FIFTEEN CASES ON THE DIVORCE COURT DOCKET

St. John People Named in Some of Them.

Four Are to Be Defended and Five Are Remnants From the July Term—Particulars of the Allegations.

(Special to Times.) Fredericton, Oct. 30.—Fifteen cases are expected to be on the docket of the New Brunswick divorce court on next Tuesday. This docket will be one of the largest in the history of the court, but not the largest. There is but one case in which a returned man is a principal. Of the fifteen cases four are defended and eleven undefended. Five are remnants from the July term. One will not be heard, being entered for hearing at the January term.

The Cases. In Robert Karl Watson vs. Mary Olga Watson, the plaintiff, an express clerk, resides in Moncton and the defendant, formerly named Hayden, resides in Woodstock. They were married in Hamilton by Rev. W. H. Paston, Methodist. They lived as man and wife until Jan. 1, 1920. One child, Mary Louise Watson, was born in 1918. Infidelity is alleged and Gerald A. Hubbard of Burton is named. The case is defended.

In Philip Landry vs. Mary Landry, both are residents of Havelock. The defendant, formerly named Annie May Gildert, formerly Steves, the parties were married on Sept. 18, 1904, by Rev. A. A. Rutledge. Two children were born. On Feb. 16, 1906, it is alleged, the defendant left her husband and went to the United States. This case is set for January term.

In Melburn James vs. Melissa S. Jones, the principals were married in Shannon, Quebec, by Rev. G. B. Loubin, Free Baptist, on May 19, 1911, in Zion Methodist church, Rev. William Lawson officiating. In September, 1915, the defendant eloped to the 104th Battalion and later transferred to the 140th and lived with his wife after elopement in both St. John and Valcartier, P. I., Quebec. He went overseas in October, 1918, and served in England and France until November, 1918, when he returned to Canada. Until April, 1920, the two lived together and, it is said, agreed to separate on that date. Jessie Howard and a woman unknown, said to be an inmate of a house of ill repute in the Golden Grove road, are mentioned. It is charged that at various times the defendant ill-treated the plaintiff and threatened her with a revolver. One son and one daughter were born of the union. The plaintiff formerly was named Logan. (Continued on page 10, fourth column.)

St. John Case.

In Annie B. Newcombe vs. Frederick J. Newcombe, the defendant is a railway mail employe and both he and the plaintiff reside in St. John. Their marriage took place on May 5, 1911, in Zion Methodist church, Rev. William Lawson officiating. In September, 1915, the defendant eloped to the 104th Battalion and later transferred to the 140th and lived with his wife after elopement in both St. John and Valcartier, P. I., Quebec. He went overseas in October, 1918, and served in England and France until November, 1918, when he returned to Canada. Until April, 1920, the two lived together and, it is said, agreed to separate on that date. Jessie Howard and a woman unknown, said to be an inmate of a house of ill repute in the Golden Grove road, are mentioned. It is charged that at various times the defendant ill-treated the plaintiff and threatened her with a revolver. One son and one daughter were born of the union. The plaintiff formerly was named Logan. (Continued on page 10, fourth column.)

SPEND WINTER IN OLD COUNTRY

Governor of B. C. Speaks of a Reason for Adverse Vote on Prohibition.

Montreal, Oct. 30.—Sir Frank Barnard, Lieutenant-Governor of British Columbia, arrived in Montreal yesterday on his way to England to spend most of the winter. Lady Barnard is accompanying him. He said that British Columbia had experienced the worst autumn on record, which was very unfortunate for the farmers, as nearly two thirds of their crops had been ruined. He added "despite this unkindly autumn to the season, it has, on the whole, been productive of good results. The change was due to the fact that many old country families, who had intended to migrate to British Columbia and settle down there permanently, had decided not to do so when prohibition was in force. This was considered a grave loss for very many of the settlers were people of means, and of high standing. It was therefore felt, that the removal of the present liquor restriction would operate as a stimulus to encourage migration of the better class from England to British Columbia.

FOR SETTLEMENT OF ADRIATIC QUESTION

JURY OF WOMEN Society Matrons Find Verdict for Nurse in Damages Suit.

Atlantic City, N. J., Oct. 30.—Atlantic county's first woman jury, composed largely of society matrons, rendered a verdict yesterday in favor of the plaintiff in the suit of Mrs. Mary Beidel, a Philadelphia trained nurse, against Mrs. Mary Delmedo, for damages alleged to have been done the latter's furniture while in storage. The jury was out one hour. Judge Louis Repetto of the district court, who presided, declared that in the future, whenever possible, women would be summoned to try cases.

A BIG LOT OF BEER SEIZED IN FREDERICTON

Report of Possible Action to be Taken Against Chief of Police Finley.

Fredricton, Oct. 30.—Eighty-one kegs of beer, valued at \$1,500, were seized by Chief of Police Finley from the cellar of a residence in Charlotte street, attached to which is the bottling works of the Capital Bottling Company, who are alleged to have been the owners of the beer, which is said to contain a higher alcoholic percentage than allowed by law. Each keg contains twenty gallons of beer, which is said to have been sent here from Montreal, and including the kegs the wholesale value of the shipment is placed at about \$1,500. At current retail prices, about twenty-five cents a gallon, the value of the beer is estimated at \$2,340. This morning J. J. F. Winslow, of Window & McNeil, barristers, says he has been instructed to commence civil action against Chief of Police Finley for the return of the beer, upon the ground that it was taken from the cellar of a private residence where, under the provisions of the prohibition act, it was immune from seizure.

COUNTY RECOUNT NEXT THURSDAY

Order of Judge Barry Presented to Judge Armstrong This Morning—Appeal Court to Open on November 9.

J. McMillan Trueman this morning presented to Judge Armstrong the order of Mr. Justice Barry, Judge of the supreme court, to proceed with the counting of ballots in the St. John county election, and his honor set Thursday morning, November 4, as the date on which the recounting of the ballots would commence. Dr. Baxter's appeal from the decision of Judge Barry, in accordance with notice given yesterday, is expected to be heard on November 10, in Fredericton. The court opens on November 9.

FOR AFFILIATION WITH LABOR UNDER T. AND L. CHARTER

Majority of 832 in Vote of Government Employes in Inside Service, Ottawa.

Ottawa, Oct. 30.—By a majority of 832 votes in a total vote of 1,264 the inside service of the government employes in Ottawa, yesterday, voted in favor of the civil service association of Ottawa affiliating with labor under a charter derived from the Trades and Labor Congress of Canada. There were some 200 spoiled ballots. There are, according to the association officers, just about 9,000 civil servants in Ottawa entitled to vote, of which probably 500 were on leave of absence, or sick leave, or on duty away from the city.

JOIN THE GREAT LAKES WITH WATERS OF OCEAN

Chicago, Oct. 30.—A plea to join the Great Lakes with the sea was voiced yesterday by representatives of business interests of Illinois and Wisconsin before the International Joint Commission considering the proposal for a St. Lawrence river channel which will link the ports

BISHOP OF CORK ORDERS HUNGER STRIKERS TO EAT

They Refuse and He Appeals to the Leaders.

Body of Former Lord Mayor Now in Cork—A Large Meeting Held in Montreal—Other Incidents in Irish Matters.

Cork, Oct. 30.—Bishop Cohan of Cork visited the jail yesterday and temporarily ordered the hunger strikers to take food. All of them refused. The Nuns, having no alternative, obeyed the command and offered food to the prisoners, but all refused it. Bishop Cohan now is appealing personally to the Sinn Fein leaders to release the prisoners from their hunger strike. At noon today they had completed the 80th day of their fast. Michael Burke collapsed this morning. Sean Hennessy and Thomas Donovan are reported to be very low.

IN BELFAST Belfast, Oct. 30.—The Sinn Fein order for suspension of business yesterday in honor of the late Lord Mayor MacSwiney was generally complied with. In the Falls district shops were closed and blinds were drawn in private houses. So largely attended was a requiem mass in St. Paul's church that many persons could not gain entrance the church and prayed.

Large Montreal Meeting. Montreal, Oct. 30.—(Canadian Press)—With the help of the Sinn Fein in the city tolling their dirge, there was held last night at the Mount Royal arena the greatest of Irish meetings in Montreal in a memorial service for the late Lord Mayor MacSwiney of Cork, a Jewry of 10,000 people were present. Mayor Mederic Martin presided.

The resolutions were passed, one of condolence with Mrs. Muriel MacSwiney and the next dealing with the Sinn Fein. It was announced that the cabinet of Newfoundland, Sinn Fein colors were displayed and the Sinn Fein soldiers were marching and singing. The meeting was orderly throughout.

Thurles, County Tipperary, Ireland. Oct. 30.—The Sinn Fein held a night in Templemore, eight miles north of here through acts of violence. Numbers of shops were wrecked during the disturbance. Details as to the circumstances and perpetrators are lacking this forenoon.

MAJORITY FOR HAYES IS 30

Result of Recount of City Vote in the Recent Election.

The recount of the city votes cast on Oct. 9, which was concluded yesterday afternoon, adds eight votes to R. T. Hayes' majority over L. P. D. Tilley. In the returning officer's count as submitted on Oct. 10, Mr. Hayes polled 5337 votes and Mr. Tilley 5315. The recount gives Mr. Hayes 5501 and Mr. Tilley 5471. The figures are as follows:

Table with 3 columns: Name, Dec. day, Recount. Includes Walter E. Foster (6045), William F. Roberts (5654), Robert T. Hayes (5537), etc.

The figures were submitted to Judge Armstrong this morning at 11 o'clock. They filled two large sheets. His Honor wrote at the bottom of the second sheet: "I certify the figures on this and the foregoing sheet to be the result of the recount and final addition in the election in the city of St. John for the local legislature."

J. R. ARMSTRONG, "Judge of the St. John county court." Oct. 30, 1920. Sheriff A. A. Wilson then read the figures as handed to him by Judge Armstrong with His Honor's signed declaration at the bottom, and declared Walter E. Foster, William F. Roberts, Robert T. Hayes and William E. Scully the representatives of the city of St. John in the local legislature.

DEATHS OF CHILDREN

Many friends of Mr. and Mrs. Fred G. Forgy, of 71 Hawthorne avenue, will sympathize with them in the loss of their eighth month old son, William Wallace, who died this morning. Besides his parents, one brother and one sister survive.

Friends of Mr. and Mrs. Ernest Douglas, 18 Johnson street, will sympathize with them in the loss of their infant daughter, Rachel Martha, who died yesterday. The funeral was held this morning and service was conducted by Rev. G. A. Kubring.

TROUBLES IN MEXICO. Mexico City, Oct. 30.—Military aid is being called to prevent disorders in several cities, notably Puebla and Vera Cruz, in connection with the strike situation, which apparently is far from settlement. The general strike continues in Puebla.

SMALLPOX CASES ALL AMONG THOSE NOT VACCINATED

Ottawa, Oct. 30.—That of 111 cases of smallpox reported to the department since Oct. 1 there was not a single case in which the patient had been vaccinated during the last seven years, was one of the outstanding statements made at a meeting of the Ottawa board of health yesterday. The board members authorized Dr. Lomer, head of the department, to appoint six or eight physicians in various parts of the city so that there will be easy facilities for vaccination.

JOHN BARRETT WAS "RAGGED STRANGER"

Identification of Man Killed by Carl Wanderer in Chicago.

Chicago, Oct. 30.—The "ragged stranger" for whose murder Carl Wanderer was sentenced yesterday to twenty-five years' imprisonment, was identified today as John Barrett, an ex-Canadian soldier. The identification was made at the county morgue by Herbert Potter, also a Canadian, who said he had known Barrett well.

