Washington Diplomats Want to Favor Canada But Don't Know How

United States Don't Know Who to Deal With-Conflict Due to Lack of Direct Canadian Representation at Capital of Republic.

Secretary Knox is Friendly

WASHINGTON, Feb. 19.-(Special.) Officials in Washington are now deeply immersed in the question of the application of the maximum or the minimum tariff to Canada. Mr. Knox, secretary of state, has summoned John G. Foster, United States consul-general at Ottawa, to Washington, for conference. Mr. Foster arrived here to-day and was at the state department, and in conference with the bureau of trade relations, and the tariff board. He also saw President Taft. No Direct Ambassador.

This tariff matter brings out very cointedly the disadvantage of Canada not bein ggranted the right to have a diplomatic representative at Washington. Indeed negotiations with Canada at the start have been hampered by an entirely false impression having been given Canada by the British Ambassador, that no matter what the position of Canada in treating with the United States, this government would have no tariff war, and the maximum would not be applied. Mr. Bryce has, it is stated, entirely misunderstood the friendly expres-

sions of President Taft with reference to Canada, and the United States has been represented as "easy" to Sir Wil-frid. As a result Canada seems to have adopted a close understanding with France that neither is to make any concessions in the belief that if Canada evades the maximum, France will also evade it, and everything will

Knox Wants to Know. Secretary Knox to-day requested Mr. Bryce to inform him whether the Uni-ted States shall conduct tariff negotiations with the Dominion Govern-ment direct or thru the British emassadors or ministers have called at he state department, and negotiations

have been opened. With reference to Canada, her best friend, the Unitd States, makes the first move. There is a feeling that there should have been reciprocity with Canada long ago. France Indifferent. Canada is not the first country that was misinformed regarding the atti-tude of this government. The German

So far as Canada is concerned, the situation has been painted in too rose-ate hues to Sir Wilfrid Laurier, and he may make the mistale that the manager of the specific states of the s

president sees it as his duty to ad- had 500 wire ones, and they could easihere to the law as set down by the Payne tariff act and apply the maximum to any country which unduly discriminates against the products of the United States.

As evolved as the substitute of the United States.

THE SPIRIT OF 1910.

certain private interests, there is but one answer in the mouth of the average Canadian with reference to the threat of the United States to apply the maximum tariff to Canada, and

APPLY YOUR MAXIMUM TARIF. WE DON'T CARE.

It is up to United States to make the first move, not Canada. This country d'd all the moving for half a century, to be met with the arrogance and contempt of Washington politicians. To-day Canadians are too busy to be particularly interested in the United States tariff, high or low, and the threat from Washington that Canadians must hustle or be subjected to the maximum schedule doesn't ruffle a Can-adian feather. The spirit of 1910 is animated by the love of commercial independence of Canada from the United States, just as the spirit of '76 gave birth to the revolution and separation of the thirteen colonies from England. The Washington people may come to Ottawa this time, but whether they do or not, this country will sit tight and ask no favors.

hassy. This is the first formal move hade by the state department. In the case of all other countries, the am-Down Town Stores — Will Comply With the Order.

The people of Toronto have awakambassador, on his first visit, brought ened to the fact that unless Carlo or up the expressions in the president's Fido wears his or her respective mouth annual message that the United States piece by Wednesday, the 23rd, the did not desire a tariff war, and assum-ed that the minimum would be applied young life of the same will be snuffed to every country. He was disabused of this idea very quickly. France does chambers, unless claimed within three this idea very quickly. France does not seem to care, and the chances are three to one that she will receive the maximum of the Payne tariff March 31.

Went to Fayne Canada.

The T. Eaton Co. last night adverhe may make the mistake that France is making now, and that Germany almost made. At the same time no one can say that Canada will not get the minimum as a matter of friendship. The disposition is to do every ship. The disposition is to do every-thing under the law to favor Canada. about 39, and two clerks taking down orders. "That," said he, "is the small-No one is blind to the disadvantages est crowd we have had to-day. They to the United States of a tariff war are coming all the time; we could have with Canada, nor to the disadvantages sold a thousand more. Look here," that Canada also might suffer, and he turned and opened an that Canada also might suffer. and he turned and opened in a general way, the president's at. order case, "there are fully a thoutitude on the Canadian tariff situation sand orders here to be filled on Tuesis about what it was on the German. day. We have an automobile out now He is unofficially optimistic, but has said nothing to handicap the work of his advisers on the tariff board, or in the state department, and his final decision will largely rest on what these advers say. In addition to the state department, and his final decision will largely rest on what these advers say. TORONTO'S HIGH BUILDINGS.

The Traders' Bank Building is 205 feet high, being the tallest commercial structure in the city. Eaton's new factory on Trinity-square is its closest rival, being 175 feet tall. There is another new big one at the corner of Adelaide and Yongestreets, which is 11 storeys high. St. James steeple holds the laurels with a top 316 feet from terra firma. The city hall tower terra firma. The city hall tower comes next. An addition of 16 feet would have to be made before it would be as tall as St. James'. St. Michael's steeple

WEST IS PROUD OF HER

DISTINGUISHED DAUGHTER

la Prairie - Father a

Wealthy Contractor.

WINNIPEG, Man. Feb. 19.—(Special) —Miss Dorothea Toye, mentioned in Paris cable as having achieved great

success with her voice, is a native of

Portage La Prairie, where she received most of her early musical training.

Her father is wealthy contractor, now living in Fort Rouge, Winnipeg, at 339 Wardlaw-avenue.

A Musical Family.

Miss Toye comes of a very musical family, several of her sisters being well known in local musical world.

ALL PARIS IS TALKING PARIS, Feb. 19 .- (Special to Sunday World.)-Dorothea Toye, a young girl from Winnipeg, Manitoba, aroused great attentio last night at a recep-

tion given by Ambassador Bacon at

markable Performance.

Has Tenor and Soprano Voice

and Aroused Enthusiasm at

the Embassy Reception-a Re-

Miss Toye has two voices, one a three-octave soprano, the other a tenor of great power and sweetness. She ame to Paris to consult Prof. Frank Dossert, director of the National Conservatory of Music, regarding the advisability of an operatic career. When he heard her soprano voice, he said she was unquestionably fitted for grand opera. A moment later he was stunned to hear her sing a "Pagliacci" song Her tenor recalled Caruso's voice in intonation, phrasing and exact rendering.

Miss Toye is a Native of Portage Phenomenon Unprecedented.

Phenomenon Unprecedented.

Musicians say such a phenomenon is unprecedented in musical history. She can actually sing a soprano and tenor duct with herself. Ambasador Bacon said: "It is the most remarkable performance ever heard."

It is needless to say that all Paris is talking of her. Personally Miss Toye is a slight girl of singularly bright and winning manners. She is one of eight sisters, all musicians. Physicians as well as musicians are greatly interested in her accomplishments. She has been invited to go to London to sing before the medical congress.

well krown in local musical world.

These include Mrs. M. E. Wright, Indian Head, Sask.; Mrs. R. M. Richardson, Portage La Prairie, Man.; Mrs. F. Rouleau, Langham, Sask.; Mrs. Peter McPherson, Winnipeg; Mrs. H. Prouse and Mrs. C. W. Wills, both of Alexander, Minn., and the Misses Efficand Hazel Toye of Winnipeg.

A LITTLE COUNTESS.

LONDON, Feb. 19.—(Special Cable.)

—A daughter was born to-day to the Earl and Countess Granard. The mother, before her marriage, was Miss Beatrice Mills of New York, daughter of Mr. and Mrs. Ogden Mills.

Chain of Explosions Terrify the Citizens

Petc: and Richmond-streets, Peter and Queen-streets, Soho and Bulwer-street, Soho and Phoebe-streets, Phoebe and Huron-streets, Huron and Sullivanstreet, Huron-street and Grangeavenue, Huron and St. Patrickstreet, St. Patrick-street and Spadina-avenue, and St. Patrickstreet and Kensington-avenue.

Several people sustained minor injuries and one at least had a narrow escape from death by an explosion which hurled ten heavy iron covers of the Telephone Company's man holes thirty feet into the air at 2.30 Saturlay afternoon. Glass was blown from windows all along the route which lay about that section immediately adjacent to Spadina-avenue and Queensertte. Gas escaping into the conduit hermtically sealed by ice and snow is

At Huron and St. Patrick-streets,
Policeman Wallace (291) was standing
almost over the manhole, which is set in the sidewalk on the coutheast corner. The heavy iron cover was blown high in the air and with the force of the escaping gas which also ignited, the policeman was hurled about 15 feet into a snow bank. His face and clothing were scorched, and his right leg severely wrenched, but he was able to proceed to his station and thence to his home. The heavy cover of the hole was broken in four

Damage to Property. At Queen and Pcter-streets, the damage to property was the most severe and also a number of passers-by were slightly injured by flying blocks of ice. Here, as at Soho and Bulwer-streets and Soho and Phoebe-streets, the manhole top was burled up thru the cables strung from the poles above and these were wrecked.

J. J. Wright of the Electric Light Co. was at firs tnotified that it was his manhole which were blown. He later declared that not one of them belonged to his company When asked for the probable explanation of the matter he said there is always a certain amount of free gas in these conduits and that this might easily be ignited by a spark from a defective insulation on one of the calbles, allowing a contact with the metal interior of the conduit.

This, once ignited, would run along from one hole to another, thus causing from one hole to another, thus causing the series of explosions. The force of the explosions would be increased by parceled out to whatever settlers would the fact that the covers were practically hermetically sealed by snow and

Woman Struck by Ice. One woman passing Queen and Peter-streets was struck in the face with a flying piece of ice. She went to Lemai-

had it dressed, but went on without further attention. One runaway was caused, but the man and woman who caused, but the man and woman who occupied the sleigh were uninjured, and it was stopped in two blocks.

Saturday's explosion is the most extensive and serious of the kind which has taken place in the city, bit it is by no means the first. Like blow outs occurred in the down town section of Yonge-street in the electric light conduits last summer.

GREAT MERGER FORMED IN BOSTON YESTERDAY

Second Largest Trust Company in the World Comes Into Existence.

BOSTON, Feb. 19.—(Special.)—The second largest trust company in the United States came into existence today wiith the merger of the Cty Trust Co. with the old Colony Trust Co., under a capital of \$2,500,000, and a surplus of \$10,000,000. The new institution when the accounts are transferred will have deposits aggregating nearly As in the case of other bank consoli-

dations, many of the officers of the absorbed institution will be retained.

The board of directors of the Old Colony Trust will be enlarged, addi-tional officers will be created, and the Unior the reorganizaton T. Jeffercon Collidge, jr., becomes chairman of the executive committee; Gordon Abbott, chairman of the board of directors; Francis R. Hart, vice-president

of the board of directors, and Philip Stockton, president of the company. Another in Same Bay. ship described as the Hohenzollender, from Bremen, was wrecked in a gale off Dunwoody Bay to-day. The crew was lost. The name given does not appear in the marine register and the

identity of the vessel is in doubt. A RETROSPECT.

CATHOLIC REGISTER

Class as "Poles, Germans and Chinese."

MONTREAAL, Feb. 19.—(Special.)-The Croix and The Verite, the two advanced clerical organs of this province, have started in to read The Catholic Register out of the church. The Montreal paper says that there were two enemies which confronted the recent French-Canadian Congress at Ottawa. One was the Orange Order, but that was not surprising, and the second was The Catholic Register. 'Let us say, squarely, that the word 'Catholic' should be torn away from the Ontarian sheet's title page. If, in fact, the Irish Catholics of Ontario have no

the Irish Catholics of Ontario have no other organ, they are really to be pitied, for before very long they will have a very unenviable reputation.

"By what right do you people of The Register wish to deprive us of the French tongue in the schools? We are at home in this country, while you are only our guests, such as the Poles, the Germans and the Chinese. and the Chinese.
"Without us what yould you be in Canwersely reported by the committee on morals, and will not be dealt with further at the present session of the state legis-

secution forced to immigrate to Canada.

32 PRELIMINARY BOUTS

JACKSONVILLE, Feb. 19.—The following are the Jacksonville results Saturday:
FIRST RACE, 2-year-olds, 4 furlongs:
1. Jack Denman, 115 (Musgrave), 12 to 1, 3 to 1, 6 to 5.
2. Master John, 115 (Butgrall), 2 to 10, 2 to

3 James Mc, 116 (Nicol), 12 to 1, 4 to 1, 3 to 2.

Time .40 3-5. Hawklike, Easy Life, Picolata, New Star, Lady Stewart and Miss Vonderhodou also ran and finished as named.

SECOND RACE—Selling, 4-year-olds and upwards, 6 furlongs:

1. Barnesdale, 111 (Powers), 13 to 5, even and 1 to 2.

2. George W. Lebolt, 108 (Butwell), 10 to 1, 4 to 1 and 2 to 1.

3. Lord Neison, 101 (Henry), 15 to 1, 6 to 1 and 3 to 1.

Time 1.15. Snowball, E.T. Shipp, Anderson, Tollbox and Dekalb also ran and finished as named.

Don't overlook the meeting of the Brunswick Duckpin League, which is being held on the alley's Monday night next, at 8 o'clock sharp. As the Brunswick alleys can only accommodate 20 teams and already 17 teams have entered, so get your entries in early and be sure of your team getting a place in the Brunswick Duckpin League, as this will be the largest league ever held in Toronto.

No offe regretted Flynn's sale more, than President McCaffery, who, after the President McCaffery the President Mc for Mr. Roosevelt. He has promised to visit William Northrup MacMillan, whose guest he was in British East

A big time is expected on the Brunswick alleys Wednesday night, when a match game will be played between the married and single men of the Central Bowling League for an oyster supper. Great enthusiasm is prevailing between the contestants, the single men what they are going to do to the married men and the benedicts what they are going to do to the bachelors. The married men have it all doped out that they are going to have a free game and supper at the single men's expense. Members of the Central League who have not been notified of this event he sure to be on hand as this will be one big night of the Central League and you will regret missing this

ting Flynn.

Mike Kelley's Fine Work. Because of Flynn's ability to play in either field or behind the bat, Man-ager Kelley of the St. Paul team was able last summer to throw many scouts for a first baseman off the scent. number of the experts heard good reports about his work and made it their business to follow the St. Paul club, but every time Kelley discovered a scout in town he changed Flynn's po-Then it was Flynn's misfortnue to hurt his leg in midsumme The accident kept him out of the game for two or three weeks, which also helped along St. Paul's scheme to keep

him under cover. Notwithstanding all of these precautions, the Boston Americans did put in a draft for Flynn, but lost him in the drawing. Had I. Taylor been lucky, he would have obtained for the draft price of \$1000 a 'release that cost the Pittsburg club

> It will be remembered that Manager Fred Clarke journeyed all the way from the Little Pirate ranch near Winfield, Kan., to New York last cember to put the Flynn deal thru. The day he announced the consummation of the deal at the Waldorf-As-toria, he gave the scouts there assembled something to talk about. Howard Earl, chief scout for the world's champions; Lou Heilbroner, the Cincinnati expert, and Patsy Donovan, now manager of the Boston Ameris cans, but last season a scout for that club, were sitting together in the cor-ridor when they heard the news, and each had an experience to tell about

"I received a tip about Flynn and went to St. Paul to take a peep at him, but the day I was there Manager Kelley chased him to the outfield. At that I liked Flynn's movements so well that I recommended him to our club, but our draft did not go thru," said Donovan.

"Kelley took Flynn out of the game entirely the day I was there, and the young fellow was behind the bat catching when Mr. Dreyfuss showed up," reported Howard Earl. Heilbroner laughed before he told of his experience. Finally he said: 'I heard that Flynn was a promising

young first baseman, and went out to verify the information. I did not make myself conspicuous, but Manager Kelley learned somehow that I was in town and that afternoon he switched Flynn from first to short." Clarke did not do any boasting about Flynn then and has not done The boss of the world's champions will study records and listen an opinion of a player until he plays Earl Moore would be the star that to recommendations, but never forms

has little use for a player lacking in Mike Kelley Tried Hard to Throw Scouts Off Flynn Last Season

Earl Moore Came Back.

Baseball players like fighters, often come back after being passed up by the big leagues as having outlived their usefulness. But the percentage in each case is not very great. Take twirler, who was with Jersey City for two or three years, last season playing with Philadelphia Nationals, for whom he won eighteen out of the thirty games he pitched, a percentage considerably better than that attained by One recruit, however, who is going up to the big league for the first time, will be watched with unusual interest by every Torontonian. That player is Jack Flynn, a member now of the Pittsburg Pirates. Jack's sensational work with the Leafs here, when they won the pennant three years ago, is not forgotten by the local fans. Jack sure was one classy fielder, and while his batting average was not very high the club he represented. Several years ago, while a member of the Cleveland American League team, Moore, then regarded as one of the best pitchers in the American league suffered an injury to his left foot Earl was playing the infield one day in practice, when he was struck by At the time little attention was pair his batting average was not very high to the injury, but later it became so yet he won many a game for the Leafs by his long and timely hits. Jack's footwork around the initial bag had every other first baseman faded a mile, and the stuff he used to pull off footed, and so weakened that member that he was unable throw any weight on the left when delivering the ball. Natur writer remembers in the Columbus series three years ago. in the closing game at Columbus, when the Columbecause of the weakened con the left foot, Moore was unable to tak, the long stride that he usually distributed when sending the ball to the batter it interferred greatly with his speed and because he was practically com pelled to change his entire style of pitching, he lost control of the For over a year, Moore tried every known remedy and appliance to strengthen the weakened instep, ap-parently in vain. Therefore it was not long before everyone was pronounch Moore all down and out, while son critics were uncertain whether Moon would be able to deliver in the min

would be able to deliver in the min-ors. Cleveland disposed of Moore to New York in exchange for Walter Clarkson, while New York in turn handed him over to Jersey City. His career is well-known with the Skeeters, especially two years ago, when he twirled the best ball in the leaque, and it was not surprising that he made good with the Philadel-phia Nationals last season. Thoney's Career Is a Pitable One

Kelley, two years ago. Mike, besides being the manager, was also a first baseman, but, as events turned out, he was neither, his ice - cart actions around first base, after the fans had seen Flynn in action, soon getting him into bad repute with the fans. Flynn, that year, was turned over to Milwaukee by the St. Louis club, but, after Mike Kelley secured the management of the Take the case of Jack Thoney who was also once a member of the Cleve-land team and then drifted back into the minors landing with Toronto four years ago. All the fans remember his wonderful playing for the Leafs three years ago when Toronto won the pen-Kelley secured the management of the St. Paul team, he lost no time in getnant, and but for the injury susti to the shoulder, there is no doubt the "Bullet" would have made good ple Leafs, only got into trouble once pie Leafs, only got into trouble once with the umpires, that being at Montreal, four years ago, when Ed. Barrow was manager. The team had been having a lot of hard luck, with the umpires giving them all the worst of the close decisions. On this day, Umpire Finneran handed the Leafs a raw decision at first, calling the runner with the Boston Americans. But now Jack, the idol of the Toronto fans is practically out of baseball, his latest misfortune when he fell, fracturing his right shoulder and dislocating his shoulder blade, will it is feared, mark decision at first, calling the runner safe, when Flynn had him out three feet. This exasperated Jack, who, the passing of the speedy athlete. Thus the "Bullet," one of the most popular players that ever wore a Toronto running in, told Umps what he thought of him. Umps replied by hitting Jack form, has turned out to be the unl of him. Umps replied by hitting Jack in the tace with the mask, whereupon Flynn immediately proceeded to put Finneran to sleep, and he dident, for iest player that ever graced the di mend. After leaving Toronto and sing to Boston, his arm bothered him Jack was one of the best boxers that severe attack of fever, when he br

his leg, retiring him for the year. There are numerous other players that have been turned back minors, who after a year or two seasoning, have gone back to the first love. Take the case, of our of "scout" Fred Mitchell, Fred, once a pitcher with the Brooklyn club, ha as catcher, and there is no doubt but he will make good. Rudy Hulswit who used to play on the same team as Mitchell, was turned back to Co lumbus, for which team he played shortstop, when Toronto and Columbus played off their series three years ago. Rudy was drafted by Cine has since held his own in the Nationa

Charley Street, the catcher for the Washington team, now, was once a member of the Cincinnati team, but was handed his release outright, but he soon worked himself back, and toin the American League.

Morgan's Unique Career. Perhaps no player has had a more unique career than Cy Morgan, now a member of the Philadelphia Americans. Up until two years ago Morgan With property of the St. Louis America League Club. For three years pre ous, Morgan's name always appears on the roster of the Brown te spring he would report and usually would start one or two games, and then be shipped back to St. Paul in the American Association.

Manger McAleer, then in charge the St. Louis Club, was certain Morgan had the stuff to stick in company, but the fans refused to convinced of the fact. Just as so as Morgan would step on the the crowd would get after him, and i wouldn't be very long until he was of the way to the clubhouse. It became evident to McAleer that Morgan would never do as a St. Louis player and he was sold to the Boston Americans.

Morgan then proceeded to make go Perhaps no victory ever pleased him more than the one he scored agains St. Louis on his first appearance in that city after drawing his release. shut the Browns out, 1 to 0, hold them down to something like two h For some reason or other Boston ed Morgan to Connie Mack last year and it was a mighty good thing for leader of the Athletes, as Morgan was a tower of strength in the grueiling battle for the pennant honors.

These are but a very few instant of where ball players have come back after they had been pronounced and ripe for the bush leagues. spring a bunch of players once regal ed as too slow for the majors are found back on the job, and in instances they justify the chance given them of making good.

In many cases the fall from the league to the bushes is due to lack experience, while often a player in one city too long to be able to his real value. A change of scenery often the most beneficial thing in tworld to a ball player. It's doubtful on the same team with him. "You can is to-day if he remained with Clerified the fielding, batting or run- land. New pasture, new association in a man on the contract of the c ning ability of a man on the other and new surroundings in general side, but you cannot learn whether variably proves a great tonic to he is 'game' or not until you play ers who are failing to please fans and with him," Clarke always says. JOHN KAY COMPANY

Specialists in Clean and Comfortable Mattresses Springs and Pillows

Among the things that help to make life pleasant, comfortable and generally worth living, a good bed takes high rank, and the selling of just such bedsclean, sanitary and lastingly comfortable—is a very important function of this

Apart from the bedstead, the principal items in the make-up of the "bed restful" are the mattress, the springs and the pillows. We supply all three; made under proper sanitary conditions by expert workers using guaranteed clean and wholesome materials. They can be relied upon as the best obtainable of their kind.

In the paragraphs below we give particulars of a few principal lines.

Kay's Hair Mattresses

Made entirely of curled hair, thoroughly cleaned and encased in strong, closely woven ticking. Prices are graded according to weight and the length of the lair. They range for the double size from \$15.00 to \$43.00 Kay's Special Hair Mattress is splen- \$20.00 did value at

Kay's Felted Cotton Mattresses Made altogether of light, downy sheets of pure cotton, built up in layers and encased in strong, durable ticking. Prices for the double size range from \$7.75 to \$17.50

Kay's Superfelt Mattress is one of \$15.00 the very best of this class. Price...

Kay's Box Springs

Kay's Ideal Box Springs are made of highest grade tempered steel springs, 9 in. high, inter-locked, covered with layers of felted cotton, and encased in high-grade ticking; they \$17.50 are good for a lifetime. Price

Kay's No. 2 Box Springs Second only to Kay's Ideal; the full double size is made of 96 tempered steel springs, boxed, and covered with high-grade ticking. \$13.50 Kay's Mixed Mattresses

Made of a tough and springy fibre, with layers of cotton on top and bottom; although low in price, these mattresses are properly made, and may be relied on as perfectly sanitary and whole- \$3.00 to \$6.00

Kay's Feather Pillows

Made of selected feathers or down, thoroughly purified and guaranteed clean and sanitary. We carry a large stock in standard sizes, and can supply them to order in any size or quality. Per \$1.00 to \$7.00

Kay's Woven Wire Springs

A splendid line of springs, constructed on scien-A splendid line of splings, constitution tific principles, combining great strength with lightness and resiliency. We have them with both wood and steel frames in a variety of weaves. \$1.75 to \$6.00

Hair Mattresses Remade

For a small sum we can restore your worn and packed hair mattress to its original condition of comfort and appearance by remaking and recoving it. Telephone us-Main 3900-and the mattress will be promptly sent for.

