

The Evening Times

THE WEATHER
Fresh to strong south to southwest winds, mostly fair and milder, light local showers chiefly tonight and on Sunday.

VOL. V. No. 64

ST. JOHN, N. B., SATURDAY, NOVEMBER 20, 1909

TWELVE PAGES—ONE CENT

MONTREAL WIRE NAIL WORKS FIRE
Loss of \$15,000 Caused by Blaze in Peck Benny's Factory—Labor Men For Technical Education

Cambridge, Mass., Nov. 20.—The \$80,000 or more spent for admission tickets represented only a part of the interest in the annual struggle between Harvard and Yale for Eastern College football honors today.

Winnipeg, Nov. 20.—(Special)—At a meeting of the Trades and Labor Council in a discussion on education, several speakers declared compulsory education was of paramount importance, and that the matter should be taken up in the province with energy.

GIRL TOOK RINGS IN DEPARTMENT STORE
Mamie Snyder's Case in Police Court Today—She is Sent Below For a While

Mamie Snyder, a little girl, aged 12, pleaded guilty this morning in the police court to a charge of stealing eight rings from Arnold's department store, Charlotte street.

BELIEVE THIS WILL DEFEAT COTTON CORNER
Manchester, Nov. 20.—At a mass meeting of spinners held last night the recommendations of the Manchester Spinners' Federation that the time curtailment now in force in cotton mills be continued until the end of February, was confirmed.

URGENT MODIFICATION OF INTERSTATE COMMERCE ACT
Kansas City, Mo., Nov. 20.—Modification of the Interstate Commerce Act to procure reasonableness of rates for all and fairness of practice in the operation of interstate railroad lines was suggested by Attorney General George W. Wickersham in an address here last night at the annual banquet of the Commercial Club, given in commemoration of the signing of the John Hay commercial treaty.

COAL GAS CAUSES DEATH OF SISTERS
Philadelphia, Nov. 20.—Gas escaping from the loosened tube of a stove in their room, Fannie Frelisch aged 16 years and her sister, Katie, 12 years old, were found dead in bed here today, both asphyxiated.

MAYORALTY CANDIDATE
Brockton, Mass., Nov. 20.—A vote one-third larger than any before polled at a Republican caucus in Brockton, resulted last night in the nomination of C. Cleverly Eaton over Harry C. Howard, for mayor, by a plurality of 1,104.

DOWN AND OUT, KICKS IN WINDOW TO GET IN JAIL
Boston, Nov. 20.—Because he was out of work, penniless and hungry, Charles A. Proctor, of Bangor, kicked in a window of a store in Summer street, so that he would be arrested. He told his story briefly before Judge Murray, but did not elicit any particular mercy because he was held in \$500 for the grand jury.

SPEND \$80,000 TO SEE GRIDIRON MATCH
Estimate of 40,000 People Gathered This Afternoon to See Harvard and Yale in the Annual Struggle—Weather For the Game Uncertain

Cambridge, Mass., Nov. 20.—The \$80,000 or more spent for admission tickets represented only a part of the interest in the annual struggle between Harvard and Yale for Eastern College football honors today.

MAY START WORK ON REFINERY SOON
The result of yesterday's council meeting, when it was agreed to grant F. C. Durant a site for his sugar refinery at the Charlotte street extension, was generally discussed about the streets today, and the majority of the people seemed to be of the opinion that the scheme had acted wisely.

SPORT AS BUSINESS
Rev. A. A. Cameron, Ottawa Clergyman, Arraigns Professionalism
Ottawa, Nov. 20.—Mentioned in a sermon under the title of "Miserable Men," the football players, it is rough play. Under such circumstances and drill are our young men of today trained.

NOTED FISH MERCHANT HAS PASSED AWAY
Newcastle, Del., Nov. 20.—Joseph H. King, "Shad King Jr.," is dead at his home here. King handled during his half century of business, millions of fish, which were shipped to all parts of the United States and Canada.

PROMINENT MASON DEAD
Concord, N. H., Nov. 20.—Frank Dana Woodbury, secretary of the Masonic grand lodge of New Hampshire, a 33rd degree Mason and a veteran of the civil war, died at his home here last night. Death was due to a paralytic shock.

REMARKABLE MEETING AS CONGO PROTEST
London, Nov. 19.—A remarkable meeting as a protest against oppression and cruelty in the Congo, was held in Albert Hall tonight. The Archbishop of Canterbury presided and every branch of religious opinion was represented.

FATHER TABB, POET, DEAD
Baltimore, Md., Nov. 20.—Father John Tabb, known in this country and Europe as a poet of high merit, died last night in St. Charles College, Elliott City, of nervous trouble.

LIBERAL CHIEF IS 68 TODAY
Sir Wilfrid Laurier Receives Many Messages of Congratulation—Fire in Militia Stores Building in Ottawa

Ottawa, Nov. 20.—(Special)—Sir Wilfrid Laurier is observing his 68th birthday by working. He is receiving many messages from friends all over Canada.

COURT SLAP AT STANDARD OIL
St. Paul, Nov. 20.—The United States circuit for the district of Missouri, today held that the Standard Oil Company of New Jersey was an illegal corporation and ordered that it be dissolved.

FRENCH BUDGET DEBATE
Paris, Nov. 20.—The general discussion of the budget closed last night with a vote of confidence in the government.

GRUESOME WORK IN MINE CONTINUES
Thirty Bodies Found in Great Heap Today—Lay Back of "Fall In" of Gravel, Timber and Coal—All Night Spent Digging Graves

Cherry, Ill., Nov. 20.—A great heap of bodies was reached in the ill-starred St. Paul mine today. In one great pile behind a "fall in" of gravel, timber and coal, explorers discovered thirty bodies.

MACKAYS HAVE NOTHING TO DO WITH THE RECENT MERGER
Clarence H. Mackay Issues Statement on Combination of Telephone and Telegraph Company With Western Union

New York, Nov. 20.—Clarence H. Mackay, president of the Mackay company, issued the following statement to the public yesterday afternoon: "We have had nothing to do, either directly or indirectly with the combination of the American Telephone & Telegraph Company with the Western Union Telegraph Company. We have not wished to join it, and have not been invited to do it."

THE MARKET
The Prices Ruling Today in Country Market—Comparison With Last Year

The country market this morning contained a plentiful supply of farm products, meats and dairy products. The prices ranged about the same as last week, as follows:—Lamb, 10 to 12; beef, 9 to 13; mutton, 18; venison, 16; turkeys, 25; fresh pork, 15; chickens, \$1.25 a pair; wild duck, 75c; domestic duck, \$1.25 to \$1.60; woodcock, 75c; fowl, 50 to \$1.00; geese, \$1.25; butter, 25 to 27; and eggs 30 to 40 cents a dozen.

HYPNOTIZED GIRL
Vassar Students Could Not Awaken Her and There Was Trouble

Poughkeepsie, N. Y., Nov. 20.—Because several girls at Vassar College put one of their number under the influence of hypnotism and were unable to awaken her, the president of the college has forbidden any more practice of hypnotics at this famous girls' school.

DR. GRENFELL, OF LABRADOR FAME, IS MARRIED
Chicago, Ill., Nov. 20.—Dr. Wilfred T. Grenfell, the hero of the Labrador Coast, was married here on Thursday evening to Miss Annie E. MacClanahan, daughter of Mrs. Edmund B. MacClanahan in Grace Episcopal Church. Dr. Grenfell's first met his bride during a trip from England last spring. The young lady is a graduate of Vassar, and has been actively engaged in sociological work in Chicago. After a honeymoon trip which will be attended by a series of lectures by the doctor they will return to Newfoundland by the end of the year and proceed to St. Anthony.

HIS PATIENCE REWARDED
Prince Rupert, Nov. 20.—F. B. Hutchinson waited at the land titles desk for noon till the opening of the office in morning one day this week and then secured a well fenced homestead near Kamitino. The property is valued at \$3,500.

FRENCH BUDGET DEBATE
Paris, Nov. 20.—The general discussion of the budget closed last night with a vote of confidence in the government.