He led detectives to the hotel where he said Barrett had been staying about the time and the register showed "John Barrett" written daily until the day of the Wanderer murder. In a confession introduced in the trial of Wanderer for the murder of his wife and her unborn baby, Wanderer said he hired the stranger to stage a fake hold-up, which would give him an opportunity to shoot his wife, and also confessed shooting the stranger to prevent him testifying in the trial. Wanderer's statement was confirmed by the district attorney's staff.

BETTING SEVEN TO ONE ON HARDING

New York, Oct. 30.—While the politicians are becoming prophetic in their predictions that the New York financial district strongly favor a Republican victory on next Tuesday, the prevailing odds yesterday were seven to one in favor of Harding, in spite of the fact that a fund of \$1,000,000 was set up by the National Association of Manufacturers to record such betting, or since 1878.

In 1916 the betting began at two and a half to one and two to one in favor of Hughes and on the day before election stood ten to nine for Hughes, or even money bets. This year early bets recorded were on a basis of two to one on Harding, and the odds have grown steadily.

Will of Richard Marpole of C. P. R. Probated in Vancouver.

Vancouver, B. C., Oct. 30.—The will of Richard Marpole of Vancouver, western executive agent of the C. P. R., who died on June 8, was probated yesterday. The Royal Trust Company is named as executor of the estate, the value of which is given as \$400,000.

IN COLORADO 71 MINES IDLE

Denver, Colo., Oct. 30.—Production of coal in Colorado, already curtailed, by a strike of miners in the northern part of the state, was still further reduced yesterday when forty mines in the southern part of the state suspended operations because of a shortage of railroad cars. A total of seventy-one mines in the state now are reported idle.

NEW YORK RETURNS TO EASTERN STANDARD TIME

New York, Oct. 30.—Daylight saving time, which went into effect on March 28, will be officially called off at two o'clock on Sunday morning.

As Hiram Sees It

"I see" said Mr. Hiram Hornbean to the Times reporter, as he lit his pipe, "the winner is going to be the use of tobacco by men prohibited." "Quite so," said the reporter. "The ladies in New York have accepted it as a Divine commission, and the ladies in London are discussing it over their pipes." "I guess you mean cigarettes," said Hiram. "I said pipes," replied the reporter. "The cigarette is passe. The ladies have now the cutest little briar pipes with tiny bowls, dainty and elegant, some with gold mounting and some of them jewelled. The ladies love them. Both in England and on the Continent they are quite the newest thing, and they are coming to America. But, as you say, men must stop smoking." "I kin see," said Hiram, "that a nice comfortable smoker, out of nice little pipes, and the ladies' 'n' birds 'n' trapin' 'n' wild animals to get feathers 'n' furs. It 'ud help 'em, too, to consider the bad effects of smokin' 'n' chawin' on the weaker sex." "By the weaker sex you mean?" queried the reporter. "Us men," said Hiram. "We're the weaker vessel, now—aint we? Gimme another match."

FRANCE NOT IN AGREEMENT

Matter of British Decision Giving up Right to Confiscate German Property in U. K.

Paris, Oct. 30.—It is asserted by the French government in its reply to a British note announcing that Great Britain had decided to renounce the right to confiscate German property in the United Kingdom, that the French government is not in agreement with the British government on this point. The French government holds, therefore, that this is any other clause of the treaty cannot be revised without a preliminary agreement between all the signatories of the pact.

MARKET AS THE DEMAND REQUIRES

Washington, Oct. 30.—Resolutions urging that all crops in the United States be marketed as the demand requires and that the government investigate the interest rates charged by the banks were adopted yesterday by a farmers' conference in Washington.

THUGS GET PASTOR IN GRIP BY FAKE TELEPHONE CALL

Rev. Dr. Cleveland of Iowa Soaked in Oil and Left in Burning Auto.

Council Bluffs, Iowa, Oct. 30.—Lured to a lonely part of the city by a fake telephone call, Rev. Dr. D. E. Cleveland, pastor of the Dodge Memorial church and prominent in civic affairs, last night was slugged, bound and gagged by four thugs who threw him into an automobile truck soaked with kerosene oil and then set fire to it. He saved himself from being burned to death by rolling out of the truck.

QUEBEC GIVES SUPPORT TO THE LABRADOR WORK

Premier Taschereau Presides at Lecture Given by Dr. Grenfell.

Quebec, Oct. 30.—Addressing a large audience here last night in Columbus hall, as chairman of a lecture given by Dr. W. T. Grenfell, C. M. G., on mission work on the Labrador Coast, Premier Taschereau said that Dr. Grenfell could rely upon the sympathy and support of the Province of Quebec for the maintenance of the hospitals he had established. He said that an important problem had not yet been solved, that of establishing the boundary line between Quebec and Newfoundland, but a decision was expected soon from the federal government.

CRIMINAL ANARCHY

New York, Oct. 30.—Isaac E. Ferguson, a Chicago lawyer, and Charles E. Ruthenberg of Cleveland, were convicted of criminal anarchy by a jury here last night. Justice Weeks sentenced them to state prison for five to ten years each.

BIG FUND TO FINANCE THE CUBAN CROP

Raising Seventy-five to Hundred Millions in New York.

New York, Oct. 30.—A group of banks and bankers of this city, it was announced yesterday, has arranged to secure a loan of \$75,000,000 to \$100,000,000 for the Cuban government. The group is headed by J. P. Morgan & Co., the Guaranty Trust Co., the National City Co., the Chase Securities Co. and others. It is planned also to have prominent banks and banking firms in other large cities participate in the loan. Proceeds of the loan, it was said, would be used solely to finance the Cuban sugar crop. The money will be advanced to the government which in turn will lend it to the sugar interests of Cuba. Before the final consummation of the transaction it is possible, it was said, the approval of the state department at Washington will be necessary.

LIQUOR IS SENT BILLED AS SOAP

Story of Another 1,000 Cases Lot Reaching Chicago and Stolen by Fake Policemen.

Chicago, Oct. 30.—Characterized by many of the old "hippers" as having a distinct bearish movement on the whiskey board of trade, liquor disguised, labeled and billed as soap, coming from Canada, made its appearance here today, according to federal officials. The liquor, said by the imbibers not to have the strength of "the old stuff," said "cheap" federal officers said a casual strike against clear cut policies.

M'NEIL SENT OUT OF COUNTRY

Is Handed Over to U. S. Immigration Authorities at Niagara Falls.

Niagara Falls, Ont., Oct. 30.—David McNeil, acquitted at Welland last week of the murder of Margaret Boucek, a child, was served with deportation papers at the jail here yesterday, and in charge of Chief Mains, of the Ontario police and Chief Immigration Officer C. E. Wilcox, was taken across the river and handed over to United States immigration authorities who turned him over to Detective Walsh, of Philadelphia.

COST OF COAL

Anthracite Operators Pledge Co-operation Against Excessive Prices.

Philadelphia, Oct. 30.—Anthracite coal operators at a meeting here yesterday pledged themselves to co-operate with the Department of Justice in attempting to reduce excessive prices of coal to the consumer.

CRIMINAL ANARCHY

Chicago Lawyer and Cleveland Man Sentenced to Prison.

New York, Oct. 30.—Isaac E. Ferguson, a Chicago lawyer, and Charles E. Ruthenberg of Cleveland, were convicted of criminal anarchy by a jury here last night. Justice Weeks sentenced them to state prison for five to ten years each.

The men had been on trial under an indictment returned last year alleging that in promoting publication of the communist manifesto in the Revolutionary Age, they advocated the overthrow of organized government by force.

### NO TRACE OF MISSING CREW

#### Concrete Ship Sunk in Narragansett Bay

#### Was in Collision—Search for 19 Men Unavailing—Vessel Went Down Quickly.

Newport, R. I., Oct. 30.—Members of the coast guard crew stationed here reported early today that no trace had been found of any of the missing crew of a concrete ship which was reported to have been sunk in Narragansett Bay last night in a collision with the Seventh line steamer City of Atlanta.

The coast guardmen conducted an all night search and found only quantities of wreckage that had been blown to the upper deck of the Cape Fear, which was a United States shipping board vessel. Points along the shore reported wreckage washed on to the beach, but there was no word of the missing men. Both vessels carried only their crews.

The weather was clear, with only a slight cloudiness when the accident occurred. The Cape Fear was struck amidships and sank in three minutes, about half way between Castle Hill on the Newport side and Rose Island, going down bow first in 125 fathoms, the greatest depth in the bay.

The City of Atlanta's bow was damaged badly and there was a seven foot hole above her main deck. Her bulkheads held, however, and she anchored in the bay. She struck squarely with her bow and cut a deep hole in the Cape Fear, shattering the concrete.

The Cape Fear went down so quickly that the lines that had been thrown aboard immediately after the crash were of little help and the majority of the crew had to jump into the water.

New York, Oct. 30.—The steamship Rambler, plying between Key West and Havana was reported drifting south-west of Santiago, Cuba, with fifty passengers aboard and no water according to a wireless dispatch received here last night by the Naval Communication Service. The message said a Cuban gunboat sent to the rescue had returned and reported no trace of the vessel.

### Canadian Schooner Mile Behind With An Hour To Sail

#### Esperanto was Second Across the Line But Soon Overhauled Dellawanna, and Up to Last Report Had Not Been Headed Again.

As the Times goes to press the international schooner race off Halifax was within an hour of completion and the Gloucester Liberator Esperanto had a commanding lead.

On Board S. S. Tyrion, Oct. 30.—(By Wireless)—When the fifteen minute preparatory gun was fired, both schooners were on the starboard tack, the Delawanna to windward. Ten minutes later the Canadian came to the fore on the port tack. The Esperanto followed thirty seconds later. Both schooners carried mastsails, foresail, jib, topmast and mainmast. Swinging around, the schooners then headed up the harbor towards the starting line. There was a light ten knots southwest wind and freshening. When the five minute gun was fired both schooners were on the starboard tack half a mile from the starting line with the Canadian well to windward.

With minutes to the starting gun both schooners set foretopsails. The Delawanna crossed the starting line to the westward of the Esperanto, three seconds at 9:00:48 official time.

Soon after the start the Esperanto of the Delawanna, which had set her stay sail. The schooners were close hauled and beam to beam. Off Sandwich Point the Esperanto set her stay and main sails and was leading by a length and a half. It was in this position that the schooners passed the Tyrion steamship out to the official time at the starting buoy. The Tyrion was logging nine knots. Delawanna rounded the first mark at 9:08:52. Esperanto rounded the mark at 9:09:00.

Leaving the inner automatic buoy to port with Delawanna two seconds behind the lead, the schooners reached for the southeast automatic buoy six and one-half miles east. Esperanto rounded it immediately began to cut down Delawanna's lead and at 9:45 was upwards of a length ahead. Esperanto's speed was considerably faster than Delawanna's. The official time announced at Delawanna's 9:00:40; Esperanto 9:01:07.

At 9:50 Esperanto was fully a minute ahead of Delawanna. Esperanto's sails seemed to have greater full than the Canadian, and when Captain Himmelman eased his sails, Delawanna seemed to flog faster.

Esperanto rounded the southeast automatic buoy, the second mark, at 10:14:40. Delawanna rounded it at 10:17:54.

