ST. JOHN STUDENTS IN HONOR LIST AT ST. JOSEPH'S

List of Winners of Degrees, Diplomas and Prizes.

Debates Last Evening and an Address by Bishop LeBlanc—The Valerictory Address of J. Emeric Dolan of This City.

Memramcook, June 15—Commencement exercises in connection with the fifty-ninth annual convocation of the University of St. Joseph's College began last evening at the college when an address was delivered by Rt. Rev. E. A. LeBlanc, of St. John. Two bilingual debates were features of the evening. Each speaker was given fifteen minutes to deliver his argument and for six minutes of this time he must speak French. A debate on the rival merits of journalist and orator between A. M. Robichaud and A. L. J. Richard was won by the former. One between W. S. Bridge and J. Emeric Dolan, both of St. John, in which the former, maintaining that trial by jury was not the best method of administering justice, was won by Mr. Bridge. Bishop LeBlanc congratulated the college warmly and commended the college on the progress programme included the delivery of valetories, in French by Flavien J. Samson and in English by J. Emeric Dolan. Presentation of degrees, diplomas and special prizes, etc., took place this morning. The exercises closed with Benediction of the Blessed Sacrament.

friends, closing day has dawned. The joys which we anticipated are here. Now we may close our books, dry our pens and with a sigh of relief, exult in an approaching rest. To the happy haven of peace and love, our dear homes, we shall go to enjoy the quietude of our own firesides and to plan for the future. In the contemplation of our past endeavors, with their varied results, we are partly satisfied, partly disappointed; but in this joy and sorrow of our present state we shall realize the true import of life and the never-satisfied desire of fleeting success. Into our minds will flow this thought, and unconsciously, we shall exclaim: "O Life! O Time! Ye were not made for long dreaming in the shade; Nor sinful hearts to moan all day by shady lakes or grassy bay! Or drink at noonday's dreamy hours Sweet opiates from the meadow-sinks!"

We have gained our goal, fellow-classes; we have reached the height of our youthful ambitions. We have mounted those distant hills, on which some seven years ago we fancied we could touch those gauzy veils of Heaven's gates, the dizzy clouds. But how different is the horizon now! As wide as ever? Nay, still more vast, and more distant are its limits. Oh, we are only beginners in this new world of broader view. Today, by the whirlwind of Time, we are submerged into the dizzy bewilderment of worldly strife. The parting of the ways has arrived. We leave you, dear St. Joseph's students; we quit you, dear Alma Mater.

The thought of this leaving awakens in us countless pleasant memories of our youthful days, the petty trials of college days. For "there must be gray clouds to bring out the golden glow of the summer sun; there must be a discordant note to emphasize the melodies that sing themselves to sleep in the human heart." In spirit, we re-live the happenings of the last few years. The chapel, our rooms, the study, the campus, all recalling pleasing and enjoyable recreation. Dear scenes of St. Joseph's, your memory will inspire us in the future; faithful friends of our college days, your lasting confidence will be a support, when worldly acquaintances fail us. Devoted professors, your indefatigable efforts and generous spirit will teach us lasting perseverance and unselfish fidelity.

Reverend Father President and members of the faculty, accept our heartfelt gratitude and deep appreciation. Truly, by your example and counsel, you have taught us that duty, so well defined by Solomon: "To search out

wisely concerning all things under the sun, is the painful occupation of man." Long and tedious has been your work with us. Slow and indifferent were we to perceive the value of your kindly admonition; but now we see it only as the measure of your devotedness and sacrificing spirit. These principles, instilled in us at St. Joseph's, will be the guiding light for our future career, the inspiration which will prompt us to aim high and strive to accomplish much. From you, reverend professor, soul of our Alma Mater, we must part. We must take our places among the honored and successful students who have already experienced your benign influence and profited by your wise foresight. In leaving you, our hearts overflow with gratitude, and we are loath to go. Our spirits proclaim, however, that we will never quite St. Joseph's, as our Alma Mater will always be a fair flower in the ever-blossoming garden of our memories. Reverend Father President and members of the faculty, farewell!

To you, fellow students, who have witnessed our labors and shared our joys in these blissful days of our college life, we say a reluctant farewell. Years have we spent together. You have seen us in our daily duties, you have watched us ascend the toilsome road of studies. May our most gratifying triumphs be but the smallest of your successes. Let not our failures and shortcomings discourage you, but have them as a caution, and a protection for the future. Fellow-students, farewell!

"Farewell! a word that must be and hath been—
A sound which makes us linger,—yet, Ye, who have traced the Pilgrim to the scene
Which is his last, if in your memories
A thought which once was his; if in ye swell
A single recollection, not in vain
He will, his grand-scheme and scallop-shell.
Farewell! with him alone may rest
The pain
If such there were,—with you, the
moral of his strain."

Friends of our college days, we leave you. Your kindness and interest in us and in our activities have encouraged and inspired us to greater things, we now go to accomplish them and our going brings regret. However, peering through the hazy mists of coming days, we joyfully discern a happy reunion at an early future. Until then, dear friends, farewell!

Only one word more, but 'tis the hardest of them all. Fellow-classes, brothers of student-days, the happy college-family must now disperse. We have taken leave of our Alma Mater, our companions, and our friends, but

alas, we too must part. For years, we have worked and played together, enjoyed one another's pleasures, and sorrowed in the trials of each. Together, we have strived, together, we have conquered, and—yes, together, we must part—For the bonds of friendship and understanding have enticed us too closely to allow mere empty space to cool the ardor of our reciprocated affection or to chill the fervor of our mutual esteem. As we have been united in the past so shall we be in the future. Possessing the same principles and laboring for the same ideals, we cannot separate. With our motto "Spectetur Agendo," as the glowing beacon on whose radiating beams we read those closing words of our last philosophy lecture, "In necessariis unitas, in dubiis libertas, in omnibus caritas," we shall find the golden road to eminent success and last happiness. Thus, the sad message of farewell is gladdened by the lofty aspirations of our inmost hearts.

Build thee more stately mansions, O my Soul,
As the swift seasons roll!
Leave thy low-vaulted past!
Let each new temple, nobler than the last,
Shut thee from heaven with a dome more vast;
Till thou at length art free,
Leaving thine outgrown shell by life's
unresting sea!
My class-mates, a fond farewell!

CATHOLIC WOMEN'S LEAGUE WORK OF YEAR REVIEWED

Annual Report of St. John Diocesan Sub-Division.

Mrs. James E. McMurray's Resume of Activities Submitted at Convention in Halifax-Cathedral, North End, Sussex and Moncton.

The following is the annual report of the St. John Diocesan Sub-Division of the Catholic Women's League of Canada...

The St. John Diocesan Sub-Division of the Catholic Women's League of Canada was organized at St. John, N. B., on January 19, 1922...

This diocesan sub-division is composed of the sub-divisions St. John (Cathedral), St. John (North), Moncton (St. Bernard's), and Sussex, with a total membership of 1,100...

Quarterly meetings have been held during the year. Much of interest and inspiration has been gained by the delegates at these conferences...

The business sessions, presided over by Mrs. D. P. Chisholm and attended by delegates from the sub-divisions, consisted of reports on the activities of the league as carried on in the sub-divisions, discussions, and interchange of ideas...

The support of the Canadian League was pledged, with a donation of \$10, and a subscription drive planned.

The work of immigration in connection with the meeting was discussed by Mrs. John Owens, who outlined this branch of social endeavor since it was first taken up in St. John...

The organization committee sent letters to the pastors of seven parishes with a view to the establishment of the league. Replies expressing approval of the league were received...

To be able to cope with all questions of the day, as they arise, Rev. Father Duke, present at our first annual meeting, advised the members to have, first, a knowledge of the doctrines of the Church on these questions...

The last quarterly meeting, held in May, was strictly a business session. The main object of which was the nomination of the Dominion executive and the appointment of our diocesan delegate, Miss Margaret McCloskey...

At the two quarterly social sessions, presided over by Mrs. Chisholm, all reception to all members of the league in the diocese was held, with the object of promoting membership and spreading a knowledge of league activities and achievements...

Mrs. John Owens, Dominion 3rd vice-president, member of the national immigration committee, and C. W. L. convener of immigration for St. John, read an illuminating paper on immigration, speaking particularly of the work as carried on at the port of St. John, "Canada's Winter Gateway"...

"VACATION TIME" is fast approaching for many of us. For that trip you are planning have your Panama or Soft Felt Hat blocked and cleaned at BARDSELY HAT FACTORY...

was made to the Home for Incubables. A subscription for the New Freeman, our Diocesan Catholic paper, was secured, for delivery each week to the patients in the County Hospital. In November a requiem mass was offered for the repose of the souls of our departed members, and in accordance with the suggestion made at the Winnipeg convention, our sub-division had a mass of thanksgiving celebrated in the Cathedral on November 6.

Securing subscriptions for the Canadian League and the training and conducting of a league chorus have been undertaken by these members. The financial statement of the total cost of the gymnasium classes during the year had been \$1,164. After paying these expenses, a balance of \$166 remains on hand. A series of auction bridge card parties conducted by the physical committee greatly augmented the funds.

Immigration was a most important branch of work during the winter season. Members of this committee met every ship bringing strangers to Canada, special care being shown for the young girl, and to insure further interest in their welfare, letters have been written to C. W. L. secretaries in Montreal, Toronto, Hamilton, Ottawa, Guelph and Vancouver, placing them in touch with these new Canadians. Immigrant men and women have been conducted to mass on Sundays during a stay at our port. A grant of \$80 was made to Abbe Casgrain, port chaplain of Canada, to help in defraying the cost of booklets translated into the Ukrainian language for the use of the Ruthenian immigrants. Rosaries, scapulars and medals were sent to Abbe Casgrain for the inmates of the Provincial Hospital. Many deserving cases of different nature were assisted by this committee.

