of the sick and wounded amongst our own loved soldier boys who have answered the call of country; and to show our profound respect for the spirit of the

THE SITUATION The Roumanians and the Russians have scored notable successes on one portion of the frontier. It is admitted by Vienna that at two points they have pressed back the Austrian lines for more than a mile and a half, while in the Jial valley matters continue to go well with them.

The British and French continue to gain north of the Somme River. General Foch has strengthened his hold on the Transloy region, taking 522 prisoners, and Haig's forces have advanced on a thousand yard front.

The Italian advance towards Trieste is maintained with full vigor and there have also been gains on the Carso. Nine thousand prisoners have been taken in four days and 40,000 since August 6th.

In East Africa a strong enemy force was routed and prisoners and stores taken.

On the Verdun front the French continue to score in a marked manner.

THE PRESIDENTIAL CONTEST Tomorrow sees the close of the Presidential contest across the border.

In that so called Republic the people do not vote directly for the candidates. Instead under the constitution the job is done through an "Electoral College." To the uninitiated it may be explained that persons known as "Presidential Electors" are selected by the different States of the Union for the purpose of selecting the President and the Vice President of the nation.

It may be safely said that neither of the men in the present fight is generally regarded across the line as an outstanding figure. Possessors of such ability no doubt not out of the genius of leadership, or the power to enthuse a large personal following.

About the only feature of interest to Canadians in the fight is that Hughes possesses the Teuton following. It has even been alleged by the Democrats that he entered into a compact in this regard but that assertion has not been proved.

The hyphenates hate Wilson. (although in all conscience he has been tolerant enough with Germany even at the expense of national respect) and they may be described as a solid unit to help encompass his defeat. It is said that this fact alone has given Wilson strength in unexpected quarters, but it will have to be a very marked feeling indeed if he is going to win out.

If Hughes succeeds, and the betting odds towards the finish have become much in his favor, then Dictator Roosevelt will once more have named the White House occupant.

HE FEARS THE BRITISH. Lieut. General Von Stein recently appointed Minister of War in Germany, said, during a statement in the Reichstag:

"The emperor has ordered me to come here. I come direct from the battlefields of the Somme, where I have learned much that will be important in my new office.

"Our enemies, and above all, the English, are introducing into the fight, with the assistance of the entire world, ever new and heavier expedients in order to quickly attain their end. All Englishmen's letters nowadays conclude with that view that everything must be borne because the state and nation demand it. Should we not recognize this also and think likewise, not even more keenly? Should we not equally employ all means to suppress our enemies? The immediate future will demand much work from me in this direction. I beg your whole-hearted support in this important work for the fatherland."

This tribute to John Bull it should be remembered was wrong from a man who, without much doubt, previous to the war, shared the views of the Kaiser that the British possessed "a contemptible little army" which would never amount to anything.

"Above all the English," he now

exclaims, and with good reason. The British determination, British navy, British money and the British power, when once aroused, for big achievement on land, as well as on sea are, are all tremendous factors in the present struggle and added to the brilliancy of the French and the doggedness of the Russians, no sane man can doubt the issue.

This girding up of loins on the part of the old lion is true not alone with regard to the arts of war but also with reference to those of peace. Right now, with the tight little islands, one vast arsenal, active plans are under way, both manufacturing and commercial for the peace period. The example is one which might well be followed in Canada. Sir George Foster, Minister of Trade and Commerce, has made more than one effort to stir up matters in this regard, but so far without result. Canada's manufacturers seem to be lethargic to an extraordinary extent. War orders have apparently blinded many of them to the fact that after the war the industrial contest is going to be heavier than ever. Right now is the period for them to be looking ahead and taking suitable action.

With the City Police

A grist of cases awaited the decision of the magistrate at the police court this morning. Chas. Morley, who was summoned to appear to answer for the theft of a bicycle, was not in evidence and a warrant was issued for his arrest. Jno. Henry and Ebaz Ioft, charged with the theft of some household articles, were remanded for a week until the decision of the Indian Department at Ottawa could be given in the matter. The charge against John Henry, for the conversion of some articles, was laid over for the same reason. Lyman Clouse was fined \$2 and costs of \$4.35 for allowing his horse to roam about on a neighbor's cabbage patch.

