Republicans, In Cleveland Convention, For World Court

HOUSING BILL MAY BEAN ELECTION

THE PLATFORM IS ADOPTED BY REPUBLICANS

Coolidge's World Court Recommendation is Accepted at Cleveland.

LAW ENFORCEMENT Borah is Choice for Vice-President, But Refuses Nomination.

(Canadian Press.) Convention Hall, Cleveland, June 12.—The Republican National Convention last night adopted its platform as reported by the resolution committee and rejected the La Follette planks. High spots in the platform are:

First, adherence to the World Court as recommended by President Coolidge.

Demand for speedy prosecution of all wrongdoers in official positions, and condemnation of those who "strive indiscriminately to besmear the names of the innocent and undermine the confidence of the people in the government."

A declaration of rigid enforcement of the law, but without specific mention of prohibition.

Railroad Rates.

Scientific readjustment of railroad rate schedules, with a view to encouragement of agriculture and basic industries without impairment of their traffic.

Progressive reduction of the taxes of all the people as rapidly as may be, and the placing of the federal tax system on a sound peace time basis.

Settlement of foreign debts growing out of the war on the basis of the agreement concluded with Great Britain.

Reaffirmation of the belief in the protective tariff policy, with a safeguard authorizing the President to adjust duties to prevent excessive taxes and too high customs charges.

Removal of a pledge to give the wounded and disabled war veteran "that full measure of care guaranteed by an effective administration to which his patriotic services and sacrifices entitle him."

Improvement of the management of the government owned merchant marine, with a view to its ultimate sale to American citizens.

Opposition to nationalization or government ownership of public utilities.

A declaration of faith in the eight hour day for laborers, and pledge to continue efforts to eliminate the seven day, twelve hour week.

Borah Declines. Cleveland, June 12.—President Coolidge conferred today with Senator Borah of Idaho in an effort to have him reconsider his refusal to accept the nomination for vice-president.

Senator Borah was agreed upon by administrative leaders here early this morning for vice-presidential nomination. He later informed them that he would not accept the nomination.

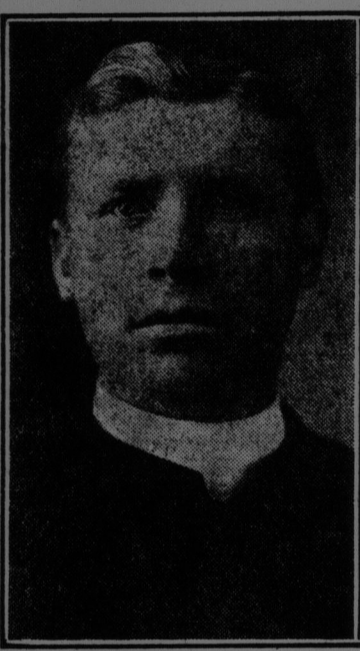

Wild Threats By Young Japanese

(United News.) Tokyo, June 12.—Mitsunosuke Yamamoto, 31-year-old Japanese, appeared at the American Consulate at Yokohama carrying a short sword. He asked to see Graham H. Komper, American Consul, saying that he intended to kill the official if he held up Japanese emigration. Komper said he intended to commit harikari. He was jailed.

Danvers Girl Weds Japanese

Boston, June 12.—It is learned that Miss Frances H. White, pretty art student, formerly of the Back Bay, has carried out her intention to marry Takeji Matsuhara, a Japanese illustrator in New York on May 31. The marriage was admitted by the girl at the home of her parents, Mr. and Mrs. Frank White in Danvers.

Chosen President of Methodist Conference

REV. ROBERT G. FULTON.

ITALY CONSIDERS TANGIER MATTER

England, France and Spain Are Also Interested in The Negotiations.

(British United Press.) Rome, June 12.—Denying a report that Italy has refused to recognize the Tangier accord reached by England, France and Spain, the semi-official Corriere Italiano today declared the accord is still under consideration by the Italian Government's own observations on different aspects of the question.

KEATING IS DEAD

Prominent Writing Man Takes Overdose of Sleeping Potion In Paris.

Paris, June 12.—James Keating, newspaper man and former publicity director of the Czechoslovakian Government, died last night as the result of an overdose of a sleeping potion. He leaves a wife in New York.

Mr. Keating had been well known in magazine and newspaper circles in the U. S. for 20 years. Since his resignation as publicity director for Czechoslovakia he has carried on publicity work both in the U. S. and Europe.

Close More Mills In Massachusetts

Palmer, June 12.—It is announced that the mills of the Thorndike Company, manufacturers of cotton goods, will be closed from June 29 to July 9. The plant, normally employing about 600, is running three days a week. The Boston Duck Company plant in Thorndike, now running three days a week will be closed the last week in July and the first week in August. The mills employ 500.

Argentine Pays Its League Dues

Geneva, June 12.—The League of Nations has received from the Argentine Government 2,333,000 Swiss francs in payment of that country's membership dues for five years, ended 1923. This is interpreted as a revived interest by Argentina in the league. It is hoped in council circles that the Buenos Aires Government will send a delegation to the September assembly.

Wire Briefs

Hong Kong, June 12.—The U. S. army round the world fliers, arrived at Halphong, French Indo-China, on Tuesday afternoon.

Ottawa, June 12.—The Senate will meet at 9 o'clock. In the commons the remaining budget bills will be debated on third reading and estimates will be taken up in supply.

Berlin, June 12.—(Special Cable)—Separatists are preparing a new pamphlet, under the direction of Herr Mathews, according to a dispatch from Cologne. The investigators of the movement hope to launch it in about six weeks.

Budapest, June 12.—(Special Cable)—The United States has refused to participate in the proposed Hungarian loan, it is reported here. The American allotment will accordingly be taken to London. The note bank is expected to open June 24. Currency will probably be stabilized at the present rate.

DOUMERGUE MAY BE NOMINATED AS AN INDEPENDENT

He Asks His Friends Not to Name Him in French Caucus.

VOTE TOMORROW

Painleve May be the Next French President, But Issue Not Yet Clear.

By WEBB MILLER. (United Press Staff Correspondent.) Paris, June 12.—Party caucuses to select a President of the Republic were held today. Leaders of the Left, having driven Alexander Millerand from the Blysee, sought to combine behind a candidate who would be certain of a majority when the senators and deputies vote at Versailles tomorrow.

Painleve's chances were considered best, but the smooth sailing toward the presidency which appeared to lie before the present president of the Chamber was ruffled somewhat this morning by the attitude of President Doumergue of the Senate.

The latter, who has ambitions to be the thirteenth President of France, even if elected on Friday, the 18th, by the thirtieth Legislature, is reserving his decision. This suggested the possibility of his becoming an independent candidate, which would split the Senate and Chamber votes. As against Painleve, Doumergue would draw a number of votes from the Right.

The Senate president intends the presidency of the republic should not be made a party affair, and that a caucus should not be limited to narrow party lines, as proposed by some leaders of the Left.

Under the circumstances, today's caucuses are most important as a means of clearing the situation. France Better.

The French franc continued today to improve, touching 18.75 to the dollar, in the expectation by traders of a stable government of the Left.

In this connection, ex-premier and former President Poincare took occasion to announce that he was not a candidate.

Later, in a communication, Doumergue begged his friends not to propose his name before the Senate.

"In view of the conditions ruling this afternoon's caucus of the Left parties," the senate president wrote, "I beg my friends not to propose my candidacy, because I can't consider becoming a candidate without the Republican Union Party's support, which I consider indispensable to the country's interests."

In spite of his request, however, it was considered most probable in political circles that Doumergue would be an independent candidate tomorrow.

LIFE CRUSHED OUT BY A LOADED CART

William MacDonald of Nelson Killed—Leaves Wife and Small Children.

(Special to The Times-Star) Newcastle, N. B., June 12.—A shocking accident occurred at Nelson about five o'clock yesterday in which William MacDonald, a native of Black River, lost his life.

MacDonald, who was an employee of Flett's brickyard, had been sent to Burchell's mill for a load of wood and was returning home when part of the cart gave way and he was thrown to the ground, one wheel passing over the small of his back.

Neighbors went to his assistance and he was carried into one of the nearby houses and a physician summoned, but he passed away about two hours later. He was 32 years of age, and leaves a wife and three small children.

First Arrival For Rotary Convention

Toronto, June 12.—Scotland and Mexico have sent the first Rotarians to Toronto for the fifteenth convention of Rotary International which will open on Tuesday of next week, in the persons of Thomas Hunter and wife of Edinburgh, Scotland, and Eric G. St. Hill of Monterey, Mexico.

Mr. and Mrs. Hunter are en route to their home after a trip around the world, which began last fall, and has included practically every one of the British overseas Dominions. Mr. Hunter was the official host of Rotary International when it met in Edinburgh in 1921, when he was president of the Rotary Club of that city.

Mr. St. Hill is chairman of the delegation that will represent the seven Rotary Clubs in Mexico at the international convention. He is an official of the Monterey Railway, Light and Power Company.

Jealous of Sister, Girl Tries Suicide

Woonsocket, June 12.—A fierce rivalry between two sisters competing for the affections of Brenton Smith of Providence street, came to light when it was learned that the elder of the sisters, Miss Jennie Doherty, a 21-year-old bobbed hair girl, had attempted to commit suicide by drinking iodine because she felt she was about to be thrown into the discard by Smith, her sweetheart, who had become enamored of her 18-year-old sister, Rose.

The girl made the attempt in the presence of Smith, her sister Rose and other members of her family. She upbraided her sweetheart for transferring his affections to her, and then she tried to end it all, mixing such a struggle to the death to be roughly handled before she could be overpowered.

AMERICAN FLYER IS FORCED DOWN

A Destroyer of U. S. Fleet Will Provide Him With a New Motor.

(United Press.) San Francisco, Cal., June 12.—Lieutenant Lowell Smith, commander of the world-fighter, was forced by engine trouble to land at the little coast town of Hue, in French Indo-China, yesterday, according to wireless advices received here today.

Smith was leading the flight down the coast from Halphong to Turane when the trouble developed and he was forced down.

Lieutenants Leigh Wade and Eric Nelson continued on their southwest course and made perfect landings at Turane.

Anxious they communicated with their commander, and were advised that Smith and his mechanic were safe, and they were not in need of immediate assistance, but that the motor of the "flagship" was damaged beyond repair.

An American destroyer is rushing to Hue from Saigon with a new motor for the plane.

The United States flyers reached Halphong safely from Long and were pushing on to Turane, a seaport town on the east coast of Indo-China.

EXPECTS ACTION ON THE HOME BANK

Judge McKeown's Report Will Hasten Matters Says Lee—Win For Depositors.

Toronto, June 12.—"Things will now begin to move rapidly in the campaign to obtain compensation for the Home Bank depositors," said W. T. J. Lee, chairman of the National Committee and of the Depositors' Council before the Royal Commission last night, in discussing the report of Mr. Justice McKeown, tabled in the House of Commons.

As to the finding by the commission, Mr. Lee said: "On looking it over, it appears to me to be a complete win for the depositors."

A new means of re-education, which has saved hundreds of lives and prevented severe illnesses, was described by Prof. Yandell Henderson of Yale.

Prof. H. N. Cole of Western Reserve University deplored the increasing use of cosmetics.

THE MONARCHISTS STILL HAVE HOPE

Said to Be Organizing Everywhere For Return to Russia.

(British United Press.) Berlin, June 12.—Russian monarchists throughout the world are now organizing, anticipating that the time will soon arrive when they will return to Russia and once more assume power.

M. Markow, one of the leaders, who is adjutant to Grand Duke Nicholas, declares that large donations to the fund are pouring in from all quarters, especially America. He also says that the Czar's mother, who is now living in Scandinavia, refuses to believe her son is dead.

There is a difference between Grigoloff, Nicholas and Cyril regarding the succession, according to M. Markow.

GOES TO JAIL FOR STEALING BICYCLE

Fredericton, June 12.—Trueman Briggs of Minto, between 16 and 17 years of age, who appeared before Judge Slipp at Burton under the Speedy Trials Act on a charge of stealing a boy's bicycle was given an indefinite sentence in the Sunbury County Jail. His release will be determined following the jailer's report of his conduct.

CONCENTRATE NOW ON VOTE IN CITIES

Campaigners in British Columbia Election Gather Forces for Final Week.

Vancouver, B. C., June 12.—With few days left for campaigning before polling day, Friday, June 29, in the provincial general election, interest is beginning to manifest itself. Each party has been making a strong campaign throughout the country for the last two weeks. From now on, attention will be directed by party leaders, more particularly, to the large cities which send several members to the legislature, in an effort to elect a solid contingent which, in the event of anything like an even result in the rural districts, would turn the tide of victory to one side or the other.

SWIFT LIFE OF TODAY DECRIED AT DOCTORS' SESSION

Generation of Jazz Provides More Than the Nerves Can Stand.

WOMAN DEFENDS

Says Flapper All Right—American Medical Assoc. Has Many Topics.

(Canadian Press.) Chicago, June 12.—At the American Medical Association session yesterday this generation of jazz was blamed for the increase in the prevalence of goitre by Dr. G. W. Newell, who declared half of the women and girls in the Middle West were afflicted.

"High-powered motor cars, dances, theatres, cabarets, liquor and the other innumerable factors that play a part in the regular life of many of our urban adolescent youth," he said, "have set such a hectic pace that the human nerve system is not equal to it."

