CITY AND GRAND TRUNK FINISH HARD TUSSELE

Court of Revision Reserves Judgment on Assessment of Railway Lands.

The court of revision yesterday afternoon heard the final arguments and reserved judgment on the assessment of Grand Trunk property between John-street and Spadina-avenue, on which, according to the railway's argument, the increase in assessment since the last valuation in 1905 is nearly \$1,400,000. Under the Assessment Act, the railway's property is subjected to assessment revision only in five year periods, which explains to some extent an increase which at first glance seems somewhat imposing.

It was a vigorous fight which E. F. B. Johnston, put up on behalf of certain lessees of Grand Trunk land, which the city's assessors have jumped up from \$3000 to \$16,000 an acre. The railway's policy in leasing lands is to stipulate that the lessees pay the taxes in consideration of a comparatively low rental, hence their active interest. The companies represented were the Supply, Warren, Bituminous, Johnson Lumber and the Standard Chemical.

"An Official Official." Mr. Johnston termed the booting, the act of an official official. He held that the land was no more valuable than it was three years ago, and pointed to the sale of Ashbridge's marsh property by the city at \$1600 an acre as evidence of value placed on waterfront property. The lands, he contended, were practically vacant, and, not being in actual use by the railway, should be treated as vacant land. The lessees got no benefit whatever from the money spent in taxes.

Assessment Commissioner Forman, thru his assistant, A. E. Lyon, answering this last argument, replied in general terms that all ratepayers had to pay for local improvements and had to contribute one-third of their taxes for school purposes, altho in many cases they got no benefit at all. The land was neither a right of way nor vacant, but was used and occupied.

Mr. Johnston retorted that the city had no right to tax lessees, and that he would carry the appeal further.

City's Argument. As to the Grand Trunk's own appeal, the city contended that the right of way from John-street to Bathurst-street was to be classed as land in actual use and occupation. It was also alleged that the railway had not made returns to the city of the uses it made of its lands, altho required by law to do so.

The city claimed further that the right of way was assessed at actual value according to the average value of land in the locality.

The valuation of the King Edward yards on Simcoe-street was under a section of the act which said it should be on the basis of sale price to another company having similar rights, powers and franchises. In support of this contention, the price paid by the C.P.R. for the property on King and Simcoe-streets, property which the city claimed, was not so valuable to the C.P.R. as the Grand Trunk yards would have been because farther removed from terminal facilities. However, the assessment was materially lower than the price of \$1301 a foot for a depth of 423 feet paid by the C.P.R.

Caught in the Act. GALT, Ont., Oct. 14.—(Special.)—A 17-year-old boy, Mike McLennan, was detected in the commission of an unnatural offence, the victim being a boy aged 3. He was remanded after pleading not guilty.

That Cold Room

on the side of the house where winter blasts strike hardest always has a lower temperature than the rest of the house. There are times when it is necessary to raise the temperature quickly or to keep the temperature up for a long period. That can't be done by the regular method of heating without great trouble and overheating the rest of the house. The only reliable method of heating such a room alone by other means is to use a **PERFECTION SMOKELESS OIL HEATER**. Absolutely smokeless and odorless.

which can be kept at full or low heat for a short or long time. Four quarts of oil will give a glowing heat for nine hours, without smoke or smell.

An indicator always shows the amount of oil in the font. Filler-cap does not screw on; but is put in like a cork in a bottle, and is attached by a chain and cannot get lost.

An automatic-locking flame spreader prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in Japan or nickel, strong, durable, well-light, built for service, and yet light and ornamental. Has a cool handle.

PRaises NEW CENTRAL

New Prison at Guelph Astonishes French Student of Penology.

Praise for the new Central Prison at Guelph came from Comte Bernard de Franqueville, Paris, France, a student of penology, who is visiting America for the purpose of observing the progress which is being made in prison and reformatory work. For the past few days the comte has been making an inspection of the institutions in the province, the methods employed to prevent crime and reform those who are committed to penal institutions. He is especially interested in the methods adopted to deal with juvenile delinquents. The comte visited all institutions under the supervision of the provincial secretary. He was particularly pleased with the evidence of progress at the new reformatory at Guelph, and spoke of it as being a complete revelation to him.

"We have nothing as progressive and interesting in France," he said. He was surprised to find such a large number of prisoners working in the open air with only a few guards and sleeping in well ventilated dormitories. In conversation with prisoners the comte said he was told how much they appreciated the change from indoor confinement and sleeping in narrow cells.

The manner in which the work is being carried on at Guelph was an object lesson he had seen nowhere else. It would assuredly make the men better physically and morally, and when the time came for their discharge, instead of going out pale and weak, they would be strong and healthy, able to do an honest day's work without fear of falling again.

The comte left for Chicago last night to visit some prisons in the western states.

WIFE GETS PROTECTION

Order Granted Mrs. Fred Clark by Magistrate Kingsford.

Mrs. Fred Clark of Sherbourne-street charged in the police court yesterday afternoon that her husband did not support her and also abused her. She was given an order for protection. Altho William Faulkner showed evidence that his dog, which bit Jack Conn was put out of the way, no was ordered to pay the doctor's bill of \$6.

The Turner Company case was up again in which the concern offered evidence that orders for liquor had been filled after the license had been taken away, but W. R. Ryan, president, explained that they had taken the orders as agents of a distillery in Preston and that liquor sold in this way had never been on the premises. The case was adjourned for a week.

HAMILTON HAPPENINGS

LASH FOR HORSE BEATER

Magistrate Would Have Imposed It if He Could.

HAMILTON, Oct. 14.—(Special.)—Herbert Vivian, the British member of parliament, was the guest of the city to-day, and this evening delivered an address on the "Garden City Movement in England," and strongly urged Hamilton to make some provision along similar lines for the future. The Y.W.C.A. held its annual reception this evening, when the building was thrown open for the inspection of the general public. Charlie Fong, proprietor of a laundry at 178 South Lock-street, rushed into police headquarters this morning and in broken English told Inspector of De-

BE KNOWN AS THE FARMER'S FRIEND

Dodd's Kidney Pills Doing Great Work in the Prairies.

Michael Anderson joins the throng who are shouting their praises—They cured his Gravel and Rheumatism.

PINE VALLEY, Man., Oct. 14.—(Special.)—Michael Anderson, a well-known farmer living near here, is added to the number of those who have sent the cry echoing over the Prairies, "Dodd's Kidney Pills are the farmer's friend." And truly Mr. Anderson has reason to praise the great Canadian Kidney remedy. Listen to his experience: "A strain and a bad cold started my troubles," says Mr. Anderson, "and for twelve long years I was a victim of Kidney trouble, Rheumatism and Gravel. Doctors attended me and I tried many medicines, but they did not cure me. Dodd's Kidney Pills cured me in less than one month."

It is easy to do anything when you know how. Mr. Anderson went right to the root of the trouble. He cured his kidneys by using Dodd's Kidney Pills, and with the root gone the other diseases disappeared. Dodd's Kidney Pills always make healthy kidneys and with healthy kidneys you can't have Rheumatism or Gravel.

He was suddenly startled by a noise very close to him and when he got up to see what was doing, he was just as quickly knocked down. The daring intruder did not stop at this but proceeded to get thru the clothing of Fong, and after securing about \$10 out of his jeans, he calmly made off.

"I remanded you for sentence to see if there was any way that I could give you the lash," said the magistrate to Thomas Brown, who was found guilty yesterday of cruelly ill-treating a horse that he was driving on Saturday night last. "I sentence you to two months in jail, and if I could have ordered the lash, I would have."

Rugby High School League Scores Program Sports To-Day Trotting Records at Lexington

Note and Comment

Three senior Rugby games will be played in the city to-day, Ottawa College play Varsity at Rosedale, Dundas College T.A.A.C. at Varsity field and Parkdale Canoe Club run up against the fast St. Michael's team on the college grounds.

Argonauts play in Hamilton to-day, but can hardly expect to defeat the Tigers on their own grounds. The other senior games are Queens at McGill and Montreal at Ottawa. On the form displayed here McGill should win.

