EAST FLORENCEVILLE AFFAIRS

Successful Play, Enjoyable Picnic, Other News Items

The East Florenceville Comedy Company delighted a very large audience in Smith's Hall last Tuesday night when they presented the very amusing comedy, "The Colonel's Maid" in three acts. The artistic manner in which the different characters were presented indicated not only very careful and faithful training but real histrionic talent on the part of the members of the cast. Weeks of faithful effort were put into the rehearsals and the players have great reason to be proud of their performance. Roy Stevens gave a splendid presentation of the impatient and exorable Chinese servant and provoked storms of laughter by the amusing situations which he managed to produce. F. H. Carle and R. S. Wood showed the real spirit of antagonism which was a real factor between families of the south in bygone days. Weldon Tompkins and Percy Semple put into their parts the real spirit of the character as did also Roy Hunter. The feminine part of the sketch played by Mrs. F. H. Carle, Misses McComb and Carrie L. Carle was presented in a really efficient manner and altogether the audience felt that it was the best evening's entertainment which has been presented here for a long time. The Company motored out to Glasville on Friday night and repeated the performance. It is to be hoped that the company will continue in the good work and from time to time provide the community with another real entertainment. The Florenceville orchestra played between the acts.

Rev. D. R. Chowen was a visitor to Hartland on Thursday of last week. Sunday was a red letter day in connection with both the Methodist and Baptist churches here. After the morning service Rev. I. W. Williamson conducted a baptism service in the river, where 21 candidates for church membership were baptized. In the evening Rev. D. R. Chowen also had a baptism service and welcomed into the fellowship of the church a good number. Most of these in both churches were converts of the Foster campaign which was held last March. The churches are still feeling the great spirit of interest which was so manifest at that time.

P. R. Holman, Grand Chancellor Knights of Pythias, was in our village on Friday afternoon and called upon Chas. Hunter who has been a faithful member of the local lodge for years and is now on the sick list. Mr. Holman was accompanied on his motor trip through the district by Bros. Rankin Smith and Kingston of Bath, L. A. Noble of Bristol and I. W. Williamson of Florenceville. Mr. Holman is a native of P. E. I. and was greatly impressed with the magnificent scenery of the St. John river.

Rev. I. W. Williamson and family accompanied by Miss Janey Stiles, returned to Hartland on Monday, and in the evening attended the quarterly meeting of the Second United Baptist District which convened at Good Corner.

Guy Molanac surprised his many friends last week by getting married. Guy led to the altar Miss Craig of Bath. The happy couple will make their home for the present with Guy's parents, Mr. and Mrs. Ben Molanac. The ceremony was performed by Rev. C. O. Howlett of Andover.

Nearly all the farmers of this section are happy in the completion of potato planting and seeding. Not nearly so much acreage is planted this year and all are hoping that the harvest will be better and crop larger than last year.

The Florenceville Band has decided to have its benefit concert on Saturday night, June 13. This organization deserves the patronage of the entire community. After the concert, which is held to enable the band to pay for their instruments and music, the boys intend to give a series of open air concerts. It is a purely voluntary organization and will add much to the pleasure of this entire section. Everybody should plan to help the band out on the 13th.

Miss Della Molanac and Mrs. L. A. Simpson attended the Baptist District Meetings at Good's Corner on Tuesday.

Mr. and Mrs. Milbury of Stickney spent Sunday with Alonso Milbury, who is now able to be out doors for a little while each day.

Mr. F. H. Tompkins and Mrs. L. D. Boyer were visitors to Bridgewater on Monday, the public holiday.

G. R. G. Williamson, manager of our bank, left on Saturday afternoon for his vacation. Mr. Williamson will join Mrs. Williamson at her mother's home in Moncton and will be away for the customary two weeks.

A large number of R. F. Smith's Bible Class spent Monday, June 4, on a picnic. The members gathered at the teacher's office at 10 a.m. and crowded the automobiles which several members brought driving out to Boundary Line where the day was spent in fishing and many other forms of sport. The picnicers returned early in the evening and made up another party to take in the play at Bath. Mr. Smith's Ford truck was crowded with a happy party of young people who returned to their homes very tired after midnight but very satisfied that the Kings Brewery had been celebrated in truly royal fashion. The class has enjoyed a fine period of success and under the splendid leadership of Mr. Smith has maintained an average attendance of about 24 and includes nearly all the young people of the village. The ending of the picnic was spoiled by a very painful accident which happened to one of the members, Mrs. Berry Banks. In

some way Mrs. Banks fell upon her arm as she was stepping from the truck dislocating the several bones in the elbow. Dr. Somerville was hastily called and was soon at work upon the injured arm and succeeded in getting the bones back into their place after which Mrs. Banks was taken to her home.

According to the summer customs of the C. F. R. an assistant has been provided to help Mr. Delano.

A number of our citizens spent June 4 picnicking at Juniper. Mr. and Mrs. Hartley Lewis, Miss Lela Lovely, Jamie Davis, Burton Bell, Percy Semple, Bill Tompkins. The latter pitched the second game between Bath and Juniper. Some fish were caught and sport was good.

