MADRIZ BLOCKS MOVE OF 8,000 INDIANS.
 BOSTON, Mass., Feb. 6.—Because President Madriz of Nicaragua fears that the projected removal of the 8,000 members of the Sioux tribe of Indians from their reservation in South Dakota to that country, is a ruse to strengthen the insurgent army under General Estrada, the last stand in this country of the once powerful and numerous tribe must be further continued. Chief Little Bison, a full-blooded Sioux, who went to Nicaragua to make prepara-

tions for the coming of his brothers, was a passenger today on the steamer Esparta from Port Limon, Costa Rica. He was accompanied by Mrs. Little Bison, an American woman.
 The Nicaraguan Government has ceded a tract of 16,000 acres of land at Juntilto to the tribe. The project of moving the 8,000 Indians has the support of President F. S. Dellenbaugh, head of the American Geographical Society. It is believed that the climate in Nicaragua, being less rigorous will better agree with the weakened red men.

PHYSICIAN CONDEMNNS COLD STORAGE SYSTEM

Says With Commercial Kitchens It Can Change Plenty Into Famines.

HAMILTON, Ohio, Feb. 5.—"It took seventeen years to pass the pure food law, but it took only seven months for the adulterators of food acting through his superior officers then in power, to back and sag Wiley into silence, and, by executive interpretation, to reduce the law itself to little less than a farce.

"The cold storage system and the commercial kitchens can at any time change plenty into famine and force the people to pay a ransom for food," were declarations made by Dr. Charles A. L. Reed, former president of the American Medical Association and long a leader in the pure food campaign, in an address on the food problem delivered here this evening. Leonard, lecturer, published the address in the Remedies suggested. Dr. Reed said: "We have a legislative committee investigating the causes of the unreasonably high prices of food. They are trying to find out why, in a land of plenty and a year of plenty, no poor man can live without giving practically all of his earnings to the grocer and the butcher. I do not know how many conspiracies in restraint of trade these investigators will find, but I feel sure that if they keep on digging they will strike pay dirt. But I do not want to wait for their report to know some things. Ten years' identification with the food problem in general has opened my eyes to a few facts that have to do with the price of food.

"In the first place every farmer and every mechanic who is too busy to work and who doesn't take to something else opens a filthy little grocery, often with a filthy meat station in the front and a slobber saloon in the rear. He is just one more barman on our already cumbersome mechanism for distributing the necessities of life.

"But the great conservator of high prices is the cold storage plant. If all the facts about cold storage were known no person with normal sensibilities could sit without nausea, unless each article carried a guarantee that had not been subjected to such treatment. But the cold storage people tell us that they conserve the food supply and hold down prices. That would be the legitimate use of the system. The manufacturer is that they do not deal with the abuse. They do conserve the food supply—with a vengeance—but I openly charge that they do it for the single purpose of holding up the prices by defeating the normal operation of the law of supply and demand.

"The commercial kitchens are another great concern in which millions of tons of food are cooked, put into containers and sent out to the people of this country every year—like-wise having an important relation to the price of food, but a more important one than other phases of the food problem. By this system so much of our food supply is held back for so long a time that prices can be absolutely controlled by this interest. I do not know that this is or is not being done now, but the possible exercise of that power that the people must protect themselves against.

Give Your Stomach A Vacation

By Using Stuart's Dypopsia Tablets Which Digest Food Without Any Aid.

A TRIAL PACKAGE SENT FREE. The stomach should have a rest when it is tired out and irritated from dyspepsia and indigestion. One should not call upon the stomach in this condition to do its full and complete duty. What the stomach needs is natural assistance and when this is given it the stomach responds quickly to the needed rest and comes back to its duties refreshed and invigorated.

When you feel as though your stomach were a piece of lead, when gases or foul odor issue from your throat, when your tongue is coated and your appetite gone, it is high time to send your stomach on a vacation. The stomach is constantly coming in contact with foreign substances, which it must reduce in form to give strength and health to the various organs of the body. It is the commissary department of the human system and must furnish from such supplies as come to it all that such a system demands.

If the stomach becomes deranged and cannot furnish all that is necessary, it weakens the entire machinery of man and is itself placed out of commission. It cannot cure itself because the curative powers of Nature receive their force from the stomach, so that if the stomach issues imperfect nourishment it cannot receive perfect curative means for its own benefit. Stuart's Dypopsia Tablets impart all the power, vigor and strength necessary to the stomach. They do the stomach's work and without calling on this organ for assistance.

If you would put your meal in a glass jar and with it place the correct amount of Stuart's Dypopsia Tablets you could sit down and watch these little tablets digest the meal as perfectly as the most healthy stomach. This demonstration has been made in almost every state in the Union by these tablets, one grain of a single ingredient being capable of digesting 2,000 grains of food.

If you have the slightest doubt about your stomach, go to the nearest drug store and buy a box of Stuart's Dypopsia Tablets, price 50c, or send us your name and address and we will immediately send you by mail a trial package, free. Address: F. A. Stuart Co., 120 Stuart Bldg., Marshall, Mich.

BRITISH SENATE, SUGGESTION NOW

Proposal to Include Over-seas Dominions

Clash in the Irish Party—T. P. O'Connor Is Hopeful—Asquith Is Still Mum.