Rounding the second mark three minutes ahead of Delawanna, the Canadian schooner, Esperanto took in her foretopsail and started down the wind of 9 1/2 miles to Shatin Island buoy. Esperanto had gained three minutes and sixteen seconds on Delawanna on the reach from the inner automatic buoy. Delawanna's foretopsail a little while before coming up to the mark and on leaving it appeared to be holding her own with the Esperanto.

With half the run to Shatin Island buoy completed, it was estimated Esperanto was just about holding her three minute lead with both schooners carrying staysails.

At 10:50 with the Esperanto half a mile from Shatin Island buoy, Delawanna appeared to be gaining slowly. Esperanto found on sighting the buoy that she had made considerably too much of it. She immediately lightened sheets and Delawanna astern, taking the cue, followed suit. Esperanto turned Shatin Island buoy at 11:04:00; Delawanna 11:07:33.

Passing Shatin Island buoy, which brought Esperanto's boat on the starboard tack and set his foretopsail after having started to clear it up. Esperanto's crew hoisted the sails in line fashion.

Delawanna, which lost two minutes at the start of the race, was on the outer automatic on top of the three minutes and sixteen seconds lost on the reach from the inner to outer automatic split tacks with Esperanto on coming up to buoy and continued in shore on a port tack.

At eleven fifty both boats were still heading seaward on the starboard tack and were estimated to be six miles to leeward of the inner automatic buoy. Range finders on the Tyrion placed Esperanto a mile to weather and Delawanna a mile and a half to weather. The Canadian schooner seemed to ride it more easily than her rival, which appeared to be somewhat flat by the head.

The wind dropped from fourteen miles an hour at the start of the race to eleven miles, increasing again as the vessels began the beat on the fourth of November.

### GOOD THINGS COMING TO THEATRES OF ST. JOHN

#### ANNA CASE HERE NOV. 24

Anna Case, famous American singer, who is booked to appear here on Wednesday evening, November 24, at the Imperial Theatre, under the direction of the Phonograph Salon, will give two recitals at Carnegie Hall, New York, during the current season 1920-1921. Her first appearance will be on December 1, and her second on January 15. Miss Case will have two long tours this year, the first in October and November, will be in Kansas, Oklahoma, Texas, Iowa and Nebraska. In February and March Miss Case will return to the Pacific Coast where she has been engaged after her extraordinary success last year. She also had occasion to visit Paris to secure new frocks for her American concert tour and has a pleasant vacation at the Lido, Venice, and at St. Moritz, Switzerland.

### BURNS STATUE AND BUILDINGS PAINT-DAUBED

#### Several Public Places in Fredericton Marked Up and Students Suspected.

Fredericton, Oct. 30.—The statue of Robert Burns, the sidewalk in front of the post office, the office of the provincial highway engineer in St. John street, and the county jail, Brunswick street, were adorned with colored paint early this morning. University students are blamed.

The Mount Allison University students at Sackville Friday is thought to be the cause.

E. Peacock, director of vocational education for New Brunswick, has returned from Ottawa. Rev. Father Peaker of the vocational education board and R. E. Wallace of the education department also have returned.

### MILK USED TO FIGHT FLAMES

Two cans of fresh milk poured on the seat of a blaze possibly saved the home of Mrs. E. C. Kimbley from destruction one night this week. About two o'clock two passersby saw flames in the front of the house and called the fire department. On investigation could find nobody about, nor could they locate any cause.

Two cans of milk nearby was the only fluid in sight so this was quickly carried to the house and poured on the fire. The fire was extinguished before extensive damage was done. The loss is covered by insurance.

### GIVE UP ALL THIS TIME TO NOVA SCOTIA

#### BOY SCOUTS THERE TO GET FULL BENEFIT OF SERVICES OF H. O. EAMAN.

It will be learned with a great deal of regret by all who are connected with or interested in the Boy Scout movement in New Brunswick that Howard O. Eaman, who is an Ottawa man, has been active in Scout work for several years in fact since 1915, when he organized a troop of scouts in Ottawa. Previous to that he had spent about eleven years in U. M. C. A. boys' work in Canada and the United States. He occupied a position in the finance department in Ottawa, but in 1917 resigned from this in order to give all his time in the interest of scouting. He was engaged by the Canadian General Council to do field organization work, operating from Ottawa. He also took part in the publication of the Canadian Scout magazine, edited by H. Brown, editor of the publication. A little later Mr. Eaman was commissioned to come to the maritime provinces to make a survey of the field, and to offer recommendations for improvement to the Canadian General Council and the Provincial Council and headquarters for the time being. This was approved by the Council in Truro in August, 1918. At the request of the Provincial Councils the Canadian General Council relieved him of his duties in Ottawa and gave him charge there as acting maritime secretary.

Refreshments were served and the surplus was taken to the Protestant Orphan Home, where it was most gratefully accepted. Miss C. F. Littlefield, physical director of the Y. W. C. A., was in charge and was assisted by Miss Tapscott, general secretary, and Miss Phyllis Woods, girls' work secretary.

The Beneficent Society of St. Andrew's church are holding a Halloween tea and sale this afternoon in the school room of the church. Appropriate Halloween decorations adorn the walls and refreshments are nicely arranged on the individual tea tables. Black cats and pumpkins decorate the walls and candy to corner. The home cooking and canny table is a feature of the afternoon. Proceeds are to be used by the society in carrying on their work. Mrs. C. McV. Stevens, president of the society, is convener and is assisted by other members.

A Halloween tea was being held this afternoon at the residence of Mrs. J. S. Frost, 28 Sydney street, under the auspices of the Lend-A-Hand Circle of the King's Daughters. Many handsome decorations tastefully arranged adorned the tables, while appropriate Halloween signs decorated the tea tables. Besides the tea there was on sale a handsome assortment of aprons and also varieties of home made candy. Mrs. J. S. Frost is convener and is assisted by the members of the circle. The proceeds are to be used by the circle in philanthropic work.

### MR. TURGEON OF GLOUCESTER SPEAKS IN WEST

North Battleford, Sask., Oct. 30.—The speaker in the programme of the Farmers which is not in the programme of the Liberal party, said E. J. Turgeon, M. P. for Gloucester, B. C., last evening to an audience composed largely of farmers, many of them members of the Saskatchewan Grain Growers' Association and some of them cattle raisers, as well as grain growers and stock raisers.

Mr. Turgeon declared his own allegiance to the agrarian party of the province.

### CONFIRMATION OF 167 IN CATHEDRAL

The Sacrament of Confirmation was administered in the Cathedral this morning to 167 girls, forty-two boys and twenty-five adults by His Lordship Bishop LeBlanc. His ship was also celebrated at Pontifex by Rev. A. A. Allen and Rev. Simon Oram. Rev. William Duke and Rev. Zoel Landry were present in the sanctuary. Following the administration of the sacrament His Lordship addressed all present. Mr. and Mrs. Martin McGee were sponsors.

### CONSIDERABLE EXCITEMENT

Was caused in Charlotte street this morning when a large number of people were noticed hurrying towards St. John street. It was found, however, that they were simply going to Appleby's grocery store to buy granulated sugar at 18 cts. a lb. or with orders for lbs. for \$1.70.

### BUILDING WORK

Although the value of buildings covered by permits issued by J. Carleton building inspector, for the month of October, 1920, were more than \$25,000 less than during the same month last year, the total issued in the ten months of the year ending yesterday exceeded that of the corresponding period last year by more than \$684,000. During October the building permits issued covered construction valued at \$89,000; last year the figures for the ten months are: 1920, \$844,800; 1919, \$280,040.

Twenty-eight repair permits were issued this month which is somewhat above the average and is due it is thought to the fact that the building inspector published a notice recently warning license contemplating repairs to buildings that they could not legally carry them out without first obtaining permission. Permits issued cover the following work: Williams Hall, Cranston Ave., wood dwelling, \$8,500; C. P. Railway, waiting room, Protection street, \$25,000; St. George's church, Sunday school, King street west, \$8,000; Collins St. Garage, brick cellar, Market street, \$1,500; Peter Campbell, wood kitchen, Hazen street, \$1,200; Mrs. Laura K. L. Wood, wood dwelling, \$2,500; Pythian Castle Co., remodel building, Union street, \$8,000; Purdy Ice Cream Co., warehouse, office, Stanley street, \$2,500; Canadian Oil Co., brick office, Barrack Point, \$1,000; Louis Iseur store and dwelling, Brussels street, \$6,000.

### MARINE NOTES

The three masted American schooner Harriet B., cleared from this port today with a cargo of spruce lumber for Yonkers, N. Y. She is expected to call tomorrow at Digby, N. S., and to leave for New York on Saturday.

The four masted schooner Harry A. McLellan, under the command of John H. French, cleared from this port for French Almedira. Nagle & Wigmore are the local agents.

The R. M. S. P. Caraquez sailed at two o'clock this afternoon for Bermuda via Halifax. William Thomson & Co. are the local agents.

Business Withy & Co. announce the following movements of ships for which they are the local agents: The steamer Manchester Civilian sailed from Montreal for Manchester, Oct. 27; the steamer Philadelphia arrived at New York from Southampton Oct. 29; the steamer Mongolia arrived at New York from Hamburg Oct. 27; the steamer Adriatic arrived at New York from Southampton Oct. 29; the steamer Capricorn arrived at New York from Liverpool Oct. 29.

It was reported this morning that a wood boat unloading at Warner's wharf tipped over dumping part of the cargo into the water. The crew jumped to safety.

### VANCOUVER CUTS SUGAR PRICE AGAIN

Vancover, B. C., Oct. 30.—Another reduction of fifty cents a hundred in the price of sugar is announced here, making the wholesale price \$16.50.

### IN WALL STREET

New York, Oct. 30.—Buying of high grade rails, shipments and oils infused a measure of strength to the stock market at the beginning of today's operations. This was neutralized later, however, by heaviness of rubber issues and related specialties which broke sharply as a result of recent late announcements of price concessions. Southern Pacific, which is expected to benefit by resumption of relations between this country and Mexico, rose almost two points and associated oils in which Southern Pacific has large interests, gained 3 1/2 points. Shipments and oils gave way in the final dealings with some of the rails. The closing was irregular. Sales approximated 200,000 shares. Change on all the leading foreign countries was lower.

New York, Oct. 30.—(10:10.)—Stocks were firm to strong at the outset of today's session, shipments, oils and rails rising large fractions to two points. Closing of short contracts over the week end was a factor.

Prices were irregular but principally higher at the outset of today's market session. Shipments and rails were the conspicuous issues, United Fruit soon adding 3 1/2 points to yesterday's rise, while Southern Pacific noted further substantial accumulations. New York Central, Rock Island, Pittsburg and West Virginia and Gulf States steel were moderately higher. Mexican oils were responsive to prospects of early recognition of that government by the United States. Another slump in Italian exchange rates to the lowest quotation yet recorded was the feature on the foreign exchange market.

### BETTER HOMES FURNISHED

Mean greater happiness. Beautiful furniture brings an atmosphere of cheerfulness and brightness into every room. If your home is poorly furnished you may not notice it, but other people—neighbors and callers—have noticed the old shabby furnishings, and have perhaps drawn wrong conclusions. They have thought the owners couldn't afford anything better. Now you show such wrong impressions carried away from his or her home.

Let us show you our large stock of fashionable furniture in the latest styles.

DEARTH OF NURSES EXPLAINED BY MARY ROBERTS RINEHART

Nursing Means a Hard Life, No Great Material Reward, and a Still Equivocal Social Status, Says This Experienced Writer.

