In United States \$2.50

LOCAL HAPPENINGS

Art Tailored Clothing at Swift's. The front of the McGillicuddy block has been painted a pea green. W. L. McCrae & Co. have placed a handsome new gilt sign in front of their store.

The new Velette Skirting in shades of brown, blue, chestnut and fallow.—A. Brown & Co.

Don't be verbose. Let the other fellow do all the talking and you will know all you know and all he knows too.

Mr. Chas. M. Roche, formerly of Watford, has been promoted to Manager of the Bank of Montreal's branch at Petite Cote, Que.

Men's silk shirts at Swift's \$3.50, \$4.00 and \$5.00.

Sixty-two candidates wrote at Watford on the recent High School Entrance examinations and forty were successful or about 64½ per cent.

The British government has at last removed the embargo on Canadian cattle which has existed since 1882. The new regulation does not come into effect until next autumn.

Mr. and Mrs. Albert Holmes, Petrolia, announce the engagement of their daughter, Mary A., to Mr. Arthur E. McKecher, son of Mr. and Mrs. John McKecher, Watford, Ont., the marriage to take place in August.

Already the boys and girls have forgotten all about school and books their minds now being centred on getting as much enjoyment as possible out of the mid-summer holidays. What is more, as a rule they know just where the fun is.

At the meeting of the Grand Lodge of Masons held at Port Arthur last week, Richard Williamson of Watford, was elected Deputy Grand Master for St. Clair District No. 2 in which Watford is situated. The Guide-Advocate congratulates Bro. Williamson on his appointment.

All the Watford public school pupils who wrote the entrance exams were successful. Mr. Mahon sent up a class of 17 pupils all of whom passed. This is a very satisfactory showing and in keeping with former years.

The school gardens both flower and vegetable have been judged for the first time. Some were found in excellent condition showing evidence of taste and care. Some needed weeding and some thinning out. The judges are Mr. Shrapnell and Mr. Brown and they will visit all the gardens again before the School Fair.

Watford Public School is to be congratulated on the success of the students at the recent High School Entrance Examinations. The entire class, a large one, was successful, several of whom got honors. The highest number of marks at this centre was obtained by Doreen Millar, a pupil of Watford school.

Because of the great loss of life and property damage by fire during the past decade the Government, by proclamation, is calling upon all citizens to exercise special care and to observe October 9 as Fire Prevention Day. According to the proclamation, citizens will be required to inspect their dwellings and remove all conditions likely to cause fire.

Out of 292 candidates who wrote in the East Lambton entrance examinations, Gordon Richardson of the Petrolia public school made the highest standing, 82 marks, while Vera Doreen Millar of the Watford public school stood second, with 81 marks. Miss Millar wins the medal given by Lambtons 149 chapter I. O. D. E. for the student obtaining the highest marks at the Watford centre.

Referring to the results of the Lower School Examinations, published in another column, it will be noticed that in Form II Beatrice Cooke took first-class proficiency marks in all of the six subjects, and in Form I Mary Connolly took the same standing in the four subjects. These two students will therefore be entitled to the medals donated by Lambtons 149, I. O. D. E.

There was a good turn out of the congregation of Trinity church in the Sunday school room on Tuesday evening when they assembled to welcome Rev. J. H. Hosford, the new rector, and Mrs. Hosford. The people's warden, Mr. E. D. Swift, presided, and introduced a short but interesting program of music, recitations and speeches. Rev. Mr. Hosford made a short reply to the words of welcome extended, and at the close of the program the ladies served light refreshments.

Awning stripe—at Browns'.

Ladies see our dresses—open Saturday.—Swift's.

Watford Chautauqua—Tuesday, Wednesday, Thursday and Friday, August 15th, 16th, 17th and 18th. Federal Square, Main street.

A. Rumford's Clearing Out Sale of Footwear for all the family is still going on. Buy your future needs before our stock is all gone. Repairing as usual—first-class work at right prices.—A. Rumford, Taylor Block, Watford.

Mr. George W. Carter, M.A., has been engaged as mathematical teacher in the High School. A telegram was received from him Wednesday accepting the position. Herbert W. Graham, the teacher selected at a previous meeting having withdrawn from his agreement, the matter will be reported to the Minister of Education.

New Sweater Coats at Swift's. The Rev. W. Rayner, pastor of the Congregational church, Listowel, will preach at the union services of the Congregational and Methodist churches on Sunday as follows: 11 a.m. in the Congregational church. 7 p.m. in the Methodist church. Mr. W. Rayner is the father of the Congregational minister.

An editor can't make a house-to-house canvass for news, but is always glad to have it handed in. We want all the news. Just as pleased to mention your guests, or your visits as to mention those of your neighbor, but maybe your neighbor gives us more assistance in getting the facts. Hand in your news items. We want them.

Mr. and Mrs. S. H. Mitchell and son, and Mr. and Mrs. I. Fred Cowan and daughter had a very exciting experience while summering at Ivy Lee, Thousand Islands, when their cottage was struck by lightning coming down the stovepipe it tore the linoleum from the kitchen floor in shreds, throwing it all through the rooms, passing along and out at a water pipe which led to the river, leaving a deep dent in the floor. Three members were severely shocked, but none seriously.

The Gov't grant for the year has been received at the Public Library. The amount is \$79.80 an increase of \$10 over last year. Do not forget that the patronage of the citizens means the success of the Library. New books are being added from time to time giving you the best and latest fiction and literature at practically no cost to you. The reading table with its assortment of the best magazines is worth more to you than the small yearly fee of 50c for all. If you are not a member join now.

New Tuxedo Sweaters \$2.65 and \$3.25.—A. Brown & Co.

On Monday last Rev. H. V. and Mrs. Workman left by motor for Kingston and vicinity, where they will spend their vacation. The services of the Watford Presbyterian church and Knox, Warwick, will be conducted for the next three Sundays by the Rev. A. A. Acton B.D., of St. Andrews Presbyterian church, Detroit, Mich. Rev. Mr. Acton spent his boyhood in Brooke township and attended the Watford High School and is at present enjoying his vacation in this district. The third Sunday in August the services will be in charge of a representative of the Lord's Day Alliance.

Buy your clothing at Swift's.

Automobile markers for the Province of Ontario for the year 1923 are likely to be of the same general design and specifications as those in use this year, with the exception that the present black letters and figures on a white ground will be reversed to white figures on a black ground. Hon. F. C. Biggs, Minister of Highways, stated Tuesday that the arrangement of colors would be the only change, unless one of the bids on the tenders now being called for could show the Government that a change was advisable.

It is an easy but harmful practice for a child to be coddled, in school and at home, and left to play until the dominant idea of the child comes to be that the world owes it a living and the chance to have a good time. It is a little harder but a great deal more serviceable to teach the child at home and elsewhere that the world owes and will give it nothing that is not paid for in honest labor. The child who is led to cultivate a garden regularly will very likely be willing to do other helpful work when occasion demands and at the same time will be cultivating a character full of promise for the duties of later years.

The new fish net ties for men— all shades.—A. Brown & Co.

PERSONAL

Miss Kate C. Harris is holidaying with friends in Sarnia.

Mrs. W. C. Dodge, Hamilton, is visiting at T. G. Mitchell's.

Miss Sadie Harper is visiting her sister, Mrs. Albert Nelson, Detroit.

Miss Jessie Jackson has returned home after a pleasant visit in Sarnia.

Mrs. Neil Bennett is spending a couple of weeks with friends in Sarnia.

Dr. A. C. Tanner, Ottawa, is spending his holidays at his home here.

Miss Mary Deans of Inwood was the guest of Miss Bertha Oakes on Sunday.

Miss Julie Osborne, Alvinston, is spending a month with friends in Watford.

Miss Mary Fowler, of Sarnia spent a few days at her home here this week.

Mrs. Lillie McGougan, of London, spent the weekend with Mrs. R. A. McIntosh.

Mrs. D. Styles and daughter Edith visited relatives in Michigan during the past week.

Mrs. W. F. Brodie of Ancaster, Ont., is the guest of her nieces the Misses Reid.