Comes to Defense. The girl of today is something to be proud of, said Dr. Katherine D. Manion, retiring president of the National Medical Women's Association, meeting in connection with the American Medical Association. "The modern girl is the healthiest, happiest girl the world has ever known," she said, "and I wouldn't exchange the modern flapper, as you call her, for any other girl of any other time. Girls used to be dull creatures who sat at home with their knitting, laced up in tight corsets and almost never indulged in any outdoor exercise."

"The girl of today who swims, plays golf, bobs her hair, goes without corsets, wears flat heels, and takes long hikes is something to be proud of. Chaperones are extinct, but only because they are no longer needed. The modern girl can take care of herself."

Her mind is as healthy as her body and her intelligence and independence protect her."

Disagree Over "Easy Death." A disagreement arose among the cancer specialists yesterday afternoon when Dr. Evan O'Sell Kane of Kane, Pa., advocated practicing euthanasia in the cases of incurable patients. He spoke of "an euthanasia for inoperable cancer cases."

Dr. William Held, Chicago, took exception to Dr. Kane's assertions, explaining that euthanasia in simple terms meant "easy death."

"If we should act upon Dr. Kane's suggestion," he said, "having arranged unto ourselves the right to execute called 'life' and should find tomorrow that cancer is curable, we could not return to our former position. In our assumed knowledge, have killed; for killing it is, and nothing else."

A new means of re-education, which has saved hundreds of lives and prevented severe illnesses, was described by Prof. Yandell Henderson of Yale.

Prof. H. N. Cole of Western Reserve University deplored the increasing use of cosmetics.

REDISTRIBUTION

Expected Bill Will Be Ready For Canadian Parliament Soon.

Ottawa, June 12.—Good progress is now reported from the redistribution committee and it is expected that the bill will be ready for presentation to the House before long. At a meeting of the general committee today, progress made in several provinces was reported. The most hopeful sign was the drafting of a tentative plan for Ontario in the sub-committee on that province. As there are changes working out of the details is a matter of great intricacy, but it is likely that the sub-committee will come to a final decision in a few days.

The general arrangements as regard Toronto and Hamilton have already been made public. In the case of London, the other chief city of the province, it is understood that there have been considerable changes. Taking the whole County of Middlesex the west riding is left unchanged, while East Middlesex and London are largely re-adjusted.

Branch Lines Bills Before The Senate

Ottawa, June 12.—(Canadian Press.)—During a brief session in the Senate yesterday branch line bills were considered in committee.

In the House of Commons bills to amend the trust companies act and the insurance act were given first reading. There was brief discussion of the sales tax act, but the chief discussion of the day was on the administration of the Canada Grain Act, an estimate for which, totalling \$1,100,000, was carried in supply. The Dominion Bureau of Statistics estimate of \$200,000 also was carried.

The Stork Is On His Way to Doorn

(British United Press.) London, June 12.—A Berlin dispatch to the London Daily Express states that Princess Hermine, wife of the ex-Kaiser, has received a visit at Doorn from Professor Asch, a well known Breslau physician. The dispatch says it is rumored that an interesting event is expected in the ex-Kaiser's family.

Weather Report

Toronto, June 12.—Pressure is high on the Atlantic Coast and over northern Saskatchewan and low over the southwest states. Scattered showers have occurred in Ontario and the western provinces while in the maritime provinces the weather has been fine.

Forecast: Gulf and North Shore—Moderate winds, mostly fair and somewhat warm; today and Friday, a few local showers. Partly Cloudy. Maritime—Light winds, fair and warm. Friday, moderate winds and partly cloudy. North New England—Unsettled, probably showers tonight and Friday; not much change in temperature; moderate southeast and south winds.

Toronto, June 12.—Temperatures: Highest during the day. Lowest during the night.

"Bad Men" Dine With Bishop; Give Him \$100 For New Church Fund

New York, June 12.—"Bad men" met a bishop one evening this week and instead of getting away with his money they let him get away with a little of theirs. It was an unusual experience for "The Millionaire Kid" and "Dan the Scratcher" and "Hotch Bill" and all the rest of them as it was for Bishop William T. Manning, and it was impossible to tell whether the ex-crooks took more pride in giving \$100 for the building of the Cathedral of St. John the Divine than the Bishop found in accepting it.

It all took place at Luchow's restaurant in East Fourteenth street, where the Marshall Stillman Movement had the Bishop as its guest. Men who had felt the "heat" in Wandsworth Prison or who had dragged around the ball and chain at Trenton, in the days when the ball and chain was there, or who had crossed in the solitary darkness of the cells at Charlestown, Mass., were present and sat and ate and talked, not only with a Bishop, but with a former Police Commissioner and with Judges who had sentenced some of them to prison.

They told of their lives and of how they were not only going straight now but, what was more important, how they were getting others to go straight, too. And then they presented the gift which they had collected in dime from the "underworld" and heard Bishop Manning say that of all the money donated for the cathedral none was more significant than this and none more sacred.

Asquith and Lloyd George Booked—Unionist Statement Soon Ready.

(British United Press.) London, June 12.—While the political situation is uncertain, it is generally understood that the Government has decided that its housing bill will be a first class electrifying weapon; and for this reason, should the opposition succeed in any drastic amendments of the measure, the Ministry will accept the definite challenge and will immediately dissolve Parliament.

The political parties in many constituencies are already preparing for a campaign. The Unionist party in a few days will publish a full statement of principles.

The Liberals are moving to reconstitute their moribund party, and both Asquith and Lloyd George are booked to appear in many of the greater provincial cities.

Asquith is also conducting negotiations with a view to combining the Welsh National Liberal group with the Independent Liberals.

SASKATCHEWAN HIT BY CYCLONE

Lightning Kills Man—House Lifted 50 Feet—Damage in South.

Gravelbourg, Sask., June 12.—One killed, houses demolished, several granaries rolled about the fields in the district between here and Laflesche, and \$50,000 damage to crops was the toll of a cyclone and electric storm last evening. Edmond Demay, a farmer, six miles south of Gravelbourg, was killed by a bolt of lightning.

About 3:15 o'clock a hail storm of cyclonic fury burst out. Fully two inches of hail covered an area about five miles wide and 21 miles long. One mile north of Laflesche the house of Fred Teed was carried 30 feet, and dropped 400 yards away, a heap of splintered wood. Mr. Teed was away at the time.

Galesburg, Ills., June 12.—Damage estimated at nearly \$1,000,000 was occasioned by a tornado and hail storm in this section early today. Considerable livestock was reported killed.

Columbus, Ohio, June 12.—Two men are known to have been drowned in flood waters, resulting from a heavy rainstorm which swept over sections of northeastern Ohio on Tuesday night. Property damage is about a million dollars. At Mansfield two negroes were drowned.

NATIONS' LEAGUE AFTER GERMANY

Exporting Products That Are Stamped "Made in America" is Charge.

(British United Press.) Geneva, June 12.—The council of the League of Nations today decided to summon an international conference at The Hague in 1925, to revise the convention for the international use of trade-marks. It is desired, for example, to limit the alleged practice of German firms of exporting products stamped "made in America."

South Americans were particularly bitter before the League Council today regarding the flooding of South America with goods stamped with false marks or origin.

THREE DELEGATIONS ARE GIVEN HEARING AT CITY HALL TODAY

Louis Connors Told Exemption Likely Granted-Matter of Taxpayers.

Three delegations were heard at City Hall this morning, one from the retail meat dealers of the city, asking for an early closing by-law...

The matter of outsiders getting employment while residents and taxpayers were idle, was brought up by Mayor Potts and he said that no licenses would be issued to these men...

Commissioner Bullock recommended that a lease of a lot on Sheffield street be granted the Exhibition Association...

The Garson Real Estate Co. wrote that a retaining wall at 456 Main street was falling and pushing the building...

Mayor Potts said complaints had been made to him that taxpayers were being discharged by the hydro commission...

Meat Dealers' Request. A delegation from the retail meat dealers presented a petition for by-law making it obligatory on all meat stores to close at 6:30 p.m.

Commissioner Harding said he would be left to the dealers themselves as it would be very hard for the police to enforce such a by-law.

Mayor Potts said he thought the matter should be dealt with in the same way as the grocery stores...

His Worship said that the dealer should be considered as the dealer in Cranstown Avenue.

The delegation asking for the extension of Cranstown Avenue were heard, A. E. Megarity, as spokesman, asked that the rock at the head of the hill be cut away and the street widened...

It was said that L. D. Millard, who is deeding the street to the city if it is developed. It was contended that the street be extended there would be many properties built there.

The Mayor asked if the development of the street be extended there would be many properties built there.

STRIKE VOTE HERE DECLARED LIKELY

FIGHTERS CONQUER L. LOMOND BLAZE

A strike vote, in all probability, will be taken here by the Postal Clerks Association on the provisions of the new schedule, according to a report at the local Post Office today.

Major Potts said this matter must be attended to soon as the day is fastening sore. There were several families in the vicinity using cess pools and these were a menace to the community.

Major Potts said it would be easy to get the guarantee of ten per cent on the cost of the water and sewerage construction and the Mayor suggested that the property owners present such a petition.

As the flames ate their way across about two square miles of territory, no buildings were touched, although the fire came within a few yards of the lumber camp of J. P. Mosher.

By continued effort the fire fighters kept the fire under control all night and during the morning, but about noon it flared up again near Clover Valley. The crews concentrated at this point and it took about an hour to beat the newly awakened fire into submission.

Water and earth were used copiously by the fighters in their battle against the flames.

About noon today Fire Warden Moore, with a crew of about a dozen men, took up defensive positions in the vicinity of the Porter home at Garnet town, prepared to reopen the attack if occasion demanded.

LOCAL NEWS

INFORMATION WANTED.

An enquiry has been received from Melrose, Mass., for information of the whereabouts of Thomas Edward Henderson. Any person having any knowledge of his address is asked to telephone Main 2148.

TELEPHONE CO. WORK. In anticipation of the paving of Main street, Fairville, the New Brunswick Telephone Company is laying a conduit from the railway crossing to Orange street. This will greatly reduce the number of wires overhead and will also lessen the number of poles on the street.

CHALLENGES. The North End Shamrocks challenge the Rocklands to a game of baseball on Saturday afternoon at 2:30. The Wolves challenge the Civics to a game of football on the Barrack Square on Tuesday night. Please answer, through The Times-Star.

LAST CAR CLUB. The Last Car Club met last evening at the home of Mrs. George Reid, St. James street, with a fair attendance and spent a very enjoyable evening. Cards were indulged in, the winners being Mrs. George Reid and Charles Smith. Consolations went to Mrs. T. Vailis and W. Brithen. After the cards a musical programme was enjoyed and refreshments served.

BURIED TODAY. The funeral of John Donnelly was held this morning from his late residence, Colbrook, to St. Joachim's church, Silver Falls, for high mass of requiem by Rev. C. P. Carleton. Interment took place in the new Catholic cemetery.

PYTHIAN VISIT. A large delegation from Sussex Lodge, No. 41, Knights of Pythias, arrived in this city last evening, accompanied by nine candidates for the rank of Knight and made a fraternal visit to Union Lodge, No. 2. The officers and team of Union conferred the degree on the nine Sussex men and some of their own candidates, and at the conclusion of their work were highly complimented on the excellent manner in which its work had been carried on.

DIED IN HAMILTON. A respected former resident of St. John passed away at St. Joseph's hospital, Hamilton, Ontario, in the person of Mrs. Annie E. Bain, beloved wife of H. M. Bain, 445 King street east. She had resided in this city and moved to Hamilton about 15 years ago. She came here from Kentville, Nova Scotia. She was a member of Charlton avenue Methodist church, Hamilton, and took an active interest in all church work. Surviving her besides her husband, is a daughter, Miss Dorothy at home, and a son, Mr. E. H. Doole of Kentville, N. S. Service was conducted at the Charlton avenue church and interment was in Hamilton cemetery.

AN UNSAVORY CASE CAUSES AN UPROAR. Comedian Tinney is Held on Charge of Assaulting "Follies" Girl.

New York, N. Y., June 12.—"Broadway" Tinney has been reported to be threatening his life "what was my apartment. 'Bubbles' kicked down the door and moved in her trunk."

REVOLTERS HAVE WON IN ALBANIA. Property to be Confiscated and Capital Taxed to Pay the Bill.

Vienna, June 12.—The Albanian Consul here received a special telegram Friday, announcing the fall of Tirana and the capture of the city by the revolutionaries.

EMPIRE POLICY EDITORIAL THEME. Beaverbrook's Paper Discusses Remarks of MacKenzie King and Conservative Leader.

London, June 12.—The Evening Standard, owned by Lord Beaverbrook, in an editorial on the gravity of the remarks of Premier MacKenzie King and Arthur Meighen, Conservative leader in the Canadian House of Commons, early this week during the debate on the Lausanne Treaty, says: "The difficulties of a common foreign policy for the empire no doubt are enormous, and while we may need to be reminded that the empire is a world power rather than a European power, the Dominion must also not forget the stern geographical fact that makes the centre of the Empire vitally interested in the vicissitudes of Europe, which for some generations to come may still be the decisive field in world politics."

MARS COMING NEARER. London, June 12.—It will be almost possible to touch the planet Mars with your fingers on August 22. On that date the planet will be as near to the earth as it can be—mere 34,500,000 miles away. Mars has not been that near in 100 years.