LONDON, Feb. 7.—The split in the most interesting features of the political situation to the London morning papers, the suggestion has been made to Wm. O'Brien by one of his constituents that an attempt should be made to adjust the party differences by constituting the House of Commons, consisting of Mr. O'Brien, John E. Redmond, Cardinal Logue, Archbishop Walsh and others. The leader of the Independent Nationalists declares that such a conference would be useless unless the officers of the board of Erin were first removed from their present position as masters of the funds and liberties of the Nationalist party.

In a long letter to the Daily Telegraph this morning, Mr. O'Brien furth- er explains that his successful election campaign was undertaken solely with the purpose of saving his friends from the machinations of the adherents of the board of Erin, or the "Molly Maguires," who had secured the entire control of the Irish House of Commons. As to the taunt of the "Molly Maguires," that his success was due to the support of the Protestants, Mr. O'Brien declares that that is ridiculous, because there are so few Protestants in those constituencies in which his friends triumphed.

LONDON, Feb. 4.—T. P. O'Connor, in an article in Reynolds' newspaper, expressed the opinion that the question as to whether the King will assist Premier Asquith to curtail the veto of the House of Lords, by the creation of peers, has already been fully discussed between the King and the prime minister, and that there is a fairly clear understanding on the subject. Mr. O'Connor takes a most cheerful view of the prospect and sees no sign of wavering on the part of Mr. Asquith.

LONDON, Feb. 5.—Of even greater interest than the possible changes in the cabinet is the course the government is likely to pursue upon the re-assembly of parliament. Thus far, as on all other matters, the Prime Minister, Mr. Asquith, has kept his cards close according to their kin- dreds.

Extreme members of the party, like the Laborites, and even some of the more moderate men, strongly favor an immediate attack upon the veto power of the House of Lords, leaving the budget and all other legislation until the party has settled its account with the peers, who are held responsible for all the political crimes that have attended the Irish members, since his election in June. The Irish members, too, are believed to support this view, although John E. Redmond, the leader of the Nationalists, who since his election has been in retirement at his country home in Ire- land, is reported to be in favor of an- nouncement of his intentions.

MODERATE LIBERALS. The more moderate Liberals, seeing the possibility of the disorganization of the finances of the country by this course of action, are urging the govern- ment first to introduce the budget, which the Lords, accepting the result of the election as an endorsement of the government's financial policy, are already pledged to pass.

On the question of the future status of the House of Lords, opinions differ almost as widely. The Laborites and extreme radicals urge the absolute abolition of the upper chamber, which hardly comes within the purview of practical politics. Another section of the ministerials demands the aboli- tion of the Lords' right of veto upon financial legislation and the curtailment of their veto in other legislation. So far as the words of the resolution passed by the House of Commons when the budget was hung up by the House of Lords, "the will of the people as expressed by the House of Commons, must be adopted by the House of Lords within the limits of a single paragra- ph."

LIKE AMERICAN SENATE. The Spectator follows up this with the suggestion that the upper house be modeled after the American senate, the house to consist of 200 members chosen under a system of proportional representation from equal electoral areas. In the meantime the Unionists with the exception of a few peers who under no circumstances would find a place in the reformed chamber, are practically unanimous for a change in the constitution in the House of Lords. Many schemes are being put forward, the most popular probably being that embodied in the report of the Rose- berry committee which provides for the election by the hereditary peers of 200 of their own number, together with 100 peers qualified by service to the nation, ten bishops, five judges and forty life peers.

The Imperialists among the Union- ists look with considerable favor on the suggestion made by Norton Griffiths, a new member, who has had great expe- rience in the colonies and elsewhere. He has proposed, when the moment is opportune, to establish a senate of the Empire to include representatives from the colonies.

Premier Asquith can count on a major- ity for the curtailment of the House of Lords' veto for on this Nationalists, and doubtless independent National- ists, too, will be with the government. On the budget, however, the attitude

WILL USE BUCKWHEAT AS A TURKEY COAXER

Warden to Plant Grain on Preserve to Induce Birds to Stay.

WAYNESBORO, Pa., Feb. 5.—Just what the proper causers are if one is to be lured to a flock of wild turkeys is a matter that is causing Lewis S. Brown of Rousherville, considerable concern. Brown has been appointed a special game protector for the preserve in the mountains near the White Pine Sana- torium. Along in April he expects that seventy-five pairs of wild turkeys will be sent him by the State Game Com- mission.

In planning to make the locality pleasing to such fly-aways as turkeys, Brown has hit upon buckwheat as an inducement to linger, and will plant a patch of the grain right in the centre of the preserve. He argues that tur- keys like buckwheat and will hang around the patch.

He can persuade his turkeys to stay, Brown will try the same game on a lot of Chinese pheasants—birds with long tails that have a way of whizzing away in the underbrush with cosmetic velocity.

FOR THE PEOPLE NEW FORMULA CURES COUGHS, COLDS, BRONCHITIS AND HOARSENESS IN FIVE HOURS.

Much is being done in these days to stop the ravages of consumption, but probably nothing has been so effective as teaching the public how to break up a cold and cure coughs, bronchitis, tonsillitis, etc., with simple home-made medicine. A laxative cough syrup, free from whiskey, is the prime need. A cough indicates inflam- mation and congestion and these in- flammations are the result of waste and poisons in the system. A tonic laxative cough syrup rids the system of these poisons and takes twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times daily. Give children less, according to age. Cut this out and save it for some friend.

CHAUCER'S ENGLISH. Causes of Changes in Pronunciation Since His Day.

