BATTLE CRUISERS TO BE GIVEN BY CANADA

Best Informed Circles in England Believe That Canadian Government Will Give an Emergency Contribution of Several Fast Cruisers, With Later Conferences to Reach Definite and Permanent Policy for the Defence of the Empire.

LONDON, Sept. 15.—(Special World Cable)—It is believed here in the best-informed circles that the contribution toward the naval defence of the empire to be proposed to the Canadian parliament by the Canadian Government will take the form of a gift of battle cruisers of the latest and most powerful type and capable of surprising speed as compared with dreadnaughts.

They will be an integral part of the British navy, controlled by the admiralty and will have only one condition attached, that THEY BE SUPPLEMENTARY OF ANYTHING THAT THE BRITISH PARLIAMENT AND ADMIRALTY MAY VOTE AND DO.

Such an emergency contribution and later on such a federated policy would meet with the grateful approval of parliament here and of the people of Britain and of the empire, and go a long way toward maintaining peace.

It is believed that in the event of such a policy a better understanding with Germany would be reached and a way found for allowing the German navy to expand, and many Englishmen are ready to concede that Germany must be given more sunlight and room to grow in Europe and on other continents.

Information is now available as to what additional work the shipyards of Britain will be able to almost immediately undertake, and it is of a satisfactory character.

Killed, Fifty Hurt In Tornado Near Syracuse Property Loss \$250,000

Storm Which Cut Ten Mile Swath in Onondaga County N.Y., Caused Panic at Long Branch Resort, Where Many Buildings Topped Over—Leveled Everything in Its Path.

SYRACUSE, N.Y., Sept. 15.—(Can. Press.)—Three persons were killed and fifty injured by a tornado which worked a ten mile trail of destruction across the northern part of Onondaga County late this afternoon. The property loss is estimated at \$250,000.

The dead: William Madison, Syracuse. J. Dopp, Fulton. Charles Chapman, Salina. Without any warning of its approach, the black, funnel-shaped cloud first appeared near Long Branch, a pleasure resort 10 miles from this city.

A number ran into the dance hall for safety, but this building was directly in the path of the storm and was demolished. Many persons were injured in it. The wind, thunder, lightning and rain were terrific. Trees were cracked and fell to the ground, women screamed and fainted. Rushing westward, the tornado wrecked the boat-house of the Syracuse University navy, in which was stored the entire crew equipment.

CHICAGO, Sept. 15.—(Can. Press.)—Five naval apprentices were drowned and five are missing as the result of the capsizing of a cutter from the United States naval training station at North Chicago, Ill. late this afternoon.

Such an emergency contribution and later on such a federated policy would meet with the grateful approval of parliament here and of the people of Britain and of the empire, and go a long way toward maintaining peace.

RECIPROCITY IS STILL SLOGAN OF LAURIER

Liberal Chieftain, Addressing Large Rally in Soulanges, Pledges Party to Renewed Fight for Wider Markets, But Hints That He May Soon Resign Leadership.

MONTRÉAL, Sept. 15.—(Special.)—"We want a larger market, and that market is the United States," was the text preached yesterday by Sir Wilfrid Laurier and Hon. Rodolphe Lemieux, who with their friends from Montreal and elsewhere to the number of several thousand, held a demonstration at St. Clot, in the County of Soulanges.

Mr. Laurier told his hearers that Canada had 250,000,000 bushels of grain to export and as the time would come when England could not take this surplus, a market must be found elsewhere.

Mr. Laurier was in fine voice and spoke with his old-time vigor. He referred to his trip to Europe with the premier. He had admired Mr. Borden before he left for Europe, but his admiration had grown through his association with him on the other side.

Mr. Laurier went on to describe the work done in the interest of his department while abroad, including its efforts to reduce the cable rates, which, he said, was the beginning of more extended success.

"GYP" AND "LEFTY LOUIE" ARRESTED IN BROOKLYN GUNMEN SUBMIT MEEKLY

Tireless Surveillance of Wives and Relatives of Men for Nearly Two Months Results in Vague Clues Being Turned Into Capture—Round-up of Rosenthal Slayers Now Complete.

NEW YORK, Sept. 14.—(Can. Press.)—"Gyp the Blood" and "Lefty Louie," the missing gunmen indicted as two of the actual slayers of Herman Rosenthal, the gambler, were found by the police tonight living with their wives in a flat in the Brownsville section of Brooklyn.

The two gunmen had been occupying the flat since August 15, alone until last Tuesday, when they were joined by their wives, thru whom clues to their whereabouts were obtained by Brooklyn Police Commissioner Dougherty and a squad of detectives, who brought them to police headquarters and locked them up. They will be arraigned on Monday.

The four were sitting at tea when Deputy Commissioner Dougherty and his men burst open the door of their apartments and with revolvers drawn ordered them to hold up their hands. Neither of the gunmen made any show of resistance.

Mr. Pelletier went on to describe the work done in the interest of his department while abroad, including its efforts to reduce the cable rates, which, he said, was the beginning of more extended success.

NOGI MARTYR TO MISTAKEN IDEA

General Nogi's Suicide Mistakenly Reported as Result of Mistaken Idea.

TOKIO, Sept. 15.—(Can. Press.)—The city has been kept in a state of perpetual excitement since the suicide of General Nogi and his wife, Countess Nogi, by rumors that other persons had ended their lives in testimony of their devotion to the departed Emperor Mutsuhito. All such reports, however, proved to be unfounded.

TOWN COUNCIL'S NEWELL WANTS ACTION FRIGID PRAYERS FOR CHURCH

Anti-Annexationists Held Meeting in North Toronto and Endorsed Proposal to Ask Large Congregation at Massey Hall Yesterday Afternoon to Pray for Moody Church, Chicago, Which, He Said, is Being Attacked for Attacking Him.

The anti-annexationists held a meeting on Saturday night in North Toronto town hall, and on the motion of Mr. Donnelly, seconded by Mr. W. G. Ellis, the action of the town council in deciding to take a second vote on annexation was endorsed.