Reports from Ottawa state that officers of the Rugby Club were very much surprised and disappointed at the refusal of the board of governors of the Interprovincial Rugby Union to restate Ryan, their outside wing player.

Technical 11, Harbord 0. Technical had an off day yesterday, when they let the light Harbord team hold them to 11 points in a Group A High School game at Willowdale Park.

Lacrosse in New Westminster is religion. It is nothing less, in the district which includes that town and Vancouver where lacrosse is mad.

Also 60 per cent of winning favorites figured at the last Fort Erie meeting, or 45, to be exact, during the awful seven days of racing, forty-four races were decided, and \$30,000 was distributed in stakes and purses.

The Scullers had about forty out to practice last night, and a few were limbering up was the program.

The Capitals' Senior City team will play Grenville, on Varsity campus at 4 p.m.

The Capitals' Intermediate City team will meet in Jesse Ketchum Park at 1.45. They play the Scotch Thistles at Varsity.

The Capital-Young Varsity game has been transferred to Jesse Ketchum Park. Junior City players will please be on hand at 1.45 at the home grounds.

The Capital-Young Varsity game has been transferred to Jesse Ketchum Park. Junior City players will please be on hand at 1.45 at the home grounds.

Jack Carroll, the scrumming player on the Varsity senior team, was first in the Rugby players' yard handicap. Carroll has a yard and 10 yards, and Maynard was second and Dixon third.

HIGH SCHOOL GAMES GO TO JARVIS AND TECHNICAL

Scores Were 6 to 4 and 11 to 0—Standing of Group A—Jarvis After Honors.

Jarvis are pretty nearly sure to land the Group A championship of the High School League this season, and there is a probability that they will play the Little Big Four winners, and, if successful, will go after the Group A title as follows:

Jarvis won a close Group A High School League game from Parkdale yesterday on Trinity campus, by 6 to 4. Jarvis are an older and more experienced team than the west end boys, and that practically won the game for them, as Parkdale have them the hardest tussle they have had in their career.

Technical had an off day yesterday, when they let the light Harbord team hold them to 11 points in a Group A High School game at Willowdale Park.

Technical 11, Harbord 0. Technical had an off day yesterday, when they let the light Harbord team hold them to 11 points in a Group A High School game at Willowdale Park.

FOUR RECORDS SMASHED AT INTER-FACULTY MEET

Arts Win Championship With 33 Points—Sebert and Dent Run Dead Heat.

About five hundred students and their friends viewed the 11th annual inter-faculty field day of Toronto University at Varsity field Friday afternoon.

Four records were lowered and all the events were closely contested. Arts were returned champions, when they scored 33 points, S.P.S. 23, Meds 20, Dents 15, O.A.C. 18 and Pharmacy 7, were the next in order.

The new title-holders are: H. Duke of the Arts, who in vaulting 10 ft. 6 in. cleared an inch of Dr. Archibald's record. Brod had two new marks when he went the half mile in 2:01.25, clipping a minute off Wright's best time, and the mile in 4:44.35, as against the old record of 4:44.35. L. Wright of S.P.S. chopped 1/5 of a second off his own mark for the 120 yards hurdle, when he finished in 12.55 seconds.

Foils vault—H. Duke, Arts; J. S. Ricker, Dents; A. B. Gardner, Dents. Height 10 ft. 6 in. 300 yards dash, first heat—L. Sebert, Meds; J. F. Preston, Arts; J. H. Wilson, Dents. Time 11 seconds. TWO WORLD'S RECORDS TROTTING AT LEXINGTON

Native Belle Equals Mark For Three-Year-Old Fillies—Earl Jr.'s Last Quarters.

LEXINGTON, Oct. 14.—Two world's records were lowered and two others equalled at the meeting of the Kentucky Trotting Horse Breeders' Association to-day. Native Belle has a new Orleans record for three-year-old trotting fillies by going a mile in 2:05. The new mark was made in a trial against the record of 2:07, made here in 1908 by Leading Lady.

Earl Jr. smashed the world's record for the three fastest last quarters ever paced in a race in the 2:05 class. He paced the last quarter of the first heat in 29% of the third in 29, and of the final heat in 29%. General H. equalled the record for the fastest third heat trotted in a race, with 2:04.4, in the 2:07 trot. Spanish Queen equalled the world's record for the fastest fifth heat trotted in a race, with 2:07.5, in the 2:07 trot. Lexington Stakes for two-year-old trotters in straight heats, and established a new record for the event. He won the 2:07 trot in 2:07.5, which was 1/2 seconds faster than the record for the race, made by Helen Hale in 1907. The summary:

2:07 trot, purse \$1000, two heats Thursday: Independence Boy, ch.g. (Valen) 1 1 1 Lady Isle, b.m. (Cox) 2 2 3 Grave C, b.m. (H. Gray) 3 3 3 Beauty Wilkes, b.m. (Gahagan) 4 4 5 Harry Mc, b.g. (Patterson) 5 5 6 Dark Night, blk.h. (Hall) 6 6 4 The Philistine, b.h. (J. B. Jones) 6 7 8

C. B. A. Meeting. The Canadian Bowling Association executive committee held a meeting at the Athenaeum Bowling Club yesterday afternoon and disposed of a number of matters pertaining to the welfare of the association.

The treasurer's report was very pleasing and showed that the association had \$146.79, after the new officers have paid many old standing accounts contracted when the organization was in a weaker condition. It is practically assured that the next tournament will be held in Montreal, as arrangements for that city have been made by Messrs. McCafferty and Holt of Montreal. The Montreal Bowling Club will open up a large bowling club in Montreal, and in the event they will be able to hold the tournament in that city.

On the Parkdale Alleys. The Cubs took their game from the Tigers in last night's Three-Mile League game. Ayars was high, with 97, the high score to date. The losers had all the hard luck, running into numerous splits, but Chicken Mickus and his braves are not discouraged, and are said to have something up their sleeves for next week's games. The scores:

BEACHES LEAGUE HOLD MEETING, ELECT OFFICERS

To Be Novice Affair—Scores of All the Games on the Alleys.

At the general meeting of the Beaches Athletic Club League, held at the club rooms last night, the following officers were elected for the coming season: Hon. president, Jos. Russell, M.P.; non-judging president, Aid. Hamby; president, Aid. T. N. Phelan; vice-president, W. F. Seaton; treasurer, T. F. Ryan; secretary, E. Blain.

At the meeting it was decided to make the league a novice affair and not allow more than two Class A bowlers on any one team. The captains of each team are to have the names of their players in the hands of the secretary by next Wednesday, when a schedule will be drawn up and the league game started Monday, Oct. 24. The prize list will be the largest of any league in the city; only ten teams will be admitted.

Central League. In the Central Bowling League, Hammond Bros. took three straight games from Kismet. J. Hammond was high man with a 481 count. The following are the scores:

Hammond Bros.....1 2 3 4 5 T.L. Hancock.....150 97 188-435 Lambert.....121 128 114-363 T. Hammond.....125 124 104-447 J. Hammond.....125 148 148-421

MONDAY NEXT 225 HORSES

October 17th, at 11 a.m.
OF ALL CLASSES. We wish to call your attention to the club to the class of Heavy Draught Horses we have just now. We have no hesitation in saying that they are the very best heavy horses we have ever had in our stables, and to anyone wishing to purchase this class at present, our stock offers unexcelled advantages for selection. We also call your attention to the following, which we shall sell on Monday:

WE HAVE RECEIVED INSTRUCTIONS FROM THE CITY OF TORONTO to sell, absolutely without reserve, Six First-class Work Horses

These horses, when purchased, were the very best horses it was possible at the time to obtain, and are now to be sold only on account of their work for the season being finished; the watering carts, etc., being taken off the streets at this time of the year. These horses are really first-class, and will positively be sold on Monday for the high dollar.

