

BOSTON LETTER.

Two N. B. Men Went Down Before Democratic Landslide.

A Charlotte Co. Man is Assistant Rector of St. Peter's Church.

Only About a Dozen Cases of Smallpox in the City per Day—Recent Deaths of Former Provincialists—The Markets.

(From Our Own Correspondent.) BOSTON, Dec. 12.—The city is just recovering its breath after the pronounced democratic landslide of Tuesday, which swept Mayor Hart and nearly every other republican of importance out of office. The sweep was so complete that democrats were as greatly surprised as their opponents. Two of the natives of New Brunswick were candidates for street commissioner and defeated. They were Joe I. Stewart, republican and Stephen O'Shaughnessy, democratic socialist. The latter is a native of St. Andrews.

In Everett, the republican candidate for mayor, Charles Bruce, was elected by a big majority. Mayor-elect Bruce is a native of Shelburne, N. S. He has served several terms as alderman and council. He is prominent in Masonic circles. Immense losses fell to the lot of Boston speculators who invested in the stock of the Amalgamated Copper Co. The gigantic concern whose leading promoters are members of the Standard Oil combine. Last spring the stock sold as high as 130. Last Saturday hurried sales were made at 44, with recoveries this week to 70. The slump has been felt all over the country, especially in New England. The sums lost in this city alone, it is estimated, aggregate millions. When the Amalgamated company was formed it absorbed the Butte and Boston, and the Boston and Montana mines, properties which were practically all owned here.

On Jan. 1, a semi-annual dividend of 4 per cent will be paid to the holders of preferred stock of the Dominion Coal Co. Rev. Frederick Towers, a Charlotte county boy, has been engaged as assistant rector of St. Peter's Episcopal Church, Cambridge. The rector is Rev. Chas. H. Perry. Rev. Mr. Towers was born in Tower Hill, N. B., 40 years ago. He was graduated from the University of New Brunswick in 1877, and in 1880 was ordained priest. For a time he was rector of a church in his home diocese, but eventually removed to Thomaston, Me., and later to North Carolina. Three years ago he came to Cambridge and after taking a three-years' course at Harvard, received the degree of M. A. Rev. Mr. Towers is a member of the Emerson College and Oratory, Boston, where he is professor of psychology, philosophy, and the literary interpretation of the Bible.

Rev. Geo. B. Cullen of New Haven, formerly of Amherst, N. S., and a former football player and coach at Yale University, has raised the debt on the Howard Avenue Baptist Church, New Haven, and on Sunday the mortgage was burned by him at the church's spectacular service. While the mortgage was burning, the congregation sang the doxology. "Parson" Cullen, as he has long been known at Yale, has been very successful as a minister, and is well liked. Sometime ago he experimented in curing intemperance by hypnotism.

The smallpox situation in Boston has improved somewhat this week, although from 8 to 12 cases are still reported daily. This is a decrease from the number reported two weeks ago, and as vaccination has been generally resorted to by the board of health, officials think they have the disease well in hand. Bristol, Conn., reports that a man named Matthew Rosseter, who arrived there from St. John last week, is suffering from smallpox. The family of John Fay, with whom Rosseter was staying, has been quarantined.

The following deaths of former provincialists in Boston and vicinity are announced: In Dorchester, Miss Fanny Maxwell, aged 23 years, daughter of John M. Maxwell, formerly of St. John, in Dorchester, Dec. 8. Mrs. Margaret Goodfellow, widow of Wm. Goodfellow, aged 63 years, formerly of St. John, in this city, Dec. 6. David A. Irvine, son of Elias and the late Charles Irvine, formerly of St. John, in Cambridge, Dec. 7. Angus McLean, son of Murdoch and Florence McLean of Antigonish, N. S., aged 38 years, in South Boston, Dec. 4. Samuel Duggan, aged 52 years, late of Halifax, in South Boston, Dec. 4. Caroline Smeltzer, aged 72 years, formerly of Halifax, in Somerville, Dec. 3. Douglas Spence, aged 51 years, formerly of Windsor, N. S., in Brookline, Dec. 7. Geo. W. E. Tucker, aged 70 years, native of Nova Scotia.

