Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

D. B. Weldon Library
University of Western Ontario
(Regional History Room)

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library
University of Western Ontario
(Regional History Room)

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

REDUCTION IN PRICES FOR SIX WEEKS.

Office of A. H. DIXON & SON,

305 King Street West.

TORONTO, CANADA.

There has accumulated upon our letter files, owing no doubt to the hardness of the times, a very large number of requests, from correspondents suffering from Catarrh and Catarrhal deafness, who are unable or unwilling to pay our regular charge. Now it is manifestly unfair to those patients, who pay our full charge, to have two prices.

In order however to meet the importunity of those who claim inability, and to put a means for cure of this loathsome and dangerous disease, within reach of really deserving sufferers and at the same time to maintain our integrity towards the great bulk of the patrons of our treatment, we have decided to furnish to all recipients of this circular, from this date until March 1st. our first treatment and apparatus for applying for Five Dollars, which is *just half our regular charge*. On and after March 1st our regular charge of Ten Dollars will positively be resumed.

We do not find it necessary to travel the country quacking, in order to dispose of our remedy; we do our business at home only, and we ship to all parts of the Dominion, United States and Great Britain,—this to a thinking person should be a substantial proof that our remedy is all that we claim for it.

OBSERVE.—Our remedy is easily applied—it is used only once in twelve days, and its application does not interfere with business or ordinary duties. We give every case our special attention. Money can be sent safely through the mails from all parts of the United States and Dominion of Canada by means of Post Office Order, Registered Letter, Bank Draft, or Express Order.

N.B.—When ordering the remedy you should state age, how long you have been afflicted with Catarrh—if the mucus is white or colored, if it is wet or if it dries up—if there is any droppings into the throat, or if there is any offensive odor therefrom, also general state of health.

As we have a laboratory in Buffalo N. Y., all orders from the United States will be shipped from that city, therefore there will be no duty to pay.

NONE GENUINE WITHOUT OUR SIGNATURE.

A. H. Dixon & Son
Toronto - Canada.

When ordering the Remedy, be particular in giving Express Office as well as Post Office address.

READ THE FOLLOWING :

MARCH 30, 1884.

DEAR SIRS,

In the month of Feb., 1883, Rev. J. Hodgson, of Silver Islet, came to you suffering from a very aggravated case of Catarrh; the right nostril was so badly affected that he scarcely breathed through it—over the right eye there was, nearly all the time, a dull heavy pain, which extended down the outside of the eye to the ear, making the neck so stiff that he could scarcely turn his head; his hearing was also affected. Under the eyes and all over the side of his face, and down the neck, was sore nearly all the time—the matter which came from the nostrils was very sticky and tough—the quantity which dropped into his throat was very great, and in the morning when he awoke he felt almost suffocated with it; he was afraid that some of the large quantity of greenish, tough matter,

free to use her name for the benefit of sufferers. She is 36 years of age and had suffered from Catarrh from infancy. Masses of green mucus and dry scabs were continually discharging from her nose and mouth and the odor was so offensive that she had kept herself secluded for years—her hearing and sight were also badly impaired, in fact the best doctors in the city gave her up as incurable nearly twenty years ago. *She is cured of Catarrh and her hearing and sight are perfect*—in a word she is another woman—we congratulate you on having such an invaluable remedy for this curse of our western country—Catarrh.

Yours Faithfully
T. K. JOHNSTON & CO.,
646 43rd St., Chicago, Ill.

JULY 29, 1884.

GENTLEMEN

from a very aggravated case of Catarrh; the right nostril was so badly affected that he scarcely breathed through it—over the right eye there was, nearly all the time, a dull heavy pain, which extended down the outside of the eye to the ear, making the neck so stiff that he could scarcely turn his head; his hearing was also affected. Under the eyes and all over the side of his face, and down the neck, was sore nearly all the time—the matter which came from the nostrils was very sticky and tough—the quantity which dropped into his throat was very great, and in the morning when he awoke he felt almost suffocated with it; he was afraid that some of the large quantity of greenish, tough matter, which he got away by hawking and spitting when he awoke, must come from the bronchial tubes on the right side; and sometimes he had a pain all the way down the right lung. How long he had been troubled I do not know, but for five years he had been very bad, so bad that he was not able to do his work efficiently. *He was entirely cured.*

THOMAS GEE,

Methodist Minister, Bayfield, Ont.

MOOSEJAW, N.W.T., June 12, 1884.