(Mary Roberts in N. Y. Evening Post.) "Yes, the lack of nurses is an issue that is enormously important in this country today. I remember my own days of nursing very well. When I was seventeen I first went into a hospital preparatory to taking a course in a medical college. I had been preparing for Wellesley, but financial reverses in the family made that impossible. My nursing career, however, was cut short. At nineteen I left hospital to marry the chief surgeon. Every one in the hospital attended the wedding, including the chief engineer and the janitor. We had what was called an 'imposing' wedding in those days—flowers, gowns with trains, everything! At that time, the longer the trains, the more successful the wedding!"

ceive. In these days of careers for women it opens few opportunities to rise above the mass. But against this I offer the fact that there are greater compensations in life than in exciting competitive fields. To the womanly woman there is probably no satisfactory peace out of pain and rest out of suffering. "The second reason is that the physical and mental strains are prolonged and extreme. The profession requires a sound nervous system in a sound body. The strain of the work at present is as nothing however, as compared with that of the past. Hospital hours are no longer so arranged that they require twenty-four hours on duty. That was my portion when I went into a hospital. In the early days of training schools in America it was the normal thing to work to the limit of one's strength every day and for the least three night of every week, to be roused by the night superintendent's rap and called to an all night session for an emergency case in the operating room. "At present there are day and night shifts for the operating room. The nurse goes to her room at night with the knowledge that she will not be disturbed until morning. "But even physical and mental strain can never be eliminated. The drain on one's sympathies and on one's nerves and mental strength is the lot of those who enter on what must always be a career of self-sacrifice. "Social Status Unattractive. "The third reason is in the social status of the nurse in private families when her hospital career ends and she starts out to carry such healing comfort and peace as she can into the home. In England trained nursing has always been the profession of the gentleman. When the war came, small as their number was, there were women who represented the best that England afforded. But there was also available a vast number of women many of whom had taken a six months' term in hospitals and had been granted a provisional certificate. Had it not been for these women the wonderful nursing system which England established in France and at home could never have existed. "In some homes in America the position of the trained nurse is too apparent to be anomalous one. She is too likely to be regarded as occupying the position somewhere between the servants and the family. She may be trusted with the life of some beloved child, but not to use her fork properly at the family table. "This misunderstanding of the status of the nurse is not entirely the fault of the family who employs her. It is partly due to the fact that owing to the scarcity of women it is not possible always to maintain the standard desired by the training schools. But once the status of the nurse is fixed it will materially react on the quality of the material from which the training school is made up. "The nursing question is important because it is a matter of the State and of the nation. All along the line there are attempts made to conserve life. The slogan 'Safety First' has become widespread. Employers are spending vast sums in safeguarding their employees from injury. The reason for this is that human beings as a national asset. Every life in this country is worth to the nation so many thousands

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble

and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eye two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time. Note: Another prominent physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturer guarantees it to strengthen eyes and clear up one week's time in many instances or refund the money. It can be very prepared and used at once and has no regular use in almost every family." It is sold in this city by Wasson's Drug Store and other druggists.

SHORT OF COAL. Halifax, N. S., Oct. 29.—The Spanish steamer Amens, from Rotterdam for Hampton Roads, put in here today short of coal. CUT THIS OUT Old English Recipe For Catarrh, Catarrh at Deafness and Head Noises. If you know of some one who is troubled with Catarrh of the Deafness, he or she may have the means of saving him or her from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness. The air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions. Secure from your druggist 1 ounce of Permian (Double strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar, stir and dissolve. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the mucus in the ear-tubes is reduced. Permian used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, cost little and is pleasant to take. Every person who has catarrh or head noises or loss of hearing should give this treatment a trial.

of dollars. In this fight to preserve our national assets the doctor and the nurse are to health what the forest ranger is to the woods. Forest fires or influenza we must have our rangers and our nurses. "But there is another angle to this. We have not fought our last war. Those of us who are in favor of military training for our boys must equally be in favor of nursing training for our girls. A man may in an emergency be turned into a fighting unit in a few weeks; a nurse's training is a long and tedious process! But granting the possibility that there may not be another war during the lifetime of the present generation, there will be battles to be fought, battles of epidemics and battles of catarrh.

CAR OF WHISKEY DARINGLY ROBBED

Hole Cut in Roof, Though it was Tightly Guarded, 15 Cases Emptied. Bridgeport, Oct. 30.—One of the most daring of the many railroad robberies perpetrated here is that in connection with a carload of whiskey in transit to Quebec.

The car was received in the Grand Trunk yards at Bridgeport several days ago, but was ordered returned in order to comply with certain Customs regulations on both sides of the border, especially in regard to the U. S. internal revenue stamps thereon. The car was taken back to the Black Rock yards of the same road and kept under close guard.

Nevertheless, when detectives inspected the car a large hole was found in the roof. The contents were checked over but nothing apparently was amiss, until it was found that one of the cases was very light. Examination showed that the thieves had emptied the contents of the same road and kept under close guard.

A similar car, one of five in transit through here, was left all night last night in front of an electric arc light so that detectives could watch it.

Arthur Guilfoyle was brought into the police court yesterday afternoon and the charge of stealing a cheese from the C. N. R. was read to him. He was remanded.

## SOME RECIPES FOR COOKING APPLES

(The Market Woman in The New York Evening Post.)  
"Eat a New York State Apple Every Day," is the slogan of the New York State Department of Farms and Markets. Surely this is not a hard request to grant, especially when the apple crop is as excellent as it is this season. How many New Yorkers realize that New York state will produce one-fifth of all the apples produced in the United States this year? We will have to eat many, and often!

There are so many ways of using apples. The best way of all is to have some one pure them and serve them to you in quarters at the end of a pleasant evening, spent, perhaps, in reading. This will be a good winter to try the efficacy of the saying, "An apple a day, keeps the doctor away." An apple is valuable for the mineral it contains as well as for other reasons, and evening is a convenient time to eat it.

Some persons cannot eat apples raw, but this does not exclude apples from their menus. Apples are one of the best cooking fruits we have. They are delicious baked, stewed, fried and in apple sauce, and there are several ways of preparing them by any one of these methods. And baked apples and apple sauce are acceptable for breakfast, luncheon or dinner.

There are many delicious desserts made from apples. Do you know jelly apples? Soak two tablespoonfuls of granulated gelatin in one-half cupful of cold water for ten minutes. Cook together one cupful of sugar, two cupfuls of water, one-half teaspoonful of cinnamon, one slice of lemon, and three whole cloves for five minutes; add six cooking apples which have been pared and quartered and cook them carefully until ten-

## TONS OF FOOD ROTTING ON HAVANA WHARVES

Health Officer Warns Against Epidemic—American Products in Port Congestion.

Havana, Cuba, Oct. 28.—American products valued at millions of dollars are tied up at the port of Havana, seemingly without prospect or hope of early delivery.

Conditions have become so menacing from the standpoint of health that hundreds of tons of foodstuffs, for which was paid on the island, already have been hauled out in barges and dumped into the sea. There is such an utter congestion on the wharves that it has not been possible, however, to dig through the growing pile of boxes and barrels and reach many decayed shipments.

Warning against a possible epidemic was sounded today by the chief sanitary officer of Havana, who declared that "while the people were being taxed almost beyond their means, enormous quantities of needed articles are rotting on the docks and endangering public health."

## 131 WORDS A MINUTE BY WINNING TYPIST

George L. Hoesfeld of Philadelphia Takes Prize of \$1,000 and Trip to Europe.

An average speed of 131 words a minute was maintained in a national typewriting contest by George D. Hoesfeld of Philadelphia, the winner.

The contest was a feature of the Seventeenth National Business Show which opened at the Grand Central Palace in New York. Forty typewriters of one make were used by the professionals, amateurs, and novices who competed.

At a signal the keys of every machine began to click and the carriages to fly back and forth with amazing rapidity. Those who were new at the game were required to stay in only fifteen minutes, the amateur class had a half hour test and the five seasoned stars remained on the job one hour before the final whistle blew.

The Philadelphia contestant had as rivals, Miss Margaret B. Owen, four times national champion, and William Oswald, who took Hoesfeld's title away from him last year. Hoesfeld wrote 3,283 words and had 54 errors. As a penalty of 10 words were exacted for each error his total stood at 7,543. Miss Owen made 68 errors in 8,346 words, and Oswald 47 errors in 8,108 words.

The winner received for his hour's work a prize of \$1,000 and a trip to Europe. Other prizes were gold medals, three being awarded in each class.

# Who Gets the 9 Pounds of Sugar?

THE genuine Barbados—the pure concentrate of the finest juice of the ripe British West Indian cane—contains 9 pounds of SUGAR to the gallon. It is the sugar that gives it its food value—its delightful flavour—its heat and energy producing qualities.

It's YOURS!!

But sugar jumped in price—so high that they began to take the 9 pounds of sugar out and sell you the refuse as Molasses, or blend it with glucose, water, and chemicals as table syrups—with fancy names. It wasn't fair to you, and it wasn't fair to the British planters in Barbados, who have always tried to serve Canada faithfully. These planters have united to protect your interests, by shipping their finest Super-Fancy grade, whole-sugar molasses under the safeguard of a REGISTERED name—"Windmill".

Buy it in Bulk—Just as Much as You Need!

Beware of Blends! Get Back to Nature!

"WINDMILL" Barbados comes in puncheons and barrels as shown. The genuine, old-fashioned Barbados is only made of the rich juices of ripe sugar cane, concentrated in open copper kettles. There's nothing added, and nothing taken away, except superfluous water. It's real health food. Children love it—give them plenty. Have it on the table at every meal. Use it in your baking and cooking. With 9 pounds of sugar in every gallon, "Windmill" Barbados is the finest kind of sweetening money can buy—and the most economical, BECAUSE WINDMILL BRAND COSTS NO MORE THAN THE WORTHLESS SUBSTITUTES.

## ANOTHER TROOP GETS SCOUT FLAG

Presentation to Knox Troop by Colonel Edwards.

News of Other Troops in St. John—Details of Second Class Test—General Scouting Matters.

THE BOY SCOUT.

Colonel Edwards has presented to Knox Troop a large scout flag and arrangements are being made to have it dedicated in the near future. Three new scouts have been enrolled since Friday, making a total of nineteen boys. A number of the boys were "sworn in" at the meeting last night.

### Andrew's Troop.

This troop held their regular weekly meeting Thursday evening, with every member present. Most of the evening was taken up with Scout work, including First Aid instruction, practicing scout's pace, and King's game, which is a tenderfoot test. The meeting closed with the cooking test. The meeting closed with the cooking test.

after several good Scout games were played.

### 7th—Stone Troop.

The regular meeting of the troop was held on Wednesday evening at 7:15 with an excellent number of scouts in attendance.

The meeting opened with the repeating of the scout law and promise by the whole troop. This was followed by patrol drill and instruction under the direction of the patrol leaders. Three boys, Leslie MacAuley, Donald Stratton and Leslie Stratton were sworn in at the end of this period.

Troop Leader R. Wetmore then led the troop in games, after which the troop was dismissed. During the evening the troop had a visit from S. Allan of St. Andrew's Troop. A court of honor meeting followed the regular meeting of the troop at which the usual troop business was taken up.

### 8th—Mission Troop.

This troop has been carrying on as usual and holding meetings every Tuesday night. During the last two or three weeks a number of tenderfoots and second class scouts have been passed, including tenderfoot, William Wilson, John Gordon, Hazen Gagey, John Peacock and Walter Watson. Two scouts, Herbert Lee and Robert Lee have passed their tests for handyman badge. The scouts are now working hard on their ambulance in preparation for first aid competition which will likely be held in the near future.