Mr. and Mrs. Geo. Cundick of London spent the weekend at Mr. Chas. Barnes.

Marjorie Corestine, Sutorville, spent last week with her aunt, Mrs. Wm. Ward, John St.

Mrs. Jessie Aylesworth is spending a week with her daughter, Mrs. A. H. Gillet, in London.

Miss Dewar, Sarnia, and Miss Anderson, Wyoming, are visitors at Mrs. Tanner's this week.

Mrs. Ellis and son Gordon, Saskatoon spent the weekend with Mr. and Mrs. F. A. Pritchett.

Mr. Peter McCarthy, of Thamesville, renewed old acquaintances in Watford over the weekend.

Miss Ula Higgins, Rosedale Farm, spent a few days with her aunt, Mrs. W. M. Styles, last week.

Mr. George Randall, Miss Nellie Randall, Miss Martin, Port Huron, visited Mrs. W. M. Styles Sunday.

Mrs. Jos. H. Mitchell and little son, Jack, Prince Albert, Sask., are visiting Mr. and Mrs. A. Mitchell.

Mr. and Mrs. A. L. Millar and family, of Hanover, spent the weekend with his brother, W. L. Millar.

Mrs. McVittie and daughter, Helen, of Hamilton, are visiting her daughter, Mrs. T. DeCourcy Rayner.

Mr. M. J. Maloney, Mr. Will Maloney and children motored from Detroit and spent Sunday with Watford friends.

Mr. and Mrs. F. O. McIlveen, Arnprior, were in Watford last weekend. Many old friends were glad to meet them.

Mr. and Mrs. Wm. Holst, Toledo, O., motored to Watford last week and spent the weekend with Mr. and Mrs. F. J. Hughes.

Mrs. J. M. Mackay and children, and Miss Lorena Humphries visited relatives in Detroit and Huron Beach over the week.

Mrs. Florence Edgar, and Mrs. Harry Edgar and son, Preston, spent ten days with Mrs. Connolly at her cottage at Hillsboro.

Mr. and Mrs. Eugene Fisher and brother, Jerome Fisher, of Bucyrus, Ohio, are spending a couple of weeks with Mrs. Fisher's parents, Mr. and Mrs. Robt. Auld.

Mr. H. W. Nixon, manager Sterling Bank, and family left on Sunday for Muskoka where they will spend a couple of weeks holidays.

Mr. Brown, Toronto, is relieving during Mr. Nixon's absence.

Mr. and Mrs. Geo. Cundick accompanied by Mrs. R. Thomson and Misses Sadie and Millie Barnes motored to Sombra and Marine City on Monday and spent the day with Mr. Harry Cundick of Riverview Fruit Farms.

Attend Swift's Hosiery Sale Saturday.

Local markets—Wheat \$1.00; oats 40c, butter 30c; eggs 19 to 21c.

The first load of new wheat was brought into Watford by John McCormick, Kingscourt.

Donald MacLachlan, of Cass City, Mich., is visiting at his grandmothers Mrs. H. T. MacLachlan, 10th line east.

Service in Zion Congregational church at 2.30 p.m. when Rev. W. Rayner of Listowel Cong'l church will preach.

A. Rumford's Clearing Out Sale of Footwear for all the family is still going on. Buy your future needs before our stock is all gone. Repairing as usual—first-class work at right prices.—A. Rumford, Taylor Block, Watford.

CHOP STUFF

Alvinston will take steps to extend the village cemetery.

During the hot weather the services of Trinity church, Ailsa Craig, are being held on the rectory lawn.

Rev. Richard Hosking, Methodist minister at Oil Springs was married recently to Miss Winnifred Pearson of London.

J. C. Elliot, ex-M.P.P. for West Middlesex, has been appointed Crown Attorney for the county of Middlesex and city of London.

Seventy-nine growers of potatoes in Kent have signed contracts with the Potato Growers' Association for the marketing of their 1922 crops.

James W. Collins, a well-known Caradoc farmer was stricken with paralysis while working in the field Monday and died two hours afterwards.

The Glencoe Horticultural Society is giving evidence of its usefulness by placing large vases of flowering plants and foliage at several of the principal streets.

Frightened by an oil tank last Saturday, the horse driven by Mrs. Webster Reid, of Blytheswood, ran away, throwing her out of the buggy and fracturing her collar bone.

Grand Trunk freight traffic at Sarnia has fallen off from 1,200 cars a day to about 900 a day during the last week, owing to the coal strike. Practically no coal shipments have been received of late.

A pig that Alexander Dube sold to Gordon Amlin, Malden, one day last week, deserves a place in the hall of fame. It weighed 515 lbs. and brought \$9.00 per cwt., giving it a value equal to a good cow.

The public schoolhouse at Port Lambton has been condemned by the P.S.I. and the school board will erect a new school. Tenders will be immediately asked for and an effort made to have the new school ready at an early date.

A sudden death occurred at Nairn on Sunday evening when Mrs. McCallum passed away after a few days' illness. The deceased, who was formerly Tena Ross and a sister of the reeve of East Williams, is survived by three children.

Alex. McAlpine, a well-known farmer of Euphemia township, south of Alvinston, expired suddenly in his barn on Tuesday, July 18th, after coming in from the field with a load of hay. The funeral took place Thursday to the cemetery on deceased's farm.

Smoking while taking on gasoline at the service station at Leamington caused an explosion in the tank of Mr. Earl Bee's new truck, damaging it to some extent. The burning gasoline spread over the ground endangering the underground tank, which was finally extinguished with applications of sand.

Thursday afternoon of last week Miss Smith, president of the Ladies' Aid Society of Knox Presbyterian church, Kent Bridge, met with a painful accident when driving to attend the meeting. The horse became frightened of a moving truck and ran in the ditch. Miss Smith suffered from shock and bruises about the ankle, and was unable to proceed on her way. Owing to the accident, the meeting was postponed indefinitely.

The drowning of Mrs. Clarice Rusieve, wife of an employee of the Imperial Oil, Limited, in the St. Clair at Sarnia on Saturday afternoon is the second fatality this season. It is believed Mrs. Rusieve, who was alone near the Muller Works, stepped off the narrow bridge into the channel. The drowned woman was 20 years of age, only recently married and of English nationality. Her husband resides on Chippewa st.

Considerable damage was done in Plympton and Bosanquet in the storm of a couple of weeks ago to buildings and crops. On the 14th of Plympton the wind seemed to do the worst damage. S. Baylis had his silo and barns damaged to the extent of \$1000. J. Sadler's barn on the same road was badly damaged. L. G. Van Valkenburg had a large number of his peach trees on his farm 10 con. Bosanquet, broken down by the wind.

During the heavy electric storm which passed over the north part of the county on Monday of last week, Oswald Sitter, son of Reeve Sitter, Bosanquet, and Clifford Hackney suffered severe shocks from the lightning. They were standing in the doorway of Mr. Sitter's house, when a flash occurred. The bolt killed a horse and several chickens a short distance from them. Both boys were dazed for some time after but are now completely recovered.

According to the secretary-treasurer of the Dominion Canneries, canned goods should be considerably cheaper this year than last—that is, if the crops this year are normal. Reasons attributed for the anticipated decline are that both tin plate and boxes are much below the price they were purchased for last year.

The death occurred suddenly Thursday at the family residence, of Frederick Gill, a well-known resident of Strathroy. While Mr. Gill had been ailing for several years, he was well enough Wednesday to attend a birthday party held in his honor at the home of his brother-in-law at Adelaide, he being forty years of age that day. He is survived by a widow and one daughter, Helen. He also leaves a brother, Charles, of Strathroy and three sisters, Mrs. Cooper of London; Mrs. B. Down of Adelaide, and Mrs. Hiles, wife of Rev. W. Hiles of Mich.

The big cut which will straighten out the road at Cadman's hill, at the Aux Sauble River west of Sylvan, is a work which is being watched with much interest. It is the most extensive work of this kind ever undertaken in this section and when it is completed an easy grade will take the place of the old, twisty, dangerous hill which has been for so long the bane of autoists. The sand hills nearer Sylvan are also being put in shape, and very soon one of the worst two miles of the highway will be wiped out.

