

TORONTO GENERAL AND TRUSTS CO.

Cor. Yonge and Colborne-Sts.

Securities and Valuables of every description, including Bonds and Stocks, Plate, Jewellery, Deeds, etc., taken for Safe Keeping, on Special Guarantees, at the Lowest Rates.

The Company also Rent Safe inside their Burglar-Proof Vaults, at prices ranging from \$5 to \$50 per annum, according to size.

Vault doors and offices guarded by Holmes' Electric Protection.

Security from loss by Burglary, Robbery, Fire or Accident.

For full information apply to J. W. LANGMUIR, Managing Director.

She Resented the Insult.

"I couldn't help it, papa," she looked up into his face with her frank blue eyes, and it was impossible to doubt her.

"But you didn't seem to be protesting very much," said a very clever ruse, you see. He got me to look the other way, and then, before I knew it, he had kissed me on the cheeks."

"The scoundrel!" "It was wrong of him, of course."

"What did you do then?" "I was very angry. I told him it was an insult."

"Indeed it was, and you should have ordered him to leave the house. Did you?"

"No, not exactly."

"Well, what did you do?" "I told him it was an insult, and that he must make it back."

"And then?" "He was taking it back when you came in and saw him."—Chicago Post.

The Thoughtful Chamber.

A good story is told of Chauncey Dewey. He received a letter from a young married friend in Albany asking for a pass for his mother-in-law, who was coming to make him a visit, and closing with the delicate hint, "Don't forget to get the return coupon attached."

"Mr. Dewey is nothing if not worldly wise and sympathetic, and in sending the letter, the young man had not neglected the return coupon, and had limited it to three days."—Minneapolis Journal.

Feeding Dairy Cows.

A series of observations of the winter feeding practices of Connecticut dairymen has led the Storrs station to the conclusion that in general there was the largest yield of milk and the largest butter production with narrow rations rich in protein. Wide rations low in protein did not favor large milk or butter production. In the three tests when it was possible to study the financial side of the feeding narrow rations rich in protein were decidedly the more economical. Bearing in mind that there is such a thing as a "best ration," and that all attempts to express in terms of protein and energy the needs of a dairy cow are only approximations, the following ration is tentatively suggested as a basis for feeding dairy cows:

Organic matter, 25 pounds; digestible protein, 25 pounds and enough digestible fat and carbohydrates to bring the fuel value up to about 3,000 calories.

The subject of cattle feeding and handling is a large one, and only general principles can be laid down. No hard and fast rules for feeding are known, and doubtless none ever will be known. It is nevertheless true that the man who exercises the largest amount of good sense in feeding his cattle, and the man who learns to avoid the bad and choose the better is well on the road towards the best.

Athletic and General Notes.

More special has been given for the Toronto Industrial Exhibition Association Dog Show as follows: Bloodhound Club of America donated a gold medal for best dog, one for best bitch and silver medal for best puppy. Cambridge Fox Terrier Kennels, Toronto, donated a model of the dog D'O'Connell for best puppy, aired either by Dusky Trap or by Cambridge Regal. The Canadian Sporting News offer a trophy value \$25 for the best brace of setters. The American Spaniel Club donated a trophy, value \$100, for best field Spaniel, also one for best Cocker Spaniel. The Bell cup for best brace of cockers, other colors than black \$5 for brace Irish Water Spaniel, \$5 for brace Cocker, \$5 for brace of setters and \$5 for brace of cockers.

Mr. Stewart Lyon of the Globe reported staff leaves to-day for a trip to his birthplace in Scotland. Yesterday, on behalf of the Globe editorial and reporter staffs, Editor William presented him with a handsome traveling bag.

A fashionable wedding was celebrated at the residence of Mr. E. J. Simpson, 150 Dundas-street, when Miss May E. Simpson was married to Mr. Edward Boyd. The ceremony was performed by Rev. James Porter, pastor of the South-side Presbyterian Church. Miss Lema Boyd was best woman, and Miss Lema Boyd was bridesmaid. The bride was dressed in blue, trimmed with white silk, while the bridesmaids wore pale blue, trimmed with lace. Both carried bouquets of white roses. The presents were unusually numerous and handsome. Over 30 guests sat down to supper.

SETTING THE DAY.

The Wooling of Her as it Will Be in the Years to Come.

"You look tired, dear."