Miss Nan Murray, who at one time taught our school, spent the week-end visiting Miss Carrie Carle and left on Monday.

Miss Louise Whiteman was in the village visiting her sister, Mrs. Fred Carle.

BIG BUSINESS NOW AT JUNIPER

The Fleming and Upham Mills Cut Upwards of 20,000,000 ft. This Year

On Sunday the Editor made his first trip to the happy hunting grounds of the Miramichi and was a guest at the Hartland Club House which is delightfully situated in the wilderness, immediately on the banks of the South West branch. Here it was possible to cast aside every office care and revel in the delights of nature. From the club house nothing is visible but the leafy forest. Within half a mile, however, there is a veritable industry where the big saw mill of the Fleming-Sibson Company gives employment to many men. There is a little village with a post office and store and here Hon. and Mrs. J. K. Fleming have a very pleasant cottage where they spend the summer months. Mr. Fleming is president and active manager of the big Lumber company which is the largest industry in Carleton county. He has associated with him his three sons, Sprague, Weldon and Hugh, and also in the office is our old friend Frank R. Kelley.

Mr. Fleming's enterprise is one of the very biggest in a business way for many miles. At the busiest season more than five hundred men and hundreds of horses are engaged for months getting lumber for the four big mills and all within a few miles of one another. This year the total cut of soft and hardwood lumber exceeds 15,000,000 all of which is shipped by the C. N. E. During May 185 cars were shipped. At Juniper there is being equipped a box shock factory which will be a new industry for this section.

Farmers at Foreston, Biggar Ridge and nearby settlements find that the new industry gives them an easy outlet for their produce and they are consequently in a thrifty condition.

At Juniper George W. Upham has a big mill turning out a vast quantity of sawn lumber which is loaded directly onto the cars.

UNITED BAPTIST SUNDAY SCHOOL

On Friday evening the annual business meeting of the United Baptist church was held when reports were given by the secretary and treasurer. The secretaries of the sixteen classes of the Sunday school also reported, as well as the superintendents of the Home Department and Crafts Roll. The school had an average attendance for the past year of one hundred and sixty-eight. The amount of money raised for various purposes was for missions and church building fund, \$1,150.46. The school officers for the coming year are: C. E. Rice, superintendent of the senior department; Rex L. York, superintendent of the junior department; S. R. Currie, Secretary; V. W. Simms, treasurer; Mrs. Bert Waters, superintendent of Home Department; and Mrs. H. D. Kenwick, Superintendent of the Crafts Roll.

G. W. V. A. MEMORIAL DAY

The G. W. V. A. will hold their annual Memorial Service on Sunday afternoon, June 14. Every returned man is asked to attend and honor his comrades who gave their lives for their country.

All will meet at Hartland Armory at 2 p.m. and march from there to the church. Every family who had one or more taken by the war should attend the service. It is expected that a regular war chaplain will lead this memorial service. Further information and honor roll will be published next week.

BATH SEEKS NEW WATER SUPPLY

Seizure of Salmon Nets—Ball Team Beats Juniper

The Knights of Pythias at Bath, were visited by Grand Chancellor Holman, who arrived by express on Friday afternoon and was taken in charge by Brother Williamson of Florenceville, assisted by a delegation of local Knights, who did their best to entertain him until the evening. Then a special convention gathered to receive the annual report of the progress of the K. of P. order and to transact special business. After the business meeting was over an entertainment was given in honor of the G. C. by the Knights of Victory Lodge, their wives and sweethearts. The program, consisting of a number of speeches and vocal and instrumental music, was a splendid success and reflects credit on all who took part. Visiting members were present from Prince Edward Island, Andover, Upper Kent, Glasville, Juniper, Sparkle, Peel, Bristol and Florenceville. The evening came to an end around the midnight hour after dainty refreshments had been served. The many friends of Mrs. John Ryan will regret to hear that she was forced to undergo an operation on Monday of this week. The operation proved to be a successful one and at the present time she is doing as well as can be expected. Drs. Griffin of Woodstock and Commins of Bath performed the operation.

Mrs. Stokoe of Plaster Rock was visiting her sister, Mrs. Secord, during the past week. George Estabrooks of Centerville has given up his barber shop, to Mr. Harrington, Woodstock. Mr. Estabrooks expects to return to his own home town where he will go into partnership with his brother, who has a barber shop there.

On Monday, June 3, the boys from Bath journeyed to Juniper where they met their friendly rivals on the diamond, and immediately set out to overcome the defeat which the Juniper boys subjected them to May 24. The local boys were successful, their combined efforts bringing home the bacon in both games. The first game ended with the score, Juniper 6, Bath 7. The second game stood Juniper 2, Bath 6. Good material abounds, and with a little more practise, it is evident that Hazen, Tompkins, and Linn Fulton, two young lads, who made their debut with the local team at Juniper, are coming ball players. Hazen played in the first game, while Linn made his debut in the second. In the first game Bath's battery was made up of Tompkins and Shaw, pitchers; Estabrooks, catcher.