During the electrical storm of Tuesday evening, lightning entered the home of Mr. Wm. Bennett, Mitchell, by way of the chimney. After running down the chimney it blew the cover off the stove pipe hole in the bedroom, entered a closet in the room where a quantity of wall paper was stored and tore the paper to shreds. From there the bolt went through another partition by way of a thimble and jumped to an electric light fixture in the hallway and disappeared down the wiring, and was evidently grounded somewhere. The chimney was not damaged.

While driving to Forest along the townline of Warwick and Plympton just south of the town, on Monday evening of last week, a horse belonging to Ed. Quinn was struck by an auto driven by Mr. Clare Stonehouse of Bosanquet, breaking the animal's leg. The horse had broken out of its pasture and had got out on the road unknown to the owner. The animal had to be shot. The car was also badly damaged the radiator and both lights being knocked off. It was impossible for Mr. Stonehouse to miss hitting the animal as the accident occurred at the bridge over Hickory Creek, at this point the road is narrow and the ditch on both sides very steep, which allowed no room to pass the horse.

A very distressing shooting accident occurred at the home of Wm. Beaudoin, 6th con., Malden, when his nephew, Norman Langlois, 10 years old, son of Mrs. Arthur Langlois, of Windsor, died as the result of a bullet wound he received in the neck, as the boys were playing with a 22 rifle. The stricken lad was hurried to the surgery of Dr. Teeter, Amherstburg, in an automobile, but when lifting him from the car, it was found that he had passed away from loss of blood on the way in. The gun was being used to shoot rats and when a cartridge became stuck in the barrel it was put to one side and was thought harmless. The fatality nearly prostrated the mother and relatives with grief.

The rural mail contractors of Essex county have received a circular letter from their representative at Ottawa, Garfield Mackinnin, informing them that the matter brought before the Dominion Government in the interest of the contracts have received very favorable attention and consideration and he expects that in a short time all of the concessions asked for will be granted by Hon. Charles Murphy. It is stated in the letter that the association has secured the promise of ten statutory holidays provided that the mail contractor will secure a signature from about 70 per cent. of the box holders along the route asking that the contractor be granted these holidays. The mail contractor must then enclose the list of signatures in a letter addressed to the Postmaster General, asking that the holidays be granted. Some of the other concessions which are being asked for are claims for lack of payment of money as well as the future increases on the basis of \$70 per mile per year, the abolishment of the contract system, and the introduction of a salary paid system with the permanency of occupation guaranteed.

FRIDAY, JULY 28, 1922

NOTE AND COMMENT

Don't worry about who will be the loser in the coal strike. You will know when you buy your coal in the fall.

According to the census returns of 1921 the population of Ontario is 2,933,662, the increase over 1911 being 406,370, or an increase of 16.08 per cent.

We always have had an aversion to writing of a certain kind of prison as a "goal". The word looks too much like "goal" and the place should not be goal for anybody. The form "jail" is more phonetic and less open to mis-spelling and mis-pronunciation.

The official report on Canadian Indians says that mentally they are of a higher type today than in the middle of the last century—that the great majority of Canadian Indians are sound physically, mentally and morally, and rank financially among the most solid citizens. It is cheering to know that the original owners of the country are holding their own to this extent.

When the price of wool is low, wholesale clothiers will tell you that the amount of wool in a suit of clothes makes only a small reduction in the price, but now that the U. S. government talks of putting a small tax on wool the manufacturers claim that it will make a suit \$4 and an overcoat \$7.50 dearer. It is a poor rule that won't work both ways.

Sixty years ago Western Canada was supposed by many to be fit for nothing but trapping fur-bearing animals. It seems from Stefansson that we are still under similar illusions as to the Arctic regions, that flowers and grasses grow upon the most northern islands of the Arctic archipelago, and that vast herds of reindeer roam over the mainland.

If you are rich enough to buy a bag of golf sticks you can indulge in your favorite game all day Sunday, but if you are a poor Indian and can only afford a racrosse stick your beloved recreation must not be partaken of. This serves to show the unfairness and impartiality of Attorney General Raney's interpretation of Sabbath observance. The Lord's Day act is getting to be a rather discriminating affair—otherwise a law for the rich.

The human mind is both receptive and elastic. It adapts itself to any and all conditions. Life a hundred years ago was merely slower and certainly much duller than now. How many of us are there who would care to set back the hands of time to the "good old days" of ignorance? People were happy then since they knew no better, just as we are fairly happy now, knowing nothing of the revelations that will make our own existence of today look at dull and uninteresting as that of our forebears.—London Daily Express.

The U. S. Shipping Board on Thursday leased 13 vessels which will be utilized to carry coal from England to the United States in an effort to forestall the shortage which is looming up on account of the miners' strike. The ships have a capacity of 7,000 tons each, or more than 90,000 tons in the aggregate. English coal production could be speeded up to permit the shipment of 200,000 tons weekly, if necessary, as all the pits are not working full time now. If the plan of the U. S. is followed by the Canadian government there should not be much shortage here next winter.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are warded off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

On the return of the Orangemen from Petrolia on Wednesday night a large number of the Orangemen and members of the Sarnia lady lodges, with the joint band of the Sarnia lodges, serenaded the home of Randall Kenny who is the oldest Orangeman in this district and was unable to attend the July 12 celebration at Petrolia this year. Mr. Kenny joined L.O.L. 1230 of Sarnia, in 1867, and is still a member of the Royal Black Knights. Fifty-five years of staunch Orange service is Mr. Kenny's record, and he has attended at least fifty celebrations of the glorious twelfth.

The striking statement is made that one out of every seven of the entire population of Canada is of foreign extraction, as over against the population of Canadian of British stock. In some parts of Canada, as in the Prairie provinces, the proportion is more nearly fifty-fifty, while in other large areas of the West, two-thirds of the children of school age are non-British stock. The prediction has been frequently made in this connection that in a few years time Manitoba, for example, will be preponderantly non-Anglo-Saxon, while another prediction is that within the span of a generation the Ukrainian race alone will be in the majority in the Canadian West.

"Kahn" a writer to the Toronto Globe, pertinently says:—"Time and tide wait for no man," also "Punctuality is the secret of success." Certainly not much to remember, but so easily forgotten by this "younger generation" and sometimes the older one, too. Why is it that the unpunctual "don't worry" sort of individual seems ever present, whereas a punctilious, reliable person is sadly conspicuous by his or her absence? I have a son and daughter, and it distresses me considerably because they possess this present-day failing. To me it spells "failures in life." Nowadays the unsuccessful are obviously in the majority. Give me the good old fashioned rules in life. I adhere to punctuality, and I never break a promise knowingly. Can any reader explain why this present-day feeling—"Come, day, go day, God send Sunday?"

Owen Sound Sun-Times:—One cannot escape the insistent suggestion, as one reads the daily reports of crime and consequences, that there must be something wrong with modern home life and education. Are things being made too smooth and easy for the children and youngsters? Is more store being set on a good time by the way than on getting somewhere worth while in the end? Is there too much parental and self indulgence? Are there too many growing up with a distaste, if not a contempt for the simple life, the life of self discipline and development, the life with ideals and a worthy goal with a will to pay the price of real success instead of drifting with the crowd, who never gives a thought to "the morning after" till it comes, and even then always blames someone else for not saving them from themselves? Young fellows cannot realize too soon that they are the only ones who can save them from making fools and failures of themselves, and that they can't begin the job too soon nor keep on it too strenuously.