STRANGE LANGUAGE IN NORTHERN NIGERIA

Natives Speak in Peculiar Tongue Never Heard Outside the Area-Political Agent Finds it Hard to Understand Them

LONDON, Feb. 19 .- You may have roticed something in the newspapers about the Nigerian Railway, which is being pushed thru Northern Nigeria, and about half way across the African continent. It is a big job getting a railway thru the swamps and forests and over the rivers of West Africa. The men who do it call them-selves-modestly - mud-shifters. And just as the railway is in sight of its bjective comes the book of the man who laid down-not the rails-but the

There will not be many reviews of the grammar of the Gbari language. Don't start! By a curious chance I happen to know of the labor and fun that went to make up Major Edgar's "dictionary" of a speech that had never been written down. Plugging thru Northern Nigeria he found natives hat talked a language that was never spelled or understood by anyone out-side the area. You will imagine the major, as political agent, annexing some few hundred miles of territory, calling together the men of unknown speech, and, with the aid of interpreters, jotting down what they mean by

Peculiar Misapplication of Names.

As a result, the dictionary-maker has got together a grammar and a dictionary of some thousands of words that will take the Gbari country. And even in Northern Nigeria ou find proverbial philosophy. For example, there is a proverb that, in mercy to the printer, I do not attempt to reproduce in the original: "An elephant in another town is here." Which is, as you will perceive, the replica of the

Diplomatic Organization of Country. It was necessary to get the country organized on a family and financial lasis. So this young officer sailed into the village of the principal chief and summoned the natives to appear before him. On one side he ranged the males, on the other the ladies. Then he asked the men to choose whom they would take for a wife. And that law, promulgated by the youthful major, is typical of the British compromise.

NO CAUSE FOR FEAR, SAYS PITTSBURG MAGNATE

Henry C. Frick Says Business Conditions Are Very Favorable.

fears are the causes of the hestitation in business activity in the United States, in the opinion of Henry C. Frick. He holds that there is no cause for fear, and that "if the people will cease paying attention to the calamityhowling gamblers and demagogs, who make capital out of their fears,

all will be well." "It is hard to understand why," he said, "with all the conditions favorable to unprecedented prosperity in this country, there has suddenly appeared a hesitation in activity practi-cally upon the part of the railroads asserted, a fear of unfriendly legislaand manufacturing establishments.

"If this cause is, as it is generally

tion at Washington and the drastic enforcement of the anti-trust law against the business organizations of the country, I cannot believe that it is a sufficient reason to justify the timidity shown in many quarters. Congress will not legislate any form of property out of existence and court decisions cannot destroy the productiveness of the soil or of legitimate enterprise.

"We have never stood upon the threshold of better days than now, and it will be our fault if we allow our activities to be paralyzed by ground-

"In my opinion, the present great depression in security values does not reflect the condition of business so much as the present hesitancy in business reflects the effect of wild conlectures upon what will happen at Washington and exaggeration of its possible consequences.'

WILL HAVE FINE STORE

Dunfield & Co. Purchase Yonge Street Real Estate.

Messrs. Dunfield & Co., 94 Yongestreet, gents' furnishers, have just signed a 21 year renewable ground lease at 102 and 104 Yonge-street, from the Upper Canada Tract and Bible Society. For the first seven years Dunfield & Co. pay \$11,000 a year, the next seven years they pay \$12,000 and for the last seven years the rental is \$13,000. Messrs. Dunfield & Co. purchased the bulding which has a frontage of the building, which has a frontage of 30 feet, for \$3600 and will soon start to remodel the building to suit their requirements. At present the Upper Canada Tract and Bible Society have possession. The new owners intend to make the store one of the finest of its

Coin to Farmer Who Gave Him a Meal NASHVILLE, Ind., Feb. 19.-David Ornstein, a farmer living in the southern part of Brown County, has found that bread cast upon the waters returns after many days—only in this case it was a bread and meat "handout" given a tramp five years ago. One bitterly cold day in December 1904, a tramp appeared at the Ornstein

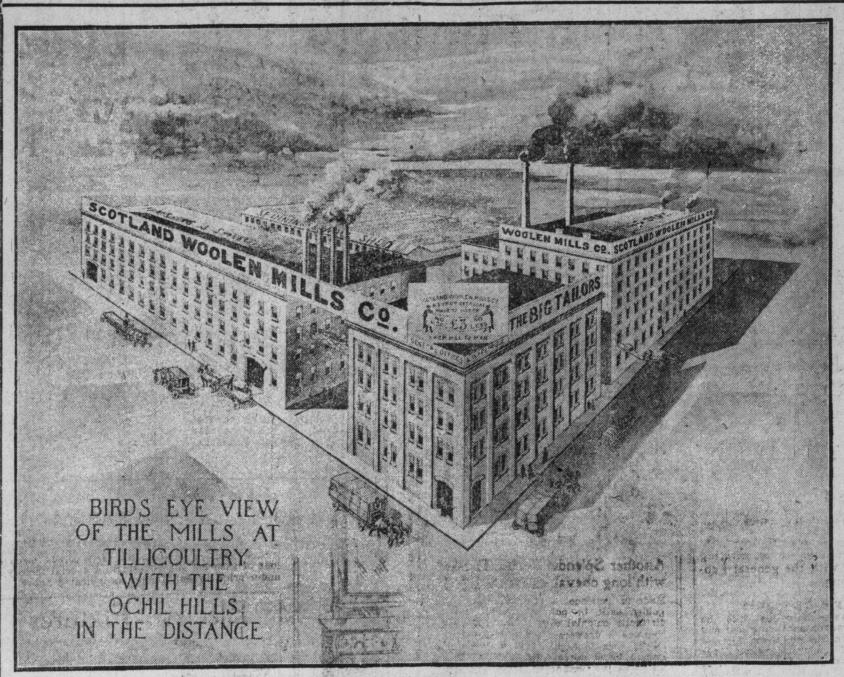

home. He was given supper, a bed and

breakfast and departed.

While the family was at supper few days ago a man called and asked food and shelter for the night. He was taken in and after supper handed Mr. Ornstein a \$20 gold piece, explaining it was for the supper given five years ago. The tramp is now in busi-

WHERE THE SPRING SUITS SPRING FROM

No Old Goods to Sell --- Everything Red Hot From the Mills

The Mills are working overtime supplying our branches with spring goods. The advance shipments are here. Don't pass us by when considering your new clothes.

THE ENTIRE STOCK IS HERE—the entire stock of New Spring Cloth for Suits or Overcoats. It is the product—the fresh product of our OWN mills. And we are asking for this cloth, made - to - your - order, in Suits or Overcoats, the same as any ordinary tailor will ask for the shoddy, shop-tired goods that crowd his shelves.

We are able to do this because on the clothes we sell there is only one profit. As a rule the "ordinary tailor" has some eight charges to attach to your bill. Some companies dealing in a larger way have the expense bill of a special representative who spends two months in Europe, and that adds a little more.

So we have rather what you call "the drop" on any other tailoring proposition

Should He

nals

in Toronto. Also we have our Spring Goods here—they are not coming — they are here.

When you are going to buy your clothes, why not see that you are getting Made-to-Order Suit or Overcoat the latest, and not some "Clearing Out" of old goods? And the Made-toorder Suit or Overcoat we sell you is worth anywhere from twenty-five to forty dollars at any other clothing store in Toronto.

We want you to call at once, even if you do not purchase—see just what is right in the new patterns. Every inch of cloth has but recently arrived from the old land, and is guaranteed.

If you are not satisfied with the suit or overcoat you get here, just ask for your money back—it will be cheerfully refunded.

CUSHING WILL TELL WHY HE BROKE WITH GOVT

Has Promised to Make Statement To morrow-Break Be lieved to Be Due to Disagree ment With Railway Policy.

EDMONTON, Feb. 19.—(Special.) Just what caused the resignation of cabinet will be known Monday spatch sent east from Liberal sources is due to the railway policy of the administration. It says in part: "The real issue which caused the split, however, is thought to have been the contract for the construction of the A. & G. W. Railroad, upon which the government is expected to guarantee bonds to the extent of twenty thought Dancing took place in the ballroom and buffet supper was served on tables bright with daffodils. The guests included: Miss Clarke. Miss Marion Douglas, Miss Stella Minns, Miss Edith Urquhart, Miss Helen Urquhart, Miss M. Glover, Miss Stahbury, Miss Ethel Dunning, Miss Frances Gardiner, Miss H. Rothwell. Miss A. Rothwell, Miss Marion Dalbey, Miss Helen Strachan, Miss Gladys Alley. Miss May Harding, Miss Olive Bonner, Miss Marjorie Wilkinson, Miss Elsie Keith, Miss Lilian Cox, Miss Hazel Keith, Miss Lament. sand dollars per mile, or seven mil-lion dollars in the aggregate. The essential terms of the contract canto the company upon the completion of the road; (4) Spurs to be paid for at the rate of \$20,000 a mile.

Mr. Cushing declares the contract was made during his absence or ill-ness, notwithstanding the fact that it should have gone thru his depart-ment, and he was not consulted at all in the matter, nor given any information whatever. After getting the specifications he submitted them to his engineer and deputy, who declared that such roadbed could be built

February.

Oh, sing out a song when the nights are long. And the evening hour is chill, When the winds go by with a sob and a sigh
And the clouds in the sky are still;
When never a bird in the land is heard,
And every voice has a rift.
When the rivers freeze and the trembling

Stand up to their knees in the drift. Then it's hi, ho, hi, when the woods All lie

A-hudding up 'neath a wintry sly.

And it's ho, hi, ho, when the north winds blow.

And the whole world sleeps in the deeps of the snow.

So, hey for a lay when the dawns are gray,
And the morning sir is swift,
When the fields of white are a cheerful sight.

And the clear, cold night is a gift;

When the breath of the fir and the pine

All our days with a poignant thrill.
And the winter's soul is a brimming bowl.
Which we pledge with a whole heart's Then it's hi, ho, hi, when the woods all lie

A-huddling up neath a wintry sky.

And it's ho, hi, ho, when the north winds blow.

And the whole world sleeps in the deeps of the snow.

Premier's Reply.

In the premier's reply, as read by himself to the house, he expressed surprise that the administration did not meet with Mr. Cushing's approva the resignation was accepted and plac-ed in the hands of the lieut.-governor. On closing the epistle the premier remarked that Mr. Cushing desired to postpone any statement he may make relative to the cause of his resignation. Later Mr. Cushing explained that he was afflicted by a severe cold and would state his position to the house on Monday. He said that he certainly disagreed with the government on certain particulars of the ad-

LOGANSPORT, Ind., Feb. 19.—The hody of John F. Johnson, former president of the State National Bank of this city, was found floating in the Wabash River today. Johnson served six years in prison following his confession that he had embezzled \$550,000 of the bank's funds. Recently he had been a grain broker. It is presumed that he committed suicide.

Piano Perfection

Beauty in the finish of a piano is only veneer deep. The most important point of all is quality in construction.

The Newcombe Piano excels all others

In construction—and we can prove it. It not only posunsurpassed tone, but is so made as to guarantee permanency of both. This is possible because of the

Howard Adjustable Tension Rods

Which are used exclusively in the Newcombe Piano. These rods are bolted through the back with the iron plate by tie bolts. They counteract the strain caused by the tension of the strings, and maintain the sweet, full tone for the full life of the instrument.

Send for booklet giving full particulars of this

NEWCOMBE PIANO COMPANY, LIMITED TORONTO, - - CANADA

Picture Your Piano a Generation From Now

What will you expect from it? What would you like to expect from it? Common pianos bought even ten years ago to-day possess only the poor ghost of the tone they once had; their music is thin, metallic, harsh; the hammers need constant "picking" to "soften" the tone; the strings require frequent tuning; the action constant aligning and repair. All these are weaknesses which the innate soundness of construction, the master-touch of exclusive patented improvement, have entirely obviated in the

Vondering Whether "Joe" Thompson Will Stick

Definite Answer Yet, But Commissioner Can Make Triumphal Exit If He Wishes To Do So.

CITY HALL COMMENT

Will "Joe" Thompson stick? This is te question being asked in civic cires since last Monday, and there is definite answer yet. The issue is to o Toronto what the Pinchot-Ballinger oversy is to Washington, in so far s it has given the public what it likes: a glimpse behind the scenes of

"It only goes to prove once more that when a man gets a job at the city all, it's impossible to get him out, wen if he wants to go," is the coment of an alderman, who was not "Joe" ne of the fifteen who voted to ask Mr. mpson to reconsider his resigna-That this inference is not justiis apparent, when one considers lumber of civic officials includng the corporation counsel and city clicitor, who have left the service uring the past year. It has been the sual custom to accept resignations then proffered, but in the case of the ommissioner of industries the contions were exceptional. Other officials either resigned on account of illustration or with a well-defined new cals either resigned on account of hi-health or with a well-defined new beth in prospect. Mr. Thompson is a robust individual, and, beyond his statement, which no one will question, that he had an option on more than one good commercial proposition, he might be considered to be booked for us unknown. Some sage ns are inclined to think that, if missioner really goes sail on age, it will end in that wide ensively referred to as Bill and Dan" interests. These nosticators base their calis first on the ground that Mr. on is a relative of R. J. Fleming and secondly, on the fact that he has been in rather intimate touch with Mackenzie and Mann concerning the iron smelter project for Ashbridge's Marsh. The commissioner, who really should know better than anyone else, discourages such theories, but, his reticence being a fair imita-tion of the sphinx, rumor still per-

Many Drastic Provisions in the New British Columbia License Law -In Effect on

Aug. 1.

VICTORIA, B. C., Feb. 19 .- (Special.) -High license and the strictest supervision and control of the liquor traffic generally to be found in any part of British America are adopted in the new provincial act originated and personally drawn by Attorney-General Bowser, which has just been accepted by the British Columbia Legislature and replaces all other provincial law on this subject from Aug. 1 next. The new act contains the most radical and drastic features of some 37 different state, provincial and federal license and liquor statutes, and if vigorously enforced, as it is promised it will be, it will make this province (while still in EXPERIENCE IN NORTH the "wet" column) the poorest country for a liquor man to make a living in to be found in all America.

Claim Will Be Effective "Infinitely more effective for temperance than the so-called Scott Act (the Canada Temperance Act), while based on the principle of high license and the down-town section. by the law department of the crown, this new law," to cite the opinion of one of the judges of British Columbia's Appellate Court, "goes further toward the legitimate aims of prohibtion than Scott Act or local option could, since it preserves effectually the uniformity of the law thruout the province."

eter registering 54 to 60 below zero, That the local option crusade and plebiscite have operated largely in inducing the attorney-general and the government to present this radical leg-bility of the Trust company purchaswithout food, matches, ax or knife, Vernon Brewster, an old-time prospector, was forced to kill three of mis dogs in order to save his own life in the

Brewster has just reached Nome to recount his terrible experience. His journey down the Koyukuk was beset with terrible privations and multiplied hardships. He was making his way from Chandler to Beetles, and had food chasing policy of any retail house, thus striking at the tied-house system, that for but three days. In taking a short cut, he missed Beetles and struck the has proven a curse in England, and is just gaining a foothold in this province. river below where the store is located. On the sixth day out his condition became desperate. He feared that if Under the new law, hotel licenses he slept he would freeze to death, and almost exhausted with hunger he killmay only be obtained after careful investigation of the character and qualied one of his dogs for food.

For the next few days he went without food, and then, growing weaker and realizing that his team could not hold out much longer, he killed another dog to satisfy his own hunger and the ravenous appetites of the team. Five days later, with death again at his elbow, a third dog was sacrificed. On the control of the con of further licenses. Hotel license fees are on a sliding scale, involving in-creases of from 50 to 66 per cent., from

the sixteenth day he staggered into the river, where he was immediately given medical attention and nursed back to normal health. One of his hands was \$125 to \$300; commercial travelers must rozen, and his face scarred in pay \$200 per annum and sell exclusively to the wholesale trade; railway and steamboat licenses are increased in cost from \$50 to \$150, while the miniminer, reports an even worse exper-ience. He became lost in a blizzard mum penalty under the new act is \$100 and the maximum \$300—with loss or

close at 11 p.m. Saturdays, remaining closed during Supdays, and such bars must be locked and so arranged that all may see they are empty and desert-

No liquor may be at any time sold or given to: Dipsomaniacs; persons of drunken habits, persons addicted to sprees or debauches, persons who no-toriously waste their money in drink or riotous living, vagrants or tramps, prostitutes or Indians.

No liquors may be adulterated, mixed, rebottled or relabelled.

HIT BY STREET CAR. While crossing behind an east bound Durdas-street car, from which she had just alighted, Miss Olive Fitzsimmons, 27 Law-street, West Toronto, was hit by a west bound car and thrown about six feet. She was picked up uncon-scious by Fireman Arthur Tomlin, of John-street division, who saw her hit, and taken into C. G. Lemaitre's drug store, which was near by, where she was attended by Dr. Beatty. Miss Fitzsimmons was slightly bruised around the head, but it is not thought she sustained any internal injuries. Later she was taken in the police am-bulance to the Western Hospital.

Not Incriminated. ATLANTIC CITY, N.J., Feb. 19.— (Special.)—After subjecting the prisoner thruout the night to the trying ordeal of the "third degree," the police authorities of this city admitted to-day that William Zyler, accused of causing the death of Jane Adams, whose body was washed upon the beach last Sunday, admitted nothing to them that would incriminate him. The inquest in the case will be held either Monday or

Wives Have a Voice.

Under this new law, wholesole licenses are placed at \$300, with strict prohibition of any drinking upon the licensed premises, or of sales except in bona-fide wholesale lots In addition, no brewery or wholesale house is permitted to control or dictate the purchasing policy of any retail house the sale lands.

In Northwest. Witness ter of his being interested in those lands personally, and Dr. Oronhyatekhad had replied he had no expectation of benefiting by the deal, but was planning to erect the proposed orphans' home.

Swan Deal Again.

Coming back to the Swan River deal witness said that the proposal to invest in north west lands.

Directors Concurred. The minutes of a Union Trust meeting of June 23, 1903, were read, showing that on receiving a report from the managing director, Mr. Foster, regarding the proposition, authority was fications of the applicant and upon petition in his behalf of two-thirds of the residents of the interested locality, including all with a secure one per cent of the residents of the interested locality, including all with a secure one per cent of the residents of the interested locality, including all with a secure one per cent of the residents of the interested locality. cluding all wives and children. Where there is an adulte white population within a radius of one mile of 1000 persons, a maximum of the control of the contr subsidiary concern, for the moneys ad-

Another resolution of the date Feb. 27, 1904, was quoted wherein Mr. Foster was authorized to accept debentures for \$25,000 in the Alexandra Palace proposition, in addition to the \$200,000 already advanced. Decided to Take Stock.

Witness testified that on June 22, 1903, the directors had resolved to take stock in the Great West Land Co. for moneys advanced. He was not at the meetings, but the minutes verified his Subsequent to the exercizing of this option to take stock, witness had expressed the opinion that it was not a wise policy, because several gentlemen were on the boards of both companies and he felt that the occasion might arise when interests might conflict. He had no recollection that objection had been raised by any other directors to the arrangement, altho later some difference of opinion did arise regarding the holding out of the 237 shares of bonus shares. A subsequent meeting reversed this decision, and a mortgage was taken

on the lands. Profit in Sight. Dealing with the present situation No one in any part of the province is of the investments, witness said that permitted to sell or give liquor at any sufficient lands had been sold to bring the outlay down to \$400,000, and the remaining lands were of such a value as to make the Great West Lands stock worth the par value. He was sure that the Union Trust would emerge from the great Northwest land deals with a liberal profit.

Kept Two Accounts. The Union Trust, witness said, kept two accounts of funds received from the I.O.F., one of money received for trust company stock, and the other the funds received for investments. Moneys invested in the various enterprises might have come from either stock or investment account, for the time being, but at the end of the year the entire amounts would be charged to capital or stock account. During 1904, practically \$350,000 was paid into the land and timber enterprises, and nearly all, in fact, all by \$85,000, came from the capital stock funds of the Uuion Trust, rather than trust funds from the I.O.F. received for invest-

His impression was that any amounts coming from the I.O.F. as a result of the Foster letter appeals. could only come as call payments on

Behind in Payments. During 1504 the I.O.F. was at different times behind in its payments to the Union Trust on stock account.

Between April 18 and June 10 that year, the I.O.F. was behind these payments to the extent of \$317,-

to stock an Made No Charges. "Do you charge that there was any misappropriation of these funds?" asked counsel, but the question was ruled cerns. out by the court.

"I am making no charges at all, but you know, Mr. Hellmuth, that I have criticized some of these things, and I don't want to have my opinion brought in," said Mr. Stevenson.

"At any rate, you approved of these

Re-examined by counsel for defence, witness testified that up to April, 1904, the I. O. F. ractically had no security for money paid to W. H. Montague for investment in lands. Witness had discussed with Dr. Oronhyatekah the mat-ter of his being interested in those

discussed. Witness said various amust had been paid over to the Trust Company by the I. O. F. as a result of appeals. In 1904, \$397,500 was paid over to the Trust Company by the I. O. F. as a result of appeals. In 1904, \$397,500 was paid over the proper and legal for a bank to lend ment account. These moneys all came from the mortuary funds of the LO.F.

Witness read from the Union Trust Court then adjourned for luncheon, who are interested.

I never approved of the Great West land deal and I never will, but I did authority was given for the advancement of funds to the Great West land to the Great West land to the Great West land. close that the manager, Mr Foster, of six per cent. annually, \$5,048,600. had any interest in the lands.

Directors Tripled Voting Power.

The Kamloops Deal.

to take a controlling interest in a tim-ber property in British Columbia held by George W. Fowler under option from Peter Ryan. The manager, Mr.

Nothing contained in the minutes recalled that Mr. Foster had a personal interest in the Kamloops proposition, in which the Trust Company eventually thus giving the directors tripled their voting power, and the \$1,700,000 common stock in the old company was transformed into \$5,100,000 in the new company, in which the Trust Company eventually put a million dollars.

Takes Charge of Lands.

Coming back to the Great West Land Company affair, witness said that at a meeting of the directors, held Nov. 13, 1905, it was decided that the Union Blocks of it had been sold several times and had come back to the company. Finally some of it had been exchanged for Winnipeg property and had not been returned as yet.

Trust. Co. should assume the position of mortgagee with regard to the who gave a ed enquirient of the concern for security on money adhad not been returned as yet.

Trust. Co. should assume the position of mortgagee with regard to the who gave a ed enquirient of the concern for security on money adhad not been returned as yet.

The powell wished to know whether worth of honus shares were held by smith 12.1 Trust Co. should assume the position witness was aware at the time he approved of the fact that \$55,000 of son, but witness took the ground that the money put in the Kamloops deal it was not the intention to pay out whether the went as a rake-off. Question was objected to.

Westra were held, by smith I Huntsberger and the Imperial Tea Company went mad. Just what the money put in the Kamloops deal it was not the intention to pay out unless they went crazy thru wearing bonus shares, and insisted that those muzzles. So far as is known, they bit shares be turned back.

They were turned back after the Investigation.

