HE'S THE FIRST BOY IN ENGLAND

The following essay written by Miss Ida Whipple, won the first prize in "Class B" as well as the grand prize in the recent contest conducted by the St. John Board of Trade.

The prize in the contest was awarded yesterday afternoon to the winners, in the board of trade rooms. Miss Whipple received \$10 as first prize in "Class B" and \$15 as the grand prize \$25 in all.

Next Saturday morning of the prize winning essays will be published. Miss Whipple's paper is here given:

Improvements in 15 Years The greatest improvement in St. John in the last fifteen years is that it has become the winter resort of Canada.

Exports of 1897-8 valued at \$3,488,788 Exports of 1909 valued at \$6,966,788

As a result of St. John's development as a port many wharves have had to be built. Up to the year 1898 the city built all the wharves at Sand Point.

There have not been many new industries started in St. John in the last fifteen years, but the existing ones have been improved.

The street car and ferry services have been improved. The cars now run on all streets of the city and Carleton, and a splendid new ferry-boat, the "Ladlow," has been added to the ferry service.

The water works system has been improved at a cost of \$2,000,000.

Many school buildings have been erected of late years. The Free Public Library was built in 1904 at a cost of \$80,000; the Y. M. C. A., in 1907, at a cost of \$60,000; the High School was built in 1897, and since that time the LaTour, Dufferin, Winter street annex, St. Thomas and Alexandra schools have been erected.

Manchester, Robertson and Allison, Ltd., has enlarged and improved its building and the Royal Hotel has added to its building. On Partridge Island a quarantine station, and Marconi wireless telegraph station have been erected, and a new fog whistle has been installed.

The schools of St. John have greatly improved and domestic science and manual training are now part of the regular school course.

St. John has now a splendidly equipped fire department. Several new stations have been built and a chemical engine has been secured.

Love of animals is a trait of all the Wales children, as they were known till very recently. Prince Edward's pets include dogs, cats, ponies, horses, birds, a monkey, guinea pigs, rabbits, white mice and several kinds of birds.

The lesson of charity has been inculcated in Prince Edward, as in his brothers and sister. They have always had and parcels of toys to sick children at Christmas time and they have had to give not only old toys but things they fancied themselves.

King Edward and his grandson were chums and were often seen together at Windsor.

Socialist Wins Friedrich Heese, June 25—Herr Busold, socialist, today won the by-election for a seat in the Reichstag. He received 11,545 votes against 9,413 polled by Herr Heilmann, conservative. The seat hitherto has been occupied by a nationalist liberal.

"Davis' Perfection," 10c Cigar

When Benj. Franklin

back in 1778, visited Montreal on business, the cigars were not quite so good as they are today.

Today, in the Montreal newspaper founded by the worthy American, the traveller from Franklin's city may see the advertisement of a cigar worth taking back and paying duty on.

"Davis' Perfection" 10c Cigar will please particular smokers. It is not merely a mild cigar, but it has the rich, mellow taste and charming aroma of the best Havana.

The Furnace of Gold

By PHILIP MIGHELS Author of "The Pillars of Eden," etc.

CHAPTER XXXVI.—(Continued.) "If there is nothing more," he added, "permit me to wish you good-day." He swept off his hat as he had before, turned promptly on his heel, and departed the scene forthwith.

Wholly at a loss to understand, she leaned in sudden weakness against the frame of the door, and watched him disappear. Her smile was gone. In its place a dumb, white look of pain and bewilderment had frozen on her face. Had not that something, akin to anger, which her nature had felt to be emanating from her, could almost have thought the thing a joke—some freakish mood of playfulness after all the other moods he had shown. But no such thought was possible. The glitter in his eyes had been unmistakable. Then, what could it mean?

talking of the "Laughing Water" claim, and all of them ready to sympathize with Van—especially at his expense. His night was a mixture of wildness, outbursts of satire on the virtues, witty defiance of the fate, and reckless denial of everything save reference to women. Not a word escaped his lips whereby his keenest, most delighted listener could have probed to the heart of his mood. To the loss of his claim was attributed all his pyrotechnics, and no one, unless it was Rickart, was aware of the old proverbial "woman in the case," who had planted the sting that stung.

Rickart, like a worried animal, following the footsteps of his master, sought vainly all night to head Van off and quiet him down in bed. At two in the morning, at McCopp's gambling hall, where Van perhaps expected to encounter the jumpers of his claim, the little cashier succeeded at last in commanding Van's attention. Van had a glass of stuff in his hand—stuff too strong to be scathed by all the pure food enactments in the world.

It was daylight when he reached the camp, his partners had made on the desert. Napoleon and Gettysburg were drunk. Discouraged by his long delay, homeless, and utterly dejected, he had not readily succumbed to the conveniently bottled sympathy of friends.

CHAPTER XXXVII. The Positive Law. Rickart and McCopp had made ample provision against attack at the claim. Their miners, who set to work on one to a rule to get himself out of the way. Mrs. Glover Not Guilty. Cambridge, Mass., June 24—After District-Attorney Higgins had stated in his closing address that he had never suspected that any of the defendants were in any way connected with the crime for which they were indicted, Judge Stevens late today ordered the jury to return a verdict of not guilty in the case of Mrs. Lillian Glover and six other persons charged with being accessories after the fact to the murder of Mrs. Glover's husband, Clarence F. Glover. Without leaving their seats the jury complied with the instructions. Besides Mrs. Glover, the defendants were her attorney, Samuel D. Elmore and A. E. Dupont Glover's brother, Seymour Glover, and his wife, and Mr. and Mrs. George A. Freeman, friends of the Glover family. The specific charge against them was that they had assisted Hattie LeBlanc, now under indictment charged with the murder of Glover in his laundry on November 29, 1909, to conceal himself for three days after Glover's death.

The Evening Times and Star

ST. JOHN, N. B., JUNE 23, 1910. The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES THE DAILY TELEGRAPH

New Brunswick's Independent Newspapers.

These papers advocate: British Connection, Honesty in Public Life, Measures for the Material Progress and Moral Advancement of our Great Dominion, No Graft, No Deals, "The Shamrock, Thine, Rose entwined The Maple Leaf forever."

THE TWO PARTIES

Mr. Borden's Ontario tour is ended for the present. He has been cordially received by political opponents as well as by his supporters. He is the leader of one of the great political parties, and a man of marked ability and high reputation.

Mr. Borden struck no new note in this campaign. To his general observations on the necessity and value of high ideals, every citizen will readily assent. Such observations are commonplace. To Mr. Borden's credit it can be said that he endeavors to live up to his professions; but not more earnestly than other men, who are not on the same side in politics.

Mr. Borden knows perfectly well that this is true, and that it is also true that if he were in power tomorrow he would be confronted by all the difficulties with which every government has to deal. His followers are not any more scrupulous in regard to matters of patronage than the followers of any other leader.