The Warton Echo editor says: "At the risk of a few bricks falling towards my head, because I will not be offered a bouquet of roses, I am going to say that the salaries of teachers, generally speaking, have become altogether too high—unreasonably high. I go out to the country and I find a young girl not out of her teens, teaching in S. S. No. 4, township of Timbuctoo, at a salary of \$1,000 per year, and wanting more. Now let us look at the situation. Who has the better times? Work from 9 to 4, Saturday off, every public holiday off, vacation at Christmas, vacation at Easter, and two months' vacation in the summer. If anyone can convince me that the teacher leads a strenuous life, he has the opportunity. The poor beggars who work the whole year from 7 to 6 without a day off excepting Sunday and some of the public holidays, would like to swap jobs. Then, too, the salaries are quite high enough—too high in proportion to what other people are receiving. When only girls are asking upwards of \$2,000-per year to teach in the high schools, it shows that it is time for the people to organize as well as the teachers. Principals are not over paid, but the rank and file in the teaching profession have no kick. The people however, have, and it is about time to kick good and hard."

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

Everyone reads the "Guide-Advocate Want Column" on page 4.

DOMESTIC LOAN TO BE FLOATED IN THE FALL

Negotiations are already under way looking toward the flotation of the loan by which Victory Loan maturities and temporary borrowings are to be met this fall. It is the intention of Hon. W. S. Fielding, finance minister, to make the loan if possible, a domestic one.

In spite of the success of the loan recently floated in New York and the satisfactory conditions thereof, the minister believes that it is better to pay interest to Canadians than to send it out of the country.

While the patriotic stimulus which helped to make the Victory Loan a success is now lacking, it is anticipated that very few of those who subscribed to the Victory Loan of 1917, which matures in December, will decline to convert bonds held, even should the non-taxable feature be eliminated, which it undoubtedly will.

The amount of the maturing loan is \$180,000,000. In addition \$100,000,000 worth of temporary borrowings must be met. But inasmuch as \$100,000,000 was raised in New York the proposed domestic loan will it is believed, be for \$200,000,000.

It is doubtful whether the new loan will be floated under the same methods as were employed in underwriting former loans, namely, through the financial houses on a commission basis. It is probable that public subscription will be called for thru the banks and bond establishments instead.

LAMBTON MEDICAL ASSOCIATION

The regular meeting of the Lambton Medical Association was held in the C.E.E. Hospital, Petrolia, on the 12th inst. with a good attendance. Dr. Hamilton, of Petrolia, the president was chairman. Other members present were Dr. Brown, Camlachie; Dr. Hubbard, Forest; Drs. Bell, McKinlay, McMillan, Rutherford and Young, Sarnia; Dr. McLean, Inwood; Dr. C. Dunfield, Petrolia; and Drs. Newell and Sowers, Watford. Dr. Norman Gwyn, of Toronto, was in attendance and gave a talk on "Diseases of the Heart." Other subjects of interest were discussed. The next meeting will be held in Watford on October 11th.

GIRL'S STATEMENT WILL HELP WATFORD

Many women will profit by the following statement of one of their sex: "I was afraid to eat on account of stomach trouble. Even rice did not agree. After taking Adler-ika I can eat anything." Adler-ika acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach. EXCELLENT for gas on the stomach or sour stomach. Guards against appendicitis. It brings out poisonous matter you never thought was in your system. J. W. McLaren, druggist, Watford.

Is your subscription paid in advance?

Additional Funds

RADIO

A Weekly Feature of The Guide-Advocate to give our readers a clear explanation of this new popular science.
By Chas. M. Fitzgerald, Watford

The wireless telephone or the radiophone, as it is more commonly called, is generally thought to be the most mysterious and wonderful achievement of the age.

To be able to hear voices, music, etc., clearly from distant points without wires conveying the energy from the speaker to the listener is uncanny to the average individual. However, this latest stunt of science should not be considered more unusual than light which is more commonplace and for which we have the sense of sight to perceive its presence and operation. In the case of the radiophone we must have suitable apparatus to make audible the passing presence of the wireless energy which is radiated in the form of wave motion as is also light.

The purpose of this article is to explain the operation and mysteries of wireless telephone and telegraph, especially the former, and to deal particularly with points of interest generally overlooked.

In the first place let us consider the medium used to convey the energy from the speaker or sender to the distant listener or receiver in wireless communication. In the case of the ordinary telephone we have the medium of a wire connecting the two points to convey the electric energy from the sender to the listener. In wireless, however, we have no wires as a means by which we transmit the energy so we must expect to use some other medium, and an energy capable of travelling through this medium. The medium used is called "ether." Now what is the "ether." It is merely a filler-in that is presumed to occupy the spaces between the real solid particles or atoms composing a material or substance. To illustrate this we could fill a glass jar with marbles. The marbles would represent the real material or atoms while the spaces between would be representative of the ether. Now every material or substance whether it is a gas (air is a gas) or a more tangible material such as stone wood earth or liquids contain the solid atoms or particles with the "ether" filling in and since the ether occupies such a place we can expect that it provides the medium for the radio energy or waves to travel through these things. On account of this we can be entirely enclosed in our house and by having a suitable receiving set we can receive and make audible the music, etc., that is conveyed on these radio waves. Then again if we were to seclude ourselves in a vault entirely underground we could also receive wireless or if we were to go under the water in a submarine these radio waves would be heard by the use of suitable apparatus.

In the ordinary wire telephone we utilize a fluctuating electric current produced at the sending end to convey intelligence to the listener. In radio practice we make use of an undulating radio wave which is termed Hertzian wave or electromagnetic wave. These waves were first made known, transmitted and detected, by a scientist named Hertz. Marconi later utilized them on a practical basis to make wireless communication possible. When a transmitting radio apparatus is put into operation these electro-magnetic waves of a definite length are radiated outward in a similar manner as a pebble would cause waves to travel when dropped on a still pool of water.

Let us now learn what is the nature of the Hertzian wave as used in wireless. A popular question generally puzzling to most individuals is that if there are different transmitting stations in operation in a given area, why they do not interfere with each other producing a unintelligible jumble to the listener operating the distant receiver. The answer is that the transmitting stations can be each individually tuned to radiate a wave of a definite length. Hence each could be so adjusted to provide a wave length longer or shorter than an adjacent transmitter. For a receiving apparatus to hear a particular transmitting station it must be tuned in resonance or harmony to the wave length radiated by the transmitter. In other words there must be the same length of wire in use, electrically, as the transmitting station utilizes. In order to better understand this phenomena we will look into a parallel example of which most of us are more familiar. Take sound for instance, which is also propagated by wave motion, through a different medium than Hertzian waves, must utilize strings etc. of a definite length to produce a given note. The length of the string determines the wave length along with the rate, or frequency that this string will vibrate, which is in adverse arrangement to the wave length. There would be a method which could be used to cause a certain string, say on your piano, to

vibrate producing its particular note without mechanical contact with. This can be done by plucking another string similar to it or by whistling a similar note. This can be demonstrated to your own satisfaction on the piano in the following manner. Depress the "loud" pedal to give the strings free play. Now give a short sharp whistle. You will hear a response of a similar note from the particular string that is tuned to this wave length, in the piano. Note that no other strings respond. This is because they are tuned to same wave length or frequency as that produced by the whistle, therefore in order to produce sympathetic action we must either bring the wavelength produced by the whistle to that of the string which we might term as the receptor or cause the string to be brought into tune with the whistle or transmitting member. In radio practice it is more customary and convenient to set the transmitting station adjustments to radiate a given wave length and generally leave it at such while the receptor is brought into tune with it. By the foregoing illustration, which is better understood by trying the experiment mentioned, anyone can understand how interference is prevented in radio communication. However, because sound is taken as an example it should not be confounded with radio which is entirely different in more than one respect. Sound also produces wave length or in visa versa frequency of vibration which are low enough to be heard by the human ear while Hertzian wave frequency may run at over the million per second and also being of a different nature, or more so inaudible to the unaided senses. It is sometimes believed that the wind effects interferes with Hertzian waves. However, as wind is a rush of air and air being a natural substance in a sense, it could not be expected to impede an unlike or the radio wave energy.

