## CLARENCE WRIGHT'S REMAINS FOUND

The finding of a skeleton of a man in the woods on the Tomog-nops, about 40 miles from New-castle, on Saturday afternoon by workmen employed by Wallace Johnston, clears up the mysterious disappearance of Clarence Wright of Newcastle, about four years ago. In April, 1920, Wright, who was employed on a lumber drive, complain-ed of feeling ill and started along the tote road for the nearest settle-ment. Shortly after he left the camp a blinding snowstorm set in and Wright was never seen alive again. When it was found that he never arrived home, searching parties were organized and the woods in all directions near where he was last seen were hunted over for several weeks, but without avail. It was presumed that he endeavored to cross the river and was drowned.

The body was found a few miles from where he disappeared, and death no doubt resulted from ex-posure after having lost his way in the woods. Wright was about 40 years of age. He enlisted in the 104th Battalion and saw service in France, being badly wounded in one arm. He is survived by his mother, Mrs. Annie Wright, of Newcastle, one brother Joseph of Alton, Mass., four sisters, Mrs. Wm. Clancy, Mrs. Walter De Venne of Boston, Mass., Mrs. Martin Han-ley and Mrs. Herbert Kano of New-castle.

Coroner Desmond gave permission for the removal of the remains and they will be brought to Newcastle for interment on Wednesday.

## HURT IN WOODS

While getting out pulpwood on Wild Cat Brook, for Sanford Mc-Kibbo, George Williston, of New-castle had the misfortune to lose the middle finger on his left hand, recently. Williston, with a man named Aube, were measuring a tree when Williston slipped and putting out his hand to save a fall thrust it under Aube's axe, which almost cut his finger off. He was brought to the Miramichi Hospital where the injured member was removed.

## VETERAN C. N. R. DRIVER RETIRED ON DECEMBER 1ST

One of the veteran drivers on the Northern Division of the C.N.R. retired on the Provident Fund on Dec. 1st in the person of Mr. Michael O'Shaughnessy.

Mr. O'Shaughnessy, is a native of Chaplin Road, N.B., where he was born on Sept. 15th, 1857, and entered the service of the Intercolonial Railway at Newcastle on Jan 19th 1887 as fireman. He was promoted to driver on Dec. 14th, 1890 and practically run on the main and branch lines of the northern division during the 37 years in the service.

Driver O'Shaughnessy retired with long and enviable record to his credit while in the railway's employ and his many friends both on and off the road extend to him their best wishes for his continued good health and happiness.

Mr. O'Shaughnessy makes his home at his native place, Chaplin Road, North Shore.

### The Scientist In Business

Moirs maintain a completely equipped modern laboratory for the testing of all raw material used and each step in the process of turning out Chocolates and related products. It is in charge of Mr. John Queenham, F. C. S.

One result of this is that they are

able to buy the best vanilla beans and make Vanilla Extract with a bouquet that is missing from all other makes on the market. A contributing element in the goodness of Moirs Chocolates.

Four times out of five, when you give a girl Moir's Chocolates, you are giving her favorites; and in the fifth you are making a convert.

Christmas is coming—say it with Chocolates.

### WINTER FEEDING AND CARE OF POULTRY

Good feed and care are necessary in order to procure maximum egg production during the winter months. Stock should be comfortably housed and not overcrowded. Allow about four square feet of floor space per bird, and see that all cracks and openings at the rear and sides of the house are closed to prevent draughts, otherwise colds are likely to develop which not only retard production but often cause the loss of birds. A little permanganate of potash used in the drinking water (enough to give a deep wine color) will help to prevent the spreading of catarrhal colds, but in more serious cases birds should be isolated, and treated by washing the eyes, nostrils and throat with a solution of boric acid.

Cotton used in the open front houses should be kept brushed off, and should be opened up on fine days to facilitate ventilation, this will also prevent the accumulation of moisture, which is more injurious to the health of birds than cold. Plenty of clean litter should be provided for scratching purposes. Lice bums, should be kept in control. This may be done by dusting the birds with insect powder or by smearing the skin around the vent with blue ointment about the size of a pea. Care should be taken not to smear the feathers with this ointment.

A grain mixture should be fed in the litter morning and evening. Feed at the rate of about one quart per day to ten birds. A mixture consisting of equal parts cracked corn, wheat and oats has given splendid satisfaction at this Station. Buckwheat or barley may be used to replace the corn, but in such case, only the best oats available should be used in order to reduce the amount of fibre.

A dry mash should be kept in hoppers before the birds at all times. A mash consisting of 100 pounds wheat bran, 100 pounds corn meal, 75 pounds ground oats, 15 pounds linseed meal, 3 pounds charcoal, and 100 pounds beer scraps will give good results. If skim milk, buttermilk or meat is available the beefscrap may be omitted. A portion of the above mash may be moistened with skim milk moistened with skim milk or water or water and fed to the birds at noon. Give them what they will eat up clean in a few minutes.

Commercial ready mixed scratch feed and mashes may be fed if so desired, but slightly greater gains have been obtained at this Station by feeding the home-mixed feed.

Grit, oyster shell and fresh water should be provided at all times.

**Conservatives Win Halifax Seat**

Heading the polls in Halifax, Dartmouth and county, W. A. Black, of the steamship firm of Pickford & Black on Wednesday won the first Conservative victory in the constituency since 1917 and broke the ranks of the solid sixteen Liberal representatives sent to Ottawa from Nova Scotia by the general election of 1921. He defeated his only opponent, George A. Redmond, Liberal, by a majority of about 1,800 votes.