Before the meeting commenced, Mr. T. W. Banton, president of the Ratepayers' Association, explained that as the ratepayers had declared by their votes on July 6, in favor of annexation, it was not within the power of the town council to call a meeting to discuss the question. The people were the final court of appeal, and they had already expressed their wishes through the ballot box.

**Ontario Tournament Finals in Ladies' and Men's Singles Have Been Decided—Playing Doubles Today.**

The finals in ladies' and men's championship singles in the Ontario tournament were played on Saturday. Miss Moyes won from Miss Fairbairn after a prolonged contest, in which victory was the reward of persistence. Robert Baird retained his title, defeating Ralph Burns in the men's championship of tennis in this city for the year, in which both players were driving hard and enervating the issue in sensational style from beginning to end. The handicap, novices (singles) and mixed doubles and mixed doubles will be played this week. Macdonald and Glassco are former champions, won a well-played game from Innes-Taylor and Legge, and will be contenders for honors. More interest is being taken in doubles than ever before, the entry being the largest in the history of the club. The games from now on will all be good contests. The feature event for today's program are the men's doubles at four o'clock, which should be keenly fought. Results: Ladies' singles—Miss Moyes defeated Miss Fairbairn, 6-2, 7-5, 6-2. Ladies' championship doubles—Spanner and Hall defeated Birch and MacKenzie, 6-4, 6-2. Glassco and Macdonald defeated Innes-Taylor and Legge, 4-3, 6-2. Baird and MacLester defeated Morrow and Jarvis, 6-1, 6-2. Mixed doubles—Miss Thompson and Baird defeated Miss Murphy and Gurney, 6-2, 6-2. Mrs. Wilson and Brown defeated Miss Schreiber and Macdonald, 6-2, 6-2. Miss Lafontaine and Mattheyz defeated Miss Palmer and Palmer, 6-4, 6-1. Miss Macdonald and Ross defeated Mrs. Trotter and Trotter, 6-2, 6-2. Miss Summerhayes and Spanner defeated Miss Evans and Taylor, 6-2, 6-2. Miss Evans and Innes-Taylor defeated Miss Barry and Stickle, 2-6, 7-5, 6-4.

**Champions Outplayed**  
**H. G. Wookey Invincible**

**Picked Team Defeat Toronto by 128 Runs—Wookey Secures The World's Bowling Prize, Marsden the Batting Prize, and Paris the Fielding—Mayor in a New Role.**

The eagerly-anticipated match between Toronto champions of Canada, and a team representative of the rest of the city took place on Saturday on the grounds of the Rosedale Club, kindly loaned for the occasion. The promoters had two objects in view—the furtherance of amateur cricket and the support of the Hospital for Sick Children. An enthusiastic committee of which Mayor Geary was president, Mayor Brown vice-president, Controller Church vice-president, H. G. Wookey chairman, E. S. Jackson, D. L. Allen, H. W. Wookey, W. Marsden, members of the club, and the secretary and trustees of the hospital, the Queen's Own Band generously gave their services by kind permission of the officer commanding and Bandmaster Timpon, and from four to six discussed sweet music on the lawn during the bowling game. When tickets and money are returned, a fair sum should be available for the deserving institution named above.

**Mayor Geary Bowls.**  
At 11:30 Mayor Geary, with coat off and having already tried his hand with the bat and ball in practice, opened the bowling from the pavilion end. Captain Reid had won the toss, the opening pair of batsmen being Reid and Thomson, both members of the famous Eaton eleven. The West Indian had the honor of taking the mayor's wicket, and the latter, the first two deliveries to pass wide of the wicket, he played the next two to mid-off and drove the first to the on boundary. After the sixth ball Mayor Geary retired, amid the applause of the players and spectators, to be congratulated by Controller Church, City Treasurer Coody and J. M. Macdonald, secretary of the Toronto Lacrosse and Athletic Club.

**Rest of Toronto.**  
The chief feature of the "picked team's" batting were the fine displays of Marsden (52), Wookey (35), Baines (23, not out) and Reid (20). Wookey had the misfortune to be run out when apparently set for a good score, and Marsden's fine score secured for him the batting prize donated by the Star. Baines, the Rosedale player, closed the innings with the fine 23, and the total score of 133 was considered very good, but not beyond the ability of Toronto to surpass. Norman Seagram bowled splendidly, and he tried hard to secure the last wicket in order to make his victory half the side. However, he had to be content with four wickets as a consolation. Davidson also bowled well, his figures being two for sixteen.

**Toronto's Batting.**  
Toronto made a disastrous start when Cordner and Wright went in to rub off the 15 runs run in the first over. Norman was the first to leave, with only four on the board, and half the side were out for 2. The venture only resulted in the two men to reach double figures being Captain Lowmboch (12) and Norman Seagram (9). Davidson, who was found H. G. Wookey in irremediable form, was the first to be put out in an hour for 15 runs. Wookey, on his day, is in no opinion, Canada's leading left-hand

at the hands of the ex-cupholders. By virtue of their superior goal average they retain their position at the head of the league, although they have played one match more than Sheffield Wednesday, who defeated the Toss-siders by 3 goals to 1. Three visiting clubs had the satisfaction of taking the full number of points, and Aston Villa managed to divide the honors on Manchester City's ground. The Rams accomplished a fine performance at Roker Park, for even if Sunderland have not yet got into their stride they are a side to be reckoned with. Blackburn Rovers followed up their victory over Sunderland on Wednesday by trouncing the "spurs" to the tune of 6-1. Chelsea tasted the sweets of victory for the first time, Sheffield United being their visitors. Everton beat Notts County by four net goals and the strength of their defence is indicated by the fact that they have not had their defence penetrated in the course of three matches.

**Second League.**  
Hull City accomplished a fine performance by taking the full points away from Glossop, and they are beginning the season with an eye to promotion. On several occasions the "Tigers" have made a bold bid for championship honors, only to fall away at the crucial moments. The other four Yorkshire clubs were engaged in "Derby" matches, and there would be great rejoicing at Leeds road when Huddersfield defeated their near and dear neighbors from Bradford. The cupholders visited Elland road and Leeds delighted their followers by defeating the colliers. Very few teams take away points from Blackpool, and Bury did well to run the egg-siders to a goal.