John V. Kearney, Minto, was a visitor in town on Friday last.

Fred Creighton, Woodstock, was a visitor here on Friday. Mr. Creighton, who is distributor for the McLaughlin line of cars, was driving one of the latest models. It was certainly a nice one, which may be judged from the price \$3,200.

Fred Squires, Woodstock, was renewing boyhood acquaintances here on Monday.

Mrs. Aida, St. John, was visiting her sister, Mrs. S. McDonald, Mechanic Street, during the past week. She returned to her home on Saturday.

Grover Springer of the staff of the Bank of Nova Scotia, paid a visit to his home in St. John, leaving Saturday and returning Monday.

The salmon fishery craze has solved the imaginations of many, and every available chance for setting out a net has been acquired. This craze was augmented by the fact that Inspectors Messersau and Gee confiscated a number of nets along the river the latter part of last week. These were auctioned on Monday. All were sold and from the present outlook not many salmon will ever reach the Tobique.

Last week a meeting was held by the ratepayers of this village regarding the water shortage, which this place has suffered for some time past. It was decided that before a new reservoir should be built, representatives should visit some of the other towns and acquaint themselves regarding the manner in which these towns provide themselves with water and fire protection. This idea predominated so far that a committee of three, consisting of J. W. Drost, William Brennan and Matthew Bohan were delegated to go to Andover and Perth. They have done so and will in the near future report back to the ratepayers. It is to be hoped that something may be done at once.

Kerosene poured around the working parts of overhead valves will often clean sticking valves.

A loose rear wheel may be detected if a creek is heard when the clutch is engaged.

MRS. ANDERSON TELLS WOMEN

How Backache and Periodic Pains Yield to Lydia E. Pinkham's Vegetable Compound

Leslie, Sask.—"For about a year I was troubled with a distressing down-bearing pain before and during the periods, and from terrible headaches and backache. I hated to go to a doctor, and as I knew several women who had taken Lydia E. Pinkham's Vegetable Compound with good results, I finally bought some and took four bottles of it. I certainly do recommend it to every woman with troubles like mine. I feel fine now and hope to be able to keep your medicine on hand at all times, as no woman ought to be without it in the house."—Mrs. OSCAR A. ANDERSON, Box 15, Leslie, Sask.

Mrs. Kelsey Adds Her Testimony
Copenhagen, N. Y.—"I read your advertisement in the papers and my husband induced me to take Lydia E. Pinkham's Vegetable Compound to get relief from pains and weakness. I was so weak that I could not walk at times. Now I can do my housework and help my husband out doors, too. I am willing for you to publish this letter if you think it will help others."—Mrs. HENRIETTA KELSEY, R.F.D., Copenhagen, N. Y.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound before they give up hope of recovery.

MOTORS AND THEIR CARE

Right Alignment Saves Tires
Careful attention to proper wheel alignment will save the motorist many dollars in extra tire service. Tires on wheels that are out of alignment do not revolve straight forward as they should but slide over the ground diagonally. The sideways motion grinds rubber from the tread and the effect is the same as if the tire was held against the side of a grindstone, and turned so as to grind down the tread on the entire circumference. A toin of a quarter of an inch should be allowed on the front wheels. This is to neutralize their tendency to spread while in motion. The true running qualities of each wheel can be determined by placing a stationary point close to the wood felloe of the wheel; the place between the point and the felloe should be uniform when the wheel is revolving. Otherwise it is out of alignment. The result of wheel misalignment can usually be detected by the appearance of the tread which is worn down on one side and shows a sharp shoulder.

LOCAL AND PERSONAL ITEMS

"Moral Fibre," a vitagraph production was shown on Tuesday night starring Corinne Griffith who played the role of an unsophisticated country girl, who with her orphan brother (William F. Felt), kept a prosperous country store. Deluded into a love affair and a proposal of marriage to a married adventurer from the city, the callow youth, chagrined at finding out her real status took his own life. The woman in the case returned home and the young sister, broken-hearted, made the solemn vow "to make her pay and pay and pay." The carrying out of this oath gave the opportunity throughout a couple of reels, for some very clever acting. Catherine C. Alvert as the woman and Harry C. Browne as her husband were both excellent. A Fox News and a comedy made up a most elaborate programme. On Saturday evening Irene Castle made a second appearance here in "No Trespassing", a comedy drama wrought out of one of Joseph Lincoln's famous Cape Cod yarns, "The Rise of Roscoe Paine." The picture was filmed in and about Denboro and other old-fashioned Cape towns. She received good support from Ward Crane, Robert Truesdell and others. A Pathe week was also shown. "Six Flood" one of the really big pictures of the day will be shown on June 9 and "Just Around the Corner," a famous playhouse release, on June 12. Fox and Pathe news will be used to supplement these great films and round out a big show for your money. See another advertisement elsewhere in the Observer.