A. H. DIXON & SON, Toronto.

GENTLEMEN,

I was troubled with catarrh for fifteen years, and could get nothing to help me until I tried your remedy. I used the first treatment in February last, and that almost cured me, but after using the second treatment I must say that *I am cured*, as I feel no sign of a return of the disease. I have recommended it to some of my friends here and feel that I can safely recommend it to any one suffering from catarrh, as my case was of long standing and I know that I am cured. You are at liberty to publish this if you think fit, for the benefit of others.

Yours respectfully,

THOMAS HEALEY,

Moosejaw P.O., Manitoba.

OCTOBER 20, 1884.

GENTLEMEN,

I was troubled with Catarrh for four years, mucus colored, droppings in the throat and offensive odour. I used one treatment of your remedy, and am truly thankful for what it has done in my case of suffering. It is hard to realize that I am cured, but time will prove all things.

G. P. COOPER, Lawrence, Kansas.

HARRIETSVILLE, ONT. OCT 7, 1884.

DEAR SIRS,

My wife was affected with Catarrh for over fifteen years, the inside of the nose was badly eaten away with the disease. For the past five years it was almost impossible for her to breathe through her nostrils. For the last year she has constantly taken doctors medicine without receiving any benefit and finally we were told that *the Catarrh had got so bad that there was no cure for her*. Without any hope we applied to you for your remedy and eight days after the first treatment she was able to breathe freely through her nostrils and the disease had entirely disappeared—but as you advised, she took a second treatment. It is now nearly four months since she used the remedy and she has had no signs of Catarrh and we consider it a permanent cure. Her general health which was not good, is also improving through the use of your Blood Remedy. Wishing you every success, I remain faithfully yours.

SETH CLINE, Harrietsville, Ont.

CHICAGO, ILL., Dec. 29, 1884.

GENTLEMEN,

The remedy which you sent us for Mrs. Willoughby has turned out a decided success and she desires us to inform you that you are

from her nose and mouth and the odor was so offensive that she had kept herself secluded for years—her hearing and sight were also badly impaired, in fact the best doctors in the city gave her up as incurable nearly twenty years ago. *She is cured of Catarrh and her hearing and sight are perfect*—in a word she is another woman—we congratulate you on having such an invaluable remedy for this curse of our western country—Catarrh.

Yours Faithfully

T. K. JOHNSTON & CO.,

646 4th St., Chicago, Ill.

JULY 29, 1884.

GENTLEMEN,

I feel it my duty to state to you the merits of your remedy for Catarrh. I had the obnoxious disease for the past four or five years and after the first treatment of your remedy I felt entirely a new man. Before I was cured I frequently had colds in the head, but now I seem to be entirely free from them. If sceptical minded people could only be persuaded to try your treatment I honestly believe that suffering humanity would be greatly diminished. Wishing you every success.

I remain yours truly,

E. W. MORTON,

Of Morton & Knight, Merchants,

Port Arthur, Ont.

MONTREAL, Dec. 24, 1884.

DEAR SIRS,

I promised to report to you the result of your treatment in regard to Mr. and Miss Fraser's cases of Catarrh and also to give a letter of recommendation providing one or both were cured. Neither the Frasers nor myself ever expected to give you a certificate, for they never dreamed of being cured and I did not expect such a result, knowing that they had been pronounced incurable years ago, in London, England, by some of the best Physicians there. However, it is generally the unexpected that happens and I am happy for their sakes as well as yours, to be able to say that *both are cured*. Such aggravated cases being cured so speedily (Miss Fraser by two and Mr. Fraser by three treatments), seems to me miraculous. I am more than glad that such is the case, and pleased to know that a remedy so simple and one that can be relied upon to cure this horrible disease is within the reach of sufferers. I will gladly give enquirers any information in my power.

Yours truly, G. H. PATTERSON,

264 St. James Street, Montreal.

ST PAUL MINN., July. 5, 1885.

MESSRS. A. H. DIXON & SON.

GENTLEMEN,

I take great pleasure in adding my testimony to the virtue of your valuable Catarrh Remedy. Two years ago my Daughter, 14 years of age, was very bad with Nasal Catarrh, her sense of smell was almost gone and her great suffering from pain in her forehead was such that we kept her from School. After using one treatment of your remedy she was completely cured and has continued well ever since. I have every confidence in recommending your remedy as a safe and sure cure for this most disagreeable disease and am satisfied that a fair trial will convince the most sceptical of its being a genuine cure for Catarrh. You are at liberty to use this in any way you deem best to help suffering humanity. Wishing you great success in your noble work.

I am Gentlemen,

Yours sincerely,

JAMES K. ERSKINE,

Physician.