CLEARINGS HERE GAIN MILLION

Bankers See Encouraging Sign in Large St. John Increase.

An increase of nearly a million dollars, or nearly one-third more than during the corresponding week last year, is noted in the St. John bank clearings for this week, as reported by the St. John Clearings House Association. The figures are: 1924, \$8,221,769; 1923, \$2,678,357; 1922, \$2,633,751.

That the large increase is due to a general betterment of business is the opinion of banking and financial men to whom the matter was referred today. They say that there were no big transactions between banks, such as the maturing of large bond issues, which would account for the big jump which would account for the increase spread over the ordinary business dealings between the business people and the banks, and between the banks themselves. They took it as an encouraging sign so far as business in general was concerned.

HALIFAX CLEARINGS THIS WEEK WERE \$2,872,359. MONCTON FIGURES WERE \$771,659.

JUNE BRIDES. Weaver-Thomson. On Wednesday afternoon at 3 o'clock in the Church of the Good Shepherd, Fairville, Mrs. Alberta Thomas, daughter of Mr. and Mrs. Fred Nordstrom, was united in marriage to George William Weaver of England by Rev. W. P. Dunham. The bride was accompanied by a maid in a navy blue suit with hat to match, with seal scarf. She was given away by Leonard Oliver, Luncheon was served at Mrs. Leonard Oliver's residence, Fairville.

White-Preston. On Monday evening Rev. R. Taylor McKim, pastor of St. Mary's church, held a marriage service for Miss Jennie Preston, daughter of Mr. and Mrs. J. W. Preston, and Edward White, both of this city. The bride wore a becoming light-colored dress with a navy blue suit. Following the ceremony a wedding supper was served at the home of the bride's parents in Southwark street after which they were tendered a reception. Mr. and Mrs. White will reside in Southwark street. They were the recipients of a large number of beautiful gifts.

PATHETIC CASE BEFORE MAGISTRATE

WAS AT GREAT GATHERING OF MYSTIC SHRINERS

Horace A. Porter, delegate from Luxor Temple, Mystic Shrine, of St. John, to the great convention in Kansas City of the Imperial Council, returned at noon today. W. J. McClavery, second delegate from here, Mr. Porter said, is coming home by way of New York, and is expected here in a few days. The convention, Mr. Porter says, was attended by more than 100,000 Shriners and was one of the most successful ever held. The city spent thousands of dollars in entertainment of the delegates to the convention, one of the features of which was a monster parade.

Judge Henderson says that if St. John had a Juvenile Court in St. John and the Juvenile Delinquent Act was proclaimed, or if the Children's Protection Act of this province provided for action in the case of delinquents up to the age of eighteen years instead of sixteen, he would be greatly relieved in mind regarding a most pathetic case that has been brought to his attention. A girl who is just over sixteen years of age, and therefore cannot be dealt with under the Children's Protection Act, has been guilty of immoral conduct such as could make it desirable for her own safety and the safety of the community that she be placed under special care. She has not, however, been guilty of any act that would bring her under the criminal law, and so the judge is helpless. The girl left her own home, where there are many other children, and has been living with another family and has refused to return. Her father spends a good deal of time in jail. Because there is no law under which this girl may be dealt with, she is free to lead an immoral life, with all that it may imply for her and the community. Judge Henderson said to The Times-Star yesterday that this case presents the strongest kind of an argument for the Juvenile Court.

ARMORIES BOXING BOUTS ARE OFF. It was announced this morning that the proposed boxing bouts which were advertised to be held in the Armories next Monday evening have been indefinitely postponed. Those in charge of the events decided that they did not have sufficient time to properly advertise them and be in a position to conform with the rules of the Boxing Commission.

AGRICULTURAL HALL WAS AFIRE. A fire broke out about 12:30 o'clock today in the old agricultural hall at the Exhibition grounds. The fire started near the floor of the building and was extinguished before great damage had resulted.

SCORES KILLED BY EARTHQUAKE. Great Damage is Done in Balkan Peninsula—People Camp in Woods.

Rome, June 12.—Croat newspapers announced today that several earthquakes had been felt in the Balkan Peninsula since Monday, especially at Cacha Nevesine in the Bosnia-Herzegovina district, where several buildings have collapsed and scores of their occupants were killed.

ST. JOHN MAN MEETS EDISON. Thomas A. Edison, famous inventor, is able to be at his desk daily, according to James G. Harrison, of W. H. Thorne & Co. Ltd., on his return from New York today. Mr. Edison takes a deep interest in the work of his great plant at East Orange, N. J., said Mr. Harrison, who conferred with the great inventor on business matters. Mr. Edison now is in his 78th year.

WEATHER PLAYS TRICK. London, June 12.—On board the White Star liner Majestic, after leaving Southampton recently, friends in one part of the ship were enjoying sunshine while waving to friends standing in deep puddles and under umbrellas on the quay. At the same time the other passengers forward were being drenched by a heavy downpour of rain.

HAMPTON ENJOYS "FAMILY ALBUM"

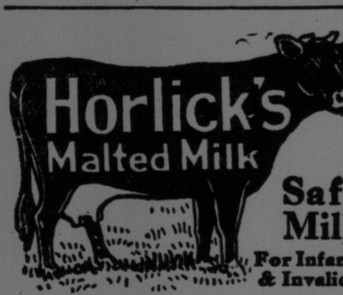

Styles of Past Recalled in Amusing Entertainment—Musical Numbers.

Hampton, June 11—A successful entertainment was given in the Methodist church hall Friday evening under the auspices of the ladies of the church. The idea was that of the old family photograph album, a large representation of which was erected on the platform. The cover served as a door in the structure, the door being opened at the appropriate time disclosing to the audience a living picture which had been preceded by a graphic and humorous description of what the audience was to expect by Mrs. H. A. March. All the pictures were described as relatives of the speaker. Among those taking part were: Mrs. Howard Campbell, Mrs. E. L. Field, Mrs. P. C. Ryder, Misses Lois March, Edith Ryder, Edith Ross, Marjorie Sallows, Mrs. Harry Robb, Miss Gladys McMulkin, E. L. Field, Kilburn King, R. E. March, Cedric Taylor, Robinson Patrick and Paul McMulkin. Showing the pictures in the album was preceded by an interesting programme of music instrumental and vocal interspersed with dramatic readings. Among those who gave numbers were: E. C. Flewelling, G. Kenneth Robb, Ralph March, Jr., Mrs. Douglas Wood, Miss Mildred Ross, Misses Barbara Stevenson, Edith March, Elizabeth Ross, Rev. D. L. Geddings, of St. Martins, Mrs. Howard Campbell. Among the visitors from St. Martins besides those taking part in the programme were Mrs. R. McLeod, Miss Mosher, Miss Gilmour, Mrs. Whitehouse and Mr. Gilmour.

If you've been using, say a 6c. tea (a year ago it cost only 30c.) you have only to buy a 1/2 lb. package of RED ROSE ORANGE PEKOE TEA, the finest of teas, for 43c., and you'll find it goes as far as the other pound. Won't you make the test. You'll be quickly convinced.

TROUBLED WITH ECZEMA ON FACE Very Itchy, Caused Eruptions. Could Not Sleep. Cuticura Healed.

"I was troubled with eczema on my face. It broke out in a rash on my chin and was very itchy. Scratching caused eruptions and in a few weeks it spread all over my face. I could not sleep, and whenever I washed my face I would almost have to scream. I read an advertisement for Cuticura Soap and Ointment and ordered a few samples. I purchased more, and after using two cakes of Soap and one box of Ointment I was healed." (Signed) Miss Kathleen Rothfleisch, Box 40, Duff, Sask.

HOUSE IS BURNED IN ST. MARTINS

St. Martins, June 11—The house on Orange Hill owned by Joseph Bradshaw, partly occupied by him and family and partly by his son, William, and family, was totally destroyed by fire Monday evening. The wind was high and great credit is due those who fought the flames and prevented the fire from spreading. There was no insurance and both families lost most of their clothing and a good deal of their furniture. Mr. Bradshaw is 77 years old and worked in the shipyards for many years. What makes matters sadder still is that Mrs. Bradshaw was away from home attending the funeral of her brother, James Wood.

PROMINENT FARMER DROWNED IN B. C.

Hillsboro, June 11—Mr. and Mrs. Charles Ayer, of Hopewell Cape, have received a telegram bearing the news of the death by drowning of their son-in-law, John Crosby Ward, in a lake near his home at Victoria, B. C., on May 29. Mr. Ward was a highly respected and prosperous farmer, and before going to British Columbia was an extensive farmer in Manitoba. He is survived by a wife and six children. His wife was formerly Miss Maude Ayer, of Hopewell Cape. Mr. Ward with his wife and family have visited Hopewell Cape on several occasions, and the news of his death under such sad circumstances has caused much regret among friends here, who extend their sympathy to Mrs. Ward and family in their sad bereavement.

ALBERTA BEAVERS LOSE THEIR HOMES. Winnipeg, June 11—Northern Alberta, with its millions of acres of timber, is ablaze for 100 miles north of McMurray, with the fire covering a territory from 50 to 75 miles east and west of that place, according to word received from Colonel J. K. Cornwall, forestry superintendent, who declares it is the worst fire in the last 25 years. The blaze originated on the headquarters of a creek where beaver hunters had established a camp. Virtually the entire beaver country has been destroyed. It will be necessary to stop beaver trapping for the next five years. The loss of timber already has mounted into millions.

UNION BILL PASSES FROM COMMITTEE

Church Legislation Turned Over to Commons Again—Amendments Made.

Ottawa, June 11—The bill to provide for the Union of the Presbyterian, Methodist and Congregational churches has now been reported by the private bills committee and is again before the House of Commons. The bill has been amended by the private bills committee in several particulars, but the change which caused most debate was that which provides that the act shall not come into operation until, and unless the courts decide that the Presbyterian General Assembly had authority to agree to union and that the bill is not beyond the jurisdiction of Parliament. Two efforts were made today to have this amendment rescinded, but both motions were ruled out of order. A motion was passed, however, to include in the report of the committee a record of the motion to rescind, and this will bring the whole issue before the House, where the effort to strike out the amendment suggested.

of Lisgar, seconded by G. A. Brethen, of Peterboro East. Mr. Brown first proposed that the report of the committee should be amended to contain a declaration in favor of the rescinding of the amendment referring the bill to the law courts.

Mr. Brown accordingly accepted the suggestion of the chair and this motion was carried. In accordance with this decision the report of the committee will include the following declaration, which is the text of the Brown resolution:

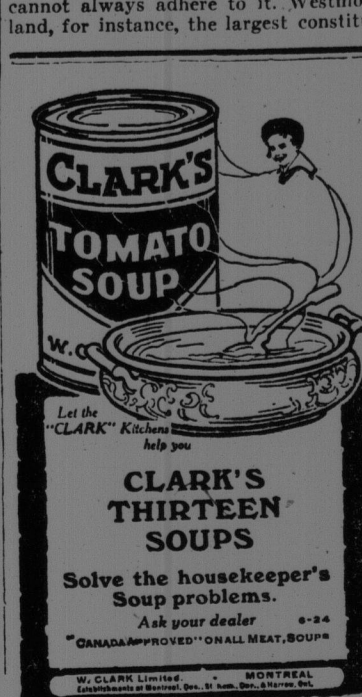

members of the private bills committee sends the church to the very courts which the appeal for legislation was intended to avoid, and thus defeats the purpose of the appeal of these churches;

Senator Robinson Gives the Stand of N. B. on Federal Representation.

Ottawa, June 11—Senator G. W. Robinson appeared before the redistribution committee today and gave an explanation of the situation in the Maritime Provinces, and particularly in Brunswick. Senator Robinson explained that Premier Veniot could not come to Ottawa and had telegraphed him to represent the Government. Premier Veniot said in his telegram: "As a Government, we cannot take part in rearrangement of seats for the province. Discuss our position from point of view of no future decrease of representation."

the great development of the West the whole situation has changed," he said. "It is now one which the Fathers of Confederation could not have foreseen which is one reason why he thought the position of the Maritime Provinces should be given this special consideration asked for."

"It does seem to me," he concluded, "that having such great interests in the matter of ports, interests so different from the rest of Canada, and being practically segregated geographically, it is only fair to take all such matters into consideration and to make some amendments to the B. VETERAN OF WAR HAS PASSED AWAY

Many friends will learn with regret the death of John P. O'Brien, 220 Prince Edward street, which occurred yesterday at the General Public Hospital in the twenty-ninth year of his age. Mr. O'Brien conducted a tobacco store in Prince Edward street and was well known and highly regarded. He served overseas in the Great War for three years. Overseas he transferred to the 44th Battalion and was with that unit at the capture of Mons. He was wounded at Cambrai. Mr. O'Brien returned to Canada in 1919 and carried on his business in St. John. He is survived by his wife and one child and by his sister, Mrs. W. A. Driscoll.

at Oak Point after a lingering illness, leaving his wife, three small children and two sisters, Mrs. Besie Francombe at home, and Mrs. C. K. Cunard, of Jura, B. C. Capt. Balmer was the only son of the late Capt. Matthew and Eliza Balmer, of Oak Point. From early days Capt. Balmer followed the sea, and was the master of several sailing vessels. He was the captain of the ill-fated Ado M. McIntyre that was wrecked on her way from Providence to St. Stephen. It was thought that his illness was hastened by the exposure on that occasion. His wife was Miss Harvey, of Seal Cove, Grand Manan. He was born on June 9, married on June 10, and died on June 11.