### 13th—Coburg Troop.

The 13th troop held its regular meeting on Tuesday with a large number of scouts in attendance, under the direction of the scout master, W. Dunlop, assisted by Assistant Scoutmaster R. Clark.

Troop Leader MacKenzie lined the troop up by patrols, called roll and collected dues. Signalling and physical exercises were also given, during the evening brief remarks were made for the betterment of the troop. Miss A. Hughes, who has been a great assistance to the troop, passed a number of the scouts on their first aid work and at the close the troop was lined up in horseshoe formation, and Scout Pierce received his tenderfoot badge.

On Monday evening, Nov. 1, the cubs and scouts will hold a Halloween party under the direction of troop officers instead of meeting on the usual nights.

### 3rd Cubs.

A special meeting of the cubs in connection with 13th troop was held on Wednesday evening in charge of Cubmaster Wm. Dunlop. Games and cub work were included in the programme. During the evening Cubs E. Cummings, H. Case, R. Watts, and F. Watts received their tenderfoot badges. They are all coming along nicely and expect to do great things during the coming winter.

As stated in this column last week, an outline of the different tests and badges of the Boy Scouts Association, was given, the requirements for the tenderfoot test being outlined. Today the second class test, which is one step higher than tenderfoot, is given. This test is as follows:

1. Have at least one month's service as a tenderfoot scout.
2. Have a knowledge of elementary first aid and bandaging, covering the following: (1) Fastening the bandage; (2) The triangular bandage; (3) To make a large arm sling; (4) Fractured arm bone; (5) To carry a patient; (6) Fracture of the forearm; (7) Fractured jaw; (8) Fractured collar bone; (9)

## DIAMOND DYES

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Dragist has color card.

Fracture of the leg; (10) Arterial bleeding.

3. Know the semaphore (or Morse) alphabet.

4. Follow a track half a mile in twenty-five minutes, or, if in a town, describe satisfactorily the contents of one shop window out of four, observed for one minute each, or King's game, to remember sixteen out of twenty-four well assorted small articles after one minute's observation.

5. Go a mile in twelve minutes at "scout's pace." This is not an athletic feat, but a test in judging distance by time. Thirty seconds' leeway permitted.

6. Lay and light a wood fire in the open, using not more than two matches. No paper to be used.

7. Cooking a quarter of a pound of meat and two potatoes without cooking utensils other than the regulation billy, in the open, over camp fire. N. B.—Without any cooking utensils.

8. Know the sixteen principal points of the compass.

### THE HIKE

(By P. L. Alton Noble.) There was a troop of St. John Scouts who, led by Stanley Clark, had planned a hike on Saturday, just for a little lark.

When Saturday came rolling round, Poor Stanley had to stay; And then the question was brought up, Where shall we go today?

Some said "Let's go to Singsler's Cove" Others said "Long Lake," And then we started arguing And talking like old hake.

Then up spoke valiant Wesley Stewart, The noblest of our race;

Who said, "Some girls to Glen Falls go To have a paper-chase."

Then every one at once did say "To Glen Falls we will go;

But Sub had not a bit of coin, And car-fare costs some dough.

Toronto, Oct. 29—Alfred Myers, magistrate of Windsor, died suddenly here this afternoon after visiting the parliament buildings.

And then we had to call that off, Because Sub had no dough;

Then Dicky Wetmore boldly said "To Long Lake we will go."

And after we had walked a while, We stopped beside a lake,

That some said was called Frying-Pan, And there we stopped and ate;

And after lunch we started off To find the Lake of Long,

When we had gone a mile or so We found that we were wrong.

We just walked on until at last We saw away ahead

Some water shining in the sun, And Dicky promptly said:

"That is the lake, I know it is, For I've been there before;

And now to Howe's Cove we will go; It's just a mile or more."

And when at last we got there "We won't go in," we said,

"Because we have no light except Some matches and Dick's head."

And then we went in to the park And swung upon the swings,

Then started for the lake to spend The money we did bring.

Then we came upon some other swings Which we had more fun on;

And after we had finished there We started for the lake to bring.

And then we tried to catch a truck, But the darned thing went too fast;

Then we walked hard upon our legs; And reached our homes at last.

THE AVERAGE HARD WORKER

(Toronto Star.)

An exchange wants to know what has become of the old-fashioned man who had to work hard for a living.

Nothing has happened to him, except that he doesn't get mentioned in print as often as formerly. He works as hard as ever and comes as near as before to making a good living, without quite doing it.

After consulting with two or three hard workers an enquirer assures us that the average hard worker is better off than he was twenty years ago in this respect that he has accumulated more "portable property" in the way of home furnishings and things like that, but is otherwise where he was twenty years ago. His life-long condition is to owe accounts here and there amounting to about three weeks' pay not yet earned.

Life for him is a race and his debts having got that start on him, he never catches up until, after the funeral, his life insurance comes along, squares everything and shows that he was a winner.

MAGISTRATE DEAD.

## "Double the Amount"

would have meant double the satisfaction," said a highly pleased Policyholder a few days ago, when receiving the returns of his Policy the day it was due. "The fact is, I consider this Endowment Policy the best investment I ever made, and I could easily have saved considerably more than double the amount of the annual deposit. From the moment I received the Policy, I enjoyed a feeling of security, knowing that in the event of anything happening, my family would be provided for. My advice to all young people is to 'play safe' and carry a guaranteed policy with The Manufacturers Life Insurance Company."

## What other phonograph dares this test?

Did you ask some one about the Edison Tone-Test recital given last Tuesday in the Imperial Theatre? The startled audience heard Betsy Lane Shepherd's living voice flood the packed house. It then heard the New Edison match that voice, even unto its finest variation of shading and feeling. Any one who was present will tell you.

The art of the living artist and its RE-CREATION by the New Edison can not be told apart.

The same test was made by Miss Madeleine MacGuigan, violinist, and by the assisting artists—Mr. Igor Sokoloff, cellist, and Mr. Reinzo Thomas, pianist, with exactly the same results.

It is no idle phrase that you can sit and enjoy Case, Middleton, Hempel, Matzenauer, Spaulding—in your own home. The New Edison brings all that the great artist can bring, except his physical presence. It is the phonographic triumph of the age.

NEARLY FINISHED. The case of McDonald vs. Fleming was continued this morning in the Circuit Court, with the examination of Mrs. McDonald being finished. It is probable that the case will go to the jury on Monday.

LAST TRIP. The Eastern Steamship liner Governor Dingley arrived in port this morning from Boston with fifty passengers and a fairly large cargo of general merchandise. She will sail tonight at 7 o'clock on her last trip of the season. Next week she will go on the Boston-Portland route.

FOR THE BOYS CLUB. Thomas Killan, of the executive of the Playgrounds Association was discussing work for boys with A. O. Skinner one day this week, and told of the enlarged work of the Boys' Club. "Just a moment," said Mr. Skinner, as Mr. Killan was going out, "I want to help in that." The remark was accompanied by a \$5 bill.

EIGHTEEN DEATHS. Eighteen deaths were reported to the Board of Health during the week as follows: Premature birth, three; cerebral hemorrhage, two; carcinoma of uterus, two; phthisis, senility, inanition, meningitis, broncho pneumonia, arterio sclerosis, acute appendicitis, carcinoma of stomach, intestinal hemorrhage, accidental strangulation, acute yellow atrophy of liver each one.

BOY SCOUTS. The St. Paul's troop held its fourth meeting on Tuesday evening, October 26. Although the attendance was small, considerable progress was made. A very interesting program was made up for the next meeting, and it is thought a great deal of interest will be shown in the new law subjects to be introduced. Scout work was carried on throughout the evening, and towards the end two scouts passed their signaling for first class.

DEATH OF BOY. Friends will regret to learn of the death of Gordon Livingstone Naves, fourteen years of age, of Mr. and Mrs. Richard Naves, 168 Rockland road, which took place this morning at the home of his parents. Gordon was a very bright and intelligent lad and will be greatly missed by a host of friends. He was a very promising pupil of the eighth grade, Winter street school. Besides his parents, he is survived by three brothers—Clarence, Kenneth and Russell, and one sister, Florence, all residing at home.

Story of Cheese Case Told in Police Court—Guilfoil Denies Taking Cheese.

In the police court this morning a case against Arthur Guilfoil, charged with stealing a box of cheese, valued at \$7.50, from the C. N. R. while in transit, was resumed and the prisoner remanded. Inspector James P. Ryan for the C. N. R. told of being notified yesterday morning that a cheese was found underneath a box car, part of a shipment of eight boxes which had been transferred from one car to another en route to Halifax. The inspector said he kept watch and about 12:30 noticed a strange man go between the cars and pick up the box of cheese, but on seeing the inspector going towards him dropped it and ran towards Paradise row. The inspector said he called out to him to stop but he did not heed so he fired two shots at him. These seemed to cause him to run faster so he put the gun away and gave chase catching the accused near Paradise row. David Daley, a foreman of the transfer shed of the C. N. R., said he checked the shipment of cheese and found one box short. Albert Miller and Gordon Armstrong, C. N. R. employees, said they saw a man go underneath the car in question but they could not identify the accused. The accused said he did not steal the cheese and he only noticed it there and went to see what it was when the inspector came running towards him. He said he ran and when the inspector fired he was scared and ran faster. The accused was remanded. One man charged with drunkenness pleaded guilty and was remanded.

FIFTEEN CASES ON THE DIVORCE COURT DOCKET

(Continued from page 1.) In Lillian Edna MacBeth vs. William M. MacBeth, the principals were united in marriage by Rev. J. H. Macdonald, Baptist, in Fredericton on Dec. 18, 1912, and lived together at Ripples, Sunbury county, for seven years and later in St. John. It is said they separated on Jan. 18, 1919, and that on April 18 the defendant went through a form of marriage to Elizabeth M. Rathburn at the home of Pety Rathburn, Hampstead. Rev. L. H. Jewett, Methodist, performed the ceremony. The plaintiff is living in St. John and the defendant in Caribou, Maine. In Annie Alevis Joseph vs. Russell Robert Joseph, the plaintiff is a resident of Moncton and the defendant of Belleisle Creek. They were married on July 12, 1908, in Amherst, N. S., by Rev. Arthur Challenger of the African Methodist Episcopal church. They lived together until May 4, 1915, in Amherst, the plaintiff leaving then on account of alleged ill-treatment and non-support. Two children, since deceased, were born. In January, 1919, the defendant removed to St. John where, it is charged, he set up housekeeping with Maud Hill and in September, 1919, he removed to a farm at Belleisle Creek, which he had purchased, Maud Hill accompanying him. In Arthur Howard Collier vs. Emma Collier, the maiden name of the defendant was Power. They were married in Moncton at the home of the defendant's mother on June 17, 1919, by Rev. E. H. Cochrane, Baptist. Two cases were filed at the July term. In Evelyn Ward McDonald vs. John Fenwick McDonald, Mrs. Josie Black of St. John is named as co-respondent. The plaintiff resides in Halifax and the defendant in St. John. In James Francis Keally vs. Lydia Keally, the principals reside at Jaccart River. Rudolf or Duff Turlette is named as co-respondent. Both these cases are defended. There are four remainers. In Clifford Gideon Steves vs. Elsie Steves, the plaintiff resides in Moncton and the defendant in St. John. The alleged co-respondent is a man unknown. In David McKay vs. Nellie McKay the plaintiff resides at St. John and the respondent at Marysville. Infidelity with persons unknown is alleged. In Violet C. Faulkner vs. Howard N. Faulkner, both reside in Woodstock. Mabel Peppers of Red Bridge is named as co-respondent. In John S. Brown vs. Mabel Brown the plaintiff resides in Moncton and the defendant in Toronto. A man named McKean is named as co-respondent. Wilson vs. Wilson is a St. John case in which a woman named Gene Tait is named.