Nor is Mr. Borden any more desirous than Sir Wilfrid Laurier to advance the welfare of Canada. The latter has proved his quality, and the evidence is found in the history of this country since 1896, with its marvellous record of substantial progress. It is easy to say that too much money has been spent, and to charge that there has been graft as well as extravagance, but what sane man believes that Conservatives would have produced any better results? The history of that party is not forgotten. Those too young to remember have only to ask their older neighbors. There was progress in Canada under Conservative rule, but there were ardent partisans, who in an old school fashion and writing master, thought that the cross and dots ought to be put in.

Mr. Borden endeavors to persuade the people that a new Conservative administration would be above reproach, but when the cautious enquirer looks over the list of prospective Conservative ministers he is not encouraged to believe the story.

On the other hand, the present government is led by one who is conceded to be one of the leading statesmen of the empire. He is surrounded by able and experienced men, who give him invaluable support in carrying out a policy that has made good his memorable phrase that "the twentieth century is Canada's century."

The progress made by Canada under Conservative rule was very slow in comparison with that of the last dozen years, and especially with that of the last five years. This great development could not be accomplished without heavy expenditure in the opening up of new territory, enlarging the means of transportation, developing the seaports and the interior means of communication, and constructing such public works as are made necessary by a rapidly increasing population.

If the debt is increased, there is something to show for it, and the people get value. If the annual expenditure is greater, it is because of greater legitimate demands upon the revenue. But the revenue has also increased, the trade of the country grows at a remarkable rate, and thousands of new settlers with millions of capital are pouring in to aid in the work of national development.

The policy of the Liberal government has immensely enlarged the field of Canadian trade in other countries, without menacing home industries. It has brought increased population and wealth. It has opened up a vast area of new territory for settlement. It has encouraged the development of resources. It has drawn Canada closer to the mother country and to the overseas states of the empire.

All this could not be accomplished without open mistakes, or without some results open to criticism by an alert opposition. It has been a gigantic task, growing with the years. Today the world is paying more attention to Canada and things Canadian than ever before, and there never was a time when men of clear vision and strong grasp were more needed at the helm of its affairs. The country cannot do better than to continue to repose its confidence in those men and that party.

THE CHAMPLAIN STATUE

The unveiling of the Champlain monument last evening was an event of much historic interest. It is doubtless fitting that the first statue erected in St. John with the exception of a symbolic statue in memory of the men who died in South Africa, should be that of the man who discovered and named the great river which here enters the bay. It is none the less significant of racial good feeling that the first statue erected in a distinctly British city should be in honor of a citizen of France.

The addresses last evening were very appropriate. Hon. Dr. Landry made a fine impression by his eloquent allusions to the freedom enjoyed by men of all races and creeds under the British flag, as well as by his brief but brilliant address in the French language. Premier Hazen very properly commended Champlain's high purpose and lofty patriotism as an example to Canadians. Mayor Frink who for the first time as mayor of the city presided at an important public function, acquitted himself admirably; and Mr. Ward's brief paper added the historical touch to the proceedings. The Union Jack and Fleur-de-Lis, the British national anthem and the Marseillaise were joined in honor of a great man, the lustre of whose fame the passing centuries have not dimmed. The statue on Queen Square is a noble work of art, an ornament to the city, and a fitting memorial to the intrepid voyager and great colonizer whose name is written so large on the page of Canada's early history.

DOTTED AND CROSSED

Let it should be charged that the Times-Star got a garbled report of what Mr. Johnson, M. P., said at Mr. Foster at the Niagara Falls meeting, in presence of Mr. Borden, we quote the following from the report in the Montreal Gazette, Conservative: "The speech of Mr. Johnson, the local member of West Hastings, caused some stir. Mr. Johnson made an open allusion to Mr. Foster's position in the party of the following words: 'When Mr. Borden is called to form a cabinet we will require from him that it shall contain no man whose record is tainted, no matter how valuable his services have been in the past. The Conservative party cannot afford to carry anyone who has used time and money to his own advantage which he owed to the business in which he was employed. The Conservative party has carried that burden too long.'"

Commenting on the affair the Montreal Herald observes: "A speaker at one of Mr. Borden's meetings broke silence on the Foster question. For most people his allusion to the Tories was sufficient sign that he had been side-tracked, but his ardent partisans, who in an old school fashion and writing master, thought that the cross and dots ought to be put in."

The children are free for the summer holidays. It is to be regretted that there are not more supervised playgrounds to combine the delights of play with wholesome lessons.

Once more there is an Edward, Prince of Wales. All Canadians will join in the wish that he may wear the title as worthily as did his father and his grandfather. He is like his father in his love for the navy.

Opening the summer congress of the Good Templars of Sweden this week Crown Prince Gustaf Adolph said that "the nation which frees itself from intemperance and its damaging effects will make the greatest progress."

The North Shore Leader says: "The whole province is interested in a greater St. John because its expansion means a greater New Brunswick, and the North Shore will rejoice to see that city come to giant growth within the next few years."

Mr. A. Kelly Evans, the Ontario champion of the conservation of fish and game, was appointed commissioner last July to enquire into the fish and game situation in Ontario, and his interim report has just been issued. He urges the advisability of placing the department of game and fisheries under the control of a small, working commission, somewhat after the model of the Temiskaming and Northern Ontario Railway Commission.

RE-UNION AND MUSICALES

A most enjoyable reunion and musicale was held by Miss Emma Rubins for her pupils on Thursday evening. A programme of twenty-four numbers was carried out most successfully, reflecting much credit upon the teacher.

Piano solos were given by the following: Misses Eva Chase, Helen Munro, Elsie Dunlop, Etta Willis, Rita Evans, Mildred Adams, Pearl Sears, Helen Brown, Margaret Craft, Gladys Donaldson, Ruby Morrison, Rowena Brayley, Lena Watson and Troop Thorne. Vocal solos were rendered by Misses Ethel Boys and Emma Rubins. After the programme, ices were served by Misses Lena Smith and Sarah Lamb, and a most enjoyable evening was brought to a close by the singing of the national anthem. H. J. Adams, on behalf of those do better than to continue to repose its confidence in those men and that party.

EVERY DAY IS A NEW BEGINNING

Every day is a new beginning. Every morn is the world made new; Yet who are weary of sorrow and sinning, High heaven, have our you. A hope for me and a hope for you.

All the past things are past and over, The tasks are done and the tears are shed; Yesterday's errors let yesterday care, Yesterday's wounds which unshared and hid, Are healed with the healing which night has shed.

Yesterday now is part of forever, Bound up in a sheaf, which God holds tight, With glad days, and sad days, and bad days which never Shall visit us more with their bloom and night. Their fullness of sunshine or sorrowful night.

Let them go, since we cannot relieve them, Cannot undo and cannot atone, In his mercy, resolve, forgive them; Only the new days are our own, Today is ours, and today alone.

Here are the skies all burnished brightly, Here is the sun with its rays, Here are the tired limbs, springing lightly, To face the sun and to share with the morn, In the stream of dew and the cool of dawn.

Every day is a fresh beginning; Listen, my soul, to the glad refrain, And spite of old sorrow and older sinning, And - - - - - forecast and possible pain. Take heart with the day and begin again. - - - - - Susan Colledge.