CONSIGNED BY MR. THOS. McCORMACK, London, Ont., a brown Kentucky-bred saddle mare, 15.3 hands, five gait and city broken. This is a beautiful mare, Mr. McCormack having purchased her in Kentucky for \$600.00, but, having no further use for her, she will be sold on Monday for the highest bid.

CONSIGNED BY THE HON. MR. STRATTON, Peterboro, a pair of bay mares, broken single and double and every way, and a really fine team.

CONSIGNED BY MR. ALF. ROGERS, Deer Park, pony, government cart and brass-mounted harness, an ideal outfit for children, to be sold without reserve.

CONSIGNED FROM A GENTLEMAN IN BARRIE, A BLACK TEAM, 4 and 5 years old, 16.1 hands, perfectly sound every way, with great quality, which would make a high-class hearse team. As per instructions, this team will be SOLD Monday.

SEMELE, thoroughbred bay filly, 2 years, by Havoc, out of Semley. This filly won as a 2-year-old, and is a full sister to Seismic, winner of the King's Plate. She will be sold without reserve.

CARRIE MILNER, thoroughbred brown filly, 3 years old, by Milner, out of Merrie Carrie. This filly is eligible for the King's Plate, and will be sold on Monday to the highest bidder.

THURSDAY NEXT 150 HORSES OF ALL CLASSES

October 20th, we shall sell. ALSO ON MONDAY AND THURSDAY WE SHALL SELL a number of serviceably sound workers and drivers consigned to us by city people who have no further use for them.

---We Sell Strictly on Commission---
COMMISSION: 5 per cent. ENTRY FEE (if not sold): \$1 per horse. ALL HORSES sold with a warranty are returnable by noon the day following day of sale, if not as represented.

HIGHLANDERS BY 5 TO 4 WIN SECOND FROM GIANTS

Wiltze Rattled in Ninth, When Game Was Won—Mitchell Bats in Winners' First Run.

NEW YORK, Oct. 14.—Victory perched on the banners of the New York American League Club to-day, when the Highlanders passed the Giants in the last two innings of a well-played contest and won the second game of the post-season series by a score of 5 to 4. The battle was fought on the American League grounds, and the stands were packed, but as a whole the contest lacked the ginger of yesterday. It was a pitchers' battle between the left-handed Wiltze of the Giants and Warhop of the Highlanders, and the honors were fairly divided until the last two innings, when, under a storm of sharp hits, Wiltze weakened and lost control. Warhop worked splendidly through the game, and his effectiveness increased as the innings passed. After the third inning the Giants made but one hit off him, and his underhand ball came floating up to the plate a big balloon, only to break sharply before the Giants' batsmen in mystifying manner, causing them to send up weak flies. Devlin alone solved Warhop's delivery, making a home run and a double, which brought three of the Giants' runs across the plate. Fletcher at short did sparkling work.

The Giants were the first to tally. In the second inning Murray singled and was forced at second by Mitchell, who Devlin picked off a high shoot and sent it far ahead between Cree and Hemphill. Before the ball was returned to the mound Devlin had made the circuit, while the Giants' admirers yelled themselves hoarse. A double by Doyle and single by Snodgrass in the third sent another run home for the Nationals. In the next innings the Highlanders scored as a result of a base on balls to Knight, two infield outs and a stinging single by Mitchell. With Warhop and Wiltze going nicely, it looked like a Giants' victory until the eighth inning, when, after two men had perished, Hemphill drove the ball to left. Chase followed with a terrific smash to centre, which got away from Snodgrass. Hemphill scored, and Chase taking second. The Highlander enthusiasts shouted for Knight to tie the score, and the shortstop snatched a single into left, sending Chase home. Devlin tried to block Chase as he rounded third base, but Umpire Evans saw the interference and allowed the run. Snodgrass was hit by pitched ball in the ninth. He was forced at second by Murray, who scored on a not double by Devlin. With only one run needed to tie the score in the ninth, Manager Chase noted that Wiltze was weakening under the strain. He ordered his men to wait the pitcher out, and in consequence Gardner, the first man up, walked. Mitchell was hit by a pitched ball, and the stand went wild. Roach, batting for Warhop, laid down a perfect sacrifice, and Austin promptly singled to right, scoring Gardner, Mitchell taking third. Daniels hit to Devlin and Mitchell was on the plate, and the next batter, walked, forcing in Austin with the winning run. RUGBY FOOTBALL TO-DAY COLLEGE OR VARSITY?

Ottawa Students Hope to Redeem Themselves—Notes of the Game.

The Ottawa College students arrived last night ready for their game to-day with Varsity at Rosedale. Despite their defeat of last Saturday at the hands of the "Queen's" team, Ottawa College will make another big effort to redeem themselves to-day, when they go up against the champion Varsity fourteen at Rosedale. Altho the Ottawa team are not called upon for a win, they expect to give the Varsity students the hardest game of the season. With the several changes on the back line, which have taken place this week, Ottawa College think they should just about register a win over the Toronto bunch, as they say they have one of the best lines in the union. Capt. Kilty will be at centre half. The back line has been making a big impression in practice. The Ottawa students are all feeling in the best of shape. Wilson, Kennedy, Wiltze, Sisk, Sullivan, Lacey, Gilligan, O'Halloran, Harrington, Samon.

In the senior O. R. F. U. to-day Dundas plays T. A. A. C. at Varsity grounds and Parkville will be at centre half. The S. M. C. campus. The teams will line up as follows on Varsity Field: Line: Wilson, Kennedy, Wiltze, Sisk, Sullivan, Lacey, Gilligan, O'Halloran, Harrington, Samon.

St. Michael's—Back, Coughlin; halves, Mc Genter, D. Genter, Lockhart; quarter, Bellisle; scrimmage, Sheridan, Costello, Gorman; wings, Holland, McCorkill, Murray, Quinn, Sullivan, O'Connor. Referee, Art Anglin; umpire, Tommy Hay.

Banner Year for Cement Industry. More cement was used in the United States in 1909 than in any other year in its history, and the price by barrel was lower. In 1908 the production was \$2,910,825 barrels, valued at \$44,547,879; in 1909 the production was \$3,186,398 barrels, valued at \$47,797,177. In 1908 the average price of a barrel of Portland cement was 85 cents; in 1909 the price averaged 81 cents, produced at 165 plants in the country. Twenty-one plants were in Pennsylvania, twelve in Michigan, ten in Kansas, eight in Ohio, seven in New York, six in Indiana, five in Illinois, and five in California.

In 1909 a barrel of Portland cement brought \$1.00, due to the scarcity of the material, whose production developed upon slow, crude processes. To-day it is manufactured by the use of the Bessemer process, which shows profit. Most of the cement produced is consumed in the United States, the export product ranging from one to three per cent. annually. With the immense natural resources for its manufacture, however, it is anticipated by government authorities that in the near future the foreign trade in cements will show large in the sum of the nation's export trade.

RAILWAYS GETTING BUSY NEW LINES IN PROSPECT

Big Batch of Applications for Right to Construct Already in Store for Parliament.

OTTAWA, Oct. 14.—(Special)—Increasing activity in railway development is evidenced by the large number of applications to parliament for legislation which will appear in to-morrow's Canada Gazette.

The C. P. R. wants authority to construct five branch lines in the Northwest, viz.: From Conquest, Sask., to Aekquith or Duntorming on the Pleasant Hills branch; from Wilkie, Sask., southerly to the Moosejaw branch; from Boissevain, Man., to Lauderdale; from the Crow's Nest branch along the Old Man River, about 55 miles.

Extension of time is asked by the C. P. R. for the construction of the following railways: From Lanigan to Prince Albert; from Wilkie northerly and westerly to the Lacombe branch; from Outlook to Forward on the Weyburn branch; from a point westerly to Lethbridge; from Teulon to Marsh Point. Authority is also asked to make the terminus of its Lauder branch at

Weyburn, and to increase its bonding power in respect to its Toronto-Budbury branch.

