# CZAR DENIES DEPUTATION PATIENCE MAY STRAIN TO FINAL BREAK

Nicholas Commands That Address in Reply to Speech From Throne Be Presented Thru Court Ministry - Indignation Intense.

St. Petersburg, May 20.-A bomb was thrown into the parliamentary camp this afternoon by a note received by Fresident Mouromtseff of the lower house from Peterhof, which, instead of making an appointment for an audience at which he and the deputation the speech from the throne, contained the information that the emperor G. T. P. Have First Claim could present thre address in reply to would not receive the deputation, and that the address must be presented thru the ministry of the court.

Disconcerted utterly at this unexpected development, the leaders of the majority in the house hastily summoned a caucus of the Constitutional Democratic deputies. President Mouromt-seff, instead of sending the address to Baron Fredericks, minister of the imferial house, immediately issued a call for a meeting of parliament at 11 o'clock to-morrow, at which he will re-port the occurrence and ask for fur-ther instructions. A most heated meet-

ing is in prospect.

Tre first disposition of the caucus leage and an open affront, which was only answerable by a counter declaration of war. The deputies were red with rage, but after the first passion had cooled, the leaders realized the danger of too precipitate action and set for themselves the task of bringing their enraged followers under control.

caucus, but then the glass doors of the great hall of the Constitutional Club, caucus, but they the glass foors of the great hall of the Constitutional Club, where the session was held, it could be seen that Prof. Milukoff, Prince Peter Dolgoroukoff, vice-president of the lower house; Prince Ivoff, Prof. Karieleff and others were on their feet time and again pleading with and commanding their auditors to ct deliberately and firmly and not ruin all by unreasoning passion. The cooler coursels seemed ultimately to prevail, by unreasoning passion. The cooler counsels seemed ultimately to prevail, but it is almost certain that the Radiford group, accompanied by a portion of the peasants, will break away to merrow and endeavor to force the house into some fiery declaration against the emperor and the government, which will compel an immediate ment, which will compel an immediate mining rights underlying the surface many years chairman of the Baptist Foreign Missionary Society. His first charge was at Gobles, 10 miles from Woodstock, from which he removed to accept a call to what was subsequently College-street Baptist Church, where he labored for more than 15 years.

An interesting constitutional point is involved in the refusal of a personal audience by the emperor. According to the parliamentary law, "the president submits to the consideration of the emperor the transactions of the lower house," but it is not stated whether he does so personally and a deputation is does so personally, and a deputation is terior. now here authorized.

A Way Out of It. of the house in appointing a delegation to accompany him was regarded as a dangerous precedent, capable of being stretched to include a deputation of any size—even the whole of the mempership of the house. This minister inbership of the house. This minister in-timated that if the leaders of the house the agreement embodied in the Nadesired to avoid a rupture they could do so either by accepting the instructions to present the address thru the ministry of the court as a proper and fustifiable matter of routine, or could, by keeping within the limits of constitutional provision, direct the president of the house to apply alone for an audience. It was pointed out that no distinction had been made between the distinction had been made between the mining rights to be granted to them lower house and the council of the empire, and that the last-named body had in that behalf. also been instructed to present its address thru the same channel.

Kinleydale won the first race all the way in a gallop, with Smith sitting still on him. The race for the place was between Cicely and Chippewa, the pair making the early pace with Kinleydale, the first-named breaking first, with Chippewa and Peter Sterling sticking close. Cloten was in the second bunch, but shot thru from the turn home, and under a drive beat Sterling in the last eighth. Chippewa fell back at the turn home. The leaders were able to hold Kinleydale only to the first turn.

In the second race the youngsters

Court Martial began to pull away, followed by Haruko and Slaughter. Going up past the half, Court Martial showed signs of fatigue and the others began to crawl up on him. At the three-quarter pole Treubel let Slaughter have his head, and before the vast throng knew, Slaughter was in the lead, haying passed Court Martial like a flash. Court Martial hung on gamely, but was evidently tired, owing to his fast work in the early part of the journey, and Slaughter won easily by 5 lengths with Court Martial second, four lengths ahead of Haruko. Wicklight was out of the money.