The work of the religious committee consisted of serving breakfast of women on Sunday to the boys of the Industrial Home. A Christmas treat, including books and games, was also provided for these boys, who were each enrolled in the Holy Name Society by our chaplain. The securing of worthy people willing to adopt homeless and orphan children is one of the special efforts of this committee. Regular visits were made to the hospitals of St. John, with the distribution of fruit, books and blessed candles, and a donation of linen for the promotion of education, a booth was conducted by our members during the week of St. Peter's high school. The receipts were for the new St. Peter's School. An instructive lecture was given by Rev. George Daly, C. S. B., on Catholic immigration and the organization of the Sisters of Service, and \$25.00 was voted to aid in this most worthy object. A lecture on his recent European trip was delivered by Hon. R. J. Ritchie. A reading club has been formed which is of much interest to the members. Social Service and Civic Activities—Where aid was required in this connection, our members responded readily by assisting in the following ventures: The War Veterans' Poppy Day, tagging for soldiers' dependants; Rosebud Day for the Children's Aid Society; the International Skating Meet, a bridge party, held at the home of a member, realized \$25 for the Public Health Centre Fund. Members helped in tagging for the War Memorial to be erected in honor of the men who gave their lives in the great war. A donation of \$20 answered our dominion president's appeal for the C. W. L. Austrian Relief Fund. Twenty dollars towards securing a new organ in one of the western missions was sent in response to an appeal from a former St. John young lady who is now teaching in the west. Members assisted at an Easter Tea given by the Local Council of Women, with which national organization this sub-division is affiliated. A sewing club was formed with a voluntary membership meeting weekly, and as a result of their efforts a well stocked box of altar linens was forwarded to the western missions. Following our annual custom, a high mass of requiem was celebrated in November for our deceased members. A rummage sale was held, the receipts of which covered the amount of our per capita tax and allowed \$35 for the expenses of the new chapel. Our sub-division were hostesses at the first quarterly diocesan meeting held after the convention, at the home of our vice-president for the business session, and in the Knights of Columbus Hall for the general meeting in the evening. A series of bridge parties were held during the winter at the houses of different members and, besides adding substantially to our fund for general purposes, they provided social intercourse which was much enjoyed. Moncton Sub-Division. Mrs. Reid McManus, president for 1923, Mrs. James Friel, immediate retiring president for 1922. Membership 225. Nine general and six executive meetings were held during the year. As the result of various activities such as card parties, held in the Knights of Columbus Hall during the winter, three evening entertainments at which instructive lectures were given and splendid music and singing enjoyed, the sum of \$850 was realized. The disbursements were as follows: For educational advancement, prizes amounting to \$30 were awarded the successful pupils in Grades VII and VIII in St. Mary's Home, for the year 1922-23. This forms the initial amount for what it is hoped will be an annual and larger bursary. For social, religious and charitable purposes, we donated \$25 to the Victorian Order of Nurses, \$10 to the Child's Welfare Association, \$10 to the C. W. L. Austrian Relief Fund, \$20 to the Central Relief Fund of the city, \$20 towards the expenses of our Sunday school picnic, \$25 as a gift to our devoted pastor, and \$10 in offerings for masses for living and deceased members. A large amount was spent for groceries and the payment of rents for deserving families during the winter. Sussex Sub-Division. Mrs. Wm. Devine, President, 1921, '22, and '23. Membership 75. Two pantry sales and a Valentine whist party were held during the year and a good sum realized for charitable purposes. Sixty children were

MAGNA CHARTA DAY.

Today is Magna Charta Day, and day after tomorrow will be Magna Charta Sunday. Today is a day for such observances as that of the Canadian Club in this city, at whose luncheon Judge McJannet eloquently discussed the significance of the anniversary and what Magna Charta means to the world.

Of special value is the drawing together of the United States and the British Empire in a common observance of the great anniversary. The honorary presidents of the International Magna Charta Day Association include President Harding, along with representatives of Canada, Ulster, the Irish Free State and Newfoundland, and among the executive vice-presidents are representatives of the United States, Canada, Australia and Newfoundland.

The movement is also making headway in England, but it is significant that the greatest interest thus far has been manifested in the United States. In a letter setting forth the aims of the association, Mr. J. W. Hamilton of St. Paul writes to the Times: "A movement to give the English speaking nations one day in common annually will be of sufficient moment to interest you personally and your readers. Our objects are: 1. To give the English speaking nations one day in common annually, but not a legal holiday.

2. To arouse the consciousness of our race everywhere to the necessity of holding more closely together and of permitting no enemy to sow seeds of trouble between us. 3. That the dangerous influence of racialism in our midst will be set aside with a corresponding growth of sound feeling in the seven nations. By racialism we of course do not refer to the French Canadians.

4. This closer unity of purpose exerting a profound influence for world peace, which literally hangs upon the closest co-operation of the English speaking nations." A circular issued by the association presents these considerations for the people of the Empire and the United States: "To arouse the sense of solidarity is no easy matter, yet it is of vital importance. It is necessary that there be a simple recognition of what our race has done for civil and religious liberty, freedom of thought and of the press, and to remember the fact that the Anglo-Saxon race has kept the light of its lamp of liberty shining clearly and definitely ahead of every other race. This group is the most important in the world to each other and to all those people in every nation who believe as we do in civil and religious liberty, and in the recognition of the blessings which have come from that great principle of human freedom, Magna Charta. We are far from perfect, but in human freedom we have led, and now lead the world, and no enemy must be permitted to make trouble between us. Human liberty and the peace of the world hinge more upon the closest co-operation of the English speaking nations than upon any other one influence. We hope to spread broadcast information with respect to the beginning of the liberties of the different steps in the liberties which have come down to us through the past fifteen or sixteen centuries. We feel that ignorance of these great events in our history is dangerous, and that a broader knowledge of them by the masses of our people will assuredly lead to a sounder knowledge of their individual responsibility for them. While this movement will naturally be confined very largely to the English speaking nations, we believe that the freedom of every nation will in a few years recognize the greatness of the idea, and join with us in heart and soul. It is possible that out of this movement there will come in a few years a support for international arbitration which will be of definite and positive advantage to any league of nations, for the movement is primarily for world peace, which hinges almost wholly upon the closest and most cordial co-operation among the seven nations."

Observance of Magna Charta Day unites the people of this generation up all the great champions of human liberty of the English speaking nations through all the centuries. Nowhere are the principles they advocated and for which so many died more fully enjoyed than in Canada, and for that reason as well as for the reason that this country has been described as the interpreter of Britain to the United States, our people should have a desire to join most heartily in honoring the day. On Sunday in the churches there will be opportunity to direct the attention of all the great achievements in behalf of freedom in centuries past by the progenitors of the English speaking peoples of today, and to the significance of the solemn observance of such a day by free men and women and children in countries scattered over the globe, who share a common and a priceless heritage, and who together may do so much in the coming years to make the bounds of freedom wider yet.

Ontario appropriated both the presidency and vice-presidency of the Canadian Good Roads Association. Ontario's acquisitive faculty is predominant. It wants to make tariffs, rather in the big financial institutions, manufacture for the rest of the country, control transportation and generally be the champion of the league. Also, it is fairly successful in its endeavors.

Mr. Jack Dempsey is to get \$300,000 as a guarantee for his little controversy with Mr. Tommy Gibbons at Shelby, Montana. Incidentally he paid Shelby on the spot. Mr. Dempsey is entitled to space on the financial as well as the sporting page.

Parliament is to be asked to provide for the construction of a branch of the C. N. R. from Meductic to the Maine boundary. When it is proposed to take over the Valley Railway and route through traffic via St. John?

Russia has decided that a break with England would not be good policy. That is one point of advantage gained for better international relations.

MRS. RICHARD O'BRIEN.

A woman the city can ill spare, because of her womanly qualities, her public spirit, and the service so unselfishly and so ably rendered in many directions for the public good, has gone to her rest. The passing of Mrs. Richard O'Brien is a cause for universal regret, because of what she was and what she did for the advancement of human welfare in this community. To her husband, sharing her sympathies and appreciating as no other could her splendid qualities, the loss is irreparable; but so far as human sympathy may assuage grief he has the assurance that his fellow citizens sorrow with him in this hour. Mrs. O'Brien's work for education, for the Red Cross, for public health, and for the uplifting of womanhood to a higher plane of service and of living will remain as an inspiration to those who take up the tasks that have fallen from her hands. The service a cultured and sympathetic woman may render is something to be sought and prized, and she who has just passed into silence had not only a deep sense of responsibility but an earnest desire to do her full share of beneficent work. Her memory will be cherished by her co-workers in many organizations where her bright mind and clear sense of duty have been so highly valued by the people, and especially women, of all creeds.

All that the French appear to be getting out of the Ruhr is more trouble, but having taken the bear by the tail it is apparently not quite safe to let go. Sooner or later the good offices of other nations will have to be sought, since the present struggle is leading to greater loss for France and Germany and preventing the reconstruction of Europe.

Bankers Help Shelby Promoters. Great Falls, Mont., June 15.—Bankers of Great Falls rushed to the rescue of the Dempsey-Gibbons championship fight at Shelby, Montana, late last night by guaranteeing the \$100,000 due Jack Kearns, manager of the heavy-weight champion today. The Shelby promoters were unable to meet their obligations, which made it necessary for bankers and business men to pledge their support to assure the fight.

A POSTMASTER'S GRIEVANCE.

(Toronto Globe.) The Edmonton Bulletin and the Edmonton Journal unite in asking the Federal authorities to redress the wrong done the postmaster of that city, George S. Armstrong. Mr. Armstrong was arrested on January 15, this year, charged with the theft of three registered parcels containing \$50,000 in Merchant Bank bills. The parcels were received at the Edmonton post office on Saturday evening, August 9, 1919, and were missed on Tuesday morning, August 12, 1919, when the messenger of the bank called for them. The trial judge in his charge said there was no evidence to connect Mr. Armstrong with the theft, and the jury returned a verdict of not guilty in ten minutes.

Mr. Armstrong had been Mayor of Edmonton for two terms. His salary was for more than ten years. His salary was stopped after his arrest, and he says he had to borrow money and pledge the savings of a lifetime to carry on his defence. The Bulletin charges that he was subjected to "third-degree" methods by postal officials before his arrest, and says the case was a mockery of justice. The Journal calls for a parliamentary inquiry, which, it thinks, could hardly fail to end in an indemnification of Mr. Armstrong. Apparently he is the object of strong public sympathy in Edmonton.

'Grand to Have Your Health'

Mrs. Jemmy Evans, of Detroit, Mich. Few of us appreciate our health until we lose it. Mrs. Evans worked in a factory, and owing to a weakness, and pains in her back she was forced to give up work. She says: "A friend recommended Lydia E. Pinkham's Vegetable Compound and it made me well. It is grand to have your health, to feel well all the time and to go around like other women without that awful torture of female troubles." Women who are suffering from such troubles should remember that Lydia E. Pinkham's Vegetable Compound is the tried and true medicine, now recognized everywhere as the standard remedy for female ills.