A communication from Department of Public Highways was read stating that they forwarded copies of forms to be filled out in making application for the portion of the road over to be paid by the Province. In this connection word was received to the effect that Mr. J. Huber a representative of the department would be in the city from November 7th for the purpose of becoming acquainted with

the work and organization employed in the municipality. A report of the action taken at the last meeting of the County Council in regard to the good roads system was submitted to the meeting together with a government map showing the roads suggested for the guidance of the Township in taking action in the matter. The final report of Robert W. Hunt and Co. Engineers, on the Barton bridge was read which showed that the total weight of the structure was 44,920 pounds. An invitation to send representatives to the meeting of the Brant County Recruiting League to be held in the Y. M. C. A. to-night was also received. Messrs B. Lloyd Jones and Herbert Meadows and Jonas Sheppard, fence viewers reported that they had inspected the fence between the properties of Mr. Davey and Mr. E.

Services at
Park Baptist

Yesterday morning the regular monthly communion service was held at Park Baptist Church. A large number were present, and nine new members received into the church.

The subject for the morning service being "The Neglected Vineyard," Pastor Wrighton took his text from the words found in the two latter clauses of the 6th verse of the 1st chapter of Solomon's Song: "They made me the keeper of the vineyards; but mine own vineyard have I not kept," and from the text a very helpful and practical sermon was preached. In the first place, the Pastor gave a vivid picture of two classes of work performed by the vine-dresser. He had dressed other vineyards all of which were beautifully kept and were pleasant to behold, but his own vineyard he had sadly neglected, so much so, it caused the vine-dresser to exclaim: "They made me a keeper of vineyards, but my own vineyard have I not kept." The keeping of the vineyards was his calling and yet his time had been so fully occupied on the others under his charge that he had neglected his own and he saw the sad picture of his own neglect in contrast with those belonging to others he had kept so well.

The personal vineyard. Our own hearts. Keep out of them the evil things of life—evil thoughts and desires, produced by reading bad books, or the influence of evil companionships. Then there were the little foxes that destroy the vine—we must be protected against them—worldliness and sinful pleasures—things that enter our natures. There are many of them—very little things and yet very dangerous—they are the little foxes that destroy the vines, and must be kept out. The remedy is to keep busy, ever looking forward protecting the vineyard—keep up the fences so that no little foxes or any evil thing will get in. Do the necessary pruning out all the bad habits and useless readings etc. Look beyond these for something better and purer. Do not neglect the one Book, best Leader, even Jesus Christ—look to him for counsel, for wisdom and for example, how to live—look to him for protection and guidance, for strength and comfort. Look to Him and Him only as the one way of salvation.

The evening subject was "The Wanderer" the model used for this character, being the Prodigal Son. Pastor Wrighton had a busy day, conducting another service at 3 o'clock in the Board Room of the Church for the Russians who have been attending Park Church. There were quite a number present, and they entered heartily into the service. Some excellent singers are among them.

The Bible School was well attended also—Dr. Stanley and Mr. Olive and their able staff of officers and teachers seemed considerably encouraged.

The singing of the choir under Mr. Thresher the capable organist is constantly improving. The evening anthem "Sun of My Soul" was well rendered, solos being taken by Mrs. Besant, and Miss Kavanagh. Mr. Norton Buck sang "Softly and Tenderly" in splendid voice.

Collegiate Overwhelms Galt Team on Saturday

Visiting Team Defeated 36-0.—Play of Locals was Much Superior, and Brantford's Chance for the Cup is now Very Bright.

As a result of the game at Agricultural Park on Saturday afternoon between Galt and Brantford which the latter won by the score of 36-0 the championship of the Intercollegiate Rugby League now rests with either the Guelph or the Brantford Collegiate Institutes. Throughout the contest the locals displayed their superiority at every stage of the game, the winner of which was never in doubt, from the score of the first touchdown until the end of play. The boys representing Galt, however, put up a game fight and accepted their defeat in the most sportsmanlike manner. Little rough work was indulged in, the game being one of the cleanest witnessed here in some time.

Immediately after the kick-off the locals started things, and in a few minutes were successful in securing a touchdown, the ball being carried over by Captain Art Kelly, whose efforts during the afternoon were in a large measure responsible for the victory achieved by the B. C. I. With the resumption of play, the teams settled down to strenuous bucking, the Brantford boys going the full length of the field, this mode of attack giving them the second touchdown of the game, making the score 10-0 in favor of the local aggregation. The Galt team seemed unable to gain yards on their bucks and as a consequence resorted to kicking. The whistle at half time found Brantford bucking along towards the Galt touch line.