JIPES JAW RIDE

Mrs. Jipes had wanted to go out in the new automobile, anyhow, and she was telling her husband so in several different kinds of ways. "I'd rather have waited until I had something fit to ride in," she said, "but you just would have me come in here a bit of fun for me, and I'd like to. There! You narrowly missed running into the curb. What do you think you're doing?" "I'm taking a jivy ride!" answered Mr. Jipes. - - - - - Chicago Tribune.

GRADUATES WELCOMED BY ALUMNAE SOCIETIES

A pleasant time was had last night by the graduating classes of the St. Vincent's and St. John High Schools. The graduates of the former were entertained by the alumnae at a dinner at White's, while the High School graduates were given a reception in the assembly hall, Mrs. Thos. Walker received the High School graduates, and delivered an address of welcome. Speeches were made by Supt. Bridges, R. B. Emerson and T. H. Bullock. During the evening the young ladies presented to the school a complete set of Bowring's works for the library. The school orchestra provided music.

The St. Vincent's graduates had a fine time in White's restaurant. Miss E. T. Reed, president of the alumnae, presided and welcomed the graduates, and there was a response from Miss Marion Nugent. Our former teachers, proposed by Miss E. T. Reed and responded to by Miss E. O'Neill; Our Married Members, proposed by Miss O'Neill and responded to by Mrs. J. McMurray; The Gentlemen, proposed by Miss Reid and responded to by Miss K. O'Malley. The following programme was enjoyed—Piano solo, Miss H. Harcourt; vocal solo, Miss F. O'Neill; reading, Miss Agnes Scully, selections by the orchestra.

EARL GREY FOR ANOTHER YEAR
(Continued from page 1)

ported the contention of the states. He quoted Bluntchli, Riviere, P. De Martens, Sir Robert Phillimore, Sir Travers Twiss, Sir Edward Creasy, Professor Westlake, and Dr. Oppenheim, who had recognized the right to fish in territorial waters of a state might constitute international "vestments," when the right had been granted in its perpetuity.

Mr. Turner said that Professor Pitt Cobbold, quoted by Sir Robert Phillimore, was an English author who had written on the subject of American fishing rights after the question had been submitted to the court of arbitration, and declared his observations were distorted by national prejudice. Nevertheless he recognized this right to fish was "servitude." In the same way he said, Hall was influenced by national bias. Finally, Mr. Turner quoted American authorities—General Halleck, Dr. Barton Taylor and William Tucker. All said, were in favor of his argument.

In conclusion, he said this doctrine of "servitude" was so firmly established and so universally recognized that refusal to apply it in this special case would constitute a departure from or modification of existing international law.

The poorest and blindest may live.
The kindest lives here below.
Sweet charity's form of the heart
And not of the purse full of gold;
The point is, do you part
With what has been given you to hold?
Only you'll see it that way.
Be kind to the ones that you meet,
Be gentle, considerate and true,
Do the most in the home or the street
With what has been given to you.

COUNTRESS OF WARWICK REJOINS SOCIALISTS

The Countess of Warwick, who has again returned to the Socialist party, in a recent speech characterized socialism as "the greatest cause in the world," but declared that she was heartily sick of the stereotyped party warfare now going on.

The countess declared that she was unable to understand how Christians could defend the present social system, which allowed the existence of starving children, homeless people, and soul slugs as a suitable state of affairs in a Christian country.

Turry, provincial horticulturist, will be heard.

The mayor received this morning an application from the St. John Pipe Band, asking that they be considered in the list of bands to be engaged by the city to play on the band-stand in King square. As arrangements had been practically completed for the money appropriated for this purpose to be divided among the five brass bands of the city, it is not known what action will be taken with the communication.

MAY BE BUT LITTLE ADVANCE IN RUBBER IN THE DOMINION

Montreal, June 22.—The leading rubber officials of the city state that there is a misunderstanding regarding the announcement from Ohio to the effect that rubber goods, including automobile tires, are to be advanced some 25 per cent, on July 1. As a matter of fact there may be very little advance at all in Canada, for the reason that an advance of from 10 to 12 per cent had already been effected in the Dominion. The future, however, depends upon the condition of the raw material market.

The Canadian manufacturer, said a leading rubber man today, is not so dictatorial as the other side of the line. In other words, he does not say that on such and such a date the market will be advanced to a certain figure, all this being influenced by the state of the raw rubber market.

Boston, June 25.—The Institute of Technology received yesterday a remarkable series of photographs of Halley's comet from the Lowell Observatory at Flagstaff, Ariz., where the rarity of the air made possible clearer pictures than any before taken.

They are taken to prove that the comet's tail is nothing more than carbon monoxide, acted on and illuminated by electricity. The comet's head shows as a bright line, best described as a string of beads of light.

THE TWO PARTIES

Mr. Borden's Ontario tour is ended for the present. He has been cordially received by political opponents as well as by his supporters. He is the leader of one of the great political parties, and a man of marked ability and high reputation.

Mr. Borden struck no new note in this campaign. To his general observations on the necessity and value of high ideals and a high sense of honor in public life, every citizen will readily assent. Such observations are commonplace. To Mr. Borden's credit it can be said that he endeavours to live up to his professions; but not earnestly than other men, who are not on the same side in politics.

Mr. Borden knows perfectly well that this is true, and that it is also true that if he were in power tomorrow he would be confronted by all the difficulties with which the present government has to deal. His followers are not any more scrupulous in regard to matters of patronage than the followers of any other leader.

whose policy and administration have achieved these results. Mr. Borden is useful in opposition. There let him remain, until he strikes a new note, and develops a policy that will command popular support.

THE CHAMPLAIN STATUE

The unveiling of the Champlain monument last evening was an event of much historic interest. It is doubtless fitting that the first statue erected in St. John, with the exception of a symbolic statue in memory of the men who died in South Africa, should be that of the man who discovered and named the great river which here enters the bay. It is none the less significant of racial good feeling that the first statue erected in a distinctly British city should be in honor of a citizen of France.

The addresses last evening were very appropriate. Hon. Dr. Landry made a fine impression by his eloquent allusions to the freedom enjoyed by men of all races and creeds under the British flag, as well as by his brief but brilliant address in the French language. Premier Hasen very properly commended Champlain's high purpose and lofty patriotism as an example to Canadian Mayors. Fritz was the first time as mayor of the city presided at an important public function, acquitted himself admirably; and Mr. Ward's brief paper added the historical touch to the proceedings. The Union Jack and Fleur-de-Lis, the British national emblem and the Marcelline's wreath joined in honor of a great man, the lustre of whose fame the passing centuries have not dimmed. The statue on Queen Square is a noble work of art, an ornament to the city, and a fitting memorial to the intrepid voyager and great colonizer whose name is written so large on the page of Canada's early history.