VILLAGE OF SOURIS ABLAZE
Stores, Residences and Church Destroyed—Charlottetown Ruses Engine and Firemen to Aid of the Place

Rear River, P. E. I., Nov. 20.—(Special) A big fire is raging in Souris, a village of 1,000 people, at the east end of the island. The store of J. J. Hughes & Co., and Paquet Bros., valued at \$3,000; the Methodist church, valued at \$1,000; H. H. Aorin's residence and Dr. McLennan's residence, valued at \$1,500, have been destroyed.

McLENNAN HERE WITH DETECTIVE
Halifax Insurance Man, Arrested in States, Being Taken Back

"I don't wish any newspaper notoriety," said Charles M. McLennan, the late provincial manager of the Excelsior Life Insurance Company at Halifax, to a Times man who saw him this morning in company with Detective Hanrahan of Halifax. Detective Hanrahan and McLennan arrived from Dover, N. H., where the Halifax insurance man was arrested, last night and went through to the sister city at noon.

COLONIZATION PLAN FOR NEWFOUNDLAND BY SALVATIONISTS
St. Johns, Nfld., Nov. 20.—Another of the many projects for the utilization of Newfoundland's vast unoccupied interior areas comes from the Salvation Army, which plans to found farm colonies in connection with its immigration department in England. A representative of the army is in Newfoundland conferring with the government officials regarding the proposed settlement.

HAD SPECULATED IN STOCK MARKET
Berlin, Nov. 20.—It is learned that Herr Bothas Paulus Pavlyukoff, the former general agent of the North German-Lloyd in Paris, who committed suicide in Bremen, had not only lost large sums at a gambling club, but had also speculated heavily and unsuccessfully in the stock market.

SCHOOLS, PUBLIC LIBRARY AND AMUSEMENT HOUSES ARE ORDERED CLOSED
Biddeford, Me., Nov. 20.—The people of Biddeford will have less than the usual reason for general thanksgiving during the week because of the alarm of an epidemic of diphtheria which has been prevalent for more than a month, the board of health last night forbade the opening of all schools, ordered the public library closed, placed a ban on the holding of any public gathering and on the conduct of all places of amusement.

DR. GRENFELL, OF LABRADOR FAME, IS MARRIED
Chicago, Ill., Nov. 20.—Dr. Wilfred T. Grenfell, the hero of the Labrador Coast, was married here on Thursday evening to Miss Annie E. MacClanahan, daughter of Mrs. Edmund B. MacClanahan in Grace Episcopal Church. Dr. Grenfell's first met his bride during a trip from England last spring. The young lady is a graduate of Vassar, and has been actively engaged in sociological work in Chicago. After a honeymoon trip which will be attended by a series of lectures by the doctor they will return to Newfoundland by the end of the year and proceed to St. Anthony.

### Between Good Flour and Flour That's Good Enough

THE DIFFERENCE between good and bad, Madam? Just as great as between eggs fresh from the "cuckoo" and others of more ancient vintage.

Just as great as between "all-wool" and "art and art."

Might add that good flour and poor flour are divided by a price difference and, incidentally, a baking difference.

Which explains why you would gladly pay just a little more to get FIVE ROSES certainty.

Because it's worth more, and practically all cheap flours are faultful flours.

FIVE ROSES, Madam, is worth the money.

We are convinced that nothing so rich in the dear-to-the-taste flavor of the ripe, red Manitoba spring wheat berry, so entirely different in general merit has ever been offered to discriminating housewives.

A sound goes farther—in its nutritive strength and absorption powers would make its use economical as much above the price you procure as above the price you receive.

Even if all other millers knew where to get the same plump, sun-ripened, wholesome berries—of course, merely a supposition, you know.

And they had the same facilities for receiving and storing the golden grains, to prevent possible spoiling before reaching the rolls.

And they had mills as perfect as the Kewanee Pure-Food plant to grind the finest grain.

Yet their product would not compare with FIVE ROSES.

Because FIVE ROSES, Madam, is all of those plus the scientific know-how expert skill and long-continued care which no other flour contains.

You must expect to pay for something more than raw material.

It is a fact known to connoisseurs of the feminine persuasion that once FIVE ROSES enters a home, that family is forever spoiled for any other flour.

You know how hard to please your own folks are, Madam.

They'll all like FIVE ROSES.

### WOULD HAVE NO MORE EASY DIVORCE FOR RICH

New York Senator Will introduce Legislation Restricting Present Methods—Favors a National Law

New York, Nov. 19.—Senator Robert F. Wagner, of Manhattan, will, as soon as the legislature meets at Albany in January, introduce a bill restricting present divorce methods.

"I wish," he said, "soon to see a system whereby all cases shall be tried in open court, concealment of nothing, the suppression of no sort of evidence. This I wish in order that there shall be no class legislation in this state.

"I would like to see a uniform divorce law. The law of New Jersey or Ohio.

"A person divorced in New York, with the injunction against re-marriage, may now go into another state and contract a marriage. That is wrong in principle, evil in spirit.

"I do not know whether or not I shall get the bill through the legislature. But there is an evil growing out of the ready and easy method of separation that the law must remedy.

"The churches in opposition to this domestic evil, and our religious organizations have materially assisted in checking it. But, as the American has said, something must be done to make society remember that, with all its money, its influence and its high standing, it is not superior to good morals.

"It is unendurable to have a court hear a grievance, suppress the evidence, and, in the end, direct that the stenographer's transcript be sealed and locked in a vault. That is done because the parties to the action are rich.

### WOMEN FAINT AT FITCH'S LAST DRAMA

"The City," the last play written by the late Clyde Fitch, had its first presentation in New Haven this week at the Typographer under the auspices of the Shuberts.

An unusually brilliant and fashionable audience was present, and profound expressions of astonishment were advanced at the daring profanity and the melodramatic effect of the murder of the heroine in the second act. Two women fainted during this sensational scene and had to be revived by friends.

"The story of 'The City' contrasts life in the country with that in the city, showing that a man's character can never be fully tested until he has lived in a centre of massed humanity. George Elmer, Jr., falls heir to a large fortune from his father, who, although he has been respected and has practiced many unfair methods, the son inherits this tendency, also the secret

**Swiss Food Law**

regulates the kind of material and what proportions may be used to make chocolate. These regulations were adopted by 'Toblers' many years before a standard was set, but added to this there is the secret of 'Tobler's' taste possessed by none other. Manufactured by wonderful electric machines in clean, spacious, spotless buildings. Sold in 5, 10, 20, 40c. packages, and at 50c. per lb.

Imported by Macleod & Langley, Limited, Toronto

### Fashion Hint for Times Readers

**FUR AND FABRIC COMBINED IN THIS SMART SET**

While both muffs and neckwear made of fur are huge in size this season, many of these sets show combinations of the fur with velvet or other fabric, reducing the price substantially. In this handsome set of fitch, or shawl, and barrel muff lynx has been combined with a rich embroidered banding, and the brocade satin, lining of both pieces matches the banding in color effect. The hat is of white felt and royal blue velvet, and shows the high crown of velvet shirred on cords, so fashionable this year.

### THE THREE KEYS BY FREDERICK ORMOND.

(Continued)

"Wait, please! let me finish," Clarita insisted. "Then, perhaps, you will think better of what you were about to say, for I see in the expression of your eyes that it is not pleasant."

"Say on; I will hear you to the end," Carla said.

"It is, perhaps, natural," Clarita continued, "that you should feel as you do toward me, since he was—and I trust, still is—a very dear friend of yours. I do not know, but I think that I might feel the same, if I believed that I had reason to wonder if the republic is retrograding; if, for I am very impetuous—I do not always think before I speak! But now, Miss Trevor, there is no cause, for the harsh things you have said since you came here, I forgive you. Can we not be friends?"

"One hand out hesitatingly, and took a step forward. There was entreaty in her eyes and in her voice. She really desired to be friends with the girl whom Morris loved, for, as yet, she had not guessed the horrible conviction that was in the other's mind.

"Friends with you?" exclaimed Carla, with such wretched contempt that Clarita involuntarily shrank away. At a sudden now, she understood, and, before the realization, she covered as from a blow. It was a gesture which Carla misinterpreted, for she regarded it as an acknowledgment of guilt. "Do you suppose that I do not know?" she continued, with increased scorn. "And why else do you suppose I broke the engagement? Who supports you? Morris Lathrop? Who money purchases the luxuries with which you are surrounded? Morris Lathrop's? Who hires your apartments for you? He does! Who has moved you about from place to place, from apartment to apartment, less your address and your existence should be discovered? Always Morris Lathrop! And you dare to stand there with your baby face and innocent air, and ask me to be your friend! I would sooner fuddle a snake than touch your hand. You talk about your return belonging to God! It belongs to Morris Lathrop, for you sold it to him in return for jewels and dresses, a luxurious home. And you have the effrontery to propose friendship with me!"

