Arming the Yeomanry

I understand that Mr. Haldane and the Army Council are seriously considering the question of rearming the Yeomanry. One of the many unwise deductions drawn from the South African War was that the sword as a weapon for cavalry was no longer useful. Since then the Yeomanry have been armed with rifles. Military experts are now returning to the "white weapon." During the recent manoeuvres the Yeomanry were more than once placed in a position when "the charge" was the only way out of an awkward and dangerous predicament. The fact that they had no weapon with which to charge naturally forbade "the yell." I am assured the wise men of War Office contemplate restoring the Yeomanry cavalry,--Dundee

Unionists and Budget

Unionists agree that the Lords ought to bow in the future, as they have always bowed in the past, to the deliberately expressed will of the nation. The Lords have the most profound respect for the rights and privileges of the House of Commons, as they have often shown. But they do not believe that those privileges entitle that House to force a resolution on the nation without first obtaining its deliberate and considered assent. With this feeling daily growing in the party, and with other weighty considerations pressing upon them in the same direction, it may be very difficult for the Unionist leaders to advise the House of Lords not to reject a measure which they themselves regard as both impolitic and unjust, although they cannot but look upon the possible consequences of rejection--shouty rejection--indeed, be in the end decided upon--with anxiety. These are certain to be serious, and they may be grave beyond calculation.--The Times, London.

New Brunswick Liberals

Banquet Hon. Dr. Pugsley

Two hundred and fifty prominent men of the Province, with several from the other Provinces, gathered at the complimentary dinner given to Hon. Wm. Pugsley, Minister of Public Works, by the Liberals of New Brunswick Tuesday night at St. John.

Mayor Ballock presided, and among the guests were prominent parliamentarians of both Local and Federal Houses, as well as representative business and professional men. Among the communications expressing regret at their absence was a letter from Premier Laurier in highly eulogistic strains.

In reply to the toast to the Governor-General, Hon. W. Mackenzie King and Hon. Chas. Murphy spoke. Mr. Murphy said he would travel twice as far as he had to do honor to Dr. Pugsley, whom he said was in every sense a big man with a vision enabling him to see the needs of the future of the country, and to provide for the necessary public works. Pointing out the achievements of the present Government of which Dr. Pugsley is an able member, the speaker referred to the progressive immigration and railway policies, and Sir Pugsley's work in connecting the races, and taking steps which will help to place Canada in the position of the greatest nation in the British Empire.

Hon. Mackenzie King, following, also eulogized Dr. Pugsley in terms of the warmest praise. He announced that before leaving Ottawa he had received a letter from the Attorney General of the South African Federation telling of the establishment of a Department of Labor, the model for which was the Canadian Act. He told of Dr. Pugsley's interest in his Department, and his efforts through the Department of Public Works on behalf of the working men. In closing, he predicted a still more brilliant future for Dr. Pugsley.

Dr. Pugsley was given a big reception. He spoke in praise of the Liberal members of New Brunswick, naming each. Passing on to his recent tour of the West, he compared the progress shown in twelve years since his last visit. As to Vancouver, he saw no reason why it should not reach across the Pacific and grasp a large share of the trade there. Coming back to New Brunswick, however, and notwithstanding the progress of the West, he was prouder of his native Province than ever.

He was more convinced than ever that the Eastern ports were to receive a greater impetus from the Western prosperity. Some of Alberta's wheat would be exported by the Pacific Coast, but the East was not set up against the West, and the East would take its chance of its share of the business. Hitherto not all the Western produce for export went by Canadian ports, but this was being changed, and he was convinced that before long it would be. He would not say all would come through St. John. Nova Scotia would also share in it. All that St. John wanted was what should come to it by means of its geographical advantages. He predicted that inside of five years there would be five hundred million bushels of wheat grown in the West, and future years would see even this enlarged.

Canada Will Soon be a

Great Nation

Montreal, Sept. 24.--"Canada as a whole must soon be one of the great nations of the earth, but mark you as a nation united as one man in its loyalty and devotion to the Mother Land, and to the Empire," were Lord Strathcona's parting words tonight to hundreds of friends who had gathered at Bonaventure to bid the grand old man a good-bye. To the Ocean Limited was attached the private car Earlscliffe in which the High Commissioner will travel to Rimouski where he will board the Empress of Ireland tomorrow. His two grand children left this morning by the C. P. R. special.

Monuments to Great People

A recent despatch announced that certain public-spirited people in Continental Europe are agitating for the erection of monuments to the memories of Adam, Eve and the inventor of the cork-screw. Why the names of these three distinguished personages should be crammed together is not made very clear. Perhaps the common bond is the forbidden fruit which forms the great central fact in the lives of the former two and which metaphorically was that which inspired the inventor's genius. It is almost impossible to dissociate the cork-screw from the forbidden fruit of modern times. It will be difficult to find grounds on which to oppose a monument to Adam and Eve. If there is fame in being first, they certainly have to it a claim larger and more compelling than can be claimed on behalf of any of their successors. To-day the public have each other by the ears respecting rival claims as to who was the first man to reach the Pole. What, then, about the first man and woman to tread the earth; who owned it all, and although they had no interiors to divide over, had no superiors to obey? And everybody can take an interest in a monument to monkeys and clams as their ancestors, and pay their respects to monkeys and clams as their ancestors, they can look back to this unique although somewhat unfortunate pair as the planters of their family trees. As the ancestors of everybody, their monument should have a tendency to emphasize the brotherhood of man and break down the barriers of race and social caste. Standing in the presence of such a monument, and claiming that the pair in whose honor it is erected were their ancestors, prince and peasant, simple and great, admit a kinship and a tendency should be to foster a spirit of equality and fraternity. But what about the claim of the inventor of the cork-screw to fame? At the best, anything that can be said in support of it must be more or less unconvincing. It seems unfair to Adam and Eve that their case should be twisted up with that of the man who made it easy to uncork bottles.