DOTTED AND CROSSED

Let it should be charged that the Times-Star got a garbled report of what Mr. Johnson, M. P., said about Mr. Foster at the Niagara Falls meeting, in presence of Mr. Borden, we quote the following from the report in the Montreal Gazette, Conservative:—

"The speech of Mr. Johnson, the loyal member of West Hastings, caused some stir. Mr. Johnson made an open allusion to Mr. Foster's position in the party in the following words: 'When Mr. Borden is called to form a cabinet we will require from him that it shall contain no man whose record is tainted, no matter how valuable his services have been in the past. The Conservative party cannot afford to carry anyone who has used time and money to his own advantage which he owed to the business in which he was employed. The Conservative party has carried that burden too long.'"

Commenting on the affair the Montreal Herald observes:—'A speaker at one of Mr. Borden's meetings broke silence on the Foster question. For most people his absence from the picnic was sufficient sign that he had been side-tracked, but this ardent partisan, who is an old school teacher and writing master, thought the crosses and dots ought to be put in.'"

The children are free for the summer holidays. It is to be regretted that there are not more supervised playgrounds to combine the delights of play with wholesome lessons.

Once more there is an Edward, Prince of Wales. All Canadians will join in the wish that he may wear the title as worthily as did his father and his grandfather. He is like his father in his love for the navy.

Opening the summer congress of the Good Templars of Sweden this week Crown Prince Gustaf, Adolph, said that "the nation which frees itself from intemperance and its damaging effects will make the greatest progress."

The North Shore Leader says:—"The whole province is interested in a greater St. John because its expansion means a greater New Brunswick, and the North Shore will rejoice to see that city come to giant growth within the next few years."

Mr. A. Kelly Evans, the Ontario champion of the conservation of fish and game, was appointed commissioner last July to enquire into the fish and game situation in Ontario, and his interim report has just been issued. He urges the advisability of placing the department of game and fisheries under the control of a small, working commission, somewhat after the model of the Teniskaming and Northern Ontario Railway Commission.

RE-UNION AND MUSICALES

A most enjoyable reunion and musicale was held by Miss Emma Rubin for her pupils on Thursday evening. A programme of twenty-four numbers was carried out most successfully, reflecting much credit upon the teacher.

Piano solos were given by the following: Misses Eva Chase, Helen Munro, Elsie Adams, Pearl Sears, Helen Brown, Margaret Craft, Gladys Donson, Ruby Macneon, Lorena Brayley, Lena Watson and Troop Thorne. Vocal solos were rendered by Misses Rita Boyd and Emma Rubin. After the programme, ices were served by Misses Lena Smith and Sarah Lamb, and a most enjoyable evening was brought to a close by the singing of the national anthem. R. J. Adams, on behalf of those present tendered a vote of thanks to Miss Rubin and her pupils.

EVERY DAY IS A NEW BEGINNING

Every day is a new beginning. Every morn is the world made new; Yet who are weary of sorrow and sighing, Do not look for a better day for you— A hope for me and a hope for you.

All the past things are past and over, The tasks are done and the tears are shed, Yesterday's errors let yesterday cover, Yesterday's wounds which smarted and bled, Are healed with the healing which might has shed.

Yesterday now is part of forever, Bound up in a sheaf, which God holds tight, With glad days, and sad days, and bad days which never Shall visit us more with their bloom and night, Their fullness of sunshine or sorrowful night.

Let them go, since we cannot relieve them, Cannot undo and cannot atone; Go, in his mercy, receive, forgive and remit; Only the new days are our own, Today is ours, and today alone.

Here are the skies all burnished brightly, Here is the sun, all bright and new; Here are the tired limbs, springing lightly To face the sun and to share with the morn In the vision of dew and the cool of dawn.

Every day is a fresh beginning; Listen, my soul, to the glad refrain, And spite of old sorrow and older sinning, And—'Tis a new day, a new day, a new day, And—'Tis a new day, a new day, a new day, Take heart with the day and begin again.

IN LIGHTER VEIN JUSTIFIED. "He's a confirmed pessimist."

"Well, you can't blame him. The family he has moved into the flat on the floor below has a pianola, while all he can afford is a cheap phonograph."

THE PERFECT MAN. "There was one man whose life was perfect," said the Sunday school teacher. "What one of you can tell me who he was?"

Little Mary Jane's hand went up, and the teacher nodded to her. "He was mamma's first husband," she said—'Everybody'.

THE HEIGHT OF WOE. Of the ills you meet when days are warm I'm sure the worst you ever saw Is death's dark face that will perform And lacerate the wounds that will not draw.

TOO CLOSE. (To his fiancée, jealously)—"Why did you let that man kiss you?" "He's a distant relative."

ENCOURAGING. Friend—Were there laughter and cheer during your speech?" "Young Statesman—Well, there weren't any cheer, but now and then people in the audience looked at one another and laughed."

EVER NOTICE? "Why are the children of the rich so often interesting?" "When you are a home without a woodshed, there you are apt to find a spoiled kid."

BEYOND CRITICISM. "ack—Those young fellows have an advantage over you single girls, because they know all about men."

EDIFYING. (Gentleman looking for room)—"Did you say a music-teacher occupies the next apartment? That cannot be very pleasant."

JIPES JAW RIDE. Mrs. Jipes hadn't time to go out in the new automobile, anyhow, and she was telling her husband so in several different kinds of ways.

"I'd rather have waited until I had something fit to ride in," she said, "but you just would have been in the car a bit of fun for me, and I'd like to—There! You narrowly missed running into the curb. What do you think you're doing?"

"I'm taking a jazy ride!" answered Mr. Jipes.—Chicago Tribune.

FOR ECZEMA

A Treatment That is Guaranteed to Give Relief.

Eczema is parasitic in nature. It is said to be a contagious disease. Until the parasite or germ hidden in the skin is completely removed, eczema cannot be cured.

It is very prevalent among people between the ages of 20 to 40. I unhesitatingly guarantee to return every cent paid me for Recall Eczema Ointment in every case where it fails to give entire satisfaction. It possesses remarkable cleansing, antiseptic, healing and curative power. Its great value is very pronounced in the treatment of eczema, whether of the scalp, face, neck, or other parts of the body. It is a constant flow of illness—correction, or of the other remedial forms, such as ring worm, acne, pimples, blotches and discolorations.

Recall Eczema Ointment is very useful in treating ulcers, sores, wounds, insect bites, nettle rash and bites of stinging insects. It is recommended for the treatment of children who are afflicted with itching, burning, and stinging disease. I urge you to try it at my risk. Your money, wait if you are not satisfied with the treatment. Two sizes, 50c. and \$1.00. Recalls Ointment in this town at my store—The Recall Stores, Chas. R. Wasson, 100 King Street.

Kingston and Hampton Schools

The closing exercises of the Kingston Consolidated Schools and the picnic of the Kingston Agricultural Society were held on Thursday afternoon. Andrew Elliott of (alt. Ont., spoke on soil culture. T. B. Kitter presented the Governor General's medal for general proficiency to Garnet Carmichael.

The closing exercises of the Hampton school took place yesterday afternoon. There was a good programme and the presentation of medals and certificates was a feature.

GRADUATES WELCOMED BY ALUMNAE SOCIETIES

A pleasant time was had last night by the graduating class of the St. Vincent's and St. John High Schools. The graduates of the former were entertained by the alumnae at a dinner at White's, while the High School graduates were given a reception in the assembly hall. Mrs. Thos. Walker received the High School graduates, and delivered an address of welcome. Speeches were made by Supt. Bridges, R. B. Emerson and T. H. Bull.