DEATHS

George Selridge. The death took place yesterday of George Selridge at his residence, 133 Elliott row. He was in the 67th year of his age. Mr. Selridge was for many years a harness maker for the late Robert Finley, and for 27 years was night watchman in the city market. He had been in poor health for the last four years, and during the last year has been confined to his bed. He is survived by his wife, Robert and John, both of Arlington, Mass. Notice of funeral will be given later.

Fred J. Gorbell. The death occurred Tuesday evening at his home, Cameron street, Moncton, of Fred J. Gorbell, well known in St. John, where he has several relatives. Mr. Gorbell, who was 78 years old, had suffered a broken hip several weeks ago and was seemingly recovering nicely when complications set in and caused his death. He came to Canada from England and lived in Halifax, St. John and Moncton, where he had made his home since 1888. He was employed as a sign painter in the railway shops and was retired on the provident fund about ten years ago. He leaves, besides his wife, one son, A. P. Gorbell, of Moncton, assistant superintendent of transportation of the C. N. R., and two daughters, Mrs. H. B. Wiscaton, of Winnipeg and Mrs. C. H. Dunham, of Culver City, California. Two brothers also survive, S. L. Gorbell, of Toronto, and G. A. Gorbell, of Everett, Mass., as well as one sister, Mrs. Albert Wilson, of this city. Messrs. Sydney and Robson Gibbs are nephews. Robson Gibbs will go to Moncton today for the funeral this afternoon at 2 o'clock.

"I was Greatly Distressed With Pains in the Back"

Mr. Alfred McNeill, Chapel Rock, Alta., writes:

"During the winter of 1920-21, I was greatly distressed with pains in my back and felt tired and depressed most of the time. Particularly during the night I was troubled with frequent urination, some nights having to rise almost every hour. I tried several different treatments without success, until finally I began using Dr. Chase's Kidney-Liver Pills, and they relieved my condition before I had finished the first box. I am feeling better this summer than I have for years, and although in my 67th year, can work all day without any undue fatigue."

Dr. Chase's Kidney-Liver Pills 35 cts. a box of 35 pills, Edmondson, Bates & Co., Ltd., Toronto

FEEL BETTER IN FEW HOURS OR NO COST!

This is the time of year when your liver becomes sluggish and your intestines become clogged up with poisonous waste. Your liver does not properly purify blood that flows to your skin. The result is sallow complexion, dark circles and pimples. As these poisons continue to flood your system, your resistance is lowered, you feel dull and tired and sick.

Make this test! Cleanse and tone your liver with Dr. Thacher's Liver and Blood Syrup. Contains pure ingredients prescribed by Physicians. Helps nature strengthen your stomach, soothe tired and over-taxed nerves, brace up system and purify your blood. Notice quick difference in way you look, eat, sleep and feel. You, too, will be satisfied, as others have, or no cost.

"Did you bring our tickets, Herr Haarsenpfecker?" asked Johnny Jump Up, leaping nimbly up to a green leaf beside him. "Goot evening, mein frends," said the little Dutchman, feeling in one of his enormous pockets. "Yes, I brought three tickets mit me. All you do is to call der timmense and give him dese tickets and he'll ride you across the ocean to Holland quicker dan a small can yawn."

"Oh, are we going to Holland?" cried Nick.

IS URGING WAR WIDOWS TO WED

German Pension Bureau is Seeking Relief From Financial Burden.

Berlin, June 11.—Cupid has been officially recognized by the German Government as a possible aid in helping to solve the country over its post-war financial difficulties. The idea of appealing to the little God of Love to assist in relieving the current expenses of the republic originated with the War Pension Bureau, which for months has been striving to cut down expenditures as a step toward balancing the budget of the Reich.

Every widow of an officer or soldier killed in the World War who has been drawing a regular allowance from the Government is being urged by the Pension Bureau chiefs to look about a bit for another husband able to take care of a wife. By these measures the Pension Bureau hopes to relieve itself of a great deal of responsibility so far as widows are concerned.

Along with the suggestion that widows try matrimony again, the Pension Bureau makes the offer to assist women in finding husbands and also volunteers the information that if Cupid fails to

respond the bureau will help find work for the widows—with the distinct understanding, of course, that they give up their pension claims, which in most cases amounts to something like \$8 a month.

FABLES ON HEALTH

A Child's Curiosity

Once the school had been reached by the Mann child a lot of watching and trouble passed from Mrs. Mann to the school teacher. But when evening came Mr. Mann found that he had upon his hands a veritable question box and more than once Mr. Mann regretted that he had so small a fund of general knowledge at his command. He found himself finding out a good many things that had never bothered him before, and it came to be as much of a game for him as for the child.

USE OF LEAVES IN HAWAII

They Played a Large Part in the Lives of the Primitive Natives.

A study of the uses made by the Hawaiians of the leaves of native trees and plants discloses how essential these leaves have been to the life and habits of the islanders. Among the most important is the ti leaf, an essential article in the Hawaiian household economy. Its broad, lanceolate blades were the sole wrappers used by the people for food both in conveying it and cooking it. It served as a plate and also as a cover when food was placed in underground ovens for roasting.

When bound around the head it relieved headaches, was worn around the neck as a charm to ward off evil spirits and was useful in net fishing. A claim of medicinal properties was also made for it.

The dry leaves of the kukui, or candlenut tree, were wrapped around bananas to hasten their ripening, and effected in three days what would usually require a week's time. Fish were enclosed in them as a protection in cooking rather than for flavor, for which the ti leaf was used. Dry kukui leaves served for polishing woodwork and decayed leaves for fertilizer. The leaves of the papala, which were deeply lobed, were said to render meat tender when wrapped in them overnight.

The long, linear leaves of the lau-hala, commonly called the hala, had a special value with the Hawaiians as well as all Polynesians, being used not only for mats of every kind needed in the house, but for baskets, hats, fans and in some cases for house thatching. The long, pinnate leaves of the cocoonut, like the hala, served in making mats, screens and baskets, and in certain features of house construction. The mid-rib of the lii furnished material for durable yard and house brooms.

The centre of sugarcane leaves was scraped and used for thatching. The ash of the leaf when burned furnished the principal ingredient for black dye. The taro leaf, when cooked, resembles spinach and has a similar taste, and for this purpose two or three of the younger leaf stalks were selected. The mature leaves were found useful as water cups. One of the Hawaiian traditions is that a spring was once removed when all the water was bundled away in taro leaves. Leaves of the bread fruit were used for polishing off canoes, calabashes or woodwork, while banana leaves served a similar purpose as the ti leaves in

protecting food in the underground cooking oven. The leaves of the kamani tree served as wrappers for fish in cooking, more as a means of protection than to insure preservation of flavor. Sweet potato leaves of a certain age, when cooked with hot stones, furnished one of the courses of a native table. They were also used at times for poultices. The male, a small fragrant vine, provided the material for native evergreen leaves.

PASS EXAMINATIONS.

It was announced last night that all of the members of the home nursing class conducted by the St. John Ambulance Association, and taught by Miss Meldejohn in the Health Centre had passed the examinations successfully. The examiner was Dr. G. G. Corbett. Of the 10 members of the class six took the examinations. According to the new ruling of the association, the names of successful candidates are not published until sent directly from the head office.

PUTS HER ON HER FEET AGAIN

Dreco Gives Splendid Help to Montreal Lady Who Had Suffered a Long Time From Rheumatism and Stomach Trouble.

"I was troubled a lot with my stomach and suffered from rheumatism," says Mrs. McGuire, of 447 Bleury St., Montreal. "Dreco, however, has made a big improvement in my condition and my friends are all surprised to see me looking so well."

You, too, can surprise your friends as Mrs. McGuire did if you will but let Dreco correct and regulate your digestive organs. These are the seat of most of our every day ills—dyspepsia, gastritis, nausea, biliousness, dizziness, rheumatism of the joints and muscles, salt in the bottom of those dull, dreary days when everything seems to sag. Imperfect digestion is the cause of weakness and weariness and that tired, worn out feeling, because it is robbing every part of the body of health and strength by its failure to assimilate and transmit to the blood the nourishing values of the food we eat.

Dreco, by toning and regulating all the organs of digestion—stomach, liver, bowels and kidneys—quickly enables them to throw off lethargy. It makes them active and healthy. Clogging impurities are properly passed and a rich stream of well-nourished blood carries strength and vitality to every part of the body.

Let Dreco tone and regulate your system and enjoy once more the pleasure and comfort of a healthy, well-nourished body.

Dreco contains no mercury, potash or habit forming drugs. It is made from herbs, roots, bark and leaves of established medicinal value and is recommended by people everywhere who have experienced its remarkable benefits.

Dreco is being specially introduced in St. John by Ross Drug Co., 100 King Street, Moore's Drug Store, 105 Prince Edward Street, F. W. Munro, 357 Main Street, and in West St. John by Watson R. Dunlop. It is also sold in Fairville by T. H. Wilson, and by a good druggist everywhere.

Social Notes of Interest

Mrs. C. Ross, of Toronto, who is the guest until next week of her daughter, Mrs. Gordon Macdonald, and Mr. Macdonald, has been delightfully entertained this week by her friends. Mrs. Macdonald entertained Monday afternoon at a small tea that was greatly enjoyed by about twenty guests. Margolde centred the pretty tea table where Mrs. E. T. Sturdee presided over the tea. Those assisting in serving were Mrs. Peniston Johnston, Mrs. J. F. H. Teed and Miss Kathleen Sturdee. Among those present were Mrs. Heber Vroom, Mrs. George F. Smith, Mrs. John Macmillan, Mrs. C. H. Fairweather, Mrs. J. Morris Robinson, Mrs. Charles M. Bostwick, Mrs. A. K. Harris, the Misses Gilbert, Mrs. Daniel Mullin, Mrs. Allan G. McAvity, Mrs. Cortlandt Robinson, Mrs. J. V. Anglin, Mrs. deLancy Robinson, Mrs. Mariner G. Teed, Mrs. M. A. Curry, Mrs. W. A. Fisher, Mrs. Fred Mortimer, Miss Alice Fairweather, Mrs. Frank Fairweather and others.

Mrs. Peniston Johnston gave a delightful bridge last evening for Mrs. Ross and Miss Duvernet, of Digby, who is visiting in town. The event was very informal and attended by special friends of the guests of honor.

Mr. and Mrs. John H. Wright, of Groton, Mass., announce the engagement of their daughter, Hattie Northrup, to Mr. George Ernest Bissett, also of Groton, son of Mr. and Mrs. Ernest F. Bissett, of West St. John, the marriage to take place at an early date.

Mrs. O. F. Vaughan and little daughter, Phyllis, who have been visiting Mr. Vaughan's parents, Mr. and Mrs. W. S. Vaughan, left for Fredericton by motor on Tuesday, en route to McAdam where they will visit Mr. Vaughan's brother, Mr. Walter J. Vaughan, and Mrs. Vaughan, before

A party of thirty young people surprised Miss Rita Taylor last evening at her home, 82 Summer street, prior to her departure for Montreal on Saturday, where she will be married next Tuesday to Mr. Roy E. Yail. Many gifts were presented her. Miss Turner will be accompanied by her parents, Mr. and Mrs. Joseph G. Taylor, when she leaves for Montreal. The wedding will take place in St. Patrick's church.

To be invited to the home of a chum and on her arrival there to find friends assembled to tender her a china shower was the pleasant surprise which greeted Miss Theresa Maxwell last evening. The event was held at the home of Miss Helen Cokerly, Douglas street, and the guest of honor was the recipient of many beautiful gifts. During the evening games and amusements were enjoyed and refreshments served. Miss Maxwell is to be a participant in a nuptial event to take place next week.

Mrs. Louis Green, who has been spending the winter in Boston and New York, arrived home Monday for the summer. She was accompanied by her daughter, Mrs. Albert Lyons, of Winnipeg, who will spend some time here. They are guests of Mrs. Green's son and his wife, Mr. and Mrs. Harry Green.

SISTER MARY'S KITCHEN
A Daily Menu For The Stout and Thin

EAT AND--

Lose Weight—Gain Weight

One cup clear chicken broth, 1-4 recipe baked asparagus, 1 cup fresh strawberries, 4 ounces baked bluefish, 1 cup new string beans, 3 ounces onion salad, 4 tablespoons fruit cup, 1 pint skimmed milk, 1 cup coffee with 1 tablespoon cream and 1 level teaspoon sugar, 2 thin crisp biscuits gluten toast, 1 whole wheat roll.

Total calories, 1118. Protein, 269; fat, 37; carbohydrate, 472. Iron, .0168 gram.

If you must have coffee with sugar and cream you must add 100 calories of pure fat for the cream and about 25 calories of carbohydrate for the sugar and figure no iron grams.

The coffee itself or other minerals. The coffee itself has no food value.

To my way of thinking you make a bad bargain when you give up 125 precious calories for a cup of coffee with sugar and cream.

These calories will provide you with six protein calories, three fat and 91 carbohydrate to say nothing of .0060 iron grams and vitamins if you spend them for one good-sized orange. And more than that you will have 25 perfectly good calories left for radishes, spinach, onions or cabbage.

A breakfast of one whole orange, one cup hot skimmed milk and one piece of crisp unbuttered gluten or whole wheat toast will prove its worth before noon time for it will give you something lasting to work on while coffee stimulates for the time but does nothing more.