S. H. McAulay has a crew of men spreading gravel on the section of road between Macay Mills and Bonaday, and is doing a wonderful good job. The roads over the country in general are in a deplorable condition, and if not soon attended to, corduroy will soon be quite in vogue. At present anyone driving over some portion of the road—Lakerville to Woodstock—should be strapped either to the seat or the top of the car, for it is quite impossible to voluntarily remain long in either position, and frequent trips back and forth between top and bottom of the tonneau soon dissipate any small joy, otherwise acquired from motoring. It is really high time that something substantial was done to the highways. We cannot help but feel, too, that Mr. Veniot has given just a bit too much authority to the several patrolmen. Dubbing them all "serenades" and looking upon them with a decided tendency to encourage them to spend more time in a reclining attitude with the shovel handle under the arm pit, than in the pressing it into service in its true function. We sincerely think that there will probably be six hand-red badly warped shovel handles after a few days. Anyone foolish enough to drive over the present pre-

vailing road conditions, in excess of the speed limit, is all ready for the funny house at Fairville—not the jail. If the government is aiming to produce and support so great a retinue of Sherlocks it wants to provide also all the usual country constables outfits, chin-whiskers, a pocket full of "By Hecks" and badge made by the local tinsmiths. Also a constable college where a full course in make up and disguise will be in the curriculum, so that any of them may be easily able to disguise himself as a load of hay or a picket fence, as occasion demands. A long nose and a neck fitted with Timkin roller bearings, should be some of the requisites for qualification. But wherefore all the constabulary anyway?

GERMANY

The German Government probably hopes to pose before the world as being righteously innocent and horrified at French doings in the occupied area. The German memory seems to be short. But the world has not forgotten the horrible atrocities of 1914, and after, when thousands of innocent people were ruthlessly butchered to satisfy German savagery.

 HARTLAND, NEW BRUNSWICK

HARTLAND, N. B., JUNE 6, 1923.

PULP AND POWER

(St. John Globe)

The Province of New Brunswick is wasteful and negligent to the extent of \$5,000,000 annually, and to an incalculable degree in terms of employment, development and general progress, according to results obtained in applying market values to figures compiled by the Dominion Statistics department, Ottawa. An average of 200,000 cords of pulpwood is exported annually, Ottawa indicates in a report covering 1917 and 1921, inclusive, while the same report shows that in that period an average of 131,000 cords of pulpwood was manufactured in the province. The pulpwood manufactured in the province was valued at, taking the average, \$6,107,000, compared with an average value of \$2,356,000 for the pulpwood sent out of the country to be converted into wood pulp in foreign mills by foreign labor. That is the quantity of pulpwood, manufactured at home, represented in wood pulp, twice the value of double that quantity sent out of the province in the raw state. In some years, notably 1920, exporting of pulpwood involved a tremendous loss in comparison with the value of wood pulp in that year. The ravishing of the forests for the benefit of foreign mills and foreign labor is only one of the losses sustained. Considered in relation to the development of our waterpowers, particularly, the Grand Falls, the export of pulpwood has a vital significance. To simplify, let us assume that the average of 200,000 cords of pulpwood is exported annually. That represents 660 cords a day during 300 working days in a year. Authorities on wood pulp manufacture figure that it takes two cords of wood to produce a ton of paper, hence the export represents potentially 330 tons of paper a day. Authorities also estimate that it would require one hundred times 330, or 33,000 horsepower, to manufacture the pulpwood into wood pulp. Right here the Grand Falls enters into the question, since the pulpwood now wasted in export would in its manufacture take half of the proposed initial development of 60,000 horsepower at Grand Falls. Industries allied to wood pulp manufacture would no doubt require a considerable quantity of the energy remaining to be allotted. In other words, taking the 1921 figures, the export of pulpwood represented a loss per ton of \$28, or a total of \$5,964,000 as compared with the manufactured product. Besides, it was a loss in employment, in development, in progress. It is a reason why the Grand Falls is only an example of science grandeur in an area remote and not easy to access, instead of the fountainhead of great material benefit and the heart of a powerful industrial system.

A WORD FOR CARVELL

Now that his political friends have come to power, Hon. Frank B. Carvell of Woodstock has come to trouble in the very house of his friends, as witness the following dispatch from Ottawa this week:

"An alleged election promise of Hon. W. R. Motherwell, Minister of Agriculture, that he would move for the removal of Hon. F. B. Carvell, as chairman of the Board of Railway Commissioners, led to warm discussion of the board in the House tonight. It was C. G. Coote, Progress member for MacLeod, who raised the topic. He said that last year, Mr. Motherwell had promised to make a statement in the House but had not done so. The Prime Minister had also said, added Mr. Coote, that the Minister of Agriculture had made to the Government certain representations with regard to such a removal and that the matter was under consideration. Hon. G. P. Graham, Minister of Railways, replied that the chairman of the railway commission could not be removed except by a vote of the House. It was not in the power of the Government to remove Mr. Carvell even if it wished to do so. So far as I am concerned, it does not wish to add Mr. Graham."