The second half started off with a rush, both teams being determined to put forth the best of which they were capable. This quarter was featured by a sensational run by Deagle, who went almost the entire length of the field for the third touchdown of the afternoon. The "Human Tank" was then put into operation and following a splendid buck Moffat registered another touch. At this juncture a costly fumble by one of the halves allowed Galt to approach dangerously near Brantford's touch line, but they were fortunately unable to score. By clever strategy, the B.C.I. went the entire length of the field, "Ras" Kelly scoring another touchdown.

The local squad which excelled in bucking put this quality to advantage and this together with runs by the half backs enabled Kelly to carry the ball over for his last touch of the game.

The final quarter was featured by the brilliant runs made by Deagle, Buckborough, Hurley, Littler and H. Middlemiss. Mr. Green, Truss and Moffat also did splendid work making runs again and again by their feet. Baird was of a stellar quality not only in this period but throughout the game. Although the contest was lost for them beyond a doubt, the visitors continued to put up an effective resistance, but in spite of this, just before the whistle blew for the seventh touchdown of the game.

The victory achieved on Saturday placed the team on an equal standing with Guelph, whom they defeated on the occasion of their previous encounter here. Brantford has improved remarkably since their first game of the season, and if they do not fall into a slump will probably carry off the championship of the league. The game in Guelph next week promises to be the hardest and most evenly contested yet played and although the B. C. I. players are confident they anticipate a hardy struggle.

The teams took the field as follows on Saturday and in all probability Brantford will be represented by the same players in the final game.

Brantford—Flying Wing, Hurley; halves, Deagle, Buckborough, Kelly; quarter, Littler; scrimmage, Baker, Booth, Adams; wings, Baird, Kitchen, Moffat, Middlemiss, Truss, Green; spares, H. Ryerson, K. Middlemiss, M. Runnings, R. Cook, F. Guerber.

Galt—Flying wing, Taylor; halves Scott, Johnson, Watson; scrimmage, Gardner, Herbert, Kelly; wings, Cuthbertson, Raynor, McKenrick, Hamilton, Andrich, Scott; quarter, Johnson.

LOOK AT CHILD'S TONGUE IF SICK CROSS, FEVERISH

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, bad breath, has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

MEXICO MAY BE INVOLVED IN SUBMARINE PROBLEM NOW

Presence of German Submersibles in Gulf of Mexico Brings Note From Great Britain—Action is Promised by Government

Mexico City, Nov. 6.—The Mexican Government has been notified by the British Ambassador at Washington of the presence of German submarines in the Gulf of Mexico, and has been warned that the allies will "take drastic measures" if the undressers craft receives aid from Mexican ports or sources. This information was made public to-night by Foreign Minister Aguilar, who issued the text of a note received from the British ambassador, through United States Secretary of State Lansing and Charge d' affaires Charles B. Parkers.

The British note demands a strict censorship of the Mexican wireless and says that any failure to maintain Mexican neutrality will be attended by disastrous results. In his reply, addressed to Mr. Parker, Senor Aguilar says that it seems strange to the Mexican Government that Great Britain should use the United States State Department as an intermediary on a point concerning Mexico alone, especially when Great Britain has an accredited representative to Mexico. The reply says that the Mexican Government will for this time only answer the representations of the British Government through Mr. Parker.

Foreign Minister Aguilar states that the Mexican Government feels it unjust for the allies to hold Mexico responsible for submarine activities in the Gulf of Mexico when the same submarines arrived in American ports and sank ships in American territorial waters without causing conflict or difficulties between Germany and the United States. He adds that Mexico desires to retain cordial relations with Great Britain and to this end suggests that the English fleet prevent the German submarines from leaving their base, thus obviating to the Mexican Government disagreeable incidents caused by the European conflict. If such measures by England are not efficacious the foreign minister concludes, the Mexican Government will take such measures as the circumstances direct should German submarines enter Mexican waters.

W. T. Badger, of Conquest, was nominated as Conservative candidate for the provincial seat of Roseville, Sask. The Ontario S. S. Association convention next year will be held at Chatham. W. J. Cunningham is the new president.

Italians Take 9,000 (scared) London, Nov. 6.—Italian troops fighting on the Austro-Italian front in the last four days have taken 270 Austro-Hungarian officers and 8,993 men, says the statement issued yesterday by the Italian War Department.