Mr. Black won out in every ward in Halifax and in Dartmouth, and the county gave him a substantial lead on his opponent. His majority over Redmond in Halifax City was 573, in Dartmouth 391 and in the county 830. The total number of votes polled was 24,904 out of an electorate estimated at 60,000. Only in a few divisions of the county was there a majority for the Liberal candidate. In this by-election the government lost a seat that was carried by the Liberals in the last election by a majority of 5,000. Elevation of Hon. A.K. MacLean to the presidency of the Exchequer Court of Canada precipitated this by-election which led to the loss of a seat and reduced the government to a minority at Ottawa. Far reaching endeavor of the newly constructed Conservative political organization, activity of the Conservative women voters and the sympathy of the Labor party is believed to have played a large part in the Conservative victory. Never for some years have the Conservatives worked so hard to win a seat in federal parliament.

Halifax and St. John, Maritime rights and the development of Maritime ports became the issue and not for a long time have so many orators been imported to assist in campaigning for a by-election in this county. Discrimination against the ports of Halifax and St. John in favor of Portland, Me., were charged against the government, while the government, represented in the constituency at various times by the Premier, the Ministers of Finance, National Defence and Soldiers' Civil Re-establishment pointed to the increased shipping at Halifax and St. John, the proposed elevator at Halifax and many smaller achievements under way.

### SAVED FROM AN OPERATION

Restored to Health By Taking "Fruit-a-tives"  
Made of Fruit Juices and Tonics

The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in the letters written by them to "Fruit-a-tives". For instance:

"I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking "Fruit-a-tives" and this fruit medicine completely relieved me of all my misery".

Mrs. M. J. GORSE, Vancouver, B.C.  
50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

Green feed, such as cabbage, mangels, beets, turnips, clover, sprouted oats and alfalfa should also be provided daily. The latter two may be steamed and fed in the mash, or the leaves may be fed dry in racks or boxes. A dose of Epsom salts at the rate of one pound per hundred birds, given at intervals of two or three weeks, will help to keep the birds healthy and prevent intestinal disorders.

Profit from hens depends very largely upon winter egg production. Breeding plays an important part in winter production but in order that the result from breeding may be obtained good food and care are necessary.

### BLACK RIVER MAN IS ELECTED AS GARDINER'S MAYOR

Gardiner, Me., Dec. 2.—Donald S. McNaughton, was elected mayor of Gardner last week over Dr. Bert E. Lamb, who has served as mayor for the last ten years by a majority of 187 votes in the biggest election ever held in the city.

A total of 1177 votes were cast the largest number ever known and of this number, Mr. McNaughton received 1183, carrying Wards 1, 3, 5 and 6, while Mayor Lamb with 995 votes carried Wards 2 and 4.

This was the first election under the new charter which was adopted by the voters this year.

Mr. McNaughton, a prominent business man, was born at Black River, near Chatham, N.B., and came to the United States in 1890. He became a citizen by naturalization twenty-years ago and has lived in this community for twenty-six years.

His business activities in Gardner have covered a period of nineteen years beginning at first with a shoe business. For the last seven years he has been a member of the Wakefield McNaughton Furniture Company and also conducts a real estate and insurance business.

Mr. McNaughton is forty-nine years of age and married. He is affiliated with Hermon Lodge F and A.M. of Gardner, is a Commandery Mason and a Scottish Rite member of the 32nd degree and a member of the local I.O.O.F. He is superintendent of the Sunday School of Highland Avenue Methodist Church; president of the Associated Board of Trade and has instrumental in making the summer Chautauquas in Gardner a success.

### OLD EARTH CELLAR BEST FOR APPLES

One of the problems of the householder each year is what quantity of apples he can store economically, and another question, "Why did not my apples keep well last winter?" or "is there any way by which I can keep them better this year?" This does not apply, of course, to those who are fortunate in having the old fashioned cellar without a furnace which was cool but frost-proof, and moist without being damp. It was and is in such a cellar that apples can be kept to the best advantage and where they will best retain their flavour.

The nearer the conditions approach those in this old earth cellar the better the results will be. First, the fruit should be kept as cool as possible without freezing. If the temperature can be kept between 35 and 40 F., this would be best. The higher the temperature the shorter the life of the fruit.

Next in importance is retaining the moisture in the fruit. If the individual specimens are exposed to a very dry atmosphere they will wither, hence the desirability of keeping them in such a way as to retain the moisture as much as possible, even though the air of the storage room be dry. This can be obtained, to some extent, by keeping the fruit in a closed package and better still, in addition, by wrapping each individual specimen in waxed or oiled paper, which will do much to preserve the moisture in the fruit, and to keep disease from spreading to another. It is also desirable, if one has nothing else in storage that will be adversely affected, to keep an open vessel with water in it in the room.

A careful choice of varieties should be made if one is going to lay in several barrels, or more than the family can use in a month or so, as notwithstanding favourable conditions for storage, the length of season that any variety will remain in prime condition is limited.

### Here and There

In order to handle the grain this fall the Fort William, Ont. force of 360 elevator men will be increased to 700. From 120 to 150 grain trimmers will be employed.

For the five months to August, 1923, Canadian newspaper exports were valued at \$36,303,043 against \$27,257,382 for the same period in 1922. Pulp exports in the same period were valued at \$20,008,461 against \$16,076,533.