"The man who had given up his life to the young girl who so solicitously questioned him gazed down tenderly into the eyes uplifted so searchingly into his."

"I am a little tired, my darling," he said. "Our cooking class was a little longer than usual this afternoon, and it has told upon me."

"Yes, dear," she replied, sympathetically. "I have heard mother tell how wearying they were to her, and I can understand in a measure how irksome they must be. Is this all you have been doing to-day?"

"Oh, no!" he cried. "This morning I attended a most absorbing lecture on the care of the household, the first of a series that are to be given this season. It was so helpful."

"I can imagine so," she softly replied. "Although a subject that has never claimed my serious thought, I can appreciate just how inspiring talks of this subject must be to one so ambitious as yourself."

"Indeed, yes, and that is not all," he exclaimed, enthusiastically. "I am looking up the subject of home decoration, and it is wonderful what a vast prize for me that have ever fallen from your lips, and now that I claim my reward and call you my own."

With an exclamation of delight, her future life companion, the look of weariness on his face giving place to one of the greatest hopefulness, drew her swiftly to his arms.

"Do you think so?" he said. "Ah, my dearest, how I have toiled to hear you say those words—the first words of praise for me that have ever fallen from your lips, and now that I claim my reward and call you my own."

With an exclamation of delight, her future life companion, the look of weariness on his face giving place to one of the greatest hopefulness, drew her swiftly to his arms.

THE LARGEST LENS.

The Splendid Achievement of an American Manufacturer.

The Clarks have accomplished what has long been regarded as an impossible task, and one which no European manufacturer of lenses could be induced to attempt. This is the making of a perfect lens of more than three feet across the face. No one but this American manufacturer ever thought of exceeding the 26-inch lenses which are in use at several observatories on both continents, one at the Naval Observatory at Washington, through which Mr. Hall discovered the long-sought satellites of Mars and many double stars. The highest power was supposed to be reached when the Lick telescope in California was put up with a 36-inch lens. The difficulties to be met with in the production of a perfectly clear lens of great size are so many that the European observers who have wanted anything above the 26-inch lens have had to take the reflecting telescope, which has a concave mirror. It requires, of course, a much larger reflecting telescope to get the same amount of light and the same magnitude of object.

The making of the 41 1/2-inch lens is regarded as the crowning work of Mr. Alvan Clark's life. The difficulties to be met with in the production of a perfectly clear lens of great size are so many that the European observers who have wanted anything above the 26-inch lens have had to take the reflecting telescope, which has a concave mirror. It requires, of course, a much larger reflecting telescope to get the same amount of light and the same magnitude of object.

The difficulties to be met with in the production of a perfectly clear lens of great size are so many that the European observers who have wanted anything above the 26-inch lens have had to take the reflecting telescope, which has a concave mirror. It requires, of course, a much larger reflecting telescope to get the same amount of light and the same magnitude of object.

The making of the 41 1/2-inch lens is regarded as the crowning work of Mr. Alvan Clark's life. The difficulties to be met with in the production of a perfectly clear lens of great size are so many that the European observers who have wanted anything above the 26-inch lens have had to take the reflecting telescope, which has a concave mirror. It requires, of course, a much larger reflecting telescope to get the same amount of light and the same magnitude of object.

T. EATON CO., (LIMITED)

190 Yonge-street, July 25, 1895.
To-Day we close at 5 as usual and at 2 o'clock Saturday.

FRIDAY BARGAINS

We buy enormous quantities of goods to sell at special prices instead of depending on odd lots and broken assortments. The Friday business of this store is progressive. The newest styles and most taking qualities are included in the bargain host, and every incident of trade is intended to emphasize good value. We're quicker than anyone to save you money, always selling as low as we can and crowding in value to the last cent. These things for to-morrow are important enough to warrant careful reading and early shopping:

HAMILTON NEWS.
Took a Dose of Laudanum—Death of High
Constable Hunter.
Hamilton, July 24.—Mrs. John Lafferty, a young married woman with three children, who with her husband resides at 52 Macanlay-street east, attempted to commit suicide last night by swallowing a quantity of laudanum. She was found by her husband for some time, and after a dispute with him last night, he took her to the hospital, where she died. The cause of death was laudanum poisoning.

Mr. Prince Recovering.
Mrs. Tobias Prince, whose mutilated body was found a couple of weeks ago near Ansonia, is recovering, but is unable to tell how the accident occurred. The affair was an accident.