Marriage of Prince of Wales Again Gossip In The Empire Capital

Future Princess Likely an English Woman; Keeping Guard on Cabinet Members; Business in London; Women Taking to the Pipe

(From our own Correspondent.) London, Oct. 14.—I fancy the question of the Prince of Wales' marriage is likely to come up in the course of the coming winter. Hitherto, very sensibly, the king and queen have left the prince alone in this matter, and indeed there is no reason to press for an early match. On the other hand, the royal rule in these matters, which is to marry very early, is a hard one to break and I should not be surprised if the prince's engagement was announced before he goes to India next year even if the marriage does not take place till after his return. There are many reasons for believing that the future princess will be an Englishwoman. Meanwhile, York House will be the centre of many bachelor parties this winter when the prince is not away hunting, which he seems to do as much as he can. I fancy the voyage has done him more good than it was dared to hope for and that he has completely recovered from his severe Australian experiences.

Mr. Asquith in 1913-14, plain clothes men used to follow him about even in the corridors of the House of Commons, and I remember seeing him arrive once at a wedding surrounded by a perfect phalanx of detectives, all in frock coats and top hats. Lloyd George has one faithful attendant, who has been with him for years (though, on doubt, now he has reinforcements), but so far as I have been able to observe him at his duties, they seem to consist in looking after the passports and railway arrangements and in seeing that the premier is comfortable rather than shielding him from danger. I once had the honor of taking a walk with Lloyd George abroad, when it was supposed that he was not so popular as he had been with some of our allies. The premier walked at a tremendous pace, while I trotted at his side. The detective, at whom I looked back from time to time to see how he was getting on, was a good ten yards behind. I could not think what his policy would have been in the event of molestation, and I never had the courage to ask him.

Ministers Who Carry Arms. The Irish authorities take the very doubtful step of encouraging their rulers to carry arms themselves. When Sir George Trevelyan was chief secretary he always had one hand on a revolver in his coat pocket. Even Mr. Balfour carried one, and horrified his friends on one occasion by producing it from his pocket, not only loaded but cocked. The ignorance of some people about

rumors of Sinn Fein plots are again about in the clubs, and ministers are guarded to an extent unknown during the war, or indeed since brilliant outrage was at its worst. Our statesmen differ very much in the way in which they take these attentions of Scotland Yard. Mr. Gladstone used always to have his police guard carefully concealed from him, and went about under the delusion that in England a public man needed no protection. In the case of

Songs for Every Girl in this November List

NOVEMBER'S offering of Starr-Gennett Records is just filled with love melodies—musical stories that bring thoughts of "the only girl"—or memories to her. There has seldom been a more popular collection of records—"Popular" because there is something for every taste—romantic, classical, ultra-modern—from today's "Down the Trail to Home Sweet Home" back to yesterday's "Home Sweet Home".

firearms is astonishing. I was dining a short time ago with an eminent Irish peer who had been advised to carry a gun for his protection; he had bought a beautiful Mauser automatic pistol, but not only had he not the remotest idea how it worked, but he actually wanted me to give him a lesson in marksmanship by firing at his dining-room wall. The bullet, of course, would have gone straight through into the next room, with possibly exciting results. Meanwhile, to take leave of the subject of detectives, these guardians of the great classify our statesmen in different categories from the rest of us. There are the candid and inconsiderate, and it is astonishing how far you can get in either direction. The first prize used to go to Herbert Samuel, who, when he went away to stay anywhere for the week end, always made a point of insisting on specially comfortable accommodation for the police guard, and made their care his first business. At the other end of the scale came Mr. (on second thoughts I will not give his name, but he is a retired cabinet minister, with a reputation for generosity). I dined with him; it was raining cats and dogs and I wanted a cab. Said my host "That's all right, the detective will get you one." He opened the front door and outside, leaning

MARRIAGE OF PRINCE OF WALES AGAIN GOSSIP IN THE EMPIRE CAPITAL

(Continued from preceding page) and the sinner are, in their respective ways, somewhat Napoleonic personalities, and — well!

The Appropriate Hymn. A well known South Wales coal owner, who is staying in town until the present crisis is over, was talking last night of the various disputes which arose during the war between the owners and the miners, and which were usually settled fairly amicably at round-table conferences. During the first year of the war one of these conferences at which he was present was held in South Wales. The proceedings started with a hymn which had evidently been chosen with some discrimination. It was "Rock of Ages Clef for Me." Both owners and men, he said, sang the hymn with remarkable fervor, placing, however, somewhat greater emphasis on the pronoun "Me" than the writer of the hymn had intended. After all, the right to use that pronoun is really the whole matter in dispute.

Nerves in the City. There is no disguising the fact that, commercially, the city is suffering from a bad attack of nerves. Scarcely a day passes without reports gaining currency that this or that concern is in a critical position; but, as usual, rumor does not fail to exaggerate. So far city men have been spared the pain of hearing of a financial catastrophe; but there is no doubt that unpleasant events are expected during this and next month, and the suspense is rather trying. The situation arises from the tendency that prices are showing to drop, and wholesale traders find themselves in possession of inconveniently heavy and high-priced stocks. The difficulty of obtaining financial assistance from the banks is also an important factor; whilst the rather depressing statements of important business men on the trade outlook does not help matters, just now the city man is rather depressed and there is a noticeable falling off in the number of pleasant little luncheon parties that a short time ago were a feature of certain eating houses round the Bank.

The Mystery Port. Following on the much discussed sale of the motor "Lump" at Slough, it is possible we shall hear soon that Richborough has passed into private hands. The government, I hear, has received an offer for the port, running well into seven figures. There is nothing really sensational in this bid, seeing that the break-up value of the works alone is estimated at something like six millions sterling. Richborough, or the Mystery Port, as it was once called, was one of the wonders of the war. Many people scarcely knew of its existence until one day some privileged visitors were invited to go down into Kent to see what British engineering could accomplish in the briefest possible space of time. The visit was a revelation. There had been nothing quite like it since Aladdin's Palace sprang up in a night. The bare land and sand-dunes round by Pegwell Bay, which we used to survey from the St. Augustine Links, had suddenly blossomed into a populous city, with ports, harbors, railway sidings and even its own public buildings. It was in no sense like an American oil town, because it was all solidly built. And the amazing thing about its population was that it was all uniformly garbed in khaki or overall. Here you met great engineers whose names, in connection with world famous bridges, railways and canals, were household words, oddly camouflaged—not as brigadier-generals but as "one-pippers." There was nothing campy about Richborough. Little vessels

destined to cross the Channel and afterwards side their way along the "anal" of France and Belgium, were "damned round" in record time. Some of them, I was told, were actually despatched on their maiden voyages in less than twenty-four hours after leaving the slips. The port is equipped with a cross-channel train ferry terminal and no fewer than sixty-five miles of standard gauge railway track sidings. The train ferry enabled you, at one time, to proceed from London to the front without changing your seat. The ferries carried guns, munitions and stores to be sent to France direct from the munition works. Shaped like elongated saucers, the ferry boats were armed with guns and by reason of their shallow draught, were practically immune from submarine attack. They had several lines of rails on their decks. The service was of special utility in forwarding urgent replacements of guns, tanks, etc., during the last German offensive. Chinese in London. A great outcry is now being raised about London East End Chinatown. This region lies out Limehouse way, a region made very famous some years ago, not by Chinks, but by politics! In this area there are many thousands of Chinese, and their queer cabalistic signs even receive official recognition on some of the street placards. That the Chinese are inveterate gamblers, and that they are also great smugglers of drugs is said. But the clergy who work the year round in these regions, and do not merely make a hasty incursion with a notebook when a new "stunt" is wanted in Fleet street,

say they are as a rule exceedingly good citizens. It is true many of them marry white girls, but the white wives of Chinese are, as a rule, more content with their matrimonial lot than the average wife of the white denizen of these rather brutal parts. It is also true that some white women seem to be greatly fascinated by the Chinese. Part of this is due to their general prosperity. East End Chinatown is today pretty much what it has been ever since I remember it, except that probably its opium dens are less numerous and dangerous now. The police resent this new "stunt" because they fear it might lead to a repetition of the black-and-white fracas of some time ago. The whole business is just a stale journalistic sequel to the wonderful success of Thomas Burke's "Limehouse Nights" and its film version "Broken Blossoms." Pipes for Women. What a great fuss is being made about the young lady who was "discovered" smoking a pipe at the Queen's Hall concert! These elite young modernists at Carmelite House are really dreadfully middle-aged and bourgeois. They discover the orange about the time most people are dead sick of marmalade! The truth is, of course, that a lady smoking a pipe in London nowadays attracts rather less notice than she would have done twenty years ago by smoking a harmless cigarette. Today most women in London smoke, and, since the pipe is much the cleaner, healthier and more ornate form of smoking, they will soon smoke pipes as freely as they long have cigarettes. Fifteen years ago I saw the scandalized and white-faced manager of a famous West End restaurant order a very charming lady, who was dining with some most respectable friends, either to put out her cigarette or leave the premises forthwith. And she meekly obeyed. Nowadays quite a lot of women have taken to the pipe, and they smoke not from bravado, but from love of the taste of tobacco. I know many who are regular pipe smokers in private, and only wait on the death of prejudice to smoke their calumns in public. Amongst the number are one head mistress of a girls' high school, several lady painters and writers, and a lady accountant.

A New Character

When, four years ago, KING COLE ORANGE PEKOE TEA first appeared, something more than a new tea had been produced—a new character in tea had been created. Only after most searching experiments in flavor-blending were we at last able to develop that peculiarly mellow richness of flavor so delightful to the taste, which has won for KING COLE ORANGE PEKOE the high place it holds. The total annual sale of KING COLE ORANGE PEKOE has doubled twice in the last two years. We are confident that you will say that it is different to any tea you ever tasted.

**HALIFAX HAS BEEN RAPIDLY REBUILT**  
(Halifax Echo.)

The big building boom which descended upon the North End after the explosion is now showing big results from one end to the other of this great district, and one cannot go north, west or east without coming upon some large edifice that is just in the last stages of completion. On Windsor street the Bank of Nova Scotia and several other buildings have been finished for some time, and St. John's new church is very nearly finished. On Kenney road the Richmond Paper Company's new building, representing one of the finest of its kind, the Hillis Foundry, the coal buildings, Brandram Henderson addition, Piercey Supply and Dominion Cordage are all newly erected and have made a vast change in the appearance of that section. The Richmond and Hydrostone areas need no further mention. They are a permanent reminder of high class reconstruction. The Göttingen, Kaye and Young streets section, with its fine group of churches, schools and other buildings of civic importance is a spot worth visiting and show buildings completed and in advanced stages of completion. Robie street has its new Thibodeau church, the North and Göttingen streets corner has the beginnings of the new Baptist church, while Brunswick street is made more interesting by the Webster Apartments, one of the finest in the city. The south end of Agricola street has the new Lorne exchange offices and the Almon street section of it has the Inson and Thompson buildings and the new Bloomfield school.