LONDON, Feb. 5.—Prof. Daniel Jones of the Department of Phonetics at Uni- versity College, London, delivered a lecture before the Elizabethan Society how changes have been pro- duced in the pronunciation of English since Chaucer's day.

Taking the word "time" for exam- ple, he said that in Chaucer's time it was pronounced "teem." The "t" of the Nationalists is still uncertain. Mr. Redmond did not commit him- self beyond giving out his cable cor- respondence with M. J. Ryan, National president of the Irish League of Amer- ica, but many members of the party strongly oppose the clauses impos- ing whiskey duties, and if they do not vote against them, would in their own political interest have to abstain from vot- ing. Several Liberals are in the same position and when the budget is in- troduced they will be given permission by the whips to absent themselves.

Wm. O'Brien, who heads the indepen- dent Irish members, has made his in- tended attitude quite clear, in a letter in which he says: "There is no doubt that the Irish party contemplates the blackest trea- son perpetrated against the Irish since the act of union. The Nationalists pro- pose to assist the government in pass- ing the budget which will impose on Ireland £10,000,000 in taxation per annum.

The coming week will see a clearing of the atmosphere. Premier Asquith and Chancellor Lloyd-George, who have been resting on the continent and the other members of the cabinet who went to the country after the campaign, are now on their way back to London. The first formal meeting of the ministry will take place February 10, and the opening of parliament and the course of business for the commons will then be decided. The King will be absent from London at that time, the plan being that he shall spend a week at the Brighton course in order to pre- vent the suggestion that he is taking any side in the controversy. At the same time, His Majesty will be near at hand when the Premier desires to acquaint him with the decisions of the government.

SERUM IS FOUND FOR "SLEEPING SICKNESS"

U. of P. Students Told of Discovery by a German Scientist—Being Tried in Africa.

PHILADELPHIA, Feb. 5.—Ehrlich, a German investigator, has discovered a serum that will cure the "sleeping sickness" in animals, according to a statement made yesterday by Dr. J. H. Homan of Berlin, president of the Anglo-American Society there, in an address before students of the medical department of the University of Penn- sylvania, in the new medical building.

The "sleeping sickness," as it is com- monly known, is the scourge of negroes living in western Africa, and some of the serum has been sent to that coun- try that experiments may be made to ascertain if the newly found fluid will prove effective on human beings.

If the discovery will cure the African negro of this dreadful disease, it will be one of the marvelous achievements of modern medicine. In his experiments on animals, which have been extensive and thorough, Ehr- lich has been successful and has done wonderful things with the serum. He has not tried it on humans, and the re- port of the experimental work in the infected African zone, where the quan- tity of the serum was sent last October, will be watched with great interest.

It is the general opinion in Germany that the report of the experiments on the negroes will be favorable, in light of the success that has attended Ehr- lich's work in his own laboratory with animals suffering from the disease.

The latest idea of scientists regard- ing the cause of the spread of the "sleep- ing sickness" is that the germ is car- ried by tsetse fly, and the infection is from the disease has been so great that whole villages are now inhabited only by women and children.

A number of men have thought they had found a cure for the "sleep- ing sickness," the latest of these being Professor Robert Koch of Berlin. His remedy was atoxyl, a preparation of arsenic, which he claimed as quite effec- tive against the disease as a substitute in the treatment of malaria.

In Shakespeare's day "Time" was pronounced "teem." Present day "Time" is pronounced "tyme." This cockney pronunciation is really the people's tongues in forming this word had receded further and further away from the root of the word. This pro- duces the "teem" sound of Chaucer's time. In 1600 the top of the tongue is further away from the root of the word. This turns the "teem" to the "tyme" sound of Shakespeare's day. Nowadays our tongues are lower still in our mouths, producing the pronuncia- tion of the word which we are familiar.

"If the top of the tongue drops a lit- tle lower still, and the tongue curls a little further back, the sound produced is the unmistakable cockney 'tyme.' This cockney pronunciation is really the absolutely natural development of pronunciation. It is the pronunciation of uncultured people who do not care how they form their words, and are, therefore, perfectly natural. Cultured people, on the other hand, who say 'time,' resist any tendency for the top of the tongue to drop lower in their mouths. Were special instruction in phonetics one could predict that the cockney pronunciation would be far more prevalent than it is today."

BARBAROUS EXECUTION. Persian Reactionary Dies by Inches Before Horror-Stricken Crowd.

LONDON, Feb. 5.—Mufa Kiero Sult, a well known reactionary, was pub- licly hanged for high treason at Teheran on Thursday. The condemned man had taken refuge in the Russian Legation in July, but subsequently left in company with the ex-Shah. A few days ago he returned, and was cap- tured.

TO KEEP PEACE AT GLACE BAY

HALIFAX, Feb. 6.—A Glace Bay special says Walter Routledge of the Northwest Mounted Police has been appointed commissioner of police for the town of Glace Bay, controlling the strike district generally. The appoint- ment has been made at the request of the town council, who passed resolu- tions at a special meeting held re- cently calling upon the Dominion Gov- ernment to have the appointment of the commissioner made, which request has now been complied with. The in- tention is that the commissioner will have power of organizing any number of men he may deem necessary to as- sist him in maintaining peace.

MOTHER OFFERS BARE AS KLEDGE FOR FAIRE.

Conductor, Stagnated by Proposition, Lets Woman Hide Home.