The First Time He Had Been In
"Why, Mother," he protested, "that's the first time I've been in this afternoon."
"Never mind, don't go in again," Mother doesn't want you to," she said, with that same self-satisfied sweetness. "Put your sweater on."
The small boy looked still more embarrassed, but he obeyed, while the other small boys demonstrated their freedom from maternal apron-strings by diving into the water.
She Made Him Jump Through a Hoop
Now there may have been a perfectly good reason why the boy should have been forbidden to go into the water but there was no reason on earth why he should have been publicly forced to jump through a hoop.
That is just what it amounted to. If she had wanted the boy to stop swimming for his own good, instead of as an exhibition of her discipline, she could have waited until the public eye was off him and then gone to the point nearest him and asked him to come up and speak to her a moment.
Tact and courtesy in dealing with children are not wasted.
You may have a right to embarrass your child in the presence of all his friends, but he won't love you any more for it.

CANADA'S BIGGEST ROLE
In Play of Nations is in the Future.

Forecast of Lord Shaughnessy before sailing from New York.

NEW YORK.—Lord Shaughnessy, president of the Canadian Pacific Railway, who sailed for Europe on Wednesday in an interview, made the following statement before his departure:
"Though beset with sacrifices and bending with effort in behalf of the great Empire of which she is an integral part, Canada's biggest role in the play of nations is not now, but in the future. Bright though recent may be, it is only a glimpse of what is to come. Her greatness, although secured through a trying present, will be shown when, with the war settled, she undertakes to assume the place she has sought for. Success will come measured by forethought. By fulfilling duties as presented to-day, Canada will be able to reap abundantly of the prosperity which the years, distant, will bring."
"Canadian history shows that what mistakes have had to be rectified have been those due to shortsightedness, and that the deeds most criticized have been of over-ambition. Between the two is the straight course of steady development. Blind faith in the country has been, to a large extent, the guiding star of the men who have built. Speculation has been a ready growth in a ground rich beyond the dreams of the most hopeful. Gain, conservative business sagacity bade the pioneers discard the thought of spanning the prairies with the trans-continental line, while bold daring built not one, but three. The success of the Canadian Pacific, the pioneer, urged others to be reckless, perhaps, but then there were those who said the construction of the Canadian Pacific was folly."
"Canada's course is the centre one, and to choose is no easy task. We do not wish to grasp our future by a narrow, limited imagination, neither do we wish to grandly over-develop and thus render the load we are now carrying too great. It is sometimes hard to realize that on the shoulders of the present the material for the future must be carried."
"Canada is an empire in itself. Its population is not a fraction of what it should be, of what it is capable of becoming, or of what it will be after the war. We are taking steps to prepare for the future, and are anticipating an immigration that should be unprecedented in Canadian history."
"When peace is declared Canada will naturally be looked upon as the promised land by many peoples of Europe. She will be in a position to choose carefully. She need take not but the best, and only by so selecting her citizenship will she build up a nation capable of performing the tasks which undoubtedly will be allotted to her."
"The war has taught Canada self-reliance as probably nothing else would have done. She has been forced to do rapidly and efficiently things which were impossible. She has expanded commercially and industrially faster than ever before and has confidence in herself to do the things which she formerly expected others to do for her."
"In the same manner that she unhesitatingly mobilized the largest army that ever crossed the Atlantic, she has developed a sea traffic on both the Atlantic and the Pacific that is tremendous. This will be undoubtedly further developed, proving to be a powerful aid in moulding trade connections favorable to Canada after the war."
"Canada cannot go back. She is committed to expansion, but not to over-expansion. Keeping within limits justified by conditions has been hard. It is difficult in being optimistic to be not too optimistic, and here perhaps is the greatest problem."
"In the past Canada has been too eager and is now faced with the problem of over-development in certain lines."
"Politically Canada will undoubtedly take a more prominent part in the destinies of the British Empire than ever before. She will probably be asked to become one of the senior members of a firm in which before the war she was merely regarded as a junior, bright, but all of promise, to be sure, but one on whom a full share of the burden should not be placed. The future is undoubtedly bright, but the advancement is fraught with problems which will require good judgment and forethought rather than good judgment in afterthought."

Music and Drama

Miss May Bell Marks and Marks Dramatic Company commences their engagement at the Grand Opera House to-night, under the most favorable auspices. A very large audience, not alone for Monday night, but for the entire week indicates a succession of big houses worthy in every way of the popular attraction. The usual success of the Marks Bros. Company is due to many things. The worth of its leading people has been a great magnet, but it does not depend on that alone. The plays were those that were seen in New York the past few seasons, the beautiful gowning of Miss May Bell Marks, the leading lady, are a feature, while the stage settings are the most elaborate ever sent on a tour with a popular priced attraction. Then again there is the acting company that boasts of some of the best actors in the country. Lovers of the drama will be given the opportunity of witnessing a series of the most recent play successes which would never be seen here were it not for the enterprise of Mr. H. W. Marks, manager of Marks Bros. Co. No. 1. In the evolution of the drama that has been in progress for the past few years, the one-night stand is being eliminated from the big travelling companies, and the production of plays on the local stage that scores a hit in New York are growing less and less. This makes the visit of this company more important, as its various plays are given exclusively by Miss May Bell Marks. Monday evening "All of a Sudden Peggy" will be presented. It is a delightful romance and is staged in the most gorgeous manner. The usual matinees will be given during the week.