**Southern League.**  
Plymouth Argyle entertained the powerful Swindon eleven, but the railway men had to return defeated by 3 goals to 1. West Ham won appreciation for their fine victory over Watford on the latter's ground, and Reading failed to hold their own against Millwall Athletic, who usually take an immense amount of beating on their native soil, hence the win is all the more creditable. Brighton and Hove displayed good form at Coventry and managed to share the points with the viceroy masters. Norwich could not forget its disastrous floods and put paid to the account of Brentford.

**The Smoke for Baseball Fans**

TAKE a package of Tuckett's with you to the game—you'll need them. The soothing influence of a Tuckett Cigarette is particularly grateful and comforting when the last man to bat has "fanned" with three on bases or a runner of the home bunch has been caught at third. You can't smoke a Tuckett's and feel mad with yourself or any one else. Take a package to add to the enjoyment.

Tuckett's Club Virginia Fifteen Cents for Ten  
Tuckett's Special Turkish Fifteen Cents for Ten  
Tuckett's T & B 10c for 10

Composed of fine crop Virginia leaf—mellowed and aged by natural curing in soft southern meadows that produces that mild, smooth flavor, and even burning qualities for which Tuckett's Club are justly famous.

A supreme cigarette of excellent smoking quality. Selected leaf from the first grade tobacco of Turkish crops is used. Their flavor is soft and delicate; their fragrance rich and pleasing.

To those who like a blend of Virginia and Turkish tobacco Tuckett's T & B brand is recommended. It possesses the full strength of the Virginia leaf with the distinctive flavor and fragrance of Oriental tobacco.

JUGGLING WITH THE RATE QUESTION.

We are hearing nowadays two objections to parliament dealing in earnest with the railway situation generally, and with the capitalisation and the freight rates of the Canadian Pacific Railway Company in particular. These objections contrasted one another, yet are used simultaneously and interchangeably by those who are averse to seeing any forward action by the government. When it is pointed out that the Canadian Pacific Railway has assets aggregating one billion dollars, can easily pay dividends equivalent to 20 per cent, and has each recurring year a larger surplus, the reply is made that there is no connection between capitalization and rates; that rates should depend, and can only be based, upon the value of the services. When, however, it is demonstrated that the Canadian Pacific Railway Company is charging rates in Western Canada beyond the value of the service furnished, we are told that the rates of this company cannot be reduced to a proper level, because such reductions would react unfavorably upon its less wealthy competitors, the Canadian Northern and the Grand Trunk Pacific. In other words, the financial condition of a company can never be considered as an argument for reducing rates, but only as an argument for increasing them.

In the case of a railway constructed and equipped entirely by private means and private credit, the power of the government to regulate rates extends only to seeing that the rates are reasonable and that all the patrons of the company are protected from extortion and discrimination. If on such a company's right of way, gold and diamond mines were discovered and developed, the basis for fixing its rates would none the less be the value of the service rendered. But where the government, directly or indirectly, furnishes practically all the capital, and takes all the risk of the enterprise, the public has a right to demand a share in the profits of the company in the way of better and cheaper service.

Curiously enough, all this solicitude for the future well-being of the Canadian Northern and the Grand Trunk Pacific seems to emanate from the offices of officers and directors of the Canadian Pacific Railway Company. Might it not be well to deal with the Canadian Pacific question on its merits? The big C. P. R. reaping over the future woes of her little sisters, the Canadian Northern and the Grand Trunk Pacific, is a touching spectacle, but it should not lead us from the point. Between 1902 and 1911 the Canadian Pacific Railway stockholders pocketed \$150,000,000, and in 1912-13 they will carry another \$50,000,000. When will the public be allowed to pick up a few crumbs in the way of better rates from this table at which rich men dine sumptuously every day?

MR. CHURCHILL'S LATEST.

Speculation in Britain will concern itself more with what Mr. Winston Churchill's suggestion about the parceling out of the country into local government districts presages than with its feasibility. Some critics see in it a proposal to revive the old Hellenic, the name usually given to the supposed seven kingdoms into which Saxon England was divided, based on insubstantial knowledge. It is interesting in this connection to recall the fact that the term was used during the earlier home rule controversy to describe the alleged "separatist" tendencies of Mr. Gladstone's measure. Still other commentators hazard the guess that Mr. Churchill hinted at the separation of Protestant Ulster from the rest of Ireland, a solution of the difficulty that has already been absolutely rejected by the Nationalists.

If Mr. Churchill, as he probably did, threw off the suggestion without consultation with his colleagues, it will be taken as affording some confirmation of the report that a resignation of parties is in contemplation. His experience at the admiralty may have convinced him that a strenuous naval policy must be adopted and pursued and that all other questions must be subordinated to the exigencies of imperial defense. As further provision for this purpose would meet with strenuous opposition from the Radical section, whose spokesman is Mr. Henry William Manningham, editor of The Nation, and from the Labor party, the possibility of an understanding between the opposition and the Liberal Imperialists cannot be

overlooked. The recent trend of the electoral vote and the prospect of the continuance of independent action by the Labor party also strengthen the anticipation that important developments are in the making.

JAPANESE LOYALTY IN DEATH.

That General Count Nogai's unexpected and dramatic suicide should strongly appeal to his comrades-at-arms and to his country as a supreme act of patriotic devotion is in strict consonance with that centuries old custom which embodied the feudal spirit and tradition of the Japanese people. Dr. William Elliot Griffiths, formerly of the Imperial University of Japan, in his work on "The Religions of Japan," says that the prehistoric custom of Japan as dying with the master, required the interment of living retainers with their dead lord. Down thru all the ages to the revolution of 1868, when at Sendai and Aizu scores of men and boys killed themselves and mothers slew their infant sons and cut their own throats, there has been flowing a river of suicides' blood, having its springs in the devotion of retainers to masters and of soldiers to a lost cause. No Molech or Shivas, he proceeds, was more victims to his shrine than has this idea of Japanese loyalty which is so beautiful in theory, but so hideous in practice. Yet these were the ideals of courage and loyalty held up before Japanese youth for centuries and only with the arrival of the western social order was the carrying of swords—a long one for the state's enemies, a short one for self martyrdom—abolished.