The wholesome, harmless green leaves and tender stems of a Jung healing mountain shrub, give to Dr. Shoop's cough remedy its curative properties. Ticking off dry bronchial coughs quickly and safely yield to this highly effective cough medicine. Dr. Shoop assures even very young babies. No opium, no chloroform--absolutely nothing harsh or harmful. It calms the distressing cough, and heals the sensitive membranes. Accept no other. Demand Dr. Shoop's. Sold by all dealers.

Darwin's Theory of Earth's Movements

Sir George Darwin, the noted scientist who was the guest of the Author's Club in London, recently, delivered an interesting address on his theory of the tides. Everybody knows that the tides are due to the moon's attraction. In the tidal motion the movement of the water causes friction and a consequent slowing down of the motion of rotation of the earth, as a brake would do. The effect, though almost infinitesimal, becomes appreciable in time, although it has not yet been measured. But it must exist, and this slowing down being due principally to a reaction on it, with the result that the moon will move further and further away from the earth, owing to the yielding of the system. The opinion of many authorities is that the moon was shot off from the earth at the portion now filled by the Pacific Ocean. As it is still moving further away and the rate of rotation of the earth diminishing the time will come when the length of the day and that of the lunar month will be the same and the earth and moon will again revolve as a rigid body. When that occurs the day will be fifty-five times as long as our present day. But the sun also produces tides and similar effects, though on a smaller scale. So the year too will be lengthened.

Not a Sea-Dog

(From the Toronto Star)

Lord Charles Beresford is an elegant little man, and not at all of the sea-dog species. Being Irish, he is not bluff, but he is extremely frank. "I respect," he said to the assembled newspaper men, the journal that criticizes me, as much as the one that praises me, and to tell you the truth, I don't care a fig for either of them." A small, stoutish, energetic man, with a round face and the most engaging smile imaginable, such is Lord Beresford. His smile alone would win him success in life.

Cuba may Join the United States in 1910

A Washington despatch says: "There will be another revolution in Cuba in the fall of 1910, and it will be followed by annexation to the United States." Such was the remark of an American business man who, with interests in the Island, has just returned from a trip there. He explained: "Cuba pays a total of something like \$30,000,000 revenue to the United States annually, and it is a tremendous tax on the business of a country of about 2,000,000 people, not ten per cent, of whom are engaged in substantial gainful occupations. It couldn't be borne by any but an immensely rich country, and Cuba is the richest country of equal area by nature in the world. "The insular government is accumulating a big surplus and people who haven't any share in it want some of it. Then the great and small business interests alike are determined that the island shall become part of the United States. Take the great railroad interests. They are determined to bring the island into the United States as a guarantee of the development of the real possibilities of the island, which can only be done under a stable and secure Government. "But that is not all. After the refusal of the Roosevelt Administration to annex the island following the revolution of two or three years ago, there was a falling off of emigration from the United States. Until lately it has not substantially revived. But this autumn it will set in again and we will next year see a greater movement than was ever known before. Every American who goes to Cuba begins power pulling for annexation. This will in the end be more effective even than the efforts of the great aggregations of English and American capital in the island which want it brought into the Union. It will come in when there is another revolution."

WEDDING BELLS

CALLAHAN--GLEASON

At 5:30 o'clock Tuesday morning Sept. 28th, a very pretty wedding was celebrated, when Father Collins united in marriage Miss Nora Gleason, daughter of P. Gleason of Fairville, and Charles Callahan, of St. George. The bride was attractively dressed in a suit of cream serge, and wore a large picture hat to match. She was attended by Miss Alice Smith as bridesmaid, prettily gowned in a costume of cream panama and wearing a large black water silk hat. A brother of the groom, Arthur Callahan, of St. George, was best man. After the ceremony, a wedding breakfast was served at the home of the brides parents, Fairville. The newly married couple left for a trip to Halifax, and on their return will live in Fairville. They received a fine array of handsome and useful presents from friends. The bride's travelling gown was of navy blue with hat to match. Mr. Callahan has a responsible position with the Mutual Fire Insurance Company and was presented by them with a substantial check on this happy occasion. Greetings joins with the friends of Mr. and Mrs. Callahan, in wishing them a happy married life.

CHARLOTTE CO. EXHIBITION AT ST. STEPHEN A SUCCESS

Attendance Was Large

The first annual exhibition of the Charlotte Co. Agricultural Society held at St. Stephen ended Saturday night in a blaze of glory if not in financial success for those who have labored so long and so hard in its regard.

Its opening was delayed by the advent of a storm of great magnitude and unusual at this time of year. Many who had deserving exhibits ready to bring in left them at home and remained there themselves.

Owing to the electric light station being under water the buildings were not adequately lighted and this proved perhaps the greatest blemish to the show.

The attendance was beyond all that could be expected under the adverse circumstances and encourages the society to reach out for something bigger and better next year.