A teamster living in the Bunker Hill district of Charlestown, who was formerly a resident of Kings county, N. B., is in trouble, having encountered the strong arm of the law in the midst of his matrimonial affairs. The defendant, whose name is Stillman Alward, was arraigned in the Roxbury district court today, and was held for the grand jury in \$1,000 after pleading guilty to a charge of polygamy. The warrant alleges that Alward married one Annie A. Iago, on Oct. 10 last, having previously married Miss Minnie Keith in New Brunswick. Alward's first wife came to Boston not long ago, and as a result of investigations, she had a warrant issued in the Roxbury court for his arrest. Alward was taken into custody late yesterday afternoon at his rooms, 143 Bunker Hill street, Charlestown. The city hall records show that Charles Alward, giving his birthplace as New Brunswick, and Annie A. Iago, aged 25, a dressmaker, were married on Oct. 10. It appears that "Charles" was, it is alleged, left a wife and four children in New Brunswick. Quite a crop of railroad rumors have

reached here from New Brunswick and Maine of late. Among them were reports that the I. C. R. was to be taken over by American capitalists, another that the road might go to the F. T. R., that the latter corporation intends to build a connecting link in Maine so as to obviate the necessity of using the passage between Vanceboro and Mattawamkeuc, and that the Canadian Pacific is after the Shore Line, and may get a small road in Maine belonging to the Washington

R. P. Chandler of St. John, W. G. Dibble of Fredericton, D. W. Robb of Amherst, J. Watson Fraser, sporting editor of the Halifax Herald, W. H. Troop and Ross of Halifax were in the city this week. A Pennsylvania combination, headed by John Dubois, a millionaire lumberman, is said to be about to attempt a combination in the hemlock lumber market, and run the prices up from \$14 to 15 per 1,000 feet to \$20. The scheme will require about \$20,000,000 capital, it is stated. The spruce lumber market here shows little change this week. The winter weather of ten days ago caused slight let up in the demand, but the weather is again fair and mild and favorable to builders. Prices are fully maintained generally, and the few mills that are sawing are very busy on orders. Ten and 12 in. dimensions are worth \$13 to \$15; 10 and 12 in. random lengths, 10 to 15; up, \$19 to 15.50; 12x, 2x, 2x, 2x, 2x, 10 feet, 10 feet, \$15.50 to 13; extra spruce clapboards, \$12 to 24; clear, \$20 to 31; second, clear, \$27 to 28. Laths are easier, 1.5-8 in. selling at \$3.15 and 1.1-2 in. at \$3 to 3.10. Cedar shingles are scarce and very firm, though the demand is limited. Extras are worth \$1.15 to 1.25; clear, \$2.85 to 2.95; second clear, \$2.35 to 2.45; sap, \$2.10 to 2.20; extra No. 1, \$1.75 to 1.80. Hemlock is in quiet demand with the position firm. Good eastern boards, 12, 14 and 16 feet, are held at \$14 to 15.50. The fish trade at present is quiet. There is not much doing in mackerel. Medium provincial No. 3 fish are in rather poor demand, with the last sales at \$10 to 10.50, cargo lots. Codfish at wholesale are quiet and prices are very little changed. Large shrimps and Georges are still held at \$8.50 to 8 in. medium, \$5.25 to 5.50; large dry bank, \$5.75 to 6, and large pickled bank, \$5 to 5.25. Pickled herring are scarce and firm, although prices are not as high as early in November. Sales have been made at \$3 to 3.37 1/2 per cwt. for plain and \$5 to 5.50 for rimmed. For N. S. large salt, \$5.50 to 7 is asked, and for medium, \$4.50 to 5. Sticks are worth 10 to 15 cents per lb.; frozen herring, \$1.50 per 100; live lobsters, 18c. and boiled 20c.

NOT GUILTY.

Verdict of Washington Jury in Case of Mrs. Bonine.

