

OCT.

CHIGNECTO POST AND BORDERER

SACKVILLE N. B., OCT. 5, 1893. NEW MEN BUT THE OLD POLICY.

A writer of doggerel in the New York World advises his individual readers to "Be a Vanderbilt or Astor!" advice, the wisdom of which cannot be disputed, but whose application might be found difficult. Of equal clearness and applicability is the new Grit Policy. It invites the people of Canada to reform their tariff, to get reciprocity with the United States on terms which shall enrich Canada at the expense of the United States in a way to become Vanderbilts or Astors without showing in any way the manner in which this beneficial result is to be obtained.

Of course if Canadians are to become rich and prosperous Canadians must be in the position of poverty stricken and the constant endeavour of the Liberal party has therefore been to represent Canada as being reduced to such a deplorable state. On the other hand the new Conservative leaders believe that Canada is a fairly prosperous country and one which has accomplished more than any other of its population in the world and they believe most firmly in the future of the country. They contend that Canada in spite of depressing circumstances is one of the most prosperous countries in the world and in the present state of financial depression in the United States and uniform prosperity in Canada, this view needs no emphasis. But they are not satisfied with Canada for the reason that no true Canadian should be satisfied unless he can help his country to attain a higher position than she has yet attained. There is the true spirit of reform and they will leave no stone unturned to improve the condition of Canada, its population, its commerce, its tariff.

The Liberal Conservative party is ready, as it always has been ready, to promote the advancement of the country, the improvement of the tariff, but the tariff cannot be remodelled at an hour's notice except in the strong imaginations of Grit leaders without serious detriment to the country at large. The party have given tariff reform, and in fifteen years have thrown off the burdens of the people to the extent of \$10,000,000 in taxation. They have added to the free list articles of common consumption by the people, on which every man and woman had to pay duty under British administration, such as beer, poor, high or low. The government has also admitted free duty to an enormous extent free goods for the manufacturer in the shape of raw material for consumption after being manufactured by the people of the country. The policy of the tariff has not changed and will not change.

The Liberals have adopted a policy and naturally feel proud of it. Continental Free Trade, Commercial Union and Unrestricted Reciprocity the battle cries of the contest of 1891 are heard no more, they have gone to join various former policies in the dark shades of oblivion and to await other policies which shall follow them. In general they are of character equally profitable and feasible with schemes which originated in England at the time of the great South Sea Bubble and might be labelled as they are placed aside; a policy for increasing the population of Canada by sending 100,000 of her artisans to join the number of her people already in the United States; a policy for increasing the contentment of the masses by removing heavy customs duties from the rich and inflicting direct taxation on the former; a policy for increasing the prosperity of Canadian farmers and manufacturers by permitting manufactured goods, and farm products to enter the Canadian market, and a multitude of others. The policy of the United States as proclaimed by Mr. Blaine is that Canada cannot have the American market and enjoy the protection of the British flag. The nation which could not sue our fathers by arms offer us bribes and our sons are found degenerate enough to magnify the value of these bribes and to call the acceptance of them a step toward Freedom. The new men support the old policy. They will accept the trade and friendship of the United States but it shall be on their terms. They will reform the tariff but it shall be the voice of people calls for it, not at an hour's notice and without sufficient cause. And they will continue to honor the old flag and support the connection with Britain.

—Reports state that the lumber cut in New Brunswick this year will be much below average. On the St. John river the cut will be about one third of that of last year; on the Miramichi about one half, and on the Restigouche about three-fourths. In consequence both the demand for men and the wages paid will be proportionately lower than usual.

—The apple trade of Nova Scotia is booming. The demand is keen in the American market and large quantities are being shipped to Boston and New York. No shipments have been made as yet to England.