Grain loading on Canadian Pacific lines during the month of September totalled 28,376 cars or 38,245,200 bushels. This at the beginning of the loading season which was two weeks late this year on account of the retarded harvest.

This has been the greatest season for automobile tourists Montreal has ever experienced, according to the Secretary of the Automobile Club of Canada. Cars, he stated, had come into the city over the King Edward Highway at the rate of two hundred a day, an unusual number from California, Florida, Carolina and Virginia being noticeable.

There was nearly \$160,000,000 increase in the total trade of Canada for the first five months of the current fiscal year, according to a return made by the Department of Customs and Excise. The total trade of the Dominion, according to the return, for the five months ending with August, was \$785,000,000, as against \$625,000,000 during the same period a year ago. Imports during the period were about \$393,000,000, as against \$303,000,000 a year ago, while exports of Canadian produce rose from \$316,000,000 approximately to \$386,000,000.

There is a heavy demand for bushmen, according to the Government Labor Bureau at Montreal. The big lumber companies have been engaging men for the bush, and the prospects are that the demand will be sufficient to make fall and winter conditions good. Wages paid this year by the lumber companies are higher than last year, the rates paid being \$40 and \$45 a month, whereas a year ago the schedule was down to \$25 a month.

With the completion of the harbor works now in progress, Montreal will be in a much better position in 1924 to handle a record flow of grain than ever before. Windmill Point elevator will be increased by 1,250,000 bushels storage capacity, making its total capacity 3,250,000. Four additional shipping berths are being provided at this elevator and will be in commission early next month, and the elevator's loading capacity will be increased from 50,000 to 90,000 bushels an hour.

Reports to the Canadian Pacific Railway, show that there arrived at Winnipeg from the British Isles this year for the purpose of working on the harvest, 11,883 men. Special efforts are being made to find occupation for as many as possible to cover the winter period, and it is stated that it is now probable that a considerable number of these harvesters from Great Britain and the Irish Free State will remain in the Dominion.

Addressing a recent meeting of the Vancouver Board of Trade, President E. W. Beatty, of the Canadian Pacific Railway, announced that the company proposed immediately to add two large modern steamers to its coast fleet in order to take care of increasing tourist traffic over the company's coastal lines. He also announced the early completion of a new pier at this harbor at a cost of several millions, which has been made necessary by the steady development of Canada's trans-Pacific trade.

### Cancer Cure Not Yet Found, Says Expert

New York, Nov. 30.—Dr. Judin Jose Mostajo, noted surgeon and president of the Permanent Commission for the Control of Cancer, in Peru, called yesterday on the Santa Lucia for Lima, after completing a two year's tour in an effort to learn what civilization is doing to end the dread disease, that his country might benefit. He has visited practically every European country, and toured extensively in the United States.

Dr. Mostajo said he found no cure for cancer. But he was impressed by the fact that civilization is awakening to the need for spreading knowledge concerning the disease, particularly the "danger signals" that those afflicted may receive treatment in time to be cured.

Nowhere, is any organization conducting so systematic, broad and effective a campaign as in the American Society for the Control of Cancer," said Dr. Mostajo.

"I have really had to come to North America for a vindication of our own idea that in lieu of a medical remedy the only available way to combat mortality from cancer is to give the public the facts. That is what we have been doing in Peru since our society was organized there three years ago."

## Practical Civics And Self-Government

The study of self-government is a most vital part of education, because it deals directly with the altruism of living. The class in civics is easily converted into an active, self-governing body, as a result of the understanding of what government and law are. The election of officers and the making of a simple constitution, fashioned after that of the country, always proves interesting, helpful and satisfactory. Each pupil has the responsibility, not only of his own thought, progress and happiness, but of that of the group. A change in motivation is seen immediately when self-government is instituted, and increased interest, alertness and a sense of responsibility follow. This method of school government can be given, even to young children. A little child can be led very easily into the spirit and practice of efficient citizenship and enjoy it.

In the past, there was passive, external obedience to the more or less autocratic control of those in authority. To-day the child is taught that each one is not so much a subject as a co-operative member of a community to which he must give his share. He learns that each group of which he is a part—be it family, school, city, state, nation or that world community, the inter-dependence of which is growing so much more evident—has common wants, our "inalienable rights," which lead to common purposes, to team-work or co-operation and on to organization under leadership. Because of this community experience and the common wants, laws have been evolved; laws which are a protection to the well-meaning and a restraint only to the wrong-doer.

Thus comes the understanding of man's place—a helpful, active, responsible member of the community—in fact of many different communities. Thus comes the training that the pupil may acquire a habit of taking initiative in private and in public affairs and of thinking and acting independently and vigorously and in co-operation with his mates and those in authority. His understanding of the fundamentals of independent citizenship and right practices. He learns that his thinking must be clear and uninfluenced. His voting must be wholly impersonal, with the one thought of the betterment of the group. He understands that the organization is his, that the leader is chosen by him, and because of recognized qualities of leadership for the purpose of carrying out those plans which are made for the best good of the whole, those plans which will give to all the greatest opportunity to supply the "common want." They know that because this is so they owe allegiance, loyalty and active participation.

Can boys and girls so trained fail to make better citizens? Is it not placing the responsibility where it belongs now and where it will belong always? Is it not training for citizenship and thus sending our young people on better fitted for whatever part in life awaits them? Does it not lead them to see not only their own rights but the rights of others and the duties of all and to appreciate them?

One school whose civics class has carried this out well, headed their simple but forceful and able constitution with the following quotation: "God grants liberty only to those who love it and are always ready to guard and defend it."—Condensed from the Christian Science Monitor.

