Canada to King Edward Makes Appeals for Congo

Mission Boards of U.S. and Dominion Join in Petition to His Majesty and to President Roosevelt for Interference and Reform.

Philadelphia, Pa., Jan. 13.—At a meeting of the conference of the foreign mission boards of the United States and Canada held in this city on Saturday it was unanimously agreed to forward to President Roosevelt, the United States senate and King Edward, an appeal on behalf of the stricken people of the Congo State. The appeal follows:

To the president and senate of the United States and to His Majesty, King Edward the Seventh:

"The conference of the foreign mission boards of the United States and the Dominion of Canada would most respectfully and earnestly bring to you an appeal on behalf of the stricken people of the Congo State. We do this in the name of forty missionary organizations, whose work is prosecuted in all sections of the world, and we are persuaded that the petition interprets faithfully the sentiment of twenty millions of Christian men and women. We are not forgetful that recognition has been given by both governments to the Congo State, and it is a source of great satisfaction to us that our governments are united in leadership in a work so closely affecting international honor. But we are reminded by the recurrence of our annual meetings that weeks and months are passing by while the heavy burden of wrong continues to rest with crushing weight upon the Congo people, and we regret that the first definite step toward just international action has not yet been taken.

Competent Testimony.
We speak with deep conviction concerning this issue, because we are intimately associated with many of the conditions to which we refer have been disclosed, and we recognize with profound regret that the first definite step toward just international action has not yet been taken.

LABOR SCARCITY WON'T STAND FOR IT

If More Contracts Are Let for Western Sections, Necessary Connections Can't Be Completed in Time Desired.

Montreal, Jan. 13.—(Special.)—There is a great deal of interesting comment amongst contractors and railway men as to the probable effect of the scarcity of labor which will hamper the construction of heavy undertakings like the Grand Trunk Pacific and other enterprises of greater or less proportions.

HAMILTON HAPPENINGS
GREATER EVIL THAN DRINK
PASTOR SCORES DRUG HABIT

Cures Advocated by Rev. Dr. Lyle
—Arrangements for Release of
Greek Storekeeper Completed.

Hamilton, Jan. 12.—(Special).—Rev. Dr. Lyle, pastor of the Old Central Church, preached this evening on the subject of "A Great Evil at Work in This City—The Drug Habit." He declared that the wine habit was not growing, but was diminishing. The drug habit, on the other hand, was growing by leaps and bounds. The question for the reformer was not whether there was to be one or fifty saloons. A large number of children were born into the world, who, left to their own devices, would take to drugs or wine. Some of the cures he advocated were good, comfortable homes, with good women to manage them, and more play and grounds for the children.

Reasonable All Round.
"The liquor business is damnable; the men who conduct it are damnable; and the people who stand by and allow this damnable business are damnable," said Rev. R. J. Treleven, pastor of the First Methodist Church, during the course of an address at a temperance meeting in Association Hall this evening.

Theft of Turkeys.
Douglas McLean was arrested Saturday on the charge of stealing some turkeys and several pairs of boots from Mrs. Lyle.

Chief Ten Eyck, who was overcome at the Taylor & Mulvey fire, was able to be taken home to-day.
It is claimed that the Conservative and Liberal members have practically agreed to stick by the following slate: Chairman of finance, Aid. Dickson; board of works, Aid. Sweeney; fire and water, Aid. Clark; sewers, Aid. Baird; markets, Aid. Nicholson. The labor and board of trade adherents say they were not looking for anything in the way of honors themselves, and they think the Liberals were foolish to agree to the arrangement. The inaugural meeting of the council will be held Monday morning at 11 o'clock.

The Dead.
J. Milne, 326 South Caroline-street, father of J. G. Milne of the Traders' Bank, died to-day in his 70th year. Annie, the 7-year-old daughter of Alex. Thomas, 161 Young-street, died to-day of scarlet fever. Mrs. George Pease, 191 West Hunter-street, died to-day in her 78th year.

GARMENT WORKERS' STRIKE
Allan Studholme, M.L.A., addresses Sunday Afternoon Mass Meeting.

The striking garment workers of the Lowndes Clothing Company held a mass meeting yesterday afternoon at the McCaul-street Synagogue Hall. The place was comfortably filled. Among the speakers were Allan Studholme, M.L.A. of Hamilton; Louis Grotzky, S. L. Landers, the organizer; J. Abrams and L. Saunders. Three of the speakers spoke in Yiddish. Philip Lesser acted as chairman.

Mr. Studholme said, without knowing the details of the strike, he knew they would have had a just cause or they would not have gone out, since men and women do not suffer privations for the fun of the suffering. He advised them to stay out until they succeeded and to trust their leaders.

The organizer addressed the meeting in both languages, saying the union still held a few trump cards which it had not played in the Lowndes strike, and which would be played in the near future if a settlement was not reached. The chairman closed the meeting by announcing another concert and dance on behalf of the strikers at the Labor Temple on Thursday evening, Jan. 24.