CHATHAM PERSONALS.

(Chatham World.) Mr. and Mrs. N. W. Perley announce the engagement of their daughter, Mary Katherine Florence Perley to Alexander Bess Lumsden of St. John, N. B., the wedding to take place June 29. Cameron of St. John was at the Adams House on Tuesday.

DEATH OF ANDREW MORROW

The death of Andrew Morrow, a former well known resident of Grand Bay, occurred last evening at his home in Fairville, after an illness extending over about two months. He is survived by his wife, two sons, Fred and Arthur of this city; one daughter, Mrs. Murray F. Flower of this city; three sisters, Sarah of Boston, Lottie of Sanford, Maine, and Elizabeth of this city; and one brother, William J. Morrow of Grand Bay. For many years Mr. Morrow was a farmer at Grand Bay and was highly respected by all. About three or four years ago he removed to Fairville and had resided there since.

BRITISH STEAMSHIP LINE WILL CELEBRATE CENTENARY.

London, May 30.—(By Mail)—This year will see the centenary of the General Steam Navigation Company, called the oldest steamship corporation in the world. To mark the event the directors are having prepared a document, compiled from the records and minutes of the company in its earlier years, of the more interesting points in the company's history.

For instance, some eighty years ago, says "The Westminster Gazette," at a very stormy meeting of the company two directors exchanged challenges to a duel with pistols and swords. But, as the company was under royal patronage, efforts were made to avoid a scandal and eventually the two "fire eaters" were reconciled.

During the late war the company lost no fewer than twenty-three vessels, and among the sailors was the most ancient sea-going mariner in the world.

LOCAL NEWS

The first group of the St. John company of the Canadian Naval Volunteer Reserve will leave for Halifax on Monday for its initial voyage. Instructions for the men to go forward to commence training were received from Ottawa yesterday and the lucky first group is much pleased.

The monthly meeting of the Children's Aid Society was held last night. In the absence of the president, Mrs. J. H. Dooly occupied the chair. The report of the agent showed that the present population of the Home was twenty-seven, which is about the average for the last winter. Much of the time had been taken up investigating the cases of alleged abuse of children. Two girls were committed to the Monastery of the Good Shepherd during the month.

The Fairville W. C. T. U. met yesterday afternoon at the home of Mrs. O. J. Hanson with Mrs. A. L. Bonnell presiding. Requests for reports were received from the provincial superintendents, Mrs. R. D. Christie, of St. John, and Mrs. Filipp of Woodstock. It is reported that flowers had been sent to Miss Bessie Stevens and other sick members and that furniture and clothing had been given to the Salvation Army.

The incoming suburban train from Welsford, due in the city at 11:55, was bumped by a freight train at Fairville yesterday morning. The suburban had stopped to take water when the engine of the freight struck it. The freight train had not much momentum and the shock was not severe, although the blow was bad enough to jar the passengers, and one man was reported to have sustained a bruise on his leg. A drawbar on the suburban was bent but the train was able to come into the city without any trouble.

Word was brought to the city yesterday afternoon of the narrow escape of a man and a woman when the automobile in which they were traveling was struck by a freight train at Greenville Junction, Maine, about noon. The driver of the car had a clear view, the crossing bell, the engine bell and the engine whistle were all sounding, and the only apparent cause for the collision was an attempt to beat the train. The man, Oliver D. Rowe, was taken to the Greenville hospital, badly hurt, while his companion, Mrs. William Wilts, was cut about the face.

Conveners and helpers for the Salvation Army tag day met yesterday afternoon in the city hall with the general convenor, Mrs. Hope Thomson, presiding. A review of the situation showed that about forty more helpers and three more automobiles were required. Mrs. Burrows, wife of Major Burrows of the Salvation Army, was appointed convenor for street tagging, and for the collections at Union Station, the ferry from Moncton to Detroit where they will meet the New England delegates. Those in the party were: Dr. H. L. Spangler, of St. John, district convenor for the Maritime Provinces, Newfoundland and part of Quebec; H. E. Pyke, Charles J. Burchell, S. R. Baloon, R. B. Cowell, of Halifax; Percy Dickson, of Moncton; Robert Vandine, John Reid, Lou Phillips and James McMurray, of Fredericton. Others were expected from Charlottetown, Yarmouth and St. Stephen.

SUING YARMOUTH TOWN. B. H. Redding of Yarmouth, Yarmouth County, is taking action against the Town of Yarmouth for \$3,650.50 damages resulting from alleged bodily injuries sustained by himself and his wife by reason of the failure of the town to keep its streets in proper repair. The suit follows injuries sustained by Mr. Redding and his wife when the carriage in which they were riding upset. "I lost eighteen pounds on the trip." "There you have the latest diet and exercise for reducing."

Runs 107 Miles Without A Stop. "Human Locomotive" Says He Could Have Continued. Philadelphia, June 15.—Samuel A. Johnson, showing all the animation of a man refreshed by eight hours' sleep, recrossed into Philadelphia to announce to the world that he had just completed a non-stop run from New York to this city. "I left New York yesterday," said the self-styled "human locomotive." "Ran all day and at night. Started at 9:30 a. m. and arrived at eight o'clock this morning." Johnson certainly held up well under the strain. He was a bit sunburned.

ASTOR GRANDSON SEEKS DIVORCE

The Wife of William Astor Drayton Files Counter Charges.

New York, June 15—William Astor Drayton, a grandson of the late William Astor, has sued for divorce and the suit is now pending in Westchester County. Mrs. Drayton has filed counter charges.

She alleges that an agent, acting for her husband, had engaged in a systematic campaign abroad with the object of breaking down her "moral resistance." Further allegations link her husband with various French and Italian women.

The action instituted at White Plains remained unopposed for a year, it was indicated, although testimony has been taken in England and in France, with British solicitors appearing for both sides. Drayton accused his wife of statutory offences in England and Paris, while Mrs. Drayton charged that he had been unfaithful between May and August, 1920, in Paris with a woman known as "Marguerite Florent," a tall woman unnamed, and a small one who passed as "La Baronne." In addition Mrs. Drayton charged her husband with misconduct with a Mrs. Catherine Harold Sands in London and further alleged that during May, 1920, he had been in Milan with an Italian companion.

Mrs. Drayton also alleged that a former British service man called Dudley had been employed to "spy" on her at East Bourne, England, in an effort to obtain material for a divorce action, but that he had failed to find anything. She then charged that Dudley launched his campaign, enlisting a woman friend and a man known as John Devleir in the cause. This group finally landed in Paris, Mrs. Drayton alleges, at the expense of her husband.

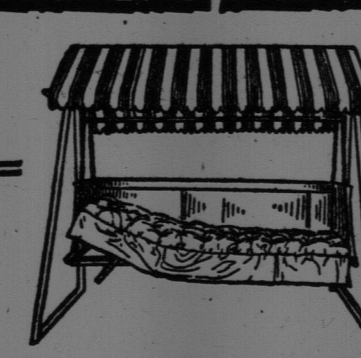

Divorced Wife of Lawson Wins Suit

Tailor Brought Court Action to Recover \$165 for Clothes.

Boston, June 15—Mrs. Arnold Lawson, divorced wife of Thomas W. Lawson's son, won a verdict in the Superior Court here in a suit brought against her by Jacob Short, a tailor, to recover \$165.19 for clothing made for her. Judge Keating presided at the trial.

Short alleged that March 16, 1918, he made a blue suit for Mrs. Lawson, for which he charged \$70; that he made

for being the ugliest animal in existence is not seriously challenged. Another arrival was Eyed All, the elephant expert who broke "Indarini" into carrying children and collecting pennies after the great beast had been on strike for months.

Syed All came from the Calcutta Zoo for the London elephant season. He is a good soul who earns forty times his ordinary pay when he comes to England. He remains unspooled. A previous elephant trader who was imported from India broke out into wrist watches here. When he rejoined the Calcutta Zoo he further showed how admirably he had absorbed Western culture, for he started a zoo-keeper's trade union, which was inaugurated with a full head-dress strike. He was abolished.

CHAPERON DEAD FOR TWO DAYS

Lay on Bed in Room With Syracuse Sorority Unaware of Loss.

Syracuse, N. Y., June 12.—The body of Mrs. Belle Blair Fraser, aged 68, chaperon of the Kappa Kappa Gamma Sorority, who died Saturday, lay two days undiscovered in the chapter house. Coroner S. Ellis Crane has announced. Following an investigation and autopsy at the county morgue, the coroner stated that death was due to apoplexy. Syracuse University authorities announced that an investigation into the case would be made. The university will attempt to learn how the chaperon of the sorority could be dead two days in her room without any others in the house knowing it. They believe, however, that the excitement of commencement and graduation caused the few girls that are still in the chapter house to overlook the chaperon's absence. Mrs. Fraser resided in New York for

New York Times On Coal Situation
(New York Times.)
"Unless the public puts in its coal now," is the warning of T. L. Lewis, a Westerner, who will pay the penalty in higher prices later on." But the public has a short memory for the privations of the winter of 1922-23. It is inclined to gamble, as usual, on the price of coal in the autumn. The improvident are unconcerned about empty bins when the winter begins to nibble. They listen approvingly to predictions that the price will be lower "later on." So it was said a year ago, and a winter of householding will follow. They listen approvingly to predictions that the price will be lower "later on." Predict Plentiful Anthracite Supply
Coal and Railroad Chiefs Decri Danger of Shortage Next Year.—Hold Parley in Brooklyn.—Declare Mines are Piling Up Reserve Sufficient for Winter Demand.
New York, June 15.—At a conference attended by railroad executives, coal dealers and representative citizens of the borough, held in the Brooklyn Chamber of Commerce, it was the consensus of opinion that there will be no anthracite coal shortage during the coming winter. The speakers asserted that because of the five months suspension of mining activities last year there is no reserve supply of coal at hand at the mines now, but that sufficient coal is being mined and will continue to be mined to meet the needs of the consumers during the winter. Attention was called to the meeting which is scheduled to take place on June 28 between the mine operators and the miners of the anthracite fields to discuss questions of wages and working conditions at the termination of the present agreement in August. The speakers stated that unless something unforeseen happened the operators and mining men would reach an amicable agreement.