One cup clear tomato soup, 1 cup fruit salad, 1 cup beef en casserole, 1/2 head lettuce, 1/2 cup cucumber jelly, 2 macaroni, 4 gluten muffins, 1 slice gluten bread, 1 pink skimmed milk.

Total calories, 1018. Protein, 308; fat, 192; carbohydrate, 378. Iron, .0271 gram.

If your daily allowance of calories is around 1200 you can add an apple and a shredded wheat biscuit for your breakfast. If you pine for a chocolate soda don't indulge on the strength of few calories for the day. The chocolate and ice cream add many calories of fat that will undo the work of days, while the apple and "shredded" furnish nourishment and satisfy hunger without upsetting the plan of things.

This menu provides no breakfast. However, a cup of hot skimmed milk might be found welcome.

The gluten muffins are planned for luncheon with the soup and salad.

The casserole of beef is composed of carrots and onions cooked with the beef and string beans cooked separately and added just before serving.

One glass orange juice, 1 cup cooked cereal with 3 large stewed figs and 2 tablespoons sugar, 2 teaspoons sugar, 1-4 cup cream, 1 cup chicken broth with 2 tablespoons boiled rice, 1-4 recipe baked asparagus with 4 tablespoons cream sauce, 1 cup fresh strawberries with 1 tablespoon powdered sugar, 4 tablespoons fruit cup, 4 ounces baked bluefish with 2 tablespoons egg sauce, 1 cup new string beans in cream, 3 ounces onion salad with 3 tablespoons French dressing, 4 tablespoons maple mousse, 1 pint whole milk, 2 bran gems, 4 toasted bread sticks, 2 Parked House rolls, 4 tablespoons butter, 1 cheese cup.

Total calories, 4237. Protein, 629; fat, 1792; Carbohydrate, 1916. Iron, .0191 gram.

Baked Asparagus.
One bunch asparagus, 4 eggs, 1-2 teaspoon salt, 1-8 teaspoon pepper, 4 tablespoons asparagus liquor.

Cut tough ends from asparagus and tie loosely in bundles. Cook in boiling salted water until tender, about half an hour. Cook for the first 10 minutes with the heads out of water, then lay flat and finish cooking. Beat whites and yolks of eggs separately. Cool four tablespoons asparagus liquor and add to yolks. Beat until thick and lemon colored. Beat whites until stiff and dry. Combine whites and yolks. Put asparagus in a buttered baking dish, pour over egg mixture and make in a moderate oven until firm to the touch, about 25 minutes. Serve at once.

Total calories, 424. Protein, 130; fat, 286; carbohydrate, 88. Iron, .0098 gram.

Four stewed figs, 1 cup cooked wheat cereal, 2 codfish balls, 2 waffles, 4 tablespoons creamed potatoes, 1/2 cup fruit salad, 2 cheese cups, 1 cup cream of asparagus soup, 1 cup beef en Casserole, 4 tablespoons boiled macaroni, 1/2 head lettuce, 1/2 cup cucumber jelly, 2 tablespoons mayonnaise, 2 tablespoon pineapple sponge with 1 tablespoon whipped cream, 1 piece sponge cake, 1 chocolate cup cake, 2 pieces yeast loaf, 2 gluten muffins, 2 pieces whole wheat bread, 3 tablespoons butter, 1 pint whole milk, 1/4 cup cream, 1 dessertspoon sugar.

Total calories, 4208. Protein, 431; fat, 1618; carbohydrate, 2519. Iron, .0288 gram.

The lettuce should be dressed before the luncheon and dinner salads. The chocolate cup cake is suggested for the luncheon sweet.

You will like the boiled macaroni with the casserole of beef in place of potatoes.

The fruit salad for this diet is acceptable with a whipped cream dressing.

Gluten muffins are quite as acceptable for the entire family occasionally as for the reducing diet.

Washington, June 11.—The Willis-Campbell law, prohibiting the sale or importation of intoxicating malt liquor for medicinal purposes, has been declared valid and constitutional by the Supreme Court.

Known as the Willis-Campbell appeal, the law was attacked in a brief brought by the James Everard Breweries of New York and by Edward and William Burke, brewers of Guinness stout. It was contended that the national prohibition amendment limited the power of Congress to legislation dealing with the use of intoxicating liquors for beverage purposes and that the states alone had authority under their police powers to regulate the use of liquors for medicinal purposes.

The Federal government and twenty-five states urged the court to interpret the prohibition amendment as leaving in Congress discretion to determine what constituted a legitimate use of intoxicating liquors.

QUEEN WORE THE FAMED KOH-I-NOOR

Gem Worth \$600,000 Seen at Second Court of the London Season.

London, June 1.—(By mail)—A touch of veritable romance was lent to the second court of the season held at Buckingham Palace, when the Queen wore on her corsage the famous Koh-i-Noor diamond.

This marvelous gem, which is valued at \$600,000, is mounted as a single stone. It is the sixth largest diamond in the world, and became one of the crown jewels in 1850, during the reign of Queen Victoria, when it was presented to her by Lord Dalhousie, the then Viceroy of India.

Numbers of legends have centered round the Koh-i-Noor, the name of which means "Mountain of Light." The Duke of Wellington gave the first turn to the cutting of it.

The Queen wore a coronet of pearls and diamonds, diamond earrings, and the Order of the Garter, in addition to the splendid jewel. Her dress was of Wedgwood blue and silver brocade, with a train of shot silver tissue. This was bordered with priceless antique point-to-point Flanders lace, and embroidered with fleur-de-lis in diamante.

The King was in the uniform of colonel-in-chief of the Scots Guard. Lady Patricia Ramsay wore a dress of scintillating gold and silver brocade. Her train was decorated with gold gullpipe lace.

MY DEAR, USE POSLAM FOR THOSE PIMPLES

It will often clear them away in 24 hours, because it is the most CONCENTRATED of skin remedies. Yet its medication is so gentle that it cannot irritate the tenderest skin. If you want a clear, unblemished complexion get Poslam at your druggist's.

5 Operations—15 years suffering with constipation—Kellogg's Bran restores health

Mr. Lansing's case is typical of thousands of others. He found permanent relief from constipation in Kellogg's Bran because it is ALL Bran. Nothing but ALL Bran can be 100 per cent effective. Read what he says:

Dear Sirs:

I have been afflicted with constipation for the past 15 years, and during that time I have been in four different hospitals and submitted to five different operations that were the result of constipation. I was getting so bad that every meal I ate soured on my stomach. Two months ago I was advised to eat your Kellogg's Branmed Bran. I tried it, as I was trying everything I could hear of. From that day on I have never taken a physician. My stomach does not sour any more and my bowels move regularly morning and evening.

Your sincerely,
Frank Lansing,
(Address on Request.)

For permanent relief, eat Kellogg's Bran regularly. Two tablespoons daily—in chronic cases, with every meal. It is guaranteed to bring results, or your grocer will return you money.

You will like the delicious nut-like flavor of Kellogg's Bran—so different from ordinary bran, which are unpalatable. Eat Kellogg's Bran with milk or cream. Sprinkle it over other cereals. Cook it with hot cereals. Try it in the recipes given on the package. Kellogg's Bran, cooked and krumpled, is served by leading hotels and clubs in individual packages. Made in Toronto, Canada. Sold by all grocers.

In New York

New York, June 10.—Comic strip artists lead as troubled existence as any group of men before the public. If their product brings them fame, it is through its human humorous appeal. Then they must continue to be funny to hold your attention day in and day out.

It is very difficult to be snappy, for instance, when a head cold is raging, or when a headache is burning a fever that bakes all ideas before they can drip off a pen onto the drawing board.

Even artists are human and occasionally are "under the weather." Yet they must be bright and cheerful in their daily strip else you soon grow tired of them.

When a strip begins to lose its color and laughter, at that period when the artist needs consolation and encouragement, he is buried beneath an avalanche of criticisms—and frequently never emerges the same.

Just imagine the lives of these funny artists who make you laugh every day. They have the little tragedies that seep into every life. Their mothers die and are buried; they have disturbing quarrels with their wives over trivial and inconsequential matters; their children catch measles and fall down stairs—but every day they must draw their strip.

There is slight distinction between a rogue and a hero.

Detectives arriving at the scene of a big fire, saw a man running from the blaze, arrested him and placed him in jail. He was charged with arson. Many people died in the fire.

It was some time before he proved his innocence, and that, instead of being an incendiary, he was the man who sent in the alarm.

Then he was proclaimed a hero. But the honor was a day late.

We often hear stories of the faithfulness of dogs.

This is the tale of a cat.

His four-year-old master was burned to death in a fire.

Through the day and night, the cat mewed pitifully on the curb before the burned building. It could not be

GERMANY SWINGS FROM REPUBLIC

Signs of Desire for Return to Monarchy are in Evidence.

(By Carl D. Groat, United Press Staff Correspondent.)

Berlin, June 12.—Germany is still a republic. At least, that is the label on the bottle, though now and again one has to shake the bottle well to know exactly what the contents are.

Try for instance to buy a republican flag—black, red and gold—in Germany. The storekeeper looks at you in amazement and then stammers half apologetically, half defiantly:—

"We don't carry republican flags in stock. You see there isn't much demand for them. And, then, one can't tell there might be a revolution and then we'd be stocked up with goods of which we could never be rid."

A bright idea strikes him, though. He can sell the patron material where-with to make such a flag.

That is how the few republican flags in Germany come into existence.

One sees on certain holidays a few flags flying from the government buildings in the Wilhelmstrasse. But otherwise the absence of republican flags in the new German republic may appear trivial in itself, but it is fairly significant of the trend of the times.

Has Hard Sledding. The republic is having hard sledding. It may pull through. France had many ups and downs before her republic was finally established firmly.

But there is a swing toward reaction and toward monarchism that is constantly becoming more and more apparent. The "Deutscher Tag" in Halle was a sample of the movement. This was scarcely ended before the monarchists sought to have new celebrations in Berlin elsewhere, though they encountered governmental prohibitions.

This means little. Germany will have more such days before the summer is out, in all probability.

The Crown Prince and Crown Princess are given ovations when they appear outside Oels. Ludendorff, the beer-cellar Putschist, is a hero to an amazingly large number of his countrymen. Monarchist papers reported, with indignation, that the Crown Prince's son appeared at the Halle "Deutscher Tag" but amazingly kept himself in the background.

Incidentally, the monarchists there overstepped all restrictions imposed by the socialist Prussian ministers—and got away with it.

German laborers, hitherto republican or radical, did nothing to prevent moving extra trains for the Fascisti, though a few years ago they undoubtedly would have sabotaged such a movement. Governmental authorities, announcing that there would be no "special trains" for the Fascisti, subsequently explained lamely that the special trains provided for the demonstrators really weren't special trains.

WILL QUIT SHOPS TO VISIT CASTLES WHEN SIR FRANCIS DRAKE'S MILLIONS ARRIVE

Lima, O., June 12.—James Henry Smith, 68-year-old patternmaker at the Lima locomotive works, may take his vacation now.

He and his brother, Jefferson Smith, living in Oklahoma, are two of 13 heirs to the \$66,000,000 in castles, treasures and spoils left by Sir Francis Drake, famous British admiral and buccaner of Elizabethan days.

For 52 years Smith has not had a day off—with pay.

Now he will take weeks off—and not care about pay.

In his old-fashioned two-story home here, the gray-haired, wrinkled worker unfolded the dream of his youth, when the promise of a fortune might bring about.

"I have always wanted to travel, to see the world, to find out how the rest of the people live," he remarked, "and it looks as though I'll have the opportunity."

"The first thing we'll do when we get the money is travel," and he looked promisingly toward his 64-year-old wife. Mrs. Smith just returned a motherly smile and let him continue.

"Perhaps we shall go around the world. We do not know. But it all depends on our children."

There are eight children, with their own families. But their father has promised not to forget them in his sudden streak of good fortune.

"We shall give a share of the fortune to each of our children, so that they would never want for anything. And we won't be estranged from them."

"Of course, we shall go to Europe and see the castles. If it would be possible for all the children to take their families over there so that we could all be together, we might occupy them ourselves."

"But that's hardly likely. So we'll probably dispose of the manors. I would think of living in England, anyway, with the children here. I've raised them here and I think I'll stay."

"The spirit of his adventurous ancestors, however, will make little impression, Drake couldn't stay home long enough to become acquainted with his neighbors before he was out on another buccaneering expedition."

after all. They were just "extra," because of "heavy traffic."

These are small incidents, but taken in the mass they spell a growth of the monarchist idea.

There are republican elements in Germany—men are women who dread the thought of living again under such autocracy as the Kaiser practiced. But to date their voices have been too feeble, or their courage too small, to stem the growing wave from the other side.

SHOOT MAN WHO TRIES TO GET HIM DRUNK

Dover, N. H., June 12.—Seventy-year-old Orville Hammond, who has a farm in the Boneg Beg section of this town, was arrested by Sheriff Haven A. Roberts, after he had shot Bert Adams, a real estate agent, in the left arm while the latter was visiting him at his home.

According to Hammond's story to the authorities, Adams and a traveling salesman named William Nelson of Sanford tried to get him into an advanced state of inebriation, so they could put over a deal by which they would get control of thousands of dollars worth of his timberland. He declared he shot Adams when the latter refused to leave the premises.