Will Give a Cantata.
At its quarterly meeting, Saturday evening, the Toronto Sunday School Association decided to hold a cantata at Massey Hall, during the early part of May. Prof. Fletcher of the People's Choral Union, has agreed to take charge of the chorus, which will comprise 500 voices. W. E. Groves presided.

PRESIDENT URGES ACTION TO PROTECT WATER USERS

Suggests that Government Acquire Rights of Development Co. in U.S. and Mexico.

Washington, Jan. 12.—The president to-day sent to congress a message urging action by congress toward remedying the situation caused by the break in the Colorado River, four miles below the international boundary line in Mexico, and which threatens the property interests in the imperial valley of California.

The president's plan is that the United States should acquire the rights of the California Development Company and its subsidiary corporations in the United States and Mexico upon such reasonable terms as shall protect the interests of the government and water users. The United States should obtain by convention, permitting of the right to carry water thru that country upon reasonable conditions.

The California Development Company, the president says, made representations to possible settlers of the great benefits to be derived by taking up this land. The claims were not only extravagant, he says, but in many cases it appears that willful misrepresentation was made. The money thus obtained from settlers was not used in permanent development.

The president continues: "The money apparently disappeared either in profits to the principal promoters or in the numerous subsidiary companies which, in the name of the development company, or served to obscure its operations—such as a construction company, a company to promote settlement, and a company to handle securities of the various other corporations."

204 SIGN THE PLEDGE.
Mrs. Owen Hitchcock, Passively Eloquent at Sunday's Meeting.

Yesterday was the banner pledge signing day for this season in the Massey Hall Sunday meetings of the Canadian Temperance League. The signing rolls. The speaker was Mrs. Owen Hitchcock. Her sixteen years' experience in platform work in Canada and the United States was shown to good advantage.

Temperance people were to be congratulated, she said, for their part in the local option fight, but forces must be united and insist on an amendment to the Liquor License Act. The signing bylaw being carried by a straight majority vote.

During the week the league will hold a series of meetings in different parts of the city, addressed by Rev. John E. Farrow of New York. Illustrated with stereopticon views, the singing to-night will be in the Yonge-street Methodist Church, and the subject, "The Story That Transformed the World."

OWEN SOUND: A TRIBUTE.
John Scully's Impressions of Northern Town After Long Absence.

John Scully of Toronto visited Owen Sound on New Year's Day for the first time in 25 years and spent the following week in viewing the place in connection with his brother, Michael Scully, who has resided in that community for over 40 years.

Mr. Scully expresses amazement at the transformation of the scene since he last viewed it. He was particularly struck with the fleet of ships in the harbor, numbering some 400, including three C.P.R. steamships, which ply between Owen Sound and Fort William, the "Roseate," "Algonquin" and the "W. D. Matthews," a vessel of 200,000 bushels capacity.

The visible growth and prosperity of the town itself were manifested in large number of new first-class dwellings recently erected (all occupied), built of solid brick, stone or cement. Four beautiful churches, marking a public square, and built of native stone, gave evidence of a valuable resource in the local quarries.

Mr. Scully was delighted to meet the pioneer priest of Grey County, Father Grathollet, who during his mission of over 40 years has been the means of erecting churches and schools at Meaford, Chatsworth, Irish Block, Brook and other places in the neighborhood of Owen Sound. A magnificent Catholic church standing out prominently on the hill which crowns the town, likewise the rectory, large separate school and sisters' residence, stands as monuments to the Rev. Father's zeal.

The streets and roadways appeared to be in perfect condition. All warehouses and stores were "going" concerns. The town is well supplied with banks, namely, the Bank of Hamilton, the Merchants', the Traders' and Molsons, all doing good business.

Mr. Scully considers that Owen Sound would be the most delightful place to spend the summer months. With the C.P.R. and the harbor, the prospect of a connection from Meaford by the proposed G.T.R. extension in the near future, and the harbor, Mr. Scully says Owen Sound's future is beyond conjecture. There is also being negotiated an electric railway place to spend the summer months. A magnificent Catholic church standing out prominently on the hill which crowns the town, likewise the rectory, large separate school and sisters' residence, stands as monuments to the Rev. Father's zeal.

The streets and roadways appeared to be in perfect condition. All warehouses and stores were "going" concerns. The town is well supplied with banks, namely, the Bank of Hamilton, the Merchants', the Traders' and Molsons, all doing good business.

Mr. Scully considers that Owen Sound would be the most delightful place to spend the summer months. With the C.P.R. and the harbor, the prospect of a connection from Meaford by the proposed G.T.R. extension in the near future, and the harbor, Mr. Scully says Owen Sound's future is beyond conjecture. There is also being negotiated an electric railway place to spend the summer months.

PROPOSES A NEW CANON FOR ELECTION OF BISHOP

Will Prevent Repetition of Uncertainty Surrounding Legality of Bishop Carmichael's Succession.