The Coal Analysis.
Prof. Ellis has submitted to City Engineer Keating his report on the analysis of samples of hard coal delivered by the Rogers & Co. at the main pumping station. The result of the analysis is as follows:

Moisture 3.90
Volatile 6.35
Fixed carbon 80.75
Ash 8.70
100.00

The report will be presented to the Board of Works at a special meeting called for to-day. Prof. Ellis says that different samples of coal gave results sometimes varying 21-3 per cent. By the terms of the contract Rogers & Co. are required to deliver coal that would not show on analysis more than one-quarter per cent. of moisture and 6 per cent. of ash.

Garden Party of the Daughters and Maids
Old England Lodge No. 10, Daughters and Maids of England, turned the rustic season of ex-alla, Sunday, August 1st, into a day into all the jollity of a successful garden party. The day was delightfully cool, so that everyone present was able to enjoy the games and dances to the utmost. The fat ladies' race and the fat men's race were much enjoyed. The other events were: The committee race, Sister Bluns 2, Young ladies' race, Sister Bluns 1, Sister Bluns 2, Gentlemen's race, 100 yards, S.O.E. only, H. C. Wilson 1, H. Hopkins 2, Gentlemen's race, 100 yards, C. Crew 1, E. Body 2, Consolation race, members only, Sister Wood 1, Sister Oren 2. Other attractions were the hand-pump, looked after by Mr. Watkins and Sister Solis, which was very successful, and the drawing for the wedding cake. Mrs. J. Moore was the lucky winner. Mrs. Wells and Nash welcomed the guests at the gate of the grounds.

Selling Liquor Illegally.
George Rade, proprietor of the Green Bush restaurant, was fined \$100 yesterday and costs on two charges of illegally selling liquor. Two weeks ago Rade was fined on a similar charge. Rade keeps a restaurant in King-street west, was fined \$20 and costs for the same offence.

Atlantic Summer Passenger Service.
Through tickets to or from Europe by Canadian Lines, also excursion tickets to West India Islands, Demerara and Cuba, are on sale all the year round at lowest rates by W. Weatherston, 93 Ross House Block, York-street, Toronto, where tickets are now on sale at special low first class excursion rates per steamship Lake Ontario, sailing from Montreal August 7, at daybreak. Berths secured and full information furnished on application.

Chicago to New York by Electric Railway
Chicago, July 24.—The preliminary steps towards the building of an electric line for the transmission of passengers, mail and express from Chicago to Buffalo are now on foot, and it is the intention to continue the line to New York. The run to Buffalo is to be made in four hours and to New York in from eight to ten hours.

Muskoka Train Service.
The Grand Trunk intended, on Friday night next, the 26th inst., and following Friday until further notice, to run the 6:15 p.m. train leaving the Union Station through to Gravenhurst, thus enabling merchants and others to leave Toronto after business hours on Friday and to spend Saturday and Sunday with their families in Muskoka. There will also be an early train leaving Gravenhurst at 6 o'clock on Saturdays only, for Toronto. This service will commence on Saturday the 27th inst.

Old Time Circus Clowns Reunite.
Jackson, Mich., July 24.—Billy Warner, the old-time circus clown and negro minstrel, was yesterday taken to the Asylum for the Insane at Kalamazoo. Twenty-five years ago Warner was a popular circus clown in the country and was the apple of many eyes. He was brought Warner out as a clown and made and squandered several fortunes and finally became a tramp.

Had La Grippe—Mr. A. Nicholson, Farmer, Dutton, writes: "Last winter I severe pain in the small of my back, and tried to catch me whenever I tried to climb a tree. I was confined about two months, when I bought a bottle of Dr. Thomas' Electric Oil, and used it both internally and externally, morning and evening, for three days, at the expiration of which time I was completely cured."

Pan-American 1000 Islands Excursion.
Owing to the small number of delegates applying for the "Panama" tour, the trip has been cancelled, but a special day steamer will make a similar trip to the 1000 Islands leaving here on the morning of Friday, Aug. 2, at 8 o'clock.

LOST HIS WHOLE FAMILY.