Dealing with Kamloops affair again, witness said that in May, 1906, the question of the value of the Union Trust Co. stock came up. Parties were considering the matter of purchasing a large block of Union company stock and they questioned the value of the Kamloops asset, and it was finally agreed that the I. O. F. should take over that asset, leaving the Union Trust stock thus unencumbered. This

concluded Mr. Rowell's examination of the witness .. Cross-Examination. Cross-examined by Counsel Hell-muth, witness said that the Kamloops ceeding months of the year, \$83,000 asset had appreciated in value to such was paid each month, and \$116,000 in an extent that he expected a profit of \$50,000 would ultimately be realized | Plummer attended a meeting of the Steel

THE SCARE

Afraid of Even Having Muzzled Dogs on the Street-"Joker" in Dominion Power and Transmission Company Deal.

HAMILTON, Feb. 19 .- (Special.)-On account of the number of people bitten yesterday by the alleged mad dogs, the board of health has telegraphed to Dr. Rutherford for authority to enforce an order prohibiting dogs, whether muzzled or not, from being allowed to run at large. The board wants power to compel all owners to keep their dogs under lock and key, and it desires that part of the government's order permitting muzzled dogs on the streets be canceled.

Dominion Power Meeting. According to what some of the shareholders say, the annual meeting of the Dominion Power and Transmission Co. on Monday will not be the ordinary cut and dried affair. They claim that they have just discovered a "joker" in the terms of the exchange of the stock of the Cataract Power Company for the stock of the recently formed Dominion Power and Transmission Co., which tripled the voting powers of the directors, who owned amongst them-selves nearly all of the \$1,700,000 common stock, which was practically all water. When the new company was formed, the stock of the Cataract Co. was made up as follows: Common, \$1,-700,000; preferred, carrying dividends

While there was also a lot of water The company's sinutes were also read concerning the Kamloops deal.

Mr. Foster was represented as having laid before the directors a proposition to take a controlling interest in a time bar property in British Columbia hald. Foster, was authorized to continue ne-gotiations.

The inalized in the old. In that way the directors tripled their voting ered stock power to outvote we molders of the preferred stock, which does represent some cash, and which in the new company amounted to only what it did in the old, \$5,048,600. A shareholder caused a stir at the annual meeting of the Cataract Power Comwho gave answers to some of his cointenquiries was Lieut.-Governor J.

Dogs Went Mad. This morning dogs belonging to Ed caused them to break out is not konwn, unless they went crazy thru wearing muzzles. So far as is known, they bit no person, but they had a time of it all to themselves before being captured. The police say positively the ani-mals were suffering from rables.

ONE HUNDRED PIANOS SOLD

This is the Record of the Williams Piano Club for One Week.

The great piano club of 500 members which the R. S. Williams & Sons Co. have formed is without doubt the greatest event in the piano trade ever known in Toronto. Over 100 pianos were sold the first

week and the club has only just start-The piano is their regular \$350 in-

strument, but club members get them for \$257.50, a saving of \$92.50, on terms of \$5 down and \$1.25 per week.
There are several other features of

the contract which make it most attractive. The 30-day trial proposition, which gives you the opprotunity of reutrning the plane and having your money refunded if not satisfactory; the no interest feature, also the life insurance clause, which gives your family the plano without further charge, if the siger of the contract dies-in fact, the whole deal is the fairest ever or-

They also allow 12 per cent. discount on all payments made in advance. which is three times what the interest would amount to on money lying in

This great club plan, involvnig over \$100,000,00 in cash, should appeal to every working man in the city, as it gives them the chance to give their family a musical education on vereasy terms.

Horses in the Limelight-Edward's Best Turf Prospects for Coming Season-Startling Rejuvenation of a Son of St. Damien.

Conflicting testimony at Ottawa has continued to make confusion more conmember of the Toronto Police Force against that of Chief Grasett in support of the theory that berting could be entirely suppressed. Col. Grasett deposed that in his opinion the oblute prohibition of betting between individuals would be impossible of Carefully prepared documentary statements have been filed

Popular Woodbine Race - birds, who had made horse-racing their scape-goat. The pronounced differences in the attitude of the mempers of the committee as expressed Miller Bill Situation-King by their comments indicated that the nbers were extremely unlikely to readily arrive at an agreement upon report, and were certain not to adopt the drastic clauses as at present proposed in the bill. While the Doto by those who assume a hoscile prosition to the racing interests the facts are accumulating that the European countries are giving the question of had been eye-openers to the stable, horse breeding increasing acteution. but the bookles' clockers were in the report just to hand shows what the Germans are doing in the way of horse breeding. The Prussian Government alone expends a vast sum, but conducts its operations on a business basis calculated to reduce its deficit to a minimum. The Prussian taxpayers, however, were required to supply three-quarters of million dol-lars to make the books balance. In the Prussian main studs there are 38 stallions, 743 brood mares, and 2450 young. At the country studs 3438 stallions are maintained. In England sociations. As an answer the advocates of the drastic new legislation advocated, put in the alleged confessions of several Central Prison jailwhere the landed aristocracy, head-

Toronto horsemen have had a sensational week. J. E. Seagram's castoff the Deuce, came into the limelight by winning at long odds at Junrez. The old horse had been cursed along by S. N. Holman, his present Canadian owner-trainer, whose hopes of getting another good race out of the seven-year-old half brother of the one-time popular Woodbine favorite, Merry England, were fully gratified. When the Deuce a few summers ago Toronto horsemen have had a sen When the Deuce a few summers age made his appearance under the Sea gram colors the stable and its followers came near making a greantic coup. The Deuce was bought b" Mr. Seagram as a good prospect after breaking down. With good care he ecame apparently as sound as any horse in the Seagram string and was ambitiously entered to carry the Seagram silks against Diamond, whose on Parliament is being appealed six furlongs in 1.11 4-5 on Victoria Day, 1906, at the Woodbine, was and is the Canadian three-quarter m record. The work-outs of the Deure dark. Big odds were offered against

the Deuce and as freely taken. the order came for a new book to be made as Diamond and a stable mate had not been coupled by the pencillers. In the meantime light had dawned on the bookmakers and the Deuce became one of the choices. This did not avert a plunge on his chances, and the St. George colt gave Diamond such an argument that the Thomas crack scantily escaped defeat. ier imposts rendered the Deuce's subsequent career less satisfactory, ani he was desposed of ultimately, to his present owner's gratification. man the same day that the Deuce enriched him had Tiflis, trained, by him for A. He is a candidate for the Suburban, as well alty since the publication of the weights. His handicap of ninety pounds in the Suburban will be increased by an additional four pound thru his recent victory in the Old Town Handicap at Jacksonville.

WELL EARNED PROMOTION. Former Canadian Racing Official Made Judge For New York Club.

One of the best-known and esteem ed Canadian racing officials has just had his high personal qualifications recognized in a manner very gratifying to his many Toronto and Montreal friends. This was by the appointment of C. J. Fitzgerald as placing judge for the New York Jockey Club tracks for the coming season. The appointment was made at the regular monthly meeting of the stew-ards held at the Windsor Arcade, New York, and was made necessary by the death of Clarence McDowel last fall. Mr. Fitzgerald has been associated with racing for several years and for many seasons was a starter over the jockey club tracks, later filling the Monday, Wednessame position at the Fair Grounds track in New Orleans. He has filled day and friday. several other offices for the jockey club and his last active connection with racing about New York was the management of the Brighton Beach hand for Private

Racing Association. When the Brighton Beach Associa- Sale. tion declared off its second meeting in 1908. Mr. Fitzgerald associated himself with racing in Canada, and last year he was managing director of the Montreal Jockey Club. He also has on various occasions served in

the stewards' stand. The American spring racing season is likely to open fourteen days ahead of the New York circuit by a twoweeks' meeting at Jamestown, The Jamestown Jockey Club has applied to the New York Jockey Club for a license to hold a meeting, lasting two weeks, beginning April 1. club has named Joseph Murphy as judge and general manager.

The Brooklyn, Suburban and Brighton Handicaps will have an interesting contender in Prince Imperial, who has been assigned the lightweight of

The Royal Prince, a brother to Prince equalled the American record. His run was three and one-half furlongs in 40 seconds. The Royal Prince, 2, br. g., by Star-Shoot-Dixoletta, is owned and trained by John Marklein.

The closing date for the new winter track at Juarez, Mexico, opposite El Paso, Texas, has been fixed for Sun-Among those who will be present is

Governor Enrique C. Creel of the Province of Chihuahua.

GOD SAVE THE KING. Prospects For the Royal Stable This Year's British Classics.

Last year was notable for the ess of His Majesty's colors. This ear the royal stable has thirty horses n training with prospects none to alwinner for King Edward of his third Derby, was appropriately given the Japanese name, meaning success. He provides a host in himself, but is matched against rivals whose chances appear equally as good as his own. Minoru is a four-year-old by Cyllene—Mother Siegel. The King has a fair chance with Princess de Galles, br. f., 4, by Ganinule —Ecila, who won one of the richest stakes at Ascot.

A possible candidate to carry the royal colors in the Derby this year is Capture, 3, ch. c., by Cyllene-Kore. Capture is one of a quartet owned by Lord Marcus Beresford, who will race 17, Liverpool; March 22, Nottingham; for His Majesty this season.

His Majesty's best three-year-olds are considered to be Orellius, by Orme—Eclla; and Border, Prince, by Persim-

The royal two-year-olds embrace eight colts and four fillies. Thirty in training are completed by a colt and a filly owned by Lord Beresford. The Earl of Roseberry's Neil Gow,

is believed by the leading English handicappers to be a sure thing in the Two Thousand Guineas.

Sir W. Ross' Maid of Corinth is strongly supported as the probable winner of the One Thousand Gunieas.

A reason that is being advanced for the American horses not being more successful in England during the past season is that it was chiefly cause by the prohibition against the using of plates and calks. American sharp horses are accustomed to being so equipped over the dirt tracks and the plates were doubly missed when they had to race over the grass courses

A drop in the temperature to fourteen degrees below freezing, put a crimp recently in the winter steeplechase meetings. The Gatwick meeting was abandoned altogether and the Windsor meeting postponed.

The acceptance for the Epsom City and Suburban foreshadows a very interesting contest, as Sir Martin is entered here, and partisanship will run high between the admirers of the American-bred colt and King Edward's Minoru, for it has been argued that had the former kept his legs he would have beaten the royal candidate in the

The high water mark for big purses has been reached by the Baden-Baden, Germany, Jocky Club for their summer meeting. They will distribute an average of more than \$25,000 a day in

GILT EDGED GIFT-HORSE. Remarkable Episode on the British Steeplechase Turf.

An equine rejuvenation has been witnessed on the British turf. Scmetime ago a lame old French. steeplechaser, named Honore II, was given away to a race course employe, who was about to quit as gate-keep-Upper Warkingham Barracks. of E. Woodland, a clever steeplechas- due to this care that races are He came on so well that he was en- preciation and cost of upkeep, tered for a 150 sovereign purse (\$750),

to the post. Honore II was a rank outsider at 25 to 1. His owner a thrifty, careful old man had become excited over his horses chances and put on a good bet. "Put a pony on the old fellow," he said to a friend, who caught the contagion enough to back Honore with four sovereigns at 25 to 1, and later added three more at 20 to 1. Despised alike by handl-capper and bookmakers Honore II had a pull of 16 lbs. on the favorite, The Pilot, and carried 19 lbs. less than Rough Pup, the second choice. In the running, which included a water jump, Rough Pup fell, and the favorthe suddenly broke down. Honore II who had been well up thruout then drew out and won by four lengths. Honore II proved that he could once once more both gallop fast and jump quickly. Hence II is of high pediquickly. Honore II is of high pedi-gree, being a son of St. Damien, sire of Lutteur III.

Honore is a brother of the winner of ast year's Grand National. The following are the English flat

race fixtures, opening days, for March and April.—March, 14, Lincoln; March March 28. Easter Monday, Birmingham, also on Easter Monday at Newcastle: March 31, Catterick Bridge.

April 1, Alexandria Park; April 4 Warwick: April 6, Leicester; April 7, Bogside: April 8, Newburry; April 12, Newmarket Craven Meeting; April 15, Derby Spring Meeting; April 19, Epsom Spring Meeting; April 20, Pontefract; April 21, Sandown Park; April 22, Stockton; April 26, Newmarket Spring Meeting; April 29, Thirsk; April 30, Hurst Park.

August Belmont has the following orses in training at Newmarket-Norman III, Hasty Pudding, Merry Task, Boudoir Amical, Belfry II, Sands of the Orient, Sandwich and Prickly Pear.

RACING IN FRANCE. Features of the Turf at the Parisian Courses.

H. M. Ziegler, in an interview at Cincinnati, on his recent visit to France, gave an interesting account of the French turf. "I went a great many times," he said, "to the tracks around Paris, such as St. Owen, St. Cloud, Auteul and Maissons Laffitte. It is splendid sport there. The racing is conducted by the government, and the racing associations are allowed to make only five per cent. on their investment, the balance of the receipts roing to the state. The plants are magnificent parks, far superior from an artistic standpoint to anything in America. None of the tracks has such large, and elaborate grand stands as that at Belmont Park, for instance, but that is because the French racegoers do not seem to care so much for going into the stands. They prefer to walk about the lawns, which are large, well-kept and beautiful. The very best class of people attend the races and the sight is one never to be forgotten, with the ladies in gala costume and the gentlemen dressed in the height of fashion.

"All the betting is done by the pari-Mutuel system, which is satisfactory to the public. The horses carry heav-ier weights than on this side of the Atlantic. They run longer distances. Nearly all the races are at distances greater than a mile, and many are three or four miles. The French would laugh at the five and six furlong dashes. We have a vast amount to learn from the French, and the English too, in the matter of conducting race meetings. They take a keen interest in

Adjustment and timing of the valves and the condition of their seats have conveyance of officers to and from by the gas engine. Cars that are conthe Upper Warkingham Barracks, stantly before the public, in racing as some of the other handicaps and is the first eligible to pick up a penhis gait, and attracted the attention care given to these details, and it is er trainer. All traces of unsoundness The touring car, whether cared for had disappeared and the trainer in-duced the old gate-keeper to have him much better satisfaction, will develop train Honore II again for the races. better power and speed, with less decared for properly and kept in firstat Lingfield. A field of seven went class order.

among the restaurateurs and chiefs of Paris that has proved money in my pocket.

"A little more than ten years ago in the New Yorker and the New Yorker.

the New Yorker, or to be more exact, the Broadway von viveur, thought that a dinner of oysters, celery, trout, ago came to New York.

Here is Rector's ideal.

statorially speaking," continued
, "New York is the Paris of steak and potatoes was the height of culinary delight. Entrees, dainty sauces, small portions of delicacies that pleased and soothed the palate, without sating one were little known. Of course there were always Ameri-He is the man who is responsible for the Cafe de Paris, which all wise Americans immediately make for when they go to Paris. In addition he has Foyot's in the Latin Quarter and cans who traveled, who knew good food and good wines, and there was Delmonico's, where as high an artistics standard as any in the world was maintained.

They Have Learned.

"He sets the fashion in root, and wholesome, hearty eating, a forth and Paquin do in hats and wholesome, hearty eating, a forth and his brain is ticking day dishes and each portion a small meal mocks, and his brain is ticking day dishes and each portion a small meal like an eight-day clock, itself. Now all this has been graduand night like an eight-day clock, two years in his kitchen, and it is the ed more and more, and have come to training any man can have who pay more attention to their food. The; have visited the splendid restaurants of Europe and they have returned wendering why they couldn't have But to get back to New York. When you ask me how tastes in the city have changed since I have been here I think something like that at home. And when Americans with money begin to adway-in fact, I may as well admit wonder why they can't have a thing, it is principally the tastes of that thing is mightly apt to appear dway that I can speak of with pretty soon in their midst. It is due to the increased travel abroad of Americans that they many high-class en I first came here I set about tudying the tastes, or what I fancied restaurants in New York have sprung to be the tastes of the people who give into being in the past quarter century. They are the natural outcome dining, and it was my aim to give a demand that had to be grati-

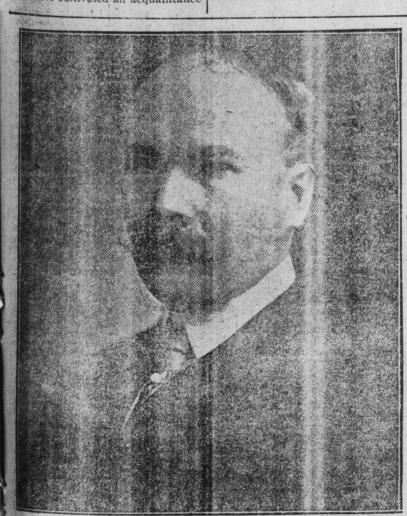

"And with the development of the tastes in food has come a demand for wanted, and that the thing not more attention is paid to the service of a place as is paid to the food, A restaurant can win a big reputation for its service alone. Look at the Waldorf, for instance. Wherever you all, it is the latest from Paris! Waldori. For instance, wherever you will hear go—all over the world—you will hear men speaking of the perfect service there. And on the other hand how often you hear a man remark about a place where the food is excellent, 'Oh, I had an impudent waiter there to that place," or something similar.

"But the development along these lines that I have mentioned has by no means stopped," concluded Rector. "I look for New York to have as many fine restaurants as Paris, and for the day when New Yorkers will know as much about fine food and wines as the high-living Parisians The increase in new restaurants and hotels in this section—the neighbor—Below For a Free, 50c Package. hood of Long Acre Square-in the past have a German or an American year or two shows this prediction to ther in my place—only French and be well grounded. USE GERM VACCINATION

Sterilized Liquid Solution of Bacilli of Disease Injected With Good Results.

LONDON, Feb. 19.-Research work on a new treatment for influenza, interrupted during the summer months by a dearth of influenza patients, has recently been taken up again at St. Mary's hospital, Paddington. The new treatment, which consists of injecting hypodermically a sterlized liquid solution of influenza germs, is similar to

the bacilli have been obtained all fur-ther germ activity is prevented by heating the culture broth until the

Nature Antitoxin Utilized. so that the physician can accurately gauge the strength of his dose.

The new treatment is based on the theory that recovery from any infectious disease such as infipenza results from the killing off of the attacking germs and the neutralization of their germs and the neutralization of their

dainty ins the germs flourish and multiply, while more and more poisons are produced until the patient succumbs. If nature's antitoxins are the stronger the attacking germs are gradually killed off, the poisons are neutralized and recovery ensues.

Doctor Controls the Dose. The artificially prepared influenza serum, when injected into the tissues, causes nature hurriedly to put forth an extra supply of antitoxins and so helps to put an end to the disease. The *bacilli contained in the serum having been killed by heat before the vaccine is injected, no further poison production can take place, the doctor absolutely controlling the amount of toxins introduced.

tained with the new treatment at St. Mary's last year, it has been impossible to take up the work again this winter until recently, owing to the unusual freedom from influenza London on view at the top. The food is good. has been enjoying.

BOY ROUTS BUNGLAR

Christmas Watch Saves Him From Knife Thrust-Robber Flees Before Defender.

WAKEFIELD, R. I., Feb. 18 .- Earl Rollinson's star gifts last Christmas were a jackknife and a small silver. At the head of the stairs he met a watch. Earl is just 15. By day the man. Earl shrieked, but he kept as watch and knife were invariably car- nerve.

How Fat Women Can Reduce Their Waists.

Fat shows a preference for the abdomen, chin, ankles, hips, etc.—the quiet spo(s—just the places where it can show that is to be done—exermost, or worst. What is to be done—exermost. cise and diet—are they the only alterna-tive? On the contrary, they seldom do

Awakes, Hero of the Hour.

use the Marmola Prescription Tablets. One of these after meals and at bedtime will produce the requisite reduction without bother, delay or harm. In a few weeks you can be losing a pound of fat a day. It will drop off, as it were: disappear as quietly as it came; remove uniformly without causing even a suspicion of a wrinkle or distress. Meanwhile, eat and act as usual; deny yourself, nothing. It is not required, if Marmola Tablets are used.

Get off two inches of waist line before the month's end. It can be done-certionly, cheaply, safely. The Marmola Tablet is nonlinjurious (it being made after the famous fashionable formula—½ oz. Marmola, ¾ oz. Fl. Ex.—Caseara Aromatic, ¼, oz. Peppermint Water), and it costs, only seventy-five cents, the large case, of any druggist, or direct from Marmola Co., 837 Farmer B.Gz., Detroit, Mich. Wm. Ramsay.

sharing with Earl all the honors due a

It was midnight. A strange noise reached Earl's sensitive ears. It was not the cat, for she was in the cellar. The family were asleep. It might be burglar. Earl alone heard. From beneath the

oillow he drew his precious watch and placed it in the pocket of his pyjama coat. Then he secured his jackknife. In an instant it was opened and clenched firmly in his right hand. another instant he had crept stealthily toward the direction of the strange

Halts the Glittering Steel.

The intruder uttered a curse. ried in the most secure pockets. At The light thru the window betrayed a night they were carefully concealed glint of glittering steel. It fell with beneath the pillow. force on the lad's chest. But it struck To-day the knife and watch are the watch and failed to penetrate the force on the lad's chest. But it struck skin. The watch case was dented, the srystal smashed.

Earl was now on his metal.. With a fierce lunge he aimed his trusty knife at the burglar's breast. The intruder dodged, but not in time. The boy's blade gashed the burglar's hand and

A better plan for ruducing the fat is to awakened, investigated, found that no awakened investigated, found that no booty had been secured, and, after replacing his blood-stained knife and placing his blood-stained knife and Earl assured his parents that he was

Farmers Will Be Buyers When Autos Are Built To Suit Requirements

A Market of Great Possibilities That Remains Almost Untouched-Class of Car That Appeals-Must Be Light and

The prosperous farmers of Canada, in eastern and western Ontario and the Niagara districts, are watching very closely the development of the farm automobile by several of the leading motor industries of Canada. There are two or three firms, two at least we should say, that are now beginning to make a special study of the needs of the farmers and are ouilding cars suitable for this class

deas and the automobile built for the farm must appeal to him along the of his special requirements. What the farmer wants is a small car of good material; one that is light weight but strong enough to stand abundance of power in relation to

Under the heading, "Modern Rural Mechanic," in the last issue of the Orange Judd Farmer, Albert Peterson prehensive manner with Speaking for the far-"The large and high priced cars are a luxury and not a necessity for the average farmer.

Gasoline Not So Very Dangerous

Many People Do Not Under-stand Actual Cause of Explosions.

Gasoline, generally regarded as a rather dangerous article to handle beof seltzer or sola. A stream from cause of its explosive properties under certain conditions, is declared by Vol- blaze is about as effective as anything ney E. Lacy to be comparatively safe, can be used. the proper means and appliances em-

very rapid combustion, causing great heat and consequent expansion of the says Mr. Lacy. gasoline contains neither, it is readily tank, in other words in a liquid form. In order that gasoline, or, in fact, any ward. liquid fuel, may be ignited, it must first be vaporized, then mixed with ever air comes into contact with gaso- him who line the process of vaporization is set trying to up and the gas resulting is, in general, is readily understood when it is remembered how carefully the needle valve must be adjusted that ignition in the cylinder may result.

it vaporizes easily. The application of heat causes the liquid to gasify. At or below a certain temperature it rethe vapor does not come into contact cranks a motor with his left hand, with the flame and in the presence of air no ignition or combustion will

"If a can of gasoline be set on a ficient to relieve the pressure caused by the expansion due to heating, a match applied at this opening will simply cause the issuing gas to burn, just as the gas from a jet in your home. It is no more possible for the flame to enter the can than for the flame at the gas jet to run back into the pipe. This is just the condition prevailing in a gasoline tank in a car. The atmosphere above the gasoline in the tank would, in almost no instance, centain more than a very small per-centage of air. For this reason it would be next to impossible for the tank to explode. Explosion of the It is unsightly, uncomfortable, spoils the figure, tank could not take place other than causing wrinkles, flabbiness and loss of vigor. by flame entering and causing greater pressure than the vent could relieve

or the tank would stand. "We often bear stories about fire actually running back thru the gasoline pipe to the tank. This is ridi-culous in the face of the foregoing statements. Simply remember that, there being no air and gasoline vapor in mixture in the proper proportions, there can be no fire or explosion.