The storm — The storm which began on Thursday last has apparently not yet spent its force. Marshes are flooded; hay destroyed or damaged; some small bridges carried out; and mill dams broken or saved with great difficulty in this vicinity. Mr. J. L. Black's mill on Aboussagan was damaged to the extent of about \$400, it being found necessary to break away the flow to save the dam. At A. W. Ogden's mill, Sackville, a similar experience occurred, and at Sunday this mill men worked all day Sunday to save dam and lumber. There were several serious washouts on the I. C. R. & N. B. Railways and several ships are grounded on the North Shore and in bad position. The storm was general all along the Atlantic coast.

The Council and The Warden.

To the Editor of the Chignecto Post.

Sir,—A letter in your last issue throws the responsibility for all that has gone wrong in the management of municipal affairs since Westmorland was incorporated on the present Warden. This is not fair. I admit that the business of the County has been sadly mismanaged, the councillors for long let undone what they should have done and very often did what they ought not. In the Queen against Stevens case the Warden is in no way responsible for the immense bills, and is not in a position to refuse paying them unless he intends to bring on another law suit almost as ruinous to the Gallagher one. For this matter Mr. Fawcett who does not lack ability, and being I hope free from all political bias should have laid the blame on the right door. The Warden could not prevent the payment of those bills, and in his desire to do so has perhaps already gone too far. The responsibility for the Gallagher suit rests on all the councillors who voted for the dismissal of that person from the office of valuator, and the political enemies of the councillor who instead of taking the advice of lawyers they were willing to pay, took the gratuitous advice of two because they represented opposite political parties. One of those lawyers if the judgement of our Supreme Court was right which I very much doubt gave erroneous advice and the other because his advice was not taken went over to the enemy. If the Council was wrong in dismissing Gallagher the wrong must be attributed to the higher clamor of his victims, and afterwards influenced by party proclivities taking the advice of two lawyers without taking pains to ascertain from the Warden what was the case against the County by refusing to hear them until after they were paid. The Warden's responsibility consisted either in not settling the case when the damages demanded were small or in settling it after the judgement of our Supreme Court without an appeal to the higher tribunal. I pause to say that the Gallagher case was settled without the consent of the Council first being obtained, and the money was drawn out of the Treasury without the shadow of a right in law.

This now goal should form no ground for complaint against the Warden and Councillors. The Judges of the Supreme Court after a careful inspection had declared themselves in favour of the accommodation of the County for the reasons stated in the Executive had threatened to compel the County to erect a new one. The stir at "Dorchester Corner" in 1891, for Mr. Fawcett should not seek popularity by trying to injure one part of the County. The way in which the goal was built is another matter, and I am sorry to say that the contractor was not to blame. To remove the defects will cost some money especially if it is left to the men who had charge of the work of levelling the square and erecting the building. It is the rear of the goal, contracts by which the County was defrauded of no less than \$250. In publishing the bills in the Standard the Warden acted rightly as they have shown the electors how completely they are at the mercy of a power they cannot control when they are made liable for such bills. The time will come I hope not far off when the counties of New Brunswick will be freed from the danger of having the treasury raided in a similar manner to the one in which this County was raided. While the system of drawing money out of the treasury by check is in vogue, the Warden in blank and countersigned by the Secretary and Treasurer is wrong and dangerous, Warden Ogden to a certain extent is not responsible as the system was introduced at the initiation of the Municipal Council and by a man who is supposed to have large business capacity.

A few words about the management of the business of the County by its Municipal Council. I am glad that Mr. Fawcett has written as he has. It is time for our young men who must soon take our places to inquire about our municipal, local and Dominion affairs. They have been educated in our schools, academies and colleges and they should use the education they have received and the ability the Good Lord has given them to improve society, and that may in part be done by pointing themselves about the business of the Counties, Province and Dominion. They will be able to do this better when they enter on the active stage of life to find out the origin of that wrong and to provide remedies. Some noble minds inspired only by doing so they chain themselves to the chariot wheels of some clique or party and become mere outside adjuncts to some political machine inspired only by the hope that they will be placed above the cares and anxieties of life by being placed in some office there to become a money grubbing professional class.