## WHITNEYVILLE NOTES

Our popular teacher, Miss Dickie is preparing a programme of recitations and dialogues for the Christmas closing exercises.

The pupils of the Baptist Sunday School, under the skilful leadership of Mrs. Melvin Stewart, are preparing for their Christmas entertainment.

Mrs. P.A. Forsyth has returned from a delightful visit to New Carlisle, P.Q., where she was the guest of Rev. and Mrs. James McCurdy.

Mrs. Perley Tozer of Sunny Corner was the guest of Mrs. Hiram Whitney recently.

The roads here are in bad condition. The only good piece of road between Curtis' Corner and Redbank is that part made some years ago of gravel by Allen Tozer of Sunny Corner. If some of the road taxes were used in getting gravel every year, we would soon have good roads. A few shovelfuls of sticky mud will not make good, permanent roads. Wake up road tax payers, stand up for your rights!

## BRITISH INCOME TAX

21 Grosvenor Place, Hyde Park Corner, London, S.W.1.

Tuesday, 20th November 1923

Dear sir,

There must be many of your readers who are British subjects (and, of course, this includes persons born in the Dominions and Colonies) who have money invested in England.

I feel sure few of them are aware that they are entitled to reclaim at least—part of the heavy British income tax deducted from their dividends, mortgage interests, or other income which has been taxed in the United Kingdom.

Prior to April 1920 very few persons resident abroad could reclaim tax from the British Inland Revenue, but since that date, practically every British subject living abroad has the right to get back a part of the tax suffered by him in respect of his British income.

Many of my personal friends living abroad have been able to recover sums running into hundreds of pounds and I would advise any of your readers who suffer from the tax to look closely into the matter. In these days of bad trade, heavy expenses and high in-

## Canada Lures World-famous Stars

That the two-fold attraction of Canada's audiences and Canada's scenic and climatic allurements, especially at Banff, is proving irresistible to many great concert, theatrical and movie stars is well brought out by the above photographs reproduced above, which represents some of the famous artists who have recently visited Canada. The majority of the originals of these pictures need no introductions to Canadians. Sophie Breslau, that brilliant contralto singer, who is shown about to start her tour of this country from the Canadian Pacific Railway's Windsor Station, Montreal, made a great hit everywhere. Dame Clara Butt retains her place in the hearts of British audiences. Gail Curci's golden voice has enraptured millions. Elsie Janis, internationally known impersonator, and her 'Momma' foregathered with the Mounties at the C. P. R. station at Banff and got a big thrill. Jack Holt, famous movie star, snapped off-duty among the Indians at Banff, is lyrical on the subject of Canadian scenery. Jascha Heifetz was on his way to the Orient when he posed for the Canadian Pacific camera-man. The perennial Pavlova expresses her appreciation of services rendered aboard the 'Empress of France'. Doug and Mary had the time of their young lives holidaying at the Canadian Pacific hotel at Banff, where the picture reproduced was taken.

To the Editor of the Advocate, Newcastle, N. B.

Dear Sir,

There appeared in your issue of the 4th inst. a letter from one who signs himself "A loyal Presbyterian" and dates his letter, Chatham, Dec. 1st, 1923. The letter in question purports to be a reply to a letter which I wrote to the Chatham "Commercial" of Nov. 27th. Let me point out, Mr. Editor, that I think you have not been exactly fair to me as a friend and subscriber when you have published such a letter without having first given your readers an opportunity to see what I said in the first place to the "Commercial." In the interests of justice, fair-play and truth, therefore, I request you to publish in your first issue my original letter to the "Commercial."

Now with regard to the letter in your last issue, signed "A Loyal Presbyterian," let me say that it is not my intention to enter into any extended newspaper controversy with a person who hides behind a nom de plume, for one who so hides may indulge in very irresponsible statements. If he would be straightforward and above-board enough to come out from hiding and sign his name, one could treat with him on a more equitable basis.

After attending the Anti-unionist meeting in Chatham on Nov. 23rd, I resorted to the pen, not for the purpose of entering into any personal controversy but principally to place before the Chatham people two pieces of important documentary evidence bearing directly upon the discussion of this great religious issue. It is to be noted that your correspondent in his "reply" has not at all touched upon the second of these pieces of documentary evidence, namely that dealing with "Spiritual Independence." To the first, namely that dealing with "coercion," he has attempted to reply with invective and with the statement that "any documentary evidence drawn up by such an Assembly as this and submitted to Presbyterians by Mr. Matthews or any other unionist clergyman, as proof that coercion is not being used will have very little weight with intelligent people." This statement of his simply means that he closes his eyes to the light and his mind to the truth. There is no attempt made by him to refute the point made by me that the Assembly empowered its Committee on Union to "confer" and the anti-unionists have chosen to ignore the offer.

My letter might have closed at this point, but there is one charge which your correspondent makes in his invective that is too serious to disregard. In speaking of the last Assembly at Port Arthur he says: "it is a well-known fact that this Assembly was nothing more or less than a packed convention of Unionists, with minds fully made up to put the Union question through at all hazard." Allow me to say that this is emphatically NOT "a well-known fact." It may be a widely-circulated falsehood. On the face of it, it is a defamatory and libelous statement. One can understand why a person using such statements is moved to hide behind a nom de plume. He ought to be ashamed of himself. But how can he call himself "A Loyal Presbyterian" when he thus drags the good name of ministers and honored representative elders of his Church in the mire before the eyes of the general public? What love can he have for a Church whose Courts he thus so spitefully maligns?