Arrested later in the day, Hammond was discharged for lack of prosecution.

FEW BOBS FOR CLUBWOMEN

Anxious to learn of the extent of the popularity of Dutch cuts, "shingles" and horizontal tapers among clubwomen, Mrs. Grace Morrison Poole, presiding at the convention of women's clubs, now being held at Swampscott, asked the women present to remove their hats, yesterday.

Just six out of the 2,000 women present had bobbed hair.

"The difference between now and later will be a finer home with a cozy fireplace—and servants."

"Yes," Smith said assuredly, "Mrs. Smith will hire servants. Why shouldn't she? She has worked hard all her life and never has known what it is to take things easy."

Ford Cars Reach 10 Million Mark. Ford motors number 10,000,000 was completed at the Ford Motor Company on last Wednesday morning and the 10 millionth model "T" Ford car left the assembly line that afternoon, an event which was celebrated in a formal announcement says.

The first model "T" car was completed Oct. 1, 1908, and it was seven years later when motor number 1,000,000 was produced.

Bridal Lore June's Decree

It is well when entering into such a time-honored state to consult the oracles, and the path for brides to tread has been made extremely narrow by tradition.

To begin with, in her selection of suitable day and date, she must be careful in her choice, and there are also certain days of the week associated with misfortune. The old rhyme is to the following effect:

Monday for wealth, Tuesday for health, Wednesday the best day of all; Thursday for losses, Friday for crosses, Saturday for no luck at all.

For some reason or other June 4 is regarded as the day of days for weddings, and if the happy bride is fortunate in getting that day to fall on a Wednesday, then she should have an extremely successful married life.

There is a rhyme which will assist the superstitiously guided one as to what she should wear. It is as follows: Married in white, you have chosen all right; Married in grey, you will go far away; Married in black, you will wish yourself back;

Married in red, you will wish yourself dead; Married in green, ashamed to be seen; Married in blue, he will always be true; Married in pearl, you will live in a whirl; Married in yellow, ashamed of your fellow; Married in brown, you will live out of town;

Married in pink, your spirit will sink. The bride should see that she does not go to the altar without wearing: Something old, and something new, Something borrowed, and something blue, and also that none of the bridal guests appear at the ceremony in a costume entirely black.

One superstition—it was probably originated in order to snub feminine vanity—must be carefully observed. The bride must not look in a mirror after she is completely attired for her wedding. If she does so ill-luck is sure to follow.

Girl, 16, Fights With Honduras Rebels to be at Side of Her Sweetheart

MARIE PASTORA HERNANDEZ, 16-YEAR-OLD GIRL REBEL.

ANTONIO HERRERA, 16-YEAR-OLD BOY REBEL.

(By BOB DORMAN.)
Berrinche, Honduras, June 12.—Honduras, too, has its women warriors. And among the most famous of these is Maria Pastora Hernandez, 16-year-old Indian girl of the famous fighting tribe of the Ixilua.
Since the beginning of the revolution against the government Maria has fought in all the battles.
Her sweetheart was one of the warriors loaned by General Ferrera to General Tosta to aid in the occupation of the north coast.
Maria could not bear the thought of separation, so went along.
Her only weapon was her machete. Today she carries rifle and pistol in addition, captured from the enemy in battle.
In one of the futile attacks against Cepile, one of the main defenses of Tegucigalpa, Maria fought her way into the trenches of the defenders and carried off one of their flags.
Her front teeth were knocked out by the butt of the rifle in the hands of the man carrying the flag, but Maria used her machete in return with fatal effect.
"I fight because my sweetheart fights. His cause is my cause, and his danger is my danger. And besides it's rather good sport."
After the war, Maria is going to be married.
And it's a cinch that Maria's husband is going to be a model one.
Yes, and Honduras has its boy soldiers, too. Antonio Herrera is only 15, but he has fought all the way through the present campaign with the rebels. At Cepile he distinguished himself by capturing a great amount of ammunition from the government forces.

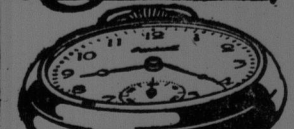

TO ASK TENDERS ON COURT HOUSE

At a meeting of the building committee of the Municipal Council yesterday afternoon at the office of J. King Kelley, K. C., county secretary, power was given Hon. R. W. Wigmore, warden, to call for tenders for the restoration of the old court house when plans and specifications had been prepared by Garnett W. Wilson, architect.
Commissioner Wigmore presided, and other members of the committee present were Councillors Frink, Potts, Bullock, Harding, O'Brien, Bowland and Corsacadden.
The architect submitted sketch plans for the interior of the building and after examination it was decided to restore the building without making any additions, the warden to issue a call for tenders after the detail plans and specifications had been prepared by Mr. Wilson.

FIRE NEAR LILY LAKE

Joseph Tebo, caretaker at Rockwood Park, had a busy time late yesterday afternoon when he discovered a fire in the woods near Lily Lake. It was only after hard work that Mr. Tebo was able to put out the fire. It is thought the blaze was started through the carelessness of a few young men who had been seen in that vicinity previous to the discovery of the fire.

DATE FIXED FOR THE BY-ELECTIONS

New Members of Newfoundland Cabinet Must Go to People

St. Johns, Nfld., June 11.—A Royal Gazette extraordinary was issued this evening setting July 3 as the date for the by-elections made necessary by the assumption of positions of ennoblement by members of the Monroe Ministry. Six of the Government party are affected by the proclamation. They are Hon. John Bennett, Colonial Secretary; Hon. William Woodford, Minister of Posts; Hon. William J. Higgins, Minister of Public Works; Hon. Sir John Crosbie, Minister of Finance; C. E. Russel, Minister of Public Lands, and William J. Walsh, Minister of Agriculture and Mines. The proclamation does not cover the cases of Premier Monroe who is also Minister of Education or of Captain William Winsor, Minister of Marine. It is understood that the House of Assembly will not open until after the by-elections. There are likely to be no contests in the majority of the elections. It is anticipated though that in Harbor Grace District where the Colonial Secretary and the Minister of Public Works must seek re-election, there will be a spirited contest. There is a great deal of speculation as to the part that will be taken in the contest in this section by Sir Richard Squires, who is conceded to have a strong political influence in Conception Bay Districts.

PLEADS GUILTY TO CHARGE OF MURDER

Former Toronto Promoter Before Chicago Court—Brother Indicted.

Chicago, June 11.—Russell T. Scott, former Toronto promoter who is turned robber and shot and killed Joseph Maurer, a clerk in a drug store opposite city hall, in a hold-up, pleaded guilty today to a charge of murder.
Scott and his brother Robert were indicted for the murder. Robert has never been apprehended.

Mothers!

Here is the simple story of Talcum for your Baby

This soft, pure powder combats irritating moisture in the skin—helps (perspiration, bath-water, urine) by its unique-absorbing action.

Mennen's provides a smooth delicate protective film that keeps the rubbing of clothes and bedding from affecting the skin.

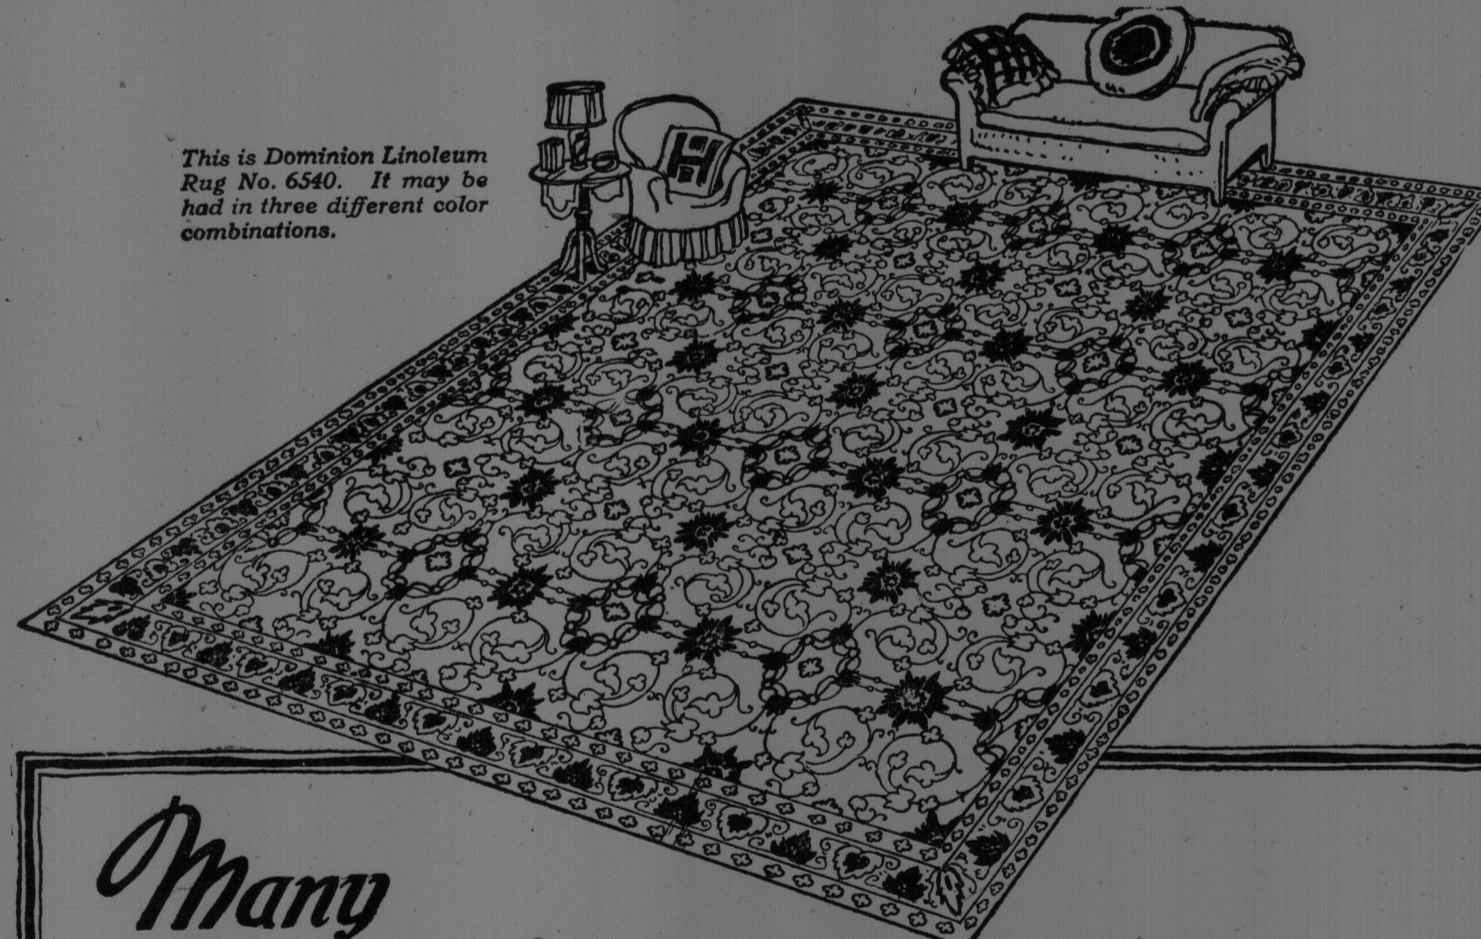

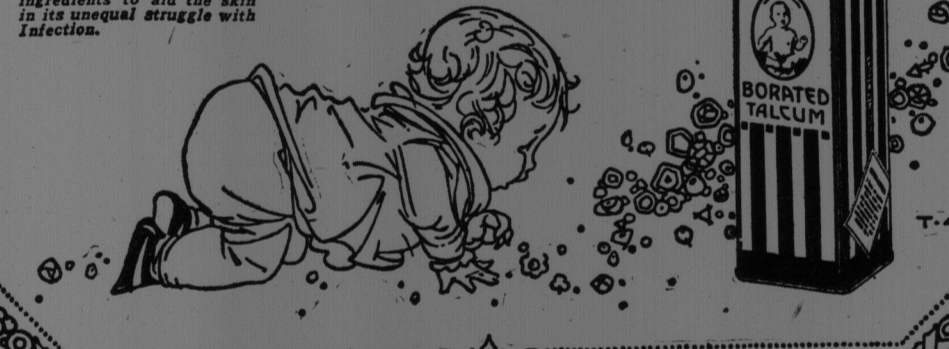

Mennen Borated Talcum protects its still another way. It contains mildly antiseptic ingredients to aid the skin in its unequal struggle with infection.

Is there anything in the world as delicate as Baby's skin? And is there anything so helpless and dependent as a tiny Baby? Yes, constantly, night and day, three unseen enemies are seeking to attack Baby's delicate skin—disturb comfort—and undermine health.
These three foes to Baby's welfare are MOISTURE, FRITON and INFECTION.
Over 50 years ago Mr. Gerhard Mennen—chemist and friend of children—compounded an antiseptic powder for use on Baby's delicate skin; a powder that would protect Babies against those three unseen enemies. It was, in fact, a prescription containing certain medicaments which he knew were valuable in soothing and relieving pains and discomforts to which Babies are subject by reason of their helplessness and their delicate skin.
Since that time—three generations ago—millions of Babies have suffered less pain and enjoyed more comfort due to this remarkable powder which bears Mr. Mennen's name. The original formula still stands—improved, perhaps, by the constant researches of the Mennen Scientists—perhaps more finely balanced—but still the "first" talcum in every sense of the word.