"Under the most favorable conditions It takes considerable heat to cause a mixture of gasoline vapor and air to ignite. The popular story about a gasoline fire being caused by the proximity of a lighted cigar is a myth. It takes more heat than that on the end of a cigar to cause ignition. To immerse the end of a lighted cigar into a dish of gasoline would have no other effect than if it were so much water The ignition of a mixture of gasoline vapor and air requires a flame or electric spark, or red hot iron, etc. The only danger, so far as the cigar is concerned, is due to the match which

"All this goes to show that gasoline is not the terribly dangerous substance that it is generally supposed to be when handled with reasonable precaution. The chief requirement for safety is that tanks and piping be provided of such character as to pre-clude the possibility of leakage. There is no danger whatever from any gasoline contained in tight tanks. The fact that gasoline vaper is heavier than air causes it to lie in the lowest places.

"In case a fire should break out do not waste time by throwing water upon it. Casoline is lighter than water, and since the two liquids will not mix the gasoline will float, and throwis no danger whatever from any gaso-

bile should be provided with a good fire extinguisher, so placed that it can one of them directed upon a gasoline

to one of pure concentrated sulpi acid. It is of the utmost import that distilled water and the pure sulphuric acid be used, as impurite quickly affect not only the life of the battery plates but the proper working of the battery, particularly its abilit to hold a charge for any length of time Acids other than sulphuric will ruin to plates absolutely. At the beginning should be on a level with the tops the plates, and at the end of the cha it will have rises about it will have risen about one-quinch. Never use a match to examine the height of the fluid in regard to the tops of the plate, while the battery on charge, and care should be taken not to hold a flame of any kind nea the vent of a battery while charging, for the gases generated may ignite and

AN IDEAL AUTOMOBILIST.

The farmer makes an idea automo bilist. If any little thing is wrong with his car he adjusts it himself just as he goes out and repairs his binder or mower when trouble besets the implements during harvest time. He is perfectly familiar with machinery, the greater part of the work on the farm to-day is done with modern machinery. Automobiles are already owned by hundreds of western farm ers and stock raisers and more buying this year than ever before.

keenly discerning judgment, and commendable work in the dramatic field never lacked his generous support. He was; in short, a true type of the cultured, honorable man of affairs in whom modesty and courtesy were as conspicuous as sincerity and sympathetic kindness were invariable. Those who met him in business socialy never missed carrying away and cherishing afterwards an endearing remembrance of the high qualities which stamped Mr. Dowiey as a man

WATCH WESTON GROW.

Winding for two miles along the eastern bank of the River Humber sixty feet above the river basin, and less than three miles from the City of Toronto is the picturesque Village of Weston, with its six churches, spacieus public school and high school. This is the most beautiful of all the residential suburbs of the city.

At both ends of the village are excellent factory sites of from one to twenty acres, convenient sidings from the G.T.R. and C.P.R. easily obtainable. There are eighteen trains daily, nine on each railway to and from Toronto, timed to suit both business men and mechanics with monthly five-cent tickets to Union Station.

Streets and residences have electric light, gas is being arranged for, and an excellent waterworks system is now being installed, thus affording all modern conveniences. The suburban J. street railway gives a twenty minute service connecting to Keele-street with the Dundas cars, or a Bathurst and Davenport-road. Goulding & Hamilton, 106 Victoria-street, M. 3300, have street, Weston, and are selling building lots, any frontage, at from \$4.00 to \$15.00 per foot, residences with gardens and fruit from \$900 to \$4500, also farms from \$70 per acre up, also sevilation of considered that the cause farms from \$70 per acre up, also sevilation would dominate the eral houses to rent. 67247

Shredded Wheat Banquet. Under the auspices of the Ladies' Aid Society of St. Giles' Presbyterian Church, Oak-street, a shredded wheat banquet will be given on Thursday evening, Feb. 24. Tea will be served from 6.30 to 8.30 and will be followed a grand concert and entertainment. Among those who contribute to the program are Mrs. Lila Gladden Cole as "Mrs. Wiggs of the Cabbage Patch," Miss Margaret Park Wilson, contralto, Mrs. McGalpin and Miss S. Holden, soprano, and Mr. Park. A arge attendance is expected.

ROSEDALE HEIGHTS

tion. During the past week, we have sold 600 ft. to a gentleman who has built and sold two of the finest houses in Rosedale, and, after looking all around decided on this location as the choicest in the city. This party will build houses to suit purchasers on part of the property secured from us. He intends to build early in the season a large house for his own use on a lot 100 ft. frontage.

The purchaser is not a real estate dealer, but a man who wants a fine site for a home.

If you desire to have someone build for you an up-to-date highclass residence, call and get particulars of this property. The land is level, beautifully wooded and is about 300 ft. above the lake level, overlooking Rosedale, the city and the lake.

Lots in a similar location on the Avenue Road Hill were selling three years ago at \$30 and \$35 per foot front. To-day the owners are getting as high as \$115 per foot front for the same. This should prove to you the possiblities of securing a low priced lot for a beautiful home in this high-class section,

Telephone for appointment to inspect this property and we motor you out to look the lots over. For full particulars apply.

COBALT---Narrow Price Changes in Mining Stocks at Week End---COBALT INTRINSIC MERIT

EULNESS OF TRADING **GOVERNS MINING MARKET**

Price Fluctuations Are Generally Constricted, But Undertone is Fairly Satisfactory.

> World Office, Saturday Evening, Feb. 19.

With speculative sentiment of a demining stocks have drifted into a perlod of almost semi-stagnation, where movements either way have been curtailed by the very lack of outside par-ticipation in transactions. There has been nothing in connection with the secretary of Company Issues State various listed issues of late to attract ment to Shareholders. any special trading on the part of pub-

various listed issues of late to attract any special trading on the part of public security holders. The exchanges have generally been given over wholly to the operations of floor traders and such market followers as have been gelzed with the idea that prices could go very little lower and that there were good opportunities offered by the prevailing low range of quotations. With this the dominant feature of to-day's trading it could not be held at all surprising that price movements have been disappointing from their very constriction, while it has been felt in most quarters that there was considerable ground for satisfaction in that the securities held their own to such an extent.

It has been generally the case when stock trading has been bound to make itself on which seems bound to make itself felt in a market of this calibre. It cannot be said, however, that to date this trend has been observable in connection with the various Cobalt issues listed on the local limiting exchanges. True, there have been at all times sufficient to take care of securities on offer with very little difficulty, and in this way the shares dealt in have maintained a steadiness of attitude which has held in check what might have been material losses, had realizing been forced buoyant tone into such of the cheeper lossoes as have been more or less probuoyant tone into such of the cheeper lossoes as have been more or less probuoyant tone into such of the cheeper lossoes as have been more or less probuoyant tone into such of the cheeper lossoes have been such as the company of the market of this way the shares dealt in have maintained a steadiness of attitude which has held in check what might have been made to inculcate a more buoyant tone into such of the cheeper lossoes have been made to inculcate a more buoyant tone into such of the cheeper lossoes have been more or less probuoyant tone into such of the cheeper lossoes have been more or less probuoyant tone into such of the cheeper lossoes and such of the cheeper lossoes and such o

have been made to inculcate a more buoyant tone into such of the cheaper issues as have been more or less pro-minent of late. In this connection it is only necessary to mention the case of Cobalt Central, which was seized upon the other day and bid up a couple of points in a short interval, only to lose most of this gain later on, when operators in the stock availed themselves of the opportunity presented to take their profits. This stock is somewhat of a favorite on the New York curb market, but the recent actions of the shares on the exchanges and the fight for control have not tended to increase the local confidence in the se-

Rumors of a consolidation of several of the big productive Cobalt properties have been revived during the last few days and a certain amount of speculative interest aroused in connection with the shares of the several concerns involved. The statement of President McGibbon of the La Rose Company toward the middle of the week, that negotiations were still in the "incubator stage," while it does not go very far, has been selzed upon by some local parties interested to buil the stock, hence the rumors which have been forthcoming that the big holders of several of the issues, which it is under-stood would be included in any amalgamation which might be formulate in this connection, have been evenin up their commitments, in the eviden idea that there is a good possibility o such a merger going thru at no distant

The outlook for the immediate future in connection with the mining securi ties promises to be more or less irre-gular. It is believed in many quarters that many of the Cobalt stocks possess great intrinsic merit at prevailing quo-fations, and should any material speculative call be forthcoming, advances would be accomplished in the easiest kind of a way. The markets are pretty hare of floating stock, and this is the best argument in favor of higher prices that can be advanced.

NEW SHIPPERS

Will Tend to Revive Greater Public Interest.

Messrs. Playfair, Martens & Co. say in their weekly letter: The Cobalt market has displayed a firmer tendency during the week, the dividend paying stocks, Kerr Lake, Nipissing, La Rose; Coniagas, Crown Reserve being in fair demand at these levels. There is very little public interest the low priced stocks at present. It is Trethewey probable, however, that the entrance Watts into the regular shipping list of two three of the companies which have for the past 12 months been in the development' stage will take place in the

near future. This will do a great deal toward reviving public interest in Cobalt. A great many small investors are patiently holding stocks in the hope that the predictions upon which they purchased will be fulfilled. In a great many cases companies are going ahead steadily with development work, and as soon as there is reasonable and as soon as there is reasonable ground for buying stocks, such as steady shipments, the public will not be found backward.

COBALT LAKE SHIPMENTS
ARE VALUED AT \$35,000.

An item of interest in connection with the Cobalt Lake annual report, which was issued on Friday, is the fact that \$35,000 represents the value of ore shipments, appearing in the statement presented as owing from appellars.

York Listed Securities Move in an Irregular Manner

of Stocks for Investment Relieves Pressure on Wall Street Market-Domestic Issues in Good Hands.

Saturday Evening, Feb. 19. ek on Wall Street has conmany irregular movements, the trend of prices toward tels. The president's address day, altho indicating no spe-ges in what he had before ard to the trusts and variby the market on Monday, iously by the market on Monday, id another drive brought about in cest especially in the industrial surities, in which there is considerate opposition to disclosing the delay which the expected new federal will demand. After this selling we had exhausted itself, a saner we was taken of the situation, and cest recovered from the bottom dich they reached two weeks ago. h prices down from fifteen to y per cent. below those made becember, securities are appealpeople who usually wait for ms of this kind, and who are ed upon as investors who take up shares and hold them until the r shares and hold them until the rket has taken another spasm of syancy, when they return them to hands of speculators. This no hat is relieving the pressure on the rket, and proving helpful in assist-the big holders in taking care of the syangarant an avalanche of

tchanges against an avalanche of lative stock which might be speculative stock which might be thrown over owing to exhausted margins. The low rate now enforced by the Bank of England, and the fairly plentiful supply of money at New York s also having favorable influence, and from all that can be gleaned there s no reason to expect any tightless of money for some time to come.
The London market is liable to be listurbed by the introduction of a new dget and the preparations for meet-large expenditure which has to be ked after owing to the withhold-of the last budget introduced into house of commons. This and the ected early decision in regard to American Tobacco and other suits g in the supreme court of the States, leave considerable op-ity for market manipulation. It en conceded that a business reeen conceded that a business ren of small dimensions is coming
effect, but it is not anticipated
this will be more than temporary,
not at all likely that Wall-street will set much higher prices for the scurities than are now ruling, but on the other hand it is necessary to keep the market from having any sereaks. The possibilities are, re, that prices will work within ranges in the near future.

The Canadian securities have for everal weeks past showed an utter independence of Wall Street. It is directions, but there is no spe isl reason why they should do so The strength in domestic issues is due than anything else to the fact that with few exceptions securities are now in the hands of investors. Brokers for years have not held as shares for clients as is now the case, and with such a small floating supply

declarations of an increased dend by, the Soo directors during, week was apparently of little innt of the Nova Scotia Steel and pany showed earnings in exss of those of the last year, and was brably construed by the market. support to these shares, which reached a price in excess of that on which the Dominion Steel and Dominion Coal shares will be taken into amalgamation are still awaited, in the meantime for some unknown reason coal shares are heavy while steel is held up at nearly the top figures. Good demand from London is again shown in the South Ambigan securities and can securities and these have been more active and stronger on that account. The market acts as tho a bigger speculation will occur as the spring advanves, and the trend of many of the more active issues is to-wards higher levels.

TWIN CITY DISCUSSED.

Edward Cronyn & Co. in their weekly letter say: We have for a long period entertained a very high estimate of the Twin City securities. These have been held back, especially the on stock, owing to a great varlety of causes, which in many cases may be described as hard luck. The company has long since lived down the over-capitalization caused by frequent cation troubles in its early history, and is now known as probably the best interurban tramway system in the world. It has also lived down an era of over speculation in its secu-Lately it has been successful in most important litigation. Its franses are excellent. It has recently cent. to 6 per cent, and its statement for last year showed net earnings of approximately 10 per cent., while for ary the increase in net earnings was 11 per cent., showing that for that month at any rate the company was earning net at the rate of 11 per cent. on the common stock. This means that increased dividend distribution is inevitable. The stock is at 112, at which it yields 5.30 per cent. Were it to be increased to 7 per cent. an investor at present prices would be getting nearly 6 1-4 per cent. For such a high grade security the price

lation, may succeed in getting these stocks for a brief moment a point or two higher, the rallies, in our opinion, will not hold, in view of the re-selling, and they will be called upon to bear the brunt of the next bear attack, which will in all likelihood come about in the next few days. Consequently we would adhere to the bear position in their regard, and on bulges would sell such other stocks as Fuel, Sugar, Utah Copper, Anaconda, Third Avenue, Chesapeake and M., K. & T. Avenue, Chesapeake and M., K. & T. We continue very favorable to the bull side for the long pull of such stocks as Baltimore, Pennsylvania, New York Central, Big Four, Norfolk, Coast, the Eries and Southern Railways, General Electric, Steel Foundries and the Gas stocks, tho it is probable they will be purchaseable to better advantage by waiting a while. Attention is now bewaiting a while. Attention is now being directed to the less favorable winter wheat prospects which may give the cue to those bearishly inclined.—

day, it would be only natural if we got some setback. The advance has gone further than most persons thought the setback may be much less. Provably there with be a good chance to buy stocks again Monday. We have advised against purchases except on setbacks.

The stock market liquidation which has been in progress ever since last fall, but which gained its greatest headway during the last 30 days, has do preferred 100 depreciated the value of the stocks Black Lake 2342 depreciated the value of the Stock Ex-listed on the New York Stock Ex-B. C. Packers, A. change by much more than a billion dollars. A compilation of the losses in the market value of 32 railroad and 29 industrial stocks, measured from the high prices of last year to the low prices of last week, shows a loss of the nuge sum of \$1,037,800,000. This is the amount by which the market value of these 61 stocks has been reduced by the

has lately been subject. has lately been subject.

There are several points of view from which these figures assume a most interesting aspect. Quite apart from the mere questions of the loss in market Duluth - Superior 69 mere questions of the loss in market value, so far as this applies to the position of investors and to their attitude toward the market, is the imposition of investors and to their attitude toward the market, is the important bearing which this decline in market value has upon the monetary position at New York. Furthermore, the facts revealed by this comparison of prices help to explain the stagnation in the bond market, which occurred during the latter part of 1909, and which only now is beginning to be followed by a freer movement of bonds. To point to the release of banking accommodation which has resulted from this decline in market values, is to bring out clearly the effect which the typing up of so much banking money in the stock market some months ago

Opposition Leader in B. C. House Makes Strong Statement on Segregation.

VICTORIA, B. C., Feb. 19.-(Special.) — Mr. Hawthornthwaite, leader of the opposition in the British Columbia Legislature, coday offered an amendment to the School Act, while that measure was in committee, whereby the government would be compelled to establish separate schools for the education of the 1,100 children of orientals. Speaking to the question, he declar-

ed that the time had how come for the government to take immediate steps this matter, and declared that if this were not done the people of his constituency, Nanaimo City, were pre-pared to take the matter into their own hands. The enforced association of white children with the offspring of orientals in the public schools he charasterized as degrading in the extreme to the former. At the suggestion of the government the amendment was placed on report and will be acted upon next Monday.

Join the Williams' Anniversary Piano Club

A Great Club of 500 Members to participate in the greatest piano deal ever made in the piano business

On Wednesday, Feb. 9th, we inaugurated the biggest event that has ever taken place in the Piano trade. Incidentally we have reached our sixty-first Anniversary in the piano business in this country, the business having been established in 1849. In other words, the big Williams Club with its 500 members participating in the big purchase—is intended to really celebrate our 61st Anniversary in a business way, and to impress the importance and significance of this sixty-one years of continuous business upon the public mind.

THE DEAL AND THE PIANO

The deal is a straight out purchase of 500 pianos. The instruments are of a most reliable and trustworthy character—a good, substantial piano, in which the real value is put on the inside, rather than in fancy cases with a whole lot of "Jim Cracks" on them. We have known the piano for years. We know it to be as reliable a piano as was ever put in a home. It is made by good, sturdy Canadian labor in one of the best manufactories in the world, by men, many of whom have been working in the same shop for twenty to twenty-five years.

The Value of Each of these Pianos is \$350

第6)另一道

The Williams Club Terms

These 500 pianos will be sold, \$5.00 cash, then \$1.25 a week. The \$5.00 just about covers the cartage and delivering—yet the \$5.00 payment made when you join the club is credited to your account

The piano is delivered immediately. You do not have to wait until the club is filled. You get your piano when you join. The remainder is payable every week. Club members do not have to pay more than \$1.25 a week if they wish. This gives them 202 weeks in which to pay for the piano, and still get it at the club price of \$257.50.

The Club Price of \$257.50.

We said above that \$257.50 includes everything. So it does. Tho' it includes everything—yet can the price be reduced.

The Club Member's Agreement has 202 Coupons attached to it—much like a bond. A Coupon represents a week. Two Hundred and Two Coupons represent 202 weeks, or the life of the agreement. Every time a payment is made, one of these Coupons is

stamped "Paid." If payments are made in advance—that is, before they are due, a rebate of 15c for each and every week is handed over to the Club Member in cash.

You can therefore see that the price (\$257.50) can be reduced just as many times Fifteen Cents, as you will pay weekly payments in advance, or before they are due.

Special Advantages of the Williams Club

Read every word of this.

Every instrument is guaranteed without reserve—for five years. There are no "ifs" or "ands" in the guarantee—just a straightout guarantee as strong as we know how to make it in writing.

Every Club Member has a full year in which to satisfy himself as to the character of the piano. If it does not prove to be everything

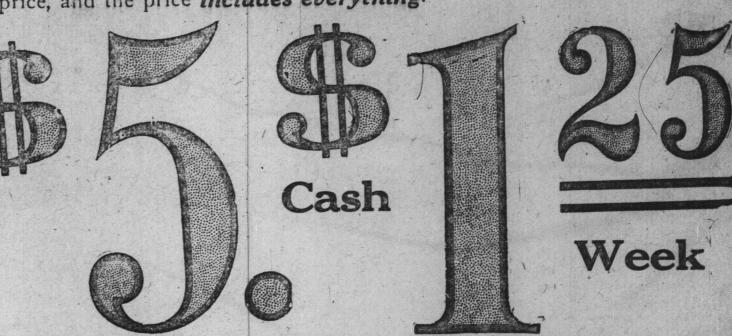

that he expects, he has the privilege of exchanging it without one penny's loss for any other instrument of equal or greater value that we sell—(and we sell over ten different representative makes).

If a Club Member dies during the life of his contract we immediately send a receipt in full to his family for the instrument.

A beautiful stool to match the piano is included without extra cost.

The piano will be tuned twice without charge.
Club Members have an opportunity to still further reduce the cost of their piano by procuring other Club Members.

Hundreds of these same instruments have been sold right here in Ontario, at \$350. Hundreds more are being sold every month all over the Dominion of Canada at \$350. They are worth \$350. Measured by any standard of value you wish, they are worth \$350. They are worth it on our floors, or on the floors of any reputable piano dealer in the country. The Williams Club price is \$257.50. The price includes everything. There are no extras of any kind. No interest to be added. Nothing to be added for dravage, freight, stool—absolutely no extras. Two hundred and fifty-seven dollars and fifty cents is the price, and the price includes everything.

The Actual Figures of the Club

The retail value of these 500 pianos is \$175,000. They will sell for \$128,756. The minimum saving to the club is \$46,250.

It will take 32 solid car loads to deliver this order—or nearly two train loads.

The freight will amount to about \$2,000, or approximately \$62.12 a car load,

The club is given a grand total of 30,500 weeks or 600 years longer in which to pay for their instruments than if each member was to buy independently upon usual terms.

The saving to each Club Member—\$92.50—will pay for the musical education of one child for 2 years and 5 months at 75c a lesson.

Membership Books in the Williams' Club are now Open

The Club books are NOW OPEN. In other words you can join the Club at once. THE PIANOS ARE ON DISPLAY IN OUR WAREROOMS, where you can see and hear them. You are cordially invited. The Pianos will be delivered immediately upon your becoming a member and making the initial payment of \$5.00, During the first week of the Club's hear them. You are cordially invited. Life we hope to give everyoue their choice of two styles of cases, and show each style in two woods, Mahogany and Walnut.

The R. S. WILLIAMS & SONS CO., Limited, 143 Yonge Street Sole Agents for Weber, New Scale Williams, Ennis & Co., Kohler & Campbell Stuyvesant and others.

HE TURR'BLE

The Toronto Sunday World

Copyright, 1910, by The North American Company.)

My Granny-Ma telled me 'bout a little boy named Wash'n'ton an' his name was Georgie too, an' ne chopped down a gr-r-eat n'ormous twee, all filled up wif cherries, for his Papa, an' he couldn't tell a lie, an' he wasn't deaf nor dumb neither, an' he getted a little hatchet. An'-an' I getted a little silver paper hatchet on Georgie's birfday, other day, 'cause see, he was all deaded up long 'go, an' couldn't have no more presents his ownself. I liked the hatchet an' I goed out to look for a cherry twee.

'An' ther' wasn't enny cherry twee in our yard, so I tooked mine hatchet an' I chopped a n'oak twee an' it felled down, Bang! Spang! on to the ground, an' out comed a fat little boy out o' the busted trunk o' the twee, an' he sed, "Good Mornin' Kaptin Kiddo," he sed, "Shake han's ol' fella," he sed, "Cause I'm Georgie Wash'n'ton." An'-an' I shooked han's wif him, an'-an' I sed, "Wher's your hatchet, Georgie?" An' he sed, "I left it in the cherry twee what I chopped down for my Papa." An' I sed, "Oh!"

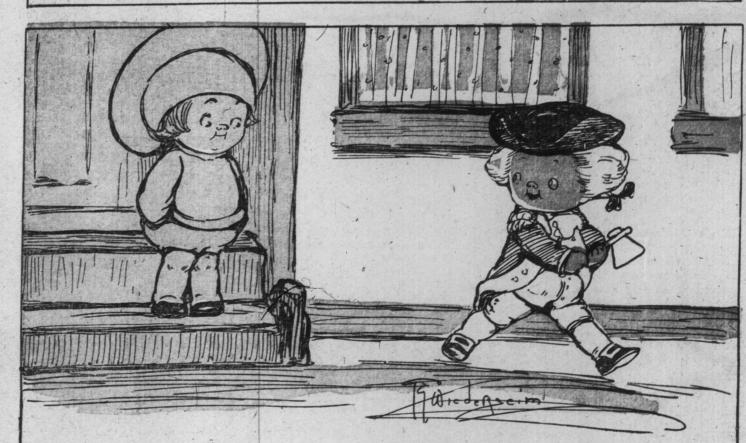

An' 'en we wented to Kaptin Peanut Ploochee's house, an' Mrs. Ploochee sed he was out a-ridin', an' Kaptin Ploochee comed 'long a-ridin' on a "cloes horsey." An' he sed 'at we could get on too, an' he unfolded the "cloes horsey" an' me an' Georgie gotted a-board. We had the most-es' fun. The "cloes horsey" was a n'orful gallant steed an' he mos' frowed us orf severial times, but Kaptin Ploochee sed he felt perfeckly safe wif two sech magniferous heroes as me and Georgie Wash'n ton a-board.