The Manitoba and Northwestern Railway desires the extension of time for construction of line: From Yorkton to Prince Albert; from Russell to the northern or western boundary of Manitoba; from a point between Portage la Prairie and Arden to the northern or western boundary of Manitoba; from between Westbourne and Beautiful Plains to Lake Dauphin or Duck Mountains; from between the Odore and Isinger Township 32, range 18 or 19; from Bredonbury to Kamook.

Extension of time is asked by the Kootenay and Arrow Head Railway for the line from Gerrard to Arrow Head; by the Vancouver and Lulu Island Railway for its branch lines.

The British Columbia and Dawson Railway seeks incorporation with power to build from Lytton, British Columbia, along the Fraser River to Fort George, thence by way of Stewart Lake, Thatcher River, Tremblay Lake, Middle River, North Tackla Valley, Bear Lake, Fort Conley, the Valleys of the Skeena and Stikine Rivers, and the Tesline River to Dawson; also from Ashcroft to where Big Creek enters the Fraser River, also from Lillooet to Vancouver.

The Grand Trunk Railway will apply for power to acquire, sell or otherwise dispose of the securities of the Montreal and Southern Counties Railway and to guarantee interest at 4 per cent. upon an issue of first mortgage bonds of the Grand Trunk Western Railway, payable fifty years hence.

The Southern Ontario Pacific Railway will apply for authority to construct a line from Guelph to Hamilton.

The Campbellford, Lake Ontario and Western Railway desires to construct from a point between Smith's Falls and Sharbot Lake to Cobourg.

Extension is asked for the following: Ottawa Northern and Western from Maniwak to James Bay, the Walkerton and Lucknow from Walkerton to Lucknow via Teeswater, the Guelph and Goderich for its line.

The Georgian Bay and Seaboard Railway wants increase in bonding powers and to connect with the Ontario and Quebec Railway between Burketon Junction and Havelock.

The Dominion Atlantic Railway will apply for power to enter into an agreement for the transfer of the railway to the C. P. R.

The annual dedication festival will be continued at St. Matthias' Church, Belwood-avenue, on Sunday. The Rev. Father Wood of St. Thomas' Church will preach in the morning.

To-morrow will be missionary anniversary day at Elm-street Methodist Church. Rev. C. H. Heustis of Red Deer, Alberta, will preach at 11 a.m., and Rev. Thomas Marshall of Nova Scotia at 7 p.m.

deposited in the bank the cash which was taken in over his counter, which sometimes amounted to as much as \$50,000 a day. When he was forced to pay out money over the counter, Sheldon invariably paid it out in bills of large denomination, thus confirming the impression that he had turned the money into large bills in order that it might be easily carried away.

Papers Destroyed. It has been discovered that Sheldon's office was visited on Monday night and every paper dealing with stock transactions was destroyed. On this account it is difficult to find the extent of Sheldon's stock transactions.

Sheldon's Career. Five years ago Sheldon was a school teacher on a small salary in Boston. He was always deeply interested in the stock market, and had followed it closely. He started a small business as investment broker, and was successful for a time. After operating for three years, however, he failed and disappeared. He came to Montreal, where he had a number of friends, and claims to have paid off all of the money he owed to his Boston clients soon after his arrival here.

HOW LETTER OF HANNA ESCAPED FROM FILES Continued From Page 1. Globe, W. N. Wilkinson, The Mail and Empire; H. E. Willmot, The World, and H. H. Black, The News, to his office in my presence, and, entirely unsolicited, volunteered to them the statement that my action was prompted by a desire to save trouble for a friend, and that the government in no wise impugned either my loyalty or my honesty at any time, but believed I had made an error in judgment. Having regard to that circumstance I cannot further comment upon the premier's statement until Mr. Hanna's return to the city.

works, until the present time, he has been efficient and painstaking to a marked degree. Trained by a long and brilliant career as a newspaper writer in Detroit, he brought to the work of the department a complete knowledge of public affairs, a thoro mastery of all provincial issues, a keen understanding of the French-Canadian character, and an unerring tactfulness that won for him at once the confidence of every member of the government. While unquestionably successful in departmental administration, Mr. Malsonville is of a temperament too active and alert to submit to the dull routine of government service, and his ready acceptance of the conditions imposed by his unfortunate connection with the present controversy is no surprise to his friends. Born of French-Canadian stock, he is under 35 years of age and in the prime of his manhood. His return into the newspaper field will be welcomed by those who regarded his former departure as a doubtful experiment.

A VACATION THAT PAID. How One New Yorker Swung Around the Circle This Summer. "I am a young man who has had few advantages," writes a correspondent of The Circle, "and when I was granted a month's vacation I decided to visit various parts of this country by the cheapest possible way and learn how all the people live—in city or on farm—and what they thought and how they looked. My starting point was New York City. I had \$150, but I didn't intend to spend a cent more than was necessary. I went by trolley to Connecticut and Massachusetts. I didn't dress very well, so was not conspicuous and I stopped at many kinds of village inns, second rate boarding places, etc. A constant panorama of new things opened up before me (most of my life has been spent in New York City) and in Massachusetts I left the beaten track and went into the country. I worked two days on a farm for board, lodging and \$3 besides and I came very near giving up my plan and staying there for my whole time. I went to Boston and spent two days, then bought a ticket for Chicago via the Canada route. Arriving at Chicago I had spent \$28 and been on the road nine days. After Chicago I rode by train to Kansas at reduced rates. I wanted to see the prairies and the prosperous middle west. By trolley, etc., I spent five days in the rural districts and then came back to the Mississippi and went down to New Orleans. After two days there (perhaps the most interesting of all my trip) I got a job as freight clerk on a steamer running to Savannah. That trip was mighty interesting and actually earned me money. After Savannah I spent three days in Washington and then I went to Gettysburg and from there to Pennsylvania's anthracite coal regions, went down a mine and made the acquaintance of a mining engineer and learned many things and then back to New York. Now I am a different man because of that trip. I made it a point to speak to everybody and keep eyes and ears open and I learned how to handle myself among men. I know something of our country now—I can shut my eyes and see negroes on cotton wharves, farmers sitting on reapers out on huge Kansas wheat fields, clear Massachusetts farmers' wives making butter, black coal miners and steamboat hands playing cards with their greasy pasteboards on the not freight decks. I took my opportunity—I saw the country and I think it's the finest vacation I ever had—and the cheapest, for I came back with \$75. Luxury of French Prisons. Last week I spoke of the intelligent deputy who is hoping to introduce the cat of nine tails into France. Today come to light facts showing the luxury in which French apaches live when they are the guests of the state.

The French criminal is taken to a prison called Fresnes Palace, and here he is housed far better than any common French soldier, the latter may have served his country ever so valiantly, while the former has supposedly done the reverse. The cells are steam heated at an always level temperature, and statistics show us that in a garrison and a prison each holding the same number of inmates, where in 1909 the consumption of coal for the garrison was eighteen wagonloads the prison consumed 300 wagonloads. So to quote Clement Vautel, our brave French soldiers "shiver under a fire meagrely fed with a few pieces of coal from time to time, while our criminals stretch themselves in lazy luxury before a cozy hot steam pipe."

"The Light Beer in the Light Bottle" Is Far Better Than The Government Regulation Requires

The Canadian Government regulation, regarding the brewing of lager, is probably the most exacting in the world. It calls for a brew of Hops, Malt and Water only. The American Government places no such restrictions on her brewers. O'Keefe's "Pilsener" not only complies with the Canadian Government regulations—but is brewed of the very finest Hops and Malt, and pure filtered Water.

Toronto Motor Boat Club. The Toronto Motor Boat Club are holding a smoking concert in their new clubhouse, at the foot of York-street, on Tuesday evening, Oct. 25, as an introduction of the club to lovers of motor boating. The evening's program promises to be the treat of the season for those who are lucky enough to secure a ticket. The committee in charge is composed of men to whom nothing is too good for the best in their particular line will appear, as an example, in fencing alone, Messrs. Charles Walters (champion of Canada), H. Johnston (champion of M. C. A. champion), M. DeVilliers and E. W. McKissock (Junior Y. M. C. A. champion), and others of the Central Y. M. C. A. Fencing Club, will take part in the boxing and wrestling of their various classes. The musical part of the program will be given by any professional concert to be given this coming winter, and how the motor-boat man will be lucky enough to secure a ticket to those not on the inside.