The races at the Park Saturday were attended by two thousand people even though the weather was showery and the track a puddle of mud its entire length. The local race was won by Bobby, owned by P. F. McKenna, Gold Lance, owned by J. F. Daston won the third heat and second money and Jack McGregory owned by Alex. Reid, took third money. Best time was 2.59 1-4.

The 2.30 class was won in straight heats by Gold Bug owned by W. W. Mercer of Princeton and driven by W. H. Keyes Oct. 13. Several noted musicians will be heard on this occasion. The Soprano, Miss Francis Travers, a St. John lady, has studied with the best teachers in New York, and possesses a powerful, rich and splendidly trained voice. She sings with perfect ease in the different languages, and is without question one of the very best sopranos on the concert stage today. She is the best soprano that has ever visited St. George, and her singing is bound to create a sensation.

The Violinist, Miss Olivia Murray, is a young lady who has but a short time since, returned from Germany, where she has been pursuing her study of the violin. She has had the advantage of studying with the best masters while in Germany, and her playing is a genuine treat. Miss Murray bids fair to be a concert star of the first magnitude.

The Pianist, Mrs. Nano Scovil, is a finished product of the German school of piano playing. She gets a tremendously powerful tone from the piano, and one almost forgets at times, that it is a slight little woman who is playing. Her technique is brilliant, and altogether Mrs. Scovil is one of the very best pianists who has ever touched the Provinces. Her playing in Sackville last year was a great triumph for her.

The Tenor, Mr. John A. Kelly, is well known throughout the Provinces and the New England States, having sung with different opera and concert companies. His voice is a pure tenor, of beautiful quality and St. George people on Oct. 13th, after hearing him, will not wonder that Mr. Kelly's services are in such constant demand. Mr. Kelly is in charge of the Esterpean Concert Co. this season and under his direction and assistance it is safe to say that St. George has never had such an excellent visiting concert attraction as this company is this season.

COLD ON THE CHEST Had Tuffered for Weeks-- Used Fourteen Different Remedies Without Effect

No stronger proof of the wonderful merit of Nerviline could be produced than the letter of Miss Lucy Mosher, who for years has been a well-known resident of Windsor, N. S.

"I want to add my unsolicited testimonial to the efficacy of your wonderful medicine, 'Nerviline.' I consider it the best remedy for a cold, sore throat wheezing tight

ness in the chest, etc., and can state that for years our home has never been without Nerviline. I had a dreadful attack of cold, that settled on my chest, that fourteen different remedies couldn't break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle, and was completely restored. I have inducted dozens of my friends to use Nerviline, and they are all delighted with its wonderful power over pain and sickness.

"You are at liberty to publish this signed letter, which I hope will show the way to health to many that need to use Nerviline."

(Signed) "LUCY MOSHER."
All sorts of aches, pains and sufferings—internal and external—yields to Nerviline. Accept no substitute, 25c. per bottle, or five for \$1.00. All dealers, or the Catarhozone Company Kingston, Ont.

"Apparent Paradox"
The price of Manitoba flour has declined forty cents per barrel and is now quoted at \$5.80 for first patents instead of \$6.20. But the price of the loaf of bread remains as high as ever. You generally sometimes can't always tell about these things.—Kingston Standard.

FOURTEEN POUNDS IN TWO MONTHS

Remarkable Gain Made by Terra Nova, Cape Breton, Woman

"Father Morrissey's No. 10" (Lung Tonic) has wrought some wonderful cures. Here is a typical case, as described by the patient herself:
"During the Fall of 1905 I contracted a severe cold, which settled upon my lungs. After being treated by two physicians of high standing my condition was not any better, but in fact getting worse. My friends began to have serious doubts about my recovery. I had heard of Father Morrissey's remarkable career as a medical adviser, and wrote to him explaining my case. In a few days I received an encouraging letter from him, and some of his 'Lung Tonic,' and immediately I began to improve, gaining fourteen pounds in two months.
I strongly recommend his 'Lung Tonic' for Colds and any form of Lung Disease."

Yours sincerely,
ANNIE McDONALD,
TERRA NOVA, CAPE BRETON CO.

Concerning the Eskimo

The Eskimo is affable, brave and loyal. He speaks a language which is highly inflected—many primitive peoples do—and has certain rudimentary ideas of a warm and habitable heaven and a cold and cheerless hell. And in knowledge of ways and means to fight cold, ice and darkness and wrest subsistence from a frozen desert he leads all other children of the North and South. But he lives his life in a realm of ideas incalculably remote from civilization. Peary tells us of a tribe of less than 100 people who, cut off from their fellows for several generations and out of the track of whalers and explorers, believe themselves to be the only inhabitants of the world—a world of berg and floe, of naked rock and mighty glacier, of wheeling squaws and quivering aurora, of immeasurably reaches of ice and snow, all existing for the empery of a race of a few score human beings in a few igloos of stones and ice.

Dr. Fridtjof Nansen

The drift from the Fram in the ice westwards across the polar Sea to the north of Asia and Europe not only confirmed Dr. Nansen's theories as to the polar currents but carried the Fram far to the north of any latitude previously attained. Dr. Nansen himself carried the record still farther by his daring march over the ice with Lieutenant Johannsen. Provided with dogs and sledges the two explorers finally left the Fram in about latitude 84 deg. N. longitude 102 deg. E. on March 14, 1895, and marched north to latitude 86 deg. 5 min. N. 235 geographical or about 275 statute miles from the Pole. Here they turned back on April 8, their average daily northing having been about six miles. Progress was delayed by the pressure ridges in the ice and constantly changing water-lines. From the farthest north nothing was to be seen but a chaos of ice blocks. On the return march the conditions improved, and on some days marches of twenty miles and more were performed, but it was not until early in April that the explorers reached the northern islands of Franz Josef Land, where the historic meeting between Nansen and Jackson took place.