EQO HARBOR CITY, N. J., Feb. 6.—Several weeks ago Mrs. George Amann of this city, went to Philadelphia for a short sojourn. She failed to observe the ten-day limit on the ticket, and when she presented it to the conduc- tor on her return here last night he told her that it was void, and asked for the fare. Mrs. Amann did not fig- ure on a return fare, as she had her ticket, and, having spent all her money shopping, she told the conduc- tor of her predicament.

He asked for a substantial guaran- tee for her fare, and her unbarren- ment was increased, for she had naught with her but her six months old baby, but she reluctantly offered him her child, with the request that he retain it until she could get the money at home.

Then the conductor became embar- rassed, for, while the nature of the guarantee was a substantial one, he failed to accept her pledge. He finally took her address, while she promised to leave the required amount with the local ticket agent.

Speaking of the matter, Mrs. Amann said, "I'm sure as he insisted upon the fare or a guarantee, I had nothing to offer him but my baby. That was too much for him." Today she paid the fare.

LEGAL INFORMATION—Any shareholder may qualify for the position of director of this company by subscribing and paying for one share of more. The preliminary expenses will not exceed \$300.00 exclusive of advertising and brokerage. Particulars as to the purchase of the business are given in an agreement dated January 29th, 1909, between Athol George Robertson as Trustee of this Company and George Smith of the City of Brockville, Manufacturer. This agreement may be seen at the office of the Company. Under it the Vendor agrees to accept the value of \$50,000, half Common and half Preference, in full payment for same. The original incorporators are George Smith, Herbert Bresse, Harold I. Key, Lawrence Bradbury Smith, and Arnold Smith, all of the City of Brockville, and Louis Sinclair of the City of Toronto. The control of the Company shall be wholly in the hands of the shareholders, each share entitling its possessor to one vote at all general or special meetings. The minimum subscription upon which the Company may proceed to allotment is for two or more shares.

NATURE OF BUSINESS
The Company manufactures John Mackintosh's celebrated Toffee, the trade names which are "Old English Toffee," "Trebble Toffee," "Vienna Toffee," "Butter Scotch," "Russian Toffee," and "Butternut Toffee," as supplied to Queen Alexandra and the Empress of Russia. This business is particularly profitable and possesses the advantage of being thoroughly established in Canada, as in all other large countries. An understanding of the profit and sale may be gleaned from the knowledge that over 22 tons daily, or 8,080 tons annually are consumed in Great Britain alone.

HISTORY OF JOHN MACKINTOSH'S TOFFEE
THE MACKINTOSH TOFFEE business was established some 40 years ago in the City of Halifax, England. Mr. Mackintosh commenced business absolutely without capital, boiling his celebrated Toffees in an ordinary kitchen pan on his cottage fire. Today Mr. Mackintosh controls the largest and oldest Toffee manufacturing business in the world.

REPORTED FROM ENGLAND AND UNITED STATES
Prior to an establishment in this country, over three cases, or 2,688 packages, of Mackintosh's Toffee were consumed by Canadians daily. This business was done from England and the United States, without the assistance of advertising or local management.

BROCKVILLE WORKS
The Company's building at Brockville are large and commodious, and are constructed and equipped in a manner suitable for the purposes of the business. The most modern machinery and special appliances installed guarantee a manufacturing capacity of 7 tons of John Mackintosh's Toffee daily, or 2,535 tons annually.

ACTUAL PROFITS
The cost of producing one case, containing 896 packages of John Mackintosh's Toffee ready for sale is \$14.00. Study these profits:

IT IS THOSE WHO INVEST AT TIME OF FLOTATION WHO REAP LARGE PROFITS

MY OPINION
I visited Brockville on January 14th and remained there four days. My sole object in going there was to investigate the works and business of John Mackintosh's Toffee, Limited. I studied the details of the business carefully, and in addition to finding a magnificently equipped factory in active operation, I found a good business managed by men of sterling worth and sound reputation, who have a thorough and practical understanding of the business gained at the works of the parent Company of John Mackintosh, Limited, Halifax, England, the oldest and largest Toffee Manufacturers in the world. The future welfare of these men is centered in the business, and the result of their determination and effort will be the building of a large and immense enterprise in Canada.

GARLISTS ARE PLOTTING AGAINST KING ALFONSO

J. J. James said to be fomenting uprising—History of the Bourbon Family.

PARIS, Feb. 5.—King Alfonso's troubles are growing. In addition to the military conspiracy as revealed the other day, Don Jaime of Bourbon pretender to the throne, is said to be fomenting another uprising. He is the only son of Don Carlos, who was dethroned in England and served with distinction in the Russian army.

In the case of so many of the great houses of European royalty, the Bourbons owe their name to distant days, known as the Bourbons, when it took its name. The first of the Bourbons known in history was Alfonso, who flourished at the close of the ninth century. In 1272 the house of Bourbon had become extinct, same from Beatrice of Bourbon, sole heiress of the name and possessions, who married Robert, Count of Clermont, sixth son of King Louis IX. of France, popularly known as St. Louis. Their son Louis became Duke of Bourbon in 1271, and had two sons, Peter, Duke of Bourbon, whose line came to a close with the death of Charles, Grand Count of Bourbon, who was killed at the siege of Rome by a pistol shot fired by Giovanni Colonna, and a younger son, James, Comte de la Marche, whose son in turn, on marrying the heiress of the illustrious house of Vendome, assumed the title of Count of Vendome. His descendant Anthony, Duke of Vendome, married Jeanne d'Albret, Queen of Navarre, and their son, Henry, became in turn, king of Navarre and King of France.