WASHINGTON, Dec. 12.—The jury in the case of Mrs. Lora Ida Henry Bonine, charged with the murder of James Seymour Ayres, Jr., in the Kenmore hotel in this city on the night of May 13, this evening returned a verdict of not guilty, and the defendant was set at liberty. Such a conclusion of the trial was generally expected, the popular impression here being that from the evidence submitted the prosecution had failed to prove its case against Mrs. Bonine. The jury was out less than five hours.

Mrs. Bonine was in court when the jury returned, and with her were her husband and her two boys and several relatives, all of whom have shown their sympathy for her during the long trial. The jury was discharged, and Mrs. Bonine and her friends left the court house by a back door. The trial of Mrs. Bonine had been in progress almost four weeks and attracted the attention of thousands of people before the local courts in years. Extraordinary interest was caused in the tragedy at the time young Ayres was killed, because of the mystery surrounding the case. The statement made by Mrs. Bonine of her part in the tragedy while the coroner's inquest was in session. She said she was the only person in the room when young Ayres was shot and that he was killed in a struggle with her over the possession of the revolver with which he was trying to frighten her into compliance with his demands. Mrs. Bonine has been in jail since the tragedy. She did not go on the witness stand during the trial.

A TOUGH VOYAGE.

Letter from Capt. Morris of the Barkentine Ensenada. A letter reached this city yesterday from Capt. M. B. Morris of the Windward barkentine Ensenada, which put into St. George, Bermuda, on the 9th ult. The letter was dated Dec. 7th, and gave some idea of the difficulties which Capt. Morris experienced on the voyage from Cochlin India, from which port the barkentine sailed on August 26th for New York. Capt. Morris says his vessel was making a quick passage, but after she crossed the equator his crew commenced to get sick. The carpenter died on Nov. 19th. The captain made up his mind to run for some port north of Hatteras, but his men became worse, and on the 27th the mate and himself were the only ones not affected with the trouble. He then decided to make for the nearest port, fearing that he and the mate would not long be able to handle the crew who could lend a hand. The physician at St. George is of the opinion that the crew were suffering from the effects of some impurity in the water taken in at Bombay. Capt. Morris stated that he would send his wife and two children up to St. John on the str. Benedict, which was expected to leave Bermuda yesterday. Capt. Morris is a brother of the Capt. Morris who drowned himself at Mobile the other day.

Children Cry for CASTORIA.

Your Faith will be as strong as ours if you try Shiloh's Consumption Cure

and ours is so strong we guarantee a cure or refund money, and we send you free trial bottle if you write for it. SHILOH'S costs 25 cents, and will cure Consumption, Pneumonia, Bronchitis and all Lung Troubles. Will cure a Cough or Cold in a day, and thus prevent serious results. It has been doing these things for 50 years.

HOLY GHOST AND US.

Discarded Doctors on Case of Pneumonia With Fatal Results.

LEWISTOWN, Me., Dec. 13.—Mrs. Maria Lombard died at her home in Auburn today after a brief illness with pneumonia, which it is alleged, resulted from the woman being baptized in the icy waters of the Androscoggin River last Thanksgiving Day by members of the Holy Ghost and Us Society. A. H. Toole, after a physician who had been called by Mrs. Lombard's relatives stated that the woman was suffering from pneumonia and prescribed medicine for the patient. The physician was told that his services would be no longer required, and the contents of the medicine bottles were turned into a sink and two members of the Holy Ghost and Us Society, called in Miss Cary, a local physician, but his efforts to save her life were fruitless, and she died today. Mrs. Lombard, who was 55 years old, had been interested in the Sanford movement for several years. Last Thanksgiving Day she was one of a party which went from this city and returned to her home in Auburn. There the candidates were immersed in the Androscoggin River. A few days after returning to her home Mrs. Lombard became seriously ill, and called in Miss Cary, a local physician, but his efforts to save her life were fruitless, and she died today.