HIGHWAYS

Men who ride or walk along the country highways, in this vicinity, are unanimous in the belief that never before within their memory were the roads in such a deplorable condition as they are at the present time. Impracticable legislation and the worst influences of rain and floods seem to have combined to the discomfort of the travelling public. There need be no alarm over automobiles making the highways unsafe, for they are harried out by mud, delapidated bridges and a general dropping out of the bottom of things.

There is no logic or sense in paying out money for ornamental highway departments. If the money is granted for roads, some person should see to it that it is judiciously expended, and the obligations of the officers carried out to the letter.

MAY BE GREAT WATERING RESORT

C. P. R. control of the Shore Line Railway will likely result in the building up of many attractive seaside resorts along this line. The finest of these is the New River beach, which is one of the best beaches along the whole Atlantic coast. It is upwards of a mile in length, and affords excellent facilities for bathing along its whole length, while the harbor is a splendid one. On several occasions C. P. R. managers have visited this beach, and it is believed among the possibilities were among the influences that led to the acquisition of the Shore Line. The place has all the natural advantages of Bar Harbor, with the added advantage of a much better beach. It will not be surprising in a very short time if a move is made towards creating at New River a great watering resort, and it may be that it will in a few years grow to be as popular and as fashionable as any along the coast. That something of that nature is already in the minds of the C. P. R. managers is believed, and when their new property is put in good shape this development is likely to follow.

WHAT DO YOU THINK

What do you think about these things? To get into the game of life, take chances, make decisions, and keep moving; to cultivate dispatch; eliminate waste, introduce system.

To acquire friends with whom you can babble of stars, roses, coffee and the weather; to head for the open country, hills and the free, fresh air and wind; To use every possible tool and situation for the advancement of The Great Cause; to distinguish between intelligent discussion and futile rag-chewing; to make a slight effort every day or so at inaugurating a civilization that lays emphasis on the soul as the best in man; To pity the respectable and satisfied, and see in the heart of the jailbird your own impulses; to be patient with the stupid and incompetent, and chat reverently with the town fool about his religion; to give and take no job that involves human degradation; to realize that the grafter, the scarlet woman, Rockefeller, Thaw and the one-legged man on the corner selling lead-pencils, are each the result of conditions for which all of us are in part responsible; To spell Art with a capital A and enjoy paintings, poems, stories, statues and the silent benedictions of architecture; to love expression; to know when to behave and when to get reckless and forget that your a gentleman; to hoe in the garden, split wood, carry out ashes, get dirty and be actually useful every once in a while if not twice; to pray and aspire and build and when you build, build strong; To live in a bungalow, with bathrooms, music, flowers, a beautiful woman and children healthy as little savages; to be proud that your human and aware that it's grand to be human; to help make life a chord of music wherein are blended the notes of companionship, love, and ability—how about these things, Brother?—Charles Sandberg.

BY THE WAY

One fine day!

Did you lose your vote?

Rain, more rain, followed by rain.

There should be some delicious Eskimo dishes in the new Cook book.

American farmers are flocking into the Canadian West to inspect the harvest, with a view to purchasing land. The West is showing a nice line of goods this autumn. It is a favorable time for inspection.

If the figures presented to the British Science Association in regard to the coal supply of the West turn out to be correct that part of the Dominion has little need to worry about keeping warm.

"You don't guide hunting parties any more?"

"Nope," said the guide. "Got tired of being mistook for a deer."

"How do you earn a living now?"

"Guide fishin' parties. So fer nobody ain't mistook me fer a fish."—Kansas City Journal.

Many Canadians must have had experience of the almost impertinent methods adopted by some of the United States immigration officials who question passengers going to the United States by train or boat. Conductors on trains will hereafter see that passengers are not unduly pestered by these rather too officious officers. The reform is none too soon.

The farm hand, the preacher, the mechanic, the artist, the college professor who sticks to the rut of tradition is the one who is left behind. No matter what your task, see if you can't get out of your rut and do it better. And if you can't do it better, do it differently. So long as that doesn't involve actual loss of efficiency, simply to do it differently is a gain in itself.

Misfortunes are dead walls only when we think they are. There is a lot of painted scenery in real life as well as on the stage. Beyond the dark curtains which we can part if we will only reach out our hands, there is a bright vista which we will behold the instant we have faith that it is there! And of course it is there, just as surely as that the sun is shining in some other place when the curtain of night is drawn here!

"Canada for Canadians," was the keynote struck by the Provincial Workmen's Association grand council at Halifax, N. S., Wednesday night, when they passed a resolution endorsing the formation of a Canadian labor union and denounced the efforts of American labor organizations to usurp the inalienable rights and privileges of Canadian organizations to manage Canadian industrial affairs. There were 75 delegates present representing 5,000 men.

The law is unflinching. Every progressive thought that you think has another and perhaps a better one following after it. The genius gets a suggestion of something original, coming to him as a mere gleam of light in his intellect. He follows it until he has developed a labor saving machine which shall go down the great side of time like a benediction upon mankind.