Montreal, Jan. 12.—(Special).—Dr. L. H. Davidson of this city has given notice that at the approaching meeting of the Anglican Synod of Montreal, he will ask that canon No. 11, "for the election of a coadjutor bishop," be repealed and be replaced by a new canon, the chief provisions of which are:

(1) That a coadjutor bishop of the diocese may be elected at any session of the synod upon the request of the bishop, assented to by said synod by resolution adopted by the majority of members of said synod present at said session; and

(2) That the coadjutor bishop so elected shall, without any further election or formality, become the lord bishop of the diocese immediately upon the death or resignation of bishop.

Another clause provides: "In case of the absence of the bishop or his incapacity thru illness or other cause, the coadjutor bishop shall exercise the full power of the bishop of the diocese, as well in temporal as in spiritual matters."

It is said that the adoption of this canon will prevent a repetition in the future of the uncertainty which at present surrounds the legality of Bishop Carmichael's succession to the see.

Doctors Admit

That They Can Do Nothing More For Your Stomach Than Stuart's Dyspepsia Tablets are Doing Every Day.

COST NOTHING TO TRY.
According to the expert analysis of government authorities in the United States and Great Britain, Stuart's Dyspepsia Tablets contain the exact elements provided by nature for digesting food in the human stomach. More relief than countless treatments by physicians would bring about at \$3 per visit.

Perhaps you are afflicted with dyspepsia—or some kindred disease arising from a disordered digestion. It may be headaches, heartburn, palpitation, liver trouble, insomnia, nervous debility. They all have their beginning in a stomach which does not secrete the juices or grind the food which is taken into it.

If so, we urge you to send for a free trial package of Stuart's Dyspepsia Tablets. It will cost you nothing and surely will bring us no gain unless you find, after using it, that you are benefited and feel that you need a full-sized package.

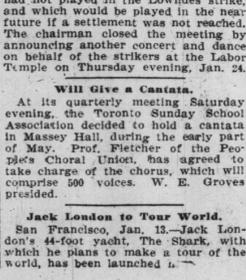

There is absolutely no danger in using Stuart's Dyspepsia Tablets. Nothing is contained in them that has not been subjected to the closest scrutiny by the government officials.

Stuart's Dyspepsia Tablets will digest your food without demanding a careful diet. One grain of these tablets has power to digest 3000 grains of ordinary food. You can be sure, therefore, that no matter what your condition these little tablets taken after each meal will shortly restore your stomach to its normal condition and render it capable of doing its work unassisted.

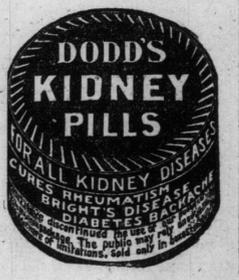

We withhold the names of hundreds who have written us voluntarily expressing their gratitude to this simple substitute for nature.

Send for trial package to-day. F. A. Stuart Company, 70 Stuart Building, Marshall, Mich.

WEATHER-MAKING SCIENCE UPPER AIR HOLDS SECRETS

Prof. Rotch Describes to Toronto Audience the Modern Work of the Meteorologist.

It is seldom the Toronto public have the opportunity of hearing a lecture so singularly interesting and instructive as that delivered under the auspices of the Canadian Institute for the study of the medical building of the university on Saturday evening by Prof. A. C. Rotch of Blue Hill Observatory, Massachusetts.

The annual meeting of the Canadian Rugby Football Union was held Saturday at the King Edward Hotel, with the following delegates present: Bob Shillington, Ontario; Dr. A. B. White, Ontario; Dr. W. H. Hendry, Ontario; George Barlow, Hamilton; and J. B. Hay and J. B. Carter, Toronto.

The following officers were elected: R. Shillington, president; Dr. W. B. Hendry, vice-president; Dr. A. B. White, secretary-treasurer; D. L. McKean, secretary.

PASTOR REARMS "EDITORIAL" SOLVING THE CITY'S PROBLEM

Rev. J. E. Starr Would Give Board of Commissioners Task of Carrying Out Improvements.

A distinct innovation for the pulpit was entered upon by Rev. J. E. Starr in Berkeley-street Methodist Church Sunday morning.

Mr. Starr said the city suffered chiefly from lack of civism, or public spirit, and because of this, the disposition to be less than a government alone.

From this viewpoint opens up an opportunity to the new trustees to render inestimable service, declared the speaker, who continued:

At the age of 75 years, Donald Milloy, one of the first lessees of that portion of the Toronto wharf and dock known as Milloy's Wharf, passed away at Paris on Saturday.

Donald Milloy was more popularly known in Toronto as the "Captain" on account of his early and long experience, first as purser and later as captain, of the steamships.

It was but a short time after the death of the late Captain Donald Milloy when the late Mrs. M. O'Brien, widow of the late William O'Brien, died.

The death occurred somewhat suddenly on Saturday afternoon of Samuel Oakley, foreman stonemason for the Holmes Contracting Co.

There are 265 separate exhibits and more than 150 cars.