**BUILDING ACTIVE IN TOWN OF SACKVILLE**  
(Sackville Tribune.)

Last year the Mt. Allison Institutions erected a spacious skating rink for the use of the college students, and this year they are spending about \$15,000 on renovation work and the erection of new buildings. About \$25,000 is being expended on the remodeling and equipping of the Science building. Some renovation work has also been carried out at the stone college. The wainscoting in the halls has been stained and several of the rooms redecorated. The stained glass window in the chapel, which was blown out during a hurricane last spring, has been replaced. At the Ladies' College, extensions are being made in order to accommodate the ever-increasing number of students applying for entrance to this popular school of learning. The new building and equipment for same will cost in the vicinity of \$80,000.

H. C. Cogell, contractor, is erecting a woodworking factory on Dufferin street. The structure, which is of concrete blocks, will be 40 x 50 ft., with two stories and a basement. It will be steam heated, a 60 h. p. boiler being installed and also a 25 h. p. steam engine. An annex has been built to the Sackville High School at a cost of approximately \$6,000. This gives three additional class rooms to relieve the congestion in other rooms.

M. Wood and Sons have renovated their No. 1 warehouse. It has been raised two feet from the ground and twenty-five concrete pillars placed underneath, giving it a solid foundation.

The Sackville Concrete Company has been busy engaged for the past few weeks laying additional sidewalks. Many private dwellings have been built during the past few months and others are in course of erection. A new street has been opened up on the Black property, and Jerry Holland is having a twelve-room house erected. James A. Hicks, contractor, is building a house on Weiden street for Reginald Wheaton, and H. C. Cogell, contractor, recently completed two houses on Union street for Alpheus Crossman. Perhaps the most modern and up-to-date residence in town, which was recently completed, is that of Prof. McKel on Salem street. The walls are of stucco and the house contains the latest modern improvements throughout.

St. Paul, Oct. 29.—Three unmasked men held up L. G. Denny, an employe in Shapiro's jewelry store here early today and escaped with diamonds said to be worth \$60,000. Denny had just opened the store and was bringing two trays of diamonds from the safe as the men entered. They made their escape in a waiting automobile.

**Why Foreign Countries Anxiously Watch Next Tuesday's Election**

Never before has an American election been fraught with so much meaning to the rest of the world, to judge from the anxiety evident in the comment of the foreign press. In fact, this became so evident as the campaign went on that THE LITERARY DIGEST sent out an inquiry to the press abroad asking their views on our political struggle.

In this week's number of "THE DIGEST"—October 30th—the replies to this inquiry are printed. They range from a tone of ardent hope that whether the next President be Mr. Harding or Cox, his election will clear away the after-mists of war which have arisen from the Peace Treaty and the League of Nations, through degrees of distrust and cynicism to utter dismay that the United States, which was capable and courageous enough to help win the war, seems to lack the intelligence to realize she must also help win the peace. The replies that are printed represent seventeen countries in all, including, England, Ireland, Scotland, France, Germany, Belgium, Japan, China, Sweden, etc.

Coming, as it does, practically on the eve of our Presidential election this article will be read with great interest in America, as it reveals the world-wide anxiety over the outcome.

Among other striking features in this number of "THE DIGEST," you will find

**THE FISHERIES OF THE DOMINION**

The Dominion Bureau of Statistics has just issued a preliminary statement of the fisheries production of Canada for the year 1919, prepared from the compilation of returns collected by the bureau in co-operation with the fisheries branch of the department of marine and fisheries. The total value of fish marketed fresh and of fish products is given as \$85,488,579, compared with a value of \$60,250,544 for 1918. Sardines and herring showed the largest decrease both in value marketed and quantity caught. The catch of haddock, halibut and cod was greater in 1919 than in 1918, while increases both in quantity caught and in value marketed. British Columbia fisheries had a value of \$25,901,607, which is a decrease from 1918 of nearly two million dollars. Nova Scotia fisheries were valued at \$1,171,929, a slight increase over 1918. Prince Edward Island, Ontario, Saskatchewan and Alberta showed increases in value, while New Brunswick, Quebec, Manitoba and Yukon showed decreases.

Of the principal fish products, canned salmon is given at 1,294,219 cases, valued at \$13,842,140 in 1919, a slight decrease both in quantity and value from 1918. Canned lobsters were reported at 128,759 cases valued at \$4,095,934 in 1919, compared with 107,512 cases valued at \$2,254,660 in 1918. The quantity of canned sardines was 119,225 cases valued at \$998,811 in 1919, compared with 177,193 cases valued at \$1,227,968 in 1918. Increases in quantity and market value are noted in dried cod and salted mackerel, and decrease in green salted cod and pickled herring. Of fish marketed for consumption fresh, the principal varieties in point of value were halibut, 240,728 cwt, valued at \$5,114,410; salmon, 460,418 cwt, valued at \$8,324,138; whitefish, 196,953 cwt, valued at \$1,845,851; lobsters, 85,240 cwt, valued at \$1,221,882. Other varieties which showed large quantities marketed for consumption fresh were mackerel, herring, cod, smelts, trout and haddock.

**"That's the way to buy heat —by the roomful!"**

**YES, the "roomful" is the practical way to measure heat. It does not matter how much fuel is bought, nor how much heat is produced, unless you get the full benefit of it in the room where you want it. A Perfection Oil Heater gives prompt heat on the spot.**

**If you could build your house over again you would change a good many of the radiators and registers around, wouldn't you? Why not put a Perfection Heater near the window where the radiator ought to be? By using the Perfection Heater in this way you get both fresh air and comfortable heat. It throws out ten hours of clean, intense heat on a single gallon of coal oil.**

**As cheerful as an open fireplace**  
The warm cheerful glow of the Perfection Heater makes it a favorite in many homes that have no open fireplaces. It is indispensable in Fall and Spring, because it saves running the furnace to heat one room. It is invaluable in Winter to give auxiliary heat in cold spots. It weighs but a few pounds and can be safely carried from room to room.

**Hardware, Housefurnishing, and Departmental Stores**  
everywhere sell Perfection Oil Heaters. Let your dealer show you how simple the Perfection Heater really is. Over four million in use, and the number is growing daily. Your dealer can also show you the New Perfection Oil Cook-stove and Perfection Water Heater—models of convenience and economy.

**Protect against fuel shortage**  
You can save a hod of coal every time you use your Perfection. That's worth money these days, and besides coal is scarce and it may be hard to get this Winter. Get a copy of our new Perfection Heater folder.

**The Old Chap Wilted.**  
(New York Correspondent.)  
There are diverting moments in the trip of the home going crush headed for he station on Forty-second street. Nerves rubbed raw in the grind of business all day find expression in amusing outbursts.  
An old gentleman, with a wry outlook upon the world was stepped upon twice by a pretty girl who looked like an office worker. "Get off my feet! Can't you see?" he shouted. She smiled with tired resignation. The old gentleman looked at her for several moments, took off his hat and soon they were walking along together. And at the station he stopped and bought her a flower from a vendor.

**The Animal Kingdom**  
An old Missouri doctor tells of being called in to see a farmer who was suffering with stomach trouble. He asked him various questions about his diet and finally said: "The trouble with you is that you don't eat enough animal foods."  
A few days later the doctor called again to see how his patient was getting along. "I tell you, doc," the farmer reported, "you may have been right about them animal foods. I got along pretty well with oats and corn, but blamed if I could down the hay!"

**Announcement of Policy to National Truck Dealers and Buyers**

**THERE have been no war price placed on National Trucks.**

Since 1916, the average increase in the price of Nationals has totaled only a bare 12 1-4 per cent.

Our ever-growing output and our holding to a close margin of profit have enabled us to weather a period of inflation with but a minimum advance in our prices.

Now, as to the future:

Steel is scarce, high in price, and the indications are that this condition will obtain for a long time; 90 p.c. of the material used in making a National Truck is of steel.

It has ever been the policy of this company to build quality trucks, employing engineering and mechanical skill of the highest order, and embodying in National Trucks superior units only.

From this policy we shall not deviate.

Should manufacturing costs come down, however, enabling us to reduce our prices, we will protect the buyer.

To that end, the National Steel Car Corporation, Limited, announces that should any reduction in price be made possible between this date and May 1, 1921, both the dealer and the buyer will benefit by such reduction.

WHY THE ESKIMOS  
MATURE EARLY

Heat of Igloos Responsible,  
Says Explorer Stefansson.

It has generally been supposed that among the peoples of the earth the age of maturity comes earliest in the tropics, and increases gradually as one goes northward through the temperate and eventually into the Polar zone. It has been presumed that a similar condition would be found in going south from the Equator toward the Southern Pole.

If the age of maturity increases with fair regularity as one goes north through Europe from Sicily to Lapland, it would seem reasonable that this has a direct connection with the decrease in temperature, and the assumption has accordingly been made. But in North America this rule, if it be a rule, has a striking exception, writes Viljalmar Stefansson in the Journal of the American Medical Association. It is not rare among Eskimo women that they have their first child at the age of twelve; and children born before the mothers were eleven have been recorded in places where the age of the mother can be in no doubt because of the fact that her birth had been recorded by a resident missionary.

It is a curious thing that during twelve years of association with the Eskimos, during which time I have spoken and written a great deal about their manner of life, it never occurred to me until some two or three months ago that their early maturity is strictly in accord with the supposition that the hotter the environment the earlier the maturity.

For to all intents and purposes the typical Eskimo in the country known to me lives under tropical or sub-tropical conditions. During the winter of 1906-1907 recorded the estimate that the average temperature within doors of the Eskimo house in which I lived at the mouth of the Mackenzie River was a good deal above 80 F., and frequently rose to 90 F. From the point of view of those who spent most of the winter indoors in that house, it was a matter of no consequence that the temperature was perhaps 40 or 50 degrees below zero outdoors when the outdoor air seldom came in contact with their bodies. Even when they go out, this cold air does not have a chance to come in contact with the body except for the limited area of the face.

When an Eskimo is well dressed his two layers of fur clothing imprison the body heat so effectively that the air in actual contact with his skin is always at the temperature of a tropical summer. It is true, therefore, that while an Eskimo is indoors his entire body is exposed to a local climate as warm as that of Sicily, and when he is outdoors he carries that climate about with him inside his clothes and applicable to 90 or 95 per cent. of his body area.

Mr. Stefansson says that the Indians have no such means of protection from the cold, and that therefore the more northerly of these mature late.

FRENCH VIEW.

Paris, Oct. 29.—French diplomatic representatives in London have been instructed by the government to lay before the British government the French point of view concerning the decision of the British government to renounce the right of confiscation of German property in the United Kingdom, according to newspapers here.

OUR own opinion is that annual repair costs on the Hupmobile are less than those of any other car in the world.

It is also one of the very few cars—out of several hundred—so noted for fine performance and low-cost over a long life that it always commands a high price when re-sold.

These are the qualities which make the Hupmobile worth what it costs, and without which no motor car is ever worth what it costs.

INSTITUTE OF  
TEACHERS CLOSED

Moncton, Oct. 29.—United Westmorland Albert counties teachers' institute closed this afternoon. Westmorland will meet next year at Moncton, while the selection of place for Albert was left to the executive. The following officers were elected: Westmorland: President, H. B. Steeves, Shediac; vice-president, Miss Rita Jalliet, Memramcook; secretary-treasurer, Wm. H. Irving, Moncton, re-elected; additional members of executive, Mr. Haines, Sackville, and Miss Maggie Gaynor, Salisbury, Albert county; President, Chester, Eagles, Elgin; vice-president, Miss Margaret Barbour, Riverside; secretary-treasurer, Miss Ina Steeves, Hillsboro; additional members of executive, Miss Katherine MacNaughton, Hopewell Hill, and Miss Berthenia O'Connor, Harvey. Among resolutions passed were regrets at deaths of S. W. Irons, Miss Hennessy and Miss MacLeod, and congratulations to W. H. Irving on having just received his M. A. degree from Oxford University, and Dr. Oulton of

TO OTHER HOSPITALS

Miss Hattie Blanche, a graduate of the St. John General Public Hospital, who has been in charge of one of the floors in that institution, will leave this evening to assume a responsible position in the Houlton (Me.) hospital. Miss Belle B. Howe, who for the last four years has had charge of the surgical outdoor department in the General Public Hospital here, will leave next Wednesday for New York, to accept the position of night supervisor of the New York Hospital.