The Neapolitan, the Parma and the Orleans branches of the House of Bourbon are very prolific. The Count of Caserta, head of the Naples branch, has eighteen children, and the Duke of Parma twenty, while King Louis Philippe also had a large tribe of olive branches, the descendants of whom are to be found scattered all over Europe. Thus, one of his grandsons, Prince Gaston of Bourbon, Comte de Valence, and his son, Prince Louis and Prince Anthony of Bourbon of Orleans, were in an ancestral country a couple of years ago.

Princess Marie of Bourbon Orleans, daughter of the Duke of Orleans and the wife of Prince Waldemar of Denmark. One of the sisters of the Duke of Orleans is Queen of Portugal, and the Duke of Aosta. There are Bourbons in the House of Bavaria, and even into the Hohenzollern family, while the Duke of Orleans himself has a daughter, an archduchess of the Hapsburg dynasty.

RICH BOY ASKS \$2,500 A YEAR AND HORSES.
Income From His Inheritance Is \$50,000 From His Allowance.

NEW YORK, Feb. 5.—Legal papers filed in the Supreme Court today disclosed that Robert A. Chambers, an orphan, 15 years old, has a net income of \$50,000 a year and that he desires to keep and maintain two horses, harness and livery and a miniature brougham which were owned by his parents, Mr. and Mrs. Robert Chambers, who died last year.

A petition filed by the boy's guardian, Mortimer M. Singer, set forth that the boy, for sentimental reasons, as well as for his personal comfort, desired to purchase the two horses from his mother's estate, including their harness and livery and the miniature brougham. The guardian, who is a brother of the mother of the boy, also asked Justice Hendrick, to allow to him, for the ex-

MAUD ALLAN'S SALOME
LACKING IN THRILLS

English Barefoot Dancer Appears at the Academy of Music—Art, Beauty and Grace.

Maud Allan's barefooted Salome dance was the sensation of London two years ago, when such exhibitions savored of novelty. Her initial appearance here in the Academy of Music yesterday had, unfortunately, a good deal the nature of an anticlimax. Since 1908 the American stage has not only been sufficed with Salome dances of every possible variety and condition, but Richard Strauss' opera has provided a crowning touch of one of the most popular theatrical crazes in recent theatrical annals.

The "classical" dancer, also, to which category Maud Allan primarily belongs, has been repeatedly in evidence. Good and bad recrudescence of the ancient Greek art have come and gone. The art of the same—notably Isadora Duncan, who started the fashion in the United States—will live in the memory. For others, a charitable oblivion is best.

RICH IN PERSONAL BEAUTY.
Largely because Miss Allan arrived in this country too late, it is unlikely she will become more than a passing like the supreme topic of the hour, which she was while dancing at the Palace Music Hall. That she does possess qualifications, however, justifying in a large measure her European success, was quickly manifested in the Academy yesterday. A rich endowment of personal beauty—indeed, no other dancer of the period can compare with Miss Allan in this regard—and a firm grasp of the pictorial aspects of her art are her leading assets.

zier tripartite exhibitions are ex-

GOLDWIN SMITH SERIOUSLY HURT

TORONTO, Feb. 5.—While walking through the hall of his residence Dr. Goldwin Smith slipped and fell, fracturing the upper end of his thigh bone. He is confined to his bed, and the injury is serious for a man of his age.

The members of the Father Matthew Association have been looking forward with much pleasure to the "at home" and smoker which they will hold in their rooms in St. Malachi's Hall this evening. The committee in charge have left nothing undone in order to make the affair a success. An excellent musical and literary programme has been prepared. This will be the last smoker before the Lenten season.

William Webber, for four years purser on the steamship Empire of Britain, was presented on Saturday evening with a handsome solid silver cigar-box. The donors were Capt. Murray and the other officers of the Empire who took the opportunity of expressing their appreciation of the services rendered by Mr. Webber while purser. Mr. Webber has been appointed Steamship Passenger Agent of the C. P. R. at Montreal and leaves for that city on tonight's train. He has followed the sea for about twenty years and before being appointed purser of the Empire of Britain held similar offices on the Lake Manitoba and Montezuma. Mr. Webber came out as a passenger on the last trip of the Empire. His wife and child accompanied him. While in the city he and his family are guests of J. H. Tillson, at whose residence the presentation was made.

CROWD BURROWING IN BEACH FOR KIDD COIN

Searching for Treasure Remains After Mysterious Box Found in Cove.

SOMERS POINT, N. J., Feb. 5.—Diggers are honeycombing the sandy soil hereabouts today. After giving up all other work, they set out with picks and spades to search around in the earth for such buried treasure as may have been overlooked by the three black-browed strangers who burrowed into the estate of County Judge E. A. Higbee last Saturday night and got away (unless Captain Mark Doughty's eyes deceived him) with the long-sought money chest of Captain Kidd.

No one here would be surprised to learn that the entire Somers Point district has a foundation of scattered gold and jewels, and every one who owns property out with a pick and spade driving down into the earth to see what can be turned up.