An Alams Desk says plainly to the world: "The man who owns me is a man of excellent judgment; he has good taste; he has brains; he's prosperous - and he's going to be more prosperous"

He who courts success in business must consider well the appearance of his surroundings. A poorly furnished office is a sure "give away" to everyone that enters it. If

you are doing a poor business, don't let the world know it, have some of our nice office furniture in and see how quickly things will brighten up all around.

# THE BROOKLYN HANDIGAI RUN TO-DAY AT GRAVESEND

Popular Choice Between Merry Lark and Dandelion-Accountant Won Withers.

New. York, May 20.-The racing has to do is to select a fancy scene shifts to-morrow from the Belmont track to the ever-popular Graves name and advertise his old end. for to-morrow is Brooklyn Handi- product as equal to "Semi-Coney Island, for no matter the size ready." This is the kind of or quality of the entry list, the Brook- fraud that hurts -it hurts the test. This year it is an open event, for customer most, and sends him many of the greatest of the racers, in-cluding Sysonby and Artful, have been declared out, and of the 18 that remain method of buying clothes from there is little to choose among at least the cloth roll. In this way it

favored in the winter books and Merry Lark, Dandelion and one or two others will have to carry the money of those that wish to hedge, as well as that of thousands who will do their first betting after they reach the track

106 pounds up. Dandelion was beaten only a neck by the better seasoned Grapple in the Metropolitan at Belmont Park, and a day or two later captured an overnight handleap at 1 1-16 miles in 1-46 3-5, carrying 119

pounds.

The distance is believed to be too far for Roseben, who, however, in his last two races, has come back to form. He morrow, which may make considerable difference for Poseben has always been handleanned with heavy burdens.

Go Retween, a Shields and Adbell have all in times past proved their right to consideration, and it is not cutside the limit of consistency that any one of them will be in the money when the wire is crossed.

thousands who will do their first betting after they reach the track.

The Brooklyn should be run under favorable conditions, as the weather promises fair and the track is fast. The stake is \$20,000, and among those who will face the starter are two former Brooklyn winners, the Picket, who captured the great stake two years ago from such horses as Irish Lad and Hermis, and Delhi, who finished in front of a good field in 1905. But neither of these thorobreds is looked upon with much general favor for this running, altho Delhi is reported to have worked several fast miles within a week or two.

# DENOUNCES CANADIAN BUSINESS METHODS IN TORNADU OF ABUSE

Toronto Globe's Frenzied Article on Critical Situation of "Commercial Integrity and National Honor."

It is called The Toronto Globe. It occupies a pinnacle of virtue, to which not even the most sacrosanct pulpiteer could aspire. Whenever it deigns to notice The World it mournfully conveys the impression that it is really waging warfare against the flesh and the devil.

Before its matutinal exhibition of sublimated ethics, it becometh average mortals to preserve a deferential silence. When it points the finger of reproof at frailty, the guilty sinner trembles lest a worse thing befall him. When it praises peer or premier, a grateful psalm of thanksgiving arises from the fortunate recipient of its benison. Events do not happen until they have been announced to the nation thru the channels of its grace. In devotion to its ideal it occasionally chastens those whom it loves. It yearns for the uplifting of the nation—as becomes the keeper of the national conscience. It can be severe. It can denounce evil with really Satanic vigor. It is a schoolmaster to bring men to the higher life in business and politics. Its words are sharper than a two-edged sword.

Just at present it cannot bear the sight of so much that is disagreeable at Ottawa. It would fain preserve the vision of the common people from too much dwelling on'the excrescences of politics. It invites them to consider other things. It would fain be a minister of retribution. Having exhausted the charity which suffereth long and is kind it is passionately longing to put somebody or other in jail. Rachel weeping for her children and refusing to be comforted was not a more pathetic figure than this national organ, pouring from its pipes floods of tears over the degeneracy of a nation which was

by somebody.
Yes, indeed; and if The Globe would do it—it has the ear and what is left of the conscience of the government—nobody would cavil. With a humility that nearly amounts to reverence, The World would venture to suggest the first step it might take towards securing a national house-cleaning. The suggestion is not that it should read its own articles denouncing The World for asking for investigation into branches of commerce which had placed them-selves under suspicion. The Globe's contribution towards laying bare the evils which now stagger it into a veritable saturnalia of denunciation, was unmeasured condemnation of those who asked for truth and daylight. Its hue and cry for baskets full of dishonored heads is so hysterical as to indicate that it will shortly find it prudent to certify as to its own sanity. Still, repentance may be sincere; the hysterical. The penitent often distinguishes himself by the violence with which he hates the things that once he loved.