BOY SCOUT OFFICERS.

The annual meeting of the local Boy Scouts' Association was held last evening in their rooms, Prince William street. The election of officers took place and resulted in the retention of the old officials. Colonel Murray MacLaren is again honorary president; A. C. Skelton, president; W. H. Harrison, J. H. Kimball and E. H. Turnbull, vice-presidents; Guy Short, local commissioner. No other business of importance was brought up but a general discussion took place on the work for next year.

Street car No. 90, on the Prince William street route, caught fire about 6 o'clock last evening in Duke street, between Charlotte and Sydney. The firemen from No. 1 Engine House were

called and subdued the blaze with chemicals. The cause was probably owing to a short circuit. An occurrence of like nature took place a few weeks ago when a car at the head of King street burst out in flames.

**RING**  
**Jackson Defeats Fitzsimmons.**  
Willie Jackson, of New York, knocked out Eddie Fitzsimmons in the tenth round of what was to have been a fifteen round bout at Madison Square Garden, New York last night.  
Called It Off.  
Baltimore, Oct. 30.—A fight scheduled to take place here last night between Henry Leonard lightweight champion, and Harlem Eddie Kelly, was declared off. The reason given was that there was not sufficient money in the house to pay both men what they wanted. Leonard was satisfied as he got \$2,000 of the receipts in the box office and bond which the promoters had to put up with the state boxing commission, guaranteeing him \$2,000 more.

**Establish New Records.**  
Three records were established in Toronto yesterday afternoon at the Canadian Inter-collegiate Athletic Union meet. Meredith of Manitoba University, threw the discus 119 feet, 6 inches. The 120 yards hurdles record was lowered from seventeen seconds to 16.2-3 by Farthing of McGill. Leigh of Toronto University clipped three and four-fifths seconds from the three mile run. McGill won the dual contest for total points, scoring sixty-two to Varsity's fifty-five.

**FOOTBALL**  
**St. John and U. N. B. Tie.**  
The first game in the Inter-collegiate football league was played in Sackville yesterday between Mount Allison and the University of New Brunswick. Each team scored one try and the game led 3-3.

**St. John at Rothesay Today**  
The St. John High School football team will play at Rothesay today in the inter-scholastic league fixture. A win or St. John will place them on an even footing with Fredericton.

**Games in U. S. Today.**  
New York, Oct. 30.—Two middle west teams will compete with eastern colleges in today's football events. Notre Dame meeting the Army at West Point and Western Reserve playing the Navy at Annapolis.

**Other Important games are:** Virginia at Harvard, Colgate at Yale, Penn State at Pennsylvania, West Virginia at Princeton, Rutgers at Cornell, Syracuse at Holy Cross, Vermont at Brown, Williams at Columbia, Bowdoin at Bates, Connecticut State at Boston University, Tufts at Dartmouth, Wesleyan at Rochester.

**McDraw Pleads Not Guilty.**  
John J. McDraw, manager of the New York Giants, pleaded not guilty to a charge of violating the Volstead Act in New York yesterday. He was released on \$500 bail.

**Thirteen Charged.**  
Chicago, Oct. 29.—Two indictments charging thirteen persons with operating a confidence game and conspiracy were returned today by the grand jury investigating the baseball scandal.

Those indicted are Eddie Cicotte, Joe Jackson, Claude Williams, Fred McMillin, George Weaver, Oscar Feltch, Bill Burns and Charles Rishberg, White Sox players; Arnold Gandil, former White Sox player; Hal Chase, former New York National player; Abe Atli, former boxer, now in Montreal; Joseph "Sport" Sullivan, of Boston, and school boy Brown of New York.

**Fredericton, Oct. 29.**—The tie game played at Sackville today in the eastern section of the Intercollegiate Rugby League between Mount Allison and the University of New Brunswick has created a tangled situation as far as league standing is concerned. In the possible event of U. N. B. winning from Acadia here and Acadia defeating Mount Allison at Wolfville it is possible that the game at Sackville would be declared no game and ordered replayed. The rules of the league as far as the U. N. B. stipulate authorities know contain no provision to meet such a situation and the conference held at Truro left many points in dispute.

Under the rule formerly in effect with regard to touch downs for safety U. N. B. would have won today having touched down once to Mount Allison's two. The rules of the league as they have been printed, however, make no reference to touch down counting in a tied or drawn game and it is taken that there has been a return to straight Rugby.

The result of today's game is a disappointment to the Acadia and black-floppers, who expected a victory. Weather conditions were against good back play. Preparations now will be made for the match here next Wednesday against Acadia.

**THE BOY CHESS WONDER**  
London, Oct. 30.—After a sojourn of three months in this country, during which time he gave convincing exhibitions of his extraordinary skill, Samuel Ranschewski the nine-year-old Polish chess expert, is on his way to the United States having sailed for New York on the Olympic. Accompanying the prodigy were his parents and his manager. While in England he met with quite as much success as on the continent, and of fifty-four games played by him in three exhibitions he lost only one, winning forty-three and drawing three. The little fellow was in great glee when he romped aboard the ocean liner for his first trip across the ocean.

Two burglars entered a room in which four young men were dressing for lunch, made them get into bed and then calmly proceeded to pack up their victim's belongings in two suitcases.

A chance visit of the landlady started the threes on their flight. Peter McCuskey, William Kennedy and Michael Lyons were in their room at 675 Eighth Avenue when there came a knock at the door. In response to a shouted "come in" two men entered, one armed with a revolver, the other with a blackjack. It was about noon.

After ordering the roomers to get into bed the man with the revolver covered them while his companion searched their clothing and packed the contents of the bureau drawers into the suitcases.

While this was going on, John McCern, the fourth roomer, entered the room. He was struck over the head with the blackjack and forced to join the others in the bed. Then there came a knock at the door. It was the landlady with a rug. McCern was sent to the door. He opened it quickly, brushed past the surprised woman and

Not that any of the teams intend paying their players, but there are certain men on the different teams that cannot be dropped from the game, men for instance like Gregory, Lester, Lovell, George Stewart, Jack Twaddle and C. McAvity. Last week the writer was in conversation with Stewart and Twaddle. They declared that they had been in communication with prominent sportsmen in the four towns named, as well as Halifax, and that all places were agreeable to adopt the course. Upper Canadian importations would be barred.

HATS ARE MADE IN BRILLIANT COLORS WITH TILTED BRIMS

(New York Evening Post) It is the privilege of the hat this season to be a bit erratic in its lines, a trifle inconsistent in its trimmings, somewhat contradictory in color principles, but wholly charming and irresistible. In other words, Paris is true to her belief that versatility and the modiste's art are interchangeable terms, broad as the world-wide sources of inspiration which are reflected in autumn and winter millinery.

The Correct Slant. Tip-tilted effects are prominent in several of the dressy chapeaux, especially when composed of black velvet, of which Paris is inordinately fond this season. It is not so much the posing of the hat on the head to get the correctly slanted line as it is the method of placing the trimming wholly on one side to impart a suggestion of over-balance—a delightful dragging down of the brim by the fancied weight of ostrich plume, clustered loops of sash ribbon, or bunches of cog feathers or festoons of beads.

The shaping of many brims to a greater width at the sides helps out the diagonal sweep of the hat brim. It is rather during, very fashioning, and unquestionably effective, especially when the hat is worn with the afternoon dress of formal character. Almost without exception such a type of hat is included in the collections of the prominent modistes among the importations from France. It may be designated as the Gainsborough, brought quite up to date.

An unusual combination of materials is shown in a hat from the Rue Royale, with the crown and top of the upturned brim of navy blue velvet, the brim facing of soft white kid, elaborately embroidered with silver threads and black silk tulle. About the base of the crown is draped a broad ribbon of grosgrain silk, of the same blue shade as the velvet, and finished with outstanding loops at one side. One is doubtful whether to put it in the category with dress hats or with sports headgear. Perhaps it is the latter among the winter chapeaux, intended for women who like to include in their wardrobe a hat which may be worn with the fur jacket, the cloth tailcoat, or the velvet frock.

Colors used are astonishing not alone for their brilliancy and seasonal appeal, but also because of their unusual association. And in this respect the small shapes of Elzane should be given a place all their own. This modiste is very partial to leather, which is footed and colored to give the effect of dull opaque jewels overwrought with faint traceries of woodcut or silk—which seem to have been cast there by a spider

artist. Elzane also employs rose petals applied to the basic fabric of the hat with hand stitching, and confetti of velvet, satin or metal, is another unique media for the expression of color in the new headwear.

While black is overwhelmingly a favorite, and velvet the most popular material, there are certain exceptions that prove the general rule. Such an exception is a Lewis model of black hatter's plush with brim faced with blue ostrich feathers and strands of jet, the latter recircled here and there by great cushions of jet. Lewis has also designed a small hat of sapphire blue velvet, and directly in front has placed a great wing of the same brilliant shade that seems in imminent danger of taking flight at any moment and carrying the hat off with it. It is this very sense of verge and tilt that constitutes the charm of the modiste.

There could be no French season without the sweeping aigrette. The new hats are not content to use only one, but two or more are lavished on both large and small shapes. The natural color has been revived, but black is usually preferred.

Keeps Children Well Makes Them Robust

HERE IS GOOD ADVICE FOR THE HEAD OF EVERY FAMILY. Rapid growth, work at home and in the school-room, are sure to tax the strength of every child, and often prove the beginning of a chain of weakness that lasts through life.

Give your sons and daughters a fighting chance! Give them good home surroundings, fortify them with education—but above all else do everything possible to insure for them perfect health in years to come.

In no way can you destroy weakness and build up health so surely as with Ferronose. It's the concentrated nourishment in Ferronose that enables it to do so much good. It contains the very elements that are useful in building up bone and sinew, in vitalizing and strengthening the blood. The appetite Ferronose brings will gladden any parent's heart, and when color, spirits, vim, and energy increase day by day then you know what grand work Ferronose is doing. Because it makes and keeps you healthy, because it is pleasant, harmless and sure to do enormous good—you and your children should use Ferronose every day. HON. J. A. CALDER'S POSITION. (Vancouver Sun.)

What is the exact political complexion of Hon. J. A. Calder? Probably he would find the question hard to answer himself.

When Mr. Calder joined the Unionist coalition in 1917 he was careful to explain, on many platforms, that the arrangement was only for the duration of the war.

Subsequent events have hardly borne out this promise. True, he is reputed to have come pretty nearly wrecking the Borden combination at one stage by intriguing for the leadership.

Since performing this service he has been moving cautiously. He has avoided committing himself very definitely on the tariff, and has kept away from most of the meetings of the tariff commission, of which he is a member.

This leaves Mr. Calder's admirers a little in the dark. He has the air of a cat poised for a jump but not quite sure where he might land. His present office is comfortable, but he fears it may not be permanent.

A successful mother and daughter banquet was held last evening by the C. G. T. groups of the German street Baptist church, with Miss Dorothy Hunt presiding.