Milburn's Laxa-Liver Pills The Great Liver Regulators
The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons. Therefore when the liver is inactive and failing to secrete bile in sufficient quantity constipation and other liver troubles soon follow. Mrs. H. D. Hutchinson, Peterborough, Ont., writes: "I have been using your Milburn's Laxa-Liver Pills and they have done me a lot of good. 'My liver bothered me a great deal; I was drowsy and tired all the time and didn't feel like doing anything. I blame my housework. I tried every thing, but your Pills seemed to do the work far better than anything I had ever taken.'"

CHILDREN'S BANGLES FOUND IN STOMACH OF CROCODILE
London, May 23.—(By Mail.)—Two crocodiles, one sixteen feet and the other seventeen feet long, have been shot in the Ganges at Bhagalpore by Matthew George, a colliery manager. The stomach of one of the crocodiles contained ornaments, which have been identified as belonging to two children, one sixteen and the other three years of age, who were devoured a fortnight previously, says the correspondent of "The London Daily Express."

ACIDS IN STOMACH CAUSE INDIGESTION
Create Gas, Sourness and Pain How to Treat.
Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sores, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Vitaphone Drops \$6,000,000 Action Against Famous Players.
New York, June 15.—Withdrawal of a \$6,000,000 lawsuit brought by the Vitaphone Company of America, Inc., against the Famous Players-Lasky Corporation and other defendants is announced by the latter firm. The lawsuit, which was brought by the motion picture industry, were said to have been instrumental in bringing about an agreement. The Vitaphone Company alleged in its complaint that Famous Players had conspired to control "first run" motion picture theatres, thereby suppressing competition and restraining interstate commerce. Vitaphone declared it had been injured to the extent of \$2,000,000 by the alleged practices and under provisions of the Sherman law, asked federal court for three that amount. The suit was brought last November. Albert E. Smith, president of the Vitaphone Company, today consented to withdrawal of the complaint. The federal trade commission, for several weeks, has been investigating the Famous Players-Lasky Corporation in an effort to determine whether or not the company constitutes a trust.

Methodist Conference
Yesterday's meeting of the New Brunswick and Prince Edward Island Conference of the Methodist Church at Sackville, was opened up with speech-making. Addresses were delivered by J. T. Wilson of Halifax; Dr. George J. Trueman, the new president of Mount Allison University; Prof. John Line, B. D., S. T. D., and W. J. Little. The report of Rev. S. W. Dean of Toronto, secretary of the general board of superannuation was presented by Rev. G. M. Young. The annual income had increased \$67,000 more than any year in its history. A net surplus of \$11,000 was carried over. The average annuities paid had largely increased, being now \$24,716, as against \$24,000 and to windows \$389. The present endowment was more than \$2,260,000. A resolution was submitted by Rev. Dr. H. Kelly, seconded by Rev. H. E. Thomas, calling the attention of the board to the alleged injustice which the present assessment inflicted. In some cases ministers who are engaged as agents in certain positions outside the church must become responsible for the payment of \$200. The resolution called for some system of a grading assessment. Rev. Eugene Chapman presented the report of the Children's Fund and the contingent fund committee was recommended to make up the necessary balance to abolish the fund. Rev. J. Heaney, of St. Stephen, and N. J. Rogers, of St. John, were appointed auditors of the parsonage fund. Rev. A. C. Bell, of Petitcodiac, and Henry Smith, of Charlottetown, were appointed auditors of the contingent fund. The superannuation fund committee was appointed as follows: Rev. Messrs. J. B. Gough, F. H. Holmes, E. S. Weeks, J. J. Plunkerton, J. Heaney and E. H. Wright, J. J. Weddall, J. M. Palmer, Henry Smith and D. H. Moore, Evening Session.

They will be entertained here by the city, the Board of Trade, the New Brunswick Tourist and Resources Association, the Rotary Club and the New Brunswick Automobile Association. The programme for the party while in St. John is as follows:
1.30 p. m.—Arrival at Union Depot. Waiting automobiles and cars will convey members to "The Paradise" for luncheon.
8.00 p. m.—Drive to the city's points of interest.
9.00 p. m.—Mayor and Mrs. G. Fred Fisher will entertain the ladies to tea at their residence.
8.00 p. m.—Theatre party at the Imperial.
10.00 p. m.—Dancing at the Venetian Gardens.
Leave St. John by S. S. Empress at 9.30 a. m., Atlantic Line, Sunday, June 17. Divine service on board.

It is thought by the authorities that they know the name of a man who bought a Durant Special car on Wednesday from T. Mercer, in Sussex, and gave a check for it, which was later refused by the bank. It was said that the man drove away in the car and that the check was found later to be worthless. The police of the province were notified and are on the lookout for the car, described as being of maroon color with a trunk on the rear and bearing dealers' license No. 162.

Rev. R. K. McIntyre, professor of chemistry at St. Francis Xavier University, Antigonish, N. S., arrived in the city yesterday and left last evening for his home in Boston. Father McIntyre had come from Nelson, N. B., whether he went to the same sympathy to the family of Everett Dolan, who was drowned at Sturgeon Falls, Quebec, two weeks ago while at work with the geological survey. The late Mr. Dolan was formerly an instructor at St. Francis Xavier.

294 NOMINATED IN ONTARIO
Toronto, June 14.—Candidates nominated today throughout Ontario for the election on June 25 numbered 294, with 111 seats to be filled. Conservatives led the list with 102 candidates, the Liberals following with seventy-seven. Representing the United Farmers of Ontario were seventy-five candidates while Labor produced seventy-two. Independents holding various political opinions totalled eighteen. Kingston, Ont., June 14.—W. F. Nickle, K. C., Conservative, was returned as a member of the Legislature for this city by acclamation at the nominations today. Kenora, Ont., June 14.—Peter Heenan, Labor member in the last House for the constituency of Kenora, was elected by acclamation this afternoon. A regular meeting of Local 663, A. O. of Street and Electric Railway Employees, was held last evening with Ira D. Ferris presiding. Information was given to a committee of citizens about the working of the emergency brakes on the street cars. It was reported that no word had been received from the new directors of the New Brunswick Power Company in regard to the lock-out which started on July 29, 1921.

until the Marquis of Lincolnshire uttered a protest that caused a halt to be called. "Lot 8" of the auctioneer's catalogue for the occasion was thus described: "On the manor farm is Runnymede. The armies of King John and the confederate barons encamped here for the signing of Magna Charta on June 15, 1215."

with many protests, fighting every inch and yielding when he did yield because he reckoned that it was the surest way to enable him to win victory out of defeat; the barons ever more and more grimly determined to yield nothing, but to win their full demands.

Principles of The Charter. Whatever the race or origin of the people of the United States today, they acknowledge fully and freely that their history is a continuation of British history, and that the principles of Magna Charta and other great instruments of British freedom have come directly down the stream of time as the common heritage of the Anglo-Saxon race.

Your Home

Have you placed the "guardian angel" of life insurance over your home?

A home protected by life insurance—covering the mortgage and the necessities of life—is one of the happiest places possible. There is no dread of the future; no fear of losing the home through forced sale should death occur to the bread-winner; nor is there any likelihood of the mother having to supplement a meagre income by working, nor of the children having to forego the advantages of an education.

The guardian angel of life insurance simply takes your place and "carries on." With a mighty three billions of dollars she is standing watch over thousands of Canadian homes, where the parents and children all live in the happiness that comes through the knowledge of adequate protection.

Life Insurance representatives are the great ambassadors to your home. They will be pleased to show you how simply and easily you can throw the "mantle of protection" around it.

NOTHING CAN EVER TAKE THE PLACE OF YOUR HOME. IT IS A WORLD IN ITSELF ABOUT WHICH EVERYTHING REVOLVES.

LIFE INSURANCE SERVICE.

"The Love That Never Dies."

history describe that revolution as in the line of succession to Magna Charta, the Bill of Rights, and other British statutes, which are land marks of liberty. The International Magna Charta Day Association is endeavoring to teach the people of the United States that the story of their country began long ago in the British Isles. And why not? It is a splendidly glorious idea to commemorate this day because the Magna Charta has always been regarded as a palladium in the era of law making in that it affirmed or perhaps re-affirmed the principles of constitutional government.

The History of England. The history of England and of the countries that her sons and daughters have peopled has been a story of the struggle for the maintenance of free institutions and the preservation of the liberty of the subject, so long as the latter is in no respect a menace to the state. It is fitting, certainly, to recall the Magna Charta of the race and to remember the warning of Junius to the English nations that "the laws which protect us in our civil rights grow out of the constitution, and they must fall or flourish with it."

Operates like a Fireless Cooker

An Electric Range oven may be a housewife's joy and treasure—or it may be an odoriferous nuisance. If it is made with seams or joints, the vapors will be forced by the pressure of heated air into the insulation, where they will decompose and in time create an intolerable odor which cannot be remedied.

Mrs. Richard O'Brien Passed Away This Morning, Leaving Record of Much Good Work in City's Life.

Mrs. Mary O'Brien, wife of Richard O'Brien, managing director of the St. John Globe, died about four o'clock this morning at her home, 212 Germain street, after a lingering illness.

Mrs. O'Brien was one of the original members of the St. John Red Cross Society, and on the outbreak of war she organized the Catholic Red Cross branch, which represented all the parishes in the St. John diocese, and accomplished a great deal of valuable work.

Of herself and her talents she gave with a generosity which led on her health. Her many activities received her most conscientious attention and no detail escaped her notice.

Nearly \$90,000 In Claim At Session Of Exchequer Court

Some Twenty Acres, Including Part of Island Yard—Offer Is About One-tenth.

Hearing upon a claim for almost \$90,000 took up the attention of the Exchequer Court of Canada at the opening of its sessions here this morning.

The government made an offer upon expropriation of \$400 an acre. There are some twenty and two-fifths acres. The defendants claim \$88,762 for the property, which is made up of several different parcels of land now forming part of the "Island Yard" now used for additional truckage by the C. N. R.

HANDS OVER BONDS WORTH \$141,000 TO 'HOSTS' ON TRIP TO CONEY ISLAND

New York, June 15.—A rosate future given the securities on their promise to dispose of them and split the proceeds. Foley, police said, admitted that seven months ago he "lost" \$8,000 in securities which he turned over to the two men. In payment, he said, they gave him \$40, took him to Coney Island, told him he was a fool to work for a salary and promised to split with him proceeds of any securities he would give them. He declared to the police, he met them again and was induced to hand over the bonds. He told his employers he had lost the securities, but a subsequent investigation disclosed facts which did not tally with his story.