The World's suggestion to The Globe is of that simple sort which one who has grown grey in the service of the people might be expected to give to a beginner in that field. General railing at wrongdoing is the mark of the Canada is never sufficiently thankful that among her possessions is a national engine of righteousness—a "party paper, but not a party organ."

It is called The Toronto Globe. It occupies a pinnacle of virtue to which not will so far unbend as to accept advice from an older band in the fight for the square deal it will go thru its article, and provide for each reference to fraud and dishonesty a specific offence, committed by specific companies or specific hightoned gentlemen of finance, and give the names to the public and to the minister of justice, who is the attorney-general for Canada, and then, write an article every day dealing with the abuse it wishes to see corrected-not avoiding the abuse by writing of it in general terms, which bark at a whole community and bite nobody.

The Globe writes as the it knows a good deal about frauds, barefaced

dishonesty, deliberate trickery, and goodness only knows how many other diseases of the body politic. If it will only embark on a real campaign against the men about whom it writes with so much intimacy, it will get unto itself a great name. It will take its constituency quite a while to become used to the change. But the public will catch on eventually; and there will be such a rejoicing over the one sinner who repents, as to make the ninety and nine just persons sorry that they never experienced a change of heart.

City Amateur League Games.

A fair crowd was on hand to see the City Amateur League games at Stanley Park on Saturday afternoon. The games proved to be very one-sided, the Wellingtons and St. Marys outclassing their opponents. The pitching of Clements and the hitting of Ross, Hickey, Benson and Bardgetts' home run were the features of the first. Read for the Saints pitched good ball in the second, while his team mates hit hard and timely. Three fast double plays and

# RALLY IN WALL ST. STOCKS FOLLOWED BY DULNESS

And a Lowering of Prices-Toronto Market Shows Its Dependence on New York.

World Office. Saturday, Evening, May 19. The necessity of lowering prices has been plainly evident on the face of the New York market since the extent of the rally

was reached early the beginning or last week. The manipulators extended themselves too far in the bull direction and left themselves in an untenable position, from which they have been trying since to extri-

The opinion of the New York financial situation in London bears out what is believed in the most conservative circles on this side, viz., that large loans have again been made against the crop and commercial credit balances late on in the year. One authority estimates that these temporary loans amount to upwards of \$400,000.

OOO. A similar situation existed in 1902 and liquidation of the foreign loans then forced payment by way of the stock market. By the recent sale of the \$50,000,000 Pennsylvania Railroad notes another addition has been made to these foreign obligations. With credit so extended it is evident that the market is living up to the limit of its prospects and if these are endingited in the case is unfortunate. On ligations when construction is undertaken on borrowed capital, and this is therefore always an ominous proceeding with the stock market.

We hope have already bean built upon.

The opening for a manipulative move-

mony with the trend of grain prices at the Chicago market. The May government crop report sustained the Wall-street position, but did not stake the Chicago information, which appears to have been verified and supplemented by positive news of damage to wheat in Kansas and other states. In that Wall-street is counting on the incoming crop to redeem the extravagance of that market, it requires no deduction to prove that any shortcoming in this matter will require a modification in the value of securities to meet it. Wall-street is keenly alive to the position, and altho the reaction has not been imputed to crop news, the two are closely enough allied to lead one to believe that cognizance is already being taken of the subject.