The tree that never buds gives little shade; the man who decies his own thought dies from a dry-rot!

Good Times Comin'

Oh, the good times are comin', no matter what they say;

You kin hear em' hummin', hummin' for a hundred miles away;

They're a-sallin' through the freeze; A-ridin' down the rivers and a-blowin' in the breeze!

Comin'

A-hummin' Like a regiment a-drummin';

Lane has got a-churnin', Buttermilk's a-churnin',

So keep your lamps a-burnin' Till the good times come!

Oh, the good times are comin'; you can see 'em on the run,

A-twinklin' in the dew-drops an' a-shinin' in the sun!

A-dumplin' o'er the daisies, an' habblin' in the brook,

An' lookin' at a fellow like his sweet-heart use to look!

Comin'

A-hummin' Like a regiment a-drummin';

Lane has got a-churnin', Buttermilk's a-churnin',

So keep your lamps a-burnin' Till the good times come!

—Atlanta Constitution.

PERSONAL

Dr. Taylor M. P. P. returned Thursday from St. John.

Mrs. James McCarten is seriously ill at her home.

Gregory Watters of Piscataway, was in town last week.

Enos Justason and wife of Pennfield, were in town Friday.

Capt. Joseph Bullock, has been confined to the house with a bad cold.

Miss Bessie O'Brien is quite ill, suffering with pleurisy.

Rev. Father McLaughlin of Milltown and Rev. Father Moran Calais, are assisting at the forty hours devotion at St. George's church.

Mrs. John Hennaw, of Eastport, is visiting in town.

Mrs. Daniel Justason and children, are visiting in St. Stephen.

Grant Sherman has returned from a brief visit in Boston.

Thursday's train.

Mrs. A. Giles, St. John, and Miss Florence Giles, New River, were visitors in town Friday.

Miss Bessie Daley, Pennfield Ridge, was in town last week, the guest of friends.

Mrs. George C. Weldon and Mrs. J. D. Williamson, spent a few days last week in Calais and St. Stephen.

Rev. E. V. Buchanan will occupy the pulpit of the Baptist church at both services Sunday.

Mr. Banks, of Emmerson & Fisher, was in town this week on his regular business trip.

N. Wright, Beaver Harbor, was in town Monday.

Mr. and Mrs. Harry Goodnow, are sojourning at Common weath hotel Boston.

Harry Doyle will spend his vacation in the depths of the forest. He went away Monday, well equipped for any kind of game.

Mrs. J. C. MacNichol of Beaver Harbor passed away on Sunday 3rd inst., aged 28 years. Funeral on Wednesday.

A pie supper and dance for the benefit of the Burns school will be held in Boacabec hall, Wednesday Oct. 13th. Everyone invited to attend.

George Melvin, James Osborne, George Moore, Bert Morris and Walter Botton left for their respective homes on Friday.

Mrs. J. J. Kerr and Miss Doris Kerr left for their Boston home on Friday, after a delightful visit with Mrs. Kerr's parents Mr. and Mrs. George Marshall.

Conductor George Green has resumed his position on the train. His many friends will be glad to learn that he has almost recovered from his recent illness.

Edward Scott of Jersey City, is visiting in town. He is a nephew of the late John Scott, and has relatives in Musquash and Bonny River, where he will spend a few days before returning to his home.

Mr. Wilcott Johnson of C. F. Hovey & Co., Boston, Mr. Spinney of Faunce & Spinney, Lynn, Mr. Means and J. W. Brine of Boston, are at Utopia to spend two weeks in hunting big game. They arrived on Saturday.

At St. George's church, St. George, on Thursday morning, Sept. 16th, at 6 o'clock, Mr. James Hazen McLean, of Lettie, and Miss Sara Connor, Blacks Harbor, N. B., were united in the holy bonds of matrimony. The Rev. J. F. Carson, the pastor, performed the ceremony.

"The Store of Values"

We have taken the Agency for the Fit-Rite Made-to-measure garments and can supply you with **SUITS, OVERCOATS, FANCY VESTS,** or extra **TROUSERS** in that line.

THE GRANITE TOWN GREETINGS

LOCAL AND SPECIAL

Try new subscriber to Greetings will give one hundred votes for your candidate.

The ladies of the Catholic church will hold their annual tea on Thanksgiving evening Monday, Oct. 25th.

A trunk belonging to Mr. R. McLeod, an employe of White & Patterson, was broken open and thirty-two dollars stolen. The theft was committed, probably last week. Some parties are suspected but no arrests have been made.

Change of time on N. B. Southern went into effect Monday. Trains leave St. John west at 7:45 a. m., St. George at 10:30 a. m. arriving at St. Stephen 12:30. Leave St. Stephen at 1:45, St. George at 3:30 arriving at St. John 6:30 p. m.

Price Hatt and Fred Armstrong were successful last week in shooting a moose each. Price captured a large one back of Seelyes Meadows, less than a mile from town. Armstrong got his at Pocomog, he called, heard the big fellow coming, climbed a tree and shot the animal in the heart.

Friends and relatives of Miss Julia Doyle were shocked to hear of her death in Boston on Saturday last.

