# MISS MAUDALLAN'S

Originated "Salome," Says Her Art Is Spontaneous.

London, March 21.—To a crowded meeting of the O. P. Club, held at the Criterion Restaurant, Miss Maud Allan, the famous Canadian dancer who originated the modern Salome dance, discoursed on the Attainable Ideal in Dancing. She has a pleasant voice-soft and low-"an excellent thing in woman," though not so excellent in a lecturer.

Whilst seeking advice how best to discharge the task she had undertaken she said, she was told to explain her own attitude towards the subject. "I not the faintest idea why I dance as I do. I have only one axiom to propound, one text upon which to preach my sermon. It is this: Dancing is the spontaneous expression of the spiritual state. It has been so since the beginning of time, and will continue so until time is no more.

"Of course, by dancing I mean natural dancing, not the torturing and tortured contortions of schools, not the movements evoked by, and which seek to give expression to the imperious commands of one's own nature, "What is the corollary The young woman this: If the emotions are impure, the

### what is healthful and beautiful. The Religious Ideal.

"In the dawn of art, dancing was purely religious in character. Everything points today to the fact-I am reverently proud to find myself in a position to say it—that we are returning to the religious ideal, to the ideal of the Greeks. Let us foster the ambition; let us once more cultivate the beauty of movement, and dedicate the results to the service of beauty and of ruth, which are one."

So, with the claim that really beautiful dancing is the highest expression Lawrence. of civilization, Miss Allan brought her address to an end,

### SICILIANS AROUSED

At Failure of Police to Run Down the Slayers of Petrosino.

Palermo, March 21 .- The people of Sicily are becoming aroused at what they characterize as the inefficiency of the police in its efforts to run down and arrest the persons who are responsible for the assassination of Joseph Petrosino, head of the Italian branch of New York detective service. The Giornale di Sicilia today publishes strongly worded article attacking the authorities on this score, and inviting the people of Sicily to a great demonstration of protest, and the population is preparing for a huge manifestation against the criminal so cietles.

In the meantime there is much activity at police headquarters here, looking to the apprehension of the murderers of Petrosino. The opinion prevails that there is some connection between the Black Hand of New York and the Sicilian Mafia.

Arrests are being made every day, and Signor Cecla, chief of the local police, is busily engaged with his subordinates carrying out new plans to capture the murderers. It is reported that Premier Giolitti has ordered the prefect of Palermo to go to Rome for the purpose of a personal conference.

# TRICKED SULTAN INTO PAYING UP

Ambassador Griscom's Diplomatic Ruse Is Recalled by Admiral Chester.

Rome, March 1( .- Admiral Colby Mitchell Chester, after having spent some time in Egypt, is in Rome enjoying the city and seeing his many friends, among them Ambassador Their friendship dates from the times when Mr. Griscom was charge d'affaires at Constantin-

ople in 1899. At that time the admiral was a captain and the commander of the battleship Kentucky, then on her way to the far east, and he has just recalled an incident which showed the diplomatic ability of Mr. Griscom and his readiness to seize the opportune moment.

For years he had vainly claiming the payment of certain indemnities which Turkey, with her traditional diplomacy of postponement, had evaded, and thus all efforts on peaceful lines made by several ministers of the United States had been frustrated. Mr. Griscom thought an apparent

resort to force might win the trick The Kentucky was going to Turkish waters, but could absolutely spare only five days there, which particular was unknown to the Ottoman Government. Mr. Griscom renewed his claims on the Porte, mak ing it understood that on this occasion, if the demands of the United States were not satisfied, other measures would be adopted.

Turkish Government Frightened.