Let me remind you, Mr. Editor, that the Presbyterian Church is governed by "Courts" which are constituted in a legal way and clearly defined constitutional lines as to

as the General Assembly is concerned, the number of commissioners and their mode of appointment are matters that are distinctly defined by rules of Assembly and Presbytery. To intimate that this highest court of the church is capable of being converted into "a packed convention" is to talk rubbish. Moreover, it is my conviction from personal association with some of the commissioners to the last Assembly at Port Arthur, and from observation of the tone of editorials and other writings in "The Presbyterian Witness" and elsewhere just previous to the Assembly, that never in the history of the Presbyterian Church in Canada did God-fearing men go up to an Assembly with a greater sense of responsibility and a greater burden resting on their hearts and consciences.

There are a few other matters in your correspondent's letter which I would like to discuss but I am afraid that I have already transgressed in the matter of space. Let me, however, say to my friend that we who have Unionist convictions are not at all afraid of discussion on this subject. On the contrary, the more fully the people are informed on this great issue, the better we believe it will be for the cause. "A Loyal Presbyterian" has been good enough to suggest a public debate. If he wants a debate merely for the purpose of fireworks and for venting inflamed partisan feelings, I wish to emphatically decline to be a party to it. If, however, he desires a full and frank discussion of this great Church issue the development of which is being watched by the whole Christian world, and if he will guarantee that the discussion will be carried on along a high moral plane and with a desire to arrive at the truth, let him come out into the open and name the place.

Yours sincerely, W. McN. MATTHEWS, The Manse, Millerton, N.B., Dec. 6th, 1923.

EDITOR'S NOTE

The "Advocate" was not given the privilege to publish Rev. Mr. Matthews' original letter to the "Commercial" as copy of same was not submitted, and it could hardly be expected that his letter be made an object of choice from among the many that each day appear in the press. The "Advocate" holds Rev. Mr. Matthews in high esteem both as a friend and a subscriber, but is unable to publish articles bearing his signature, without first being requested to do so and copy of same forwarded for publication. The "Advocate" received yesterday from Mr. Matthews a copy of his original letter to the "Commercial," and same will be published in next week's issue. We regret that we were unable to publish it this week but time and space would not permit.

Newcastle, N.B., Dec. 10, 1923.

To the Editor of the Advocate Newcastle, N. B.

Dear Sir,

Herewith I enclose for publication "A Reply from Rev. Dr. Duncan" which appeared in the St. John Daily "Telegraph-Journal" on December 6th, 1923.

Rev. Dr. Duncan's reply speaks for itself and should allay any doubt, which might possibly exist in the minds of unbiased persons, who are endowed with the ability of receiving the truth.

Dr. Duncan's reply is also an answer to the base, vile, contemptible and illiterate epistle (couched in pugilistic slang) which appeared in last week's "Leader" over the misnomer "A True Presbyterian."

Personally I decline to answer one, who conceals him or herself anonymously, especially in a discussion of such a sacred question as the one at issue.

To write in such a disparaging insulting and vulgar manner as this writer did, concerning a minister of the gospel with the recognized ability and reputation of Rev. Dr. Duncan and also with such discourtesy and venom against another branch of our Christian Church, is NOT the product of "A TRUE PRESBYTERIAN."

The following is Dr. Duncan's reply.

Respectfully, MRS. JAMES BAISLEY A REPLY FROM

REV. DR. DUNCAN

Sir,—My attention has been called to an article in your columns, referring to an amusing incident at a Newcastle meeting, which I addressed. Only one side of the facts is reported; my reply is not mentioned, so, perhaps I should give this time the account of the overture between the Anglican and Presbyterian Communion referred to.

For several years past, official conferences have been held in Montreal between a committee appointed by the presbytery of Montreal and a committee appointed by the Bishop of Montreal. These conferences ended in an unanimous finding as to forms of mutual communion whereby the ministers of each communion were to receive "a wider exercise of their ministry" ministering acceptably in each other's communion. These conferences were held in May 1922, the report being submitted to and received by the presbytery of Montreal which approved what was considered, the "most constructive forward step made since the Reformation in the way of Christian Unity."

To test the mind of the Anglican and Presbyterian Churches, five Presbyterians and five Anglican ministers, on the basis of the findings of the Montreal conference, resolved to approach the General Assembly and the General Synod; offering themselves for whatever

The Cause Of Sickness

Almost Always Due To Weak and Impoverished Blood

Apart from accident or illness due to infection, almost all ill health comes from one or two reasons. The mistake that people make is in not realizing that both of these have the same cause at the root, namely

poor blood. Either bloodlessness or some other trouble of the nerves will be found to be the reason for almost every ailment. If you are pale suffering from headaches, or restlessness, with palpitation of the heart, poor appetite and weak indigestion, the cause is almost always poor blood. If you have nervous headaches, neuralgia, sciatica and other nerve pains, the cause

is exhausted nerves. But run down nerves are also a result of poor blood, so that the two chief causes of illness are one and the same.

If your health is poor; if you are pale, nervous or dyspeptic, you should give Dr. Williams' Pink Pills a fair trial. These pills act directly on the blood, and by enriching it give new strength to worn out nerves. Men and women alike greatly benefit through the use of this medicine. If you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow.