In the foregoing part we learned that one reason for using different wavelength, was to avoid interference. It also has been found that long wave lengths having a small vibrating frequency penetrate farther with less absorption. Take an example of a large wave produced by a big steamer will travel farther than a short wave produced by dropping a pebble on water. Similarly it takes a large bulk or surface and a greater power to produce a big wave on water, as in radio. Therefore a radio station using a large aerial, excited by a great amount of power, co-ordinating with the long wave it will naturally produce will cover a longer distance most effectively. We would therefore expect that these long waves would be assigned to long distant transatlantic stations. Such station uses wave lengths up to 25,000 meters in length (a meter being the standard measurement used in radio practice and equals over three feet). Ordinary commercial, ship and shore station use wave length of 600 meters and over. Amateur traffic in Canada and U.S. are permitted to utilize wave lengths from 150 to 275 meters. Radio telephone broadcasting is carried on approximately 360 meters for music, news and reports while the weather is radiophoned on 485 meters. It will be assumed that it would be natural for amateur traffic to be carried on the shorter wave lengths due to the more convenience in erecting smaller aerials or antenna systems. The aerial or the antenna is merely a wire or wires so arranged to provide a means of radiating or collecting radio energy. At the transmitting end this aerial is excited by a suitable current of a given frequency thereby producing a wave motion in the ether. At the receiving end these waves cause a similar current to be set up in the receiving antenna which are made manifest by the use of a suitable receiving apparatus providing of course that the receiving antenna system is tuned to that particular wave length corresponding to that which is radiated by the transmitter. A problem now presents itself to the reader: What if the transmitting station uses a wave length of such a length as to be too long to be in resonance with the antenna system of the receiving station? It would not be convenient to change the length of the antenna to receive each transmitting station but as it is necessary to use a sufficient length of wire in order to tune-in and hear the transmitting station radiations, therefore we must have some means of making the addition of wire. This is accomplished by having a length of wire wound around a tube or form and so arranged that more or less wire can be added by the operator listening at the receiving station. The same end is also accomplished by the addition of this and other means as

well. Thus by turning a switch or dial or a plurality of these the listener can pick out the wave length radiated from any particular station within the range or distance that his receiving apparatus may be able to reach and bring them to his hearing.

What determines the distance that a deceiving station may be able to hear a distant transmitter? There are numerous factors and we will consider the chief ones. As will be expected the power of the transmitter as well as the character of the wave radiated and the proportion of the antenna or aerial system is important. The terrain intervening and the locality of the sending station in regard to the receiving station is another factor. Over water the range is greatly increased to that obtained over land. In daylight the range is about one half as great as it is after nightfall. The season of the year also determines the range. The summer season bringing with it a decrease compared with the other seasons. At the receiver the proportion and height of the antenna determines how far the signals can be heard from. The greater height producing an increase in range while it is well expected that the antenna wire outside or inside must have a sufficient length to provide an ample surface to the incoming waves. And lastly but possibly the most important is the ability of the receiving set to make use of, to the greatest extent, the infinitesimal amount of energy that flows down the antenna wire to the apparatus and of course the skill in handling the apparatus helps as well. This last mentioned factor is largely overcome by the present day radio apparatus which have the entire control reduced to four or even two adjustments with excellent efficiency.

RESULTS OF LOWER SCHOOL EXAMINATIONS
The results of the candidate's examination is indicated by papers as follows:
First class proficiency (75-100) 1st
Second class proficiency (66-74) 2nd
Third class proficiency (60-66) 3rd
Credit without proficiency (50-59) C
Form II
All candidates were granted credit in History and Geography for two years' work. They wrote on six papers this year. A subject omitted means a failure. Grammar and Latin were alternative subjects.

EAST LAMBTON ENTRANCE RESULTS

Two Hundred and Ninety-two candidates wrote at the various examination centres. About the usual percentage were successful. The standard required for "pass" is 40 per cent in each subject and a total of 60 per cent. Those who obtained a total of 75 per cent. or over have passed with Honors. The candidate who obtained the highest standing in East Lambton Inspectorate was Gordon Richardson of the Petrolia Public School. He made 82 per cent. of the total marks, while Vera Doreen Millar of Watford Public School stood second with 81 per cent. Certificates are being sent to the successful candidates and a statement of their marks to the unsuccessful candidates.

The names are arranged in alphabetical order.

EAST LAMBTON JUNIOR PUBLIC SCHOOL GRADUATION RESULTS
Twenty-three candidates tried the Junior Public School Graduation examination and of these fifteen were successful. The names of the successful candidates are given in order of merit.
Milton Powell, Gilbert R. Miller, Pearl Jacques, Alice Hannay, Stella Law and Grace Sinclair equal, Annie Grose, Charles Hebden, Harold Spearman, Amelia Unsworth, Hazel Wray and Edna Vansickle equal, Edress Smith, Blanche Morningstar, and Phyllis Eden equal.

SUMMER HEAT HARD ON BABY
No season of the year is so dangerous to the life of little ones as the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mothers best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SCHOOL REPORTS

Promotion Examination report of S.S. 17, Warwick. Sr. III to Jr. IV—Kenneth Laird, Wilfred Dolan, Jr.—III to Sr. III—Marie Laird, Jenn McKenzie, Class I to Class II—Helen Pottes—M. Warwick, Teacher.

School Report of S. S. No. 16 & 18, Brook and Warwick. June exams. Entrance—Audrey King, Annie Higgins, Grant Kelly. II to III—Pass mark 360—Walter Kelly 504, Esther McGill 458, Nellie Paterson 355. Class I to II—Pass marks 240—Margaret Leach 362, Herbert Hayward 328, Ross McGill 265.—A. W. Kelly, Teacher.

Report of Promotion examinations in S.S. No. 1 and 13, Brooke and Warwick. Class III to IV—Honors—Mary Gilliland, Gerrard Cowan, John R. Cran. Recommended—Earl Davidson. Class II to III—Honors—Graham Woods. Recommended—Gordon Gilliland. Class I to II—Honors—Alex. Gilliland, John Ruth. Pass—Irene Gilliland, John McNeil. Recommended—Harold Edgar.—Verna Acton, Teacher.

Promotion examinations for S. S. No. 12, Warwick. Entrance—Nelson McLean. III to Jr. IV—Robert Pike 647 (honors). II to Jr. III—Margaret Burchill 598 (honors). I to Jr. II—Honors—Laura Noxell 427, Alma Westgate 403, Gertie Philipps 400, May Philipps 399, Roy Brush 383, Clayton Morgan 336. Required marks for promotion: From III to Jr. IV 480; from II to III 360; from I to II 240. Honors over 75%—Amy Munro, Teacher.

Promotion examinations of S. S. No. 6, Warwick. Jr. IV to Sr. IV—total marks 1050, required to pass 630 marks—Nina Chambers 645, Vera Kerr 643, Dorothy Morris 635, Burt Duncan 600 (recommended). Sr. III to Jr. IV—total 800, required to pass 480—Maud Williamson 666 (honors), Amy Duncan 630 (honors), Doreen Manders 543. Jr. III to Sr. III—total 650, required to pass 390—Leila Ward 415, Mary Manders 408, Ivy Peaslee 402. 2nd to Jr. III—total 600, required to pass 360 marks—George Manders 423, John Bryce 408. Class I to II—total 400 marks, required to pass 240—Mary Bryce 368 (honors), Merton Smith 309 (honors), Clifford Duncan 268. Jr. I to Sr. I—total 125, pass 50—Andrew Ward 80, Martha Manders 73. Sr. Pr. to Jr. I—total 100—Walter Williamson 78.—C. McManus, Teacher.