Still Rita did not speak. She could only gaze upon her accuser in a wide-eyed horror too profound for expression; and she shrank farther and farther away, until at last she placed her hand upon the back of an upholstered chair, and leaned upon it, utterly overwhelmed.

"I wonder if you realize how I despise myself for coming here," Carla continued. "It lowers me on the moment to your own level, and that is beneath contempt. But I wished to see you; I wanted to see a woman who would sell herself for cash; I wanted to see a woman who, although devoid of heart and soul and decency, yet possessed the witchery to catch men's eyes."

"Stop!" cried Rita, suddenly, and her voice rang clearly. There was no more shrinking in her attitude. Her light form seemed to grow taller, as she left the chair against which she had been leaning, and with firm tread approached near to Carla. The pathetic tenderness and sorrowful sympathy were gone from her eyes. The horror was still there, but through it sparkled indignant protest, righteous anger, and unalterable resolve. "You go too far, Miss Trevor," she said, with emphasis. "It is you who should feel the shame, not I! You came here, uninvited, to my house—and for what? To insult me! That is the act of a lady? You accuse me of things that I cannot mention, and you know in your own heart that you are

you left this house in the company of my father. You have returned; you enter the room with the air of a master—you are the master here! Do I need a greater assurance?"

With a slow gesture, she turned then, and pointed one finger at Clarita. "She has not denied it," she continued. "She could not—she does not, for it is the truth! When I accused her of it, she could only cover, like the guilty thing she is. She could not say: Oh, how I love you—yes, she admits that much. I do not doubt that she will continue to lavish her love upon you, such as it is, until she finds another who has more money to give her, or who wins her fancy for the moment. Why, she thinks, now our engagement is broken, that you will make her your wife, that you will—"

"It is false, Morris! Do not believe her," and gently put an arm around her. She nestled against him, and grew calmer. Then, very quietly, but very firmly, he spoke; and his face wore the smile that had been his since he had seen her. "Lathrop stepped to her side instantly, and gently put an arm around her. She nestled against him, and grew calmer. Then, very quietly, but very firmly, he spoke; and his face wore the smile that had been his since he had seen her. "Lathrop stepped to her side instantly, and gently put an arm around her. She nestled against him, and grew calmer. Then, very quietly, but very firmly, he spoke; and his face wore the smile that had been his since he had seen her."

**CHRISTMAS TOYS**

Thousands Find Employment in Their Manufacture in German Cities—Millions Exported

(Washington Post.)

While few persons are yet thinking of the coming Christmas, although it is less than two months distant, the toy-makers in other parts of the world, the principal American dealers are preparing to meet the demands of the boys and girls of the country. Thousands of small hearts will soon begin to warm up to "Old Christmas," and it may interest them to learn something of the home of the real Santa Claus—the German toy-maker.

For many years, reports an American consul, Nuremberg has been the centre of the toy trade of the world, the principal products being metal toys of infinite variety—tin soldiers, engines, railways, musical instruments, swords, rattles, etc., and to some extent wooden and paper-board toys, blocks and puzzles. About 12,000 persons are employed in this industry in the twin cities of Nuremberg and Euerth, the half of whom are women and girls. The workshops, with their so-called trade secrets are very closely guarded, and it is difficult for a stranger to gain admittance. The wages of female employees are 3 1/4 cents per hour, while those of male workmen are about 10 1/4 cents. They work nine and one half hours a day, with one hour less on Saturdays.

The total value of the toy output of this district during 1908 was \$4,000,000, which is 25 per cent. under that of 1907. The toys were exported to every land on the globe, but considerably more than one-third came to the United States. Our imports of toys from Nuremberg were: 1904, \$938,477; 1905, 1,137,157; 1906, 814,739; 1907, 823,939; and 1908, 1,266,845. In addition to the total value of exports to the United States during 1908 must be added marbles, celluloid toys and rubber balls, the value of which was \$80,669. It may surprise most people to know that Nuremberg last year for the amusement of the American boys. More than three times as many celluloid toys were bought in Nuremberg for the United States in 1908 than in 1907.

DONALDSON LINER ATHENA SIEZED

Attached in Montreal in \$10,000 Action by Widow

(Montreal Gazette.)

A writ of conservatory attachment has been issued by Chief Justice Tait against the Donaldson liner, Athena, in a \$10,000 action brought against the company by Dame Delina Jodoin, for damages for the death of her husband, Mrs. Jodoin claiming that this procedure was necessary in order that she might obtain security against the owners of the Athena in her suit. The attachment was accordingly issued yesterday morning, and served on the vessel late in the afternoon. The writ provided that in order to remove the vessel from Montreal, the company must put up security for the amount of Mrs. Jodoin's claim, \$10,000.

As the Athena is due to sail for the last time this season from Montreal at 11 o'clock this morning, arrangements were at once made by Messrs. Bedford Co., Montreal agents of the Donaldson line, to furnish the necessary security, and the vessel will not be delayed.

The woman is suing the Donaldson line on behalf of herself and her minor children for \$10,000 damages for the death of her husband, Ernest Beaudou, who was killed on July 30th last. He was employed as a seaman on the Athena, when his head was caught between a big block of stonework and a track and crushed so that his skull was fractured, causing death. The plaintiff claims that defective apparatus was furnished for the unloading and that the work was done under improper and dangerous conditions.

In support of the application for the seizure it was set up that the Athena flew the Donaldson line flag as a trans-Atlantic liner. While there were other steamships coming to the port flying the same flag and doing business under the same firm name, it was alleged that these belonged to other proprietors, and that, therefore, the Athena was the only property of the defendant which could guarantee the plaintiff's claim, while the owners of the Athena were a company not registered or incorporated in Canada. Under these conditions Mr. St. Julien, who appeared for the plaintiff, argued that, without a writ of conservatory attachment against the Athena his client would be exposed to the loss of her legal recourse.

NORTH POLE PAJAMAS. The small boy may now frolic about before bedtime in a delightful pair of pajamas, decorated with polar bears and Eskimo folk printed in color thereon. Of course the most North Pole-looking suits of this kind will be pure white, but there are also pink and blue pajamas with white bears and Eskimos which are calculated to please the most fastidious small kiddie. The printed outfit, flannel lined, comes by the yard, so that both pajamas and warm little bath robes in Eskimo style may be made up for all the little folk at very little cost.

AN AUNT TABITHA TEA COSY. Nobody quite so fascinatingly quaint ever presided over an afternoon tea table as Aunt Tabitha. In her full, gathered gray mohair frock, sheer, snowy white apron, fichu and cap, she stood among the blue china tea cups on a most delightful little tea table drawn up before a friend's cosy fireplace the other afternoon. Her gathered skirt, however, was really a practical tea cosy, as she explained; the upper portion of her figure being simply a little kid doll, with china head. Much of the charm of Aunt Tabitha's tea cosy was due to the old-fashioned navy blue hair gown and the exquisitely hemmed lawn cap, fichu and apron.

Those Corpuscles

In your blood, - red and white, - keep you well if they are healthy, cause you sickness if diseased. To make any body feel unwell and healthy, it is to have pure blood, freedom from disease and vigorous health. The chief purpose of Dr. Roddick's Sarsaparilla is to do this, and its success is attested by thousands of wonderful cures. Cures of all blood diseases, eczema, rheumatism, catarrh, etc. Hood's Sarsaparilla today.

CANADA WILL HAVE A MEDICAL COUNCIL

Dr. Roddick Says it Will Come Within a Year

(Montreal Witness)

"I think we can safely say that the Act for the establishment of a medical Council in Canada will become operative within a year from the present time at the very most."