MENNEN BORATED TALCUM

Mennen's is supremely different—it is not just raw talc, but a carefully-compounded prescription containing special antiseptic, absorbent and soothing ingredients.
For the sake of your Baby's health use always Mennen's—the original.

For young growing feet

NO test is so hard on footwear as the wear and tear that active, romping feet of children give to shoes.
And no summer footwear ever made is so durable and economical, at the same time so comfortable and healthful for young, growing feet, as Fleet Foot.

With porous canvas uppers and tough, flexible rubber soles, Fleet Foot gives ventilated freedom to the young, active, growing foot muscles—bare-footed lightness without the risks of bare feet.
Leading doctors and school nurses approve and recommend Fleet Foot shoes.

There's a difference in rubber sole canvas footwear, just as there are differences in hosiery, hats, clothing or almost anything you buy.
When you ask for and get Fleet Foot, you are sure of the best quality and value.

Sunday, June 15th

Everyone has a day but Father. The family breadwinner bears his burdens and smiles on. A day set apart in which some slight remembrance will be given to him will gladden his heart and help cheer him on, and with this end in view, Sunday, June 15, has been set apart in Canada and the U. S. as Father's Day—a day in which we shall express our appreciation of Dad's unselfish efforts by presenting him with some gift. It need not necessarily be expensive—just something to show him he is not forgotten.

Dad has carried heavy burdens of responsibility, endured anxieties, fought difficulties, made innumerable sacrifices for those dependent on him. Popular imagination, demanding some recognition of this, has created Father's Day.

LENT FREED; JUDGE DENOUNCES HIM

Technicality Clears Aged Nova Scotian—Powers Acquitted.

St. John, N. S., June 11—William Lent, 63 years old, of Bear River, charged with detaining against her will Bertha Potter, almshouse girl, who lived nearly nine years with

to the house and could have left it if she wished but she "had no clothes and no place to go." She said that Lent never gave her clothes or money and she had remained behind closed doors because she was ashamed to go out. The jury was instructed to bring in a verdict of not guilty, which it did without leaving the court room.

L. A. Forsythe, counsel for the defence, asked only a few questions of the star witness for the prosecution—Bertha Potter herself. She told the court she always had a key

gone ashore in Boston for orders and the crew forced to transfer her cargo of 1,200 cases of alcohol into motorboats. After this the vessel making and being short of provisions, Mate Powers decided to take the schooner home.

After deliberating less than half an hour a verdict of not guilty was found by the jury.

Made in Black, Tan, Toney Red and Dark Brown. Also White Dressing (cake) and White Cleaner (liquid).

Knocked down and injured by a falling ladder, Miss Nellie Kierstead, High School pupil, whose home is in the Manawagonish road, was rendered unconscious for two and a half hours yesterday, but last night was reported to be making a satisfactory recovery and likely to be able to be about in three or four days.

SCHOOL GIRL HIT BY FALLING LADDER

The case of the King vs. John H. Powers was ended this morning. Defence called only one witness, Powers himself, who was the mate of the schooner Lucille B, when the alleged piracy on that vessel took place in Boston Bay, last August. He was charged with being implicated in the piracy. It will be remembered that the vessel arrived at her home port, Meteghan, in charge of Powers, who explained that Captain LeBlanc had

walking along Bentley street about 1 o'clock, a ladder placed against one of the houses in the street blew over, striking Miss Kierstead and knocking her to the ground. Miss Kierstead was taken to her home and it was not until 3:30 that she regained consciousness.

WOULD ORGANIZE FOR HOME NURSING

Provincial Red Cross Decides to Undertake Arrangement of Classes

A farewell presentation was made to Rev. Canon R. A. Armstrong, first vice-president, at the monthly meeting of the Provincial Red Cross Society yesterday afternoon and a reception was held in his honor at the close. Warm appreciation of his services was expressed.

The society decided to undertake the organization of home nursing classes for women and to ask the Central Council to send an organizer for this purpose. The recent grant from the council to the New Brunswick division was made on the understanding that it would be used for Junior Red Cross and for Home Nursing classes.

A specially significant event in the afternoon programme was the presentation of certificates for Junior Red Cross hygiene and home nursing course to the first class in New Brunswick, the O. B. Ufford group of St. Andrew's church, St. John.

Those receiving certificates from the hands of President Hayes were Amy E. Gill, Caroline V. Bartlett, Mary M. B. Coult, Lillian V. Bartlett, Margaret H. Gray, Isabella F. D. Coult, Margaret W. L. Fortous, Florence M. Christie and A. Clara Robinson.

R. T. Hayes, M. L. A. president, was in the chair. Thanks to Canon Armstrong on behalf of the Department of Health were sent by Hon. Dr. W. P. Roberts. Shediac branch thanked the provincial division for assistance in maintaining its public health nurse. Miss Geraldine Armstrong had replaced Miss Major in that work.

An appeal for interest in the National Conference of Social Workers which commences June 24 to 29 was read. The Canadian Red Cross sent word that information regarding cases which could not be cared for by the Patriotic Fund would be sent to the Red Cross divisions without the cases being notified. Miss Jarvis said the local Red Cross, on account of extra relief calls, realized the withdrawal of Patriotic Fund aid.

Junior Red Cross.

Mrs. Margaret Lawrence, Junior supervisor, reported "Brother Browning" publicity trip, visits to local branches, addresses before the Normal

School, assurance given by French teachers that when the promised French literature was received the teachers would open Junior Red Cross branches, and the sending out of News Letters, including the Fire Prevention number which had brought from very many sources most commendatory reference. There were 21 new Junior branches formed, making a total of 113 branches. Funds received during the month were \$187.50 fees and \$274.44 donations, total \$461.94. There were 1,012 scholars' essays on fire prevention and 42 school resolutions on this subject received, reviewed and forwarded to the Provincial Department of Lands and Mines.

The hospital committee report given by Mrs. Leonard Tilley, told of influence used to get government aid for various cases. Drives were being arranged for the East St. John patients. She appealed for books and magazines and flower for the soldier patients; spoke of a generous gift of a covering for the billiard table in Lancaster Hospital, and referred feelingly to the death of Dr. J. A. McCarthy.

Public Health Nursing. The Public Health Nursing report told of four nurses making 916 visits, supervising 1,772 school children, giving 41 health talks. The nurses are Miss Marion Maloney, Campbellton; Miss Jessie Murray, St. Stephen; Miss Edna Gaunce, Riley Brook, and Miss Geraldine Armstrong, Shediac. Miss Maloney made a plea for support of the Lady Byng camp for under-nourished children.

The meeting voted to loan material and equipment for the camp and to give the salary for the nurse for one month.

Mrs. Alfred Moorsey reported for the St. John branch.

Mrs. John Thomson was to be asked to represent the New Brunswick Red Cross Division at the National Conference of Social Workers in Toronto.

Miss Ethel Hazen Jarvis, secretary, reported on the activities of the month, the work of branches, the arrival of baskets for sale made by River Glade soldiers; receiving 10 appeals for relief, three of which were referred to the Associated Charities, and one to Balfour; investigation of two cases of soldiers stranded in Boston; the sending of notices through the Red Cross nursery at Quebec; to the localities where newcomers had located, and the sending out of the monthly news letter. The report referred with regret to the deaths of the Earl of Ashburnham and of Dr. J. A. McCarthy.

The sewing committee reported 110 garments had been received, while 71 garments and 30 skeins of wool were sent out.

The financial statement showed expenditures as follows:

expenses of depot, \$297.55; salaries and expenses of Junior Red Cross, \$355.48; paid to Dr. T. E. Bishop for Baby Farrell, \$51; Seaman's Mission for rent, \$83.34; hospital committee, \$500; Sun Insurance, \$92.50—total \$1,349.97, and a balance of \$4,608.70.

When Mr. Hayes had expressed to Canon Armstrong the regret of the society at his departure from St. John and appreciation of his work for the Red Cross, Miss Jarvis read the nicely worded address which was handsomely bound in morocco leather. Canon Armstrong made a suitable reply.

At the close of the meeting refreshments were served. Mrs. George F. Smith presiding at the tea table and Mrs. W. H. Shaw being convener of the efficient committee in charge. The new rooms were very attractively arranged and apple blossoms were used for decoration.

The executive of the St. John Red Cross Society has decided to close its fund for the Mahaney quadruplets as the nursing care for the babies is being most efficiently undertaken from other sources, the Women's Institute and the city. A contribution of \$10 for this fund was gratefully acknowledged at the executive meeting yesterday. Mrs. Alfred Moorsey, president, was in the chair. Others present were Miss Alice

Walker, secretary; Mrs. Margaret Lawrence, Mrs. J. H. Dooly, Mrs. C. F. Sanford and Mrs. L. Isaacs.

Arrangements were made for carrying on the health work of the Branch during the summer when no meetings will be held.

ENDORSE HOME BUYING.

Alexandra Chapter of the Imperial Order, Daughters of the Empire, at its closing meeting for this season, voted to give its per capita allotment to erect headstones in the soldiers' plot in Fern Hill cemetery, and heartily endorsed the Buy-at-Home campaign. The meeting was held in Temple Hall Tuesday evening, with Mrs. Hugh R. Fair, second vice-regent, in the chair.

300 SUPPERS SERVED.

The bean supper and sale in the basement of the new St. John's church, in East St. John last night, attracted a large crowd. Rev. F. E. Walker, pastor, was in charge, assisted by a large committee composed of members of his own congregation and friends from the city parishes. The rooms were nicely decorated. Mrs. M. Atkinson was convener for the supper tables. There were 300 suppers served

and the sale attracted many other patrons. The City Cornet Band furnished excellent music. The supper and sale will be continued this evening.

Constant headaches and Dizziness

It is hard to struggle along with a head that aches and pains all the time and in nine cases out of ten the persistent headaches are due to some derangement of the stomach, liver or bowels.

Undoubtedly the cause must be removed before permanent relief may be had.

Burdock Blood Bitters removes the cause of the headaches, as it acts on every organ of the body and strengthens, purifies and regulates the whole system.

Mrs. Peter Curran, 27 Morrison St., Sydney, N. S., writes—"I have been troubled for the last five years with constant headaches and dizziness. After trying several remedies, which I found to be of no avail, Burdock Blood Bitters was recommended to me. B.B.B. did me a world of good, and I cannot praise this remedy enough." Manufactured only by The F. M. Murray Co., Limited, Toronto, Ont.

RECEIVES PARTING GIFT.

The W. M. S. of the Carleton Methodist church at its meeting Tuesday evening decided to combine its annual outing with its August meeting and assemble at that time at the home of Mrs. Alfred Barley at Acornac. Mrs. George Barrett, president, was in the chair. It was decided to hold the September meeting and due day simultaneously. The Watch Tower was led by the president. At the close of the meeting a social hour was enjoyed and refreshments served. Mrs. Bernard Holder who is to make her home in Truro in future was at the meeting presented by Mrs. Barrett, on behalf of the society, with a handsome silk umbrella and half a dozen cups and saucers, at the same time expressing regret at her departure and hopes for her happiness in her new home. Mrs. Holder replied suitably.

GIVE TO SUMMER CAMP.

The fund for the Lady Byng summer camp at Fair Vale grew most satisfactorily yesterday. A kind friend arrived at the Health Centre and presented \$50 and the Provincial Red Cross Society, at its meeting yesterday afternoon, voted to give \$12 as the salary for the nurse at the camp for one month.

Juvenile Court Committee Hears of Meeting With Trades Council

The executive of the Juvenile Court committee convened last night in the Y. M. C. A. with Alexander L. Machum, president, but the attendance was so small, only eight persons being present, that adjournment was made until Thursday, June 26. Six of the co-operative organizations had sent names of their representatives and of the member chosen to act on the executive of the juvenile court committee. All other co-operating organizations were to be requested to have their executive member present at the next meeting and to

forward a list of their appointed representatives by that time. E. C. Weyman reported on the conference held with the legal committee of the Trades and Labor Council with regard to the Council's objections to clauses in the Children's Protective Act which would come into effect were a Juvenile Court established. Those who met with the legal committee of the Trades and Labor Council, besides Mr. Weyman, were A. R. Crookshank, A. M. Belding, Rev. Geo. Scott and A. L. Machum. The conference had been entirely harmonious. Many of the uncertainties and objects of the Trade and Labor Council representatives were cleared up and certain points were to be given further consideration. The legal committee was to report back to the Trades and Labor Council and return with a report from the Council to the Juvenile Court committee. Last night's meeting was to have appointed committees on publicity, literature, propaganda and on interviews with those who had expressed themselves as unfavorable to the project. The work of these committees was considered too important to have their ap-

pointment made at a small meeting and adjournment was decided upon. A. M. Belding pointed out the great need for a vigorous campaign of education with regard to a juvenile court.

CONGRATULATED ON FIRE LETTER.
The Junior Red Cross supervisors yesterday received from the dean of the Forestry department of the University of Toronto a letter of congratulation on the excellence of the Fire Prevention News Letter which the

supervisors had sent out to all the schools in the province in co-operation with the New Brunswick Department of Lands and Mines, and the Department of Education. The dean described the News Letter as containing the best fire prevention week programme for the schools which he had ever seen,

and he said that he felt it must have been of lasting benefit to the pupils of New Brunswick.
An artificial wood made of asbestos and Portland cement is said to be ideal for building fireproof motion picture projection booths.