'En we comed to a gr-r-eat big bonfire an' a lot t' Cupids a-burnin' up lettover Valumtimes, an' the "cloes horsey" bucked an' rared, an' shivveled wif fright, an' he sed, "Oh what if a spark should get on to me! I'd go up like smoke!" An'—an' a big piece o' fier did get on to him an' we all jumped orf, an' he was all a-fier, an' the naughty little Cupids runned away. An' I sed, "Get the hose! Get the hose!" An' Kaptin Peanut Ploochee was all shivvlin' too, 'cause he sed he was so orful dry 'at he was 'fraid o' the fier too.

'En Georgie an' Kaptin Peanut Ploochee gotted the hose an' putted the fier out, an' the "close horsey" sed, Fank you, Kaptin Kiddo, you have saved me life." An' I sed, "Don't menshing it, ol' Fella." 'En we founded the nices' lady wif two buckets o' lemonade, an' she gived us some o' it, an' Kaptin Peanut Ploochee drinked mos' a whole bucket o' it, an' he sed he was almost roasted dry from the fier, an' he sed, "Fank you. Fank you me pretty, pretty maid." An' the lady sed, "Well, you're fresh enough now, annyways." We gived the poor "cloes horsey" some o' the lemonade an' he sed it was orful 'freshin'.

Kaptin Peanut Ploochee sed he mus' go home 'en 'cause Mrs. Ploochee was goin' to have her de-e-ar Mama comin' to dinner wif her. An' he sed he'd take us to ride on his "cloes horsey" again some o' these days. 'En we left him wif Mrs. Ploochee an' her de-e-ar Mama. An' I wanted Georgie to stay wif me an' be my little bruvver, but he sed he had to go back to-back to-er-back to wher' he comed from, an' I gived him my hatchet an' I sed, "Good-bye, Oh you Georgie!" An' he sed, "Good-bye, Oh you Kiddo!"

ANOTHER HEAD DROPS FOR ASSASSINATION OF RUSSIAN OFFICER

Condemned to Death as Result of Trying to Change Order of Things

ST. PETERSBURG, Jan. 19 .- (Special.)-The trial by court-martial of Petroff Voskressenski in connection with the murder of Col. Karpoff, the late chief of the secret police, took place secretly in the fortress of St. Peter

and St. Paul. The charge against Petroff was that he belonged to a criminal society whose all mis the subversion of the existing order of things and the foundation of a democratic republic, and that he was the murderer of Col. Kar-

Did Not Deny Murder. Petroff did not deny Murder.

Petroff did not deny that he murdered the chief of police deliberately, by enticing the doomed man to his flat, and pressing an electric button that exploded a bomb fixed under the table at which the Colonel was sitting.

From letters found on him it appears that he once planned an attempt on the life of General Gerassimoff, Col. Farpoff's precedessor in the post.

The court-martial was held in the Tronbetshov bastion of the fortress, where Petroff had been interned in nere Petroff had been interned in a casemate since his arrest. Petroff was described as a peasant of the government of Viatka, and a former teacher in the primary school. The court marshall passed sentence of death

DEAD MAN SUMMONED FROM GRAVE TO COURT

"Plaintiff Doesn't Answer" Says Crier "Proceed Then" Says the Juage

was summoned from the grave in Judge Kinsey's court to-day. The proceedings were to clear the title of the property at 334 North Americanground reut reserved in 1792 by John Fenn, jr., descendant of the founder of the commonwealth.

Since the creation of the ground

rent by Penn, the land passed thru several old families and finally, in 1855, was transferred to William Seegar. It still remained subject to the irredeemable ground rent, and was so encumbered when it was bequeathed to Seegar's wife, Jennie P. Seegar.
John Penn, jr., died many years before Seegar, whose death occurred on

In the absence of any demand for payment within 21 years, the law presumes that the obligation is dead and. proceeding under the act governing such cases, Mrs. Seegar had an issue framed with Penn for trial by jury. In solemn tones the court crier called the name of John Penn, jr., thrice. "The plaintiff does not answer, your onor," stated the crier.

ESTATES WITH "CURSES" HANGING OVER THEM

Instances of III-Luck That Have Overtaken the Owners of " Cursed " Houses

LONDON, Feb. 19.-The purchase by Sir Weetman Pearson of the fine property of Dunecht, in Aberdeenshire from the trustees of the late Alexander Pirie, recalls the fact that Sir Weetman now owns two estates with "curses" hanging over them. The 'curse" on Dunecht is a somewhat mysterious one, but from what can be gathhered the property seems to bring

its possessor bad luck. III-Luck Attached to Estate. Whether its late owner felt its alleged adverse influence I do not know, but it is a fact that the late Earl of Crawford, father of the present peer, who purchased the estate about half a century ago, suffered a good deal from his eyesight, and for that and other reasons was more or less a recluse, and, according to the supersti-tions in the neighborhood of Dunecht, the cause was the ill-luck attaching to the estate. Then, after his death, there was a mysterious and unaccountable desecration of his remains, which were removed from the mausoleum in Dunecht—an occurrence which naturally greatly distressed the famliy, and was the cause of Lord Crawford sell-

ing the property.

The "Cursed" Cowdray Estate. Sir Weetman's estate is not alone, for other great estates are "cursed," as is that of the Cowdray estate. The story is well known how Henry VIII., at the spoliation of the monasteries, gave one to his great favorite, Sir Anthony Browne, who pulled down the monastic building and erected a quet given by the builder to celebrate the completion of his noble dwelling-place, one of the dispossed monks appeared like a spectre at the feast, and dramatically uttered the prophetic words that "by fire and water at the same moment" Sir Anthony's direct line of descendants and his should suddenly come to an end. For generations nothing happened,

until 1793, when a most destructive fire broke out at Cowdray and left day, and almost simultaneously the eighth Lord Montagu was drowned while attempting, with a friend, to shoot the rapids at Schaffhausen, on the Rhine, in a flat-bottomed boat. He directs, as the first provision of Neither the bodies of the adventurous men nor the boat were ever re covered. Lord Montagu was succeed late Sir Bernard Burke described as was the last of his line.

Double_Pointed.

Stuffed Him Into a Chimney and Blocked up Hearth-Rescued

the Next Day (Special.)—The story of a peculiar epiosde has just come to hand from a

lunatic asylum near this vollage. A boy was passing the asylum with his brother when one of the patients called to him and invited the boys to 13, scaled the walls and accompanied the man to a cellar. There the idiot, who was considered quite harmless, sized him, strippped him, tied his feet together, and then hung him up. lead downwards. Afterwards he cut the boy down and stuffed him up the chimney, blocking up the hearth with oy returned home and told his parasylum. They immediately applied there, but the lunatic said that the lad had gone after receiving the skates. It was not till the next day that moans coming from the chimney attracted attention, and the boy was found, half dead from cold, hunger and fright.

ENGLISH HORSES BEST GERMANY BUYS HEAVILY

More High-Class Horses Imported From England Than Are Bred in Germany

BERLIN, Feb. 19 .- (Special.) -An increasing proportion of the finest horses in England have been coming to looks not unlike a figure lifted out of Germany in recent years. They are a book of the nineteenth century or often appears partial and cruel. It extremely popular among the wealthy a prototype of Balsac. Of medium surely was in this case, classes, and for riding purposes they stature, he has grown a trifle stooped rank in German estimation as the best with age and slightly corpulent in

Trade Has Increased. At the offices of Messrs. Woltmann and Company, a prominent firm of local dealers, the following statement was made:

"There can be no doubt but that the LOS ANGELES, Cal., Feb. 19.-G. E. trade in foreign horses is materially Sewright of this city at a wienerwurst, and increasingly affecting the home market. The number of English horses purchased for sale in Germany commonly known as a "hot dog," in a restaurant here to-day and at the same is steadily growing, owing to their popularity among the well-to-do buytime solved the mystery o fthe disappearance of Miss Anna Bell's Scotch ers. Practically no English horses are imported into Germany for military purposes, altho a good many stallions In the wienerwurst that Sewright are brought here for breeding pur-poses. France and Italy are heavy was masticating with great pleasure buyers of English horses for their armies. German army horses are bred practically exclusively in Germany, was the tag of Miss Bell's dog, number 4413. Sewright was amazed when one of his molars crunched something and the various state governments bemetallic. He examined the little piece stow the utmost care and great expense in maintaining the army horseof metal and saw it was a dog license tag. Then he started to clean out the place. The police quelled the riot. Miss Bell said she lost her dog three breeding establishments."

Forces Boarding-House Mistress Turn to Husband for Support.

Sewright has foresworn weiners and Miss Bell has cancelled the reward WASHINGTON, Feb. 19,-The high cost of living had another result added to its ramifications to-day when Mrs. Marie H. Heath declared to a court that it had made her only source of livelihood, running a boarding-Oh, one of them prohibition galoots house, unprontable and she was obligcame into my barn an' dropped a pam- ed to abandon her independence and to turn to her husband for support.

Hence, all who banks to provide Easter hats, make sure to save enough to buy a "guitry "yellow chicken hat." The merry widow and the ostrich feather must melancholy. They are on the back shelf. Toronto dealers, bring out your hen and rooster millinery.

In urging that French-Canadians assume imperial o'ligations by supporting the scheme for a Canadian navy, Arthur Dansereau, editor of La Presse, Montreal, brings himself into bold relief. Largest of all newspapers printed in the French tongue in the Dominion, La Presse plays daily on the sentiment of scores of thousands, according to the utterances of its edidirects theose opinions is one of the picturesque figures in journalism. He support, listen to the debates that form. His hair, now quite grey, hangs in locks around his ears, as do the day at the headquarters of the leading horse-purchasing syndicate in Berl'n, that Germany is really prepared to buy more high-class English horses than are at present bred there.

in locks around his ears, as do the curls of Sir Wilfried Laurier. In fact, the two men, acquaintances since early manhood, in every way suggest the French litterateur of garlier days. The French litterateur of carlier days. The editor, however, unlike the prime minister, can find color in Bohemian life, and, when the presses have ceased running, Arthur may now and then be seen "with the boys," his eyes full of youthful merriment and his tongue ever ready with keen wit. He is an editor of the old school, with a pen dipped in ink of the new.

Whether Canada buys or builds

dreadnoughts or cruisers may be debated to good advantage in our parliament, but that she will do well to kin, one of the great men of literature and philosophy, has expressed the opinnot come from a purely pastoral people. War, with all its hideousness and sorrow, is a foundation for many of the noblest works in letters, painting, sculpture, music, oratory and other of that part of its history associated directly or indirectly with war and only an indifferent patriotism, and less genious, is left. The shifting of light and shadow, the glory of conquest, the mingling of the sob and laugh are what give subjects to the creative instinct; they are what lend zeal to the singing of a national anthem. Canada is lusty, like a young freeman gong out to field whistling as he goes, melting pot will it have the strong national spirit of the older nations. Despite the ideals of peace societies, the commencement of a navy will do much to make Canadians feel they are growing out of the boyhood class.

Unable to get sufficient domestic help, ladies of Toronto, Hamilton, London, Ottawa and other cities are going to bombard the agricultural committhe interest of the members from rural constituencies in the problems of keeping house and endeavor to get them to act as agents in persuading country lassies to quit the "clean hearth-stane" for the white cap and may be the tribulations of the ladies, but it is to be hoped they cannot use to frivolity, with haughty mistresses | way related to eggs.

Quitting the Unionist party when the preof tariff reform, even the his staunchdows, lest they be seen following a lone hope. No doubt Chamberlain, with the instinct of a prophet, hoped to so wage the tariff war as to sweep phantly into power. But the fates and a phlegmatic race were against him. As a wind passes and leaves the plant wilted, his health disappeared. to his voice and his active leadership paign, and, as by the touch of a wizard's wand, the greatest honor in the gift of his empire slipped from his more youthful men conduct. Fortune

Hats off, ladies! The ministerial asenough to suggest it, so what can you do? It is true attendance at church is a delightful pastime, when one has a new hat of wonderful style to display, and the fellow sitting behind can go to sleep without being observed. But the advantages do not equal the disadvantages. No doubt many a pew-filler would carry away more gospel and less envy if women removed their hats when they entered a place went to church in meekness and sincerity of purpose. Fashion has its place, but in a sacred edifice it is a half-sister to hypocrisy.

It is reported from Paris that Teddy Roosevelt will be lionized when he reaches that city. It is to be hoped it is not in the same way as Robespierre was lionized in 1794. There is ion that the highest form of art can a slight similarity in the two men, both having wielded "big sticks" during their political careers. Of course, France is a peaceful nation to-day, and it is likely its people will make the lionizing pageant one of simple the high arts. Take from any nation proportions. It is not yet definitely decided just what form the ceremonies will take, but a reporter of Le Temps has learned on good authority, he says, that Colonel Theodore will be driven thru the streets on the back of a giraffe, his favorite South African carriage of state. In front of the Palace Elysee, President Fallieres will hold a rhinoceros by the tusks while Tedly takes a careful aim and shoots the animal ten times to make sure but not until it has passed thru the of his death. When the populace has shouted itself hoarse over this courageous deed, a grizzly bear will be placed in a gilded coach, drawn by dapper four, alongside Mr. Roosevelt, fust to show Paris that the former head of the American republic is still true to his old friend, even the has been keeping company for some time with more ferocious beasts in the jungles of the Dark Continent. The French government has, as yet, issued no denial to these rumors, the reason being apparently that the minister of state has been boating for his health on the rushing Seine.

A lineal descendant of Adam has repudiated the report that the first garapron of the urban residence. Hard dener in Eden was the father of the Negro. Manners at Concerts

Expert Critics in London Decry Bad Behavior of Audiences.

When, asks a disgusted writer in London Truth, will audiences learn to behave properly at concerts? A school of manners for concertgoers would seem really to be badly needed. Perhaps the Academy or the Royal College might be disposed to consider the matter with a disposed to consider the disposed to consider the matter with a view of adding a new "subject" to their curriculum. Certainly there are pienty who would profit by a course of instruction. Among other things, they might be fraught not only to avoid the more heinous crimes of talking during a performance, joining in the music themselves, coughing incessantly, breathing seives, coughing incessantly, breathing stertorously, beating time with their feet, but also to avoid that minor kind of fussing and fidgeting which is sometimes

dividuals was cheerly disposing of his goods thruout the whole of a Chopin ballade, sublimely unconscious of the indignation he was rousing. At the same concert, too, the constant banging of doors' was equally reprehensible. On such occasions one understands why the state King Ludwig of Baragia used to like "Yes," answered Mr. Sirius Barker.

With a Caruso record in the flat below, the tunes in his head and had whistled them to some one who wrote them out for him and harmonized them.

thing to sing at a semi-professional entertainment, and as this was to take place within a few days the friend wanted it quickly. Mr. Harris nad not up to that time made a great success with any of his songs, but his friends regarded him as a young genius who could knock off a song to order in no time. The day his friend came to him, however, for a song for the entertainment in which he was to take part
Mr. Harris was tired. He had been
to a dance the night before and didn't

OF MUSICAL PUBLIC Excavations Now Proceeding and Valuable Relics of Roman Pomp Are Being Recovered.

> Writing from Berlin, a correspondent of The Westminster Gazzette says: The Koelinische Zeitung publishes an account of further remarkable excavations at Numantia, made by Pro fessor Schulten. These discoveries comprised both the remains of the city of Numantia itself, and also of three superimposed Roman camps on the hill of Castillejo. The more recent discoveries are of even greater importance, as Professor Schulten has lo-cated and unearthed the camp of the Consul Mancinus, whose army suffered in 137 B. C. one of the worst dis-This camp is nearly identical with the present village of Renieblas, from

five to six kilometres east of Numantia, a position which agrees with the description of Appian of the armed camp erected by Fulvius Nobilior in 153 B.

brings some relic of importance, the of directors — Cicero. His eloquent tongue had won him a nation of admirers. His voice had ever been raised when Rome was in danger. According to the dryness of the climate:

The \$100 Song Contest The musical editor has received the score of a love song, which

was published in 1905. The stipulation is that both the words and music must be original and never have been previously published. The rules are amended so as to make this unmistakably clear.

A young composer writes asking if a naturalized Canadian may compete. Rule seven says that only Canadian-born composers may enter the contest.

RULES AND CONDITIONS OF CONTEST. 1.—The song must be a love song, simple and dignified in

2.—Both words and music must be original and never have been published before.

3.-Manuscripts may se sent in at any time up to the 24th of March, 1910, when the contest closes. 4.-All compositions submitted must be addressed to the MUSI-CAL CONTEST EDITOR, The Toronto World. This is imperative.
Any manuscript not thus addressed will be ignored.

5.—Each manuscript must be placed in a SEALED envelope, on the outside of which is some motto or pseudonym 6 .- Another SMALL envelope, also SEALED, marked with the

same motto, and containing within on a slip of paper the composer's name and address, must accompany it. In this way the identity of the contestants will be unknown to the judges until after the award has been made.

7.-Any Canadian-born musician who is a permanent resident in Canada is eligible to compete.

N. B.—From time to time—weekly if possible—interesting an-

nouncements concerning the Song Contest will appear on the music page of The Sunday World.

Sermon From Shakspere

The Auto Show at the St. Lawrence Market This Week Will

Great western passenger and baggage motor cars waiting at Slough station.

A Reliance Gasoline Truck Was Used To Excellent Advantage by the Toronto Street Cleaning Department in Carting Snow From the Streets After the Blizzard of Feb. 3rd.

IF there is any business man who still doubts the superior economy of a modern Motor Truck, such an example as this should be sufficient to remove the scepticism. This huge "Reliance" Truck amply proved its wonderful ability by plodding through great drifts, carrying an enormous load of snow and eight men.

This is but one use to which a Motor Truck may be put. "Reliance" Motor Trucks are made in all sizes and for all conceivable purposes from the "Tourist" passenger to the great 5-ton commercial truck, and one truck will do the work of eight horses, which means a noticeable saving to you and an immediate increase in your business.

The public is certain to recognize your progressiveness. Pay the McLaughlin Motor Car Co. a visit and see for yourself the wonderful efficiency of this line of Trucks.

HEAD OFFICE - OSHAWA, ONT.

WINTER TOURING IS. PUPULAR THIS YEAR

Few Cars Laid Up-Trips Over Snowy Roads Offer Many Attractions.

"At no time in the history of the small number of 'dead cars' in storage as this winter." says a prominent manufacturer.

"If one had prophesied five years ago that winter touring would have been in vogue as it is to-day, the prophet would have been subject to ridicule. Five or six years ago one would not have thought of going into the country in winter with the crude cars which were then constructed. It is the persistency and ingenuity of the builders that is responsible for this winter touring, inasmuch as they have labored unceasingly to build their cars with every comfort and luxury."

"To-day the owner of the average modern car knows that it can sur-mount all the difficulties, whether they be rought and frozen roads or snowdrifts. When he starts out with his car he little cares whether the sun shines or whether he encounters a snowstorm. This is especially true if the car has a limousine body. care with which these cars are being constructed by the manufacturer has much to do with winter touring. It is no uncommon sight to see scores cf touring parties bundled in furs speeding over the highways on the coldest days; in fact many like travelling in a snowstorm and enjoy the exhilarating and crisp breezes of the country. There seems to be something unusually fascinating in whirling over the country roads with snowflakes flying

about the car. "Accessory manufacturers, and especially those who make fur coats, say business is far better than in any previous winter. Proprietors of small hotels in outlying districts which have become headquarters for tourists are jubilant over the increased winter patronage. All this goes to prove that the American automobile has become a year round car and one that can be depended upon regardless of winter storms and frozen roads."

DO MOTORISTS ALWAYS

Horse Drawn Vehicles Are Not Held Closely to Traffic Regulations.

equipment think that he does not Said the head of an important business house to The World man, "If a teamster or delivery wagon driver cuts a corner the policeman on duty either does not trouble to see him at all or else merely makes him turn back and come around the corner properly. But if an auto does the same thing it is another story. The owner of the car is dragged from his business to attend the police court and is usually fined.' The motorist seldom cuts a corner of his own free-will, he knows that it is easier and safer to turn properly. is easier and safer to turn properly. Nine times out of ten when he does break this traffic rule it is because he has been forced to do so by some teamster who will not give him a fair share of the road or because it is necessary to avoid a collision with some

horse-drawn vehicle that is not under perfect control.

The police should give more attention to the horse-drivers who make it a business to block an automobile whenever they can do so. These men are specially noticeable in the winter when all the centre of the street affords specially noticeable in the winter when only the centre of the street affords good wheeling. The the motorist may courteously blow his horn and slow up his machine to give them an opportunity to pull in nearer the curb, they seldom do so. If the motorist protests he is greeted by curses or insulting greetures.

gestures.

There are thousands of delivery wagons in Toronto whose sides absolutely prevent the driver from seeing behind him. The men in charge of these wagons instead of appreciating this and taking proper precautions. think nothing of swinging the wagon suddenly into the middle of the street after it has been standing at the curb. after it has been standing at the curb, without giving the slightest thought to what may be approaching from the rear. If it were not that the modern auto is equipped with two sets of the most efficient brakes we would have

dozens of accidents daily from this cause alone.

The automobile is under more complete control than any other vehicle that uses the streets. If the drivers of horse-drawn vehicles were made to obey the law as rigorously as the motorist does, our traffic problems would be simplified to a great degree. There is not another city of this size in America where the horse-drawn vehicles are allowed to loaf about the streets in the casual way that they do

Largest and Best Garage in Toronto "INTERNATIONAL" 60-62-64-66 Jarvis St. OFFICERS OF ONTARIO MOTOR LEAGUE.

Paul J. Meyler, 1st Vice-President.

What is there in the automobile for the farmer? Almost

more than anything else in sight, and we say this after a full

study of the question and after watching the developments now

under way in the United States. Given fairly good roads and the

motor puts the country and the farmer in touch with the city on

a new and progressive line. At is the automobile that is making

a lot of people leave the city to five in the country, and as a con-

sequence to cause a rise in the value of all land in the country

suitable for country homes for city people. This rise in values

has been noticed in all American cities and is now being felt in

places in Canada, notably around Toronto. For instance, people

are locating in Oakville and paying \$500 to \$2000 an acre for land

in that vicinity, because it is now accessible by automobile. Land along the Kingston-road, east of Toronto, has felt the same im-

ing-a truck that will carry from three to five tons of farmers' produce; that will run at twelve miles an hour; that will pick

up farm produce all along the road, bring it to the town rapidly

and early in the day and secure the best possible market without the middleman's profit. The automobile truck puts the farm-

er and the consumer right in touch for a distance of fifty miles,

better than a horse and wagon will do in a distance of three miles.

The motor wagon is bound to build up a road express business be-

tween the farmer and the town in a way that neither trolley car

nor steam road will do; and the motor wagon will go where there

There are also scores of factories now being organized in the United States for the express purpose of building road wagons

for the farmers at from \$400 up. They will be in every way superior to a horse and buggy. Higher class machines will be built at from \$800 to \$1000 that will practically give the farm-

er a touring car; but it will be in reality a first-class business

power machine of his own that will run on these good roads than he has from a reduction in the rate of interest in a lowering of the customs tariff or anything of that kind. The power wagon and the power buggy are to be the farmer's greatest friend.