This was the remark made this morning by Dr. Roddick in summing up the business at the conference of physicians from all parts of Canada, held yesterday in the Windsor Hotel. The act, which was passed in 1902, is the result mainly of Dr. Roddick's own efforts, was framed for the purpose of establishing a qualification for medical men which would be acknowledged and accepted in all parts of the Dominion of Canada. At present there are no fewer than eight examining and licensing medical bodies in this country. Some of these are doubtless doing good work and keeping up, or at any rate assisting in, keeping up the standard of medical education, but their usefulness is limited to the territories over which they have special control. Barriers have been erected around these eight territories so that it is practically impossible for a medical man, for a graduate in medicine, to receive a qualification to practise in more than one of the provinces. The barriers are so marked, so strong and so high, that very few indeed have the opportunity of representing the profession of medicine in more than one province. The frontiers are so closely watched, Dr. Roddick declares, that medical men were fined, and in cases where this fine had not been paid, imprisonment had been threatened simply for the reason that the medical board of the Province of Quebec insisted that he shall begin by passing the matriculation examination of that board.

One of the conditions of the passing of the bill was that all the provinces should agree to it. Four agreed to it, but some objections were raised by the others. These objections were considered at the meeting yesterday, and as a result some amendments were agreed upon which Dr. Roddick will ask the Federal House to make in the bill. These amendments have to do mainly with the representation of the various provinces on the proposed Medical Council.

MORE PLAYGROUNDS NEEDED.

At the meeting of the executive committee of the Toronto Playgrounds Association, it was decided to have Dr. L. H. Gulick, of New York, address the association early in December, in Association Hall, on supervised playgrounds. The establishment of a playground at Arnold square was recommended, and a petition will be forwarded to the city, asking that a building be set aside for a skating rink in Exhibition park. Some people look upon the ship of state as a political band wagon.

RELIEF FOR WHOOPING COUGH HORRORS

While ranked as a childish disease, whooping cough not seldom fastens on adults, and in such cases it leaves a train of horrors behind it. The direct mortality from this disease is small, but every physician has learned that after the terrible terrific weakness and that pneumonia and consumption very often overcome the adult that has emerged from the strain of the whooping cough itself. In children nervous affections follow an attack of the disease in plenty and in one case out of every two there causes a tic of the nervous system and a weakness of the throat and lungs that is filled with danger. So whooping-cough, which is absolutely a disease of the nerves, although not popularly classed as such, has been carefully studied by nervous specialists, two of whom in Paris, Drs. Boie and Triboulet, have spent much time in watching the effect of morphine during whooping-cough. They have reported on 26 cases carefully treated by them personally and of the whole number, 18 cases were cured in six weeks' time. Now the period for whooping cough is given as nine weeks. Moreover, in these 18 cases the attacks of coughing were much relieved by the injection of morphine. This treatment is said to have no bad effects from the morphine and many physicians in France have begun to follow the methods of Messrs. Boie and Triboulet, who are among the leading experimental scientists in European medicine. Beaded bags of antique design are the smartest things for the opera bag.

House Furnishings

Wool Blankets We have many lines in the way of Wool Blankets to offer, and this is just the weather for a reminder. We are offering a Silk Bound Blanket, extra size, \$2.75 pair

Also another Special in All-Wool \$3.19 pair

Wadded Comfortables, beautifully finished and well filled with good White Cotton, and covered with Silkoline. Prices from \$1.50 to \$3.50

Trimmed Millinery

Exclusive models, \$6.00 to \$9.00 values, at half price \$2.75 to \$4.50 Smart exclusive Model Hats, no two alike, every one a pretty high class conception, will be offered tonight at these prices.

Men's Furnishings for Saturday Night

Men are always wanting a new tie, pair of Braces, Collars, Socks, or a nice neat Shirt, and they want the best at a saving to themselves. Daniel's is the very place to get them. Come in and see our range of Neckwear at 25c and 50c. Also our stock of Underwear, 85c. to \$1.25. Special Cashmere Hose, 19c.

HALLEY'S COMET

by Frederic Campbell, Sc.D. PRESIDENT of the DEPARTMENT of ASTRONOMY, BROOKLYN INSTITUTE.

The Tail a Searlight, Millions of Miles Long—When the Earth Passes Through a Comet's Tail—The Nature of the Solid Nucleus—Earthy Substances in Heavenly Vainants—How a Dark Comet Becomes Light and Grows Its Tail—Head First and Tail First—The New-found Pressure of Light—How the Sun Tears Comets to Pieces—Meets on the Small Bits of Old Comets

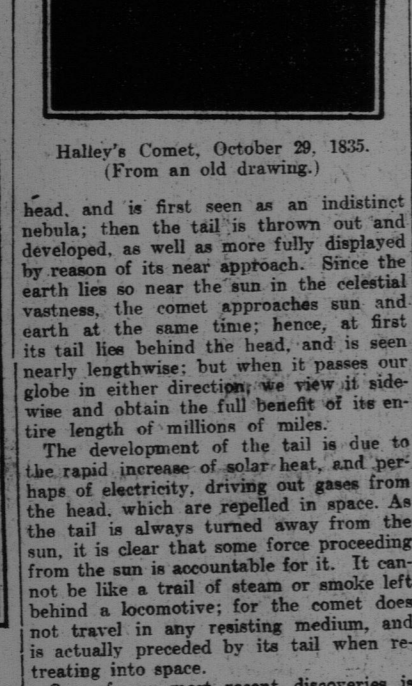

(Copyright, 1909, by Frederic Campbell.) In preceding articles we have inquired into the appearance, distance, dimensions, date, course and history of that stupendous object, Halley's comet, which is just unshathing its sword to suspend it over our gully heads for months. It is now time to make an investigation into the nature of so extraordinary an object.

regarded as equal to a ball of iron of 150 miles diameter, it manifests not here we have something truly substantial. The nucleus then is the real comet. And this is conceived of, not as a solid sphere, but as a mass of oblong, uncertain size, held together by their mutual gravitation, and all moving under the influence of the sun.

particles by corpuscles proceeding from the sun with enormous speed. Hence they are swept back into space in the form of a tail, whose light is chiefly, if not wholly, reflected sunlight, while that of the head is partly reflected and partly the outcome of energies set into action by the sun's influence.

Halley's comet, January 28, 1835. (From an old drawing.)

Halley's Comet, October 29, 1835. (From an old drawing.)

Halley's Comet, October 29, 1835. (From an old drawing.)

head, and is first seen as an indistinct nebula; then the tail is thrown out and developed, as well as more fully displayed by reason of its near approach. Since the earth lies so near the sun in the celestial vastness, the comet approaches sun and earth at the same time; hence, at first its tail lies behind the head, and is seen nearly lengthwise; but when it passes our wise and obtains the full benefit of its entire length of millions of miles.

The development of the tail is due to the rapid increase of solar heat, and perhaps of electricity, driving out gases from the head, which are repelled in space. As the tail is always turned away from the sun, it is clear that some force proceeding from the sun is accountable for it. It cannot be like a trail of steam or smoke blown behind a locomotive; for the comet does not travel in any retreating medium, and is actually preceded by its tail when retreating into space.

One of our most recent discoveries is that of the force exerted by light itself. No less than 20,000 tons of light pressure are received by earth from the sun, and its law is that this force rapidly increases with the division of the object into smaller particles. The substances expelled from the nucleus of a comet by the sun constitute the most finely divided matter conceivable; hence, the most sensitive action of light. Some think that there is an actual bombardment of these

A NEW WAY TO REGAIN HEALTH AND HAPPINESS

The Old Way.

Long ago, when I first lifted my voice of warning against drugs and patent medicines and began my first fight in favor of Electricity as a curative agent, I found anything but smooth sailing against superstition and prejudice, but knowing I was on the right track, I pounded away, backing my judgment with what money I had, and have lived to see the great change of sentiment that has now come over the public.

The New Way.

The old methods are wrong, I tell you; the whole scheme is wrong. I have proved to the world that nearly all human ailments can be cured by removing the primary causes, and if you will come to me, if you will read my book, which is free for the asking, you can learn something about this subject that will interest every Man and Woman who is in search of Health.

PAY ME WHEN CURED

My Belt is a success. It is a remedy built upon solid scientific fact. Already it is proved that my Belt is a cure for hundreds of ailments that drugs and other remedies have failed to cure. For weak and broken-down men and women my Belt is the only logical remedy—the only effective remedy.

Free Book

Every man who admires the perfection of physical strength should read my beautifully illustrated Book. It tells how I have lost and how I restored my health with my Electric Belt. I will send this book absolutely free, upon request. If you are not the man you should be, write to-day. I have a book for women also.