On the eve of a municipal election I shall not say more. I hope the ratepayers will return men to the Municipal Council who will seek for remedies that will place the funds of the people contributed for poor rates, county rates and the maintenance of law and order. I will not say for all public institutions to which taxpayers have to contribute, under the control of the men intrusted, or rather who should be intrusted, with the management of such business.

Yours truly,
CHAS. E. KNAPP.
Dorchester, Sept. 29th, A. D. 1893.

To the Editor of the Post.
DEAR SIR,—Mr. William B. Fawcett's letter in last issue of the Post calls for few remarks from me, as I do not say anything about the malicious persi- pendency with which Mr. Fawcett seems disposed, without cause, to abuse me. This is a matter for himself and not for the public.

Respecting the new goal. When the matter came before the Council in the first instance, I voted against the proposition to erect a new goal, not because I considered a new goal unnecessary; the old one was a disgrace; but I opposed the proposal on the ground that the indebtedness of the County in connection with the County house had not been paid. When notice was given to the Council by the Attorney General that a new goal would be built at the County's expense if the Council did not do so, I voted to erect one. The indebtedness incurred by the County was \$12,000 which was paid by issuing bonds at four per cent which sold at a premium of some three quarters, and others at one eighth. Any man who will fault with the erection of a jail under these circumstances is trying very hard to see something in find fault with.

The Council and The Warden.

To the Editor of the Chignecto Post.

Sir,—A letter in your last issue throws the responsibility for all that has gone wrong in the management of municipal affairs since Westmorland was incorporated on the present Warden. This is not fair. I admit that the business of the County has been sadly mismanaged, the councillors for long let undone what they should have done and very often did what they ought not. In the Queen against Stevens case the Warden is in no way responsible for the immense bills, and is not in a position to refuse paying them unless he intends to bring on another law suit almost as ruinous to the Gallagher one. For this matter Mr. Fawcett who does not lack ability, and being I hope free from all political bias should have laid the blame on the right door. The Warden could not prevent the payment of those bills, and in his desire to do so has perhaps already gone too far. The responsibility for the Gallagher suit rests on all the councillors who voted for the dismissal of that person from the office of valuator, and the political enemies of the councillor who instead of taking the advice of lawyers they were willing to pay, took the gratuitous advice of two because they represented opposite political parties. One of those lawyers if the judgement of our Supreme Court was right which I very much doubt gave erroneous advice and the other because his advice was not taken went over to the enemy. If the Council was wrong in dismissing Gallagher the wrong must be attributed to the higher clamor of his victims, and afterwards influenced by party proclivities taking the advice of two lawyers without taking pains to ascertain from the Warden what was the case against the County by refusing to hear them until after they were paid. The Warden's responsibility consisted either in not settling the case when the damages demanded were small or in settling it after the judgement of our Supreme Court without an appeal to the higher tribunal. I pause to say that the Gallagher case was settled without the consent of the Council first being obtained, and the money was drawn out of the Treasury without the shadow of a right in law.

This now goal should form no ground for complaint against the Warden and Councillors. The Judges of the Supreme Court after a careful inspection had declared themselves in favour of the accommodation of the County for the reasons stated in the Executive had threatened to compel the County to erect a new one. The stir at "Dorchester Corner" in 1891, for Mr. Fawcett should not seek popularity by trying to injure one part of the County. The way in which the goal was built is another matter, and I am sorry to say that the contractor was not to blame. To remove the defects will cost some money especially if it is left to the men who had charge of the work of levelling the square and erecting the building. It is the rear of the goal, contracts by which the County was defrauded of no less than \$250. In publishing the bills in the Standard the Warden acted rightly as they have shown the electors how completely they are at the mercy of a power they cannot control when they are made liable for such bills. The time will come I hope not far off when the counties of New Brunswick will be freed from the danger of having the treasury raided in a similar manner to the one in which this County was raided. While the system of drawing money out of the treasury by check is in vogue, the Warden in blank and countersigned by the Secretary and Treasurer is wrong and dangerous, Warden Ogden to a certain extent is not responsible as the system was introduced at the initiation of the Municipal Council and by a man who is supposed to have large business capacity.