The St. Vincent's graduates had a fine time in White's restaurant. Miss E. T. Reed, president of the alumnae, presided and welcomed the graduates, and there was a response from Miss Marion Nugent. The following toast list was honored:—Our Former Teachers, proposed by Miss E. T. Reed and responded to by Miss E. O'Neill; Our Married Members, proposed by Miss O'Neill and responded to by Mrs. J. McMurphy; The Gentlemen, proposed by Miss Reed and responded to by Miss E. O'Neill; The Ladies, proposed by Mrs. J. McMurphy and responded to by Miss E. O'Neill. The following programme was enjoyed:—Piano solo, Miss H. Harington; vocal solo, Miss F. O'Neill; reading, Miss Agnes Scully, selections by the orchestra.

Percy W. Thomson and Alexander McMillan reached home last evening by the Ocean Limited, completing a visit to Europe which has occupied them for the past six weeks. They left the steamer Corsican at Rimouski on Thursday. Of those who sailed on the same steamer as Mr. McMillan, J. Roy Campbell sailed for home from Liverpool yesterday by the Virginius, and Boyce S. Smith, J. G. Harrison, as well as Charles Zasson, Mrs. Eason and Miss Katie Hazen, will follow shortly. From France, England, Ireland and Scotland were included in the itinerary of Mr. McMillan's party.

NEW WAY TO BAK MOLASSES COOKIES. Stir the ingredients together as stiff as cake batter and drop them in small spoonfuls on a hot griddle, turning like griddle cakes.

HINTS FOR THE HOUSEKEEPER

TO WASH RUGS. Tack the rug on a bit of bare floor, the back porch being as good a place as any. Scrub thoroughly with warm ammonia suds and rinse with many clean waters until the soap is removed. Allow the rug to dry on the floor without removing the tacks, then take it up and it will not shrink, roll or soil out of shape. A preparation for washing carpets and rugs is made of four ounces of any good soap dissolved in four ounces of boiling water; when cold, add five ounces of ammonia, two and one-half ounces of alcohol, two and one-half ounces of glycerine, and two and one-half ounces of chloroform. Bottle this and cork tightly.

OTHERS IMITATE BUT NONE EQUAL

The Original Remedy to Kill the Dandruff Germ and Up To Date the Only One That Does It

That's Bully!

Others have tried to imitate it, but without success. It stands alone, the peer of all hair preparations. Used as directed, Herpicide removes the dead scurf, which is so unsightly and annoying, checks further accumulation by killing the Dandruff Germ, stops falling hair and brings both scalp and hair back to normal health. Unless completely atrophied, the follicles take on new life, manifested by a strong, vigorous growth of hair.

The Evening Chit-Chat

By RUTH CAMERON

LEARN to tell your little troubles and frettings to your pillow, dearie. That is the advice that a dear old aunt of mine who died recently has given me ever since I was big enough to know what trouble meant. And I think it is mighty good advice.

I know a woman who for years and years used her husband as a sort of exhaust valve for her irritation at all the petty annoyances that came to her during the day.

What right has that woman to feel aggrieved? She is quarrelling with care and result. Of course, love isn't good for much unless it is ready to halve the sorrows as well as double the joys of life, but that means the big sorrows; not all the petty annoyances that should not be dignified by being repeated.

And not only does this habit of using your family and friends as an annoyance exhaust valve drive love and friendship away from you, but it weakens you. Petty annoyances must come to all of us. The happy man is not he who has the fewest, but he who can be the least affected by them.

Learn to forget as much as you can the little annoyances of the day the minute they are past, and to carry those that you can't forget to your pillow and bury them there, rather than in your friends' ears, and you will be both stronger and more popular.

As a wise philosopher puts it: "Learn to consume your own smoke." "The atmosphere is darkened by the murmurings and whimpers of men and women over non-existent troubles that are inevitably incident to the hurly-burly of the day's routine. Things cannot always go your way. Learn to accept in silence the minor aggravations, cultivate the gift of taciturnity (about them), and consume your own smoke with an extra draught of hard work, so that those about you may not be annoyed with the dust and set of your complaints."

CANADA'S BUSINESS STILL GROWS

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color. The finest ornament of a female face, the sweetest smile of a female mouth, loses something if the hair is enervated with scant hair. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness.

Dear heart, whose life is woven into mine, Who art the light and music of my days, We move towards death, yet let us have no fear; If nothing dies, not even light's faintest rays, Sure that vast love which links my soul with thine Marks for eternity our union here. (Frederic George Scott in Boston Transcript.) Men still kiss women's hands—in novels.

G. P. R. AND TRAINMEN BOTH STAND FIRM

Montreal, June 24.—A critical stage has been reached in the negotiations between the Canadian Pacific trainmen and the company and unless one or the other reced they may soon come to grips. Considerable advances in the negotiations were made yesterday which will clear the ground for prompt action, either for peace or open hostilities. A letter was sent by J. W. Leonard, who is handling the situation for the C. P. R., to the union officials, stating that the company had accepted the finding of the board and was prepared to stand by it, although they would it as excessive.

This was immediately responded to by the union representatives, who sent to Mr. Leonard an ultimatum to the effect that they still demand the standard territorial rate of pay, and will not recede from that position.

No answer has yet been received by the men from Mr. Leonard, but the latter yesterday afternoon gave a statement which amounts to a practical rejection of the men's demand, he declaring that the company had spoken its last word on the matter, and was prepared to stand pat.

Matters have not progressed so far with the Grand Trunk and the men are expecting conferences during the next few days with Vice-President Fitzhugh, but in this case as with the C. P. R., they declare

they will strictly adhere to their demand for the standard rate, and will accept nothing less. This will mean a considerable greater average increase for the Grand Trunk than for the C. P. R.

INTERESTING QUARREL. Yes; it is a very pretty quarrel as it stands. No hard words, I hope. None whatever. My folks are trying to play the piano late enough every night to make the lawn-mower artists next door overlook themselves next morning.

The Greatest Cure For Rheumatism In The World

Knowlton, Que., Oct. 12, 1909. "For many years, I suffered from severe Rheumatism, and the attacks were very distressing and prevented me from doing my ordinary work. I tried many remedies and physicians' treatment, but nothing seemed to do me much good, and I was becoming very anxious for fear I would become a permanent cripple from the disease. I tried 'Fruit-a-tives' and this medicine has entirely cured me and I honestly believe it is the greatest Rheumatism cure in the world."