UNCLE SAMUEL'S PROSPERITY

Industrial Activity During Past Year Shown by Official Figures.

Washington, Jan. 13.—That the year just brought to a close was a banner one in the history of the United States industrial activity, far outdistancing any previous record, is the deduction of statistical experts of the bureau of statistics of the department of commerce and labor.

The value of manufactured raw materials imported in the eleven months of the past year was \$422,000,000, against \$370,000,000 in the corresponding months of 1905, and the value of manufactures for further use in manufacturing was \$228,000,000, against \$190,000,000 in the same months of the preceding year.

The total value of manufactures exported in the eleven months of the year just closed was: Of manufactures for further use in manufacturing, \$29,000,000, against \$31,000,000 in a like period in the preceding year, and of manufactures ready for consumption, \$488,000,000, against \$391,000,000 in the corresponding period of 1905, indicating that the total value of manufactures of all kinds exported during the year will exceed \$700,000,000.

Five Killed. El Paso, Tex., Jan. 13.—Running at high speed, a Chicago, Rock Island & Pacific passenger train, bound for Chicago, dished into an open switch at Barney, N.M., early today. Five persons were killed and eight injured, none fatally.

Revolution Over. San Salvador, Jan. 13.—A despatch received here from Honduras says that President Zalaya of Nicaragua has intimated that the Honduran revolutionaries are "chugging" over the hills, and that the revolution is therefore at an end.

SPANISH CABINET WEAKENING

Efforts to Conciliate Fall—Anti-Clerical Demonstrations.

Madrid, Jan. 13.—Indications are that the ministry will not last out the week as the efforts for conciliation by the moderate and advanced sections of the Liberals have been unsuccessful.

The principal point at issue is the proposed anti-clerical associations law, which is expressed as the condition of the Liberals, who have a strong majority in the chamber, will be able to form a new cabinet.

It is understood that the Canadian high commissioner, when approached in London, has declared that they must have boats equal to the very best on the New York route, and also he had no money to throw away, he had so much faith in the enterprise that he would become interested personally to the extent of half a million dollars.

Do you think the matter will be brought before parliament this session? "I think it will, the eastern members are all for it, and all in fact realize that the time has come to act and act with energy and patriotism in the matter."

YANKEE POACHERS FINED. Three of Them Caught on Canadian Side of Niagara River.

Niagara-on-the-Lake, Jan. 12.—Three American fishermen, named Scott, Liger and Seely, hailing from Lewiston, N. Y., were arrested this afternoon by Chief of Police Reid, and Ontario Policeman Taylor, for poaching on the Canadian side of the Niagara River.

A PARLIAMENT THAT MAKES LAWS AND DOES NOT ENFORCE THEM.

The World this morning reproduces in full the official record of the debate of the house of commons on Thursday night last, dealing with the subject of the enforcement of our federal laws. The World believes that it is one of the most significant debates that have occurred in the house since the inauguration of the Dominion. The sum and substance of it is that those who have been making laws at Ottawa for nearly forty years, dealing with the railways, with the conduct of elections, the tariff and all the other subjects assigned to the Dominion, the confession was made by the prime minister, Sir Wilfrid Laurier, and endorsed by the minister of justice, Hon. A. B. Aylesworth, that neither the government nor the Liberal party now in power considered that the enforcement of any law passed by parliament in regard to the above subjects rested with them and with the federal law officers, but that they looked to the attorneys-general of the provinces for the enforcement of these laws. In a word, this means that if there have been gross irregularities in connection with insurance in this country, and we know now that there have been; if there have been frauds in connection with elections that bring the blush of shame to every Canadian, and the revelations in the Toronto police court as to London are proof of this; if combines have been formed against the interests of the public and in restraint of trade, whether in connection with the tariff or any other department of trade, and we know that many such combines have been exposed; if the railways and the telephone companies have violated the law as against the interests of the people, and we know that they have done so in countless cases—we have the confession of the prime minister and the minister of justice, that notwithstanding all these exposures it does not fall upon their shoulders to institute proceedings against any of the offenders. All that is required of them, so they say, is to make another law and a more stringent law, and—as to its enforcement look to the attorneys-general of the provinces.

The member for South York was able to point out that in all recent legislation dealing with the tariff or any other department of trade, and we know that many such combines have been exposed; if the railways and the telephone companies have violated the law as against the interests of the people, and we know that they have done so in countless cases—we have the confession of the prime minister and the minister of justice, that notwithstanding all these exposures it does not fall upon their shoulders to institute proceedings against any of the offenders. All that is required of them, so they say, is to make another law and a more stringent law, and—as to its enforcement look to the attorneys-general of the provinces.