A few words about the management of the business of the County by its Municipal Council. I am glad that Mr. Fawcett has written as he has. It is time for our young men who must soon take our places to inquire about our municipal, local and Dominion affairs. They have been educated in our schools, academies and colleges and they should use the education they have received and the ability the Good Lord has given them to improve society, and that may in part be done by pointing themselves about the business of the Counties, Province and Dominion. They will be able to do this better when they enter on the active stage of life to find out the origin of that wrong and to provide remedies. Some noble minds inspired only by doing so they chain themselves to the chariot wheels of some clique or party and become mere outside adjuncts to some political machine inspired only by the hope that they will be placed above the cares and anxieties of life by being placed in some office there to become a money grubbing professional class.

On the eve of a municipal election I shall not say more. I hope the ratepayers will return men to the Municipal Council who will seek for remedies that will place the funds of the people contributed for poor rates, county rates and the maintenance of law and order. I will not say for all public institutions to which taxpayers have to contribute, under the control of the men intrusted, or rather who should be intrusted, with the management of such business.

Yours truly,
CHAS. E. KNAPP.
Dorchester, Sept. 29th, A. D. 1893.

To the Editor of the Post.
DEAR SIR,—Mr. William B. Fawcett's letter in last issue of the Post calls for few remarks from me, as I do not say anything about the malicious persi- pendency with which Mr. Fawcett seems disposed, without cause, to abuse me. This is a matter for himself and not for the public.

Respecting the new goal. When the matter came before the Council in the first instance, I voted against the proposition to erect a new goal, not because I considered a new goal unnecessary; the old one was a disgrace; but I opposed the proposal on the ground that the indebtedness of the County in connection with the County house had not been paid. When notice was given to the Council by the Attorney General that a new goal would be built at the County's expense if the Council did not do so, I voted to erect one. The indebtedness incurred by the County was \$12,000 which was paid by issuing bonds at four per cent which sold at a premium of some three quarters, and others at one eighth. Any man who will fault with the erection of a jail under these circumstances is trying very hard to see something in find fault with.

The Council and The Warden.

To the Editor of the Chignecto Post.

Sir,—A letter in your last issue throws the responsibility for all that has gone wrong in the management of municipal affairs since Westmorland was incorporated on the present Warden. This is not fair. I admit that the business of the County has been sadly mismanaged, the councillors for long let undone what they should have done and very often did what they ought not. In the Queen against Stevens case the Warden is in no way responsible for the immense bills, and is not in a position to refuse paying them unless he intends to bring on another law suit almost as ruinous to the Gallagher one. For this matter Mr. Fawcett who does not lack ability, and being I hope free from all political bias should have laid the blame on the right door. The Warden could not prevent the payment of those bills, and in his desire to do so has perhaps already gone too far. The responsibility for the Gallagher suit rests on all the councillors who voted for the dismissal of that person from the office of valuator, and the political enemies of the councillor who instead of taking the advice of lawyers they were willing to pay, took the gratuitous advice of two because they represented opposite political parties. One of those lawyers if the judgement of our Supreme Court was right which I very much doubt gave erroneous advice and the other because his advice was not taken went over to the enemy. If the Council was wrong in dismissing Gallagher the wrong must be attributed to the higher clamor of his victims, and afterwards influenced by party proclivities taking the advice of two lawyers without taking pains to ascertain from the Warden what was the case against the County by refusing to hear them until after they were paid. The Warden's responsibility consisted either in not settling the case when the damages demanded were small or in settling it after the judgement of our Supreme Court without an appeal to the higher tribunal. I pause to say that the Gallagher case was settled without the consent of the Council first being obtained, and the money was drawn out of the Treasury without the shadow of a right in law.