FIRES THE WORST SINCE MIRAMICHI DISASTER OF 1825

Fredericton, N. B., June 15.—With 220 square miles of timberlands burned over by the forest fires in northern New Brunswick, the conflagration has reached proportions beyond any similar disaster in the history of this province since the great Miramichi fire in 1825 and it is feared that the losses will exceed all records. Some of the greatest fires have gotten entirely beyond human control so that now the efforts of the fire fighters are being concentrated upon putting down the smaller fires and fighting the larger ones from the banks.

The St. Quentin and Kewick fires spread southwesterly yesterday, crossing the Northwest Upsalquitch, Part went down the Little Tobique to the Victoria County line and another part went toward Sackville, three miles off the Nepsiguit River. The fire at White's Brook made great headway southward. It is impossible to tell where the front of this fire is. The Bathurst Company is organizing a crew. At Bathurst there has been no rain but 100 men are trying to control the fire. Three fire pumps are in use. One has been sent from Doaktown. The Bald Mountain lookout in Northumberland County reported late this morning that he can see the fire burning fifteen miles northwest of that place. Rain fell for two hours at Bald Mountain this morning.

ROYAL BANK LOSES GLACE BAY APPEAL

Ottawa, June 15.—(Canadian Press) The appeal of the Royal Bank of Canada in the matter of income tax against the town of Glace Bay was dismissed by the Supreme Court this morning. The bank had asked for a refund of \$25,000, but its profits, which could not be loaned in that town, were sent to the head office and the Glace Bay branch was credited with \$20,000, being 4 per cent on the amount of such deposits. The assessment being upheld, the bank brought this appeal and contended that it was only the local profit that could be taxed and the allowance of 4 per cent of the deposits was only a matter of book-keeping to enable the bank office to deal as to retaining or closing the branch.

WOODCOCK SUFFERED BY THE LATE SPRING

Halifax, N. S., June 15.—Roble W. Tufts, of Wolfville, chief federal migratory bird officer for the Maritime Provinces, reports that the woodcock made a spring migration in timing its arrival in Nova Scotia when the snow was deep and, instead of being able to probe in the boggy ground for their usual fare of earth worms, they starved and froze to death. Loss of great numbers of birds appears to have occurred and will have a very serious effect upon supply of woodcock, perhaps for years to come.

JUDGMENT IS AGAINST THE PROVINCE RE LIQUOR TAX

Ottawa, Ont., June 15.—(Canadian Press)—The Supreme Court of Canada rendered judgment this morning in a case involving the tax on exported liquor imposed by New Brunswick. It was the appeal of Security Export Company vs. Provincial Secretary Hetherington. The appeal was allowed with costs throughout and warrant and proceedings thereunder quashed. Justices Anglin and Mignault dissented.

BOY FORGES HIS SISTER'S NAME

Then Takes His Mother's Savings and Flees—Police Looking for Him.

New York, June 15.—After drawing \$1,030.84, the savings of his mother, from two banks, Alamanir Labrie, 14, a schoolboy, Mount Vernon, ran away on Monday and is now being sought by the police of New York, Philadelphia, Boston, New Jersey and elsewhere as a result of a general alarm. He was to have been committed to an institution for incorrigibles. On Monday night the mother, Mrs. Emily Labrie, a widow, received a telegram from the boy which stated: "Now in Tuckahoe, Back soon. It is to keep away from Mrs. Ferris." Mrs. Ferris, a probation officer, had recommended that Labrie be committed. The police said the telegram was sent from New York City.

According to Lieutenant Silverstein, Mrs. Labrie has her savings accounts in the name of her daughter, Laureno. On Monday morning Alamanir went to the First National Bank, presented the book and asked for \$1,000. He signed the slip handed him by Teller Charles Schwaneck. The police believe he had been practising his sister's signature, so that when he presented the signed slip no question would arise. Dave Skidmore and Mr. Schwaneck examined the signature and the original on file. Both agreed it was all right, the police said. Laureno, the police pointed out, is both a girl's and a boy's name. Lieutenant Silverstein said that on June 2 the youth obtained \$30.94 from the Eastchester Savings Bank, where Mrs. Labrie maintained another account.

VIOLINS WORTH THOUSANDS TO BE HEARD IN LONDON

Two instruments will be Under Special Guard While in City. London, May 30.—(By mail)—Two wonderful violins which have not been played upon in public for many years are to be heard in London shortly, announces The London Daily Mail. One is a Stradivarius and the other a Joseph Guarnerius. Each is valued at £2,200. They are the property of R. D. Waddell, of Glasgow, the collector of violins. He has lent them to the Glasgow youth, William Primrose, who, as pointed out in The Daily Mail last November, has been hailed by such authorities as Sir Landon Ronald and Misha Elman as a violinist of genius. Both fiddles are now in London, and special measures are being taken to safeguard them. It was in the show of John Betts, in the City of London, that the Strad changed hands 100 years ago for a modest guinea. A man entered the shop and, laying a fiddle on the counter, asked for a guinea. Mr. Betts at once paid the sum. Afterward he found that it was a genuine Stradivarius. George Hart bought it in 1878 for £300 and in 1886 sold it for £1,200. In 1898 £1,300 was paid for it, and today it is worth £2,200. The "Leduc" Joseph Guarnerius came to Mr. Waddell indirectly through Signor Nicolini, Mrs. Patti's second husband. It is considered to possess the grandest tone of almost any fiddle in existence.

EXCITED CHINESE TELL OF SEA FIGHT

Say There was a Battle on Schooner Over Demand for More Money and Nine Were Killed.

New York, June 15.—A story of horror on the sea within the shadow of Sandy Hook run fleet's rendezvous, reminiscent of the days of buccanering on the Spanish Main, was drawn piece-meal yesterday from the fifteen Chinese survivors on the man-of-war schooner Mary Beards, picked up adrift on Wednesday night at the entrance to the harbor. They unfolded a story of a hand-to-hand encounter between twenty Chinese passengers and the crew of four, in the fight the crew and five Chinese were slain and thrown overboard after the unidentified captain had deserted the craft with \$5,000 passage money. When their story was concluded the authorities were as mystified as ever. The British consulate communicated with officials at Nassau, the port from which the Chinese said they had last sailed, but nothing throwing any light on the situation had been received up to late last night. The stories of the survivors, indicated that the schooner had arrived off the coast about June 6, and stood off for several days awaiting launches to smuggle the Chinese ashore. Provisions and drinking water ran short and the mysterious captain quit the ship.

The suspicions of the Chinese, who showed restlessness through the delay in landing, were aggravated when the mate demanded an additional \$250 from each. Two white men and two negroes complained the crew's resistance to the demand for more money was said to have started a general battle at dusk on Tuesday, implements of every kind being brought into play. Interpreters gathered from accounts given by the excited Chinese that the attack first was made on one of their number, then all joined in the struggle for self preservation, using knives, axes, razors, marlin spikes or anything that could be used as a weapon. The outnumbered crew were overwhelmed and killed and five of their opponents who fell in the fray their bodies were cast into the sea. The mystery was intensified by the absence of ship's papers or navigating instruments.

MISSION FINDS VALUABLE RELICS

Buildings and Monuments Found by Excavators in Palestine—Old Inscriptions.

London, June 15.—The mission excavating for the University of Pennsylvania at Beisan, Palestine, the Beth-shean of the Old Testament, has unearthed, according to a Times despatch from Jerusalem, the remains of Egyptian buildings with evidence of five centuries' occupation, and two large clear monumental inscriptions of Seti I and Ramesses II respectively. The inscriptions indicate military dispositions of known divisions of Egyptian troops and give references to neighboring cities on both sides of the Jordan.

Beisan is a small town near the Jordan, fifty-five miles north-northeast of Jerusalem. Seti I was King of Egypt of the nineteenth dynasty, about 1366 B. C. He was the father of Ramesses II.

I. O. D. E. Matters.

Quebec, June 14.—(Canadian Press.)—As the result of action taken by the members of the war memorial committee unanimously voting down a suggestion to close the war memorial fund, the Imperial Order of Daughters of the Empire will continue to carry on this work in Canada until the objective of \$500,000 set four years ago, is reached. This was announced yesterday by Miss Constance Laine, national education secretary and convenor of the war memorial committee at the I. O. D. E. annual convention. The fund now amounts to \$402,238.33. Last year the war memorial committee expended \$7,083 in providing burials for the sons and daughters of deceased and totally disabled soldiers and sailors, and \$7,000 in post graduate scholarships in British universities.

It was decided that the present system of award burials be continued; that the amount collected since 1922, namely \$25,000, be added to the Canadian burials fund in order to increase the allowance from \$250 to \$300; that the picture fund, balance of \$300 and royalties raised for fine arts on sale to certain war memorial pictures be allotted to overseas scholarships fund. Great regret was expressed at the resignation of Miss Laine.

POLISH WOMAN, 24 WEBS FOUR TIMES IN TWO YEARS

London, May 23 (By Mail)—A beautiful Polish woman, twenty-four years of age, married her fourth husband within two years in Switzerland recently, declares the Geneva correspondent of "The London Daily Express." Her first husband was a Pole, who was killed in a motor car accident one week after the wedding. The second was a Russian, who was shot by Bolsheviks, and the third was a German, who committed suicide owing to financial losses. "Don't you think my new husband is risking his life?" said the bride at her fourth wedding, but the husband declared that he had no fears. His wife's views of the world is somewhat cynical. "I don't believe in mourning for the dead," she said, "because our turn will come some time. Why worry? I want love and a good time."

KU KLUX EFFORT TO CAPTURE THE MASONIC CLUBS

Delegates Get Copies of the Hooded Order's Organ

Denunciation of Ruse is General and Warm—Visiting Members at Boston Gathering Indignantly Refuse to Have Anything to Do With Klan.

(Boston Herald.)

What is declared to have been a deliberate attempt to inject Ku Klux Klan propaganda and influence into the convention sessions of the National League of Masonic Clubs, which open this morning at the Copley-Plaza Hotel, was discovered yesterday, when hundreds of delegates from all parts of the United States, on arrival at registration headquarters, 30 Huntington avenue, found copies of a weekly newspaper, published in the interest of the Ku Klux Klan, lying around and being distributed.