Contemporaneously, he telegraphed (not in cipher) to Captain Chester to keep ready at Smyrna, but not to undertake any action until he received further instructions. This, of course, was known, as it was intended to be, to the Ottoman authorities, and Kiamil Pasha, then governor of Smyrna, implored the central government to give in, as the town was panic-stricken at the idea of being bombarded by the Kentucky. Indeed, some of the inhabitants had already taken to the hills. The indemnities were immediately paid, pear to have paid under coercion, gave a dinner for the occasion, at a high decoration to the captain, Village, May 27, 2 p.m. but, having represented to him the difficulties of an American official accepting such an honor, conferred

> Evansville, Ind., March 21. - Five, men were killed and a score injured in an explosion at the Sunnyside coal mines near the city yesterday after-

The explosion was caused by windy shot due to an overcharge of powder said to have been placed by John Petit. Petit is burned over his entire body and will die. The dead were all killed by sulphuric fumes which followed the shot. The mine was swept as if by a whirlwind. Twenty-seven men were in the west shaft of the mine when the explosion occurred. Within an hour after the explosion the mine was cleared, although the first rescuers were almost suffocated on going down in the mine. The dead, injured and suffering miners were found thrown over all portions of the west shaft. Many covered sufficiently to crawl to the shaft unaided. The men in the north shaft, who were not seriously affected by the explosion, were the most active

in the work of rescue. As news of the disaster spread & large crowd gathered, in which were scores of persons who had relatives

### THE ANNUITIES ACT.

The Government at Ottawa might well be gratified by the success which has already attended the annuities scheme adopted at the last ses-

sion of Parliament.

The superintendent of annuities is daily in receipt of hundreds of letters of inquiry. He has received not less than \$25,000 and expects that money better understood by those whom it is intended to benefit. Lecturers on the scheme report great public interest It is too soon vet, of course, to say how far or to what extent the act will be taken advantage of, but Sir that as it becomes better known ly to the public in general. ernments to adopt similar legislation. Of course, in such experimental leg-Valation defects will manifest themselves, but when these are discovered the Government will endeavor to find remedies. Even now there are before Parliament a few amendments to the act. As it stands it limits the total amount which can be paid to a husband or wife or any other parties to a matter of \$600. The Government now proposes to allow preferred annuities to be purchased at a very early age. Take the case of a man who chooses to purchase an annuity for a child of 10 or 15 years of age, but such annuity not to be payable until the age of 55, and suppose this child marries a person who has in the ordinary course contracted for or purchased an The problem is to diminish that conges-

He has been having it all his own way, with Elberfeld at home and Joe Ward lugging a lame wing around with him.

Clyde Engle, a big, swiftly-moving fellow, has also caused Stallings to express himself in confident tones. Engle is a star all-round player. He can cover any infield position, as well as the outfield infield position, as well as the outfield, and is supposed to be a heavy hitter. Stallings has been using him in left field on the "regular" team, also to lead off in the batting order, and the results have been most encouraging.

In Marquard, McGraw appears to have another Waddell. Marquard is tall enough another Waddell. Marquard is tall enough and has the sweep of arm to give the speed with which Waddell once mowed down all batters, and furthermore he is young and should improve and get stronger each year for two or three seasons, anyway. Marquard's long suit in the American Association was control. A majority of the left-handers are shy in this important detail of successful pitching. It remains to be seen whether ing. It remains to be seen whether National League coaching can rattle the big fellow. He gave only two bases on balls in a recent game, but apart from this, his control may have been due to the fact that he used no curved balls against the opposing team. He simply ripped them over the plate so fast that the opposing batsmen were swinging af ter Robinson had smothered the ball it his big mitt. Best Remedy in the Market For Colds, Croup and Whooping Cough---It Always Cures And Is Pleasant and Safe to Take.

"I never had a medicine in my store that gave such universal satisfaction as Chamberlain's Cough Remedy," says Mr. P. M. Shore, of Rochester, Ind. "It is the best remedy to-day on the market for coughs, olds and whooping cough. One of my lady ustomers told me recently that she could ot keep house without it, that since they have been using it they have had no need of a doctor." In case of a severe attack of croup a physician will usually call twice, and perhaps half a dozen times in a severe and long protracted case of whooping cough, while in pneumonia it is often necessary that he calls once or twice a day for a week or two. All of this trouble and expense may be saved by the judicious use of Chamberlain's above illustration and send size of pat-Cough Remedy, for it is a certain cure for tern wanted. ### England and Russia Said To Be in Conference Over Division of Territory.