Mayor John Campbell, Captain Mark Doughty and Captain Van Sant and all the other captains of the region took observations this afternoon and decided that the treasure taken from

All the old legends that have interwoven themselves into local history have sprung into sudden, new life—stories of British men of war of Revolutionary days, that turned pirates when no one was looking and came smacking up the bay with the blood dripping off them to hide away ill-gotten gains till their officers could come and dig them out of the sands, and then crept away again guiltily, never to return; of pirate ships that put in here when they were sore harried on the open seas and hid away the money and jewels and plate that they had taken from helpless ships at the mouth of a cove; of hard-faced crews under the command of granite-browed captains that shoved their boats ashore here in an odd day—boats brimming with wealth that were tucked away in the sands for safe keeping at this handy point, while the pirates perched fang at the ends of men of war's yard arms, or at the bottom of the sea, leaving their loot corroding in the sands.

None here would be surprised to learn that the entire Somers Point district has a foundation of scattered gold and jewels, and every one who owns property out with a pick and spade driving down into the earth to see what can be turned up.

Mayor John Campbell, Captain Mark Doughty and Captain Van Sant and all the other captains of the region took observations this afternoon and decided that the treasure taken from

the Higbee estate last Saturday night wasn't removed to Pleasantville by wagon, but was put into a boat and taken to a vessel that was waiting with doused lights, somewhere in the darkness of the bay.

Mayor Campbell said this afternoon that it is quite likely that other treasure may be uncovered, since Somers Point 100 years ago was the seat of great activity, the abiding place of many wealthy seamen, a handy port of call for floating pirate ships, and a place, where, it is said, Captain Kidd himself often looked in for a quiet week of frog and fittation before resuming his tours of bloodshed and pillage on the high seas.

Mayor Campbell has enlisted a volunteer service of guards who will be promptly roused out to protect any excavation where great wealth may be turned up by the diggers who are out today in dozens.

CANADIAN BANKING METHODS SUPERIOR TO THOSE OF U. S.

NEW YORK, Feb. 5.—A contrast between American and Canadian banking methods unfavorable to the United States was made today at the annual dinner of the New York University School of Commerce by John T. P. Knight, secretary of the Canadian Bankers' Association. Mr. Knight said in part:

"It has been admitted again and again, that the American bank examiner can do very little to prevent the violations of law which frequently lead to ruin. He discovers the wrong after it has been committed, and if bank officials and directors conspire to conceal fraudulent acts from the examiner he is powerless to prevent the consequent break down.

"Although the Canadian branch bank system may admit of opportunity for fraud on a large scale, it at least provides a guarantee against gross mismanagement of small institutions.

Vessel on Fire Abandoned at Sea
Saving Seaboard's Crew—Vainly Helpless With Broken Shaft—Steamship Director on Alaskan Coast.

BOSTON, Mass., Feb. 6.—The crew of the German bark H. C. Dreyer, of Bremen, which was abandoned in a leaking condition on the coast of Alaska here today by the Dutch steamer Barendrecht, from Calcutta and Colombo, which rescued them from their sinking craft in mid-ocean.

WASHINGTON, D. C., Feb. 6.—One of the most radical pieces of proposed legislation before the present congress and one which heretofore has not occupied any great amount of attention, is now being given serious consideration by the judiciary committee of the House and a hearing on it has been ordered for February 17, to which practically all of the prominent railroad men of the country have been invited.

COMPENSATION FOR INJURED EMPLOYEES

Bill Introduced Would Make Company Absolutely Liable Without Any Defence.

WASHINGTON, D. C., Feb. 6.—One of the most radical pieces of proposed legislation before the present congress and one which heretofore has not occupied any great amount of attention, is now being given serious consideration by the judiciary committee of the House and a hearing on it has been ordered for February 17, to which practically all of the prominent railroad men of the country have been invited.

WASHINGTON, D. C., Feb. 6.—A vessel on fire and abandoned at sea was reported today by wireless telegraphy to the naval hydrographic office. The wireless message came from a merchant vessel, which said it was "CZ", but the name of which could not be learned.

BALTIMORE, Md., Feb. 6.—A despatch received from the German steamer Carle A. Norton, captain Broderick, reports that the Yarran left Durban on January 4 for Boston and New York. She is of 4,485 tons gross, and is registered at 2,666 tons gross.

NEW YORK, N. Y., Feb. 6.—The Alaska S. S. Company's steamer, the Yarran, was wrecked on a reef near Hiamma Bay and six members of her crew are believed to have perished.

IRELAND.
Fire in her ashes Ireland feels
And in her veins a glow of heat.

Where bitter rebel passions seethe,
Look with a calm heart in thought,
For so it knows the truth beneath.

By bonds as close as those who wed,
Her speech is held for hatred's cry.
Her silence tells of treason hid.

Where it aims to burst the tie,
Who sees what iron laws forbid,
Excess of heart obscures from view.

A head as keen as yours to count,
Trust her, that she may prove her true.
In links where is love the fount.

May she not call herself her own?
That is her cry, and thence her apt
Of lily, thence her gracious tone.

At justice given in his and his,
The lily once raw with gnawing chains,
Will fret as when God's beams
From mountains that show it more than
dreams.

She, generous, craves your generous
doe;
That will not rouse the crack of
doom.

It ends the blundering past control
Simply to give her above-room.
Her offspring feel they are a race,
To be a nation is their claim;

And strength today is England's need;
Tomorrow it may be for both.
Salvator, heed the portents, heed
The warnings; free the mind from
slough.