Five children of a Manitoba Farmer drowned in Lake Superior.
Winipeg, Man., July 24.—The five children of Alexander Berch, a farmer of the Lake Dauphin district, near Winipeg, were drowned Monday. The children, ranging in age from 5 to 15 years, went to the lake shore to bathe. Finding an old boat, they pushed out into the lake. A stiff breeze carried the boat out. The children had no food and could not get back. The high waves filled the boat. The children hung on to the boat until they were exhausted, when one by one they let go and disappeared. The parents and several neighbors were witnesses of the drowning, but not having a boat were unable to go to the rescue.

NEW TRAIN ROBBERS!

A Gang in Ohio Obtain \$8000 From the
Toledo, Ohio, July 24.—Train No. 37, the "western New York and Chicago express" on the Lake Shore and Michigan Southern Railroad, was held up by six masked men at 12:30 this morning at a lonely place in the woods known as Reese Station, between Archibald and Richer, Ohio, ten miles west of Toledo. The train stops there to let the eastern express pass.

The latter train was approaching when the robbers took place. The robbers were mounted and rode out of the woods, which are dense in this part of the track. Conductor Darling, who was standing near one of the coaches, was ordered to alight at the point of a revolver. A mission to the express car was executed, and the messenger was forced to open the safe.

The robbers were evidently entirely familiar with the train, and it is thought employees of the road or of the express company were implicated either as principals or confederates. It was undoubtedly known to the band that there was a large sum of money in the safe. The amount reported to have been obtained by them is \$8000, but it is believed that a much larger sum was taken.

No attempt was made to molest the passengers, those of whom knew nothing of the occurrence. When the thieves had secured the contents of the safe they rode quietly away. The country is being scourged. The country is being scourged.

Low Water Causes Typhoid.
Dr. Sheard, Medical Health Officer, says the general health of the city continues good. The contagious diseases reported during the present month are: Typhoid fever 10, scarlet fever 3, diphtheria 25. The fevers show a slight increase over last month, and diphtheria a decrease. The number of typhoid cases reported during the first six months of this year was 46, as compared with 58 for the corresponding period of last year. The increase in typhoid is attributed to the low condition of the water in the lake.

Approved by the Mayor.
Editor World: I heartily endorse your article in today's issue, advocating the extension of the Avenue-road street railway, so as to give direct access to Upper Canada College and Mount Pleasant Cemetery. The large numbers who desire to visit the latter would rejoice at the extension of this line. The people are in hopes that an arrangement would have been effected between the Toronto and Metropolitan railway systems, so as to afford an unbroken service, but nothing has been done and the public are weary of waiting. "Hope deferred maketh the heart sick."

A Rose by Any Other Name
Would smell as sweet. It's not the name but the thing which the name stands for which counts. It is not the high-priced label on the bottle, but the wine in the bottle which the public is concerned with. The public wanted a good but cheap wine, and the Bordeaux Claret Co. have supplied in claret, burgundies and champagnes, at the lowest price ever offered in the history of wine-selling in any country—\$3.50 and \$4.50 per dozen quarts, delivered to any point in Ontario. And yet the wines are excellent. They have age, they have robustness, they have the bouquet of the vine for the man, and a wine which will not hurt him but rather build him up. The wine for the people. Address: Bordeaux Claret Co., 30 Hospital-street, Montreal.

Will Tell His Story To-Night.
Detective Slemin returned from Banda yesterday, accompanied by Albert Somerville, the affiant of Miss Sarah James, whose death under suspicious circumstances occurred at 49 Bellevue-avenue Monday. Somerville is not under arrest, having voluntarily returned with Slemin to make his statement to the authorities and give evidence at the inquest this evening.

East End Notes.
The congregational excursion to Lorne Park of First-avenue Baptist Church took place yesterday. The majority of the excursionists got by steamship, though some preferred the rails. There was a very large attendance, ladies predominating. Among those present were Rev. J. Clifton and Mrs. Parker, Mr. and Mrs. Weston and a great many others.

Mayhurst to Return.
London, July 24.—The Canadian marksmen who won cash prizes at Bisley received their money at the office of Sir Charles Tupper, Canadian High Commissioner, this morning. Hayhurst, the winner of the Queen's Prize, will return to Canada and resume his vocation.

Special Excursion.
The popular S.S. Lake Ontario of the Beaver Line will leave Montreal for Liverpool Wednesday, Aug. 7, with special excursion party. Rates from Toronto to Liverpool, single \$52.50, return \$94; first-class throughout with no other expenses. She is 3000 tons in weight, with ocean travelers that berth with her rapidly increased. Full particulars may be obtained at Barlow Cumberland & Co., 72 Yonge-street, Toronto.