Do you ever look for this trademark on underwear?

Some people simply ask for "underwear."

They select a garment—carefully examine shape, material, fit, etc. And decide to try it.

The result is pure speculation—upon which health and comfort depend.

Do not leave this important transaction to mere chance—

Insist on the dealer showing you underclothing with the "sheep" trademark.

It's on every garment of "CEETEE" UNDERWEAR and means absolute underwear comfort.

A Genuine Rupture Cure Sent On Trial To Prove It Don't Wear a Truss Any Longer

After Thirty Years' Experience I Have Produced an Appliance for Men, Women and Children That Actually Cures Rupture

If you have tried most everything else, come to me. Where there is a cure, I have my greatest success. Send a sealed coupon for price and send me my illustrated book on Rupture and its cure...

The above is C. E. Brooks, the inventor of Marshall, Mich., who has been curing rupture for over 30 years. If ruptured, write him to-day.

Ten Reasons Why

- You Should Send for Brooks Rupture Appliance
1. It is absolutely the only Appliance of the kind on the market to-day, and in it are embodied the principles that inventors have sought for 50 years.

Remember

I send my Appliance on trial to prove what I say is true. You are to be the judge. Fill our free coupon below and send to-day.

Pennsylvania Man Thankful

Mr. C. E. Brooks, Marshall, Mich. Dear Sir: Perhaps it will interest you to know that I have been ruptured six years and have always had to wear a truss...

Others Failed, But The Appliance Cured

C. E. Brooks, Marshall, Mich. Dear Sir: Your Appliance cured all you claim for the little boy, and more, for it cured him sound and well. We let him wear it for about a year in all, although it cured him three months after he had begun to wear it...

Child Cured in Four Months

Brooks Rupture Appliance Co., Marshall, Mich. Dear Sir: I began using your Appliance for the cure of rupture (I had a pretty bad case) in May, 1908. On Nov. 20, 1905, I quit using it. Since that time I have not needed or used it...

THE GRAND TRUNK PACIFIC

Offers to the Public Lots in the First Subdivision to

Watrous

Favored Bountifully by Nature and by the Grand Trunk Pacific, Watrous is Destined to Become One of the Most Important Inland Cities of Western Canada

WATROUS is located near the banks of Little Manitou Lake, the most wonderful body of mineral water on the American Continent. A century ago the Indians took the sick and ailing tribesmen to Little Manitou to be cured. To-day the white man is journeying from far and near to receive the benefits afforded by the medicinal waters from Little Manitou Lake. The Grand Trunk Pacific has selected Watrous as its Central and Principal Divisional Point of the great Western Provinces, and it is from this Central Divisional Point that the different Branch Lines to other important cities will radiate.

The requisites of a flourishing prairie City are first of all railway facilities. It must be an easy point to reach and ship from.

Beyond this it must be either a centre of manufacture or of a highly productive farming country. Again it should be a pleasant place to live in, have good drainage, good water and some attractions.

Little Manitou—"The Carlsbad of Canada."

THE WINNIPEG TELEGRAM, speaking editorially of Watrous and its wonderful mineral lake, has the following:

"Little Lake Manitou, on the G. T. P., is beginning to receive the attention to which the wonderful medicinal properties of the water of the lake so well entitle it. The Indians called the lake Manitou, which means 'good spirit,' owing to the healing qualities they found in the waters possessed. It is said that Indians came to this lake from hundreds of miles round, and on the shores are still to be seen circles of stones, which mark Indian encampments. Though it is probable that the Indians for years have availed themselves of the curative powers of the waters of this lake, it was not until the building of the G. T. P. had caused the Town of Watrous to spring into being two years ago that the remarkable medicinal value of the waters of the lake began to be generally realized.

"The power of these waters to cure rheumatism, sciatica and skin disease has been so positively and strikingly demonstrated as to attract considerable interest. Those who visit the lake are unanimous in declaring Little Manitou Lake as the coming Carlsbad of Canada. A chemical analysis of the waters of Little Lake Manitou shows considerable resemblance to the medicinal waters of the world-famous Carlsbad, which has for so long maintained the highest reputation. The beneficial results obtained from bathing in Little Lake Manitou are so positive that the good effect is beyond doubt.

What the Hon. William Pugsley Says:
"Hon. William Pugsley, Minister of Public Works for the Dominion of Canada, hearing of the fame of the lake, paid it a visit and bathed in its waters. The honorable gentleman, when interviewed at Watrous by one of our reporters, stated: 'I am not an authority on the medicinal qualities of water, but this I can say: Bathing in Little Lake Manitou is particularly pleasant; there is a property about the water that imparts a pleasant glow. I am somewhat troubled with rheumatism, and I am quite certain bathing in Little Lake Manitou has been very beneficial to me.'

"I consider Watrous has a good future; the lake is a valuable asset to Saskatchewan, and it will become a resort patronized not only by people from all parts of this country, but also from points in the United States. I have visited health resorts in California and England. Little Lake Manitou is unique.

"Yes, it is true we have bought four lots on the shores of Little Lake Manitou; my brother (Dr. F. A. Pugsley) intends to take treatment here for rheumatism, from which he suffers."

See how perfectly Watrous fulfills these requirements. This is the central divisional point of the largest, strongest and most important Canadian Railway. The Railway alone will employ hundreds of people whose homes will naturally be at Watrous.

Manufacturing industries will be needed, and Watrous is the natural place for them to locate. And lastly, Watrous has Little Manitou Lake, a veritable

Mecca for health and pleasure-seekers. Thus is Watrous doubly sure of its promotion and flourishing growth.

Watrous has all the advantages of Moose Jaw and Saskatoon, and it has Little Manitou Lake into the bargain, which is as valuable as all its other assets combined. Not only that, but this wonderful mineral lake cannot be duplicated, and no other feature of competing cities can take its place.

Where Anyone Can Swim.

The specific gravity of the water of Little Manitou Lake is 1.06. This is heavier than the water of Carlsbad. The human body cannot sink in water of this specific gravity. People who elsewhere have given up all hope of swimming, find it easy to swim in Little Manitou. From the Winnipeg Telegram, July 24, 1910.

Buy Lots in Watrous, You Can't Make a Mistake

The more lots you buy in Watrous, the more money you will make. It is impossible to purchase lots in a live and growing young city of Western Canada and not make splendid and certain profits.

Lots in Moose Jaw that sold a few years ago at \$100 each are to-day worth from \$300 to \$3000. Lots in Lethbridge a few years ago were a small frontier town. Lots in Lethbridge now command fancy prices: \$10,000 to \$15,000 is sometimes paid for a single lot.

Lots which sold in Saskatoon ten years ago for \$100 are to-day worth ten to fifty times that amount.

You could have purchased lots in Edmonton ten years ago for \$100 each, which are to-day worth \$1000 to \$10,000.

Those who purchased lots in Edmonton ten years ago are now the possessors of property worth 1000 per cent. more than the price at which it was originally purchased. An average increase in value of 100 per cent. each year.