Dr. Gulick, for many years a missionary in Japan, in his admirable narrative of the "Evolution of the Japanese Race" notes the interesting fact that the Japanese are unable to separate nationality from personality. Not only, he explained, is the emperor conceived as the living symbol of Japanese nationality, but he is its embodiment and substance. He quotes Mr. H. Kato, ex-president of the Imperial University, as saying this in an "Evolution of Morality and Law." "Patriotism, in this country, means loyalty to the throne. To the Japanese the emperor, and the country are the same." That identification was the natural result of the fifteen hundred years of military social order when loyalty consisted of personal attachment to the immediate lord. When the old firm of feudalism was abruptly abolished by the voluntary resignation of their lands, vassals and retainers to the mikado by the Daimios, or great feudal chieftains, the old loyalty became fixed in the person of the emperor. General Nogai undoubtedly represented the Japanese ideal when he determined to end his existence at the moment when the signal gun announced that the body of his imperial master had left the earth for ever. His devoted wife, no less true to the ideals of Japanese womanhood, went with him to the grave.

It is misleading to describe their self-martyrdom as the commitment of hari-kari. Both Dr. Gulick and Dr. Griffiths point out that this is the vulgar term for the more elegant word "seppuku," the name given to the honorable method by which a samurai who had transgressed some law or failed in some point of etiquette might leave the world. "Seppuku" itself, it is explained, was not honored in itself for that reason. To be condemned to commit "seppuku" was a disgrace, but it was much less of a disgrace than to be beheaded by the common executioner and it also permitted the samurai to show of what stuff he was made. Dr. Griffiths, speaking of its origin, says that it was primarily intended as self-martyrdom in the literal sense and that it came into vogue among the samurai, who were both soldiers and scholars, in the twelfth century. It meant the opening of one's inner nature to view by a voluntary and self-inflicted thrust of one's own sword. It meant proof of sincerity and grew to be sacrifice, and often a vicarious sacrifice. In this its original sense "seppuku." In the modern code it is no longer recognized. Capital punishment has been abolished, a murderer or assassin being condemned to hard labor for life, thus robbing him of posthumous fame. In a word, adds Dr. Griffiths, the poetry is taken out of assassination.

IT DOES NOT FOLLOW.

The News says it "does not think that Mr. Geary has shown sufficient strength as mayor in directing the proceedings of council, but it recognizes in him a zealous servant of the public and believes that his undeniable ability and intimate knowledge of civic affairs justify his appointment to the vacant position." The position in question is that of corporation counsel, than which there is none more important in the city government. The argument of The News is that because he is not a very good mayor, it is justifiable to give him the more responsible office, an excellent example of the non sequitur. Meanwhile, Mayor Geary maintains an aggressive silence.

PALMA TROPHY WON BY U.S.

Successful Riflemen Broke Record at Ottawa—Canadian Team Was Beaten by Eight Points Only.

OTTAWA, Sept. 14.—The Americans won the Palma trophy by eight points. Score: Americans, 1720. The United States team and scores follow: American team:—

Table with columns: Name, Score, Total. Includes Lt. Col. Tewes (800), Capt. Casey (72), Mr. J. W. Hestian (74), etc.

OTTAWA, Sept. 14.—By the narrow margin of 8 points Canada today failed to wrest the Palma trophy from the United States of the coveted Palma trophy. The total scores were: United States 1720, Canada 1712, out of a possible 1800. The scores of both teams broke all previous Palma trophy records.

After securing a lead of three points at the first range, 300 yards, the Canadians dropped 10 points at 400 and thus had a net deficit of seven points when the final shot was fired. The scores of the work of both teams showed the American lead out down to four in the first few rounds, a couple of the visiting riflemen having double bagged the bull. When they got it, however, it was almost a continuous string of fives across the score board.

Canada again dropped back a few points. Until the last shot of the finishing squads were fired the result was in doubt. A great cheer from 2000 spectators greeted the American team as their victory was announced. Individual honors were carried off by Sgt. G. W. Russell of the G.G.F.G., Ottawa, who scored 222 out of a possible 225, a perfect score. He had a possible of 75 at the 300 yards range, and finished with 74 and 73. Capt. N. Smith of Chatham was second highest of the day with 215 and Sgt. Keogh of Massachusetts was leading scorer for the Americans with 217. He also had a capital for ever. His devoted wife, no less true to the ideals of Japanese womanhood, went with him to the grave.

OUR COUNTY FAIR

By WILLIAM H. TAYLOR.

When Autumn casts its spell of sorcery Upon the dreary, busy scene of this voluptuous, variegated land Then Labor wipes his brow and rests his hand At country fairs the visitor may see Our Canadian breed of yeomanry Bring forth their horses, cattle, sheep, and swine; (Excuse those rymes, good critic, blame the pen— Our girls can judge the swine—Bobby swabbin.)

Old England's breeds of massive cattle show How this adopted land such beef can grow As would delight an epicure to stew. It makes all Europe's kings a barbecue. "Comparisons are odious," so 'tis said, But quality goes with the breed. The black Polled Angus are perfection. Some judges claim upon mature reflection, In point of form, that Angus are swine. Their beef is marbled to a bishop's taste; But Herefords and Shorthorns are made for a manufacturer of beef from feed. "Ye 'milky mothers' shall we pass ye by And praise no Jersey's milk and sable coat? Her limbs, or fawn and sable coat? Sweet cream-creator! On thy gifts we detest The Herefords, too, and worthy of a bow And, as a milk machine, the perfect cow.

No shepherd's land is this, because the dogs Direct the farmers' energies to hogs; Not upon the pastures all the grass is eaten; Are they showy than those Southdowns we pass; The Cotswolds and Merinos show their breeding And do the climate credit, and their feeding. Fair ladies! please excuse a half a line Of unpoetic mention of the swine: The subject might not do for Alfred Austin; But pork and beans, go down the throat; I cannot but remark that if a Jew Would taste pigs' feet, he'd be a Christian, too; Our hams and bacon would be the best of the best; And had become a sparerib-eating deacon; To Yorks and Tamworths, we shall meet again, The roasts will prove, ye have not lived in vain.