If your dealer does not keep these pills you can get them by mail at 50 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

Veno to Canadiens

"Shortly Veno well known Chatham hockey player who went to the United States and made good there, may sign up with the Montreal Canadiens, according to an announcement made last week by Leo Dandurant, manager of the team, prior to his departure for Grimsby where the team will practise. Veno now is in New Haven, Conn. "It is only a matter of price with Veno," says Leo, "and if some of our other prospects do not show up well, I am certain I can get Veno."

If there is any question as to what is fair—give the other fellow the advantage.

OBITUARY

JOHN L. MORRISON

John L. Morrison, pioneer commission merchant, head of John L. Morrison & Co., passed away at his home in Chicago recently after a brief illness. Mr. Morrison was born in Burnt Church, Northumberland county, and was 70 years old. Two brothers survive him, both living in Burnt Church.

MARGARET WHITNEY

The many friends of Mr. and Mrs. Russell Whitney sympathize deeply with them in their recent sad bereavement when their eldest daughter, Margaret, a bright, lovable girl of twelve years, died after a brief illness.

The funeral was largely attended. The pallbearers were: Vance Whitney, Ernest Dunnett, Russell McTavish, Burton Whitney, Harold Parks and Claire Dunnett.

The numerous floral tributes showed the esteem in which she was held by her friends and schoolmates.

MRS. ALVIN DALTON

After an illness of only a few weeks, Mrs. Alvin Dalton passed away at the Miramichi Hospital, on Monday afternoon, Dec. 3rd. A few weeks ago she became ill and she continued to sink. She was formerly Miss Bertha Buras, daughter of Mr. and Mrs. Arthur Burns Redbank, and was 38 years of age. She is survived by her husband and five small children; also her parents, two brothers, William of Redbank and Leonard of Newcastle and two sisters, Mrs. Daniel Oleson Chatham, and Mrs. Edward Dalton of Newcastle.

EDITORS MAIL

(Continued from page 4) "Anti-unionists," "negationists," "obstructionists," "narrow sectarianism" should be charged with wider Christian sympathies and a larger desire for Christian Unity than those who call themselves "Unionists" at present.

The lady in question knows, as stated in Newcastle, that our quarrel is not with the Methodists, as the report of her speech insinuates, nor are we opposed to the widest measure of Christian unity. We are, in the interests of religious liberty and spiritual continuity of faith, opposed to the form of the present Union Bill—the most coercive, commercial measure ever offered to any Parliament.

It may be interesting to know that the committee on this subject appointed by General Assembly did meet with a committee of the Anglican church in Hamilton in September 1922. The only question to be agreed upon, as it had been agreed upon in the Montreal conference, was that of Faith, which comes before that of orders.

The vague, mutilated faith of the basis of union is hardly acceptable to the Anglican church to-day. However, the report of the committee was submitted to the General Assembly of 1923, and there it rests.

## REMEMBERED THE GREAT FIRE ON MIRAMICHI

(Moncton Transcript)  
Said to be 115 years old, Mr. Henry Hendrickson passed away in his sleep on Thursday, Nov. 22nd at Point du Chene. He was found by one of his grand-children. The late Mr. Hendrickson was in his usual good health at the time of retiring and death was utterly unexpected.

The late Mr. Hendrickson was a native of Norway and came to this country 63 years ago. When a young man he was a sailor before the mast and on one occasion he visited the Miramichi.

It was in 1825 the year of the big fire and Mr. Hendrickson has often related his experiences at that time. He told how, in order to save themselves, the people were forced to take to the river and submerge themselves, surrounded oftentimes by all sorts of wild animals which were forced to take refuge there with them.

When he first came to Canada he resided for a number of years in Quebec and later came to Point du Chene which was then an important port. Many ships sailed out of there loaded with lumber for foreign lands and it was no uncommon sight to see twenty or thirty ships in the harbor at one time, he said.

## Bronchitis Yields To Vicks

Dunedin Man Tells of Prompt Relief.

Mr. Leo Berrigan, Dunedin, Prince Edward Island, says: "During the winter months I was always troubled with bronchitis and tried many preparations to relieve the trouble. None were successful until I tried Vicks VapoRub. It gives relief in a very short time after application and I can honestly advise sufferers to use this salve."

By invitation of the manufacturers, fifty thousand families in Canada tried Vicks for cold troubles, the only condition being that they would report results. The above is just one of the many enthusiastic reports received.

Vicks VapoRub comes in salve form, and for chest colds, you just apply it over throat and chest and cover with a warm flannel cloth. The body heat releases vapors that are inhaled all night long into the throat and lungs—Menthol, Camphor, Thyme, Eucalyptus and Turpentine.

Vicks is also absorbed through the skin, stimulating the skin, aiding the vapors to relieve congestion. Usually colds go in one night and group is commonly relieved in 15 minutes.

At all drug stores, 50c a jar. For free test size package write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P.Q.

Although Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

## Take It From Me

Walk straight up to Trouble, look it in the eye and tell it to go to Helena.

If there is any question as to what is fair—give the other fellow the advantage.

The benches in the park are filled with fellows who tried to tell the boss how to run his business.

Have you ever noticed how you learn to like the fellow you have done a friendly turn and how your hate grows for the one you have injured.

The first employee the fool killer should brain is the conceited ass who thinks it is his personal popularity that is making it possible for his firm to remain in business.

The little errandboy of an old war veteran after having heard one of his often repeated war stories said, "Grandpa didn't anybody at all help you to win the war?" I am often reminded of this little story when I meet one of these "I" sales men, and wonder if there is anybody else in the firm besides him.