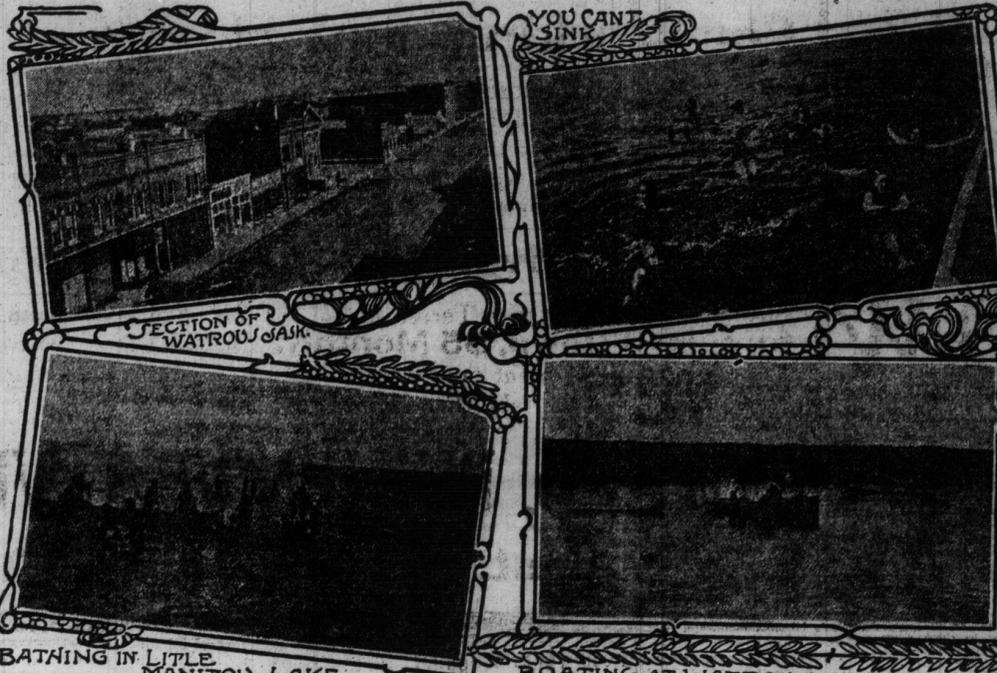

In Fort William the same rapid advance in value has taken place. Lots which sold for \$100 to \$200 each, even five years ago, have since sold for \$1000 to \$2000.

It is almost impossible to chronicle the rapid advance in property in Calgary, Regina, Winnipeg, Vancouver and other cities of Western Canada.

Buy lots in Watrous now while they are selling at the ground floor price, and hold them, and you are certain to make money. Buy a half dozen or more lots, and ride with the wave of advancing values. Ten dollars for every dollar you invest is common in live towns of Western Canada.

Think what it means for the population of Canada to increase from six millions to thirty millions, and 80 per cent. of this growth will be in the west. There is no use living in a dry of land and opportunity unless you are part of it. You doubtless have among your friends and acquaintances those who have seen their fortunes in Canada and the Canadian cities, and have become rich because they invested when these cities were young.

Buy lots and prosper with Canada. Buy in Watrous, and as Watrous grows the money you put into it will grow just as surely and certainly. Invest your money where the greatest activity is taking place, in the centre of rapid growth, where the greatest advances are realized. This centre is undoubtedly in Western Canada, and Watrous is the pivotal point. You are taking no chance when you buy lots in Watrous at present prices. The future of Watrous is assured, and if you buy now you should make 100 per cent. to 1000 per cent. on your investment during the next five years.

THE GRAND TRUNK PACIFIC

The last and greatest of the Transcontinental Railways—extending from Halifax, N.S., to Prince Rupert, B.C.—is opening up and developing a new and wonderfully rich territory. The Grand Trunk Pacific is assisting in an energetic and vigorous manner in the building of this Great Empire to the North and West. This is truly the Land of Opportunity. No portion of any country on the globe to-day shows such rapid development as the Grand Trunk Pacific territory.

The rapid development of Western Canada during the past few years has been chiefly due to the splendid railway systems which are being built. The last and the greatest of these—the shortest line from ocean to ocean—is the Transcontinental line of the Grand Trunk Pacific.

These great railway systems make rapid increases of population a certainty. Every facility and inducement is afforded to the desirable citizen, and the history of those who have grown rich and are growing rich in the West is the best guide to the future.

Pioneering is not a feature of the growth of Western Canada. Cities grow up in the time it takes for a settlement to become established in the ordinary community. That these cities will be permanent—that Real Estate values will con-

tinue to raise—is assured by the rich agricultural country which these railways have opened up. The Grand Trunk Pacific alone, in its course through the three Prairie Provinces, draws on a larger area of fine wheat producing land than the entire Wheat Belt of the United States.

Thus it is that while the assessed valuation of Canada's new cities is increasing by millions, they will continue to increase at the same rate or a greater rate for years to come.

These millions of increased valuation represent the profits paid to the early holders of land. You cannot secure these profits in the older towns—the cities which have sprung up along the older railways. It takes capital to handle real estate in these older cities. But along the line of the new Grand Trunk, Passenger

Service has only recently started; values have not had time to boom. A comparatively few dollars will do the work here, and every dollar invested in Watrous to-day should multiply itself many times over before 1915—even before 1912. Some of the lots in Watrous are already selling at ten to twenty times their cost only two years ago.

If you failed to get in on the big money that was made in other Grand Trunk Pacific cities—such as Port Arthur, Fort William, Saskatoon, Prince Albert, Edmonton, Prince Rupert, or in others which might be named—here is your chance now to get in right on Watrous. The same spirit of co-operation which has been extended by the Grand Trunk Pacific to these other cities which have made good will be extended to Watrous. Watrous is destined to become the inland Prince Rupert of the Grand Trunk Pacific.

THE GROWTH OF WESTERN CANADA MEANS THE GROWTH OF

**RIGHT LAND DAMAGES
IN PROPOSED VIADUCT**
Assessment Commissioner Reports
in Extension of Parliament St.
to Join Larger Viaduct.

At the meeting of the civic works committee yesterday afternoon, Assessment Commissioner Forman reported that he estimated the land damages that would result from the proposed viaduct from the head of Parliament-street to Castle Frank-crescent would not be more than from \$25,000 to \$30,000. If the viaduct were built to connect directly with the contemplated viaduct from Bloor-street to Danforth-avenue, the damages would not run beyond \$12,000 or \$15,000, as the necessity for tearing down houses would be avoided. The committee will take no action until it gets from City Engineer Rust an estimate of the cost of construction of the Parliament-street viaduct.

City Architect McCallum intimated that he disagreed with the city engineer's proposal to limit the extent to which cornices on new buildings to be erected should project over the street line. At the previous meeting, Mr. Rust recommended a limit of 18 inches, but the committee increased it to 24 inches without satisfying Mr. McCallum. He declared that a cornice so limited would be insufficient on buildings more than three storeys high. The result would be that builders would erect buildings far enough back from the street line to suit their purposes, so that the front line would present a very irregular appearance. Mr. Rust and Mr. McCallum were free to do so if they wish and to limitations according to the height of buildings.

Mr. Welch, who is on the public library board, complained that hydro-electric poles had been put in front of the College-street library, but the only consolation he got was the statement of Chairman Chisholm that similar complaints were being made all thru the city.

May End Paving War.
In the hope of settling a long and bitter controversy over the paving of College-street, from Manning-cove to Dovercourt-road, the committee again recommended asphalt block. In the action brought before Judge Cote to set aside the contract, several ratepayers asked that their names be withdrawn from the petition for asphalt block. They will now be at of combine among the sheet asphalt call for sheet asphalt if they want the cheaper material. The city solicitor advised that further-legal pitfalls could be avoided by this course.

"It seems to me that there is a sort of combine among the sheet asphalt companies to keep out asphalt blocks," said Ald. Peard. "As soon as a petition for asphalt blocks is sufficiently signed, they get busy and tell the ratepayers it is very costly." Approval was given the extension of Dupont-street from Shaw-st. to Ossington-ave. The city is to pay half the cost of \$17,000. The city will bear the share of the cost in connecting the two sections of Austin-ave. in Riverdale, so as to make a thoroughfare from Gerrard-st. to Queen-st. A strip of land, 62 feet by 88 ft., must be bought, and the cost is \$22,000.

Lumber Scandal.
The assurance of an inspector that only a few planks of cull lumber were used in building the breakwater at Ward's Island, did not satisfy Ald. McBride, who held that about 1500 feet was used and offered to pay the cost of ripping up the breakwater for an examination if his statements were untrue. Mr. Rust will look into the complaint again.

There is no protected crossing of the Grand Trunk tracks between Greenwood-ave and Woodbine-ave, but the city engineer will speak up about the proposed subway at Ashdale-ave, because of sparse population in the vicinity. The committee inclined towards a subway at Coxwell-ave, instead of the hydro-electric commission, a saving of \$1 per horsepower per year.