The children here first taste a strange world's joys, And horse sports are there first seen by boys; The brazen-throated steeds are all the best; And coaches wenders would not be the rest; Of fruit and vegetables we wrote before. The grain exhibits are beside the door; The Herefords' preserves and bread, and wine, and honey, With all the manufactures sold for money.

FOUND CLENDENNAN'S BODY. OWEN SOUND, Sept. 15.—(Special.)—Yesterday about noon Percy Denton, a farmer residing about six miles below Leith, found the body of Maxwell Clendennan, drowned seven weeks ago in the bay, when the boat in which he and several others were was capsized. The body will be sent to Lindsay.

MOTORISTS' FORTUNATE ESCAPE. WELLAND, Sept. 14.—A miraculous escape from death occurred today when a motor car, driven by Fred McCallum, a young son of J. R. McCallum, turned turtle, throwing all the occupants out and wrecking the car. McCallum received severe but not fatal injuries, and was attended by Dr. Blinn. Other occupants of the car received minor injuries.

New Sailing for White Star. The White Star Dominion Line has just announced an extra sailing from Toronto for Saturday, Nov. 2, and a return sailing for "Meganite" to provide for an unusually heavy fall movement to the old country, forecasted by the present time. All the Canadian lines are also preparing for a heavy outward movement for the Christmas holiday season and the White Star Line has coupled with their arrangement a list of three special sailings from Portland, Me., and Halifax, N.S., "Laurentic" Dec. 7, "Teutonic" Dec. 14 and "Canada" Dec. 21. In discussing the extent of this movement with one of the White Star officials today he stated that heavy bookings homeward for the holidays is a sure indication of an equally heavy return booking in the early spring, as the passengers for the most part take return tickets with them and usually the price of a friend's passage as well, and a great many of our immigrants come over as the result of these Christmas home gatherings of our recently arrived Canadians who take advantage of the dull winter months to visit the old folk.

BRITISH CAPITALISTS COMING TO CANADA.

Another large party of British M.P.'s, capitalists and manufacturers are coming over for a tour of the Dominion, with the idea of investing large sums in factory sites and wheat fields. One of the pleasures of their trip will be their introduction to the "Empress of Table Waters." Radnor Water is truly Canadian and is sold favorably with the choicest table waters of the old world. The Empress "Radnor" though very aristocratic, is extremely cosmopolitan—mixes with anything.

A. P. GILLIES IS ARRESTED

Promoter Well Known in Toronto Held at Seattle on a Serious Charge.

SEATTLE, Wash., Sept. 15.—(Special.)—On a warrant charging a serious offence, A. P. Gillies, well known in Toronto, a promoter with a number of million dollar schemes that have kept the City of Tacoma, this state, on the edge of bankruptcy for a year, was arrested this afternoon and held in \$100,000 bonds. As he was unable to give the required bonds, he was removed to the county jail.

Gillies is the promoter for the Lewis and Clarke Sisel Company, which, as announced, was preparing to invest a huge sum in a steel plant on the outskirts of Tacoma. His proposition has been up before the commercial club a number of times. He also has plans for the promotion of a company for building a twenty-four story skyscraper in Tacoma and several other schemes, some of which have been discussed by the municipal commission.

Gillies represents that he is heavily backed by capitalists in New York and London, and letters in his possession indicate that he is in communication with big men in the financial world. His different schemes interested several Tacoma capitalists, one of whom a short time ago declared the city should take Gillies seriously. A year or so ago Gillies came to public notice in Toronto with plans for that city that fetched much newspaper notice, according to a mass of circulation in his possession. He refuses to discuss the ugly charges brought against him.

Well Known Here. A. P. Gillies has made himself well known in Toronto in recent years, having bobbed up periodically at the city hall with big plans for a terminal station and other ventures in which millions of dollars were dealt with in an airy manner. He also sought to interest the board of trade, but met with no success in Toronto.

OBSERVATORY, TORONTO, Sept. 15.—(Special.)—A heavy depression which passed to the southwest of the great lakes today has been accompanied by rain over the greater portion of Ontario, Quebec and the maritime provinces. A pronounced high area covered the western provinces and northwest states. Heavy frosts occurred last night in Saskatchewan and Alberta.

Less Liquor Distilled, But Inland Revenue Makes Record

Distilleries and Breweries Yield Great Bulk of \$19,635,000, Receipts Showing Increase of \$2,393,000 Over Last Year—Canada Consumes About 47,000,000 Gallons of Malt Liquor Yearly.

OTTAWA, Sept. 15.—(Can. Press.)—The quantity of spirits produced in Canada during the fiscal year 1912, was 4,784,296 proof gallons, nearly half a million gallons less than the production of 1911. But this diminution of output need cause the groggy no alarm, as there are over 20,000,000 gallons left over in the warehouses.

From the distilling and brewing business the government during the fiscal year reaped revenue of \$19,635,000. Tobacco and cigars, with a yield of \$8,618,416 came next as an excise revenue producer. When Hon. W. B. Nantel came to present his first report to parliament, he will be able to show the largest revenue receipts of any minister in history.

The demand for Canadian whisky abroad, although larger than last year's, shows a gradual diminution from the average of the last four years. In 1911, Canada exported distillery products to the quantity of 41,539 gallons. In 1912, the exports had fallen to 37,983 gallons. In 1912, the export was 298,769 gallons.

Production of Malt Liquor.

The number of gallons of malt liquor manufactured in Canada during the fiscal year 1912, was 47,518,447, which may be taken as a year's consumption in this country of ale, beer and porter, as very little is exported. Of this quantity Ontario breweries produced 22,963,311 gallons, Quebec 11,119,958, New Brunswick 89,205, Nova Scotia 93,917,

YORK RANGERS HELD ANNUAL SHOOT

Forty-Sixth Anniversary of the Founding of the Regiment was Celebrated at Long Branch Ranges on Saturday, When More Men Turned Out Than Formerly.