Enquiries into the Standard Oil methods

Enquiries into the Standard Oil methods of doing business, together with the rate investigation, has revealed an opening for stringent legislation. A strong public sentiment is being built up against corporations. Politicians, however, much as they dislike to curb these dominant interests, must at least make pretence to that end. The close proximity of the congressional elections will force these questions more to the front, and the agitation canno be in the welfare of stock prices. Operating expenses are keyed up to the highest notch owing to the combined labor organizations, and therefore reduced earning power, whether by way of legislation or failing traffic, will make a direct impress on net earnings and imperil some dividends now paid. Of the rallroads, Missouri Pacific has already begun to discount this appearance of coming trouble and others may have to follow.

Certainly borrowing heavily on the future.

Even the notes bearing a high rate of interest had to be canvassed thru the different European financial saturation. The idea of new securities by this road is another evidence of the method by which properties are being overburdened with capitalization. The idea of adding to capital out of earnings has no place in Wall-street. The Pennsylvania territory is old enough to have been worked to almost its limit for profitable business, yet a continuous stream of new issues has been made by this road during the last four years.

On Wall Street. Marshall, Spader & Co. wired J. G. Beaty, King Edward Hotel, at the close of the market to-day:

To-day's market was devoid of special interest, and except for some strength in B, & O. the list was generally under pressure.

There were no influences announced of importance, and considerations of the bank statement were mainly favorable, tho some loss in surplus reserve is expected.

The action of Pennsylvania and discussions regarding its new loans were rather more favorable, and some steadiness was shown with these shares.

egular tone.
Ennis & Stoppani wired to J. L. Mitcheil, lcKinnon Building:
The market was dull this morning, with McKinnon Building:

The market was dull this morning, with here and there a pretence of activity in different stocks, but in general the movement in prices was heavy. Distillers was strong, advancing about three points on the argument that the passing of the rate bill would lead to a speedy hearing in reference to the free alcohol bill. B. & O. was strong in the early trading on the continuation of good earnings and a technical short interest. The bank statement was not up to expectations, but this was probably a result of the Pennsylvania fotation of its notes. The announcement that the railway rate bill was passed by the senate must be regarded as favorable, and while it is not altogether satisfactory if has now been eliminated from further consideration and congress is in a position where it can take up appropriation bills and other matters. The foreign situation is gradually improving, money is easy in all the foreign markets, further imports of gold in settlement of California fire insurance losses may be expected, both time and call money at home is easy and business conditions are sound. The market is of a professional character, however, and we advise a trading position, favoring purchases only on weak spots and leaving specialties alone for the time being.

cate themselves. Reliance was placed upon the imports of gold to bring about a purchasing following, and to effect another change in outside sentiment. It is again the outcry from Wall-street that the evernecessary public is holding aloof. This leaves the market practically to the insider and the floor broker, with the chances favoring the latter with prices as they are, beyond any possible assistance from investors.

The raily which was carried on for a little over a week had no great breadth and about three speculative issues was all that concerned the trade.

UNLISTED SEGURITIES, LIMITED "Because I will find a great deal of comfort during my lonely hours, playing and singing the tunes I am used to at home," is the explanation one of the immigrants have as his reason for bringing his violin with him to Canada. Another one had a banjo, which he was able to manipulate in a skilful manner, and the two instruments assisted materially in leading the singing at the religious service yesterday afternoon at the immigration office, and encouraged everyone to enter heartily in the service. A 200,000 gallon reservoir for water supply has just been completed, and water is being pumped from the San David shaft to this reservoir at the present time.

On account of insufficient water supply, the plant has not been able to run more than eight hours per day, but with this system completed and a large 30 foot tank with a 12 foot cooler installed, the plant will be in a position to operate without

WEI-HAI-WEI TO BE HELD. Great Britain Will Retain Port at Request of Japan. London, May 19 .- Rumors that Great

Britain would soon evacuate Weihaiwei are now definitely denied. Such a step is now impossible, Japan having expressed a desire that Great Britain hold that port in the interest of her ally.

It was said to-day at the foreign office that any idea which Great Britain may have had of returning Welhaiwei to China has been dissipated. BARS THEOLOGICAL STUDENTS.

Mount Vernon, Ohio, May 20 .- President Pierce, of Kenyon College, today announced a gift from Andrew Carnegle of \$25,000 for the aid of stu-