NARROW TOE SHOES but if that is out of the question, home doctoring is essential. With the end of a wooden toothpick gently push a bit of antiseptic cotton under the corner of the nail. If there appears to be inflammation use vasoline or carbolic acid on the cotton. Next trim the nail inward from the corner, as deep as a point in the center as possible. Use a sharp, thin pair of scissors, and see that there are no rough edges to the nail. This treatment forces the nail to grow away from the edges to fill up the cavity.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unable for motherhood. This can be remedied. Dr. Pierce's Favorite Prescription Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

AN UP-TO-DATE STOVE

New Perfection Oil Cook-stove

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do—except heat the room. The New Perfection Oil Cook-stove will do anything, from heating a dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke, it can't get out of order. Light it and it is ready. Turn it down and it is out. Only a woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, in the kitchen. How is done. The flame is controlled by a single blue enamel chimney, and directed against the bottom of pot, pan, kettle or oven, and only there. The flame operates exactly where it is needed—and nowhere else. With this stove your kitchen is cool. The nickel finish with the bright blue of the chimneys makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

THE MAN IN THE PULPIT

Preachers from Fairville sometimes visit the city side, and they do no discredit to the pulpit they occupy. Among these Mr. Ross over receives a hearty welcome when he exchanges with his brethren at the centre. He is a good representative of the younger Methodist ministry. He is in the prime of life and of robust build. His face, as illumined by the pulpit lamp, bears some resemblance to the portrait of the celebrated evangelist, Gipsy Smith. We were particularly pleased with his reading of the hymns; he enters into the spirit of the poet and catches the rhythm of the verse. But he hardly renders the majestic prose of Scripture with equal effect. In the opening of his sermon he seemed to keep close to his written words, and we feared that he would never let himself go. Later he broke loose, and thereby gained in power. With few exceptions, most preachers who read sermons move like prisoners in fetters. We feel that Mr. Ross would entirely dispense with the use of paper in his public deliverances it would be better both for himself and his hearers. He has in him potentialities for moving an audience that have never had full development nor free play. There is a gleam in his eye that tells something of the orator's magnetism, and he needs to turn that eye more often and directly upon the people in order to establish between them and himself that subtle chain of sympathy by which influence reaches human minds and hearts. He has a good voice with capability for producing a volume of sound sufficient to fill any building. At times he lets out the stops and we become aware of his rich compass. He showed how life corresponds to its environment, and brought this natural law to bear upon the spiritual world. He defined the term eternal life as used by Christ to signify quality rather than duration. We entered into possession of that life in the present world as we have to a knowledge of God through His Son, and as our character assimilated to His. The preacher spoke of young men who talk of enjoying life when by that they mean only the lower life of the senses—the life of the beast that perishes. They magnify that base brute existence, because they are ignorant of the true life which comes from God and finds its exercise and delight in fellowship with Him. It is of such that Paul speaks when he says: "The natural man receiveth not the things of the Spirit of God; they are foolishness unto him; he knoweth them not, because they are spiritually discerned." In a knowledge of God we have an experience of spiritual life, and as we face above that which is merely the life of the senses, the product is the life of the spirit.

EVANGELIST KNIGHT ON THE SUNDAY SCHOOL LESSON FOR JUNE 26

The Tares, or Current Events in the Light of Prophetic Truth.—Matt. 13: 24-30, 36-43. This parable should be of special interest to newspaper readers, for it deals with current events which are of real significance. Our Lord passed a vote of censure upon the religious teachers of His day when He said:—"O, hypocrites, ye can discern the face of the sky by the stars, and ye discern the signs of the times? Assuming to be teachers, they will not teach that which was of supreme importance for the people to know in that day. The parable reveals in a form which would veil the true meaning for a time, and would allow it to become progressively clear as time rolled by, the distinguishing characteristics of this age beginning with the time when He "sowed" the seed forth to sow, down through the Christian age until He as husbandman would gather in the harvest. Briefly stated the parable is as follows: Two sowers—two crops—two harvests. "The kingdom of heaven is like a man who sowed good seed in his field." He that sowed good seed is the Son of Man and the field is the world, and the good seed these are the sons of the kingdom. Those in whom the seed of the word of God would not begin on earth would be "the sons of the kingdom." Such lives scattered throughout the world by God would.

REVEAL THE IDEAL Ideal fathers, ideal mothers, ideal children would be those who again in the family of the King of heaven and ruled by Him. Such seed was meant for dispersion in the world's field, just as the seed of the dandelion, the thistle, the maple has its wind propeller to carry it far. It is intended that we be positive, aggressive, influences for God carried along by the spirit.

WHAT IS THE MATTER WITH THE SEED? It is not up to the government standard. Its germinating power is not even one per cent, for if twelve such seeds should bring forth just one other seed each, in a year, and these twenty-four should bring forth one a year in unbroken progression, the world would be evangelized in thirty years.

A RACE OF RIP VAN WINKLES. They would sleep on through years, centuries, millenniums. Are not men asleep to the great evangelistic commission? Are not men asleep to God's magnificent plans and purposes revealed in the sure word of prophecy which Peter says "ye do well to take heed, and which the world says 'ye do well to avoid'." Are not men asleep when they try to interpret "the things of the Spirit" on nationalistic lines, forgetting that "the natural man receiveth not the thing of the Spirit of God; for they are foolishness unto him, neither can he know them, because they are spiritually discerned." Are not men still in the realm of perishable shadows, dreaming that the world is an allegory, hell and the devil myths, that there is no God but the first person singular, capital "I." May the soul-stirring words of England's new king, BRITONS, AWAKE!"

Jesus Christ belonged to that old school that believed in a personal devil whose existence was a certainty, who was active in his movements, cunning in his work, subtle in his methods, and who throughout the Christian age would be "prince of this world," "god of this age" (2 Cor. 4:4) who would tyrannize over us, even dictating to us how we should furnish our homes, how we should dress, what entertainments we should patronize, what works of art we should admire, how we should talk, how we should walk, and even what thoughts we should think and who would compel us to how to his supreme authority without a murmur. Deprived of independence of action or individuality of our own as a hard taskmaster he would dominate all in whom the seed of the Word of God had not produced life eternal.

In this age the evil one would be permitted to sow his seed throughout the world field. Opportunity would be given for man to bring forth the very best that was in him with the aid of his leader, who would lead along the shining path of self-realization, self-improvement, self-reliance, self-sufficiency, self development. "Let us both grow together until harvest." They were to have the same soil, air, moisture and sunshine as the wheat. The devil would put forth every effort on behalf of

THE PROGRESS OF THE RACE APART FROM GOD. even assuming the control and management of theological colleges to that end. Philip Mauro, councillor-at-law, of New