London, March 21.-Ever since King Edward told Parliament, in his address of a suit for divorce in this country at the opening of the spring session, that in spite of the fact of England's unwillingness to intervene in Persian affairs, England and Russia were "exchanging views," the lobbies of the tion concerning the time Russia may be expected to make a "grab" at the Shah's country.

### JUDGE JOINS DIVORCE CRUSADE

# Present System in England.

London, March 21.-It was the sarcasm of a great English judge which led in 1857 to the passing of the present English divorce law, and it is today the serious advocacy of another great judge which promises to lead to a further far-reaching reform in that law.

Sir Gorell Barnes, who is just retirng from the post of president of the divorce court, after a quarter of a century's service, has placed himself at the head of the movement for a reform of the law which he has had PERSIAN STATES so much experience in administering, and his denunciation of it, of course, has added great weight to the growing demand for a change.

Divorce in England today is a luxury reserved for the rich and moderately well-to-do. The poor man or wo-man who finds that the bonds of matrimony are too heavy to bear cannot be relieved of them. All the relief that is open to persons of this class is a police court separation, which does not carry with it the right for either party to marry again. It is estimated that the bare costs

are \$450, unless the suitor receives permission to sue "as a pauper," in which case the fees will amount to about \$150. It is very difficult, however, to secure permission to sue "in forma two Houses have buzzed with specula- pauperis," and the proceeding is almost unknown in the divorce court. The estimate of \$450 is for residents of London. If the suitor resides in the country the expense will be much greater, for divorce suits are only tried in London, and the suitor must travel to London and bring all his witnesses there. Thus the average cost of di-

### SOUL MATES' NEW CULT

### A Club of Both Sexes Is Studying a Science of Symmetry.

Boston, Mass., March 21 .- A society having for its aim the cultivation of the human figure until it becomes ab solutely symmetrical, has been formed in Auburndale and has already extended its influence into the neighboring suburbs, the Newtons, Winthrop, Revere, Brookline, Lincoln and Dorchester.

The club is formed on the plan of having an equal number of men and women on the rolls, and so popular has the new science of symmetry become that no less than 200 of both sexes attended a recent gathering in Norumbega Hall. The creed of the cult is embodied in a book which has already been written and is ready for the printer. Its title is "The Human Limit," and it deals with affinity extensively, and especially the power to recognize affinities, so that soul mates may know each other at a glance with a view of perfect and happy marriages.

The founder and teacher of the new idea is Edward Chase Merrill, formerly instructor in the Boston School ily is often in itself ample proof of of Practical Psychology. JOHNNY KLING, The Great Catcher, Who, It Is An-

nounced, will Quit Baseball. The Scarlet Runner has had a great year, and with care he should be a real star next year. He has the size and the weight, and should make good. There are one or two other juniors who should get in the higher class next year.

Somebody has told Tom Longboat that his contract with Pat Powers is only for his contract with Pat Powers is only for one race, but when he comes to think it over—if he can—he will discover that the discoverer of six-day grinds, and other money-making endurance things has him sewed up good and fast for one year. Pat has given the Indian quite a good show, but the Aborigine has not enough sense to give him a headache, and consequently does not appreciate what has been done for him.

James J. Jeffries still continues to hog raluable space to give utterance to cer-tain well-chosen phrases that might or might not mean that he is to fight J. Johnson, colored person, for the heavy-weight swat championship. Jas. J., and Gentleman Jim, the Demon Actor, are both telling the gaping inhabitants of the States that it is the crowning shame of the white races that the championis held by an ex-whitewasher, and

Toronto ladies may go in for lawn bowling this summer. So far nothing has been done in London although such a thing has been mooted more than once.

As a general rule when a man attains a position of prominence and has man-aged to surround himself with this world's merchandise, he is received into the most exclusive circles and asked to take out membership in a golf club. But not so, however, with J. Johnson, who, since having climbed the peak, has received many a rude jolt and rebuff.

Indeed, we remember when this colored Indeed, we remember when this colored gent went through Buffalo two years ago with his che-ild bride he was thrice welcomed and hailed as the fanciest personage down the proverblal pike. Talk about your June day weddings and garlands of girls, this man Joinson had any such cathedral affair beaten several city blocks. blocks.