Miss Doyle had been the guest of Mrs. Henry McGrattan for several weeks and left for her home Saturday week. A few days before her departure she complained of not feeling well, but no serious results were expected. A telegram on Saturday conveyed the sad news of her death. Miss Doyle was the daughter of Mr. and Mrs. Michael Doyle and has made her home in Boston for a number of years. One sister, Mrs. Devonshire, and a brother Joseph survive. They reside in Boston.

Herring for canning purposes continue very scarce, and work at the numerous factories very quiet in consequence. Not in a long time has there been a fall season when the work has been so limited as during the present time, September and October heretofore, being the busiest of the season, and one in which employes saved most money. The outlook is not encouraging, but it is hoped that October and November may prove more profitable to manufacturers and employes alike. Nearly all the manufacturers have large orders to fill before the closing season if the fish can be obtained. Eastport Sentinel.

It has been many years since the country has experienced so much wet weather. Farmers and lumbermen have suffered much damage, and been inconvenienced on account of the storms. The river has risen to a height unprecedented at this time of year and farmers who had grain and potatoes on low lands will be losers to a considerable amount. The Pulp Co.'s boom parted and it looked, for a time, like a great loss of logs, but the damage was repaired and loss averted. Trains have been delayed by wash-outs, but the damage has been promptly repaired, and the service not seriously interrupted. Some small bridges have been washed out and the roads, in some places, gullied out so badly that traveling is almost out of the question. It is said that so much rain has not fallen since the autumn of 1900.

In an advertisement in the St. John papers the Stmr. Aurora is offered for sale. Several rumors in reference to the matter have been afloat; one is that difference of opinion among the directors of the company led to the offering of the boat and the good will of the company; while another stated that already negotiations were pending looking towards the purchase on the other side of the Atlantic of a steel boat, larger and faster than the Aurora, one that would be able to perform a daily service, not only between Grand Manan and up river points, but also between the island and St. John. This would give the people of Grand Manan a daily mail service, and the importance of the place, not only in the summer, when the island is thronged with tourists, but in winter also, seems to warrant it. The Grand Manan Steamboat Co. receives a liberal subsidy from the Dominion Government and also from the local government, and should circumstances so shape themselves that the daily mail arrangement be put into effect, it is probable that by proper representation this subsidy would be increased. In the untoward event of even a temporary discontinuance of the service, not only the people of Grand Manan, but those at every point where the boat now touches, would be affected by it. The service, especially in the summer, is a great source of pleasure to Eastport, and the regular excursion trips made by the steamer are generously patronized, and so courteous are the officers of the steamer that at all times there is a deal of pleasure a sail with Capt. Ingersoll, and he and such steamer Aurora would be missed from the route, whoever or what succeed them. Eastport

LOCAL AND SPECIAL

The circuit court will open in St. Andrews, Oct. 12th, Judge Barry presiding.

Ask for a subscription, which means a hundred votes, before it is given to some other candidate.

A large section of Baldwin's bank, near the river, has been washed away by the recent rains.

Structural Supt. Austin was quite badly hurt a few days ago by being upset by a dog. He is lame, but manages to attend to his many duties.

N. A. Rhodes, vice president of the Rhodes Curry Co. Amherst, died on Thursday morning. He was one of the best known business men in Canada.

The St. Croix Soap Manufacturing Company will enlarge their plant. They have bought Shaughnessy's stable, which will be torn down, and an addition built to their factory.

The pulp mill has resumed operations with a full crew. Repairs and improvements have been made to the machinery.

Greetings voting contest has opened. Don't wait, delays are dangerous, get your name among the contestants.

The Sons of Temperance celebrated in St. John Thursday night, the sixty-seventh anniversary of the order.

Red Granite Division elected officers Wednesday evening, and following were chosen--J. Stewart McAdam W. P., Mrs. Abram Goss W. A., Earnest Harvey Rec. Secty., Mrs. Walter Messenett Asst., James Watt Fin. Secty., Edward Taylor Treasurer, Mrs. E. O'Brien Chaplain, Ellery Johnson Conductor, Helen Greason Asst., Chip Greason Inside Sentinel, Wm. Seelye Outside Sentinel, Miss M. Russell Supt. Young Peoples Work, Miss Edna O'Brien Organist and H. V. Dewar D. G. W. P.

The terms under which our shoe factory will be operated by Thurell Batchelder Co. have been agreed upon. Matters are progressing as rapidly as possible. If the committees soliciting subscriptions to the stock are successful in getting the full amount taken this week, we may confidently expect work in the factory to be begun at an early date. There are still several hundred dollars of the stock to be placed and if it is not all taken it is doubtful if our factory can be started. Calais Advertiser.

The mill which has been sawing for the pulp company shut down last week. The rapid and unusual rise of water made the company close sooner than intended as quite a quantity of logs were in the river to be sawed. The mill is owned and operated by White and Patterson, who have been quite successful, and have completed the work for which they contracted. In spite of some trouble owing to insufficient power, at first of season over two millions were manufactured. The mill will be taken to Debec Junction to saw a large contract for Hon. J. K. Flemming.

Some one will win the prizes. Perhaps it will be you--try.

That the catch of lobsters is steadily falling off throughout all Canada was the statement made by Commissioner Wakeham, who has just concluded an investigation of the subject for the Dominion government. This country was the last territory to be covered, after which the commissioner left for home in Gaspe, Que., to prepare his report to be forwarded to Ottawa. This decrease, according to Commissioner Wakeham, is due to the catching of under-sized lobsters and the destruction of berried crustaceans. The only remedy, he says, is legislation decreasing the size of the lobsters which can be considered when the House of Commons sits again in November.