Mr. Maclean also referred to the special case of the Grand Trunk Railway, which was incorporated in 1852, given a great franchise and had had the interest on \$3000 per mile guaranteed by Canada; but notwithstanding this great franchise and the payment of its great subsidy, they have failed to obey one of the main provisions of the charter, namely, the one giving the

people a penny-a-mile passenger service. When the member for South York asked Sir Wilfrid Laurier if he intended to enforce that law, his only reply, and he was joined in the same statement by the minister of customs (Hon. Mr. Paterson), was to the effect that Mr. Maclean should go to the attorney-general of Ontario, and to Hon. Mr. Whitney, for the enforcement of the law—and his government washed their hands of it. The member for South York pointed out that we have at Ottawa a special department of railways, in charge of a minister, who has a big staff of aides at his disposal, who has a law department and who was specially charged with the administration of railway laws in this country, and that the country looked to him and to the government for their rights.

The World therefore directs the attention of the people of Canada to this debate, and to the facts above set out, and especially does it ask Hon. Mr. Whitney, prime minister of Ontario, and Hon. J. T. Foy, attorney-general of Ontario, to read the references made to them in this debate by Sir Wilfrid Laurier, by Hon. A. B. Aylesworth, minister of justice, and by Hon. William Paterson, minister of customs. The people of Canada, and especially the people of Ontario, will be proud of Mr. Whitney and of Mr. Foy, if they have the courage to take up the gauntlet thrown in front of them by these federal officers at Ottawa last Thursday night, and enter proceedings against a great railway corporation that sets at defiance the laws of this country, and especially the rights of Canadians, as set out in its original charter.

THE NEW LIGHT IN THE SKY.

It is the duty of the legislature of Ontario, irrespective of all party considerations, to keep up with the best and most intelligent thought and the latest discoveries in regard to the utilization of our great public resources, so that they may be devoted in the widest way to the comfort, happiness and advancement of the people. In these well-chosen words did Hon. J. W. St. John, Speaker of the Ontario legislature, outline, at Weston, on Saturday evening, the legislature's duty toward public ownership, the regulation of corporations, the protection of public rights, and the preservation of national resources for the use of the people, to whom by right they belonged. And anyone in public life these days, whether minister, member or civil servant, will have to march pretty close up to this program after the significant vote of municipal action day on the Beck power policy. These questions and this keynote of the Speaker's as to the attitude toward them will never grow less, but steadily more impressive.

A GREAT NOVA SCOTIA.

Among the inevitable but regrettable consequences of the vast national developments which mark the modern age is the increasing tendency to draw material for present and future guidance from the experiences of the greater rather than the lesser states and communities. This is especially the case for the period which is of particular importance to the inheritors of British laws, customs and traditions. Yet nothing is more certain than that lessons of extraordinary value and importance can be gleaned from the internal crises attending the progress of small countries, and even of provinces which have undergone a constitutional evolution. We are apt to forget when we regard the ancient days thru modern glasses that the names which build so largely in the dawn of western history pertained not to great aggregations of people as we know them; but to areas and populations inconsiderable in extent and number, and not infrequently confined within the walls of cities. But the conspicuous part they played on the world stage; the brilliance of their literary and artistic genius; the splendor of their civil and military achievements; the intuition which enabled them to formulate in anticipation much that is only now being confirmed—must ever render the annals of Greece and Rome a study of infinite interest. On a smaller scale, but equally full of moral and political instruction, are the histories of the Italian city-republics, of Holland and Switzerland, and of the British American and Australasia colonies.

How much of practical benefits for the people of Canada to-day can be gleaned from the chronicles of its eastern provinces, especially during the period of their transition from dependencies of the crown to autonomous and substantially independent statehoods, is strikingly shown in a little book now before us. It was a happy thought that led to the examination of the sketch of the life of the Hon. Joseph Howe of Nova Scotia, contributed by the late Principal Grant to the Canadian Monthly and National Review, where it appeared in the May, June, July and August numbers of the year 1875. Altho a sketch in form, as in name, it is touched with so light and firm a hand, is so instinct with genuine, yet restrained and disciplinary enthusiasm; so full

THE RAILWAYS AND THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA.

Thirty-Seventh Article.

The statement made thru the press of the country that the board of railway commissioners have appointed Mr. George F. Shepley to make an exhaustive enquiry into the necessity for a readjustment of freight rates thruout the country is but another illustration of the fact that the board in question has outlived its usefulness, and that in the interests of the public a reorganization is necessary. We have no desire to cast the slightest reflection upon the ability of Mr. Shepley as a lawyer, the very fact that he has attained eminence in his profession is sufficient to prove that he is an able man, and it is no discredit to him to say that he is less about freight rates than does Chairman A. C. Killam, and that is saying a great deal. The announcement will cause a feeling of exasperation thruout the country. If Chairman Killam, with the evidence already in his possession regarding the discrimination in rates thruout the Province of Ontario, does not realize that an immediate revision and equalization of railway tariffs is a necessity, it is beyond the scope of possibility that he ever will be convinced of it. In any case a commission within a commission is the height of absurdity. If Mr. Shepley is to be appointed a commissioner at large for the Dominion of Canada his appointment should be made by parliament, not by the board of railway commissioners, and it is necessary this time that the house of commons should make a declaration of policy with regard to the transportation questions which are agitating the minds of the people.