After being in the water nearly a year, the body of Tom A. Charley, an Indian, was found on Simcas Bay, in the Fraser river.

Good Stories
by Leona Dalrymple
Author of "Diana of the Green Veil" Etc.

In the fairy glen where the glow-worms and fireflies turn back each night to fairies, there was much excitement. Princess Glow and Glimmer, who lived with her parents in the Castle of Sparks, had chosen for her husband a strange glow-worm knight who had slipped into the glen—how or when nobody knew. All the other knights were hure and jealous.

Knight Fairy-Fire and Knight Flash-and-Flicker talked it over.

"If he is indeed noble as he claims," said Knight Fairy-Fire, "let him prove it. If he loves her, let him prove it."

And they went together to the fire-witch who lived on the border of the glen.

That night smoke curled blackly from the witch's cauldron and filled the glen with inky darkness. Next from the cauldron came showers of sparks and the fire-witch, muttering, turned them into winged rubies that were flying into the blackness of the glen.

At the Castle of Sparks, Knight Fairy-Fire sent the princess out to seek her lover. And Knight Flash-and-Flicker sent the lover out to see the princess.

"Ah!" he said, "there comes the fairy rubies on shining wings. Now we shall see, if he is greedy and clutches at the fire-jewels, then he is unworthy and little likely to be noble. If he still fares forth to seek the princess without lingering in blaze of the witch-jewels, then indeed he loves her."

Ah! 'twas a wonderful sight, blazing, beautiful rubies winging hither and yon in the inky blackness. The prince hurried on. The jewels dazzled him, but the blackness filled him with fear for the fate of the princess.

He called her again and again, but the air was filled with the soft murmur of jewel wings. He could neither see or hear, but still he stumbled on, seeking the princess.

And then, far down the glen, he caught the silver mist of her robe of fire. Only for a moment—then the air was thick again with the blazing rubies flying and dancing before

his eyes on wicked witch-wings. The prince drew his sword and pushed his way along. On and on he went, stumbling, until he caught again the silver glimmer of the princess' robe. He put out his hand and caught it.

The winged rubies vanished. The smoke cleared away. Prince Rupert had proven his right to the princess.

WOMEN'S INSTITUTE

The Oak Hill branch of the Women's Institute held their regular monthly meeting at the home of Mrs. T. Peart, Burford Road, there being a good attendance. The president, Mrs. H. Jennings had charge of the meeting. A report of the work being done for the soldiers in the past month was given by the Secretary. This consisting of thirty-three seven pound parcels at the cost of over fifty dollars, sent direct to boys at the front. Mrs. Charlton read an excellent paper on "Slighting as a Fine Art," touching on the woman in her home at work. Miss Marguerite McDonald sang a solo which was greatly enjoyed. Mrs. Fellows kindly invited the ladies to hold their December meeting at her home. This invitation being accepted. Dainty refreshments were served by the hostesses. After a hearty vote of thanks was tendered Mrs. Peart for her kindness, the meeting broke up, all having enjoyed a pleasant and profitable afternoon.

Four hundred and thirty-three boxes of apples, comprising about 43 varieties, were shipped during a recent week from Duncan.

Were Seen by a Very Large Number of City and County Residents

The showing of the "Battle of the Somme" pictures at the Colonial closed on Saturday night. There were large attendances morning and afternoon and twelve hundred in the evening.

Several of the many hundreds who saw the pictures took occasion to heartily thank The Courier for having shown them in this city. Here as elsewhere, it was generally recognized that they possessed a great inspirational and educational value.

FRENCH TROOPS QUELL CLASH

Fight Between Royalist and Venizelists at Katerina, Greece.

London Nov. 5.—Greek troops and Venizelist revolutionaries clashed just outside of Katerina, according to a despatch from Athens. The encounter followed a demand by the commander of the Greek Royalists that Venizelists evacuate the town.

A French battalion arrived at Katerina to-day to occupy the town. It is believed that the Greek and Venizelist troops will report immediately, and thus solve the embarrassing situation which has arisen as a result of the conflict between the Royalists and the Venizelists.