This now goal should form no ground for complaint against the Warden and Councillors. The Judges of the Supreme Court after a careful inspection had declared themselves in favour of the accommodation of the County for the reasons stated in the Executive had threatened to compel the County to erect a new one. The stir at "Dorchester Corner" in 1891, for Mr. Fawcett should not seek popularity by trying to injure one part of the County. The way in which the goal was built is another matter, and I am sorry to say that the contractor was not to blame. To remove the defects will cost some money especially if it is left to the men who had charge of the work of levelling the square and erecting the building. It is the rear of the goal, contracts by which the County was defrauded of no less than \$250. In publishing the bills in the Standard the Warden acted rightly as they have shown the electors how completely they are at the mercy of a power they cannot control when they are made liable for such bills. The time will come I hope not far off when the counties of New Brunswick will be freed from the danger of having the treasury raided in a similar manner to the one in which this County was raided. While the system of drawing money out of the treasury by check is in vogue, the Warden in blank and countersigned by the Secretary and Treasurer is wrong and dangerous, Warden Ogden to a certain extent is not responsible as the system was introduced at the initiation of the Municipal Council and by a man who is supposed to have large business capacity.

CEDAR POSTS.—A cart of cedar posts for bridge repairs consigned to J. A. Killam, arrived at Sackville from Penticton Tuesday morning.

A MEETING.—is to be held in Westcock schoolhouse on Tuesday evening 10 inst for the purpose of considering repairs to the Westcock burial ground. See ad in another column.

MR. ALLISON.—The regular class work is now in full progress and the prospects for a good years work excellent.

The senior class consists of twelve boarders, two who live in the village and three lady students.

Great things are expected of the Argosy this year under its new Editor-in-chief, Mr. H. A. Woodworth, a writer whose reputation is not limited to college circles.

Wet weather has interfered lately with football practice but there is every indication of an excellent team.

New regulations at the Ladies' College permit students to accept one invitation only in three weeks and to visit their homes only once in six weeks.

For the first time in the history of the Academy and College ten tables are occupied in the dining hall the first term.

The first reception and welcome to the new students was held Saturday evening under the auspices of the Y. W. C. A. and Y. M. C. A.

The guests were addressed by the presidents of the societies, Miss Bessie Alcorn and Mr. W. M. Ryan and by Prof. Andrews.

Herbert Listed.—Sunday morning the Herbert lying at Sackville landing took a list from the wharf and righting with the next tide listed again as it ebbed.

Harvest Festival.—Sunday evening saw S. Paul's well filled though the weather was very disagreeable.

STRYERS.—At Moncton, Sept. 26 of an ailment of the heart, Susan Stryers aged 40 years. THE SHOOTER SHOT.—Tuesday afternoon an Indian hunter went up to Oulton's Road on the P. E. Island train to shoot partridge. Having secured a brace he started to reload but the cartridge proved too large for the barrel and refused to go in. Gentle measures failing the Indian attempted to drive the cartridge in with his jack-knife and parts of the cartridge back in his face. He was blinded and his face was considerably cut but managed to make his way back to the railroad track where he was taken on the down train to Port Elgin and placed in the hands of Dr. Carter. It is thought that his eyesight can be saved, but his face is frightfully burned and disfigured.

Abmazzed Mehem-d, the sirdar of the auxiliary troops of Tunis, was blinch-eyed as he sat on his horse.

VIGOR OF MEN.

Weakness, Nervousness, Debility, and all the evil results of early excess, or later excess, of the sexual system.

OLD DR. GORDON'S REMEDY FOR MEN.

127 lbs. BEGINNING. 154 lbs. FIRST MONTH. 164 lbs. SECOND MONTH. 155 lbs. THIRD MONTH.

ABSOLUTELY.

Cures Liver, Biliousness, Constipation, Headache, Salt Rheum, Scrofula, Heart Burn, Sour Stomach, Dizziness, Dropsy, Rheumatism, Skin Diseases.

But that devilish drink began to murmur softly.

'Why don't you sit down! You could see just as well.' As soon as he was seated Satan again began to tempt him.

THE SENTENCE.

Abmazzed Mehem-d, the sirdar of the auxiliary troops of Tunis, was blinch-eyed as he sat on his horse.