Stop!

WITHIN a split second the wheels are locked in the implacable grip of the brake and your tires scrape and grind into the road, taking every ounce of strain required to check the impetus of your car.

This terrific strain is not taken merely on the treads—it pulls on every cord and layer of rubber in the inner construction of the tire.

The Web Cord process, by eliminating cross threads, enables the cords to lie flat and even in the layers, thus giving each cord maximum resistance to strain and imparting to the tire body greatly increased strength to resist the pull of the car when the brakes are applied.

Sprayed Rubber used in the Dominion Cord Tires adds strength and resilience to the walls and treads.

These improved processes are used exclusively in Canada in Dominion Royal Cord and U-cord Tires.

They are extra values in Dominion Cord Tires which cost you nothing extra.

CONGOLEUM ART-RUGS

Just the rug for the porch—
sun-proof, rain-proof, easily cleaned!

Let the sun beat on this porch rug! It's a Gold-Seal Congoleum Art-Rug and there's never any fear of its fading. It's just as safe from rain, too, for it is waterproof throughout and cannot rot. It never ruffles in the wind.

For outdoors or indoors—you cannot choose a more satisfactory floor-covering than Gold-Seal Congoleum Art-Rugs. Their varied patterns make them appropriate for any room in the house. Gay floral motifs like the rug illustrated, as attractive in the bedroom as on the porch or sun-parlor; rich Oriental effects suited to living room or dining-room; and a conventional tile design that makes neat bathrooms and kitchens look all the neater!

Congoleum Art-Rugs have a smooth, seamless surface that dirt and spilled things cannot penetrate. With a few easy strokes of a damp mop you can make them fresh and spotless in a moment. What a saving of time and strength! Small wonder these beautiful, practical rugs are so popular with modern Canadian housewives!

No tacks or cement are needed to make them lie flat—they hug the floor of their own accord, never wrinkle at the edges.

These splendid, serviceable rugs are so moderate in price that you will be surprised by their low cost.

for Porter, Hatfield and Gallagher, cleared on Monday.
R. K. Tracey, M. L. A., Centreville,

who spent considerable time here this winter supervising the shipments for Porter, Hatfield and Gallagher, estimated last evening that 600,000 barrels of potatoes had passed through St. John this season bound for the Havana market. This was a considerably greater quantity than had been shipped during the winter and spring of 1922-23, Mr. Tracey said.

In reviewing the last season, Mr. Tracey said that the farmers were exceptionally lucky. Last summer had been a good one for the crop, which were very fruitful. Practically all the potatoes grown had been sold, and all at good prices.

The price was better during 1923-24 than during 1922-23, he said, because of the fact that it did not vary to any extent, always keeping about the same level.

The farmers of the province, he said, were planting more potatoes for seed potatoes than ever before, but only the greatest care would make the yield good. Not a few farmers this year were trying seed potatoes for the first time, and not being familiar with the process were likely to make some had mistakes unless carefully supervised, he said.

Asked concerning the possibility of the backward spring and continued cold and wet weather having any bad effect on the crop this year, he said that if it did not continue he did not think that so far the weather had any ill effect on potatoes other than that it would keep the crop late.

KNIGHTS TEMPLAR BANQUETED HERE

Edwin A. Evans, of Quebec, Supreme Grand Master of the Knights Templar for Canada, accompanied by the Grand Chancellor, W. H. A. Eckhardt, of Montreal, arrived in the city yesterday on an official visit. A special session of St. John DeMolay Preceptory was held in the lodge rooms, Masonic Temple, German street, last night to welcome them.

After an address of welcome was delivered by His Worship Mayor F. L. Potts, who also presented the keys of the city to the guests, a session of the lodge was held, after which the visitors were entertained at a banquet at which Supreme Grand Master Evans was the chief speaker. He thanked the St. John Knights for their hearty welcome and then addressed the members on lodge work.

The Supreme Grand Master and Grand Chancellor are making an official tour of the lower provinces, and will leave tomorrow morning on the steamer Empress for Yarmouth, after which they will proceed to Halifax, Cape Breton and Prince Edward Island, then to Moncton on their way back to Quebec.

A small electric lamp, which can be attached to the handle of a safety razor for shaving in the dark, is being made in Europe.

"I Got It For Passing My Exams"

"GEE, George, I bet my dad will get me a C.C.M., too, I studied hard all year, and I passed my exams. well, I think I deserve a bike, don't you?"

"I hope you get it, Eddie. Then you can join the rest of us fellows in our runs out into the country and our picnics."

"I'm taking mine away on my vacation, too. There are lots of country roads to ride along and dandy woods to explore, some streams to fish in and other things to see, all within easy riding distance."

"Mother says it will be so handy to have a bike around. There's always the mail to go for and other errands to run."

"Well, George, I'm going to get my dad to go with me to the C.C.M. dealer's and see the new models—especially that dandy Curved Bar Sport Model and the other one a boy won't outgrow."

"Don't forget to tell him, Eddie, that C.C.M. Bicycles are away down in price. \$15 to \$20 less than the war prices. Also that they're made of English Seamless Tubing and equipped with the C.C.M. Triplex

Hanger, Gibson Pedals and the Hercules Coaster Brake without extra charge.

"If he says he's short of cash, Eddie, tell him he only needs to pay a few dollars down, and the rest in small weekly or monthly payments."

"And I'll offer to help pay the balance, George. There are lots of jobs for a boy with a bicycle during the summer holidays, delivering small parcels, running messages, and doing other things. It will be good experience and heaps of fun, too."

"Well, 'so long,' Eddie. Go to it and get that C.C.M. Bicycle."

COMBAT BAD DRIVERS

COMBAT BAD DRIVERS. Hartford, Conn., June 12.—Connecticut will take "drastic steps" to combat carelessness of automobile drivers, authorities have announced. Fines and trial fees in Connecticut courts for violation of motor vehicle laws during the first three months of 1924 aggregated \$37,404, an increase of \$26,200 over the same period of 1923.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

Few Broadway Musical Shows Have Legs to Stand On, Although Limbs Valued at Millions Are on Display

Mistinguette (left) has the most famous legs in the world and Vanessa (right) is said to have the most beautiful. What's wrong with this picture?

(By the Nea Play Jury.) New York, June 12.—The August dody which inquires into the affairs of Broadway each week for you is quite out of breath. One girle-musical show has followed on the ankles of another. However, this shortage of breath comes only from the physical effort expended on covering the shows, not from surprise, shock or ecstasy occasioned by anything in the spectacles, as they are called. At the far end of the week, the Foreman of the Jury called for volunteers to review "Keep Kool." The Lady on the Jury had just returned from reviewing "Round the Town" and said she had had enough of that sort of thing for the week. Juror No. 4 reported that if he had to sit through another show like "I'll Say She Is," he would ask to be excused from further duty on the plea that he does not favor capital punishment.

Juror No. 3 pleaded weak vision after witnessing "Innocent Eyes." And so the excuses ran. The Foreman finally went to see "Keep Kool" by himself. As this is written he is seen running around the crown of the Statue of Liberty, shouting to all incoming steamer and first-class passengers not to miss "Keep Kool." "Keep Kool," reports the Foreman, is the finest review of music, fun and girls that he has seen in his fifty-odd years of playgoing. The show is constructed on the general lines of the imported "Charlie's Review," but its wit and its flavor are distinctly American. In the entire evening there is not one obtuse, gauche or vulgar moment. In short, says the Foreman, "Keep Kool" bristles with "class." So much so that featured players such as Johnny Dooley, Hazel Dawn and Charles King are unable to lift themselves to any point of eminence, experienced troupers that they are.

IN COURT

Imogene Wilson, "Broadway's most beautiful," as she appeared in court to prosecute charges of assault against Frank Tinney, popular black-face comedian.

Reverse English

The cameras were set up—The lights arranged—Corinne Griffith was ready—But where was the leading man? Director George Archainbaud sent a hurry call for Milton Sills. A few minutes later the assistant director returned. "Mr. Sills will be on the set in a few minutes; he is waiting his valet." True enough! The famous leading man was making up his personal valet Jack Cliff; that the latter might make his screen debut as a butler in "Single Wives," the Earl Hudson First National Production in which Miss Griffith and Sills are to be co-featured. Reverse English as it were!

In French Opera

Halle Stiles, who still calls Syracuse, N. Y., home, is about to make her debut in grand opera in Paris. She will appear in the role of Manon.

THE APPROACH OF MARS

On August 23rd next, Mars will make one of its closest approaches to the earth within the present century. The two planets will be separated by about 33,000,000 miles, which is, cosmically speaking, a mere trifle. Mars is not actually our nearest planetary neighbor in space, as Venus on occasion comes as close as 26,000,000 miles. But on these occasions the dark side of Venus is turned towards us, and we can see nothing; while Mars, at closest approach, is fully illuminated. As a consequence we know much more about Mars than about Venus. Mars is considerably smaller than the earth. Its diameter is about 4,200 miles, and its volume less than two-tenths of that of the earth. Compared to our cloud-laden planet, Mars may well be described as a world of blue skies and bright sunshine. And this despite the fact that at a distance of about 40 million miles, farther from the sun than the earth, it receives considerably less light and heat than we do. The question presents itself to us whether the planet is inhabited by any forms of life. Vegetation we know exists there. Do animals? Do beings akin to man? These are questions to which no definite answer can be returned. All we can say with certainty is that there seems no reason why such a world should not be inhabited.—The Manchester Guardian.

Teach Trades To Wayward Girls

Los Angeles, Calif., June 11.—Erring girls who come to the women's ward of the city jail here are going to be taught the means of a useful livelihood. The purpose of the training is not only to provide the inmates with education in the manual arts but also to supply them with enough money when they are released to get started on the right track. Recent cases of girls falling into their former ways after being freed from the jail because of poverty has impressed authorities with the need of some means whereby they could obtain enough money to start right. The occupational training, suggested by Mrs. Minnie Barton, chief woman probation officer, was seen as a solution. Under the new system inmates will be taught millinery, dressmaking, fancy work and painting. All proceeds after the cost of materials has been deducted, will be given to the girls.

Firpo's Father Gains Freedom

Buenos Aires, June 12.—Luis Firpo's father has been released from a private asylum in which he was held, being declared of sound mind yesterday by medical officers in court here. Examination of the elder Firpo was ordered by Judge Lavallol following an appeal addressed to the court in which the father of the pugilist said he was being unjustly detained in the asylum at the instance of his son. There is one policeman for each 655 people in England.

Peggy Joyce Still Seeks Matrimonial Happiness

Peggy Hopkins Joyce and her fourth husband, Count Gosta Morner, Swedish nobleman. The court visited Peggy to plead the cause of a friend and a "Miles Standish-John Alden" situation arose. Peggy believes her marriage to the count, who is a Chicago toothpaste manufacturer, will bring the happiness she missed in previous marriages.

"LOVE" ARIA

Here is Mary Garden as she appeared in the court scene singing the "love" aria to beat the deuce in her latest success "La Tancrède." The diva is at Monte Carlo preparing to return to America.

LURE OF INDOORS IS STRONG AT IMPERIAL

"Big Brother" Great Story, With St. John Actor in Leading Role—Concert Tonight. Another very fine summer evening's entertainment is promised at the Imperial tonight when the second concert of this week by the orchestra, in addition to a fine photoplay, will be discussed. The Tuesday evening programme was truly delightful. Miss Galloway's singing and Director Jones' men's playing being of the highest quality, giving rich setting to the surrounding items of film entertainment. This evening the concert will play alone, special numbers being added to replace Miss Galloway, who left for her New York work on last evening's train. The picture which marks this mid-week change at the Imperial is the much-discussed social-reform New York red light district story, "Big Brother," by Rex Beach, and which has been adopted and commended by world-wide Rotary as exemplifying their attitude towards the small boy with only half a chance to rise from sordid conditions. Imperial Theatre officials have received considerable cor-

respondence on this subject from central Rotarians in the United States and Canada, and last evening a representative attendance of the local club saw their big picture. Furthermore, "Big Brother" is especially interesting hereabouts because it depicts Charles H. Henderson, a former resident, in the role of Father Donovan, the righteous and strong-armed means brings about a great spiritual change among the gunmen's gang. Mr. Henderson, who is a splendid player and of attractive personality, was watched with keenest interest by last night's crowd at the Imperial. Director Jones of the house orchestra got a little thrill of his own out of the screen appearance of his brother-in-law, as it was only a few weeks ago he spent a vacation with him in New York and visited many of the places of picture and theatrical production with Mr. Henderson. This is the final night for the "Big Brother" picture. The "Fighting

Blood" boxing romance series will be additional. The concert starts at 8.45. Tomorrow a thrilling melodrama, "On the Banks of the Wabash," will be the extraordinary Vitagraph. It is a story of the "Jim Bludsoe" river-steamer type, with flooded village, fire, etc., and is a mechanical triumph as well as a fine fiction. (Contemporary Verse.) This is a sea-world, dim and green, where misty island-trees are kept, hydangeous blooming, rows on rows, are coral archipelagoes. The tides of mist, all grey and dark, while wind-blown branches full of rain break on the cliff-like window pane. They are the waves that swallow and swish, And passing people are the fish. They swim the tides from isle to isle. And wriggle in the queerest style. Back and forth, now there, now here, And into doors they disappear.