Feels Light Cuts White Tastes Right

The Oven PROVES THE Purity of PURITY FLOUR

The Church and the world in fellowship sweet. Wash together both hand and heart, And only the God that knoweth all, Could tell the two apart. The parable foretells a coming crisis, which Christ describes as "the end of the age" and "harvest." The tares are to be "gathered" and the wheat is to be "gathered" then comes the great separation of the true from the false. WHEN? When He shall say, "Thrust in thy sickle and reap; for the time is come for thee to reap; for the harvest of the earth is ripe." (Rev. 14: 15). Of that day and that hour knoweth no man, "but ye, brethren, are not in darkness that day should overtake you as a thief." (1 Thess. 5: 4). The influences that are ripening the world's crop are working in our day with intensified power, just as when at the end of summer every growing thing is rushed on to maturity owing to the intense heat. STARTLING AND IMPRESSIVE. are the evidence forcing themselves upon us that the "harvest of the earth is at hand." Why the uneasy feeling among the European powers that we are on the verge of a great crisis? Why in the financial world do we hear forebodings as to the future? Why in the religious world do we hear men like Booth expressing his conviction through the Associated Press that the earth's greatest harvest home is nearer than we think? "Depart from me ye that work iniquity, overleaving his prepared for whom? What means this unprecedented missionary activity? The wheat is being gather-

ed. One only has to read the daily press to observe how the process of gathering into bundles is proceeding and with what rapidity. This is an age of organization, individuals count for nothing, the corporation replaces the individual, those not in corporations are in the labor unions. Other bundles may be seen of different sorts, societies, fraternities, clubs, guilds, unions, associations. HAVE THESE THINGS ANY MEANING in the light of prophetic truth? "The Son of Man shall send forth His angels, and they shall gather out of His Kingdom all things that offend and them that do iniquity and shall cast them into the furnace of fire, and there shall be weeping and gnashing of teeth. Then the righteous shall shine forth as the sun in the kingdom of their Father. Who hath ears to hear let him hear." These words of His need no apology. "The field is the world." "The sower is the Son of Man." "The Enemy is the devil." The good seed these are the sons of the kingdom. "The tares are sons of the evil one." The reapers are the angels." But fire is fire in the interpretation as in the parable. Hell is Hell. "IT IS ALL FALLENDEBOLI," you say, "a nightmare of the dark ages and has no place in modern theology." Let Paul answer, "What if some do not believe, will their unbelief make the truth of God of none effect? Yes, let God be true and every man a liar." "Depart from me ye that work iniquity, overleaving his prepared for whom? For the devil and his angels." Not for man. It was never intended for man. If it is man's choice? Whose fault? Whose but his own. I made him just and sufficient to have stood Though free to fall.—Milton. The Ladies of St. John May Now Have Beautiful Hair. G. A. Rather Old Man's Slave Than Young Man's Darling

MRS. MORSE'S WORK

Her Devotion to Husband's Interests Inspiring—Alice Thaw's Half Million Dowry—Forty Divorce Cases Are Postponed—Gossip of Gotham

(Times New York Correspondence) New York, June 24.—By way of re-buking those gossips who have been making much of the fact that she made a clandestine marriage with a man fifty-nine years old, Mrs. Alice Knickerbocker Hollister, retorted thus this week to her female critics: "I'd rather be an old man's slave than a young man's darling."

Mrs. Hollister is but twenty-two years old and is quite pretty. The fact that she had married Hollister, who was wealthy, might still be a secret, but for his death the other day in one of the hospitals under what the authorities considered for a time suspicious circumstances.

Dropsy Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

L. TURKEY CURD, Millmore, Ky.

Dr. Miles' Heart Remedy has been wonderfully successful in relieving heart trouble. Its tonic effect upon the heart nerves and muscles is a great factor in assisting nature to overcome heart weakness.

James J. Corbett is famous the world over as one of the cleanest and most gentlemanly boxers who ever entered a ring. He has now entered the moving picture field, and will be seen next Monday, Tuesday and Wednesday at the Gem, in company with Miss Florence Turner, the "Diagraph Girl," in a picture entitled "How Championships are Won and Lost." This picture is promised as one of the greatest sensations in moving picture circles the people of St. John have witnessed for many a day and one which will appeal to both men and women, as it displays the physical prowess of two men of mankind. It is an exhibition of physical culture and the many art, which will open the eyes of those who attend the Gem next week. Plenty of bright comedy is also contained in it.

This evening the show presented, last night will be repeated, as well as a special feature, which will be given to the children. Good music, songs, pleasing pictures and a delightful comedy are the main points of the Gem.

JOHN L. IS SHUT OUT BY JEFFRIES

War Between the Two Former World's Champions
MOORE IS VICTOR

Little Fighter Knocks Out Broad of England in Third Round-Local and General Sporting News in Several Departments

(New York American).

Reno, Nev., June 23-John L. Sullivan, surmised the mighty, has been barred from Jeffries' training camp as a "knocker." The aged gladiator ambled into Reno this morning, and inside of three hours succeeded in stirring up one of the finest sporting scandals of late years, word of which is leaping all the telegraph wires, and dividing Reno into hostile camps.

For the first time in a long and eventful life "young truly" always on the level" was today refused admission to the training quarters of a fighter, and informed that Jim Jeffries would not speak to him or take him by the hand. It was a tremendous body blow for the old war horse and a godsend to the correspondents.

John L. arrived on the morning train, fat, prosperous and important. His reverberating bass voice fairly jarred the windows as he passed along the main street, as the local papers truly remarked, "the cynosure of all eyes." He attracted as much attention as a mounted parade, the wide blades stripes down the sides of his light trousers coming in for special mention.

Three hours after his triumphal entry into the theatre of war, John L. was on his way back to Reno from Moana Springs, where Jeffries is training. He died, silent and very, very sore. The man who had shaken the hands of princes, potentates and Presidents, was told that he was a knocker, and as such would not be received.

Incidentally, Corbett, "the Richelieu of diplomacy," paid off a thousand old scores when, as spokesman for the Jeffries camp, he closed the gate under John L.'s bristling white mustache and humiliated his old enemy before a crowd of witnesses, a platoon of war correspondents who were taking down every word, and a mosquito fleet of camera men who were recording every move and expression.

The feud between Sullivan and Jeffries dates back several months, when the Johnson match was made. At that time John L. asked for his opinion, was quoted with a line of inflammatory conversation which left unscathed no person connected with the affair.

Naturally this displeased Jeffries, and he was still further angered at later interviews in which Sullivan was made to say that it will be a "money" fight.

The article which led to open war was one in which Sullivan's name was used in connection with a statement that the fight looked like a frame-up for Jeffries to win by Johnson quitting.

Bill Lang, the resident heavyweight pugilist champion of Australia, is to be managed in his tour of the States by H. D. McIntosh, the Australian promoter, and the pair will arrive in San Francisco a few days before July 4, accompanied by Bob Fitzsimmons, Tommy Burns, shillies Burns, Lang's hand, broken in his bout with Burns, is improving rapidly.

"I may be a has-been but I am not dead. In fact, I am more alive than when I left the East," declared Joe Gans, veteran light weight, who is in Prescott Ariz., fighting.

WHY VALOR BALKS
A couple of Kansas men were talking of fearlessness the other day. "All this talk," said one of them, "reminds me of a peace officer I knew a number of years ago in western Kansas. This officer was entirely fearless in fact, he was the kind of a chap who would have charged bell with a single bucket of water. To look down into the barrel of a gun in the other fellow's hand was as placidly accepted an affair for him as to light his pipe. He was sent for one day.

"What's the matter?" he asked.

"Cowboy in that room," said a citizen, designating the place. "He's wild and dangerous. He's locked himself in and we've afraid he'll break out and do us harm."

"So this officer opened the door of the room and looked in. The cowboy had a six-shooter in one hand and a stick of dynamite in the other, and calmly remarked that he would turn them both loose in case the officer came into the room.