Put your name on this coupon and send it in. M. C. McLAUGHLIN, 214 St. James St., Montreal, Canada.

YEAR AT BOYS' FARM WAS SUCCESSFUL

Annual Meeting of Directors of Institution for Delinquent Boys at Shawbridge. Shawbridge, Nov. 20.—At the meeting of the Board of Directors of the Boys' Farm and Training School for Delinquent boys, at Shawbridge, a remarkably successful year was reported.

AMERICAN SHIPPING TOTALS 7,388,755 TONS

Report of Commissioner of Navigation Shows, in Foreign Trade a Loss of 53,000 Tons During Year. Washington, Nov. 20.—The commissioner of navigation has reported to Secretary of the Department of Commerce and Labor that the total documented shipping of the United States on July 1, 1909, comprised 56,283 vessels, 7,388,755 gross tons—larger tonnage than under any foreign flag except the British, 18,000,000 tons.

Hear it yourself - the Edison Phonograph

You cannot judge the Edison by hearing other kinds. The Edison is the sound-reproducing machine at its best. It is not a talking machine. It is a Phonograph reproducing every sound faithfully—the long exactly the way the singer sang it; the long exactly the way the orchestra played it; the two-step exactly the way the band rendered it. That is the Edison Phonograph as Mr. Edison makes it—the object of his constant daily care.

THE BATTLE AGAINST BOVINE TUBERCULOSIS

Veterinary Record of London Has Article of Interest to New Brunswick Owners

In view of the recent appointment of an International Commission to consider the control of bovine tuberculosis in the United States and Canada, the following extract from a late issue of the Veterinary Record of London, Eng., is of considerable interest to Canadian stock owners.

"An instructive moral can be drawn from the comparison of the two utterances upon tuberculosis which we printed last week. Both were by men having exceptional knowledge of the disease, who, speaking to very different audiences, dealt with the question from equally different standpoints.

"Sir John McFadyen, addressing an audience of agriculturists in Cheshire, avoided the question of legislation, and confined himself to explaining the disease itself, and advising the individual owner how best to combat it. It is needless to say that this talk was admirably performed, but some who read the report of it, must have wondered how many of those receiving such advice—even from so high an authority—are likely to seriously attempt its adoption. An answer to that query is to be found in the paper by Dr. J. G. Rutherford, the Veterinary Director-General of Canada, read at the International Congress on Tuberculosis at Washington.

Washington. This is not a popular lecture, but an expert's contribution to the deliberations of experts. It deals, not with individual effort against the disease, but with the far more difficult problem of how best to organize national effort. Two points stand out clearly, and will be endorsed by all practical men. A national campaign against bovine tuberculosis aided by compulsory legislation—whatever its provisions—will be a much more difficult undertaking than many theorists even yet suppose. But no effective control of the disease is possible in the present generation, without compulsory legislation.

Had Weak Back. Would Often Lie in Bed for Days Scarcely Able to Turn Herself.

Weak back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged. Those who have never been troubled with kidney troubles do not know of the suffering and misery which those afflicted undergo.

They begin by hating the kidneys to such a degree that they are ready to do anything to get rid of them. They begin by hating the kidneys to such a degree that they are ready to do anything to get rid of them.

Doan's Kidney Pills are a specific for all kidney troubles.

RELIGION AND EDUCATION

An English Authority Professor Sadler, Expresses His Views

(London Standard.) No one speaks with greater weight on education than Professor Sadler, who, in his recent presidential address to the Teachers' Guild, said these words:

"There is something emerging from the study of natural science a temper and attitude of mind intimately favorable to religious thought, and preference to any plan of early education which would exclude from the child's training help in learning to believe and become acquainted with the facts of spiritual experience."

The professor insists that religious teaching must be maintained, and that the teacher should be free to teach in the way in which he feels in which he himself believes, and to the extent to which his parents so desire.

Professor Sadler is a man of high standing in the educational world, and his views are of great weight. He is a man of high standing in the educational world, and his views are of great weight.

Fifteen Years of Agony

"Fruit-tives" Promptly Cured Him After Doctors Had Failed to Give Relief.

(London Daily Mail.) The Tower of London has the most perfect system of burglar alarms that has yet been devised.

From Scotland Yard, from the governor's headquarters and from other places known only to a few responsible officials the whole tower can be closed electrically within a few seconds.

The man who got away with any of the crown jewels deserved them, observed a Tower official, "from where I am standing I could see every important door and gate in the Tower in an hour or so it takes me to utter these words."

It was mainly to insure the safety of the Tower on Saturday night, greatly to the alarm of the visitors found doors locked, looked and barred against them for about ten minutes, preventing anyone leaving the Tower.

"The Tower simply closed—that is all," remarked an official, "who caused to do so we do not know. It might have been Scotland Yard, where the pressing of a button would have caused the alarm to be given, or it might have been the governor, anxious to learn whether we were all at our posts. At any rate, it was none of the minor officials."

"In fact, who closed the Tower and why is a secret known only to the highest authorities. There was no alarm—at least not to the Crown jewels."

GUARDING TREASURES IN LONDON TOWER

System Most Perfect Ever Devised—An Electrical Contrivance

(London Daily Mail.) The Tower of London has the most perfect system of burglar alarms that has yet been devised.

From Scotland Yard, from the governor's headquarters and from other places known only to a few responsible officials the whole tower can be closed electrically within a few seconds.

The man who got away with any of the crown jewels deserved them, observed a Tower official, "from where I am standing I could see every important door and gate in the Tower in an hour or so it takes me to utter these words."

How to Get Fat Free Don't Be "All Skin and Bone" When You Can Speedily Become Plump and Attractive.

50c. Box of New Discovery Mailed Free

"Gee! Look at that pair of skinny scrawners! Why don't they try Sargol?" This should attract the eyes of every healthy, scrawny, cadaverous man or woman who reads this paper.

No one knows the mortification that thin persons suffer but they themselves. Thin folks get the sneers and rebuffs. Scrawny men never look like real men and they are crowded aside in the race for success.

By special arrangement, all readers who are lacking in bodily development and symmetry can make a test of Sargol, free of charge. All you need to do is to cut out the coupon below and send it today with your name and address to the Sargol Co., 245 J. Herald Building, Full details will be sent with the free trial.

COUPON. This certificate and 10 cents entitles the holder to one 50-cent box of Sargol, including postage and handling charges.

Gold Dust Washing Powder or something inferior—there is no middle ground. Buy GOLD DUST and you buy the best.

FIVE THOUSAND KEEP BEES IN ONTARIO Government Will Be Urged to Take Steps to Arrest the Black Brood Pest

"That the Ontario Beekeepers' Association view with alarm the prevalence and spread of the disease, Black Brood, and that the government be urged to take immediate steps to locate every infected with the disease, and that it take measures to secure control of all such bees, and to rub themselves with a sulphur ointment in order to be perfectly guarded against infection; the house will not approach them nor remain upon them should it accidentally effect a lodgment."

Does not Color the Hair Ayer's Hair Vigor is composed of Sulphur, Glycerin, Quinine, Sodium Chloride, Castile Soap, Alcohol, Water, Perfume. Show this to your doctor. Ask him if there is a single injurious ingredient. Ask him if he thinks Ayer's Hair Vigor is made from this formula, is the best preparation you could use for falling hair, or for dandruff. Let him decide. He knows.

FRUIT CURE FOR RHEUMATISM AND DYSPEPSIA

The simple life nowadays is considered as more efficacious for health seeking than any amount of doting and pills, and certainly the first step to be taken by the wealthy individuals whose poor health comes from overfeeding and late hours.

Dr. A. W. Chase's Kidney & Liver Pills. Stand in high favor with men and women of advanced years, because they quickly awaken the liver and ensure regular healthful action of the kidneys and bowels.

Constipation.

No one need expect to be healthy if the bowels are allowed to become clogged up. A free motion of the bowels daily should be the rule with everyone who aspires to perfect health.

Costiveness or constipation clogs the bowels, chokes up the natural outlet of the system, and retains in the system impure, causing back, dyspepsia, headache, biliousness, eruptions, pimples, boils, blotches, etc.

For sale by all dealers. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

RAILROAD TROUBLES

They Are Many and Varied in the Mountainous Region

A colony of beavers built—no body knew for many years ago—a high dam blocking the narrow mouth of a valley lying between two lofty peaks in the Canadian Rockies.