Good roads and the gasoline engine will work a miracle in the

KNIGHT MOTOR POPULAR A Farmer's Miracle. Many Sales of Russell Car Already

> That Canadian motorists have been quick to appreciate the wonderful Knight automobile engine is evinced by the large number of sales that have been made by the Canada Cycle &

> Motor Company recently. A prominent Hamilton man after a speedy and comfortable ride from Torento to the Ambitious City over the werst kind of winter roads bought a Knight "38," and three more Russell cars were sold in Hamilton within a couple of days. The Toronto sales have also been exceptionally good for so early in the season. The Knight engine seems to attract prospective buy-ers by its absolute quietness, its pow-er and its smoothness of operation.

> > REGAL PLANT WORKING

New Canadian Company Will Show at Toronto Auto Exhibition.

The new automobile factory of the Regal Motor Car Co. of Canada, Ltd., is finished and the first Regal "30" manufactured in Canada wil be shippad this week from Walkerville, Ont. The new factory is very large and is the best equipped automobile factory in Canada The factory is located on seven agrees of the old Luke Sharpe farm in Walkerville, made famous thru the writings of Robert Barr. There wil be an exhibit of Regal cars at the Toronto Automobile Show in February, two Regal "3's," a four passenger baby torneau and a ive passenger touring car. Both cars will be stock cars. The exhibit will be in charge of Mr. E. E. Peake, Sales Manager of the Regal Co.

The Cars of 1910 Include No Other Line That is Quite so Comprehensive or so Full of Real Value as the McLaughlin-Buick

PRING time-which is automobile time-is fast approaching. We are doing all we can to enable you to

enjoy its balmy days in a motor car. McLaughlin-Buick cars are designed to suit the various motorists' tastes. We have placed powerful engines in these cars, fitted them with every modern convenience, richly upholstered them, and given each car the thorough testing necessary to insure absolute satisfaction to every purchaser.

Now it is "up to you." We can make all sorts of claims for these cars, but we cannot expect to convince you, except by an actual demonstration-let us give you one.

You need feel in no way committed, nor will you be bothered to buy until you are quite ready.

But we do want you to know just how splendid are these 1910 cars of ours. Call at the nearest McLaughlin-Buick Garage or Agency, and arrangements will be promptly made to take you for a ride.

McLaughlin-Buick, Model 17, above pictured, is only one of many, but it bids fair to be one of the most popular in the entire line. It has power, quietness, comfort and safety. Its medium weight, powerful engine, and beauty of design, make it "the ideal car for the man who has not money to burn."

You cannot know the McLaughlin-Bulck product from one model—you must take into consideration the full line, which comprises every type of car known to motordom—from the shaft-driven Runabout to the big six-cylinder Touring cars and Limousines; all with magneto ignition. If interested, write for catalogue. We are sole Canadian Agents for Welch Cars and Reliance Motor Trucks.

Toronto Garage and Showroom---128 Church Street

Motor Bus Schedules and Good Roads.

The general acceptance of the good roads principle in Canada and the United States finds expression in the efforts that are be-ing made by the various provinces and commonwealths to secure the effective results from the expenditures which are being made for improved highways.

Take for instance the state of Washington, which has been giving some attention to state and inter-state highway construction projects. Governor Hay of Washington has made the suggestion that the entire proceeds of the state tax levy of one mill for road purposes be devoted to the construction of two main highways to connect the principal cities of the state. By this means a sum of \$850,000 would in 1910 be available for main roads to reach from Bellingham on the north-to Vancouver, Washington, on the south-from Seattle on the west-and towards Spokane on the east.

These trunk roads would pass thru eleven cities and serve to a large degree 75 per cent. of the population. In this idea may be found the same elements of argument which prompt leading men in the good roads agitation to support The World in its advocacy of a central administration in the building of public highways. It will be seen that one of the first works of a public highway's commission would be the bringing of the main trunk highways of the province to a high state of perfection, the improvements gradually extending until they cover all the ramifications of the road-way system in a net work covering the entire

in Great Britain motor buses are now running on schedule on many rural highways, making close connection with the trains on the main lines running into the cities.

In Ontario under the present conditions this is not feasible for the most powerful motor bus would hardly stand the wear and tear of the very bad roads that are encountered even in the County of York up to the very limits of the most enlightened and progressive city in the province.

The roads in York County are inexpressably bad. The roads in scores of other counties are slightly better. There is no unity of purpose in the matter of road building in this province. It is something to look forward to that in this era of the high development of motor vehicles that when good roads do come, as they inevitably will, these motors will become as valuable in the transportation systems of the province as they are now to the people of Great Britain.

How to Use a Soldering Iron

In view of the number of joints manlike than a thick, clumsy deposit, In view of the number of joints about the engine of a motor car, the radiator and gasoline tank, that depend on soft solder for their union, it is advisable for every motorist to acquire knowledge of how to properly reunite them, as well as to include reunite them. the necessary details in his outfit as a precaution against being stranded miles from anywhere, says a writer in The Autocar. It is imperative that the surfaces to be united should be thoroly clean and bright, devoid of dirt, grease and scale, and the true surface of the metal exposed to the action of the flux. Unless the nose of

sal ammoniac and embed it partially in a block of wood as a rigid base and to protect it from breakage; then scoop a shallow hole in the centre, which latter is to contain a globule of solder. Now heat the soldering iron to a dull red heat, quickly grin it in a vice, and file up all four sides of the nose, and slightly round the corners and point (any old file will answer for the purpose), and then insert it in the hole in the sal-ammoniac block, giving it a few twists, simultaneously feedling a little solder against the nose, feeding a little solder against the nose, which will result in the copper bit being cleansed or fluxed and tinned at the same time. With regard to the flux, this, for or-

With regard to the flux, this, for cr-dinary work, consists of what is generally termed spirits of salts, but more correctly is hydrochloric acid "uut" by or saturated with sine, after which it is usually termed "uut be a. The Crit it for after use, a stone farm-181. It the best type of Feesphare in which both to cut it and use it is specially when using it also as a did for the copper bit of the host. The personnel be about one-third full of acid, carried out into the open, and sufficient strips of zinc added until all chemical strips of zinc added until all chemical action has ceased. The acid always bubbles and gives off nexious fumes and vapor, with the natural result that if the acid is "cut" inside the workshop any tools or machinery will be rusted by it. All work to be soldered must be therely staned or seraned, a little of the flux applied, and a hot bit used to meit and pun the saider, remembering all the time that a thin neat joint is stronger and mane works

acid is the correct flux to use, and it is well in all cases where acid flux is employed, to well wash or wipe the parts after soldering.

It is said that cast-iron cannot be soldered. Quite a mistake. Cast-iron can be soldered as easily as any other metal. can be soldered as easily as any other metal, provided the breakage or joint is filed down to a true surface, cleaned and slightly heated. It must be kept heated until the joint is made. We now come to another aspect of soft soldering, termed "sweating." This is performed partly with or entirely without the aid of the soldering iron—in the former case, chiefly in coating the joint surfaces of bearing brasses as a preliminary to securing them together, preparatory to boring and turning them.

The process of simple sweating an

useless condition is owing to the want of a little care in heating up, and the absence of the necessary accessories which would ensure its being maintained in perfect working condition, deepite its size or the number of times it may be found necessary to reheat it. Directly the temperature of the iron is allowed to approach a red heat, the tin is burned off its nose, and the copper scales and carbonizes; it is therefore essential that, while maintaining a high degree of heat to enable the best results to be arrived at, the temperature must not be carried to such a degree so as to necessitate the frequent refiling and retinning. Heavy-weight "irons" retain their heat longes, and give better satisfaction.

The first point to aim at towards becoming a competent manipulator of the soldering iron is to put the latter in order. There are two methods that can be employed—one by contact with a sal-ammoniac block and the other by dipping. Procure a fair-sized block of sal ammoniac and embed it partially in a block of wood as a rig'd base and to protect it from breakage; then scoop a shallow hole in the centre, which latter is to contain a globule of solder. Now heat the soldering iron it a dull red heat, quickly grin it in a vice, and file up all four sides of the solders of the solder of heat, quickly grin it in a vice, and file up all four sides of the solders of the solder of the still disconding to a dull red heat, quickly grin it in a vice, and file up all four sides of the solders of the solder of heat will disconding to a dull red heat, quickly grin it in a vice, and file up all four sides of the solders of the sold will readily demonstrate the solders of the sold will readily demonstrate the solders of the sold will readily demonstrate the sold of the sold of the special point of the sold which nothing short of heat will dis-lodge. A few minutes spent in experi-menting will readily demonstrate the efficiency of the joint made in the way directed as well as its permanence.

CADILLAC STEERING GEAR mportant Feature of Popular Car Shown Here Next Week,

Something quite unique in mechanical detail is shown on the Cadilla? "Thirty." A steering gear capable of being adjusted and provided with means for taking up wear is semething which the motor car manufacturers have long sought. By a very largentious but simple design, this has been accomplished in the Cadillac "Thirty." The steering gear is of the Worm and sector type. Inasmuch as hole than 98 per cent. of the time a car is driven straight ahead or practically to, the tests in the middle of the sector are in mesh with the worm most of the time and naturally there is more wear en them than on the upper and lever teeth, In the same Cadillac gear, the middle teeth are cut on a slightly less pitch radius than the others, consequently it is a simple matter to take up any slight wear that may occur af: ter long use without causing the upper or lower teeth of the sector to bind when turning corners,

Toronto is a first-class automobile town. It is a question

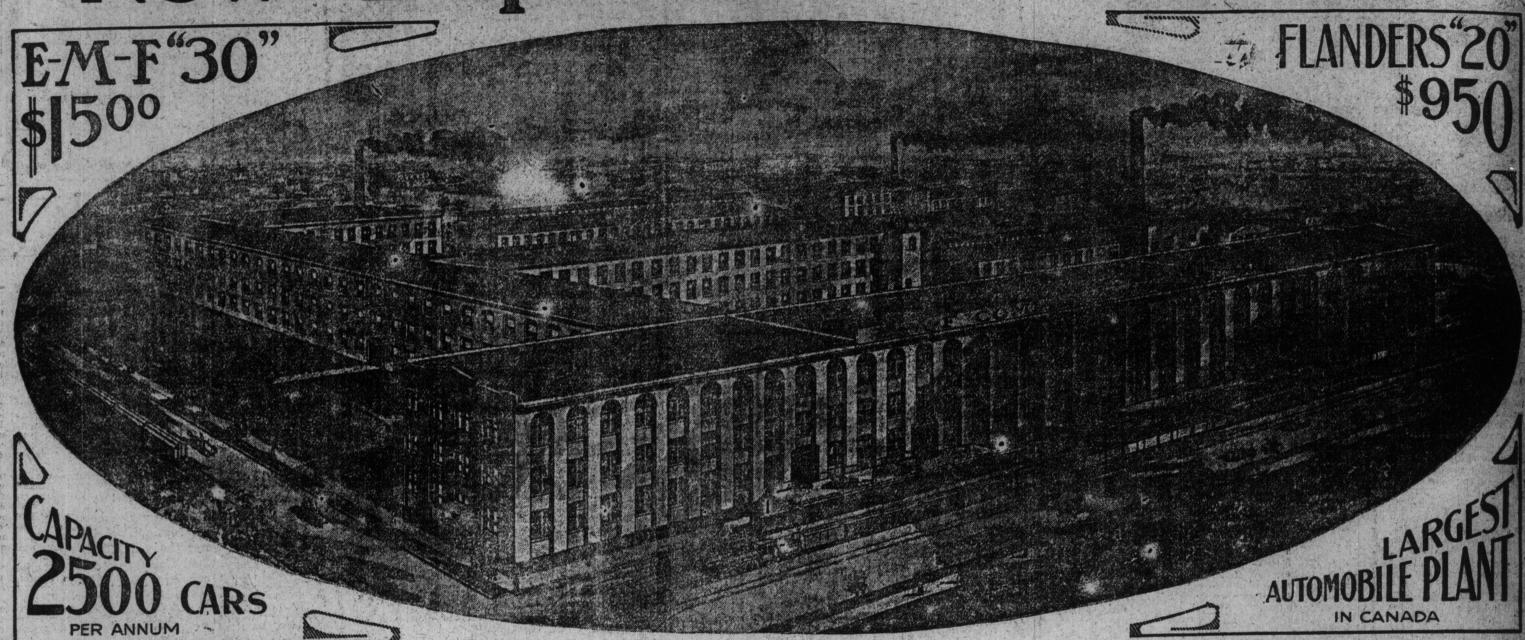

whether any other city on this continent of equal population can surpass it in regard to the number and value of the machines in use here. But there is one feature of the motoring game in which Toronto has no standing at all; we have no annual competitive event

Toronto Must Have An Auto Contest

All thru the States every small city and town has its reliability run or hill climbing contest. In Western Canada it is the same. Of all the things that have helped to bring the auto to its present state of perfection these annual contests have been the most potent. Builders, dealers and buyers alike have profited by them. They make for better cars, better driving, and better feeling towards the motorist. Therefore, we must have one here.

Toronto people always give ample support to such a sporting event as this would be; witness the success of the Hunt Club Gymkhana and all the other events that take place in the summer. The League, the dealers, and all the prominent motorists should get together and promote an annual event that will be fit to rank with the other big things that we do in Toronto.

America's Most, Popular Cars Now Duplicated in Canada

Specifications E-M-F

MOTOR—It is a marvel of power, economy and performance. No motor of the same dimensions (4" by 4½") produces within 20 per cent of the power.

CYLINDERS—Bore 4". Stroke 4\\(\frac{1}{2}\)". Compression—moderate. All experience has proven these cylinder dimensions to be nearly ideal for all kinds of service.

CRANK SHAFT-Is off-set 3/" from entire line of cylindersstill another increase in power efficiency with minimum of wear on cylinder walls and pistons. Crank shaft, drop

LUBRICATION-Splash-automatic, vacuum feed-reliable and economical. Oil reservoir cast integral with aluminum crank case.

iGNITION-Double system, consisting of (a) Splitdorf magneto. (b) battery. The magneto is not an extra or "special equipment." It is as much a part of the E-M-F motor as the valves, and is included in the list price of the car. COOLING-Is by large centrifugal pump-high efficiency at

slow engine speeds insuring cooling in hill climbing and hard pulling over muddy roads.

CARBURETOR-Has proven a marvel of flexibility and simplicity. Our own make, so well made and all made alike. Never heard an E-M-F "30" "missing" in your life.

CLUTCH-A cone clutch-simple and also better in some respects, has been substituted for the expanding ring clutch in former models. Needs no adjustment, and steel springs under the leather facing makes it take hold as oothly as the ring-clutch did.

TRANSMISSION. Type—Selective sliding gear. Gear case integral with differential ho sing in rear axle—"the unit power transmission system" so generally approved by engineers of late.

REAR AXLE-E-M-F exclusive design. Right and left housing sections drawn from sheet steel and heat treated, giving extra strength. Fitted with truss rods. FRONT AXLE-I-beam type. Drop forged in one piece-not welded in center. Heat treated. Spring perches forged

integral. Liberal safety factor. WHEELS-Artillery type. Large spokes-12. Spokes and felloes first grade second growth hickory.

TIRES-Morgan-Wright. Good tires. Equipment has proven ample-thanks to car being made of best alloy steels, consequently light. Remember that excessive tire equipment simply obligates you to pay more than you ought

SPRINGS-Front, semi-elliptic. Rear, full elliptic. Extra wide for this weight of car-2". Driving thrusts and braking strains taken by two radius rods-not by springs. FRAME-Pressed steel-U-section. Side members straight-

weakened neither by off-setting nor dropping. MUFFLER-E-M-F design, silent. Silences by radiation-not

by obstruction. Absolutely no back-pressure. FENDERS-Enameled steel in the newest style, most approved enclosed-full-length-of-the-car type.

WHEEL BASE-108". TREAD-Standard 561/2" WEIGHT-(Exact) with all tanks full-2040 pounds; with top, side curtains and glass wind-shield-all tanks full-

2150 pounds. BODY-New "U-Door" type-up to the minute in style and finish. Tonneau a few inches wider, so that it seats three

two-hundred pounders comfortably. COLOR-Body dark blue, running gear yellow. From across the street you couldn't tell whether it was a \$6000 car or

PRICE-\$1500, f. o. b. Walkerville-until further notice. Full Specifications and Technical Description on Request. ACROSS THE BORDER two motor cars, E-M-F "30" touring car and its younger brother, Flanders "20," light roadster, runabout or suburban, are first choice of discriminating buyers of that great class who want efficiency, luxury and enduring qualities at a moderate price.

THE E-M-F COMPANY, of Detroit, Michigan, is now the largest motor car manufacturer in the world. Nearly twice as large as any other concern in the industry. Annual output, 15,000 E-M-F "30s" and 25,000 Flanders "20s."

DURING THE PAST TWO YEARS many of these cars have been bought by Canadians despite the handicap of duty and other charges. They have proven to be the kind of cars that Canadian buyers-principles of design and construction follow more closely after European models than other American made cars.

RECENTLY THE E.M.F COMPANY OF CANADA (Limited) was organized. At the head of this Canadian company are Messrs. Franklin H. and J. Harrington Walker, of the firm of Hiram Walker & Sons. This ensures not only practically unlimited financial backing, but is a guarantee of quality in the product and that the guarantee will be lived up to. The factory-shown above is located in Walkerville, Ont .- directly opposite Detroit.

THIS IS THE LARGEST PLANT IN CANADA devoted to the manufacture of motor cars exclusively. Every part of both the above-named models are manufactured in this plant. They are exact duplicates of the American product and made as well as-if not better than-the same models manufactured in Detroit. Canadian buyers are more particular than those across the borderat least, we like to think so. In finish and attention to details, this has not been lost sight of.

COMPARE THE SPECIFICATIONS and the prices of these two models with those of other makes of cars-European, Canadian or American-and you will see that by the establishment of this mammoth plant in Canada, buyers on this side of the border are now able to obtain greater value for their money than ever before.

NOT ONLY THAT, but in buying either E-M-F "30" or Flanders "20" you are not experimenting. You get cars of known reputation, time tried, road tested and guaranteed by men you know.

READ CAREFULLY AND COMPARE with other cars, point for point; compare quality of materials; excellence of workmanship; and, finally, the style and finish of these cars. You'll find that each in its c'ss wholly outclasses other cars at similar prices. E-M-F "30" at \$1,500 f. o. b. factory at Walkerville, Ont., cannot be equalled for less than \$2,000 to \$2,500. Flanders "20" at \$950 recognizes no competitor selling for less than \$1,250 to \$1,500.

OUR GREATER FACILITIES AND ORGANIZATION combined with our greater output-which distributes the "overhead expense" over a greater number of machines-make these prices possible. The price, coupled with the sterling reputation of these cars, createst the demand; having the market we can produce in large quantities; and producing in large quantities makes the price and quality possible. It is as complete as a circle and as simple.

FINALLY, THE GUARANTEE that goes with every car is backed by men you know and whose Enancial standing ensures its fulfillment in every respect.

Specifications Flanders "20"

MOTOR—20 horse-power. Four eylinders, cast en bloc-following best European and American practice in mo-tors of these dimensions.

BORE-3%". Stroke, 3%". COOLING Motor is water cooled, the jackets being extra large, insuring good circulation and a plentiful supply of water under all conditions. Water jackets sur valve ports also. Circulation is maintained by a fugal pump of liberal proportions and simple driven from magneto shaft.

LUBRICATION-Same principle as E-M-F "30" vacu offer having no moving parts and consequently sible to disarrange. Cannot flood nor starve the n oil level always the same regardless of road levels, speof motor, or any other conditions

IGNITION—Dual system, consisting of (a) Splitdorf magn—same as E-M-F "20," of which at this writing there 10,000 in daily use and not a complaint; (b) a set of dr cell batteries are supplied for emergency use.

CARBURETOR-Is of the approved float feed type similar that on E-M-F "30" and, like the latter, is of our own design and manufacture, CLUTCH-Is of the reversed cone type-leather faced-

type that has outlived all the "multiple disc" and other fads. REAR AXLE—Is similar in design and construction to that of E-M-F "30," which has proven so satisfactory to own-

ers-so disappointing to competitive makers. TRANSMISSION-is incorporated in the rear axle-the ideal construction for cars of light or medium weight. I confines the operating mechanism to two units and affords a maximum of flexibility in the chassis.

FRONT AXLE—Is drop forged in one piece—not welded in the center—from special steel of high torsional and elastic properties.

SPRINGS-Front, semi-elliptic. Rear, full elliptic, with acr ends-same as E-M-F "30" and on other high grade car Acme of easy riding and breakages practically unk BRAKES-Following the most up-to-date practice-but I erto found only in high priced cars-b are of the internal expanding metal ring type. Enc in a pressed steel drum on rear axles.
FENDERS nameled steel. Enclosed full length of car.
WHEEL: -100 inches. Tread, Standard, 561/2". Special control of the car.

61" for southern States trade. TIRES-32" x 3"-ample tire equipment and good safety GASOLINE CAPACITY-12 sations-sufficient for 250 to 300

OPERATION AND CONTROL—As this car is designed the use of owners and will probably but seldom be dr by skilled chauffeurs, every e ort has been ma simplify the control and make every part "fool pro BODY TYPES—Three, Runabout: Standard type but hav-ing large deck at rear, enclosed 7½ inches high for carry-

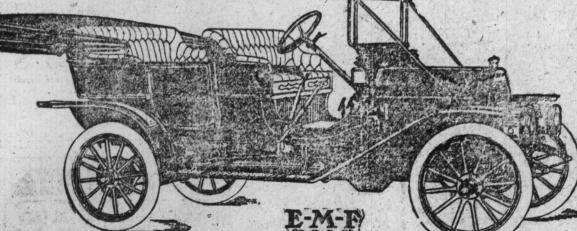

ing trunks, samples or other articles. An ideal and a practical utility vehicle and withal handsome.

SUBURBAN—A natty four-passenger car without doors. The rear pair of seats are removable and otherwise the body

RACY ROADSTER-A classy two-passenger Roadster, with gasoline tank exposed at rear of seats. Large receptacle under seats and another under rear deck.

EQUIPMENT-Splitdorf magneto: 2 side oil lamps; 1 of tail lamp; 2 acetylene head lights and acetylene generafor, and good tubular horn.

Orphans and Pets: A Domestic Tale

Marshall Saunders' New Book-Sequel to 'Tilda Jane-Tale of Home Life, Orphans and Domestic Pets-In Successful Vein of Famous "Beautiful Joe" by the Same Canadian

Author.

A delightful story for young people, but one no less interesting to the grown-ups, is "Tilda Jane's Orphans," by Mars. all Saunders (I. C. Page, Boston; William Briggs, Toronto. Price \$1.59).

'Tilda Jane, an adopted member of the Dilison household of Maine, having experienced the thorny side of life in an orphan asylum, is possessed by a desire to 'mother' all unhappy creatures. The Dilison family lacks a mother, and this office the youthful Tilda Jane very happily fills. Mr. Dilison, or Grampa, and his son Hank are both devoted to her. In response to 'Thida Jane's request for another orphan to make as happy as herself, a huge, ungainly girl of nineteen "a regular cow moose"—is sent from the asylum. Poor little Tilda Jane is nonplussed. Hank, who has a keen scines of the ridiculous, finds in her a source of unbounded amusement.