GOLD HOARDED BY MISERS

Millions in Yellow Coin Disappear Annually From Circulation. (London Mail.) The world is full of millions and millions of lost sovereigns. A competent authority has just completed some investigations which show that in three years the Bank of England has lost trace of no fewer than 20,000,000 golden coins of the realm. This wholesale disappearance of gold is a mystery which is being solved year by year. A river of gold has flowed unceasingly from Threadneedle street to all parts of the world, but it has come back only as a tiny "yellow stream" to the banks of the Thames and the surplus in its wanderings? "Misers" is the unpoetical explanation for a great part of this disappearance. There still exist in this and other countries thousands of gold hoarders, like enough to hoard up gold and keep it lying idle by them for the sole pleasure of knowing it is there and occasionally counting it.

THE PEOPLES' INDIA

The people of India appear to be particularly addicted to a habit that is more reminiscent of medieval times than of an age when money is generally reckoned in bank notes and gold coins. In the region of Bombay it is estimated that the 12,000,000 golden sovereigns are hoarded. If that is the record of Bombay alone, what is the total for the whole country? China, too, absorbs a vast amount of gold that never sees the light again. As a matter of fact, while the whole world is searching for and trying to acquire gold, a goodly party of it appears to be engaged in the less thrilling pastime of hiding it away. Great Britain is not guilty of this criminal sin. Dotted all over the kingdom are graveyards of gold which if discovered and opened might restore to circulation a vast amount of wealth at present absolutely useless. At a spot about two miles from Herefordshire has been a treasure chest of gold which in the local history has having been buried by a great family once resident in the district. But the money cannot be found. There is a similar record in connection with Hume Castle, formerly a seat of a branch of the Fitzwilliam family. Somewhere near Stokely Castle, Shropshire, there is believed to be hidden a great golden chest filled with gold coins, but up to the present all efforts to find it have ended in failure.

HEARD WHAT WAS SAID.

Speaking with a farmer about one of his neighbors, "So-and-so is a good man." He looked at me steadily without a word. "So-and-so is a good man," I repeated in a louder tone, fancying he must be deaf. "He is a good man," he answered, "I heard what you said."

P. E. ISLAND.

The Smallpox Outbreak So Far a Small One.

Island's Contribution to the Third Contingent—Recent Marriages and Deaths—Election of Officers. CHARLOTTETOWN, Dec. 12.—St. Dalton Hall will arrive here at noon tomorrow and will bring direct to Liverpool. Dr. McLean of Montserrat is seriously ill with appendicitis. Rev. Wm. of Vernon River was driving recently with a fur coat and driving gloves by the congregation. L. G. Mann, proprietor of the Sydney fish market, and Norv J. Linton of that town, were married in St. John's. The groom is a native of P. E. Island. This party is now being telegraphically communicated for a week in consequence of the breaking of the cable with the P. E. Island. P. E. Island's third contingent left this morning for England. The party is composed of Nelson Bruce, James Matheson, Walter Lane, Wm. C. Cook, Roger Harris, Jas. S. Walters, and others. The contingent is now being telegraphically communicated for a week in consequence of the breaking of the cable with the P. E. Island. P. E. Island's third contingent left this morning for England. The party is composed of Nelson Bruce, James Matheson, Walter Lane, Wm. C. Cook, Roger Harris, Jas. S. Walters, and others. The contingent is now being telegraphically communicated for a week in consequence of the breaking of the cable with the P. E. Island.

MOUNTED RIFLES

To be Increased up to Nine Hundred Men.

Canada Now Offers a Field Hospital or Bearer Corps, Whichever War Office Wants. OTTAWA, Dec. 15.—The minister of militia was notified by the British war office yesterday of an offer to increase the Mounted Rifles up to 900 men, and is made because there is sufficient accommodation available on the transports Victorian and Manhattan. One squadron will be raised from Winnipeg to Vancouver, the other in the eastern provinces. Recruiting in the west will commence on the 23rd inst. The dates of recruiting and quotas in the east will be begun tomorrow. The men will be chosen from the west and will be thoroughly experienced. Hon. Dr. Borden today received a telegram from Dawson stating that four volunteers, three ex-military policemen and one ex-member of the New Zealand Mounted Rifles, had left for Vancouver with the hope of joining the rifles. The message asked for four places to be kept for them. The minister replied that under the circumstances Col. Evans will hold open four places as long as possible. On arrival at Vancouver, after their 1,600 mile journey, they are to report by telegraph to Col. Evans. His excellency yesterday forwarded to the imperial government, on behalf of Canada, an offer of a field hospital corps or bearer corps, whichever preferred, consisting of five medical officers and 43 non-commissioned officers and men.