Too long the pair have danced in mud,
With no advance from sun to sun.
Ah, what a bounding course of blood
Has England with an Ireland one!

Behold you shadow cross the downs,
And off away to rocky seats,
Lightly will fly old rancours' frowns
When sold with high heart stand
these.

"The world seems to be full of the
front and the rear-grat."
"Don't overlook the people who are
really pleasant to meet."
"To whom do you refer?"
"Oh, to the people who are perfect
nobodies and don't pretend that they
are anything else."

DOCTOR TALKS OF PRESENCE
OF CLERGYMEN IN SICK ROOM

An Interesting Paper by Dr. Thomas Walker Read Before the Alliance—Other Matters Dealt With at Today's Meeting

An enthusiastic meeting of the Evangelical Alliance was held in St. Andrew's church parlors this morning. Addressed by the clergyman, Rev. Dr. McPhie, leader of the evangelistic campaign, made interesting remarks. Dr. Walker read an excellent paper dealing with the clergyman in the sick room.

Rev. Dr. Raymond, the new president of the alliance occupied the chair. About five years ago the patient often recommended the engagement of a different physician.

Upon visiting a sick room, the clergyman needs tact. He is in many cases going to a sick room as a stranger. It would be better if he had called a friend and had the patient treat it as an ordinary visit.

Dr. Walker also dwelt on tuberculosis and the sick room. The clergyman could be of great assistance in the treatment of many cases. Tuberculosis people could be greatly benefited by rest, which fact the General Assembly should impress upon the family.

When a mother is removed to the hospital, the clergyman should see that her children were carefully looked after. The speaker pointed out that in general, the clergyman attributed a number of things to Providence. This is not a view taken by the doctors.

Dr. Walker also went into the visitation of the sick, and the General Public Hospital. He said it was the duty of the superintendent to ask a patient if he desired a clergyman. The hospital authorities would prefer to have the visits of the clergyman made on Tuesday, Wednesday, Friday and Saturday between 2 and 5 o'clock in the case of any very serious disease, the clergyman are given the utmost latitude. Patients in many cases may be seen at any time. Patients in the epidemic hospital can only be seen by the clergyman through permits, granted by the superintendent.

Rev. James Crisp moved a vote of thanks to Rev. Dr. Walker for his interesting paper, and the meeting was adjourned. Rev. Dr. Walker in replying said that proper ventilation everywhere was most necessary. There were hardly school buildings or public meeting places where proper ventilation is provided.

FIREMEN RESCUE OF THREE SMALL CHILDREN.
CLEVELAND, Ohio, Feb. 6.—Her husband wrapped in a man's coat, her blouse and three small children clasped in her arms, Mrs. Solomon Klein appeared in the doorway of a building tenement here tonight and was acclaimed a heroine.

Firemen had assisted the members of 13 families to safety and had announced that all were safe when Mrs. Klein appeared. She had gone into the building unobserved to save the children. The fire was steaming over the bed where they slept together. Snatching her bonnet from a bureau in passing, she pinned it on, took her husband's coat, wrapped it about her head, and rushing into the blaze, saved the three children and now them down the falling stairs safely.

DENIES PURCHASE OF D. A. R.
MONTREAL, Feb. 7.—General Manager Barclay, of the C. N. R., has given an emphatic denial to the report that his company had acquired the Dominion Atlantic Road. Plans for new terminals at Montreal have been prepared and millions of dollars will be expended at that port.

AMHERST WON FROM SACKVILLE CURLERS.
St. John and Halifax Players There This Week—Mount A. Girl a Prize Pae.

SACKVILLE, N. B., Feb. 7.—A former Middle Sackville man, Rev. A. Robinson, writes that he and Mrs. Robinson are meeting with gratifying success in their work for the advancement of the industrial guild of the great Amherst, throughout Alberta they are being greeted by large audiences, and the scheme for raising missionary funds is greatly appealing to the people. In every place they advance their plan there is a large enrollment of members.

In the first match of the season in the district league series last week, the Amherst team defeated Sackville by seventeen points. In Friday's play-off Sackville won, ahead by nine points, but on Saturday, on Amherst's ice, the Cumberland curlers rolled up a lead of twenty-six, so that in the match, as a whole, the victors were Amherst.

The St. John Thistle are due to send four rinks here on Tuesday. On Wednesday of next week St. John's rival will be represented on Sackville ice, when the Halifax Mayflowers will have a game with players here.

On Wednesday evening Nelson W. Brown will deliver an address in St. John's Hall on the Canadian annuities system.

A Mount Allison Ladies' College student, a young lady named Miss Augustus Knight, of Bayfield, was the winner of the second prize in the Canadian poem competition recently conducted in connection with the big ice carnival in Montreal. Miss Knight's verses were entitled "Winter in Canada." Respective winners of the first and third prizes were Montreal people. Miss Knight is the daughter of Rev. M. R. Knight, she herself is now editor in chief of the Allison's students paper of the Ladies' College. Miss Knight comes naturally by her ability as her father has written verse of considerable charm.