Perletta is a Lady.

ignorant of Andy's value and history, Grampa serenely permits the pub to sit in his arm chair, sleep in his bed, and demolish his property at his own sweet will. In a short time, indeed, Grampa becomes wonderfully attached to the pup; nothing is considered too good for him. Still another orphan is adopted by 'Tilda Jane. This is Housetop, the baby pigeon, who returns her affection more warmly than does the largest member of her family

My Views on Vivisection

By Elbert Hubbard, In New York American

Vivisection is the act of cutting into the tissues of a living animal in order to study the workings of the vital organs. It is a very ancient custom. In Athens, Alexandria and Rome it was practised before the Christian era. No widespread protest has ever appeared against it until about the year 1880, when there was organized in London an anti-vivisection club. Now, in England, only those persons who have a license from the state have a right to practise viyisection. Germany, France and Switzerland have also recently passed sim-

But in the United States, Russia Italy, Spain and Turkey no laws exist for the protection of dumb animals from torture. The mere statement of a person of any social standing, cutting into the body of a live animal, that his acts are done to gain scientific knowledge, makes him exempt,

I remember once of seeing some boys with a string attached to the leg of a live frog. Various plans were tried to make the frog jump, including sticking pins into its body. Finally, one of the boys tried lighting a match and holding the flame against

Just then I happened on the scene. I tried to make the boys imagine how it would feel if some monster had a string tied to their leg and were build-

Likewise Dr. Lawson Tait, the eminent surgeon, gives it as his opinion that the whole plan of vivisection is senseless from a scientific point, and absolutely valueless as a guide to operations on man. He innocently adds, however, the somewhat doubtful argument that "Vivisection affords practise and experience in cutting thru living tissue and so gives steadiness and assurance to the surgeon, but beyond this its results are nil."

In this instance has not Dr. Tait

this its results are nil."

In this instance has not Dr. Tait given the key to the entire situation? Isn't it respite from dull work which the young medicus craves? Also added to this, isn't the doctor, being but a man, actuated by the old savage instinct of blood, lust or the desire to fir ger the secrets of infinity and play with life and death?

The savages who tied their victim to a tree and shot arrows into him 41

to a tree and shot arrows into him at the rate of two or three a day were ac-tuated by something besides crueity, they were protecting their tribe by

But motives are never found pure.

Everybody laughed, but the profes kindly and gently explained that the dog was already wounded and could not live anyway, otherwise he would be quite willing to accept the young His gentleman's well-meant offer. I do not know whether the incident impressed any of the others as it did

me-it would have been weakness to have followed up the idea-but the next day I cut the class in vivisection. The question is still unanswered, Have dumb animals no right that scientific men should respect?"

The worst effect of vivisection is not, believe, the fact of the cruelty to he animal, but the evil reactionary effect on the man who practises the Work is for the worker, art business. is for the artist, love is for the lover and murder is for the murderer. The victim dies-the one who does the deed lives on.

The poor wretch in the stocks suffered, but not so direly as did the children who were given opportunity to pelt him with mud. All cruetty and inhumanity reacts to the detrument of

Nature is kind-she puts a quick limit on suffering; perhaps the /ivi-sectionist is right, that the animal does not really suffer much. But the fact is, the vivisector suffers, whether he knows it or not. He has immersed his hands in innocent blood, and instead of being the protector helpless he has taken advantage of the animal's helplessness to destroy it by a means slow, complex, refined, pro-longed and peculiar. Life has become Some te him cheap and thing divine has died out of his soul.

LONDON'S ANCIENT LIGHTS

Cosgrave's FALE ALE light , there, maids, hang out your light, And see your horns be clear and bright, That so your candle clear may shine, Continuing from 6 to 9,

That honest men that walk along May see to pass safe without wronz. Less than 200 years ago the watch-

men of London town, carrying horn lanthorns and halberds, dressed in long coats and knee breeches, walked Pants to the place from whence up and down the cobbled streets of the world's largest city chanting this verse. It is beyond our comprehension and imagination, in these days of flaming lamps and brilliantly lighted streets, to picture the streets of London in the lawless age when only a candle with a cotton wick was hung out here and there on dark nights. It There, as I past with careless steps and and linkboys, when everyone made his The mingling notes came softened from was an age of lanthorns, of flambeaux will and prepared for death when he ventured out at night. It is so written that it was a common practice in that city for a company of a hundred or more to make nightly invasions upon houses of the wealthy to kill and rob, and it is recorded "that when night come no man durst venture to was The the streets."-Springfield

"Back to the Land"

"Back to the Land" is the cry that should awaken Europe if the poverty and distress of the masses in her cities is to be relieved. It should be the motto of publicists in America who are endeavoring to solve the question of high cost of living and who are trying to increase individual happiness. The decline of the pretty village, the loss of devotion to rural life, the spread of cold materialism were foreseen by Oliver Goldsmith when in 1770 he wrote that gem in English literature "The Deserted Village." It presents a picture that should make Canadians think.

Sweet Auburn! loveliest village of the And the loud laugh that spoke the vacant plain;
Where health and plenty cheered the laboring swain, where smiling spring its earliest visit was a thickness that the laboring syming its earliest visit was a thickness and the laboring spring its earliest visit was a thickness and the laboring spring its earliest visit was a thickness and the laboring spring its earliest visit was a thickness and the laboring spring its earliest visit was a thickness and the laboring spring its earliest visit was a thickness and the laboring spring its earliest visit was a thickness and the laboring spring its earliest visit was a thickness that the laboring

And parting summer's lingering blooms
delayed:
Dear lovely bowers of innocence and ease,
Seats of my youth, when every sport
could please,
How often have I loitered o'er thy green,
Where humble happiness endeared each
scene!
How often have I paused on every charm,
The sheltered cot, the cultivated farm,

The sheltered cot, the cultivated farm,
The never-failing brook, the busy mill,
The decent church that topt the neighboring hill,
The hawthorn bush, with seats beneath
the shade,
For talking are and whispering lovers

the erring ones by any means they thought right and proper and expedient. The law now limits the power of the judges, for we realize that justice is not divine, but very, very human.

But a few years ago men were held in the stocks in public places to releive the jeers and insulations.

The bashful virgin's side-long looks The matron's glance that would those looks reprove.

These were thy charms, sweet village!
sports like these,

With sweet succession, taught even tout to please:
These round thy bowers their cheerful

Thy sports are fled, and all thy charms We got the dogs all right.

And it was the rule of the place that any dog could be redeemed on payment to the janitor of \$2. This money bought food for the dogs, also more dogs.

By Force of Circumstances By GORDON HOLMES

No busy steps the grass-grown foot-way tread,

For all the bloomy flush of life is fled. All but you widowed, solitary thing. That feebly bends besides the plashy spring:

She, wretched matron, forced in age, for bread,

To strip the brook with mantling cresses spread,

To pick her wintry faggot from the thore.

Then posted. Then, noticing a farmyard, where, in the balmy twilight, cows were being milked, he confessed to a childish passion for milk fresh drawn from the drank.

Near yonder copse, where once the garden smiled.

And still where many a garden-flower grows wild:

There, where a few torn shrubs the place disclose,

The village preacher's modest mansion rose.

The saturation of the way that was finished, Bagot again glanced at his watch, and on the way back to the carriage proposed that they should no longer drive, but should stretch their legs a little. Again Arthur agreed. He would have fallen in with any mood of this masterful man. year; down a lane, down a succession of lanes, the talk now being of Arthur's or e'er had changed, nor wished to grandfather, of the old man's belief

hour; hours aims his heart had learned to nebulous reasons underlying the holief, and admitted that he was himself

for other aims his heart had learned to prize.

More skilled to raise the wretched than to rise.

His house was known to all the vagrant train;

He chid their wanderings, but relieved their pain:

The long-remember'd beggar was his guest,

Whose beard descending swept his aged breast;

The ruined spendthrift, now no longer to find its cause.

to find its cause.

"No," he said, after a few seconds' quietude. 'I can only hear the plash of a waterfall in the artificial lake that lies among the trees there. The place is called the Ponds Covert, and forms part of the Pinkerton estate. Look, you can see a turret of the mansion over

can see a turret of the mansion over yonder, peeping above the trees."

"Well, I just wanted to test my hearing as compared with yours," said Bagot. "I am supposed to have an ear of quite phenomenal keenness, like a hare's, and, of course, I hear the play of the cascade you speak of. But, besides that, I am distinctly, tho vaguely, conscious of a sound of two yolces in conversation somewhere. So that I, an old bookman, can beat you, a young fellow, fresh from the wilds, in the matter of our acoustic outfits."

"Stay," said Arthur, spurred to emulation, "let me listen," and a minute he stood bent, keen, nothing but

could not but admire the absolute agility of stealth with which that man of bulk, fleetly but deftly, like one running the tight-rope, went speeding onward with hardly a sound. He saw Bagot reach an intersecting path and pass thru a gate in the hedge bordering the covert, where there was a
board printed with: "This road is private! trespassers will be prosecuted." vate! trespassers will be presecuted."
Then Bagot disappeared.
Five minutes, and he came back,

with one hand beckoning to Arthur to come, and a forefinger of the other held playfully before his lips in token of the other of utter silence. Silently went Arthur to him. Bagot, taking him by a sleeve, whispered into his ear: "I haven't seen myself, but I know exactly where-

He drew Arthur within the gate, and, like two thieves, they went on down the grass-ride of the shooting-alley, Bagot, ever leading, grasping his companion's sleeve. It was dim in there under the mass of the leafage, and everywhere in the air was the song of falling water in the deepening night.
They passed by the shore of a ake,
where a boat lay before a rude summer-house, and next over a little bridge in a dark place where the pool of wa-ter moved smoothly to a drop of 40 ft. deep, giving a gloomy music whose

se few tales from Fr. Meier's otion will serve to illuminate, so as they go, the savage ideas of beginning and of the end, togewith a few natural pictures of life as man must lead wherever of may lie.

There is no time lost in guesses at first cause. It is he, just he. No ne seeks to know the cause of the set cause, there is no lengthening ackward chain of enquiry into the reation of the world or the unverse. all begins with the utmost sim-

plicity.

He drew two figures of men upon the ground; he scratched his skin, a... as the blood trickled down he sprinkled the two figures. Then he broke off two leaves and covered with each a figure. After a short time these were men. The name of one is To Kabinana, that of the other To

To Kabinana went away, climbed a cocoanut on which the nuts were bright yellow and picked two unripe nuts and threw them onto the ground, where they burst asunder and became women. When To Karvuvu saw the two he asked as to their origin, saywohen. When 10 Karyuvu saw the wo he asked as to their origin, saying: "Where, then, are these women be found?" To Kabinana informahim: "Climb up a cocoanut tree," e said, "pick two green" nuts and

throw them down."
To Karvuvu threw the nuts down, but so awkwardly did he do it that the lower ends of the nuts hit the ground. Out of these nuts developed ground. two women with noses flattened out all over their faces. Now, when he saw that Kabinana's women were more comely than his own he did not rest until he had married one of them, because she had so greatly taken his fancy. But his own women he scorned because their noses were such a

now, when a brother-in-law is So now, when a brother-in-law is too attentive to his sister-in-law, it is because To Karvuvu took his sister-in-law in marriage. But To Kabinana was displeased at this and said: "You have brought death upon our race."

band:

"So you will eat only what that wild beast has cooked! Where does she come from, does any one know: Whence does she come that you must eat out of her hand? She's but a wo-

that himanity may now nope to attach mother of that creature whose tools, tain, for one must grow old as the you so much enjoy that you think you days roll up the tale of years. It can despise my cooking on her acsolud not really be so; the dream of count?"

Importal youth was not always a dream; the mistake of making half sat long under these words. The of humanity a gool brought death to sweat poured down from her, down upon the ground where she sat and she

To Karvuvu baked breadfruit. To

"Yes, indeed."
"Why are you cooking without letting our mother know? Bring her
half the breadfruit!"

To Karvuvu went and sought her; she was once more a young girl, for she had shed her skin. "Now, where's my mother?" To Kar-

"But you don't look as she did."
"No? I have shed my skin." He kept on crying obstinately for his mother's former skin, for he could not recognize her. "I cannot find out from your present appearance that you are really she. Where have you left your own skin?"

"I threw it into the water," she ari-

There was once a brother and sisrill go hunt your old one."

So he got up and went forth and sought and sought, and at last he found it hanging on a branch where the water had tossed it. He took it and came traveling back. He drew it over his mother again.

There was once a brother and sister; their mother was dead, and their father bought him another wife to fill a mother's place for his children.

One day his mother set out to cook a meal and heated stones in a first over his mother again.

To Kabinana came and found them both at home, and he asked him? "Why have you drawn over our mo-ther the skin she peeled off? You are a fool for sure! Now our descend-ants must always die, but the snakes, e small as well as the great snakes, will slough their skin."

That's how it comes to pass that the snakes shed their skin. Really we

Kabinana was much put out over cannot shed them, but only the snakes.

Being very angry he stepped on the water, and they floated, too.

Broad, and that's why it is so so broad.

So they came down from the tree

"This is the fellow," he said, "who d us of our chance to change

hus it comes about that we can-Originally that was what we were meant to do, so that our bodies might always be made young again made young again.

Why Death Is an Assurance, As if it were not bad enough to have mit to the signs of advancing, Father, farewell! ody had to invent death.

we should none of us die and stay dead. To be sure, they would have buried us, but we should always have unburied ourselves and have come unburied ourselves and have come ourselves at the fire. But as it is, because that child was disobedient to the old woman, we never awaken again in life, but when once we die we

die forever.

Woman's Devotion to Man. Even in such simple savagery there is scope for sentiment, whether for good or ill only judges of sentiment may fairly decide. Here in some humble sort one may see a vestige of the devotion of woman to man, a not unleasant vision of the polygamous

A man went out to the bush and ally of it; thus they provide made rain magic.

The problem for the students of the spread out two leaves and made aparative religion. Rather merry at thought of death they have read out a wholly satisfactory heremagic in a cave in the rocks. A wo-man lived in a cave up over the rainmaking. Her tears trickled down and sprinkled the package in the hole in which the rain magic lay.

But the man thought it was real rainwater trickling thru, so he didn't look up above him. He wrapped up his rain magic, for it had done its

But when he got up to go the woman made a sound as of a smack. He looked aloft and when he saw her he asked, "Who are you up there?"

"I'm a woman," she answered. "I'm your woman!"
"But is it actually true that you are

"But yet I am a doman," she replied.
So the man said, "Come along, let

They went and they went and they went, and the man bade her go into his house. Then came his own wife ande he told her the news: "There's "But where, then, did you get this

"I found her in the forest."
"Where is she? I must see her!"
So she had a good look at the other

"She comes from the forest. When I was making my magic to bring the rain I looked up at the wall of rock and there she sat." "This wife of yours is excellent,"

said the stranger reassuringly. "I am a real woman and not a ghost or an extraordinary creature." So the three of them lived together and the man married the wom:n whom he had found. The two women

sat down on either side so that the man should sit between them. When his first wife began to cook the meal the other, the one he had found, pared the taro long before her.

The wife that was found made a fire quickly, popped the taro into the fire, cooked, and gave it to the man, and he ate it. Thus she did every day and the man ate what she cooked. This made the first wife furious, and she abused both the stranger and her hus-

Catherine Dolgorouka was one of the maids of honor of the late Empress Marie when she managed to captivate the admiration of Alexander II. For her sake he neglected his consort, embittering her existence, and ended very popular, the reproduction of some by living openly with Catherine Dol-goruka, who bore him three children, ceived. 50 In this work the principal ad-

and within a few week after her death at Nice, her husband, who had not even taken the trouble to come to her when she lay dying, contracted an ecclesiastical marriage with his sultana, by whom he was so infatuated that he would not always in the "studio" alone that he was so infatuated that he would have actually raised her to the rank of empress had it not been for the pro-tests of the members of his family and of his most trusted advisers and oldest counsellors.

When Alexander III, learned that she had cut off all her magnificent hair, and had insisted on placing it in the coffin
—a token of broken-hearted sorrow
which the dead in the east of Europe once gave orders for the removal of her tresses from his father's remains, "Gladly would I let you come up." as savoring of desecration, and gave the woman replied, "but I am sure orders for her immediate expulsion you could not make yourself small enough. So good-by!" from Russia, before even the funeral had taken place. She was conducted permitted to set her foot on Muscovite soil. Her property would in all probability have been confiscated had not Alexander II., like Leopold II., taken fortune in her name in banks abroad,

to over \$25,000,000; in spite of which great wealth she has developed in her old age into a miser of the most eccentric type. Indeed, her avarice enjoys, one might almost say, a European That is why it is possible that Barreputation.

Difference in Fortunes.

There is, however, this difference beween the fortunes extorted by the price of their shame. \$50,000,000 from the family of the late court of law.

and thus lost to the nation, in order to swell the money-bags of the baroness, is of a nature to exasperate to the boiling pitch even the most phiegmatic of the lieges of the new King Albert.

The consent of the consent of the responsible ministers and parliament. This partly burnt.

She had survived Victor Emmanuel by about seven years, but had lived very quietly after his demise and in such deep retirement that no move

Moving Pictures Amuse Millions

Cut In on Regular Play-

PITTSBURG. Feb. 19.-There are may be natural. over 7000 moving picture theatres in the United States, besides 3000 other itle of Baroness Vaughan to the Prince places where motion pictures are and pelted with stones by the populace 200 miles of film are unrolled on the of Brussels, before effecting her escape screens of these places every day, and to France, after the death of King Leo- more than 4,000,000 people are in daily pold, is in accordance with precedent. attendance at these performances of For the nation is usually hostile to the "canned drama." It is estimated those who have been parties to the scandals affecting the good name of its rulers.

It is doubtful whether this ex-barmaid of the railroad buffet at Dijon will be permitted to return to Beigium, since, being of French birth, it is with.

when the motion picture was list in-troduced the spectators were satisfied with the simple views to be secured in almost any city, such as factory hands going to work, the departure of trains

as an undesirable alien, by means of a decree of the minister of the interior, without any form of judicial process.

Moreover, she is an object of such intense execration to the people of Brussels, who see in her the chief cause of the extraordinary boycott to which their city has been subjected for nearly a decade, by the reigning houses of Europe, to the detriment of trade and industry, that they would be almost capable of lynching her were she to attempt to brazen the matter out by showing herself there in public.

Indeed, like other Delilahs she will henceforth be condemned to exile from a country where for a time she reigned, after a fashion, an uncrowned queen. For it is impossible to deny that her influence over King Leopold, so autocratic and masterful in his dealings with everyone else, was very great.

The best illustration thereof is to be found in the fact that he should not only have quarreled on her account with his relatives, his ministers, and his second which the fact that he should not only have quarreled on her account with his relatives, his ministers, and his second which the fact had been subjected for nearly and ships, and what was considered the best treat of all, a street parade. This, however, no longer satisfies the nickelodeon patrons. To-day a conickelodeon pa

found in the fact that he should not only have quarreled on her account with his relatives, his ministers, and his people, but should actually have gone to the length of despoiling the reigning house and the nation of a fortune estimated at over \$50,000,000, in order to enrich this wholly uneducated woman, who was born in a porter's lodge, and one of whose sisters, at any rate, is a professional member of the fialf-World, the other sister being a respectable. or to witness the antics of a tiny fairy no bigger than a human thumb and yet too real to be a dummy.

When Alexander II. of Russia was murdered in such atrocious fashion by the Nihilists, nearly 30 year ago, one of the very first things that his successor did was to banish from Russia Princess Catherine Dolgoruka, who had been created Princess Yourieffska in her own right, only two months previously on the occasion of her purely ecclssiastical, that is to say, morganatic, marplaced within range. A cloth, bearing cal, that is to say, morganatic, marriage with the Liberator Czar.

Alexander III. had been deeply devoted to his father, was inexpressibly shocked by his frightful death, and mourned him sincerely. But he could not forget that this woman had brought shame on his father, and had been a source of inexpressible sorrow while the object is either removed or placed within range. A cloth, bearing the painted resemblance of a wall, stretched on the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the "wings." The substitution of a dummy at the top of the painted resemblance of a wall, stretched on the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the "wings." The substitution of a dummy at the top of the black of the painted resemblance of a wall, a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effect when photographed from the floor of the stage while a man or automobile moves over its surface, gives the desired effec been a source of inexpressible sorrow tumbles which are so frequently seen.

The explanation of the fairy is slightly

goruka, who bore him three children, all of them born during the lifetime of the empress.

The latter succumbed to decline, largely due to sorrow and humiliation, and within a few week after her death at Nice, her husband, who had not even taken the trouble to come to her when she lay dving, contracted an acclerication.

OUR MODERN OFLILARS Remarkable Development of thereby getting within range of the camera. While moving pictures are in the "Canned Drama" Has reality silent dramas, they are not silent at the time of making. Those taking part talk quite as loudly as when ordinarily acting. This is done in order that the movements of the nouth and the expression of the face

> Inanimate Intelligence. Still another type of film is that in which inanimate objects perform apning around the table, dead figures coming to life or clay moulding itself into a bust. The greatest requirement for this is patience. The bowl moved, photographed again and so on until it has been made to go thru the required

In the productions of these plays many feet of films are required, one story covering anywhere from a few hundred to 16,000 feet, each foot having 16 exposures about the size of a postage stamp. The apparatus needed for taking these motion pictures, the cinematograph, is so constructed that the film does not move past the lens continuously, but stops 15 times to every foot of film, or once before each exposure. As the film goes forward, preparatory to another shot being recorded, a revolv-ing black shutter intervenes to protect is developed like any other negative, and when dry a contact print is made on another piece of transparent film of corresponding length, after which proprogress has been made in this process that to-day a film can be developed and ready for use 20 minutes after having been exposed.

First shown for the purpose amusement, the moving picture has grown into an educational and ading the idea for Bible teaching. One Chicago film maker is introducing films in which are shown the e-ils wrought by the fly in carrying gerne. Another film shows the caterpillar in the act of destroying trees. For advertising purposes many companies have had films made of their trade, showing the process of preparation from start to finish. Among these are the wine industry, ostrich raising, bar-rel making and doll making.

were used in taking pictures of pelicans in the water, while the land pictures were taken from behind an artificial blind.

Effect on Regular Theatres. The rapid grown made by the motion pictures has not been without results on various things. It is estimated that on various things. It is estimated that the decrease in attendance of the gallery of the regular theatres has been 50 per cent. This has in another way helped the actors. It gives them greater opportunities of employment, as the business of posing for the silent play is gradually rising to the level of a recognized profession. of a recognized profession.

With the beginning of the moving picture craze the exhibitors bought their films outright and were forced to pay large prices—usually about \$140 a film. To-day the country abounds with day on the rental/basis. The price of this service varies from \$120 a week for the best class of films, down to \$20

nephew and heir. Would Entail Scandal. VANITY'S COST IN LIFE

How Women and Children Toll That the Well-to_do May Be Clothed

who received from Duke Ernest of Sixe-Codurg the titles of Barons you Eppinghoven.

Leopold I. was much more discreet in his relations with Arcadie Meyer than his son and successor with Baroness Vaughan, for his favorite niece, the late Queen Victoria, who in his childhood had been his ward, and regarded him as her second father, never dreamed that he was anything but the most pious, God-fearing and lofty yrincipled monarch, as may be gathered from the letters which she addressed to him, and which have appeared in print.

The people of Brussels, however, were better informed, and when he Appeals to weart and conscience alike victims of the sweatshop system. And it was by no means clothing of the show herself in the streets arrayed in mourning, she was mobbed, pelted with stones and offal and compelled to flee for her life. She was the most notable of quite a bevy of ladies who helped to brighten the declining years of the well-to-do and even the most elaborately furnished stores. For dainty feather-stitching on a baby's described to the most elaborately furnished stores. Pictures of birds in their native haunts are difficult to obtain, yet one man has secured a large number of these films. The home life of a robin was obtained by a film maker who secreted himself behind a blind. Boats were used in taking pictures of pelicans helped to brighten the declining years dainty feather-stitching on a baby, and the count-being a woman who died as the Count-being a baby, is paid perhaps four cems. If well a baby, is paid perhaps four cems. If we well a baby, is paid perhaps four cems. If we well a baby, is paid perhaps four cems. If we well a baby, is paid perhaps four cems. If we well a baby, is paid perhaps four cems. If we well a baby, is paid per 12 to 5, earn together 60 cents a day. Their work may be seen at the exhi-bit. It is beautiful; but the system that produces it at this cost of young tained a stagecoach system of transportation, the steeds whereof are of that sad appearance presented by the horses attached to the Fifth-avenue line in New York not so many years ago.