WRECKED IN ROCKIES

Eight Persons Killed and Sixteen Others Injured.

HELENA, Mont., Dec. 15.—A special from Kalspell says a wreck occurred on the Great Northern railroad near Dees, in the Rocky Mountains, soon after midnight this morning. The engine pulled the train and the train was derailed. Some of the cars were overturned and all were more or less wrecked. The accident was due to rails spreading. Among the killed was Otto Erickson, going from Sweden to California. Seven others were killed, but their names have not been learned. They were three elderly gentlemen, a young girl and three men. Two other elderly women are hurt internally and neither is expected to survive. Fourteen other persons were more or less seriously hurt. The train was going at the rate of 25 miles an hour, when it broke in two and the air brakes set immediately, preventing a more serious accident. The largest number of injured were in the day coach. All were asleep at the time of the accident. The day coach caught fire, but the flames were extinguished.

SOBER BLOWN ASHORE

NEW YORK, Dec. 15.—The three-masted schooner Mary Gray was blown ashore last night near Seattle Park, and was seen by the life savers for a half hour before she ran aground, and they were ready for her. Captain Lynch and his crew of six men were taken off by the life savers very early this morning. They are being cared for at the life saving station. The vessel was bound from Boston to Brunswick, Me. She is in ballast and lies in a bad position. It is thought that she will break up, although some officers are of opinion that she is favorable to her.

A MINISTER'S DUTY

A Glowing Tribute to the Sterling Worth of Dr. Agnew's Castoria Powder. "When I know anything worthy of recommendation I consider it my duty to tell it," says Rev. James Murdoch, of Hamburg, Pa. Dr. Agnew's Castoria Powder has cured me of catarrh of five years' standing. It is certainly magical in its effect. The first application benefited me in five minutes. SOLD BY W. V. PADDOCK.

ST. JOHN MEN PASSED.

OTTAWA, Dec. 15.—The following candidates have passed the lower grade civil service examination: At St. John—Cowan, Geo. C.; Croghan, T. P.; Crowley, J. S.; Donovan, Jeremiah; Folkins, Geo. W.; Jackson, John; Kelly, Arthur C.; Melick, Arthur E.; Morrissey, Michael; Macdonald, Wm. L.; Wallace, Harry W. B.

CASTORIA

For Infants and Children.

THE NAMING OF VESSELS MATTERS. A Newport News correspondent of the U. S. Marine Journal sends the following to this paper: "There seems to be a great difference

of opinion as to much controversy as to naming masts of vessels, as there appear to be no settled names. I would suggest that the terms mast be applied only to the first three, and naming the others as follows: Foremast, mainmast, mizzenmast, jigger. For vessels of 5 masts: Foremast, mainmast, mizzenmast, fore jigger, after jigger. For vessels of 6 masts: Foremast, mainmast, mizzenmast, fore jigger, main jigger, mizzen jigger. For vessels of 7 masts: Foremast, mainmast, mizzenmast, fore jigger, main jigger, mizzen jigger, fore spanker, main spanker, mizzen spanker. For vessels of 8 masts: Foremast, mainmast, mizzenmast, fore jigger, main jigger, mizzen jigger, fore spanker, main spanker, mizzen spanker, after spanker. For vessels of 9 masts: Foremast, mainmast, mizzenmast, fore jigger, main jigger, mizzen jigger, fore spanker, main spanker, mizzen spanker, after spanker, fore spanker.

MARCONI'S TRIUMPH.

Signalled from Newfoundland to Cornwall, England.