WARWICK COUNCIL

Warwick, 24 July, 1922. The council met today as per adjournment. Members all present. The minutes of the last meeting were read and adopted. The following accounts were passed: Wm. Johnston, grav. furn. \$ 10.00. A. Meadows, ditto 145.00. A. Iles, ditto 67.25. Wm. Harper, cutting brush on B.L. 7.50. Robt. Jarriott, grav. furn. 104.00. Isaac Foster, ditto 89.55. Judge Taylor, appeal on Lester drain 20.00. Frank Conkey, grav. furn. 6.50. D. McLeay, ditto 58.00. Thos. Westgate, work on Birchall drain 10.00. J. Saunders, rep. to road grader 1.75. W. E. Parker, ass. on survey of Leach drain 4.00. S. Chambers, ditto 4.00. Fred Bryce, ditto 5.50. Wm. Lambert, ditto 5.50. John Maher, ditto 2.50. Jas. Sayers, ditto 150.00. W. E. Parker, ass. on survey of Higgins drain and car S. B. Chambers, ass. on survey Higgins drain 4.00. J. B. Moffatt, ditto 5.00. Rich. Higgins, ditto 5.00. M. Kelly, ditto 5.00. Stanley Maw sheep killed and worried by dogs 25.00. Wm. Gavigan, ditto 119.00. S. W. Edwards, ditto 16.00. Hugh McKenzie, ditto 9.00. Geo. Brodie, inspecting S. Maw's sheep 3.00. Campbell—Dann, that the report of the engineer on the McPherson drain be adopted and that Mr. Muma be appointed commissioner and serve the by-laws.—Carried. By-law No. 8 on the McPherson drain was read the first and second times and provisionally adopted and the clerk authorized to have the same printed.

Campbell—Dann, that the Reeve and Mr. Muma be appointed to examine the Hobbs-McKenzie drain with power to have the same repaired or replaced by Mr. Leggate and Mr. Hobbs.—Carried. Mr. Campbell presented his report on the McCallum Drain at a cost of \$77.50 above the engineer's estimate. It was moved by Mr. Dann, seconded by Mr. Chambers, that the report be accepted and that the reeve grant his order in favor of M. D. Campbell for \$10.00 for commission on the same.—Carried. Muma—Dann, that the reeve be authorized to get legal advice in the

matter of the account of John Learn for the keep of Mrs. Blunt and report at the next meeting of the council.—Carried.

Muma—Campbell, that the reeve and Mr. Dawn be a committee to investigate the grievance of Wm. Woods with power to act.—Carried. The council then adjourned to meet on Monday the 28th day of August at one o'clock p.m. as a court of revision on the McPherson drain and for general business. N. Herbert, Clerk.

BOARD OF EDUCATION

Minutes of a special meeting of the Watford Board of Education held in the Library Board room on Tuesday, July 25th, at 8 p.m.

Present—Dr. Siddall, chairman; John McKercher, W. E. Fitzgerald, Dr. Howden, L. R. Kinnell, Dr. McGillicuddy and J. W. McLaren. Moved by Jno. McKercher, seconded by J. W. McLaren and carried, that we engage George W. Carter M.A., as assistant High School teacher, first choice, Miss Isabel Mackey second.

Fitzgerald—McKercher, and carried, that the secretary fully report Herbert W. Graham on the Hon. the Minister of Education for his failure to carry out his agreement with this Board.

McLaren—Howden, and carried, that W. S. Fuller be given \$1000.00 insurance at ninety cents subject to the approval of the committee of management.

McKercher—Fitzgerald, and carried, that we adjourn. D. WATT, Secretary.

WANT COLUMN.

Five lines and under 25c. Card of Thanks 50c.

APPLE BARRELS—Now making and shipping.—Reid Bros., Bothwell, Ontario. j14-4f

WANTED—50 pairs of shoes to repair, as the undersigned thinks it better to wear out than rust out.—B. H. Parker, Erie st. July 21-2t

FOR SALE—15,000 feet of lumber, hard and soft maple, elm, basswood and beech. Will sell all or part.—Wm. Williamson. 21-2t

PARTIES requiring Twine or Fertilizer please call at the Farmers' Co-operative Store, Watford. We are handling Freeman's High Grade Fertilizer and Irish Twine. j14-3t

FARMERS—ATTENTION! Anyone wishing to buy GUNN'S FERTILIZER kindly leave orders with D. A. Macdonald, Watford.—Gunn's Limited. j14-6t

LOST—In Watford on Saturday night, July 22nd, a diamond-shaped gold brooch set with small pearls. Finder will receive liberal reward by returning same to Eliza Morgan, R. R. 4, Watford, Ont.

REPAIR WORK WANTED—I am now prepared to do upholstering and light Furniture repairs. Owing to ill health I cannot do any making over of furniture at present. Terms: cash. J. Tomlin, Warwick and Simcoe. July 23-tf.

DO NOT PLACE YOUR ORDER for Fertilizer until you phone or see Wm. H. Bryson for Sydney Basic Slag, the old "B" quality supplied in pre-war days. Also Scottish wheat special 2-10-2 the kind that will not take the lime out of the land.—Wm. H. Bryson, R.R. 8, Watford. j7-4t

TENDERS FOR DRAIN

Tenders will be received by the undersigned up to 4 o'clock on Saturday, Aug. 5th, 1922, for the construction of the Lucas Brothers Drain, Township of Brooke. Plans, specifications and profile can be seen at my residence, at any reasonable hour. The lowest or any tender not necessarily accepted. ALBERT SUTTON, July 21-3t Lot 15, con 13, Brooke

DO YOU WANT to know what you looked like when you were eighteen or twenty years old? Call on ROBSON, Petrolia, and make an appointment.

CATARRH

Catarrh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier. By cleansing the blood and building up the system, HALL'S CATARRH MEDICINE restores normal condition and allows Nature to do its work. All Druggists. Circulars free. F. J. "HONESTY IS THE BEST POLICY"

This famous saying of Benjamin Franklin's has so often proven true that it is now generally realized that honesty is the only basis on which a really successful business may be built. Honesty has been the guiding policy of The Salada Tea Company since 1892, when the business was founded. Honest Quality, Honest Value, and Honest Representation through advertisements, have combined to make more people use "SALADA" tea daily than any other tea sold in North America. If you do not use it now, a trial package from your Grocer will convince you that it is the most delicious tea on the market. Ask for it to-day.

SUDDEN DEATH OF WM. F. LAWRENCE

Sarnia, July 25.—William Frederick Lawrence, a highly respected resident of Sarnia, died this afternoon at the age of 70 years following an attack of the heart. His funeral will be held on Thursday from the family residence, 127 Christina street, to Lakeview cemetery.

The late Mr. Lawrence resided here for the past 37 years and had been identified with the lumber business practically all that time. His company was first known as Jacob Lawrence & Sons, then the Lawrence Lumber Company, then the W. F. Lawrence & Sons. He retired from active business in 1911, and his son Edward, is now head of the concern.

He is survived by his widow and two sons, Edward of Sarnia, and C. Wilbur of Toronto; Mrs. Mary E. Bowen of Sarnia, is a sister; also Mrs. W. M. Ritchie of Saskatchewan; Mrs. C. Roehm, of Algonac, and Mrs. Edward Kelly of Winnipeg. Mr. Lawrence married Eliza Carrol, daughter of Edward and Eliza (King) Carrol, and had three children, Ralph having been killed in an auto accident last year while coming from London to Sarnia, and the two sons as mentioned. He was a leading member of the Methodist church and a member of the Masonic fraternity and the Foresters.

In his younger days Mr. Lawrence lived in Watford removing to Sarnia in 1884 after the death of his father. Four years previous he became a member of the firm of Jacob Lawrence & Sons.

The race horse, George Patchen, which was hurt on the track at Lucan during the races, has since died of the injuries received.

THE FORD PICNIC

A monster Ford Picnic arranged by the Ford Dealers of Lambton county will be held at Bright's Grove (Petrolia Water Works) on Wednesday August 2nd, 1922.

The Petrolia Citizens Band will be in attendance.

The Ford Motor Co., have arranged to send their moving picture taking machine to take the moving pictures of the crowd and attractions. You can see yourself in these pictures in the movies later.

A Lambton County League Baseball Game has been arranged to be played on the grounds between Watford and Petrolia at 4 p.m.

The tug of war between East and West Lambton, catching the greasy pig, walking the greasy pole over the water, catching the live duck on the lake, the oldest Ford driver, the noisiest Ford car, the oldest Ford car, the best kept Ford car, the boy with the most freckles, the usual fat man's race and races for boys and girls, old and young, fat and thin, the largest family coming in a Ford car, also a Baby show. Prizes for everybody, everything free, no entrance fee to park or sports, all competitions limited to Ford owners and their families. A merry-go-round will be on the ground for the kiddies. Program of sports commences at 1.30 sharp.