When I meet one of these inquisitive fellows, I am reminded of the old dog that was moving her family across a railroad track. One inquisitive pup stopped to stick his nose against the third rail. While he found out all there was to know about electricity, it never did him much good.

Someone has said:—  
"He has achieved success who has lived well, laughed often and loved much; who has gained the trust of pure women and the love of little children; who has filled his niche in life and accomplished his task; who has left the world better than he found it, whether by an improved poppy, a beautiful poem, or a rescued soul; who has looked for the best in others, and given the best he had; whose life was an inspiration; whose memory is a benediction." This constitutes success.

## Here and There

Fifty cars of fish were shipped this season from Lesser Slave Lake to various points in Canada and the United States, the majority going to cities in the Eastern States. These shipments were practically all whitefish, the coarser varieties being disposed of in the local markets.

Showing a record increase over the figures of last year, grain loadings in the Western Provinces since the commencement of the crop year, September 1st, aggregate 82,219 cars, representing 136,958,448 bushels, as against 80,828 cars loaded, or 130,287,194 bushels, from September 1st to October 14th, 1922.

That the future prosperity of the Maritime Provinces, as well as the whole of Canada, depended on the routing of Canadian trade over Canadian railways and through Canadian ports, was the view expressed by Dr. Murray MacLaren, M.P. for St. John, speaking recently in his constituency.

Tens of thousands of caribou are trekking southwards through Yukon Territory for the winter. Bands of them have passed through the outskirts of Dawson City. For a hundred miles down, bands of caribou can be seen swimming the Yukon river and sometimes surrounding canoes and steamboats as they pass.

Part of the 15,000 feet of moving pictures taken for the Dominion archives by the Arctic expedition in charge of Captain Berrier, which has just returned from the northern regions, are to be shown in Quebec City shortly. They contain interesting incidents of the life of the Eskimo and typical scenes of the Northern land.

Up to the end of June, 1923, according to E. W. Dearty, President of the Canadian Pacific Railway, the Company had disposed of 18,194,737 acres of agricultural lands, for which an average price of \$7.87 per acre was received. During this period the Company had, by direct effort of its own, secured the consent of over 100,000 farmers in Western Canada.

A splendid hunting year with a late onset is reported from British Columbia. A world's record Osborn caribou was killed by D. W. Bell, of Williamsport, Pennsylvania. The length of the head was 65 1/2 inches, spread 55 inches and thirty-eight points. A party of three, of whom Bell was one, bagged nearly 100 pieces.

A total of 40 round voyages to the port of St. John, New Brunswick, constituting an increase of six over last winter's figures, is announced by the Canadian Pacific in a newly issued schedule of operations for the winter port. The S.S. Montclair will be the first liner to leave St. John after the close of St. Lawrence navigation, sailing for Liverpool on December 7th.

Captain S. Robinson, R.N.R., the hero of the Japanese disaster, who commanded the Empress of Australia when that ship was in Yokohama harbor at the time of the earthquake, has been fittingly honored by the Canadian Pacific Railway. He is to command the company's steamship, the Empress of Canada, when the ship leaves New York, January 30th, on a world cruise.

The most spectacular nugget brought to town in many years arrived in Cobalt, Ont., recently, and the camp's oldtimers gathered round, admiring the huge mass. The nugget weighs approximately 3,200 pounds, is estimated to run fully 75 per cent silver and is worth over \$20,000, according to the estimate of the owner, Angel Clemens, a New Liskeard carpenter.

The Royal Canadian Naval Reserve of 500 officers and men, is now being organized, and it is expected that selection of officers will be completed early in November. Headquarters will be established at Charlottetown, Halifax, Lunenburg, St. John, Quebec, Vancouver, Prince Rupert and Victoria. Naval training at the naval bases of Esquimalt or Halifax will be given to R.C.N.V.R. ratings during the winter months.

## Childhood Constipation

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; colds and simple fevers. Concerning them Mrs. Gaeper Daigle, Demain, Que., writes: "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him and now he is in the best of health."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

While great credit can be given  
to distinguished editors from time  
of Horace Greeley, Henry Watterson  
and others of their class, for the  
development of the profession, one  
must not forget how much is due  
to the inventive genius and mechan-  
ical skill of such men as Hoe, Scott  
Potter, Cottrell, Goss, Mergenthaler  
and others, stated James Martin  
Miller, newspaper man and author  
Washington, D.C., in a talk at  
the school of journalism of the  
University of Michigan last week.  
Mr. Miller spoke on the development  
and progress of the newspaper  
profession.

The marvelous typesetting  
machines and the stereotyping in-  
ventions, photo engraving etchings,  
and other processes that have de-  
veloped within a few generations,"  
he said, "made possible the produc-  
tion of the great journals of the  
country. We owe everything to  
those great inventors.

"Whenever I have heard the  
clicking of the typesetting machines  
and the whirl of the great modern  
appliances in Europe, in Australia  
and other countries, I knew that I  
was reminded of the inventive  
genius and the mechanical skill as  
developed in the United States of  
America. We must not forget the  
progress in chemistry, as applied to  
the development of the manufac-  
ture of newsprint paper.

"In talking about journalism we  
are apt to have in mind only the  
editorial, reportorial, advertising and  
circulation forces on a great news-  
paper. The newspaper institution  
has as many men employed in the  
mechanical departments of the  
newspaper as are engaged in the  
more professional departments.