Mr. Carvell was a hard political fighter, a very hard fighter, but when it came a time that Canada was being tried in the balance, Mr. Carvell was for "Canada first." Not so much was known of Mr. Motherwell then and not so much interest in him in his present or his future, neither can too much be counted on from government led by Mr. King, but it will not be with the consent of the people of New Brunswick that any intrigue can prevail against Mr. Carvell.—St. Stephen Courier.

AND THEY CALLED IT JOURNALISM

One of the most notorious family scandals of recent years was reopened during the current week, not, however, by the contending parties who recently washed their dirty linen in a divorce court, but by the newspapers.

The most amazing thing about this disgusting exhibit of so-called journalistic enterprise is that it did not have the support of the favorite excuse "it's news" as a reason for its use by respectable newspapers.

When the threats of the discarded women of certain rich men become page one news it will become time for the thinking men and women of America to register a protest in terms that will leave no doubt of their own decency.

Editor & Publisher has no interest in the affairs of the Stillman family nor the Leeds woman but it is concerned about the state of mind of a profession that will lend itself to the collection of blackmail by threatening greater exposure.

That is the best that can be said of the Leeds story. It was unsupported by court action; in fact, it is nothing but the threat of a discarded plaything

against a man that quit paying.

There are big jobs for a worthwhile journalist to do in this world today and continued public confidence will depend upon the way they are done; so long as uncertainty holds the world in its grasp there will be bigger stories every day than disagreements among the wasters. The doers of the world are in the vast majority and it is them that a sane journalism will try to serve.—New York Editor & Publisher.

GRAND FALLS GORGE

(Grand Falls Observer)

Last week an attempt was made to give some slight idea of the beautiful scenery about Grand Falls. But not less wonderful and attractive than the great waterfall is the magnificent gorge through which the water rushes for nearly a mile. Below the falls the river suddenly narrows to a few hundred feet. At the bottom of this gorge, whose rocky banks rise to a great height, the mad waters rush with tremendous force. There are many sharp bends and miniature waterfalls. In this gorge is the cave, which romantic imaginations may people with ghosts and hobgoblins, and here, too, is the strange feature which distinguishes Grand Falls from all other places—the natural wells. These are deep cavities, most of them perfectly round, in the solid rock, supposedly worn by the action of the water. One is led to think of the ages it took to form these wells. All of them are filled with water, except one, which is supposed to be an outlet at the bottom, as it is filled only in high water. They vary in depth some being twenty or more feet, and from two to eight feet in diameter. Below the wells is the coffee mill, so called, a whirlpool where logs are rushed about and stripped of their bark, which gives the water the appearance of a dark liquid. Below that is the narrowest part of the river and the end of the gorge. The river then widens out and is soon calm as before. Here again, the scenery is magnificent. From the bank, we get a beautiful view of the river far beneath. A bend hides it from us for a distance, and then again we see it—like two calm lakes, deep and still, the wooded banks rising high on either side. We can hear the subdued roar of the falls and of the turbulent water rushing through the gorge, but here all is peace, not a ripple to suggest the wild turmoil. Is it not like life? The brightness of youth, the sparkle and sunshine, then the cares and sorrows, the wild excesses of joy and grief, the mad dashing against the cruel rocks of fate, and then peace, like the calm after storm, and in our ears only the echo of the past.

REGULAR MEETING OF TOWN COUNCIL

Ald. H. R. Nixon was the only absent member from the regular meeting of the Town Council, which was held last evening in the Town Hall. After routine business, the Mayor, the treasurer read his report for May, which showed receipts \$663 and expenditures \$971.15. The different committees also presented their reports, which were on motion adopted.

A. G. Baker appeared before the Council relative to the dangerous roadway in front of Town Hall. Children were daily having narrow escapes with their lives as it is impossible for drivers of automobiles to see children on this road when turning the corner. The Council promised to give the matter serious consideration and steps will be taken towards having this danger removed.

E. A. Britton also appeared before Council as a delegate from the local G. W. V. A., asking the Council to take some steps towards repairing and keeping in condition the trench mortar and machine gun which had been presented to the Town. This being town property, the Veterans did not want to interfere by looking after these war emblems themselves. "Something should be done to have these preserved," remarked Mr. Britton, "but at present they are a disgrace to the town. These monuments represent the lives of some of our boys and the least that can be done by the town is to see that they are kept in a respectable condition."

It was moved by Ald. W. B. Nixon, seconded by Ald. H. H. Hatfield, that the gun and trench mortar be repaired by the town, as frame is placed under the protection of the town in future and under the guidance of Chief Murdock.

NEWSPAPER MEN COMING NEXT WEEK

As reported in this paper two weeks ago, the Canadian Weekly Newspapers Association, travelling by a special train which the two great railways claim is the finest that they can assemble, will commence a tour of the Maritime Provinces, their first stopping place being at Fredericton. At our historic Capital the visitors will be guests of the Province. In the evening at the Parliament Buildings addresses will be delivered by Premier that the visitors will not forget the City and also by members of the Association. At St. John on Saturday the Association will be guests of the City, the Board of Trade and the Rotary Club at lunch, following which there will be a motor drive to the city's show places, which will surely be of great interest to the visitors. At the tea hour Mayor and Mrs. Fisher will entertain the ladies of the party at their home, and in the evening a dance at the Venetian Gardens is likely to round out a full day's program.