On Saturday evening just a few days after lightning struck and burned the farm buildings, Miss Minnie Willey, Longwoods Road, Ekfrid, had the misfortune to fall off a step-ladder, the result of which was to fracture the large bone of the right leg near the ankle and dislocate one of the smaller bones of the ankle.

KERWOOD

Miss Rhena Carroll is visiting in St. Catharines. Miss Roberta Richardson is visiting friends in Strathroy. Miss Maud Brunwell of Ilderton spent a few days the guest of Miss Thelma Brunt.

Mr. Keith Hall of Petrolia is spending a few days with his friend Mr. Russell Johnson. Miss Margaret Armstrong of Port Huron, Miss Foster of Sarnia visited friends here recently.

Mr. and Mrs. Howard Earley and son Elwin of Columbus, Ohio, are visiting at Mr. and Mrs. Jno. Earley's. The Oddfellows and their wives are holding a picnic at Springbank on Saturday, July 29th, everyone welcome.

Born in Kerwood, to Mr. and Mrs. Orville Dowding of Port Huron, on Wednesday, July 19th, a son—James Keith.

Mrs. (Rev.) Rutherford and family of Mt. Brydges are spending a few days with Mr. and Mrs. James Richardson. Misses Emily and Florence Weeks of London, Mrs. W. J. Stewart of Calgary, are spending several weeks the guests of Mr. and Mrs. Albert Brush.

The Epworth League service will be held on Thursday evening of this week instead of Tuesday. A welcome is extended to all the young people to attend.

The regular services of the Methodist church next Sabbath, July 30, will be in charge of Mr. Carlton Wells, who will speak at the morning and evening service also at Bethesda in the afternoon.

Mr. and Mrs. T. Freer and family of Enniskillen, Mr. and Mrs. Gordon Richardson and sons of Mt. Brydges, and Miss Beatrice Bourne of London spent Sunday with Mr. and Mrs. John Richardson Sr.

Don't forget the big Sunday School and Ladies Aid picnic to be held at Mr. John Johnson's on August 2nd. Everyone welcome, bring your lunch basket and enjoy an afternoon with the crowd, no admission.

Kerwood School Report, S. S. No. 7. The following were successful in the public school examinations. Form III to IV—Eva Chatterton. II to III—Annabel Cairns, Melvin Dowding, Willie Fuller, Evelyn Mathews, Isabel Chittick on trial. Form I to II—Kathleen Bourne, Harry Fuller, Jack Mathews, Muriel Waltham, Ilene Wright.—M. Morley, Teacher.

WARWICK

The sacred cantata entitled "The Captive Maid of Israel" will be given in Bethel Methodist church on Sunday evening, July 30th, at 7.30. Mr. Albert Levitt will be present and will give the story of "Naaman the Leper" on which the cantata is based. A special offering will be taken in aid of the choir. This cantata was received by the choir through the kindness of Mr. Arthur Warren, he having sent to his brother Mr. Fred Warren of London, Eng. for the copies.

The regular and delegates meeting of the W. I. was held in the Town Hall, Warwick Village, on July 4th. The meeting opened with the "Maple Leaf" followed by prayer. The minutes were read and adopted. Miss L. Ross favored the meeting with a solo after which Miss Janet M. Preston of Napanee, gave a very interesting and helpful address on sewing and showing many samples of work. The meeting closed with "God Save the King", after which a dainty lunch was served. The next meeting will be held at the home of Mrs. S. Barnes on August 10th.

The Warwick Village Junior baseball team motored to Emerson Kilmer's field on Thursday, July 20th to play the Egremont road team and defeated them by a score of 30 to 18. Harold Caughlin pitched for the visitors allowing only three base on balls. Laverne Anderson, George Wilkinson and Hugh Ferguson pitched for the locals, but could not stop the visitors from scoring. Johnny Dolan, catcher for the visitors, made seven runs out of eight times at the bat. Clarence Wilkinson of the locals made six runs out of seven at the bat. The lineup:

Table with 3 columns: Name, AB, R. Includes players like J. Dolan, H. Caughlin, H. Barnes, M. Learn, C. Caughlin, A. Learn, D. Janes.

THE REASON WHY ANAEMIA PREVAILS
The Strenuous Conditions of Life To-day Responsible

Mothers who remark that girls to-day are more prone to anaemia than the girls of a generation ago, should look back at the surroundings in which they and their companions lived. They would easily see the reason in life's altered circumstances today.

Now the school girl's life is more strenuous; her more numerous studies are a severe tax upon the strength. Also, girls enter business soon after leaving school—at an age when they most need rest and outdoor life. Their womanly development is hampered by the stress of working hours, hurried and often scanty meals. Girls are more liable to bloodlessness today, but there is this consolation that this condition is now more easily remedied than in the years past. Such medicine as Dr. Williams' Pink Pills have helped thousands of weak, anaemic girls and women simply because they contain the elements necessary to enrich the blood which means good health and vitality.

This is proved by the statement of Miss Eldora Acker, Lake Pleasant, N.S., who says:—"I shall be glad if some other ailing girl will profit by my experience with Dr. Williams' Pink Pills. I was very much run down; my face was pale and there was dark circles around my eyes. My appetite was bad, and I had no ambition to do anything or go about. I had once before been helped by Dr. Williams' Pink Pills and decided to try them again. It proved a wise decision, for in less than two months time I felt in every way better; had a splendid appetite, the tired feeling disappeared, and I can work with enjoyment. Naturally I think there is no better medicine for young girls than Dr. Williams' Pink Pills."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent to you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

PETROLEA

Petrolea civic holiday Aug. 6th. Crude oil is now down to \$2.38 without bounty, with bounty \$2.90 1/2. The foundation of the town's new reservoir, being built on height of land, north of P & E Townline, and West of the Marthaville sidroad will be completed this week. The steel work on the reservoir will be erected a week after the foundation is finished, allowing sufficient time to dry etc. The new reservoir will give Petrolea water service, and fire protection that cannot be equalled by any town of its size in the Dominion. The capacity of the reservoir will be 750,000 gallons. Mr. A. Kirkpatrick is the contractor. The Peninsular Sugar Company, Limited, is now assured for Petrolea. Tenders are being called for the

grading and blasting of 1,400 yards of railway trackage and necessary railway ties. Tenders will no doubt be shortly advertised for the erection of the plant, costing in the neighborhood of \$800,000. The factory will have a capacity of 600 tons of beets every 24 hours. The daily output will be approximately 200,000 pounds of sugar. The plant will be electrically driven throughout, and in its design special attention has been given to economy and ease of operation.

The death occurred on Thursday, July 6th, 1922, of one of the old pioneers of Enniskillen, in the person of James Cavanagh. Deceased was born in the County of Wicklow, Ireland, in the year 1836 and came to Kingston, Ontario, at the age of nine. In 1861 he married Margaret Love, of Kingston. He is survived by his wife and eight children: Charles of Spokane, Wash.; John, of Flint, Mich.; Mrs. A. E. Chrysler, Mrs. Tresea Chrysler, Mrs. Letty Thornton and Mrs. Celia Miller all of Detroit, Mrs. James Bennett, Petrolea, and Dennis at home, also thirteen grand children and three great grandchildren. Funeral took place Saturday morning, July 8th, at nine o'clock to St. Phillip's church. Interment in Mount Calvary cemetery, Wyoming.

FOREST

Miss Jean Scott has left for a trip to Toronto, Lake Couchiching and Shanty Bay. L. J. Hendrie of the Molsons bank and Mrs. Hendrie are visiting relatives in Teeswater. Mrs. M. Crookard and daughter, Margaret, have left for a trip to Lake Rosseau, Muskoka. Mr. and Mrs. R. L. A. Hunter have arrived home from a two weeks trip to Toronto and Port Perry and Mr. Hunter has resumed his position in the bank of Commerce.

A horse owned by Ed. Quinn, milk dealer strayed from the pasture onto King street and was struck by an auto. The result was a broken leg and the horse had to be shot. The car was badly demolished.