An audience that filled the hall greeted Mr. L. Walsworth Harris at the recent Friday evening. The clever reader delighted the audience with Shakespearean and other readings, and each number on the program was received with round after round of applause. This was Mr. Harris first appearance in St. George but it is safe to predict that it will not be the last, as he won his way straight to the hearts of the audience, and his name will in future be an attraction to any entertainment. The musical part of the program was exceedingly enjoyable. Dr. C. C. Alexander presided and made a few well chosen remarks in introducing Mr. Harris. The entertainment was for the benefit of the schools and the interest taken by Mr. Harris in assisting is much appreciated. We trust that St. George will again have the pleasure of hearing this gentleman.

WIN A PRIZE

GREETINGS VOTING CONTEST

**Enter-
prise
Mon-
arch
Steel
Range**

Singer Sewing Machine

Given away to the person receiving the
largest number of votes

Contest Open To Everyone

The Enterprise Monarch Steel Range burns coal or wood. Fitted with every
modern convenience. Made from the best materials by the most expert workmen.
Guaranteed perfect in Fit, Finish and Operation. Its Appearance Speaks for Itself
Awarded First Prize at the Toronto Exhibition.

The Many Uses of a Good Sewing Machine

There is practically no limit to the variety of work that can be done with a
Singer Sewing Machine. Whether for the finest embroidery, the plainest home
sewing or the most elaborate tailoring, the Singer is equally efficient.

Every woman takes pride in having these things, but if they be her own handi-
work, the satisfaction is complete, because her own personality is reflected in every
seam.

The woman who uses a Singer may have everything in needlework she can
desire--she is better dressed at much less cost; her children are clothed according
to her own taste and ideas; she has attractive table linen, and an unending supply
of dainty underwear.

Moreover, she is free from the worry and delay which always comes with the
use of a "cheap" machine.

How to Get a Prize:

We want new subscribers and will allow one hundred votes on every new sub-
scription. Renewals will count fifty votes on every dollar.

Send us the money and name of one for whom you wish to vote and credit will
be given. You can get subscriptions anywhere. Write to your friends and ask
them to help you.

Get your friends who belong to organizations to help you.
These prizes are valuable and will be won by someone.

Anyone can canvass.
Tell all your friends you are in the contest.
Let everyone know you are a candidate.

Ask us any questions. We will be glad to help you. We will furnish con-
testants with list of subscribers if required.

The Range and Machine are on Exhibition
at GRANT & MORIN'S Store

Remember this is a Sixty Dollar Range and a Fifty Dollar Sewing Machine.

Send to Us For Receipt forms

The Contestant receiving the largest number of votes will be awarded the RANGE
The Contestant standing Second in number of votes will be awarded the MACHINE
After the contest is well advanced we will publish the names and standing of
CONTESTANTS

The date of close of contest will be announced later

A number of engineers engaged in a hydrographical survey are working near town. They are tenting near the N. B. Southern station.

A "Shine Stand" is the latest addition to the town's industries. It is located on Broadway.

A pain prescription is printed upon each 25c. box of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist if this formula is not complete. Head pains, womanly pains, pains anywhere, get instant relief from a Pin's Pain Tablet.

Schooner Ruth Robinson, Captain Olsen, is in the lower harbor, at Portland Me., one of the fleet of storm-bound coasters anchored there. The master reports nasty weather on the way up and had his windlass broken. Repairs will be made as quickly as possible and it is not thought she will be delayed more than two or three days. The schooner is bound from St. George, N. B., for Norwalk, Ct., laden with pulpwood.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars to any case that it fails to cure. Send for list of testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for Constipation.

Fine Care Fine Hair

It's fine care that makes fine hair! Use Ayer's Hair Vigor, new improved formula, systematically, conscientiously, and you will get results. We know it stops falling hair, cures dandruff, and is a most elegant dressing. Entirely new. New bottle. New contents. Do not change the color of the hair.

Ayer's

Ayer's Hair Vigor, as now made from our new improved formula, is the latest, most scientific, and in every way the very best hair preparation ever placed upon the market. For falling hair and dandruff it is the one great medicine.

NEW RIVER

A new Highway bridge is being built, but heavy rains are causing delay. The bridge men today are securing the Temporary bridge lest it should get out. There are from fifteen to twenty boulders at the New River House now. There are about fifty men in the woods now, building dams and preparing for the winter. There are two double teams trucking to the woods at present. Mr. Mullen of Nova Scotia, has a crew of about fifteen men up the east side of the river building camps. Mrs. Margaret Giles, spent a few days of last week in St. John, on business. Mrs. Robert Hamm and two children, are visiting at New River House. Mr. and Mrs. Wm. Murray, have returned, from a short visit to St. John. L. B. Knight, wife and daughter, spent a few days at their summer residence at New River Mills last week. The many friends of Mr. F. Daley, are hoping for the recovery of his valuable horse. Mrs. L. Mallin, is boarding at New River House.

Go to the blood, if you are to drive out Rheumatism. A Wisconsin physician, Dr. Shoop, does this with his rheumatic remedy—and with seeming success. Rabson, says the doctor never did cure rheumatism. It is more than skin deep—it is constitutional, always. Because of this principle, Dr. Shoop's Rheumatic Remedy is perhaps the most popular in existence. It goes by word of mouth from one to another, everywhere. Greatful parents gladly spread the word of health. Tell some sick one. Sold by all dealers.