Astonishment was the more marked because of the fact that various Grand Masonic lodges throughout the country have recently issued statements of disapproval of the K. K. K. and its activities. The visiting delegates and guests at first accepted the paper as a publication devoted to the interests of Masonry. Closer inspection, however, disclosed its real character.

Prompt Condemnation. The attention of President H. Melvin Allen of the National League of Masonic Clubs, President W. L. Terhune of the Boston Masonic Club, who is also chairman of the convention, and other national officers was at once drawn to the publication. These officials lost no time in condemning it and immediate orders were issued to have all available copies removed from the hall.

Pres. Hall, after a conference of more than an hour with other national officers, said emphatically that the National League of Masonic Clubs and he as its chief official condemned the publication and the efforts made to inject the propaganda into the convention. He declared that none of the convention officers or officers of the league knew anything about the K. K. K. publication until the newspapermen called their attention to it.

"You can say for me," said Dr. Allen, "that no one had a right to pledge the delegates or convention to any such resolutions as are reported on the first page of the paper. We do not know anything about the matter and we not only are opposed to it, but repudiate it."

President Allen, before issuing any public statement, called a meeting of all national officers he could find to discuss the incident, and it is almost certain that the matter will be made a subject of discussion when the convention gets under way. While it was at first thought that the resolutions committee would ignore the incident as be-

neath the dignity of the order, it later became apparent that many of the delegates, incensed at what they call an insult, will force the committee to take cognizance of it.

In a denunciatory statement, President Terhune of the Boston Masonic Club, who is also a member of the national advisory committee of the league, said that it was most unfortunate that copies of such a publication should have been distributed in Boston at this time.

"I was more than surprised," he said, "when I found that copies of a weekly newspaper published in Washington and known as 'The Fellowship Forum,' were being distributed by representatives of that publication. In examining a copy, it was discovered to be a journal published in the interest of the Ku Klux Klan, with a large amount of Masonic material which would naturally lead one to believe it was a Masonic publication advocating the Ku Klux Klan.

Bars Politics and Creed.

"As chairman of the convention committee," he continued, "I feel that I voice the sentiment of every member of the committee in denouncing any such propaganda. One of the cardinal principles of Masonry bars politics and creed, and our fraternity prides itself on the fact that there is nothing in this great organization that could not be broadcast on the front page of every newspaper in the land. It is only recently that Dr. Frederick W. Hamilton, grand secretary of the grand lodge of Massachusetts, strongly denounced the Ku Klux Klan.

Charles A. MacHenry, official delegate from the George Washington Masonic Club in Fredericksburg, Va., said that in his opinion the publication was an organ of the Ku Klux Klan, with which Masons had nothing in common.

"This sheet," he said, "so-called the Fellowship Forum, is about as welcome among Masons as a skunk would be at a garden party."

Mr. MacHenry declared further that in the Southern district from which he came he had been informed by men who were members of the old K. K. K. that even with the need of such an organization during the reconstruction period after the civil war, it had to be suppressed because of excesses, and that at the present time there was no need for the Klan. "None of the responsible leaders in our district have joined, nor will they join the Klan although repeatedly invited," he concluded.

Copies of the "Fellowship Forum" are said to have been brought to Boston and placed in the convention headquarters by Angus A. Acree, news editor of the publication. While he is said to be a Mason, he is not a delegate to the convention. The paper is published by the Independent Publishing Company of Washington, of which George Fleming Moore is president and editor-in-chief; George W. Young, secretary and treasurer; James S. Vance, general manager, and George S. Carlin, managing editor.

Angered by Claims.

Two box announcements, one on each side of the title, particularly aroused the ire of the delegates. One states that "The Fellowship Forum is the national voice for militant Free Masons," while the other outlines that "The Fellowship Forum is the representative of militant Masons at the nation's capital." Officials vehemently declared that there was no such things as "militant Masons."

News items concerning the activities of the Ku Klux Klan are printed alongside Masonic news items. A streamer on the first page announces that "Masonic Clubs Launch Move to Unify Mas-

ony in the United States." There is also an article lauding Dr. Hiram W. Evans, "Imperial Wizard, Knights of the Ku Klux Klan," under an article describing the Shriners' convention in Washington.

One page carries a two-column advertisement directed to members of the Eastern Star, the woman's organization affiliated with Masonry. The advertisement reads:

"Organizers wanted. High grade women as state and district organizers for Hooded Ladies of the Mystic Den, a Protestant woman's order that is sweeping Maryland and adjoining states. For further information write to The Hooded Ladies of the Mystic Den, Box 261, Baltimore, Md."

Another advertisement was worded as follows: "Facts about the Ku Klux Klan, by Dr. Lester A. Brown. The most complete booklet of facts about the most wonderful of all American organizations ever published." On the second page a two-column article is headed as follows: "Klan News from Everywhere," while another story is printed under the heading "Attack on Klallif Savage Develops Into Boomerang. His Record in Patriotic Zeal

Uncovered After Foes Seek to Hurt by Poison Pen Letters. Helped build Ku Klux Klan."

Destroyed Its Own Purpose.

Discovery of the methods by which the propaganda was being circulated served to destroy its own purpose, and made it impossible for the Klan organizers to follow it up with personal interviews. It is known that many delegates were approached who indignantly refused to have anything to do with it.

Walter T. Margets, a member of the national advisory committee, who saw copies of the publication, ordered him to leave the premises. At first the agent refused to leave the registration room, but finally he beat a hasty retreat when some of the delegates present assumed a threatening attitude.

The most complete booklet of facts about the Masonic order through the mud, one irate delegate shouted to Acree, and other remarks of a similar nature apparently forced the man to decide that discretion was the better part of valor.

Any further attempts to have the convention used as a recruiting ground for the Klan will be promptly discour-

The methods employed as well as the proclamations of prominent Ma-

sons against the organization, will serve to block any advance toward gaining members or create trouble during the sessions of the convention.

Angus A. Acree, news editor of The Fellowship Forum last night issued the following statement:

"It is not seemly, in my estimation, for any Mason, or group of Masons, as comparatively unknown as these gentlemen seem to be, to offer any words of criticism for the product of the most distinguished Mason the world has ever produced, next to Albert Pike himself. I refer to Judge George Fleming Moore, editor-in-chief of the Fellowship Forum, past grand commander of the Scottish Rite of the Southern Jurisdiction, which comprises 33 states of the United States.

"Judge Moore is honorary grand commander of the Scottish Rite of Italy, Greece, Russia, and several other European countries. He is honorary grand commander of the National Grand Lodges of Masons of England, France, Italy, Greece and Russia.

"Therefore, to my mind, it seems that so distinguished a Mason, and a man who has given his life to Masonry, and who has done more than any other liv-

ing man to bring Masonry to the high plane it has reached today, is eminently more qualified to decide what constitutes a real Masonic newspaper than these men of whom few have ever heard beyond their own little ball-wicks.

"The charge that the Fellowship Forum is a Ku Klux Klan newspaper is a pure figment of an imagination disordered through a mad scramble for political preferment. We print Klan news just as do the daily papers, as news only, and will continue to do so regardless of the attitude of these few.

"The Fellowship Forum is edited by Judge Moore, and the general manager, James S. Vance, also is a 33rd degree Mason. I understand none of the critics have ever reached that degree."

A meeting of the Lancaster Community Club was held last evening in the Recreational Hut. Dr. J. A. McCarthy presided. The chief business of the meeting was the presentation of the constitution by Gerald Anglin. It was adopted after a short discussion. The meeting adjourned sine die, the next one to be called by order of the president.

Big Day of Sport in Sussex July 2. Ball Game Between The Locals and St. John Trojans and Annual Athletic Meet. (Sussex Record). The S. A. A. C. is making plans for an even bigger than ever Dominion Day here. H. L. Evans, manager of baseball, has been successful in arranging to have the fast St. John Trojans on hand at 10 a. m. for a baseball game, which should be the fastest ever played on the diamond of the S. A. A. C. At 2 p. m. the athletic meet will start. The number of events are about the same as the last two years. The track committee is arranging to have the best runners and jumpers from clubs all over the Maritime Provinces. No effort or expense will be spared to give sport lovers a chance to see the best performances possible. Prizes of more value than usual will be put up for the competitors. In the past all athletics competing have left Sussex after the meet with their right, and all competitors will be better pleased when the July 1st meet, is over this year.

Saturday Games For Leadership In Two I League. The leadership of the Two I League will be at stake tomorrow when St. Peter's will clash with Fredericton on Local Grounds in Afternoon and Evening. St. Peter's vs. Fredericton on Local Grounds in Afternoon and Evening. The leadership of the Two I League will be at stake tomorrow when St. Peter's will clash with Fredericton on Local Grounds in Afternoon and Evening. The St. Peter's will present their strongest line-up in an endeavor to get out in front in the championship race and with Bobby Stafford and "Lefty" Strecker in good form their local followers are confident that they will more than hold their own with Joe Ford's aggregation. It was not definitely known today who would be Manager McCormack's choice for mound duty in the afternoon game. In order to get in condition for the invasion of the leaders the members of St. Peter's team have been ordered out to practice tonight. Batting

FOUR INJURED AS
BOAT PLANE FALLS

Son of Shelby Mayor Most
Seriously Hurt When Air-
craft is Demolished.

Shelby, Mont., June 15.—The official
airplane for the Dempsey-Gibbons bout
which has been distributing tickets
throughout the state, crashed into a
telegraph pole at Livingstone, Mont.,
and was completely demolished. There
were three passengers and the pilot,
Earl Vance, in the plane at the time.
J. W. Johnson, son of Mayor Jim
Johnson, of Shelby, was the most seri-
ously injured, suffering a broken arm
and several cuts about the face and
body. Mayor J. E. Lane, a former
State Senator, had three ribs broken,
while Loy Molunby, State Commander
of the American Legion, and one of
the promoters of the bout, and Vance
escaped with minor cuts and bruises.
It is not believed that either John-
son or Lane were injured internally.
The plane, which was on its way to
Helena, had just taken off when it
was caught by a gust of wind and
blown into the pole. It bounded back
and the wind in the engine car-
ried it more than 200 yards before it
struck the ground. It was a Brigant
Bomber with a 300-horsepower Renault
motor, valued at \$7,000, and purchased
by Mike Collins, Eddie Kane, Moun-
by and Vance for the promotion of
the championship bout here on July 4.
The party left Shelby at Sunday
morning and had visited Great Falls,
Lewisburg, Billings and several small
towns. After the accident Moun-
by went on to Helena by train with
the tickets, and Vance returned to
Shelby. Johnson and Major Lane will
probably be in the hospital at Living-
stone for several days.