In spite of the threatening rain the 12th Regiment, "York Rangers," celebrated the 46th anniversary of the organization of the regiment by turning out to compete at the annual matches in numbers which have never before been attained. One hundred and twelve men faced the targets, and the shooting was not below the average which has been established for the year in all grades. The winners for the year in all grades, the winners for the general match, 200 and 500 yards, ten rounds at each range—Sergt. Pringle, 95; Major Elliott, 85; Capt. Dunham, 82; Capt. The Borden Banquet

Altho the sale for the Borden banquet has been large, few tickets are still available for the general public, and can be procured from the secretary of the board of trade. It was announced a short time ago that Mr. Borden would address a meeting at Massey Hall on Sunday preceding the date of the banquet, but Mr. Morley received a letter from the premier saying he would not arrive in Toronto until Monday morning, Sept. 23. Purchasers of banquet tickets are notified to spectators' tickets free.

RISH TROUBLE CAUSED BY CHURCH

Rev. Dr. Speer Says All the Turmoil is Due to the Activities of Catholicism, and the Ancient Order of Hibernians—Home Rule No Solution.

That the political turmoil, the poverty and the religious animosity in Ireland were all due to the operations of the Roman Catholic Church and to the activities of the Ancient Order of Hibernians were the conclusions voiced by Rev. Dr. J. C. Speer in his sermon at High Park Avenue Methodist Church last night. These organizations were working in harmony to obtain political institutions for Ireland and if ever they were successful and secured home rule their efforts, he believed, would then be directed to making Ireland an independent nation. Home rule was not the solution to the Irish problem, the disturbance was caused by the propaganda of the Roman Catholic Church.

His Own Impressions.

Dr. Speer made an extensive tour of Ireland on his recent visit to Europe and he gave his own impressions of the Irish question. The subject, he claimed, was not a secular one. It was a mere incident that politics were connected with home rule. The whole trouble, he said, was that the political and social dignitaries were seeking to break all the bonds and vest themselves with every authority. As a result, he declared, the conditions in the Emerald Isle today presented the most pathetic picture in the whole world.

The country, he said, had been badly governed in the past, but of late years the imperial parliament had been most beneficent. The Catholic Church, he said, instilled into their adherents the false idea that the Protestants of the north, the opponents of home rule, were not Irish at all. They were taught to look upon them as foreigners, as usurpers from England and Scotland. This practice, he declared, was creating much of the enmity, and hence the bad feeling could be traced directly to the church. As an evidence of the hold the church had upon the Irish, Catholicism today, the pastor cited figures to show that the number of the Catholic clergy had increased in the last 40 years while the population had decreased 1,200,000.

Seek Independence.

The second organization tending to disrupt the peace of Ireland was, he said, the National League or the Ancient Order of Hibernians. "This great secret organization is a

Trusses Like These Are A Crime

Get Rid of Elastic Bands, Springs and Leg-Straps. Such Harness Has Forced Thousands to Endure Dangerous Operations.

Trusses like those shown above—the belt and leg-strap, elastic and spring contraptions sold by drug stores, surgical supply houses and many seamy-styled "Specialists"—make life miserable for everybody who wears them. And—even when drawn so tight you can scarcely stand to keep them on—they do no good whatever.

The Rupture Truth is This.

Rupture—as explained in our free book—can't be relieved or cured—can't even be kept from growing worse—unless constantly held in place. Just as a broken bone can't "knit" unless the parts are held securely together. And—just as a bandage or splint is the only way a broken bone can be held—the right kind of truss is the only thing in the world that can keep a rupture from coming out.

Thousands say it is as comfortable as their clothing. To belt, elastic belt or springs around your waist, and no leg-strap. Self-regulating, self-adjusting. It is held in position by suction—can't shift or slip—the only truss in existence that is honestly guaranteed to hold your rupture every minute of the day.

Send on 60 Days' Trial to Prove It.

We have so much faith in the Clute's Trusses we have sent it work wonders for so many others—that we want to make one especially for your case and let you try it at our risk. We'll give you 60 days' trial to prove that this truss will keep your rupture from coming out, when you are working and at all other times—that it will put an end to the trouble you've heretofore had with your rupture—guaranteeing you your condition. If the truss won't cost you a cent.

Results to Blame.

"These strong Presbyterians in the north will never submit to home rule," he declared. "They will not even allow it to be tried. They are armed and ready and would resent the first officers who came to enforce the law. We can lay the whole blame on the Jesuits and on that secret organization."

Political One.

"They claim they want to govern Ireland well, but the testimony is that they want to separate the country from England. I am bound to believe that the vast majority of the members of that organization would hail with the greatest delight the breaking away from the British flag."

The Protestants of that country know.

"That if you place a parliament in Dublin working in harmony with the 'Home Rule' organization it will be a combination which will drive Protestantism to despair."

The Great Educational Distribution by The

TORONTO WORLD

This is purely an educational campaign. To appreciate this great book one need not be a church member or a religious man or woman. It should be available for EVERYONE, and often referred to and read here and there as the most interesting of all books—the book which has governed the development of the world's civilization. No matter how many Bibles you own, you need this one, as its pictures vivify the Bible narrative—giving it a present living interest.

The Only Really Illustrated Bible in the World.

Hitherto the word "illustrated," as applied to a Bible, meant merely a few allegorical "pictures" of Biblical events taken from any source and "conveniently" placed in any part of the book, merely as embellishment inserts, but not directly alongside and explanatory of the verse it intended to typify or make plain; but our publishers, at an outlay of \$50,000, prepared accurate illustrations DESCRIPTIVE of the VERSE which they accompany, and placed directly next to the verse of the scene described—the only place it can be looked for or to illustrate. It is a help to you—making this the FIRST and ONLY complete ILLUSTRATED Bible.

### The Daily Hint From Paris

### A LACE TRIMMED SUIT.

Black cloth is here rendered strikingly effective by being combined with brilliant green satin and cerise lace and chiroloidy. The satin is used for the facings and to cover the buttons. A square medallion of heavy cerise is applied on the front of the coat and around it an embroidered scroll design, done in linen threads, exactly matching the lace in color. The buttons are decorated with stitches made of the thread and are fastened by loops made of the dress material.