A demand was made yesterday upon the Greek Government by Admiral Du Poutret, commanding the naval forces, that the use of a light flotilla with French guns and crews to serve as a guard against submarine attack be permitted.

Meeting to-day under the presidency of King Constantine the Greek Cabinet voted not to concur in this new demand, because it would be equivalent to a departure from neutrality on the part of Greece.

Word of the decision of the Cabinet was sent to the French admiral.

Relatives of Chester S. Dufus, of Halifax, now a lieutenant of the Royal Flying Corps, have received word that he has been decorated with the Military Cross.

HOW TO KEEP WELL

BY JOHN W. S. McCULLOUGH, M.D., D.P.H., CHIEF OFFICER OF THE PROVINCIAL BOARD OF HEALTH.

TYPHOID FEVER.

IN THE FALL OF THE YEAR Typhoid Fever is more prevalent. There are usually fewer cases of this disease within the area of well-kept cities than outside. The smaller towns and country places furnish the greater number of cases. The reason why well-kept cities furnish less typhoid than elsewhere is because they usually have safer water supplies and proper disposal of sewage. The smaller towns and the country are dependent upon water supplies chiefly upon wells, and their sewage is taken care of in privy pits which flies have free access. Flies during late September and October, when it is warmer indoors than outdoors, flock from the privy pit to the comfortable kitchen with its abundant food supplies. They frequently carry typhoid germs from the privy pit to the members of the household. Country wells are frequently unprotected. They are shallow and placed too close to the privy pit, while the top and sides are not protected against the entrance of filth. Excreta from a typhoid case without being disinfected are thrown in the privy pit or on the surface of the ground and drain to the well. What is more likely than that the users of this contaminated water will come down with the disease?

What are the means of protection? Privies must be made secure against the entrance of flies. Doors and windows should be screened. The building must be securely banked about so that the flies cannot enter the pit from outside. The seat lids must be made to close automatically, after use. This can be effected by having a block of wood fastened to the wall behind the open lid and placed in such a position that the lid falls in place as the occupant leaves.

A box containing equal parts of sand and salt should be kept in the privy. Wells should be placed at a safe distance from the privy pit and away from the natural drainage of the soil. The sides and top of the well must be made secure against the entrance of surface pollution. If these simple measures were carefully carried out there would be less typhoid in rural communities.

Finally, if a case of typhoid fever occurs in a household experience in the use of typhoid vaccine among our soldiers indicates that it is wisdom to at once inoculate all the other members of the family. The vaccine is provided free of cost by the Provincial Board of Health.

CONSUMPTION AND SPITTING BLOOD.

John Brown had noticed for some time that he was not up to the mark. In the morning he felt very well, but through the day he became tired, sleepy, and a little feverish. He had had a slight tickling cough for a month or two, but did not cough up anything. One afternoon he felt a warmth behind his breastbone and at the same time he had a salty taste in his mouth. Following a tickling in his throat he coughed and brought up a few teaspoonfuls of bright, red blood.

This alarmed his friends very much and he turned pale, his hands were cold and perspiration broke out on his forehead. His mother sent for the doctor who examined his nose, throat, and chest and finally told him the blood came from his chest.

He was placed in bed and told to keep quiet and that he need not have any fear for the bleeding. The physician took a sample of the material that he coughed up and found, as he suspected, that he was suffering from tuberculosis of the lungs. Consumption is the cause of spitting of blood in nine cases out of ten. Other causes are pneumonia, congestion, bronchitis, heart disease, aneurism, menstrual trouble, and scurvy. One out of every twenty-five cases of consumption start with a slight hemorrhage. In one out of every six cases there is no other symptom. In two out of every three cases there is nothing to bring in hemorrhage. The patient when quiet notices a salty taste, has a little tickling, coughs, and up comes the blood.

These early hemorrhages are venereal. But the appearance of blood frightens most people, and perhaps it is a good thing to have the hemorrhage, because it is a reliable danger signal. A case of this kind should be kept quiet in bed for a few days. He usually needs no medicine, except in case where he is very much frightened or shocked, when the doctor may give him some sedative. He must not get stimulants such as whiskey, aromatic spirits of ammonia, etc. If the side from which the bleeding can be distinguished he should lie on that side. If there is no return of hemorrhage after a few days he may get out in the open air. Horseback riding will be good exercise for him, and he may do a little outdoor work. Outdoor air and good food are the requisites for cure.