Will Not Delay Tickets.

The destruction of the plane is not
expected to materially delay the deliv-
ery of tickets in Montana. Phil
Campbell, who has charge of the cen-
tral office here, announced today that
the total sale to date was approximately
\$500,000 and added that the \$100,-
000 due Jack Dempsey on Friday as
a second payment on his \$500,000 guar-
antee was on deposit here ready to be
paid to Dempsey or his manager. Ac-
cording to the contract the final pay-
ment is to be made on July 2.
While the excitement in Shelby in-
creases almost hourly, Tommy Gib-
bons, one of the principals of the bat-
tle which is the cause of all the com-
motion, spends the time in which he is
not actively training, quietly at home.
This morning he varied his set pro-
gram slightly, and took a long hike
over the hills instead of doing road
work. This was less work than he has
been accustomed to in the morning. On
the other hand, the afternoon session
was more strenuous than usual.

Boxes Five Men.

Instead of working with two or three
sparring partners, the challenger traded
blows with five of them this afternoon.
Moreover the opposition was of a high-
er class than it has been on the pre-
ceding days. This was due to the pres-
ence of Tillie Herman, a Chicago wel-
terweight, who can box and who has
speed to spare. Herman is doing the
type of boxing, and he made Gibbons
travel at top speed, something that none
of the other boxers now in camp have
been able to do. These two rounds
with a comparatively small and excep-
tionally clever boxer showed Gibbons
at his best. Not only did Herman have
trouble in hitting him, but Tommy
more than matched his speed and the
newcomer was visibly relieved when the
two rounds of two minutes each were
over.

Bud Gorman, a 200-pounder, followed
Herman, and on him Gibbons turned
loose the heavy artillery. Gorman's
mouth was bleeding before the end of
the session, and he, too, was glad that
it was over for another day. Gibbons
finished off the afternoon with Rocco
Sayles and Dorsey, a local middleweight.
In these workouts Gibbons has shown
an uncanny ability to make his oppo-
nents miss with their most powerful
blows. He seems to be able to sense
whether or not there is force in the
punch, and if so he simply isn't on the
receiving end of it. On the other hand
he will take the light jab in order to
give a hard blow in return. If it is
true, as many hold, that Dempsey is
lost when his punches are missing, he
is apt to have plenty of trouble with
Gibbons, for Tom has fallen heir to
much of the speed and ringcraft which

VETERANS GIVE
QUINCY TRIMMING

Slug Their Way to 9-3 Vic-
tory Last Night—Young
Players Making Good.

The G. W. V. A. team upheld their
reputation as heavy hitters in their
game with Quincy last evening in the
Two I League fixture, when they ac-
tually slugged their way to a 9 to 3
victory. Many of their hits were
bunched, and after the third inning
Noonan had to be replaced. Every
man on the team with the exception of
Ramsay and Riley had one or more
hits. In addition, the Vets played good
consistent ball and gave Beattey
splendid support. The work of their
infield was a feature and their snappy
playing was well-merited approval
from the fans. The visitors also played
well, but were out-hit, and their efforts
to stave off defeat were unavailing.
Gosnell, Moore and McKinnon, the
three young players on the Vets, gave a
good account of themselves and have
clearly demonstrated their ability to
remain on the regular line-up.

British Flyweight
Knocked Out Once
In Fighting Career

New York, June 15.—(Associated
Press)—Wildie, world flyweight cham-
pion, who will defend his title in a
15-round match tomorrow with Pan-
cho Villa, the Philippine mite, at the
Polo Grounds, has been called the per-
fect fighting machine.
Master of all the tricks and punches
of the trade, Wildie has had the great-
est boxing career of any living pugil-
ist of the British Isles. In more than
a dozen years in the ring he was knock-
ed out but once. Pete Herman, former
world bantamweight champion, sent
Wildie down for the count in the 17th
round of a picturesque fight in Lon-
don in January, 1921. Wildie has been
idle since that defeat.
Born in a hamlet near Cardiff, Wales,
15 years ago the twelfth of last month,
Wildie entered the pugilistic game
when a mere strip of a lad. He soon
became a wily, clever boxer, fashioned
in the English mold. Then, taking a
lesson from the American game, he de-
veloped a punch.
He won half of his contest by knock-
outs. Bantama and flyweights alike
fell before him. He whipped every-
thing in the British Isles and on the
continent within ten pounds of his own
weight and came on to America sev-
eral years ago. Joe Lynch, the pres-
ent world bantamweight champion, fell
before Moore of Memphis and Jessy known
American small men were defeated by
him. Jack Sharkey, New York bantam-
weight, Wildie's first opponent in the U.
S. in a 10-round no-decision contest
in 1919, was credited by some boxing
writers with a shade the better of the
fighting.

The Belyea Fund
Committee Report

The Citizens' Committee in charge of
the Milton Belyea Fund will have
about \$200 left after paying all the ex-
penses of the scullery to England and
back, according to an announcement
last night when the committee met. J.
C. Chesley presided, and the financial
statements of the scullery to England and
back, after being audited by Kenneth J.
MacRae and J. H. Hamilton. Of the
\$248 tickets sold, 1,000 of them were
given to F. W. Kelly, agent for the
Jewett automobile, in lieu of cash,
making the list price of the car \$374.
Resolutions of thanks to the follow-
ing were adopted: Board of Fire Un-
derwriters for the use of their rooms;
G. Heber Vroom, Joe Page, Montreal;
Little Miss Beatrice McKinney, the Im-
perial Theatre; and Duncan McKellar
for his excellent work in selling tickets.
On motion, it was decided to ad-
vance the sum of \$75 to young Gran-
ville McCavour to defray expenses in
connection with his entry in events at
Picton, N. S., next month. In view
of the satisfactory financial report, it
was felt that young McCavour should
be given this encouragement.

Rescues Women and
Children in Flood

Ponca City, Okla., June 15.—Jess
Willard, formerly world's heavyweight
boxing champion, was the hero of a
flood which threatened the lives of
dozens of families when the Chickasha

The big Kansan, marooned here by
the high waters, worked from dawn
until dark rescuing women and children
from their flood-swept homes.
Children of employees of the 101
Ranch were carried to safety on the
broad back of the pugilist when the
waters first became menacing. Then as
the torrent came the ex-champion wad-
ed waist deep through the swirl to
save women stranded in their homes.

Slug Their Way to 9-3 Vic-
tory Last Night—Young
Players Making Good.

The G. W. V. A. team upheld their
reputation as heavy hitters in their
game with Quincy last evening in the
Two I League fixture, when they ac-
tually slugged their way to a 9 to 3
victory. Many of their hits were
bunched, and after the third inning
Noonan had to be replaced. Every
man on the team with the exception of
Ramsay and Riley had one or more
hits. In addition, the Vets played good
consistent ball and gave Beattey
splendid support. The work of their
infield was a feature and their snappy
playing was well-merited approval
from the fans. The visitors also played
well, but were out-hit, and their efforts
to stave off defeat were unavailing.
Gosnell, Moore and McKinnon, the
three young players on the Vets, gave a
good account of themselves and have
clearly demonstrated their ability to
remain on the regular line-up.

"The Torch of Verified Circulation"

Lights up the way for the Advertiser

The Telegraph and The Evening Times, with a combined daily net paid circulation exceeding 30,000 copies, are the only A. B. C. (Audit Bureau of Circulation) papers in the province of New Brunswick. These newspapers alone give the advertiser a verified circulation whose extent is absolutely known and established beyond question.

Mr. Advertiser, do you realize what this means?

All of the principal Canadian dailies are members of the A. B. C. That is, they give their advertisers, present and prospective, circulation figures which are audited, certified and approved by an independent court whose standing is recognized in business circles throughout Canada and the United States.

Mr. Advertiser, Look at this:

The Following Canadian Newspapers are members of the A. B. C.:

<p>St. John—The Telegraph and The Evening Times (the only A. B. C. papers in New Brunswick).</p> <p>Halifax—The Chronicle and Echo, The Herald and Mail.</p> <p>Charlottetown—The Guardian.</p> <p>Quebec City—Le Soleil, L'Evenement.</p> <p>Montreal—The Gazette, The Star, The Herald, La Presse, La Patrie, Le Canada, Le Devoir, The Standard.</p> <p>Ottawa—The Citizen, The Journal, Le Droit.</p> <p>Toronto—The Globe, The Star, The Mail and Empire and Sunday World, The Telegram.</p> <p>London—The Advertiser, The Free Press.</p> <p>Brantford—The Expositor.</p>	<p>Brockville—The Recorder and Times.</p> <p>Fort William—The Times-Journal.</p> <p>Hamilton—The Spectator.</p> <p>Kingston—The British Whig, The Standard.</p> <p>Windsor—The Border Cities' Star.</p> <p>Winnipeg—The Manitoba Free Press, The Tribune.</p> <p>Saskatoon—The Star, The Phoenix.</p> <p>Regina—The Leader, The Post.</p> <p>Calgary—The Morning Albertan, The Herald.</p> <p>Edmonton—The Bulletin, The Journal.</p> <p>Vancouver—The Province, The Sun, The World.</p> <p>Victoria—The Colonist, The Times.</p>
---	---

Mr. Advertiser, in that list you have the chief newspapers of Canada. They give you an independent audit of their circulation by a universally recognized authority.

"Net Paid" circulation does not mean old lists of doubtful value. "Net Paid" means that every subscriber included in the figures is either paid in advance or does not owe for more than six months. The Telegraph and Times, remember, have a combined "net paid" daily circulation of more than 30,000 copies.

Figuring by circulation The Telegraph and Times rates are the lowest in the Maritime Provinces.

By putting the same ad in both papers you cover the city of St. John and the province of New Brunswick as with a blanket, so far as prospective buyers of your goods are concerned, for these two papers reach to a really wonderful extent the people in this city and this province who are in a position to purchase the goods that local or national advertisers offer for sale, be these goods bonds or toothpicks, razors or mowing machines, diamonds or medicines, shoes or silks.

Think over the facts, Mr. Advertiser. Just ask yourself quietly and thoughtfully what that chain of leading Canadian newspapers means. Their verified circulation is their greatest advertising solicitor. Think about "the torch of verified circulation."