Some Warm Words.
The alderman got into a hot altercation with Ald. McCausland by accusing the latter of taking credit for opposing on the exhibition board the proposal to let the Electric Light Company supply the power to the exhibition. W. K. McNaught, he asserted, "It's a lie," retorted Ald. McCausland as to the charge of self-glorification. "When you said that you lied," he retorted, and asked that the statement was contemptible. Ald. McBride declined to withdraw, altho Ald. Dunn, who was at the board meeting, testified that Ald. McCausland was the first to oppose the scheme.

George H. Gooderham, M.L.A., has taken out a permit for a two-story brick garage building, to cost \$2000, at the rear of 204 St. George-street.

C.P.R. AFTER EXTENDED PRIVILEGES ON SUNDAYS

Wants Permission to Handle General Freight Traffic of Its Lake Boats.

In direct contravention of the regulations of the Lord's Day Act, the C. P. R. has applied to the Dominion Railway Board for authority to load and unload general merchandise from its boats plying between Owen Sound and Port William. Thru a previous order of the board the privilege was granted the company of unloading grain on Sundays between Sept. 15 and June 1, but Angus MacMurchy, K.C., explained that the company wanted the board to include general merchandise as a work of necessity. R. U. McPherson, K.C., representing the Lord's Day Alliance, wanted to make enquiries into local conditions at Owen Sound, and adjournment was made for a week. The application of the C. P. R. asking for authority to construct a second track to cross all the streets and road allowances between concessions 4 and 5 in the Township of Etobicoke was approved. The question of protection for Dundas-street was laid over till December.

NEW COPYRIGHT LAW

Emancipates Canada From British Legislation.

OTTAWA, Oct. 14.—The copyright legislation which Hon. Sydney Fisher will introduce at the coming session of parliament, is a complete emancipation for Canada from the restrictions which have hitherto been imposed upon her by British legislation, and is a distinct personal triumph for the minister of agriculture, who has for years been fighting for such a result. The Canadian legislation will be preceded by legislation at Westminster which will repeal the denial of Canada's right to legislate on the matter of foreign copyright. Other self-governing portions of the empire will benefit. The Canadian legislation will make the law here conform to the Berlin convention. It will have the important effect of preventing United States publishers having the freedom of the Canadian market by virtue of a British copyright. Hereafter such copyright will not run here, but the Canadian bill will recognize British copyright by British authors and, as the British Government has decided to recognize Canadian copyright, absolute reciprocity in copyright within the empire is in sight.

BEST METHODS TO ROUSE THE MISSIONARY SPIRIT

Subject of Discussion at Methodist Gathering—Co-operation in the Work in China.

Many things were suggested and discussed by the Board of Missions of the Methodist Church at a banquet last night. The idea of the gathering was to see what could be done to create a greater missionary spirit. N. W. Rowell, K.C., was in the chair. Hon. W. H. Cushing, ex-minister of public works for Alberta, thought that the absolute necessity was the leadership of the church in missionary movements. The ministers should spend some time organizing the forces of their churches; also he thought the average layman did not give enough time to prayer. "They are satisfied to let the preacher do both the preaching and the praying," he said. "While the minister should be the leader he should not be the whole force." George Bell of British Columbia thought that the need of the missionary movement was that the people should become better acquainted with the situation. Instead of only giving the money the church members should devote some of their time to the furtherance of religious movements. Most of the efforts made were to get dollars, not time. They should give one-tenth of their time as well as money. "It takes God's spirit to give both time and money," he said. T. H. Preston of Brantford said that to keep congregations interested in the missionary movement the pastors should preach on the subject as often as possible. Mr. Rowell suggested that the interest church members take in the missionary movement should be increased by increasing their knowledge of the subject. Rev. O. Darwin of Saskatchewan, Rev. George J. Bond and W. H. Goodwin of Montreal also spoke. University for China.

A university for the education of the Chinese will be established at Chentu, Western China, soon. It will be called the West China Union University and will be built and supported by four missionary societies, the American Baptist Foreign Missionary Society, the Friends' Foreign Missionary Association of Great Britain, the General Board of Missions of the Methodist Church in Canada, and the Board of

Foreign Missions of the Methodist Episcopal Church, U.S.A.

The subject was discussed at the meeting of the mission board of the Methodist Church in Elm-st. Church. The meeting unanimously endorsed the movement. The foreign department committee recommended that the constitution of the new university be approved. N. W. Rowell, K.C., outlined the constitution. The feasibility of operating a union university in China has been under consideration for some years. During the past three years the commissioners representing the four missionary organizations met a number of times to consider the question. The university will be situated in the

centre of the western provinces of China and will have an opportunity to influence the lives of about 100,000,000 Chinese. It was also a practical demonstration of co-operation in the mission field. Each of the four organizations will found a college.

A Memorial Church. Rev. T. E. Egerton Shore said that \$50,000 had been appropriated for the university and \$300 would be required for this year's expenses. There had been 45 acres secured for the university, 20 of which would be for the Methodist College. A memorial will be built in Chentu in memory of the late Dr. Alexander Sutherland. The cost will be \$15,000 and the money will be secured by public subscription.

Retained the Receipts.

The board appointed a commission of seven to revise the salaries of home missionaries. The commission will report in twelve months. It is felt that the missionaries are not being paid enough. MOOSEJAW, Sask., Oct. 14.—(Special)—C. W. Connors, ex-dining car conductor, on C.P.R., running between Port and Spokane, was committed for trial this morning charged with the theft of \$380, being six days' receipts on his car in June last. Connors left the employ of the company in August. He was arrested at San Francisco two weeks ago.

Why Not Own a Home in Alexandra Gardens?

Write for Descriptive Booklet and Particulars of Home Building Proposition.

Every large city has its suburbs with pure air and quiet, healthy environment, where the city business man may find rest and health after his day's labor is over. Alexandra Gardens meet these requirements.

The Gardens, most favorably located on the west side of Yonge Street, opposite Victoria, and immediately south of Glencairn Avenue, are in the centre of what is acknowledged to be the best and most accessible suburb adjoining the city on the north.

Alexandra Gardens are ideally situated for a home—fresh, brisk air, quietness, natural beauty (the property is well wooded), and is readily accessible to the city—only thirty minutes' car-ride up Yonge Street from King.

The growth of Toronto must be northward, and land values in this locality will undoubtedly repeat the rapid and substantial increase of the Avenue Road Hill and other better class districts; and the maximum increase should be recorded in and around Alexandra Gardens, the logical centre of growth. The present prices are low; shrewd buyers are purchasing now.

The restrictions are such as to assure homes of neat design being erected, they will not be crowded together, and will be a uniform distance from the street line. No expense has been spared by the owners of this property to provide a sufficient number of well-constructed roadways, cement sidewalks and street beautification by means of shade trees and the erection of massive gates at the entrances to the boulevards, etc.

Home Building Plan

You select your lot in the Gardens—provide your own plans and specifications (or we will procure suitable ones for you)—pay a certain amount down—we will have the house constructed for you—turn it over on completion, and you pay the balance in reasonable instalments.

SITUATION IN SPAIN

Premier Says He Does Not Fear Any Outbreaks.

PARIS, Oct. 14.—The Madrid correspondent of "Matin" sends his paper an interview with Premier Canalejas, in which the minister says that there is no chance for a republic in Spain, as the Republicans have no great leaders and their ranks are hopelessly divided. Moreover, the radical nature of his program, involving a struggle with the Vatican, the premier says, is disarming the Republicans as anticlericalism is one of their strongest principles.

Largely attended meetings in memory of Francisco Ferrer, the alleged revolutionist who was shot by the government on Oct. 13, 1909, were held in this city yesterday and addresses made by Republican and Socialist deputies. The proceedings passed off quietly.

CHARGED WITH ATTEMPTING BRIBERY.