It is necessary that legislation should be passed at once enforcing reciprocal demurrage, the government should insist on the public reason for their refusal to deal with the question. It has been claimed that if reciprocal demurrage were enforced car shortage would be a matter of history, and if this statement is correct it is legislation that should be passed at once in the interests of the people. There is no question as to the necessity of a commissioner to enquire into that subject, we have as much information on this question to-day as it is possible to secure. If, on the other hand, the statement made that reciprocal demurrage would end the car shortage thruout the country is not correct, the people of Canada would like to deal with the question in view of the fact that the board of railway commissioners cannot be induced to act. They were not slow to pass an act making demurrage a legal charge when requested by the railroads to do so, but when the public interests are at stake they cannot see their way to make a move.

With regard to discrimination in rates. Specific instances have been placed before the commissioners showing that the tariffs are prepared on a most outrageous basis, but not the slightest attention has been paid to the demand for revision. Possibly the board of railway commissioners are waiting until some individual lodges a formal complaint with them, when they will take it into their consideration, and in about a year's time hear argument on the subject. The whole thing is supremely ridiculous. If the board of railway commissioners are not a question of a revision of the tariffs referred to, why do they not make application to parliament for the necessary authority? There is no question as to their power to act, the whole trouble is that they are not transportation men and are hopelessly at sea when dealing with questions of this nature, consequently it is left severely alone, and the discrimination is allowed to continue.

What better service can our representatives give their constituents than by taking hold of this whole transportation problem and getting it put in proper shape.

Then there is the question of the extension of the Intercolonial Railway westward, which is a matter of sufficient importance to warrant the attention of the house of commons. It has been shown that discrimination is being practiced against the all Canadian route, for Ontario and Halifax. It is not a question of competition between St. John and Halifax, something that is ardently desired at this time.

There is also the question of the Intercolonial membership in the associations formed by the corporation lines. It is necessary that the government should take the proper steps to protect and extend the Intercolonial Railway westward, and that it should be allowed to join these organizations, and why, when their attention was called to the matter, orders were not immediately issued for its withdrawal. It is simply outrageous that the government should allow the people of this country every day they are in existence. If the government cannot see their way clear to enforce the laws, the very least they can do is to observe them themselves.

The board of railway commissioners was created for the purpose of exercising control over the railways. Have they fulfilled their trust imposed on them? If not, why should not an enquiry be made to ascertain the reason for their failure to carry out the work entrusted to them? The present condition of affairs cannot be allowed to continue, and parliament should see to it that the railways be dealt with in a satisfactory manner, and the government must act if they desire to retain their confidence.

of clear and informed judgment, as a great imperialist in the days when the welding together of the mother and daughter lands was either misunderstood or denied. He was himself a typical example of the perfect congruity between devotion to his own homeland and loyalty to the flag for which his fathers had fought and suffered. At an early age he began to approach the world with a vision that formed the basis of the British constitution, and "took it as his model and political ideal." Like Gladstone, whom in many respects he resembled, the differing greatly in others, he had a strong leaning of Toryism in him to the end. But it was the best of Toryism—that part, indeed, of Toryism which no public man prizing clarity of vision can ever be without. But for Toryism which respects class distinctions and refuses to trust the people with the fullest responsibilities and powers, he had no sympathy. Had he been contented with his supreme position in Nova Scotia and remained at the helm of his homeland, that province would unquestionably have been the pioneer in the institution of a public policy of growth and far-reaching effect upon the course of Canadian history. But by entering the federal government, after bitterly opposing Confederation, he destroyed his influence in the province, without gaining influence in the Dominion. Both were, in a sense, fatal mistakes, for, as Principal Grant puts it: "The one thing he had not wholly 'subordinated' to duty and to God." So when he entered Government House at Halifax, it was only to die in sadness and bitterness of soul. Yet, being dead, he speaks, by his innate nobleness of spirit, his enduring worth, his inspiring memory.

THE SYSTEM AND HOW IT WORKS OUT.

Editor World: I have noticed with great interest the stand taken by your paper in reference to electricity in this city, but think perhaps you are a little too severe on those who have invested their money in electrical enterprises. The Toronto Electric Light Company is an old established company, and that the Beck bylaw has passed, what chance you think the holder of Toronto Electric Light Company stock will have to eventually recover his money. The following, it appears, are the circumstances of the Toronto Electric Light Company, \$1,000,000 stock issued in 1900, and a further issue of \$1,000,000 is immediately contemplated. The franchise expires in 1919, and has therefore only twelve years to run. The company's main assets consist of two obsolete steam plants, which are of no value to it whatever on the completion of the power lines from the falls. It will not even be required for emergency purposes, as it is proposed to construct several distinct sources of supply from Niagara Falls.