"The officer considered the thing for a minute. Then he backed away, and as he did so, remarked: 'Let him sleep, if you please. I have seen more men who ain't afraid is a damn fool!'"

I can truthfully say that my experience with your Oxogenerator has convinced me that there is nothing equal to it for the cure of La Grippe. I had a severe attack of La Grippe and after using the Oxogenerator I was able to get my feet under me and my head on my neck. I used it with a compress on the ankle, and the pain was beyond description. The odor was so bad we had to use carbolic acid in the room. The following day I was out of bed, and in four days I was able to resume my work. Had I used the old cure-drugs, I am satisfied I would have been confined to the house for two or three weeks.

I know of others in this city who have had wonderful results from the use of the Oxogenerator. With this knowledge and that gained through my personal experience, I believe it to be a safe and speedy cure for many of the so-called incurable diseases.

Yours truly,
I. A. MURRAY,

"NOT VERY GUILTY" IS DIGGS' PLEA, BUT IT DOES NOT GO

A Fighting Case also Among Those on This Morning's Police Court Docket

The police court opened this morning at 8.30 o'clock with quite an array of prisoners to be disposed of. Judge Ritchie delivered himself of a few striking remarks on the result of the men before him continuing in their folly in drinking and referred to the fact that many of them were of respectable families.

Charles Diggs, vendor of envelopes, shoe laces, etc., was doubtful as to whether or not he had been drunk yesterday in Prince William street, so he entered the unique plea of "not very guilty, yo' hono'." His fine was \$8 or two months.

Fines of \$4 were imposed on Wm. McNeil and Richard Joyce on charges of drunkenness, while on the same charge Wm. McQuigan was fined.

Claude Lanford was allowed to go on a charge of being a stowaway on the steamer Prince Rupert from Digby to this port, as his passage was arranged for.

Matthew Patchell could not remember having fought with Daniel O'Leary in Mill street last night, but O'Leary said that he had been attacked by Patchell and another man. The case was not disposed of at the time of going to press.

DR. DOLE IS VERY ILL

The friends of Dr. William P. Dole will regret to learn that he is very ill at his home, Carlton street, and slight hopes are entertained of his recovery. Dr. Dole has been seriously ill for some time and has been gradually growing weaker. Last evening his son, Richard, of the Bank of New Brunswick in East Florenceville, arrived in the city, having been summoned to the bedside of his father.

Dr. Dole is probably one of the best known educationists and linguists in the city, if not in the province. He is a man who has always followed closely the higher courses of study and has been looked upon as one of the leading teachers and scholars in New Brunswick. In spite of his eighty-five years he was light and active up to the time he was stricken with paralysis a little more than a year ago. Since that time his health has been much broken. He has been a patient sufferer and has always had a kind and cheery word for his friends when they called.

NEW POINT IN READING LIQUOR LAW

All Bought in Retail Shop Must Be Consumed There

NO FLASKS TAKEN OUT

Mr. Henderson Makes This Contention in Discussion During Case in Police Court—Some Talk of a Test Being Made

During the last few months, the number of men arrested with flasks of liquor in their possession, has steadily been on the increase, and in almost each case, the police have endeavored to learn the identity of the vendors who sold the liquor. The matter of selling liquor in flasks came up yesterday in the police court, arising from a discussion in a case. Geo. A. Henderson, who was prosecuting said that in his opinion no quantity of liquor could be taken from a retail dealer's premises, but when a purchase was made in his store, the drink must be taken there, and not carried outside in bottles or flasks.

If this interpretation of a clause in the liquor license act, is correct, it is hardly likely to be viewed favorably by retail saloon keepers, as much of their business is conducted in this manner.

J. B. M. Baxter, K. C., who appeared for the case in the case, said he was inclined to agree with Mr. Henderson's opinion, concerning the clause in the act, in question.

J. B. Jones, liquor license inspector was present, but offered no opinion in the matter.

It is possible that a test case may be made to secure a judicial decision.

of which mention has been made, is section 1, sub-section 1 of the amendment of April, 1909, to section 10, chapter 22, of the consolidated statutes of 1903. It reads as follows:

"A tavern license shall authorize the licensee to sell, traffic, or barter by retail, in fermented or spirituous liquors, in quantities not exceeding one quart, and in bulk liquor not exceeding one gallon, which may be drunk in saloon, hotel or tavern or other house of entertainment in which the same is sold."

In the act referring to the sale of liquor by a wholesale dealer, it is stated that no quantity of liquor may be consumed on the premises, and that quantities over a quart may be purchased in such premises.

Mr. Henderson drew from the act the inference that liquor in quantities up to a quart might be purchased in a retail place, but all of it must be drunk in the place, and not carried out of the premises.

The outcome of the discussion will be awaited with interest if a test case is made in court.

ARMY SERVICE MEN OFF TO CAMP TODAY

The members of the Army Service Corps were fortunate in the selection of the site for entering camp at Sussex, for a more ideal one for pitching their tents and preparing the camp for the reception of the men who will follow them, could hardly be desired. The corps entrained this morning with more than 160 men, under the command of Capt. McKeon. They left a little after 7 o'clock for Sussex, where an arrival, they will find plenty to do.

As soon as the corps arrives in camp, the members will be put to work erecting their tents, arranging the ovens, where the "grub" is cooked, and doing other odd jobs, preparatory to the opening of camp on Tuesday. The R. C. R.'s from Fredericton will enter camp today, as will some of the members of the Canadian Ordnance Corps of this city.

LOCAL C. P. R. TRAINMEN SAY STRIKE LIKELY

The trainmen employed on the Canadian Pacific Railway, who run in and out of St. John are closely watching the progress of the negotiations between the brotherhood and the company, which have been under way for some time and have now reached the dead lock stage. The heads of the company and the brotherhood refuse to recede from the stand they have taken, and according to the local men, a strike is altogether likely.

If a strike is ordered the trainmen on this division would go out as soon as they received word from headquarters to do so. Several of the local men today expressed the conviction that a strike was inevitable.

SIX BOYS IN COURT TODAY

As usual, a juvenile court was held this morning in the police court by Judge Ritchie, when six young fellows appeared before him. Two of them, James Brazillan and Charles Vail, pleaded guilty to throwing banana peelings in Ludlow street, Carlton, and a fine of \$8 was allowed to stand against them. Four younger lads, Gregory Lundy, Gerard Doherty, Harry McCarthy, and Harry Doherty, faced his honor to answer a complaint made against them by the caretaker of the St. John Boat Club, to the effect that they had taken a boat belonging to that organization and used it in Marble Cove.

The boys admitted this, but one of them said he mistook it for one which he had been directed to watch for a man in north end. His honor advised them to be more careful in future and allowed them to go.

The Halifax Record says: "Mrs. Mary A. Sheffield will arrive from St. John on the 28th inst. She is a delegate to the Local Council of Women, which will meet in this city next week. She will be accompanied by Miss Kate Leavitt, who is also a delegate. They will be guests of Mrs. Sheffield's sister, Miss Katherine B. Thomson, 203 Pleasant street."