NEW YORK, Oct. 14.—Frank J. Gardner of Brooklyn, a former state senator, who was arrested in Scranton last night charged with attempting bribery of Congressman Otto G. Foelker, also a former state senator, to vote against the anti-race bills in Albany in 1908, was to-day indicted by the New York county grand jury on the charge of an attempt to bribe a public official.

SIX HURT IN AUTO WRECK

Ex-Ald. Parsons of London Severely Injured When Car Turned Turtle.

LONDON, Ont., Oct. 14.—(Special.)—As the result of his auto turning turtle on the Governor's road to-night, ex-Ald. Robert Parsons is in Victoria Hospital badly injured.

Five others who were with him were badly shaken up. Mr. Parsons' back is injured and he was unconscious for an hour. The car was badly smashed up.

PETITION FOR HIS RELEASE.

NIAGARA FALLS, Ont., Oct. 14.—(Special.)—A petition has been sent to the government asking for the release on parole of Wm. Dobson, former cashier of the Canadian Express Co. here, who is serving four years for stealing \$14,000 in a fake hold-up from the company last November.

Will Get Lower Rate.

WINNIPEG, Oct. 14.—(Special.)—The Western Board of Fire Underwriters has made an effort to meet the views of the city with reference to a reduced rate for insurance on the municipal buildings, as a result of an agitation in favor of the city carrying its own insurance.

Five Years for Brute.

CHATHAM, Oct. 14.—Five years in Kingston Penitentiary was the sentence this morning handed out by Magistrate Houston to James Oscar Coulter of Camden Township, who pleaded guilty to offences under the Charlton Act. Coulter's victim was his stepdaughter. The offence was committed since the girl was nine years old.

BRUSSELS TELEPHONES

An Interesting Case Before the Railway Commissioners.

At a recent meeting of the Ontario Railway and Municipal Board at Brussels, the first case under the Charters Telephone Act, passed at the last session of the legislature, was decided, which will probably stand as a precedent in the future operation of that law, unless the court of appeal reverses the order made by the lay members of the board.

The Brussels, Morris & Grey Telephone Co. sought a connection for the interchange of business with their subscribers and the subscribers of the Wroxeter Independent Telephone Co. This connection was at first refused by the latter company, who appeared to be tied up by a contract with the Bell Telephone Co., that they would not connect with any competing company. The Brussels Company claimed that this was a move to isolate them.

Two letters were produced at the hearing from the general superintendent of the Bell Co., the first dated May 2, in which he admitted the act was unfortunate. He suggested several means of throwing obstacles in the way of securing the connection, advancing the suggestion that the Brussels Company would have to build a trunk line, which, however, they had already offered to do. The second letter, dated June 4, had other suggestions to prevent the Brussels Company pressing the application for connection, but agreeing that if the board made an order it could not be refused.

In giving judgment the board stated that it cared no more for the alleged contract than if it were blank paper; that the act of the legislature providing for the connection of independent companies with trunk lines would have to be carried out. The contract was described as immoral, as it interfered with the free business of the country, and should not be made by anyone.

The parties were given ten days to come to an arrangement which, if satisfactory, they would ratify, or make such an order as would meet the requirements of the case.

BROUGHT BACK FROM GRIMSBY

Reginald Roberts Accused of False Pretences.

Reginald C. Roberts, whose address was 81 Wilton-avenue, was brought back from Grimsby by Detective Cronin last night, where he was held on information that he was wanted on two charges, one of obtaining by false pretences \$50 from C. B. Kerr of 15 Victoria-street, and \$40 from A. B. Hutchcroft of 825 West Queen-street. The warrants for his arrest were made out last May. He was arrested a couple of weeks ago at St. Catharines charged with stealing a horse and rig and at the trial at Grimsby he was allowed off on suspended sentence, but held to await the disposition of him by the Toronto police.

It is alleged that the money he received last May was the amount of deposits on real estate deals.

I. P. S. OPEN SEASON

Pleasant Evening Spent at Margaret Eaton School.

The Irish of the city flocked last evening to the Margaret Eaton School of Literature and Expression to enjoy the opening meeting of the Irish Protestant Benevolent Society for the 40th season.

The president, George B. Sweatnam, presided, and paid a graceful compliment to Mrs. Timothy Eaton as the donor of the handsome edifice to and for education, and a warm tribute to the late J. N. McKendry.

Letters of regret were read from the following members: Hon. J. K. Kerr, Hon. Thos. Crawford, Mayor Jefferies, Hon. J. P. Fyfe, Hon. J. S. Duff, T. D. Delamater, K. C. H. H. Bowles, K. C. H. O'Hara, R. Moon, Jas. L. Hughes, A. J. O. McCarthy, Thos. R. Whiteside, M. L. A.; George Ross, L. O.; D. L. McCarthy, K. C.; R. T. Coakly, Harry McGee.

Mrs. Scott Raff read in her inimitable style, one of Teate's dramas. Rev. Joseph Norrhey of Belfast, and Rev. Thos. E. Bartley, D.D., delivered humorous addresses. Irish musical selections were rendered by such well-known artists as Albert E. David, R. S. Piggot, H. Ruthven Macdonald, and J. M. Sherlock. T. H. Meredith, the cornet soloist, delighted the audience with "Killarney" and "Come Back to Erin."

A most successful meeting was brought to a close with a hearty vote of thanks to the talent, moved by James Hunter and Fred Dane, and singing of the National Anthem.

It was unanimously decided to purchase a permanent headquarters for the society on Church-street, opposite the Normal School.

Presentations. Two officers of the Lancashire Society, Past President William Walcott and Treasurer J. T. Smith, were presented with oak secretaries last night at the meeting of the society in the Sons of England Hall. The presentation was made by James H. Kenyon, president. There were twenty-five new members enrolled.

Crown Prince George of Servia is ill with typhoid fever.

Get on Board for the Health Excursion to

PINE BEACH

STOP 26, LAKE SHORE ROAD

TO-DAY,

SATURDAY, OCT'R 15TH

Every man who has a home-owning feeling in his heart is invited to come with us in a special car to Pine Beach to-day. The weather man has been kind, and October has decked Pine Beach in the glory of Autumn. You will feel that this is a Health Excursion after you have seen and breathed Pine Beach for five minutes. The air is different—and the view of the lake and land is a cheerful tonic. Put on your hat and come with us as our guest.

A Home in the heart of the pines can be obtained at small cost on easy payments. You don't need to go to Muskoka or the Adirondacks for a new grip on life. The opportunity is here at your very door all the year round. Pine Beach lots are still within reach of every pocketbook and every Sunnyside car. Prices still range from \$8 to \$35 per foot. There are a few extra-desirable lots with a lake frontage for early buyers. Every improvement in roadways, streets and lakefront breathing spots is being arranged. Electric light is waiting at the gates, and the street car service is most convenient. Pine Beach can be reached from the city in about 35 minutes. Good building restrictions assure you that your home will be in excellent company.

CLOSE TO NATURE AND CLOSE TO THE CITY

The rush for Pine Beach Lots last Saturday was so great that we couldn't give personal attention to all the buyers. We regret this, and our sales force has been increased so that all homeseekers who come will be well attended by capable and courteous salesmen. Prices are still low—\$8 to \$35 per foot. Easy payments and easy terms may be obtained.

We have arranged the coupon below for your convenience. Kindly fill it out, detach it, and present it at Special Car at Sunnyside, to-day, at 2.30 or 3 p.m. It will reserve special free accommodation for you to Pine Beach and return.

"I believe the boy is possessed" is an exclamation often heard from mothers, and one that is founded on fact. Thank goodness, they ARE possessed—of exuberant spirits and glowing health! What father or mother would be willing to have their boy lack these things, for the sake of seeing his clothes always neat and his stockings unripped.

If you have a real boy, you'll know what good stuff has to go into his clothes, to withstand his very "realness."

For the help of distracted but happy parents, we specialize every Monday on things for the boy—everything he needs from a cap to a pair of boots. There's "good stuff" in every article we sell for him, and as for values, the prices on this page will be indication enough.

Come with your boys on Monday.