Fred H. Stevens, President of the Observer Newspapers, Limited, is New Brunswick Director of the C. W. N. A., and the receptions at St. John and Fredericton were initiated by him. Once they caught the spirit and the significance of the visit, of so great a number of newspaper men and women the government nor the cities needed no urging to prepare entertainment to fully sustain their splendid record for hospitality. In its

annual pilgrimages the C. W. N. A. has traversed the continent and has received whole-hearted ovations that have been memorable, and it is most satisfying to know that on their first visit to the Maritimes, Fredericton and St. John will have the opportunity to first extend the glad hand and the welcome will be so sincerely cordial that the visitors will not forget their first two days in what many of them consider the "Far East". Among the party will be visitors from every province of Canada, more than fifty coming west of Winnipeg.

TO WED TODAY AT U. S. CHURCH

This afternoon, at three o'clock the marriage of Miss Florence Osborne Glass, daughter of Mr. and Mrs. John Glass and Murray McLaren Hay of Woodstock will be solemnized. The double ring service will be used and Rev. E. F. Holster will perform the ceremony. The bride will be gown in white crepe-de-chene and radium lace with veil and orange blossoms, and she will carry a bouquet of opelia roses. Mrs. Robert Hay of Woodstock, sister-in-law of the groom, will be matron of honor and she will be gown in green crepe-de-chene with hat to match and will carry a bouquet of pink carnations. Miss Jean Hay, cousin of the groom, will be bridesmaid and will be dressed in green crepe-de-chene with radium lace and will carry a bouquet of pink carnations. Miss Pauline Hay, another cousin of the groom, will render the solo "Oh! Promise Me." Her dress will be of grey crepe-de-chene and hat to match with strawberry trimming. The groom's mother will wear black tulle and the bride's mother will be clothed in black tulle. Miss Alice Ward and Miss Marion Baker will act as ushers, the former dressed in white voile with leghorn hat and Miss Baker in white organdie with hat to match.

The bride's travelling suit will be of navy polonette twill and hat to match and she will also wear an emerald neck choker, the gift of the groom.

The wedding march will be played by Mrs. C. S. Baker. The bride's home having been recently destroyed by fire there will be no reception and the young couple will start immediately after the ceremony on an auto trip to points of interest in New Brunswick and Nova Scotia to last evening sit later they will reside in Woodstock. Among the outside guests is J. P. Brand of Montreal who is the groom's employer. Mr. Brand is the Canadian manager of the L. N. Godfrey Lumber Co.

OBSERVER LOSE: A VALUED MEMBER OF STAFF

On May 31 Miss Mary MacMullin concluded her engagement with the Observer Newspapers, Limited, after four and one-half years of almost continuous service. During the past year she was the Company's secretary, and every department of the business so that she had a complete knowledge of all details of the office. Miss MacMullin's faithful devotion to her duties were recognized by the management and later upon her departure for Detroit, she was presented with a purse of gold and the following address:

Dear Friend and Fellow Worker: We have heard this morning that you have concluded for the present, at least, your engagement with the Observer Newspapers, Limited, and we desire to express our real regret that you are leaving us. You have been with the Company so long that you seem almost a part of the business itself and we are, every one, sorry to know that you will not be here to share our woes or to help us in our many difficulties.

Wherever you may go we hope you will meet only with the true type of friends you have here and that what the world has in store for you will be always pleasant. We wish you everything good that Heaven can bestow—always good luck, always a chance to smile and that Old Man Trouble will give you a very wide berth. May Lady Luck will always dwell very close to you. We are giving you this purse, not because we are glad to see you go, but because it contains a sample of what we consider your worth is properly comparable to.

PRESENTATION

On Wednesday evening last, a very delightful surprise party was held at the home of the Rev. C. N. Barten of Victoria in honor of his step-daughter, Miss Eva McAdam. Three autos full of young people from Hartland besides a number of people from Victoria helped to make the evening a joyful one. Games, singing of popular music and last of all, the eats! These were excellent, and made more so by generous dishes of ice-cream. As Miss McAdam is leaving this week for Keswick where she resides, her many friends of both sides of the river presented her with a French Navy mirror and comb. Miss McAdam expressed her appreciation for the gifts and before the party broke up, the guests voted Miss McAdam a hearty welcome for anytime she could come back.

IS INSPECTING ROADS

Florenceville, June 4.—D. W. Burpee, government road engineer, has been making an inspection of roads on the upper St. John Valley. While in Florenceville he arranged for local men to do patrol work on trunk roads. George Briggs of Centreville has been appointed to patrol the section from Florenceville to Boundary Line. George Caldwell will work on the section from Florenceville to Bath, while B. J. Bell will patrol from Florenceville to Hartland. James Hallett will do the section from Bath to Upper Kent. Everyone is anticipating a big improvement in the highways when these efficient men have started work.