How can this company hope to compete on fair terms with others, when it is tied up by an agreement with the Electrical Development Company for the term of the whole of the balance of its franchise, to purchase its power at the rate of 85 per horse-power per annum, when any other consumer may procure same at less than one-half this price? Do you think that any such bargain, where those who control both companies are practically identical, will be legally binding? The Beck commission claim that a complete, new and up-to-date plant for generating power in Toronto can be constructed for not a great deal more than the present amount of the bonded indebtedness of the Toronto Electric Light Company. In case of the Electric Light Company wishing to sell out to the city, the shareholders would apparently leave very little, if anything, for their shareholders, after the bondholders had received their money in full. My friends, who are stockholders, have asked my opinion as to the above points. If you see fit to reply to the above queries thru your columns, I should esteem it a favor.

Old Subscriber, St. George St.

Our correspondent and his brother shareholders are like the public victims of a bad company law. The quarrel 'The World' has is not with the shareholders but with the system which has permitted franchise-holding corporations to issue millions of watered stock on which a dividend can only be paid by the extraction of excessive rates and charges from the public users and consumers. Had the capitalization of these companies been limited to the legitimate cost of their plant they would have been in a position to make a reasonable profit and proper provision for depreciation and for redemption of the capital invested, while at the same time giving the public a cheap service.

If our correspondent is right in saying that the Toronto Electric Light Company cannot hope to compete on equal terms with a service based on a square deal with the public, blame cannot justly be laid on the provincial government or on the supporters of cheap power and light. The agreement with the Electrical Development Company, to which he refers, provides another example of the expediency of permitting different companies to be controlled by the same interests, an abuse which has come under recent and severe censure from prominent public men in the United States. Here again our correspondent's grievance is not with public ownership advocates, but with the system.

WANT A REPEAT PERFORMANCE
Hundreds Who Didn't But Would Like to Hear Elks' Minstrel.

The closing minstrel performance given by the Elks, in aid of the Western Hospital, went out in a blaze of glory, and that worthy institution will receive a good substantial sum. Massey Hall was packed to the doors Saturday night, and hundreds were turned away. The disappointed ones are exceedingly anxious that another performance be given, and hope the Elks will see their way to give it.

OUT OF POLITICS.
Hon. Joseph Martin Sells His Paper and Will Stick to Law.

Vanocour, B. C., Jan. 13.—(Special.)—Joseph Martin, K.C., has sold his paper, The Guardian, and will stick to his profession of law. The paper has been going for only two weeks, but has a fair following. Mr. Martin says he is out of politics.

GRAND TRUNK EARNINGS.

YORK COUNTY AND SUBURBS
MEMBER, ROYAL COMMITTEE TO DISTRIBUTE PATRONAGE

West York Conservatives Discuss the Matter at Length at Their Annual Meeting.

Weston, Jan. 12.—(Special.)—The feature of rousing interest in the annual meeting of the West York Conservative Association was the discussion over the patronage committee for the riding, the reappointment of which was requested by Hon. J. W. St. John, but which aroused so much opposition that he volunteered to assume the entire responsibility of patronage himself. This evidently gave general satisfaction, and the meeting was held in Dufferin Hall at which W. E. Maclean, M.P., stirred up much enthusiasm. R. R. Ganey, M.L.A., spoke on the main situation in the afternoon.

The meeting was called to order at 8.35 by President Thomas Griffiths, the election of officers was at once proceeded with. Dr. Forbes Godfrey taking the chair. On motion of Messrs. Goodie and Bayles, the outgoing officers were unanimously re-elected. President, Thomas Griffiths; vice-president, W. H. Edwards; secretary, Mayor-elect W. A. Baird, Toronto Junction; treasurer, A. J. Griffiths.

Hon. Speaker St. John suggested that it would be in order for the meeting to separate into municipal districts and elect representatives to the patronage committee. Last year the committee was composed of Thomas Thompson, Toronto Junction; Geo. Syme, Jr., York; James McNeill, Vaughan; Thomas F. Wallace, Woodbridge; Dr. Godfrey, Etobicoke; and Mayor Fisher, North Toronto.

A lively discussion ensued, led by J. G. Wright, Toronto Junction, who objected to the existence of a patronage committee. He had told this privately to Mr. St. John, he said, and repeated it publicly when he had to stand up. He believed the responsibility of patronage should be entirely assumed by the members they elected.

J. F. Goodie pointed out that the members holding the office of speaker was in a different position to any other in the house and should be able to act in a non-partisan way.

R. G. Agnew moved that the patronage committee be dispensed with. He was not satisfied with all the proposals made and saw no reason why the member should not assume full responsibility.

Hon. Mr. St. John said he do.

Dr. Bull Lambton, seconded the motion. The appointment of a patronage committee, he declared, was an indignity.

Seven and One.

Dr. Godfrey asked why they should hand over to Mr. St. John what rightly belonged to the Conservative Association. They had the right to hand over to anyone the selection of distributing offices through the riding. Seven men were better than one, and more in touch with the voters.

John Bryans, Etobicoke, recalled the days of 1851, and congratulated Mr. Wright on his protest.