"The compensation of such men  
and women often averages greater  
than in the writing and reporting  
end of the profession. That is  
particularly true in more recent years

"The only school of journalism in  
Horace Greeley's day and since was  
the hand typesetting case and the  
hand printing press. Most editors  
of those days were practical printers,  
pressmen, etc. Few editors of the  
present day are experienced men  
in the mechanical branches of the  
newspaper business.

"Schools of journalism in great  
institutions like this have been  
organized in very recent years.  
They seek to establish the calling as  
a profession; to standardize it.

"In the old days a prospective  
lawyer studied law in a law office,  
a prospective physician in a doc-  
tor's office. To-day anyone wishing  
to enter these learned professions,  
must be prepared in a standardized  
and accredited professional school.  
There is just as much reason for  
standardizing the profession of a  
newspaper man or woman as to do  
so in any other learned profession.

To-day most newspapers prefer  
to engage their forces from young  
men and women who have learned  
the fundamentals of the profession  
in a school of journalism."

**THE EXPORT OF**  
**XMAS TREES**

Citizens along the Canadian-  
American border are not taking as  
much interest in the possible embar-  
go on the export of pulpwood as in  
the question of the exportation of  
Christmas trees. In Vermont and  
Maine and other states it is against  
the law to cut down young spruce  
trees. To fill the demand for Xmas  
trees it has become necessary to cut  
down the young growth in Canada.  
Gangs of men cross the border every  
year about this time and cut down  
thousands of young spruce trees,  
which they send to the States. As  
many as eight car loads of trees  
have passed through Magog in one  
day.

The trees have an average life of  
from five to ten years, although in  
many cases the cutters trim a small  
strip from the top of an older spruce  
in the one case potential pulpwood  
is robbed of its future; in the other  
full grown tree is damaged in such  
a way that its growth is impaired.

It is impossible for us to guarantee proper insertion, after that date. Every merchant will realize the large amount of work it entails to handle the advertising business during the Xmas season.

#### THE WEATHER

The remarkable and unusual stretch of spring-like weather with which the vicinity has been treated for weeks, was broken last night. A light snow fall occurred, which is the first we have had this season. This morning the ground was covered with a light mantle of snow and the children are delighted. Yesterday, Dec. 10th, we were given a dandelion in full bloom which was plucked in one of the fields in town. While the weather has been most acceptable to the average citizen, the merchants are finding it a great drawback to business.

### THE KENT BY-ELECTION

The by-election in Kent Co. is to take place on the 20th inst. At the nomination held on the 6th inst two candidates were placed before the electorate—A.E. Bourgeois, of Buctouche for the Liberal party, Councillor Alex. J. Doucet for the Conservatives. No doubt the result in Halifax may have some effect in Kent County.

### STRONGLY AGAINST GOVERNMENT

A Northumberland County man who was in town last week on his way home from Halifax stated re the turnover in the Halifax by-election that the vote did not so much represent the feelings of people as to the qualifications or personality of the candidates but showed the strong desire of the electors to vote against the King Government.

### ENJOYABLE DANCES

A large number of dancing enthusiasts attended the dance in the Town Hall, Tuesday night. Music was furnished by the orchestra from Cote's Studio, Moncton, and was much enjoyed.

The Rainbow Five supplied music for dancing in the Town Hall on Friday evening. There was a large attendance.

### FOR XMAS SHOPPERS

The merchants of Newcastle recently petitioned the C.N.R., authorities at Moncton, N.B., to have the "Whooper" run on Monday December 24th, in order that people living in the districts through which this train runs may have an opportunity of coming to town on that day to do their Christmas shopping. The C.N.R. authorities have granted the requests of the merchants of Newcastle and the "Whooper" will run on the above mentioned day.

### KEMARKABLY OPEN AUTUMN

The autumn of 1923 will go down in history as one of the most remarkably open ever experienced in New Brunswick. Ordinarily deep snow is on the ground at this time. This year motorists are making long runs almost as well as at any time during the summer and the prospects are that they will continue to operate their cars for some time yet.

### Liquor Raid At A Boiestown House

Inspector Stewart took a trip up river recently on complaint that beer was being sold contrary to law, and seized a batch of homebrew at a house near Boiestown. The case will come up shortly in court.

### The Exodus To The U. S. Has Ceased

That the exodus of French Canadians to the United States has stopped and that the pendulum is now swinging in Canada's favor, is an important declaration made by Mr. J.E. Laforce, Colonization and Immigration representative of the Canadian National Railways in Boston, when in Montreal on business before returning to Boston.

### WEATHER THEORIES

Judging by the position of the Gulf Stream relative to this continent and the present temperatures of its waters, a scientific gentleman at Washington promises the country a fairly decent winter. There will, he says, be extremely cold weather. The Gulf Stream has been credited with having an influence upon our climate, but the scientific world, it is well to remember, is not entirely agreed as to the amount of this influence, one student in France arguing that it is very small. A new theory may displace all other theories shortly.

because it has the merit of complexity—always attractive to folk specializing in weather lore. It has to do with the power of the planets to increase the output of the sun's heat. If you have grown tired of the Gulf Stream theory and do not yet understand the rival theory, you can turn back to the goosebone, possibly just as good a longdistance forecaster as any.—Ex

### COLLECTED STUMPAGE

#### ON XMAS TREES

The Department of Lands and Mines have held up a shipment of four carloads of Xmas trees which were being shipped from Canterbury station to the United States, and the result was the collection of stumps on one of the carloads which had been cut on Crown lands. This is the first instance in which such action has been taken by the Department.