Mrs. Connor Declares Stomach Trouble Was So Bad She Could Hardly Eat At All

"If I hadn't gotten Tanlac when I did I believe I would have had to go to a hospital," declared Mrs. Wm. Connor, 226 Hess St., Hamilton, Ont., recently.

"My stomach was so disordered that everything I ate made me deathly sick, and caused pains in the pit of my stomach that nearly drove me distracted. Often the agony was so great I couldn't help crying, and for two or three days at a time I wouldn't eat a morsel of food. I was as nervous as a witch, miserable for the want of sleep, and often wonder now how I lasted through it all."

"The splendid results my husband got from Tanlac about a year ago caused me to try it, and the treatment ended my suffering in a few weeks time, and gave me a new lease on health. I don't believe there's a healthier woman in Hamilton than I am now, and I can't praise Tanlac enough."

Tanlac is for sale by all good druggists. Accept no substitutes. Over 37 million bottles sold.

Tanlac Vegetable Pills are nature's own remedy for constipation. For sale everywhere.

ARTHUR W. RICHARDSON

Death Last Wednesday of Former Hartland Boy

Arthur Willoughby Richardson, only child of the late George W. Richardson and of Elizabeth Doak Richardson, died at his home in Fort Fairfield this Wednesday morning, May 30, after being in poor health for the past year. Mr. Richardson was born in Woodstock, N. B., August 4, 1880, and was therefore nearly 43 years of age. He had lived in Fort Fairfield most of the time since he was 13 years of age. For a short time he was in Arizona for his health and for a while afterwards in Hartland, N. B.

Some years ago the deceased was married to Miss Augusta Hatfield of Limestone, who now resides near Boston.

Mr. Richardson was assistant postmaster at Fort Fairfield from 1904 to 1911 and postmaster from that time to 1916, making over a faithful and obliging official.

During the past two or three years of his failing health, as in fact before that time, Mr. Richardson was attended by his ever faithful and affectionate mother.

The hour of the funeral has not yet been announced, but will probably be on Friday, when a service will be held in charge of Eastern Frontier Lodge of Masons, of which Mr. Richardson was long a member.

The body will be taken to Fatten for burial by the side of that of his father, who died a few years ago.

Very many friends are filled with deep regret over the fact that Mr. Richardson was stricken down so early in life, but nevertheless feel a sense of gratitude that his long sufferings are now over. His mother in particular has the sympathy of all in her profound bereavement.—Fort Fairfield Review.

This week there will be shown at the "Neighborhood Theatre" both nights a special film advertisement, Kaley's famous bread. While it is not part of the program which the public pays for, it will be very interesting. The bread is sold in Hartland by J. Burton Taylor.
Col. H. C. Sparling, District Staff Officer for New Brunswick, was in town last week in the interests of the militia. While here the colonel inspected the rifle range of the C. L. I. rifle club and was much pleased with conditions. He hoped to get an extra money grant through in order to increase the shooting facilities.
On Tuesday of last week the death occurred of Ora, the four months old infant son of Mr. and Mrs. Arnold Sawyer of Windsor. The little one was apparently in the best of health and was found dead in its crib from an unknown cause. The funeral of the tiny one was very largely attended as the sad happening called forth much sympathy for the young parents. The service was attended by Rev. H. V. Bragdon.

"Just Around the Corner"

The romance of the sidewalks of New York. And some of the places where they lead. Fashioned out of the thing called love—and what it did for a mother, a maid, a man. Written by the woman who wrote "Humoresque." Rising, like it, above the roar and clatter into the best that human hearts can know. It's a Paramount Picture

At the regular meeting of the Town Council held last evening, Ald. H. H. Hatfield, chairman of special committee appointed to look into the proposed hydro-electric transmission line from Bridgewater, presented his report to the Council. Mr. Hatfield took the matter up with C. O. Foss, Chief Engineer of the Hydro Commission, and the question was fully gone into. A publicity campaign was inaugurated and no less than fifty-two telegrams had been sent from Veniot urging him to proceed at once with the proposed line. A letter had been received from the Premier, informing the committee that the government would be in session at Fredericton on the 18th and 19th and the delegation from the different towns would have an opportunity of presenting their claims before the government on those days. Premier Veniot assured Mr. Hatfield that the claims of the citizens from the different towns would receive consideration. On motion of Ald. H. H. Nixon, seconded by Ald. McLeod, the council as a whole would go to Fredericton; and as many citizens as could possibly attend would be invited.

A TRAGEDY RECALLED
It is nine years last Monday since the sinking of the Empress of Ireland in the St. Lawrence River, that awful tragedy which sent a wave of horror over the world. It was overshadowed not many months later by other more horrible things. But one sometimes wonders, was it really the beginning of the Great War? Was it one of the first steps in Germany's plan to cripple the world? Our men could not be transported from all parts of the Empire. Well, we have the satisfaction of knowing that, whatever her feudish schemes, and we know they were many, she was beaten in the end.