The Dominion Cannery here have had an unusually busy time the past two weeks canning one of the largest and best crops of peas ever grown in this locality. Work has been going on night and day and it is expected the peas will be finished this week when the work will begin on corn.

Mr. and Mrs. John Clarke and Mr. and Mrs. R. B. Cosbie left on Tuesday for Toronto, where they embarked on a boat for a trip through Lake Ontario and the River St. Lawrence to Quebec City, Mrs. Clarke's home city. They will also visit Montreal, Brockville, and other points before returning and will be away about two weeks.

Thomas Freele, who died at his home here on Saturday, after a long and painful illness, was buried in Strathroy cemetery this afternoon. Mr. Freele was born in Adelaide in 1844, and farmed till he went into business in Adelaide Village. He remained there till he retired and moved to Forest seven years ago. He is survived by his widow, one son, William, of Schomberg, and four daughters, Mrs. Brock, of London; Mrs. Brent and Mrs. Wyatt, of Adelaide, and Lavelle, at home. The funeral service here was conducted by Rev. A. R. E. Garrett.

FOREST COUPLE KEEP GOLDEN WEDDING ANNIVERSARY

Mr. and Mrs. Ambrose Wilkinson, Forest, entertained 67 persons on Wednesday, July 12th, in honor of their 50th wedding anniversary. They were married in the year 1872 by Rev. Thos. Casford in the town of Strathroy. Wednesday of last week a happy afternoon was passed following a delicious three-course dinner with the girls of the immediate family serving. The dining room was prettily decorated in gold and white with flowers to correspond. In the centre of the table was a large wedding cake and a bridegroom's cake. At each corner pretty little favors of gold were a great attraction. After the dinner a presentation speech was made by Rev. Thos. Doolittle, while Glenwood Wilkinson, a grandson presented the bride and bridegroom of 50 years ago with a purse of gold, and numerous other gifts. "Their Wedding Day" was read by a granddaughter, Miss Dorothy Wilkinson, as another grand-daughter, Miss Helen Niles, and grand-nephew, Master Russell Sutherland, gave the worthy couple a handsome basket of roses. Mr. and Mrs. Wilkinson had the extreme pleasure of having their whole family present three sons and one daughter, viz.—Arthur, of Alpena, Mich., and his wife and daughter; Frank of Detroit, and his wife; Amasa of Long Beach, Cal., and Mrs. Harry Niles and family of Bloomingdale, Mich. Other out of town guests were:—Mrs. Mary Cates of Detroit; Albert Randall and daughter, of Petrolea; Mr. and Mrs. Geo. Harrower and son of Port Frank; Mr. and Mrs. Geo. Hartley

Harper Bros.

Talcum Powder Healthful

Scientists have discovered that Talcum Powder has a beneficial effect upon the skin, particularly when properly borated. It is antiseptic, soothing and healing to sunburned or chafed skin, and is an excellent protection to the face and exposed portions of the body.

It is recommended that Talcum should be used freely by motorists and others who expose themselves to the sun, and as an application to the entire body after the bath, to prevent chafing, prickly heat, etc.

We recommend Nyal Talcum Powders because we know them to be absolutely pure, well borated and delightfully perfumed. We have them in a great variety of odors.

and family of Oil Springs; James Fisher, of Wallaceburg; Mrs. Evans and John, Joseph, Oliver, Charles and Albert Fischer of Camlachie and their families. Mrs. Wilkinson's maiden name was Maria Harvey. Mrs. Cates mentioned above is her sister, and Mrs. Thos. Shay of Forest, is another sister. She with Mr. Shay and their daughter, Mrs. Roger Sutherland, and Mr. Sutherland and children were among the guests.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

OF INTEREST TO WOMEN

Nurse Recommended Use of Lydia E. Pinkham's Vegetable Compound

Bothwell, Ontario.—"I was weak and run down, had no appetite and was nervous. The nurse who took care of me told me to try Lydia E. Pinkham's Vegetable Compound, and now I am getting strong. I recommend your medicine to my friends, and you may use my testimonial."—Mrs. D. MAXWELL, R. R. No. 2, Bothwell, Ontario.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, beneficial influence, and as it contains no narcotics nor harmful drugs it is a safe medicine for women.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Mass.

Muscular Rheumatism Subdued

When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

DANIEL AND THE LIONS

What boy or girl has not heard the story of Daniel in the den of lions? So often that many adults glide over it, pass by it, and even ignore it as something that is good for children. But it is well to remember that the whole Book of Daniel is highly prophetic, rich in history of the Babylonian captivity, and full of events that have a great and abiding place in passing down the history of the Jewish nation.

Sunday schools are studying Daniel in the lions den this week. Daniel was a success in the courts of several kings, and although the fates of war turned out rulers, Daniel remained. He was capable, loyal to the people and loyal to his God. The corruption of court life did not touch Daniel, but the purity of his life enraged the court, and the plot to get Daniel followed.

King Darius was not a strong man. His vanity was his weakness, and it was his low vanity that the traducers of Daniel worked upon. Daniel must worship Darius or go in with the lions. In other words, Daniel's one safe play, as the world might see it, was to deny his God.

Surely not a hard matter for only a few days to forget his deceptions; to let his religious convictions slide into the background; just be one of the crowd and do as the crowd do. Plenty of people have done it, and plenty of people are doing it, and will continue to do it.

How about Daniel, by this time an old man? With the eyes of his enemies upon him, with his face toward Jerusalem, he prayed three times a day. He didn't even try to get a secret place to pray where no one could see him. That's why the boys and girls, the men and women of all ages have learned to love Daniel. He was a man, possessed of a divine courage and following a star of purpose and decision. From the very start he must have known their plot—he knew he could not pay heed to a decree that placed Darius in a position higher than that of Jehovah. Yes, he knew it all, and knowing it, never faltered in his purpose, or turned aside in his determination.

Give us more Daniels. The world needs them. We are better for knowing them—they give inspiration to the weak-kneed and strength to the man who has fought his battle alone and feels that it's no use. We may have our little scoff at the man who is ready to stand with his back to the wall and face the world alone, but right down in the world's heart there is a heap of admiration for him. Daniel and Jehovah made a tower of strength—Daniel alone would have withstood.

S. S. FOR JULY—DANIEL

Yes Daniel was a likely lad He had no thought of being bad Altho' he was a slave His father, and his mother, lost A captive in a pagan host And yet he could behave.

To be an epicurean, he Had all the chances for to be With richest, finest, food, And all the wine on which to feast, To make his manhood like a beast If only that he would.

He made Almighty God, his dad, Had sweet communion and was glad, And loved Him! Oh, how much, His heart, his life, his soul was there He breathed His breath and felt His care,

Best harmony and touch. And so an wisdom daily grew Intending to be pure and true And found a way to do it, He knew his God would help him out He never had the slightest doubt

That he was right, and knew it. And so he always got his way Because he never ceased to pray Sought nothing but the right, Passed on his knowledge to his chums, "And so the four" the only ones Shone with a "fourfold" light. Shone with a light, and kept their plan.

And proved that God could be with man And give him full control. The band of sycophants he found Couldn't budge him from the solid ground

Nor change his righteous soul. We need not worry, fame or fuss God'll do the very same for us If we but grasp His hand, It is to us He kindly speaks It is for such He always seeks To make us good, and grand, His hand unseen is always near And always listening for to hear, If we His nature need.

His nature he will kindly give And undefiled He'll help us live We cannot but succeed, July, 1922. —W. B. LAWS

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

A Prime Dressing for Wounds.—In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh. m

WHAT CAUSES SO MUCH SICKNESS

Constipation Responsible for 90% of Disease

"FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—the nervousness, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches.

Why is this? As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation.

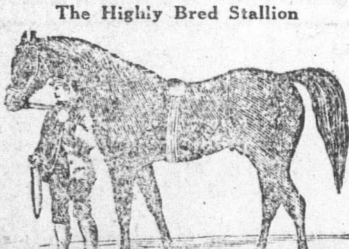

"Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.