By Means of His Wonderful Wireless System—Dined in Honor Thereof by Sir Cavendish Boyle. NEW YORK, Dec. 15.—M. I. Pupin, professor of electrical mechanics at Columbia University, said tonight that he fully believed Marconi had succeeded in signalling between the coasts of Newfoundland and Cornwall, England, by his system of wireless telegraphy. LONDON, Dec. 15.—Major Flood-Page of the Marconi Wireless Telegraph Company, confirmed the report representative of the Associated Press that Mr. Marconi, at St. John's, N. F., had received signals from the experimental station at Faldouh, Penseance. Major Flood-Page said the severe weather made continuous tests very difficult, but there was no doubt that the wireless apparatus had been successfully transmitted across the Atlantic. ST. JOHN'S, N. F., Dec. 15.—Congratulations from Newfoundland and abroad are today pouring in on Mr. Marconi. The inventor is dining tonight with Sir Cavendish Boyle, governor of Newfoundland, in order to more fully explain the details of his experiments to the latter, who will send a lengthy despatch on this subject to the British cabinet tomorrow. Mr. Marconi today made a further explanation of his trans-oceanic signal. He said he expected them to be stronger than they were. He was very confident that he would receive them. He attributes their faintness to mid-ocean wind currents and imperfections in his kite apparatus. He expects better tests tomorrow if the weather enables his balloon to ascend. There is some fog on the coast today. Foggy conditions will give better signals than will clear atmosphere.

WEARY BRAIN WORKERS.

Fagged out, ideas come as slowly as molasses. You think of things just a minute or two too late. Snaps and fumbles. The buoyancy that made work a pleasure—that's gone too. The doctor would tell you that you are run down, not eating enough or digesting enough. Your stomach needs aid, your digestion needs a brace too. Your blood requires Phosphorus and Iron that it may be formed readily. Now Ferronin is a wonderful tonic, a blood maker and nerve stimulator. It's food for the blood and makes you strong quickly and permanently. Sold by A. Chipman Smith & Co. Price 50c.

ST. JOHN, N. B., DECEMBER 18, 1901.

THE CONTEST IN YORK

So far as his open and public efforts are concerned, Mr. Gibson is running his election in York on straight party lines. Whatever may have been attempted by private and business negotiations with conservatives, who might be thought amenable to this kind of persuasion, Mr. Gibson does not recognize them publicly.

A HAPPY RESTORATION.

The Frederickton Gleaner, which was formerly liberal, and more recently conservative, and now supports the Laurier government and its candidate, does not appear to be pleased with those opposition papers which adhere to their principles.

CONTINENTAL ANTIQUITIES.

The German press and some of the politicians of that country show signs of unfriendliness toward Mr. Chamberlain and the British people. But this unfriendly feeling is not more intense than the sentiment against the United States.

Spain she was for the first time made aware of the easy possibility of a European alliance against the United States. Such a combination would always have been dangerous, but now when the United States has become an empire, with colonies in both hemispheres, it would be doubly perilous.

MR. PHINNEY'S POSITION.

And now Mr. Jas. D. Phinney, an "old" conservative, has been constrained to take the stump against "Dr. McLeod." So says the Frederickton Gleaner. But if the Gleaner had reported Mr. Phinney's speech, as the Herald did, the fact would have been made to appear that Mr. Phinney withdrew from the conservative party six years ago, and has been with the liberals in two general elections.

THE CASE OF ADMIRAL SCHLEY.

The report of the commission in the case of Admiral Schley leaves the question open. Of the judges one had expressed a strong opinion against Schley before the inquiry began, and objection was taken to his appointment. But if this had not been the case the verdict of Admiral Dewey would probably carry as much weight as that of his colleagues.

ANOTHER WAR IMPENDING.

The relations between Chile and the Argentine Republic have reached the point when war is thought to be inevitable. This may be more than the ordinary South American campaign.

THE LARGER COLLEGE UNION.

The article reprinted from the Star refers to the federation of Dalhousie and Kings colleges only, but the movement contemplates the ultimate union of all the maritime provinces degree conferring universities. This idea was discussed in 1880 in several of the colleges, and rejected by Mt. Allison and Acadia.

Three times the number of students that were in attendance twenty years ago. Mt. Allison has had a like increase, and has now invested in additional university buildings more than \$100,000.