John W. Breakey, Newtonbrook, supported Dr. Godfrey.

Mr. Wright pressed deep appreciation of Mr. Wright's expression of confidence in the Hon. Mr. St. John's judgment. There was a necessity for a committee, which would bring him in touch with the voters in the riding. This was the only object in view. He was not bound to accept their recommendation, but he was bound to respect the views of those who supported him.

Mr. Wright believed the discussion would do good. He would save the committee, which would bring him in touch with the voters in the riding. This was the only object in view. He was not bound to accept their recommendation, but he was bound to respect the views of those who supported him.

government with having accepted campaign funds in return for making concessions, and displayed an intimate knowledge of the whole situation. The meeting adjourned at 5.30, and shortly after 6 the banquet in Dufferin Hall was proceeding with the usual order. The guests were seated at tables, and the program was being honored, Chairman Griffiths proposing "The Dominion Parliament."

W. H. Pugsley, in responding, hoped that Centre York would yet return a Conservative to parliament. The scarcity of coal in the west was attributed, not to the railways, but to strikes at the mines. The government should have been strong enough to deal with that. Whether the fault lay with one side or the other, there were millions of tons of coal and the government should have provided for its distribution.

W. E. Maclean, M.P., was called upon and received with the musical honors and lion cheers. He thought Mr. Pugsley's remarks very significant. He had been taught that the less government the better, but as civilization proceeded, conditions became more complex. If such a state existed as Mr. Pugsley alleged, and Mr. Maclean knew it did, it was the duty of the government to see that the people got coal to use. The coal belongs to the people and not to the houses, like those to whom the Cro's offer was handed over, who did not care so long as they were warm down here.

The Enforcement of Law. There were great assurances of electric energy. In the water powers of the province and he was glad Mr. Whitney had kept control of these powers. He objected in parliament to the export of foreign industries, when the people of Canada had not coal for themselves, and had to rely on precarious supplies from across the border. He pointed out the necessity and desirable steps taken by President Roosevelt in supporting a measure by which

toast, and Ald. McGhie (Toronto) spoke in response.

Hon. Speaker St. John was received with cheers. He drew attention to the electric power policy of the government and quoted General Greene on the possibilities opening up in the application of electricity in farm life. Hon. Mr. Maclean told him that he would be able to say that prices under the government scheme as compared with present figures would be just about half. There was a general effort being made to get the best possible results from prevailing conditions. It was up to the legislature to keep pace with that. There was a honest effort, irrespective of parties, he would say, to get the best for the people.

The last toast was the West York Conservative Association, and other municipal bodies. It was acknowledged in two-minute speeches by Mayor Baird, Dr. Hackett, J. F. Goodie, Dr. Godfrey, Russell Warren, Geo. Tom, Wallace, Alderman Irvine, W. H. Edwards, James McNeil, H. G. Agnew and ex-Mayor Peter Laughlin.

The expansion of the city has caused an increase in the number of church edifices. The latest is the New Beach Presbyterian Church, on Weneva-avenue, a short distance north of Queen-street in 1882. The New Beach Union Church was erected and continued in use until the opening of the new structure yesterday. In the morning the pulpit was occupied by the Rev. Dr. H. Carruthers, who presided at the evening by Rev. John Neil, Westminster Church. The church was filled to overflowing in the afternoon. The Rev. Dr. Robertson and Frank Yeigh addressed the Sabbath school. The new structure was erected at a cost of about \$10,000 and has a seating capacity of 500. The building is the best work of modern architecture which is 70 by 60 feet. The latter is equipped with all modern conveniences, as kitchen, scullery and wash rooms. It is the intention to transform the basement into a first-class gymnasium for the use of the church members. The seating arrangements are on the "valley city" style, the seats being of oak. The windows of stained glass are especially handsome. There are two commodious vestries at the rear of the church. The Rev. Mr. Neil, who has been in charge of the New Beach Church for the past six years. The Sabbath school held in the old church, immediately adjoining, and which has been revived, it has a membership of more than 120, with 60 to 70 teachers. The estimated value of the church property is \$20,000, on which there remains a mortgage of less than \$8,000. The collections of yesterday amounted to \$280. The Ladies' Aid, of which Mrs. Joseph Price is president, have assumed the task of furnishing the church, to cost \$1200. Music is furnished by a choir under the leadership of John Hannah, with Mrs. Hannah as organist. The church was designed by C. F. Wagner. The elders are John Lowden (chairman), and Messrs. Alexander, White, Ward, Bam and Wagar. The board of management is composed of John McGregor (chairman) and Messrs. Gardiner, Lowden, J. Sinclair, Smith, Carley, Jaschinsky and Kennedy. The trustees are C. T. Lyon, J. Price, H. Alexander and Tuesday evening a social tea will be held on Sunday, Jan. 20, the moving service will be conducted by the Rev. Dr. Carruthers, and the ceremony by Rev. Mr. Brown of New St. Andrew's.