MASCARENE

Mrs. Wm. Andrews and children of L. Rieter spent a few days last week with her sister Mrs. Roscoe Burgess. Mrs. Alex. Maxwell of St. George, is visiting Mrs. Wm. Hilliard. Chip Greason spent last Sunday with his grandparents, Mr. and Mrs. Angus McVicar. Roscoe Burgess and Dick English were in L. Rieter Wednesday last. Mr. and Mrs. Nesby Stuart spent Sunday here. Sardines seem very scarce along the Mascarene shore. Menzie Chambers shot a fine deer one day last week. Havlock Stuart was in St. George Saturday. Mrs. Kin Stewart visited Mrs. Wm. Hilliard Thursday. Matthew Mitchell visited his home at Back Bay last week.

Have You Warts?

You can cure them painlessly by Patnam's Corn and Wart Extractor. Never known to fail. Be sure and get "Patnam's" in 25c. bottles.

LETANG

(Too Late for last Issue)
Miss Daisy Hoyt of Letete, is visiting Miss Odessa G. McConnell. Mrs. Wm. Hickey and daughter Alice, left on Monday's train for Boston. Miss Florence McVicar, has gone to Brunswick Me. where she will spend the winter. Wm. F. Hinds, James T. Hinds, and Eben Leavitt have gone to the Wolves on a fishing trip. Miss Evelyn Crawley and Mrs. James T. Hinds were passengers on Wednesday's train to St. Stephen. Earn Stuart of Mascarene, was the guest of Miss Carrie Austin on Sunday. The schooner Margaret arrived here Thursday with a load of freight, for J. Sutton Clark. Mrs. James H. Hinds of Victoria Beach, N. S. was the guest of Mr. and Mrs. W. F. Hinds on Sunday.

SX and COLUMBIA BATTERIES at CHERRY'S

MASCARENE

Miss Edith Lank of the Back Bay teaching staff and Mr. Theodore Hickey spent Thursday with Miss Newton. Nora McVicar returned home Tuesday from Pomeroy Ridge, where she has enjoyed a pleasant visit with her sister. Miss Minnie Bourke of Jamaica Plains is visiting Mrs. Frank Leavitt for a few weeks. Mrs. A. Henderson and Miss Rhoda Newton spent Sunday with Mrs. S. Dimes at the Letete fog alarm. Sardines are reported scarce along the shore. Matthew Mitchell is tending weir at Bay Shore. Richard and Roderick English spent last week at their home Deer Island. Menzie Chambers visited friends at Letete recently.

BACK BAY

Westworth Quigley and family have returned to Back Bay after six weeks spent at their cottage on Bliss Island. Arthur Leslie is the owner of a new dingy. (From Another Correspondent) We are very sorry to hear that Mrs. Wm. Mitchell and little daughter are on the sick list, we wish them speedy recovery. Frank Leavitt and Eben Leavitt Jr. returned to Back Bay after six weeks spent at their cottage on Bliss Island. The storm did not do much damage here, but was very severe in some places. Quite a large audience listened to a fine discourse by our brother colored preacher last Sunday evening in spite of the bad weather. Mr. and Mrs. Seymour C. Leavitt and son Harry, spent a very pleasant visit at Letete this week, during the storm. Johnnie Cook has got his store about completed. He is painting it inside now and will soon be ready for customers. Mrs. Meline Cook went to St. Andrews on the str. Connors Bros. one day last week. Miss Edith Lank, teacher of the primary department here, spent Sunday last at her home in Welchpool. Capt. and Mrs. Sydney French entertained a number of their friends one evening last week. Maud the young daughter of Mr. and Mrs. Wm. Mitchell is very ill at her home Dr. Taylor is attending her. Frank Leavitt who has been away spent Sunday last at his home here. Mrs. James Leavitt spent one day last week in L. Rieter the guest of Mrs. Hiram Leavitt. Miss Irene Frye of Frye's Island visited friends in Back Bay last week. Cecil McGee spent a few days in St. Stephen last week. Frank and Eben Leavitt left Thursday for Boston where they will spend the winter. Captain Kinney of N. S., loaded with small herring, stayed in this harbor during the storm. Sch. Kinetic has been undergoing repairs this week. A Toronto engine has been installed by Oscar Kinney. Maser Horace McLeese spent one day last week in St. Stephen. The Misses Treva and Mammie Dick spent a few days in St. George last week the guests of Miss Helen Dewar. Chester Johnson spent Friday in St. John. Mr. Kierstead passed through here last week on business. Joseph Mitchell visited friends in Letete recently. Mrs. Emma Barrett spent a few days in Eastport last week, the guest of her daughter, Mrs. Jim Taylor. Mr. and Mrs. David Cook made a flying trip to Deer Island Saturday. Hugh Harris made a business trip to Bassport Friday.

Great Danger in Headaches

It's often dangerous to consider headache a trifling ailment. If the headaches the stomach is out of order and some serious disease may be impending. To tone up the stomach, to give it healthy action, nothing in modern medicines is so successful as Dr. Hamilton's Pills. The concentrated vegetable extracts in Dr. Hamilton's Pills have a quieting healthful effect on the stomach and remove all disorders. Your headache will be cured and they won't return, if you use Dr. Hamilton's Pills. Sold everywhere.