Presently the engineers who were building the first transcontinental railroad in eastern Canada to the Pacific, located their line at the bottom of a deep gorge several thousand feet below the beaver dam.

FOR THE MOTORIST The motorist who is his own chauffeur finds the full pleasure of motoring, and the driving of a car over a stony road requires quick eyes, a steady nerve and case of body, a good training and exercise for the average man.

SCHOOL FOR NURSES IN PHILADELPHIA Free Scholarships Available—Work May be Carried to Other Cities

Philadelphia, the city of brotherly love, has an exhibition of the best work in the work of the Philadelphia School for Nurses, which is of surpassing interest in the care of the sick, the education of nurses and the promotion of public health and sanitation.

HOW THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by HALL'S CATARRH CURE.

Two Chances to be Happy. He—Do you think those who marry young are as happy as those who marry later in life? She—Well, if one marries young, there is always a chance to marry later.

WILLIAM WILSON & SONS (Established 1816).

MANTLE DEFEATS NEILL IN ELEVEN ROUNDS AT SACRAMENTO

Three Good Runners Already Entered for the Every Day Club Sports—Ring, Baseball, and General Sporting Matters

Sacramento, Cal., Nov. 19.—Al Neill's seconds threw up the sponge in the eleventh round last night and gave what was to have been a twenty round fight to Frank Mantle of Rhode Island. Mantle had the better of Neill from the start.

Billy Turley, Canadian 112 pound boxing champion of 1908, who has been in England for some time, where he was runner-up in the English championship match, says he is coming back to Canada in the spring. He has won many battles in the old land.

Tom Davies, the boxer, who enjoyed a good reputation in boxing circles in Montreal last season, has returned to that city and wants to make a match. He would prefer Patsy Haley. Davies offers to stand Haley inside ten rounds, provided the latter gets down to 118 pounds. Arrangements can be made with Davies' manager, J. H. A. Anderson, room 204 New York Life Building. Davies has been working since last summer and is in fine trim.

Hockey

Monahan may not have much hockey this year. According to the Vancouver press some of the members of last year's team are attacked with the travel fever again and "are not much disposed to talk their probable location during the winter months, but it has been stated that a couple of the forwards on the local team have been offered pretty good inducements to go to Colorado and hold down jobs on the silver-town's sepiette."

A man from Ottawa professes to be able to throw a little light on the "dickies" between Bruce Stuart and the Jubilee Rink Wanderers' management on the one side, and Bruce Stuart and the Ottawa Pacific on the other. It seems that the Wanderers offered Stuart more than \$20,000 to go to Ottawa and manage the Ottawa team. Stuart refused the offer. A gentleman who is said to call his dogs or a crimp would be put into the aspirators to be negotiated with Stuart dropping immediately.

It is announced that Steve Vair, who finished last season at centre for Montreal Wanderers, will fill the position again this season.

Five positions on the Ottawa team are now filled for certain. Lehmann in goal; Fred Taylor and Lake in the defence; Walsh at centre again, while young Kerr, the nineteen-year-old figure on the other side, Herb Clarke is booked for the other. Stuart is slated for the rover position, but has not as yet made up his mind.

Baseball

After having cleaned up his business affairs, signed his manager and in other ways prepared for the fall period in baseball, President John I. Taylor, owner of the Boston Americans, has gone to the Pacific coast. Mr. Taylor's stay in San Francisco will be brief, for he intends to return to New York in time to attend the opening of the Longhorn League's annual meeting, Dec. 15. The trip is one for pleasure, being one he takes each year with his family. "The affairs of my life are best of shape," said he before he left.

Since Billy Smith has taken hold of the Buffalo Eastern League Club, he is branching out into the role of a big league leader. Smith has made arrangements to take the Bisons to Macon, Ga., on an extensive trip next spring.

From Hugh Duffy, in Chicago, comes a wall over the proportions of the White Sox roster. Duffy promises to illustrate reform in big league company by carrying only a handful of spare men. He claims that the present system in baseball has the players in each other's way. If Hugh makes a success of minor league methods in fast society, it will be a hard blow to the Sox.

"Red" Doon, catcher of the Philadelphia National League Club, is having a suit of armor plate manufactured for his special use behind the next season. He will have him guards, even more than the present system in baseball has the players in each other's way. If Hugh makes a success of minor league methods in fast society, it will be a hard blow to the Sox.

"Babe" Adams says that he uses ten different forms of a curve ball. Walter Blair, late of the Yankees, has been captured by John Ganzel for the Rochesterers.

The Ring

Savannah, Ga., Nov. 20.—Danny Goodman, of New York, and J. C. Howard, of Brooklyn, fought five rounds before the draw before the Southern A. C. here last night. At long range Howard had the better of the fight. Goodman evening up on the nightingale.

Battling Nelson has announced that he will give Freddie Welch a chance to meet him in a forty-five round contest if the Welshman is sincere in his expressed desire to battle for the lightweight championship title. Nelson evidently intends to sidestep those who have challenged him on this side of the water.

Ralph Calloway, who will meet Jim Barry at the Armory A. A. Tuesday night, is training at Northboro with Sam Langford. There is a feeling of long standing between Sam and Barry, and if anyone knows the feelings of Barry in the ring it should be this same Langford, so he has met and defeated Barry on several occasions.

Albert Belmont and Freddie O'Brien are hard at work training for their bout at the National A. C. Monday night. Belmont will need to train, for O'Brien is a wonderfully improved boxer and Belmont has been none too active during the past few months.

Dave Deehler complains that none of the lightweights care to meet him. He is being sidetracked by several who claim they have a right to meet Battling Nelson for the championship title. Deehler says that he will make the lightweight limit for his man in the world.

Athletic

Sydney, N. S., Nov. 19.—In the greatest indoor race ever held in Cape Breton on a fourteen lap track, Fred Cameron, of Amherst, defeated Bob Fowler, of Cambridge, after a ten mile grueling race of two laps, in the record-breaking time of fifty two minutes, fifty seconds.

CAUSE AND CURE OF NEURALGIA

Modern Methods Dispose of the Cause Instead of Treating the Symptoms

Neuralgia means simply "nerve pain," so there may be great variation in the character and intensity of the pain and any nerve in the body may be affected. There are a number of causes of neuralgia, but the most common is a general run-down condition of the system. The discovery of this fact from reliable statistics led to the new treatment for neuralgia which consists in forcing the general health by the tonic treatment and so disposing of the cause of the trouble.

Persons reduced by acute sickness, or by severe mental or physical strain, or by loss of sleep are frequently victims of neuralgia and it is common in the case of those suffering from anemia or bloodlessness. This brings us to the actual cause of neuralgia, which is nerve starvation. The blood which normally carries to the nerves all of their nourishment, is unable to perform this duty satisfactorily when it is impoverished. "Building up" the blood and the neuralgia pain will disappear as the nerves become better nourished. Dr. Williams' Pink Pills are a blood-purifier, which feeds the starved veins and drives out the sharp, biting, stabbing pains of neuralgia. Mrs. John Tibert, Little River, N. S., says: "I have been suffering from neuralgia in my head and back for several years. At times the attacks were simply excruciating and I could not get to sleep. I tried many doctors' medicines, but did not receive any benefit until I began using Dr. Williams' Pink Pills, and I am happy to say that the benefit I received from these was wonderful. I may also add that Dr. Williams' Pink Pills cured my daughter of anemia and indigestion, at a time when we were despaired of her getting better. I can highly recommend these Pills to anyone suffering from these troubles."

THE BOY PROBLEM

St. John, N. B., Nov. 19, 1909.

Sir—I was reading in that excellent evening paper, the Evening Times, lately concerning the morals of boys and girls in the States and was not surprised one bit at the dreadful sufferings of the investigators. I have spent several vacations in the United States, also lived there for a year, and have not been able to take notice of things. I don't wonder any, when you would see scores of little children going to the different factories, but at the same time, and of going to school. That was among the common people. Then among the upper classes we find a rule that July and August their churches are closed, the ministers is off to the mountains and the congregations to the near-by ocean resorts by thousands, and I don't see how it can be other than corrupt when he takes his family on Sunday mornings to York Bass or Ota Ota, and the children work for a few hours, and of going to school. "Remember the Sabbath day to keep it holy."