DON'T TRY PRESSURE
Trust to Intelligence
You cannot by process of law prevent anyone from dragging themselves to death. We must meet the evil by an appeal to the intelligence. One of the drugs that does the most harm to Americans, because of its wide-spread use and apparent innocuousness, is coffee. Ask any regular coffee drinker if he or she is perfectly well. At least one-half are not. Only those with extra vigor can keep well against the daily attack of caffeine (in the coffee). The heart and pulse gradually lose strength, dyspepsia, kidney troubles and nervous diseases of some sort set in and the clearly marked effects of coffee poisoning are shown. These are facts and worth anyone's thought. The reasonable and sensible thing is to leave it off and shift to Postum. The poison that has been secretly killing it thus withdrawn and a powerful rebuilding agent put to work. The good effects generally begin to show inside of 10 days. If health and comfort are worth anything to you, try it.

THE BISHOP'S PASTORAL WARMLY ENDORSED

Clergymen of Other Denominations Much Pleased With His Lordship's Forceful Remarks.

City clergymen of all denominations strongly endorse the pastoral letter of His Lordship Bishop Casey in condemnation of the liquor traffic. Comment of the arrangement was heard everywhere this morning. The temperance forces are particularly well pleased with the bishop's attitude.

Probably the strongest endorsement of His Lordship's views was given by Rev. S. W. Anthony, pastor of the congregational church. He said in part: "I have read the remarks of several well known writers on the evils of the liquor traffic, but I have never read a stronger arraignment of the traffic than that given by Bishop Casey in his pastoral letter. The letter, itself is a master piece—a classic—that I intend to preserve. His Lordship's language, in, in my opinion, most eloquent. This letter should be read, time and again."

Rev. James Crisp appreciated the timely letter of His Lordship. He thought that its contents should be endorsed by all clergymen, irrespective of denominations.

Rev. W. W. Lodge expressed himself as entirely in accord with the views of His Lordship. The letter would prove of valuable assistance to the temperance cause.

Rev. J. C. B. Appel said he was well pleased with the remarks of His Lordship. He thought, the temperance forces would deeply appreciate the letter.

Other clergymen also favor Bishop Casey in making his strong attack on the liquor traffic.

At the alliance meeting this morning the matter came up in discussion.

AN OKLAHOMA FIRM WANTS TO SHOW HERE

Space for Dominion Exhibition Keenly Demanded—Systematic Scheme for Applications.

An idea of the continental importance of the Dominion Exhibition to be held here this year is suggested in a communication received by Manager Good this morning. It was a request for space rates, and an option on a first class location from a large concern in Chickasha, Oklahoma.

In this connection, a large application for space, an improved plan has been adopted that will facilitate the Exhibition management and the prospective exhibitor as well. The plan is this: A card has been issued with blank spaces in which the prospective exhibitor states in which building he desires space, how much space he wants and his agreement to abide by the rules and regulations governing the show. The \$50 entry fee accompanies the request.

These cards were delivered from the printer this morning, and are being sent out to a large number of persons who have already made informal application for space. Those who contemplate exhibiting should make request for them at once as the demand for allotments has commenced unprecedentedly early.

IMPORTANT BUSINESS BEFORE THE COUNCIL

Monthly Meeting This Afternoon—School Trustees Ask for \$125,000—\$80,000 for Pavements—Accounts Presented.

A number of important matters are before the Common Council at this afternoon's meeting and the session is likely to be a lengthy one. The Board of School Trustees ask permission to seek legislation allowing an increase in the taxation for school purposes to the sum of \$125,000.

Notice of a motion for the issue of \$80,000 in debentures for permanent pavements will be given.

Among other communications are copies of resolutions from the Moncton Board of Trade regarding the public highways of the province and from the local Board regarding the proposed harbor bridge.

Alfred M. Sherwood, constable, writes objecting to the action of the magistrate in releasing under suspended sentence a prisoner charged with resisting arrest.

The Board of Works recommends that the Street Railway be allowed to double track Wentworth street on condition that they afterwards lay a tar McAdam pavement.

The Safety Board recommends an investigation under oath into the shortage of water at the recent fires.

As the Council has since appointed a special committee to investigate it is doubtful whether the recommendation will carry. There is a tilt on between two of the aldermen as to whether there shall be an investigation into the fire department this year and this may add a little interest to the discussion.

The Bills and By-Laws Committee recommend three bills, re-building of wharves, levying of rates and taxes and in reference to the city court.

The accounts for the past year will be presented by the Chamberlain and Comptroller.

The death of Theodore D. Craft took place about 7.30 o'clock this morning, after a lingering illness. The deceased was well known and had been ill with tuberculosis. He was a son of Millie and the late Robert Craft. Besides his mother, six brothers and three sisters survive. The brothers are Frederick A., William, Merritt, Frank, Walter and Hunter of West St. John. The sisters are Mrs. D. Ritchie, St. John; Mrs. Frank Colwell, Woodstock, and Mrs. Fred McKee of the West End. The funeral will be held on Wednesday afternoon.

In our special selection of Fine Suitings and Overcoatings, now offered at 85 off the regular prices, are many choice patterns that are sold elsewhere at \$5 more than our regular prices. Therefore, our saving of \$5 actually represents \$10 compared with other stores' prices. To convince yourself of this valuable price-saving, we suggest that you go and look elsewhere before you come here. Comparison will certainly prove that we give more value for the money than any other tailoring house in St. John.

THE PRESCRIPTION STORE

The more serious the illness, the more important it is that you bring the prescription here. In our PRESCRIPTION WORK we use drugs of but one quality—that quality is the finest on the market. We are extremely careful to accurately follow the directions of the physician in every case.

"Reliable" ROBB, The Prescription Druggist, 137 Charlotte Street.