One day a Cincinnati man, visiting the town in question, boarded the stage, having no other currency than a \$5 bill. This he proffered to the driver, The latter took it, looked it over for a moment or so, and then asked:

At the Princess

At the Princess Theatre, beginning to-morrow evening and all this week, Charles Frohman will present the eminent English actor, Kyrle Bellew, and his superb company of asociate players direct from the Hudson Theatre, New York City, in one of the most

ngular fidelity and naturalness.
"The Builder of Bridges" is just a simple story, a clean, cleverly con-ceived exposition of a loyal sister's In the cast are Frank Rushworth self-sacrificing love for a young brother whose ingenuous inexperience and youthful indiscretion have plunged him into the quicksand of impending dishonor, disaster and despair on the very threshold of a promising career. To save him, the sister enlists the interest, sympathy and co-operation of the great-builder of bridges who shuffled the cards that fate has dealt and Soon hearts are trumps and the real game of bridge building is played in desperate earnest. At one turn of the cards it would seem that in the winning of the original stake, the sister lesses the hard and has that have loses the hand and heart that have become dearer than all else in the world during the progress of this game, but she too has learned to build and in the end builds even better than

the master builder of the massive bridges of masonry and steel.

The supporting company is one of especial excellence, having been per-sonally selected by Mr. Frohman for the presentation of Mr. Sutro's masterpiece in America. Prominent in the cast are such well-known artists of true and tried ability as, Miss Gladys Harson, leading woman with E. H. Southern last season, Mrs. Thomas Whifen, Frances Comstock, Jane May, Mr. De Witt C. Jennings, Frank Connor, Eugene O'Brien and Earnest

At the Royal Alexandra

Frank Daniels, the comedian, who is funny without giving the impression that it is hard work, comes to the Royal Alexandra Theatre this week, this time under the management of the Messrs. Shubert, and presenting one of the greatest of recent London musical successes, "The Belle of Brit-tany." The opera has a plot which concerns a hard-up old marquis and a mortgage. The dialog is said to be wholesome and amusing, and the music light, airy, dainty and charming. Some of the most tuneful of the songs,

Country Mice" and "The Dawn of

The scene of the play is laid in Brittany in the eighteenth century. The first act shows the old mill in the Bols d'Amour, Port Aven, and the second act represents the great hall of the Chateau St. Gautier. "The Belle of Brittany" was first presented at the Queen's Theatre, London. The book is by Leedham Bantock and P. J. Bar-New York City, in one of the most noteworthy productions of the season, a new four-act play entitled "The Builder of Bridges" now the reigning success in London.

"The Ruilder of Bridges" might best success in London.

"The Ruilder of Bridges" might best success in London. "The Builder of Bridges" might best be described as being a masterful document, that lays bare the innermost workings of the hearts and minds of three distinctly different types of men, and a most remarkably womanly woman. The play depicts life as does a mirror reflect even the passign of a shadow, and portrays character with singular fidelity and naturalness. "The Builder of Bridges" is just a sical attractions for several months

> Martin Brown, Herbert Neville, Joseph A. Bingham, Ernest Wood, Storey Chipman, Homer Potts, Jack Laughlin, Elsa Ryan, Christine Nellson, Frances Kennedy, Florence Rother, Camille Truesdale and Helen Paine. There will be a Saturday matinee only.

At the Grand

as well as one of the best ever writ-ten by an American playwright. It is fit for the young and old and middle aged alike. It appeals to the casual as well as the habitual theatregoer and is equally liked by those who go to the plahouse simply for an even-ing's amusement as well as by those who go in critical vein. The story of "Checkers" must be well known to every playgoer, tho every playgoer may not have seen the play. It follows the popular book of the same name very closely, departing only where the strict requirements of the stage demand. The flavor of the tale is delightful. It is fresh, simple and strong, and the unfolding is as natural as the handicraft of the playwright can make it. The company and pro duction are deserving of unstinted commendation. The piece abounds in characters not unique but such as one might meet in every-day life in the city, in the country or wherever one strays, and all are capitally portray-ed. James A. Gleason is credited with playing the title role with an easy, natural grace and force at once charming and telling. Dave Braham, jr. the son of the well-known composer, gives a sketch of a race track tout to the life. Florence Hester, as Pert, the sweet and pretty sweetheart of Checkers, is reported as charming. all work, is a comedienne of rare abilAt the Majestic

"Kris Kringle's Dream" is a big enough thing to overtop many travelwhich the piece abounds are: "The twith the piece abounds are: "The Trysting Tree," "Daffodii Time," "I'm Not a Lady's Maid," "The Doggies and the Bone," "The Girl With the Clocking on Her Stocking," "Little" "Ity, and Joseph Wilkes, as old Barlow, in which he has appeared for selever the same and the s with ry Ali and Bobbie Nolan, well-known satiri- pantomime comedians, who play the 'Peppermint Kid" and "Jack in the Box" respectively, and Harry Howitt, who plays the "Polar Bear."

Elizabeth Murray, the favorite sing-ing comedienne, will be given a warm welcome. She has not been seen by Sheagoers in a couple of seasons, but her success has been enviable. Miss Murray's songs are always refreshing and she comes on this occasion with an entirely new repertoire and with some stunning gowns. Charley Case is another visitor who is always welcome, and his stories of "father" are one long scream. Edwina Barry, supported by William Richards and company, in Jimmy Barry's sketch, "The Home Breaker," will be one of the novel features of the bill. Miss Barry is dainty and charming, and, as Dotty Plumdary, makes lots of fun and merry trouble. The Reiff Brothers are old favorites and the cleverest and best dressed dancers in vaudeville. On this occasion they have the assistance of Miss Murray, who adds much to the attractiveness of the act. The three Ernests are grotesque comedy acrobats, who give a novel performance on elevated bars and bounding pad. The Nevaros are athletes, and their strong acts are all graceful and wonderful. The show closes with new pictures on the kine-

Mile. Adeline Genee announces that she will be married June 1 in London. She will play one more season, however, under the management of Klaw & Erlanger before she retires from the stage. Her tour will cover all the principal cities in the United States in one of the firm's big spectacular

cal humor. During the week special performances of "A Night in an English Music Hall" will be given. Star Theatre is the big company of The famous Le Pages will introduce a jumping act that is peerless. Mr. Le Page does some remarkable jumping, and he performs feats that to the presenting a show, which, while full naked eye seem almost impossible. He of fun and novelty, always keeps a also does pole vaulting, going thru a barrel while making his flight and thru a hoop. Hallen & Hayes, America's pre-eminent singers and dancers, will introduce some new and original steps. The Mayvilles' will six certainly one of the principal stractions. The Empire Show comoffer a novelty act appearing as living marionettes. Another turn of merit will be that of Marshall & King, presenting their latest success entitled, "The Brazilian Robbers of the Hills," the scene of which is laid in South America. Miss King plays "The Queen and the states effects are declared to the latest success the bird. of the Band" and Miss Marshall takes the very handsome, because of the high the part of the "Robber Chief." A novel Brazilian dance is introduced by Miss King during the progress of the stage series and in the vaudeville ollo are such huge the stage of the high to the cost, artistic nature of the productions. The chief players in the burlesquestand in the vaudeville ollo are such huge the stage of the high to the cost, artistic nature of the productions. favorites as Tom McRae and his im promptu quartet, Luella Temple, Cora White, Rose and Ellis; the Comedy features, excellent moving pictures will complete the offering for the week. Quartet, who present a very funny talking act, and Peyton and Wilson.

At the Gayety

for the least money is still better. monster spectacular scenic production, the management has added a bill of musical comedy and vaudeville stars which would do credit to any big Broadway production. Joesph J. Sullivan, Mile. Ani, Gracey and Burnett, John McMahon are among those who participate in the performance. Last but not the least entertaining is the laughable, mechanical trolley car, the only practical car of its kind ever intreduced on any stage, introducing a trip to Coney Island. Another scene of entrancing beauty is that in which the bathing girls are seen—a scene which for beauty of color blend-ing excels that of any of big Broadway reviews. Mr. Hill, manager, is a past master stage realism and has probably centrated all his artistic skill on this production and has good cause to feel proud of his accomplishments. The press extant has been lavish in 1's Three Marvelous Brothers Melvin have been engaged.

Charley Grapewin In a New Play

Popular Comedian Coming to the Grand In "Above the Limit."

Charley Grapewin, the unusual comedian, who will appear here at the Grand next week, in a. new play, 'Above the Limit," disproves in it the event of the day. the old adage that it takes three generations to make a gentleman, for in the short period of five years he develops the dirty, grimy, slangy, tho happy, Jimmy Hicks into as polished a gentleman as one could wish for. In the character of Jimmy Hicks, Mr. Grapewin's portrayal of an uncouth disciple of acting, who realizes that his ignorance is the one barrier which ould prevent his marriage to the girl he loves, and who, by sheer determination, educates himself, is one of the best examples of acting that has been

seen on any stage.

One of the big scenes shows the lawn of a magnificent estate on the Hudson River. During the action of the play, large steamboats are seen passing up and down the river by night, and there is a constant playing of searchlights from the boats on a beautiful night scene. This is one of the many elaborate scenic effects in "Above many elaborate ela tiful night scene. This is one of the many elaborate scenic effects in "Above many elaborate scenic effects in Goldbonds, zat you know, would depend entirely on ze income.—Judge. cue. "Oh ,yes, dear," she said, "I sent to the cats' home in a basket this morning."—Tit-Bits.

Kyrle Bellew a Finished Actor

Dramatic reviewers from time to time have given wide publicity to the statement that Kyrle Bellew, the distinguished English actor, first came to America as leading man in support of Mrs. James Brown Potter. As a matter of fact, however, Mr. Bellew wen well deserved recognition and firmly established his American reputation long prior to the Bellew Potter tour, he having been a leading member of seasons. Mr. Beliew again visited America in 1882 and made his premier metropolitan debut in the United States at Wallack's Theatre. Subsequently he appeared at the same theatre for various engagements of from a fortnight to several months in extent during 1885, 1886 and 1887, presenting with great artistic success and popu-

The Palace of Truth, "The British Columbia, or indeed in any part of the Pacific coast of North America. There was, however, one of the greatest mad dog excitements there that ever took place anywhere; and when a somewhat similar scare was started in Southern California not long ago, the following was received from Arnold F. George, formerly editor of the Dawson paper: "Will you permit me to add my testimony for what it is worth in supplementing your able efforts to abolish the absurd maddog scare. I believe the time is now ripe to speak, as the truth is at last being approached, so that violent shock to Ignorance, disbelief of strange truth and hatred of the one stating the new truth will not destroy it.

""Ador showing all the symptoms of the day of the strange truth and hatred of the one stating the new truth will not destroy it.

new truth will not destroy it.

"A dog showing all the symptoms of hydrophobia had died, and was cut open by a veterinary, to, if possible, determine by what disease it had met its death. Its intestines were found to be completely stopped up.
It had died from inflammation of the
bowels. In fact, small worms were
found inside the dog, and had eaten

the rectum out.

"Do you fully realize how near to the truth that paragraph approaches? And are you quite aware that a great mystery of a thousand years, the basis of much good literature and false panic, is about to be eliminated and become another stumbling block removed from before the blundering feet of the human race.

day up there if you cried mad do after any canine, no matter how he acted."

Now a leading authority on the question claims that Mr. George is undoubtedly right. Fancy the idea of muzzling dogs when they are in such a condition!

What a refinement of cruelty. Much better kill them, or muzzle the mad doctors.

"Now, listen, I am an Alaskan For 12 fears I have lived there in more in timate association with dogs than can be possible in this 'outside' country. Permit me to say here that I am the oldest journalist in Alaska, known its length and breadth as professor, because of this newspaper connection. Some eight years ago the Klondike was the scene of one of the greatest mad-dog scares I ever heard of. It was midwinter. Not a day but six to a dozen and more dogs ran amuck. It a dozen and more dogs ran amuck. It reached a point where women and children were ordered by the police to stay indoors, while at every fork of the trail over that well-travelled country was stationed a constable with an unerring gun, shooting every stray dog that appeared. Dead dogs lay on every hand. Raving dogs everywhere tugged at chains, awaiting the arriv-al of constables to shoot them. Numerous men and women were badly bitten, at least one man died raving and frothing ar I refusing water. In humility, I confess that, as editor of minie's Daughter," "Old Heads" and the leading paper, I had unwittingly Young Hearts." After a brief vacation in Europe last summer, Mr. Bellew has recently rether multitude of mad dogs at first. I admit having myself suggested the drastic measures later taken up by balanced company of capable artists the police. I admit anticipating a in "The Builder of Bridges," a master-fearful epidemic of rables among the ful four-act play from the pen of Alfred Sutro, author of "The Walls of
Jericho," in which Charles Frohman

market. One fourth of the stipend is spent for food and another fourth goes into other channels of purchases by the wife—clothing for the family and furnishings for the home.

These were some of the statements made before the marketing class of the School of Domestic Arts and Sciences.

This Is Assertion of a Man Who
Knows Something About Dogs
—Read This Article For a Few

Plenty of dead dogs lay all around, and they were frozen hard as steel, and were therefore not suitable for investigation. However, by following the shot, in two days I had myself, or thru Suggestions on How to Help
Dog Out of An Embarrassing
Dilemma.

Snot, in two days I had myself, or thru
Mark Bray, opened 15 newly killed
alleged rabid dogs, all with the most
typical symptoms, biting at everything
blindly, foaming at the mouth, refusing water, fighting their master and
rupning amuck, seeking solitude, etc. running amuck. seeking solitude, etc., and in absolutely every case I investi-

vinced, and in a very few days I had allayed the scare. Hay, hide and bones fed to the remaining dogs alive caused the madness to disappear as rapidly as it had arisen. Bitten men were let from under observation, and that was the last of rabies in the Klondike. I believe as firmly as I believe anything that the one man who died with alleged rables, after being bitten, was frightened to death. I believe, with Mark Bray, that there was never a case of rables in the north. never a case of rabies in the north.

I believe there is no more danger from a bite when a dog is dying from worm fits than at any other time, and never any danger but from the impurities of one's own blood. So firmly do I believe this that when, last winter, I had a hand all maimed by wolfdogs I never went near a doctor, nor was I for one moment alarmed. Indians, when, thru neglect, they have some of

when, thru neglect, they have some of their dogs run amuck catch them, harness them, work them and feed them hide. And when the Indians get bitten, as is frequently the case, they only laugh, and I have yet to hear of the first Indian dying from dog bites.

"All this and more I published in Dawson, Yukon Territory, in allaying the scare, and, while not all believed, you would be laughed out of court today up there if you cried mad dog after any canine, no matter how he acted."

INTO VAUDEVILLE

Glenn Curtiss to Show Everybody How the Wheels Go Round,

The aeroplance is going into vaudeville. Yes, the flying machine is planning to emulate the jilted flancees of young letter-writing millionaires, trained seals and superannuated actresses who have broken into the "two-a-day" recently. Already the flying machine is being rehearsed, and within a few days its debut at one of the leading vaudeville houses will be announced.

Probably you are thinking that you've seen a flying machine on the stage somewhere and you are wondering why this story should be printed about an aeroplane going on the stage. Well, you only think you've seen a flying machine on the stage. The flying machine you saw, or thought you saw, really wasn't an aeroplane. It was simply a make-believe affair, suspended from the flies. The aeroplane of this story is a really and truly aeroplane. Of course, it won't fly in the theatre, but it could if there was sufficient space, for it is an exact model of the aeroplane that Glenn H. Curtiss has been flying with at Los Angeles.

of the other dogs in the country had escaped being bitten at least once or twice. When the panic had reached its highest, I was approached by—yes, in justice let me give his true name- knowledge of the gentle art of flying Mark Bray. Mark is a man who was living with the Indians in the interior of Alaska long before there was a Klondike. He provoked my contempt by the flat assertion that there never had been a single case of rabies in Alaska. This when our Dawson panic was, as I have said, at its highest. This when dead dogs lay on every vaudeville audiences.

Yonkers Statesman,

Kaiser Interested.

The kaiser and the crown prince are especially interested in horse breeding in Germany. While the latter was serving his apprenticeship at the Prussian home office a year ago, he devoted growth and the crown are especially interested in horse breeding in Germany. While the latter was serving his apprenticeship at the Prussian home office a year ago, he devoted growth and the lip, which is the silip 'twixt the cup and the lip," besited away from the crying necessity of food first thus:

"You can say, wait back! wait head! but de stomach it say, 'Now!"

Strange are the contortions that some familiar old sayings undergo when quoted by the lips of these dusky wise-acres. The old adage, "There's many a sit is the silip 'twixt the cup and the lip," be-

Doleful Fatality Keynote of Many of Them--Phrases Familiar to White Men Become Oddly Twisted.

A race in its youth always expresse tself in proverbs, parables, fables and aphorisms. The very old negroes of the plantations are still young enough in race development to use this style of

A Georgia woman tells of the daily arewell of one old house woman who or a time served her faithfully and well. She always bade her adieu as if he waters of eternal parting would roll between them ere the dawn of he morrow. At evening it would be: the morrow. At evening it would be:
"Good night, miss; if I don't never see
you no mo', try to git 'quainted wid
de Lord," or "Good-by, miss; if I ain't
wid you in de mornin', I'll be wid my
Maker." Despite this quivering balance on the border of the great unknown, she still lives. This was her
cynical definition of home: "De place har I'm best known, least thought

devil ain't never done for you," she said once to a fellow-servant. "What's that?" asked the young servant, not so familiar with the old plantation jargon. "Go off an' let you 'lone," said the old oman. "De devil ain't never done

A fixed fatality, one not to be argued with or fought against, lives in the old negro sayings, as:
Better let well do done.

Live, learn, die and forget all. Des so de tree fall des so it lie, Hard times set in de road for you both gwine and comin'. What's comin's comin', up de road or down de road, you can't travel pas'

You may save all yo' days, but yo' an't save yo' life. You can turn de stream around, but you can't twist it back. Some sayings have reference to cerain superstitions of the race, for in-

'Tain't no good to kill de crane after 'Tain't no good to kill de crane after he done fly over de roof er de house and call fer a corpse, and whickerin' mares don't hatter ax de road to de cabin whar de ole folks live, or none but a fool 'll hang a horseshoe on de limb of a belted tree.

It is an old belief that it is a death sign for some member of the family dwelling in the house over which a crane flies, uttering his doleful note, which to the negro ear spells corpse!

which to the negro ear spens corpse! corpse! The whickering mares are little brown birds known by that name to the plantation hands. They are said to fly in flocks and to come about a cabin only when some old dweller therein approaches death. At such times they fly and whicker a-near and con not be driven away. A horseshoe hung on a tree is said to make it grow fast and bear fruit.

Of the rapid passage of time we have Day's short as ever, time's long as i

Night's a shadder, day's a shine, Gone 'fo' you catch it gwine.

garnered in these:
Mistakes ain't haystacks, or dar'd be mo' fat ponies dan dar is.

Burn up de ax helve dat can't hold up de blade.

Let de flatiron rust dat puts cat faces on de cloze. Don't fly so high dat you lit on Trouble follers sin as sho' as fever

follers a chill.

Fire don't crack a full pot.

Des hold up yo' end er de beam and de world'll roll on.

De fool'll hang a horseshoe on a dead man's do' for luck.

A fool 'n' his ways, Like a donkey 'n' his neighs— Des like sense to gaze

Others treat of the better part of De laziest man can make de biggest

A po' ride is better'n a proud walk.
A bank er sweet 'taters is food and
fire and cloze—'Us' set all day and fer ces, until it crossed the railway roast 'em and don't need to go out do's. Just in front of the Fort McPherson barracks. The scent was growing hotter and hotter. The dog was intent in one half hour of a summer night.

hotter and hotter. The dog was intent on only one thing.

Along came a switch engine.
Old man Shockley and the other officers of the county police are filled with sadness, for "Dock" was a prime favorite, a terror to criminals, but the prettiest, gentlest, wisest puppy of the pack.

The "Knocker."

Mrs. Crimsonbeak—1od re always "knocking" at my biscuits.

Mr. Crimsonbeak—Well. I've got to "in one half hour of a summer night.

Tarryin' ain't carryin' and it's heap easier work—des let rabbit stop long oasier work—des let rabbit stop long oasier work—des let rabbit stop long oand de dogs can't catch him dat trip.

Many expressions anent that darling of the plantation household, the pig, can be found, as: "Piggy ain't pretty, but he meat is sweet." To do a thing thoroly is "to go it whole hog or none." One reared in plenty is one "raised on hog and hominy." And a final defence of the pig and his habits is: "If de pig be greedy it's for yo'

Do you know how much you are losing by not owning an Edison Phonograph?

This instrument was made for you by Mr. Edison. It is intended to bring music into your home. It will help you entertain your guests. It will amuse you during your leisure hours. It will help you to bring up your family to love music.

This is what Mr. Edison meant when he said that he would like to see a Phonograph in every home.

How can you let any consideration of money stand in the way of your owning one of these great entertainers? The Phonograph will give you so much more in return for the money than you can get by spending it in any other way.

Do not take our word for it. Go to a dealer today and hear the Edison Phonograph play the Amberol Records, and you will know why we are so positive that you cannot afford to do without it.

That would be funny for you." has it enjoys it."

FUNNY FOR HER. A Philadelphia clergyman tells of an incident in connection with his first visit to a town in Pennsylvania where he expected to be called as pastor.

A New England lad was intently watching his aunt in the process of making pies and cake. He seemed very much inclined to start a conversation, the an inclination, however, which the aunt in no way encouraged. She continued in silence to assemble the ingredients of a mammoth cake.

"Tell me something funny, auntie," finally ventured the boy.
"Don't bother me, Tommy," said the
aunt. "How can I when I am making
cake?"

Now is the time to make your choice.

A NECESSITY IN THE NURSERY

THE soft, delicate, satiny skin of baby demands a talc powder of superlative purity. Cheap and inferior preparations won't do. The chance is too great even for a grown person. Special elaborate care is given to the blending of

TALCUM POWDER

which makes it particularly safe and pleasant for the nursery. Being composed of pure, sanative ingredients, it softens the skin and keeps it in good healthy condition. Both the powder and its refreshing perfume are antiseptic. Ideal Orchid is a perfect powder for men and women of refined taste.

tion in his former regiments of being a straight shot, a good soldier and an intrepid hunter of big game.

The love of the Yorkshireman for his doc, is proverhial says. The Tatler. An

intrepid hunter of big game.

Mr. Gleason, is a fine actor and brings to "Checkers," a handsome face and a manly, soldierly carriage.

William Gleason, his father, is a very well-known character actor, having played important parts in support of Forrest, Keen, Booth and Barrett and was for a long time with Lester Wallack in New York City. His mother, who was Mina Crolius, is now playing with the stock company at "Ye Liberty Theatre," Oakland, Cal. She was a well-known child actress in Boston, and played Ophelia to Edwin Booth's Hamlet. James Austin Gleason comes by his talent most honestly as, witness, his parentage.

The love of the Tornah and gog is proverbial, says The Tatler. An old Yorkshire collier, well known for his success in the coursing field, recently surprised all his mates by marrying a very urprepossessing woman.

"Why has ta gone and got spliced, lad, at thy age?" one of his friends asked him. "Oh, that's not much of a tale," at the age?" one of his friends asked him. "Oh, that's not much of a tale," at the age?" one of his friends asked him. "Oh, that's not much of a tale," at the age?" one of his friends asked him. "Oh, that's not much of a tale," at the age?" one of his friends asked him. "Oh, that's not much of a tale," at the age?" one of his friends asked him. "Oh, that's not much of a tale," at the age?" one of his friends asked him. "Oh, that's not much of a tale," at the age?" one of his friends asked him.