"Them was the days," when the swellest taverns of Buffalo, N.Y., fought for the patronage of his highness the ex-kalsominer, but, alas, what a wondrous change has been wrought since then. Johnson has the mazuma, but hostelries that were once his stamping ground have put the chalk mark upon his back, and many a time since then this colored gentleman has found extreme difficulty in selecting a spot to lay his woolly head.—

Last Five Innings of Game Was a Beautifu! Baseball Battle.

San Antonio, Texas, March 20 .- The Tigers defeated Washington today in the first meeting between two American League clubs this season by a score of 3 to 2, in 11 innings, by a finish of the kind which made them

twice champions. Cantillon and Jennings both used their regular line-ups with the exception of Delehanty and Schaefer, both second basemen, the former a hold-out and the latter out on account of illness, Walter Johnson was ill last night, but this morning he volunteered to go the entire route for the Nationals, and Cantillon sent him in. Jennings used Suggs to open the game and he continued for six innings, and

then Works was selected to finish the The last five innings of the game was a beautiful battle between minors, Works and Johnson, each 20 years old. Works had the advantage in support, as Milan was injured while sliding into third in the fourth innings and replaced by Blankenship. The catcher, and two bad judgments Blankenship, gave the Tigers their needed opportunity to win. It was the Tiger team of old that nosed in a winner. In team work

Heavy Demand in Montreal Is Cause of the Jump in

HAY PRICES WEAKENING

Local Horseman Says There Is a Good Demand for Horses Now.

Owing to the heavy demand at the Montreal markets and the apparent scarcity in this section, live hogs jumped to \$7 per cwt. on the local market this morning. The present standing of the English markets does not warrant the high prices, however, and a drop is expected within a few days. Although there has been no definite information received by local buyers, it is thought that \$6 75 will be next week's price.

Hay Weakening. About forty loads of hay were on the stand, and quotations showed a endency to weakening. First-class hay sold at 11 o'clock at \$10, and while more inferior stuff brought \$8 75 The demand was somewhat slower than was expected. A number of loads of oats and one

Weather and Millinery Finery Brought Many People

Chatham, March 21.-(Special)-Mrs John Cooper sang a beautiful solo at the morning service at Christ Church. The work of renovating the organ will be commenced very shortly now. Business in the city was very brisk or Saturday and a great many people came into town on the late cars and trains. Doubtless the millinery openings had something to do with the feminine part of the influx. Mrs. Gordon Wright addressed a large

meeting on temperance in the Brisco Opera House this afternoon. The ladies of the city will meet to-morrow afternoon in the First Presbymorrow afternoon in the First Presby-terian lecture room to discuss plans for the reorganization of the Chatham Branch of the W. C. T. U. Monday evening in Christ Church school room, the Rev. Mr. Spence of Holy Trinity, will give a lecture entitled "The Flower of Empire." The address will be fillustrated by lantern slides.

SUNDAY IN CHURCHES

Rev. Mr. Malott on the Saloon Canon Dann on Labor

"John G. Willard made the statement me time ago," said Rev. F. E. Malott. at the Colborne Street Methodist Church last night, "that the saloon would enter the twentieth century in triumph, dragging the church, chained to its chariot wheels. The saloon has entered the twentieth century, and it is the greatest blot on the civilization of the century, and the greatest clog ♦⊙♦♦⊙♦⊙♦⊙♦⊙♦⊙♦⊙♦⊙♦⊙♦⊙♦⊙ saloon, however, has not entered the century in triumph, for everywhere there has been a growth of sentiment that has in many places revolutionized the drinking customs, and reduced the icenses. In Ontario in 1895 there were 6,000 licenses, now there are about 2,000, and the same is true in many other to the fact that the saloon is its worst enemy, which is composed of total abstainers, and whose voting members are alive to their duties, cannot be said truthfully to have been triumphed over

> In the course of his special Lenten sermon at St. Paul's Cathedral yesterday morning on "The Consecration of Labor," Canon Dann discussed conditions as at present existing between the employer and the employee, and as a solution of the trouble urged both sides to introduce Christian principles into their methods. If this were done, and all labor were consecrated to God, greed and selfishness and other baneful features of modern conditions would be eliminated.