Monday was celebrated as the King's birthday and as usual on holidays most people sought enjoyment out of town. A number spent the day at Jumper. One party consisted of Mr. and Mrs. S. S. Miller, the Misses Miller, Alex. Miller, Miss Emma Henderson and Miss Ewing. Miss Henderson will remain several days a guest of Mrs. J. K. Fleming. Another party consisted of Mr. and Mrs. A. W. Kyle, their four children, Miss Marion Stevens, Miss Harriet Harris and Fred H. Stevens, while others included A. Plummer, H. R. Nixon, Creighton Baker, Mr. and Mrs. H. N. Boyer, Mr. and Mrs. Benj. Boyce and Mrs. Franklin Clark.

DELEGATION WILL MEET GOVT
At the regular meeting of the Town Council held last evening, Ald. H. H. For Efficient Connections
Electrical connections should never be screwed down with the fingers as a tight joint cannot be made.
If the brakes are employed gradually when coasting to a stop, considerable wear on the tires will be saved.

CRIPPLED BY RHEUMATISM

Began to Improve After Taking "Fruit-a-lives"

The Medicine Made From Fruit

You can get rid of Rheumatism. You can be free of pain—of swollen hands and feet—of aching arms, legs and back.

"Fruit-a-lives" will drive the cause of Rheumatism out of the system and give you permanent relief.

"For over three years, I was confined to bed with Rheumatism. Finally I decided to try 'Fruit-a-lives'. Before using half a box, I noticed improvement. I continued taking 'Fruit-a-lives' improving all the time. I can now walk about two miles and do chores around the place."

The story is told of a colored minister, whose congregation paid him a very scanty stipend. One Sunday he spoke very eloquently on the blessings of giving, appealing to his people to be more generous. After his oratorical effort he said "The collection will now be taken, and please remember, brethren, that I can't preach on earth and be 'ad in hebbin'." The work of a newspaper is to promote the general good, to put before people the vital questions of the day. It aims to be an apostle of good, and it must have support. It can't preach on earth and be 'ad in heaven. Subscribe for the Observer!

Friends here of Vivian N. H. Carruthers, eldest son of Mr. and Mrs. J. C. Carruthers, will be pleased to learn that he has recently graduated from the University of Toronto, receiving the degree of Bachelor of Applied Science. He has accepted a position with the Canadian Pacific Railway Co. and will be stationed at Kenora, Ont. Mr. Carruthers is a returned soldier having enlisted with the 5th Siege Battery early in the war. At that time he was attending college at Sackville. He saw long service overseas, returning home after the Armistice. Shortly after he entered the University of Toronto. His brother, Wendell, also served overseas, enlisting with the 15th Battalion, and receiving a very serious wound at Paschendaele. He, too, has been a student at Toronto University for the past year, and is expected home soon.

Mrs. Helen Wood gave up her position in J. L. White's store on Saturday. She for some years, has been a most efficient and capable clerk and a favorite with the customers. She will be much missed. Mrs. Wood is to leave shortly for British Columbia where she will make her home. We understand that she is to play a prominent part in a very interesting event soon after her arrival in the west. She will carry with her the good wishes of a host of friends.

Ralph Kirkpatrick, Allen Estey and Walter Warnock, who are students at Mount Allison College, Sackville, and Herman McMillan, a student at the Academy, came home on Wednesday. Ralph Kirkpatrick, son of Dr. and Mrs. C. A. Kirkpatrick, has finished his first year in arts, and has also studied violin music, in which he has done excellent work. He expects to go back next year.

FORESTRY

Forestry officials are preparing for special emergencies which may arise from forest fires during the holiday period on and between May 24th and June 4th. This period of the year which has always been regarded as one of greatly increased fire hazard owing to the thousands of people who invade forest lands during these holidays, has been preceded this season by a dry period which has not in any way lessened the risk, in spite of the backward spring season.

Already over fifty Municipal Fire Wardens have been appointed, as Deputies by County Councils, while appointments are still being appointed. The Municipal Fire Warden is appointed equally in outlying districts remote from the direct supervising of the County Councillor representing the parish, and is vested with the same power in respect to fire control as held by the Councillor. These appointments are confirmed by the Department of Lands and Mines.

Some 230 co-operative fire wardens have also been appointed by 70 of the Licenses of Crown Lands who have joined the general scheme of preservation of the forests from fire. The school children of districts adjacent to forest lands have also undertaken the placing of notices calling the attention of tourists and sportsmen alike to the danger of carelessness toward fire.

Early endorsement of the new policy of registration for forest travel has been received by the Department of Lands and Mines since the issuance of this system. Thousands of certificates have been issued, while sporting dealers are also being granted authority to issue certificates to their patrons as a matter of convenience.

Sent Axes Cause Trouble

A bent front axle, no matter how slight, not only causes poor steering, but will soon prematurely wear the tread of both front tires.

Nerves So Bad That She Would Sit and Cry

Mrs. Mary Hocking, Madoc, Ont., writes—

"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my heart and nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends; they are a wonderful medicine."