Local Jottings.
The majority of the 400 Pan-American visitors left the city last evening. During the day a number took part in various drives and excursions at a reduced rate. (Don't be deceived, see that all names, names and last names are branded "J. & S.")

The attention of the City Engineer is drawn to the fact that the telegraph and telephone poles have not yet been removed from Avenue road. The City Engineer may be allowed to proceed in an uninterrupted manner with the laying of the asphalt pavement. The removal of the poles is a matter that is to be done by the City Engineer at some time or other, so that the company cannot be any the lower by removing them at once. The officers, the band of the Queen's Own Rifles, under the direction of Mr. John Bayley, will play the following program in Bellevue Park this (Thursday) evening: March, Selvad, Franklin; fantasia, Festivals, Williams; song, afterwords, Muller; valse, Incognita, Ivanovitch; character, The Line, Kilm, Chir's, Soiree, Laurendeau; polka, Up to Date, Little, medley, Plantation Airs, Contorno; valse, Roses From the Ball, Docker.

The John Eaton Co.
Temperance and Yonge-sts. **The John Eaton Co.**
Temperance and Yonge-sts.

Friday Comes

again, and greater it will be. Outside on Temperance-street, around in the rear and down on the south of our great armies of men are commencing to build up the present store towards the sky. As far as possible the great crowds can come every day and no inconvenience.

CANADA'S COMING GREATEST STORE

will hold the biggest crowds of the season to-morrow. Come one, come all, come to the sacrifice with a pocket full of money. You'll need all you bring, for you'll not be able to resist the temptations laid before you.

Doctors, get your prescriptions filled at our drug store at half druggists' prices. Visit our great food market down in the basement, and if you can't come we'll see you at your home. We want your trade. We can save you money. We'll call on you some day soon and prove our assertions. To-morrow, Friday, we shall sell:

Finest French Prunes, worth 7c lb., Friday 4c, lb.
Sultana Raisins, 4c bar,
Laudry Soap, 4c bar for 5c.
Genui Live Polish, reg. price 10c, Friday price 7c.
French Cream Breakfast Coffee, reg. price 25c tin, Friday price 20c tin.
Bananas, 10c doz.

Friday we commence to show to the great public how we will sell tinware and will create another furor just as we have created all along since John Eaton commenced at Temperance and Yonge-streets.

Down in the basement,
Pie Plates, 25c doz.
Copper Pit Bottom Kettles, No. 7 and 8, 30c.
Duet Pans, 5c.
Cuspidors, different colors, 5c.
No. 7 and 8 Boilers, 64c; dirt cheap at \$1.

At the front circles Friday:
11,550 yards Ribbons, 2c yard,
Papers of Pins for 5c.
Elastic Garter, 3c pair, just half.

At the Staple counter Friday:
100 pieces Washing Crepons—all colors—worth 121-2c, to-morrow 5c yard.
600 pairs of pure Linen Huck Towels, colored borders, reg. price 25c, to-morrow 17c per pair.

At the Stationery counter Friday:
Solid (morocco) Leather bound Testaments, gilt edges, reg. price 75c, to-morrow 35c.

At the Jewelry counter Friday:
Rhinstone Brooches, reg. price 25c, to-morrow 10c.
Gents' Rhinstone Lever Collar Buttons, warranted rolled plates, reg. price 10c, to-morrow 2 for 5c.
Silver Baby Mugs, gold lined, hand-stamped engraved, reg. price \$1.25, to-morrow 50c.

At the Gents' Furnishings Friday:
775 pairs of Men's Hose, in merino, cottons and all-wool, worth up to 35c, Friday price 15c.

The attempts made to steal our thunder have fallen flat. The people have spoken.

VOX POPULI VOX DEI

Truth is mighty and has prevailed. Come early to-morrow, but come sure, remembering that the John Eaton Co.'s store closes on Saturdays at 1 p.m.

THE JOHN EATON CO., LTD.
Temperance and Yonge-streets.

DON'T GET MAD
Because we've reduced the price of Hard Coal to \$4.25. It's exactly what you're looking for, and if you wish to put in a few tons for winter now's the time.

AT \$4.25 IMMEDIATE DELIVERY.