### Chills

September weather is hard on babies. Either the days are oppressively warm, or there is a penetrating chill in the atmosphere. It is not so hard to dress the little baby to suit a hot day, because he is in bed before the temperature changes; but children who do not go to bed so early are likely to get a chill if out after sundown. Remember, I am called a crank when it comes to putting youngsters to bed. I believe all children under six should be in bed at six o'clock; and older children very soon after that time. But everybody doesn't agree with me. So for those whose little ones play in the garden until later in the evening, let me warn you to protect their legs and abdomen from the cold. You may not feel the dampness in the evening breeze, but you are not playing in the grass.

### Chills

A child suffering from a sudden chill will be restless and miserable. He will not want to eat, and will probably be constipated. This means that the impurities of the body, instead of being thrown off, are distributed thru the system and poisoning the whole body. Give the child a hot bath and a good rub to stimulate the circulation and increase the activity of the skin-pores. Give him oil to get rid of the intestinal trouble; or those who are only constipated. Put him to bed, and he should be alright in the morning. But don't let him get chilled again.

### Grand Opera at the Alexandra.

The third annual engagement of the Aborn English Grand Opera Company opens tonight at the Alexandra Theatre. The company is made up of the best talent from Toronto and other cities. The first visit to Toronto two years ago, they presented a repertoire of popular classics, three of which—"Carmen," "Trovatore" and "Lucia di Lammermoor"—are to be given again this week. Last season, the company presented a number of new modern works in their repertoire, and the two most successful of these—"The Tales of Hoffman" and "The Merry Go Rounders"—are to be given in their repertoire this season. In addition to these five repetitions, three new operas will be given in their repertoire this season: "Humpstead," "The Merry Go Rounders," and "The Merry Go Rounders," which has never been heard here before. Puccini's "La Boheme" is also in the repertoire, and little, and Wagner's "Lohengrin," which has not been heard in Toronto for many years. "The Tales of Hoffman" opens the series tonight.

## ENTERTAINING THE SHUT-INS

Did you ever hear of the Sunshine Society?

Such an organization exists and its object is to incite its members to the performance of kind and helpful deeds. They also bring the sunshine of happiness to the hearts and homes of "shut-ins" or those who thru some unfortunate circumstances are shut up in the house.

Did you ever notice how the face of a child lights up when you smile at it as you pass on the street? Your smile is a ray of sunshine for the little one, and he or she is likely to have a good day that brings sunshine and happiness to others and usually cost less effort than the gloomy look.

A member of the Sunshine Society recently got several copies of the illustrated Bible which The World offers to its readers. She said she wanted to present them to some little "shut-ins" who would be amused by the beautiful pictures distributed thru the volume.

While thus being amused one also acquires a wealth of Bible lore that will ever be of rare value. For indeed the Bible is an educational work. Abraham Lincoln said that hardly a quotation was used that did not have its origin in this great book of books.

If you want to brighten the path of some poor unfortunate, present him with this magnificent copy of the Bible. It will be a ray of sunshine not soon to be forgotten.

## AT THE THEATRES

### "The Red Rose"

Filled with the youthful laughter of music of the Bohemian student life in the Parisian studios, "The Red Rose," which opens a week's stay at the Princess Theatre tonight, will give to local playgoers another of John C. Fisher's musical comedy treats. This latest successor to "Florodora" proved highly successful during an extended New York run at the Globe Theatre, where the book of the play, by Harry B. and Robert E. Smith, with music by Robert Hood Bowers, achieved considerable vogue. There are several songs of the whistleable type, notably "Come Along, Ma Cherie," "Queen of Vanity" and "The Student's Guide," and the score as a whole is decidedly melodically. Miss Zoe Barnett is at the head of a long cast and her supporting company includes several members well known locally. There are twenty-four musical numbers and the entire organization comprises some sixty-five people.

### "The Siren" Coming to Princess.

A charming Venetian opera, possessing the lure of a modern musical comedy, "The Siren" will be presented at the Princess Theatre by the Grand Opera House company. The opera is a masterpiece of bewitching musical numbers such as seldom ever heard here in a single act. The story is set in a Venetian lagoon, and the plot is a masterpiece of intrigue. ### Free Photo Plays.

The opening performance of photo plays, which will be given weekly in Massey Hall under the management of F. G. Carter, took place Saturday afternoon and night. Mr. Carter is an experienced theatrical man and his entertainment offered Saturday was of an exceptionally high-class nature and in one thing picture theatres. The bill was headed by the well-known singer, Howard Russell, winner of the Earl Grey competition last year, who rendered a number of songs beautifully illustrated in colors. The motion picture was numerous and of a wide variety, including travel scenes, comic pictures and an intensely dramatic one, entitled "A Nation's Honor," in which were illustrated the methods of diplomatic agents to secure secrets of foreign nations and how the love of a woman agent saved a nation and her lover from disgrace. The bill was witnessed by large audiences at that time, and is certain to be equally well attended by a number of clerical men, who commented most favorably on the offering.

### IS NOT RELATED.

Owing to rumors and a general misapprehension, William John Bateman and family, of 45 Wardell street, city, wish to state that John Bateman of Ottawa is in no way whatsoever connected with them by family ties.

### Inspector Hayes Given Dismissal

Found Guilty by Commissioner McKay of Making False Accusations Against Waldo.  
NEW YORK, Sept. 14.—Cornelius G. Hayes, the police inspector who was recently placed on trial for making a statement, alleged to be false, reflecting on Police Commissioner Waldo, was dismissed from the department. First Deputy Commissioner McKay, who presided at the trial, announced his findings shortly after noon.

## HOW I ENLARGED MY BUST SIX INCHES IN THIRTY DAYS

After I had tried Pills, Massage, Wooden Cups, and Various Advertised Preparations without the slightest results.

A Simple, Easy Method which any Lady can use at home and quickly obtain a large and beautiful Bust.