In less than twenty years in the United States they have had nearly a million divorces, and in that time hundreds of colored people have been lynched. No wonder that the children are so corrupted, girls, when it is rampant among men of mature mind.

In Canada we have the same trouble. Some time ago that most excellent man, Judge Forbes, was compelled through his appointed power, to send two little boys to the reformatory for some time. Judge Forbes is the most benevolent and mild looking man in New Brunswick, and I know of no other who has been so kind to do so. Hundreds of young people rush into the married state who have not an ounce of any kind of religious belief, or training, who never study an hour on the laws of matrimony, and who have no idea how to bring up children the way they should be brought up.

Has there any wonder boys and girls are bad? The wonder is they are not worse, and here comes in the benefit of the wise laws of England. May we are excellently administered by our lawyers and judges that a wholesome fear sets in on all who do not keep their hearts to God's laws. Eight hundred and fifty thousand divorces in the United States since 1880. Think of it. Sixteen hundred thousand men and women torn asunder, and thousands upon thousands of children torn from the sea of life like drift wood.

Divorces are getting to be altogether too frequent in Canada. The people seem to be forgetting the words of the glorious Redeemer. You will find them in St. Mathew, chapter five, thirty-second verse: "But I say unto you, that whoever shall put away his wife, raving for the cause of fornication, causes her to commit adultery." And St. Paul says: "If a woman has a husband living, she is bound to him, as the church is bound to Christ, who is the head of the church, his body, of which he is the saviour, who cleanses it with the word of water by the word of the cross, that he might present it to himself a glorious church, not having spot or wrinkle, or any such thing, that the church should be holy without blemish."

Dr. White's awards were evidently popular. Mrs. George H. Pell got a hearty round of applause when she took a first in an open class with her dog Bitch. Cornell has 131 freshmen crew candidates.

Sport Briefs

There are entries from all parts of the country at the Boston Terrier club show. Freeman Ford of Pasadena, Cal., is the exhibitor who has come the longest distance, bringing with him four fine little dogs with alliterative and euphonious names which are worthy of a prize in themselves. They are Arroyo Athlete, Arroyo Azure, Arroyo Antlion and Arroyo Aviator, the last securing a third yesterday in Class 10, which was open one for dogs from seventeen to twenty-two pounds.

Dr. White's awards were evidently popular. Mrs. George H. Pell got a hearty round of applause when she took a first in an open class with her dog Bitch. Cornell has 131 freshmen crew candidates.

BALFOUR AGAINST TAX ON RAW COTTON

London, Nov. 19.—The political crisis has drawn from Mr. Balfour, the leader of the opposition in the House of Commons, the written admission on the contingent of raw cotton that "such a tax would violate the fundamental principles of fiscal reform."

The significance of this admission is important in the election campaign in Lancashire, that county being the stronghold of free trade, and where the tariff reformers will concentrate their campaign energies. Winston Spencer Churchill, president of the board of trade, who is conducting a hectic campaign in Lancashire on behalf of free trade.

Antonio Spinello was yesterday committed for trial at the county court, opening in Andover on Tuesday next on a charge of shooting Lemmo Spinorino with intent to do him harm.

DR. CHASE'S OINTMENT is a certain cure for scalds, burns, cuts, bruises, and all other injuries to the skin. It is sold by all druggists and is the best remedy for all such ailments.

BERNIER TABLET IS MILDLY CRITICIZED

The Writing on the Wall at Ottawa and a Funny Man's Description of it

The Ottawa correspondent of the Toronto Telegram sends his paper the following: Ottawa, Nov. 19.—Fame immortal is the portion of Captain Bernier, also of that good ship the Arctic. Writing for that purpose is on the wall.

It was placed on the wall a few days ago, after kicking around for some time below stairs. It is on the wall of the corridor leading from the library to the reading room.

What you see is a tablet done in low relief. There is upon the tablet a picture and a record. The Union Jack, or something to that effect, is at the upper right hand corner. The coat of arms to the left. Neither seems desirous of appearing to associate with the other. There is evidence in the part of each, may be said, to be a field of ice. There are some bad breaks in the ice as well as elsewhere in the picture. A sky of tropic blue stretches over the ship, reaching down to the background to a varied assortment of low brown hills from which the snow has been carefully shovelled away in compliance with the by-law.

The Arctic shows no sign of life. Captain Bernier is nowhere to be seen. So are the members of his intrepid crew. No smoke comes out of the funnel, indicating that the stoker has been frozen to death. The sails are not set, neither are they furled. There are no sails.

Nothing that the opposition ever said about the anxious approach of the fact as revealed by the tablet. The Arctic is a three-masted, built on the low, which lines of a canal lock and a railway bridge. The anchor hangs from the bow by one claw, and appears almost exhausted and in momentary danger of tumbling to the sea.

The lookout also just give indoors in their hats, swallows a handful of (frigid) pills, and makes a dash for the door. The doctor is seen, (that may be a rebate for empires returned at Quebec). There are no Esquimaux, at least out about the ship.

The whole scene is one of desolation un-speakable, the imagination being left to seek relief from contemplation of this child in the applied intelligence of those who fill up the ranks of the armies in every land—artisans, laborers, petty clerks—who are now so ignorant of their own exercise when they understand that they are being used, by cleverer heads than theirs for the advantage, not of Canada, but of home land, but for political or commercial purposes, under the false label of patriotism.

UNORTHODOXY CHARGED

Proceedings Against Prof. Matthews, of Baptist Theological College

Prompted by a resolution "that was passed at the last Baptist convention in Hamilton, Ontario, and in which the following charges were made against Prof. Matthews, who holds the chair of Theology in the Baptist Theological College, in Toronto. Some months ago the senate of McMaster University heard charges against this professor, and after consideration exonerated him.

In the present case the shorthand notes taken by one of the professors, who has been obtained and transcribed and will be used as a basis for putting Prof. Matthews again on the stand.

One of the members of the board of governors says that the senate took a hasty action in exonerating the teacher, and that the charges were not cleared up. It now appears, although most persons concerned thought the criticism of the teacher had blown over, that the same resolution, which provided for extended discussion of the teaching in Old Testament Exegesis, was levelled directly at Prof. Matthews, who teaches that sub-

The senate will hold a series of meetings and will then probably report on the charges. It is probable that a special meeting to deal with the Matthews' case. Those who do not favor the professor say that he holds the same attitude as to the first eleven chapters of Genesis that the Rev. Prof. Jackson held.

CANADA MAY SEND CUSTOMS MAN TO THE OLD COUNTRY

Ottawa, Nov. 19.—Complaints continue to reach the customs department from Great Britain to the effect that foreign manufacturers are taking advantage of the British preference and importing foreign made goods under the provision which allows of such importation the proceeds of many duties have been completed in Great Britain.

An investigation has been made of all the cases brought to the notice of the department, but in no case has the evidence been sufficient to show any violation; indeed, in most of the cases which were investigated it was found that the goods complained of had been imported under the general tariff.

However, the persistence of the complaints there is a probability that the minister of customs will ask for the appointment of an agent to be stationed in London, England, who will have the power to examine all complaints and to investigate the source of origin of the goods in the same principle as is now done by the department's agent in New York.

COURTSHIP POINTERS

When she says the clock's correct. She is neutral, we suspect. When she says the clock is fast, you are making time at last. When she says the clock is slow, you are done for. Better go.

WAR AND MISSIONS \$3.50 Receipt Cures Weak Men—Free Send Name and Address Today—You Can Have it Free and Be Strong and Vigorous

Editor Times:—In a large number of the Eastern Labor News the following appears: Closing paragraphs of an editorial on the Laymen's Missionary Movement in Canada, existing in the Christian church. The remedy for this strange state of things lies in the applied intelligence of those who fill up the ranks of the armies in every land—artisans, laborers, petty clerks—who are now so ignorant of their own exercise when they understand that they are being used, by cleverer heads than theirs for the advantage, not of Canada, but of home land, but for political or commercial purposes, under the false label of patriotism.

"But it seems strange, and proves how strange humanity is, that right in the midst of a movement of this kind, there has been within the last two weeks talk of the spirit of the leading Christian nations of the world engaging in war. The strangest thing about it is that some who have indulged in inflammatory talk on this subject should be ministers of the gospel of peace. To account for such an anomaly it must be concluded that whilst the spirit of Christianity and of Christian civilization predominates in one direction it is lacking in another."