Forest Income Of 500 Millions Menaced By Fire

(By Dr. Clifton D. Howe, Acting President, Canadian Forestry Association.)

In the last analysis, adequate fire protection resolves itself down to the question of whether or not the people of this country wish to save their wood-using industries. Let us look into the service of these to the country. The value of the manufactured pulp and paper products is \$250,000,000 per annum. The various companies have invested in the business some \$375,000,000. They employ 33,000 men in the mills and in the forest and they pay them each year \$40,000,000 in wages. Isn't that business worth saving?

The value of lumber, laths and shingles produced in one year is \$150,000,000. Lumber means boards and deals, dimension stock—not the finished product, as in the case of paper. I can't find just how much is added to this value by the various minor wood-using industries. With reservations, I will say that the minor industries, which depend entirely upon wood, produce products to the value of \$60,000,000 annually. They have an invested capital of over \$50,000,000. They employ 18,000 people and pay annually in wages around \$14,000,000. Is it not worth some effort to keep these industries going?

Are These Worth While? To these should be added the industries that depend in essential part but not entirely upon forest products. These, such as the horse-drawn and motor-drawn vehicles, produce each year products valued at \$86,853,514.

DR. J. C. WEBSTER HOME FROM EUROPE

Historical Pictures, etc., Obtained for Canada

Tribute Paid Dominion Archivist and Dept. of Interior—Many Monuments to be Erected Some of Which Come to St. John.

(Moncton Transcript)

Dr. J. C. Webster of Shediac, who recently returned from Europe, was a visitor in the city Saturday afternoon and in an interview with The Transcript said that he had greatly enjoyed his trip to the continent, where, with Dr. Doughty, Chief Archivist of Canada, many historical documents, pictures, etc., were obtained for Canada. Dr. Webster pointed out that in the lower provinces of Canada a great deal of prejudice has arisen against the Archives, but he pointed out it must be remembered that they alone were active in trying to preserve for the Dominion its own documents. Local authorities in the Maritime Provinces were sometimes indifferent or careless.

Referring to Dr. Doughty, he stated that his work was greatly appreciated by people in the old country and by many government authorities both in England and France, and he was favorably disposed to aid in the establishment of branch archives in the lower provinces. Continuing, Dr. Webster said: "We visited many old families whose ancestors have played an important part in the development of Canada, politically, diplomatically or in the army or navy. We have found some very important material. I would specify particularly the finding of the painting of the Hon. Edward Cornwallis, who founded the city of Halifax. This was not known to exist, although bogus portraits had been published. This painting was found in the possession of Col. Cornwallis of Kent, who kindly loaned it to me in order that a copy might be made for the Archives of Canada. It was placed for safe-keeping in the National Portrait Gallery in London and the authorities made a life-size reproduction which I intend to present to Government House in Halifax the latter part of this month."

Continuing, Dr. Webster said: "Another important portrait was one of Sir Guy Carleton, who played such an important part in Canada in the second half of the 18th century. The present Lady Dorchester allowed us to have a copy of this portrait for two or three years. I had the pleasure of examining the little Norman church on the estate in which only Guy Carleton is buried and there both Sir Guy Carleton and Thomas Carleton are interred. In the church I was very pleased to see a tablet to the memory of Thomas Carleton which had been erected by the Province of New Brunswick some years ago. Among interesting portraits found was that of a man famous in Nova Scotia history, Col. Joseph Wall Desbarres, who was for a time governor of Cape Breton and P. E. I., and did such magnificent work in surveying

the entire eastern coast of North America for the British Admiralty. I also obtained some very important manuscripts of his. This portrait is in the possession of a descendant of Desbarres and is being copied for Canada. These are only a few of the many treasures that I found. I should like to call attention to a report that appeared in the papers the other day regarding a scheme which has been started under the inspiration of Sir Campbell Stuart, the managing director of the Department of the Interior. The scheme is to form an association in England of representatives of families who, through the past centuries, contributed to the development of Canada. The Duke of Connaught is taking the keenest interest in the proposal and there is no doubt that this scheme will be a great success and will play an important part in the future in developing the relationship between the Mother Country and Canada. It is also proposed that a similar organization should be started in France, composed of representatives of the important French families who have contributed also to Canada's development. I should like to say tribute to the splendid work of Sir Campbell Stuart. In his work in London he is a keen Canadian and is using his strenuous influence to further the interests of Canada whenever an opportunity arises. I have just returned from a meeting of the Historical Sites and Monuments Board at Ottawa. This board consists of representatives of various parts of Canada and is advisory to the Park Commission of the Department of the Interior. During recent years much adverse criticism has been directed towards these boards in the lower provinces.

"I am glad to say that much of this has been entirely unnecessary. The work of the boards has been greatly interfered with the historical work of the Department of the Interior, but the boards have been accumulating information, making surveys and doing very important preparatory work. Major Edwards, of Halifax, represents Nova Scotia and I represent N. B. on the board. The chairman is Sir Gen. Cruikshank, one of the most cleverly historical writers that Canada has yet produced. The distinguished French Canadian historian, Mr. Benjamin Sulte is also a member but unfortunately he is incapacitated by ill-health and was not able to attend the meeting. The representatives of the Maritime Provinces put forward a strong plea for special consideration to be given to their part of Canada and the board unanimously agreed to consider the Maritime Provinces first. As a result of our deliberation we have obtained a considerable number of monuments for the present year. It was agreed by all that the chief consideration should be given to Louisbourg. It has been decided to do preliminary work in order that the historical memorials of that old stronghold may be properly preserved. This work will extend for two or three years and this summer four monuments will be placed in different parts of the old place.

"Major Edwards and I are going to Sydney to consult with Senator McEldan. A monument will be placed at the old Fort Edward in Windsor, N. S., then a bronze tablet will be placed in Halifax on the building in which the first printing press was used in Canada, and a monument will be erected near Annapolis Royal on the site of the first French fort which was also the site of the settlers who came out in connection with Sir William Alexander's Scotch colonization scheme. This monument will be erected at Fort Cumberland and as soon as arrangements can be made for clearing land others will be erected at Fort Lawrence and at Fort Moncton, near Fort Ed-"

"Then I have secured three monuments for the city of St. John, one of these will mark the site of the landing of the Loyalists, the other two will mark the sites of the two important forts which played such prominent part in the historical development of St. John. One of these was found by Shaughnessy and later known as Fort Frederick. The other built by the La Toures which was the scene of the heroic rescue by Madame La Tour, whose name means so much in the history of St. John. It is to be understood that these monuments are the free gifts of the Dominion Government as represented by the Department of the Interior.

"Too much credit cannot be paid to the extensive labors of the Parks Commission under the able chairmanship of Mr. J. B. Harkin. The Commission are now thoroughly alive to the importance of developing our historical sites, not only from the sentimental standpoint

The capital invested totals over \$65,000,000. The employees number over 9,000 to whom are paid wages amounting to nearly \$12,000,000.

Going back to the lumber industry proper, we find that its invested capital reaches \$250,000,000. It employs 55,000 men, and gives them \$600,000,000 in wages annually. That business is worth saving too, is it not?

There are more than 100,000 people in Canada at work converting the forest product into wealth in some form or other. They are chiefly heads of families or the bread winners of families, thus they represent probably a half million people dependent upon the forest for a livelihood. Are they worth while in their work? Are they worth while to the country?

Mist Invest in Protection Let me emphasize that our great pulp and paper concerns, the great lumber concerns will not exist many years longer unless there is more effective fire protection. In order to get more effective protection, the public must invest more money in it. When we consider the area actually under license or pulpwood concession, the amount expended on it as a whole, averages less than one cent per acre per year. In other words we spend less than a cent an acre as an insurance rate on forest lands whose supplies at the present day yields us products to the value of \$500,000,000 annually.

Kidnap Truck Drivers; Take Load Of Alcohol

Gunmen in Auto Force Pair to Enter Car, While Accomplice Takes Liquor Away.

New York, June 15.—A truck loaded with four barrels of alcohol, withdrawn from a Federal warehouse in Greenwich street for use by manufacturers of toilet preparations in Brooklyn, was held up by four armed bandits in an automobile. The highwaymen kidnaped the driver and a helper, stole the truck from which they unloaded the liquor and then abandoned the liquor in Grand Street.

The truck was recovered at dusk by Detectives O'Hara and Biglitz who found in the hallway three men whom they took to Police Headquarters. The men are Humbert Ferrarino, 24 years, Brooklyn, who was arrested a year ago according to the police, on suspicion of having killed Charles Demata, but who later was discharged; Dominick Seratto, 29, a brother of "Jesse James" Seratto, and Sebastian Basso, 23.

The drivers were Nicholas Ferrell and John Poppe, according to their story the truck load of alcohol started from the Greenwich street warehouse to Brooklyn. They said that they were going eastward through Canal street when a Stutz touring car came alongside at Varick street.

PERSISTENT WOOING WINS ACTRESS FROM RIVAL

Wealthy Young Briton Perseveres Despite Seven Rejections and Her Engagement.

London, May 25.—(By mail.)—A persistent wooing, triumph over a rival, and a secret engagement were preliminaries to a wedding between Miss Vena Galt, the West End actress, and Mr. Reginald Webster (Jack) Haebelin, a rich young iron merchant in the City of London, says The London Daily News.

Miss Galt is one of the principals in the vaudeville revue "Rats," and previously played a part in "Battling Butler."

It was while Miss Galt was appearing in "Battling Butler" that Mr. Haebelin met her. At that time she was engaged to another man, but during the three months that Miss Galt remained with the play he frequently sat in the front row of the stalls.

BRITISH WOMAN BECOMES A PIONEER STOCKBROKER

London, May 5.—(By mail.)—The order in which the various trades and professions have given admission to women will be an interesting study for the future historian of the feminist movement, comments The London Daily Mail. Today it is the stock brokers. Miss D. E. Mortimer of Exeter has just been admitted a member of the Stockbrokers' Association, and she is "the first lady to receive this distinction in the United Kingdom."

It would not have occurred to us that stockbroking was the profession of all others not yet conquered that most needed the stimulus of woman's accession to it. Yet there is no reason to suppose she will prove any less adaptable to its demands than the men.

The sex that daily solves the problem how to make a small man's income cover a large family's needs need have no fear of the intricacies of the larger issues of the great world of finance. The housewife is accustomed to as narrow and risky a margin of "differences" as any Stock Exchange operator of them all.