Well do I know the horrors and intense humiliation of being flat-chested; of having the face of a woman set on the form of a man; and I cannot find words to tell you how good I felt and what a terrific load was lifted off my mind when I first saw my bust had really grown six inches in size. I felt like a new being, for with no bust I realized I was really neither a man nor a woman, but just a sort of creature half way between.

FREE COUPON FOR READERS OF THE TORONTO WORLD  
entitling the sender to full information regarding the marvelous discovery for enlarging and beautifying the bust. Cut out this coupon or write enclosing two two-cent stamps for reply to Margarette Merlain (Dept. 1075-C), Pembroke House, Oxford Street, London, W. England.

# Stock Markets Bull But Firm --- B. C. Packers Soaring Again

## FRUIT SESSION AT WEEK-END

### B. C. Packers the Prominent Features in Toronto Stock Exchange --- General List Shows Irregular Tone.

The Toronto Stock Exchange was quiet at the week-end with, however, enough spectacular features shown in the trading to make the session an interesting one. British Columbia Packers, common and preferred, rose to new high records on a continuation of the recent strong demand, presumably from inside interests, which is now taken as an absolute indication of an early increase in the dividend. The common sold at 124 1/2, the preferred "A" series, at 123 1/2, and the "B" at 116 1/2, a like amount.

It is believed here that bids for American gold coin have already been made by your bankers at the Bank of Montreal, and that, when, however, your power bills come forward freely, your power to take gold will be on a par with the rest of the market. Present high rate of Paris exchange on London is 150, which is a high figure attained in some time. Dominion Steel Corporation and Cement common were both very firm, the latter setting up from the previous transaction to 2 1/2.

## RICHIEU UP AGAIN IN MONTREAL

MONTREAL, Sept. 15.—Richieu resumed its upward movement on Saturday, scoring an advance of three points over the high price of the previous day to the accompaniment of heavy trading. The opening was 5 1/2 up at 117 1/2 and the price crossed 118 in the early minutes of the session and advanced steadily to a high 120 at the end of the first hour. The subsequent course of the market was reactionary with the turnover 2300 shares. Last sale was at 118 7/8, leaving a net gain of two points for the day. A report that the directors were working on a plan which, if successfully put through, would be material benefit to the shareholders was current. Apart from that, now that the recent nervousness of the market has passed away, the low price at which it has been selling offers a high percentage return on investment. The stock was unchanged around 120.

## BANK MAY RAISE RATE AGAIN

NEW YORK, Sept. 14.—The Bank of England may advance its discount rate during October, according to latest advice. This is certain in case of large gold exports to New York.

## LOMBARD ST. ON FINANCIAL CONDITIONS

NEW YORK, Sept. 14.—The London correspondent of The New York Evening Post cables the following summary financial conditions:

Altho Lombard street recognizes the probability of your obtaining gold here in substantial amounts before very long, there is much difference of opinion as to when the shipments will actually begin. Your bankers have already sounded our markets as to terms and details for such imports, and any further decline in sterling at New York, even the slight, would certainly set the market going.

## "SOO" EARNINGS

Mr. John G. Beatty, the well-known Toronto broker, resident partner of Erickson Perkins & Co., wired on Saturday from Minneapolis that production of heavy sulphate by the Soo would earn 20 per cent or over this year.

## PROSPERITY INDICATED BY BANK RECORD

A notably uniform improvement over the preceding years is again the most distinctive feature of bank clearings, the total this week at all leading cities in the United States aggregating \$7,700,000, an increase of 4.9 per cent, as compared with the same week last year and of 2.5 per cent, as compared with the corresponding week in 1930.

## RECORD BUSINESS IN WALL STREET

### Prices Yielded Fractionally, But Recovered Again at the Close --- Bank Statement Better Than Expected.

NEW YORK, Sept. 14.—All recent records for business were broken in two hours of today's session on the stock exchange. The opening was fairly steady, but the moderate demand hanging soon was satisfied, prices yielded fractionally, with some recovery at the close. Trading in the first hour was under 35,000 shares, and the total output was only 56,000. One of the few striking features was a sale of 75,000 New York City 4 1/2 per cent bonds at 97 1/2, the recent low quotation.

## BIG GAINS IN EARNINGS OF RAILROADS

Gross earnings of all Canadian railroads reporting to date for the month of August show an increase of 14.4 per cent as compared with the earnings of the same month a year ago. More complete returns from the railroads across the line making weekly reports show that gross earnings for the full month of August make a very satisfactory comparison with a year ago, the total of all United States roads aggregating \$40,248,000, a gain of 10.9 per cent, as compared with the earnings of the same month for the corresponding month last year. Almost without an exception, with the improvement especially marked in the south, west and southwest in the following table are given the gross earnings of all United States railroads reporting to date for the month of August:

## IS FIGHT ON FOR CONTROL OF R. & O.?

MONTREAL, Sept. 14.—There seems to be little doubt that the fight for the control of the Richieu and Ontario is on. Some months ago, shortly after the Furness interests became associated with the local group in control of the navigation property, there was an effort made by the English and western people to obtain control of the merged companies, but this was frustrated by the Montreal interests, and the administration of the property remained in charge of the older group.

## MARKET FACTORS.

James McGann, broker, comments on the financial situation as follows: Trade in the New York cotton market has been checked to a considerable extent. Business with sagging tendency has been the feature, though reports of the sudden tightening in the rate for call money. This has been brought about by the wonderful expansion in business and the extra large strain put upon the banks to finance the enormous crop in all of the leading farm products, which is the most healthy sign that could possibly exist and is always only natural at this time of the year. If policies were not such a prominent factor before the public, a bull market of a broad nature would be existing on account of the expansion and growing future of business from one end to the other of the United States.

## European Carpets and Rugs

that rival the Oriental for design and color. As a result of a particularly advantageous purchase from some of our European manufacturers, who, when stocks are heavy, are always willing to make special terms to clear. We secured an important consignment of very choice high-class rugs, which we are now offering at prices much below the regular. These rugs are all woven entirely in one piece; there are several different qualities, and a big choice of designs and colors.

Oriental, self-color effects, quite plain centres with darker tone border, in tans, greens and rose shades. Rugs for drawing-rooms, dining-rooms, dens and bedrooms.