MORNING NEWS OVER THE WIRES Clayton Douglas, an eleven year old boy, shot himself accidentally while out hunting near Monkstown, (Vt.) yesterday. It is probable that the 30,000 employees of the cotton mills at Fall River will have to face a cut of 10 per cent. in their wages on Dec. 15, owing to the high price of cotton.

Dr. John Barr, M. P., for Dufferin, (Ont.) since 1904, died suddenly yesterday in the Hotel Cecil, Ottawa. He was sixty-six years of age. The body was taken to Shelburne, (Ont.) for burial. The wholesale dismissal of officials of the New York customs service continues, and up to yesterday seventy-three heads had fallen.

Canada is the most progressive country in the world today, and the most progressive men and women in Canada are wearing CATSPAW RUBBER BELLS, that's why they are also in the game.

**NEW BRUNSWICKER STRUCK BY TRAIN; DIES OF INJURIES**

**H. A. Amiraux, of Woodstock Hit by Northern Pacific Engine at Missoula—Was 77 Years Old**

H. A. Amiraux, of Woodstock, N. B., but since 1877 a resident of Montana, died on Nov. 13 in St. Patrick's hospital, Missoula. His death was the direct result of injuries received when he was struck by a Northern Pacific passenger engine. Mr. Amiraux was then working on the outside of the track near Van Buren street, close enough to the rails to be struck. His life had been despaired of for more than 24 hours before death came.

He was born in Woodstock, N. B., on April 13, 1832, and was 77 years of age at the time of his death. In 1871 he moved to Oshkosh, Wis., and from that city he went to Missoula in 1877. At first he was employed as bookkeeper for the Higgins & Worden company and later, in 1882, he took charge of the inn at Baker station, now Clinton. Four years afterward he took a ranch in the Blackfoot valley, near Potomac, and there he lived until 1900. Then he went back to Missoula to live at the home of his son-in-law, George E. Hoyt.

Mr. Amiraux was married before he went to Montana. He is survived by his widow, Mrs. G. L. Elliott, Mrs. W. H. Smith, and Mrs. Ota Worden, all of Missoula; Mrs. P. H. Mahoney, of Spokane; Mrs. A. A. Amiraux of Butte and George P. Amiraux of Washington.

**Allan-Liner Opens Winter Port Business—Brings 75 Passengers Here—Her Daily Runs**

The winter port shipping season of 1909 and 1910 opened today with the arrival of the Allan turbine steamship Virginia, from Liverpool via Halifax. The steamer is in command of Captain A. H. Vipond. The mail steamer left Liverpool at 7 o'clock Friday night, Nov. 12, and had very heavy weather, being obliged to go across to Waterford, Ire., to land the pilot, as it was too rough at the Liverpool Bay. After getting clear of the channel the ship ran into moderate weather, which continued until Thursday, when she met heavy winds; there was quite a heavy snow storm which caused the steamer to lay to at 2 o'clock about 30 miles off the Nova Scotia coast.

The following are the figures for the Virginia's daily run to Halifax:—Nov. 13, 228 miles; Nov. 14, 386 miles; Nov. 15, 430 miles; Nov. 16, 415 miles; Nov. 17, 170 miles; Nov. 18, 381 miles; Nov. 19, 223 miles, total 2471 miles.

The Virginia brought 120 passengers, made up of 38 saloon, 78 second class, and 407 steerage. There were three Halifax people returning to that city, viz: Hector McLean, K. C. Mac, H. McLean, and C. C. Tyer. The other saloon passengers were: R. Andrew, R. J. J. Bevan, H. de Buriel, Mrs. A. G. Cowles, Miss J. A. Crosswell, Mrs. M. M. Crowell, Miss G. H. Head, J. D. Kendall, E. Knight, J. A. Kyle, Mrs. Kyle, Mr. Martin, Mrs. Martin, Albert Martin, Mrs. Martin, Helen McLeish, Master A. Duncan McLeish, J. McLeish, H. S. Miller, Mrs. Miller, W. P. Robinson, P. W. Saunders, Wm. Smedley, S. York, and J. A. S. Henderson.

The passengers were landed at Halifax, except three saloon and two steerage passengers, who will land here.

Pilot James Doyle brought the steamer around from Halifax.

**Mr. Moorhead's Report to His Government on the Dry Dock Project—"Best Port in Eastern Canada For Dry Dock"**

The New York Journal of Commerce publishes the following:—

Consul M. K. Moorhead makes the following report on the project of establishing a dry dock at St. John, New Brunswick:—

It has been unofficially reported that Harland & Wolff of Belfast, in conjunction with the Canadian Pacific Railway, the Allan line and the Dominion Steamship Company, are to build a dry dock and repair works at St. John and a dry dock with a complete modern building plant at Lewis, on the St. Lawrence River near the city of Quebec. The proposed dry dock for St. John will be 800 feet long and 120 feet wide, according to reports published in the daily papers. The cost of the dock and repair plant will be about \$2,500,000. This dock will be able to accommodate the largest warships and Atlantic liners. A deputation of officials and business men from St. John, Quebec and Montreal on October 26 presented a petition to the Dominion government asking for a subsidy of 4 per cent. of the total cost of the docks and plants for a period of fifty years.

St. John is probably the best port in Eastern Canada for a dry dock on account of the harbor being free of ice during the whole winter. St. John has the advantage over Halifax, the only other safe winter port in eastern Canada, of being closer to the great centres of trade in both Canada and the United States. Montreal is only 481 miles from St. John, as against 837 from Halifax. During the winter, when the St. Lawrence is closed to navigation, the large Canadian steamship lines run from St. John. The 1220 vessels clearing at St. John during the fiscal year ended March 31, 1909, represented 687,102 tons.

**COL. GASKIN HERE**

**Salvation Army Field Secretary For Canada Arrives—Special Meetings**

Lieut. Colonel Gaskin, field secretary of the Salvation Army in Canada, arrived today by the noon train, and will conduct several meetings in the city during the week-end. Tonight in No. 111, Hall in Brindley street he will give his famous lecture: "Queer Fish and How They Are Caught." This lecture is one of unusual interest and a large audience is expected to greet the colonel.

On Sunday he will conduct services in the Charlotte street chapel at 11 a. m., 3 p. m. and 7.30 p. m. At 3 p. m., the colonel will give another lecture entitled: "Leaves from my Diary." During the colonel's long and varied experience as a Salvation Army officer, much has come under his notice that is of intense interest to all. The colonel is an able and thoughtful speaker, and much interest is centered in the services that he will conduct here. Brigadier and Mrs. Abo, the newly installed divisional commander, will assist at these services.

**POLICE COURT TODAY**

In the police court this morning, Carl Headstrom, James Brennan and James Salter were fined \$4 each for drunkenness and Joseph Carr, \$5, for a like offence.

Wm. Graham, arrested last night on a charge of indecency, admitted the offence, but said he was drunk at the time.

Policeman Rankin said that the prisoner, who was well dressed, and about twenty years of age, had also been making inquiries as to how to pass by Graham was fined \$5.

Wm. Magee reported for not having a water conductor on his premises in a proper condition, said that the dripping was caused by the heavy winds which blew the water from the roof. The matter will start for court.

At Chubb's corner today, Auctioneer T. T. Lantulum sold Lot No. 7 and one-half of lot No. 6 on the Kennebecasis River, better known as the Robbessay Park lots, belonging to the estate of Herbert C. Tilley. They were sold to John

**ST. PETER'S Y. M. A.**

The first debate of their winter series will be held in the rooms of St. Peter's Y. M. A. tomorrow afternoon at 2.30 o'clock. The subject will be: "Resolved, That War is Justifiable." The leader of the affirmative party will be Jas. Martin, and he will be assisted by F. Carter, F. Burke and C. McDonald. The leader of the negative will be F. deGrasse, who will be supported by F. J. Doherty and J. B. Dever. The judges will be J. F. Owens, Joseph Harrington, M. D. Coll and M. D. Sweeney.

The members of the Y. M. A. orchestra met last night and made arrangements for the holding of a benefit concert for Hugh Campbell, who has been a member of the association for about thirty years and who has always taken an active part in the social affairs.
